

Our annual Area Merchants Football Contest got off to a roaring start last week with a near record number of entries. We were pleased to see the addition of many new names in the contestant's log book at the Tribune. These new pigskin fans should provide plenty of competition for the many old and seasoned hands who enter every year.

Last week's guessing game produced an average entry with seven correct calls on it. If you got better than seven games right you did better than the average. If you got fewer than seven, maybe you ought to be wary of picking West Texas to win an opening game away from home. Sorry to say, the Buffaloes left many of their local fans holding the bag with a bad guess. This outcome had to qualify as the "upset" of the week in the Tribune contest.

Some people are just out of touch with reality. But it is frightening when a man in the position of Secretary of the Interior gives evidence of being unrealistic in his think-

Now it seems that Secretary of the Interior Cecil Andrus has dusted off an old 1902 law that limits individually owned farms using government reclamation water to 160 acres. What is unrealistic is the expectation that a living can be made farming 160 acres. Look at our high plains: a 160-acre farm is just too small a unit to be economically practical. We are sure that in the vast western areas of this country the same economics apply.

From today's viewpoint it looks like the present farm program will break a lot of the high plains farmers this year and the Secretary of the Interior may break a lot of those presently farming in other parts of the west next

The obvious question is -Where do these city dudes think their food will come from in the next several years???

It will take several years for the food situation to come to a head. Staring us in the face is the Carter Administration's plan to sign a new Panama Canal treaty.

The heads of state of most of the countries in South America are presently gathering in Washington to witness our signing this new treaty. What will they think if the U.S. Senate turns thumbs down on this latest international insanity?

They will probably think that the U.S. is being run by a bunch of fat heads who do not know what their people want. Incidentally, we think that

We do not believe that anywhere close to the majority of the United States citizens want a new Canal treaty. We believe that the huge majority in this country want our nation to retain control and operation of the Panama Canal and to tell that two-bit dictator to go jump in the nearest and deepest lake.

To us this appears to be another case where we lack the moral fortitude to defend our rights and our property When some foreign government decides that our national will to survive has decayed to the point that we will not react to overt aggression they will jump on us like a wolf on an aged deer.

Our repeated retreats from our obligations in the last two decades may be bringing that day closer than our leaders realize. It isn't the quality or quantity of our armaments that count, it is our will to effectively utilize them that is important. Are we losing that

# Parmer County ASCS Announces 1978 Wheat Program

Tentative provisions of the 1978 Wheat Program were received in the local office of the Agricultural Stabilization and Conservation Service (ASCS) earlier this week. It is intended that the following provisions will be placed into effect in the event the Food and Agriculture Act of 1977 becomes law:

A. The target price will be \$3.00 per bushel if 1978 production is above 1,800 million bushels. However, if production is below 1,800 million bushels, the guaranteed price level will be \$3.05.

B. The 1978 loan rate will remain at \$2.25 per bushel unless the average market price for wheat during the 1977 marketing year is more than 105 percent of the loan level of \$2.25, in which case the 1978 loan rate will be increased to \$2.35 per bushel.

C. Producers who wish to be eligible for loans, deficiency payments, or disaster coverage must set aside an acreage equal to 20 percent of the wheat acreage planted for harvest as grain in 1978, including any volunteer wheat harvested as grain. The setaside must be devoted to an approved vegetative cover crop such as annual or perennial grasses and legumes or small grain which is not allowed to mature.

D. A crop base will be

pating farm based on the 1977 acreage of the crops in the crop base, as adjusted when abnormal. The total 1978 acreage of these crops for harvest on the farm must be limited to the crop base minus the set-aside. For example, a farm with a crop base of 300 acres and 100 acres of wheat planted for grain in 1978 must set aside 20 acres and limit crops in the crop base to 280 acres. The crops to be included in the crop base will be announced later.

E. Immediately following enactment of the Farm Bill, a national wheat program acreage will be announced. The national program acreage repestablished for each partici- resents the estimated number

of harvested acres of wheat in factor will be applied to the farmer had 200 acres of 1978 which will be needed to produce a quantity of wheat equal to estimated domestic and export use. The national program acreage represents the maximum number of acres on which the target price guarantee will apply.

F. If the actual acreage of cent. wheat planted for harvest (to be determined in late summer 1978) exceeds the national program acreage, an allocation factor will be determined. planted for harvest is 65 92 percent.

G. The national allocation acreage. For example, if a

1978 wheat crop acreage planted for harvest on each participating farm to determine the amount of each farm's wheat acreage that will qualify for the target price guarantee. The allocation factor cannot be less than 80 per

H. A wheat producer can assure himself of having all of his wheat acreage under the target price guarantee by For example, if the acreage voluntarily reducing his wheat acreage for harvest by at least million and the national pro- 20 percent below his 1977 gram acreage is 60 million, wheat acreage and setting the allocation factor would be aside an acreage equal to 20 percent of the reduced 1978 wheat in 1977 and reduced his 1978 acreage to 160 acres, his set-aside requirement would be 32 acres.

I. Loans will be available on all wheat production and disaster coverage on the total wheat acres planted for grain on farms that comply with set-aside and crop base requirements.

J. Producers planting wheat for grain must comply with set-aside and crop base requirements to be eligible for loans, purchases, and payments, if applicable, on any crop included in the crop base. This includes compliance with any set-aside for feed grains.

Football Contest - -

# Rusty McFarland Nabs First Week's Prize

**Charles Stockton Named** Curry Co. Commissioner

Rusty McFarland is all smiles as he receives the first place

check for winning top honors in the first week of the Area

Merchants Football Contest. McFarland was the only one of

the 239 entrants to guess 11 games correctly. Presenting the

\$7.50 prize to the Farwell senior is Glenda Donathan, manager of Farwell Insurance Agency, Inc., one of the

lived in the Clovis area all of his life, was sworn in Tuesday as a Curry County Commissioner by District Judge Reuben Nieves. New Mexico Governor Jerry Apodaca appointed Stockton to replace the late Dr. E.E. Kraus last week.

All Smiles

The new commissioner was one of seven men considered for the position shortly after the death of Dr. Kraus on

August 15. Stockton joins Chairman James Williams and Cullen Williams on the board of county commissioners.

The new commissioner spent a busy day Tuesday after the swearing in ceremony getting acquainted with his new position. Stockton is confident that he can do the job and is anxious to "learn the ropes" in order to get down to the business of "doing the things which need to be done."

Even though the Clovis resident has never held a government position before he actively sought the appointment because he felt "I might

Charles Stockton, who has as well try it." As a life-time resident of the area Stockton is familiar with the problems of Curry County.

