

One thing which we have been obliged to do since the Federal government has gotten so meticulous about collecting its income tax es, is to keep books.

Not since this newspaper was begun over 40 years ago, has a bookkeeping system worthy of the name been maintained for as long as 12 months-not, at least, to our knowledge.

Old Hop, from whom we inherited all this mess commonly called a weekly newspaper, was just plain on the stormy seas of accounting months. This week, Jack Stagner for income and disbursements.

About all that he ever found it really necessary to do was to remember how much (or how little) he had in the bank so that he wouldn't overdraw his account with a check which was a little too optimistic.

And we certainly were in sympathy with his viewpoint. If a man doesn't want to fool with keeping books, it ought to be his own business. But not so today.

Anybody informed on the subject can tell you that weekly newspapers don't make any money, but proving it seems to be something else. In fact, we have noticed that a lot of people who would be making money except for what they have to spend keeping books, wind up without making any money.

As 1954 was the first year we ever bothered with keeping track of the financial affairs of this business, we have been more than inmajor undertaking, as the project was completed last week. Every-thing was developed as week. terested to see the results of this thing was drawn up to date and all the figuring balanced, so we port to see what we could see.

To put it rather broadly, the only thing which we know that we have not known in former been going.

made. The only consolation our will be, "Christian Living."

# HOPPER By HOP JR. HOME PROJECTS LAUNCHED

Two housing developments appeared imminent for Farwell this week, as a large-scale Clovis contractor and a Farwell independent contractor announced plans for home developments which should answer-or at least help-the critical housing situation which has prevailed for some time. The local man got his crew started on the first home this Wednesday, and the Clovis contractor has his sights set on June 1 as the date to start construction of 25 new units.

### Stagner Plans 25 Spanish-Style Units, With Work To Begin by June First

Confirmation was made this week intention of building 25 three-and good when it came to being a news- on a story that has been heard four-bedroom homes in southwestpaperman. But he was lost when from time to time for about six ern Farwell.

The big housing project, which will be known as the Hillcrest state line and Second Street, below Avenue G.

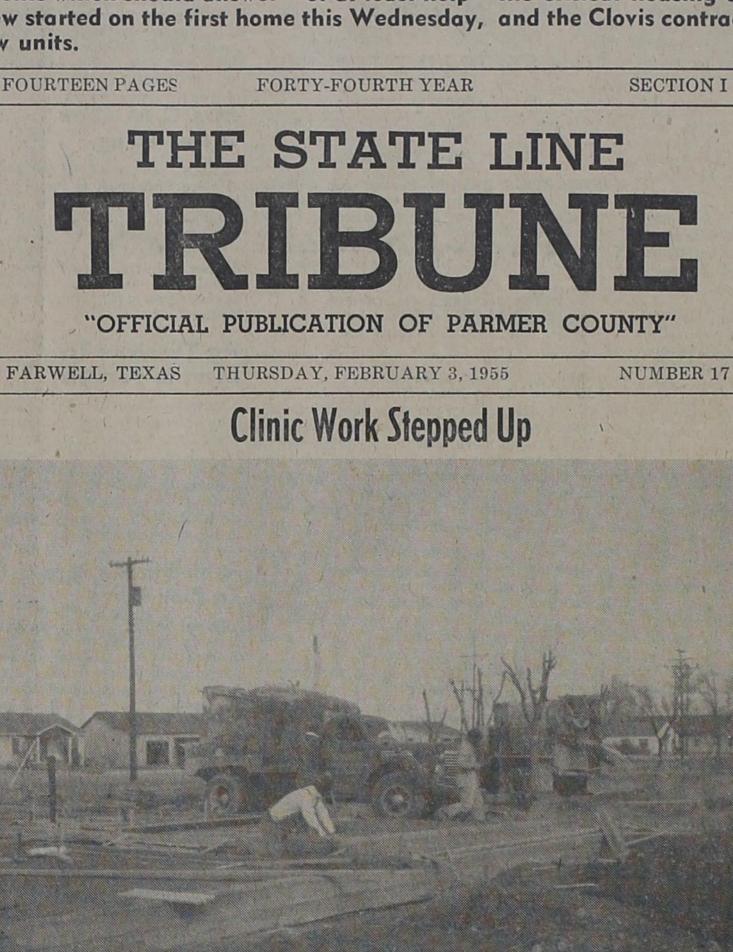

An area large enough to accommodate 70 homes has been purchased by the Clovis contractor, but 25 residents will be the initial project. "We fully intend to build more if demand proves to be adequate," said Curtis. Williams of the firm.

