

## FROM THE HOPPER

By Hop Jr.

Everybody should have a two-week vacation. We recommend that they spend one week on vacation and one week at home in bed to recuperate from the adventure.

The Grahams had what amounted to their "vacation" as a long-weekend trip to the southern Rockies. We were gone a total of five days, and in typical Graham fashion, crowded enough events into the five to have done justice to any sane two-week schedule.

We toured old familiar trails in the mountains of northern New Mexico, and beat out some new ones in the Colorado Rockies, which to us are practically unexplored. August may be a wonderful month to go to Colorado. As the French say, 50,000,000 people can't be wrong. They were all there.

The vacation "Shangri-Las" where you used to be able to get away from it all are about gone. Nearly all of the old familiar retreats now have paved roads leading into them, and that makes any decent vacation spot a paradise for those whose profession is skinning tourists.

There probably isn't a place in New Mexico or Colorado where you can find decent accommodations that don't have the old familiar ringing telephone, noisy people, roaring trucks, and yes, even that noisy new comer to civilization, the TV set.

We're not necessarily sour on the mountains as vacation spots. We are just noticing the changes that have been wrought in the few years we have been an observer.

On the whole, the scenery in the mountain country is 100 percent improved over what it has been in recent years. The difference has been brought by a big winter snow and an abundance of summer rain. Everybody we know who has been to the mountains has been rained on (if not out) this year, and we are not an exception. We encountered several dashing showers, though they didn't spoil our trip.

The ranges on the mountain slopes are verdantly green, and the streams are still running muddy and high, although they show signs of having been at real flood stage earlier this spring when the snow-pack ran off.

Last year we were practically covered up by dust from the road wherever we stayed, and the forests were tinder-box dry. Now, however, things are different, and truly, the mountains look today more like we remember them as a boy.

Having no reservations, the Grahams were kept on the move to find lodging ahead of time. We can say with authority that if you plan to go to the mountains in the tourist season, and don't have reservations, you'd better nail down your cabin before 2 o'clock in the afternoon. They are all pretty well filled up by that time, even in the larger places.

Colorado has really made capital of its natural resources, and has some of the sharpest advertising minds in the business. We once heard a man tell some South Plains chamber of commerce people they should promote and exploit the tourist. "There's as much money in every tourist as a bale of cotton, and it's a lot easier to pick," he said.

Coloradans have taken this advice to heart, and are making the most of what they have. Carloads of tourists swarm to places like the Royal Gorge, Seven Falls, Cave of the Winds, and Pikes Peak like bees after the honeycomb, and we were no exception (though we didn't see all these things).

There is something about being off and away from everything that makes a person more or less reckless with his earthly possessions, and Coloradans see to it that a fool and his gold are soon parted. There probably isn't any sight on earth that can't be found in Colorado, if you have the money to pay to see it.

Of all the things we took in, we thought the drive up Pike's Peak was the most spectacular, and for that reason, we felt we got our money's worth. So many people have made the climb that it's no longer much of an accomplishment, but we sort of felt proud to have been among the numbered when we stepped out of the wheezing old auto atop the 14,000-foot-plus pinnacle and gazed at diminutive Colorado Springs in the distance.

Getting that high in such a hurry makes most people pretty heady, and the wife couldn't manage to get out of the car for a few minutes. After running around a bit on top, we had to admit we were a little wobbly, too, and it was a relief to sit down and catch our breath.

Climbing the 20-mile-long road to the top is a snap for most of the high-powered autos of today, and we had no trouble whatsoever, although we did notice that there were four motorists whose buggies couldn't cut the mustard.

However, even with the assurance that one has plenty of power to get to the top, there are some spots in the road

(Continued on Last Page)

FIRST COAT — Workmen for Capperton and Amerson, paving contractors from Lubbock, begin shooting the asphalt on a First Street intersection Tuesday morning. Work on the four block project is scheduled to be wound up this week.

## Annual Broom Sale, Melon Feed Planned by Lions

Two projects are planned by the Texico-Farwell Lions Club in the near future. One is the annual broom sale, set for Friday and Saturday, Sept. 6-7, and the other is a community-wide watermelon feed, feteing all the teachers of the Texico-Farwell schools on Monday night, Sept. 9.

Plans for the two projects were worked out at the regular meeting of the club Monday night. Lion President Prof. Morton appointed a sales committee to engineer the broom sale, which will get underway prior to the Farwell-Melrose

football game next Friday night. The Lions plan to sell the brooms and other merchandise at the football game Friday and then canvas the two towns on Saturday. Included in the various household items to be sold will be all types of brooms, ironing board covers, mops, and rubber door mats.

Concerning the watermelon feed, the Lions adopted final plans for honoring the teachers and their families of both schools. It is planned as an opportunity for the new faculty members and townspeople to get acquainted.

The feed is to get underway at 7 p.m. at the Texico City Park. A program to be presented by local talent is also planned, and several committees of Lions were appointed to make complete arrangements for the get-together.

The Lions will furnish the melons and the feed will be free to the public. More complete plans will be announced later.

**Mrs. Frank Seale In Clovis Hospital**

Mrs. Frank Seale was admitted to Clovis Memorial Hospital Sunday for treatment, and was reported to be some better Wednesday morning, according to a report by Rev. C. C. Morgan.

He does emphasize, however, that Mrs. Seale is allowed no visitors.

CLEAN-UP DETAIL — Pitching in to do some clean-up work at Farwell's new fire station Saturday afternoon were these five civic-minded citizens, who are members of the volunteer fire department. The group spent all Saturday afternoon cleaning up around the station, making way for workers to complete construction on the station. In the picture are Wilfred Quickel, Bill Dollar, Smokey Gast, Otis Higgins, and John Sharum.

## School Begins At Lazbuddie Monday

In spite of two vacancies in the faculty, registration at Lazbuddie Schools gets underway tomorrow (Friday) and classes are to begin Monday, Sept. 2, James G. Ward, superintendent, said this week.

Estimated enrollment at Lazbuddie this year is expected to be around 375 students, a slight increase over last year, Ward says.

Buses are to run Friday for registration and the first full day of classes will be Monday.

On Monday of this week Ward said that the two vacancies in the faculty will not be filled until after the election yesterday (Wednesday), concerning Public Law 116,

which, if approved, will give the school additional maintenance funds.

If the election carried, there are enough applications in for the two vacancies to fill them immediately, the superintendent says. However, if it did not pass, only one teacher could be hired, due to inadequate funds.

There are already three new members on the faculty for this year and 13 returnees from last year, Ward says. New teachers already hired are John Bond, girls basketball coach, junior high teacher, and boys and girls physical education; and Mr. and Mrs. H. A. Lamey,

Lamey will teach the fifth grade and his wife will teach in the third grade.

Positions not yet filled are in the fourth grade and the second grade.

Members of the faculty returning from last year are Morris Cooper, high school principal and science teacher; Purl Tippie, math and boys basketball; Mrs. Dodavah Lawrence, English and speech; George Washington, football coach and social sciences; Jack Black, vocational agriculture; Diann Reed, home economics; and Ward, superintendent. All of the above teachers are for the high school.

In grade school there will be Fred Wilbanks, principal and seventh grade teacher; Pete Friesen, sixth grade; Mrs. Fred Wilbanks, third grade; Mrs. Billy Cooper, second grade; and Mrs. Purl Tippie and Mrs. Pete Friesen, first grade.

# Highway Action Postponed

Almost 25 Farwell businessmen and individuals were on hand at the regular meeting of the Farwell Chamber of Commerce Tuesday night for a second discussion on a four-lane route for Highway 70-84.

The meeting was presided over by Chamber president Joe Blair, and Mayor Sam Aldridge explained the latest developments on the highway route. It had been planned for the group to make a decision on the next steps to take toward getting the route to touch Farwell, but action was postponed until the next meeting, September 24.

Some of the persons who would be adversely affected by the route, proposed by the local chamber, were not on hand and it was decided to discuss the decision with other individuals and postpone action. The group hopes for a larger turnout at the next meeting.

Aldridge, who was one of four local representatives to visit S. C. McCarty, district highway engineer, recently, told those present that the

highway department had plans for a million dollar highway exchange, (traffic loop), tying Highway 70-84 and 60 together just east of Farwell.

The chances of getting the highway to continue on its present course were reiterated and several reasons were given why this was not possible. Right-of-way required for a four-lane highway is 320 feet, which would mean moving all of the Main Street buildings.

Also, for an underpass at the state line railroad crossing, 800 feet is required on each side and this would do away with the one block of Main Street. Even if the highway department would approve such a move, the City of Farwell is not in position to pay the cost of acquiring all this right-of-way.

These are just the local reasons and it was also pointed out to the local delegates at Lubbock that the highway department did not have such a route in mind, anyway. The route has not been designated yet, but the state plans are for

the highway exchange to be built somewhere east of Farwell.

It was said that the problem confronting Farwell is whether or not to sit back and wait for state action, hoping for the best, or see what can be done to get the road as near to Farwell as possible. Aldridge and the other delegates pointed out that unless some steps were taken locally, that probably the road would bend several miles east of Farwell and tie into Highway 60.

It was pointed out at the Lubbock meeting that the route would depend too, on what could be worked out with the State of New Mexico. By installing the highway exchange, chances are all the traffic would be thrown into New Mexico north of where the present Highway 60 route goes.

This was said to be of little concern to the local group, as that would be worked out between the two states. The thing confronting Farwell is whether

or not to ask the state planning board to designate a route, and in so doing, what route to ask for, it was said.

The consensus of opinion of those present was that the group work to get the highway as close to town as possible. A route, which was said by the district engineer as possible, was for the highway to loop south, swinging around north into Farwell somewhere close to Ninth Street.

If the state approved this route, it would damage several farms south of Farwell. Since only a few of the persons who would be affected by such a route were present, the group voted to postpone action until next meeting.

Several things pointed out at the meeting, pertaining to route, were as follows:

The closer to town the highway comes, the better it will be for Farwell. The road will create new businesses wherever it goes. Too, if it comes close to Farwell, the present route through town could possibly be kept as a business route and be maintained by the state.

Pointed out was the high traffic count on Highway 70-84. The most recent one revealed that for a 12-hour period the count was 3,000 on this highway, while on 60 it was 1,500.

"Service stations, motels, and cafes are building up all along Highway 60 with only half the count that 70-84 has," Aldridge said. "The reason the same has not occurred on 70-84 is the uncertainty of the route."

The four-lane route has already been started this side of Lubbock, but right-of-way difficulty in Littlefield and Muleshoe is slowing up progress. It was said at the meeting, that any time a route can be worked out for this end of the road, there is a possibility that construction could start at any time.

However, it was not seen any time in the immediate future. One thing that designation of the route would do, is to halt construction of farm buildings and installation of irrigation wells on property needed for the right-of-way, Aldridge said.

"This would save several right-of-way problems when the road is started," he added.

## Court Hits Snag

The new district court for Parmer, Lamb, and Bailey Counties has a hurdle to overcome, according to reports received here. The bill set Sept. 1 as date for the new court to be created, but in the process of legislation, mention of salary for a district attorney was omitted.

Salaries for judges and secretarial help for district attorneys were included in the bill. An amendment will be required for district attorney salary.

As yet, the district attorney has not been appointed. The report says that the matter will be taken care of during a special session of the legislature, if one is called by Governor Price Daniel.

### ATTENDS CONVENTION

Manuel Kesner, son of Mr. and Mrs. Shirley Kesner of Farwell, attended a Baptist youth convention held near Santa Fe, N. M., last week. Kesner, a student at West Texas State, accompanied other WT students to the convention and was to return to the school at Canyon on Wednesday.

Little Miss Alice Coffman, daughter of Mr. and Mrs. Weedy Coffman, is reported to be feeling fine this week after receiving treatment for a mild case of encephalitis. Family members said this week her condition is good.

## Season Football Tickets on Sale

Season tickets are now on sale for the Farwell Steer football games. Tickets, which are \$5 each, entitle the holder to five admissions to home varsity games, plus admissions to all home junior and B games.

A different feature of the season ticket this year is that they will be punched for all varsity games so that if a person misses one varsity game, he may still use the ticket to take a guest for another game. This way, five admissions to home varsity games are guaranteed when in years past, the tickets were used only for a certain number of games and if one was missed, it could not be made up.

Tickets are on sale at the school business office at the high school or persons interested in purchasing a ticket may see any of the coaches, or tickets will be on sale at the gates at the first game of the season, September 6.

The human brain has been compared to a giant switchboard which brings every part of the body into contact with other parts.

## \$195,721 School Budget Approved

A proposed budget, calling for an expenditure of \$195,721, was approved for the 1957-58 Farwell school term by the board of trustees last Wednesday night. The budget, approved at a public meeting, now goes to the school auditor before it receives its final approval.

Based on the school census, listing 500 students in the school district, the cost for sending each student to school this year will be \$354.05, says Jack Williams,

superintendent.

The proposed expenditures this year are in line with that of 1956-57, when the budget amounted to \$195,412. It also compares with two other county schools, Bovina and Friona. Friona, with about twice the enrollment of Farwell, has a budget this year of over \$677,000. However, half of this amount is for capital outlay—new buildings and new building sites.

Bovina, with less enrollment than Farwell, has a proposed budget of over \$201,000. The reason for Farwell's being smaller is due to less bonded indebtedness from new buildings.

In breaking the budget down into the various categories in which it will be spent, the expenditures are as follows:

Administrative expense, including assessing and collecting taxes, secretarial assistance, audit expense, board election and census expense, \$5,885.

Teacher's salaries — \$105,846. This is only for the regular full-time teachers, including the administration. There are 26 faculty members and the average salary for each teacher will be \$4,071.

Special teachers, supplies, nurse, visiting teachers (library) and substitutes — \$5,804. The salary for the nurse and special teachers are divided between three county schools, Bovina, Lazbuddie, and Farwell. The above figure includes Farwell's part of the salaries.

School supplies (paper, etc.), teaching supplies, library books, vocational agriculture travel and expense, home economics travel and expense, new typewriters and nurse's supplies — \$5,200.

Transportation — \$19,600. This includes salaries for bus foreman, bus drivers, bus supplies, (gas, oil, tires, tubes, parts and maintenance,) two new chassis' and change overs, and all transportation insurance.

Other school services, including luncheon, band, and athletics — \$8,100.

Plant operation, including custodian salaries, fuel, water, lights, telephone, and plant operation supplies — \$16,600.

Summer plant maintenance, including painters, carpenters, and maintenance supplies — \$4,500.

Insurance on buildings and contents — \$4,000.

Furniture, equipment, and bond election expense — \$2,200.

Redemption of serial bonds and interest — \$16,772.

Redemption of short term loans (for pavement) \$1,214.

The breakdown of receipts (where the money is to come from) reads as follows:

Federal funds for school lunchroom — \$4,400.

State funds — \$106,643. (revenue per capita, \$40,170) (salaries and operation, \$44,973), (transportation, \$16,000), and (vocational education travel, \$1,100).

County available (estimated) from school land money — \$2,011.

Local taxes (figured on 95 percent collections) — \$89,116.

Rent on houses belonging to school — \$1,500.

The total estimated income for the year is \$199,270.

On hand for the reading of the budget last Wednesday was one outsider, Kirt Crume, Board members present were A. W. Gober, L. L. Norton, Walter Kaltwasser, Lee Meeks, Adolph Haseloff, J. T. Ford and Clay Henson.

Tuesday, September 3 Variety Club meets with Mrs. Gober

Thursday, September 5 Annual SCD banquet at Bovina School

Friday, September 6 Football: Melrose at Farwell, Sunray at Friona, Bovina at Fort Sumner

ONE OF THE NICEST — The Twin Cities have more beautiful yards and gardens this year than ever before, which could be the reason for both communities hitting an all-time high for water consumption during the month of July. One of the nicest yards in Texico-Farwell is the one of Mr. and Mrs. D. W. Bagley, partially shown above. Here, Mrs. Bagley is shown near some of the many flower bushes in the yard.

THE TRIBUNE'S EDITORIAL COMMENT

A Step Backwards

For a community to be a progressive one, it takes citizens who are at all times on their toes, making the most of every opportunity to better provide for a town's needs.

