

FROM THE HOPPER

BY HOP JR.

Don't ever say this isn't a well-read column. Scooter Queen, the variety store magnate, has added Farwell Variety to his holdings, and, on account of our plea (we'd like to think has chosen Capitol City Variety as the name of the business.

The significance, if you haven't already caught it, refers to Farwell as the capitol city of Parmer County.

Now all we have to do is think up some more of these, and we'll get a real movement started. We've been trying to find out what the new swimming pool is being called. Is it the Sharp pool? The Texico pool? Nobody seems to know.

We submit the following for consideration: New-Tex Swimmin' Hole.

Those brash Baptists are breaking ground again and off on another building program. There doesn't seem to be any end to it. They just laugh and say they're like Johnsongrass: about ready to take the country. Now, we didn't say that--those are the words of the Baptists themselves! Really, it is amazing the growth they have shown.

If, during all this time, you've been wondering what the old backsliding Methodists are doing while the Baptists, Church of Christ folks and Pentecostal people are so busy putting up new buildings, just keep patient. The old backsliders may get into the picture yet. In just a few weeks, we hope to be printing some news about a new Methodist Church.

One of those rare news stories caught our eye the other day. It was about a fellow named Harmon P. Elliott. We were interested partly because we knew the name (The Tribune is addressed on an Elliott addressing machine), and partly for what he had done. The 72-year old man has sold out his business, which employs 400 persons, and has turned over almost one and one-half million dollars to them just for the fun of it. Most workers will get from \$3000 to \$4000 in cold cash.

As hard as it is to accumulate money these days, it is frightening to think of giving it away if we ever get any, but we sort of understand what the man means when he says, "I'll probably get more pleasure out of it than they will. It will be fun watching them get the benefit of it while I'm here and not after I'm gone." It is obvious that this isn't just a sudden generous act. Elliott operated his plant for 52 years and was never struck by the workers. In this day and age, that is a remarkable record, considering the way that labor and management fail to understand one another's problems these days.

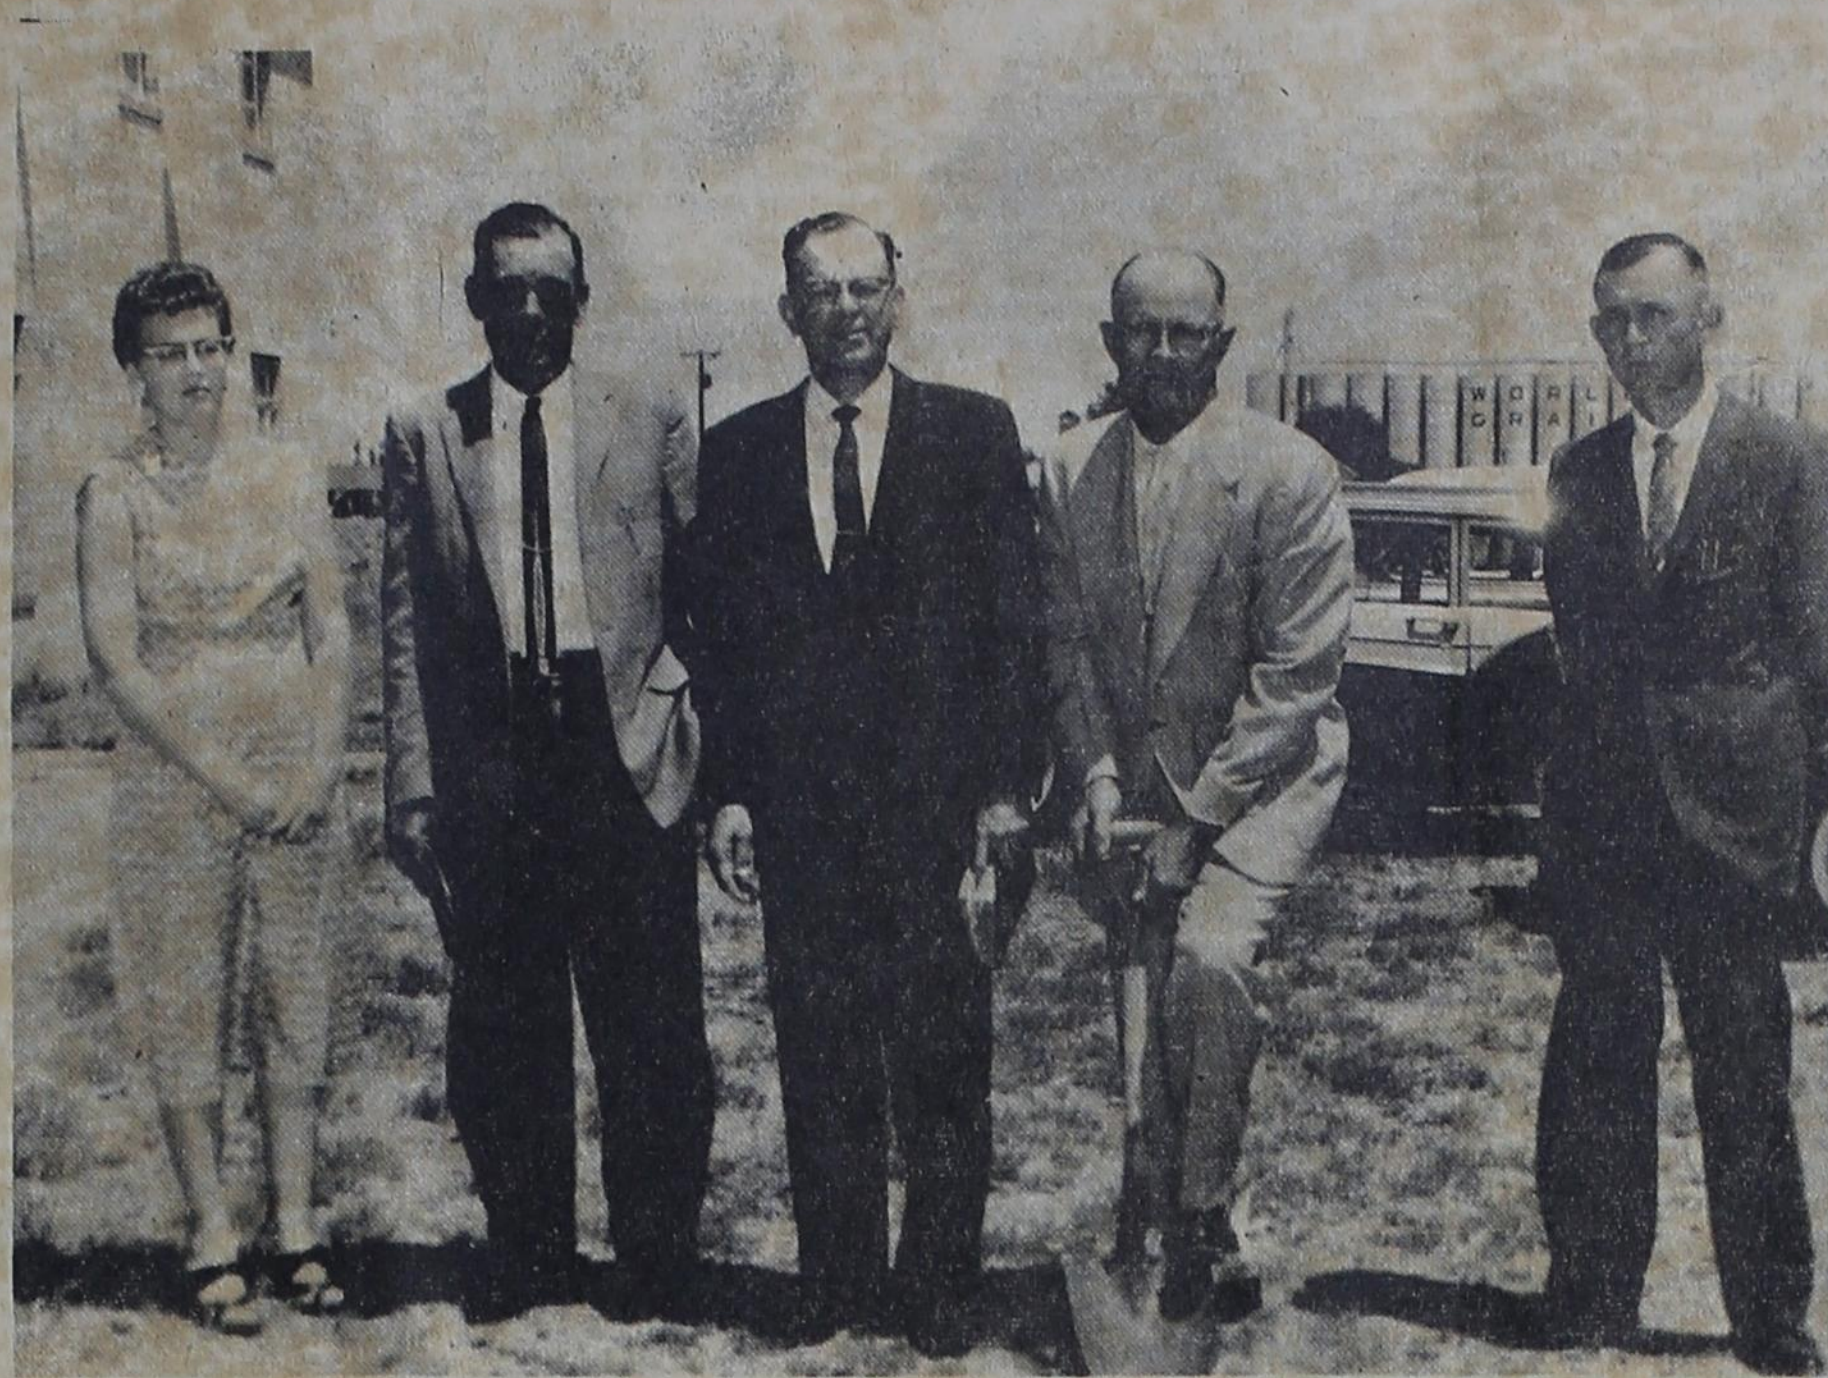

You know, there is so much talk about surpluses and how much trouble they give everybody these days that maybe we don't appreciate some of the things we have an abundance. Take boys, for instance.

There is strength in numbers, they say, and we are beginning to appreciate the fact. Just the other day we got into an argument with the wife, and found that having two loud-talking boys on our side made all the difference in the world in the outcome.

We can hardly wait until John Dudley gets big enough to start putting in his two cents worth. Things are looking better all the time.

Sometimes words get connotations they don't deserve. "Executive" is one of these. Whenever we hear somebody say "executive," or read it somewhere, we usually think of "stuffed shirt," or "big desk, little man," or something like that.

But the other day we were in the Clovis Chamber of Commerce office, and stole a clipping from Bob Spencer's bulletin board (we

WITH THE FIRST SHOVELFUL OF DIRT TURNED, the First Baptist Church, Farwell, is on the way with its ambitious building program. Special services for the groundbreaking were held after regular worship Sunday morning. Department heads in the picture: Mrs. Calvin Blain, WMU president;

Joe Reed, Sunday school superintendent; Rev. Sidney Cox, pastor; Dick Geries (with shovel), chairman of the building committee; and Leroy McDonald, Training Union director. Geries' work is expected to be supplemented this week by Charlie Hromas, builder, who will supervise construction.

Queen Purchases Farwell Variety

Stacy Queen Jr., better known in this area as Scooter Queen, is the new owner of Farwell Variety, with the transfer of ownership occurring Wednesday. It will now be known as Capitol City Variety.

