Firemen Meeting Tonight

A meeting to organize a Farwell Fire Department is set for tonight at 8 in the City Auditorium. Preliminary steps will be taken to set up the department and all persons interested in joining are asked to be on hand.

Otis Huggins will be in charge of the meeting and he says that at least 20 men will be needed in the organization. Presently there are 10 Farwell men in the Texico-Farwell department.

To be discussed will be a meeting time for the group and whether or not they prefer to meet jointly with the Texico department. In the past, some have said that they would like to join the department but could not as long as the group met on Wednesday night.

PTA To Meet Tuesday Night

Mrs. Jim Terrell, president of the Farwell Parent-Teacher Association, has announced that the next meeting of the organization will be held Tuesday evening, October 15, at 8 p. m. This meeting was postponed from the regular meeting date of Tuesday, October 8.

Meet Longhorns Here Friday at 8

For the second straight week the Steers will take on an undefeated team when they clash with the neighboring Lazbuddie Longhorns at Steer Stadium Friday night. The game will start at 8.

Both teams have 4-0 records for the season, but on the basis of its decisive wins, Farwell will be the favorite. However, Coach George Washington's Longhorns, led by 190-pound fullback Roy Vanlandingham, could give the Steers their roughest battle of the season.

The Longhorns rolled up easy wins in their first three games, but in their last outing won the game by only two penetrations. The latter game was with Whitbarral and the two teams battled to a 7-7 tie in opening District 3-B play. Lazbuddie holds wins over Muleshoe B, 40-0; Vega, 20-6; and New Home, 52-6.

The two teams have one mutual foe in New Home and neither had any trouble with the opponent. The Steers ran over New Home 60-0. While the two scores were similar, no comparison can be arrived at, as the problem in both games was holding down the score.

The game will be a tune-up for conference play which begins in earnest for both squads next week. The Steers will face highly-touted Morton and the Longhorns will go against Amherst.

The Longhorns will have a heavier team, outweighing the Steers 14 pounds per man on the line. The Longhorn line averages 164 while the Steer average is 150. In the backfield Farwell has a slight edge, a 170 pound average compared to Lazbuddie's 161.

The probable starting lineups:
Lazbuddie
Roy Vanlandingham, 190, FB
Ronny Briggs, 125, QB
Bobby Blackburn, 188, RH
Joe Beavers, 140, LH
Dean Watkins, 150, E

JOHNNY SCORES—Steer Quarterback Johnny Lovelace is shown as he breaks away for a touchdown in the third quarter of the Farwell-Ft. Sumner game Friday night. The TD was the third of the night for Lovelace as he pushed his point total for the year to 67.

LARRY, TOO—Larry Pike, fleet-footed back for the Steers, breaks away from several Ft. Sumner defenders for a touchdown in the second quarter of the game. He scampered 26 yards for the score, which was the fourth for the Steers. Farwell won the game 37-14.

Joe Blair Burned In Tuesday Mishap

Joe Blair was home from the hospital and was in good condition Wednesday afternoon, after receiving treatment for first and second degree burns received in a freak accident Tuesday morning.

Blair, enroute to Muleshoe Tuesday morning, noticed a gasoline transport truck that was stalled. He stopped to help Bob Dollar, also a local man, who was driving the vehicle.

The transport had run out of gas in one of the tanks and Dollar was trying to switch to the other tank, but was having difficulty. So Blair was priming the engine by pouring gas into the carburetor when the engine backfired, immediately engulfing him in flames.

Dollar and another unidentified man helped to snuff out the flames. Blair then jumped into his pickup and he and his young son, Steve, who was riding with his father, rushed back to Farwell, where the local man was treated before being hospitalized in Clovis.

His wife, Ruth, reported Wednesday that Blair has first and second degree burns on his chest and stomach and face and hands. Although his lips were burned, his eyes were uninjured. Mrs. Blair says the doctors think that his recovery will be good and that there will be no scars caused from the burns.

GOT A CAMERA, BUT JUST BARELY

The Farwell-Ft. Sumner football game was filmed Friday night with a new and expensive movie camera. But it almost wasn't. Bob Hart and Harry Sheets, two members of the local Quarterback Club, which sponsors picture-making projects for the Steers, were sent to Lubbock just before game time to pick up the camera and try it out.

They were in a hurry because time was short, so both went in their traditional "business suits." Hart, a mud-spattered irrigation farmer, and Sheets, a soot-covered welder, walked into the camera store and said they represented the club and asked for permission to "borrow" a camera listed at \$450 for the evening. They wanted to see if it would be satisfactory for their purposes.

The clerk reportedly stood on first one foot and then another for several minutes as he sought more positive identification of the two, but finally let them have the instrument, and the Farwell men got back home just in time to shoot the game.

Stickup Nets Robbers \$150

An armed robbery has netted a pair of Latin Americans \$150 in cash, and they are still at large. The holdup occurred at Bagley No. 2 service station on Highway 70 in Farwell Wednesday night, about 10 o'clock.

Bob Bolton, station attendant, was ordered into a restroom by the bandits as they walked into the station with handkerchiefs over their faces. Both were carrying pistols.

After they tried unsuccessfully to open the cash register, they brought Bolton out to solve that problem, took the cash, tied the employee up, and fled.

Bolton had no trouble wriggling out of the coils of rope

and summoned Sheriff Chas. Lovelace. Today the sheriff says the men left the station and ran to a car or pickup they had parked near Continental Oil Company, less than a block away.

They spun their wheels and sped out of town down the Lubbock highway, the sheriff says. Roadblocks were set up at several points soon after they left, but they got away. The sheriff says the men left with their lights off to avoid detection. Tracks indicate an erratic course, and the curb was jumped.

Bolton, who was unhurt, gave a good description of the men to officers. They were believed to be young. One spoke poor English.

Two Pledges Push Total to \$10,000

Although attendance was light at the swimming pool meeting Tuesday night, the project got another "shot in the arm" when it was revealed by Jess Landrum, the man heading the drive, that donations had brought the \$5,000 goal to within striking distance.

The pool received its biggest boost when N. L. Tharp offered to furnish a location, dig the hole, and contribute \$4,000 to the project. Also, the Shirley-Anderson-Pitman ele-

vators of Parmer County pledged \$1,000.

Those who were present at the meeting decided to accept Mr. Tharp's proposal and the pool will be located on the New Mexico side of the state line, north of Tharp's residence in Texico. Tharp's residence is north of Highway 60 on the state line road.

In addition to digging the hole the Twin City businessman and farmer also said he would haul the excavated dirt away and pave the road down to the pool if necessary.

With the above two contributions, the swimming pool fund (cash on hand and pledges) is now over \$10,000 and only one-third of the goal remains to be raised.

Only six were present at the meeting but those there mapped out a plan to raise the remaining money by personal contact. Several persons other than those at the meeting had volunteered their assistance in the fund-raising and a list of area citizens was given to each of the workers to contact within the next few weeks.

Also, it was decided at the meeting to ask those who have already pledged to send in their contributions as soon as possible. They can be mailed to Jess Landrum, Farwell, Texas, or turned over to any of the workers.

Those present at the meeting were Nell Walling, Maxine Williams, Jeanne Graham, Prof. Morton, Landrum, and Richard Hapke. Others who have offered to help with the fund-raising are Sam Aldridge, Jack Williams, and John Aldridge.

Landrum expressed disappointment at the small turnout for the meeting and the number who volunteered to help with the drive. However, it is hoped that there will be more volunteer workers to help with making the personal contacts.

The deadline for raising the \$15,000 is still January 1, and all the money has to be in before construction can begin on the pool, Landrum says.

Wayne Hardage Injures Foot

Wayne Hardage, 22-year-old farmer in the Oklahoma Lane-Lazbuddie area, received serious injury to his right foot in a farm accident last Friday afternoon while working on the Lee Mason farm.

Hardage's foot was caught in the power take-off shaft of a shredding machine when he accidentally tripped the clutch when he stepped off the tractor, setting the take-off into operation.

The young farmer was taken to the hospital in Friona for treatment and was later sent to Northwest Texas Hospital in Amarillo.

Reports early this week indicated that no bones in his foot and ankle were broken, but that the muscles and ligaments were badly torn and crushed. He was reported to be resting comfortably the first of the week.

