

# THE STATE LINE TRIBUNE

"OFFICIAL PUBLICATION OF PARMER COUNTY"

NUMBER 46

SIXTY-FOURTH YEAR

15 CENTS

Sunday marks the first of two events in August, our milestone month. An open house will be held Sunday afternoon for the public to inspect the remodeled and refurbished Farwell Medical Clinic.

Also, area residents will have the opportunity to meet our new dentist, Dr. Lee Clayton, and his wife Barbie, Dr. Clayton is setting up his dental practice here and comes to us from San Antonio. We feel sure he will like the Twin Cities and the High Plains.

Dr. Jerry Don Gregory will also be on hand to renew acquaintances with many of his friends. Dr. Gregory is returning to Farwell after a brief sojourn in Muleshoe. His many friends and patients are very happy that he chose to return to our community.

If you haven't been in the Clinic building during the remodeling period, we know you will be amazed at the many changes that have taken place. It is indeed a showcase for our community.

This wonderful transformation has been made possible because of the generosity and public spirit of some member of our town. The donor chose to remain anonymous but the entire community owes this person a vote of thanks. In all probability, without this gift our clinic would not be staffed today and in a position to render the services so necessary to any town. A community will reflect the pride of its citizens. This is one outstanding tribute to one person's pride in their home town.

Aren't you glad you live in the Twin Cities?  
.....

Also this weekend we are host to the 10th annual AJRA Rodeo. This year's entertaining event is almost entirely due to the efforts and dedication of the energetic young Jaycee group. A great deal of time and effort has gone into the production of this annual rodeo and we urge you to attend one of the performances. It will mean a great deal to the Jaycees and it will also be a vote of confidence by the community in them and the rodeo.

Let's all enjoy ourselves in the Twin Cities this weekend.  
.....

We have heard a few lively pros and cons about our remarks against an overpass/underpass on the state line. We have not changed our minds but have come mighty close, especially last Monday afternoon. The Santa Fe-state line snafu cost us almost 30 minutes then. Our collar was almost as hot as the pavement at that time.

We don't run trains. We don't know how to run trains, so we expect that our remarks will be refuted by those who profess to run trains.

Our observation is that a lot of the dangerous confusion might be alleviated if the switch crews were more alert to the needs of the highway traffic. This means not allowing either cars or engines to sit still in a location which keeps the crossing arms down.

It seems that a matter of a few feet one way or the other might allow the crossarms to raise often enough to let traffic flow before they again descend and block the streets.

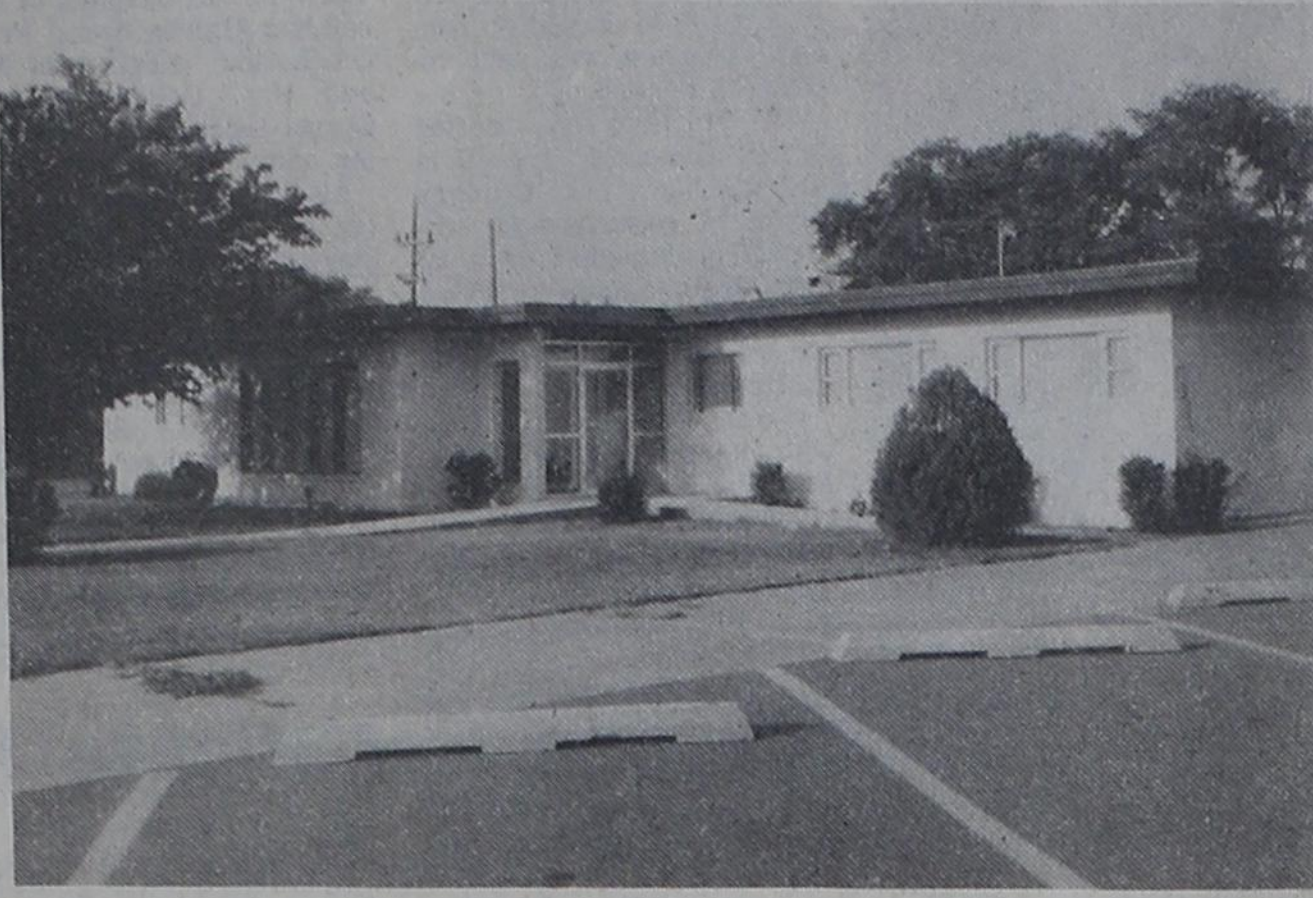

The problem is not while the through trains are going by, but is most acute when there is extensive switching and there are no trains or cars on the crossing, and yet the arms are preventing the ready flow of traffic.

Somehow an accommodation must be found between the demands of the highway traffic and the efficient switching operations of the Santa Fe railroad. We believe that it is not an impossible problem, only a difficult one.

## Tennis Tournney Set In Farwell

The second annual Farwell Jaycees Tennis Tournament is scheduled for Thursday, Friday and Saturday, August 5, 6 and 7, at the high school tennis courts.

Entrants may choose from a variety of categories including men's singles and doubles, women's singles and doubles

## Open House

The Farwell Hospital District will host an open house at the Farwell Medical Clinic from 2 to 5 p.m. Sunday. The public will have the opportunity to view the newly remodeled and refurbished facilities and to meet the new doctors and their wives, Dr. and Mrs. Lee Clayton and Dr. and Mrs. Jerry Don Gregory.

## 10th Annual - -

# AJRA Rodeo On Stage

The 10th Annual American Junior Rodeo Association and Open Junior Rodeo was to get underway with its first performance at the Farwell Arena. Other performances are slated to begin at 8 p.m. tonight (Friday) and Saturday.

Admission at the gate is \$2 for adults and \$1.50 for students. Pre-schoolers are being admitted free of charge.

Herb Williams is the rodeo announcer, as he had been in many years past. Ken Angely is the flagman. Jerral James and Rex Black are bucking judges and Donald Christian and Mike Norris are barrier judges.

Duane King of Seminole, the rodeo stock contractor, is providing the pick-up men. Mack Heald is serving as one of the timers.

Rodeo competition is divided into six categories including age 12 and under girls, 12 and under boys, 13-15 girls, 13-15 boys, 16-19 girls and 16-19 boys.

According to rodeo secretary, Mrs. Ed Douglass of Clovis, 235 contestants are competing in the rodeo. The total prize money which is returned to the contestants amounts to \$7,410. Pay is on

the first six places and the number of entrants in each event determines the amount of money in that particular pot.

Competing in the rodeo are AJRA members and local arena contestants who are 19 years of age and under. To earn the All-Around cowboy or cowgirl buckle, contestants must have entered three events. There is one go round in each and every event.

Girls 12 and under are competing in barrel racing, pole bending, flag racing and break-away roping. Boys in the same age group have entered flag racing, barrel racing, break-away roping and steer or bull riding.

Entrants in the 13-15 age girls are participating in barrel racing, poles, ribbon roping, break-away roping and goat tying. Boys age 13-15 are competing in tie-down roping, ribbon roping, junior bull riding and barrel racing.

In the 16-19 age girls, contests include barrels, poles, ribbon roping, break-away roping and goat tying. In the same age group boys are competing in tie-down roping, ribbon roping, bull riding, bareback

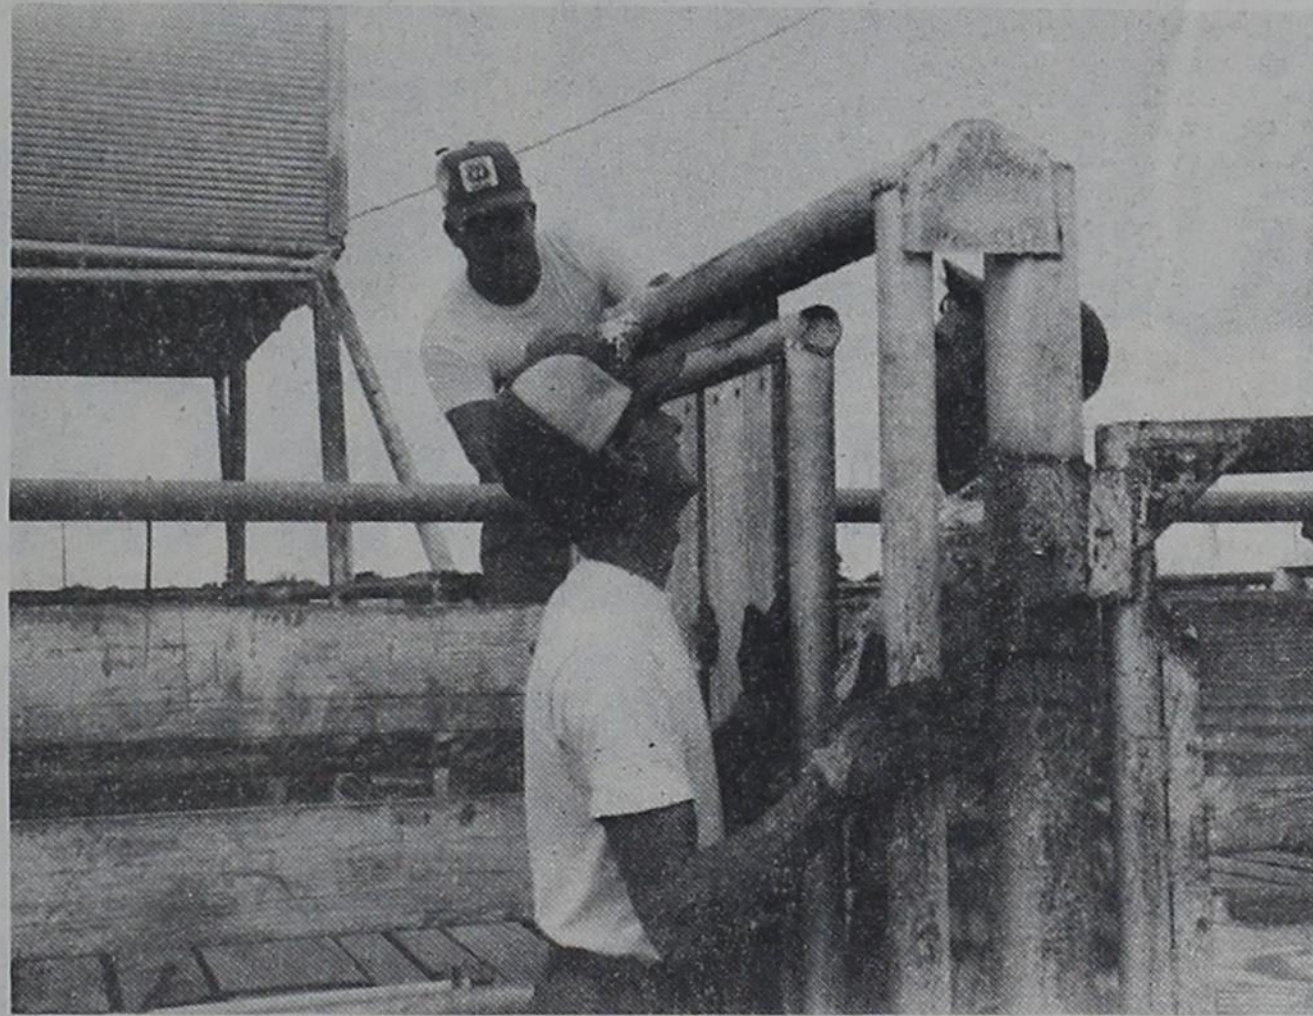

riding and steer wrestling.

