

REGISTER SEPT. 12.

Washington, Aug. 31.—President Wilson today set Sept. 12 as the day upon which 13,000,000 Americans shall register for America's greatest draft. Those summoned to appear for service include all males between the ages of 18 and 45 inclusive, who have not previously registered.

Out of this great reservoir, it is estimated over 2,800,000 men will be available for Class 1—the first to be called to arms. Some of these will be called, as early as Oct. 1, as draft officials estimate that the present Class 1 will be depleted then.

IMPORTANT.

Notice to all male citizens of Parmer County subject to registration under recent legislation are required to present themselves for registration on Thursday, the twelfth of September, 1918, before the following named registrars of Parmer Co.: T. J. Crawford, Friona, Texas. J. P. McDonald, Bovina, Texas. M. Dixon, Farwell, Texas. Joe Paul, Star Ranch.

LOCAL BOARD

There is a list of 20 questions to be answered by the registrants. These questions are posted in the Texico P. O. and you are asked to make yourself familiar with these before registering.

Discard Hun Music Books.

San Francisco.—Because several songs in the music books used in California public schools savored of German origin, with perhaps a trace of the well-known German propaganda in them, the state board of education has decreed that the books must go into the discard. A new series has been prepared for the pupils, which, it is announced is "free from all German taint."

Mr. and Mrs. B. S. Triplett and their little son, Baylor, returned from their trip to the east this past week.

Honor's Roll.

We have talked so much about our "sons" going to war and fighting our battles that we have gotten the notion that they're all young fellows. But they're not. Some are fathers. And at least one is a grandfather. This soldier with grand-children is James A. House of Clinton, Montana.

Soldier House enlisted, for being a grandfather he was too old to receive a selective service call. His son put on a khaki uniform and marched away. That made House rather lonesome. He, too, wanted to get into the fight. What his son could do, he could do. And being possessed of the youth (young for a grandfather) and physical qualifications that make a man eligible for a place in Uncle Sam's army, he was readily accepted for the engineer's replacement company.

A mighty proud man was Grandfather House when he made the rounds kissing his dozen grandchildren goodbye. He has the right to be proud. If there are any other grandfathers in khaki, we'd like to get their names.

This is a great country when even the grandfathers are on the anxious seat to get into the big scrap.

Aviators Drop Roses On Train With Officers' Body.

The body of Lieutenant Charles Hyde, who was killed when his airplane went into a tail spin near Richardson Wednesday, was placed aboard the Katy Texas Special train at 4:30 o'clock yesterday afternoon and sent to Norfolk, Neb., his home.

The squadron of student officers who had been associated with Lieutenant Hyde for some time at Love Field accompanied the body to the train. They were headed by the Love Field Band, playing the funeral march.

As a tribute to their comrade, eight airplanes from Love Field flew over the train as it left Dallas and dropped roses. The planes circled about the train until it had reached a point nearly fifty miles north of the city.

Lieutenant Cecil Baker was detailed to accompany the body to Norfolk. Lieutenant Hyde's parents, Mr. and Mrs. Charles Hyde, live in Norfolk, Nebr.

THE GOLDEN SIDE.

There is many a rest in the road of life,
If we could only stop to take it,
And many a tone from the better land,
If the querulous heart would wake it.
To the sunny soul that is full of hope,
And whose beautiful trust ne'er faileth,
The grass is green and the flowers are bright,
Though the wintry storm prevaileth.

Better to hope, though the clouds hang low,
And to keep the eyes still lifted;
For the sweet blue sky will soon peep through,
When the ominous clouds are rifted.
There was never a night without a day,
Nor an evening without a morning,
And the darkest hour, as the proverb goes,
Is the hour before the dawning.

There is many a gem in the path of life
Which we pass in our idle pleasure
That is richer far than the jeweled crown
Or the miser's hoarded treasure;
It may be the love of a little child,
Or a mother's prayer to Heaven;
Or only a beggar's grateful thanks
For a cup of water given.

Better to weave in the web of life
A bright and golden filling,
And to do God's will with a ready heart
And hearts that are swift and willing,
Than to snap the delicate, tender threads
Of our curious lives asunder,
And then blame Heaven for the tangled ends,
And sit and grieve and wonder.

Here's Service Flag For "Her." Fourth And Fifth Texas Guard Regiments Get Recognition.