> For the moment the new commissioner has no goals or long range plans other than "studying things and working with fellow commissioners to decide what needs to be done

Stockton grew up in the Forrest area of southern Quay County. He attended schools at Forrest and was a noted basketball player in the 1930's. Stockton, along with his brother Bill, who also lives in Clovis, were members of the Forrest basketball team that took first place in the state basketball tournament two consecutive years in the 1930's.

After graduating from high school, he attended Highlands University which was known then as New Mexico Normal. Stockton's teaching career has spanned three decades. His first teaching post was at the Hollene community. Later he moved to the Rosedale School and from there assumed a

position at Grady. He moved to Texico in 1949 and taught

there until he retired in 1974. In addition to teaching social studies at Texico, Stockton also coached varsity boys sports, girls sports and junior varisty sports. During his later years at Texico he coached the varsity girls to a state championship in track and second in state in basket-

His wife Lela, who taught second grade at Texico, retired with Stockton three years ago. The couple lived in Texico until February of last year when they moved to Clovis.

While teaching, Stockton also continued to operate the family farm near Forrest. He also continued to farm after his retirement.

The new commissioner, who likes to spend his spare time hunting and fishing, is a member of the Masonic Lodge and the First United Methodist Church of Clovis.

The Stocktons' son, Charles, Jr., is now superintendent of schools in San Jon. N.M.

cils for the 19th annual Area Merchants Football Contest. A total of 239 persons entered this year's opening week quiz. By virtue of being the only

Season play opened last

Friday night for players and

prognosticators alike as area

teams clashed with their first

casters sharpened their pen-

contestant with 11 correct guesses, Rusty McFarland of Farwell walked off with the \$7.50 first prize money.

Second place was up for grabs as 11 entrants guessed 10 games correctly, but Jack Allan Kirkland moved into the runner-up slot by being only four points off the tiebreaker. He will receive the \$5 weekly

Dondra Geries and Tex Smith tied for third place, each guessing 10 games right. They were both 11 points off the tiebreaker score. They

divided the \$2 weekly third prize.

It seems that area prognosticators have indeed been brushing up on football lore or else they have consulted a learned crystal ball because for the contest debut 581/3 percent of the 239 contestants averaged better than seven correct picks for their first week's efforts.

Eight other entrants also picked 10 games correctly. They included Don Geries, Eugene Guss, Albert Smith, Myrna Lingnau, Liz Kaltwasser, Keevin Kelley, Craig Kaltwasser, and Clay Roberts.

Some 34 managed to pick nine games correctly, including Bill Bourlon, Mike Camp, Betty Jean Castleberry, Lillie Christian, Vick Christian, April Coffman, Charles Dannheim, Gina Eubank, Horace Eubank, Elsa Galvan, Linda Geries, Randy Geries, Dan Geuther;

Also, Carl Dean Goettsch, Kent Goldsmith, Sarah Haseloff, Gregg Hromas, Kyle Kelley, Sue Kirkland, Mary Ann Lingnau, Ridley Lonsdale, Bruce Mayfield, Tommy Mes-

man, Tim Norton, Jerry Owen, Barbara Perkins, Carole Perkins, Marilyn Rains,

Bob Roberts; And, Jean Smith, Barbara Tegtmeier, Jack D. Wardlaw,

Paulette Whatley and Rance Williams. Top contest prize offers a

choice between two tickets to the Cotton Bowl plus \$50 or Continued On Page 2

The annual meeting of the Parmer County Farm Bureau will be conducted Saturday, Sept. 10, at the Bovina High School Cafeteria. A barbecue dinner will be served and the meeting will begin at 8 p.m.

part in the business meeting.

Six members of the Farm Bureau's county board of directors have terms expiring. They are Harry Hamilton, Friona, place 1; Clarence Monroe, Friona, place 3; Larry Potts, Rhea, place 5; Ralph Roming, Bovina, place All Farm Bureau members 7; Don Geries, Farwell, place are urged to attend, and take 9; and Frank Hinkson, Lazbuddie, place 11.

# TAES Sets Stage For Annual Field Day

Cotton, nematode, soil, and seed control research will be featured attractions at this year's field day of the Texas Agricultural Experiment Station at Lubbock. The 68th annual event begins at 1 p.m. on Tuesday, Sept. 13, at the Texas A&M University Research & Extension Center located 71/2 miles north of Lubbock on Highway 87.

According to County Extension Agent Mack Heald, field tours will be conducted throughout the afternoon with special presentations planned on cotton varieties and diseases, nematode research, weed control research, soil fertility research, water-use efficiency, and grape re-

Cooperating agencies are the Texas Agricultural Extension Service, High Plains Research Foundation, Agricultural Research Service-USDA, and the National Weather Service.

Tractor-drawn trailers will stop at various points, of interest to allow specialists to discuss subjects of vital concern to High Plains agriculture. These include cotton varieties, diseases and harvesting, sorghum and soybeans, nematode studies, herbicide tests, soil fertility and water-use efficiency, grape, apple and vegetable work, and

to visiting agriculturists. Also, specialists will be centrally located to answer tracts over 1000 visitors.

other research. Displays of questions and discuss specific farm machinery and irrigation problems for agricultural proequipment will be of interest ducers, home owners, and gardeners.

The field day annually at-

New Curry County Commissioner

Charles Stockton, left, lifetime resident of the Clovis area, was sworn in Tuesday as a new Curry County Commissioner by District Judge Reuben Nieves. Stockton replaces the late Dr. E.E. Kraus who died August 15. The new commissioner is happy with his appointment and is confident that he "can do a good job."

# State Approves New Texico Fire Station

The New Mexico State Fire Marshal's Office in Santa Fe approved plans for a new Fire Station in Texico last week.

Texico Fire Chief Lewis Cooper said current floor plans for the new station and quarters call for two bedrooms, a full bath, a laundry room, a meeting room and a living and dining room area.

Land for the new station is still in the purchasing stage, according to Cooper.

He said state funds will be

used to construct the new building which will house five pieces of equipment, but that the city of Texico must provide the land.

Cooper says they hope to have the land purchased and blue prints worked out within 30 days. Even though he would like to have the station completed as soon as possible, Cooper said the actual building date is probably several months away.

### Field Inspection

Parmer County Extension Agent Mack Heald, right, and Dr. Robert Berry, extension pathologist, are inspecting cotton varieties growing in a county field. Cotton research results will be featured during the 68th annual field day of the Texas Agricultural Experiment Station (TAES) at Lubbock on Tuesday, Sept. 13. Field tours will be conducted starting at 1

### Football Contest . . .

(Continued from Page 1) two tickets to the Sun Bowl plus \$50.