FROM HOSPITAL

Mrs. Bill Glenn is reported to be "doing fine" this week after receiving medical treatment in Clovis Memorial Hospital. She entered the hospital Wednesday, October 2, and was dismissed Tuesday, October 8.

Prissy Crume To Have Heart Surgery Next Week

Little Priscilla (Prissy) Crume will enter the hospital in Dallas next week, for further diagnosis and then surgery for a heart condition that has existed since birth.

The child is the daughter of Mr. and Mrs. Kater Crume of Hereford and the granddaughter of Charlie Crume and Mrs. W. H. Graham Sr. of this community. Her father is employed at Ford Motor Co. here.

Prissy's trouble stems from the fact that one valve in an artery above her heart that should have closed at birth, did not close. The family has been aware of the heart condition for about a year. Without surgery, throat infections or other such diseases could be fatal for the little girl. Several doctors have recommended surgery for the little girl.

Prissy is five years old and has been an active child, with no apparent difference in her strength than that of her playmates.

She is the younger sister of three daughters, Judy, 10, and Betsy, 6. Mrs. Graham will be in Hereford with the other children while the Crumes are in Dallas.

Prissy will enter the hospital the first of the week and will undergo surgery next Thursday.

Texico FB To Meet Tonight

Texico Farm Bureau will meet in regular session tonight (Thursday) at the school lunchroom at 8 p. m. (CST) for the purpose of electing new officers for the coming term.

Besides the election of officers, Tom Hudson and some of the FFA boys from Texico School who took projects to the state fair in Albuquerque will give reports on their trip to the fair.

Phil Crystal, Curry County Agent, will also be on hand to speak to the group.

Texico FFA Boys Fare Well at State

Nine members of the Texico FFA entered 45 animals in the New Mexico State Fair at Albuquerque last week and returned with 44 ribbons. Among the winners were three grand champions and 11 first places.

Showing the grand champions were Allen, J. C. and Leon Kelley, Duroc boar; Wesley Engram, Hampshire gilt; and Teddy Roth, Chester White gilt.

The Kelley brothers were the top Texico winners, and in addition to their grand champion their winners were first, second, and third places in senior spring gilts; first second, and third in junior spring gilts; first place in both junior and senior spring boars;

First and second in young herd; first and second in the breeder-feeder litter division; first and second in produce of dam; and first and second in get of sire. The Kelley boys also won several seconds and

thirds and all of their swine showed were Duroc except for one.

They had a Berkshire barrow which made the junior auction and placed third. It weighed 230 pounds and brought \$115. Other Texico winners were as follows:

Wesley Engram, Hampshire swine—spring gilts, first, second, and third; gilts, grand champion; young herd, first; boars, second; and barrows, third.

Teddy Roth, Chester White swine—senior spring gilts, first, second, and third; boars, second; gilts, grand champion; and barrows, fifth. Roth's barrow made the junior auction and sold for \$102.

Frederick Mier, Poland-sows, second and fifth. Larry Winkles, Potand China—gilts, second, third, and fourth; boars, second, third, and fourth. Kenneth Doshier took five ani-

mals to the fair, but was unable to show them after losing his registration papers the day before the fair.

Also attending the fair were Raymond Hadley and Tom Hudson, FFA advisor.

Most of the Texico group attending the fair had a bout with the flu, and four of the boys were forced to return home early Friday. Those having the most severe cases were Winkles, Hadley, Engram, and Mier. However, none of the boys were hospitalized.

While at the fair, the Texico group attended the Roy Rogers show twice, and report a very impressive performance.

CARD OF THANKS

We wish to express our deep appreciation for the many kindnesses shown us during our recent bereavement.

"BUSINESS STAYS WHERE IT'S TREATED WELL"

It's a rare occasion whenever we don't have a car on our driveway every few minutes. There's more than one reason for this, and we think part of the answer is the old saying, "Business stays where it's treated well."

We enjoy giving you that little extra service that means so much.

SCHEDULE OF SERVICES Sunday School 9:45 a.m. Morning Worship 11 a.m. MYF 6 p.m. Evening Worship 7 p.m.

The young adult fellowship has engaged a nursery attendant to keep our young children during the 11 a.m. worship service each Sunday. We would like for you to take advantage of this fine service. The nursery is located in the basement on the righthand side as you go in.

The district superintendent has authorized the pastor to hold a special quarterly conference this Sunday evening following the worship service. There are only two items of business to transact. These are the election of four delegates to the district conference to be held at Tucumcari on November 13 and 14, and the realignment of our four commissions.

MYF got off to a good start this past Sunday evening under the leadership of Mr. and Mrs. Wilfred Quikell. Twelve MYF's were present. This week the group will meet at 6 o'clock in the basement with Mr. and Mrs. John Lovelace leading.

Our annual layman's day program will be held November 3 instead of October 20 as previously announced. J. H. McDonald, church lay leader, will be in charge of the services. You will be notified as to what part you will be expected to help in.

Our services were well attended last Sunday even with the cold snap, the flu and the drizzle. We had 112 in Sunday School, 116 in the morning worship service and 43 in the evening service. Remember that no matter how disagreeable the weather may be, your church and Sunday School area will be warm, clean and cheery.

The young adult fellowship is planning a social evening at the home of Mr. and Mrs. Bob Anderson next Thursday evening at 7:30. This will be an informal pre-Halloween party. More details will be announced at the class meeting Sunday morning.

The senior department of the children's department elected Peggy Teel as their president at last Sunday's session. D'Rene Danforth was elected secretary of the class.

Farwell Seniors To Serve Breakfast

The Farwell senior class invites everyone to attend a breakfast they are sponsoring Saturday morning, October 12. Serving will begin at 6 a.m. and continue until all have been served.

Two eggs, bacon or sausage are priced at 80 cents. One egg, bacon or sausage will be served at 50 cents per plate. Coffee, milk, toast and all breakfast trimmings will go along with the plate and the price. Hotcakes will also be served.

They again invite everyone to participate. The proceeds will go to the class treasury.

Band Mothers Plan Years Activities

Several activities for the year were planned by Farwell Band Mothers when they met at the band room at the school Tuesday evening, October 8. A group picture of those present was made to put in the band calendar.

Plans were made for the annual calendar sponsored by this group and sales are underway at the present time for birthday and club meeting listings.

Cost of the calendars is \$1 for the first one and 50 cents for additional ones. Cost of listing a birthday is 25 cents, but a spokesman for the group points out that if one family wants enough names listed to make the cost over \$2, then that family may get a calendar and all the names listed for only \$2.

The appearance of the calendars is to be different this year than in the past in that they are to have a different picture for each month of the year. Mrs. Sterling Donaldson, Band Mothers president, says that work on these pictures is being done at the present time. She also reminds patrons that mothers will soon be contacting them for birthday listings etc. for the calendar. Money for the calendar is to be turned in to Mrs. Shelby Jobs or Mrs. Chas. Lovelace by November 1.

Other business of the evening included the voting to sponsor the "Country Store" at the annual Halloween carnival at the school. Band mothers are all asked to contribute something to be used in the booth.

Dues for members of the organization, \$1, are now due and may be paid to Mrs. Chas. Lovelace, treasurer of the group.

FARWELL BAPTIST NEWS E. J. Keith, Pastor

Two hundred persons were present for Sunday School this past Sunday and 96 were present for training union. Sunday School attendance hit a record mark for an average Sunday although attendance has been that high before when there was some special occasion.

Sunday marked the beginning of a new church year and almost all of the new teachers, officers and leaders were on hand to take over their duties. Rev. Keith says "We got off to a good start last Sunday, let's try to make this the best year ever."

Members of the Brotherhood will present a special program at the morning worship hour this Sunday. Everyone is invited.

Several persons from the local church attended a workers conference held in Bovina last week. The conference had to do with all departments of the Sunday School and how Sunday School work could be made more interesting.

Jimmy McGuire from the Oklahoma Lane Brotherhood was guest speaker at the regular Brotherhood meeting on Monday evening of this week. His topic was "Christian Growth."

Special music was furnished by Mr. and Mrs. Howard Garner, Delbert Garner and James McDorman, also from the Oklahoma Lane Baptist Church.