There are many ways for a community to better itself and we are not going to try and list any in detail. However, it goes without saying that the main responsibility of any community lies with the city officials and the chamber of commerce.

To say that Farwell is not progressing would be an incorrect statement, but like so many other towns of its size, it has plenty of room to go forward.

To cite a recent case where Farwell was caught asleep, is in regard to a local post office. Construction is now underway on an addition to the present out-moded post office building, and to us, putting money into a community eyesore, a building which served its purpose many years ago, is just like pouring money down the drain.

It certainly isn't an economy move, because in no time at all, the facilities will quite likely again be inadequate. Looking to the future is what every smart businessman does, and when he outgrows his business facilities, expediency isn't the thing which governs his actions. Usually, he decides on something that will meet his needs for many years to come.

The same should be so with a city. While the present post office is privately-owned and rented to the post office department, it should still be of city concern. As we understand it, a bid was submitted last year on a new Farwell post office, but it was turned down, in favor of one for remodeling the present building.

The reason for Farwell taking this step backwards in regard to providing adequate postal facilities, could be any of several reasons, but the main one is probably the failure of local leaders to investigate the situation when bids were being called for.

At that time, chamber of commerce investigation and backing could have resulted in more persons submitting bids, and one might have been acceptable. Too, had it been found out that there was no other solution, city commission action could have been taken.

It is best for a city not to interfere with a project which can be a profitable private enterprise, but when the city's needs are not being provided for, city action can help matters.

Probably nothing can be done at the present time, but failure to have adequate postal facilities is a black mark against the community and another example of what prevails when a city fails to accept the responsibility of providing for its own needs.

are both spring graduates of Pampa High School.

Mr. and Mrs. Jeeter Garner and children spent last weekend in Ralls with her parents, Mr. and Mrs. C. M. Woodard.

Guests in the Roy Daniel home the first of the week were his nephew and family, Mr. and Mrs. Lowell Daniel, Janet and Carolyn from Shawnee, Okla., and Mr. and Mrs. Nathan Hedges of Shawnee. Mrs. Daniel and Mrs. Hedges were schoolmates.

Mr. and Mrs. C. C. Graef returned Monday from their trip abroad where they have been on tour for the past month.

Mr. and Mrs. Herbert Clay have returned from a two weeks vacation. They visited relatives in Claude and Wellington and spent some time in Portales and Ruidoso.

Mr. and Mrs. T. R. Smallwood and Mira are visiting relatives this week in Dodson, Bridgeport, and Ralls. Karen is staying with her grandmother Smallwood in Muleshoe while the rest of the family is gone.

Mr. and Mrs. Thomas Carrell and Peggy Ann spent a few days last week at their ranch at Cotton Center.

Mr. and Mrs. Demp Foster and boys, Timmy and Steve, Mr. and Mrs. Ben Foster Sr., and Ronnie Hurd spent the last part of last week at Ruidoso.

Miss Danny Gargile Weds Ken Menefee

In a candlelight ceremony at the Lazbuddie Baptist Church on Friday evening, August 23, at 7:30, Miss Danny Rue Gargile, daughter of Mr. and Mrs. Dan Gargile, became the bride of Kenneth Dwain Menefee, son of Mr. and Mrs. Joe Scott Menefee of Corpus Christi.

Rev. Bill Curry officiated at the double ring ceremony. The wedding setting was formed by an archway of candelabra holding pink candles. Baskets of greenery and pink and white gladioli formed the background.

Miss Neely Steinbock played traditional wedding music and accompanied Jim Gordon who sang "Because", "I Love You Truly" and "The Lord's Prayer".

Attending the bride as maid of honor was Miss Mona Hall who wore a pink cotton dress with a bouffant skirt and carried a bouquet of pink rosebuds.

Candles were lighted by Jim Gordon. Carolyn Menefee, sister of the groom, carried the rings on a white taffeta covered pillow trimmed with pink lace. Troy Shirrock of Muleshoe served as best man. Ushers were Fred Treider, cousin of the groom, and Joe Cox.

The bride, given in marriage by her father, was attired in a wool persey dress of off-white. Her white hat was covered with irridescent sequins. She carried a white Bible topped with pink rosebuds and silver sprinkled Stephanotis and satin streamers.

Following the ceremony, a reception was held in the parsonage of the church.

The serving table was laid with a crochet cloth over pink and white roses. Also gracing the table was the bouquet of the maid of honor and the three tiered wedding cake topped with a miniature bride and groom.

Presiding at the table were Misses Alice Gordon and Maudine Barnes.

After a short wedding trip, the couple will be at home in Corpus Christi where Menefee will be employed. He also plans to attend school part time to complete his credits for graduation.

The bride is a 1957 graduate of Lazbuddie High School. Other survivors include his mother, Mrs. Pearl Darling; and one sister, Gladys.

Out-of-town guests for the wedding were Mr. and Mrs. LaVern White and Marie, Mr. and Mrs. Albert Roland and Ardith, Mr. and Mrs. Spencer Hough and Patsy, Mr. and Mrs. John F. Thompson and Darrell, and Mr. and Mrs. Broyles, all of Friona; And, Misses Evelyn Calder and Wanda Pool of Muleshoe, Mr. and Mrs. Perry Barnes of Clovis, and Mr. and Mrs. Kenneth Reeves and children of Dimmitt.

Parents of Son

Mr. and Mrs. W. C. McLeod are the parents of a new baby boy born Thursday, August 22. The little lad weighed seven pounds and 14 ounces and has been named Sandy D.

Kirby Wayne Carrell returned Saturday from an eight weeks harvest run which carried him to Nebraska and North and South Dakota.

Mr. and Mrs. Elmer Elliott and son Ronnie from Anadarko, Okla., stopped over last Thursday and visited with the Hubert and Leonard Elliott families. The Elmer Elliotts were enroute home from a visit in Fresno, Calif.

Mr. and Mrs. Glen Stiles left by train this week for a two weeks visit in Klamath Falls, Ore., with Mr. and Mrs. Loyal Lust, who are former residents of this community. The Stileses also plan to stop off in San Jose, Calif., for a visit.

Mr. and Mrs. Jess Pendergrass and Susan, and Mrs. Pendergrass's sister and family, Mr. and Mrs. Bob Trigg from Abilene, visited Saturday night and Sunday in Amarillo with their brothers and families, Mr. and Mrs. J. E. Hester and Mr. and Mrs. Kenneth Hester.

Visit Parents

Mr. and Mrs. Geoffrey Gustin and children, Jerry D., Connie Sue, Ricky and Dennis, visited this past week in the home of his parents, the C. D. Gustins. The Gustins have been in Tokyo, Japan, for the past two and one half years where Geoffrey was being serving with the armed forces. They left here this week to go to Chanute, Kan., to visit her parents, Mr. and Mrs. D. Stevenson, then to Lake Charles, La., where he will be stationed.

Mr. and Mrs. Otto Huff from Melrose, N. M., visited last Tuesday in the home of her cousin and family, the Dick Scotts.

Mr. and Mrs. Max Steinbock, Mr. and Mrs. Andy Brown and Sonya, and Mr. and Mrs. Ted Treider and Brad are vacationing in Lake City, Colo., this week.

Mr. and Mrs. Lacy Hardage and Billy returned last week from a vacation trip that carried them through Colorado, Wyoming, Nebraska, and back through Kansas and Burk Burnett, Tex., where they visited her sister and family, Mr. and Mrs. Jim Aday.

Sunday guests in the Tice Hugg home were Mr. and Mrs. G. W. Prater and son Jimmy Lynn from Amarillo.

Have New Son

Mr. and Mrs. Frank Donald Spitzer are the proud parents of their first child, a son, born at Clovis Memorial Hospital. The young man weighed seven pounds and has been named Gregory Don.

Recent Sunday guests in the home of Mr. and Mrs. Ralph Cox were her sister and family, Mr. and Mrs. C. H. Irvin from Duncan, Okla., and her mother Mrs. J. P. Wilson from Friona. Mr. and Mrs. Gene Smith and Timmy and Mr. and Mrs. Lee Kimbrough and Nancy attended the drag races in Big Spring, Sunday.

At Lake Brownwood

Mr. and Mrs. Eulan Parham, Sharon and Terry, and Mr. and Mrs. T. L. Gleason and family spent several days last week at Brownwood doing some fishing. The Parhams returned home by Merkel to visit with his parents, Mr. and Mrs. W. M. Parham. The Gleasons stopped over in Anson to visit his parents, Mr. and Mrs. Lee Gleason.

Tour Caverns

Mr. and Mrs. Pete Mimms and children, Kelly, Jill, Clay and Tracy, Mr. and Mrs. L. M. Blanton and children, Ronald, Linda, Randol and Terry, from the Sunnyside Community, and Mr. and Mrs. Arthur Morman and children, Dale and Sherry, from Clovis, enjoyed a trip through Carlsbad Caverns last Friday. They returned home by Ruidoso.

Mr. and Mrs. Doug Horsley and children, Max and Gene, and Mrs. L. V. Vivian attended the Old Settlers Reunion at Roaring Springs last Thursday.

Mr. and Mrs. Robert L. Kimbrough and Mr. and Mrs. Glen Splawn from Muleshoe are taking a trip through Colorado and Utah this week.

Mr. and Mrs. Robert Goodwin from Houston were recent visitors in the home of her sister and family, Mr. and Mrs. Dan Cargile. The Goodwins were on their way to the West Coast.

Mr. and Mrs. Lee Mason and girls, Brenda and Jan, vacationed several days last week in Tres Ritos, N. M.

Mr. and Mrs. Roy Daniels visited Sunday in Tulla with their daughter and family, Mr. and Mrs. Reece Wilterding and children, Steve and Shelley.

Mr. and Mrs. Davis Gulley and children, Johnny and Jane, vacationed last week at Cowles, N. M., and also in Clayton, N. M., where they visited the Ft. Jordan Museum.

Donald Darling Dies In Portales

Funeral services were held Monday afternoon at the Fourth Street Church of Christ in Portales for Donald A. Darling, 51, who died with a heart attack. He was a brother of Duane Darling of this community.

Others attending the funeral from Lazbuddie were Mr. and Mrs. Gene Smith, Mr. and Mrs. Kenneth Keith, Jerry and Kay Ann Smith, R. A. Hartsell, John Gammon, Neal Bradshaw, Pete Mimms, Harold Wilson and Mr. and Mrs. Jack Smith.

Mr. and Mrs. Walt Hansen and children spent the weekend in Lamesa visiting her mother Mrs. Irene Wickson.

Visit Mrs. Treider

Mr. and Mrs. L. M. Mehesky and Beverly from Corpus Christi are visiting this week in the home of her mother, Mrs. Laura Treider. Other guests on Sunday in Mrs. Treider's home were Mr. and Mrs. Ray Cheyne, Laura Faith and Brenda from Amarillo, Mr. and Mrs. Seth Brown from Denver City, Mr. and Mrs. Raymond Treider Sr., and Mr. and Mrs. Juel Treider.

Mr. and Mrs. Dick Scott and Ronald spent the weekend at Dodson visiting his mother and sister, Mrs. W. T. Scott and Gladys.

Mr. and Mrs. Paul Simms from Albuquerque, N. M., are visiting this week in the home of her parents, Mr. and Mrs. W. S. Menefee. On Tuesday the Simmses and Mrs. Menefee attended a "World Missions Conference" convention in Portales.

Mr. and Mrs. Dee Chitwood and children, Dick and Pat, vacationed last week in Vallecito, Colo.

Charles and Grace Paul visited in Roswell last Tuesday and returned their sister Mrs. D. W. Bradbury to her home there after she had visited several weeks in the Paul home here.

In Seaton Home

Visitors the first part of last week in the John L. Seaton home were her grandmother Mrs. J. H. Brigrance from Tulare, Calif., and two aunts, Mrs. Wade Miller, Tulare, Calif., and Mr. and Mrs. Buck Franklin from Visalia, Calif., and Mr. and Mrs. Ralph Dixon from San Diego.

The last part of the week an aunt and uncle of Seaton's, Mr. and Mrs. R. L. Seaton from Oilton, Okla., and Mrs. W. E. Payne from Muleshoe, visited with the Seaton's. Mrs. Payne is Mrs. Seaton's mother.

Mr. and Mrs. John McGehee and boys, Gerald and Kenneth, accompanied by Mr. and Mrs. (Continued on Page 11)

J. C. Scruggs and family from Olton, are fishing at Lake Brownwood this week.

It's A Girl

Mr. and Mrs. Larry Treider are parents of a baby girl born Saturday morning, August 24. The little lady weighed seven pounds and nine ounces and has been named Tamra Larae. This is the first child of the Treiders and the grandparents are Mr. and Mrs. Juel Treider and Mr. and Mrs. Arvil Lawrence.

Mr. and Mrs. J. B. Young and boys, Cooper and Steve, spent last week at Conchas doing some last minute fishing before school starts.

Mr. and Mrs. Chester Embry, Carolyn and Lee, Mr. and Mrs. James Welch, Sharon and Rhonda, Mrs. E. R. Lawhon and Janice, and Billy Carson from Olton spent Sunday afternoon at Monument Lake.

Mr. and Mrs. Glen Scott and Terry returned home Saturday from a vacation in the scenic mountains of Arizona. They returned by Waxahachie to visit their daughter and family, Mr. and Mrs. Charles Stafford. Carolyn Scott, who has been visiting her sister, will return home later this week.

Mr. and Mrs. C. B. Watkins, Coretta and Dean, returned last week from a 15-day vacation to Etowah, Marysville and Knoxville, Tenn., where they visited with relatives. They were accompanied by Jimmy Blankenship from Wilson.

News From LAZBUDDIE

By MRS. CLYDE MONK

Summer Program Comes To End

The Lazbuddie Community Club has brought activities to an end for the summer, and have announced their program to have been successful. They have sponsored the boys' ball games during the summer, and also the weekly swimming program at the Muleshoe pool.

Clarence Mason, president, and Demp Foster, secretary-treasurer, take this means of thanking those who had a part in making the projects a success.

Aiding the program were Dee Chitwood, J. S. Barnes, D. B. Ivy, Frank Hinkson, Don Schumann, Fred Wilbanks, J. C. Embry, W. G. Harlan, E. E. Engleking, Hubert Elliott, Bob Jones, Wesley Barnes, J. G. Ward, Jimmie Seaton, Ansel Ashford, Junior Matthews, Eulan Par-

ham, Judd Clark, John McGehee, Pete Mimms, Ed, Rex, R. J., Alfred, Walter, Alex, and Wallie Steinbock;

Muleshoe businesses: King Bros. Grain, Piggly Wiggly, Muleshoe Jewelry, Sanders Lumber Company, Lenderson Implement, Lindsey Jewelry, Higginbotham-Bartlett Lumber, Ray Griffith Elevator, Charles Lenau Lumber, Bailey County Electric, B&C Motors, D. H. Sneed, Cashway, Gulf Corporation, Ray Jordan, Sanitary Barbershop, Western Auto, Johnson-Nix, Muleshoe State Bank, Gifford-Hill-Western, Wiedebush & Childers, Rufus Gilbreath, Western Fertilizer, and Johnson Furniture.

Friona businesses: Ethridge-Spring Agency, Bert Shackelford; Farwell: Security State Bank; Clovis: Bryson-Tanner Furniture.

Mr. and Mrs. J. B. Jennings surprised their son Derrall on his 15th birthday, Sunday, with a dinner. Those helping Derrall to celebrate were Clyde Redwine, Marie Houston, Patsy Cox, Mr. and Mrs. Lanis Hughes and Mr. and Mrs. Eldon Page.

Mr. and Mrs. Everett McBroom and Susan visited in Canyon Sunday with relatives.

