

BY HOP, JR.

Wolverines Take District, In Regional Friday

In thrill-a-minute finals of District 6-B tournament in Portales Saturday night, Texico's tall and talented Wolverines came out with a 47-38 victory over defending 6-B champs, Ft. Sumner.

The Wolverines jumped into an early lead by making the first basket and popped the net again before Ft. Sumner could manage a basket. The Foxes, not to be outdone, made two quick baskets knotting the score at 4-4. Again the Wolverines pulled out in front and held a 8-6 first-quarter lead.

In the second quarter the Wolverines hit 12 points while the Foxes managed only 10 and were ahead 4 points, 20-16 at the end of the first half. However the Foxes came back

from the halftime rest with renewed energy and outscored the Wolverines 14-11, in the third quarter leaving the Texico five only one point ahead going into the final eight minutes of play.

At the start of the last quarter Ft. Sumner controlled the tip and scored a quick basket to put them ahead for the first time in the game, 32-31, but Texico's Kenneth Murdick and Dwight Turner with consecutive jump shots put the Wolverines ahead to stay.

The Wolverines widened the margin in the closing seconds of play by scoring a total of 16 points to the Foxes' eight in the quarter.

Charles Stockton led the Wolverines in the scoring with 19 points and played an out-

standing defensive game as well. Two other Wolverines, Don Johnson and Wesley Engram, hit in the twin-figures with 10 points each.

Stockton also led in scoring for the entire tournament having a total of 49 points for the three games giving him a 16 1/3 point average per game.

The Wolverines will meet Mosquero, second place winners of district 7-B, Friday night in Tucumcari in the first round of the regional tournament. Game time is 7 p. m. (mst). In the nightcap game, Ft. Sumner will meet San Jon, winners of the district 7-B tournament. Friday night's winners will meet Saturday night to determine the regional champ. If the Wolverines manage to

defeat Mosquero they automatically gain a berth in the State tournament to be played March 10-11-12 in Albuquerque.

In winning the nine-team tournament the Wolverines downed Elida and Melrose in that order before meeting the Foxes in the finals.

Thursday night the Wolverines met Elida in what was their worst night of play in the tourney. They had trouble controlling their passes and handling the ball.

Early in the game they forged ahead of the Elida team and held a 9-6 lead after one period of play. In the second quarter the

TEXICO'S SEVEN SENIOR LETTERMEN are getting inside dope from team coach, Paul Frederick, before entering regional tournament play tomorrow (Friday) night at Tucumcari. Back row, left to right are Wesley Engram, Charles Stockton, Urel Doran, and Bobby Walker. Front row, left to right are Tommy Standefer, Jackie Morris, and Don Johnson.

Grand, Petit Juries Meet Monday

The Parmer County grand jury makes its annual March trek to the county courthouse Monday, March 7.

From a panel of 16 men will be selected a jury to investigate 10 criminal complaints, and it will be for them to decide whether indictments will be made and the persons formally charged, or whether the cases will be dropped before they actually go to court.

Offenses include worthless checks, thefts and burglaries, and destruction of private properties. Some of the complaints have been made recently; others have been on tap since the fall G-J session.

To report for service as grand jurors are Walter Hardage, C. C. Christian, W. N. Foster, Herbert Potts, Jack Clayton, J. D. Kirkpatrick, Monty Barrett, Don Murphy;

B. V. Hughes, E. E. Engleking, C. E. Clark, Virgil Teague, Ernest Anthony, Clyde Goodwine, Rene Snead, and John Henderson.

There will probably be no criminal cases tried by jury, but five cases are on the docket in civil petitions. A panel of 48 men and women has been summoned to report for jury duty. The list:

Claude Rose, E. E. Landrum, Mrs. C. P. Fairchild, A. L. Black, Dean Blackburn, J. E. Sherrill Jr., James. Ussery, James. W. Patrick, C. A. Felts, O. J. Beene, Boone Allison, Raymond Mears;

WESLEY MICKEY

Church Of Christ To Have March Gospel Meeting

A gospel meeting has been scheduled for March 7-13 at Farwell Church of Christ.

Services will be twice daily, with morning worship beginning at 10, and evening services at 7. Wesley Mickey from Weatherford will be evangelist, and Bruce Rhodes from Portales will lead the singing.

Mickey has preached at several meetings in the community and is well known here.

J. A. Loflin, Joe Douglas, Willie Williams, Fred Curtis, W. H. Graham, A. O. Gast, William B. McKowan, D. W. Bagley, Nat Reed, J. H. McDorman, Bedford Caldwell,

Cary Joe Magness; Mrs. Billie Sudderth, Clay Henson, J. W. Brock, H. H. Kelso, W. F. Buske, L. L. Norton, Alex Jesko, W. P. McMinn, Doyce Barnett, Sam

Bailey, Herbert Schueler, R. L. Douglas Sr.;

Kenneth Neill, Charles B. Baunum, W. A. Mace, Cecil White, J. T. Coburn, Ross Ayers, Dee Owens, Willis Hester, E. J. Hodges, Joe Fallwell, Laurence Jamerson, and L. F. Bruns.

Civil disputes are always subject to last-minute settlement. It is not unusual to see adjustments completed out of court on the day the case is to be heard. At least one which had

A husband's skill, a wife's encouragement and a definite goal have added two new trophies to the collection of Mr. and Mrs. Orle Jones to bring the total to an even dozen. The couple brought home the sweepstakes award for the seventh annual Texas Panhandle Timing Association Car Show, held in Amarillo over the weekend.

Their 12 trophies have been won in drag racing and other car shows, but the award of the past weekend was by far the biggest honor of them all. Contestants were in Amarillo with hot rods and customized cars from Texas, New Mexico and Oklahoma. Over 30 cars were judged.

The five-foot high sweepstakes trophy was a pleasant problem for Peggy Jones, wife of Orle, when she began finding a place to display it. The other awards look fine on the mantel, but the newest trophy is placed on the buffet, and almost touches the ceiling, at that. The young couple received a \$100 bond and \$50 free chrome work.

The Jones car also placed first in its class--street roadster. This vehicle, according to Jones, is one that can be used for competition or for street driving.

Jones began work on the show car last spring. The couple had won second place at the show with another vehicle last year. They decided they wanted to try for sweepstakes this year and began planning im-

provements to the car. The car is a family project received a \$100 bond and \$50 free chrome work.

A double-barrelled celebration--a new location and a business anniversary--are in store for Helton Oil Company

Schedule Grand Opening

The City Cafe in Farwell, now under new management, will have its grand opening Saturday of this week. Free coffee and doughnuts will be served all day.

The local business is now being operated by Mr. and Mrs. Buck Bradshaw, who also own Much's Superette in east Farwell. The Bradshaws took over the cafe recently from Alton and Floyd Milstead, who moved across the community to take over an eating establishment in Texico.

The cafe has been redecorated. It will be open on Sundays and will feature a special Sunday menu, says Bradshaw.

Friends of the Bradshaws are invited in for the grand opening.

Carby's TV Opens In Farwell

Farwell has a new television repair service. It is Carby's TV Shop, owned and operated by E. L. Carby.

The firm opened for business this week and is located just east of McDorman Laundry in downtown Farwell. Carby is the brother-in-law of J. H. McDorman, and the latter will assist the man in the operation of the new business.

Carby's will be open during regular business hours, and repair service will be done on an "after-hours" basis. The reason for this is that the owner is employed in Clovis during the daytime.

However, sets will be taken in and repair work scheduled for during regular business hours, it is pointed out.

11 Candles On Helton Oil's Birthday Cake

On Tuesday, March 8, they will officially open their new bulk plant, warehouse and offices for inspection by the public, and will mark the calendar as the 11th anniversary of the firm in the Twin Cities.

Door prizes and favors will be handed out to visitors, and the public will get a "cook's tour" of the new home of Helton Oil. It is being completed only this week, and the transfer from the old warehouse is being made in jig time.

Helton Oil employees will have plenty of elbow room in their new layout. They've about two and a half acres fenced in for trucks, storage, tanks, loading ramps, the warehouse, and offices. The business is nestled against the state line.

The new location is quite a contrast to the old warehouse across the highway and near the railroad tracks, which has served the local owners for over a decade.

Joe and Dardanella Helton came to Texico-Farwell in the spring of 1949 and purchased the Phillips jobber business from D. W. Bagley. They didn't know it then, but they were arriving on the threshold of the biggest change in agriculture (the principal customers of the business) in history.

Mutt Magness had an irrigation well south of Farwell which ran on gasoline. That was the only irrigation customer the Heltons had. In only a short time, well drilling spread like wildfire, and during 1952 and 1953, the business was hard pressed to keep up with providing butane to customers who were putting in wells.

"We were buying butane tanks by the truckload," remembers

Joe. In about three years, the firm's irrigation well business jumped from one to 170. That was the peak. Since that time the "boom" of irrigation wells has been transferred to natural gas.

However, the irrigated farm customer is still the backbone of the Helton business. Requirements for butane, gasoline, lubricants and supplies are many times greater than under the old style of dryland farming.

Both of the Heltons consider Groom, northeast of Amarillo, as their home town. Although they knew each other when in high school there, serious courtship was not until college days.

Joe was a student at West Texas State, Canyon, Dardanella transferred there from Amarillo Junior College, and

Food Handlers Must Have Certificates

All food handlers in the county (referring to all those persons who handle food in cafes, restaurants and stores selling ready to eat items) are warned to obtain proper health certificates, says Dr. Paul Spring of Friona, county health officer.

Dr. Spring emphasized that all food handlers are required by state law to have in their possession, or in their place of business, a valid health certificate.

Failure to comply with this law draws a penalty of from \$10 to \$200 fine.

Dr. Spring urged that all persons engaged in food handling obtain a certificate as soon as possible.

to every resident.

The need for the public school never changes, but times and conditions may change or require to be changed methods and practices of public education. This is inherent with anything that grows, for growth is the result of change.

Our Texas public schools were created 106 years ago. In 1854 the first law was passed establishing the public school.

It is a healthy thing in our democratic way of life to have intelligent understanding of the important functions of our basic institutions. This is especially true of the schools.

The initiative and resourcefulness and the wisdom and leadership that our schools are inculcating in the youth of today are the answer of the problems of citizenship in the years ahead.

Yes, "bring me men to match my mountains." That is the need of our times and must come from the public schools--schools that are strong in virtues required for building strong men and women.

MR. AND MRS. JOE HELTON

'Meet Your Teachers'

This is Public Schools Week in Texas. The Farwell Schools have been observing the special occasion with a well-rounded program designed especially to acquaint parents with the local system: The Tribune hopes that the public has participated in this effort to keep school patrons informed. We realize that the weather has been unfavorable.