Following the meeting, refreshments of pie and coffee were served to the 32 persons attending.

News From LAZBUDDIE By MRS. CLYDE MONK

Lazbuddie PTA met Monday evening in the high school auditorium with the president, Mrs. John Agee, in charge.

Those present voted to use the money allocated for the high school for the following projects: a time clock for ball games, the library, and repair work on the machine for the audio-visual program.

Mr. Hinkson brought up the subject of a state sales tax as a future means of carrying on schools in the state. The PTA voted to go on record as favoring this type tax.

Members also voted not to sponsor a Halloween carnival this year.

Following the meeting, the first grade rhythm band, under the direction of Mrs. Freisen, presented a musical program.

Rosemary Agee and Freda White then directed supervised play for the children in the luncheonroom.

A panel discussion consisting of two teachers, Mr. Freisen and Mrs. Cooper, and two parents, Mrs. Dee Brown and E. T. Ford, was held with audience participation. Topic of the panel was "Relations Between the Parents and the Teachers." Many ideas were brought out that will be of benefit to teachers and parents alike.

Mrs. Ophelia Billington was the hostess for the regular meeting of the Golden Circle Sunday School class of the Texico Baptist Church, Monday evening, October 7.

Mrs. Willie Doshier was elected to serve as president of the class and Mrs. Flossie Watts is the new secretary-treasurer.

The hostess served salad, cheese crackers, coffee, pops, and mints to Mesdames Iona Chappell, John Lockhart, Mable Sharp, Nell Autrey, Letha Morris, C. C. Morgan, Lenah Henry, Evelyn Hadley, Juanita Pruitt, and Mary Peyton.

Nell Autrey will be hostess for the next meeting, November 4, in her home.

Candles of Light Installation Theme

"Candles of Light" was the theme of the service when officers of the Rebecca and Gleaners Sunday School classes of First Baptist Church, Farwell, were installed in a joint class meeting held Monday night, October 7, in the home of Mrs. Beulah Williams.

Mrs. Dickie Magness called the meeting to order and presided over the brief opening period. Mrs. Canevah Turner led in prayer and the program was then turned over to Mrs. Audie McManigal, installing officer, for the evening.

Mrs. McManigal used I Cor. 3:10-11 as her scripture for the installation and built the theme on the charges in building a church home. As the officers were installed, Mrs. McManigal

told what portion of the building each different officer represented.

First on the list was the foundation, which are the teachers. Mrs. Dickie Magness was installed as teacher of the Rebecca Class and Mrs. Beulah Williams as her assistant, and Mrs. Audie McManigal and Mrs. Lois Smith were installed as teacher and assistant teacher, respectively, of the Gleaners class.

Joists or supports were the next things named necessary to construct a building. These are the presidents, who are Mrs. Geraldine Green of the Rebecca class, and Mrs. Lenora Tatum of the Gleaners class.

Vice-presidents are considered the walls of the building. Installed to fill these offices were Mrs. O. C. Petree and Mrs. Fern Hardage.

Windows of the building are those who perform the tasks of the secretary-treasurer. Filling these positions are Mrs. Ollie Utzman and Mrs. Carrie Hardage.

The class ministrants are the roofs of the building, and these officers are Mrs. Beulah Williams and Mrs. Irene Henderson.

Doors are the group captains, who are Mrs. Elsie Hardage, and Mrs. Pearl Gerles, Rebecca class; and Mesdames Ruth Reed, Lois Smith, Doris Johnson and Jo Schell, Gleaners class.

The fellowship chairmen form the lights for the building. They are Mrs. Erma Jobs and Mrs. Edith Blair. Completing the structure are the floors, who are represented by the reporters. Class reporters are Mrs. Canevah Turner, Gleaners class; and Mrs. Ollie Utzman, Rebecca class.

The installation service was concluded with prayer by Mrs. McManigal and Sunshine Friend gifts were then exchanged.

Refreshments of punch, mints, and cookies were served by the hostess.

Attending were Mesdames Turner, Mable Kesner, Fern Hardage, Magness, Hattie Coffey, Frances Sprowls, Mable Martin, Reed, Blair, Elsie Hardage, Green, Juanita Garrett, Petree, Smith, Estelline Billington, Gerles, Jobs, Clytie Jones, Jewel Scott.

Also, Mesdames Henson, Wanda Walker, Carmen Ellis, Carrie Hardage, the hostess, and one guest, little Miss Susie Blair.

Chivalry is not dead! Our pesky spoiled feet have been informing us that they need attention—and we were in Lubbock Friday to see our foot doctor.

Sure enough, we found a parking place, and with trying to keep an eye on the youngsters, get all our things together and locate a coin for the parking meter, we were definitely harassed.

Then we realized we had not one penny of change in our purse. We must have been pathetic because this kind man walked over to us and asked if we needed change. WE DID! We gave him a dollar and he looked in his pocket and didn't have correct change, so he handed us two quarters and a half dollar and a nickel.

"Here, let me just loan you a nickel," he said, and was gone before we had a chance to thank him.

We have some lovely Christmas cards to sell, and any profit we realize from the venture will go into the swimming pool fund. Just call us and we'll bring them by to show them to you.

Weren't you proud of our kids at the football game Friday night? The Steers turned in quite a performance for their fans which was a lot for one school; then our band in their flashy new uniforms were really "sharp." And have you noticed that we have about the cutest cheerleaders and major-ettes?

TEXICO BAPTIST NEWS

and family, Mr. and Mrs. Ray McKinney, and a nephew and family, Mr. and Mrs. Sam Crockett, all from Dallas. Sunday afternoon the group visited in Bovina with a sister and family, Mr. and Mrs. Lawson Edwards.

Those attending the drag races in Abernathy Sunday were Mr. and Mrs. Gene Smith, Mr. and Mrs. Richard Barnett, Mr. and Mrs. Bobby Broyles, Mrs. Chuck Smith, Kaye Ann Smith and Lee Kimbrough. Richard Barnett won a trophy.

Mr. and Mrs. Ancel Ashford and children, Ronald, Linda and Lynia Ray, were dinner guests Sunday in the home of his parents, Mr. and Mrs. A. F. Ashford, in Muleshoe.

Mr. and Mrs. C. D. Gustin visited Sunday in Plainview with his niece and family, Mr. and Mrs. Ed Thompson and family, and with other nieces who were visiting there from Oklahoma.

Mrs. J. W. Stout from Lubbock was a guest Friday in the Earnest Nowell home.

Sunday guests in the Glen Stevens home were her sister and family, Mr. and Mrs. Millard Moore and children from Amarillo. In the afternoon they visited their mother, Mrs. H. A. Douglas Sr., in Muleshoe.

Mrs. J. P. Wilson from Friona and her brother and family, Mr. and Mrs. C. H. Irwin from Duncan, Okla., were guests Sunday in the home of her daughter, the Ralph Cox family. Mr. and Mrs. Irwin plan to make their home with Mrs. Wilson in Friona this winter.

Mr. and Mrs. Barney Floyd are visiting this week in East Texas with a sister of Floyd.

Second School Fair Termed Big Success

Second annual school fair which was held Friday, October 4, at the agriculture building at the school was termed very successful. The fair is becoming a leading attraction of the community as all school students look forward to the displaying of their many and varied projects.

Among the things on display for the competition included crops, vegetables, livestock, needlework, and foods. Displays were entered by members of the Future Homemakers, Future Farmers and 4-H Clubs.

A list of the winning entries at the fair follows:

Shower Given For Couple

A post nuptial shower was given last Saturday evening in the Smith-Floyd home honoring Mr. and Mrs. Virgil Merriott of Lubbock. Virgil is a former resident of this community and they have been married about two weeks.

A lovely array of gifts were presented the young couple and the evening was spent in playing Canasta and "42".

The serving table held a miniature bride and groom in an archway of greenery and candles.

Refreshments of white cake squares, coffee and hot chocolate were served. Hostesses for the occasion were Mesdames Barney Floyd, Glen Scott, Gene Smith, Chuck Smith, Joe Briggs, John Gammon, D. B. Ivy, Donald Littlefield, Luther Hall, Hubert Elliott and Miss Marie Cox.