The business was purchased from Cecil Dykes who has operated the establishment since April 15, 1958, after purchasing the stock from Howard Billingsley. Billingsley had founded the business the previous year.

Queen a native Parmer County man, is well known, having been associated in the butcher business with his father, Stacy Queen, before going into business for himself.

He owns Scooter's Five and Ten and Scooter's Smokehouse in Bovina. The latter business is an eating establishment specializing in barbecue. He has been active in community affairs in Bovina and served as president of the Junior Chamber of Commerce. The new owner is unmarried, a Bovina high school graduate,

and veteran of overseas duty in Germany with the army. Present plans are for the personnel of the business to remain the same.

Immediate plans are to add to the stock of the Farwell business. Queen invites everyone to "come in and get acquainted." The business is located in the former Darr building across the street from Farwell Hardware.

Dykes states that his present plans are to remain in the field of education. He taught the eighth grade in the Bovina School system the past year. He does plan to remain in this community, but at the present time, is not planning another business venture.

Both Dykes and his wife, the former Delphine Johnson, grew up here and both his family and her family reside in Texico.

Inventory was completed Tuesday night and Queen assumed management Wednesday.

Dykes expresses his appreciation.

Okla. Lane Farmers Find Flying Saucer

Saturday morning early, the door of The Tribune office opened and Harold Carpenter walked in holding a huge pile of plastic sheeting. "Anyone want a flying saucer?" he asked.

He stated that while on the way to town he and Leon Grissom saw something shining in the sunlight about a half mile east of Leon's farm. They decided to investigate and upon arriving, saw what appeared to be a large pile of plastic caught in a high line wire. Underneath the plastic was a red parachute and hanging about ten feet down from the parachute on a piece of nylon cord was a styrofoam box.

After trying in vain several times to shoot it out of the wires, one of the men climbed up the pole and brought down the plastic part of the balloon and the box. Carpenter said, "the red parachute is still there if anyone wants to climb up and get it."

After making a call to Cannon Air Force Base, nothing new was learned about the box. It appears to be some type of a weather recording device. It is fitted with a transmitter, condensers, speaker, and other electrical components.

WHAT'S THIS? Harold Carpenter thought to himself when he stumbled upon a weather balloon with instruments that landed in Oklahoma Lane last week. Leon Grissom and Carpenter pulled the device from highline wires in which they became ensnared.

Wheat Rolls In

With the return of dry, warm weather, wheat is rolling into the Twin Cities' elevators this week. First loads were received at two of the community's five elevators Friday.

Jerry Paul of Texico brought the first load into Golden West Seed Company Friday afternoon. Ben Pritchett, manager, reports that the field was making about 30 bushels per acre. It is west of town.

"As a general rule, wheat isn't going to be as good this year as it was last year," say Pritchett. He blames dry weather for this condition. Harvest will be hitting its peak along about the last of this week, barring wet weather, he feels.

At Lone Star Elevator, Fred Carthel unloaded the first wheat about 7 late Friday afternoon. It was dry wheat, and tested 61.5 pounds per bushel. Bill Dollar, manager, says Carthel's irrigated wheat is cutting about 40 bushels to the acre. It was grown north of town.

Saturday about noon, Wor-

ley Grain received a load from W. J. Matthews, south of town. The dryland wheat had been hail damaged, and yield was undetermined. It was dry, testing 12.6 percent moisture content.

Herb Potts, manager, says (Continued on Page 6)

Book Annual Picnic

Residents of the Oklahoma Lane Community invite all members and former members to the annual 4th of July picnic which will be held on the Oklahoma Lane Church grounds beginning at 4 p.m. Picnic lunch will be spread at 7 p.m. Baseball games, fireworks and other entertainment are planned for all.

Pool Opening Few Days Away

The local swimming pool will probably be open for business this weekend or at the first part of next week, according to pool manager, Jerry Henson.

He stated that if the pool did not open at this time, it would be because the lifeguard stand, bathhouse and other pool necessities were not finished. A concrete slab is being run between the bath house and pool, which makes area surrounding the pool completely covered with concrete.

Some painting is still being

done in the bath house and debris left by the builders must be removed before the opening.

Henson stated "Until people quit throwing rocks, boxes and other debris into the pool it will not pass inspection. If it doesn't pass inspection, it doesn't open."

Kit Doran, son of Mr. and Mrs. Buck Doran, and Charles Stockton, son of Mr. and Mrs. C. B. Stockton, have been helping at the pool and will serve as lifeguards this summer. They have both completed a Red Cross course in life saving and water safety which qualified them to apply for the job.

Dedication and open house for the pool will be some time after the opening.

Tentative plans are for the pool to be open from 2-8 p.m. on Monday and Thursday; 1-6 p.m. Tuesday, Wednesday, Friday and Saturday, and 1:30-5:30 on Sunday. Price of admission will be 40 cents for adults and 25 cents for children 12 and under.

A complete concession stand will be in operation at the pool and will be operated by Roxie Crooks.

Laundry, Buck's Superette Have Big One On Opening

Live Longer Laundry and Buck's Superette both report record turnouts for their opening days staged the past weekend in east Farwell.

The laundry, a new business operated by B. V. "Shorty" Hughes, is of the coin-operated variety and the grocery business is a new location and new name for the operations of Buck Bradshaw, who has been in business here for several years.

Hughes reports that about 11 dozen Spudnuts were given away during the opening day, so he estimates the crowd Saturday to have been between 175 or 200. "We ran out of Spudnuts" he says, and the business later gave away cookies to well-wishers.

Tuesday was another busy day for the laundry with free wash loads given away during

(Continued on Page 6)

Little League, Pee Wees Lead Recreation Program

Full schedule of activities for the Texico-Farwell youth program is still a little slow, according to Cecil Dykes, who is directing the program, but workers hope the recreational functions will gain momentum in the next few days.

One of the holdups on definite scheduling of some activities has been the indecision on open-

ing dates for the new swimming pool and the Meeks skating rink in Farwell. The pool is slated to open Friday and directors hope to work out a schedule for swimming soon.

Lee Meeks, owner of the new roller rink, has learned that material shortages will prevent opening his new business establishment in time for use by members of the youth group.

So far, the major activity has been Little League and Pee Wee games. Lazbuddie is not fielding teams this year, says Dykes, so the only games scheduled thus far, have been with Bovina.

So far, girls of the community haven't shown enough interest in the program to enable workers to plan activities for the young ladies, says Dykes. Too, he emphasizes that the program is designed for young people in both Texico and Farwell. "We don't have Texico participants at this time" he explains, "and we want to emphasize that the program is planned by the Texico-Farwell Lions for young people in both towns."

Another phase of the program begins today, with a trip to Clovis for bowling scheduled this morning (Thursday) at 9 a.m. Participants will be given free instruction, but each youngster must pay 30¢ a line

to pay the cost of the use of the facilities. Transportation will be furnished with a bus to leave from the baseball field at Farwell.

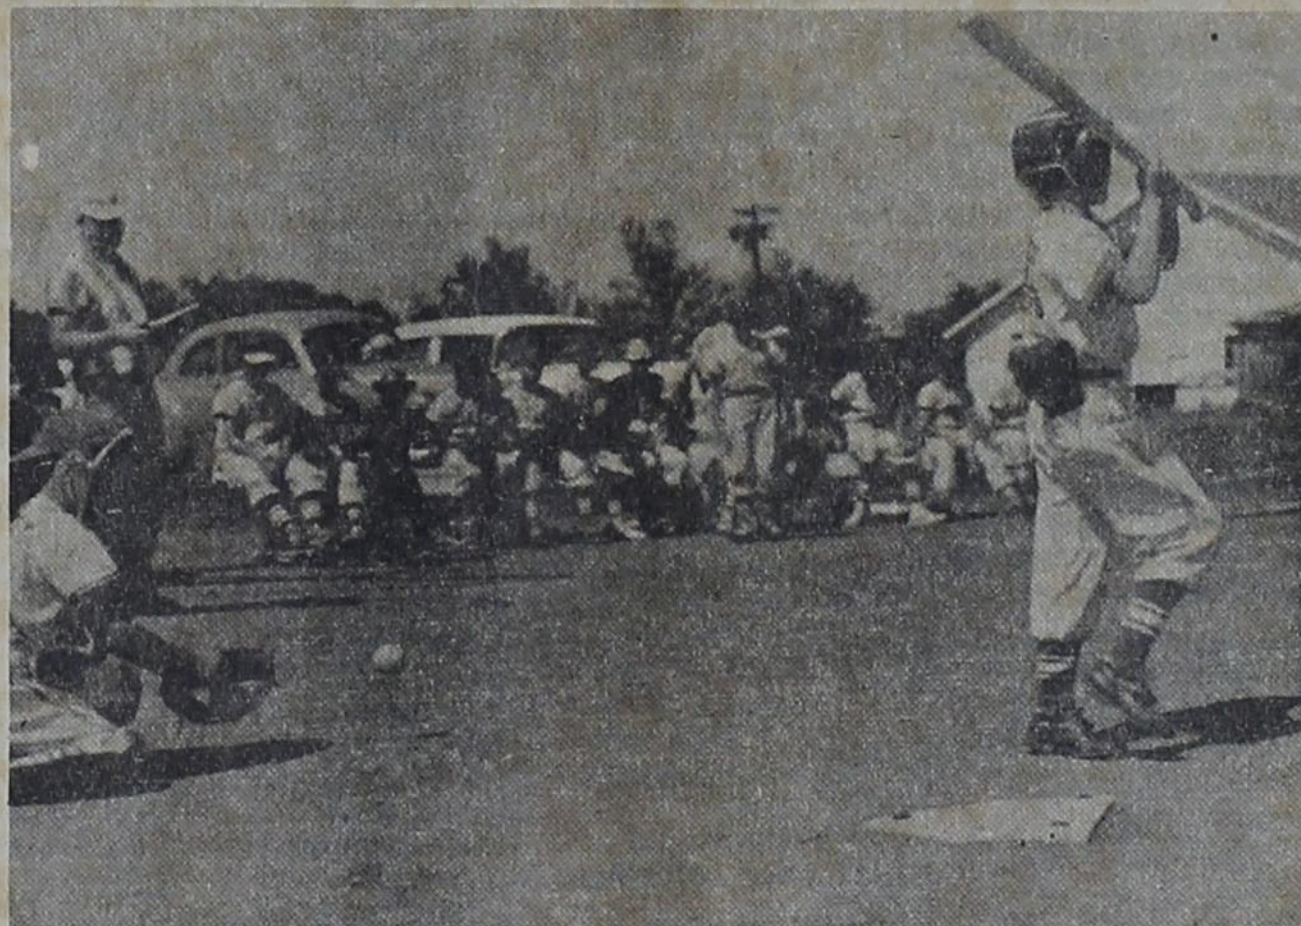

In games Tuesday afternoon at Farwell with the Bovina teams, the Pee Wees were the winners and the Little Leaguers were at the bottom in two games. The two towns will be matched again Thursday, June 25 on the Bovina diamond, at 4 p.m.

In the Pee Wee game, with 6 to 9 year olds on the roster, Farwell won 11-9. Home runs were tallied by two of the local youngsters, Milton Lee Walling and Charles Wade Norton.

The Little League boys, 10-12 year-olds, lost 5-10 to the visitors. Danny Lindop knocked a homer, and scored two runs. Bob Scott Anderson also scored two runs and Danny Huffaker pitched a no hitter to the bottom of the sixth.

Dykes says that enough boys haven't worked out to field a Pony League team, but if enough interest is exhibited, this team could be planned for later in the program.

Paul Frederick and Buck Doran, principal and superintendent of Texico Schools, respectively, will leave Thursday to attend the American Athletic Union in Denver, Colo. The event is scheduled as national tryouts for the Olympics.