At the conclusion of the rodeo competition on Saturday night, the All-Around cowboy and cowgirl will be awarded buckles.

The Farwell Jaycees and the Farwell Arena Association are jointly sponsoring the rodeo. Duane King of Seminole was contracted by the Arena Association to bring in the stock. The Jaycees were in charge of publicity and they are operating the gates, shoots and concession stand.

Members of the board of directors of the Arena Association include Darrel Norton, president; Roy Snodgrass, vice-president; Bob Chadwick, secretary; Junior Doshier, treasurer; and Mitz Walling, arena director.

Delton Wilhite is president of the Jaycees. Richard Haseloff and Johnny Curtis are vice-presidents. Robert White is secretary and Donald Jones is treasurer. Gene Beavers is editor, and directors are Mike Haseloff, Mike Norris, Jay Herington and Dennis Gerber. Mike Norris was chairman of the Jaycees rodeo committee and Steve Birchfield was in charge of publicity.

## Arena Workday

Members of the Farwell Jaycees worked last Saturday afternoon to ready the arena for the 10th Annual AJRA and Open Junior Rodeo which was to get underway Thursday with its first performance at 8 p.m. Working to unjam the shoot gate are Mike Norris, in front, Delton Wilhite, behind the gate, and James Curtis.

## Don Brewer Speaks To Chamber

Don Brewer of Convalescent Enterprises, Inc., leasee of the Farwell Convalescent Center, and Paul Wright, builder, were guests at the Farwell Chamber of Commerce meeting conducted Tuesday noon at Clara's restaurant.

Brewer referred to the facilities "as the finest in Texas."

He added that he had been in the convalescent home business for 12 years and has opened a number of homes, but none had facilities to compare to Farwell's center.

Wright said the contract was to be completed this week. He added that they are presently engaged in "nit picking" the building.

Brewer reported that an open house for the Convalescent Center is planned for Sunday, August 8, and they will be ready to admit patients the next day.

Johnny Actkinson reported that they are working in conjunction with the Texas Industrial Commission to produce a brochure which will describe the community of Farwell to any businesses and industries which are interested in locating here.

The Chamber also plans to form a committee which will look into future highway development for the community. One proposed project will be a bypass or overpass for the Santa Fe Railroad crossing located on the state line.

## Registration Set At Texico Schools

Registration at Texico Municipal Schools will take place Wednesday and Thursday, August 11 and 12.

On the 11th, seniors and eighth grade (junior high) will register from 8 a.m. to noon. Juniors and the seventh grade (junior high) will register from 1 p.m. to 4 p.m.

Sophomores and the sixth grade (junior high) will regis-

ter Aug. 12 from 8 a.m. to noon. The ninth grade (freshman) will register from 1 p.m. to 4 p.m. on that day also.

During these two days, schedules for next year will be set and career orientation counseling will be available for all students.

School starts Monday, August 23.

dentistry is only about seven years old, but it has proven to be easier on the back, legs and circulatory system.

All drills and other hand pieces are lodged in mobile service carts which can be moved into position. When closed these carts resemble ordinary home furniture. These carts will enable Dr. Clayton's "tools of his trade" to be kept out of sight as much as possible.

Absent from Dr. Clayton's treatment rooms is the traditional cuspidor which usually sets in the middle of the room.

Instead Dr. Clayton will be using a small hand held model which is incased in the mobile service cart.

Dr. Clayton said that sometimes a patient is intimidated by the dentist's treatment room and equipment. The idea

behind this new approach is to enable the dentist to work more efficiently and to ease any tensions the patient may be feeling.

Dr. Gregory completes the other half of the medical duet which will be caring for the medical needs of Twin Cities area residents. His portion of the clinic consists of an emergency room with its own entrance, three treatment rooms, one x-ray room, one laboratory and his office.

He will have four assistants to help him with his work. Dr. Gregory will see patients from 8 a.m. to noon Monday through Friday and from 8 a.m. to noon and 1 p.m. to 5 p.m. Monday through Thursday, and from 8 a.m. to noon on Friday and Saturday. He encourages people to make appointments in advance whenever possible.

Dr. Gregory's equipment includes, among other things, an electrocardiograph, which is the instrument used to record the electric current by the action of the heart muscle. A portable data scope has been donated to the clinic. It provides a visual electrocardiogram (EKG) and will be used for transporting patients with heart problems to the hospital. He will also be using an ultra sound diathermy unit which is a heat producing machine. The x-ray equipment boasts an automatic film process capable of producing a finished print in only 120 seconds. The lab facilities at the clinic will handle 90 per cent of Dr. Gregory's work.

Clinic hours will be from 8 a.m. until noon and 1 to 5 p.m. Monday through Friday, and 8 a.m. until noon on Saturday.

## Farwell Sets Center's Sewer Rate

At its regular meeting Monday night, Farwell City Council set the sewer rate for the Farwell Convalescent Center at \$17.50 per month. It was also reported that a commercial water rate had been set for the Center three months ago.

Mrs. Maybelle Cain spoke to the Council about the rat problem in her neighborhood. She lives behind the barber shop in the 200 block of Avenue A. According to her, garbage left on the ground near the dumpsters attracts the rats. She added that she has been grappling with this problem "for some time" but with no success.

Mayor Gil Patschke promised "immediate action." Merchants and residents living in that area are going to be asked to cooperate in a joint effort to

eliminate the rats. Dee Hammit, water superintendent, said if food is kept from the rats they will more readily eat poison the city will put out. Patschke stressed that everyone must cooperate if the project is to succeed.

An applicant was interviewed for the position of municipal judge. No decision was made as City Marshal Ron Mitchell was unable to attend the meeting. The Council felt Mitchell should be present when the final decision is made as he will be working with the judge most of the time.

The Council voted to renew its \$512 grant to Farwell senior citizens. A similar grant will be forthcoming from New Mexico as both the Texico and Farwell senior citizens meet jointly at the Community

Center in Texico. Commissioner Fred Chandler commented that "it was money well spent."

A discussion was conducted pertaining to how to use the \$3,500 still in the revenue sharing fund. Patschke stated that the city hall will need work done on it in the near future. He explained that the mortar between bricks is loosening and eventually they will start falling out.

Chandler suggested that the funds might be applied toward repairing several streets which have had no work done on them in six years. He advocated that a "five year plan" be established for city streets. This would allow them to be repaved and or repaired at least once every five years. A final decision was not reached concerning how to use the funds.

Hammit reported that the number two pump for the water department will have to be replaced soon. The present one has been in operation for 40 years. He also suggested that the city look into the possibilities of building another water storage tank. A discussion followed but no decision was reached.

Two items were tabled for the next meeting. One concerned increasing payments to retired city employees, and the other pertained to setting a date for the public hearing for the zoning ordinance.

Present for the meeting were Mayor Patschke and commissioners, Fred Chandler and Ralph Franse, and Janie Bowery, city clerk.

## County Commissioners To Advertise For Bids

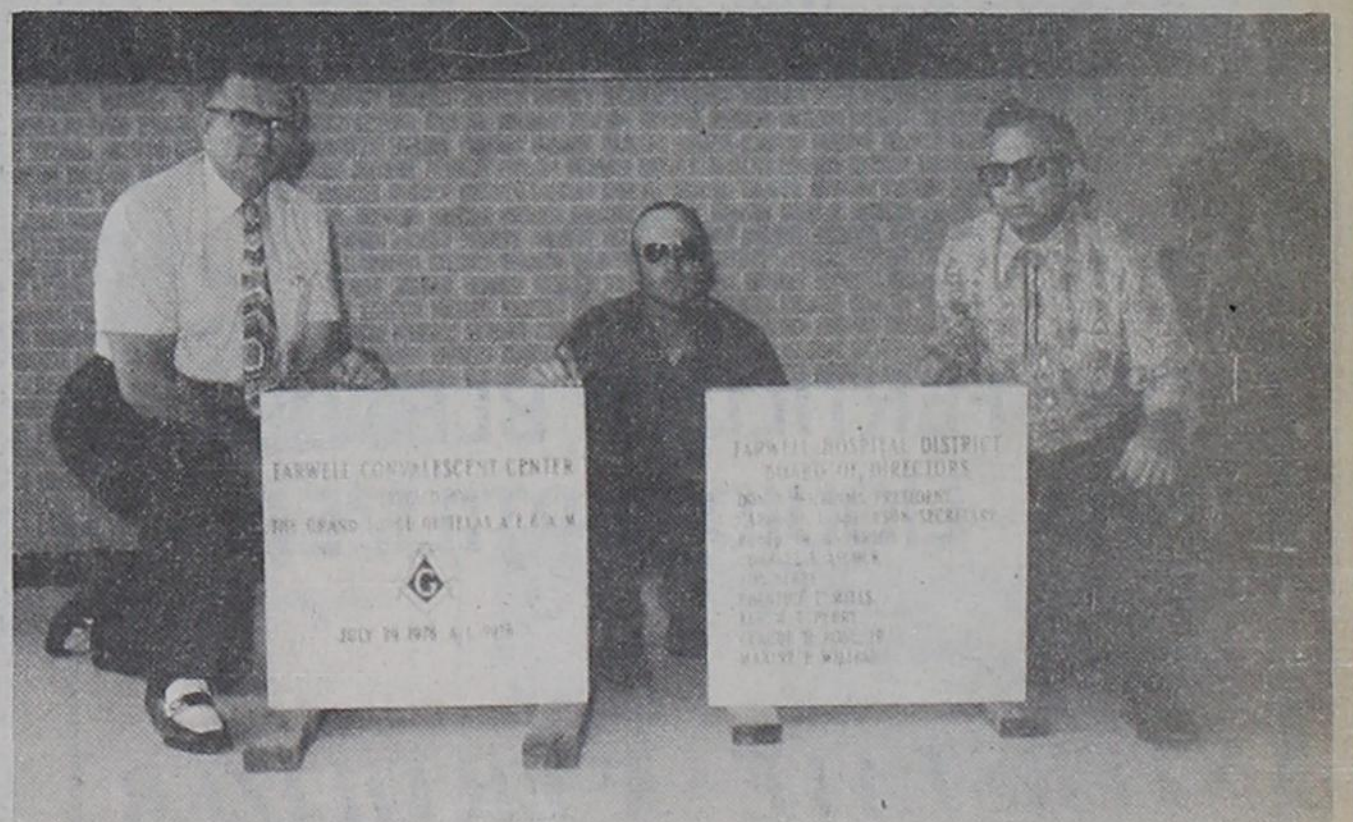

Parmer County Commissioners Court convened Monday morning in the county court room and agreed to advertise for bids for a motor grader for Precinct 1, Friona, and a car for the Parmer County Sheriff. Bids will be received until 11 a.m. Monday, August 23, at which time they will be opened.