As a salute to the public school system of the community and state, and as a means of getting the faculty of the entire school better acquainted with residents, local merchants have cooperated to bring the readers of The Tribune a "Meet Your Teachers" section.

In this part of the paper, teachers are introduced, their pictures are printed, and a short biography of their home, educational background, and training appears. We know that the readers will find this section of great interest. Also in this section, there appear numerous informative articles concerning public school education in Texas, which is a subject important

Of Interest To THE WOMEN

Delta Kappa Gamma Meeting Held Saturday In Farwell

Members of the Parmer County Delta Kappa Gamma were hostesses for a morning coffee in Farwell homemaking cottage Saturday morning. Mrs. Alice Jay Tucker presided at the coffee service and Mrs. Harry Whitley registered guests.

In spite of unfavorable weather conditions 26 Delta Xi Chapter members from Deaf Smith, Castro and Parmer Counties were present. Mrs. John Boling presided at the business meeting in the absence of the president.

Officers elected for the coming year were Mrs. Fleta Terry, Bovina, president; Mrs. Helen Richardson, Dimmitt, first vice president; Mrs. Pearl Admanson, Hereford, second vice president; Mrs. Eunice Thornton, Bovina, recording secretary; Mrs. John Zahn, Farwell, corresponding secretary; and Mrs. Joe Cowen, Dimmitt, parliamentarian. The treasurer will be appointed by the executive board.

Mrs. Faun Walker directed

the program with Mesdames Amos Tatum, Margaret Kennedy and John Zahn giving information on three types of scholarships offered to members. Mrs. Grace Thomas gave an informative talk on "In-service Teacher Training."

A white elephant sale made \$26.50 to be used on the organization's scholarship fund.

No chapter meeting is scheduled for March, but a special public relations meeting will be April 9 in Hereford. The state convention will be April 29-30 in Fort Worth.

Dinner guests in the W. J. Matthews home Monday were Mr. and Mrs. R. J. Klump, Mrs. H. H. Carlyle from Muleshoe; Mrs. Sponar and niece from Cedar Rapids, Iowa; Miss Elizabeth McDorkle, Killen; J. T. Harding, Mr. and Mrs. N. R. Harding, and Mr. and Mrs. B. L. Harding.

Daffynishion: Diet--The penalty for exceeding the feed limit.

MR. AND MRS. R. J. KLUMP

R. J. Klumps To Observe 50th Wedding Anniversary

Longtime residents of this area, Mr. and Mrs. R. J. Klump, will celebrate their golden wedding anniversary Sunday with an open house at the fellowship hall in the Muleshoe Methodist church.

Their friends and neighbors are invited to attend the reception from 2 to 5 p. m.

Klump came to this section of the country in 1907 and settled several miles south of Farwell in Bailey County.

In January of 1909 Mrs. Fannie Harding and her parents, Mr. and Mrs. D. L. Harding,

arrived in Eastern New Mexico to make their home seven miles south of Texico in Roosevelt County.

Klump and Miss Harding were married March 6, 1910, in Farwell and lived seven miles south of there until 1932 when they moved to Muleshoe.

He has three sisters living in Iowa, and she has three brothers, James, Nathan and Barney Harding, all of whom live south of Texico-Farwell, and two sisters, Mrs. W. J. Matthews of Texico and Mrs. H. H. Carlyle of Muleshoe.

"Deep South" Theme Used At Texico Senior Banquet

Annual Texico senior banquet was Monday night at Texico Baptist Church. Honored guests included members of the senior class; their sponsors, Mr. and Mrs. Joe Gill and Mr. and Mrs. Fred Danforth; and School Superintendent and Mrs. J. Buck Doran.

A deep South theme was used for the formal event, with colorful decorations adding to the southern atmosphere. Candlelight illuminated the banquet room.

Tables were laid with white cloths and runners of deep purple with a smaller runner of rose pink in the center. Pastel candles in crystal holders lined the tables.

The speakers' table was centered with a huge arrangement of forget-me-nots and greenery surrounding a hurricane lamp. The arrangement featured a large bouquet of flowers at the base with a white wrought iron lamp surrounded by flowers towering above it.

A smaller hurricane lamp surrounded with flowers decorated the piano. A miniature colonial doll stood near the arrangement.

Tiny umbrellas served as nut cups and the program was cut in the shape of a hat adorned with ribbon and flowers.

A huge mural, painted by Mrs. Roy Potts, covered the west end of the room. The painting depicted a river scene with mountains rising in the background and trees and flowers growing near the river bank.

In the absence of the guest speaker, who was unable to attend due to weather conditions,

Doran gave the main address. Master of Ceremonies was Travis Taylor. Mrs. Nora Day gave the welcome and the response was by Tommy Standefer, president of the class. Rev. C. C. Morgan gave the invocation.

Special music was given by a quartet from the First Baptist Church in Clovis. Members were Elaine Mitchell, Kathy Blair, Ann Eubank and Charlotte Riley. They sang several songs of the deep South.

Included on the menu were roast beef, gravy, creamed potatoes, congealed salad, pickles and olives, rolls, butter, coffee, iced tea and pie.

Preparations and decorating was done by Mesdames Murray White, Buddy Pearce and Velma Kelley.

McGuire 50th Anniversary To Be Sunday

Friends and relatives of Mr. and Mrs. E. W. McGuire are invited to attend their golden wedding anniversary reception to be held in the home of their daughter and son-in-law, Mr. and Mrs. Leon Billingsley, March 6 from 2 to 5 p. m.

Bob Rowland, president of Columbia Christian College at Portland, Oregon, was guest speaker Sunday night at the Church of Christ. His message was on "God Is Able."

Dogpatch Banquet Theme

Members of Farwell Senior class were feted with a banquet Thursday night at Farwell Baptist Church. Members of WMU were in charge of decorating and planning for the event.

Entrance way to the banquet room was decorated to represent the front of a log cabin. With the name "Yokums" on a wooden sign above the door.

The room had a "Dogpatch" theme. A wash pot filled with clothes and two tubs with rubbing boards were on one side. A clothes line with various items of gaily patched clothing was on the other side.

Drawings of Dogpatch characters were on the wall. Curtains of burlap sacks with various color patches were on windows.

The stage was decorated to represent the home of Mammy Yokum, with an old wall phone, pot-bellied stove and high back rocking chair.

One wall represented "Available Jones'" store.

Banquet tables were laid with white cloths and had red and white checked gingham runners. Pieces of fringed burlap were used for napkin covers, and place cards were large pink pigs.

Candy corn in miniature pig feeders lined the center of the tables, and tiny pink paper pigs stood eating from the feeders. Colorful "hobo packs" served as nut cups, and the programs were cut out in the shape of Mammy Yokum's head.

Old fashioned kerosene lamps provided light. Potted cactus centerpieces were used on the tables.

Guest speaker was Rev. Hal Haralson from Hardin Simmons University. Entertainment was by Susan Blair who sang "This Ole House."

Mrs. Calvin Blain, president of the WMU, gave the welcome address, and the response was by James Burleson, president of the senior class. Ruby Hillock lead group singing.

The menu included tomato juice cocktail, baked ham, spiced crab apples, green beans, baked potatoes, tossed salad, rolls and butter, spudnuts, ice cream, iced tea and coffee.

Randols Return From Vacation

Bro. and Mrs. Ebb Randol of Farwell returned Thursday from a two-week trip to Houston and Abilene.

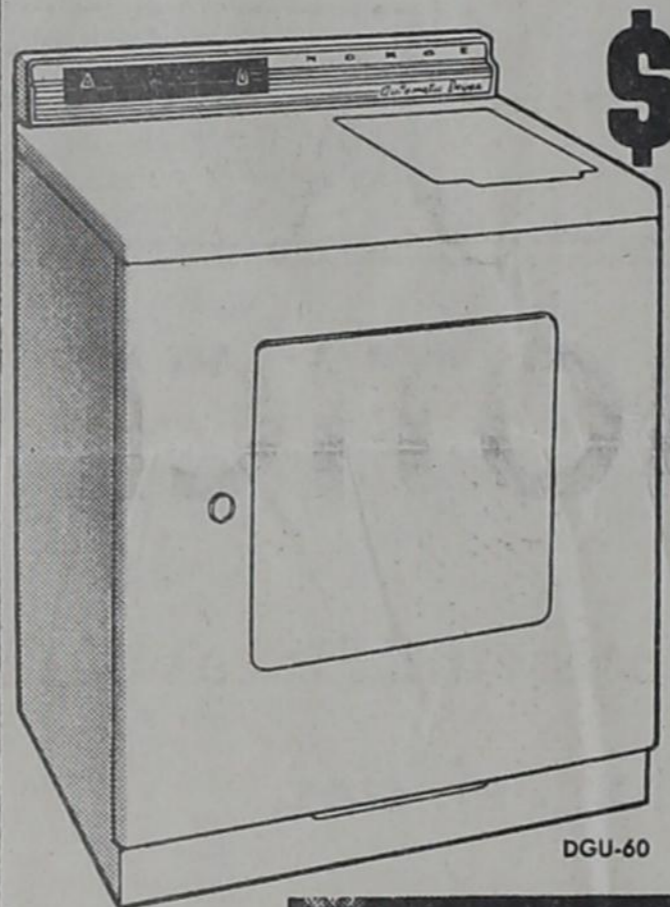

They visited friends in Houston before going on to Abilene where they visited with their granddaughter, Glenna Davis, who is a student at ACC.

While on the trip the Randols also visited an old folks home which is supported by the church.

new Princess phone

Styled to the modern taste, and small to save you space—that's the charming, colorful Princess phone. This new extension goes anywhere in your home, and goes beautifully. The dial glows softly in the dark so you can find it quickly and then, when you lift the receiver, lights up brightly to make dialing easy. The Princess phone comes in your choice of five decorator colors—white, beige, pink, blue and turquoise. Easy to get, too. Just call your telephone business office, or ask a telephone serviceman to show it to you.

MOUNTAIN STATES TELEPHONE

The Princess phone with built-in dial light costs only pennies a day after a one-time charge and installation.

THE HIGH PLAINS FARM AND HOME

Brucellosis Still Serious Problem

Although most of the United States is participating in one of the programs to prevent brucellosis, the cattle breeding disease is still a serious problem in Texas.

A recent meeting was held, at the Hub community building, which 31 farmers and cattlemen from four counties attended, to analyze a new law passed last year to allow counties to work together in

the Brucellosis control program. Previously it was an individual county matter.

Present at the meeting were cattlemen from Parmer, Castro, Deaf Smith and Bailey counties. The latter three counties are presently petitioning to enter the control program.

