

Turkey Shoot To Be Saturday And Sunday

Area hunters will have an opportunity to limber up their firing arms for the fall hunting season this Saturday and Sunday at the Texico-Farwell Lions Club turkey shoot.

The Saturday skeet shoot will begin at 1 p. m. and Sunday's activities start at 2 p. m. The shoot will be on a vacant lot across from Farwell Fertilizer in east Farwell.

Participants must furnish their own ammunition and gun. The Lions Club will have ammunition on sale at the site. Shooters will be competing in groups of five and the winner of each contest will have his choice of either a turkey or ham. Entrance fee for each contest is \$2.00.

The Lions this week were clearing off the area and building a pit for the trapshooting machine, which the club borrowed from the Whitharral Lions Club.

Arrangements have been made with local merchants for furnishing the turkeys and hams. Certificates will be given to

the winners and they will be good for either a turkey or ham at designated merchants.

In mapping out plans for the turkey shoot Monday night, the Lions Club adopted the following set of rules:

1. No drinking allowed
2. No guns to be loaded until shooter gets into firing position.
3. There will be no shots larger than No. 4 bird shot.
4. Each shooter to fire at three targets in succession.
5. Five shooters to comprise one contest.
6. Shooting stand will be 15 yards (45 feet) back of the pit. In event of a tie, the tied shooters will go to shooting stand No. 2, five yards behind stand No. 1 and shoot at two targets in succession. In the event of another tie, they will go back to the No. 3 stand, five yards back and shoot at two targets.
7. There shall be two judges appointed by the club, with alternates. All decisions will be final.

GETTING HIS SHOTGUN OILED UP for the turkey shoot, scheduled for Saturday and Sunday, is Billy Watts, left, as Gene Hardage looks on. Both of these fellows will be participating with other area hunters in the Lions Club-sponsored skeet shoot east of Farwell.

FORTY-NINTH YEAR

Appreciation Day Plans Take Shape

Chamber of Commerce committees this week are making final preparations for the Farwell merchants annual customer appreciation day next Saturday, September 3.

Few of the plans are complete, but highlights of the day's activities will be four cash drawings, special price concessions on the part of some merchants, and entertainment and a free barbecue at the Farwell football field.

The exact amount of the cash drawings and where they will take place will be decided later and will be announced next week. The drawings will be at 10, 12, 2 and 4 o'clock.

Cary Joe Magness, chairman of the entertainment committee, says there is nothing definite yet, but the program will probably consist of local talents. The entertainment will start at 5 p. m. and the barbecue will be at 6 p. m.

Scooter Queen of Bovina has been hired to prepare and serve the barbecue.

Wilfred Quickel, general chairman of Appreciation Day, says he will have contacted all the businesses by the latter part of this week. A complete list of all the participating merchants will be given next week.

Magness Buys Go-Kart Track

George Magness, a barber in Farwell for the past 10 years, recently traded his facilities at the City Barber Shop to Walter Hardage and Herbert Potts for the go-kart track east of Farwell.

Magness this week took over operation of the track, which was built early in the summer by Hardage and Potts. The barber shop has been closed since the trade, but Hardage and Potts say it will be opened soon.

They plan to hire someone to operate the shop.

Pleasant Hill Youth Revival In Progress

A youth revival, which started Monday at the Pleasant Hill First Baptist Church, will continue through Sunday night.

Jimmy Grishman, of Portales, is the evangelist and Slim Mason, of Hart, is the song leader. The daily services are at 7:30 p. m. A prayer meeting is held prior to the services at 7 p. m.

The Rev. Charles Jones, pastor of the church, invites everyone to attend these services.

Mrs. Herbert Williams and Danny of Roswell spent the past week in the home of Mr. and Mrs. E. G. Williams. Herbert joined them for the weekend and they returned to Roswell Sunday.

Mosquito Control Work Under Way In County

Spraying for mosquitoes under a special arrangement by the county's Commissioners Court with Federal government will get underway this week.

Ground rigs began dusting around Friona Tuesday night with the rigs scheduled to be busy dusting in Bovina on Wednesday, followed by Farwell on Thursday and the outlying communities of Lariat, Lazbuddie, Oklahoma Lane, Rhea and Black scheduled for the coming weekend.

This schedule was announced in Friona Tuesday afternoon by Elvie Jennings, of Bengier Air Park, contractor for the county's spraying.

Ground rigs spraying a mixture of BHC, DDT 3-5-0 dust around the towns will be followed up by the spraying of lakes around Friona, Farwell and Bovina for a 2-mile radius beginning also Tuesday afternoon.