The Commissioners Court decided to request the Board of County and District Road Indebtedness to return \$31,466.71 of the county's share of the lateral fund. The money will be used for the improvements of Parmer County's lateral roads.

The Court approved the ad valorem tax report submitted to it by Hugh Moseley, Parmer County tax assessor-collector.

Herb Evans of the Parmer County Soil Conservation Service reported that he had inspected the gravel placed at the number two dam site at Bovina and found it satisfactory.

In other business, the commissioners voted to reimburse Carl Young for the \$44.07 expenses he incurred while attending Texas Shorthand Reporters Association and Seminar in Austin.

## Corner Stones

The Cornerstone Levelling Ceremony for the new Farwell Convalescent Center was to be conducted by the Grand Lodge of Texas, A.F. & A.M. Thursday afternoon. Members of Farwell Lodge 977 pictured with the stones are, from left to right, Rev. W.T. Perry, secretary; Jerry Darby, junior warden; and Hugh Moseley, past master of the Friona Lodge.

22 To 15 - -

## All-Stars Efforts Fail In Victory Bid

Texico-Farwell Little League All-Stars came out on the short end of a 22-15 score, in spite of valiant efforts Tuesday night against the Friona All-Stars in the District Tournament.

The game was played at Dickerson Park in Clovis before a good crowd of Twin Cities' boosters.

The heartbreaking loss was a tough pill for the players to swallow, said Eddie Smith, who served as one of the coaches for the All-Star team. He had nothing but praise for his boys following the game, as did the other coach, Johnny Curtis.

"They played good ball and stayed in there and fought all the way. They never gave up and I am proud of them," Smith said. He added that he walks really hurt his team. "We gave Friona 15 walks while we walked only five times," Smith explained.

Willy Bibbs started as pitcher, substituting for Paul Salguero who was plagued with a sore arm. "Our pitching was tight in the beginning and that put us in a bind," Smith said. He added that they had 14 hits to Friona's 16.

After only two innings of play the Texico-Farwell All-Stars were down by a score of 15 to 0. They put forth a united team effort and placed 15 runs on the scoreboard, but fell short of the coveted victory, the coach said.

Smith commented that the team played "good defensive ball." During the last three innings of play Friona scored only three runs.

Steven Smith hit the only home run the All-Stars were to earn that night. Other hits included Blake Buchenau, one triple and one double; Paul Salguero, one double; Kent Harding, one triple; Steven Smith, one single and one home run; Allan Hadley, one double; Frank Cantu, two singles; Mike Arnold, one single; Willie Bibbs, one double; and Jeff Dunsforth, one double and two singles.

Smith said that all the Texico-Farwell residents who turned out for the game deserve "a big thank you" for their support. He added that he really appreciated the efforts of the Texico-Farwell Youth Commission on behalf of the team. They furnished new uniforms for the All-Stars this year.

The 1976 Texico-Farwell All-Star team members are: Blake Buchenau, Willy Bibbs, Danny Reid, Kent Harding, Frank Cantu, Johnny Daniels, Jeff Dunsforth, Darrin Darby, Johnny Cantu, Steven Smith, Paul Salguero, Mike Arnold, Allan Hadley, and Earl Bibbs. Alternates were Jeff Day and William Garza.

### Meeting Rescheduled

Texico City Council's Tuesday night meeting was cancelled because a quorum was not present. The next meeting has been set for 6:30 MDT Tuesday, August 10, in the city hall.

### Attend Program

"Food Fun For Juniors" program was held in Farwell recently, sponsored by Deaf Smith Electric Cooperative. Girls completing the course are, left to right, front row: Stephanie Morris, Shelley Ford, Denise Ford, Cynthia Ancira, Sandy Coleman and Frances Lovato; middle row: Sandra Stanton, Jeanie Barrera, Sharla Stewart, Tanya Meeks, Shana Blain, Shayline Jones, and Sheila Smith; back row: Janice Wood, summer home service advisor for the Cooperative, Tammy Obenshain, Jacqueline Kube, Elizabeth Kube, Jennifer Stancell and Donna Sudderth.

### J.F. Hendricks Rites Conducted Wednesday

Funeral services for J.F. (Joe) Hendricks, 78, of Farwell, who died Saturday in El Paso, were conducted at 3 p.m. Wednesday at the First Baptist Church in Farwell with Dr. Cliff Ennen, pastor, officiating. Burial was in Mission Garden of Memories in Clovis under the direction of Steed-Todd Funeral Home.

Mr. Hendricks was born Oct. 5, 1897 in Waxahachie, Tex. He had lived in this area for 42 years and had worked for the AT&SF railroad since 1945 until he retired. He also farmed in the Ranchvale community and moved to Farwell 11 years ago. He was a member and a deacon of the First Baptist Church in Farwell.

Survivors include his widow, Lillie Mae of his home; two sons, Carroll Hendricks of Ranchvale and Wendall Hendricks of Carlsbad; two daughters, Mrs. Janie Qualls of Denver, Colo., and Mrs. Glenna Bourne of Clovis; 16 grandchildren and three great-grandchildren; four sisters. Casket bearers were his grandsons, Bob Qualls, Larry Qualls, Rickey Qualls, Jim

Qualls, Paul Hendricks and Jodie Hendricks. Honorary bearers were the men's Sunday School class of the First Baptist Church of Farwell.

## 'Food Fun For Juniors' Program Held In Farwell

Deaf Smith Electric Cooperative's "Food Fun For Juniors" program was held recently in Farwell.

The program was directed toward conserving energy in the kitchen. The primary source of cooking more efficiently is through the use of small appliances, reported Janice Wood, summer home service advisor for Deaf Smith Electric Cooperative.

The one-week class climaxed with the presentation of diplomas by David Pruitt.

Girls who completed the course are: Shana Blain, daughter of Mrs. Billie Blain;

Tanya Meeks, daughter of Mr. and Mrs. Grover Meeks; Frances Lovato, daughter of Mr. and Mrs. Delfido Lovato; Donna Sudderth, daughter of Mr. and Mrs. Don Sudderth;

Also, Sharla Stewart, daughter of Mr. and Mrs. Neil Stewart; Denise Ford, daughter of Mrs. Dorothy Ford; Jeanie Barrera, daughter of Mr. and Mrs. Mike Barrera; Sandra Stanton, daughter of Mr. and Mrs. J.T. Stanton.

And, Shelley Ford, daughter of Mr. and Mrs. Jerry Ford, Jacqueline and Elizabeth Kube, daughters of Mr. and Mrs. Clarence Kube; Sandy Cole-

man, daughter of Mr. and Mrs. Jim Coleman; Shayline Jones, daughter of Mr. and Mrs. Danny Jones; Sheila Smith, daughter of Mr. and Mrs. Eddie Smith;

Also, Cynthia Ancira, daughter of Mr. and Mrs. Frank Ancira; Stephanie Morris, daughter of Mr. and Mrs. Floyd Morris; Jennifer Stancell, daughter of Mr. and Mrs. Leamon Stancell; and Tammy Obenshain, daughter of Mr. and Mrs. Harlin Obenshain.

"Worry is interest paid on trouble before it falls due." W.R. Inge

To Farwell School Patrons - -

## An Open Letter From Supt. Perkins

This letter is written as an appeal to the patrons of our school district, both the young people and the adults of our community.

Over the past few months, a number of things have been done to improve the appearance of our schools. As you recall, the taxpayers voted in favor of a bond issue that certainly created some extremely attractive areas out of what were some almost eyesores around the buildings and grounds.

In addition, we are making an all-out effort to get grass and some plants and shrubs in areas where there have previously been none. This takes a great deal of time and a considerable amount of money. This money is furnished by the taxpayers in our school district.

Our football field and track area is an excellent facility for a school our size. It is also an area that the entire community can use. There are a number of both students and adults who exercise regularly around the track, from leisurely walking to jogging, to sprinting.

All of this is to lead into a problem that we are experiencing around our school facilities. In some areas, particularly around the tennis courts, there are a number of people who insist on driving across the grass areas. Some of this is just unthinking. However, in some areas, particularly where new grass is planted and on the track, we have a few people who think it is fun to dig up the grass or the track with motorcycles and in some cases, automobiles. Whenever this happens, there is a lot of money spent in replacing the torn up materials. Time and money that is so desperately needed for other things to improve the quality of education for our young people.

If you are guilty or you know someone who is guilty of this thoughtlessness, would you please help us make our school something in which we can have a great deal of pride.

Please don't do anything around the building and grounds that you would not do to your home. If we all work together, we can have a more beautiful school and one in which we can take great pride.

s/James N. Perkins  
Superintendent  
Farwell Public Schools

Twirlers  
Camp

Three Farwell varsity twirlers attended the Band and Instrumental Camp conducted at Texas Tech University July 11-23. High School varsity girls attending the twirling classes are, left to right, Brenda Jones, Karen London and Roxie Chandler. Other twirlers who attended the camp are Lisa Darby, Lisa Howard and Ruth Ann Whitesides, junior varsity; and Torey Hardage and Betsy Black, eighth grade.

### Farwell Twirlers Attend Music Camp

Eight twirlers from the Farwell School System attended a Band and Instrumental Camp at Texas Tech University July 11-23.

The girls who attended were Karen London, Roxie Chandler and Brenda Jones, varsity;

Lisa Howard, Lisa Darby and Ruth Ann Whitesides, junior varsity; and Torey Hardage and Betsy Black, eighth grade.

They participated in 45-minute classes, beginning at 7:30 and concluding at 4:30. The twirlers were allowed to pick

which classes they wanted to attend. Subject matters included twirling routines for both marching and performance at pep rallies.

Their instructors were Texas Tech twirlers, both present and past.

### SPS Approves New Power Plant

Directors of Southwestern Public Service Company, meeting Tuesday, July 27, in Boston, approved construction of a third 350,000-kilowatt, coal-fired electric generator for installation at Harrington Station, northeast of Amarillo.

The unit approved today will go into service in mid-1980. Roy Tolk, chairman of the

board and chief executive officer of Southwestern, said that both 1980 and 1981 had been considered as completion dates while the unit was in the planning stage, but that load growth and customer gains in the last few months made it advisable to move forward to the 1980 date. Earlier, Tolk had reported to the board that the company had gained nearly 8,000 customers in the last twelve months.

New officer posts went to two Amarilloans as a result of today's meeting and an earlier meeting of the board of TUCO INC., Southwestern's fuel subsidiary. Coyt Webb was named treasurer and assistant secre-

tary of TUCO, and Doyle Bunch was elected assistant secretary and assistant treasurer of Southwestern.

### Marriage Licenses

Parmer County Clerk's office issued two marriage licenses this past week. Those receiving the licenses were Ronnie Jo Myers and Barbara Glass; and Alfredo Ramirez and Petrita Gonzales Trevino.

## County Hosts 75 Kentucky Farmers

Last Friday the Parmer County Soil and Water Conservation District sponsored a tour of 75 Kentucky farmers and business men on a conser-

vation tour along Highway 60 in Parmer County.

Directors present were Leon Grissom, Leroy Johnson, Dan Smith and M.C. Osborn. Also,

Herb Evans and Duval Burton of the SCS assisted with the tour.

These men from Kentucky were shown conservation practices all along the way. They were given operating costs and production figures for the county. The different soil types were pointed out and our excellent corn crop was noted all along the way, as was the fact that we were number one corn county in the state.

Points of interest such as feed yards, feed mills, and corn dryers were pointed out. At Parmerton it was pointed out that this was the highest point on the Santa Fe Railroad in Texas and that the elevation was 4,202 feet. At the two equipment companies west of Friona, the size and kinds of farming equipment used in this county were pointed out.

The District wants to thank the Chamber of Commerce and others in Parmer County for helping get material together for these Kentuckians.

## West Texas Attorneys Elected 'Life Fellows'

Six West Texas attorneys have been elected Life Fellows of the Texas Bar Foundation. They are Sam Aldridge of Farwell; Karl N. Cayton, Lamesa; Wayne Thomas, Hereford; and Forrest B. Bowers, Charles B. Jones and Joe H. Nagy, all of Lubbock.