The move came as a result of price differential between the High Plains area and certified

areas that are participating in the Brucellosis Eradication Program at a state or federal level. Cattle shipped from this area to certified places lose sometimes from \$2 to \$6 a hundred weight, and most cattle are exported as stockers and feeders, many of them to "certified free states," where the disease has been eliminated. New Mexico is listed as one of these areas.

The new law was requested by Texas cattlemen because of the price differential. Although there is little of the disease in the Parmer County area, the market is still greatly affected here.

The disease, brucellosis, causes cattle to suffer a reduction in milk production, and also results in abortions, sterility and difficult breeders. It also lengthens calving time by 50 per cent, according to C.M. Patterson, extension veterinarian of the Texas Agricultural Extension Service.

Brucellosis is a highly contagious disease and is a problem to swine breeders as well as cattle. Humans may also contact the disease by drinking un-

pasteurized milk of a contaminated cow. The disease is constantly a threat to other animals, such as sheep, horses and goats.

Brucellosis is commonly called Bang's disease in cattle. In swine it is referred to as "contagious abortion, and is commonly called "undulant fever" in man, Patterson says.

The germ causing the disease is not hardy and cannot survive outside of the animal's body. It is transmitted, usually through common feed and water troughs and bodily contact. Man can become infected by handling diseased animals without taking proper sanitary precautions.

Patterson reports that a 1956 survey proved that 79 per cent of the 2,551 dairy herds showed some evidence of the disease. Since then, every graded dairy herd in the state has enrolled in a brucellosis control program.

"Present figures show a marked reduction among this class of cattle," Patterson says.

Over all of Texas, Patterson estimates that approximately one of every four herds is contaminated, although only about 5 per cent of Texas beef cattle are infected. Fewer infections occur in the arid regions of far West Texas and the Panhandle. In eastern Texas, areas may have an infection rate as high as 20 per cent.

The extension veterinarian indicates that a steadily declining market for Texas' stocker and feeder cattle, will be even more restricted in the near future unless most of the state adopts

the control program.

There are two control programs that any county or group of counties can enact by a petition of 75 per cent of the owners comprising at least 51 per cent of the cattle on the tax rolls. They are the Type I Brucellosis Control Area and the Type II.

The type 1 program is designed to prepare highly contaminated regions to enter the type 2 program. No testing is required under this program and owners of the cattle must have all female calves vaccinated at their own expense. Vaccinations must be done by authorized veterinarians and reported on approved forms within 10 days.

Beef calves to be vaccinated under the first plan must be between 4 and 12 months old and they must be branded. Dairy calves vaccinated must be between 4 and 8 months of age under this plan. Certification of calves in dairy herds is also required.

The testing procedure in a Type II control area:

1. All registered cattle.
2. All dairy cattle.
3. All herds with fewer than

20 animals.

4. 20% of cattle in herds of over 20 cattle. If reactors are found, then all cattle in that herd.

Cattle that are classed as reactors or contaminated must be sold for slaughter or quarantined under this plan. In cases where immediate sale of reactors would cause a hardship, they may be quarantined up to one year's time.

Certification of a disease free area, after testing under the second plan is complete and approved, is for three years. Recertification must be done after that time is up. Re-certification involves checking of 20 per cent of the herds in the area.

In order for the re-certification to be approved, infection must be down to one per cent of five per cent of the area's herds. If the area cannot be recertified, it must start over on the methods for certifying.

Patterson recommends that all farmers and ranchers follow a calfhood vaccination program and encourage the en-

Vegetable Meeting Tuesday at Friona

Farmers who want to explore the prospects for raising vegetables as a crop this year will be interested in a special meeting set for that purpose by County Agent Joe Jones.

The meeting will be in the community room of the Friona State Bank next Tuesday, March 8, and will begin at 9:30.

Dr. Clyde Singleterry, Extension horticulturist; and Harlan Smith, Extension plant pathologist, both of College Sta-

tion; and Joe Cole, horticulturist for the Plains area, will be the featured speakers of the meeting. They will review the outlook for vegetable production and marketing on the irrigated Texas Plains this year.

Farmers are expected to exhibit lively interest in vegetables this year, although the acreage which has gone into truck crops is as yet not great.

A similar meeting was held last year, with beneficial results along educational lines.

The 1960 Guide for Controlling Cotton Insects, L-218, is now available at the offices of local county agents or from the Agricultural Information Office, College Station, Texas. At least six major changes have been made in the recommendations.

This Is National 4-H Week

(Editor's Note: This is National 4-H Week. Veda Wilson, a member of the Pleasant Hill 4-H Club, has written an essay on the organization. She is 12 years old.)

BY VEDA WILSON

National 4-H week will be observed March 5-12 with the theme "Learn - Live - Serve - Through 4-H."

Today there are more than two and one-fourth million 4-H boys and girls in more than 92,000 clubs in the United States, Alaska, Hawaii and Puerto Rico. The first clubs appeared during the early 1900's.

Leaders in agriculture felt the best way to get modern, scientific methods used on farms was to train boys and girls to use

them. Later the clubs selected the 4-H name and the green four leaf clover emblem.

The Smith-Lever Act, passed in 1914, provided federal funds to help county extension agents in organizing and expanding the activity.

WHO MAY JOIN 4-H?

Any boy or girl 10 to 20 years old may join 4-H. Race and religion make no difference. Not all 4-Her's live on farms.

Hormones Improve Gains

Feeding of hormones to feed-lot cattle has been recommended for several years. They have been used both orally in the feed and as ear implants. Additional gain with less feed has made feeders consider its use profitable.

There are instructions for use on the containers in which these products are purchased, says U. D. Thompson, extension animal husbandman. These instructions specifically state the length of time that cattle on oral feeding must be removed from feed containing the hormone prior to slaughter.

Some products require that animals be removed from such feeds at least 48 hours before slaughter. Thompson cautions that implanted cattle are not to be slaughtered for a certain number of days after the implants are administered. Certain products require 120 days prior to slaughter.

Anyone using or considering the use of hormones by either of the above methods should acquaint themselves with the proper use of the product, the husbandman emphasizes. This applies to hormone use with any cattle intended for slaughter.

Many live in villages, small towns and cities.

4-H offers a broad program for better family living. He or she may select projects to grow gardens and livestock. They may learn to sew, cook and serve tasty meals; freeze or can foods, to make their homes comfortable and attractive. So many projects are offered that it is sometimes hard to decide which one to take.

Club members conduct their own activities, to a great extent. They elect their officers, decide questions by majority vote, and conduct their own meetings. In this way the 4-Her's learn to think and to do for themselves and to work together as a team.

It is not all work for the members. There are picnics, skating parties, and many other special activities.

It is important to the 4-H member and the leaders to have the cooperation and support of each parent.

4-H leaders take special training for their jobs and serve without pay. Members, 14 years or older and experienced in 4-H work, may serve as junior leaders.

Would you like to join 4-H? If you wish to know more about 4-H clubs and how you may join one you can get information from your county extension agent.

SOIL CONSERVATION DISTRICT NEWS

Now is the time to order your trees for windbreaks. Farmer County Soil Conservation District is making Arizona Cypress seedlings available to you again this year for those who plan to establish farmstead or feed lot windbreaks. Some may be planning to put out a few trees in a designated wildlife area as protection for quail and pheasant.

These seedlings will be potted and will be of very good stock. People who have ordered them

in the past have had good luck with them when they are given reasonable care.

Cost to you is 30 cents per seedling and application for not less than 50 or more than 400 trees will be accepted. Applications may be obtained from the SCS office or Steve Messenger's office in Friona or the county agricultural agent's office in Farwell.

Stubble mulch is a year-round way of managing plant residue on cropland. Harvesting, seedbed preparation, planting and cultivating are all done so as to leave residues of the previous crop on top of the soil until after the next crop is seeded. These residues or stubble of the last crop make a mulch that helps conserve soil and water.

Stubble mulching greatly reduces both wind and water erosion. It is particularly useful here on the Great Plains where ways to control wind erosion are a continuing need and where high producing stubble crops such as small grains are common.

When left on the surface, the residues keep the wind from getting at the soil and keep the rain from compacting it. The soil will take water more rapidly. The wise use of residues pays because it saves soil and water.

Roadside markets on heavily traveled highways offer a sales challenge to farmers who produce for such outlets. This method of marketing fresh farm produce offers opportunities for those willing to meet the challenges, says J. F. Rosborough, retired extension horticultural marketing specialist. A new extension publication, "Fruit and Vegetable Marketing--Roadside Markets Can Sell Farm Produce," which Rosborough authored is available from local county extension offices.

Most farm and ranch operators claim annual depreciation on buildings and equipment, but few take advantage of depreciation on livestock. C. H. Bates, extension farm management specialist, says if allowable depreciation on livestock is not claimed each year, the operator loses the deduction. Every ranchman or livestock producer should discuss this question with whomever makes his tax report. Many tax accountants have devised sheets for keeping continuous depreciation records on the same animals for a period of years, the specialist adds.

Total tonnage of fertilizers sold during the fall of 1959 (July 1 to December 1) was 4.8 per cent over that sold during the same period in 1958 and 20 per cent over the total sold in the fall of 1955. Sales of anhydrous ammonia were down 8 per cent and of ammonium nitrate, 10 per cent, reports Dr. J. F. Fudge, state chemist. The total tonnage of anhydrous ammonia used in the six-month period was six times as great as in 1954. Anhydrous ammonia accounted for 27 per cent of the tonnage of all materials, 66 per cent of the total materials nitrogen and 57 per cent of all nitrogen sold.

Feed grain prices are expected to average a little lower in 1959-60 due to the record 1959 crop and the large supplies, according to John McHane, extension economist. Expected lower livestock prices in 1960 and lower supports, especially for sorghum grain, will have a tendency to cause feed grain prices to be lower. McHane added that a further increase in feed grain utilization is expected because livestock numbers continue to increase, causing heavy feeding of grain and other concentrates. However, total utilization has not kept pace with production and supplies continue to mount.

H. D. AGENT'S CORNER

Jimmie Lou Waincort

A meeting to plan a drapery making workshop will be held in my office in the Courthouse on Monday, March 7 at 2 p. m. Anyone interested in the workshop is asked to attend the meeting. Each person will make a short drape for a sample to learn how to make drapes.

QUICK MEALS--SIMPLE BUT NUTRITIOUS!

Save time and energy when you plan family meals. It's easy, with the colorful new bulletin on "Quick Meals" written by extension foods and nutrition specialists of Texas A&M.