Runner-up in the overall contest will receive two tickets to the Sun Bowl plus \$25. Everyone is encouraged to

take heed of the first week's results and to consult the football swami for future contests. Who knows, you may be the one to overtake the leader and walk away with "all the apples" at the end of the contest.

Rules for the contest are the same as in previous years. Entries must be turned in to the Tribune office by 5 p.m. Friday, or, if mailed, must bear a Friday postmark. Contestants must be 12 years of age or older and each person may submit only one

Tabulation of all entries are kept on record and are always available for public inspection. Local and area merchants

who are sponsoring this year's contest include Farwell Equipment Co., Plains Equipment Co., Security State Bank, Worley Mills, Inc., Clara's Spur Restaurant, Farwell In-

surance Agency, Inc.; Also, Sherley - Anderson Grain, Lariat, Wooley Hurst, Inc., Interstate Fertilizer, OK Tire Co. of Farwell, Farwell Fertilizer, Rose Drug and Gift Shop, Golden West Seed Co.;

And, Castor Feed Yards, Lerice's of Farwell, Farwell Pipe & Iron, Lunsford Auto Parts, Kelly Green Seed Co., Kirkland and Vinton Pump Co., Cal Jordan Implements, Western Ag Sales Co., Farwell

Also, Texaco, Inc., Aero Farm Chemicals, Bob's TV Service, Sprink-L-Rite, Inc., Watts Machine and Pump Co., Capitol Foods, and James Chadwick - Texas Farm Bur-

Boling said estimates of loan amounts needed under applications filed by September 30 can be revised if necessary in the course of loan processing. In some cases, production loss this year may not be finally determined until later than September 30.

FmHA, the credit agency of the U.S. Department of Agriculture, makes farm emergency loans to cover losses resulting from designated natural disasters and help farmers restore production to predisaster conditions.

Under new legislation signed into law by President Carter Aug. 4, loans not exceeding \$250,000 to offset production loss from disasters occurring since last July 1 are made at an interest rate of 3 percent. Loss to offset that portion of actual loss exceeding \$250,000 are made at an interest rate of 5 percent. Additional financing for production purposes, or for making major adjustments in farming operations is at a higher rate. Applicants must show that necessary credit is not available to them from commercial lenders serving their localities.

Farmers may obtain further information or file applications at the FmHA office serving Parmer County, located at 208 Avenue D, Farwell.

LANCE CASTLEBERRY

Texico, Farwell Recruits - -

# Area Navy Recruit Company Graduates With Top Honors

The Navy's first basic training recruit company comprised exclusively of Texas Panhandle and eastern New Mexico area men graduated recently (Aug. 19) with top honors from the Naval Recruit Training Command in San Diego, Calif.

Collectively known as "Golden Plains Company 153," the special area group of 73 sailors, including two Farwell men, a Texico man and ten Clovis area men, virtually rode away with the five major training awards in intensive four-week periods of competition with 10 other recruit companies.

Included in this group are Rudolph (Rudy) Sanchez, Jr., son of Mr. and Mrs. Rudolph Sr., of Farwell, Doyle Kent Goldsmith, son of Mr. and Mrs. Doyle Goldsmith of Farwell, and Ray Zachrel, son of Mrs. Anita Zachrel of Texico. During half of the overall eight weeks of varied mental and physical training designed

The series, "Citizens of Tomorrow," will into provide each enlistee with clude photos of children knowledge and skills basic to all people in the Navy, the ranging in age from a Golden Plains men excelled and won weekly awards in academics, infantry drills, barracks cleanliness, aerobics (special physical fitness), and

overall efficiency. "I think these special area recruit training companies are a great idea," said Navy Counselor Petty Officer First Class William K. Spears, 31, one of

the two recruit company com-

manders and himself a Texas City, Tex., man. "We're bound to do better because many of the recruits know each other and already have the team spirit instilled in them. Also, since 75 per cent of the company are Texans, and they know I'm a Texan, it makes it a lot easier for me."

Spears, who previously ran an all-Hawaii company, was chosen to head the unique group along with 36-year-old Navy Machinist Mate Chief Petty Officer Glenn D. Crawford of Kirtland, N.M. Both men have been responsible for a number of recruit honor

companies and were chosen for their current job from a long list of volunteers. Crawford said that the

all-state and all-area recruiting concept has resulted in a higher quality recruit who can make the transition from civilian to Navy life easier than his counterparts. "Because it takes between

six months and one year to sign enough individuals for a special recruit company -many on the Navy's delayed entry program (sign up but not report for up to nine months) - we are receiving more high school graduates

and generally sharper people," explained the New Mexican. "They are already motivated by the time they reach here, and since they come from the same area, there is less of a culture shock. The men seem to pick up things faster because the comradery is already there."

Many of the "things" which Crawford refers to have changed "for the better" since he graduated from the same recruit training command in 1959. "There has been a shift to about 90 per cent academics and no rifles," he said. Of the 73 graduating re-

technician, mess management specialist, gunner's mate, or aviation electronics technician All 73 graduates enlisted through Navy Recruiting Dis-

trict Albuquerque.

*Tanamananananananana* School Lunch Schedule At Texico

a LOn the way home they atoured Battleship USS Alabama and Submarine USS ni Drum in Mobile, Ala. They iiaspent one night in New Orleans, La., and then traveled on to Austin where they betoured the State Capitol and also the LBJ park and ranch alat Johnson City. They also a spent one evening and night with long-time friends, Mr. and Mrs. Arb Decker in

Abilene.

### Visit Billingsleys

Recent visitors in the home of Mr. and Mrs. Leon Billingsley and Cora McGuire of Farwell include Mr. and Mrs. Ron Hagaman, Eddie, Elizabeth, Rickey, Michelle, Deanna, Melvin, Tina, Bo, Harry hand Leslie of Independence, Mo. Mrs. Hagaman is a granddaughter of Mrs. McGuire and a niece of Mrs. Billingsley. as The Hagaman family was

returning to their home after several weeks vacationing in Colorado, Wyoming, Nevada, California, Arizona, Texas and Oklahoma. Besides visiting friends and relatives they also saw such sights as Disneyland, the beach and San Diego Zoo.

The Hagamans also visited with Mrs. Mitchell Walls and family, Mrs. Joan Johnson and Amy, Oscar Hubbell, the Donald Jones family and Bruce Billingsley while in this

Also visiting in the Billingsley-McGuire home were Mr. and Mrs. Jack Jones of Amarillo and Jim Turlington of Washington.