"We will have to spray the lakes late in the evening after the heat has begun to settle down," Jennings says. "This is

the practice recommended by the State Health Service." Farwell will not get a complete (Continued to page 8)

School Hires Band Director

Jack Neal Gray, who has been head of the music department at Stanton Schools for the past four years, has been hired as band and music director at Farwell, reports W. M. Roberts, school superintendent.

Gray, who completed work on his Master of Education degree at Texas Tech this summer, will fill the vacancy left by Charles Higdon, who resigned last week to accept another position.

The new band director received his bachelor of science degree from Texas A&I and has been in the teaching profession for 16 years. He and his wife have four children, three who will be in school. They plan to move to Farwell this week.

Asgrow Seed Opens Office

Asgrow Seed Company this week opened an office in Farwell. The office is located behind the Farwell Post Office and from this local outlet Asgrow will serve Parmer, Bailey and Deaf Smith Counties in Texas and Roosevelt and Curry Counties in New Mexico.

The office was moved to

Farwell from Hereford. The company plans eventually to move its branch warehouse here when adequate facilities are available, but until that time, the storage plant will remain in Hereford, says Bob Brooks, who is this area's branch manager for Asgrow's Southwestern division.

Bobby Joe Crume, of Farwell, who is territory salesman, will be the local office manager. Brooks will also assist in operating the Farwell office.

It had previously been announced that Jervey Roland would manage the office here, but he has been transferred to Asgrow's office at Lubbock.

From the local office, Asgrow will be moving vegetable seed to New Mexico production areas, and locally, the firm's main line will be hybrid grain sorghums, which are sold through area dealers.

Texico School Registers 373

The enrollment in the Texico School dropped this year according to J. Buck Doran, superintendent.

In the elementary school, grades one through six, the enrollment was 190, while 183 registered in secondary school. At one time last year the school reached 420 and Doran states that probably 20 more will register this year for an approximate enrollment of 400.

Farwell Classes Begin Monday

Once again, the faculty is complete and everything is set for the opening of school Monday at Farwell.

There will be a full day of classes Monday, beginning at 8:30, announces W. M. Roberts, superintendent. There will be no school assembly this year on the first day of school, as has been the case in the past.

"Elementary students will go to their classrooms and high school and junior high school students will report directly to their first period classes," Roberts says.

All high school students are registering today (Thursday) and tomorrow. Juniors and seniors registered today, sophomores register from 1 to 2:40 tomorrow (Friday) and freshmen register from 2:40 to 4. The school lunchroom will be open Monday