Paving, curbing, and guttering will be installed in the new addition, and this work will be taken care of before the homes start going up, which is expected to be about the first of June.

The residences are of a modernized Spanish style, similar to others which Stagner has erected in Clovis. In fact, the contractor now has two "model homes" on display at one of his Clovis building sites which he will show persons interested in finding out what the homes planned in Farwell will look

like, Prices for the homes will range from \$8000 to \$10,000, says Williams, and financing will be avail-

We consider the possibilities for (Continued on last page.)

### **Jesko Starts First Of Planned Units**

Harry Ray Jesko, a veteran returning to Farwell after four years in the USAF, began work this week on the first of what he hopes will be several homes in Farwell.

Jesko, making his first try at home development projects, says he is proceeding with caution, but is hopeful for the future of his plans. He is presently building a four-bedroom frame home between First Street and the paved farm-to-market road going south out of Texico.

Jesko has purchased 370 feet from Bud Peyton, and his first home is being built on the northern part of this tract, between the present residences of Dr. Mary McNeff and Clay Henson.

"I plan to build one house at a time," he says. "If we sell this one, we will go ahead with other projects.'

Jesko is hiring labor for his development, which will be finished in what he calls a "move-in style." That is, a buyer will find the home to be complete with everything ready for occupancy,

(Continued On Last Page)

#### **Dosher Schedules Big Farm Sale**

Col. Dick Dosher, local auctioneer, will take the stand Tuesday, February 8, to help auction off quite a bit of his own property in an unusually large auction sale which is scheduled for that date. Dosher's place is located 1 mile west, 1 mile south, three-fourths mile west of the Port of Entry, or 5 miles east, 1 south and 1 mile east of Clovis.

The sale, which will begin at 10 o'clock Texas time, will feature

One thing that we have never been embarrassed about is an open and above-board discussion of figures-tabulations, we mean. It has never bothered us in the least to tall somebody how much we paid for something or how much we owe on it, or some such

So, the next time you or your organization or someone you're interested in gets a write-up that is 10 inches in length, just remember that it cost the management of The Tribune \$2.50 to do it!

Based on the above figures, which are authentic, we remind you, perhaps you can now understand why it is imperative that upwards of one-half of the newspaper be devoted to paid matter-advertising.

Since each week from 40 to 50 percent of The Tribune is published for FREE, it is then necessary for us to ask our advertisers (bless 'em!) to pay this bill.

What about your subscription price? Doesn't that pay for sending you the paper? Well, dear subscribers, we certainly wish that it did, and we don't want you to think that your nickel a week doesn't help out immensely.

However, if you want the cold facts, \$2.50 per year doesn't pay for the newsprint, ink and postage that it takes to get out The Tribune, let alone the cost of gathering the news and producing the paper.

To operate a newspaper and commercial printing department such as we now have costs us over \$600 per week. We are not meaning to brag and say that we are really "big business," but it does go to

### THE TRIBUNE'S EDITORIAL COMMENT

#### Pain Comes with Progress; It's Always Been that Way

When looking through back issues of newspapers or magazines which are many years oldperhaps a 100 years or more-many things which we see will amuse us. The costume of former generations, what our grandparents did for entertainment, and the general passing scene are cause for much laughter when we see these things in retrospect.

Sometimes, however, little lessons jump right out at us before we scarcely realize it. Such was the case, when we came across a copy of an old, old handbill which was reproduced by the weekly news letter of the Chamber of Commerce of the United States.

In horribly bold type that fairly screamed for attention, spine-chilling words in this handbill told the dreadful calamity which was about to be risited upon the peaceful community of Philadelphia: a RAILROAD was being brought in!