One of these days we may be buying grain sorghum breakfast cereals for the lysine we need in our diet to survive. Lysine, chemists tell us, is essential for good nutrition as well as growth and development in humans and animals. Grain sorghum is the 4th leading grain crop in the world and is consumed mainly as human food. It's the third leading ! grain crop in the U.S. and the No. 1 grain crop in Texas, where most of it is exported or fed to livestock. If the lysine content can be improved, it could help eliminate malnutrition throughout the world, and that's what the A&M scientists are working on now by using Scanning Electron Microscopy (SEM). By selecting high lysine seed, they can improve the sorghum varieties.

Kalbas and family included

her mother, Mrs. Anna Janhsen, and her sister, Carol's children, Cindy, Gregg and Mark Frye, all of Amarillo.

Fred Magness of Ventura, Calif., was in Farwell Friday and Saturday to visit his parents, Mr. and Mrs. Joe W. Magness. Returning to California with Magness was his son Brandon who had spent the summer here with his grandparents.

Weekend guests in the home of Mrs. L.R. Vincent of Farwell were her niece and husband, Mr. and Mrs. Jack Ragland of DeSota, Tex.

Weekend visitors in the home of Mr. and Mrs. L.S. Pool of Farwell included their son and family, Mr. and Mrs. Sam Pool, Desta and John, of Santa Fe, N.M.

Visiting in their home on Monday were his sister and husband, Dr. and Mrs. Floyd Golden of Amarillo.

# This & Know

by Leonard Harper

Minister

Farvell Church of Christ

Preconceived judgment or opinion is a threat to our personal welfare and detrimental to happy human associations. The common practice of jumping to conclusions is called prejudice.

It is the iron curtain we often lower to shut out the light of truth and right. It is most destructive of personal happiness and contributes much to the difficulties which arise among people and nations. We are so inclined to prejudice that someone has said that most people don't think, they just rearrange their prejudices.

It has been facetiously said, "Prejudice is a great time-saver. It enables one to form opinions without bothering to get the facts."

Sincere convictions based on facts are commendable and much to be desired, but prejudice is undesirable and is one sure way to a narrow and unhappy existence.

Some folk value their prejudices above truth and fact. They say, "I would not believe otherwise if you presented me with the evidence." Deep-seated prejudice always creates this destructive and ridiculous attitude.

The evil of prejudice is more easily seen when we realize that two of its principal elements are dishonesty and ignorance. A life built on prejudices is most undesirable because it is made up of false conclusions, gross misunderstandings, and willful ignorance.

Prejudice can be overcome if we will seek the truth, and get the facts before we form our conclusions.

### Has Guests

Mrs. Mildred Erwin of

Farwell had as guests in her home the past weekend her son, Gary Erwin of Beeville; Don Brewer, "the big boss," her daughter Pam, a student at the Center appeared on the at West Texas State in Today show last week in a Canyon; a grandson, Bart "face out" with former Sena-Burton of Albuquerque; and tor Frank Moss who has writher mother, Mrs. Fairy Stovall ten a book entitled, "Too Old, of San Antonio. Mrs. Stovall Too Sick, Too Bad." Everyone remained here for a longer was grateful that Brewer was visit with her daughter and given the opportunity to diswith other relatives and friends cuss the good things which go in the area.

New Scouting Program

# Portraying Area Homemakers

BY Shirley Gorman

Mrs. Mike (Caren) Spearman of Texico, our area homemaker this week, is a native of Denver, Colo., who says she likes living in the small New Mexico community. The Spearmans operate a farm north of Farwell.

When Caren isn't busy with her hobbies or club activities she spends much of her time looking after two very active sons, Ryan, who is five years old, and his brother Chad will be two in September.

Caren says Ryan has been attending a Montessori school in Clovis for the past two years and is quite anxious to begin kindergarten in January. She said she sent him to the twice weekly school because there were no other children his age near them, and he "needed to learn how to be with other children."

"Children learn to help each other at the school," Mrs. Spearman says "and they learn things at their own rate.'

Little Chad isn't thinking about school yet, she says, as he is having too much fun playing with his toys and having fun outdoors.

Mrs. Spearman says they keep several horses in a barn and corral located behind their home in Texico. Lately Mike and Ryan have been riding guite a bit and sometimes Chad is also taken along on these jaunts. Even though Caren does ride, she says it is hard for her to get used to Ryan being all alone on a horse.

### In Kersey Home

Recent visitors in the home of Mrs. Lela Kersey include a daughter, Greta Thomas and grandson, Kendall, of Bethany, Okla., a granddaughter and sons, Mrs. Alex Page, Mike and Steve, of Irving, Tex.; a grandson and wife, Dale and Ellen Kersey of Oklahoma; and another daughter and son-in-law, Naomi and Bill Doak of Huntington Beach, Calif.

Also on hand for a visit was a special friend, Martha Yarbrough of Steele, Mo., and another daughter, Ruby Prindle of Lubbock, and a son and family, Mr. and Mrs. Alvoy Kersey of Bovina.

that they all enjoyed sharing their favorite tales of days gone by and that laughter could still be heard "in the moonlight hours."

### From Seattle

Mr. and Mrs. Steve Brewer and Deeann of Seattle, Wash., spent a week visiting in this area recently.

The Brewers visited with her grandmother, Mrs. Susie Jesko of Clovis, a former Farwell resident, and also with her uncle and family, Mr. and Mrs. Raymond Jesko, Jan and Jill, of Texico.

Sunday afternoon for California where they will visit more relatives before returning to their home in Seattle.

Besides staying busy looking after her two active youngsters, Caren also enjoys participating in the activities of the Texico Woman's Club. During the time they lived in Clovis. Caren belonged to the Young Women's Clovis Club.

The family belongs to Central Christian Church in Clovis and Caren says she sometimes teaches Bible school.

Whenever she has time our homemaker also works on several handwork projects. She likes to do needlepoint, crewel and sew. Presently she making a granny square children's blanket and an alphabet blanket.

She has started hooking a rug and is also crocheting a pillow. "I work on different projects as I have time and eventually I will finish them," Caren says.

In addition to these hobbies, she also likes to refinish furniture. She has completed a dresser for Ryan and a medicine chest, coffee table and dining table and chairs. She says Mike has recently acquired an old oak file cabinet which she also plans to refinish. They also have a table and four chairs which belonged to Mike's greatgrandparents which she hopes to have time to refinish someday.

Caren met her husband while they were both students at Colorado State University. She was studying home economics and he was studying animal science, reproductive physiology. Mike graduated a year before Caren was to have completed her degree requirements.