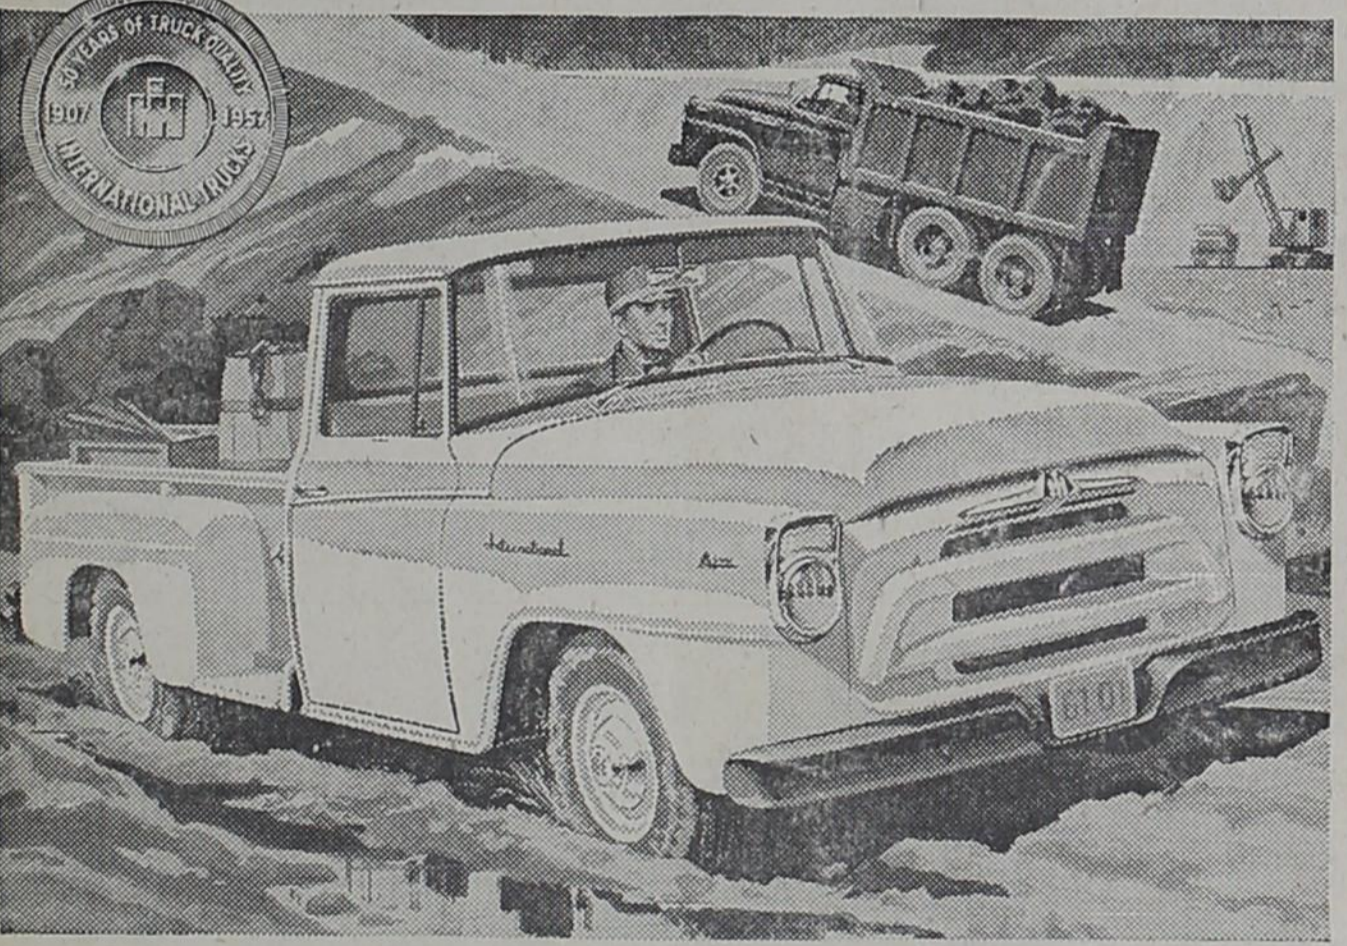

Janice Gallman To Wed Robert Edwards

Mr. and Mrs. Fred Gallman of Lazbuddie announce the engagement and approaching marriage of their daughter Janice to Robert Lee Edwards, son of Mr. and Mrs. E. C. Edwards of Pampa.

Vows will be exchanged in the parsonage of the Sixth Street Methodist Church of Amarillo at 10 o'clock a.m. Saturday, August 31. The pastor, Rev. Aubrey F. White, will officiate. Miss Gallman and Edwards

Come in and "TRACTION TEST" a new Golden Anniversary INTERNATIONAL

Golden Anniversary INTERNATIONAL all-wheel-drive models range from 7,000 to 33,000 lbs. GVW. Other INTERNATIONALS, to 96,000 lbs. GVW, round out world's most complete line.

Here's the truck that makes its own roads—a new Golden Anniversary INTERNATIONAL with four-wheel-drive!

But seeing is believing. We want you to find out for yourself just how much extra pull those INTERNATIONAL-powered front driving wheels give you.

Come in for our "Traction Test." Take a Golden Anniversary INTERNATIONAL four-wheel-drive truck to the grades you know are tough—to places you've never been able to get through with your rear-wheel-drive truck. And as the INTERNATIONAL carries you on through, remember this:

Over the years, INTERNATIONAL Trucks cost least to own—cost records prove it!

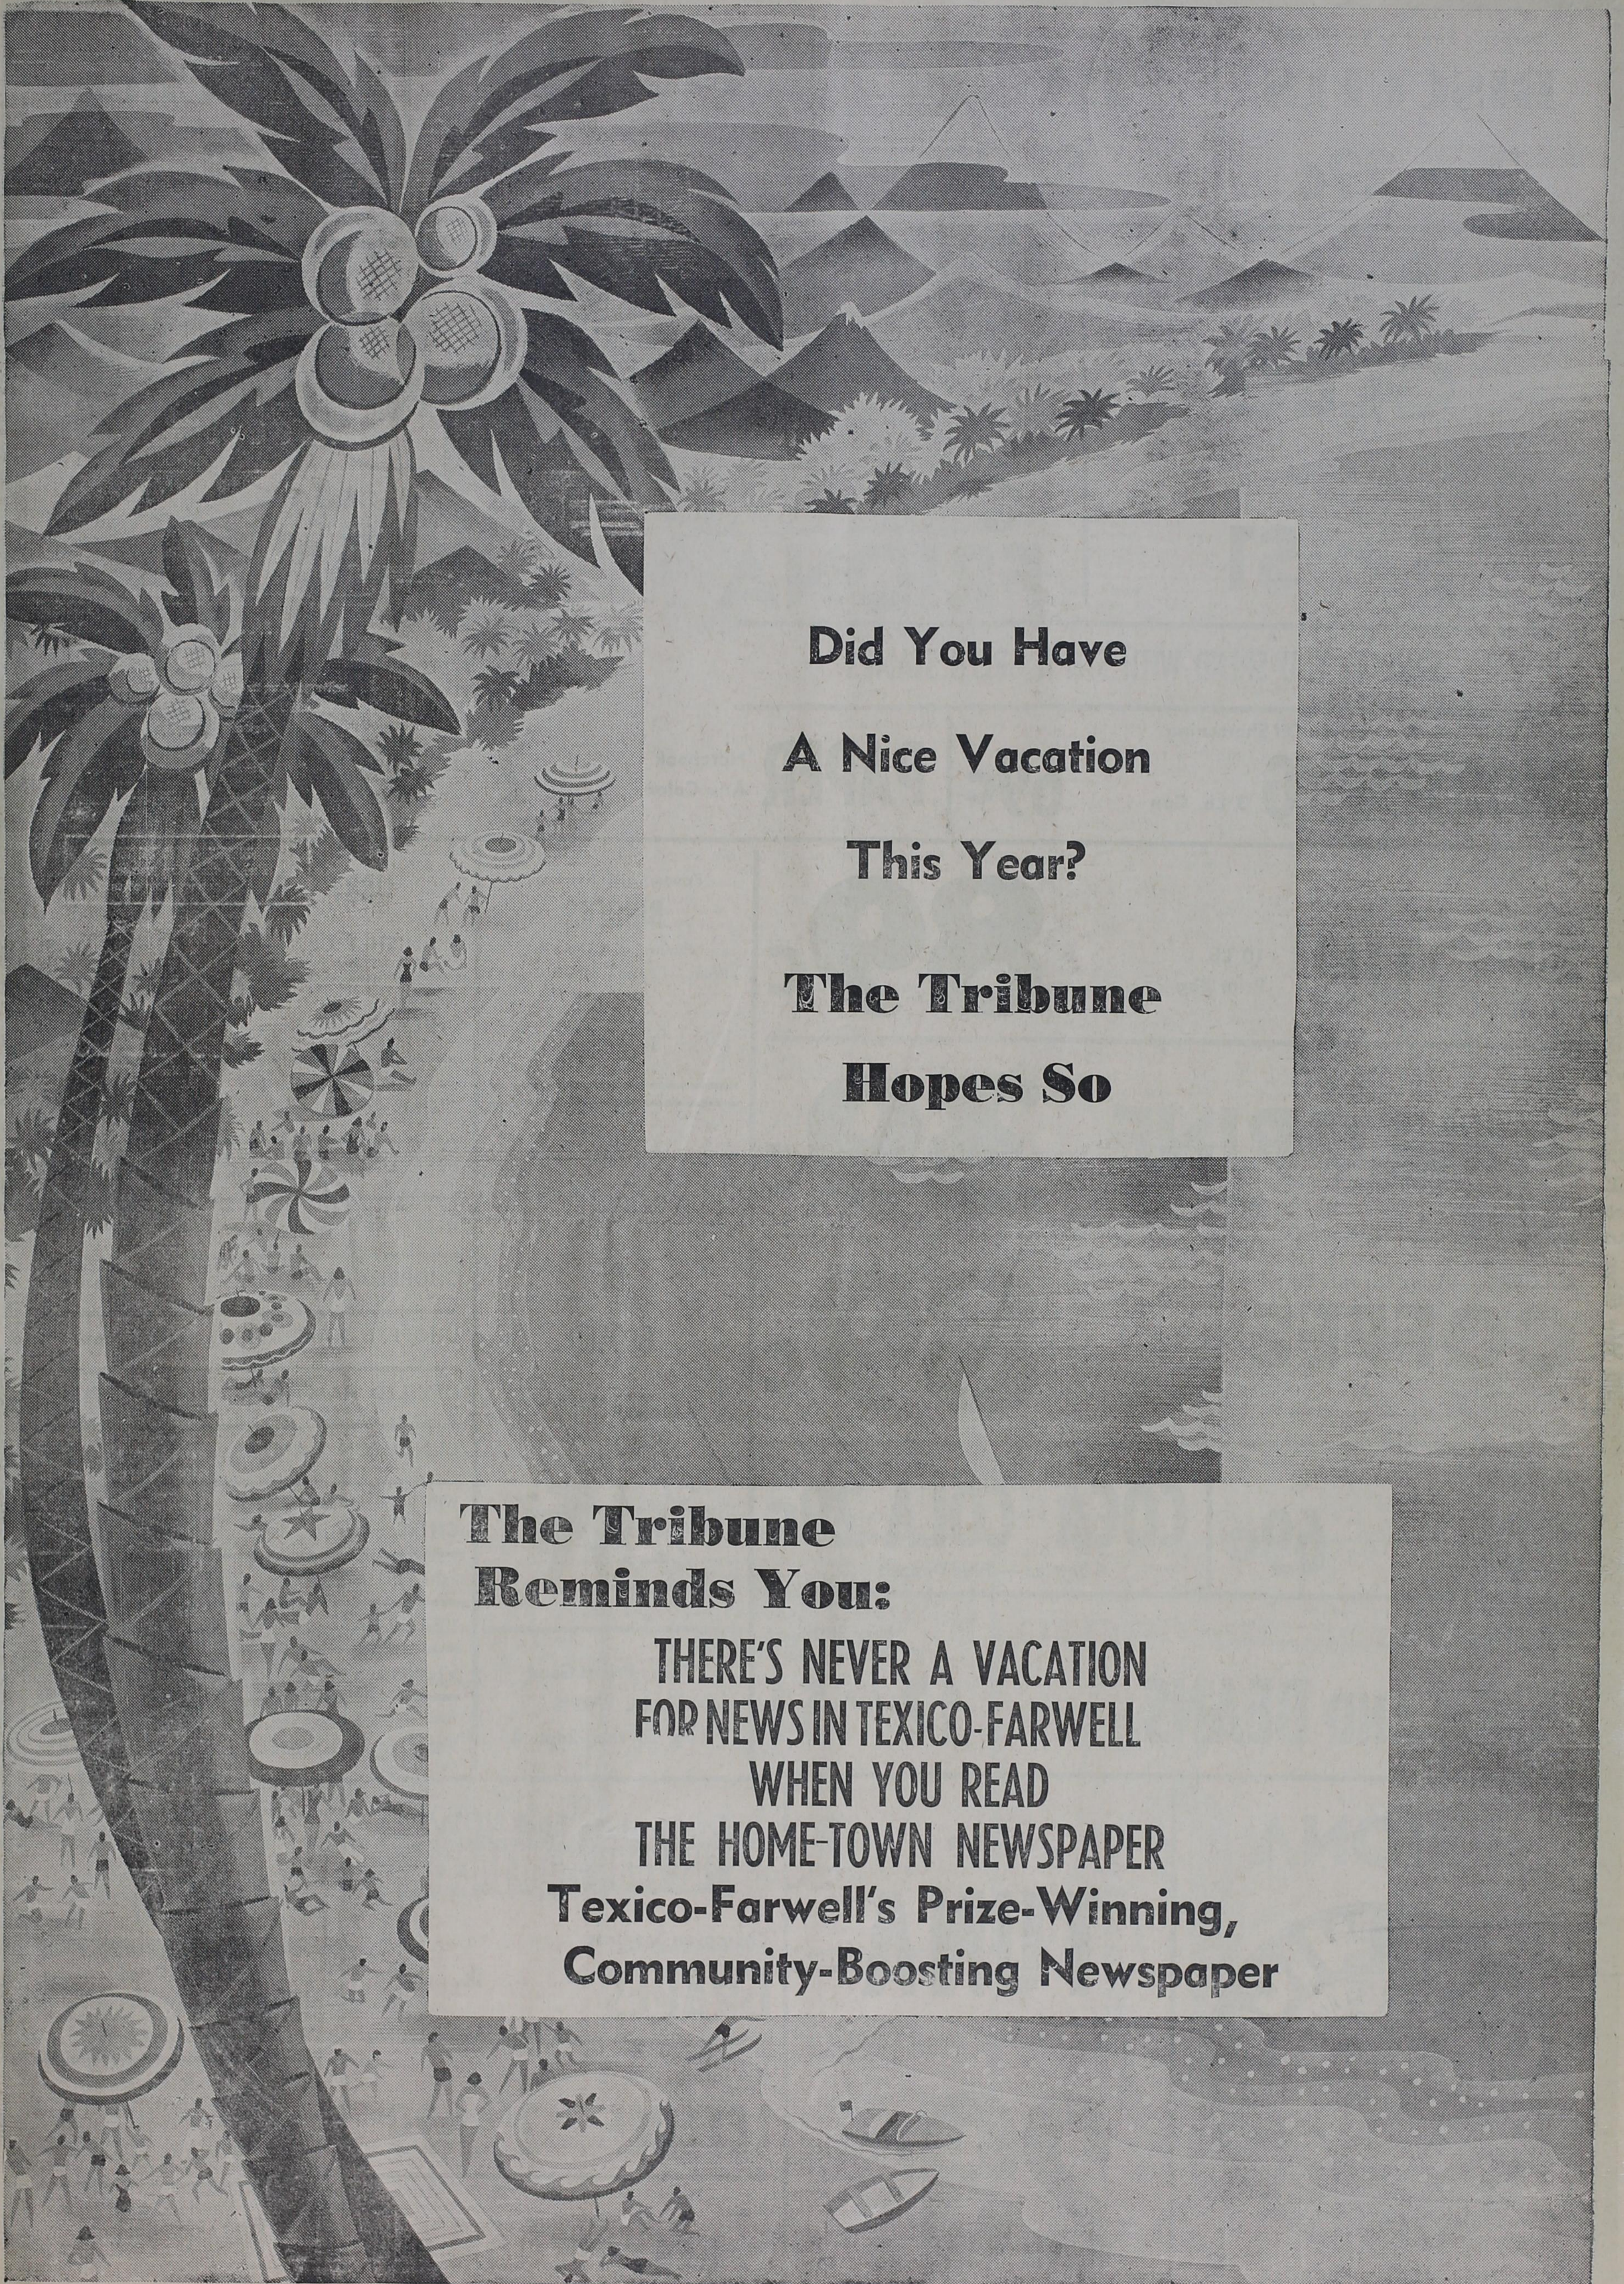

Come take our test soon!