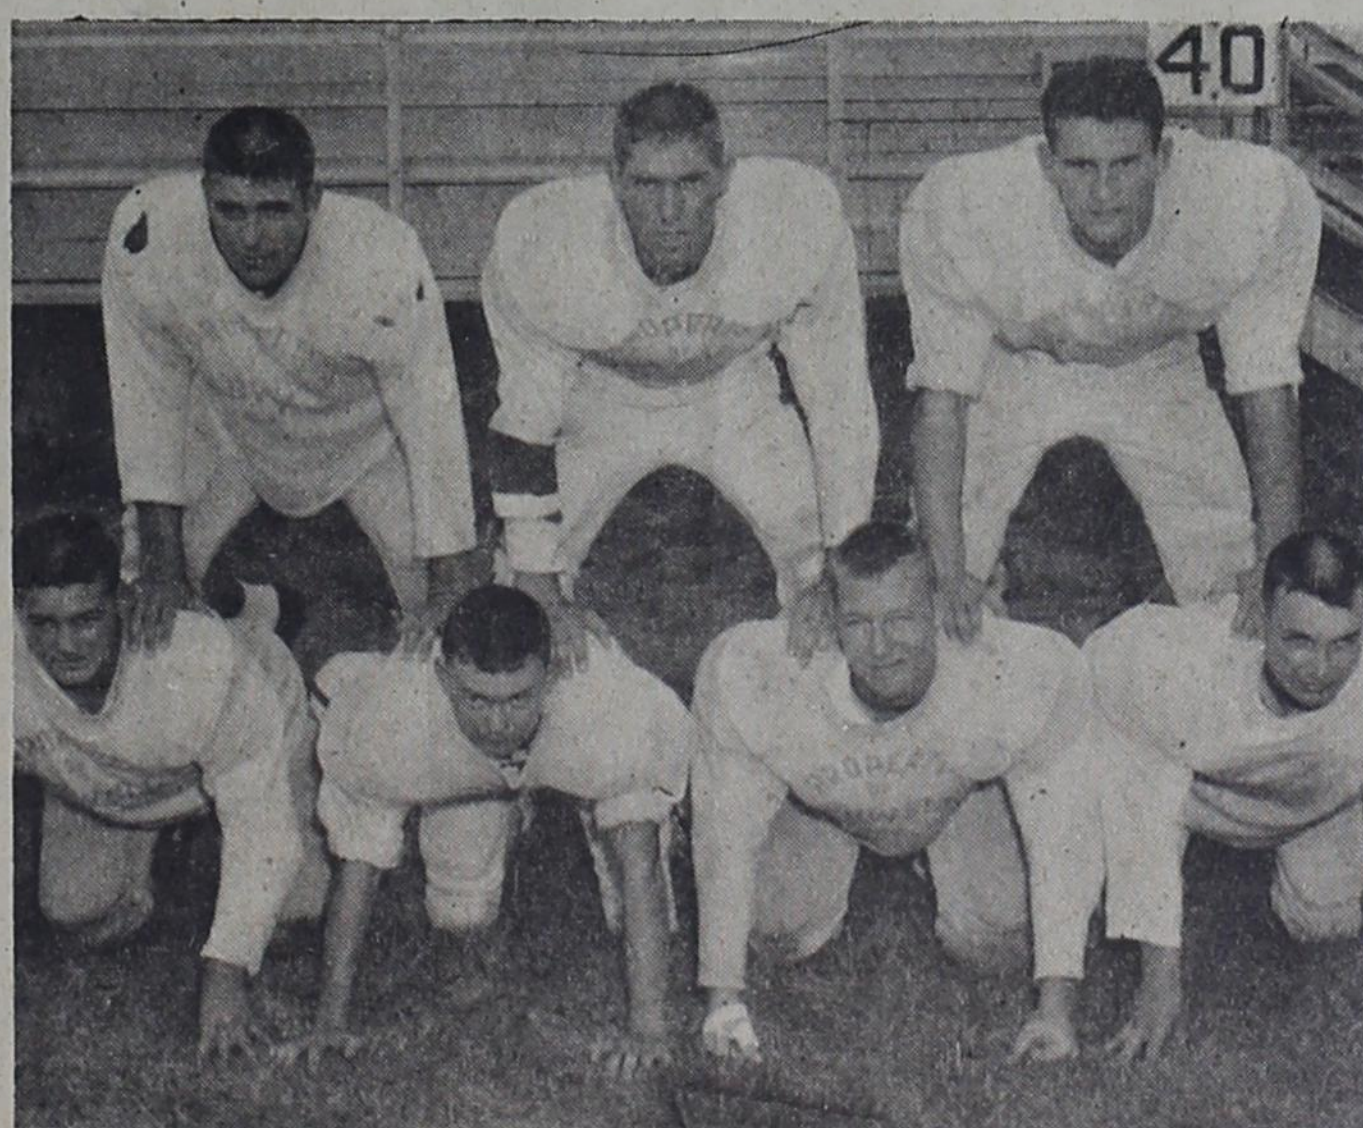

and will serve the elementary school children beginning at 11 o'clock, followed by the junior high and high school students at 11:55.

Prices for lunches will be the same as last year, with students in grades one through six paying 30 cents and students from grades seven through twelve paying 35 cents. Tickets may be purchased for the week or for the month. Extra milk will be sold for 2 cents per half pint.

Lunches for teachers will be 40 cents and visiting adults will be charged 50 cents.

A new course added to the school curriculum this year is driver training for high school students. This is the first time in several years for the course to be offered. It will be taught by Dempsey Alexander.

Steers Look Good In Practice

"ROUGH AND READY" is how you would describe these seven returning starters on the Farwell Steer football team. They make up the nucleus of a star-studded team which will be taking on an ambitious schedule this fall. From left to right, bottom row, are Scotty Turner, Jim Clements, Jim Cain, and Bill Owen. Top row, Carroll Huggins, Benjy Dial and Jerry Lovelace.

With the opening game only a week away, Coach Dempsey Alexander says that everything is progressing satisfactorily in the Farwell Steer training camp and the team should be ready for the Friona Chiefs next Friday night.

"The boys want to play, and that's always a good sign," Alexander says. "We will be short on depth, but several of the younger boys are pushing for starting positions," he adds.

The team scrimmaged Muleshoe Tuesday night and made a good showing. "I was well pleased with their performance," Alexander said after the scrimmage in which the Steers scored five times and the Mules scored twice.

Alexander named a probable starting lineup for the season opener, but said it could change between now and then. As of now, the probable offensive linemen are Bill Owen, senior, left end; Jimmy Cain, junior, left tackle; Jerry McCuan, senior, left guard; Jimmy Clements, junior, center; Scotty Turner, junior, right guard; Floyd Trantham, junior, right tackle; and David Lindop, junior, right end.