Mr. and Mrs. Grady King spent the weekend in Lawton, Okla., with their sister and brother, Mr. and Mrs. Clyde King. They returned Mike King to his home there after he had spent several weeks here. Mike had been here with the Grady Kings while his father was stationed in Louisiana.

Party Given Tuesday Afternoon

Mrs. Don Littlefield and Mrs. Gene Briggs were co-hostesses for a toy party given last Monday afternoon in the home of Mrs. Littlefield. Refreshments were served to Mesdames Harold Wilson, Andy Brown, Max Steinbock, Gene Smith, Barney Floyd, Chuck Smith, John Littlefield, Dalton Mimms, Jack Smith, N. M. McCurdy, Jimmie Black, Raymond McGehee, Frank Hunt, and Bill Hollers from Lubbock.

Move In New Home

Mr. and Mrs. Ben Foster Sr. moved into their new home east of Lazbuddie last Thursday. The house has been completed for several months except for a few finishing touches that were recently completed, giving the Fosters a chance to move in. Dinner guests in their new home on Sunday were their children, Mr. and Mrs. Demp Foster, Timmy and Steve, and Mr. and Mrs. Dean Hurd and children, Ronnie, Donna and David, from Muleshoe.

Junior Class Has Party Friday

Miss Rosemary Agee entertained the junior class with a party last Friday evening at the home of her parents. Games were played and refreshments were served to the following: Kirby Carrell, Sherry Butler, Butch Butler, Wanda Steinbock, Clifford Hugg, Carolyn Hinkson, Carolyn Scott, Buzzy Allen, Dennis Nelson, James Carpenter, Lawrence King, Janis Clark, JeDon Gallman, Bobby Hall, Mary Butler, Tommy Laney, Ronnie Briggs, Smythie Lawrence and Mr. and Mrs. John Agee and Rosemary.

CARD OF THANKS

Mr. and Mrs. Judd Clark would like for their friends and neighbors to know how much they appreciated the flowers, cards and visits during the recent hospitalization of Clark following his accident.

Fresh air is important to the proper functioning of open flame heaters. Without it, carbon monoxide may be created. Poisonous carbon monoxide is given off by any fuel which doesn't get enough fresh air. For efficient and safe operation, your heating equipment MUST have:

- A continuing source of fresh air.
- Approved metal connectors — not the old-fashioned rubber ones.
- A well-adjusted, bright blue flame.

Where heating equipment requires venting, make certain that vent pipes are properly installed, unobstructed and unbroken. Gas is your safest fuel. Use it wisely. If your heating equipment needs checking, call a licensed plumber, heating contractor, or your gas company.

Lively Discussion Sparks Convention Of Farm Bureau

Although the turn-out was on the slim side, a lively discussion of topics affecting farmers sparked the ninth annual convention of the Parmer County Farm Bureau Monday night. The meeting was at the Hub community building.

Re-elected president was Gilbert Kaltwasser of Oklahoma Lane, who has twice previously been named head of the group in the annual elections. Five of the ten county FB directors were up for election this year, also, and to serve with Kaltwasser are John Range, Farwell; L. F. Bruns, Lazbuddie; Dennis Williams, Bovina; Harry Hamilton, south of Friona; and Jack Patterson, Rhea.

Kaltwasser, who presided at the meeting, opened by saying that he feels farmers know their problems better than others and that farmers are in the best position to try to solve them. The president encouraged discussion from everyone present.

Patterson, who is vice-president, reported on membership, setting the total as of Monday night at 620. There were 625 members last year. Wilma Norton, county FB queen, reported on the organization's activities during the year, with emphasis on legislation.

Duane Rea of Bovina reported to the convention on the state FFA convention which he attended. Farm Bureau helps meet expenses of delegates. Raymond Euler, service representative, reported on insurance written through his office, and told of gains in that field.

Main speaker was Garland "Cotton John" Smith of KGNC-TV, Amarillo, who spoke on "Advertising Golden Spread Agriculture." He said, "There's nothing wrong with our agricul-

ture that a few sales wouldn't help."

Smith reminded his listeners that mechanical and technological developments in the field of agriculture have at least temporarily solved the problem of production, and now the problem is what to do with the commodities produced.

He dwelled on farm surpluses, and proposed that farmers consider advertising their products as a stimulus for sales. Smith noted downturns in yearly per capita consumption of many farm commodities. "Nutritionists have told our ladies they'll get fat if they eat too much bread," he said, "and I guess that's right. But I've noticed that there are just as many fat ladies today as there ever were!"

Smith said farmers have tried everything but advertising to solve their problems. He said that few people realize the markets that are created and broadened under the subtle influence of advertising. He credited advertising as making possible America's giant industries of mass production.

He also criticized what he called "No loyalty to Golden Spread agriculture," on the part of consumers of the area. He said people are buying synthetics in preference to cotton, and many products not produced here at home, although they are available.

He deplored attempts to legislate consumption of wheat, and, turning to grain sorghums, gave it as his opinion that if the recently formed Grain Sorghum Producers Association will give as much attention to research and market development as it does legislative matters, "We'll be getting somewhere."

Agriculture is doing some advertising, Smith says. But he compared the budgets of the National Cotton Council and

DuPont. "We're not a drop in the bucket compared to them," he reminded the farmers.

Roy Miller reported on Farm Bureau financial affairs, and Patterson presided over the election.

Hamilton, who has served as chairman of the resolutions committee, guided the long discussion on farm problems. There were 14 resolutions submitted by the committee for consideration of the delegates, eight of which dealt with state matters; the remainder national affairs.

A thumbnail sketch of state resolutions:

1. Favoring retention of present truck load limits unless they would be governed by some means limiting stress per square inch on highways.
2. Upholding freedom of operation of state REA units.
3. Opposing Texas Research League and others, who seek to halt the farm-to-market road building program.
4. Favoring continuation of electing (instead of appointing) a state commissioner of agriculture.
5. Favoring a general retail sales tax for school purposes.
6. Favoring leaving the state permanent school fund intact—not drawing on the capital for present needs.
7. Upholding the Texas "right to work" law.
8. Supporting passage of amendment number three to the state constitution, which would authorize sale of bonds for a state water development program.

Everything went smoothly on all the resolutions, and general participation from the audience was obtained. Resolution No. 5 occupied the attention of the group for almost an hour as the problem of financing schools was tossed about.

Most members favored a sales tax, but few could decide where sales taxes should begin and property taxes leave off. Also, they could not get together on possible exemptions. The original proposed resolution was turned down:

... favors adoption of a

consumers retail sales tax with exemptions on production items, such as fertilizers, farm machinery, etc., for the farmers, and lights, heat, and other expenses necessary to the operation of industry or other business. Funds from such sales tax to be used for financing of schools only, and as soon as practicable to replace present taxes collected for this purpose."

They finally agreed on a general "yes" or "no" answer to the question, "Do we want a sales tax to help our schools?" The answer was affirmative.

Five resolutions on national affairs adopted with little trouble:

1. Urging extension of the anti-trust laws to include operations of labor unions, in the same way they now apply to management.
2. Opposing extension of the minimum wage law to include agricultural workers.
3. Opposing increase in the minimum wage requirement.
4. Opposing federal aid and control of public schools.
5. Urging increased allocations of funds and research facilities for promoting new industrial uses of farm products.

A resolution offered from the floor was adopted which reaffirmed the Bureau's previous stand against compulsory health insurance.

Occupying the most time was a final proposed resolution on the national farm program. As submitted, the resolution read: "Parmer County Farm Bureau recommends continuation of the present program, but with mandatory compliance, with a minimum of 75 percent of parity for all commodities presently supported on a parity basis; adding a provision for a layout of 15 percent of all cultivated acreage on an annual rotation basis. Layout percentage to be adjusted from year to year in relation to ratio of supply and demand for a total of all commodities."

This touched off a general discussion on farm problems that lasted until after midnight. President Kaltwasser said it had been difficult for the resolutions committee to come up with its proposal because of differences of opinion, but he felt "We can't just drop everything. . . we've got to keep at least a part of our farm program."

Eventually, the resolution was adopted, although voting was divided. An important amendment written in made the resolution apply the layout provision to all agricultural enterprises, even though there were loud arguments that such a program would be unworkable and even unlawful in the case of producers who sell unsupported commodities.