Just what is a good meal anyway? Specialists define it as one which helps to meet the health needs of each individual in the family by providing one serving of all food groups listed in the Texas Food Standard, a daily guide for good eating. Basic patterns for breakfast, dinner and supper are given in the bulletin, along with other suggestions for planning quick meals.

You will find tasty recipes, and easy-to-follow suggestions for preparing oven meals, one-dish meals, top-of-range and broiler meals, and pressure saucepan meals. Soups and sandwich menus with recipes are included, too.

You can get a copy of this bulletin from your county home demonstration agent's office.

TRAIN CHILDREN TO HELP

Expecting the youngsters to

help with work around the house this summer? If so, it will pay to give attention and patience to training them in jobs they are to do, reminds Mrs. Eloise Johnson, extension family life specialist.

Children are often confused because adults are not consistent in teaching them to do things; not clear in the direction given. They need to know why certain things should be done or why certain ways of doing things are better than others.

Patience pays... You might try this pattern to train children and others in doing a job. First, explain to the child exactly what he is to do, and how it is to be done--step by step. Work with him several times, helping as needed. Watch him do it alone, making suggestions as he works.

Leave him while he does it. Finally, it's important to praise him for good work or effort, so that he leaves a job with a feeling of satisfaction.

F. Z. Beanblossom, poultry marketing specialist for the Texas Agricultural Extension Service, says he has often heard the comment that the albumen of eggs (egg white) doesn't contain any food value. He says that research shows that the albumen contains over 50 per cent of the protein in the egg and about 75 per cent of the riboflavin. Don't, he adds, waste the albumen and rob yourself of much of the protein and B vitamins in the egg.

Biggest Mid-Winter Sale of Used Cars in our history!

We've never been so well-stocked with good late-model used cars. Folks have been trading them in like crazy on the record-selling '60 Fords. Every one of these fine A-1 bargains is road-tested, reconditioned if necessary, and warranted in writing. So now's your chance to get a tremendous deal--we've priced these used cars to move fast.

SEE THE MAN WITH THE BRIGHT RED MUFFLER...

at your **FORD DEALER** USED CAR CENTER

ON-THE-FARM GRAIN STORAGE
You Can Own This **Behlen Curvet** and have it "PAID IN FULL" IN ONLY 28 MONTHS

WHY YOU ARE AHEAD with an ALL-STEEL BEHLEN CURVET:

- Multi-Purpose - Both grain and machinery may be stored with a partition bulkhead.
- Heavy-Duty Construction - So rugged grain can be stored 12' against side walls.
- Low Cost - About 30% less than straight-wall steel buildings.
- Only Practical Leak-Proof Building on the Market - Non-aging rubber strips seal all weather, vermin, insects out.
- Unlimited Capacity - Available, 20' widths, length unlimited. Easily enlarged.
- Quick Erection - Can be erected on your site in a week.
- Easy Financing - Through Behlen Purchase Plan or local ASC office.
- Special Drying Floor Systems - May be installed at low cost.

Here's an example of how one 40' x 50' Behlen Curvet will pay for itself in 28 months... and within 40 months give you a profit of \$2,502.05 to boot.

- The first year, seal your grain at the support price.
- The second year the ASC will pay you approximately 16 cents a bushel to re-seal your grain.
- In 28 months, your ASC earnings will have equalled the complete cost of your Behlen Curvet.

When you drop into our store, I'll show you exactly how you can also make a profit of \$2,502.05 as well as owning your Behlen Curvet "free," lock, stock, and barrel.

THE HAPPY HOMEMAKER

BY JUNE FLOYD

If you've never baked a prune cake, you've surely missed a treat. Not too many years ago prunes were one of the few fruits available on a year around basis and most of us remember eating stewed dried prunes often.

It seems that after canned fruits became available less dried fruit was eaten, so the prune packers developed many recipes calling for prunes. Since they are one of our favorite fruits, we've made a collection of cake recipes calling for prunes.

Since most of the recipes call for "plump" prunes, you might be interested in knowing that "plump" prunes are just plain dried prunes that have been soaked in cold water 24 hours. Use 1 quart of water for each pound of prunes.

This week something new is being introduced in this column. For the first time we will have a picture. Just hope you decide to make a Prune Upside-Down

PRUNE UPSIDE-DOWN CAKE

Cake and that it turns out "just like the picture."

PRUNE UPSIDE-DOWN CAKE

This prune cake is almost candy-like on top with its brown sugar and butter in taffy glaze over the tart-sweet prunes. Below is a tender crumbed cake, with a nutty flavor bestowed by whole bran cereal in the batter. Turned out fresh from the pan, still warm, the deep prune topping glistening and fragrant,

this cake is a fine dessert. And it's perfect, of course with coffee alone, or as a light evening refreshment. Some will prefer it in its own prune-fruity plainness, some dressed up with a dollop of whipped cream. Either way, it's joyous eating.

- 1 1/2 cups plumped prunes
- 1/2 cup brown sugar, firmly packed
- 1/2 cup prune juice
- 1 tablespoon lemon juice
- 2 tablespoons butter or margarine
- 1 cup sifted flour
- 1 1/2 teaspoons baking powder
- 1/4 teaspoon salt
- 2 eggs, separated
- 1 cup sugar
- 1/2 cup hot water
- 1/2 cup whole bran cereal
- 1 teaspoon vanilla flavoring

Cut prunes in half; arrange in greased 9x9-inch pan. Sprinkle with sugar, prune and lemon juice; dot with butter.

Sift together flour, baking powder and salt. Beat egg yolks well; blend in sugar a little at a time. Add hot water slowly, beating well. Stir in the whole bran and vanilla. Add sifted dry ingredients and mix thoroughly.

Beat egg whites until stiff but not dry; fold into batter. Spread evenly over prunes.

Courthouse

INSTRUMENTS FILED FOR RECORD WEEK ENDING FEBRUARY 27, 1960 County Clerk's Office, Parmer County W.D., Friona Enterprises, Inc., O. D. Bingham, Blk. 1, Part Blk. 3, Otis Ford Sub. of Lot 15, Blk. 3, Lakeside Add., Friona

Bake in moderate oven--350 degrees--about 45 minutes.

Remove from oven; let stand a few minutes, turn upside down on cake plate. Let stand a few minutes longer before removing pan. Cut into serving pieces and serve warm or cold with whipped cream, if desired.

Then a different type prune cake recipe calls for the prunes in the batter. The following one must be good. Mrs. Dee Brown of the Midway Home Demonstration Club and Mrs. Giles Cobb of the Black Home Demonstration Club both submitted it for publication in "What's Cooking in Parmer County."

KENTUCKY PRUNE CAKE

- 3 eggs
 - 1 cup salad oil
 - 1 cup buttermilk
 - 1 cup cooked cut prunes
 - 1 teaspoon vanilla
 - 2 cups flour
 - 1 1/2 cups sugar
 - 1 teaspoon cinnamon
 - 1 teaspoon nutmeg
 - 1 teaspoon soda
 - 1 teaspoon allspice
 - 1 cup chopped pecans
 - pinch of salt
- Mix as follows: Blend sugar, oils and eggs. Add sifted ingredients alternating with milk. Add vanilla, nuts and prunes. Bake at 300 degrees until sides shrink from pan and top springs back when pressed.

BUTTERMILK ICING

- 1 cup sugar
- 1/4 cup buttermilk
- 1/4 teaspoon soda
- 1 tablespoon white syrup
- 1/4 stick butter

Combine all and cook until mixture forms soft ball in cold water. Pour over cake in the pan without beating and while still hot. The icing will soak down into the top and sides making a delicious moisture that will keep almost indefinitely.

Use 9" x 13" pan or two 8" x 8" square pans. When made as a layer cake, icing may be used as a filling as well as on the top.

MML, Robert Gilliam Edens, Cicero Smith Lbr. Co., Lots 16 & 17 Blk. 42, Bovina W.D., Linda Jean Herod, Lois Y. Farm or ranch buildings or structures to be used as production facilities should be planned carefully before construction begins, says W. S. Allen, extension agricultural engineer. Careful planning, he adds, will insure the best possible return on the investment and the maximum in labor saving, both important factors in the ever-increasing cost-price situation faced by agricultural producers.

Baker Dwarf 292 Top Castor Bean

Castor bean tests for 1959 at the High Plains Research Station show that Baker dwarf varieties 292 and 296 continue to be the best in yield of the released varieties with 1866 pounds and 1859 pounds per acre, respectively, Delbert Langford, assistant agronomist, states in commenting on his report.

These yields were approximately 400 pounds per acre above the 1958 record and about 700 pounds above the 1957 yield. The Dawn variety made similar gains.

Five of the eight varieties tested were experimental and not yet released. The average

yield of all eight was 1,829 pounds per acre. This exceeded the 1958 averages by 194 pounds and 1957 by 653 pounds. One of the experimental varieties was over 200 pounds above the three year yield leaders. Even higher yields may be anticipated in the future.

The eight varieties of castor beans under test at Halfway made a surprising recovery

from the June 22 heavy hail damage. Castor beans suffered less than other crops on the research farm at Halfway.

The eight varieties were planted May 15 at the rate of 10 pounds of seed per acre. They received 50 pounds of nitrogen sidedressed on June 19. All varieties were harvested January 29.

ANNOUNCEMENT

We are pleased to announce the opening of Carby's TV Shop, specializing in repair of and service to television sets in the Texico-Farwell trade territory.

We are located just east of McDorman's Laundry in downtown Farwell. Our telephone is IV6-3629.

You are invited to stop by and talk with us about your TV repair needs.

CARBY'S TV SHOP

Hoppers—

accusers and to be tired by a jury composed of his peers. We ought not take such a privilege lightly.

Juries—

already been entered on the docket has been settled. However, as of Monday there remained the following cases:

PEARL OSBORN VS. MAGGIE LONDON. This is a suit to establish partition of 400 acres of land near Farwell in an inheritance dispute.

ALBERT CANNON VS. BIRMINGHAM FIRE & CASUALTY. A damage suit arising from a disagreement over an insurance adjustment covering alleged losses on crop hail insurance. The Friona man had 20 acres of wheat and 135 acres of cotton insured for a total of \$7750.

PAUL D. TULLIS VS. VERNON BARTLETT. The plaintiff alleged the defendant defaulted on a contract drawn to sell a quarter section of land priced at \$52,000. An escrow account of \$5,200 in Friona State Bank is sought by the plaintiff as damages. Tullis is from Level-land, Bartlett from Petersburg.

HARRIS B. DUNN VS. E. T. JENNINGS. A damage suit for injuries sustained by Dunn to one hand when operating a power tool while in the employ of Jennings at Benger Air Park, Friona. Dunn seeks \$5,000 damages.