After they married and moved to Clovis, she transferred her credits to Eastern New Mexico University where she earned a bachelor of science degree in home economics. Caren says she has completed her student teaching requirements, but has not actually taught.

Caren thinks that someday, she might like to substitute teach or take the necessary courses to allow her to teach in elementary school. But, she says, that is a possibility for a far off time when Ryan and Chad are both in school.

Caren's parents still reside in Denver where her father is retired. She says they visit each other several times a year. "My One of the visitors reports father likes to help Mike with the corn harvest," she

Her married sister, who is living in Denver, is a speech and hearing therapist. A brother, who lives in Loveland, Colo., works for a company which makes, among other things, baby products.

"He gave my name to the company and as a result I have been testing out new products such as a baby food grinder, spoon and special bib," Caren said.

The Spearmans are one of several test families who are given the opportunity to use the items and to The Brewer family left on comment on them before they are marketed.

Our homemaker has three recipes she has consented to share with our readers.

### **OATMEAL CAKE**

1 and 1/2 c. hot water 1 c. uncooked quick oats ½ c. margarine 1 and 1/2 c. flour

1 t. soda 1 c. brown sugar 1 c. granulated sugar 2 eggs

½ t. cinnamon

Add hot water to oats and let stand while mixing other ingredients. Cream together margarine, brown sugar and white sugar. Add eggs. Combine flour, soda and cinnamon and add to sugar mixture. Add oatmeal and blend. Bake in greased 9x13x2 pan for 30 minutes at 350 degrees.

### TOPPING FOR **OATMEAL CAKE**

3/4 stick margarine 3/4 c. brown sugar 2-3 T. milk

1 c. coconut 34-1 c. chopped nuts

Combine margarine, sugar and milk and heat to boiling for one minute. Add coconut and nuts. Spread on hot cake and place under broiler until lightly browned.

### 1-2-3 FUDGE SAUCE

large can (13/3 c.) undiluted evaporated milk 2 c. sugar

3 squares (3 oz.) unsweetened chocolate 1 t. vanilla

Mix milk, sugar and chocolate in saucepan. Bring to a boil over medium heat. Cook five minutes, stirring vigorous-(Start timing when mixture starts to bubble around edges of pan.) Remove from heat. Add vanilla. Beat with rotary beater for one minute. Serve hot or cold on ice cream or cake. If sauce is too thick when cold add additional evaporated milk.

### **FIESTA CORN**

2 eggs 1 c. yellow cornmeal 1 can (1 lb. size) cream cheese

1/4 c. milk 1/3 c. margarine melted ½ t. baking soda 1 t. salt

1/2 lb. shredded cheddar

cheese 1 can (4 oz.) green chiles

Beat the eggs lightly in a medium size bowl. Stir in cornmeal. Add the corn, milk, margarine, baking soda and salt. Grease a six-cup casserole dish with oil or margarine. Place one-half of the corn mixture in the casserole dish. Add one-half of the cheese and the chilles (cut into chunks). Add remaining corn mixture and top with remaining cheese. Bake at 350 degrees for 45 minutes or until set. Time depends on shape of casserole. Cut

into wedges and spoon

Girl Scouts welcome girls of all ages without regard to race, creed or national origin. The \$2.00 registration fee carries accident insurance for participants. Weekly dues for Farwell Brownies are 10 cents and for Juniors, 20 cents. Uniforms and books are op-

The program is international in scope, with girls and adults in 94 countries of the world. The world's largest voluntary organization for girls is a youth-adult shared informal educational process based on proven ethical values. More than three million girls and 537,000 adults are enrolled.

Caprock Girl Scout Council, with headquarters at 2567-74th Street in Lubbock, served more than 6,000 girls this past year. The calendar of events for the council, planned a year in advance, includes 15 basic leadership courses for new leaders and 15 council-wide program events for Brownie. Junior, Cadette and Senior level girls. Workshops in outdoor skills, songs and games and program are also

scheduled. Junior high Scouts are invited to take part in the Heritage Trip to the Capitol in Austin this summer. Senior Girl Scouts will be selected for a trip to the world center in Mexico. The Caprock Council owns two camps: Camp Rio Blanco, located near Crosbyton and Camp Haynes, located near Silverton.

Mrs. Buster Owens, Littlefield, is president of the board of directors. Adults and girls are invited to call 745-2855 for additional information.

### Visits Parents

Mr. and Mrs. Steve Blair of Montrose, Colo., spent the weekend visiting in the homes of their parents, Mr. and Mrs. Joe Blair and Mr. and Mrs. Gil Patschke, all of Farwell.

Also visiting with the Blairs were their daughter and family, Mr. and Mrs. Mike Norris and Joe of Texico: and their son, Gary Blair, who is attending West Texas in Can-

The Blair family celebrated two birthdays during the weekend. Birthday honorees were Mrs. Steve Blair and Mrs. Mike Norris.

### **Brandon Announces** For State Senate

Amarillo C.P.A. and attorney, has announced his candidacy for the State Senate representing the 26 counties of the Texas Panhandle, to fill the unexpired term of office to be vacated by Senator Max Sherman.

Brandon served as Chairman of Ronald Reagan's campaign for the 33 counties of the 13th Congressional District of Texas and was elected a Reagan delegate to the Republican National Convention in Kansas City, where he served as a floor leader for the 100-member Texas delegation. "If I had to pick one American today who clearly expresses my views on the issues and the role of government in our lives, it would be Ronald Reagan," stated Brandon.

"We are headed for a state income tax unless excessive state spending is halted," Brandon suggested. "The Texas legislature has increased its expenditures from \$8 billion to \$16+ billion in its last regular legislative sessions. It's time they realized it's our money and quit spending every dime they can get their hands

"The statement being made that there are no new taxes is but a half-truth because there has been a tremendous increase in the old taxes. Since I could never support a State income tax. I would devote my best efforts to reducing State spending.

"Our number one priority is to get all levels of government off the backs and out of the pockets of its producing citizens. The best mileage in a dollar has always been obtained by the worker who produced it. The Federal government should not and cannot be allowed to interfere with those aspects of life which can best be dealt with at the state and local level.

"The entire energy problem can be placed at the doorstep of the Federal government because it has placed price controls and unnecessary restraints and regulations on our oil and gas industry and other energy sources. We will solve our energy problems when and only when a free market is restored and a free people allowed to do that which it can do best -solve its own problems.