Sixty-nine new Life Fellows were named recently during the State Bar of Texas annual convention here. Each Life Fellow is presented an en-

graved plaque "in recognition of service and devotion to the highest traditions of the State Bar of Texas."

The Texas Bar Foundation, established in 1965, finances expanded State Bar programs of continuing legal education and research on legal matters of mutual significance to the Bar and to the public.

More than 850 Texas lawyers are active participants in the Foundation.

### Goat Tying School Set In Clovis

A goat tying school will be conducted Saturday, July 31, and Sunday, August 1, at the Ed Douglass Arena, nine miles southwest of Clovis. Classes are to begin at 8 a.m. Saturday.

The instructor will be Jennifer Haynes of Albuquerque. She holds the 1975 and 1976 NIRA regional and national goat tying championship. Miss Haynes also won the all-around title at Bozeman, Mont., last year.

Membership in the school is limited. Anyone interested should contact D'Aun Douglass at 762-1418 in Clovis.

A clog in the bathroom may prevent morning dilly-dallying.

## Settling In Small Community A Dream Come True For Claytons

"We wanted to settle in a small town where I could establish my dental practice on a one-to-one basis," Dr. Lee Clayton said.

His wife Barbie readily agreed that they were tired of "big towns like Dallas." They arrived two weeks ago from Dallas and have been engaged in the process of "settling in and getting acquainted."

The Claytons have already experienced small town generosity. Many people have dropped into the Farwell Medical Clinic to welcome them to the community and they have been the recipients of "care packages" containing dishes and other useful items. Mrs. Clay-

ton explained that their mobile home is "stranded" in Dallas. Constant summer rains have prevented it from being moved as yet.

"We arrived in Farwell with enough clothes to last through Fall," she said.

Dr. Clayton will be opening his dental practice soon at the newly remodeled Farwell Medical Clinic. Some pieces of equipment are still expected to arrive soon, but the opening date depends on its arrival. Currently, his office is open for the making of future appointments.

The young dentist and his wife are very impressed with

the clinic facilities. He compared it favorably to the facilities used by a dentist friend in San Antonio, his hometown.

The Clayton dental practice, once it gets underway, will be a "family affair." He plans to teach Barbie to be his assistant. She will learn how to do everything except clean teeth. She explained that you have to be a certified dental hygienist in order to do this.

Mrs. Clayton, a native of Sherman, is a registered nurse. She received her degree in 1975 from Texas Women's University in Dallas. She worked for a year at Gaston Episcopal

Hospital in Dallas.

Barbie wanted to continue to work, but did not want a job that would have her working when Lee was off from work. Thus working together as dentist and dental assistant provided the perfect answer.

Mrs. Clayton explained that while Lee was attending Baylor's School of Dentistry he worked for eight months at Gaston Episcopal Hospital. He was a lab assistant and worked weekends and was on call from 5 p.m. to 7 a.m. on Monday and Tuesday.

It was inevitable that their working shifts and off duty hours rarely coincided. It was a difficult arrangement for the then newlyweds and they decided to avoid it in the future.

Dr. Clayton received his undergraduate training at Texas A&M University, working his way through school as a photographer.

"I probably photographed 40 weddings a year. I also took commercial pictures and would generally try anything

once," he said.

Dr. Clayton attended graduate school for one year and then went to Baylor School of Dentistry for three years. He completed four quarters in three years. He explained that he took basic science courses during his freshman year. Then followed technique courses and actual work on mannequins. The final 18 months were devoted to attending lectures from 8-10 a.m. and clinic sessions from 10 a.m.-4:30 p.m., where he treated patients.

During that period, Dr. Clayton said students were his patients. Nominal fees that were charged were rechanneled to the school. His work was supervised by his instructors and he had to do all his own lab work in order to earn academic credits. That involved making false teeth and doing the goldwork on bridges.

The ingenious student of dentistry converted a bedroom in their mobile home into a lab. He said that the lab can now be removed and used in

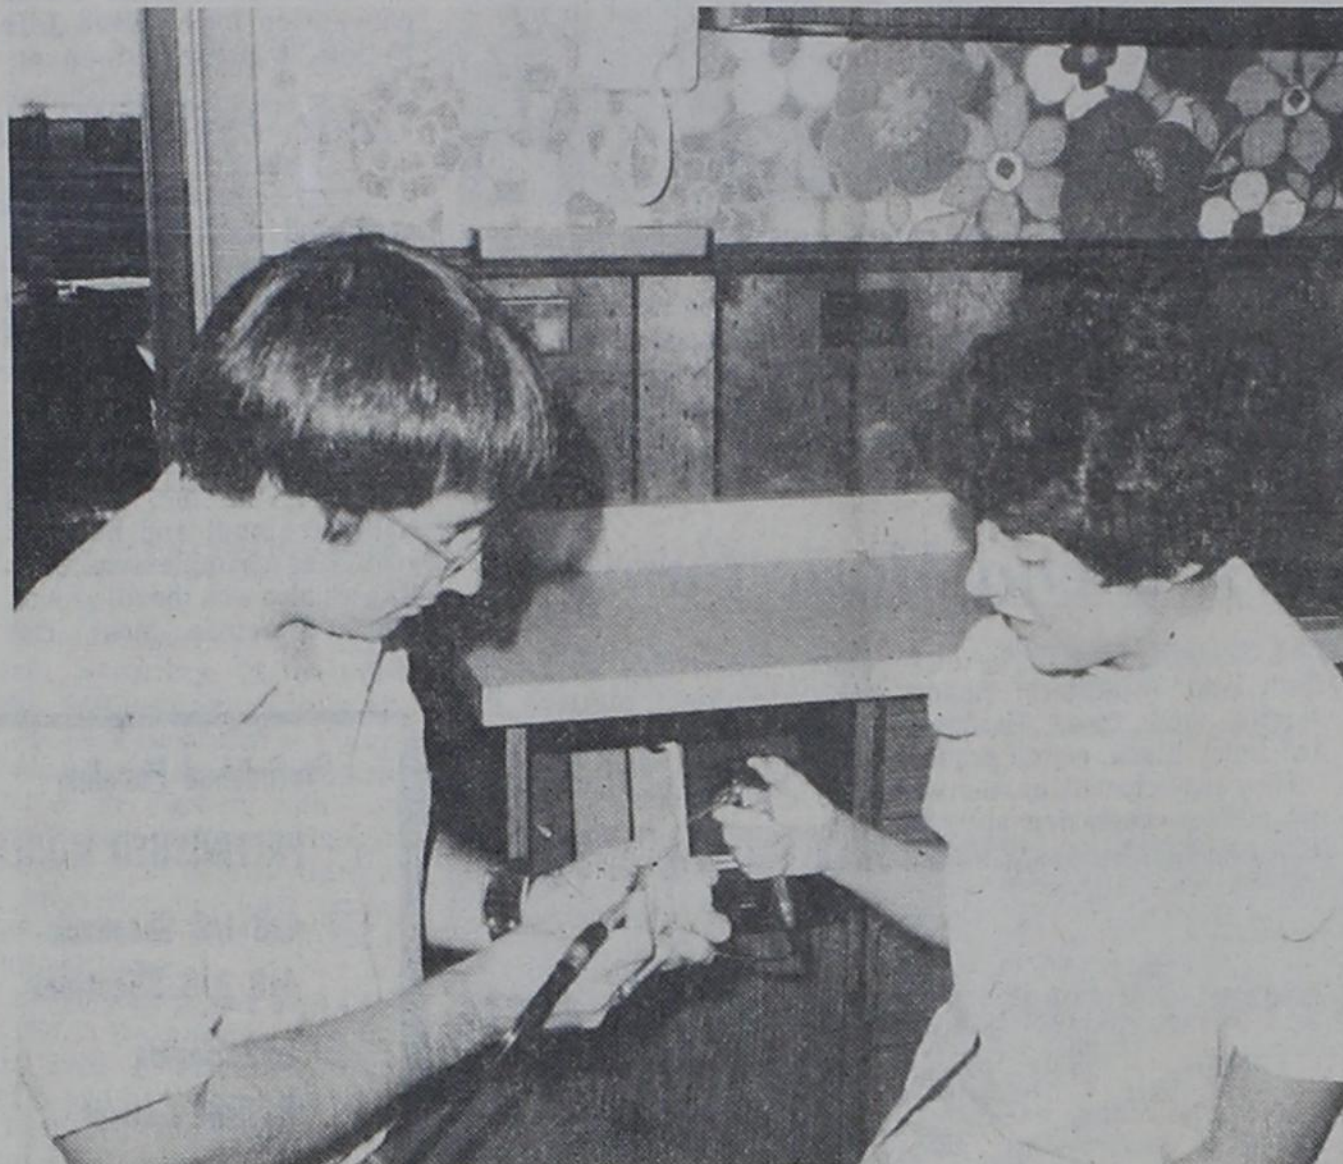

the clinic, but he added that the bulk of the lab work will be sent out.

Barbie Clayton is a multi-talented person also. She plays the piano and loves needlepointing. A "family" member that occupies some of her time is a small dachshund named Heidi.

### New Residents

Lee and Barbie Clayton are quietly settling into their new roles in Farwell, he as the new dentist and she as his assistant. Dr. Clayton's practice will be housed in the newly refurbished Farwell Medical Clinic. Since not all the dental equipment has arrived yet, Dr. Clayton's office is open only for the making of future appointments at this time.

### Sit Down Dentistry

Dr. Lee Clayton and his wife, Barbie, are demonstrating the techniques of sit down dentistry. The new approach is only about seven years old. The patient rests horizontally in the chair while the dentist sits down to work. Dr. Clayton said this method is easier on the back, legs and circulatory system.

### Nancy Diane Alana Graduates

Nancy Diane Alana of Farwell is among the 330 candidates for Eastern New Mexico University's 1976 summer graduation. She will receive a bachelor of science in education degree in elementary education.

Baccalaureate and commencement services begin at 8 p.m. MDT tonight (Friday), July 30, in the Physical Education Complex Arena. John D. Ratliff, vice-chairman of the ENMU Board of Regents, will present the main commencement address on "Trusteeship: A Citizenship Responsibility in a Democratic

Society." Eastern's list of candidates for graduation includes 11 associate's degrees, 136 bachelor's degrees, 180 master's degrees, and three education specialist degrees. Twenty-six students will graduate with honors.

Honors notations include summa cum laude, 3.8 to 4.0 grade point average; magna cum laude, 3.7 to 3.799; cum laude, 3.6 to 3.699; and special honors, 3.3 to 3.599.

"Of all the substitutes, a substitute speaker is worst." — Kin Hubbard

### Bicentennial Notebook - -

## Golf And Pottery

by Donald Whisenunt

Even as Congress declared independence and the war intensified two hundred years ago, life in America and Britain went on. As the war became more serious both recreation and industry would be disrupted in both countries. In America, time would not be available for recreation and in England manufacturing would be disrupted by the shortage of materials. But for the moment, at least, disruptions were still minimal.

In America, Dr. Benjamin Rush was a most unusual man. He is sometimes called the father of American medicine or the father of American chemistry. Without doubt, his contributions to medicine and science were quite significant. Not so well-known, however, is his interest in golf.

Even though it was a British game, he believed it should be imported to America. He explained to his colleagues in the Pennsylvania Provincial Conference the rules of the game. When asked by a fellow delegate what good the game was, Rush replied that a man who played golf would live ten years longer.

In England, one of the most successful businessmen was Josiah Wedgwood. Forty-six years of age in 1776, he was at the height of his success. Born in relative poverty, he had become one of England's richest manufacturers and an example of the progressive modern merchant.

Wedgwood is best known for the pottery he produced. His tableware became the standard that many producers followed. Particularly well-known were the hand painted sets that he made. Probably his masterpiece was the 952 piece set of tableware with 1,244 hand painted views of English landscapes that he made especially for Empress Catherine II of Russia. The cost of the set was 3,000 English

pounds. Wedgwood was also innovative. He introduced standardization of sizes into pottery making, and he introduced a division of labor for faster production. His system was an early form of the assembly line.