"Mothers, look out for your children!" warned the handbill. A grotesque scene portraying the entry of the train through the streets of Philadelphia followed, to give graphic emphasis to the point. Carriages were being overturned as horses ran away, and people were fleeing for their very lives. The business houses on the street adjoining the line were all vacant and had "to let" signs in their windows.

The jet black horse was pictured with an evil expression on its face as it bullied its way across town, making money for millionaries. "MONOPOLY" was emblazened on its side. "Rally, people in the majesty of your strength and forbid this OUTRAGE," screamed the circular.

came into widespread use. They brought prosperity ogether with a transportation system which still

#### Second Meeting Set **For School Officials**

Superintendents and principals from five area schools met in Farwell Monday evening to lay the groundwork for a school evaluation program, to be inaugurated in the educational system.

Schools represented were Muleshoe, Lazbuddie, Friona, Bovina and Farwell.

A second meeting is slated in Friona Saturday morning, February 12, at 10 a. m. when Emmett Smith of West Texas State College in Canyon, will meet with the group to discuss the evaluation. This will be a big program, say school officials, and will take a lot of time on the part of the faculty and also some school patrons, but it will be worth the time spent.

Both Texico "42" teams (the Gilleans and the Spears) won the games played at the Texico school, Monday night, Jan. 31.

### ... the fuel designed for today's hi-compression engines!

Regardless of make or year, your car will benefit from Conoco Super Gasoline, the fuel that combines a controlled higher-octane rating with all power benefits of TCP!

Whether you're the proud owner of one of these 1955 beauties . . . or are still getting dependable service from your present car ... isn't it time you benefited from Conoco Super Gasoline with TCP?

Make no mistake about it! Here is no ordinary fuel, but an astonishing new kind of gasoline that sets free every ounce of power packed into today's wonderful high-compression engines . . . a gasoline that virtually tunes up any engine by the time you've finished your second tankful!

Feel that powerful difference today!

This week, start using Conoco Super Gasoline with TCP ... after two tankfuls, you'll see why the greatest gasoline development in 31 years became the greatest success in gasoline history!

#### THE BENEFITS OF TCP PHOVED BY OVER 8 MILLION USERS!

- 1. TCP boosts your car's power as much as 15% (because it neutralizes power-robbing lead deposits in your car's engine).
- 2. TCP gives you extra gas mileage (motorists report up to 3 miles more per gallon).
- 3. TCP is just like an engine tune-up (because you enjoy all your car's built-in power).
- 4. TCP increases spark-plug life up to 150% (because it actually fireproofs your spark plugs).
- 5. TCP is your guarantee of Top Car Performance (because it brings out all the extra performance of Conoco Super's higher-octane rating).

# COMING SOON!

EXTERIOR VIEW OF 3 BEDROOM HOME—you'll be more than pleased to own one of these fine 3 bedroom homes. Plenty of ventilation and light through the steel casement windows. Spanish type architecture with stucco finish. Picture window adds gracious living.

### **A FIRST IN FARWELL**

For some time we have watched with interest the rapid growth and progress of the community of Farwell, and our observance has convinced us that the future of this community is excellent. For that reason, we are bringing to Farwell the FIRST organized housing development program ever begun here.

### **EXPERIENCE?**

We have been busy building high quality, low-cost homes in this area for 15 years now, and our reputation as a contractor has been well established. We are more than glad for you to ask us about our background and experience, as we feel that we will satisfy your questions.

In fact we have built HUNDREDS of homes within the past several years, and have perfected our contracting organization to the point where we are able to give the purchaser the ultimate in value for his investment.