NED FOSTER VS. PANHANDLE MUTUAL HAIL ASSN. Another crop hail insurance damage suit. The Oklahoma Lane farmer had insured 50 acres of cotton and 200 acres of wheat, in amounts totaling \$5,000 and \$6,000 respectively.

Wolverines—

Wolverines put on their best performance of the game scoring 21 points to give them a 30-22 halftime margin.

In the third period they could manage only nine points to the Tigers' 11, but held on to a 39-33 lead going into the final period. Again the Wolverines broke lose to score 12 points and hold their opponents to 5 giving them a 51-38 victory.

Dwight Turner, sophomore player for the Wolverines, led their scoring with 12 points. Wesley Engram with 11, Charles Stockton with 10, and Don Johnson with 9 were close behind in the scoring column. Byrd and Howell scored 8 points each for Elida.

Saturday morning the Texico Crew faced another tough 6-B

team, the Melrose Buffaloes, who were the only district team to defeat them in regular season play.

The Buffaloes jumped into a 9-5 first quarter lead, and were out in front of the local team 17-14 at halftime.

However, five consecutive free shots by Ursel Doran at the start of the third quarter put the Wolverines on top and the score stood 29-25 going into the final period.

The Wolverines scored 12 points in the final stanza to take the 41-36 win from the Buffs.

Stockton with 20 points was high scorer in the game. Widner and Fouts with 14 points each led the Melrose scoring.

Texico's coach, Paul Frederick, commented that the Wolverines experienced their best day on passing, ball handling and control Saturday, and played some of the best ball of the season in the two Saturday games. He also gave Charles Stockton special recognition as having kept the Wolverines in the ball games Saturday by making 20 and 19 points respectively in the two bouts.

11 Candles—

the stage was set. The war came along and interrupted plans, though, and Joe went off to pilot a B-24 against the Japanese in the South Pacific Theatre in 1941. He lacked only a year on his college studies. Dardanella continued in school until she was graduated with a bachelor's degree in business administration.

Back home in 1945, the Heltons settled down in Amarillo, where Joe went to work for Broom Electrical and Construction Company. He stayed with that until the opportunity to purchase the local business came along. He had generated some interest in oil wholesaling when working for his brother-in-law in Plain-view in pre-college days.

Helton Oil Company has prospered and is a good example of family-style enterprise. Joe is not the least reluctant to assign his wife a big chunk of credit for their success. She works constantly as the firm's bookkeeper. "Dardanella really doesn't realize how important she is to the business," is Joe's flat statement.

Helton Oil has grown with its expanding business since the Heltons have had it. They have constantly added to their stocks and lines offered. A recent addition was a line of commercial fertilizers two years ago.

In their new location they now have adequate facilities to further increase inventories to serve their customers.

The Heltons haven't kept all their talents to themselves. Joe has served a long tenure as a member of the Texico city council. He also is on the official board of the Methodist Church. Dardanella is active in ESA sorority and in church work also. She has been selected as one of the three top members in this district in ESA work and will compete in state contests in April.

They have one son, Hal Ed. Incidentally, he is having an anniversary too. He has just turned 15 years.

Mr. and Mrs. Leon Langford and children visited in the home of the Lester Harrilsons near Ft. Sumner last weekend.

This is a horse and he has horse sense and some times peepel like it too and my daddy says peepel that have it buy there insurance at

GRAHAM-MAGNESS AGENCY

IV6-3671 FARWELL

Gardeners To Meet

Texico-Farwell's budding "green thumb club" will have another get-together next week. They will assemble at the agriculture building at Farwell School for another discussion of gardening tips and methods.

The organization so far is very loosely and informally run. There is no membership as such. Residents interested in gardening merely get together and carry on conversation about things that interest them.

Tuesday evening's meeting will begin at 7:30. Between six and eight people have been attending other sessions. Boosters believe that when groups as large as a dozen begin coming out, they will try to formally organize and hold regular meetings.

A Little Money—

mediately. He sold the other car to a Muleshoe boy, and bought a 1929 Model A Ford to use for the body—it was originally a coupe.

At night and when the weather was too bad to work in the field, the young farmer worked in his shop, which is housed in a building close to the Jones home. With the idea of designing the car as low as possible, Jones chopped the windshield several inches, then channeled or dropped the body on the frame as low as possible. He remodeled the doors.

Doing all the body work and rebuilding himself, Jones then took the grill shell and the front axle from a '32 Ford. All axles, incidentally, are chrome-plated.

He spent a great deal of time getting the auto in perfect assembly, and designed a hand formed hood. The interior is rolled and pleated naugahyde with bucket seats, and a padded white vinyl top accents the color tones of the white seat covers and door paneling.

The engine is a triple carbureted '58 Olds coupled to a '39 Ford transmission. Hydraulic brakes and clutch are fire wall mounted. The vehicle derives its lowness from the dropped axle, reversed spring eyes and the Ford frame.

To the unseasoned observer, the auto is spectacularly clean, and Peggy relates that some of the contestants spent all night just shining and dusting the cars for show competition.

As for speed, Jones thinks the car would go between 130 and 150 miles an hour, but he doesn't plan to try it to find out.

The color of the exterior is eye-catching, with a soft frosted look. The tone is burgundy mist, and the hue was so attractive, Peggy tried painting her nails with it. It was fine until she tried to remove the lacquer.

Accenting the matched tones of interior and exterior is black cotton loop carpeting, which covers the floor boards, the areas behind the seats and the trunk.

The trunk is a study of efficiency with special pockets of white vinyl attached to the black interior and holding all the articles needed, a first aid kit, fire extinguisher, flashlight, and a tool set. Even the chrome license plate holder has a white vinyl backing. Racing disks give a streamlined touch to the white sidewall tires.

Asked about judges' comments, Peggy says one judge told her the only bad points they could find was that the car had no safety belts and they failed to dust the differential.

By Pat

Do any of you old timers remember if it has every stayed cloudy with snow on the ground for 12 months. Surely it will warm up by August.

Castor beans may be a new crop that would merit your consideration for a cash crop in this area. Baker Castor Oil Co. is interested in getting about 1000 acres in this area. If you think of castor beans as the tall variety that grows almost as high as your head you are all wrong. There is a combine variety of these that grows only about 3 to 3 1/2 feet tall, with yields of 2000 pounds where proper care and fertilization is given. The contract price on these beans is \$5.50 delivered to Los Angeles with a chance that price may even be higher. If you are interested in trying at least 40 acres of these contact me at Golden West or see Joe Jones. I understand that Joe Jones may hold a meeting to discuss this in the near future. Richard Modl who farms between Texico and Clovis grew an acreage last year and can give you first hand information on growing castor beans.

If this snow ever gets off your lawn we have some sure enough fancy lawn fertilizer that is known as "Turf Magic." This fertilizer contains 43% Hou-actinite base if that means anything and is put up in 50 lb. bags so your wife can put it out without your help. If you men are smart you'll be sure and remember this and don't buy any of those 100 lb. sacks or you'll have to work yourself.

If you are ever in Mexico and want a cheap thrill go for a taxi ride.

Come see us.

Companion Class To Meet

Members of Companion Class of Texico Baptist Church will have their regular March meeting Thursday night (tonight) in the home of Mrs. Tena Roth in Texico.

Meeting will begin at 7:30, and all members are urged to attend.

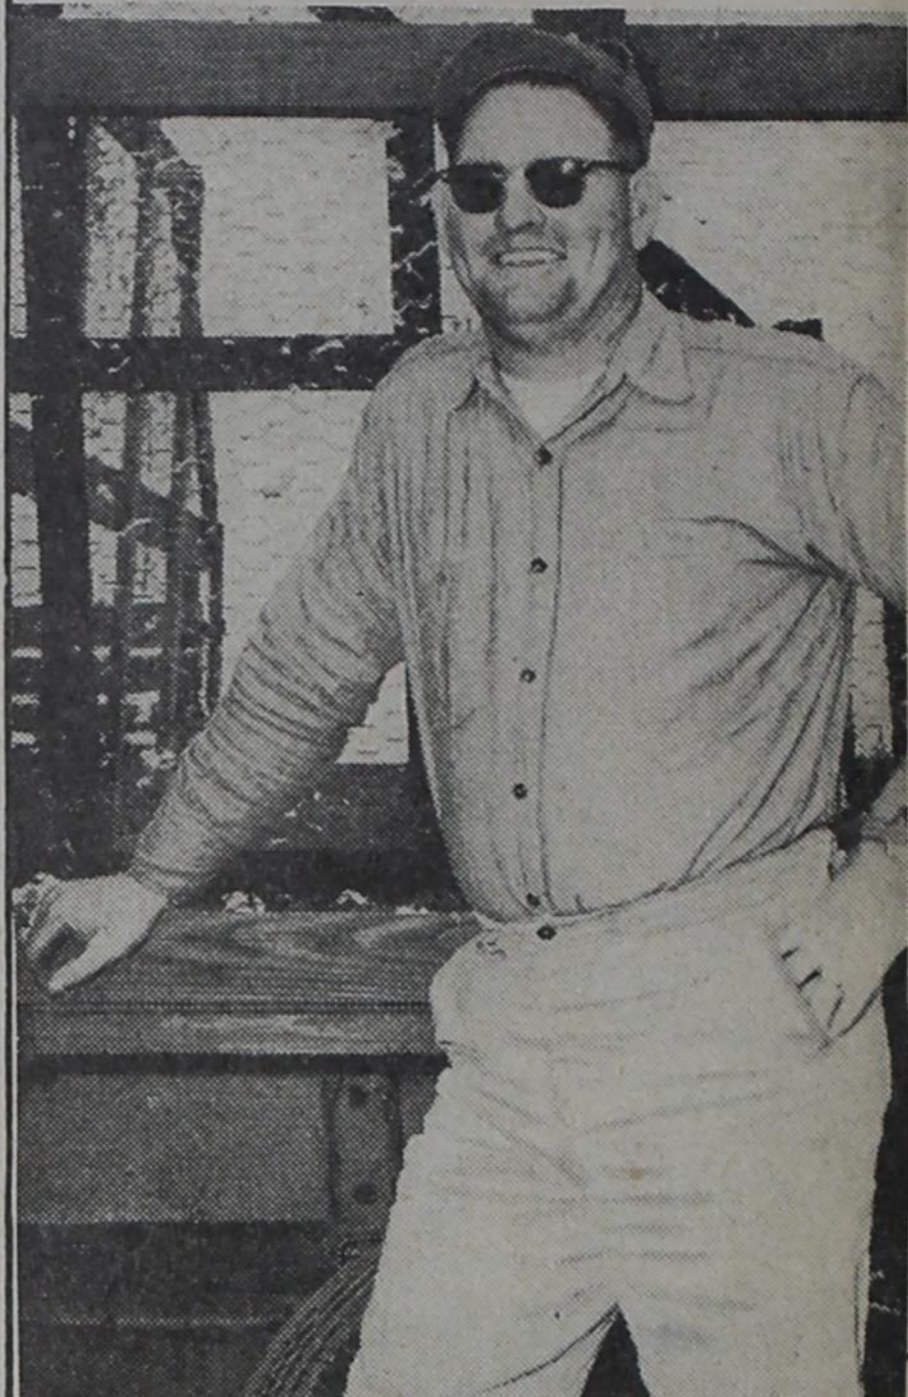

As for the future, the couple made no further contest plans. They have won the trophy toward which they were striving. Who knows what they will plan next?