He also encouraged government financial support for canals and highways. Because his own education was limited, he contributed large sums for free schools for the poor. He was indeed a forward-looking businessman.

In the Spanish Southwest recreation that existed usually was adapted to the geographic setting. Some games were imported from Spain or Mexico, but not if they were expensive. Much of the social life revolved around the Church and its holidays.

Business activity was strictly controlled by the Crown. Manufacturing was allowed only on a very limited basis. As a result, most of the economic life of Texas was pastoral or farming in nature.

## Dr. Jerry Gregory And Family 'Glad To Be Back' In Farwell

"Farwell has always been home to us and we are glad to be back," said Dr. Jerry Don Gregory, osteopathic physician and surgeon.

Dr. Gregory first moved to Farwell in 1971. Four years later he relocated in Muleshoe and became a staff member of West Plains Memorial Hospital.

He explained that he is still affiliated with the hospital at Muleshoe. When necessary his patients will be hospitalized there and he will be on call at the emergency room every fourth night and every fourth

weekend. Dr. Gregory received his undergraduate training at Howard Payne University at Brownwood. That was followed by two years of theological study. His original intention was to become a Baptist Medical Missionary. Dr. Gregory is an ordained Baptist minister. However he is not an active minister now. "Occasionally I have been asked to preach at a church which had no minister and I have married a few couples," Dr. Gregory explained. His theological studies were

followed by two years of pre-medicine studies at Texas Tech University. He attended medical school in Kansas City, Mo., for four years and completed one year of internship at a Dallas hospital. Dr. Gregory was a general practitioner in Pineland, Tex., for two years. Following that, he set up his office at the Farwell clinic in 1971 and from here to Muleshoe where he was a staff member of the hospital there for about 15 months. Medical expertise runs in Dr. Gregory's family. His brother is a practicing physician in

Abernathy and Dr. Gregory's wife, Charline, is a registered nurse. She received her degree in 1975 from Eastern New Mexico University at Roswell. Mrs. Gregory is presently a consultant for the nursing home in Muleshoe. She has also worked as a RN for the Muleshoe and Amherst hospitals. Dr. Gregory explained that there are 15,000 osteopaths in the United States today. They are trained at 12 osteopathic medical schools. He said they do all the things that medical doctors do, including performing surgery and delivering babies.

He added that osteopaths must achieve the same education as medical doctors and take the same state boards in order to earn their license to practice. According to Dr. Gregory, osteopaths have their own national and state associations and maintain their independence from the associations for medical doctors. Dr. Gregory described the essential difference between osteopaths and medical doctors as the difference between Democrats and Republicans. "They each want the same thing only they have slightly different approaches they use to achieve their ends," he said. He added that 80 per cent of the osteopaths in the United States are general practitioners while 20 per cent become specialists. He said the percentages are reversed for medical doctors; 80 per cent become specialists while only

20 per cent go into the general practice of medicine. Dr. Gregory is impressed with the newly remodeled Farwell Medical Clinic where he will open his practice on Monday, August 2. He said his office hours will be from 8 a.m. to noon and 1 p.m. to 5 p.m., Monday through Thursday, and from 8 a.m. to noon on Friday and Saturday. Dr. Gregory will utilize four assistants to help him with his daily patient routines. They will be trained by his wife, Charline. The Gregorys are expecting their third child in November. The couple has two other children, Quay, 6, and Parker, 3.

### Doctor Returns To Farwell

Dr. Jerry Don Gregory, osteopathic physician and surgeon, plans to open his practice in the Farwell Medical Clinic Monday, August 2. He is returning to Farwell after an absence of about 15 months. He and his wife, Charline, are expecting their third child in November. They have one daughter, Quay, who is six years old and a son, Parker, age three.

### 'Humphrey-Hawkins

WASHINGTON—If you believe in Santa Claus and the Easter Bunny, then the Humphrey-Hawkins Full Employment and Balanced Growth Act is for you.

The Humphrey-Hawkins bill is purported to be the greatest cure-all since they stopped selling that medicine show elixir that was supposed to heal everything from consumption to warts. The bill is supposed to wipe out unemployment, even out recessions and hold down inflation—and do it all at negligible cost to the taxpayer.

There are two parts to the Humphrey-Hawkins bill. The first part would set up a mechanism for central economic planning. The second would set into motion a massive—and frightfully unrealistic—public jobs program.

The first part of the bill would, among other things, declare the right of every adult to a well-paid job, and establish a goal of three percent adult unemployment within four years after enactment.

The second part of the bill would set up a variety of jobs programs to be used if other methods failed to bring unemployment levels down to the three percent target.

Pay scales for all the jobs programs would be set according to a formula provided in the bill. In general, wages for public services jobs would be equal to or higher than those prevailing for similar jobs in private industry.

All these goodies don't come cheap. Sponsors of the bill admit it would cost from \$20 to \$40 billion a year. More impartial economists think the cost could exceed twice that amount.

Nothing better illustrates the "Alice in Wonderland" quality of Humphrey-Hawkins than the goal of three percent unemployment. An unemployment rate that low has been achieved only for a brief period in the last 30 years, and then only at the price of war and rampant inflation.

A renewal of double digit inflation which would destroy more jobs than the bill would create would be, in fact the most likely consequence of passage of the Humphrey-Hawkins bill.

To begin with, the bill would attempt to reach its full employment goals with the kind of bureaucratic tinkering with the economy that led to the recession we are just now recovering from.

If the economic tinkering failed—as history indicates it would—the various jobs programs would go into effect.

However funded, the effect of the public service jobs programs would be to take employment away from the productive sectors of our economy to put people to work on makework projects.

There is a way to fight unemployment effectively. That is to make it possible for the private sector to expand and produce more jobs, real jobs that contribute to the economic well-being of all Americans.

President Ford's economic policies are effectively reducing unemployment. The unemployment rate has been trending downward steadily, month by month. Last month a record 87.7 million held jobs. We should not forfeit these solid gains for the illusory promises of Humphrey-Hawkins.

Parmer County Extension Agent for Home Economics

If your garden has produced more squash than the family can eat fresh, then pickling may be one different way to preserve them.

Pickled squash are similar to traditional bread-and-butter pickles. Several types of summer squash may be used for pickling, but yellow and zucchini squash are most commonly used.

Below are two tasty recipes for pickled squash you may want to try.

**YELLOW SQUASH PICKLES**

- 8 c. sliced yellow squash, cut about 1/2 inch thick
- 1 T. pickling salt
- 2 c. chopped onion
- 1/4 c. chopped green pepper
- 1 c. apple cider vinegar
- 1 3/4 c. granulated sugar
- 1/2 t. mustard seed
- 1/2 t. celery seed

Wash and slice squash. Sprinkle with salt and set aside for one hour. Bring vinegar and sugar to a boil. Add squash, onion and green pepper and bring to a boil again. Pack hot squash, onion and pepper into hot sterilized jars.

Add mustard seed and celery seed to vinegar-sugar mixture. Bring to boil again. Pour over squash to within one-half inch of top of jar. Place lids on jars. Process 10 minutes in boiling water bath.

**CURRIED ZUCCHINI PICKLES**

- 24 (7 pounds) medium zucchini
- 1/4 c. pickling salt
- 3 c. granulated sugar
- 3 c. vinegar
- 1/2 c. mustard seed
- 4 t. celery seed
- 1 t. curry powder

Cut zucchini in one-fourth to one-half inch slices; sprinkle with the salt; add cold water to cover. Let stand three hours. Drain; rinse with cold water.

In 10-quart Dutch oven, combine sugar, vinegar, mustard seed, celery seed and curry. Bring to boiling. Add zucchini; heat through, but do not boil - about five minutes. Pack zucchini and syrup into clean, hot pint jars leaving one-half inch head space. Adjust lids according to package directions. Process in boiling water for five minutes. Start counting time when water returns to boil. Serve chilled. Makes nine pints.

If you need any other information on canning, freezing or pickling, please call or drop me a line. I'll be glad to help in any way I can - Jana Pronger, County Extension Agent, Box 683, Farwell, TX 79325; phone 481-3619 - 8:30 a.m. - 5 p.m. My office is on the second floor of the Courthouse for any of you who might like to stop by.

*The Old Timer*

"A big noise at the office can be a little squeak at home."

**South Plains 4-H'ers Earn Dress Revue Honors**

Under the theme "Flight Into Fashion" at the new Lubbock Regional Airport, four young ladies showed off their own creations and earned themselves a trip to the State 4-H Dress Revue in San Antonio by winning top honors in the District 2 4-H Dress Revue Thursday, July 15.

The winners are Annette Weil of Hale County; Pearl Perez, Swisher County; Prynness Parkman, Bailey County; and Cindy Mitchell, Lubbock County.

Named as alternates are Sheree Jerden of Lynn County, first alternate; and Linda Sue Gohlke of Parmer County, second alternate. These two girls will fill in at San Antonio, Sept. 17-18, in case any of the others can't compete in the finals during the State 4-H Dress Revue.

All 17 contestants, who represented a 20-county area of the South Plains, made and modeled their own outfits. Special honors went to Prynness Parkman for showing the best outfit constructed of fabric of cotton or cotton blend.

Also awarded during the show was a \$500 Aubrey W. Russell Scholarship. Agnes Acker of Castro County was presented the award by Mrs. Lucille Witten, District 2 director of the Texas Home Demonstration Association, and Mrs. Sheila Fillingim, treasurer of the scholarship fund. The scholarship is offered each

year based on best record book and other criteria to a 4-H girl majoring in home economics at Texas Tech.

In addition to senior level competition, 17 juniors vied for honors. They'll not compete beyond the district level.

There are no 1-2-3 placings in the annual dress revue. Contestants are judged on their sewing and construction skills, overall appearance, modeling abilities, and their 4-H record books.

A special tour of the new regional airport facilities and a dinner for contestants, parents, Extension agents and special guests kicked off the awards phase of the event. Presenting the awards was Edward Breihan, general manager of the Plains Cooperative Oil Mill which sponsored the dinner.

Steve Lee, 4-H'er from Lubbock County, was master of ceremonies. Other 4-H'ers on the program were Charmi Wood of Lynn County, and Darlene Gunn of Garza County.

Wynon Mayes, county Extension agent (home economics) in Hale County, served as chairman of the event, with Catherine B. Crawford, district Extension agent (home economics), serving as coordinator.

Also competing in district from Parmer County was Kim Gregory of Lazbuddie. She won a blue ribbon in the junior competition.

**Second Alternate**

Linda Gohlke of Farwell was named second state alternate at the District 2 4-H Dress Revue held at Lubbock Regional Airport July 15. She will fill in at the State 4-H Dress Revue in San Antonio this September in case any of the other winners cannot compete. Linda earned the right to enter the district competition by garnering top honors in the senior division at the Parmer County 4-H Dress Revue held July 8.

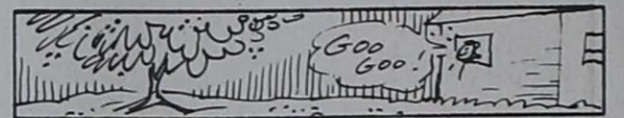

**Girl Born To J. Actkinsons**

Mr. and Mrs. Johnny Actkinson of Farwell became the parents of a daughter on Wednesday, July 21, at the Clovis hospital.

The newborn girl has been named Kimberly Jill. She weighed eight pounds, 11 ounces, and was 20 inches long at birth.

Kimberly Jill has two brothers, Jeff, five and one-half years old, and Greg, age three.

Grandparents are Mr. and Mrs. Theo Actkinson of Route 2, Muleshoe. Mrs. Peggy Bryant of Lubbock and Russell Bryant of Las Cruces, N.M. Great-grandmother is Mrs. Fern Mossholder of Reynoldsburg, Ohio.

Some people believe that a "birth tree" planted at the time a child is born will reflect in its growth the nature of the child's life.

**THANK YOU**

We wish to express our thanks and appreciation to the coaches and to all concerned with Little League baseball for the time and effort that they spent with our boys and girls. A special thanks to Eddie Smith and Johnny Curtis for the extra time and patience they so graciously gave to all the All-Stars.

