For you collectors of facts and figures we can report that the bi-annual edition of the Texas Almanac has been recently published by the Dallas Morning News. It has been published since 1857 and this marks the 48th edition to go before the public.

In glancing through our copy we note that it contains a section on the American revolution as those events eventually affected Texas. There is a special Bicentennial section which lists all the celebrations that will be staged in Texas. The summer travelers will want to see this list and plan a visit to one or more of these celebrations. Also added is section on "Gardening in Texas" for the green thumb artists. For a compendium of Texas we recommend this almanac.

Hooray for John Santa Fe. We understand that at long last the roughest railroad crossing in Texas is going to get a face lifting. We have heard that the crossing will be completely resurfaced and widened to conform to the highway widths.

Nothing official on this has come from higher headquarters but in talking with some folks who should know, we pick up this information. For us locals who cross that obstacle course several times a day this is a big event.

Last Call For Letters To Santa Claus

The deadline for the Christmas edition of the State Line Tribune is drawing near and we are making our last call for letters to Santa Claus.

All children wishing to write letters to Santa are asked to have them in the Tribune office no later than Friday.

Santa has contacted us and said that his elves are working overtime to get all gifts ready by Christmas Eve. "We are working very hard but we need to know as soon as possible what everyone wants so that we can have it all ready by the time my reindeer and I have to leave the North.

All letters to Santa submitted to the Tribune will immediately be put on our "Hot-Line to Santa" so the gifts may be prepared. The original letters will be retained by the Tribune so that they may be reproduced for publication in our Christmas edition.

Letters should be addressed to Santa Claus, c/o State Line Tribune, Box 255, Farwell, Tx.

"Remember time is running short and it is important to get your letters in as soon as possible," reminds Santa.

WINTER CONCERT SCHEDULED - The Farwell Band Department has scheduled its Annual Winter Concert for Sunday, Dec. 14, starting at 2:30 p.m. CST. Bands performing will be the High School Band (pictured above), Junior High Band, Cadet Band and the Elementary Band. Several selections are to be presented including "Sweet Caroline," "America the Beautiful," "Greensleeves," "We Wish You a Merry Christmas" and "Jingle Bells." Admission to the concert will be \$1 for adults and 50 cents for students. There is a possibility that the UIL Marching Contest Film will be shown

at the concert for the audience to view, according to Lynn Burton, band director. The High School Marching Band recently took a I rating in the competition, the first I rating ever garnered by the band in its history. All band members and Burton urge everyone to attend the musical presentation.

Commissioners Okay **Emergency Equipment**

The Parmer County Commissioners Court met in regu- certain rights-of-ways on Highlar session Monday, Dec. 8. During the business session it was resolved by the Court that an emergency medical communications services contract be approved.

The contract, referred to as standard form of agreement between owner and entity, for the purchase of certain emergency medical service equipment in the amount of \$3,109.75 is to be executed by County Judge Paul Fortenberry

The contract is for an emergency medical communication set-up which will allow ambulance and emergency vehicle operators to be in touch with a hospital in order to administer emergency treatment to patients.

Commissioners also discuss ed certain utility adjustment quotations for certain rights-ofway on State Highway 214. It was reported by Rhea Bradley of the Highway Department that an estimated quotation from Deaf Smith County Electric Cooperative, Inc. for utility adjustments on the highway including any moveent necessary near the Running Water Draw area or the S.I.B. rebounds, and Terri had four. Norton passed the ball safely across the half line 22 of 23 attempts," he concluded

The Steerettes began tournament action Thursday, Dec. 4, when they met Gruver on the court and took a 46-41 victory.

Farwell held a six-point, 14-8, lead at the end of the first period and expanded that lead to 26-19 at the end of the first half.

During the third period they led Gruver by eight points, 35-27. Gruver recouped its forces and had closed to within five points of the Steerettes, 46-41, when the buzzer sounded marking the end of the game.

Honored as leading Steerette scorer was Booth with a total of 26 points. Also scoring in double figures was White who hit for 10. Other Steerettes scoring were McCully and Sheryl Woods. White rebounded two on the forward end of the court and Booth had two steals.

