'A Texan At Bay' - -

## Big D's Paul Crume Succumbs To Cancer

Paul Crume, former resident of the Farwell-Lariat area and front page columnist for the Dallas Morning News, died Sunday at Dallas at the age of 63 following a lengthy bout with cancer.

At the age of 12, he began working part time as printer's devil, sweeper-outer and staff reporter for the State Line Tribune.

Mr. Crume was a 1936 graduate of the University of Texas at Austin, graduating near the top scholastically in his class, even though he had to work his way through the university, sometimes as a cafe dishwasher. He joined the staff of the Dallas News that same year.

With the exception of four years of service as a U.S. Navy officer in World War II, mostly in the North Pacific, he performed for The Dallas News until his death.

PAUL CRUME

First In Crop Receipts - -

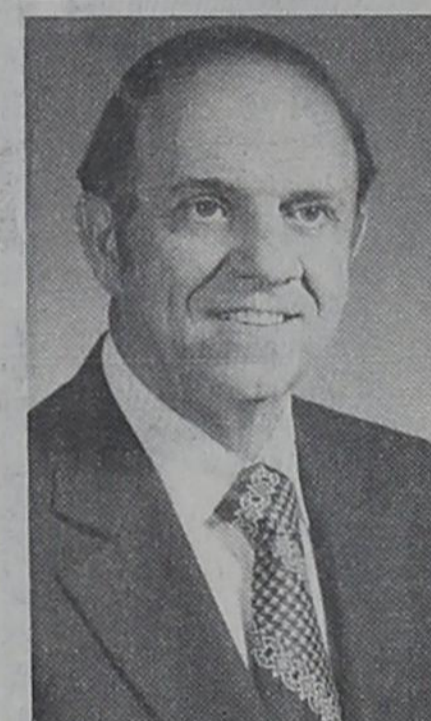

## County Listed Third In 1974 Farm Income

Parmer County ranked third in the state in farm marketings in 1974 with a total from crops, livestock and government payments of \$159,990,000, according to a report issued by the Plains Cotton Growers, Inc., for the 25 counties represented by the Lubbock-based organization. A statewide report from the Texas Crop and Livestock Reporting Service was used as the source.

Castro, Hale, Lubbock, Lamb and Swisher counties finished in the fourth through eighth positions respectively.

Parmer County topped the 25-county Plains area in the 1974 crop receipts with \$93,052,000 and was second in livestock receipts with \$65,153,000. In the Plains area, Hale County was second in crop receipts. Castro was third and Deaf Smith fourth.

Other national magazines, and columnists all over the country quoted him. In his writings for the News, Mr. Crume put Lariat, Tex., on the map with his columns and his reflections of the area in his book, 'A Texan at Bay.' Many of his daily (Continued on Page 2)

## Festival Of Thanksgiving Set At Methodist Church

The Council on Ministries of Hamlin Memorial United Methodist Church announced the Fall Festival of Thanksgiving Services to be held November 23, 24 and 25. Mrs. Ted Magness is chairman of the Council on Ministries and Mrs. M. A. Snider, Jr. is the chairman of the Evangelism Work Area, under whose direction the planning of this event was assigned.

Members of the administrations of the Farwell and Texico school systems have announced Thanksgiving holiday dates for the schools.

## Picture Re-Takes Slated At Texico

Re-takes for class pictures at Texico High School will be conducted Monday, Nov. 24. If a student did not have a picture made on the first go-around, it is important that pictures be made Monday, according to Kay West, yearbook sponsor.

## Holidays Slated At Schools

Farwell students will be dismissed Wednesday, Nov. 26, at 2:30 p.m. CST. Students will not return to classes until Monday, Dec. 1, when school will begin at the regular time.

Additional evening services will be held Monday and Tuesday, Nov. 24 and 25, in the (Continued on Page 2)

## 4-H Gold Star Winners Announced At Banquet

The 1975 Parmer County 4-H Awards Banquet was held Saturday, Nov. 8, at the Friona High School. As is the banquet's title, numerous awards were presented to 4-H winners, both young and old alike, for their work. The banquet, sponsored by Deaf Smith and Bailey County Electric Cooperatives, was attended by 4-H people from throughout Parmer County.