Probable starters in the backfield are Benjy Dial, senior, quarterback; Jerry Lovelace, junior, fullback; Carroll Huggins, senior, right halfback; and Tommy Williams, senior, left halfback.

On defense the lineup will be about the same except for three possible changes, the coach says.

Alexander cited five other boys who have been showing up well in practice and will probably be seeing much action for the Steers. They are Leon Lovelace, freshman; Donald Dale, junior; Dick Gerles, junior; Danny Lindop, freshman; and Bobby Atkinson, sophomore.

The Steers will be playing without the services of two transfers, Max Fields and Robert White, who the coach had been figuring on to bolster the backfield. Fields is ineligible because his parents live outside of the school district and White has not been able to join the Steers because of duties on the family farm.

However, everything considered, the team is looking good. "I think we're in much better shape this year than we were last year at this time," Alexander says.

No matter what a person's occupational endeavor might be, there are always times when he thinks the hazards of his job far excel those of his fellow-man.

"There must be an easier way to make a living," is a common utterance among the rank and file from nearly every walk of life. Whether a person is a farmer, businessman, educator, laborer, housewife, town loafer, or what have you, there can be, and there usually are, drawbacks to his profession.

Many times, however, all we have to do is look around us, and we'll find that the other fellow has problems too.

One night last week, as I sat here at this cluttered desk, burning up some extra kilowatts, it was one of those times when I kept telling myself there must be an easier way. I was quite sure that persons engaged in normal occupations had long since called it a day and were home enjoying idle moments of leisure.

I wanted to talk to Willie Roberts about something, so I picked up the telephone and dialed the superintendent's number. The reception that came from the other end of the line was one of the coolest I've received in a long while. And, I have been the recipient of many an ice-coated shoulder.

Willie just wasn't his usual talkative self, and all during our conversation I kept wondering what I'd done wrong. Finally, as I was about to ask, "What did I ever do to you?", the reason for his sullen mood became apparent.

The superintendent (normally a likeable fellow), who had spent a good part of the summer rounding up teachers to complete his faculty, was at it again. The opening day of school was only 10 days away and Willie had just lost his band director.

Having been in contact with Willie throughout the summer as he sought to fill his teacher vacancies, I knew what some of his problems had been and what he was facing again. The hiring of qualified teachers is by no means one of the easiest tasks in the world.

All I could do was sympathize with him, but as I place the telephone back on the hook and returned to my work, it was with a realization that I wasn't the only one who experienced occasional bad moments.

Fortunately, everything did turn out all right for Willie. He did hire a band director, and this week it appeared as though he had a new outlook on life.

Dutch Quickel was working up a set of rules and regulations Monday for the Lions Club turkey shoot this weekend. He showed them to me and asked what I thought of them.

They all looked okay to me, but I had to question him on the first one. Right at the top of the list was, "No Drinking Allowed."

I didn't question the need for such a rule, but why have it first, I asked.

"There's a good reason," Quickel said, and he proceeded to relate what happened at a turkey shoot sponsored by the American Legion several years ago.

A match was just about to get under way, when up to the firing line ambled a slightly inebriated woman with a big shotgun in her hand. She yelled something like "Where are they at?", and brought the gun to her shoulder and blasted away.

For the fellows who were there at the time, the mere mention of a turkey shoot always brings this incident to mind. And, their hair still stands on end every time they think about it.

So, all you nimrods who are going to enter the shoot this weekend, take note. Booze and shotguns don't mix, and should anyone have intentions of taking a nip at the Lions Club shoot, he'd better look out. Some of those oldtimers might just run you off.

Life Is Worth Your Living

By Robert O. Tomlinson

There are so many open doors to life worth living that you should not miss going through some of them.

YOU ARE HEREBY NOTIFIED that suit has been brought and is now pending in the Honorable District Court, 154th Judicial District, Parmer County, Texas, wherein FARWELL, CONSOLIDATED INDEPENDENT SCHOOL DISTRICT IS Plaintiff, STATE OF TEXAS, PARMER COUNTY and HIGH PLAINS UNDERGROUND WATER CONSERVATION DISTRICT NUMBER 1 are Impleaded Party Defendants; and Ruby Cowan deceased and her husband W. T. Cowan Deceased, Ophelia Dotson, Mrs. B. F. (Buna) Hutchins, John Moore and his wife Leota Moore, Linnie Hancher, deceased and her husband Clarence Hancher, Minnie Hancher Mizar, Linnie Mizar Hancher, Linnie Mizar Hancher, and should any of the above named parties be married then his unknown wife or wives and her unknown husband or husbands...

Life was worth living for Christ, and He makes life worth living to all who have faith in Him and His power to give life. Jesus Christ is the central person in the good life; the life worth living. Life comes alive in Him. He gives to life authority, reality, and compulsion.