"What kind of a service flag can I put out for my daughter? She is in the Red Cross overseas?"

This question has been asked so often of me that I have almost come to think that there are as many girls doing their bit over there as there are boys.

If you have a girl overseas in any war service you have the right to wear a pin or ring with a blue band around the white center on which is blazoned a red star. The same service flag can be displayed in the window. Corporations and other places of business may display the red star for women who have left their employ for overseas war service.

If you have a daughter nursing in cantonments this flag can also be displayed.

A daughter and a son can have one service pin or flag with both a red and blue stripe around the edge and one red star and one blue star on the white center.

Daughters, sisters, fiances and wives are entitled to wear service pins and display service flags, as well as fathers and brothers.

If the direful news comes that one's loved one will never return then a black band on the sleeve with a gold star on it will proclaim the great sacrifice.

It has been asked by the National Council of Defense that those who lose relatives in the defense of our country do not wear mourning, but we must pay all honor to those who die in freedom's cause. The black band with its gold star or stars will mean pride as well as sorrow, for not to all of us will be given the great privilege of giving our best for our country.

By One American Unit.

With the American Army in France—the record of an American air unit, comprising seventy-five pilots, shows that during July it shot down twenty-eight enemy airplanes and one balloon. Eighteen other planes are claimed to have been brought down, but these are not confirmed. The American airmen engaged in 144 combats and went on 181 combat patrols.

The unit's best days were July 16, when six enemy machines and one balloon were destroyed, and July 24, when five airplanes were destroyed without an American casualty.

Texico School Opened.

Texico school opened this year on Monday, September 2, with an enrollment of 37 for the High School and 114 in the grades, promising one of the greatest years of its history.

The exercises Monday were on the order of a Labor Day Celebration, and were well attended by the patrons, who were very much impressed by the special features offered by the program rendered.

Mrs. Overstreet opened the exercises by playing "America," and all joined in the singing.

Speeches were made by Rev. L. L. Thurston and J. F. Nix, C. A. Roberson and others.

Prof. Kays made a very interesting and instructive talk along educational lines. He seems to be working his way into the hearts of his pupils.

To Hell With The Fatherland.

With the British Armies in France.—Reports of Germans refusing to fight continue to be secured. Reliable German information says:

"On Aug. 28 it was learned that the Fifth Company of the Twenty-Second Reserve Infantry Regiment refused to go forward to relieve the Fourth Company, which had suffered heavy losses, as it had only gone out of line itself four days previously.

"The men refused for two hours, during which the commander threatened to send them forward under escort. In the end the men were persuaded after a heated argument about their duty to the Fatherland, to which some of the men openly retorted: "To hell with the Fatherland." Terrific losses continue to be inflicted on the Germans. The Germans on a large section of the front to the east of Bapaume have not had hot food for several days because British bombs smashed a large number of their rolling kitchens."

Will Not Get Out Special Edition

In last weeks issue News made announcement to the effect that the regular issue of September 6 would be omitted and a "special" edition would be gotten out on the 10th.

News was printed on Thursday afternoon, and on Friday official word was received by the postal authorities saying, on account of the shortage of paper, the government prohibits any "special" issues. Hence, we will not be permitted to get out the "special."

It is needless to say this has caused quite a bit of inconvenience, as we had gone so far with the issue—secured the additional paper, materials, ads, cuts etc.—but, we gladly abide by the judgement of one who is now governing all—trusting that every thing will turn out for the best.

A PEACH

On Saturday of last week, Mr. T. J. Allen of Farwell, paid a visit to "News" office and presented Intertype operator with "a peach," which was grown in his own yard.

This peach was a beauty! It measured ten inches in circumference and weighed twelve ounces. The flavor could not have been improved upon, and it certainly was enjoyed.

Mr. Allen says he gathered about one and one-half bushels of the same size off the one tree. East Texas libertas can not beat this.

Now, who says we haven't the finest country in the world, and that the best and largest peaches cannot be grown in Texico-Farwell?

Corporal Takes 700

German Prisoners.

With the French Army in France—The capture of seven hundred Germans is the exploit attributed to Pierre Cellier, age 23, a Corporal in the French tank corps. Two field pieces also were taken.

Cellier has been awarded the Cross of the Legion of Honor, a reward rarely given to anyone but a commissioned officer.