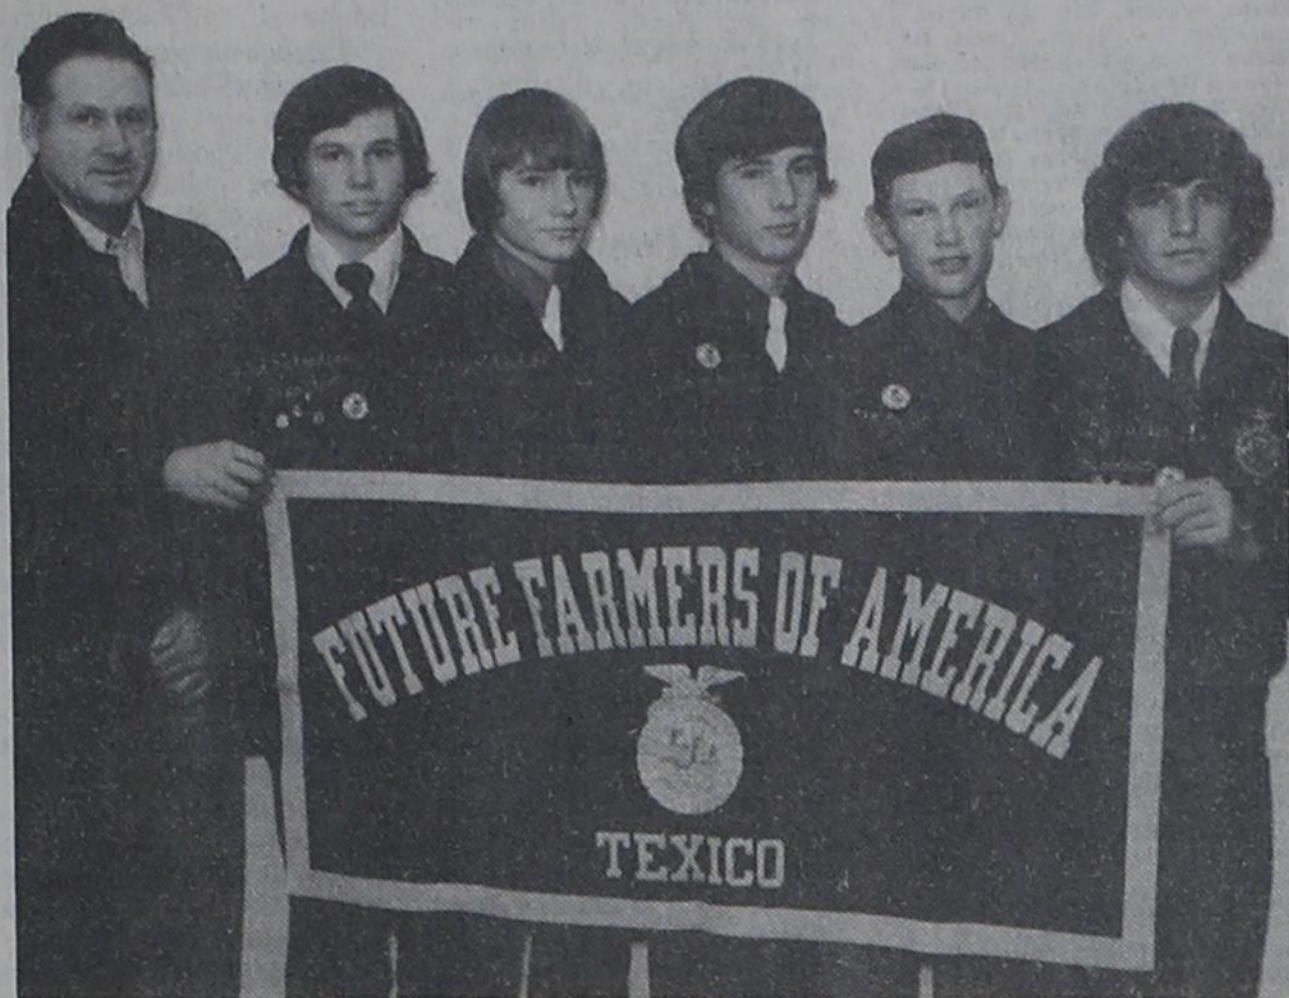

Winners of the prestigious Gold Star Awards for Parmer County were Cheryl Gohlke and Michael Mimms. Miss Gohlke, a senior at Farwell High School, has been in 4-H work for over eight years. She has carried projects in Food and Nutrition, Dairy Foods, Food preservation, Clothing, Safety, Poultry, Home Environment, Bicycle, Child Care and Junior Leadership. She has held several club and County Council offices, as well as serving on the District Council. Cheryl is the daughter of Mr. and Mrs. Hubert Gohlke of Oklahoma Lane.

GOLD STAR 4-H'ERS - Cheryl Gohlke and Michael Mimms display trophies they received for being selected Parmer County's Gold Star 4-H winners during a recent banquet. Among those attending the banquet and presentation were, from left, Mack Heald and Jana Pronger, Parmer County Agents; Mimms, Miss Gohlke, County Judge Paul Fortenberry, who made the presentation, and Billy Gunter, District II County Extension Supervisor. The banquet was sponsored by Deaf Smith and Bailey County Electric Cooperatives.

This has been a banner Fall season for the Farwell High School marching band. It was capped off two weeks ago when the band won a I Division rating at the UIL Regional Marching Contest in Lubbock. With 100 members in the marching unit, it has always made a very impressive spectacle during the halftime ceremonies at all football games.

ATTEND CONVENTION - These five members of the Texico Chapter of Future Farmers of America, along with Roy Richardson, attended the 48th National FFA Convention in Kansas City, Mo., Nov. 8-15. Representing the local chapter were, from left, Richardson, Ted Richardson, chapter reporter; Ken Richardson; Don Cherry, chapter sentinel; Monty Leavell; and Rusty Rucker, chapter president.

## Five Texico FFA Members Attend National Convention

A large share of the credit has to go to Band Master Lynn Burton who is seeing the fruits of the last several years' labor paying off in a handsome manner. Yet, too, a great measure of thanks must go to the 100 dedicated young people who have put in countless hours of practice since school started in September. It is a marching testimonial to the old axiom, "practice makes perfect."

Vice-president Nelson Rockefeller was the featured speaker of one of the sessions. In his address, Rockefeller told approximately 20,000 FFA members and guests: "Today we see young people searching for meaning in their lives in all sorts of ways - good and bad. I cannot think of a better place to learn how to be a good American and a useful human being, than right here through the Future Farmers of America."

Other featured speakers included Jimmy Carter, former governor of Georgia; Johnny Bench, baseball catcher for the Cincinnati Reds; John Connally, former Secretary of the Treasury; and Jerry Clower, humorist and fertilizer salesman. FFA Members were also entertained by Tanya Tucker, country and western singer.

Gonzales Retains Lead - -

## Clovisite Has Key To Weekly Prize

Kirk McFarland, Nathan Newcomb, Earlene Porter and Elaine Wardlaw. With only one week left in the 1975 edition of the football contest, Sam Gonzales of Muleshoe still holds a solo lead. Gonzales sits in first place with a total of 85 points. He is followed by Carl Kirkland who has 82 points for the overall contest.

Third place is held by Earlene Porter who has racked up an accumulated total of 80 points while four persons are sharing the fourth place position. In fourth place with 78 points are Mrs. E.A. Key, Leigh Ann Kirkland, Sue Kirkland and Frances Norton. Holding the fifth place slot with a total of 77 points are Bill Craft and Albert Smith.

With the Grand Prize and Second Prize, weekly prizes will also be awarded for the final week of the contest. So if you aren't in the running for the top two prizes, enter anyway. You may come up with one of the three weekly prizes of \$5, \$3 or \$1 for your efforts.

She was followed into the weekly winners' circle by Lorine Dannheim who took second place by calling nine games and being 19 points off on the tiebreaker.

Along with the Grand Prize and Second Prize, weekly prizes will also be awarded for the final week of the contest. So if you aren't in the running for the top two prizes, enter anyway. You may come up with one of the three weekly prizes of \$5, \$3 or \$1 for your efforts.

Lorine Dannheim received \$3 for her second place win and Roberts and Eileen Dannheim split third place prize money of \$1.

The person who has the greatest number of accumulated points at the end of the contest this week will be named Grand Prize winner. For the win, the person will be awarded two tickets to the Cotton Bowl Game to be played New Year's Day 1976 at Dallas. Along with the

JOHNNIE ON THE SPOT with cash in hand for last week's second place win in the 11th week of the Annual Football Contest was Johnnie Williams of Sherley-Anderson-Pitman Elevator of Farwell, a sponsor of the annual event. Taking the cash prize of \$3 is Lorine Dannheim who captured second place on a tiebreaker score. First place was \$5 garnered by Mrs. E.A. Key who called nine games but was 11 points off on the tiebreaker while Mrs. Dannheim was 19 points off. Third place was split by Eileen Dannheim and W.M. Roberts who each called nine games but failed to enter a tiebreaker score.

This country's farmers always do things in a big way. They are the undisputed leaders in the worldwide production of food and fiber.

Incidentally, can you think of anything else produced in the USA that can compete on the world markets, price-wise?? Their programs, their organizations and their conventions are always the biggest and best attended.

Then it comes as no surprise that the farmers are planning, producing and undoubtedly will have the biggest bicentennial celebration event staged in 1976. Already these facts are a reality.

An entire 91-acre exhibit area is sold out. Reservations are being taken now for a probable expansion of this area.

Nearly 500 companies and organizations are already taking part. The nation's 450,000 FFA members will conduct ticket sales.

The prospects are for over 1,000,000 visitors. This huge extravaganza is labeled "FARMFEST 76" and it will be held next September 13-19 in Crystal Lakes, Minn.

Gerald and Ann Norton furnished us with the brochures on this great spectacular. They commented that it would be wonderful if enough interest could be generated locally so that maybe a charter trip from Parmer County could be arranged. Let's have some ideas on this suggestion.

How is your geography? Ours is kinda rusty. We recall, in our grade school days, that we had a map of the world showing the pre-World I political divisions and then a later map showing the post-WWI alignments.