AT THE PLATE, and it's a tense moment during the Texico-Farwell vs. Bovina Pee Wee game Tuesday. The local Pee Wees beat out the visitors in the opening game of the year.

Pioneer Father Dies Monday

W. H. (Bill) Kistler, early pioneer of this area and father of Mrs. Ethel Thomas of Farwell, passed away at 8 Monday night in the West Texas Hospital in Lubbock.

Funeral services were Wednesday at 3 p.m. in the Muleshoe Methodist Church, with Rev. Hall, pastor in charge, and assisted by Ebb Randol, pastor of the Church of Christ in Farwell.

Kistler had lived in this area since 1908, having moved to Muleshoe before there was a railroad. He came to Bailey County before the county was organized and settled, and reared his family in this area. He was born in Topeka, Kan., and was 84 years old at the time of his death.

He had been in poor health for 14 years. Until his health (Continued on Page 6)

"THEN'S WHEN YOU PLAY LIKE THIS . . ." says Cecil Dykes, who is coaching the Texico-Farwell Little Leaguers in the summer recreation program. Play opened Tuesday, when the locals dropped their first game to Bovina.

Mr. and Mrs. Claude H. Rose and Pudge returned Friday from a week long tour in Old Mexico. They were accompanied on the trip by Miss Carolyn Curd. While there, they visited several points of interest including the University of Mexico in Mexico City. They also attended a bull fight.

Sunday visitors in the home of Mr. and Mrs. J. T. Lockhart were Mrs. Susan Roe and J. J. and Mrs. Alene Well, all of Clovis. Also visiting were Mr. and Mrs. Herman Lockhart from Paris and their son, Herman Jr., from New York City.

Mr. and Mrs. Russell Johnson returned Sunday from a week long vacation in Oklahoma. While in Stillwater they visited in the home of their daughter, Mrs. Jack Hesser and family; with their son, Jerry Johnson

and family and with Mr. and Mrs. Ival Hesser, former residents of Texico. They also visited in Alva, Okla. with their son and family, the Bill Johnsons.

Other visitors were Mr. and Mrs. R. D. Gee and family, Mr. and Mrs. Bert Tipton and boys from Lubbock and Mrs. Tipton's niece from Texas City. This group along with Mr. and Mrs. James F. Tuggle and all of the Tipton's relatives from this area spent a day in Clovis at the park, where they enjoyed a picnic lunch.

Rev. and Mrs. Bill Hardwick and family left early this week for a vacation trip to various states and points of interest.

Their plans included a stop in Albuquerque where they were to visit friends, then a tour of the Petrified Forest, Grand Canyon, Salt Lake City and Yellowstone Park.

They will drive home via Denver and Amarillo.

Pleasant Hill

Visiting recently in the home of Mr. and Mrs. Arlie Taylor was her brother, J. D. Cagle from Olton.

Gale and Shirley Joplin are visiting in Alamogordo with their aunt and uncle, Mr. and Mrs. Joe Haney.

Buck Taylor made a trip to Santa Anna Saturday night to meet his brother, Howard Taylor, who had been in the Baylor Hospital in Dallas following an operation. They returned home Sunday evening.

Mrs. Robert Servatius, Mrs. Buck Taylor and her daughter, Mrs. Joyce Osborne and children, Linda and Karen, were in Anton recently visiting their mother and grandmother, Mrs. Janie Anderson.

Vacation Bible school closed Friday night at Pleasant Hill Baptist Church. There was an average of 75 children attending daily. Commencement exercises were held Friday night.

Mr. and Mrs. Juan Eskew and son, Gary, returned home Sunday evening after spending a week in Springfield, Colorado at the bedside of her father, Frank Lofton, who suffered a heart attack.

Mr. and Mrs. Clarence Brown and children spent the weekend in Roswell and Ruidoso sightseeing and visiting his sister and family, Mr. and Mrs. George Miller.

Recent visitors in the home of Mr. and Mrs. Clarence Brown were her two brothers, H. G. McCain from Bovina and George McCain from Japan.

Those enjoying a wiener roast at the home of Mr. and Mrs. Jimmie Weatherford Saturday night were Rev. and Mrs. Charles Jones, Vicki and Mike; and Mr. and Mrs. Arlie Taylor, Freddie and Johnny Mack.

Mr. and Mrs. Mike Brown and children spent Saturday night and Sunday in Lawton, Oklahoma with their son and family, Mr. and Mrs. Gene Brown.

Rev. and Mrs. Charles Jones, Vicki and Mike visited Monday night in the home of Mr. and Mrs. Buck Taylor to help celebrate his birthday. They enjoyed homemade ice cream and birthday cake.

OKLA. LANE

MRS. HAROLD CARPENTER

Mr. and Mrs. Fred Whitener and children and Mrs. Grace Whitener of Houston returned to their home Saturday after having visited several days with Mr. and Mrs. Donald Watkins and family. They also visited other relatives in the Pleasant Hill Community.

Mr. and Mrs. R. E. Blankenship and children returned to their home Saturday from Wichita Falls where they have spent the week visiting relatives and friends. They spent one day visiting in Vernon.

McDaniel, Hubbell Leave For Girls State

Mary McDaniel, Texico, and Joan Hubbell, Farwell, left last week to attend the 1959 sessions of New Mexico and Texas Girls State.

Miss Hubbell left Wednesday by train along with 19 other girls from the High Plains, who will also be attending the Bluebonnet girls state. The group met with Mrs. Mary Flynt of Dimmitt, 18th District President of the American Legion Auxiliary, for instructions and a dinner before leaving.

Gov. Price Daniel, an honorary member of Girls State, addressed the group Monday. Other political, educational and civic leaders also spoke to them.

Girls State is being held at Texas School for the Blind in Austin. Delegates will return home tomorrow.

Miss McDaniel left Sunday by chartered bus from Clovis along with several other girls from the surrounding area for Albuquerque, where the session is being held on the University of New Mexico campus. The eight-day program will be highlighted Thursday night (tonight) when all state and county officials are inaugurated. Another highlight of the session is an all-day visit to the State Capitol in Santa Fe.

Mrs. Harry B. Gilmore is directing the 1959 Girls State session. Mary will return home Sunday.

Girls are selected as delegates to Girls State on the qualifications of leadership, honesty, character, scholarship, courage and co-operativeness.

Bill McGuire was honored Sunday with a farewell dinner in the home of his grandparents Mr. and Mrs. E. W. McGuire. Bill will leave Thursday, June 18 for Redlands, California, where he lived with his parents, Mr. and Mrs. Clifford McGuire until September of last year.

Others attending the dinner were Miss Carolyn Scott and Miss Wanda Steinbock of Lubbock and Johnny Lovelace of Farwell.

Mr. and Mrs. Hugh Tucker and Barbara of Plainview and Mr. and Mrs. George Patton visited Sunday afternoon in the home of Mr. and Mrs. Sterling Donaldson. Barbara returned home with her parents after having spent the week in the Donaldson home.

Errol, Doyle and Randy Johnson, sons of Mr. and Mrs. Clarence Johnson, left Amarillo

JOTTIN'S
By Jeanne

Congratulations to our good friend, Uncle Tom Randol, who this week quietly celebrated his 89th year. It has been our pleasure to know Uncle Tom since he was a young man of 80, and it has been one of our dearest friendships.

Uncle Tom is the unofficial historian of Texico-Farwell and has an astounding memory for dates, places, names and events. He's a pretty good story teller too.

One of our editor friends writes one of the best preventative of juvenile delinquency is a mother's club--made of birchwood.

Marilyn Edwards assisted whole-heartedly in planning a surprise birthday party for Liz Phillips--and laughed along with the group when unexpected guests found the honoree busily working in the yard.

But she was speechless when tables were turned and the guests sang "happy birthday" to her and presented her with a gift also. And the double surprise afforded much merriment and fun for those attending the party.

There were enough candles on the cake to total the number of years for each honoree, and each "got her wish," if blowing out all the candles really means anything.

Joe Hughes thinks that the boys that went to Boys State this year were really nice fellows. "You've heard the saying--there was no one there I didn't like" he says, "it was just about that way." Upon further inquiry, he did admit, there was only one boy that he didn't seem to enjoy knowing quite as much as some of the others. Even so, that is a fine recommendation for the boys who attend Boys State.

Ellen Wurster is wearing a neat white bandage on one hand this week, the after effects of her battle with the air conditioner. It seems that Ellen was aiding husband, Paul, in installing the conditioner, and somehow got her hand in the wrong spot.

"I failed my plumber's test," she explains.

by bus to visit their father's parents in Oklahoma.

Dinner guests in the home of Mr. and Mrs. Sterling Donaldson recently were Mr. and Mrs. Frank Edwards.

Pickup And Car Collide Wednesday

Quite a bit of damage was reported by Sheriff Chas. Lovelace in a collision between a pickup and a car at the intersection near Farwell Wrecking Co. in east Farwell last Wednesday.

Mrs. Rochelle Christian, in the automobile, was traveling west on Highway 84 and a pickup driven by Jimmy Hardage was traveling north on a side road.

Lovelace estimated \$50 to \$100 damage on the pickup and probably \$100 damage to the car.

Guests at the home of the J. T. Lockharts recently were their son, Dick, and his fiance, Miss Sue Hilpert from Albuquerque, Dick has attended the University of New Mexico for two years and is presently employed for the summer in Albuquerque.

Visiting Sunday with Mr. and Mrs. Jim Moss was her sister, Mrs. Lester Harrilson and family. They have recently moved to Ft. Sumner from Weish, Okla.

1500-pound Increase on Grain Sorghum

Frank Stanton, successful young Hale County farmer, says: "By chiseling in 85 to 100 pounds of Phillips 66 Ammonia as a side dressing, I increased my maize yield 1500 pounds per acre. This represents a \$4 profit on every \$1 invested in ammonia."

"This proved to me that using Phillips 66 Ammonia is profitable. I am using it on both my cotton and grain sorghum land this year. There are not many investments I know that will return 4-for-1."

Other successful Southwestern farmers have discovered that they make more profit per acre, using Phillips 66 Ammonia. They get more cotton that classes higher at the gin... yields of sorghum grain or ensilage are increased... profits on wheat and small grains are increased through higher grain yields and improved forage... more marketable vegetables are harvested.

Phillips 66 Ammonia can be easily applied as a side dressing either by you or your distributor. See us today for your supply of Phillips 66 Agricultural Ammonia... it gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.

Order Your Supply of Phillips 66 Agricultural Ammonia Today!

Doran, Hughes Return From Boys States

Ursel Doran and Joe Hughes, delegates to the 1959 session of New Mexico and Texas Boys State returned last week from what each described to be "one of the most wonderful experiences of my life."

Boys State Inc., is a citizenship training project sponsored by the American Legion Department. Its purpose is to educate boys in the duties, privileges, responsibilities, and rights of American citizenship. The mechanics of government in Boys' State are patterned after the established agencies of city, county and state government, with the idea that you can best "learn to do by doing."

Doran, delegate from Texico, met with boys from Clovis and the surrounding area on Tuesday, June 2, to board a chartered bus for Roswell where the 12th annual session of New Mexico Boys State was being held on the campus of New Mexico Military Institute.

An envelope containing all the needed materials for the session and the name of each boys party, county and city was handed him at the registration desk. Ursel was a citizen of Castillo City, and belonged to the Nationalist Party.

Saturday was the big day for most of the boys, since the state election was that day. Gov. John Burroughs was speaker at the inauguration ceremonies. Doran was appointed chairman of the State Board of Education.