Leading rebounder for the guards was Boling who grabbed up nine while Embry was credited with one rebound. Steals were made by guards Norton, four; Embry, three; Boling, two; and Coffman,

Coach Allen stated, "This was the toughest game we played in the tournament, somewhat 'due to the lack of offensive foul calls on Gruver's 'powerhouse' style of play.

"This game was exemplary of the tendency in Texas for the host school to draw up the tournament so as to match the best two guests the first round. We look for the same strategy at the Springlake-Earth tournament.

The Steerettes' first game win put them into competition with the Squaws of host Friona with the Farwell basketballers trouncing Friona 41-32.

Farwell trailed the host team, 12-11, at the end of the first period but evened up the score, 23-23, at the halfway

scoring for Farwell as she put 17 points on the scoreboard. Two other Steerettes scored in double figures. They were White with 13 and McCully with 10. Also adding to the Steerette scoring effort was Woods. Leading forward rebounder was Booth with two, followed by White and Woods who each hauled in one. Booth was also credited with two stolen balls.

Norton was tagged leading rebounder for the guards with 13. Boling pulled in six, Coffman, four; and Erwin and Mc-Farland each rebounded one. Both Boling and Erwin had two steals while Norton and Embry each had one.

In reference to the game the coach stated, "Balanced scoring was the key to this game. Sherry McCully's 10 points made a big difference in the ball game. "This was a fine defensive

game from both clubs. Pam Erwin did a great job on Friona's top scorer. Terri Boling, with six rebounds, did an equally good job on their good shooting post girl. And, Lori Norton had the amazing total of 13 rebounds as the helping (sinking) guard.

"At least four of Friona's points came from 'consolation' calls by the officials at the game's end.'

Kindergarten Sets Programs

Students of the Farwell Kindergarten program have scheduled Christmas programs for Thursday, Dec. 18. The morning class will present its program at 10 a.m. CST and the afternoon class will make its presentation at 1:30 p.m. Programs will be given in high school auditorium.

Friday, Dec. 19, the classes will view a movie with the cost of the movie being the gift of the teachers to the children. All kindergarten students are asked to "please, do NOT bring gifts to school for classmates or teachers.'

The kindergarten Christmas tree is also a gift from the teachers and some of the parents. "It is a live tree and will be planted in the kindergarten area after Christmas. We will leave the popcorn, berries, etc., on it as a Christmas gift to the birds, and we hope for years to come the children will be able to enjoy seeing it and remembering that they had a part in making the area look more beautiful," concluded Marcie Cole, kindergarten instructor.

Include Texas Farm Products On Christmas Gift List

AUSTIN--Keep Texas agricultural products in mind when planning holiday gifts this year.

"Texas food and fiber make excellent gifts. Wool, mohair and cotton garments are always appreciated, as are Texas food products," Agriculture Commissioner John C. White said.

An easy way to solve the problem of what to give persons on your list who have everything is to give Texas citrus gift packs.

Now is the time to order the gift packs, according to Commissioner White,

One way consumers can make certain they order fruit from a reputable firm is to contact the Texas Citrus and Vegetable Growers Association (Box 671, Harlingen, Texas 78550) for the names of shippers who are Association members.

Association members must observe strict standards for quality of fruit and efficiency in delivery.

Average prices of the gift packs range from \$5 to \$20. The Ruby Red grapefruit is the most popular of Texas

citrus. Texas oranges also are available for shipping. The Star Ruby, similar to the Ruby Red but deeper in

color, is available on a very limited basis.

Reindeer rations is not a subject usually found here, however, it seems the proper time to make our readers aware of modern reindeer feeding procedures . . . some of which are mighty strange. For instance, primary ration for the past 11 months has been hybrid 1975 variety Spirit of Christmas. Beginning about now, some special supplements are being added. Rations of Children's Laughter combined with a high percentage of Joy of Giving have been observed to give reindeer a tendency to fly around and land on rooftops. If that isn't unusual enough, one member of a special nine reindeer herd is fed an entire sack of Happiness . . . inevitably resulting in a downright bright, glowing nose. With this kind of high energy ration, the herd can cover the whole world in one night . . since they'll be in your neighborhood why not sprinkle a little Merry Christmas around the area... it's their favorite snack.