We thought then how easy it had been for the pre-WWI kiddos to know the countries of the world and look what we had to wrestle with. Today there are so many countries, if that's the name, coming into existence that we now wonder how geography can ever be taught.

Try to place these names on your mental map of the world: Bahrain, Bangladesh, Burundi, Cape Verde, Equatorial Guinea, Gambia, Guinea Bissau, Madagascar, Maldive Islands, Mali, Malta, Sao Tome e Principe, Sri Lanka, Tanzania, Barbados, Fiji. Some of these names are vaguely familiar because they used to identify a geographical location and not a political entity. This is only a partial list of the political pipsqueak countries that currently make up that monstrosity known as the United Nations. To take a beating on a UN vote from "countries" of this size is plain silliness.

If these are countries, then let's divide Texas into five parts and apply to the UN for membership and get Uncle Sam's relief money.

# 4-H Awards Presented At Banquet

Approximately 100 people attended the Parmer County 4-H Achievement Banquet in Friona Saturday night, Nov. 8. This event was attended by 4-H members and parents from throughout Parmer County. As in years past, this banquet was sponsored by the Deaf Smith County Electric Cooperative and Bailey County Electric Cooperative.

The banquet activities were conducted by 4-H members from each club in the county. Master of ceremonies was Gary Don Schueler of Rhea. Giving the invocation was Jimmy Rhodes of Bovina. Jacquelyn Langford of Farwell led the Pledge of Allegiance and Lezi Williams of Bovina led the 4-H Motto and Pledge.

## Purely Personal . . .

It was planting time? Where were they when drouth, insects, hail, rain, wind and storm were taking toll on the crops?

They were all busy as beavers making it tough for the farmer. They were busy raising prices of everything the farmer had to buy. They were busy passing ecological laws making it more expensive for the farmer to raise that grain.

Now that the grain is in the bin and the world market looked as if the farmer might make a small profit, these folks come charging out of the woodwork regulating the sale and price of "our" grain.

If there is ever a time for farmer unity, this is it. The farmers of the nation must tell George Meany and company that this is their grain and that they should sell it for the best price to whomever will pay that price.

If this country is to survive economically it will be through the programs of the farm organizations - not the labor unions.

4-H FAIR TROPHIES  
CANNING, Wanna Menning, Oklahoma Lane.

# Ghost Writer Contest Being Held At Texico

Throughout past generations people have had knowledge of mystery or "ghost" writers who have chosen to pen their works as "anonymous" or under an assumed name. Another such writer has now appeared at Texico Schools and the revealing of his or her identity will be worth a reward.

First reports of the event read as such: "The spirit of the great Wolverine was discovered in the halls of the Texico Schools moaning because it had been forgotten. The spirit found a ghost writer to tell the story of the Wolverine and its spirit."

Works of the ghost writer are mysteriously appearing on the bulletin boards of the Texico Schools. In each writing, various facts about the Wolverine are being revealed telling of the high spirit and viciousness of the creature.

Any student or faculty member of the Texico Municipal School is eligible to guess the identity of the ghost writer. Any person who believes he

can correctly name the person sought out by the spirit of the Wolverine may contact Mrs. Sylvia Burgett at the school library with their guess.

## Fields Found Guilty Of Theft

District Court has been conducted at the Parmer County Courthouse this week with one case being tried as of press time.

In court action Monday, Nov. 17, the case of The State of Texas vs. Kenneth Byron Fields, theft, was heard.

Following attorneys' presentation, the jury found Fields guilty as charged. The defendant was sentenced to seven years in the state penitentiary.

## Paul Crume . . .

(Continued from Page 1)

columns were about his boyhood and these columns were compiled for the context of the book.

The former resident was nationally renowned as a writer of wise and humorous essay columnist. He had been ill for about six months but he continued to compose columns until four days before his death. His final column for the Dallas News was about death. In the column he stated the following:

"The courts continue their gradual enslavement of the people. The judge who has been trying the Karen Quinlan case up in New Jersey has now declared that nobody has a constitutional right to die."

"The question of constitutionality of dying raises some interesting questions about basic law. We have searched the Constitution diligently and can find in it no constitutional right to be born. We are talking here about the United States Constitution; nobody can find anything in the Texas Constitution. Since a man has no constitutional right to be born or to die, his whole life appears to be unconstitutional."

Upon hearing of Mr. Crume's death Sunday, Parmer County Sheriff Charlie Lovelace commented, "When Crume and I were boys, Lariat had a couple of grain elevators, a post office, one store and one church house. Lariat is holding its own. It still has two grain elevators, a post office, one store, and a church. Crume is the greatest thing that has happened to Lariat."

Mr. Crume lived the philosophy of his father, Charles Crume, who stated, "Things ought to be decent," and in carrying out the philosophy the columnist once remarked, "If a humorous newspaper column serves any purpose it is to contribute a bit of temperate climate in a world too often hot-headed."

Mr. Crume is survived by his wife, Marion; a son, Christopher Paul of Dallas; a sister, Mrs. Mary Louise Taylor of Friona; seven brothers, Joe of Denver, Hugh of Fremont, Calif., Van of Albuquerque, Vance of Hereford, Charles of Orlando, Fla., Barney of Lubbock and Bill of Dallas.

Providing special music at the three evening services will be the Chancel Choir under the direction of Mrs. Ted Horner. Mrs. Joe Jones will be the organist.

The Fall Festival of Thanksgiving is an annual event at Hamlin Memorial Church, offering opportunity to residents of the Texico-Farwell area to join in special remembrance of what Thanksgiving means to our area, where we are so bountifully blessed. An invitation is extended to all persons in the area to attend and participate in each of the services of this Fall Festival Thanksgiving," stated Rev. W. T. Perry, minister of Hamlin Memorial Church.

## Festival . . .

# S-E Wolverines Ravage Steers In Clash

Although it was a losing effort, the Farwell Varsity Steer defense razed the Springlake-Earth Wolverines in a tremendous defensive effort last Friday keeping the visiting Wolverine's winning margin down to 23-6 with Steer Travis Bibbs displaying professionalism as he put the host Steers on the scoreboard.

Late in the second quarter an offensive play clicked for the Steers giving them their touchdown on a pass play. The Steers were set up on their own 36-yard line when quarterback Russ Jones hurled the pigskin down field. Bibbs was pacing off yardage and with the skill and ease of a pro footballer he took in the over-the-shoulder, forward motion, never-breaking-stride pass and outran his defender who was inches behind him when he hauled in the pigskin. Bibbs raced off 65 yards for the outstanding touchdown pass reception.

two yards as Steer David Cantu plunged on the runner. Faced with a fourth and 18 on the Farwell 23, the Wolverines attempted a field goal but to no avail and Farwell took over on its own 20-yard line.

After two three-yard gains the Steers picked up a first down as quarterback Russ Jones connected on an over-the-middle pass with Carlos Lucio to put the Steers on their own 37. The Steers managed three more first downs when a Wolverine deflected a pass intended for Lucio and the Springlake team intercepted.