Cellier was in command of a tank manned by fifteen Americans in the recent fighting in the Marne salient. A shell struck the tank and rendered it useless. The men then advanced on foot. Cellier discovered the Germans ambushed in a cave. He kept guard at the entrance for an hour, when a German appeared with a white flag. Behind the first one came the rest of the 700, one by one. The Germans threw down their arms before Cellier and marched to the rear at his direction.

The Bond Of Liberty.

The tie that binds the allies is exactly the same as that which huddles together the central powers.

Self-preservation. But what united each array of nations was decidedly something else.

On the side of the Huns a dominant few aimed to gulp down all the remaining power on this terraqueous sphere, which we'd daily tread in dread if they did.

However, the morsel not only has proved unpleasant to the Prussian palate, but it's stuck in kultur's gluttonous throat and is slowly choking the monster to death.

The bond that grappled together the allies and in which they've since grappled together with the menace—was the Liberty Bond.

The Liberty Bond of our allegiance across seas will do it—but not without the Liberty Bond at home.

The Fourth Liberty Bond issue will soon be launched. Every Liberty Bond bought increases its holder's share in that corporation called the United States government, to the full face value of the bond.

Every Liberty Bond at 4 1/2 per cent strengthens the Liberty Bond which united us with England, France, Belgium and Italy. Be prepared to SAVE MONEY in a LIBERTY BOND of the fourth issue.

Every bond bought will decrease the size of the morsel that's choking the monster of kultur—the morsel which represents power NOT the Hun's power that belongs to the FREE, power that will unite ALL thru the LIBERTY BOND of dollars that YOU buy!—Dispatch.

Noyon Dates History

Back To Roman Times.

The fall of Noyon comes as a heavy blow to the Germans, who were thought during the early days of the Picardy offensive to be planning to hold Noyon as the southern pivot of their line, which runs northward along the old battle front of 1916.

Noyon is situated on the right bank of the Oise River at the confluence of that stream and the little River Oise. To the south and east there are large areas of flat lowlands along the Oise, while to the north is a winding valley, to the southwest is Mount Penaud and the Lasigny massif, which dominate the whole region. To the northeast a range of hills juts out into the valley.

One railroad runs through Noyon. It comes up the Oise valley from Compiègne and, turning east at Noyon, leads to Chauny and La Fere. A canal leads off to the north and terminates at Nesle. Two small railroad lines run north and northeast, the former to Nesle and the latter to Ham.

Noyon is a great highway center. One road runs to Roye, to the northwest; one to Ham, to the northeast; one goes up the Oise Valley and another leads down into Carlepont forests to the southeast. Another goes down the Oise to Compiègne.

Noyon is a very ancient town, being known to the Romans. Charlemagne was crowned King of the Franks at Noyon in 768 and Hugh Capet was elected King there in 987. It was the birthplace of John Calvin, who was born July 10, 1509.

Youngest Four-Minute Man Helps Wallop the Kaiser

A tadpole in size but a whale of a spellbinder is Knox Price, of Los Angeles, Cal. He has the distinction of being the youngest "four-minute man" now engaged in talking the kaiser out of a job. Knox is just four years old. That makes no difference. He has been touring the country since the beginning of the war, has talked over three hundred times to audiences, as many as twenty thousand people at one time, and was instrumental in raising nearly \$100,000 during the last Liberty Loan drive. Who said children should be seen and not heard?

Young Knox says: "Some folks say I'm too young to be making speeches to big crowds. They say I'll ruin my voice. I just wish I could ruin my voice if I can say something that'll help put the old kaiser where he belongs. He didn't think the babies of Belgium and France were too young to kill. When I think of all those children, many dead, many without papas and mamas—well it just makes me hopping mad to have someone say that I might ruin my voice in trying to help whip the old kaiser! I'm not too young—and I just won't quit!"

A NEW INDUSTRIAL IN A NEW FIELD.