"Lawmakers may change Senate." the rules, but one fundamental economic law does Texas has not enacted a not change -- savings

James E. Brandon, an (capital) always migrates to the highest return commensurate with the risk and its long term pros-

> "In my judgment, Texas has prospered because it has retained an environment favorable to the worker, savings and business. The working man, investor and the business community have all shared in this prosperity. As a State Senator, I would strive to protect that environment and to see that Texas does not repeat the mistakes of England and New York City.

> "Having been involved in cattle feeding, oil and gas production, real estate, and associated with people engaged in farming and ranching, I am personally acquainted with the serious problems facing major segments of the Panhandle economy."

Brandon was elected to the Amarillo College Board of Regents in 1970 and has served as secretary, vicechairman and chairman. He was re-elected for a sixyear term in 1976.

He holds a degree in Accounting from North Texas State University and a Law degree from the University

### Texico-Farwell Booklore

W. Taylor, who arrived after 1900 and obtained a 160-acre homestead near the depot, has settler.

The source of this information is New Mexico Place Names, A Geographical Dictionary, edited by T.M. Pearce and published by The University of New Mexico Press in

Material in this volume was collected between 1936 and 1940 by workers of the New Mexico Writers' Project.

A post office designated as Texico, a portmanteau word which blends syllables from Texas and New Mexico, was established in 1902.

However, the railroad was built through here in 1899. Some abstracts of Texico property go back even further to 1889.

It is also stated under the Texico item in New Mexico Place Names that the appellation of Escavado was given this XIT Ranch area, adjoining the Texas border.

The English pronunciation of Escavado approximates the Spanish pronunciation of Escarbada.

A site known as Las Escarbadas (Spanish for "The Scrapings"), headquarters of

### Texico Council Sets Meet

Texico City Council will meet in regular session Tuesday night, Sept. 13, at 6:30 p.m. MDT at the City Hall.

A special meeting was called last Tuesday night to discuss changing out-dated city ordinances but no action was taken. Trustee Bill Thigpen presided over the session.

# **Blood Services Fees**

ponents frequently require large quantities over extended periods of time." Richmond continued, "How-

ever, past and current economic conditions force us to implement a service fee increase of \$4.00 for whole blood, \$2.00 for red blood cells, \$10.00 for washed red blood cells, and \$1.00 for platelet concentrate - the only increase in the last four years.

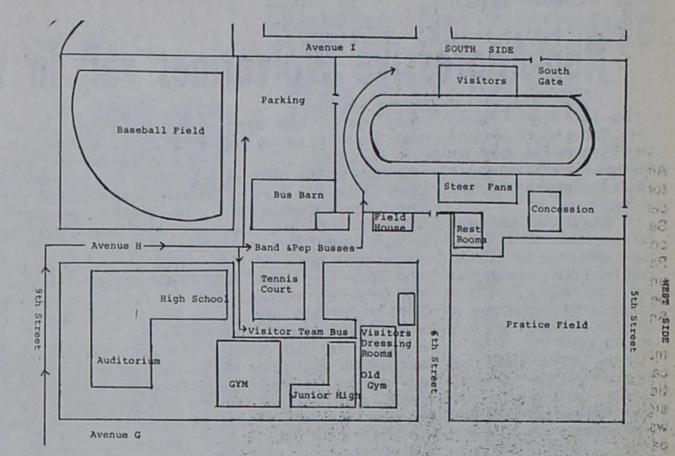

"After these pending fee adjustments go into effect, our local service fees will still compare favorable with those charged by other blood programs across the country," Richmond added.

South Plains Blood Services is a nonprofit community blood program which relies solely on voluntary blood

donations to meet the blood needs of patients in 39 area hospitals.

"Blood services fees are based on the actual cost of recruiting volunteer blood donors and drawing, testing, typing, storing and delivering the blood as needed. No charge is made for the blood itself since it is given freely by members of the community who are willing to share their good health with others." said Richmond.

The blood program, which has been serving this area since 1952, annually draws 18,000+ volunteer blood donors and provides 20,000+ transfusion units of whole blood plus blood components for patients in need of transfusion therapy.

**Parking** Area Noted

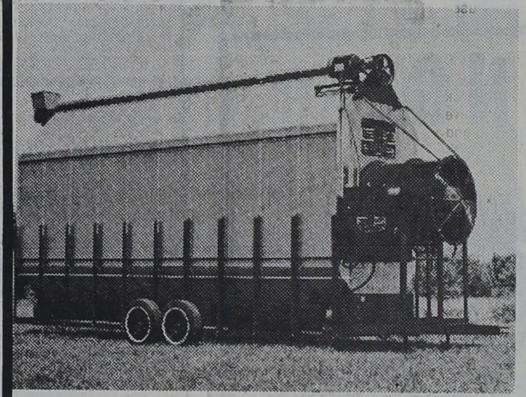

To alleviate traffic congestion in the school area during home football games, Farwell High Principal Tom Knov has prepared the above diagram of the area, designating various parking places. Knoy asks that those attending the gamesplease not park on 6th Street (between superintendent's officeand practice field) but to use the east parking lot between the baseball field and the football field. Vehicles may enter the area at the north side off of Avenue H just east of the bus.

# Steers Upend Swifts In Season Opener Steers Of The Week

Farwell Steers took a 28-18 decision over the Nazareth Swifts Friday night at Nazareth in the season opener for both teams. The Blue and White were almost "caught napping" as the Swifts rallied late in the game to score twice. But the Steers held on to claim their first victory of the season.

Junior quarterback Robin Roberts started the game in place of the ailing Russ Jones. Derwin Huseman ran the opening kickoff back, but the Swifts fumbled the ball two plays later. Farwell recovered, but was unable to generate

any offense as the ball went over on downs.

"Fumbleitis" continued to plague both teams throughout the game. Late in the first quarter the Swifts capitalized on a Steer fumble to earn their first touchdown of the game. However an alert Steer defense blocked the PAT and Nazareth took the lead, 6-0.

As second stanza play got underway Russ Jones took over as quarterback and gained a yard on a keeper. Vick Christian ran 40 yards for a first down at the Nazareth 26-yard line. Three plays later Jones completed a pass to Chandler for Farwell's first touchdown. Robin Roberts kicked the first of his four for four extra points and the Steers took a 7-6 lead.

stopped dead by Carlos Lucio. them from utilizing the gain to their advantage.