### Monty Lamberts Are Parents Of First Child

Mr. and Mrs. Monty Lambert of Route 1, Texico, are parents of their first child, a girl, born Wednesday, July 21, at the Friona hospital.

The new daughter has been named Lori Michelle and she weighed six pounds, 4 ounces, and was 18 inches long at birth.

Maternal grandparents are Mr. and Mrs. Lonnie Tharp of Texico and paternal grandparents are Mr. and Mrs. V.L. Lambert of Pleasant Hill community.

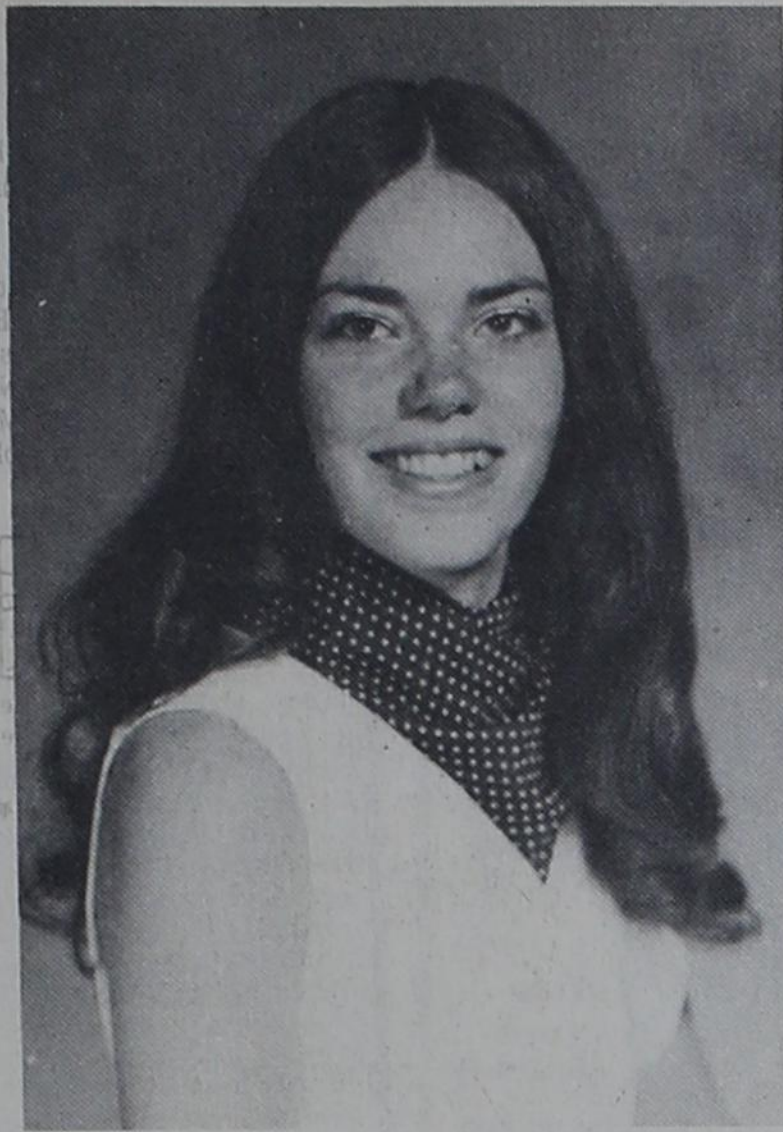

Among the great-grandparents are Mr. and Mrs. Lewis Tharp of Farwell, Mr. and Mrs. Boone Allison of Muleshoe, Mr. and Mrs. L.A. Powell of Tucumcari and Mrs. Delsie Lambert of Indiana.

Great-great grandmother is Mrs. Nettie Tharp of Texico.

### 1951 Class Reunion

Farwell High School class of 1951 will have its 25th Anniversary Reunion on Saturday, July 31. Pictured finalizing plans for the big day are members of the planning committee, left to right, Bobbie McFarland, Gerald Curtis, Harold Doshier and Dot Christian. Activities include a family picnic to be held at Running Water Draw Park, north of Clovis beginning at 12 noon (CDT). This will be followed by a banquet that evening at the Holiday Inn starting at 7 p.m. (CDT). The banquet is for class members and their spouses.

### Engagement Announced

Mr. and Mrs. Peter Raymond Sullivan of Pittsburgh, Pa., and New Orleans, La., former residents of Farwell, announce the engagement and approaching marriage of their daughter, Kathleen Marie, to Michael Laurence Gordzelik of Amarillo. He is the son of Mrs. Alene Gordzelik and the late Edward J. Gordzelik. Wedding vows will be exchanged at 11 a.m. Saturday, Sept. 4, at St. Joseph's Catholic Church in Amarillo. The bride-elect is a 1974 graduate of Farwell High School and attended South Plains College in Levelland. The prospective bridegroom is employed by Iowa Beef, Inc. in Amarillo as a mechanic.

### Susan Patschke Feted With Bridal Shower

Susan Patschke of Farwell, bride-elect of Rex McCloy, was honored with a bridal shower last Saturday afternoon at Hamlin Memorial United Methodist Church parlor in Farwell.

Her colors of aqua and white were carried out in the decorations. A white cloth covered the serving table. The centerpiece was an epergne holding white daisies, statins, baby's breath and aqua carnations. The bride-elect's napkins were aqua.

Punch, party sandwiches and an assortment of cakes were served from crystal and silver appointments. Servers were Dianne McCloy of Morse, sister of the prospective bride-

groom, and Mrs. Nancy Blair of Plainview, sister of the bride-elect.

Mrs. Bob Renne of Clovis registered guests. Afterwards the white plum pen was presented to the bride-elect.

Special guests included the bride-elect's mother, Mrs. Gil Patschke, and the prospective bridegroom's mother and sister, Mrs. Thane McCloy of Morse and Mrs. Nancy Holland of Midland.

Hostesses were Gladys Kaltwasser, Judy Howard, Dot Christian, Liz Phillips, Carrie Anderson, Margaret Aycock, Jerry Meeks, Maxine Williams and Edith Martin.

Visiting recently in the home of Claude and Hattie Coffey of Farwell were their daughter and children, Mary Lee Potter, Claudia, Katie and Jason of El Paso. They arrived July 16 and returned home Monday.

Visitors in the home of Mrs. B.N. Graham of Farwell included her son and wife, Mr. and Mrs. Howard Graham from Pampa. They arrived on July 20 and stayed through Sunday.

Other recent visitors have been Mrs. Graham's nephew and family, Mr. and Mrs. Bob Crook, Loretta and Cheryl of Staugus, Calif., and two daughters and their husbands, Mr. and Mrs. W.E. Thornton of Dimmitt and Mr. and Mrs. Raymond Ross of Morton.

Visiting Mrs. Aileen Teel of Texico are her daughter and family Rev. and Mrs. Jerry Hill and John of Sand Springs, Okla. They arrived last Saturday and left Tuesday of this week.

Weekend visitors included her daughter and children, Mrs. Bill Glenn, Kathleen and Jeff of McCamey, Tex. Her son, Allen of Roswell, visited her on Monday.

Mr. and Mrs. Joe Helton of Texico and Hal Helton of Clovis traveled to Tucumcari

Saturday where they participated in family, birthday and anniversary celebrations.

At the day-long get-together, they visited Mrs. Helton's brother and wife, Mr. and Mrs. Troy Whatley, and her nephew and family, Mr. and Mrs. Jerry Whatley and John, all of Tucumcari. Joining them was Mrs. Helton's mother, Mrs. J.E. Whatley of Amarillo.

Mr. and Mrs. R.D. Dale of Route 1, Farwell, were in Lubbock last Thursday and Friday for a checkup with their doctor. While there they visited in the home of their daughter, Mrs. Vernon Conner and family. Mrs. Conner and sons, Greg and Gerald, returned home with the Dales to spend the weekend.

All of the Dale children were home on Saturday. In addition to the Conners were Mr. and Mrs. Bill Martin, Yalonda and William, and Mr. and Mrs. Cyrus Dale, Cindy and Rhonda, all of Oklahoma Lane; Mr. and Mrs. Donald Dale, Marci and Blinda of Bovina; and Mr. and Mrs. Gilbert Dale, Guy, Gyle and Gerad of Muleshoe.

Other visitors were Rev. Moody Smith of Oklahoma Lane, Rev. and Mrs. Gene H. Davis of Muleshoe, Mrs. Donna Cheshire, Amie and Terria of Houston, Mrs. Oather Dale of Oklahoma Lane, and Robbie Harris of Quanah.

### Mrs. Harold Jones Honored With Shower

Mrs. Harold Jones of Farwell was honored with a pink and blue shower July 20 at St. John's Lutheran Church in Lariat.

The table was covered with a lace cloth over a blue underlay. It was centered with a pink carousel with baby accessories hanging from the canopy. Refreshments consisted of dessert bars and pink lemonade.

The hostess gift was a play pen, and they presented the honoree with a corsage.

Hostesses included Mes-

### Oklahoma Lane Variety Club Has Chicken Fry

Oklahoma Lane Variety Club met in the home of Dora Verner in Farwell on July 20 for its regular meeting, and chicken fry for members and guests.

Those present from Farwell were Mr. and Mrs. W.N. Foster, Mr. and Mrs. G.T. Watkins, Carrie Christian, Cora McGuire, Garner Briscoe and the hostess.

Others who attended were Mr. and Mrs. L.M. Grissom and Lola Jean, of Bovina, and Mr. and Mrs. Sam Sides of Hereford.

Next meeting has been set for August 18 in the home of Charlie Eubanks of Bovina.

dames Richard Haseloff, Mike Haseloff, James Haseloff, Adolf Haseloff, Jo Geuther, Wilbert Kalbas, Ray Lauderback, Ernest Ramm and Gilbert Kaltwasser.

### Patio Lights from Plastic Bottles

Add beauty to the summer nights - with these softly glowing lights. They're fashioned out of white plastic bottles! Used with Christmas tree lights, the soft glow of color is really lovely.

Cut off the top of the bottle, making a lantern about 6 1/2" deep. To allow light to shine through, and to allow drainage in case of sudden shower, cut four holes in the bottom.

Make openings for hanging each lantern over the light bulbs by making two L-shaped cuts, 1" down and 1" in at the top edge - opposite each other. Make a hole for the light cord at the end of the "L" cut.

A scroll design was used to decorate the lanterns shown. Any design you select should first be drawn on tracing paper, then transferred to dark-colored adhesive-backed or construction paper. Carefully cut out the tracing and glue it to the lantern. To create a design similar to the one shown, cut out a number of "S" curves of varying sizes. Glue to the lantern, allowing a portion of each "S" to touch the next one. Or, you may trace your design directly onto the lantern and then paint the design with enamel.

For nearly 100 more ideas for the clever recycling of plastic bottles, bags and baskets, get the book, "99-plus Plastic Projects." To obtain your copy, send 75¢, along with your name and address, for book number 188 to:

## Demonstration Given To Oklahoma HD Club

Oklahoma Lane Home Demonstration Club met July 22 in the home of Mrs. Robin Mahaney. She conducted the opening exercises and read the poem, "My Rights." Roll call was answered by telling about the best laugh the women had had lately.

The Texas State Home Demonstration Convention to be held September 21-23 was discussed at the business meeting.

Jana Pronger, Parmer County Extension Agent, presented

a canning and freezing demonstration.

Attending were Mesdames Buddy Foster, Robin Mahaney, Vernon Symcox, Jimmy Franse, Mike Camp, Doug Autrey, Johnny Curtis, Bobby Foster and Mitchell Walls.

The next meeting has been set for August 12 at 2 p.m. in the home of Mrs. Eddie Winegeart of the Oklahoma Lane Community. A cosmetic firm in Clovis will present the program.