Visible or invisible, He is at the center of every vision and gives the essence of meaning to every proclamation. The whole history of the fashion in which Christian men have managed to live in the world is full of the sense of the central person and the life which is made real to men because it is real in Him.

He opens the doors, and if you will let Him come in and have companionship with you, then life is worth your living.

Proposed CONSTITUTIONAL AMENDMENT NUMBER THREE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 5, 1960.

HOUSE JOINT RESOLUTION NO. 8 proposing an amendment to Section 24 of Article III of the Constitution of the State of Texas allowing an annual salary of not to exceed Four Thousand, Eight Hundred Dollars (\$4,800) per year and a per diem allowance of not to exceed Twelve Dollars (\$12) per day for the first one hundred and twenty (120) days only of each Regular Session and for thirty (30) days of each Special Session of the Legislature...

Section 1. That Section 24 of Article III of the Constitution of the State of Texas be amended so as hereafter to read as follows: "Section 24. Members of the Legislature shall receive from the Public Treasury an annual salary of not exceeding Four Thousand, Eight Hundred Dollars (\$4,800) per year and a per diem of not exceeding Twelve Dollars (\$12) per day for the first one hundred and twenty (120) days only of each Regular Session and for thirty (30) days of each Special Session of the Legislature. No Regular Session shall be of longer duration than one hundred and forty (140) days."

"In addition to the per diem the Members of each House shall be entitled to mileage in going to and returning from the seat of government, which mileage shall not exceed Two

Dollars and Fifty Cents (\$2.50) for every twenty-five (25) miles, the distance to be computed by the nearest and most direct route of travel, from a table of distances prepared by the Comptroller to each county seat now or hereafter to be established; no Member to be entitled to mileage for any extra Session that may be called within one (1) day after the adjournment of a Regular or Called Session."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the 5th day of November, 1960, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment allowing an annual salary of not to exceed Four Thousand, Eight Hundred Dollars (\$4,800) per year and a per diem allowance of not to exceed Twelve Dollars (\$12) per day for the first one hundred and twenty (120) days only of each Session of the Legislature as the maximum compensation and limiting the Regular Session to one hundred and forty (140) days."

"AGAINST the Constitutional Amendment allowing an annual salary of not to exceed Four Thousand, Eight Hundred Dollars (\$4,800) per year and a per diem allowance of not to exceed Twelve Dollars (\$12) per day for the first one hundred and twenty (120) days only of each Session of the Legislature as the maximum compensation and limiting the Regular Session to one hundred and forty (140) days."

Section 3. The Governor of Texas shall issue the necessary proclamation for the election and the Amendment shall be published in the manner and for the length of time as required by the Constitution and Laws of this State.

Proposed CONSTITUTIONAL AMENDMENT NUMBER FOUR ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 5, 1960.

HOUSE JOINT RESOLUTION NO. 6 proposing an amendment to Section 11, Article XVI of the Constitution of the State of Texas, so as to give the Legislature authority to classify loans and lenders, license and regulate lenders, define interest, fix maximum rates of interest, and provide for a maximum rate of interest of ten per cent (10%) per annum in the absence of legislation setting maximum rates of interest; providing that the rate of interest shall not exceed five per cent (5%) per annum in contracts where no interest rate is agreed upon; providing for the right of appeal and trial de novo in the event any regulatory agency cancels or refuses to grant any permit; providing for the necessary election and the form of the ballots; and providing for the necessary proclamation and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 11, Article XVI of the Constitution of the State of Texas be amended so as hereafter to read as follows:

"Section 11. The Legislature shall have authority to classify loans and lenders, license and regulate lenders, define interest and fix maximum rates of interest; provided, however, in the absence of legislation fixing maximum rates of interest all contracts for a greater rate of interest than ten per cent (10%) per annum shall be deemed usurious; provided, further, that in contracts where no rate of in-

terest is agreed upon, the rate shall not exceed six per cent (6%) per annum. Should any regulatory agency, acting under the provisions of this Section, cancel or refuse to grant any permit under any law passed by the Legislature giving such authority, the holder shall have the right of appeal to the courts and granted a trial de novo as that term is used in appealing from the Justice of Peace court to the county court."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1960, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment giving the Legislature authority to classify loans and lenders, license and regulate lenders, define interest and fix maximum rates of interest; and providing for a maximum rate of interest of ten per cent (10%) per annum in the absence of legislation fixing maximum rates of interest."

"AGAINST the Constitutional Amendment giving the Legislature authority to classify loans and lenders, license and regulate lenders, define interest and fix maximum rates of interest; and providing for a maximum rate of interest of ten per cent (10%) per annum in the absence of legislation fixing maximum rates of interest."