Some of the highlights of the week were speeches by several high ranking officials in the state and county governments of New Mexico.

Doran explained that although Boys State was filled with work, it had its moments of fun too. A talent night was held on Saturday and at several sessions, the Boys State band played.

Each party had a basketball team and several games were played. Doran was a member of the championship Nationalist team.

Joe Hughes, who was representing Farwell as a Boys State delegate, met the delegate from Friona and they were taken to Amarillo by Hughes' parents. In Amarillo, they met boys from the area, and went to Austin by chartered bus.

There were 573 boys attending the Texas Boys State session. They were assigned to a city, county, and party upon their arrival.

Anita Moss, 17-year-old daughter of Mr. and Mrs. Jim Moss was a contestant in the recent Curry County Dairy Princess contest in Hotel Clovis Ballroom. She was sponsored by Texico Farm Bureau.

Accompanying her to the contest as representatives of the Farm Bureau were Mr. and Mrs. John Hadley. Her parents also attended. A pearl and rhinestone bracelet was presented to her by the sponsoring organization.

Using and enjoying is true having.

Hughes, a citizen of Smith City, ran for County Commissioner in Burkett County. He was elected to this office.

When asking Joe what he thought was the most outstanding phase of Boys State he replied, "I felt like the tour through the State Capitol and also seeing the senate and house in a joint session was the most outstanding thing to me."

Opens Second Store

Boyettt Furniture has opened its second store in Texico. The new location, to be for used furniture display, is in the Texico Hotel building.

Jackie Goldsmith, who has been employed by the business previously, will manage the new store. The business was opened Monday of this week.

Boyettt's main store is on the state line.

Mr. and Mrs. Troy Christian and Mr. and Mrs. Donald Christian and Trummie were weekend guests of Rev. and Mrs. B. J. Foster of Abilene recently. The Donald Christians visited Bethel Methodist Church in Anson, Sunday night, where Rev. Foster will be pastor for the coming year.

Rev. and Mrs. Vernon Willard of Plainview were guests of Rev. and Mrs. Melvin Suderth and Rev. and Mrs. B. J. Foster during conference week. He is a former pastor of the Oklahoma Lane Methodist Church.

Recent visitors in the home of Mr. and Mrs. J. M. Pruitt was their daughter, Mrs. J. T. Coston and her family from House.

Cancer Fund Reaches \$260

Another \$10 has been added to the cancer fund, according to word received this week from Mrs. W. N. Foster, member of the Farwell Study Club. The drive was under the sponsorship of the local organization. Mrs. Foster says the added contribution brings the total to \$260.97.

Sterlyn Billington, who has been hospitalized for some time, was released from the hospital last Thursday following an operation the previous Thursday. His wife stated that he had a small flare up over the weekend, but is resting better now.

Buck Doran and a friend from Clovis were in Red River over the weekend for a fishing trip, but the local man says that the area is so dry that they "cast a few times, but didn't catch anything."

Mr. and Mrs. Oliver Sikes returned Monday from Artesia, where they attended the wedding of Mrs. Sikes' niece, Miss Lou Smith. They also visited in Roswell with Mrs. Sikes' brother, Clifford Smith.

Mr. and Mrs. Ernest Kube and Kay accompanied their daughter, Mrs. Carol Robinson, the former Linda Kube, to Amarillo Monday to catch the plane for Toyko, Japan. She will join her husband, who is in the Navy.

Hadley Given FFA Award

Raymond Hadley, son of Mr. and Mrs. John Hadley, returned Friday from the New Mexico State Future Farmers Convention held in Albuquerque on June 10, 11 and 12.

Raymond was given special recognition at the convention for having been selected one of the State Farmers, and was awarded a State Farmer Degree. He was selected for this honor on the basis of leadership in FFA, having an investment of \$500 in a farm program, making not less than \$350 from past farming programs and keeping an accurate record of management of the program.

The three day convention was composed of four sessions in which the boys heard speeches from such dignitaries as Gov. John Burroughs and also by Adin Hester, who is president of the National FFA.

Hadley was elected president of the committee working on the Future Farmer magazine, while at the convention.

He has been active in FFA for many years and was president of the Texico FFA chapter for three years. He was greenhand president during his freshman year and during his senior year received the FFA award, which is presented to a student outstanding in agriculture.

Accompanying Hadley on the trip were Dale Brown and Gary Singleterry. Sponsoring the group was Jim Pierce.

By PAT

We would like to take this opportunity to thank every one that has purchased seeds from us this spring. We feel that we have the best seed that can be furnished at a reasonable price and we will stand behind any seed purchased from us. It is impossible for us to grow all the seed we sell, but we have tried to exercise the best of care in buying seeds from other growers. You might remember to save those tags from the seed you planted to determine if the seed you purchased were worth the price you paid.

If you are a bird hunter, get your shot gun oiled up. The dove and quail are the heaviest in years. This writer was down under the edge of the caprock Sunday and prospects are tops. You could catch your limit in a couple of hours with an open sack and season is three months away.

There is nothing more discouraging than to get awcrops to almost the harvest stage and have it destroyed so quickly. A dream can go up in minutes that has been months in materializing, but such are the chances of farming - the biggest gamble of them all. If you had a visit from the ice man wear a sorry, let's hope it doesn't freeze until December.

We would like to handle your wheat. We feel that since we are in the flour milling business that we are in a good position to handle your wheat to a good advantage. We are government bonded to store your wheat and buy milling wheat every day. Let us handle your wheat and barley. Your business is appreciated.

Come see us.

Mrs. R. A. Greenhouse was a visitor in the Ray Mears home Tuesday evening. She is Mears' sister, and was enroute to Las Cruces. Traveling with her was her granddaughter, Cathleen.

Of Interest To THE WOMEN

MR. AND MRS. JERRY FLYNN DARBY

Doris Rolland Weds Jerry Flynn Darby

Doris Ann Rolland, daughter of Mr. and Mrs. D. O. Rolland, became the bride of Jerry Flynn Darby, son of Mr. and Mrs. C. J. Darby of Lebanon, Ore., June 6 in a candle-light ceremony in Hamlin Memorial Methodist Church.

Harding, brother-in-law of the bride, before a background of palms and candelabra flanked by baskets of pink and white daisies. Twin seven-branched candelabra holding pink tapers centered the arrangement. They were flanked with baskets of palms.

The bride, given in marriage by her father, wore a ballerina-length dress of white brocade taffeta. The gown was designed with a fitted bodice which came to a point in the front and featured a scalloped sabrina neckline. Long pointed sleeves were accented by a row of tiny buttons at the wrist.

Her veil of white bridal illusion was outlined in white lace with a minute pink ribbon woven through it. The veil fell from a bandeau of lace scattered with rhinestones. The bride carried white roses atop a white Bible.

For something old, the bride carried a handkerchief belonging to her mother; something new was her wedding ensemble; borrowed was a string of pearls and she wore a traditional blue garter.

Mrs. Nathan Harding, sister of the bride, was matron of honor. She was attired in pink chiffon over taffeta, fashioned with a balloon skirt. She carried a bouquet of white carnations nestled in pink satin ribbon.

Mrs. Ed Rolland, sister-in-law of the bride, and Miss Jo Anne Schell were candle-lighters. They were attired in identical sheath dresses fashioned with pink overskirts interwoven with silver threads. Their corsages were of white

carnations.

Morris Reed attended the bridegroom and ushers were Bill Garrett, brother-in-law of the bridegroom, and Ed Rolland, brother of the bride.

For a wedding trip to Ruidoso, Mrs. Darby changed into a black and white traveling suit with white accessories.

The couple is at home southeast of Farwell where he is engaged in farming. Darby was a 1958 graduate of Muleshoe High School and Mrs. Darby was graduated from Farwell High School in 1959.

Oklahoma Lane HD Club Meets

The Oklahoma Lane Home Demonstration Club met June 11 in the home of Mrs. Edmund Kitten. At roll call members showed their favorite flower vase. Mrs. W. T. Magness was in charge of the meeting.

For the opening exercise, those present unscrambled the names of various flowers.

Mrs. Winbourn Hardage was elected delegate to the state Home Demonstration Club convention in Galveston. Hostesses and training leaders were elected for the coming months.

Eight members were present for the program on flower arrangements presented by Mesdames Gilbert Kaltwasser and Edmund Kitten. They were Mesdames Clarence Johnson, Winbourn Hardage, W. T. Magness, Harold Travis, Bill Dollar, Duane Curtis and Walter Kaltwasser.

Next meeting of the club will be June 25 with Mrs. Walter Kaltwasser.

Mrs. E. E. Autrey is reported to be in serious condition in the Veterans Hospital in Albuquerque, by her sister-in-law, Juanita Autrey. The Texico woman has been in the hospital at intervals since September of last year.

Hubbell-Obenshain Vows Exchanged

Beverly Joy Hubbell, daughter of Mr. and Mrs. Oris Hubbell, and Harlin Obenshain, son of Mr. and Mrs. Harvey Obenshain of Rogers, Ark., were united in marriage June 7 in Oklahoma Lane Methodist Church.

Rev. Jimmy McGuire read the double-ring ceremony before a setting of potted asters and fern. Baskets of blue and white gladioli flanked the arrangement centered with white satin covered kneeling bench sprinkled with blue rosettes.

Miss Jeanette Lindop attended the bride as maid of honor. She was attired in a powder blue dotted nylon dress and carried a bouquet of white carnations. Bridesmaid was Deborah Hubbell, sister of the bride, who wore a powder blue embroidered organza dress and carried a bouquet of white carnations.

The bride, given in marriage by her father, wore a white sheath of embroidered cotton. It was designed with a boat neckline and fitted three-quarter length sleeves. An overskirt of white chiffon gave the skirt a flaring effect. She wore a string of cultured pearls, a gift from the bridegroom.

Her fingertip-length veil of illusion fell from a small white hat and she carried a bouquet of white roses atop a white Bible given her by Mr. and Mrs. Lee Jones.

For something old and borrowed, she carried a handkerchief belonging to her great-great-grandmother, Mrs. J. F. Foster. Her wedding ensemble was something new and she wore a traditional blue garter given her by a cousin, Judy Roach.

For luck, she placed a penny minted in the year of her birth in her shoe.

Serving as best man for his brother was John Obenshain. Candelighters were Kerry Hubbell, brother of the bride and Darwin Billingsley. Ushers were Cecil Obenshain, brother of the bridegroom and Dickie Williams.

Organist, Dot Christian and soloist, Judy Roach, both cousins of the bride, provided the traditional wedding music. They were attired in dresses of blue nylon.

For her daughter's wedding, Mrs. Hubbell chose a taupe lace over satin dress with black accessories. Mrs. Obenshain

wore a black dress with rose accessories. Both women wore corsages of white roses.

A reception was in the home of Mr. and Mrs. Oris Hubbell. The serving table was covered with a white crocheted cloth made by Mrs. George Lindop. A crystal punch set centered the table and was flanked by tall blue tapers. Misses Joy Redden and Joan Hubbell, cousin of the bride, served punch and blue and white cake.

For a wedding trip to Carlsbad, the bride changed into a blue cotton coachman style dress with large white buttons accenting the front. Her accessories were white.

The couple is at home at 812 East 4th Street in Clovis. Mrs. Obenshain is a 1959 graduate of Farwell High School. She was active in the school band and in sports. Her husband, a 1956 graduate of Huntsville, Ark., High School, and is presently employed in Clovis.

Out-of-town guests for the wedding were Mesdames Harry Obenshain and Gene Obenshain from Rogers, Cecil Obenshain, Tulsa, Okla.; Trudy Obenshain, Seattle, Wash.; Mr. and Mrs. Ed Foster and family and Mrs. C. E. Foster Jr. and family from Clovis.