Being a seed or grain eater, the bird has established itself in the irrigated croplands that have crops, such as small grains, corn, grain sorghum and soybeans as significant part of the cropping systems. Following the harvest of grain crops, there is abundant grain and seed available to the pheasants and other game birds, such as dove and quail.

harvest season.

The survey revealed that sunflowers averaged 38 pounds of waste grain per acre, grain sorghum, 89 pounds per acre; corn, 113 pounds per acre; and sovbeans 138 pounds per acre. Projecting these figures to the total acreages of these crops under irrigation in the Texas Panhandle shows there is ample food for game birds on a long-term basis.

Finally, place black cord along the lines of the exposed masking tape to resemble leading, and also around the top and bottom edges, gluing if necessary.

When the shade is completed, insert two circles of flexible but sturdy wire (about 18 gauge): one inside the top opening, and the other underneath the top edge of the shade to help hold the shape of the shade.

While the shade shown is made from Christmas cards, it could also be made from colored cardboard to match your decor. Or, you could use wallpaper, mounted on light weight cardboard. Whatever your choice, you'll be surprised at how little time it takes to make one.

planning and preparing for Christmas. We've successfully avoided the tempting displays

of candies and nuts-until now. But the Christmas spirit is beginning to catch up with us, and our thoughts turn to shopping, decorating and baking for the holidays ahead.

candies, cakes, cookies and puddings chocked full of nuts. The grocery store shelves are full of package upon package of nuts. We have more kinds, forms and sizes of nuts from which to choose in December than during any other month of the year.

You may be wondering whether to buy nuts in the shell or to buy the nut meats. Around the holiday season, time seems to grow more important each day. So time, energy and money all play an important part in the decision about how to buy nuts.

The following table will help you make cost comparisons: Pecans in shell, 2 pounds; shelled, 1 pound; cups, 41/2 halves; Almonds in shell, 2 pounds; shelled, 1 pound; cups, 334 chopped; Brazil in shell, 2 pounds; shelled, 1 pound; cups, 334; English walnuts in shell, 212 pounds; shelled, 1 pound; cups, 414 halves and 334 chopped.

When comparing costs, the chopped nuts are usually less expensive than whole kernels. If the nuts are to be chopped anyway, this could be a good place to save money and labor. Of course, if the nuts are going to garnish cookies or cakes, then you probably want

There are several things to look for to make sure you are buying the highest quality nut available. Nuts in the shell should be clean and free from cracks, holes or scars. Also the shell should be well-filled so the kernels do not rattle.

Freshness of shelled nuts can be judged by looking at the appearance of the kernel. Plump, meaty kernels mean full flavor and richness. Fresh kernels of fine quality will snap when broken. They will have a crisp, fresh taste. If the kernel is rubbery this indicates staleness, high moisture content and probably ran-

The inside of the kernel should be clean, white and clear. A dingy gray color that meal, she said. means oiliness and possible rancidity.

It is easy to store nuts, but here are some suggestions to help keep them fresh.

Nuts in the shell keep better than the shelled. If nuts are to be kept over a long period of time, it might be wise to buy and store them in the shell

and crack as needed. Nuts contain a high percentage of fat which will become rancid when stored at room temperature or in the in the refrigerator between 32 ham," she concluded

Thanksgiving has come and and 40 degrees F. It's best to gone, and we are startled into store the nuts in the main section of the refrigerator rather than in the moist air section where the vegetables

Since air also hastens the onset of spoilage, it is best to avoid opening vacuum-packed containers long before the nuts are to be used. It's also good Baking for the various fes- to remember that salted nuts tivities almost always includes do not store as well as un-salted ones, since salt encourages the onset of rancidity.

Nuts add a delicious touch to main dishes, salads, desserts and relishes. Christmas cookies depend on nuts for their special goodness. Nuts are also wonderful for snacks. A full nut bowl adds a warm touch to a living room or a family room. Nuts can also be used in many creative ways on wreaths and with greens.