Springlake came up with two first downs and were on the Steer two-yard line with a first and goal-to-go. On the first play of the series the Wolverines found the endzone and went out front 12-0. PAT attempt failed and the Wolverines held the 12-point advantage.

Farwell was revengeful and started a scoring drive as the Steers took the Springlake kickoff. Sammy Merritt returned the ball to the Farwell 36. The Steers failed to gain yardage on their first play but set their sights high on the second play. Russ Jones connected on a pass with Travis Bibbs who hauled in the pigskin for safe keeping then eluded the Springlake defense as he scampered 65 yards for a touchdown putting the home team in lights. PAT kick by Goettsch failed on two attempts and the Steers had closed the S-E scoring margin to six points 12-6 with 38 seconds left in the first half.

Time elapsed for the first two quarters denying the Wolverines any plays.

The second half opened with the Steers receiving. They managed three first downs before losing the ball to Springlake on downs at the Springlake 19.

The Wolverines were unsuccessful in gaining yardage and were forced to punt with Farwell taking over on its 47.

Farwell had the ball for three plays and on the fourth down the Steers lacked eight yards for a first and they punted with Springlake taking over on the Wolverine 13.

Springlake came up with four firsts with the fourth being a first down and goal-to-go from the Farwell six. On third and goal from the seven, a quarterback keeper paid off as Springlake widened its lead 18-6. PAT was good and the Wolverines went ahead 20-6.

Farwell failed to gain needed yardage and on fourth down punted with Springlake taking over.

From their 48 the Wolverines maneuvered the ball for four firsts and began their last series on the Farwell eight with goal-to-go. Goldsmith smothered a Wolverine runner and pushed them back to the 16. Springlake couldn't gain yardage and on fourth down successfully booted a field goal between the uprights to take a 23-6 lead.

Farwell took the final Springlake kickoff and began a drive to the Springlake goal line. The Steers were racking up first downs as they put four on the record books before time became an enemy. With three seconds remaining in the

game, the Steers were set up with a third and 10 from their own 44. The final seconds ticked off the clock and Farwell had fallen to their final opponents of the year as Springlake was declared victorious 23-6.

\*\*\*\*\*

"Overall, we didn't feel as if our game with Springlake-Earth was one of our better tilts," commented Farwell Coach Don Alana in reference to last Friday's clash. "Springlake has real good material, size and quickness and their record shows it. They were 7-3 for the year."

The coach further commented that the Steers' effort was "a good one. Our players didn't quit. That's one thing they haven't done all year regardless of the team they are playing, the score or situation. They have put forth as good an effort as they could with the experience they have had."

## Steer Of The Week

TRAVIS BIBBS

Travis Bibbs has been tagged "Steer of the Week" by members of the Farwell coaching staff. "We believe Bibbs played an overall good ball game both offensively and defensively against Springlake-Earth. He had 20 yards in four carries and he also caught two passes for 77 yards, one pass reception being our only touchdown of the night. He has done a good job this year. He was hurt earlier in the season with an ankle injury but he came back to perform as well as we thought he would all season," commented Coach Don Alana on behalf of the coaching staff.

## 7th Yearlings Dropped By 6

The Seventh Grade Yearlings of Farwell Junior High were dropped 26-20 in their first basketball game of the 1975-76 season when they faced Hart Monday, Nov. 17.

Taking high scorer honors for the Yearlings was Richard Carpenter who popped the net for 10 points. He was followed on the scoring ladder by Richard May who hit for six. Other Yearlings adding to the scoring effort were Boyd White, Gary White and Gary Hardage.

"This was the first game for the Seventh Yearlings both this year and in their basketball careers. They did really well for the first time out," commented Coach Don Alana. "They haven't had a chance to practice by just coming out of football season. We got together for just a short time Saturday."

The coach also commented, "We have a bunch of good kids who should work out real well as a team."

Members of the team include Richard Carpenter, Richard May, Todd Meeks, Boyd White, Gary White, Byron Mayfield, Kerri Ford, Randy Herington, Phillip Haggler, Clay Williams, Gary Hardage and Charlie Rose.

## School Lunch Schedule at Texico

- MONDAY -- Spaghetti and meat sauce, green beans, carrot stick, hot rolls, apple half, milk.
- TUESDAY -- Hot dogs, chili, pickles, onions, tater tots, fruit gelatin, milk.
- WEDNESDAY -- Roast turkey and dressing, giblet gravy, celery stick, cranberry sauce, loaf bread, ice cream, milk.
- THURSDAY -- No school. Thanksgiving Holiday.
- FRIDAY -- No school. Thanksgiving Holiday.

## What's Cooking Farwell School

- MONDAY -- Steak fingers with catsup, mashed potatoes, blackeyed peas, coleslaw, hot rolls, butter, applebutter, bread, milk.
- TUESDAY -- Turkey and dressing, giblet gravy, green beans, candied yams, cranberry sauce, peach half, bread, milk.
- WEDNESDAY -- Hamburgers, lettuce, tomatoes, pickles, onions, cheese slices, potato chips, strawberry shortcake, milk.
- THURSDAY -- No school. Thanksgiving Holiday.
- FRIDAY -- No school. Thanksgiving Holiday.

# Steerettes Record Two Wins, One Loss

The Varsity, Junior Varsity and Freshman Steerettes of Farwell High School opened the 1975-76 basketball season Saturday, Nov. 15, when they hosted Muleshoe. The Varsity and Junior Varsity Steerettes began the season by putting wins on their records but the Freshman Steerettes were dropped by Muleshoe.

Farwell Varsity began the first quarter and pelleted Muleshoe 14-6 at the end of the period. The local roundballers still held the lead at the halfway mark as they took an 11-point advantage, 23-12.

The Steerettes pumped another eight points through the hoop in the third quarter and allowed Muleshoe only four points to lead 31-16 at the end of the third quarter. Muleshoe managed to raise its score to 23 during the fourth quarter but the Steerettes were out to win and added to their score to take the victory 47-23.

High scorer for the Steerettes was Kathy Booth who popped the net for a total of 28 points. Others adding to the Steerette score were Kathy White, nine; Sheryl Woods, four; Bonnie Foster and Sherri McCully, three points each; and Missy Taylor, two.

The Steerettes hauled down a total of 30 rebounds in game action. Statistics show the team hit 12 of 40 attempted field goals for 30 percent, and 21 of 33 attempted free throws for an average of 66 percent.

"Our girls showed some desirable mental qualities in a very rough ball game," stated Steerette Coach Joe Allen. "An interesting item was our dominance in jump balls over considerably taller opponents."

The Junior Varsity Steerettes squeaked by Muleshoe as they downed the visiting team 31-30.

The first quarter closed with Farwell only two points in the lead, 6-4. As the half closed, Muleshoe had managed to close to within one point of the Steerettes, 12-11, and in the third quarter, overcame the Steerette defense and took a 24-17 lead. The Steerettes were not to be denied as they racked up 14 points in the fourth period and allowed Muleshoe only six to give the home team a 31-30 victory.

Leading the scoring for the Steerettes was Jayne Berry who averaged the hoop for 16

points. Also adding to the scoring effort were D'Lynn Eubanks, eight; Peggy White, four; and Dana Ennen, three points.