# Social Events of Interest

## Mrs. Jimmy Norton Shower Honoree

Mrs. Jimmy Norton, the former Miss Sharon Thorn, was honored with a recent bridal shower held at the home of Mrs. C. C. Christian in Farwell.

A color theme of pink and white was featured in the decorations. An arrangement of pink and white roses centered the refreshment table which was covered with a white net cloth over

## To Elect New Class Officers

New officers for the Companion Sunday School class of the Texico Baptist Church are to be elected at the regular meeting of the class on Thursday evening, September 5.

The class will meet in the home of Mrs. Wilma Nell Whitener at 8:30. Members will meet at the home of Mrs. Tena Roth, class teacher, at 8:15 and will go in a group to the Whitener home.

All members are urged to attend this important meeting.

## Albuquerque Guests Are Here Saturday

Mrs. Nate Skousen and Mrs. Paul Ellis and daughters, Selicia and June, all of Albuquerque, N. M., visited here Saturday in the home of Mr. and Mrs. Guy Cox Sr.

Returning to Albuquerque with them was Mrs. J. W. Mordecia of El Paso, aunt of Mrs. Cox who had been visiting in the Cox home for the past several weeks. Mrs. Sousein is a daughter of Mrs. Mordecia and Mrs. Ellis is Mrs. Mordecia's granddaughter.

## From Oklahoma

Visiting during the weekend with Mr. and Mrs. Joe W. Magness were Mr. and Mrs. M. O. Blackshear of Boise City, Okla. The Magnesses plan to join the Blackshears near Pecos, N. M., for a camping trip during the Labor Day weekend.

## WCS Meeting Held Wednesday

Hostess for the regular meeting of the WCS of Hamlin Memorial Methodist Church on Wednesday morning of this week was Mrs. B. N. Graham. Seven members were present and Mrs. Elmer Teel was in charge of the program.

Present besides the hostess were Mesdames Anne Overstreet, G. W. Atchley, Lena Yoder, Albert Thomas, J. R. Thornton and Elmer Teel.

The group will meet again on Wednesday, September 11, for a regular session at the church. The meeting, which will feature a business session, will begin at 12:30 with a covered dish luncheon.

Mrs. James A. Cox returned to her home here on Tuesday of this week after visiting since Tuesday of last week in Logan, N. M., at the home of her son and family, Mr. and Mrs. James Cox.

Mr. and Mrs. L. E. McKillip and daughter Ima Jean are vacationing this week in Hot Springs, N. M.

Mr. and Mrs. Elmer Langford and children planned to leave today (Thursday) for a three-day vacation trip to Red River, N. M.

pink. Pink lemonade and cookies were served.

Hostesses were Mesdames Dick Gerles, Ernest Kube, Hubert Ellison, Gene Hardage, Troy Christian, Cary Joe Magness, Doyle Ford, Dean Jones, C. C. Christian and Miss Marian Smith.

Among those attending and sending gifts were Mesdames Vernon Jamison, Darrell Norton, Leslie and Ray, Joe W. Magness, Ted Sheets, L. L. Norton, S. O. Billington, Harold Carpenter, D. W. Carpenter, Garvin Thorn, E. J. Keith, Curtis Jones, Johnny McDonald;

Also, Mesdames Everette Christian, Lenton Pool, Verney Towns, Herman Gerles, Jack Williams, Buster Cochran, and Misses Shirley and Peggy Martin, Phyllis Magness, Katherine Billington, Wilma Norton and the hostesses.

## Family Get-Together In Parsons Home

The Monty Parsons home in Texico was the scene of a recent family get-together. Entertainment for the evening was furnished by Mrs. Parsons' son, Howard Hudson of the U. S. Navy, who showed slides he made while on a recent six month tour of Japan.

Mrs. Parsons served refreshments of lemonade, coffee and cookies to Mrs. Lena Yoder of Texico, Mr. and Mrs. Mitchell Hudson, Mr. and Mrs. Lee Roach and children, Mrs. Mary Edmonston, Mrs. Leroy Kilmer, Mr. and Mrs. Parnell Jackson, all of Clovis, and Mr. and Mrs. Howard Hudson.

Mr. and Mrs. Howard Hudson left here after their visit to make their home in San Diego where he is stationed.

## Joneses Leave For Red River

Mr. and Mrs. Austin Jones left here Tuesday morning for a trip to Red River and other scenic spots. They planned to visit Tuesday night with their daughter and family, the A. C. Hennemans in Amarillo, before going on to Red River.

Later this week they will be joined at Red River by her sister and brother-in-law, Mr. and Mrs. Bill Hoggatt of Albuquerque. Mrs. Hoggatt is a former teacher in the Farwell School system.

## Harris Return Home Monday

Rev. and Mrs. Rayford B. Harris and son left Monday morning for their home in Palacios, Tex. Rev. Harris, a brother of Mrs. B. A. Kelley of Texico, conducted a revival at the Texico Baptist Church last week and his wife and son joined him here the latter part of the week after attending camp at Glorieta, N. M.

The Harrisites visited in the Kelley home with Rev. and Mrs. C. C. Morgan and Wanda during their stay here. They planned to visit in Childress before going on to Palacios.

## From Clifton

Mr. and Mrs. Jack Wilson of Clifton visited from Tuesday night until Friday of last week in the home of her brother and family, Mr. and Mrs. Joe W. Magness. The Wilsons were accompanied on a business trip to Santa Fe by the Magnesses on Wednesday. They returned to Clifton on Friday morning.

## Mrs. Cox Hostess To Class Meeting

Mrs. Alvenia Cox was hostess to members of the Ruth Sunday School class of Texico Baptist Church for the regular monthly social and business meeting at her home on Tuesday night of this week.

Mrs. Susie Schlueter, vice-president, presided in the absence of the president, Mrs. Sophie McDaniel. Mrs. Willie Morgan led the opening prayer and Mrs. Lucy Brown presented the devotional.

Minutes of the previous meeting were read and approved and the members present signed a get-well card to be sent to Mrs. Velna Seale, associate class member, who is ill.

Mrs. Lucy Brown was re-elected class teacher for the coming church year. A nominating committee will be appointed by the class president on Sunday and new officers will be elected at the next regular class meeting on September 24.

Following the meeting Mrs. Cox served refreshments of homemade ice cream and cake to Mesdames Irene Baker, Susie Schlueter, Willie Morgan, Lucy Brown, Nora Day, Helen Bowers, and Lois Potect.

## Mrs. Magness Is Honored at Shower

The First Baptist Church was the site Friday afternoon for a wedding shower, honoring Mrs. Cary Joe Magness of Farwell.

Mrs. Magness, the former Patricia Lloyd, is the daughter of Mr. and Mrs. Travis Lloyd of Bovina.

Soft piano music was played by Miss Sandra Rhinehart while the guests were registered. Mrs. Neil Smith presided at the guest book.

Following the registration, Mrs. Henry Minter introduced Miss Kay Leake, who sang two selections. She was accompanied on the piano by Mrs. Doris Wilson.

Mrs. Minter then led the group in two games. First, the guests were asked to list hints for the bride, each beginning with the letters of the honoree's name, Patricia.

The second game was a spelling game, and when completed, the words "come and get it" were spelled out on each guest's card. The refreshments were then served.

Punch and angel food cake were served from a table laid with an ecru lace cloth over blue. A bouquet of white and blue flowers, flanked by two tall blue tapers completed the table decorations.

The honoree was presented with a novelty corsage. In the place of flowers, small kitchen articles, including a measuring spoon, a pastry brush, a pan scraper and others, were clustered together and tied with a large, white satin ribbon.

Mrs. Clyde Magness, mother of the bridegroom, and Mrs. Paul L. Lloyd, were presented corsages of white lilies.

Hostesses were Mrs. Frank Hastings, Mrs. Clifford Leake, Mrs. Minter, Mrs. Lester Rhinehart, Mrs. H. H. Kelso, Mrs. H. N. Turner and Mrs. Lee H. Sudderth. They gave individual gifts.

Guests present were Mrs. G. E. Free, Mrs. Rouel Barron, Mrs. Magness, Miss Phyllis Magness, Mrs. W. H. Lloyd, Mrs. Dennis Robards, Mrs. Neil Smith, Mrs. Lloyd, Mrs. Walt Williams and Miss Penny Lloyd.

Others were Mrs. John Wilson, Miss Brenda Jones, Miss Sandra Martin, Miss Sandra Rhinehart, Mrs. A. B. Wilkison, Mrs. E. M. Ware, Mrs. G. A. Whitesides, Mrs. E. C. Berry, Mrs. W. E. Williams and Miss Leake. Many sent gifts who were unable to attend.

## Leave Monday

Mr. and Mrs. Nathan Harding left here Monday for Odessa where they plan to teach school this fall. The Hardings, who have been visiting here with their parents, Mr. and Mrs. D. O. Rolland and Mr. and Mrs. N. R. Harding, for several weeks, will both teach in the junior high school. Prior to moving to Odessa, they lived at Denton where she received her degree this past spring from TSCW.

## With Mrs. Blair

Mr. and Mrs. Verne Wellman and children, David, Forrest and Glenn, of Milwaukee, Wis., are here visiting her mother, Mrs. E. G. Blair. They arrived here Saturday and plan to be here the remainder of the week. Forrest has spent a portion of the summer here with Mrs. Blair.

Visiting relatives in Canyon part of this week were Mr. and Mrs. Alton Berry, Richard, Johnny and Doris.

We Are Interested In Pleasing You With Your **INSURANCE**

Mrs. Irene Graham Farwell, Texas

Mr. and Mrs. Finis E. Jennings, Route 1, Muleshoe, are announcing the engagement and approaching marriage of their daughter, Mina Margaret, to Billy Dwayne Watts, son of Mr. and Mrs. A. T. Watts of Farwell. The wedding date has been set for Tuesday, September 10, in the Lazbuddie Methodist Church.

## Attend Wedding

Mr. and Mrs. Ted Magness were in Amarillo on Saturday afternoon to attend the wedding of her brother Marion Hensley and Miss Gayle Austin. Saturday night and Sunday the Magnesses visited in Canyon with her parents, the L. B. Hensleys, a brother and sister, Leldon and Lewis Hensley, at the home of another brother and family, Mr. and Mrs. L. B. Hensley Jr.

Vacationing at Ruidoso during the weekend were Mr. and Mrs. Orrie Jones. Before returning home, they also visited with an aunt and uncle of Mrs. Jones in Captain. They returned home Monday.

Guests last Wednesday night in the home of Mrs. Tena Roth, Ted and Bill, in Texico, were her nephews, Wesley and Curtis Haines, of Guymon, Okla.

## In Friona

Mrs. Joyce Coffman and children, Mr. and Mrs. Elmer Langford and children and Mr. and Mrs. Fred Barker Jr. and children were Sunday dinner guests in the home of Mr. and Mrs. Fred Barker Sr. in Friona.

Miss Norma Hurta visited during the weekend at her home town, Jal, N. M. Miss Hurta is a new member of the faculty at Farwell School and will be teaching commercial subjects.

Dale Merriman of Plainview is visiting with his grandparents, Mr. and Mrs. W. P. Shelley. Dale is the son of Mr. and Mrs. Doyn Merriman who are former residents of Oklahoma Lane.

**JONES** Phillips 66 Service Station Farwell, Texas

## OKLA. LANE By AVIS CARPENTER

## Sandra Patton Is Honored at Shower

Sandra Patton, bride-elect of Reggie Jones, was honored with a pre-nuptial shower Thursday afternoon in the Methodist Church of Oklahoma Lane from 3 to 5.

The hostesses served pink lemonade and lemon thins from a table laid with pink net over white and centered with a crystal punch service. The floral arrangement was of pink baby mums. The bride's chosen colors of pink and white were carried out in the decorations. Her corsage, presented to her by the hostesses, was also pink. Corsages for her mother and the bridegroom's mother were identical.

The gift table was overlaid with pink with a miniature bride and bridegroom standing on a pedestal, with pink rose buds strewn along a bridal path.

Mrs. Jimmie Blankenship presided at the guest book. About 30 guests registered and many who could not attend sent gifts.

Hostesses were Mrs. Blankenship, Mrs. Clarence Christian, Mrs. Sam Billingsley, Mrs. Jim Billingsley, Mrs. Tom Lindop, Mrs. Truman Kent, Mrs. Lee Jones, Mrs. Tom Beauchamp, Mrs. Travis Lloyd, Mrs. Billie Sudderth and Mrs. Rouel Barron.

Miss Patton, daughter of Mr. and Mrs. Owen Patton of Oklahoma Lane, and Jones, son of Mr. and Mrs. O. H. Jones of Bovina, were married Sunday at Bovina Methodist Church.

## Christians Home From Vacation

Mr. and Mrs. Wendol Christian and girls have returned home from a three week vacation tour of New Mexico, Arizona, California, Oregon, Washington and a portion of Canada.

Among the places of interest visited by the Christians on the tour were the Painted Desert, Petrified Forest, Lava Slides, Hoover Dam, Disneyland, Knott's Berry Farm, Golden Gate Bridge, The Red Woods, The Lambert Gardens, the capitol of Idaho, Oregon, and Washington, and a Utah salt refinery.

While the Christians were in Washington, they visited with Mr. and Mrs. Fred Bolton and family, Mr. and Mrs. Bill Johnson, Miss Jenny Bolton, and Mr. and Mrs. Clarence Barber, all former residents of this community.

One day while there, the group took a boat trip to Victoria, Canada, and also toured the city of Seattle.

The local family reports that they had a very good time.

## Son Born To J. B. Sudderth

Mr. and Mrs. J. B. Sudderth are the parents of a baby son, born Tuesday at Parmer County Community Hospital in Friona. The young man weighed 5 lbs. 10 3/4 ozs. and has been named JaDon.

Maternal grandparents are Mr. and Mrs. Virgil Woodson of Oklahoma Lane and paternal grandmother is Mrs. Lee Sudderth of Bovina.

This is the first child for the young couple.

Mr. and Mrs. J. M. Pruitt and Mr. and Mrs. T. J. Coston and family visited recently in Grand Junction, Colo., with Mr. and Mrs. Lloyd Merriman and children.

Mrs. Zula Thompson of Clovis, Harold Pruitt of Texico and

Elma Pruitt of Clovis, visited Monday in the J. M. Pruitt home.

Mrs. Wanda Joy Coston and family spent last week visiting in the home of her parents, the J. M. Pruitts.

Mr. and Mrs. D. W. Carpenter and Harold Carpenter were in Amarillo on Monday where D. W. Carpenter received medical attention.

## Housework Hints Given Tuesday

Farmerettes of Oklahoma Lane met Tuesday in the home of Mrs. H. T. Edwards, with Mrs. Frank Doshier Jr. as hostess for the business session and social.

For roll call, each member told of a "short cut for house work." Icebox cake and pop were served to Mesdames Delbert Garner, Florence Cooper, Jimmy McGuire, Bill Meeks, A. V. Warren, Avis Carpenter, the hostess, and a guest, Mrs. Red Harlan of California.

## Return Home

Mr. and Mrs. Claude Watkins, Dean and Coretta, returned home last week from Tennessee where they had been visiting for the past three weeks. The Watkinses visited with Mr. and Mrs. Roy Watkins and family, Mr. and Mrs. Elmer Watkins and baby, and the former Oleta Bracken and three daughters, all of whom are former residents of the community.

Soon after their return home, Dean underwent a tonsillectomy. He is reported to be getting along nicely.