All former members of Troop 200  
and their families are invited to attend the  
Eagle Court of Honor  
and reception to follow for

## Local Couples Recount Recent Hawaiian Adventure

by Shirley Gorman

Three Farwell couples recently attended the Lions International Convention in Honolulu, Hawaii. Those making the trip were Mr. and Mrs. James Craig, Mr. and Mrs. Lee Hutchins and children and Mr. and Mrs. John Getz.

The Craigs and Hutchins family toured the island of Oahu together, and the Getzes joined six couples from Clovis. The men are members of the Clovis Noonday Lions Club. These seven couples plus one of their sons made a group of 15 to travel about the island sight-seeing, as well as visiting the other islands.

The Texico-Farwell and Clovis delegations were part of a group of 190 New Mexico Lions and their families who made the journey together, leaving Albuquerque and arriving in Honolulu via Los Angeles on June 17. The area couples had a week in Honolulu before the Lions convention began so they had time to visit the many attractions.

When the Craigs and Hutchins arrived at their motel in Honolulu they found fresh pineapples in their room. From the windows of their rooms they could look out onto a garden of "octopus" trees and wild orchids. Gloria Hutchins said it was a common occurrence for birds to eat from their hands.

On Friday, June 18, they rented a station wagon which they used to transport themselves around Honolulu and the island of Oahu, where the city is located. In Honolulu they visited a fashion factory where the aloha shirts are made and the adjacent gift shop which sold the items made at the factory.

Craig commented that the factory cut \$4,000 worth of material at one time. He added that it takes all day for the cloth to be laid out so the machine can cut it. The cutting table was 75 feet long. The cut pieces were then stacked in

rows two feet high.

Mrs. Hutchins said that while in the gift shop the sales clerks took complete charge of her three children, Geretta, Carl and Daniel. "They helped them pick out what they wanted and I did not have to do anything," she added.

That night the travelers dined at Fisherman's Wharf and the next day they visited the memorial to the U.S.S. Arizona, one of the American naval vessels sunk at Pearl Harbor during World War II. They also visited the national cemetery where the names of 28,000 soldiers are listed as missing in action.

Saturday night they enjoyed the Al Harrington Luau. Harrington is a former star of the "Hawaii Five-O" television series. The visitors enjoyed the Hawaiian feast and the Polynesian show.

During the following days before the convention began the sight-seers toured the island of Oahu. They traveled around the windward side from Diamond Head to Blow Hole, which acquired its name due to the fact that as the waves splash through the hole in the rocks, they form a natural geyser.

They were also able to visit the Sea Life Park and saw all types of marine life. They were also treated to a dolphin and whale show.

Another stop on the itinerary included the sugar mill at Kahuka, another city on the island of Oahu. Hutchins said the mill was no longer in production, but was still operated to demonstrate to tourists how sugar was made from sugar cane.

A stop at Waimea Falls State Park treated the onlookers to a splendid array of flowers, plants and birds. Nell Craig said the colors of the Hawaiian flowers impressed her the most. "They were so bright and vivid," she explained.

Later on the travelers drove through pineapple and sugar cane fields located in the middle of the island. Craig commented that it takes 18-24 months for pineapples to mature and two years for sugar cane to reach its maturity.

For a day, Craig "abandoned" his fellow group members and went deep sea fishing with five other members of the Lions New Mexico delegation; four from Tucumcari and one from Farmington.

Craig said that one member of the party caught a 125-pound tuna. While fishing they spotted a boat that had capsized the night before. They reported their find to the coast guard and the men were rescued.

Later, Craig learned that the three men who had spent the night in the capsized boat were Al Harrington's father and two brothers.

While Craig was living his deep sea fishing adventure, the rest of the party visited a pineapple factory. They were able to witness the complete canning process. They explained that the pineapples are brought on barges from the other islands.

The Lee Hutchins family dropped in to visit Glendon Moss, a former Farwell resident who now lives on the island of Oahu.

Later the excursionists visited a zoo. They were surprised to learn that the facilities housed farm animals such as horses and chickens. The visitors from Farwell also observed a Kodak Hula Show and visited the Foster Botanic Gardens and the Cultural Center, which contained shops from all the countries represented in Hawaii.

The sightseers climbed the Aloha Tower and later dined in a Japanese restaurant. Craig said each table seated eight persons and the food was cooked in front of them by an "expert chef who enjoyed putting on a show." He added that the chef made an elaborate

spectacle of tossing their shrimp.

They ate with chop sticks. Mrs. Hutchins said they delighted a Japanese family sitting next to them with their struggles to master the chop sticks.

They also enjoyed exotic foods at a Polynesian restaurant. Hutchins explained that while they were delighted to sample all types of foreign foods, his children preferred the old standby hamburger and pizza restaurants.

Mrs. Craig commented that the beauty in which their food was served was "amazing." Flowers always decorated their plates and the meal usually consisted of rice and pineapples along with the rest of the meal.

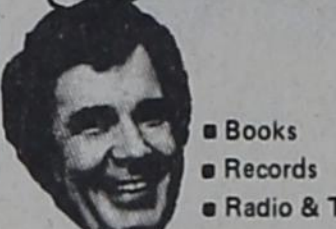

Mrs. Hutchins said they encountered non-English speaking people as well as some fellow tourists from England. She remarked that she was amazed at all the people they met and added that "she liked them all."

Other sites the party visited included the Kwanyin Temple of the Taoist religion. They were awed by the burning of incense and the different way these people worshipped, but they all agreed that it was a "good thing" for them to

experience. The Lions International Convention began Wednesday, June 23. The opening parade lasted four and one-half hours. The New Mexico delegation dressed in Indian costume and had authentic Navajo Indian (Continued on Page 9)

One hundred sixteen billion, four hundred eighty-four million, three hundred thousand, six hundred... or putting it all together numerically 116,484,300,600. That's the number of sandwiches (standard slicing, one-pound loaves) which could be made from the food stocks DONATED by the United States during the past year to countries designated by the World Food Conference as MSA (Most Seriously Affected). Enough for a pretty impressive picnic. Also a good example of the importance of American production to world food supply. Donations to the MSA, although impressive in terms of sandwich counting, are only a small part of the total exports of American grain crops since over twenty-five times as much grain as that given away was sold on the world market. Now to figure out the importance of world trade use your own calculator... this one doesn't go that high.

dancers performing with them. Mrs. Hutchins said the Indians were a hit. Onlookers taking numerous pictures of the dancers often caused them to lag behind the rest of the parade.

A flag ceremony was held that night in which the flags of the 149 countries who have Lions Clubs were displayed.

A speaker at the convention was Jack Valenti, president of the Screen Actors Guild. The Lions Humanitarian Award,

which is given to a non-member, was presented to Dr. Jules Stein. Dr. Stein was introduced by Jack Lord, star of Hawaii Five-O, Claire Booth Luce and Gary Grant. Dr. Stein is an optometrist who has branched into the record and movie industry. He had recently donated \$1 million to a hospital in California that is engaged in eye research.

Those elected to international offices included Lloyd Morgan from New Zealand, third

vice-president; and Jose Sobrial from Brazil, president. Ed Flood of Amarillo was named as one of the six international directors from the United States.

During the four-day convention they were treated to an International Night show which featured performances from different countries in the South Pacific.

While in Hawaii, Carl Hutchins celebrated his eighth birthday with a party at their motel in Honolulu. There was a lei on the cake with the words "Happy Birthday Carl."

\*\*\*\*\*  
There were many highlights for John and Joann Getz during their Hawaiian visit. Among the most outstanding was their one-day tour of the Polynesian Cultural Center on the opposite side of the island of Oahu. "It was an unforgettable day filled with things to do, see and enjoy," related Mrs. Getz.

"If one were to describe the Center, it would be 'authentic living villages transplanted from islands of the South Pacific' where the people of Polynesia have transplanted the crafts and charm of their homelands," she explained.

The six island cultures represented at the Center are Tahiti, Tonga, Fiji, Samoa, Old Hawaii and Maori, New Zealand. In the afternoon, the visitors saw the "Pageant of the Long Canoes" -- a procession of Polynesian outrigger canoes, bearing the islanders in authentic costumes, in a revue of songs and dances of the different island groups.

The most spectacular Polynesian adventure was the evening revue "Invitation to Paradise" with a cast of 175 islanders performing authentic folk songs and dances of their different cultures.

"The purpose of it all," explained Getz, "is a non-profit and cultural activity of the Mormon Church, created to portray the arts and crafts of Polynesia and to provide jobs and scholarships for Polynesian students attending Brigham Young University (Hawaii). More than 600 students 'work' their way through college by singing, dancing, and filling other assignments at the Polynesian Culture Center.

"Upon completion of their education these Polynesian students return to their homes

having acquired a modern education, knowledge of their own culture, a respect for other cultures, and are equipped to help in the development of their homelands," added Getz.

One day, the entire group of 15 took a one-day tour of the island of Maui, taking the SeaFlite over in the morning and returning by air that night. "The SeaFlite was an exciting experience," said Mrs. Getz, explaining that it is a hydrofoil or jetfoil that skims over the waves at 50 mph and "you have no sea motion at all."

At the top of the "highlight" list for the Getzes was the day they spent on the island of Kauai, the garden isle. They made the trip by air flight with one of the Clovis couples, Ralph and Jo Marie Balfanz.

"The rest of the Clovis group missed a most eventful and exciting trip," remarked Mrs. Getz.

"Not only was the island breathtakingly beautiful and almost beyond description, but we had a very special treat in store for us. Joe Marie's cousin and husband own and operate Kahili Mountain Park, a camping resort on Koloa, Kauai. We were invited there and arrived a little before 8 o'clock in the morning, as it was only nine miles from the airport. Her cousin Beverly was waiting to welcome us with hot coffee, and from the refrigerator she presented us with bouquets of gardenias. The white wax-like gardenias filled her home with their beauty and aroma. "We were taken on a tour of

their ranch to see their prize Appaloosa horses. They were magnificent and we enjoyed seeing them, but we didn't have long to linger. Jo Marie's cousin had mapped out a morning itinerary for us and we were to meet her for lunch at the country club on the beach. We were off again after lunch in our rented car and made the entire circle of the island, catching our plane back to Oahu late that evening," related Mrs. Getz, "still awed by beautiful Kauai."

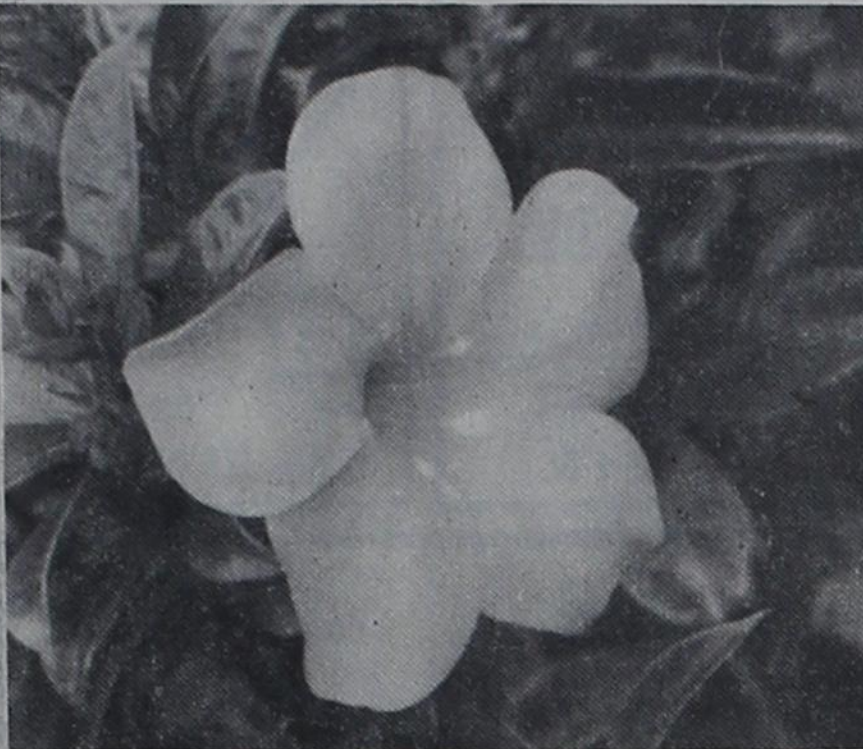

The Getzes reported that there were many other eventful visits and trips while on the

island. The day after arrival in Honolulu, the group took the Pearl Harbor cruise in the afternoon and attended the Al Harrington Luau and Show that evening. The next day, in their rented 12-passenger van which contained the group of 15 (togetherness was the order) they toured the coast line of Oahu with their destination,

Paradise Park. "This was truly one of the highlights of the island -- really a miniature garden isle with its 15 acres of lush, natural beauty and more than 500 rare and brilliant tropical birds," described Mrs.