What about the person on a special diet in your house?

Holiday snacks have to be 'made with care' for diabetics and people on calorierestricted diets, according to an Extension foods and nutrition specialist, who is a registered dietetian.

This is because food plays a major part in controlling metabolic disorders such as diabetes, commonly called "sugar diabetes." Too many carbohydrates, starches and sugars are bad for diabetics because their bodies don't produce enough insulin to counteract the effect of these types of food.

She suggested that diabetics can eat fresh fruits or unsweetened canned fruits -- a artificial sweetener, cinnamon and dietatic lemon-lime soft drink makes a festive dessert.

"Another holiday treat -pumpkin custard -- can be made of unsweetened cooked pumpkin combined with artificial sweetener, cinnamon. ginger and saccharin. This baked custard would be counted as a B vegetable or half slice of bread," she comment-

Plain or dietetic gelatins can be prepared with or without fruits for many desserts. Try combining plain gelatin with low-calorie cranberry juice. artifical sweetener and orange rind. Pour into orange shells and refrigerate. If fruit is added to the gelatin, count the fruit as the fruit exchange for

Many diabetics are unaware that they can eat regular ice cream -- in limited amounts -- in place of a slice of bread and two fat exchanges. Avoid diabetic candy and ice cream because they may be high in fat and extremely expensive. Also, the labels

may be confusing. "If diabetic ice creams are used, they must be calculated into the diet. Dietetic soft drinks are allowed and can be used to flavor desserts or even light. The nuts should be kept in baking a candied holiday

Bear And The Three Ellisons

Editor's Note: The following and nailed the doors They article originally appeared in went to bed and slept the Bovina Blade. It was submitted for publication to the State Line Tribune by Mrs. again and ate a bunch of Buck Ellison of Bovina.)

"I want to tell you the story about the three

"Once upon a time there was a man and his wife who built a cabin in Nogal Canyon, 23 miles north of Ruidoso, N.M. But before the cabin was finished, they were called away to Truth or Consequences because of sickness They were gone four days

"And the bears came home - or to the tents where the people were

"A bear entered in one corner, making a hole the size of an easy chair He tried the big bed, it was too hard He tried another bed, it was too soft But the third bed was to his liking and he stayed all night -- or that's the way it looked

"He arose early in the morning and ate six dozen eggs, one can of shortening, three loaves of homemade bread and some with him a pillow and a coat which he left on the mountainside

"Well, the people re-

I am enclosing a write-up Ha, ha, about our "Ellison reunion" you might like to print. I wrote this clipping to the broke into our tent while we just a bit of humor

Hubert Ellison lived at T or sick and had to have surgery so we tied the tent door closed and went down to see him and this happened while we were

We didn't ever get this bear to stay away all the rest of the time. He came every night and ate all the scraps thrown out or any apples or cantaloupes and etc. we might have forgotten to take in. He was appear in the Christmas edijust like an old hungry dog. tion of the Tribune.)

He never tried to molest us at all, just wanted food.

And the morning we killed him, he was pulling the boards off the hole where the fire place was to be built. He was coming in for the food I had left on the table the night

We took his head and hide and made a pretty rug and get lots of memories when we look at it. Laughs, too.

This cabin belongs to Buck and Mable Ellison and is furnished with his parents' and her parents' furniture: dishes and all.

We can sleep 20 in the house and 30 in the bunk house. Our table is 12 feet long. It is a modern house with two baths, running hot and cold water and rugs on the floor given by Buck's sister, Mary Lee, although it was built out of old lumber, some from Cresote soaked boards out of chicken houses, old barns and cow shed, and even an outhouse!

We bought four new 2x4's for outside rafters and knotty pine sheet rock on the inside Bovina Blade when the bears and stucco on the outside and "lots and lots of work" which were building our cabin. It's was furnished by kinfolks and church people.

We have our Ellison reunion C. N.M., and he had taken every first full weekend in August and there are lots of church groups and friends who go up there all summer.

Thanks for your kindness in printing this.