Also Mrs. Eddie Redden and Joy and Mrs. and Mrs. L. M. Grissom and Lola from Bovina.

Party Notes 5th Birthday

Rebecca Jane Stone, daughter of Mr. and Mrs. Ken Stone of Farwell, was feted with a birthday party on her fifth birthday, June 12. The party was held in the backyard of her home, and guests enjoyed refreshments of angel food cake and strawberry punch.

Those attending besides the honoree and her mother were Gene Christian, Pam Magness, Vicki Smart, Marshall and Jeanie Hawthorne, Johnny and Sherril Bowling, Dale and Mike Camp, Beverly Winkles, Sharon Williams and Cindy Gomb.

Tom Randol Has 89th Birthday

Tom Randol, better known to people in this community as "Uncle" Tom, celebrated his 89th birthday Saturday in his home. For many years, he has baked his own birthday cake, but since one of his neighbors had baked him one this year, he didn't make another. When questioning him about not baking his own cake he stated, "I may not have baked my own cake this year, but I surely haven't forgotten how!"

A number of friends and relatives called at his home during the day Saturday, to wish him a "happy birthday" and visit with him.

Shower Fetes Marian Smith

Marian Smith, bride-elect of Bob Gornmley of Amarillo, was feted with a bridal shower in the Farwell Home Economics cottage Monday. Hostesses for the shower were Mesdames Walter Hardage, Edd McGuire, Willie Hardage, Curtis Jones, Clyde Magness, G. A. Garrett, Joe Magness, Johnny McDonald, Doyle Ford, Clay Henson and Bill Foster, also Misses Glenna Davis and Jeanette Hughes.

The serving table was covered with a white lace cloth over blue. The centerpiece of shasta daisies was arranged in a shallow crystal bowl and flanked on each side by white candles in blue holders. A crystal punch set and traditional bridal napkins were used. Cake and punch in the bride's chosen colors of blue and white were served.

Mrs. Smith assisted her daughter in opening the gifts. Both she and Marian were presented with white carnation corsages tied with blue ribbons.

Those attending besides the hostesses were Mesdames Darrell Norton, Annabel Hillock, Bruce Blair Jr., Charles Lovelace, Raymond Martin, Alvin Mace, Everette Christian, LeRoy Faville, Bill Moss, Troy Christian, Donald Christian, Phyllis Christian, Clarence Christian, John McFarland and Lee Jones.

Also Misses Martha Blair, Alice Ramm, Jo Anne Schell, Martha Smith and Belya Christian.

Party Surprises Women Monday

Mrs. Glenn Phillips and Marilyn Edwards were surprised with a coffee in honor of their birthdays Monday afternoon in the Phillips home. Their birthdays were Monday and Tuesday, respectively.

Guests came to the home in a group and Mrs. Edwards arrived thinking that the party was for Mrs. Phillips. Both honorees were presented with a gift from the guests.

The birthday cake was a large oblong design iced in white and decorated with pink rosebuds and edged in pink icing. Twin inscriptions were "happy birthday to Marilyn" and "happy birthday to Liz." Coffee was served.

Attending the surprise function were Mesdames Elmer Hargrove, Bob Anderson, Pike Jordan, Bob Hart, Mitz Walling, Bill Prince, Bert Williams, Calvin Murray, Pat Smith, W. H. Graham Jr., Woodrow Lovelace, Harry Sheets, and Don Williams. Those honoring Mrs. Phillips and Mrs. Edwards who were unable to attend were Mesdames Mark Liehen and M. A. Snider Jr.

James L. Martin
Receives Degree

James L. Martin, son of Mr. and Mrs. V. L. Martin of Farwell, received a Master of Arts degree from the University of Michigan on June 13. He was a member of the 115th graduating class of the University. Speaker for the commencement was Marian Anderson. Martin is a graduate of Farwell High School.

Richardson Home
From Band Camp

Larry Richardson, son of Mr. and Mrs. Jess Richardson, returned Friday from Band Camp at ENMU in Portales. Larry was sent to the camp by the Texico Woman's Club after winning the band scholarship contest sponsored by the group. He was chosen on musical ability, leadership and usefulness to the band.

Larry proved worthy of the scholarship when he received the position of first chair first trumpet in the White band. He participated in two concerts while there, one on Saturday, June 6, and one on Friday, June 12. When asked if he thought band camp was worthwhile, "Yes, I sure do. I'd really like to go again."

Weekend guests in the home of Mr. and Mrs. Ernest Lokey were her brother-in-law and sister, Mr. and Mrs. Edward L. Wilde from Abilene.

Mr. and Mrs. Bill Kellar and family of Lynnwood, Calif., visited briefly with Mr. and Mrs. Carl Davis, Mr. and Mrs. Ebb Randol and Uncle Tom Randol Friday. They were returning from a vacation near Dallas. Mrs. Kellar is a great granddaughter of Uncle Tom Randol and the grand-daughter of Mr. and Mrs. Abe Williams of Clovis. Her parents are Mr. and Mrs. Duncan Williams, former residents of Texico.

Sue Ann Teel, daughter of Mr. and Mrs. Elmer Teel, has been visiting in the home of her parents since June 1. She is leaving tomorrow for Colorado State University to begin studies for her Masters degree.

Shower Honors
Mrs. Stephens

Mrs. Sherron Stephens, the former Mikala Faville, was honored with a bridal shower Saturday in the Farwell Home Economics Cottage. Hostesses were Mesdames Scott Levins, Paul Wurster, John Armstrong, Curtis Miller, Fred Danforth and Loyd Cain.

The serving table was laid with a white Italian cutwork cloth and centered with a white epergne featuring Italian figurines at the base and filled with a bouquet of yellow calla lilies, white asters and snapdragons.

Twin silver services were used for coffee and tea with miniature sweet rolls and fruit. Scalloped bridal napkins completed the setting.

Assisting her daughter in opening the gifts was Mrs. Leroy Faville who wore a white gardenia corsage. Mrs. Stephens' corsage was of white double gladioli.

Presiding at the serving table were Mrs. Pat Smith and Misses Jane Gordon, Darlene Day and Anita Moss. Each wore a corsage of white roses.

Attending and sending gifts other than the above-mentioned were Mesdames John Aldridge, Marye Whitley, E. E. Booth, B. O. Faville, Joe Helton, Alvin Mace, Lewis Sharp, Bonnie Sharp, LeRoy Hunton, Joe Blair, Van Winkle, D. W. Bag-

ley, Ed McGuire, Guy Cox, Morgan Billington, J. R. Hadley, W. E. Martin, Leon Billingsley, M. H. Poteet, Bunk Phillips, Les Means, Cecil Dykes, Sam Aldridge, J. H. Leavelle, John Lovelace, Sam Rundles, Sumner Davidson, Edgar Campbell, Doyle Ford and O. C. Harriman.

Also Mesdames Dale McCuan, Bob Anderson, W. L. Reid, James Spurlin, Paul Huber, Dallas Brown, Rip Snodgrass, Joe Crume, A. D. Smith, Buddy Pearce, Jimmy Allman, Frank Doshier, Hamlin Overstreet, Albert Thomas, Clarence Smith, Jack Williams, Angerson Bowers, Mitz Walling, Melvin Snider Jr., M. A. Snider Sr., Wilma Limer, Ebb Randol, Ernest Cain, Milton Henson, Paul Crooks, Arlye Crooks, Walter Hardage, Clyde Magness, Carl Davis, Tommy Bergin, Earl Booth and Harold Travis.

Also Mesdames Curtis Jones, Charles Lovelace, Gene Lovelace, Harry Sheets, Bob Lile, Ray Sudderth, Shelton Sapp, Lillian Bridges, Lee Meeks, A. E. Hapke, Truman Kittrell, John Adams, Gabe Anderson, Marilyn Edwards, Florence Golladay, Irene Dyer, Elmer Teel, Avis Patterson, Olan Schluter, J. E. Stone, John Getz, Ruby Doran, Charles Stockton, Mark Fairman, Anne Overstreet, L. R. Vincent, W. N. Foster, Bess Mansfield, Wren Vinyard, Ann Smith, Ed Mitchell, J. T. Lockhart and Jim Moss.

Also Misses Marion Smith, Martha Smith, Christy Bowers,

Jo Martin and Ellan Cain. Out-of-town guests were Mrs. Alton Cain and Lynetta of Tahoka, Mrs. Jason Gordon of Plainview, Mrs. Gerald Guthrie of Canyon and Mesdames W. S. Carmack, Jack Dunn, Oliver Burton, Gus Bryan and W. H. Duckworth of Clovis.

Miss Teel Goes
To Assembly

Peggy Teel, daughter of Mr. and Mrs. Elmer Teel, returned Sunday from New Mexico Rainbow Grand Assembly in Alamogordo.

Peggy is a member of the Portales Rainbow assembly. Two members of the Portales group received grand offices. They were Nan Burroughs, grand drill leader and Jan Stratton, grand representative.

Miss Teel will be a senior at Texico High School next year. She is active in journalism and was chosen an alternate to Girls State this year.

CHURCH HAS REGULAR
BUSINESS MEETING

A regular business meeting of the Church of Christ was conducted last Monday evening. Main subject of interest at the meeting was the installation of an air-conditioner in the auditorium. It was decided to have one installed. Ten men were present for the meeting.

Study Club Has
Called Meeting

Farwell Study Club met for a called meeting in the home of the president, Mrs. Calvin Murray, Monday night.

Committees for the coming year were appointed by the president. They were year-book and program committee; Mesdames M. C. Roberts, E. G. Williams and Miss Jimmie Lou Wainscott. Finance committee included Mesdames Mose Glascock, Frank Seale, John Glascock and Joe Crume.

The auditing committee was composed of Mesdames Mose Glascock, Jack Williams and T. J. Glenn. On the membership committee were Mesdames Sam Rundell, Claude Coffey and Johnnie Williams.

The social committee was composed of Mesdames L. R. Vincent, Willie Williams and W. N. Foster. Chorus was composed of Mesdames Sidney Cox and W. H. Hardwick.

All recommendations of the executive board were adopted. Next meeting date for the group was set as September 21.

Eight members were present for the meeting. They were Mesdames Sam Rundell, John Aldridge, L. R. Vincent, Willie Williams, Melvin Snider Sr., Jim Terrell, Jack Williams and Calvin Murray.

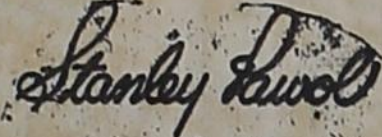

The greatest wealth is contentment with a little.

Hoppers —
are returning it, Bob), that makes us feel like we might be an executive without knowing it.
The clipping goes like this:
An executive has practically nothing to do—except to decide what is to be done, to tell someone to do it, to listen to reasons why it should not be done, why

someone else should do it or why it should be done differently; to follow up to see if the thing is done, to discover if it is not, to listen to the excuses of the person who should have done it, to follow up again to see that it is finally done, to discover that it is done wrong, to conclude that since it is done, it may as well be left as it is; to reflect that it may be time to get rid of the person that can't do a job correctly, to reason that he probably has a wife and ten kids and to reason also that if someone else were hired that person probably wouldn't do any better anyway; to reflect that

one could have done the job correctly himself in twenty minutes but that it has taken him two days to find out why it took three weeks to get it done incorrectly; and finally to explain to those people over him, the actions of those under him and vice versa.