Getz. Each day was filled to overflowing, reported the Getzes, explaining that they did many of the things and visited many of the same places as did the Craigs and Hutchins, and enjoyed them all.

The New Mexico group left Hawaii Sunday, June 27, for their seven-hour flight back to Albuquerque. From there the local couples drove home to Farwell, arriving on the 28th, a tired but happy band of travelers who will always remember and cherish their Hawaiian adventure.

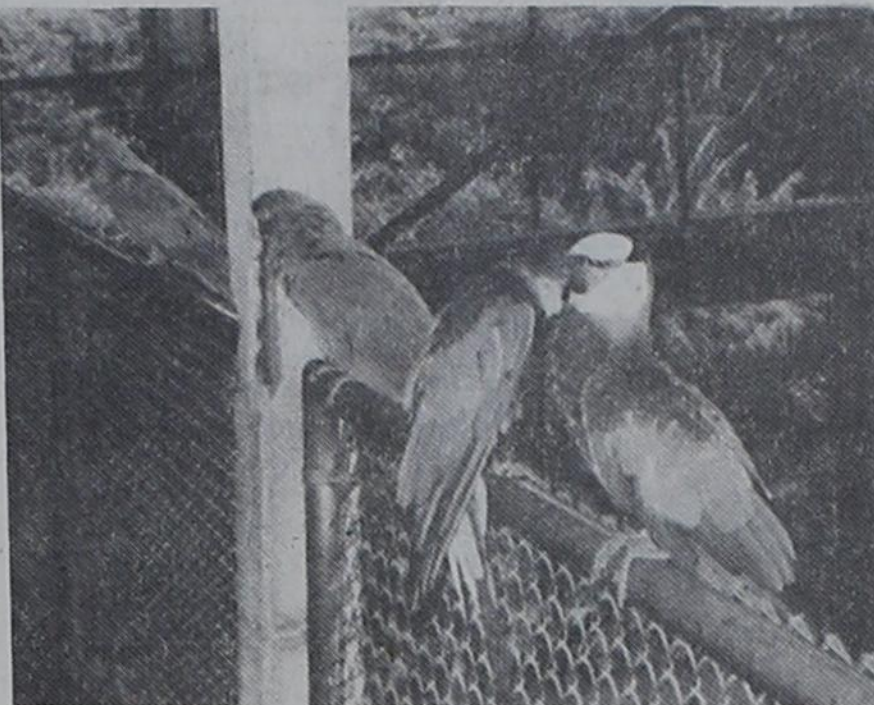

**Vivid Flower**

While in Honolulu, Hawaii, Nell Craig, who is a photography buff, encountered ample opportunities to capture beautiful Hawaiian flowers on film. She remarked that the intensity of the colors of the flowers were breathtaking.

**Blow Hole**

The spout of water in the right foreground is caused by the ocean waves hitting hard against the rock formation on the coast line causing the water to shoot up many feet into the air through a hole in the rock.

**Birds In Paradise**

Like a picture postcard, but a true photograph, these birds are some of the more than 500 rare and tropical birds that make their home in Paradise Park near Honolulu. Visitors walking through the cage part of the Park where these birds were kept were advised to remove their jewelry, especially earrings, as the birds were attracted to the jewelry and were known to grab it and fly up beyond grasp.

**TWO MINUTES WITH THE BIBLE**

BY CORNELIUS R. STAM, PRES. BEREAN BIBLE SOCIETY CHICAGO, ILLINOIS 60635

**THE TIME ELEMENT IN SCRIPTURE**

How many problems would be solved, how many seeming contradictions in Scripture explained, if we were more careful to note the time element emphasized so strongly in the Word of God.

In Romans 5:12 we learn that sin entered the human race by Adam. Then later "the law entered" (Ver. 20). But still later the Apostle Paul arose to say, "But now the righteousness of God without the law is manifested" (Rom. 3:21).

Early in man's history blood sacrifices were required for acceptance with God (See Gen. 4:4, Heb. 11:4); later circumcision and the law (Gen. 17:14, Ex. 19:5) and still later, repentance and water baptism (Mk. 1:4, Acts 2:38). But not until Paul do we learn of salvation by grace through faith alone, on the basis of Christ's finished, all-sufficient work of redemption.

This is why the apostle refers in Gal. 3:23 to "the faith which should afterward be revealed." This is why he declares that our Lord "gave Himself a ransom for all, to be manifested in due time, and adds: "whereunto I am ordained a preacher and an apos-

"Sales and Loans Are Our Service"

## On The Farm In Parmer County

By R. MACK HEALD  
County Agent

Some West Texas sweet corn growers and home gardeners may get a backache picking their early crop of sweet corn this year. The problem seems to be that varieties which normally bear their ears at waist height are pushing the ears out of the plant at a point lower than knee high on plants three to four feet tall.

Several weather factors combine to cause this phenomenon. Day length is one factor. Most sweet corn varieties are not acutely sensitive to day length, though some hybrids seem to be quite sensitive when planted early.

In the sensitive hybrids the period from plant emergence to flowering (tassel and silk formation) is shortened by short days and lengthened by long days. Practically speaking, this means that when these hybrids are planted in March and April, the plant flowers when the day length reaches 12 or 13 hours even if the plants are still small.

Temperature exerts a marked effect on corn growth. Active growth occurs in sweet corn only when the air temperature rises above 50 degrees Fahrenheit. There were many cold nights and cool days in April and May, and sweet corn made little or no growth.

Sweet corn is very sensitive to soil moisture. We have been short of rainfall during the period of maximum growth for early sweet corn. Drought

stress restricts plant height. All of these limiting factors work together to produce a corn plant of relatively short stature. Later plantings of sweet corn will have taller plants if water and nutrients are applied properly.

Later plantings of midseason and late hybrids should be sidedressed with nitrogen fertilizer at the time of tassel exertion. Ammonium nitrate sidedressed at the rate of 100 to 125 pounds per acre (about one pound per 100 linear feet of row for home gardeners) will provide an adequate supply of nitrogen to the plant during the critical period of ear formation. In addition, irrigations must be scheduled only several days apart to prevent drought stress during ear development if rainfall is inadequate.

Texas producers shopping for certified planting seed for the 1977 season will see a change in the certification label accompanying each bag of seed. Starting next year, seed will be certified for genetic identity only.

Although the new certification label assures that the seed is the variety stated on the label, the big change is the fact that it does not relate to any seed quality factors such as purity, inert matter, other crop seed, weed seed, noxious weed seed and germination. The Texas seed law, however, still requires that this information

be truthfully stated on the analysis label accompanying the seed.

The change in seed certification which becomes effective Jan. 1, 1977, means that producers will have to pay particular attention to the labels on the seed bag. The certification label will tell them what variety the seed is, and the analysis label will provide information on quality factors.

Both labels tell the complete story about the seed, but keep in mind that quality factors can vary even though the seed is certified.

Certification for genetic identity means that seed has been produced and processed under standards and procedures established by the Texas Seed and Plant Board and enforced by the Texas Department of Agriculture to assure that the variety is as represented by the certification label accompanying the seed.

Reading the label has always been of importance in purchasing seed, but the new standards will place even greater responsibility on the producer to carefully read both labels to determine if the seed meets his quality requirements.

There are a number of reasons for the change in seed certification standards:

-To assure a more dependable supply of seed officially certified as to genetic identity.

-To establish uniformity with the Federal Seed Act.

-To encourage international seed trade.

-To allow production of certified seed having quality characteristics for different market needs.

The change gives seedmen more flexibility in producing seed for different markets, and at the same time promotes a plentiful supply of high quality seed.

## COURTHOUSE NOTES

Instrument report ending July 7, 1976, in County Clerk Office, Bonnie Warren, County Clerk.

**Electric  
Camp**

High above the plains of Texas, in the cool of the Sacramento mountains of New Mexico, a delegation of 4-H'ers from Parmer County attended the 4-H Electric Camp last week which is located 28 miles southeast of Cloudcroft, N.M. Those who attended the camp, sponsored by Southwestern Public Service Company are, left to right, first row: Dale Ramsey of Lubbock, Southwestern instructor; Kelly Mitchell of Farwell; Kenny Guest of Bovina; Tommy Mesman and Ted Mesman, both of Farwell; back row: Joan Carson of Bovina; and Linda and Cheryl Gohlke, both of Farwell.

### Youth Revival Slated

Youth of the First United Methodist Church in Muleshoe are sponsoring a Youth Revival July 30-August 1.

Johnny Ray Watson, a noted writer and singer, will be the guest for these three nights. Services begin at 8 p.m.

### Pvt. Tunnell To Fort Hood

Army Private Danny D. Tunnell, 18, son of Mr. and Mrs. Thomas F. Tunnell of Farwell, recently was assigned to the 1st Cavalry Division at Ft. Hood, Tex.

Pvt. Tunnell, a tank crewman in Troop C, 1st Squadron of the division's 9th Cavalry, entered the Army in November 1975 and completed basic training at Ft. Knox, Ky.

The private attended Clovis High School.

Friday and Saturday, and Sunday evening services will begin at 6 p.m.

There will be a fellowship each evening following the services with "something special" planned, reports the church secretary.

### Here's a tip for campers!

Be sure to include a box of complete pancake mix in your cooking supplies. It's so convenient; all you add is water to make delicious, hearty pancakes or a batter for frying fish. It's also great as the basic mix for biscuits.

### Sheriff's Report

Parmer County Sheriff's Department reported three incidents this week. The first occurred July 19 when truck tires were reportedly stolen from the warehouse of the Friona Transport Co. in Friona.

On July 21, a well under construction at the Jack Nelson farm, north of Bovina, was vandalized.

A burglary was reported at the A.R. McCutchen home in Bovina on July 25.

The sheriff's department is investigating all three reports.

*John Howard (Jack) Rose  
requests the honor of your presence  
at his  
Eagle Court Of Honor  
on Saturday, July 31, 1976  
at Eight o'clock in the evening  
St. John Lutheran Church Lariat, Texas*

### FIRE CALLS

Neither the Farwell nor Texico volunteer fire departments reported fire calls or emergency vehicle runs this week.

### Parmer County SWCD Meets In Regular Session

The Parmer County Soil and Water Conservation District held its regular monthly meeting Tuesday, July 6.

Attending the meeting were Leon Grissom, chairman; Jimmie Cockerham, vice-chairman; Leroy Johnson, secretary; and Dan Smith and M.C. Osborn, members. Also attending were Herb Evans with the SCS; Mack Heald, County agent; Fred Squyres, with the State Soil Conservation Board; and Albert Cupell, district bookkeeper.

Regular business and correspondence were taken care of. The board was informed that there were Great Plains Conservation Program funds available. The local SWCD's history and the itinerary for a tour of Kentucky farmers was reviewed. Plans were made to hold the SWCD Election at Hub this year for sub-division #3.

The board ordered a new flow meter for checking irrigation wells.

Fred Squyres brought the board up to date on state and national conservation activities.

### SWCD News

Herb Evans and Duval Burton of Friona are attending the 10th Annual State meeting of the Soil Conservation Society of America.

The theme for this year's meeting is "Critical Conservation Choices: A Bicentennial Look." Each year the meeting brings conservationists from the entire state up-to-date on current conservation and environmental problems and solutions.

Activities begin Thursday and continue through Saturday at College Station.

Evans and Burton are both members of the local Golden Spread Chapter of the Soil Conservation Society of America which covers the panhandle.

### POSITIONS OPEN