## IS IMPROVING

Troy Christian, who received painful burns on his arms, hands and face last week, is reported to be improving some this week. Although his burns are reported to be "not too serious" he has been suffering quite a lot. He is recuperating at his home now.

## From Vacation

Mr. and Mrs. Ponce Billingsley and family and Miss Virginia Willard of Plainview vacationed recently in and around Colorado Springs. The Billingsleys reported a very good time except for a minor accident in which the fender of their car was damaged and had to be replaced.

## MEEKSES SELL FARM

Mr. and Mrs. E. H. Meeks, residents of the Oklahoma Lane Community for the past 40 years, last week sold their farm and home to Mr. and Mrs. Dennis Williams of Bovina. The Meekses have owned several farms in this vicinity and have lived at the present site for the past 20 years. Plans for their future location are indefinite at the present time.

Oklahoma Lane will not be the same without the Meeks family and neighbors are hoping that they will not move far away.

## Visit Cochrans

Mr. and Mrs. Jim Walker and Kim of Roswell visited Sunday in the home of her parents, Mr. and Mrs. Buster Cochran. Mrs. Jo Ann Mason visited Saturday and Sunday with the Cochrans while her husband was on a fishing trip. The group enjoyed a fish fry Sunday at noon.

Mr. and Mrs. Jimmy McGuire and family were dinner guests in the home of her parents, Mr. and Mrs. Frank Doshier Sr., in Texico on Sunday, August 25.

## BAPTIST CHURCH NEWS

Rev. Irving Looney, Pastor

Jimmy McGuire spoke at the morning services on August 25 in the absence of the pastor, Rev. Looney, who is vacationing. Lloyd Little was guest speaker for the evening service. Special music at the evening service was furnished by Dale Crosby of Henderson who sang "Pearly White City."

Both circles of the WMU met together for a program on Stewardship on Monday, August 26. The meeting was held at the church.

The program was opened with the group singing "Bring Ye All Your Tithes Unto the Storehouse." Mrs. J. M. Pruitt led the prayer. Mrs. Fred O'Hair gave her personal testimony on "How a Housewife Can Tithe."

Presenting a devotional was Mrs. Harold Carpenter who used Lev. 27:30-32 as her scripture. A round table discussion on "How a Farmer Can Tithe" was then held.

During the business meeting, plans were made to have an officer installation program on October 7. Further plans for this are to be announced later.

The meeting was dismissed with prayer led by Mrs. Walter Verner.

Those present besides those mentioned above were Mesdames Frank Edwards, Claude Watkins, Jack Roach and Wayne Hardage.

Mr. and Mrs. Lee Mason and girls spent several days last week visiting in Tres Ritos, Taos, and Raton, N. M. They visited with the M. E. Naranjo family at Taos.

Mr. and Mrs. Delbert Garner and family vacationed last week at Holy Ghost Canyon, Glorieta, Red River and Alamosa, Colo. On their return home, the Garners visited in Taos with Rev. and Mrs. M. E. Naranjo, missionaries to the Indians there.

Sunday dinner guests in the Virgil Woodson home were Mr. and Mrs. Mark Chadwick and family and Mr. and Mrs. J. B. Sudderth.

Mr. and Mrs. Paul Ward and sons of Brownfield were dinner guests in the home of Mr. and Mrs. Jack Roach on August 25. Ward is a nephew of Roach.

# jattin's from jeanne

We are always on the lookout for quick meal dishes since we still work at The Tribune at intervals. We are building up quite a collection of recipes for casseroles and other dishes that can be prepared and eaten in a short time, giving us a chance to do the dishes before going back to the shop.

One that the head of the household likes is "skillet meat loaf".

- 1 egg
- 3/4 pound ground meat
- 3/4 tsp. salt
- 3/4 cup minced onions
- 3 slices cheese (we use American)
- 1/4 tsp. pepper

Beat egg in mixing bowl, add meat, salt and onion, mix well. Grease small skillet and lightly pat half of meat mixture over bottom of skillet. Place cheese over meat, patting smooth. Sprinkle top with pepper. Cut into pie-shaped wedges.

Cook meat loaf over fairly high heat on top of range until well browned on bottom. Then slide skillet under broiler until top meat is nicely browned. (Don't use wooden handled skillet).

Remove meat with pancake turner.

We went to the mountains over the weekend. All in all, we had a good time, but there were moments when we wondered if the term "vacation" could be correctly applied to our trip. Two boys, two and four years old, and a long ride can mean all kinds of situations. We enjoyed our trip, but we were even more glad to get home. Five days was enough.

We had a guest at our little cabin in the mountains, just the other side of Tres Ritos, on Thursday night. Sometime in the middle of the night, our husband awakened us with "Jeanne, run look out the window, quick." We rushed over, pulled the curtain aside and pressed our nose against the window, and peered into the eyes of a steely eyed monster who was looking in at us. If the glass hadn't separated us, our noses would have touched. Our scream would have awakened the neighbors, had we had any; and our husband's laughter would have completed the job.

It was only a friendly raccoon that had found our garbage can, and it happened to be standing on it when we pulled the curtain back.

And no matter where you go, you always seem to run into someone from home. We were driving through Tres Ritos canyon, just looking at the scenery and noticed a group of boys playing ball out on a clearing by the side of the road. Sure enough, one of the "boys" was Jack McManigal, and we noticed Tommy Lovelace, Johnny Lovelace and some more of the local young men.

A day later, while cruising down the road out of Trinidad, Colo., we passed a blue car loaded with happy people, and stopped long enough for a roadside visit, to learn that the Pat Patricks were en route to South Dakota.

We had breakfast in Taos, N. M. in the charming picturesque hotel restaurant. A "real-

live" Indian met us on the street, and wanted to shake hands with the boys. Hal, the youngest one, was very friendly and Ronny wasn't sure about shaking hands with the man, with the blanket wrapped around him.

Later, in the car, we were discussing the incident and remarked: "That was really a nice Indian." Ronny agreed, and exclaimed "He sure was a nice Indian; why he didn't even TRY to shoot us."

The influences of TV and movies on modern-day children, we'd say!

\*\*\*\*\*

If the seniors from last year's class at Farwell are as determined to make their mark in the world as it might appear, they should go far. Riding up on the little cog railway, from the bottom of the Royal Gorge, we noted that names and towns appeared all over the tops of the little cars, with everything from lipstick to chalk used as a writing instrument.

And on top of the small car where we were seated, were the strangely familiar names of Betty Smart, Marian Smith, Roland Hillock, Dot Woods, and others that we couldn't quite read.

We might add that the Farwell names were just about the biggest and brightest of all that appeared on that car.

\*\*\*\*\*

The boys had their first horseback ride, and mama had her first horseback ride for many years. We enjoyed the experience very much on Sunday, but not so much on Monday. After-effect, we suppose!

The little fantasy-land, North Pole, at the foot of Pike's Peak, was clever, and interesting. It was designed for the children, but the parents seemed to be enjoying the design and originality of the place as much as the little ones. Ducks, goats and reindeer wandered about for the kids to feed, there was the miniature horse and cart, a puppet show, and shops to buy most anything, of course. The buildings all looked like something from the pages of Mother Goose, and all personnel of the Santa Land were in costume.

There was Old Mother Hubbard and her dog, Little Red Riding Hood, Santa himself, Bambi, the Organ Grinder and his monkey and many others, and all the elves wore the jaunty fur-trimmed short overblouses with long, cotton stockings and pointed shoes, and Peter Pan hats.

Rev. Lance Hurst, pastor of the First Methodist Church of Walters, Okla., is reported to be seriously ill following a heart attack. Rev. Hurst is a former pastor of Hamlin Memorial Methodist Church here.

We Are Always Happy to be of Service to You

**Band Rehearsals To End Saturday**  
A week-long session of daily rehearsals will come to a close for the Farwell School marching band after Saturday's practice period.

Rehearsals have been held daily at the band room from 5 to 7 p.m. and Mrs. Erma Jobs, band director at the school, says that about 40 have been attending. The marching band will have about 45 members this year, she says.

Assisting the director with instructions this week is Claudio Larragoite of Eastern New Mexico University.

Among the things the band members have been working on during the week include entrances, exits and half time shows for football games.

The band will be marching with a "snapper" step this year, and Mrs. Jobs reports that the students seem to like the new marching style very much.

Mrs. Jobs also reports that the new band uniforms which were due to arrive here September 1 have been delayed and the company making the uniforms says that they will try to have the uniforms here by September 13. Cause of the delay was shortage of materials due to textile strikes.

**Howard Graham Receives Degree**  
Howard Graham of Pampa, son of Mrs. B. N. Graham of Farwell, received his MA degree in education at the summer commencement exercises at West Texas State on Friday evening of last week.

Howard's family members attending the commencement exercises were Mrs. B. N. Graham, Mr. and Mrs. William Thornton and family of Bovina, Mr. and Mrs. Raymond Ross and family of Morton, Mr. and Mrs. John Graham and family of Lubbock, and Mrs. Eugene Cox of Lamesa.

Mrs. Cox, who is a sister of Mrs. B. N. Graham, returned to her home on Sunday after having visited here for several days. The John Grahams returned to Farwell Friday night and spent the weekend with Mrs. Graham.

# «The High Plains Farm and Home»

## Don't Neglect Alfalfa As A Soil Building Crop

Alfalfa, the Plains favorite hay crop, is such a good producer of forage that it has about put itself out of the business as a soil building crop. And, the truth is, reports County Agent Joe Jones, alfalfa is one of the very best top soil builders that any farmer could incorporate into his farming.

"Alfalfa doesn't have to be farmed as a cash crop, and when it isn't, it doesn't take so much land preparation or water," points out the agricul-

tural official. "Too many farmers are looking for something miraculous to use as a soil builder or green manure crop, when the best crop available when properly handled is all around them."

Agent Jones is making his point at a time when farmers who are interested in improving their land are thinking about fall-seeded legumes as soil builders. The time for planning is at hand.

"Of course, we don't want to overlook the value of sweet clovers, vetch, soy beans, or other legumes, but it does seem that alfalfa is a natural if handled properly," points out Jones.

Two Farwell farmers are making good use of alfalfa as a straight soil improvement crop. They are Elmer Hargrove and Don Williams. Willie Williams, Don's father, reports that the men have had good success with their venture.

In one place, they have 70 acres in alfalfa, and it is in its second year. That is near West Camp south of Farwell in land that is moderately sandy.

The Farwell farmers planted their alfalfa in rows in order that water could be run down furrows just as in row crop practice.

Last year, no hay was taken from the field, but the seed was cut, and this year, the crop will be turned under and the land returned to cash cropping next year.

Williams believes, "There's not anything as good a soil builder as alfalfa. You can neglect it if you're in a tight, and

it'll go right on. It's easy to get a good stand of alfalfa in the fall."

The area farmers watered their crop twice last year, which is hardly comparable with the five or six waterings that farmers who raise alfalfa for hay usually worry with.

The county agent suggests that alfalfa can be seeded in maize stubble where the water furrow is still deep enough to guide the water. If the furrow has been worn down, new furrows can be opened and the stubble left to protect the small alfalfa from blowing while getting started. Seeding in dry soil and watering up works good for alfalfa, says Jones.

"Using alfalfa this way as a soil building crop, farmers can apply water at any time of the year they get to it. But be sure to keep in mind that we are talking of building soil and not growing hay. Normally we catch enough rainfall at some time during the year to grow one good crop of hay."

After maturity, the alfalfa grown for a land builder can be shredded and the residue returned to the land. A new crop will follow just as it does when hay is cut—provided moisture is available.

Jones also indicates that rough land can be built up in this way because lister furrows are being used to guide the water. Any land that can be watered in row crop can be watered in alfalfa this way.

Net value of Texas manufacturers rose from \$773,896 in 1949 to \$3,500,000,000 in 1955.

Of the 150 major U. S. Air Force bases, 27 are located in Texas.

Texas had 11 different capitols before settling on Austin in 1840.

This is what farmers usually think of when the word "alfalfa" is mentioned. It is true that irrigated alfalfa on the High Plains does quite well, and if the price of hay is good, it makes a good cash crop. However, there are other ways of making alfalfa pay, and one of them is to make use of its soil-building qualities without so much emphasis on making hay.

### THE PARMER FARMER

By LELAND BOYD AND W. H. GRAHAM JR.

A story last week of Doyle Cummings' pig parlor project reported what might well be called excellent profit from a hog enterprise. Not to say we told you so—but two times prior to last week's story this writer mentioned hogs as a good paying way to sell grain.

Perhaps we had better make clear that now could hardly be a good time to enter the hog feeding business. But it is a good project to keep around year after year. We have never talked with anyone who has bought hogs when the price was high and had to sell at a low price, who made money on the swine. The guy who makes money in the hog business is one who gets into the game and stays in it, not expecting to clean up in one year.

Since hog prices are high, we would not advise anyone that now is a fine time to enter hog raising. It would be a good time to have hogs to sell, though.

In driving about the Black community Sunday, we noticed that some rather thin clouds gave up more than they appeared worth. One spot about three miles northeast of Black must have received about .25 of an inch.

Charles Rector, who farms about three miles south of Friona, tells us that his place got about .34 Sunday. He tells us that the area there has received only a little more than an inch of rain since June 1, counting the shower that fell Sunday afternoon.

If your memory serves you correctly, and you remember farming during the depression, then you are an experienced farmer. Even if you lived on the farm then, we are sure you recall how the family made a

living with a small amount of cash.

We were talking to another fellow the other day about this subject. He says with belief that if there comes another depression like the one of the 30's more than half of the farmers will starve. There just isn't enough diversification, we were told, and we thought about this.

This seems pretty logical, since most farms do not even have chickens with which to produce an egg for breakfast. Most people used to have a cow, chickens, hogs, a horse, and some sheep. No matter how low wages got, and how high prices go, a family had practically all they wanted to eat.

One of the authors of this column had a chance to see some farming country very different from that of the irrigated Plains, last weekend. Included in his tours were the ranges and mountain meadows of the New Mexico and Colorado Rockies, and the Arkansas Valley project of eastern Colorado.

The big news in the mountains is wrapped up in one word: water. So far this year, they have had plenty of it—in fact, too much at times—but no one we talked with was complaining.

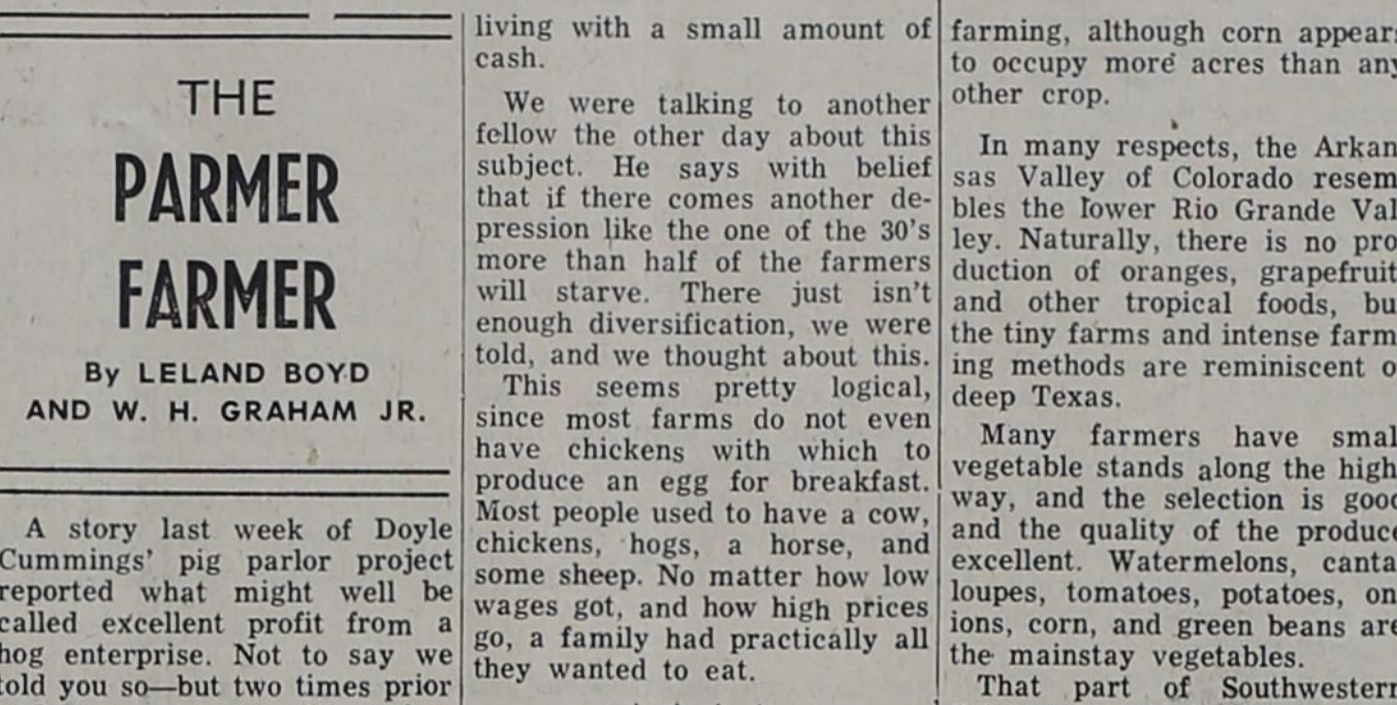

Ranges on the eastern slopes of the mountains are verdant green, and most of the stream beds have water in them . . . something that hasn't been true for the past few years.