Milo Support Price Rises Three Cents

An increase in the parity figure for corn has been reflected in the area support price for grain sorghums. Tuesday, the Parmer County ASC increased the loan from \$1.73 to \$1.76 per hundredweight. That is gross.

Net to the farmer under the new scale is \$1.61 per hundred, effective this week. The price changes about every 20 days, a reflection of storage time until maturity date of the loans.

Big Increase Noted In Acreage Reserve

Parmer County farmers' participation in the 1958 acreage reserve program for wheat will be 9,127 acres, reports Prentice Mills of the Parmer County ASC office.

The office has signed 118 agreements with farmers, and maximum payments will be \$164,074.85.

Next year's sign-up reflects an increase of about 50 percent over participation in the program last year, Mills says.

Bald eagles are so named because of the effect of the white feathers on their heads.

Fall is here for sure, as evidenced by the piles of golden corn glinting in the sun on area farms. Corn picking is just getting started, and when the weather dries, will be underway again on a big scale. High Plains farmers usually pick their corn, rick it (as here), then shell it later when it dries. Others use combination picker-shellers that work just as maize combines do. Fear of winds, and fear of the corn borer prompt most farmers to get their grain as quickly as possible, though, and for that reason the system shown here is in widest use.

NEWS FROM THE FARM BUREAU

By RAYMOND EULER

Raymond Schueler and members of the PCFB weed committee, of which he is chairman, met with Farm Bureau directors last week to complete plans for placing county ownership maps in classrooms of FFA boys in the schools in the county. The maps will be used by the boys in locating and marking the location of bindweed plots in each area. Most of the FFA instructors are already actively cooperating in this program, and it is expected they all will soon.

Jack Black of Lazbuddie schools presented the proposal, and members of the committee accepted it gladly. They even agreed that if Farm Bureau could not pay for the maps, the committeemen would pay for them from their own pockets. Farm Bureau directors agreed to pay any difference in the cost and what the schools would contribute. It strikes us that this group of unpaid men are sincere in their intentions to serve agricultural interests of their area when they agree to pay for supplies they deem necessary, besides giving constantly of their time for necessary plans.

President Gilbert Kaltwasser reported that in a meeting of farm organizations and extension service and other personnel last week, the ASC representatives and Certified Seed Growers expressed a desire to cooperate with the weed committee in 1958. They will be welcomed, of course.

Jack Patterson was re-elected as director of Parmer County Farm Bureau from the Rhea Community in their annual meeting last Friday night. Walter Schueler was elected to serve as chairman of the Rhea Farm Bureau, and Raymond Martenson was elected secretary and treasurer. Congratulations to these fine farmers.

If you didn't join Farm Bureau at the convention Monday night, join now. If your membership comes up for renewal in October, please pay it soon. You are needed to insure seven delegates to vote in the state convention in Dallas in November.

Consider this: "When righteous men do rejoice, there is great glory, but when the wicked rise, a man is hidden." Proverbs 28:12.

ARE YOU ENJOYING LIFE?

If not, then perhaps a check-up is in order, says Lucille Moore, extension recreation specialist.

First off, what about your health? If you don't feel tip-top, check your living habits. What about food, the source of your energy? Are you eating three well-balanced meals each day? How about sleep? Are you getting eight hours of rest at night? Have you had a medical check-up this year?

What about recreation? You need time for something without any "musts" in it. According to the specialist, every man, woman and child, needs some family recreation, some neighborhood recreation, and some individual recreation. For happier living, develop more interests outside your job.

Your money is in good hands when you save here. Sound business practices plus insurance to \$10,000 safeguard it. Begin your savings program this week.

SOIL CONSERVATION DISTRICT NEWS

In response to the many inquiries we have been having about the Great Plains Conservation Program and what it will mean to the farmers in the Parmer County SCD, we will outline basically what the program will consist of:

Administrative responsibility for the Great Plains program is placed on the Soil Conservation Service by Secretary of Agriculture Benson.

The Great Plains program provides for the combining of the resources of the Department of Agriculture's various agencies in a step-by-step process for making long-time adjustments in land use, cropping systems, and in the treatment of cultivated lands and range, under the climatic hazards of the Great Plains.

The Great Plains program, brought into being by Public Law 1021, is designed to give farmers and ranchers in the Great Plains area of the 10 involved states, of which Texas is one and Parmer County is a designated county in Texas, both immediate and long-range help in the use of their land within its capabilities.

Public Law 1021 provides "that the total cost of the program (excluding administrative costs) shall not exceed \$150,000,000, and for any program year payments shall not exceed \$25,000,000."

The program will apply in counties designated by the secretary of agriculture in portions of Colorado, Kansas, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas and Wyoming. The continued drought in these states has emphasized the need for such a program to help develop a more stable farm and ranch economy in this region.

The Great Plains program is not an annual or disaster type program nor does it replace any other existing agricultural program. This is a way to an enduring agriculture based on the capabilities of land and geared to the climatic hazards that we all know are ever-present in this area. It is not a production adjustment or an income supplement program.

It is a voluntary program with long-term assurance of needed financial help for a complete soil and water conservation plan applied to individual farms and ranches. The program will point up the responsibility of local people in

SOIL CONSERVATION
"This Field Sure Sprung a Leak!"

fitting their agriculture to the capabilities of the land and the hazards of climate. This responsibility is shared by farmers and ranchers, soil conservation districts, county committees, county commissioners and by all other groups, urban and rural, interested in the economy and the development of their home areas.

PROBLEM SOLVED

Houston—When Mrs. Nellie Harris, operator for Southwest Bell Telephone Co., decided to take her lunch to work, her six-year-old son, Charles, was worried. How, he wondered, would she be able to tell her lunch from all the others?

Came the solution: Charles announced he would write her name on the sack.

Sure enough, at noon Mrs. Harris had no trouble finding her lunch. Scrawled all across the front was: "M-O-T-H-E-R."

Weather Slows Up Harvest of Milo

Combines and trucks sit idle this week and elevator operators have had time to watch the world series, when wet weather returned after a long absence over the weekend, and interrupted a harvest just picking up speed.

Clouds moved in Sunday and blocked off the brilliant sunshine and unusually warm weather that had characterized early fall on the High Plains.

Rain came too, though very gently and in rather light amounts. Most farms picked up from a quarter to a half an inch, although some measured more. It was a "you can't lose" rain which gave wheat producers a boost and didn't cause immediate damage to

cotton. Generally, the rain was considered beneficial. Most farmers in this area have mixed emotions about the weather this time of year. All are anxious to get on with their grain sorghum harvest, though few regard this as a critical time. Interruption is more of an inconvenience and delay in work than anything else. Virtually every farmer produces milo.

And, most have young wheat, with about half of them trying to get a dryland planting off to a decent start. Even the irrigationists who grow wheat don't object to a rain at this time. For the wheat, farmers would not care if it rained for three weeks.

However, most farmers have their cotton to worry about. And since cotton is the No. 1 money-maker in the field, needless to say they have some concern about it. The fact that cotton got off to such a poor start this year, and has matured so slowly, has been painfully apparent to producers. Consequently, the more warm, dry sunny weather they have, the better. Cloudy, drizz-

ly skies not only retard final development of the crop, but herald the approach of first frosts, which are the things cotton growers fear most. All these things have their effect, but because the moisture has come gently, with no wind, there are few farmers that begrudge its appearance. Probably those who have the biggest worry are the managers of bracero labor groups, who temporarily have nothing for their hands to occupy themselves with.

STUBBORNNESS PAID

Dallas—Clyde Tom Rugel, who owns a drive-in, saved himself from being robbed one night by stubbornness.

A man asked Rugel for a paper bag to put a pair of shoes in. When Rugel got the bag, the man pulled a pistol and told Rugel to put his money in the bag. "No," said Rugel. "I mean business," the man warned, shooting behind the bar and above Rugel's head. Rugel still refused. The would-be bandit laid his gun down and told Rugel, "Call the police, I want to go to jail." At this point Rugel stopped being stubborn.