This hobby is just as important to Peggy as it is to Orle. "If she didn't push me, I wouldn't do so well," Orle admits. But Peggy feels that this is a creative hobby and something they can enjoy together.

Orle is a 1951 graduate of Farwell Schools. Peggy is a former resident of Clovis. They have two children, Connie, 5, and Timmy, 3. The children go along to the races, but the car shows are too tiring for them, says Peggy.

But they are just as interested in the hobby as their parents. The whole family often adjourns to the workshop in the evenings while Orle works on his car.

Dryland maize yield increases 1100 lbs. per acre

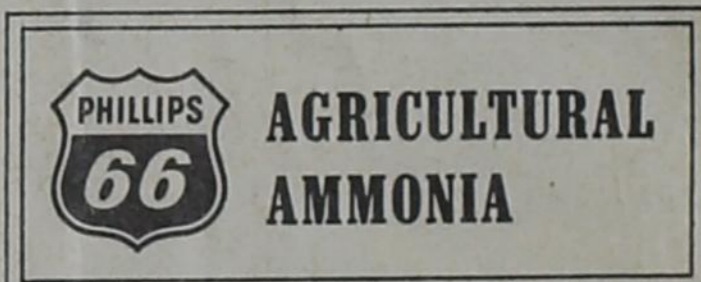

KENNETH BROSEH of Lockney, Tex. reports that 60 lbs. of Ammonia helped make 3200 lbs. maize per acre

"A test was conducted on 250 acres of dryland maize to help determine the benefits of ammonia. On 30 acres, 60 pounds of Phillips 66 Ammonia per acre was applied pre-plant. This land averaged 3200 pounds maize per acre. The rest of the acreage that received no ammonia averaged 2100 pounds," according to Kenneth Broseh, who farms 785 acres.

"Cotton increased 1/4-bale per acre," he says, "where 40 pounds of Phillips 66 Ammonia was applied pre-plant. Using ammonia is just like selecting top quality seed and carefully cultivating the soil—it's a key part of a sound program to produce top yields."

Thousands of Texas farmers are now using Phillips 66 Ammonia to help assure top net profits per acre—on irrigated or dryland fields... in wet or dry years. Actual field reports prove that Phillips 66 Ammonia (1) produces more high grade lint (2) increases sorghum grain yields (3) boosts wheat and small grain yields (4) stimulates pasture growth for more meat and milk.

See your local Phillips 66 Agricultural Ammonia Distributor now. You can make more money this year with this 82% nitrogen fertilizer. It can be applied by you or your distributor.

Clovis, N.M.

One nominee dropped out and two were added to the Farwell School trustee election ballot in last-minute developments last week.

With a Monday deadline staring them in the face, petitioners placed Bob Hart and Glenn Phillips, both farmers, on the ballot. On the same day, John Getz withdrew from the race in a written letter to ex-officio county school superintendent Loyde Brewer.

Getz said: "I request that you remove my name from the ballot in the forthcoming Farwell Independent School District election. I feel that at this time it would be inadvisable, for personal reasons, for me to be a candidate for this position."

"I sincerely appreciate the confidence placed in me by the nominating committee in selecting my name for this honor."

Getz's name was one of four offered by a special nominating committee acting at the request of the present school board. Two weeks ago they met and picked Getz, Clarence Johnson, Walter Kaltwasser, and Clay Henson as their candidates. The latter two are board members whose terms expire this year.

On the nominating group were C. C. Christian, John Armstrong, Woodrow Lovelace, Jim Terrell, Henry Haseloff Jr., Kirt Crume, and Herb Potts. The petition nominating Hart

and Phillips last Friday bore the names of E. R. Coffman, H. M. Moss, W. H. Graham, Mrs. John Getz, Karl Gast, and Dale McCuan.

The election will be Saturday, April 2.

Grade Operetta Tonight

To climax Texas Public School week, members of the Farwell junior girls chorus are presenting a musical comedy tonight at 8 p. m. in the school auditorium.

The operetta, "Lost, A Girl's Chorus."

Between acts special music will be provided by members of the fifth and sixth grades. Mrs. Brittan's room will sing two songs from "My Fair Lady," including "I Could Have Danced All Night," and "I'm Getting Married In The Morning."

Miss Hick's room will sing "A Dream Is A Wish Your Heart Makes," and "I'm Late." Mrs. Kennedy's room will sing "Siamese Cat Song," and "Bib-bi-di-bob-bi-di-boo."

Mrs. Boling's room will sing "Cinderella Work Song."

Announcer for the program will be Johnny Schell.

Tomorrow, Friday, the chorus will present the operetta for the second night.

Farwell Talent Show March 10

March 10 has been set as the date for the Farwell senior's talent show. The program will start at 8 p. m. in the school auditorium with admission of 75¢ for adults, 50¢ for high school students and 25¢ for grade school students being charged.

Out-of-town and local talent will be featured on the show with prizes of \$10, \$5, and \$2.50 being awarded to the first, second and third place winners respectively.

Charlie Phillips, former Farwell resident who is now working for radio station KZIP in Amarillo, will MC the show.

Intermission entertainment will be provided by Mrs. Don Dandy who will sing and accompany herself at the piano. Proceeds from the show will be used to finance a senior trip.

HIGHLIGHTING PUBLIC SCHOOL WEEK at Farwell was "special emphasis day" Wednesday when refreshments were served to visiting parents in the lobby of the elementary building. At noon over 150 persons had already been through the building.

Amos Tatum, high school principal and history teacher at Farwell, began his teaching career in 1940. He has a BS degree from Southeastern State College and an MS from Austin College. He did undergraduate work at Southeastern State and other college work at Western State College at Gunnison, Colo.

Tatum has taught in Oklahoma with the exception of six years when he worked with the civil service educational program in the Air Force and the years he has been at Farwell. His wife, Lenora, teaches in the elementary grades, and he has one daughter, Pattie.

Tatum lists history and agriculture as his favorite subjects and fishing as his hobby.

He stated that he felt many improvements had been made in the public schools in recent years.

Mrs. Lenora Tatum began teaching at Franklin District in Caddo, Okla., in 1941. She has a BS degree and did her college work at Gainesville Jr. College, Southeastern State College in Oklahoma and Western State at Gunnison, Colo.

Mrs. Tatum is married to Amos Tatum, high school principal at Farwell, and is the mother of one child, a daughter, Pattie. Reading is listed as her favorite subject and sewing is her hobby.

Means Announces

Justice of the Peace, Pct. 2, Curry County, New Mexico.

Les Means, Texico incumbent justice of the peace, this week announced for re-election, subject to the Democratic primary in New Mexico, May 10. He issued the following statement:

I make this announcement with gratitude and regrets. Gratitude for the trust that you have placed in me some two years ago. Regrets that it was my painful duty to pass judgment on some of my best friends.

I have kept my vows and oath to the county and state. Without this I am sure you would have been disappointed in me. If the work, faith, courage, and persistence I have devoted to this office has not been extended to you my people, then I have been a failure, and have no right to ask for another term.

With very few promises I have given you the best that I possessed. I had much rather disappoint you without promises than with them.

I give you credits as furthering my education, for which I am still badly in need. This office requires quite a lot of study. It also has helped me morally. You, my friends have given me something that otherwise I am sure I would have missed.

As I have a long way to go as to my schooling, won't you please send me back as your Justice of the Peace for two more years, by giving me your vote? You will never know my appreciation. You are the verdict in this case.

Your friend and neighbor, LES MEANS

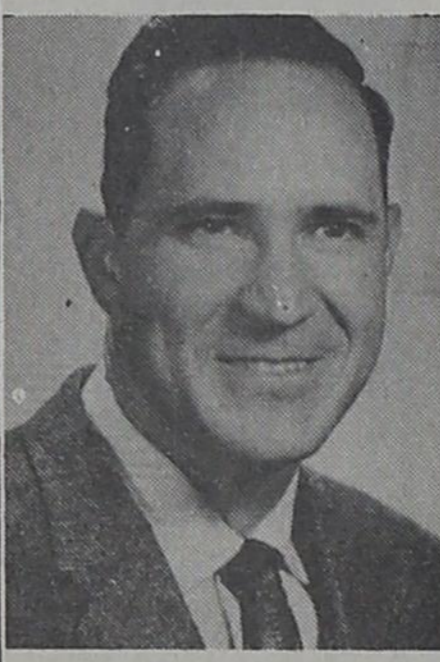

Applications For Postal Position Being Taken

Applications are being accepted by the Board of U. S. Civil Service Examiners, Post Office Department, Albuquerque, New Mexico, for the position of Substitute Carrier and/or Substitute Clerk for employment in the Texico Post Office.

No specific education or experience is required; however, applicants must take a written test designed to test aptitude for learning and performing the duties of the position. Applications will be accepted until further notice.

Further information and the necessary applications forms may be obtained from the Postmaster located at the post office, from the Civil Service Information Office, Post Office Building, Albuquerque, New Mexico, or from the Director, Tenth U. S. Civil Service Region, Building 41, Denver Federal Center, Denver, Colorado.

The Wister Harrison family recently moved to Lazbuddie from Muleshoe. Their children, Wister Ray, Lou Ann, Odessa and Judy are enrolled in school here.

High School football coach, Dempsey Alexander, grew up at Kress, and received a BS degree in physical education from West Texas State College in Canyon.

Alexander taught at Plainview, Lockney, Happy and Sunday before coming to Farwell this year. He is married to the seventh grade teacher and has three sons.

Football is listed as his favorite subject to teach. Alexander stated that he felt that there was not enough interest in the school as a whole by citizens.

★ We're Proud of Our School System ★

We're happy to pause and salute the administration, the faculty and the students of Farwell Schools during the observance of Public School Week in Texas.

We believe our schools are the community's greatest asset.