CANNON BALL MOTOR COMPANY

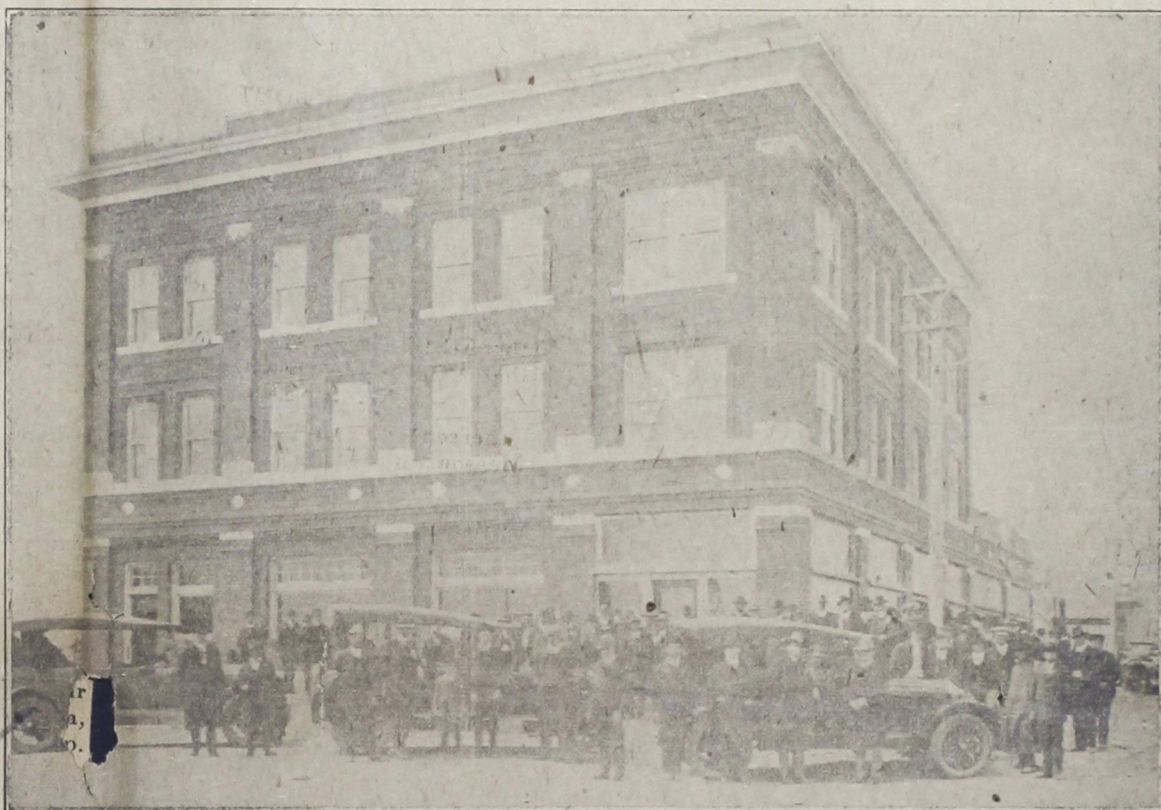

THE LARGEST ORGANIZATION OF ITS KIND IN THE WEST.