Laundry —
the day. Asked how many patronized the laundry that day, Hughes commented, "I don't know, but we were busy all day."
West of the Hughes business, Buck's Superette was also doing a good business for open house customers, as approximately 500 residents viewed the new facilities. The store was "snowed under," according to Buck and Onie Bradshaw, owners. They, too, gave away free treats, with 15 cases (about 360) of pop given to visitors.
The store gave away trading stamps during the day, with Mrs. B. L. Winegeart receiving grand prize, a full book of stamps. Other recipients were Sidney Knight of Lovington, Mrs. Alvin Kriegel, Mrs. E. W. Kennedy, Mrs. M. T. Glasscock, Mrs. Johnny Chappell and Mrs. D. O. Rolland.
Mr. and Mrs. Elton Wallis and daughter visited in the home of Mr. and Mrs. Percy Tipton. They are from Jacksonville.

The Life Of Old Badger Our Dog, Who Died Twice, At The Age Of 91

He was never an overly friendly dog, but one of great loyalty and sincerity, void of all hypocrisy and deceit. It didn't like you, he made no pretenses. In that, he was considerable like his master. Most dogs anyone can fondle all over, but not old Badger. He liked to have his head patted, but that was all if you were a stranger. He took no chances. He allowed no wrestling or fighting among kids or grownups in our yard, he was lord and master in the boundaries of the yard, no stray dogs or cats unless it was our cat.
He and the cat always slept together in his barrel. When the cat has kittens, guess she didn't trust him during the event. She chose to have her kittens in the manger at the barn. The next morning as I went outside I believe he was the happiest I ever saw him. He raced to the stable door just as to say "open this door," and as I did, in the manger he went and there was the cat and five kittens. Later in the morning going to the barn I saw the cat and Badger meet about halfway, cat going to the barn and Badger coming to his barrel, both had a kitten in their mouths. He was carrying them to the barrel, she was carrying them back.
I believe if he had or could have chosen a profession, it would have been fighting and I hardly think he would have made a Floyd Patterson type, but more like the boy from Cut and Shoot, Texas. I believe he could take more punishment than he could dish out and his views were never dimmed by losing. He was brought home once by a neighbor—dead, he thought. But when he laid him in the shade and sprinkled some water on him, he came back to life.
His other hobbies were working stock, he dearly loved this. Never had to call him, he was there. He also liked to run rabbits, but seldom if ever caught one. It must have been for the sheer joy of the chase and the dog pride that the rabbit was scared of him. He was death on snakes. I farmed the Dr. Johnson place two years, that is where he got his stock training. Once I was pulling weeds from two children's graves that were buried there in the very early 1900s, think it was 1901. They were fenced. I was inside the fence pulling weeds, when all at once there was the dog and a rattlesnake.
It got too crowded for me so I gently stepped over the fence as you well know. The dog was only seven months old at the time. He was bitten and a very sick dog for about a week. Could owe my life to this faithful dog. I often think of him as the grandest dog that ever turned around three times and laid in a corner.
Wife was his first love—the reason, I always did the spanking, which was very few. His obedience to commands was outstanding and never did he fail to come to me and take his punishment or show resentment. After it was over, he would romp and jump and want to make up as we always did.
He has saved me innumerable steps, I could say to go get the cows and he was off, the cattle were not fearful of him, but held a deep respect for the boss of the pasture.
He was a great believer in crowds, dog crowds, and at times would leave home and be gone for three or four days at a time, and don't think he was too sociable at these parties, for when he came home, he looked as though he had been given a bad time. When we found him, would chain him up. He has had more romance on the end of a chain than lots of dogs have had in Hollywood running loose.
This faithful dog lived 13 years, have been told that a dog's life in years is seven to a man's one year. If that be true, then he lived to the ripe old age of 91 years.
This faithful sentry and general flunky, as old age crept upon him as it does to all—his joints stiffened with rheumatism, his eyes once so bright grew dull with blindness, his ears that once were so keen grew deaf, he could hardly get on his feet.
He was the picture of pain. But being a dog he could not plead his case. No doubt in the last days of his life his thought ran back to the countless cold nights that he watched over our property and us, from his barrel that he knew as home.
When he died, I just could not bury him, based on the fact that he never could stand being shut up, so after about four hours of study, I finally decided to take him to the sand hills, find a knoll with a plum bush to furnish him shade, that is where I left him. Wife said he deserved something better than that, but I thought that he would like it that way to have his bones scattered over the pastures that he loved so well. For he was indeed, boss of the pasture.
And neighbor, when some strange dog is giving you trouble in your yard, before you throw out poison, he could be the most lovable, tolerant and best friend to some little boy or girl, whom he flatters and acknowledges at his master.

Queen —

patronage to everyone for their patronage of the business under his management, and states "I hope you will continue to patronize the business under the ownership of Mr. Queen."

Pioneer Father —

failed, he had lived on a farm north of Muleshoe, and was a farmer and stockman.
Survivors include his wife, Lula; four children: Mrs. Thomas; Mrs. James Hobbs of Lovington; Gene Kistler of Rogers, Ark. and Merle Kistler of Panama, Calif.; nine grandchildren and eight great-grandchildren. All the children were with him at the time of his death.
Among those here for services were the members of the immediate family named above and their families; Mr. and Mrs. Warlick Thomas and daughter of Amarillo; and two brothers-in-law, Ross Woolpert and Glenn Woolpert of Topeka, Kan.

Two New Teachers Hired At Texico

Two new teachers have been hired at Texico for the coming term, according to an announcement this week by Buck Doran, superintendent, and both are planning to move to the community soon.
According to Doran, who will be serving his first term as superintendent, Bob Teel, a graduate of Field High School and the University of Nebraska at Lincoln, will be the high school science instructor. He holds a BS degree, having completed his college work in June. This will be his first teaching position.
Teel is married and is the father of one daughter, who is about six weeks old. He is now living in Clovis and working with his father, Earl Teel.
Ken Hanks, who has served as science instructor, resigned his position recently, and is now at Texas Tech in Lubbock where he is furthering his education under a grant administered by the National Science Foundation. He is studying specialized subjects in the field of biology.
Also hired to teach in the Texico School system is Mrs. Zalfa Younger, who will serve as grade school principal. She has been an instructor in Curry County, and has taught in the Loving system. Her husband will be an instructor in Clovis schools and the couple will live in Texico, according to Doran.
Other teachers who are planning to remain on the Texico faculty are: Mrs. Leroy Faville and Mrs. Viola Mitchell, first grades; Mrs. C. B. Stockton, and Mrs. Gerald Wilkinson, second; Mrs. Curtis Miller, third; Mrs. Avis Patterson, fourth; Mrs. N. W. Peyton, fifth; and Mrs. B. A. Rogers, sixth.
The school has been reorganized under the 6-6 plan with the seventh grade through high school departmentalized. Also, plans are to schedule classes for one hour periods, and a 20-unit graduation plan is slated. Eventually the school will operate on the 24-unit graduation plan, says Doran.
In the high school and junior high, says the administrator, will be Curtis Miller, junior high coach and social science; Mrs. Fred Danforth, commerce; Gerald Wilkinson, junior high math; Fred Danforth, band; Paul Frederick, high

Wheat Rolls —

that most of the wheat is still wet, and he doesn't expect the rush to begin for another week yet. He says some good barley yields have been reported. Robert Rundell of the Oklahoma Lane community is reported to have made from 80 to 90 bushels per acre. Barley is quoted at about \$1.75 per bushel this spring.
Also getting wheat Saturday was Sherley-Anderson-Pitman, Inc. Bull Dollar reports that a load from the Charles Seale farm east of town came in that afternoon.
It also was dry, testing

10.92 moisture content. Dollar believes that wheat yields will be better than was feared after the heavy hail and rain of three weeks ago. He also says that most wheat is "good and heavy."
C. M. Henderson, who weighs in wheat for Mathes Grain, reports the highest yield. He says that Duane and Jerald Curtis, who farm southeast of Farwell, are estimating around 80 bushels an acre on their Crockett wheat. This phenomenal yield was on a certified field. Registered Crockett was making around 50 bushels. The grain first arrived shortly after noon Monday. Moisture was 12 percent, test weight 61 pounds.

Prentice Mills was in Silverton over the weekend where he, Jim Whitfield and his son, Keith, enjoyed fishing in the canyon near there.

Early Fruit Set A Must

Since from 40 to 60 percent of the Farmer County area cotton crop has had to be planted over following the heavy rains, hail, and wind of three weeks ago, cotton growers are in a contest with Father Time that

will be nip and tuck all the way. County Agent Joe Jones, after a survey of crops across the county, this week issued a strong recommendation to cotton growers to take particular

care that their early fruit is set and that they not allow insects to retard plant development. "We have heavy infestation of insects, particularly thrip, all over the area," he says,

"and they are definitely holding our cotton back." The county agent urged that measures, such as spraying and dusting, be taken to control this menace to the crop. Some farmers may not see

the significance of insect control at this stage of the game, says Jones, but it is very important that the cotton be given every chance it can to set fruit and start on its long road toward maturity.

"The insect is one thing we have a pretty good control over," says Jones. "We can't do much about the weather and will just have to take our chances, but we can keep the bugs out."

If the end of the growing season comes at a normal date this fall, growers have only about 120 days in which to produce their cotton. This is already several weeks short of the "normal" time for most varieties to mature, and so

the farmer is already critically behind nature.

The weather now is warm and the cotton should be advancing rapidly. "Everyday we lose at this stage is just like moving the first freeze up a day," points out Jones. "Farmers should get out into the fields and really make a close inspection of their crop. If they will examine the first true leaf being made by the plant, chances are they'll see that the thrip is curling the leaf and holding the plant back."

The county agent says that it is true that the raggedness of the cotton leaves in many fields is not all attributable to insects, since flying sand, rain, or hail has had its definite effect. But he reiterates that something can be done about insects, while it can't about these other hazards.

No one can say how the growing conditions will be from

now until harvest time, but the county agent says that farmers should continue to think in terms of one watering when the cotton is blooming, as any other irrigation may produce unwanted growth that will pull down the quality of the cotton and lower crop profit.