Bill Moss Texaco Service Station

Highway 60 - 70 - 84 Farwell

Don Denny, assistant football coach at Farwell, was born and grew up near Haskell. He has a BS degree in business and physical education from Howard Payne, and is in his first year of teaching this year.

Denny is married and has one child, a son, Jay. He lists business subjects and football as his favorite classes.

Teaching business subjects at Farwell is Mrs. Bill Engran a 1957 graduate of Eastern New Mexico University with a BA degree in secretarial administration and teacher education.

She grew up at Jal and attended ENMU during her entire college days. She began teaching at Farwell in the fall of 1957.

Mrs. Engran is married and has no children.

KNOWLEDGE provides the power on which America moves forward . . .

During Public School Week, we offer our appreciation to

FARWELL SCHOOLS

for the fine job

they're doing for our youth and for our community.

CHRISTIAN - STONE Motor Co.

FARWELL

Mrs. Vernon Bradley, high school English teacher at Farwell, attended college at Texas Tech and received a BA degree in English there. She received her MA degree from Eastern New Mexico University.

Mrs. Bradley grew up in Fannin County, Texas; is married and has one daughter Mrs. Jim Kerley.

She listed English as her favorite subject and bowling and golf as her hobbies.

She stated that she thought the public schools were making progress in the right direction.

Mrs. Dempsey Alexander, who is seventh grade teacher at Farwell, has a BA degree in business administration from West Texas State College. She previously taught at Plainview before coming to Farwell.

Mrs. Alexander is married to the high school football coach, and is the mother of three boys. Rockne, Randall and Rowan. She listed math as her favorite subject.

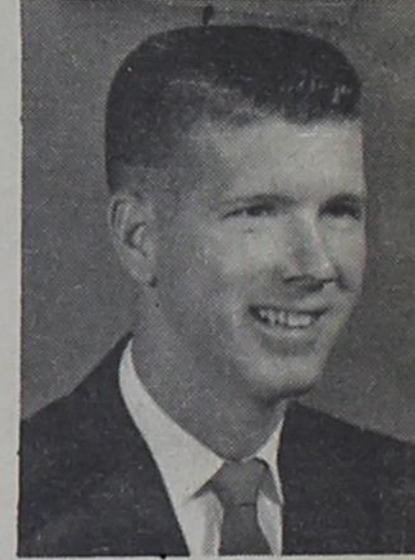

SCHOOLS Have Improved Greatly Through The Years And So Have Our TEXACO Products.

We Submit Our Congratulations To **FARWELL SCHOOLS** For Their Growth And Improvement. We're Proud Of The School, Its Well-Qualified Faculty And Administration.

Texaco, Inc.

Woodrow Lovelace

-FARWELL-

Teaching science in Farwell high school is Gene Dew a graduate of Southwestern State Teachers College at Weatherford. He has a BS degree from the college in education.

Dew began teaching in the fall of 1958 with his first teaching job at Farwell.

He is married and has a daughter, Sherri. He listed chemistry as his favorite subject.

Dew stated that he felt most of the schools of today were beginning to turn back to the intellectual side of schooling and more away from extra activities.

Mr. and Mrs. Nell Stewart and sons spent Saturday and Sunday visiting his grandmother and other relatives in Tulsa.

Lutheran Church News

"At The Foot Of The Cross," will be used as a theme for Sunday morning's message. Wednesday night Rev. Sander will bring a special Lent service "Judas--A Warning."

Tuesday, a Sunday School training meeting was held at the church. Lessons for Lenten services were discussed at length and various matters of business taken care of. Gilbert Kaltwasser presided at the business session.

Next Sunday a special film will be shown to Sunday school classes.

Mrs. O. W. McWilliams, who teaches English and speech at Farwell, grew up in Lubbock. She has a BA degree in journalism and is teaching her first year this year at Farwell. She is married and has two daughters, Susan and Marilyn. Her favorite subject is literature and her hobby is gardening. She stated that she felt schools of today don't expect enough of the students and that pupils are not required to employ their best efforts and aren't made to realize the responsibilities they will be compelled to assume.

We Salute FARWELL SCHOOLS during Public School Week

★ Progress and ★ Personnel are two important items in a fine school system.

We're proud Farwell Schools have both these assets.

Worley Grain Co.

Herb Potts, Mgr. Farwell

Margaret Kennedy who is now one of Farwell's fifth grade teachers, began her teaching career in 1921 in Jacksonville. She has a BA degree and did college work at West Texas State College, Texas Tech, Pan American, and Eastern New Mexico University.

Mrs. Kennedy has four children and lists traveling and church work as her hobbies. Social studies, arithmetic and language are her favorite subjects.

She feels that most public schools are doing a wonderful job, with teachers being sincere in their efforts to do the best for the pupils; but that more teachers, buildings and equipment are needed to meet the rapidly increasing school growth.

Congratulations to Farwell Schools during Public School Week

The opportunities afforded our children for a sound, basic education in Texas Public Schools are excellent.

Take a look for yourself and see Democracy in Action this week.

FARWELL HARDWARE

THE HENSONS

Mrs. Alice Jay Tucker, who is county counselor, visits in the Farwell school several days during the week. She grew up near Oakwood, Okla., and attended Southwestern State Teachers College where she received a BS degree. Later she attended Western State College at Gunion and received an MA degree.

She began teaching in 1931 and taught in several Oklahoma schools before coming to Texas. For the past 5 years she has been county counselor.

Her husband is girls' Physical education coach at Farwell, and she has two children, Emalee and Doug.

Mrs. Tucker has no favorite subject but says she enjoys whatever she is doing and considers it her favorite at the time. Fishing, school work and her children are listed as her hobbies.

Mrs. John J. Boling who is one of Farwell's fifth grade teachers began her teaching career in Wise County, Texas. She has a BS and an ME degree, and did her college work at North Texas State and West Texas State.

She is married and has three children. Geography of the United States and Arithmetic are listed as her favorite subjects with creative work such as plaster and liquid plastic work being her hobbies.

She stated she felt the equipment, and modern buildings made for comfort and enjoyment of teaching and that now teachers do not have to furnish their own equipment for classroom work. One change she noted was that discipline was becoming more of a problem in the schools due to a lack of proper discipline in some homes.

Mrs. Laretta Pool began teaching in 1945 at Farwell, and has received all her teaching experience in the local school. She is married and is the mother of four boys.

She received a BA degree and MA degree from Eastern New Mexico University after doing some college work at West Texas State College in Canyon.

Mrs. Pool lists reading as her favorite subject with her hobbies being sewing, gardening and her grandchildren.

Mrs. Laretta Pool began teaching in 1945 at Farwell, and has received all her teaching experience in the local school. She is married and is the mother of four boys.

Mrs. Isla Rhea Huffaker is one of Farwell's third grade teachers. She has a BS degree and did college work at Oklahoma Presbyterian College, Southeastern State College, Southwestern State College and some correspondence work.

She began teaching in 1930 in Tulsa, Okla. She is married and has three children.

Mrs. Huffaker lists working on furs, crocheting and watching ball games as her hobbies with Language as her favorite subject.

She stated that she enjoyed the new elementary building, and believes that schools today are much better in every way.

Farwell's homemaking teacher, Mrs. Lola Smith, grew up near Melrose and taught there before coming to Farwell. She received a BS degree from Eastern New Mexico University and began teaching in 1948.

She has four children, Danny, Douglas, Ronald, and Dianne. Her favorite subject is home economics and her hobbies include flying and sewing.

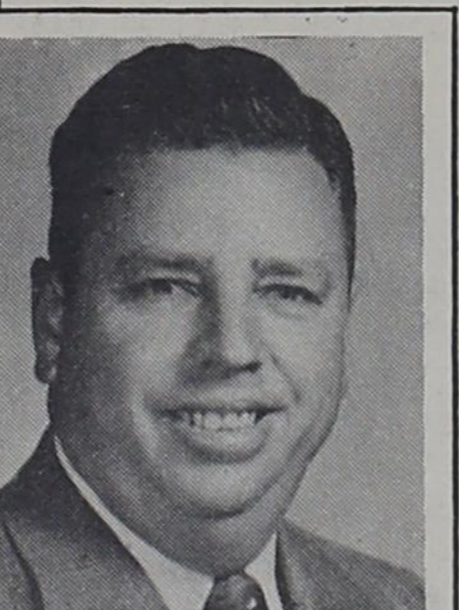

★
TEXICO - FARWELL

Our Schools Train Our Youth of Today for Productive Citizenship of Tomorrow.

We're happy to join in saluting our school system, its trustees, administration, faculty, students and fine facilities during Public School Week.

PIGGLY WIGGLY

TEXICO - FARWELL

W. M. Roberts, Farwell's school superintendent, was born and grew up near Anson, Texas. He attended North Texas State Teachers College at Denton and received a BS degree in 1937. Later he received a BS degree from Eastern New Mexico University.

Roberts began teaching in 1927 at Harmony school district near his home town. He taught in five schools before coming to Farwell where he taught for six years. After that he taught in Estelline and Whitharral before coming back to Farwell this year.

Roberts stated that he felt public schools had come a long way in the right direction since he started teaching.

An Invitation To Visit FARWELL SCHOOLS During Public School Week

Farwell Schools Will Be Good Schools Just As Long As The People Of The School District Keep Informed About The Schools And Strive For Their Improvement.

We, Too, Constantly Strive To Improve Our Services To You!

SECURITY STATE BANK -FARWELL-

Mrs. Oleta Ford has a BS degree and did her college work at Southwestern State College, Oklahoma A&M, Texas Tech, and ENMU. She began teaching in 1934 at Port Consolidated School in Oklahoma.

She is married and the mother of two children. Mrs. Ford lists her hobbies as reading and interior decorating, and her favorite subjects as history and social studies.

"Today emphasis is being placed on the gifted child, I agree that he needs challenging, but there are so many other children, who are average or less, and if they can get good public school instruction from a practical standpoint, many of them will be our leading citizens of tomorrow," stated Mrs. Ford.

Beginning her teaching career in 1925, Mrs. Hattie Coffey is now one of Farwell's fourth grade teachers. She has a BA degree from Eastern New Mexico University and has done other college work at Denton and at Texas Tech.

She is married and has two children. Geography and history are her favorite subjects and reading and cooking are her hobbies.

Mrs. Coffey stated, "It is my thought that the public schools of today are much superior to those of a generation ago."

Plastic Flower Demonstration Given At Club

Members of Pleasant Hill Home Demonstration Club met at the Community Center Thursday with Mrs. Ardale Thornton as hostess. A covered dish luncheon with fried chicken as the main course was served at noon.