### **25 UNITS**

For these and other reasons, we are sure that you will welcome the news that within a very short time we will begin construction of

#### **TWENTY-FIVE BEAUTIFUL HOMES**

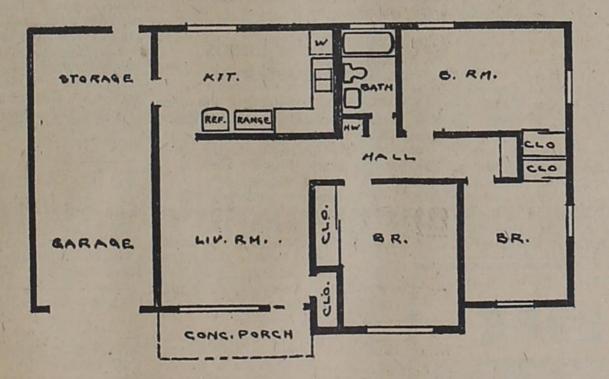

in the City of Farwell—which will feature the ultimate in value and living ability. These homes, in three and four bedroom sizes, will provide a housing development for which the community of Farwell has long waited.

-FLOOL PLIN -

### THE NEW 3-BEDROOM FLOOR PLAN

This also can be arranged for a four-bedroom home.

**FLOOR PLAN 3-BEDROOM HOME** Cut-A-Way View of the Three-Bedroom Home Shows There is Plenty of Room for Most Families

Visit our two model homes at 3009 and 3013 Gidding in Clovis and see for yourself the many fine features of the homes. Make arrangements for a visit through Highland Realty Company at 1423 Main. They'll be more than glad to assist you. Can be seen during the month of February.

### **MANY, MANY FEATURES**

Really, folks, we're sure that you will be more than pleased with our offer. Each home is complete with lot, paving, garages and has room for nice yard. The houses have plumbing and are plumbed for automatic washers. Heating units are Commonwealth Wall Heaters. Modern mahogany slab doors and sliding wardrobe doors are featured. Walls are sheetrock and textone with electric outlets in each room. Also, walls and roofs are insulated, the home is vented and wired for roof-top air conditioner, and concrete sidewalks are provided.

### DOWN PAYMENT AND MONTHLY PAYMENTS INCLUDE ALL CLOSING COSTS, INSURANCE PAYMENTS, AND PROPERTY TAXES.

and fifth in jerseys. In final individual standing, Oakley Stevenson, junior from Bovina, placed fifth. Other team members included Keith Brock, junior from Friona.

Team coach was Dr. D. W. Cloninger, associate professor of animal husbandry.

#### **Texico Invited To** Morton Band Clinic

PORTALES-Morton will be the site of an all-day instrumental music clinic for seven high school bands, Feb. 5. Three members of ENMU music faculty will be guest conductors.

The clinic is being sponsored by the Morton high school band which is directed by John Bealmear, an ENMU graduate. All sessions will be in the county auditorium at Morton.

High schools invited to participate include Muleshoe, Whiteface, Olton, Seagraves, Morton and Texico and Dora in New Mexico.

# **FFA Officers Meet**

which was set for the coming Monday night, will be cancelled, Robert "Prof" Morton, instructor says, since he and several of the boys will be out of town to attend the El Paso livestock show. The entire membership will meet Monday night, February 14, and all plans will be discussed there. Time of the meeting is 6:30, earlier than usual, to avoid conflict with a party that evening.

#### Meet Today

Marilyn Edwards will be hostess to the bridge club this afternoon (Thursday). The group met in the Ira Levins home last week, with Mrs. R. W. Anderson as hostess. Twelve young women attended the social.

Steve has many years of experience in this field, and is fully qualified to answer nearly all of your fertilization program questions.

LET US FIGURE WITH YOU TODAY

### KENDRICK **OIL COMPANY** Phone 2882 Friona, Texas

# More than new

Ford's 162-h.p. Y-block V-8 and 182-h.p. Y-block Special V-8 now offer new Trigger-Torque power!

The Go-power these great engines deliver can come only from engines which are more than merely new-more than ordinary V-8 engines. And that's exactly what these Ford engines are. They are the result of the most advanced V-8 engineering-a result of Ford's experience in building more V-8's than all other makers combined.