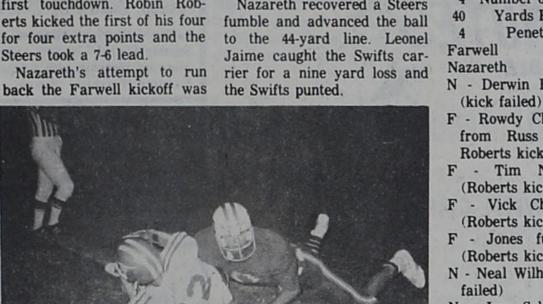

of the ball but was unable to gain a first down. They punted to Christian who took the ball on the Farwell 35 and ran 65 Jones touchdown pass to yards to paydirt. However a , clipping penalty nullified the berry was voided by a penalty score and after four plays call. Jones then passed to Farwell punted again.

Due to a mixup the Blue and White left the field at the half thinking time had run out. However they were called back to the field as enough time remained for Nazareth to execute one play. The Swifts failed on a 30-yard field goal attempt and the Steers took a slim 7-6 lead to the dressing

The Blue and White started the second half with a bang as Tim Norton galloped 22 yards for six points. Roberts added the point after and the Steers went ahead 14-6.

Huseman took the kickoff for the Swifts but was stopped by Keevin Kelley. Lucio broke up a pass and the Swifts were forced to punt. Farwell took possession on the 50-yard line.

Nazareth recovered a Steers Jaime caught the Swifts car-

### Reception By Rowdy

Rowdy Chandler, 22, hangs onto the ball for reception of a Russ Jones pass in the Steers' 28-18 win over Nazareth Friday night. Chandler was named one of the "Steers of the Week" for his fine defensive performance, although the coaches commented that he played a "super game both

PHILLIPS

But after two plays the Blue Neal Wilhelm earned a first and White fumbled the pigskin down for the Swifts but two away. After a series of plays stops by Chandler prevented the Swifts were forced to punt.

Late in the third quarter, Christian galloped 39 yards to After an exchange of punts punch in the pigskin for the Nazareth resumed possession score. Roberts kicked the PAT, and Farwell increased its lead to 21-6.

Early in the final stanza, a sophomore end James Castle-Chandler for the first down but two plays later the ball was fumbled and recovered by Nazareth. Another penalty nullified the play. Farwell resumed possession of the ball only to fumble it away on the next play. Nazareth recovered score 28-6.

ROWDY CHANDLER

**CARLOS LUCIO** 

Two defensive players, Rowdy Chandler and Carlos Lucio, have been named "Steers of the Week" by the Farwell coaching staff. Head coach Van Tom Whatley praised Lucio's efforts against Nazareth and credited him with "paving the way" for three scores. The gridmaster cited Chandler for "playing both ways well" adding that he "was in on 95 per cent of the tackles."

# Whatley Not Impressed With Steer Victory

Even though the Farwell Steers defeated the Nazareth Swifts - their first opponents of the season - by a score of 28-18, Steer head coach Van Tom Whatley was far from happy with the victory.

"I am disappointed in the overall game performance," Whatley commented. "We fumrecovered eight," he said.

According to Whatley, the Steers took Nazareth "too lightly." He places part of the blame on himself saying, "I severely underestimated the team.'

Whatley also commented that the Steers "just did not get after it." He added that another part of the overall Veer offense which they tested for the first time in an actual game atmosphere in Friday's game. "It is a high risk offense and we have to get better at it," he said, indicating that they will "continue to work on the same type strategy during workouts.

Whatley singled out several players for praise, including Carlos Lucio and Rowdy Chandler who were named "Steers of the Week." Accordwas "terrific on defense" and takes on defense" and execut- reckoned with. ed three key offensive blocks which led to touchdowns.

also named "outstanding forc- Indians. ing unit man."

standing offensive back." He two-way starters.

rushed for over 100 yards. Dan Geuther, "outstanding offensive lineman," performed very well as the offensive center, according to Whatley. The coach said Geuther re-

ceived a grade of 85 percent. Other players receiving praise were D. D. Foster and Richard Yruegas who "perbled 12 times and the Swifts formed well as guards." Rusty McFarland did "a good job as

> a tackle," he said. Next competition for the Blue and White is tonight (Friday) when they take on the Morton Indians at Steer Stadium. Whatley said that Russ Jones is ill and it is doubtful that he will be able to

Robin Roberts may be filling problem was the new Houston the quarterback's shoes tonight just as he did during first quarter action last week at Nazareth. Whatley said Roberts "is getting better" and if necessary will "rise to the occasion tonight.

When the Steers take to the field tonight they may also be without the services of Kayle Watts who is out with a pulled quadricep and Bruce Mayfield who has a severely pulled hamstring.

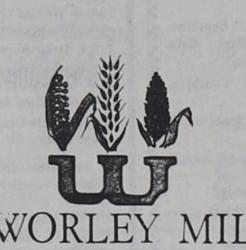

Whatley said Morton is "big ing to the local coach Lucio and strong and much better than they were last year." He he was also named the "out- said that even though Plains standing secondary man." He beat them 30-0 last Friday said Lucio "made few mis- Morton was still a team to be

# SAVING IS GREAT INVEST IN REAL ESTATE

"Sales and Loans Are Our Service"

# Farwell JV Outscores Muleshoe Sophomores

ed the season on the right foot last Thursday night as they blanked the Muleshoe sophomores 28-0 before a thrilled home crowd at Steer Stadium.

The local JV team drew first blood as Mark Owen scored on a 50-yard run and Raul Garza ran for two points. Later in the first quarter Owen struck again with a 30-yard pass to Boyd White who galloped across the goal line for the touchdown. However, the pointafter attempt failed and as the half ended Farwell maintained a 14-0 lead.

In third quarter action, Danny Underwood scampered five yards to paydirt while Garza added the two-point "icing on the cake." Farwell now led 22-0.

During the fourth stanza, Owen's expertise continued to plague the Mules as he fired a 55-yard pass to White. However, the PAT run failed and the game ended 28-0.

"It wasn't too bad for a first game effort," commented Coach Royce Baker, who

Farwell Junior Varsity start- added that "the offense played better than I expected them

> He said he was "disappointed in the defense," but felt they "would come around later." Baker explained that they had been "moving defensive players around quite a bit," but now he felt "they were settled for the season."

> The JV mentor singled out Owen and White for their outstanding performance on offense, adding that Underwood and Mack Langford were "good on defense."

> Farwell JV was to play Morton JV Thursday night at Morton. He commented that Morton has "good size and speed." Game time was to be 7:30 p.m. CDT.