A demonstration on plastic flower making highlighted the all-day meeting, with Mes-

dames Jim Perrin and N. E. Tyler from Hereford giving the demonstration.

Members attending the meeting were Mesdames Eric Pierce, J. J. Armstrong, Clarence Smith, Joe Burford, Juan Eskew, Lowery Winkles, H. M. Hopper, Alvis Clark, Tom Burnett, Mason Neely, Pearl Singleterry, Martha Heinz, Joe

Edwards, H. H. Thornton, and Elmer Langford.

Visitors at the meeting were Mesdames C. A. Starbuck, Eula May Madole, H. A. Stover, Charles McIntosh, Sam Berryman, Perle Duncan, W. C. Tidwell, Lillie May Daughtery, Wray Wilson, F. B. Scott, Bob Johnson and J. T. Johnson.

The key to good schools is public understanding of our school system, including the great importance of education to our social and economic well-being. Public understanding is necessary to public support which can enable schools to improve, constantly adjusting to keep in step with the times.

We Appreciate Our School System During Public School

Week let's all make an attempt to better understand our school system and acquaint ourselves with it's policies and methods of teaching our children.

R. B. Tucker, girls physical education coach and biology teacher grew up near Hollis, Okla. He attended Southwestern State Teachers College where he received a BS degree, and got his MA degree from Western State College at Gunnison, Colo.

He began teaching in 1931 and is now in his 7th year of teaching at Farwell. He is married to the county counselor, Mrs. Alice Tucker, and has two children Doug and Emalee.

His favorite subject is science and his hobby is fishing.

Mrs. Marlon Inman, who is teaching junior high English, health and history, at Farwell grew up near Muleshoe, and attended college at Hardin Simmons where she received a BS degree in Math.

She began teaching in Farwell in 1958, with her home room being the same room she had started to school in when she was in the first grade at Farwell.

She listed math as her favorite subject with sewing as her hobby.

"Pink and Blue" Shower Given Mrs. Tuggle

Mrs. James Tuggle was honored with a "pink and blue" shower in the home of Mrs. Ann Smith Tuesday afternoon.

Hostesses for the event were Mesdames Lora Mears, Annabel Hillock, Ona Bradshaw, Bernice Pulliam, Ann Glenn, Clytie Dial, Naomi Walls, Dorothy Hubbell, Kate Phillips, Merline Smith, Martha Curtis and Ann Smith.

Storks carrying babies wrapped in pink and blue bundles decorated the edge of the white table cloth. Centering the serving table was a large cake iced in pink with a stork and baby in the center and a tiny umbrella and baby shoes in the corner. The cake was served with punch and mints by Mesdames Martha Curtis and Merlene Smith.

Those attending besides the hostesses were Mesdames Harold Williams, H. R. Crook, J. O. Ford, Percy Tipton and the honoree.

Many who were unable to attend sent gifts.

Members of the WSCS of the church met Monday evening in the home of Mrs. Sam Billingsley to climax their study on Africa with a dinner.

After the dinner, Mrs. R. E. Blankenship gave a book review on "Seeing Africa," which was written by Rev. Ansil Lynn, former pastor at Oklahoma Lane who served a three year term as an African missionary.

Mrs. George Lindop concluded the program with the meditation.

Those attending besides the above mentioned were Mesdames Merrill Rundell, Lee Jones, Melborn Jones, Conrad Nelson, John West, Wendol Christian and Gwendolyn, C. C. Christian and Phyllis, and Carolyn Lindop. Two guests, Mesdames Grady King, and Billy Joe Foster, also attended.

Oklahoma Lane Methodist Mentions

Post-Nuptial Shower Given Recently For Jerry Trowers

Mr. and Mrs. Jerry Trower were honored at a recent post-nuptial shower in the Rosedale Community Center.

Mrs. Trower is the former Jerry Thigpen, daughter of Mr. and Mrs. F. S. Thigpen of Texico.

Mrs. Trower's chosen colors of red and white were used throughout the decorations and refreshments.

A white cloth covered the gift table which was centered with an arrangement of red and white hearts.

The serving table was laid with a white cloth and centered with a large red net heard edged in silver. White doves nestled in white apple blossoms which were arranged on each side of the heart. A miniature bride attired in a white net and satin dress and a bridegroom wearing a black suit, black derby and white boutonniere stood near the arrangement. Red tapers in crystal holders flanked the decoration. Twisted red and white rope was caught in scallops on the hem of the tablecloth. Red net hearts edged in silver centered each scallop.

A bridal decoration was centered on the wall above the gift table. Two white wedding bells glittered in silver and tied with a huge white lace ribbon centered the decoration. Two doves with wings outstretched in flight flanked the arrangement.

Other wall decorations were two hearts of red and white tied with a red net ribbon; and a cluster of white apple blossoms above the serving entrance.

Guests attending the courtesy were introduced by the honoree's mother-in-law, Mrs. Bernard Trower.

Miss Verlene Thigpen of Texico, sister of the bride, registered thirty guests in the bride's book.

Mrs. C. L. Hutchins was in charge of the bridal games and later gave a welcome address to the honored couple, who are living in the Bellview community.

Refreshments of red punch, dainty cheese sandwiches, red mints, and heart shaped cakes were served by Mrs. Virgle

Harrison at the crystal punch bowl.

Hostesses for the event were Mesdames Ralph Northcutt, Johnnie Foster, Ralph Lofton, Virgle Harrison, Floyd Lofton and C. L. Hutchins.

Moved

Rex Moore to Thomas' rent house on third street. Mrs. R. E. Williams to Texico from Clovis.

Mr. and Mrs. Delvin Langford of Memphis were visitors in the home of his parents, the Elmer Langfords, last weekend.

Office Ph 9-0110--Res. 6570
Closed Wed. & Sat. Afternoons

Maude Hicks, who is now teaching one of Farwell's sixth grades, began teaching in Hardeman County in 1919. She has a BS degree and attended college at North Texas State Teachers college, and West Texas State College.

"Most Public schools are improving yearly to meet the demands for better educational programs, but the need for improvement never ceases. Schools will have to make certain adjustments especially in science in order to provide the recommended guidance program that is now being studied," stated Miss Hicks when asked about today's public schools.

She lists arithmetic and science as her favorite subject and collecting pictures and souvenirs as her hobbies.

Education is important in preserving the freedoms we enjoy.

During Public Schools Week and every week, we're backing our fine school, its administration, faculty, students and facilities.

Teaching one of the sixth grades at Farwell is Mrs. Lucile Britain who has both a BS and MS degree. She did her college work at the University of New Mexico, Abilene Christian College, and Eastern New Mexico University, and began teaching in 1926.

Golf and keeping track of world events are her hobbies, and reading is her favorite subject.

She states that many wonderful changes have taken place in the public schools since she began teaching. Communities have more pride in the schools, higher scholastic standards have been set, and higher qualifications have been set for teaching. More interest in PTA and other school functions and greater respect for teachers are but a few of the improvements made she feels.

KEMP LUMBER CO.

Farwell

Mrs. Jan Ross started her teaching career at Farwell this year. She is one of the first grade teachers.

She is a graduate of Eastern New Mexico University with a BA degree. Mrs. Ross lists psychology as her favorite subject and sewing as her hobby.

She is married to G. C. Ross and is the mother of one child.

Hats Off . . . to the Administration and Faculty of Farwell Schools During Public School Week

Texas Public Schools Have Been Doing A Wonderful Work For Many, Many Years And Farwell Schools Are Doing For Our Youth And Our Community A Fine Job.

Support Our Schools.

Bill Bradley, Farwell's music teacher, grew up near Big Springs, and has a BA degree in music.

He is in his first year of teaching at Farwell, and lists music as his favorite subject.

Bradley is an only child and says his hobby is collecting old record players and records.

He stated that students at Farwell were easy to work with and that he found patrons of the school co-operative.

Calvin Murray, who is Farwell's high school boys' basketball coach as well as an algebra and geometry teacher, grew up at Clinton, Okla. He attended college at Southwestern State College where he received an AB degree. Later he attended West Texas State College and has an ME degree from there.

Murray started teaching in 1946 at Adrian and taught there for seven years before coming to Farwell. He is now in his seventh year of teaching at Farwell.

He listed math as his favorite subject and his hobby as fishing.

Mrs. Gene Dew who serves as librarian and study hall keeper at Farwell grew up at Clinton, Okla., and attended college at Southwestern Teachers College at Weatherford.

She is married to the local science teacher and has one child, a daughter, Sherri. Mrs. Dew lists accounting as her favorite subject.

Jack Williams, who is now serving as elementary principal, has taught for a total of 23 years with more than 14 of those years being in the Farwell school system.

He received a BS degree at Southwestern State University at Weatherford, Okla., and has an MA degree from ENMU.

Williams is married and has four children, Bert, Dickie, Tommy and Sharon.

He says Algebra I is his favorite subject and his hobby is working with youngsters.

When asked if he had a comment to make on public schools of today Williams answered, "The progression of the public schools in most school districts has been outstanding during the past fifteen years. Local interest and support of the schools must continue if this progress is continued. Without this interest and support the patrons of the school districts stand to lose control of their schools in the near future."

Mrs. Exa Hopkins is one of the three second grade teachers at Farwell. She started teaching in October of 1928 at Hardeman after attending school at West Texas State College in Canyon.

She taught in eight different schools before coming to Farwell. Mrs. Hopkins is married and is the mother of one child.

PERSONNEL

is the key to good schools.

Without skilled, trained and experienced teachers, all our magnificent school facilities, our planning and our hopes would be useless. In the final analysis, the responsibility for directing the pupil is on the shoulders of the teacher.

We're fortunate here in Farwell in having teachers who have accepted the responsibility and are doing outstanding work.

-FARWELL-

Clara Florence, who teaches one of the second grade rooms at Farwell received a bachelor of Science degree from Eastern New Mexico University with other college work at Las Vegas Teachers College.

She began teaching in 1926 and lists geography as her favorite subject. Reading and traveling are her hobbies.

"In Our Public Schools of today we try to train the pupil's personality and enrich it by widening his intellectual scope. This is done by giving him the mental ability to think what lies beyond his experiences and observations so he can form his own conclusion," stated Miss Florence when asked if she would like to comment on the public schools.

Mrs. Elsie Cain, who has been first grade teacher at Farwell for a number of years, received her BA degree from Eastern New Mexico University. She did other work at Denver University, Highlands University and West Texas State College.

She is married and is the mother of one child, Loyde Allen, a senior student at Farwell.

Mrs. Cain's statement on public schools was: "The schools of today are trying to give students opportunities to use what they learn while they are learning it."