The Steerettes were successful on 11 of 38 attempted field goals for 29 percent. They hit on nine of 14 free throws for 65 percent. The Steerettes hauled in a total of 25 rebounds.

The Freshman Steerettes fell victim to Muleshoe as they were dropped 35-30 by the visiting team.

The score was six-up at the end of the first period but Muleshoe had taken a 16-14 lead at the end of the half. During the third period Muleshoe expanded its lead 22-16 and held their lead to take the 35-30 victory.

High individual scorer for the Steerettes was Paula Christian who dumped 24 points. Also scoring was April Coffman who hit 11 points.

## Scores, Wrap-Ups Not Available For JV, 7th, 8th Grades

Due to the unavailability of Farwell Coaches Bert Roanhaus, Larry McDorman and Jim Yakubovsky, football scores for the past three weeks and season wrap-up statistics are not available for publication on the Farwell Junior Varsity Steers, and Seventh and Eighth Grade Yearlings.

## INSUR-MATION

P.C. Farm Bureau Insurance  
Billy Watts Ph. 481-3395

**Why do some insurance policies pay dividends? Which ones do?**

Life insurance policies are either participating or non-participating. Participating policies pay dividends. The premium is set at a slightly higher amount than is expected will be necessary. Each year the excess is returned to you as a dividend. Dividends vary, depending on what the company's costs and profits were. You may use this money to pay towards next year's premium, take the money in cash or buy more coverage. The dividend may also be left with the company to accumulate interest. Non-participating policies cost an exact amount and are cheaper at the onset. However, if you feel dividends will be high, participating policies may be cheaper by giving you "investment money" or extra money at the end of the year.

**Questions and Answers**  
veterans administration

WHAT VETERANS ARE ELIGIBLE FOR VA COMPENSATION (192-1584 A MONTH OR MORE)?

- A. All severely disabled veterans.
- B. Veterans who suffered a service-connected disability.
- C. All needy veterans.

ANSWER: B

HOLDERS OF 4-1-1 RECORD - The Junior High Wolverines of Texico completed play in the 1975 football season last week and were credited with a record of four wins, one loss and one tie.

row: William Lassiter, Stephen Kittrell, Levy Dorris, Tim Askew, Jeff Christian and Scottie Edwards; third row: Keith Hadley, Jeff Tharp, Ron Kirby, Franklin Webb, Brett Crooks, David Cavallero and David Newcomb; fourth row: Greg Howard, Jerry Bradley, Eloy Ortiz, Doug Scioli, Terry Rolan, Jimmy Reid, Mark Powell, James Barfield and Johnny Maben.

### JH Wolverines End Season With 4-1-1

The Texico Junior High School Wolverines finished their 1975 football season with a 4-1-1 record losing only to Dexter's Demons.

According to the JH Wolverine Coach Cecil Davis, the junior high schools have no set district games. "The only school we played this season that is in our district was Dexter and that was the only game we lost this season," the coach commented.

Texico's records for the season show that the Junior High Wolverines managed to rack up a total of 102 points in six games while allowing their opponents to put a grand total of 33 points on the scoreboard.

Texico was victorious over Melrose, 26-13, Ft. Sumner, 6-0, Melrose, 26-6, and Portales, 32-0. They dropped one game to Dexter 6-8 and tied with Ft. Sumner in one clash, 6-6, for the 4-1-1 record.

The Junior High Wolverine team is a combination team of eighth and ninth grade players. "This team was probably the largest squad in number Texico has ever had," stated Coach Davis. "There is size, speed and talent in this class and they should enjoy a lot of success in future football."

The coach related that the team will lose about 18 players to the 1976-77 Varsity and Junior Varsity squads. "This year Texico had only a Junior High and a Varsity squad. Next year there will be three teams including a Junior Varsity squad, Varsity squad and Junior High squad."

In naming players who will be lost the coach commented that Terry Rolan, Keith Hadley, David Barfield, Doug Scioli, Jimmy Reid and Eloy Ortiz will probably be taking positions on the Wolverine Varsity squad.

The Junior High team will be returning approximately 13

players next year. "These are pretty good players and as of now they plan to return to the squad."

The coach listed four seventh graders who are outstanding hopefuls for next year's Junior High Wolverines. "Next year we will have Ricky Foreman, John Kelley, Jesse Miranda and Allen Hall coming up to the squad. They are looking good now and we expect a good year from them during the upcoming season."

Coach Davis listed two men as outstanding players for the just ended season. "Our outstanding offensive man for the season was probably Keith Hadley, quarterback. Hadley can run and pass equally well and this is a great factor in considering offensive players."

#### Farwellite Receives Scholarship

Susan Patschke, daughter of Mr. and Mrs. Gil Patschke of Farwell, was one of several student members of the various teams which represent Texas Tech University and the College of Agricultural Sciences in national and international competitions recognized at the 48th annual Pig Roast at the university recently.

She was named recipient of the \$100 Joseph Malone Scholarship. The award winner is a student in the Department of Park Administration, Landscape Architecture and Horticulture (PALAH) at the university.

Defensively, our outstanding man is Doug Scioli. Doug stopped everything in the middle from tackle to tackle."

In concluding his comments on the 1975 Junior High

Wolverine squad, Coach Davis commented, "This has been an enjoyable season. Our boys could have gone undefeated and next year we plan to do so."

#### Crop And Livestock Reports Needed From Farmers, Ranchers

Some 75,000 Texas farmers and ranchers will receive a crop or livestock questionnaire during the period from mid-November to early January.

This roundup survey of crop production and livestock numbers is made annually by the Texas Crop and Livestock Reporting Service, The Texas Department of Agriculture and the Statistical Reporting Service, U.S. Department of Agriculture, work together to provide comprehensive information on Texas agriculture.

Producers from each of the 254 counties in Texas are selected proportional to size of operation. The small producer sampled represents many others of comparable size while the very largest producers will represent only themselves. It is equally important for all farmers and ranchers receiving a questionnaire to complete and return it promptly.

The individual report is confidential - available to no other government agency or anyone except the few persons required to process the data. The state and county estimates published are available for everyone at the same time.

County statistics for 1974 and January 1, 1975, are available on Livestock, Poul-

try, Dairy, Field Crops, Small Grains, Cotton, Vegetables, Fruits and Pecans, and Cash Receipts from the Sale of Texas Farm Commodities.

Bulletins can be obtained from the Texas Crop and Livestock Reporting Service, P.O. Box 70, Austin, Texas 78767, or by writing John C. White, Commissioner of Agriculture, P.O. Box 12847, Capitol Station, Austin, Texas 78711.

An Army Against Cancer This April some 2,300,000 volunteers will visit friends and local businessmen across the country to gather support for the American Cancer Society's 1975 educational and fund-raising Crusade.

### Services Held Thursday For Robert Whitley, Sr.

Funeral services for Robert N. Whitley, Sr., 80, were conducted Thursday, Nov. 13, at the First Baptist Church of Clovis with Rev. Walter Hunt officiating. He was assisted by Rev. Troy Morris, also of the First Baptist Church.