Upcoming games include Happy JV at Happy September 15 and Muleshoe JV at Steer Stadium September 22. Baker said he expects the Muleshoe conflict to be "our toughest game of the season." He said that Muleshoe was the only team to beat them last

### TD For FHS

The referee's hands go up into the air signalling a touchdown for Farwell in the fourth period of Friday night's season opener at Nazareth. Russ Jones recovered a fumble in the end zone for the score. The Steers held off a fourth-quarter surge by the Swifts to take the game 28-18 over their Class B

### Jr. High Games To Begin At 5

All home games for the Farwell Junior High football teams will begin at 5 p.m. rather than at 5:30 as previously scheduled, announces Athletic Director Tom What-

Coach Whatley says that the games at Morton Thursday night were also scheduled to begin at 5 o'clock. Three

games were to be played,

including 7th, 8th and JV

Next Thursday night the Junior High teams will go to Happy for one game only.

This game will begin at 5:30 with the 7th grade playing a portion of the game and the 8th grade team playing part of the time. There will be no JV game at Happy.

# Coach Whatley Comments On Steer Varsity

(Editor's note: Farwell head back, 160. Keevin is new to

back and safety, 180. We look nitely be of benefit to us both for great things out of Russ offensively and defensively. of our "true" leaders and a big cog in our wheel. Russ was ill against Nazareth and may not play against Morton, but when he is well our offense will be much better.

Vick Christian - senior halfback, 160. The most pleasant surprise I've ever had. Vick has never played running back until this year and thus far has done an outstanding job. I think he will turn into one of the best backs in our area. He probably has more desire to excell than any

youngster I have ever coached. Tim Norton - senior halfback and rover, 155. Tim is our only experienced back and is as quick to the line of scrimmage as anybody around. He will definitely be outstanding in time. Tim does an excellent job defensively when he lines

up right. Robin Roberts - junior quarterback and rover, 140. Robin is probably the most improved player we have out. He has worked very hard at QB and place kicking. We think he will be a very valuable part of the team. A very fine young man who is a pleasure to work with.

Benny Yruegas - sophomore halfback and corner, 155. Benny still lacks experience but has all the tools to be outstanding. A very competitive youngster who hates to lose. With experience he could be a real asset.

coach Van Tom Whatley has our system and therefore has released the following com- been slow learning the things ments about the varsity Steers: we do. He is just about Russ Jones - senior quarter- situated now and will defi-

peanut of our crew. Max has good speed and sure hands and he likes to play the game. Max does an excellent job wherever he plays. A super

James Castleberry - sophomore flanker and halfback, 130. James missed a year of football because of an injury but has progressed very rapidly as a split receiver. I think he progressed so rapidly so I would quit yelling at him. He was really confused early but is going to be a player.

Kayle Watts - junior split end and end, 150. Kayle has been injured most of the time up until now but he has not become discouraged and we feel like he will really help us when he gets well.

Rowdy Chandler - junior tight end and linebacker, 170, and Carlos Lucio - senior tight end and halfback, 145. I can't say enough about these two young men. They will ab-

solutely turn your lights out when they hit. Both youngsters are our defensive leaders and do an outstanding job when-

ever they play.

Rusty McFarland - senior tackle, 160. A super attitude with our new offense, both Max Lonsdale - sophomore change has helped make running and passing. He is one flanker and halfback, 135. The Rusty a good player and fine wants to be a part of it all and young man. Rusty can play anywhere and do a very capable job. He likes to win more than anyone I've ever seen and is a tough nut to

Leonel Jaime - sophomore tackle, 170. Leonel is starting for us on defense but he has a lot to learn and a lot of hard work ahead of him. In time he will be a good player. The thing about Leonel is that he wants to be a player.

Clay Roberts - senior tackle, 170. Clay has improved immensely since we started two-a-days. He is very aggressive and highly competitive. Clay will be one of the better players in our area.

Dan Geuther - senior tackle and center, 165. Dan has come into his own as a football player. He has learned what we expect of him and is probably our best defensive

\$4.10

tackle, 198. Rance is a perfect example of how good a coach I am. He was our manager last year and I did not even consider that he could play football. He came out this year and has done an incredible job so far. He really be a player.

D.D. Foster - junior guard and linebacker, 185. D.D. really has come on since I first saw him. He has worked awfully hard trying to do the things we ask him to do. He will be one of the best offensive linemen in our district with no problem at all.

Bruce Mayfield - junior guard and corner, 150. Bruce is too little to be an offensive lineman and too slow to be an offensive back but he is actually an offensive lineman. He does an excellent job at guard and on defense. What he lacks in size and speed he makes up with solid effort. A very fine young man.

Steve Hargrove - senior center, 150. Steve needs a little more experience in order to be a quality player but in time he could be just that. Right now he is playing our backup Rance Williams - junior center and doing a fine job.

### First Game - -

# Farwell 8th Yearlings Blast Nazareth 16-0

Farwell Eighth Yearlings started the season with a bang last Thursday night by shutting out their Nazareth counterparts, 16-0. But victory did not come easy to the local

Defense was the name of the game as both junior high teams battled to a scoreless first half.

However, the tide turned in Farwell's favor in the third stanza as Blake Buchenau

scored on a quick pitch from six yards out and then dived in for two extra points.

Waverly Coates performed a similar feat in the fourth quarter as he took the ball on a quick pitch, ran for paydirt and also scampered for a two-point conversion.

The 16-0 win over Nazareth allowed the Eighth Yearlings to cut one notch in their

season's victory belt. "We played well considering

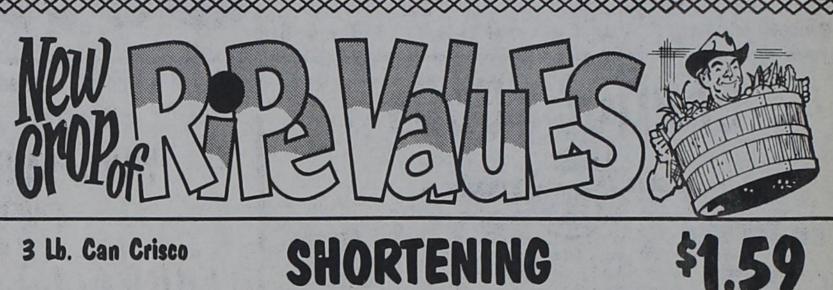

we had not had much time to practice," said coach Larry McDorman. "The boys ran during the game."

He cited Doug Cole and Lenny Beal "for doing a good job blocking on the line and on defense." He said he "expects a lot from the players," adding, "they will improve as time goes by."

The Seventh and Eighth Yearlings were to meet their

Morton counterparts Thursday night at Morton. McDorman said, "we have lots of work to well and we fumbled only once do" as Morton is "bigger and faster." Game time is set for 5:00 p.m. CDT.