Snowfall in the mountains was near record levels last winter, and the rains this summer have teamed up with a big snow runoff to make the ranching country look very prosperous.

Actually, the most interesting thing we saw was the Arkansas Valley. The river, as you know, rises near the continental divide in the mountains, and, swelled by countless rivulets, swells to a major stream by time it reaches the plain below.

The Arkansas cuts a deep canyon and is unusable for agricultural purposes until it moves out into the open east of Pueblo, where its vast resources are put to use by the ingenuity of man.

From Pueblo east to Lamar, about 120 miles, the valley floor is intensely farmed. Much of the land is given over to truck

to peer down past the side of the column pipe into the well. The water level appeared to be from 25 to 30 feet down, and the pump was producing heavily from this level with no effort. Although the water was doubtless fresh and suitable for human consumption, it was colored brown to some extent. It did not resemble the sparkling clear water of our deep wells at all. We did not spend much time in the valley, and do not know if they ever run short of water or not. All of the crops appeared to have plenty of water when we were there.

One thing that we noticed particularly was that there was very little water in the ditches along the road. The Colorado farmers make very efficient use of their water, even though they appear to have plenty. The biggest waste we noticed is that most of their ditches are lined with trees and big weeds—something typical of older ditch-irrigated regions.

**IT STUCK ANYWAY**  
HOUSTON, Tex. — Traffic judge Wallace P. Kelly asked George Willis whether he had a driver's license, after Willis was charged with driving without one. "Yes sir," Willis said. "Right here."

Taking the worn paper, Judge Kelly read, "This is to certify that the person herein named has passed all tests for nervousness and has been licensed to operate a motor vehicle. This license is subject to the provisions of the Motor Vehicle Act of 1927." Willis, who can't read, said he got his license in a barbershop. Judge Kelly fined him \$65.

Air mail service in Texas began May 12, 1926.

Texas ranks fifth in the nation in number of air passengers carried each year.

## Good Records Urged

Goals, plans and records help farm and home development families get more family living satisfactions than where no goals are established and no plans made. Records help in evaluating what was done last year and help in planning for the years, says Elsie P. Short, agent in farm and home development for the Texas Agricultural Extension Service.

The Otto Becks of Woodsboro in Refugio County say the biggest help in farm and home development is the planning done by the entire family.

Their decision-making is based on the farm record books. The long and short-time goals by which they measure results accomplished each year are a part of their record keeping. This system keeps a constant check on cost figure on each farm and home operation which becomes increasingly important because of the cost-price squeeze.

The home garden has made substantial contribution to the Beck family income. This past spring they planted 65 pounds of Irish cobbler seed potatoes and harvested 790 pounds of nice large potatoes which were stored for home use. Other garden grown produce was used either fresh or stored for later use.

One-third of the U. S. oil production since 1856 has been in Texas.

Texas' natural gas provides fuel for 35 states and two foreign countries.

First automobile was driven over Texas roads by Col. E. H. R. Green of Terrell in 1899.

**NEWS**

"The Place Where Most People Trade" Friona, Texas August 28, 1957

Danny and Sally Kendrick and their grandparents, the Joe Shieldses, of Amarillo, spent the week in Alamosa, New Mexico, with relatives. Sally was hoping to help her grandmother put up jars and jars of plum and crabapple jelly.

even tho he had his left arm in a cast. Trophy winners were Jones Construction team and the Hub team.

If your binder needs fixing up, now is the time to get started. For parts call us day or night.

Don't fail to poison that Johnson grass and bindweed. A little now will save your land from now on. We have the Sodium Chlorate and it costs little considering the value of your land.

Three new houses on the Loop will soon be ready for their new owners to occupy. They belong to the Bill Baxters, the T. A. Williamses, and the Raymond Fleminges.

Get any corn? Come by and let us show you our I. H. corn picker.

We watched the playoffs of the Little League baseball clubs Thursday night. The boys played their hearts out. Seems too bad that there must always be a loser. The boys may have lost the trophy but they never lose their enthusiasm and sportsmanship. The boys, their coaches and sponsors all did a wonderful job. We were especially proud to watch Teddie Renner who pitched the whole game and who did a swell job at the bat

these drills.

Miss Mary Margaret Sheehan had heard about the Asiatic fever but not very much. When the little neighbor boy was sick the other day she went over to sympathize with him and said, "I'm sure sorry you have the bjox flu."

The new Golden Rocket 88 Oldsmobile packs all the pleasure and satisfaction of owning a big car—big in size, big in performance, big in value. We will be glad to give you a demonstration ride in the new Golden Rocket 88.

Our Daddy decided the carnival shows were surely getting sorry and went on to tell of how much better they were when he was a boy. When he took our boys to visit the one that was in Friona last week and saw how excited they were and heard them exclaiming about the wonderful shows that come to our town and watched their eyes sparkle when they rode the Ferris wheel, he decided that maybe the shows were the same and he was getting older.

Our used cars are the best buys. Drop by and see these before you buy.

Chatter at our house: Are rain drops round when they hit the ground?—How old is an elephant? What makes jello jell?—Where do grasshoppers sleep?—Who makes lightning?—When will it snow?—Why does the wind blow?—When can I go to China?—I want somebody to play checkers with me.

Have you seen the new McCormick grain drills? They are built rugged for big acreage seeding — season after season. Let us show you one of

# Do You Figure Value of Water To Your Farm?

By W. H. GRAHAM JR.

You wouldn't be a typical American farmer if you occasionally didn't sit down and try to figure out the size of your farming investment—that is, just how much your operation is worth in dollars and cents.

There are many standards and formulas used in arriving at approximate values of farm property, and most of them go up and down with the ups and downs of agricultural prosperity in this region.

Generally, the trend has been upward in farm land values for many years, and the rise in land prices got its biggest jump four or five years ago when big-scale irrigation development set in.

Even though the "boom" is over and a leveling-off period has set in, Parmer County area land values held their own against those of other parts of the Southwest, and one of the main reasons is because of the tremendous underground water supply.

It has been an oddity that in the past few buyers (or sellers) of land on the irrigated Plains have taken the water bearing sands into consideration in making transactions, especially to the degree that a value in terms of acre-feet of water, or thickness in feet of the saturated material, is concerned.

That is, an irrigated farm in Lubbock County has nearly always been considered an "irrigated" farm permanently. There is, however, no assurance to the buyer that the irrigated farm he buys this year will be an irrigated farm 10 years from now.

Buyers who have noticed that

they paid too much for too little water have caused a trend in valuing land that takes into consideration the actual inventory of water beneath a given farm, and simply to say that "this quarter section irrigates nicely from an eight-inch well" is no longer enough.

While it is true that land prices in older irrigated areas to the south and east have held up quite well, the belief is that they have done this more because of large cotton allotment bases than because of their value as irrigated farms. A little water will go a long way on cotton, and farmers of the South Plains have proved that there's money to be made with four, three, and even two inch irrigation wells.

However, there's little selling and buying of land in that area today, and the migration of farmers from older areas that are "drying up" is rather pronounced, and hence, the amount of water in storage is becoming an increasingly important factor.

The drought, the development of irrigation, and the soil bank have upset the table values of regular "dirt" or dryland farms in this part of the Plains, but about as good a figure as any is \$50 an acre. At least, that's a round figure to use a pencil on, and it shows a reasonable increment over the \$10 an acre price that was originally paid for much of it.

Irrigated prices have been somewhat unstable, too, especially since acreage controls and declining farm prices have set in. And, often, a farm is sold at a per-acre price that includes, across the board, such improvements as houses, outbuildings,

irrigation wells, bench levelling, allotment bases, and what-not. In other words, the true value of all these "extras" is rolled into the per-acre price of the farm. That being the case, some area land could well sell for \$400 per acre—and some has. However, an average piece of fairly good farm land, with average improvements, costs about \$250 today.

So, if dryland farms are worth \$50 per acre, and irrigated farms are worth \$250 per acre, doesn't it stand to reason that the difference of \$200 an acre is due ALTOGETHER to the value of water beneath the farm?

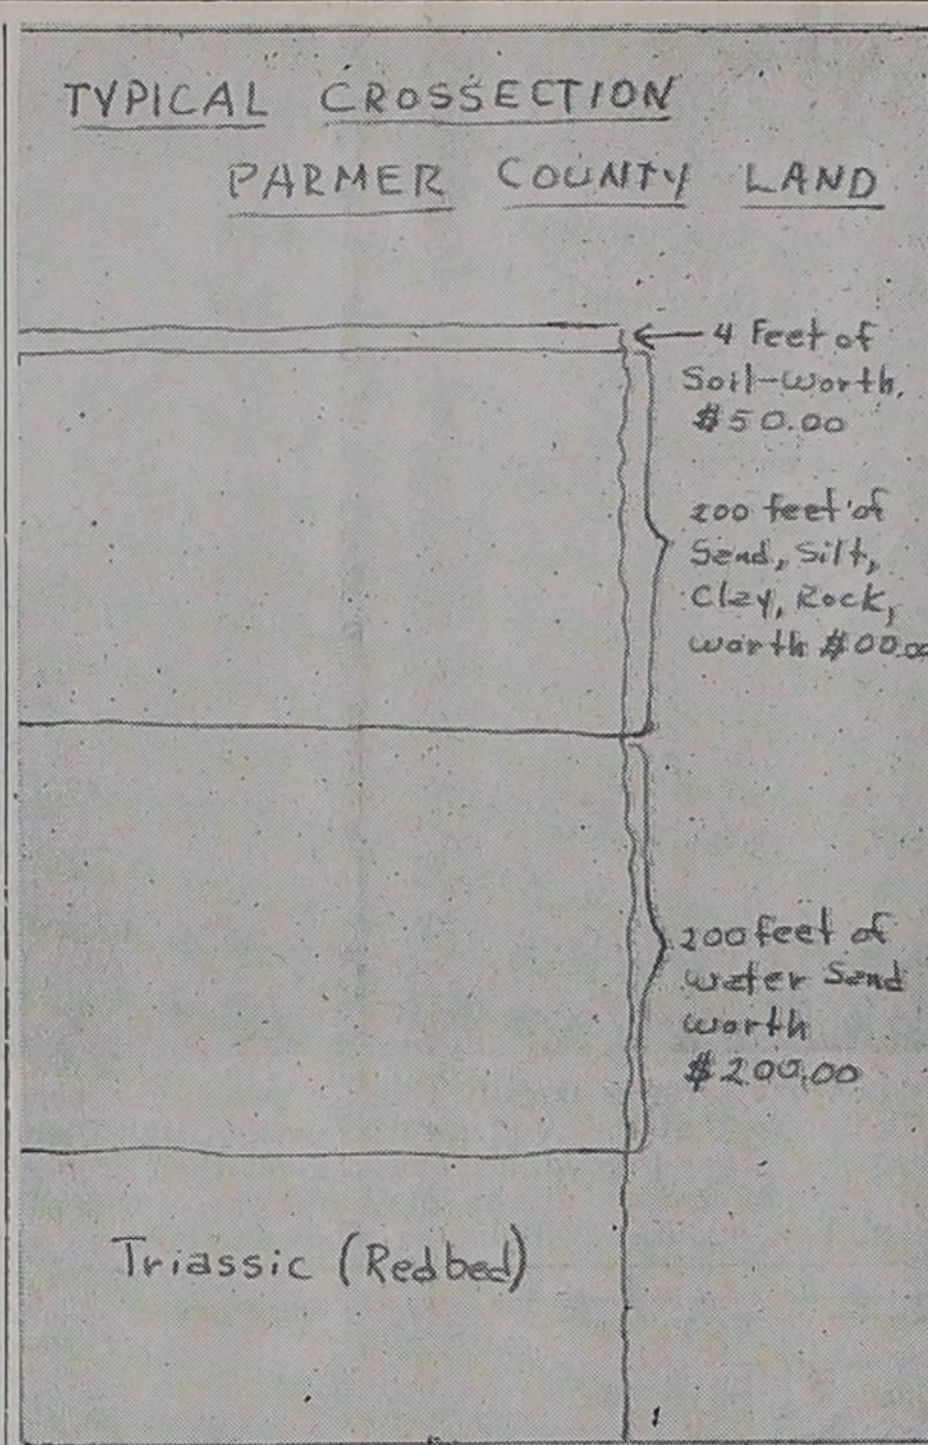

If you accept this reasoning, then the temptation to place a value on the acre feet or per-foot saturated area water-bearing sands is great. Well capacities are figured in terms of gallons per minute or acre-feet per hour, but the pulse of the irrigation well is found in the location of the static water table, and its movement up or down with respect to the bottom of the water-bearing formation.

The thickness of the Ogallala formation, which is Parmer County's only producing sand, varies from less than 50 feet in a small area in the northwest part of the county, to greater than 400 feet in the east-central section. Also, the depth to water varies from 103 feet near Lariat in the southern area to 287 feet near Pleasant Hill in the western area.

However, the county over, the average thickness is something on the order of 200 feet, and the typical depth to water is 200 feet, also. That being true, the hypothetical cross-section illustration has been prepared to accompany this article.

The first three or four feet of an area farmer's land is worth about \$50. That is the land that he does his farming on. From the bottom of his soil to the first water-bearing sand, his land is worth virtually nothing to him. It consists of caliche, clay, silt, sand, rocks, and other miscellaneous material. When the water-bearing portions of the Ogallala are reached, the landowner again finds something worthwhile.

If the water under his farm means an increase in the per-acre farm value of \$200, then

If you should slice the land of the Parmer County farming area into chunks, you'd get a cross-section something like this. The picture varies from place to place, but on an average, this is a pretty good idea of what the slice would look like. Figuring the average land price at \$250 per acre, it is easy to see that the greater part of that value is made up of the water that lies far below the plow. In this diagram, the soil is pictured as four feet in thickness, the water table 200 feet below, and the Ogallala or water bearing sands 200 feet in thickness.

perhaps it is not unreasonable to assign a per-foot valuation of \$10 to the water. In theory, then, at least, the value of the farm above would decline \$10 per acre with each foot of water removed by pumpage from the sand, or increase \$10 with each foot returned by artificial or natural means.

It is not suggested in this

article that such has ever been the case in an actual transaction of land, but it is suggested that perhaps both buyers and sellers could attach a little simple arithmetic to the amount of water in storage when making transactions.

Because, it is abundantly clear that the water available for irrigation in this semi-arid region holds the key to land values, and were it not for the availability of irrigation water, the entire system of present land-pricing methods would collapse.

Marco Polo was first to call Japan the Land of the Rising Sun.

Java is one of the most densely populated countries in the world.

All the great rivers of Central Europe originate in the Alps.