### Former Resident Buried Tuesday

Willett P. Smith, 71, of Waxahachie died Saturday, Nov. 8, at Methodist Hospital in Dallas. Funeral services were conducted Tuesday, Nov. 11, at the Laurel Land Memorial Chapel in Dallas with Rev. L.H. Raney officiating. Interment was in Laurel Land Garden Mausoleum.

Mr. Smith was born in Dialville on July 11, 1904. He had lived in Waxahachie 25 years and worked for a bridge construction company. Prior to moving to Waxahachie, he had lived with the Ed McGuire family of the Oklahoma Lane Community and had farmed with Mr. McGuire for three years in the early 1930's.

He is survived by his widow, Louise of Waxahachie; one daughter, Martha Ann Smith of Waxahachie; two brothers, Thurston Smith of Wilson, Okla., and Nelson C. Smith of Fort Worth, formerly of Farwell; one sister, Mrs. Wilma Stevenson of Fort Worth; and several nieces and nephews.

Interment was in Mission Garden of Memories under the direction of Steed-Todd Funeral Home.

### Services Held For Ryan Camp

Graveside services for Ryan Dale Camp, infant son of Mr. and Mrs. Dale Camp of Clovis, former Farwell residents, were conducted Thursday, Nov. 13, in Lawn Haven Memorial Gardens Cemetery in Clovis with Hale Rogers of the Lariat Church of Christ officiating.

The baby was born Monday, Nov. 10, in a Portales hospital and died Tuesday in Clovis Memorial Hospital.

Survivors are the parents, Mr. and Mrs. Dale Camp; grandparents, Mr. and Mrs. Joe Camp of Clovis, Mrs. Jennie McNabb of Levelland, and Clydis Bird of Garland; and great-grandmother, Mrs. J.E. Harral of Ballinger, Tex.

In Scotland long ago to bite your glove was considered a pledge of deadly vengeance.

# SWDC NEWS

by Herb Evans

The oil business in Parmer County by all appearances is really booming. You can see slush pit smoke from horizon to horizon.

This would be great if it were true. Oil brings money and security to a community. Stubble burning does not.

What are the advantages of stubble burning? At best the advantages are doubtful. It is a sign of a passing method of agriculture. The old, generally accepted method used burning as a practice to make cultivation and land preparation easier. It was supposed to cut down on fertilizer rates and herbicide rates.

Crop residues contain soil nutrients that can be released for plant food. They provide cover for pheasants. They provide an insulating layer on the ground to trap and preserve moisture. This means less irrigation to make a crop.

Crop residues also do another interesting thing. They add organic matter to the soil. Organic matter is the secret to soil tilth. Without it the soil gets to the point that it seals over and water will not penetrate it.

What actually happens when stubble is burned? It destroys all these good things. It also makes the environment pretty unbearable for those downwind from the burning fields. Smoke not only has caused accidents in the county, but it has cost some families money for doctor and medical bills.

There is relief however - new cultural practices are making the old obsolete. Burning residues is a thing of the past for many progressive farmers in Parmer County.

They have tried and liked the new and coming method of managing residues.

Maybe we won't have to hold our breath much longer. For information on the advantages of crop residue management contact the Soil Conservation Service in Friona.

\*\*\*\*\*

Conservation in Parmer County is important. We need to conserve our energy, soils, and water. The Parmer County SWDC is interested in helping you any way it can.

One way offered is through the Great Plains Conservation Program. This is a cost share

program for applying conservation.

There have been over 100 contracts written in Parmer County over the years. There has been a lot of conservation applied as a result of these contracts.

There is money available in Parmer County for the Great Plains Program. You do need to be thinking six months to a year in advance on applying conservation through this program because a contract has to be developed before you can start.

When the contract is approved the money to assist with conservation practices is set aside and can be used by you as you are able to apply your conservation practices.

The SCS in Friona will be glad to go over the Program with you and help you apply it to your conservation needs.

\*\*\*\*\*

We have mentioned corn residue management and gave some good reasons for not burning residues.

Now we want to continue our article on residue management. I guess the best way to continue is to say we believe burning residues is detrimental to the soil. Secondly, we believe residues should be left on the soil surface. I was asked just last week for the reasons for my thinking on this.

The point I want to bring out this week is that the soil is full of living organisms. A healthy soil has millions and millions of organisms per cubic foot. These organisms make humus. They make soil nutrients in a form the plants can use.

What do these essential organisms live on? Organic Matter! What is organic matter? Crop residues! When residues are burned the food for the organism is gone. What organisms that are not killed by the fire starve to death! Your stomach is full of organisms that keep you healthy. The soil needs organisms to be healthy, too.

Come see the SCS Friona for more details.

\*\*\*\*\*

**A Great Wish**  
"We Want to Wipe Out Cancer in Your Lifetime," is the wish of the American Cancer Society's 2.3 million volunteers as they conduct the 1975 ACS fund-raising and educational Crusade.

## Running Water Draw - - Dam Project Dedication Slated Tuesday At Clovis

The completion of the long-awaited structure of a dam on Running Water Draw has become a reality.

According to Bob Spencer, manager of the Clovis Chamber of Commerce, dedication ceremonies will be held on the morning of November 25, at 11:00 a.m. MST at the west side of the dam site, six miles north and 12½ miles east of Clovis, unless weather is inclement; whereupon it will be held at the Elks Lodge in Clovis. A free barbecue will be served following the ceremonies with everyone invited to attend.

Clovis Mayor Chick Taylor will be master of ceremonies and will recognize the people involved in making the Running Water Draw project come true after approximately 35 years of waiting.

The actual construction began on Aug. 1, 1974 with Smith and Pittman Co. of Logan, N.M., contractors. They were awarded the job on a bid of \$794,230.20.

The project will not only serve as a watershed and flood control project but will become a recreational area for eastern New Mexico through the creation of a lake with 275 surface acres.