MAP SHOWS LOCATION OF CANNON BALL MOTOR COMPANY

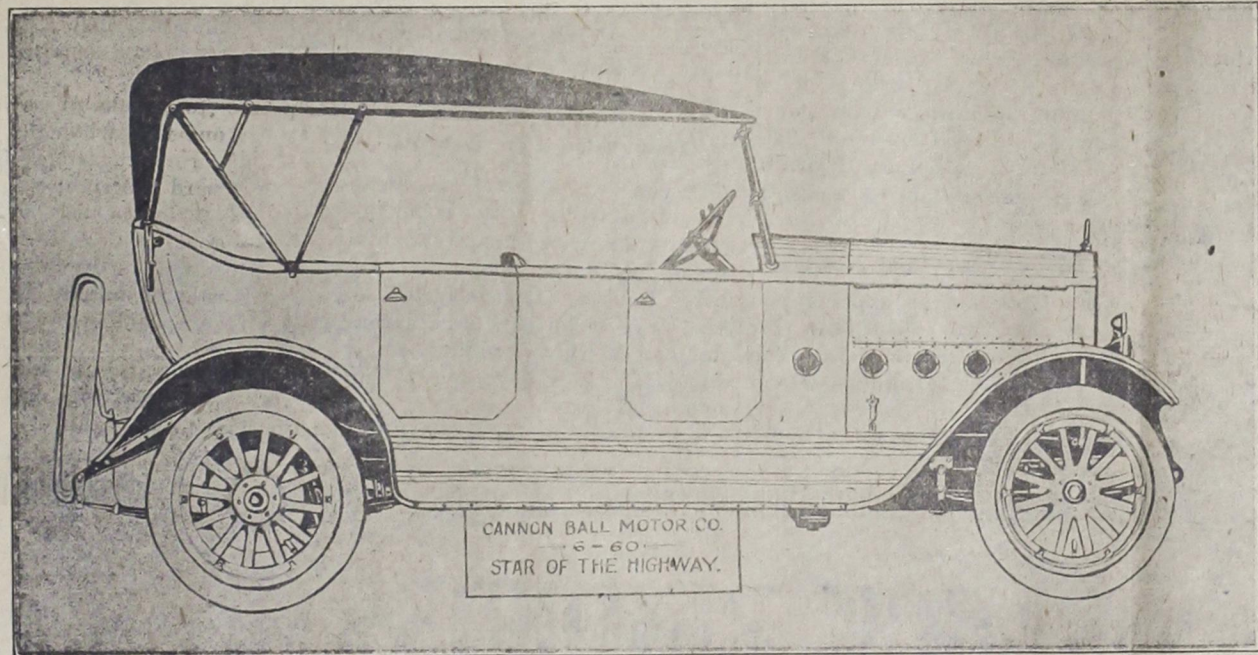

A Stateline location with advantages of freight rates over two large states viz: Texas and New Mexico and being centrally located in the Southwest, far removed from the Eastern Automobile Center, near the base of the largest field of supply makes **TEXICO** the most favored location to establish an Industrial Center.

On the right is shown a picture of the administration building of the Cannon Ball Motor Company, with a group of visitors who visited its home office on April 12th 1918. This is beyond question one of the most modern three story brick buildings in the middle southwest, comprising 23 office rooms and clerical apartments including cafe, barber shop, demonstration rooms, company garage, etc., with all modern conveniences and facilities. This building and its equipment represents a cost of more than \$60,000 and is fully paid.