Future Foods May Be Forever Fresh

Foods that will keep their flavor indefinitely — without being refrigerated is the promise of a new "freeze drying" process developed by the Raytheon Manufacturing Company. Meats, fish, fruits and vegetables are dehydrated by micro-wave energy in a below freezing vacuum. The food can be restored to its original fresh condition in a matter of minutes (with no loss of texture, flavor or nutrient value) simply by immersing in water. "Freeze dried" foods can be shipped without costly refrigeration and stored on grocer's shelves at room temperature. Uncooked green peas keep their shape but become as light as miniature pingpong balls. Freeze dried chicken breasts look like balsa wood. And for the gourmet, some interesting possibilities are offered—chicken or fish can be made to soak up several times their weight of wine and other flavorsome liquids.

Fall Fashion News

Here is some fall fashion news as reported at the American Home Economics Association recent meeting in St. Louis. Popular silhouettes this fall will include straight, full and pleated skirts. The sheath will have only a draw string to mark the waist. Dark cottons will be popular in early fall. Other materials will include dress crepes, chiffon-weight wools, printed jerseys and patterned woven jerseys, tweeds, soft flannels and rayons. Many patterns will be borrowed from men's wear. Striped suiting, scotch plaids, argyle geometrics and regimental stripes will be popular. One color to be seen a lot will be bright blue. Hairstyles and hats will have a shaped-to-the-head look and berets will be popular again. Shoes with pointed toe and pencil-thin heel will be top fashion.

Cleaning Mineral Deposits From Steam Iron

There is a good chance that your iron is collecting a mineral deposit unless you are using softened or distilled water, according to extension home management specialists. Combat this deposit in the water cavity and the steam vents by using distilled vinegar occasionally.

Simply fill the cavity with vinegar, steam for 15 minutes, and then let iron stand overnight. In the morning, pour the vinegar out of the cavity and rinse thoroughly. This rinsing is important and should be very completely done, since vinegar steam on your freshly-laundered clothes is most undesirable.

## Miss Rea Wins

Miss Virginia Rea of the Bovina Girls 4-H Club was named first place winner of the annual bake show of the Parmer County 4-H Club girls held at the courthouse in Farwell on Wednesday, August 21.

Each girl entered a plain but-

ter cake and six refrigerator rolls in the contest.

Judges for the show were Mrs. W. M. Turner and Mrs. Edd Hardage, members of the Oklahoma Lane Home Demonstration Club.

Miss Rea placed first on the overall high score on both entries, first place on cakes and second place on rolls.

Other winners named in the overall scoring included second place, Judy Billingsley, Farwell Club; third place, Lexie Stevenson, Bovina Club; and fourth, Barbara Rea, Bovina Club.

First place winner on rolls was Barbara Rea and second place winner on cakes was Judy Billingsley.

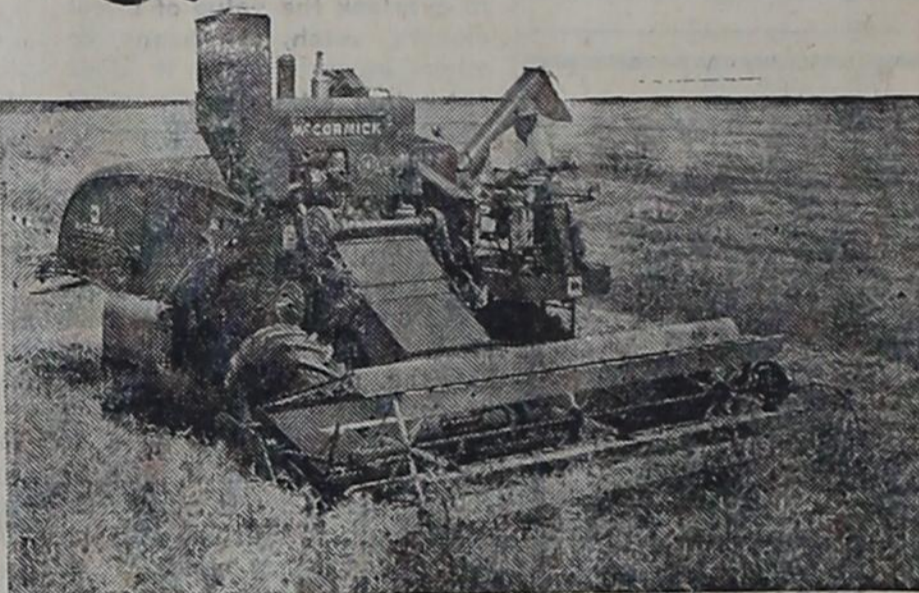

Virginia, as county winner, will enter a cake and rolls in the "Better Baking Contest" for the title of "Wheat Queen" at the Tri-State Fair in Amarillo next month.

# Rain Hoped For Seeding

On the brink of wheat-seeding time, Farmer County area farmers—most of them, anyway—are hoping for some more rain to finish off the growing season.

General showers of two weeks ago have not been sufficient to provide ample planting moisture, though they did help at the time. With about one-half of Farmer County's 100,000-acres-plus wheat headed for irrigation farming this year, moisture right at the moment of planting time is not imperative. However, the dryland farmer would like to have some.

Irrigation farmers finishing out their maize wouldn't complain of a rain, either, although

the time of making grain with timely moisture is past.

Cotton farmers are so-so about rain prospects. From now on, they can be either hurt or helped—depending on how the fall weather turns out—by additional moisture.

Early feed is making the "turn" and ripening fast. The first grain sorghum was received at the elevators of Farmer County August 27 of last year. From the start, however, it has been apparent that the 1957 crop is considerably later than last year, and on an average, is thought to be from 10 days to two weeks behind time. The first cotton was harvested

and baled on September 3 last year, to set a new record.

Ragged fields, such as the one appearing above, near Bovina, are disturbing farmers who plant seed that is supposed to be uniform, and has given some rise to controversy between farmers and seed producers. The plants sky-lighted above the bulk of the crop are known as "true tall" by seed men. Farmers complain of such fields, but seed growers maintain that purity standards as high as 99 percent do not eliminate such conditions in this area, where heavy planting rates and intense farming has become the rule. Generally speaking, area farmers believe the seed laws are not strict enough, and seed producers believe they are too strict already.

## SCD Plans Feed

Supervisors of Farmer County Soil Conservation District met with businessmen and civic leaders of Bovina Monday afternoon in Bovina Restaurant to discuss the annual soil conservation district banquet. It will be in Bovina School cafeteria Thursday night, September 5.

A. L. Black, SCD chairman, told the group of the plans which had been made in connection with the banquet and discussed ticket sales.

"Farmers who attend will have an opportunity to get better acquainted with what the Soil Conservation District offers them if they attend the banquet," Black said.

Banquet speaker will be Austin Meredith, secretary of Canadian River Authority.

Also, a plaque will be presented to the outstanding farmer in the county for the year.

SCD officials present other than Black were Floyd Crume, work unit conservationist; Steve Messenger, secretary; Joe Blair, supervisor; George Crain, supervisor; and Carl Schlenker, supervisor.

Others in attendance were J. W. Wright, George Trimble, Bob Johnston, R. M. Crawford, Bud Crump, Troy Fuller, and Dolph Moten.

### WATCH WESTINGHOUSE WHERE BIG THINGS ARE HAPPENING FOR YOU!

### THE HAPPY HOMEMAKER

BY JUNE FLOYD

Is ironing one of the most unpleasant tasks you have to do? If so, you are a typical homemaker. According to a survey made recently in the central section of the United States, the typical homemaker listed ironing as her most disagreeable chore.

A lot of the work of ironing has been eliminated recently with ironers, new ironing tables, steam irons, and other time and energy saving gadgets. In the near future we will be able to purchase a steam iron with an attachment which completely does away with sprinkling clothes.

The water tank on the iron is

filled with lukewarm water, then you are able to spray a fine mist over the garment as it is being ironed and the wrinkles and creases iron out easily. It is not even necessary to sprinkle starched garments when you use one of these new irons.

Manufacturers of material have done much in recent years to reduce the amount of ironing homemakers have to do. When buying any garment, be sure to check the label to determine whether or not the material has been specially treated so that it will resist wrinkles.

If you plan on planting a fall garden, now is the time to be getting started. Turnips that are planted the latter part of August will be making greens in about five weeks and turnips a little later. The secret of growing good turnips is supposed to be the selection of sandy soil and the application of water frequently.

Mustard, spinach, radishes, lettuce, and other kinds of greens can be planted now and will be ready for the table before frost. Early fall is also a good time to start strawberry beds and some varieties of roses and other flowers.

Here's a new remedy for a stubborn zipper. That is, it is new to us. When a zipper sticks, just rub a pencil lead gently over it. The graphite that is in the lead is supposed to make the zipper "zip" satisfactorily.

The Tri-State Fair at Amarillo begins this year on September 16, so if any of our homemakers plan to enter baked foods, canned foods, or needlework, it isn't too early to be making plans to have your exhibit ready. Do hope some of our readers plan to exhibit some crochet work. If you win at the Amarillo fair, you will be eligible for competition in the national contest.

For a tasty addition to any noon or evening meal this winter, try this recipe for mixed pickles.

- Ingredients:
- 3 quarts green tomatoes
  - 1½ quarts ripe tomatoes
  - 3 large onions
  - 3 red bell peppers
  - 3 green bell peppers
  - 2 cups celery
  - 1 head cabbage
  - 1 cucumber
  - ¼ cup salt
  - 3 pints vinegar
  - 2 lbs. brown sugar
  - 1 teaspoon black pepper
  - 1 teaspoon prepared mustard
- Chop all vegetables. Sprinkle

### Servis "Gyro-57" STALK SHREDDER

It's smart farming to enrich your soil by cutting green stalks into small pieces and turning them under early. The sturdy Servis "Gyro-57" makes full 57" horizontal cut; patented multiple stationary and rotating blades make complete cut each 2" of travel at 4 mph. With disc harrow behind, stalks can be cut and turned under in one operation. Heavy brush cut up to 3" diameter. Attachment for shredding available as optional equipment. Foolproof against stump damage.

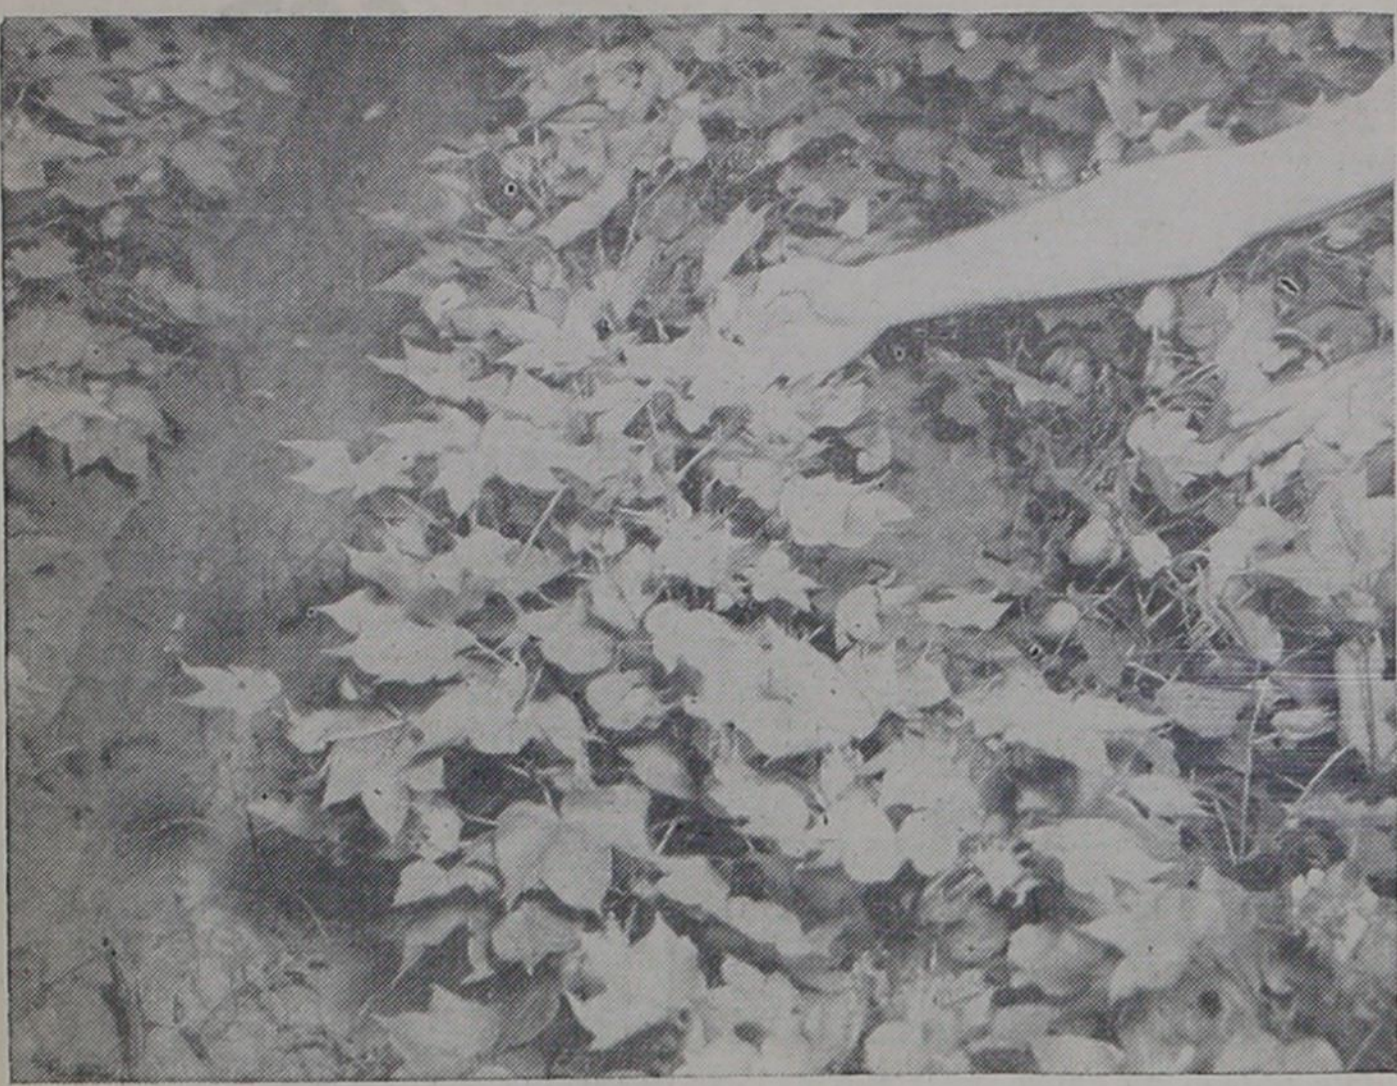

cuts tough stalks for turning under . . . all in one operation!

### HARTWELL MACHINERY CO.

Bovina, Texas

"Authorized Servis Shredder Dealer"

This double row cotton is being tried out on the Elmer Oldham farm about three miles southeast of Friona. It is some of the first to be tried in the county, and is promising to return some good experience, if not profit for its owners. Notice how thickly spaced the stalks are, even though planted double row.

## Elmer Oldham Tries Double Row Cotton

A vegetable planter was given a new use this year at the Elmer Oldham farm about three miles southeast of Friona. Instead of planting vegetables, different hoppers and plates were installed on a vegetable planter and cotton was planted in double rows on a 40-inch wide bed.

There has been a small acreage of feed planted and grown in double rows in the Parmer County area, but this is among the first cotton to get a try. From appearances and early estimates, the double row cotton will be satisfactory and perhaps produce enough more than single row cotton to justify more cotton being planted in this manner.

Two and a half bales per acre is the estimate for production on the double row field, and stands a chance to do even better than that. There are 34 acres planted double row.

A little difficulty was experienced with weed control during the early season rains, but after the cotton grew enough to shade the ground, weeds have given little trouble.

As the cotton appears now, it is not as tall as single row cotton, and not quite as lush. But little if any shredding of fruit is noticed.

After planting, the cotton was fertilized with anhydrous ammonia and ammonium phosphate. A special cultivator is used, with a small plow going between the row during first cultivation.

Oldham says he is well pleased with the experiment, and if plans do not change will plant double row cotton again next year.