Section 3. The Governor shall issue the necessary proclamation for the said election and have the same published as required by the Constitution and laws of this State.

JOTTIN'S By Jeanne

Things are beginning to happen. If you think you've had a busy summer, just wait. We can already sense the feel of more activities as schools ready for the fall terms, organizations begin to think about projects and meetings for the coming club year, and news becomes more and more plentiful.

This is always a readjustment time for the news gatherer. Things move just a wee bit slower during the summer months, then suddenly, we have more stories than we have room to print. But we rather like it--the more the better.

The camping out fever hit the Graham boys and their friend, Johnny Boling. It was an exciting time as they spent all one day gathering sleeping bags, pillows, and all the things they would need for the big adventure. Preparation was the most fun!

Sure enough, they could hardly wait for night, so they could get away from it all.

It lasted until about 10:30 when the honest 5-year-old, Hal, appeared at the back door and announced he was coming inside. Reason: "I'm kared (scared). In about 15 minutes, Johnny appeared: "If Hal isn't going to stay with us, I'm not staying either." It wasn't long until the 7-year-old leader of the party joined the indoor jaunt saying "It's no fun camping out alone."

It was fun while it lasted.

One of our neighboring publishers reminds that those people who look to the government to bring them security and prosperity ought to remember what happened to the American Indian.

One thing that we determined after our recent vacation is that if you do much traveling, it's a good idea to take a well-stocked larder. Prices for the tourist can get pretty high. It makes us appreciate our home-town merchants all the more.

AN AVALANCHE OF CANTALOUPEs comes out of a truck and down the chute at one of Bovina's two packing sheds. The melons are carried by conveyor belt into the shed where they are graded as to quality and size and then packed for shipping.

THESE CANTALOUPEs HAVE BEEN GRADED and are being packed in crates by two workers at Gateway Produce Company in Bovina. The cantaloupes are each stamped with a Gateway seal before being shipped.

Cantaloupes Are Rolling

THE HIGH PLAINS FARM AND HOME

Housing Regulations Changed

Cantaloupe harvest swings into high gear in the Bovina area this week as workers gather the golden melons from the more than 500 acres and haul them to the two packing sheds. Gateway Produce Co. started packing and moving the vine-ripened cantaloupes late last week and operations at Bovina's new shed, Salt River Valley Produce Co., got underway early this week.

As the harvest began, Charles Flynn, owner of Gateway Produce, reported that the market price was from \$3.00 to \$3.50 per crate. This was about \$1.00 less than they were selling for the previous week.

Both farmers and shippers were hopeful that the price would climb higher.

It was too early to tell just what some of the yields would be, but estimates ranged from 200 to 250 crates per acre. The quality of the melons was exceptionally good. Men at both packing sheds say that both yield and quality will be better than last year.

Most of the cantaloupes packed at Bovina will probably go to the Southeastern states, Flynn says. The crop was almost a month late this year, due to early-season rains, and because of this, the melons will be hitting the market at about the same time home-grown melons will be ready for consumption in the midwest.

Cantaloupe growers in this area try to plant their crop so that it will be ready for market before melons are ripe in the midwest. However, during the past two years, the crop has been late and this has hurt the marketing of Palmer County-grown cantaloupes in the mid-western states.

In addition to cantaloupes, Gateway will begin packing cucumbers and bell peppers at its shed next week. Pat McGee of Gateway says that these vegetables will be packed between runs of cantaloupes and will not disrupt the melon packing.

The cantaloupe harvest will last for about six weeks.

Under a recent change in the eligibility requirements for Farm Housing Loans, a farmer who owns a farm that will annually produce for sale or home use at least \$400 worth of commodities may, if he meets other eligibility requirements, be able to obtain a Farm Housing Loan.

Previously, according to Billy R. Boling, Farmers Home Administration County Supervisor for Palmer County, an applicant had to own a farm that would produce a substantial amount of the operator's income.

Farm Housing loans are made by the Farmers Home Administration and are used to construct and repair needed farm houses and farm service buildings.

Other eligibility requirements for Farm Housing loans remain

unchanged. These requirements are that the applicant lacks the resources needed to obtain credit elsewhere, be a citizen of the United States, and

have sufficient income from farm and other sources to pay farm operating and family living expenses and meet payments, when due, of debts.

fit on this farm in 1960. Other trials will be run in 1961 and I feel it advisable for each farmer to do a little checking on his own to see just how his land will respond to different plant food elements. As time goes by we can expect elements other than nitrogen to be needed on most all soils and all crops. The important thing is to know when that time has come on your farm so the proper elements can be applied. The soil test and trials on your farm will give you the best answer you can get.