This Is Farm Bureau In Action For You!
Parmer County Farm Bureau held its annual convention Monday night. It was an open, public meeting, where everyone was invited to attend, and where everyone who attended was urged to participate in forming policies which the group will work for.
Parmer County Farm Bureau is Democratic. It is the only way that farmers can work together for the benefit of agriculture as a whole, because it is the only way that ALL VOICES of agriculture can be heard. Farm Bureau is not a splinter group. It is the biggest, most effective voice of agriculture in the world.
Parmer County Farm Bureau, though only a small part of the nationwide network of Farm Bureau organizations, has a voice that is heard. We have formulated policies here that have gone on to be woven into the framework of important farm legislation. If you don't think one voice is important, then you haven't seen how Farm Bureau really works for you!
We want your membership, we want your support. Most important of all, perhaps, we want your ideas and your opinions. Only through group action can farmers survive these perilous times. Join now—make Farm Bureau stronger than ever!

Friona Auto Road-ee Seeks Contestants

Contestants are being sought to compete for trophy awards equivalent to \$25 in the Friona Maize Days of 1957 auto road-ee. Baker Duggins, of Friona, invites all boys between 14 and 18 to enter the contest, but says that entries must be placed by Friday. An entry blank accompanies this story.

Dear Mr. Duggins, Please count me in on The Auto Road-ee, and I have a drivers license. I understand this will not disqualify me in the regular sports program at school.
The auto road-ee will start Saturday, October 19, at 9:45

a.m. and is composed of two parts. One is the psycho-physical tests, that deal with reaction time to lights, braking time, and test eyesight recovery from lights.
The second part of the test will be held in the afternoon. Skill in maneuvering between guide lines and other driving skills will determine the winner of the actual driving test.
To qualify for the event, a participant must be a licensed driver and between the ages of 14 and 18. An entry blank is included for those who wish to participate, and must be sent to Baker Duggins in Friona before Saturday, October 12. Persons who wish to contact Duggins by phone may do so at Friona, number 2722, or 3571.

A "GRASSROOTS" FARM ORGANIZATION WORKING FOR THE FARMER'S INTERESTS

He'll Double Up On Toms Next Year

E. H. "Toots" Hall, who lives just north of Clay's corner in the western part of the Lazbuddie community, is about to wind up his tomato growing efforts for the year, and he reports satisfaction with results so far.

In fact, the Parmer County farmer is making plans to more than double his acreage next year, and also to bring into production several other vegetables to replace grain sorghum, which he says, "We can't make any money on that stuff anymore."

This year has been an ideal one for the production of tomatoes, Hall is convinced. His 20 acres have produced prodigiously, and he has no complaints although he feels the market should have been some higher.

Hall got into the vegetable producing business this year with his eyes closed, so to speak. He had never grown tomatoes before, and even after he got into production, he had no idea where he would sell his crop before it was time for the tomatoes to begin to roll from the field.

Nearly all of Hall's production has ended up in vegetable canneries in the Southeast. He was fortunate enough to get a selling agreement with an Arkansas vegetable brokerage firm, Schmieding Bros., of Springdale, Ark., and they moved most of his crop in that direction.

Hall's tomatoes, which have averaged about 20 tons to the acre, have been selling for from \$25 to \$27 a ton. Jack Cousins, a representative of Schmieding Bros., who was at the farm Monday, says average tomato production is around 12 tons, and he considers this area as having remarkable vegetable production potential. The Arkan-

sas dealer sells to 23 canneries and also to fresh produce houses.

Hall planted his tomatoes on May 15th with a vegetable planter. He did not have any particular trouble getting the crop up. He fertilized with 10-20-10.

Watering was continued at once-a-week intervals until the crop was ready for harvest, and picking got started August 20. Hall expects to wind up the harvest "in about 10 days."

Labor was Hall's biggest worry, he says. He contracted for 16 braceros from Muleshoe to do the work when harvest time came.

Asked about costs of production and profits, Hall says he hasn't had time to figure them out closely yet, but he is confident, "I'll come out pretty good."

Hall also produced 12 acres of onions this year, and the story

isn't so good on that part of his efforts. He still is trying to sell the crop. However, a one hit, one miss year hasn't discouraged the farmer from getting deeper into vegetable growing.

"I am well satisfied with my tomatoes," he says, "and I plan to plant about 50 acres to them next year." Also, he indicated plans for producing other vegetables on the 80 acres he farms. In fact, he is considering devoting all his land to vegetables except his cotton allotment, which is 28 acres.

"I need to get several different crops coming off at different times so I can make better use of my labor," he says. Hall also indicated that diversifying the varieties would help reduce risks on losses because often some vegetable crops are priced quite high at one time; others have no market.

Tomatoes a plenty are what "Toots" Hall has had from his 20-acre patch this year. These toms are ready for shipment and await being loaded into trucks under a shelter on the Hall farm.

For the first time in seven years cattle numbers are down in the United States. The reduction is only two percent and the widespread drought, now breaking, is given by Extension Economist John McHaney as the major cause. No reduction was noted in either the South or Midwest, but Texas showed a decline of seven percent.

THE HAPPY HOMEMAKER BY JUNE FLOYD

We have a leaflet from Pioneer Natural Gas Company entitled "Tips from the Flame Room." The recipes printed in it reminds us that Halloween and "trick or treat" is just around the corner.

Three recipes were printed that would make very nice treats for Halloween night or any time. If you've never made a popcorn cake, just try this recipe:

Halloween Popcorn Cake

Combine in sauce pan 1 cup sugar, 1 cup white corn syrup, 1/2 cup water, and 2 tablespoons butter or margarine. Cook to soft ball stage or 240 degrees on candy thermometer. Set aside a few minutes to allow bubbles to simmer down.

Pour syrup over enough popped corn to fill a ten inch tube pan and 1 cup orange and black gumdrops. Mix well until each grain of corn is coated. Press into well greased ten inch tube pan. Unmold immediately on greased platter. When firm, cut into slices for serving.

Peanut Brittle

Combine 2 cups white sugar, 1 cup white syrup, 2 cups raw peanuts, and 1/2 cup water. Cook until candy thermometer registers 290 degrees or hard crack stage. Remove from flame and add 2 teaspoons soda and 1 teaspoon vanilla. Beat quickly and pour into two buttered jelly roll pans or two cookie sheets. Cool. Break into serving pieces.

This one is very good and isn't difficult to make.

Cinnamon Candy Apples

Place sticks in 8 tart apples. Mix together in saucepan 2 cups sugar, 1/2 cup light corn syrup, and 3/4 cup water. Stir over flame until sugar is completely dissolved. Bring mixture to a boil and cook until candy thermometer registers 290 degrees or a little dropped in cold

water forms a hard crack. Stir in two drops oil of cinnamon and red food coloring to desired color.

Remove from flame. Twirl apples quickly in syrup and let excess drain back into pan until a thin coating of syrup covers apples. Place apples on well greased pan to cool. (You must work fast as the syrup hardens quickly.) The thin brittle candy coating is very tasty and attractive.

Worn nylon hose make ideal protectors for plastic bags, which are filled with meat, vegetables, or fruit and put in the freezer. Cut the feet out and pull the leg of the stocking over the bag after it is filled and ready to store.

This idea works especially good with chicken, rabbit or other meat in which there are bones. The extra covering keeps the bones from making holes in the freezer bags and prevents freezer burn.

Do you have difficulty when pressing your husband's or son's tie? If so, try cutting a cardboard the exact size and shape of the tie. This may be inserted inside the tie and prevents

ironing prints of the underside into the right side.

Homemakers who have washable rugs should remember that it is important to wash each side of the rug. If the dirt is left on the under side, it will gradually work into the fibers and through to the top side. It is also important to clean the floor thoroughly after washing each side of the rug.

The fall flowers will not be blooming much longer, so if you have planned to take one

or more bouquets to friends, you should do it within the next few days.