He does plan to plant on a lower bed the next time, because there was a little difficulty experienced in getting dirt thrown to the cotton to cover weeds.

How successful the double row cotton is in producing more than cotton planted in single rows remains to be proven by yield after the harvest, but it is speculated that production obtained will make other farmers take notice. An extra good yield, more than three bales per acre, was reported from an experiment with the double row planting near Hereford last year.

Each row has about the same number of stalks as it would have for single row, and the extra plants keep the size of stalks small. Each plant needs to carry only a few bolls to bring the yield over single row cotton.

If the experiment is successful, this method of planting cotton will point out one way to overcome the handicap of limited acreage. Hopes are that about a third more production can be obtained from planting in double rows.

## "Let's Go Fishing" Is Good Advice For Cotton Men

There's no better time than right now for the High Plains irrigated cotton grower to pack his camping equipment and head for the hills to enjoy a week or two of fishing.

Odd advice to be appearing in a farm and home publication? Why, not at all!

The idea is this: Evidence has mounted through years of research that High Plains cotton growers are gambling against better profits by watering their crops later than right now.

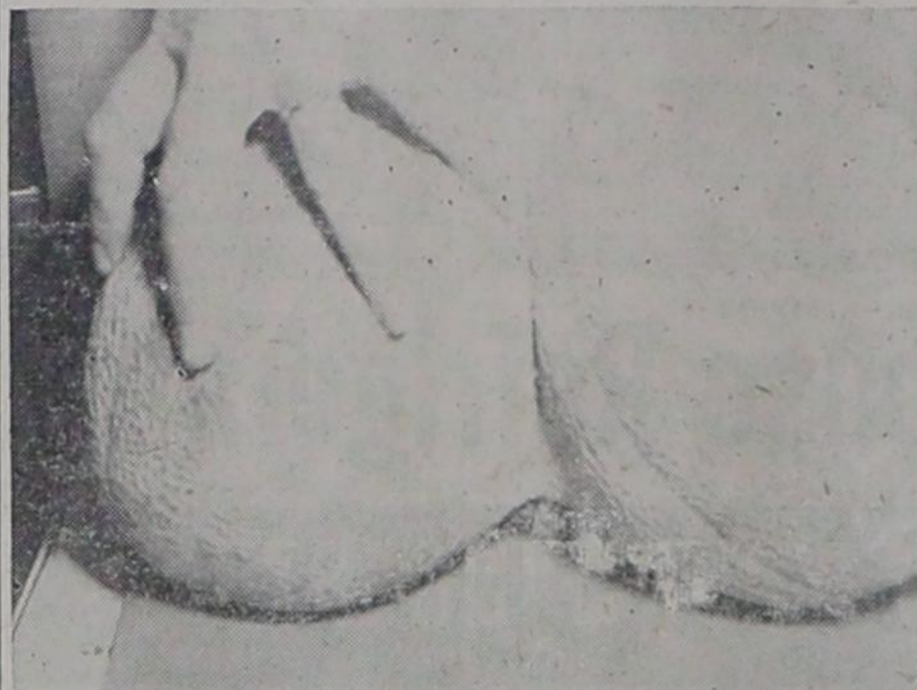

Year in and year out, wet weather, cool weather, or an early freeze will cut them short of the profits they hope to make by irrigating their cotton this late in the year.

Water applied now will only lengthen maturity, make the plant tall and sappy, and help put on fruit that is doomed to be nipped in the bud by that first freeze of the year.

In addition, if the fiber does not mature as it normally would, not only the lint yield is reduced, but the quality of the product is substantially lowered, also.

So, although some farmers have watered in September and gotten away with it, the practice is usually regarded as about like crime—it just doesn't pay over the long haul.

Cotton farmers find it really hard to stand idly by and watch their crops wilt under the hot late summer sun, so perhaps the best advice is to go fishing.

SIAMESE CANTALOUPE??? Could be. Harvey Blackstone, who grew this odd-looking cantaloupe in his garden in the Black community, couldn't offer any explanation for the strange looking formation. Each part of the cantaloupe was attached to a regular stem which ran into a single branch from the vine. The Blackstones noticed the peculiar looking cantaloupe some time ago but left it on the vine until it ripened. Each side had seeds and looked like any ordinary cantaloupe.

Laws setting up Texas' public school system were signed Jan. 32, 1854.

Amber is used chiefly for making the mouthpieces for pipes.

SOIL CONSERVATION DISTRICT NEWS

Now is the time to make preparation to plant wheat. Some farmers have already begun their land preparation.

When fertilizing wheat it is usually better to fertilize before planting. This enables the nitrogen to speed up the decomposition of old stubble and thus release plant foods much quicker than otherwise.

Speaking of fertilizing, it won't be long before grain sorghum will be harvested and land preparation will begin again and many of you will want to fertilize for next year's crop. To increase your organic matter, increase your intake rate on the tighter soils and decrease your evaporation of soil moisture next growing season, shred your stalks and fertilize as soon as you can after you have cut sorghum. This will hold true with your corn stubble.

Chances are you will have more of it to decompose of than you will with grain sorghum. In getting this done early, you will have but very little residue left to bother you next spring at planting time.

Many farmers have indicated to us they intend to put in concrete pipe this fall. We have already exceeded last year's amount of pipe that was installed and with what is expected to go in this fall we will probably double last year's application.

If you are contemplating a pipe installation and are not sure where you want to put it, contact one of the SCS technicians and they will be glad to assist you in making this determination.

Filling small lakes in the middle of fields is on the increase. Farmers are finding by filling these they are able to improve

Simple Electrical Device May Tell Farmers To Irrigate

Farmers may someday tell when their crops need irrigating by using a simple electrical device tested recently by the U. S. Department of Agriculture. It measures moisture stress—an indicator of a plant's moisture needs.

For a rapid reading of a plant's water requirements, two small prongs of the device are stuck into the stem of the plant. The prongs are two stainless steel electrodes connected to an ohmmeter which measures the electrical resistance in the plant. The lumber industry uses a similar instrument to measure moisture in wood.

In experiments with cotton plants, the researchers found that electrical resistance went down as moisture amount went up. Within four hours after irrigation, a sharp drop in resistance was observed on the ohmmeter.

The experimenters believe that the increase in electrical resistance with increasing moisture stress is the result of the drying out of the solid framework, or cell walls, of the plant. This creates in the woody tissues of the plant either longer conducting paths between electrodes, or increases gaps in conducting paths—readily indicated by the ohmmeter.

The method has promise as a tool to help the average farmer determine when to irrigate, according to scientists of USDA's Agricultural Research Service

their irrigation at a nominal cost to them. The SCS technicians can assist you in figuring the cuts and fills on the amount of dirt to be moved.

who are making the studies. They point out that research is continuing, aimed at making the method easy to use by any farmer who irrigates.

OKLA. LANE—

(Continued from Page 5)

Mr. and Mrs. J. R. Crosby and Dale of Henderson visited Sunday in the home of Mr. and Mrs. Bernard Nelson.

Mr. and Mrs. Sterling Donaldson and family spent Saturday night and Sunday in Tulsa visiting with Mrs. Donaldson's parents and other relatives.

Mrs. Gertrude Wingo, sister of Miss Vashti Fowler, who is making her home with Miss Fowler for the present, was on the sick list for a while last week, but she is reported to be improved now.

Mr. and Mrs. Clifford McGuire and family of Redland, Calif., arrived here Friday to visit with their parents, Mr. and Mrs. E. W. McGuire and Mr. and Mrs. Herman Henson, and other relatives.

Mrs. Hugh Tucker and Barbara of Plainview spent Wednesday and Thursday visiting in the home of Mr. and Mrs. Frank Edwards.

Miss Barbara Garner of Lubbock spent the weekend in the home of her parents, Mr. and Mrs. Howard Garner.

Mr. and Mrs. Lacy Hardage and Billy enjoyed a recent vacation tour of several states, including Nebraska, North and South Dakota, Missouri and Kansas.

Mr. and Mrs. Euel Hall, Mr. and Mrs. George Crain, and Mr. and Mrs. Calvin Clark and Jan attended church at Morton Sunday night and visited afterwards with the Denton Thompson family.

Attend Boat Races

Mr. and Mrs. E. J. Hall, Mr. and Mrs. Bob Kimbrough, Mr. and Mrs. Don Sanders and Mr. and Mrs. Claude Sanders attended the boat races at the Imperial Reservoir over the weekend. Bob entered his boat and won two first place awards. The Hall boat was on the "sick list" and was unable to compete.

Mr. and Mrs. Joe Carpenter and children, Mark, Cecile, Gary and Joselyn, from Graham, spent the weekend in the home of his brother and family, the Howard W. Carpenters.

Jane Ann and Lewie Bradshaw from Farwell spent the weekend with their grandparents, Mr. and Mrs. Rufus Carter. Their parents, Mr. and Mrs. L. W. Bradshaw, accompanied by Mr. and Mrs. Edd Hardage, visited here Sunday afternoon and returned the youngsters home.

Mr. and Mrs. O. M. Jennings spent the first part of the week in Friona with their son and family, Mr. and Mrs. E. T. Jennings. The latter part of the week they visited in Hereford with their daughter and family, Mr. and Mrs. Cecil Malone.

Mr. and Mrs. Wyle Bullock and Debra, and Donna Precure vacationed at Ruidoso last week.

Have Wiener Roast

Mr. and Mrs. Joe Bates Jennings and family entertained Friday evening with a wiener roast and homemade ice cream. Attending were Mr. and Mrs. Alton Page and family, Mr. and Mrs. O. N. Jennings and Mr. and Mrs. J. A. Nichols and girls, all from Muleshoe; Mr. and Mrs. Lanis Hughes of Jacksboro, Mr. and Mrs. Geoffrey Gustin and family of Lake Charles, La., Mr. and Mrs. Eldon Page, Mr. and Mrs. C. D. Gustin and Ronnie, and Mr. and Mrs. Leland Gustin.

Visitors last Friday in the Joe Paul home were Mr. and Mrs. Earl Worm from Southland and Mr. and Mrs. Edward Worm from Portales.

Sunday guests in the Wyle Bullock home were his mother Mrs. G. K. Bullock Sr., from Petersburg, and Mr. and Mrs. Joe Neal Bullock from Idalou, Mr. and Mrs. G. K. Bullock Jr.

from Lubbock were guests Monday night.

Wednesday evening supper guests in the Willie Steinbock home were Mr. and Mrs. LaVern Pyritz and Linda of Enid, Okla., and Mr. and Mrs. R. G. Treider Sr.

Mr. and Mrs. Raymond McGehee spent the weekend in Lubbock visiting his parents.

Mr. and Mrs. E. T. Ford and children, Trevor and Christy Ann, spent last week on a vacation trip to Vallecito, Colo., and other points of interest in Colorado and New Mexico.

Mr. and Mrs. Vernon E. Mason from Wichita, Kan., spent the weekend visiting his sister and parents, Mr. and Mrs. L. B. Hambright and Mr. and Mrs. E. E. Mason.

Mr. and Mrs. V. H. Bewley left this week for an extended trip to visit a son in Montana.

Darlings Home From Vacation

Mr. and Mrs. Duane Darling, Janice, Terry and Evelyn, vacationed last week in Colorado Springs. They also visited Pike's Peak, Yellowstone National Park and several other points of interest. They also went to Albany, Ore., to visit her sister, but learned that her sister was away on vacation at that time. The Darlings returned home Friday after receiving word of the death of his brother Donald Darling of Portales.

Mr. and Mrs. Lloyd Vaughan and boys, Eugene and Kent, vacationed recently in Ruidoso for several days.

Are Guests In Eubanks Home

Guests in the J. T. Eubanks home over the weekend were her three sisters, Mrs. J. H. Lewis from Snyder, Mrs. N. T. Ford of Stillwater, and Mrs. A. B. Weeks from Tulsa, and a niece, Mrs. J. C. Ford and children, Becky and Joe, from Sweetwater.

Other guests joining the group on Sunday were Mr. and Mrs. Oscar Weeks and children, Gary and Victor, from Silverton, Mr. and Mrs. Sig Kimbrough, Mr. and Mrs. Finis Kimbrough and Mrs. Ed Nichols and children, Nicky and Patti, all from Muleshoe. They spent the weekend visiting friends in Taos, N. M.

Mr. and Mrs. C. C. Matthews are visiting in Sherman and Dennison with relatives and doing some fishing at Lake Texoma.

### HOPPERS—

(Continued from Page 1)

where the driver can see nothing but the hood of his car and the clouds and blue sky on the right hand side, and it makes the drive something of an adventure.

Colorado is a great place to run around on your vacation, but when you make the trip we suggest that you (1) Make sure you have enough time, and (2) make sure you have enough money.

We were delighted to come home from our trip and see First Street being paved.

Just getting rid of that tank-trap near the corner of Avenue G will be worth half the price of the paving.

The businesspeople of Texico have always suffered from a curious disadvantage. They must pay the New Mexico two percent sales tax, which, although technically "paid" by the consumer, always seems to amount to simply raising the cost of doing business by two percent.

Although there are other reasons why Texico has nev-

er had much retail development, this is a major stumbling block for those who at one time or another consider a location there.

Since Texico retail sales there are likely considerably lower than they would be except for this disadvantage, and the physical development along Main Street is probably much less than it ought to be, would the following be possible?

Idea: Bargain with the state to remove the two percent tax for a "probation" period, with the argument that there isn't much collected now anyhow, and that, after a five-year period, the state again make an inspection to see what conditions are.

The idea would be that removing the tax would spur business incentive, and this would cause development and give an appreciable rise to real and personal business property from which the state receives additional ad valorem taxes.

Then, if these other taxes don't take up the slack the sales tax was paying, restore the two percent assessment. Does this sound reasonable?

### Texico Boy Scouts Have Camping Trip

Eight members of the Texico Boy Scout troop participated in an overnight trip to Pleasure Lake Saturday, August 24. The troop was accompanied by Jerry Stallings, Scoutmaster; and C. H. Webb, assistant Scoutmaster.

The camp-out was a portion of work required to be done by boys working on their merit badges. Among the activities participated in by the boys while camping were swimming lessons, a swimming meet, swimming tests, boating, campfire cooking and playing games.

The boys prepared their own meals and no canned goods were allowed. Two boys shared a campfire and helped each other prepare individual meals.

In the swimming contest, Kenneth Murdick was first place winner and Vernon Thigpen was second. Other Scouts passing swimming tests were Donald Caillouet, Bill Roth, Bobby Hapke, and Hap Danforth.

Another camp-out has been planned for Saturday, September 14, and it also will be held at Pleasure Lake.

Boys making the trip the past weekend were Donald Caillouet, Kenneth Murdick, Bill Roth, Bobby Hapke, Hap Danforth, Vernon Thigpen, James Hudson, and Robert Tomlinson.

Scoutmaster Stallings wishes to express appreciation of the troop to Fred Danforth for furnishing transportation to the lake, and to Dick Doshier, lake owner, for his help in making their camping trip successful.

Stallings also reminds all boys that they are welcome to join the Scouts at any meeting.

### CARD OF THANKS

We deeply appreciate the visits made to us and to our beloved mother during her illness and death. The flowers and food brought by our good Christian friends were sincerely appreciated. May God always be with each of you.

**McMULLEN COUNTY:** Open season by State law Nov. 1 to Dec. 15; by Federal Law Oct. 1 to Nov. 17.

Johannes Brahms made his first public appearance as a pianist at the age of 14.

**SWPS Workers Set New Safety Record**

Plains division employees of the Southwestern Public Service Company, which includes Bovina and Farwell, have worked 2,000,000 man-hours without a lost-time accident, it has been reported by Otis Huggins, the company's manager at Farwell.

There has not been a lost-time injury in the division since January, 1953, and this is the first time that one of the company's divisions has reached the 2,000,000 man-hour mark, although several of them have accumulated 1,000,000 accident-free man-hours on more than one occasion.

"Safety is no accident, it is the result of constant cooperation and teamwork among all members of our organization. You and all of your fellow-workers have made our service to our customers better by performing your work safely and efficiently," J. M. Collins, division manager for the company, told Huggins in congratulating the local Public Service people for their part in the new safety record.