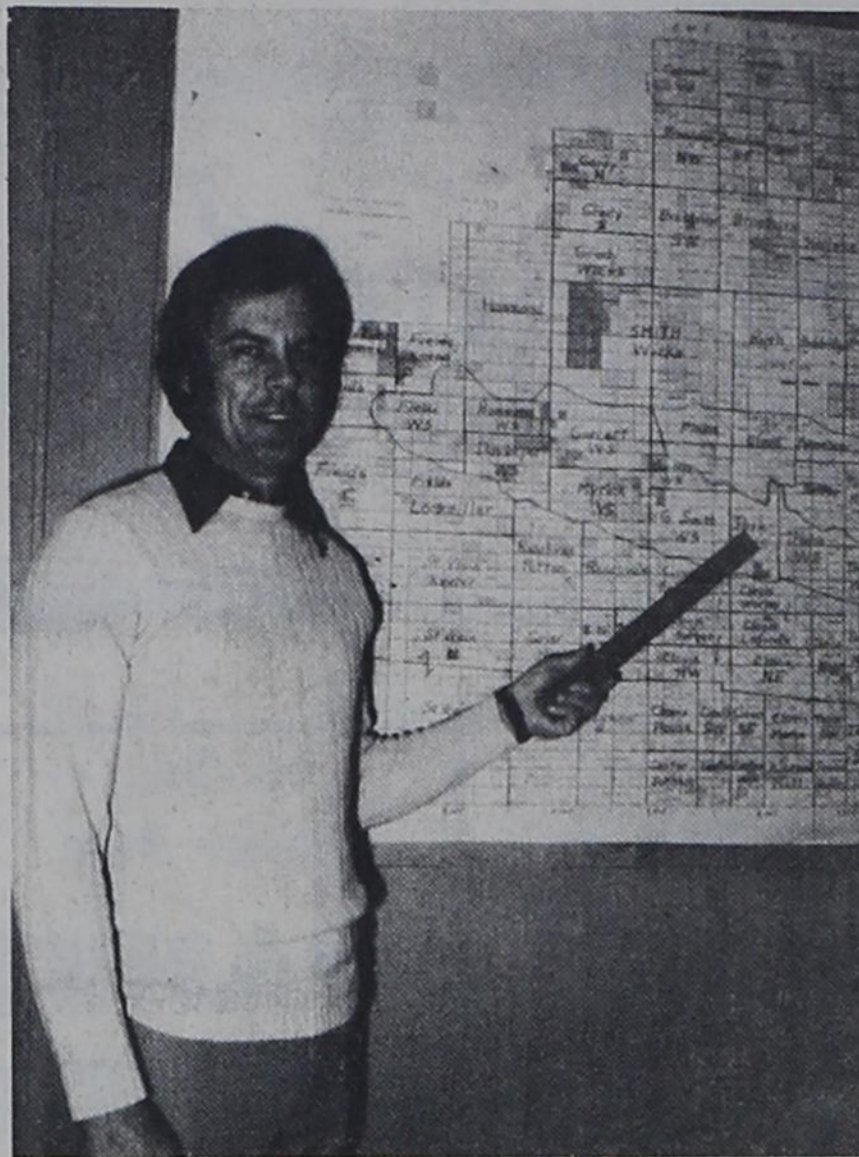

Five congressmen are scheduled to be present according to Spencer. The Congressmen are U.S. Sen. Pete Domenici (R-

N.M.), U.S. Sen. Joseph Montoya (D-N.M.), U.S. Rep. Manuel Lujan (R-N.M.), U.S. Rep. Harold Runnels (R-N.M.), and U.S. Rep. Jack Hightower of Texas.

According to Richard R. Ramsey, District Conservationist of Clovis, this past week saw the final inspection and certificate of completion made at the dam site on Running Water Draw north of Clovis.

Ralph W. White with the Soil Conservation Service from Stephenville, Tex., project engineer, was on hand to sign the certificate of completion along with Bob Hammond from the State Administration office of the Soil Conservation Service from Temple, Tex. Calvin Stout, Curry County Commissioner, signed on behalf of the sponsors.

Approximately 15 people were present for the certification including J.R. Spencer and Johnnie Rucker of the Central Curry Natural Resource Conservation District; Mayor Chick Taylor, Marvin Hass, City Manager; Pat Sandoval and Frank Murry, City Commissioners; John Holland, City of Clovis Park Board; Steve Weybrew, Area Engineer-Soil Conservation Service of Tucumcari; Richard Ramsey, District Conservationist of Clovis; and John Rhea, project inspector of Stephenville, Tex.

**THIS IS THE PLACE** - Richard R. Ramsey, District Conservationist of Clovis, points to the location of the Running Water Draw Dam site. The long-awaited project is to be dedicated during ceremonies Tuesday, Nov. 25, at 11 a.m. MST at the site, six miles north and 12½ miles east of Clovis. A free barbecue is planned following the dedication.

### FIRE CALLS

Farwell Volunteer Fire Department reports one call during the past week. Wednesday, Nov. 12, the fire unit was summoned to extinguish a grass fire near an elevator. No calls were reported by the Texico Volunteer Fire Department.

### Co. Commissioners Slate Monday Meet

Parmer County Commissioners Court is scheduled to meet in regular session Monday, Nov. 24, at 11 a.m. CST in the County Courtroom.

Included on the agenda will be an update on the road situation and a consultation with Mack Heald, Parmer County Agent.

### LEGAL NOTICE

UNITED STATES DEPARTMENT OF AGRICULTURE Rural Electrification Administration

Some people believe that if you turn your money when you hear the cuckoo, you'll have money in your purse till he comes again.

### APPENDIX A Statement of Nondiscrimination

Deaf Smith Electric Cooperative, Inc., has filed with the Federal Government a Compliance Assurance in which it assures the Rural Electrification Administration that it will comply fully with all requirements of Title VI of the Civil Rights Act of 1964, and the Rules and Regulations of the Department of Agriculture issued thereunder, to the end that no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination in the conduct of its program and the operation of its facilities. Under this Assurance, this organization is committed not to discriminate against any person on the ground of race, color or national origin in its policies and practices relating to applications for service or any other policies and practices relating to treatment of beneficiaries and participants including rates, conditions and extension of service, use of any of its facilities, attendance at and participation in any meetings of beneficiaries and participants or the exercise of any rights of such beneficiaries and participants in the conduct of the operations of this organization.

"Any person who believes himself, or any specific class of individuals, to be subjected by this organization to discrimination prohibited by Title VI of the Act and the Rules and Regulations issued thereunder may, by himself or a representative, file with the Secretary of Agriculture, Washington, D.C. 20250, or the Rural Electrification Administration, Washington, D.C. 20250, a written complaint. Such complaint must be filed not later than 180 days after the alleged discrimination, or by such later date to which the Secretary of Agriculture or the Rural Electrification Administration extends the time for filing. Identity of complainants will be kept confidential except to the extent necessary to carry out the purposes of the Rules and Regulations."

### SWEET POTATO PIE

- |   |                             |
|---|-----------------------------|
| 1-½ cups Texas sweet potatoes, drained and mashed | ¼ tsp. ginger               |
| ½ cup brown sugar, packed                         | 1 cup half-and-half         |
| ½ tsp. salt                                       | 3 eggs, beaten              |
| ½ tsp. cinnamon                                   | 1 cup commercial sour cream |
| ½ tsp. nutmeg                                     | 2 Tbsp. powdered sugar      |

Sieve sweet potatoes. Combine with brown sugar, salt, cinnamon, nutmeg and ginger. Combine half-and-half and eggs. Add to sweet potato mixture; blend until smooth. Pour filling into unbaked 9-inch pie shell and bake at 425 degrees for 15 minutes. Reduce heat to 325 degrees and bake 40 additional minutes. Cool on rack. To make Topping, combine sour cream and powdered sugar. Spread over cooled pie. Return to oven and bake at 325 degrees about two minutes or until sour cream is set. If preferred, omit sour cream topping; serve pie with whipped cream or ice cream.

For additional sweet potato recipes, write Commissioner John C. White, Texas Department of Agriculture, P.O. Box 12847, Austin, Texas 78711.

# HOW'S The Electric Company DOING?

Let's ask J. T. Burk, stores superintendent . . .

"Crossarms are such a common sight that you probably don't even notice them. But we have thousands of crossarms in our system . . . and they're necessary to bring electricity to you. Ten years ago, one of these crossarms cost \$3.43, but today an identical crossarm is \$11.46."

That's a whopping 234% increase . . . a reason electricity may be costing you more these days. Even so, electricity is still a big bargain . . . because it's always there when you need it.