At this time of year when land is being prepared for wheat you had better consider sending a soil sample off for fertilizer recommendations unless you have pretty well determined your fertilizer needs from previous trials. About two weeks ago, results of several demonstrations were published showing the value of Phosphate on sandy soils. The enclosed report gives the results obtained on J. D. SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH
For those that are planning to plant alfalfa this fall now is

the time to start land preparation. A good system of graded borders is needed to control the water for irrigation. This can be done by laying off small borders in the field and removing the side-fall with a grader type implement.

First, the soils must have sufficient depth to permit the required smoothing of leveling without seriously reducing the depth below that needed for normal root development. The intake rate of the soil should range from about one to two inches of water per hour. The available water-holding capacity of the soil should be more than one inch of water per foot of soil depth.

Topography should be smooth and uniform. The borders from side to side should be level and the grade in the direction of flow must be constant or uniformly increasing or uniformly decreasing.

Water should be available at a rate adequate to meet the needs of the crop during the peak use period.

A system such as this usually requires only minor leveling or smoothing and the layout and construction is relatively simple. Light water applications can be made.

On the other hand you cannot fully utilize the rainfall on graded borders as well as on bench leveled land and a higher degree of skill is required to apply the water efficiently. Also, a drainage system such as a waterway is needed on this type of system and there is some danger from erosion by rainfall.

CUTTING A SLICE from one of the 11 cakes entered in the Parmer County 4-H baking contest is Mrs. Mona Hilbert, Home Demonstration Agent for Randall County. She judged both cakes and rolls entered by 12 county girls.

Billingsley To Represent County In District Show

Judy Billingsley of Farwell will represent Parmer County in the district bake show which will be September 17 at the Tri-State Fair in Amarillo. She won the contest in Parmer county over 12 other girls who entered a sponge cake, batter yeast rolls and a record of their projects.

Placing second was Janis Billingsley of Farwell and third place winner was Pat Chitwood of Lazbuddie.

Others entering were Carolyn Annoan, Marsella Mayfield, Sherri Tannahill, Katie Blackstone, Judy Koelzer, Karen Miller, Marianna Gammon, Linda Gleason, and Patricia Tannahill.

Girls entering only sponge cakes were Marsha Schumann, Jill Mimms, Susan Blair, Patty Tatum, Kara Beth Sides, Belinda Mabry, Rhonda Rjuicka, Carol Miller, Terri Sue Mabry, Katheryn Gober, and Mary Coffey.

Those entering batter rolls were Becky Wilson, Cathy Wilson, Cynthia Harvey, Katheryn Gober and Connie McKenney.

Judge for the show was Mrs. Mona Hilbert of Randall County.

NEWS FROM THE
FARM BUREAU

BY RAYMOND EULER

The OLD RANCHER

I'M GETTING
READY FOR
THE NEXT
DROUGHT:
THE
GREAT PLAINS
CONSERVATION
PROGRAM
IS HELPING.

In 1945, when the United Nations was organized, there were 51 member nations, 15 of these member nations were African and Asian. U. S. News and World Report calculates that by the end of 1962, there will be 108 members with 58 of them being African and Asian. The question they posed was, who will then control the United Nations? Who do you think will control it?

"Our basic principle in confronting this situation (the farm program problem) is that occupancy and use should be the only rightful title to farmland. Where conditions favor family farming, the security of such farmers should be strengthened through cooperative credit purchasing and marketing, aided by government financing. Where modern techniques and specialization require large-scale farm ownership, we call for social ownership and cooperative operation to replace the corporate farm. The foregoing is the Socialist Agricultural Platform for 1960, as set forth by that party. We have heard some (very few) men say that possibly they could go along with a socialistic farm program. We honestly don't believe any man in this area could go along with the above program willfully.

We also think it is important that we all watch closely for proposals presently being presented in the major parties that parallel some of the Socialist ideas set forth here.

We will not be surprised if next year we see fly and mosquito spray being doled out to individual householders. The very idea of federal government aid to counties such as Parmer and others in the area for the control of mosquitoes on the basis of a "disaster area" when this county is one of the wealthiest in the state and nation.

And particularly when we are about to the end of the mosquito season. On the basis of the above situation, it certainly would not be out of line to consider the driver of a year old car in a disastrous situation warranting federal aid for a trade.

Don't forget to file for Federal State Road Use Tax refund on your tractor and combine gasoline, (a reasonable thing to do as long as you have the opportunity).

CONSIDER THIS: Give her (the virtuous woman) of the fruit of her hands; and let her own works praise her in the gates." Proverbs 31:31.

An English druggist, John Walker, made the first friction match in 1827.