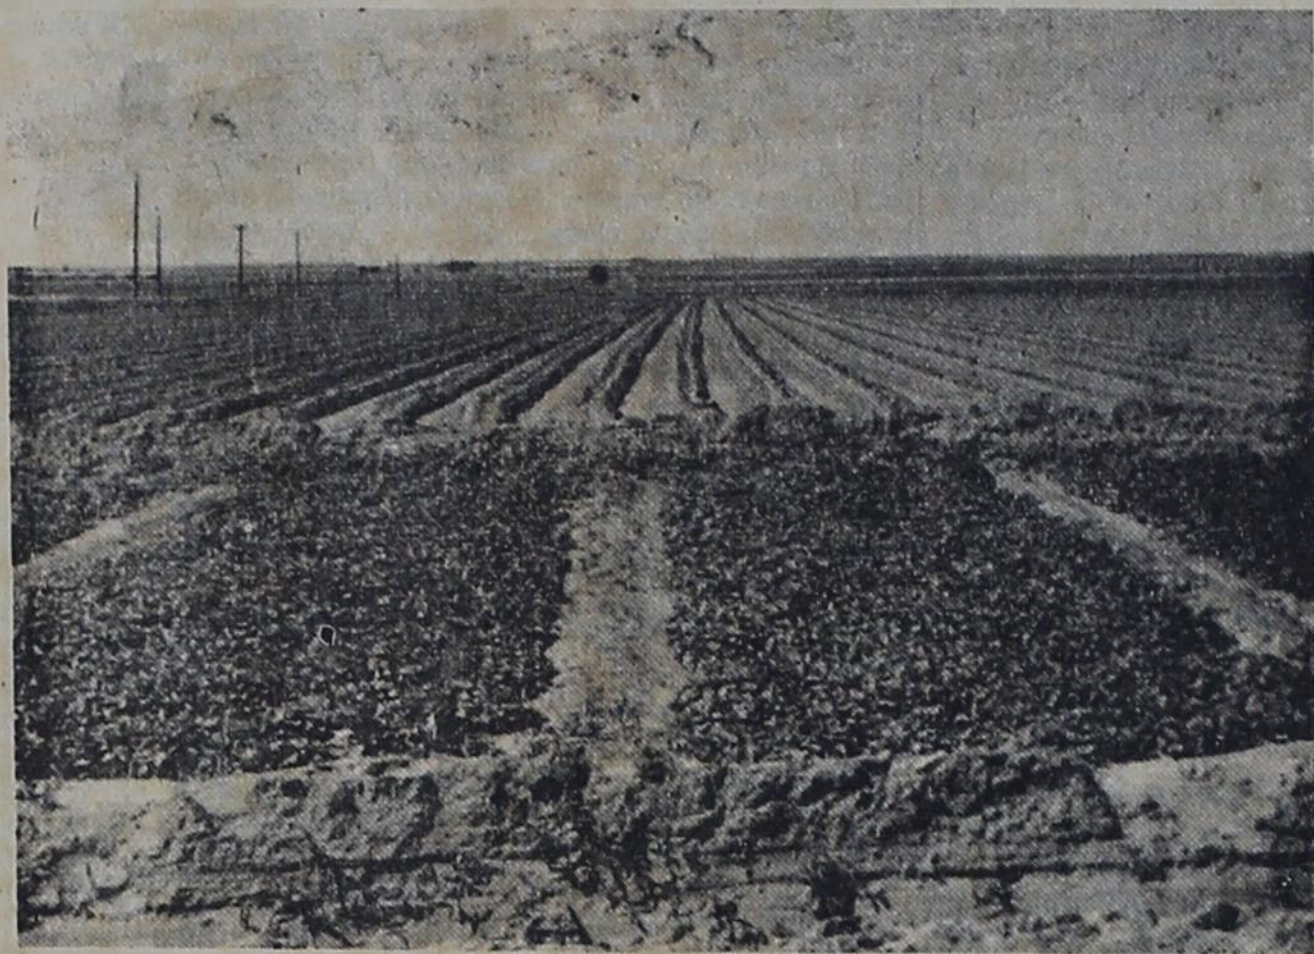

Farmer County growers have the most "shook up" crop in history. About half of the stand is very young, just having come up after re-planting following the bad weather. Another approximate one-fourth of the crop has suffered moderate to heavy weather damage, but farmers have decided that a thin early stand is better than a good late one, and left the crop in. The remaining one-fourth is in good to excellent condition, being mainly constituted of those fortunate fields where severe weather passed them by.

THE HIGH PLAINS FARM AND HOME

DEEP IN POTATOES--Hardy May, Friona farmer, inspects his potato crop southeast of Friona. "The potatoes are doing real fine so far, he says."

ONLY FIELD OF ITS KIND---This is the only field of sweet potatoes in Farmer County. Joe Morris, who farms 2 miles east and one mile south of Friona, planted this 40 acres as a result of the 10 acres he grew last year.

Potato Outlook Best Since 1956, Says O'Haugherty

"This looks like the best potato crop in many years. None of the potatoes were hit by the recent hail, the market is high and there is no sign of disease."

This is the report received from John O'Haugherty salesman for Friona Growers and Shippers.

There are approximately 650 acres of potatoes in the Friona area, the great majority of

them the red variety. If nothing happens this year will be better on potatoes for yield, quality and the market, O'Haugherty says.

Area farmers report their crops are all looking good. Those areas that did receive a small amount of hail were not damaged any appreciable amount.

Hardy May, who farms one mile south and two miles east of Friona, says his potatoes are looking good. He has 90 acres in the red variety and so far is well pleased with them.

The onion crop this year will not be too great. The onions that have been planted were planted from seed, as the blight got the onion sets to be used while they were still in the valley.

Carrots are the second big vegetable crop this year. There are about 200 acres that are already in a good stand. There will be more planted and a medium market is expected this

year. Some acreage was lost during the heavy rains. May says he lost 20 out of 45 acres, but that he will replant.

Peppers are planted in only small acreage. The pepper crop last year was low and many of the farmers did not plant them this year. Of the small amount of peppers that were planted, many of them were washed over during the rains.

From all the reports, potatoes are the big vegetable crop for the year. O'Haugherty says that Friona Growers and Shippers have added about \$6,000 or \$7,000 worth of potato machinery this year to help with the processing.

Another potato, but a different variety from the red, is the sweet potato. Joe Morris, who farms next to May, has 40 acres planted to sweet potatoes. He planted about 10 acres last year, and was pleased with them so he increased his acreage this year.

They are the only sweet potatoes in the Friona area. Morris and May are co-owners of the only transplanter in Farmer County. They use the machine for transplanting tomato and sweet potato plants.

Date Set For '60 Wheat Quota Vote

Marketing quotas for the 1960 wheat crop have been proclaimed by the secretary of agriculture, as required by legislation whenever the available supply of wheat is more than 20 per cent above the normal supply.

However, quotas will not become effective unless they are approved by at least two-thirds of the producers voting in the referendum, which will be July 23.

If quotas are approved for the 1960 wheat crop, it will mark the seventh consecutive year they have been used for wheat. Wheat quotas and acreage allotments apply only in the 39 so-called "commercial" wheat states, of which Texas is one.

The present law, says Prentice Mills of the ASC, states that to be eligible to vote in the referendum, a grower must expect to have more than 15 acres of wheat for harvest as grain in 1960.

A wheat grower who signs an application under the feed

wheat provision permitting him to produce up to 30 acres of wheat as feed on his farm will not be eligible to vote. Every wheat grower will be informed of the individual wheat allotment for his farm in advance of the referendum date.

As usual, the ASC committee will set up polling places throughout the county for the convenience of farmers in voting. Locations will be announced later by the county ASC office.

If quotas are not approved, there will be no restrictions on wheat marketings.

Hollis Horton was one of the judges for the beauty contest in Clovis last Thursday. He helped select the Dairy Princess for district four on New Mexico. Just goes to show that you can't be sure what your in-laws may do. Other judges at the contest were Steve Bavousett and Flake Barber.
PCICN
The new roto-matic precision power steering is far easier, much more responsive, even better road fuel, new cornering stability, straightens out automatically, safer control, stays "on course" better, pin point precision. You'll never know what you are missing until you try it.
PCICN
Think how much time is wasted by ministers of the churches. There's such a little bit of difference between church members and non-church members a minister may waste quite a bit of time trying to "save" a man only to find he's already a steward or deacon in somebody else's church.
PCICN
John Gaede drove into Friona Saturday with three new International V-8 pickups. Better drop by and see these. John doesn't argue much about going to Springfield, Mo., after the new pickups since he must pass directly through Columbia, Mo., where Maurice, John's son, and his wife live. So he is able to combine his visiting with his business.
PCICN
Wes Izzard says Americans are more worried about their weight and a place to park than about the atom bomb and communism.
PCICN
Scientific farming has come a long way in the last few years. Farmers have learned to control the moisture, by irrigation, the land with fertilizer, the seed by certification and the bugs by spraying, but so far they haven't been able to control the hail. Maybe that, too, will be controlled before long.
Flake Barber of the Ethridge-Spring Agency has been busy most of the past couple of weeks with hail insurance adjusters. Flake says usually an adjuster can work 3 or 4 farms per day but they averaged about 13 per day in Farmer County because so many wheat fields were a total loss.

Many Need 'Hopper Control'

Control measures against grasshoppers have become necessary on many farms in the Farmer County area. County agent Joe Jones reports that much spraying activity has been going on to combat the locusts. Grasshoppers can be controlled with aldrin, chlordane,

toxaphene, or heptachlor. Spraying on the chemicals has proved very popular and effective. The worst areas of infestation have been in ditches, turn-rows, and along the edges of soil bank land. Wheat, cotton, and young grain sorghum fields are all getting their share of the 'hoppers, who migrate from undisturbed land.

Some spraying formulas that are successful: aldrin, 1 1/2 to 2 ounces; chlordane, 1/2 to 1 pound; heptachlor, 3 to 4 ounces; and toxaphene, 1 to 1 1/2 pounds. This is on a per-acre basis.

Use the higher dosages when vegetation is tall and dense, or when grasshoppers are adults. The higher dosages are needed for the treatment of barrier strips or for when temperatures are high and grasshoppers are full grown.

as some bills if passed would have done. We have another year of operating our tractors without paying for public roads with road tax. Smokers will contribute more to the tax til, which we think is all right. Liquor distillers and distributors and drinkers will pay more, too, and we believe it still is not enough.

As the bill stands now, it appears that most of the increased revenues will come from the less necessary items of life. The only thing we would like to see, that is not being done, is more economy in state government. There is plenty of room for improvement in this field in the federal government too.

Farm Bureau members have had another successful session in state and federal legislation. Not all, but much of the desired legislation championed by your representatives has been achieved.

We have a copy of "Let's Be Right on Flag Etiquette," published by The National Americanism Commission of

THE HAPPY HOMEMAKER

BY JUNE FLOYD

Last week we ran several recipes that were selected to help use home canned fruits and vegetables in a variety of ways. Our first recipe this week makes use of canned vegetables and canned chicken.

CASSEROLE OF BAKED CHICKEN

1/2 cup cubed potatoes
2 tablespoons butter
1 tablespoon flour
1 teaspoon salt
1/4 teaspoon pepper
1 cup milk
1/2 cup chicken broth
1/2 cup grated American cheese

2 cups cubed canned chicken
1 cup canned peas
1/2 cup chopped celery
1/2 cup crushed corn flakes
Cook potatoes in rapidly boiling water until tender. Drain. Melt butter in saucepan; stir in flour, salt and pepper. Add milk and broth and cook until slightly thickened. Add the cheese and heat until cheese is melted.

Mix the chicken, peas, celery and potatoes. Put in breaded baking dish and pour the cheese sauce over it. Top with crushed corn flakes. Bake in 35 degree oven for 25 minutes.

If you've made peach cob-

The American Legion. Some of the things included in Public Law 829 are very commendable. Three of the suggestions are: The flag should be displayed daily, weather permitting, on or near the main administration building of every public institution.

The flag should be displayed in or near every polling place on election days. The flag should be displayed during school days in or near every school house.

We would like to see the flag displayed more than it is. We are going to get a flag and join those who do display them at appropriate times. We believe in America.

CONSIDER THIS: As a bird that wandereth from her nest, so is a man that wandereth from his place. Prov. 27:8

blers until every member of the family is becoming tired of them, you might like to try this variation.

PEACH CUSTARD PIE

1 pint canned peaches
milk
1/3 cup sugar
1/2 teaspoon salt
3 tablespoons corn starch
2 eggs, separated
1 tablespoon butter or margarine

1 teaspoon lemon juice
1/8 teaspoon almond extract
1 9-inch baked pie shell

Drain juice thoroughly from peaches. Slice peaches. Measure juice and add enough milk to make two cups. Combine sugar, salt and corn starch. Add peach juice mixture and stir until blended.

Heat to boiling, then boil gently 1 minute or until mixture thickens, stirring constantly. Beat egg yolks; gradually add the hot mixture, stirring thoroughly. Return to saucepan and continue to cook 2 minutes.

Remove from heat, add butter, lemon juice and almond extract. Mix well. Gently fold the hot mixture into the stiffly beaten egg whites. Pour a small amount of custard in bottom of pie shell. Place peach slices over custard, add remaining filling. Chill. Makes one 9-inch pie or 6 to 8 servings.