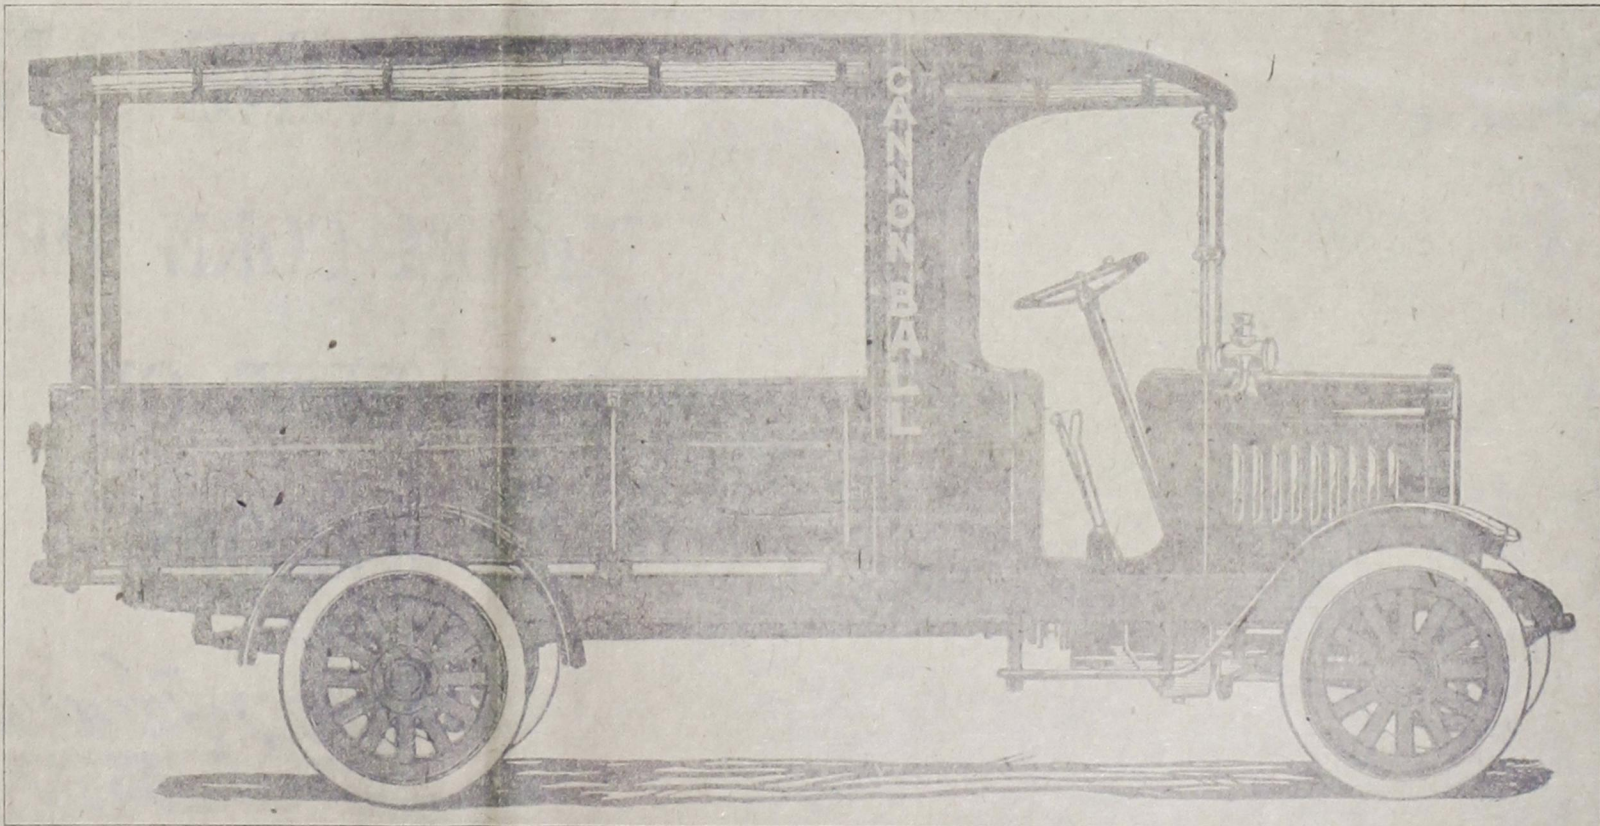

adu

That the Cannon Ball Motor Company is making wonderful progress is evidenced by the illustration shown on this page. Our Six-Sixty, "Star of the Highway" models are now finished and will be on our demonstration floors in a few days. Designs are complete and truck models as illustrated below are being rushed to completion. Contract has been let for the construction of the first unit of the factory building at Texico and actual work will soon be under way.

With administration building complete! With factory building now going under construction; with three distinct designed and modeled cars actually manufactured and on our floor; with truck model almost complete; with more than 2,000 stockholders; with enough Bills Receivable to erect, equip and operate a large plant and with one of the most efficient working organizations that any company has ever acquired, and all of this has been done within a period of ten months. It is conservative to state that such wonderful progress has never been equalled in the industrial field.

O. G. Goddard Celebrates Forty-fifth Birthday.

About fifty friends and neighbors met at the home of Mr. O. G. Goddard, Sunday, September 1, in honor of his forty-fifth birthday.

Mrs. Goddard had planned a complete surprise for him, which was carried out to the fullest extent. Mrs. Goddard, owing to the shortage in her flour supply, asked friends to bake a cake and bring along. To stimulate this, she instituted a cake contest. All of the cakes were placed on the table, and then six of the oldest men were called in to judge. Mrs. Tandy receiving the prize.

A very enjoyable day was had by all. The day was spent in games, sports, singing and music in general.

A GUEST.

—W. S. S.—

Brother Moore, Supt. of the Baptist Sunday School, and his family returned Saturday night from their vacation. Brother Moore visited relatives and friends at Mineral Wells, Texas. He was also looking for a new location—but reports everything so hot and dry down there that he was perfectly satisfied to remain where he is, when he returned and saw how nice and cool it was here, also how fine the crops are.

Illinois Picnic.

About fifty or more Illinoisians met at Twin Mills Thursday of last week and enjoyed the day in picnicing. After a bountiful spread on the ground in real picnic style, all enjoyed themselves in sports of some kind. Not only the boys, but the girls, men and women all joined in baseball, running etc.

Invitations will be sent to all the former residents of Illinois, whose names can be secured. It is urged that all Illinoisians send their names in to the president or secretary so that they can be notified in due time. While this will be known as an Illinois picnic, yet all are invited to attend.