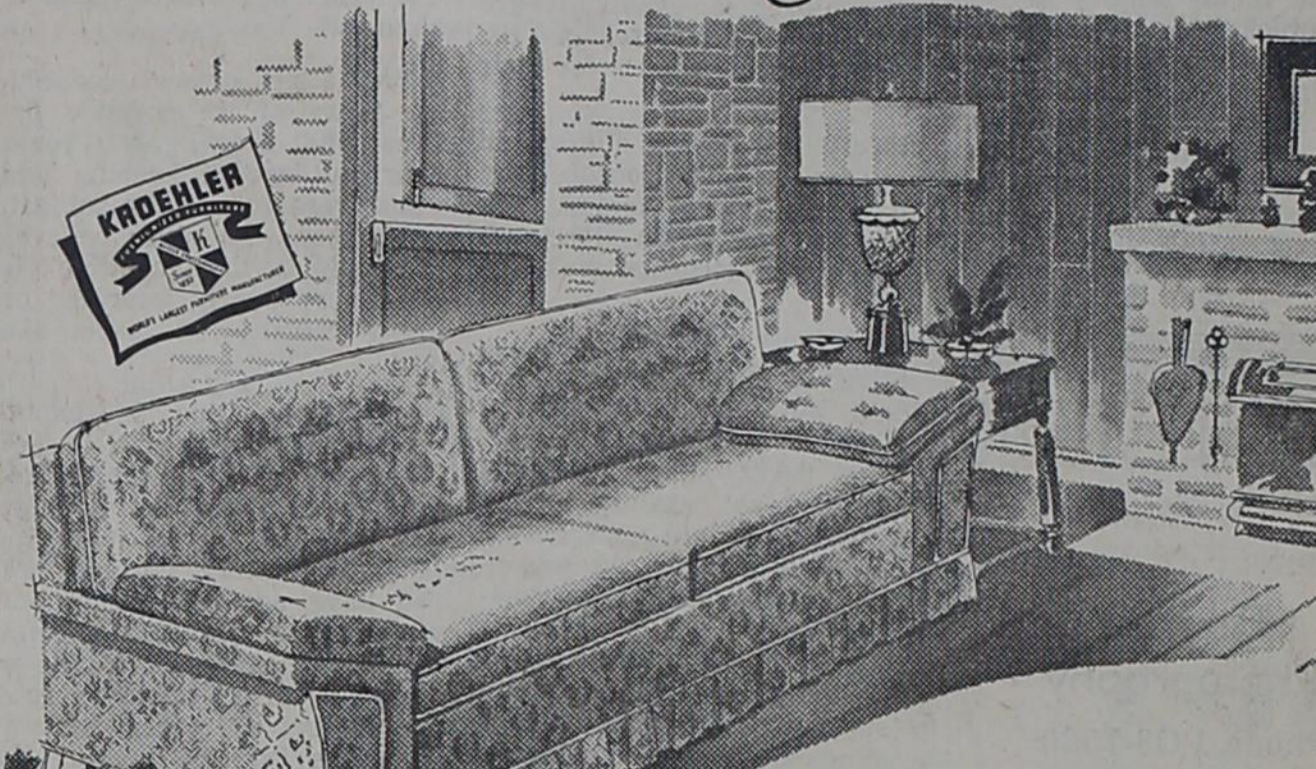

Some of the experts say that the looks of our lawns next spring, summer and fall will be measured by what planning and preparation we do now. Maybe if we make proper plans and then work them out properly we will be rewarded by a prettier lawn next year.

The Great American Desert covers an area of 1,050,000 square miles.

4-H News

By JAMES BROWN,
Senior Boys Reporter

Twenty-two boys of the Lazbuddie junior and senior 4-H Clubs and J. B. Young and Dee Chitwood, adult leaders, Joe W. Jones, county agent, and five fathers made the tour of 10 farms to inspect boys projects that are entered in the county crop contest. The group met at the Lazbuddie store at 8:30 a.m. on Saturday, September 28, and first went to see Terry Darling's Martin's maize.

From there, they went to the home of Buddy Embry to see his Caprock maize. Cooper and Steven Young's home was the next stop where the group saw their Plainsman maize and cotton. Mrs. Young and Mrs. Chitwood served the group refreshments of Cokes and cinnamon rolls at this stop.

After leaving the Youngs',

the group stopped at Richard Chitwood's home to see his Caprock maize. They then went to see James and Gary Mac Brown's cotton. From there the group went to see Glendal King's 600 kafir. Gary and Gerald Foster's home was the next stop where the group saw their milo maize. The group stopped next to see Odis and Lloyd Bradshaw's milo maize. Harrol and Carrol Redwine's home was visited next and there the group saw their Plainsman maize and cotton. As each boy's crop was visited, he gave a short talk about his project. Dee Chitwood took colored slides of each boy and his project which are to be shown before the Lazbuddie P.T.A. when the 4-H Clubs give their program and will also be shown at the County 4-H awards and achievement event. Richard Chitwood took pictures of the boys and their projects for their record books.

Every boy having a crop in the crop contest sponsored by the Cotton Improvement Association and the Grain Sorghum Producers Association was visited.

Signs of infection in an individual bird are not always typical of a flock's disease. Several birds from an ailing flock should be examined by a veterinarian before an accurate diagnosis is possible, the American Veterinary Medical Association says.

Cannibalism and pick-outs can be suppressed in poultry flocks by supplementing feed with an amino acid at levels prescribed by a veterinarian.

THE PARMER FARMER

By W. H. GRAHAM JR.

Several years ago, when large scale development of our vast underground water resources got underway, it was commonly believed that the water beneath our soil was "inexhaustible." Landowners scoffed at theories that they were pumping from storage only, and that in time their most valuable resource could be exhausted.

Now, after several consecutive years of water table declines, and after several years of careful record keeping and intense research on the subject, the farmer who still believes his supply is "inexhaustible" is either very poorly informed or simply refuses to face the truth.

And although this "inexhaustible" theory is pretty well shot full of holes by the facts accumulating, there is another story popping up to take its place. That story is that we need have no concern about pumping our Ogallala formation dry, because all we have to do is drill another few hundred feet and tap additional formations that lie waiting to be used. This story is making the rounds, and with variations. Most often when we hear it, the deep water is either artesian, or rises to within one or two hundred feet of the surface to where it can be pumped economically.

While in Lubbock last week, we took the time to stop by the office of the High Plains Water District to quiz the boys there on this new story. Because our time was limited, we spent most of our time visiting with Tom McFarland, office manager, simply because he is a friend of ours. Although Bill Broadhurst, the hydrologist, was in his office, we only said "hello" to him.

Tom assures us that the office can give no substantiation whatever of reports of vast new reservoirs beneath the Ogallala. He says that they have logs on about 15 wells that have been drilled on the Plains over the years, that sought to develop water in the Triassic or Permian formations far below—

Whammo! Cotton that gets a dose of defoliant looks like this, and the uninformed observer might suppose that a hard freeze had occurred a few days before. This picture shows graphically how the chemical knocks the leaves off the plant, exposing bolls to the sun for faster maturity.

all without success. Tom has agreed to have Broadhurst forward us any material in the office that might be relevant to the subject, but warns us in advance not to be optimistic about prospects.

Just recently the district cooperated in a test in Floyd County, he says, where the well was drilled 800 feet and cased and carefully cemented all the way to insure that whatever water was developed would be from the formation they were seeking to test.

Cutting checks were run every 10 feet, Tom says, and when they finally bottomed out at 800 feet, no water-bearing formations of any significance had been encountered. The well did pump about 20 gallons a minute from that great depth, but the water was of poor quality, having an excessive amount of salt in it.

In the meantime, we still occasionally hear a report from farmers who declare that they have obtained access to oil test logs or perhaps have personally talked with some of the drillers, and that there is reason to believe that there is big water down there somewhere.

While we hope that these reports are true, on the basis of present information we would discourage placing any faith in them until deep wells are actually developed, and the quality and strength of the water determined.

In other words, it's nice to

dream, but in the meantime we have to deal with the reality that our present supply not only deserves every conservation measure we can devise, but that it also is deserving of our efforts toward replenishment and ultimate stabilization of the demand-and-supply factor.

After a long spell of almost perfect fall weather, the pattern has been broken, and farmers wonder if they're in for a normal or late frost. Needless to say, everyone is holding out for a late one, especially the cotton growers.

Frost is very unusual, in that it can occur above freezing temperatures. At least, that is what we have been told by many farmers. The highest degree that frost can occur is generally believed to be around 35. We don't understand how moisture can freeze above 32 degrees, but farmers declare it can.