EQUAL OPPORTUNITY EMPLOYER

The Future IS Electric!

### On The Farm In Parmer County

By R. MACK HEALD  
County Agent

Well, Parmer County farmers, you've done it again! Statistics released from the USDA and Texas Department of Agriculture on the 1974 cash receipts from the sale of farm commodities show that Parmer County grossed a total of \$158,205,000. This ranked Parmer County third in the state in 1974 with Hidalgo being first with \$201,993,000 and Deaf Smith second with \$160,690,000. Parmer County ranked second in crops behind Hidalgo with \$93,052,000 being received. In livestock sales, Parmer County was ranked fourth with \$65,153,000. Parmer County's number one ranking in corn and number two ranking in fed cattle helped push the overall gross income to number three in the state. In a later issue of this paper I'll have the 1975 projection that was recently figured.

Remember the high sugar prices and widespread hoarding just a short year ago? Well, if the current outlook for sugar production in the United States and the rest of the world is accurate, sugar supplies will be plentiful during the coming year. So, consumers may see a slight softening in retail prices.

U.S. production of both sugar cane and sugar beets should be up sharply this year compared to 1974. The U.S. Department of Agriculture has estimated sugar cane output will be up about 14 per cent while production from sugar beets may be up 25 percent from levels of a year ago.

Combined U.S. production of sugar cane and sugar beets should total in the neighborhood of 56 million tons while the world sugar crop may exceed 93 million tons, up four to six million tons from a year ago.

At the same time that production is expanding, per capita consumption of refined sugar in the U.S. is down. Each American may consume less than 90 pounds of refined sugar this year, the lowest amount since the sugar-short years of World War II.

The decline in sugar-use is mainly due to consumer resistance to high prices of sugar and sugar-containing products. Also, a new high-fructose corn syrup is becoming available in larger quantities and is competing with the sugar market.

The decreasing consumption of sugar is not unique to the U.S. alone. Demand is also expected to be down in Europe, Japan and Canada.

What effect will the larger sugar crop have on prices? Prices for raw sugar in the U.S. may drop as low as \$17 per hundred pounds this fall, after rising above the \$23 level at mid-August.

This means that consumers may see a little relief at the supermarket. But for those hoping for sugar at the bargain basement prices of several years ago, it's just not in the cards.

Healthy trees are valuable in any landscape and they should be protected and cared for.

Homeowners should be on the look out for possible damage to their trees and should know how to protect trees and correct damages.

Any cut or break in the bark of a tree leaves it open to insects and diseases. First, clean the wound and get rid of loose bark. Then apply a special pruning compound. This will dry hard and prevent insect or disease entry.

Homeowners should avoid wrapping a wire or metal band tightly around a tree trunk. This breaks the bark and cuts off the flow of food from the leaves to the roots. If the band is left on, the tree will eventually die.

Since a tree's main "feeder" roots are in the top 15 to 18 inches of the soil, care should be used to avoid packing the

## Bicentennial Committee Hears Talk On Freedom

The Parmer County Bicentennial Committee met recently at Bovina with chairwoman Allie Reeve calling the meeting to order. Rev. Oran Smith of Oklahoma Lane led the invocation followed by the Pledge of Allegiance.

Speaker for the evening was Col. Meyer Shore of San Jon, N.M., whose program was the highlight of the meeting. He gave an informative talk on freedom and its responsibility factor which can be maintained only with collective diligence.

Col. Shore pointed out that our system of government has worked better than any other government. "But equality cannot exist where inequality is a way of life," he commented. The speaker urged everyone to be involved and allow God's love and grace to flow into their lives.

During the business meeting, plans were made for flags to be flown at the County Courthouse and at the schools in the district during the bicentennial

period. February 22, 1976, was the date and the Courthouse at Farwell the place for the local ceremonies of the bicentennial celebration.

During the next meeting of the Bicentennial Committee, to be held Tuesday, Nov. 25, Mrs. Bet Thompson of Friona will be guest speaker. She will discuss her work in connection with genealogy and the tracing of family histories and family trees. She has also worked with the Daughters of the American Revolution.

Tracing of family histories and trees is becoming a very popular pastime in connection with the bicentennial," commented a spokesman for the Committee. "And we urge everyone to attend Tuesday's meeting to hear Mrs. Thompson speak."

The meeting will begin at 8 p.m. CST at the Community Room of the Bovina State Bank.

## Cotton - - Producers Urged To Check Provisions

Cotton producers (who have not already done so) are urged to contact the Agricultural Conservation and Stabilization Service (ASCS) office to discuss the disaster section and other provisions and regulations of the current farm program as they relate to low yields from the 1975 crop.

The disaster section of the farm program provides that producers on farms having a low yield can receive supplemental income designed to partially offset crop losses or extremely low yields resulting from conditions beyond the producer's control.

Also, there is a provision for a weather adjustment in production records used for 1975 by ASCS to establish each cotton farm's future payment yields. Neither disaster payments nor yield adjustment is "automatic."

Producers must make application at their County ASCS Office for a yield adjustment and/or payment. The application must be filed no later than 15 days after completion of harvest and before the crop residue is destroyed.

It is not necessary for producers to complete ginning

and have production records on hand before applying for low yield consideration.

The application may be filed at any time between now and 15 days after harvest. Production figures can be furnished after the cotton has been ginned and warehouse bale weights are available. A determination of eligibility will be made after production records are furnished to the ASCS office.

There is a danger that some producers may not apply for program benefits (at the proper time) and then learn later that their yields were low enough to qualify for a yield adjustment, a payment, or both.

Any cotton producer whose farm's cotton production is less than 90 percent of the program yield established for the farm should file for a yield adjustment. If the farm's cotton yield (in Parmer County) is below 57.29 percent of normal, he will also want to file for a disaster payment.

"There are crop substitution rules and other details that requires an explanation for each farm. No two are alike. This is why it is so important for each cotton producer to visit with the people in his ASCS office. This should be done soon in order to prevent loss of eligibility for any benefits that may be due," commented Prentice Mills, county executive director, Parmer County ASCS.

### Schelter Receives B.S. Degree

The University of Texas College of Humanities named 93 candidates for Bachelor of Arts Degrees at the close of the summer semester.

The list of degree candidates, announced by Dean Stanley N. Werbow, included John Herman Schelter of Lariat. He is the son of Rev. and Mrs. Herman Schelter.

### Council To Meet

The Farwell City Council is scheduled to meet in regular session Monday, Nov. 24, at 5:15 at Farwell City Hall.

By John Ricci

One good reason for the upturn in the economy and the strengthening of the dollar is the efficiency of the American farmer. While a lot of segments of the economy remained stagnant during the past year the farmer was working... working to produce a new all time high in productivity for agriculture... working to produce a record harvest... working to bring more dollars into this country than went out. Record keepers in Washington now tell us that for this year the farmer's output was seven percent above 1974. American farmers provided this kind of efficiency in one of the worst possible atmospheres... prices were low... prospects dim. But the farmer didn't quit. Work went on. Records were broken and a chain of business started which boosted employment and sales throughout the agribusiness sector. This in turn has had a positive economic effect for the entire nation. Well done farmers.