Mrs. G. W. Morris of Friona makes a delicious German Fruit Cake. About one year ago her recipe was printed in the Amarillo News-Globe and we are reprinting it here.

GERMAN FRUIT CAKE

1 cup butter
2 cups sugar
1/3 cup jam or jelly
1/3 cup chopped raisins
1 cup chopped nuts
1/2 cup sweet milk
1 cup mashed potatoes
4 egg yolks
2 cups flour
1 teaspoon cloves
1 teaspoon cinnamon
1 teaspoon nutmeg
2 teaspoons baking powder
4 egg whites, beaten
1/4 teaspoon salt

Mix all ingredients together and bake in 3 layers in 375 degree oven.

ICING

2 cups brown sugar
1 cup cream
2 tablespoons butter
Combine ingredients and cook until soft ball is formed in water, add 1 teaspoon vanilla, beat until creamy and add nuts if desired.

If there is someone in your family who is underweight, encourage the drinking of a glass of half milk and half cream immediately before retiring each evening.

If you have difficulty remembering the number of drops required when the recipe calls for a teaspoon and other like facts, you should clip the following table out and paste it inside your favorite cookbook:

STANDARD MEASURES

40 to 50 drops--1 teaspoon
3 teaspoons--1 tablespoon
2 tablespoons--1 fluid ounce
16 tablespoons--1 cup
2 cups--1 pint
2 pints--1 quart
4 quarts--1 gallon
8 quarts--1 peck
4 pecks--1 bushel
2 2/3 cups brown sugar--1 pound
2 cups granulated sugar--1 pound
2 sticks oleo--1 cup

July 1 Deadline On Wheat

The ASC county office is accepting wheat allotment applications for certain farms, announces Prentice Mills, office manager. Archie Tarter, ASC committee chairman, explains the procedure like this: "A producer who intends to seed wheat for 1960 on a farm on which no wheat was

seeded for harvest as grain in 1957 and for which a 1958 and 1959 wheat allotment was not established, irrespective of whether wheat was seeded for harvest as grain in either 1958 or 1959, and who desires to be considered for an allotment, must apply."

able in the county office. The producer must apply in writing by July 1.

Rural Electricity IS YOUR PARDNER

For Greater Dairy Profits

The great network of power through this area has helped make today's dairy as modern as today's factories, and electricity is always on the job--ready to serve the dairy farmer economically--at the flick of a switch. To the dairymen of the area we say, "More Power To You." Let's all observe Dairy Month by using plenty of fine dairy foods and continue to use them throughout the year.

The Dairy Industry Rural Electricity

is observing National Dairy Month during the month of June. Let us take time to say "Thank You" to the men and women who make it possible for us to offer our youngsters good pure milk and milk products every day of the year.

has been one of the most important factors in the growth of the Dairy Industry in our area. This economical workmate of the dairyman makes possible the power and machinery that is needed to operate a dairy farm.

LEWIS GORE, who has a dairy farm north and west of Friona, utilizes the services of Deaf Smith County Electric's Willie Wirehand to the fullest extent to trim the work involved in his operation. Above, Lewis uses electricity to make the job of milking easier, as he put it, "both for the cow and myself." Below, following the milking operation itself, the milk is stored in an all stainless steel milk tank where it is cooled and kept moving by electricity.

Wheat Rolling In

The season's first wheat has been received at nearly all points in the Farmer County area, either this week or the latter part of last week. Reports that are coming in are raising optimism about the crop.

Estimates of the weather damage had ranged up to 60,

percent of the crop, but farmers seem to feel they'll be able to recover substantially more than that.

Weather has been almost ideal for the past 10 days to finish out the crop, and if it remains dry, combines will be going full blast before another week is out.

In recent years, wheat harvest time has shortened to only a few weeks in duration. Modern combines now give a "mop up" effect to harvest whenever the golden grain finally reaches maturity.

Reports of the harvest will be printed in the usual community roundup style of Farm and Home in another week or two.

SOIL CONSERVATION DISTRICT NEWS

Proper use of crop residues was one of the farming practices developed to combat the wind erosion that plagued the plains country in the mid-thirties. It likely played one of the greatest parts in getting a return to normal conditions at that time and it is surprising to find burning of stubble still practiced in this area.

Soil needs a protective cover at all times whether it is in the form of crop residues on the surface or growing crop. The soil also needs to have the crop residues returned for plant food and as a soil conditioner.

It's quite true that these residues create a problem in replanting. By burning the stubble the number of tillage practices needed to get the kind of seedbed desired is reduced considerably. Doing this also shortens the time needed for preparation. Reason for burning of crop residue is based largely on the idea that it provides a reduction in cost. It means that a seedbed can be

prepared without extra time and expense.

By doing this future gains in production are sacrificed for immediate reduction in cost. Fortunately not a great many have gone this route. Proper use of residues is one thing that is keeping the soil down and production high. To those who are planning to burn wheat stubble--look at it this way--It is an immediate reduction in cost with the prospect of future losses of soil and lower production.

Loss of soil is a permanent one. Loss of productivity may be regained to a certain extent through additional fertilizers, which of course means increased cost.

Another undesirable feature of destroying crop residues by burning is the effect it has on soil condition. The condition of soil gradually deteriorates in cultivated land over a good many years. Burning steps up the pace of de-

terioration. To prevent this lowering of soil condition, all crop residues possible must be returned to the soil.

When soil was in its native original condition, it was in its most productive state. At this time the soil was filled with grass roots, decaying organic material and millions of both microscopic and small visible soil organisms. When this soil was plowed for farming it was permeable and productive. It had all the organic material and soil organisms that were necessary for breaking down these residues into plant food for growth. The soil was also open and porous and the organisms could do their work in the presence of air and moisture which are necessary for their survival. If crop residues are burned, the food needed not only by these organisms but by future crops is taken away. Burning also directly destroys these organisms present in the soil making the condition more serious.

As this same soil is farmed year after year the original and productive condition gradually disappears unless all the crop residues are returned to the soil and a soil improving crop such as legumes or grasses is used in the crop rotation. The residues returned to the soil merely replace a part of that which is harvested. To take all and return none results in an unproductive and diminishing return from the land.

We have all observed how irrigated land gradually loses its ability and capacity for taking up water. This, again, is where the proper use of crop

Special Light Spot Grade Worth Millions to Growers

Light spotted cotton on the Texas High Plains is going to be worth several million dollars more to farmers this year.

Separate price support rates for split grades are a feature of the 1959 cotton law and represents attainment of one of the major goals of the Plains Cotton Growers, Inc.

Just recognition for light spots was one of the first goals adopted by officers and staff members of the PCG more

than three years ago. "It took nearly three years of hard work negotiating with the U. S. Department of Agriculture, other producer organizations, and leaders throughout the cotton industry as well as with Congressmen and Senators before the PCG saw light spotted cotton recognized for its true value," W. O. Fortenberry, president, said.

Records show that the Texas High Plains crop sometimes averages as much as 50 percent light spot during the crop year. Previously the Commodity Credit Corporation did not recognize light spots as a separate grade. A producer putting light spotted cotton into the government loan received only the value for full or heavy spotted cotton.

The cotton trade has at times given substantial premiums for light spots over the full spot, which accounted for the fact that light spotted cotton was nearly always the first cotton from the Plains to move into trade channels. However, the producer had no real price protection on light spots other than the full spotted loan.

"The loan difference between spotted and white cotton has been widening rapidly the past several years. In 1956 the difference between a bale of Middling inch white cotton and a Middling inch spotted or light spotted bale was 440 points or \$22 per bale. In 1957 this difference had widened to 575 points or \$28.75 per bale, and in 1958 had widened still further to 725 points or \$36.25 per bale," according to George W. Pfeifferberger, executive vice president of the PCG.

"Since all spinning records and experience show that light spotted cotton is practically equal to white cotton in value and the physical difference in classing is often quite small, the difference of \$36.25 per bale has become ridiculous," Pfeifferberger stressed.

Recognition of light spots in the government loan this year guarantees the farmer a loan on light spotted cotton 355 points above the spotted loan price. This would be the same as a premium of 355 points for his light spotted cotton this year, whereas last year he had no guarantee in the loan and his actual sales depended on what

H. D. AGENT'S CORNER
Jimmie Lou Wainscott

Going away this summer? Take no more clothes than is absolutely essential, suggest extension clothing specialists. Traveling with light baggage is lots easier these days with all the new fabrics and finishes which make clothing so much easier to care for.

Make a plan and build your wardrobe around a basic color scheme. Well chosen separates and such small accessories as scarfs, flowers and jewelry help vary your costume.

Take the type of clothes you know you like to wear. As useful as separates are to most women, if you don't like to wear them at home you won't like them away from home. The same thing applies to knitted suits and dresses. They're ideal for packing but remember you want clothes ideal for wearing, too.

Be practical but not drab. When in doubt, don't take that extra dress.

In sections of the country where the water is hard, women are accustomed to the fact that you must soften the water to get cotton clothes really clean when laundering, but sometimes overlook the fact that you must soften rinse water as well as the washing water. Some interesting tests have been made in washing cottons in the South Dakota Experiment Station, say extension home management specialists.

Most women understand that soap unites with the minerals in hard water to form a soap curd or scum which clings to fabrics and leaves them with a gray, dingy appearance. Many do not realize that this can take place when you rinse with hard water as well as when you wash with hard water. There is enough soap left in the clothes

FARM & RANCH LOANS Long Term-Low Interest
Ethridge-Spring Agency, Friona
Phone 8811

to form this curd in the rinse and the clothes will eventually become grayish.

In the tests made in South Dakota, cottons rinsed in hard water, after a soft water wash did not come out as clean as those rinsed in soft water. In fact, it was found that the cottons washed in soft water were three times as clean as those washed in hard water.

Fatigue comes easier during hot weather.

A tired feeling often brings an irritable disposition and cuts down efficiency on the job. It can also increase susceptibility to disease or accidents, according to extension home management specialists.

If you are feeling more tired than usual, stop and analyze yourself and your working methods -- specialists say that boredom and frustration, as well as such physical factors as overwork and strain, will cause that tired feeling.

Short rest periods from 10 to 20 minutes will work wonders if you are tired from heavy work. A change of environment or activities will often relieve fatigue caused by boredom or monotony.

Efficient, happy homemakers have found that these simple rules will help to fight fatigue and make work more interesting.

First -- check your kitchen and household storage -- is everything within easy reach? Keep cleaning tools in good repair and located close to the job.

Wear comfortable work clothes and sit as much as possible while you work.

Study your jobs and organize the work in assembly line fashion . . . Use both hands whenever possible.

Don't try to stay with a heavy or difficult job too long -- Intersperse big jobs with easier ones and rest at intervals.

Thorough cleaning and correct spray treatment will protect carpets and rugs from clothes moths and carpet beetles, according to extension home management specialists.

Regular care with the vacuum cleaner is the first step. It prevents dust, lint and hair from accumulating and offering extra food for the pests. It can also remove the insects themselves and their eggs. These usually feed under heavy furniture where it is difficult to clean. Rotate rugs and carpets occasionally to make sure all areas are exposed to regular cleaning, light and air.

Entomologists advise a five percent DDT oil solution on rugs and carpets every 12 to 18 months. For a 9 by 12 rug of average weight, you will need 1 1/2 to 2 quarts of spray. Rug pads of animal hair or wool, will need spraying on both sides unless they have been treated previously.

When spraying wall-to-wall carpeting give special attention to edges and parts that have been under a piano, sofa or other heavy furniture piece.

Call on the expert help of a carpet-cleaning or pest-control firm if you have qualms about doing expensive rugs.