Also, because cold air is heavy, it settles in low places and "nips" crops there first. That, say our informants, is how come fields show spotted damage with the first light frosts. Also, here on the Plains our atmosphere is usually in a constant state of agitation, moving the cold air masses around.

The fact that we are 4,000 feet high has more to do with frosts than our latitude, which, compared to most of the country, should give us moderate wintertime temperatures.

Also, the Plains are directly in the path of large air masses from the polar regions that periodically sweep down from the north, and we are subjected to lots of "unusual" conditions.

In fact, the Panhandle-Eastern New Mexico region is right in the middle of what is referred to as the bowling alley of the northers.

Calorie deficiency, rather than a lack of vitamin or trace mineral factors, is the commonest nutritional cause of low production rates in animals, veterinary nutrition experts say.

The mortality rate for acute virus diarrhea in young cattle varies from 0 to 50 per cent of infected animals, according to the American Veterinary Medical Association.

Leptosira infection may be the cause of periodic ophthalmia in horses, according to a report by veterinary research scientists.

Women's Work, Underpaid, Underplayed

The housewife who works part-time, as well as the full time professional, does not get the same recognition as a man in the same job.

A report of the International Labor Organization of the U. N. on the status of wages, safety practices and work aides all over the world established this fact. Since 1940, women workers have increased their numbers by over seven million — and still their salaries lag behind those of men.

Fowl leukosis may show up in chickens in any one or all of five ways, according to the American Veterinary Medical Association. They are sudden death, blindness, tumorous livers, paralyzed limbs, and swollen bones in wings and legs.

The Federal Bureau of Investigation was created in 1908.

Yearlings Win Third Shutout, 7-0 Over Morton

Defense again proved to be the deciding factor Monday night when Farwell's Yearlings rolled to their third straight shutout of the season, a 7-0 win over Morton.

It was the home opener for Coach Shelby Jobs' junior team which won its first two games away from home, 32-0 over Sudan and 6-0 at Springlake.

The Yearlings pushed across their score late in the first period, when Quarterback Jerry Lovelace went over from the six. The touchdown was set up by a 30-yard punt return by Jimmy Cain. Cain also ran the extra point.

The touchdown came after Farwell had fumbled away its first scoring chance five yards from pay dirt. Prior to the touchdown both teams had exchanged pass interceptions and the Farwell team lost the ball twice on fumbles.

Following the first quarter, the Morton defense tightened up and Farwell didn't manage another scoring drive the remainder of the night. Morton threatened once in the final period when a ball carrier broke into the open, but he was hauled down from behind on the Farwell 28-yard line by Lovelace.

By winning, the Farwell team is on top of the six-man conference of which they are members. The next game for the Yearlings will be Monday night, here against Bovina.

In a preliminary scrimmage Monday, Farwell's seventh grade team lost a 28-0 decision to Morton.

Texico Juniors To Play in Tourney

Texico junior softball teams will be in Grady this weekend to participate in the annual tournament. The local girls team will be pitted against Grady on Friday morning, and the boys will also play a team from Grady, with the match scheduled for Saturday, says Paul Frederick, coach.

Texico boys have played three games, and have been victors in all contests with two wins over Grady and one over House. The local feminine contenders have also topped Grady twice and have lost one encounter to Melrose.

Participating in the boys division this weekend are Logan, House, Grady and Texico. In the girls play-offs will be teams from the above four schools, plus a team from Melrose.

Four County Meeting Set

Administrators and school board members of Quay, De Baca, Curry and Roosevelt counties will meet in Melrose, Thursday, October 10, at 3 p. m. (MST), for a discussion period on common school problems.

The first session will begin at 3 p. m. and continue until 6. After a supper, the group will discuss business matters until approximately 9 p. m.

"Discussion will be over school finances and the duties of superintendents and board members," says Agrie Jones, Texico School superintendent.

Texico Schools To Be Dismissed 23rd

Texico schools will be dismissed the 23rd, 24th and 25th of October, to allow the instructors to attend the state teachers' meeting in Albuquerque on those dates.

Mrs. Buck Doran, school supervisor, will leave on the 21st. She will attend the state school board meeting.

HOME WITH FLU

Jimmy Turner, son of Mr. and Mrs. W. M. Turner, is recovering from what is thought to be the flu. The doctor says it is possible that he had a slight case of pneumonia, report his parents.

Jimmy is a student at Texas Tech. He hopes to return to college the latter part of this week.

BREAKS ARM

Claud Barker is reported to be improving slowly this week after suffering a broken arm.

Barker received the injury in a fall on Sunday, September 29. He is able to be up and around, and family members say his condition is improving.

Wolverines Win Over Grady, 14-7

Continuing their winning ways, Texico's Wolverines came from behind in the last two innings Friday night to defeat the Grady Bronchos, 14-7. The game was played at Grady and it was the fourth straight win for Texico.

The Texico girls team was on the opposite end of a similar score in the first game, losing 14-6 to the Grady girls.

The Wolverines were trailing 5-3 going into the sixth inning, but a two run homer by Larry Ruberson in the top half of the inning tied the score and sent the Texico team on the way to its win. The Wolverines added two more runs before being retired in the sixth and then broke loose for seven in the last inning.

In all, Texico managed nine hits. Nine errors by Grady also contributed to the winners' cause. Pitcher Jerry Trower allowed the losers 10 hits but had better support from his teammates in recording the win.

In the girls game, Texico jumped to a 1-0 lead in the top half of the first inning but Grady came right back with four runs in their half of the inning and coasted to the win from that point.

The Texico attack was hindered due to the loss of their starting pitcher, Wilma Dotson, who recently moved away. Sharing the pitching chores for the Whirlwinds were Janel Seale, Christine Bowers, and Connie Tharp.

The Texico team outhit the winners seven to six, but five errors contributed to the lopsided win.

Both the Whirlwinds and Wolverines finish their regular season play this Friday when they clash with House at Clovis.

Next Friday, October 18, the county tournament gets underway with the Wolverines meeting Logan at 11 a. m. and the girls go against House at 4 p. m.

It costs \$171.85 to outfit a recruit at the world's largest Naval Training Center, Great Lakes, Ill. The bluejackets are issued complete summer and winter uniforms.

Foxes Get Rough Treatment From Rampaging Steers

(Continued from Page 1)

Johnny Lovelace hit pay dirt three times, and Phillip Berry, Larry Pike and Tommy Lovelace each crossed the goal stripe once.

While scoring only one time, Tommy was the Steer workhorse as he turned in some superb running, making the most of the good blocking of his teammates. In addition to carrying the ball 21 times for 131 yards, the Steer full-back returned a kickoff 85 yards for a touchdown.

The game opened with Farwell kicking to the Foxes, who ran their first play from the 13-yard line. Three plays netted the visitors only seven yards and they punted on the fourth down. The Steers took over on the Ft. Sumner 46 and in six plays pushed across the first score.

Phillip Berry shot off tackle and went 18 yards for the touchdown. The attempted kick by J. Lovelace was no good.

The Steers kicking combination, Berry holding and Lovelace booting, won the district for the Farwell team last year, but failed to connect Friday night until on the final touchdown.

Seconds after the first touchdown, Glyn McDorman intercepted a Ft. Sumner pass to set up Farwell's second score from the 38. After moving the ball to the 27, Quarterback Johnny Lovelace went back to pass as the Steer receivers all went downfield. Unable to spot a receiver in the open, Lovelace went straight upfield, breaking away from four rushing Fox linemen and dashing across for the TD.

The Foxes took the Steer kickoff but the ball was fumbled and Johnny Gulley fell on it to give the Farwell team possession on the 17. Four plays later, Tommy Lovelace scored from the nine but the play was nullified by a 15 yard clipping penalty.

With fourth down and eleven facing the Steers on the 19 Johnny Lovelace, on a keeper, went around right end for another tally.

In the second period the Foxes finally started to move the ball some, rolling up 70 yards but could never get inside the Steer 32. The Farwell team added one more TD in this period when Larry Pike, elusive halfback, shot around several Fox defensive men and went over from the 19. The halftime score was 24-0.

In the first half the Steers compiled 210 yards on offense while the Foxes picked up only 76.

Taking the kickoff to start the second half the Steers started