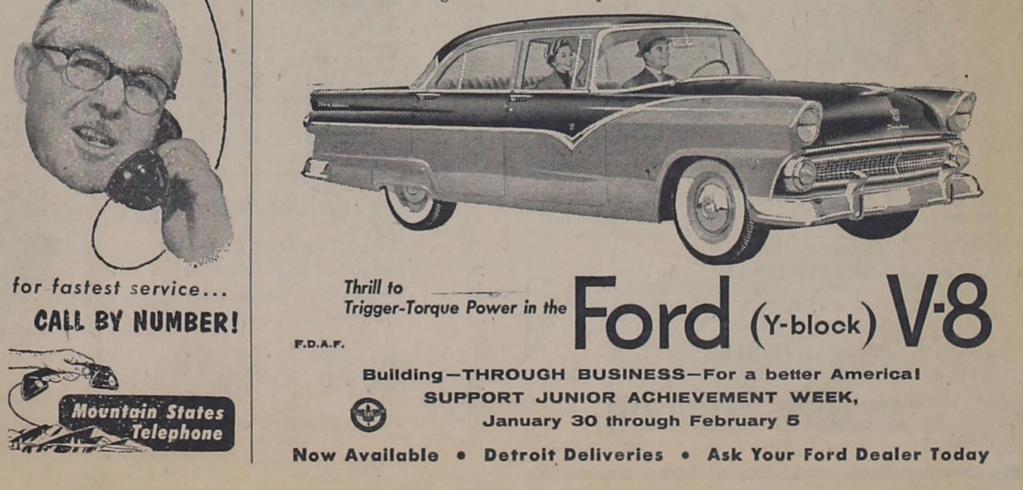

# Tried and true

#### Ford's 1955 engine news resulted from 23 years' experience building over 14,000,000 V-8 engines

In 1932 Ford introduced the V-8 engine to the low-price field. And it was only just recently that other makers in Ford's field adopted this kind of engine-23 years later. Yet it is interesting to note that the majority of costlier cars had joined Ford in offering V-8's some time ago. Ford's vast V-8 experi-

ence has never paid off better than this year . . . with two great Ford V-8's for '55.

Come in. Take your Test Drive today. Ford has much more to offer that's new. You'll find beautiful Thunderbird-inspired styling-comfortable new Angle-Poised Ride, to name a few.

They are C. M. Stookey, chair-man of the ENMU School of Music; Floren Thompson, director of bands; and Dr. Merle E. Hogg, assistant professor in music.

**Bovina Junior Play To Be March 25** 

"An Apple for Eve," by Jay Tobias is the play to be given by the junior clas of Bovina this year. It will be given in the Friona High School auditorium, March 25, says Marjorie Allen, sponsor of the class. The play is a story of the dilemma of people who seem to get into more trouble than could be thought possible. Students in the cast are (front row): Pat Burnam, Sue Hoffer, Ruby Wilcox, Donna Jean Hobdy, Dorothy Rogers; (back row), Joe Riley, Erith Hawkins, Larry Ezell, Billy Richards, Bob Calaway, Darrell Read, and Patsy Steelman. Those not present for the picture were Lois Ellison and Lynn Isham.

was discussed. Supper was served by the ladies' clubs of Friona. This brochure is a folder or pamphlet, to the Parmer County Hospital any fish so he didn't have a fish Termed A Success the purpose of which is to let peo-building fund. Menu also includes story to tell us. First time we ever ple (visitors and local) know the attributes of Friona.

The guest speaker was Dillie Kelley, principal of Friona High School. He gave a talk on the proposed brochure and suggested items that could help the project along. Members of the Lions Club were assigned parts on the

project which will enable information to be assembled on these important phases of community attractions:

Water facilities, medical facilities (adequacy of hospital, etc.), grain storage (elevators), rail and major. truck facilities (illustrating town's

possibilities for getting produce shipped), religious activity, local markets, processing and manufacturing industries (such as cotton gins);

Social and civic clubs, fire protection and service to be obtained from utilities.

All of the above information will be printed on the inside of the brochure. This brochure will take in Friona's trade territory as well as the city of Friona, and will be sold by the Lions Club, to merchants for distribution.

"It will take us two or three months to get all this information in order and then we will be able to start printing, we hope," says Charles Scales, secretary. Three new members joined

the Lions Club at Thursday night's meeting. The next meeting date is Feb. 10, says Scales.

Mrs. J. H. Lea is ill at her home this week.