Is there still some room in your home freezer? -- If so, why not preserve some colorful melon cubes or balls for use later in the year... for desert, salad or appetizer. Marie Tribble, extension foods and nutrition specialist of Texas A&M College, says freezing melons is quick and easy to do.

For home freezing, select firm-fleshed, well colored, ripe melons. Cut in half, remove seeds, and peel. Cut the peeled melon into cubes or cut in balls the size of large marbles using one of the small spoon-scoops sold for the purpose.

Pack into freezer containers and cover with cold sirup made in the proportion of 1 cup sugar to 2 cups water. Leave enough headspace for expansion in freezing--1/2 inch for a pint container with wide-mouth opening and 1 inch for a similar quart container. Freeze at zero degrees F. or below and keep stored at zero.

Watermelon preserved this way might be used as a novelty first-course for Christmas dinner, for example. Its attractive red fits the holiday color scheme.

You can also freeze cantaloupe and honeydew melons. Commercially frozen packages of

melon balls usually include several kinds of melon for variety in color and flavor. Work out your own assortment from the melons available in your area.

PREPARE FABRICS BEFORE CUTTING...

Lovely fall fabrics now are available for every type of garment... Read labels carefully before you buy and prepare fabric properly before cutting, suggest extension clothing specialists of Texas A&M College.

Look for labels that state shrinkage control. If sanforized or guaranteed not to shrink more than 2 per cent, additional shrinkage is not necessary.

Check the grain line of the fabric before cutting. CORRECT GRAIN LINE INSURES PROPER HAND AND DRAPE OF GARMENT. During weaving, warp yarns are parallel to each other and so are filling yarns. The one set of yarns is at right angles to the other set. By the time fabrics are purchased in the store, one or more of these conditions may have been changed. Yarns may have been pulled or stretched "off grain" in the handling process.

- To check:
- Straighten each end of fabric by pulling thread or tearing.
 - Fold fabric lengthwise with selvages together.
 - Lay folded fabric on flat table.
 - If crosswise yarns are on the diagonal, stretch in place by carefully pulling on the true bias. If after stretching, the grain of fabric is on diagonal, it should

be steam pressed or dampened, dried and pressed so the grain will return to its correct position. Directions for pre-shrinking cotton or wool fabrics can be obtained from your county home demonstration agent.

MAIN DISH SALADS ARE HEARTY AND NUTRITIOUS...

No need to apologize when you serve your family a main dish salad - made with meat, fish, cheese or poultry combined with vegetables. This kind of salad has real substance. It's loaded with nutrients such as protein, minerals and vitamins. Served with assorted breads or crackers, a cool drink and a light dessert, it forms the basis of a satisfying, hot-weather luncheon or supper.

Tested recipes and special tips for making delicious salads for different kinds of meals are given in a new bulletin entitled "SALADS." It is written by extension foods and nutrition specialists of Texas A&M College.

Also included in the new bulletin are recipes for many

Safety Expert Urges Care On Cookouts

Nothing smells better on a soft summer evening than a steak or chicken cooking over a charcoal fire. A burning house or a burned hand adds nothing to the pleasure derived from a cookout, however. W. L. Ulich, extension agricultural engineer, says that a few precautions will help keep accidents from marring an otherwise pleasant occasion.

One of the first safety measures to take, says Ulich, is to set up your grill or dig the barbecue pit in an open

place, well away from buildings, trees, dry leaves, grass or brush.

If you use a charcoal-lighting fluid, be sure to use it according to directions. Soak a little into the briquets, before starting the fire. Never use gasoline, paint thinner or any other highly combustible fluid to kindle charcoal, Ulich warns.

The safest way to kindle charcoal is to use dry, crumpled paper, or a light substance like excelsior, under the pile of charcoal. Simply light the paper as in starting an ordinary wood fire. It may take a little fanning to get the charcoal kindled, but when you see grey or whitish spots around the edge of the charcoal, it is kindled. In 20 minutes or so it will be hot enough to grill.

Ulich suggests that the charcoal chef--and others who join

in the cook-out--wear heavy, fireproofed gloves, both in building the fire and using it. He also suggests that cooking will be done more conveniently with long-handled forks, tongs, skewers, skillets and saucepans.

As a final suggestion, Ulich recommends having a pail of water handy so that you can douse the fire in an emergency or when leaving the picnic site.

When you have taken these precautions, sit back, relax, and enjoy that wonderful aroma of charcoal cookery.

CROP Helps Chile

CROP-supplied food is being used to minister to the victims of the current natural disasters in Chile. Part of the 15,000 pounds of corn oil and 72,000 pounds of beans which arrived in Chile in early March is now being distributed to those who have lost everything.

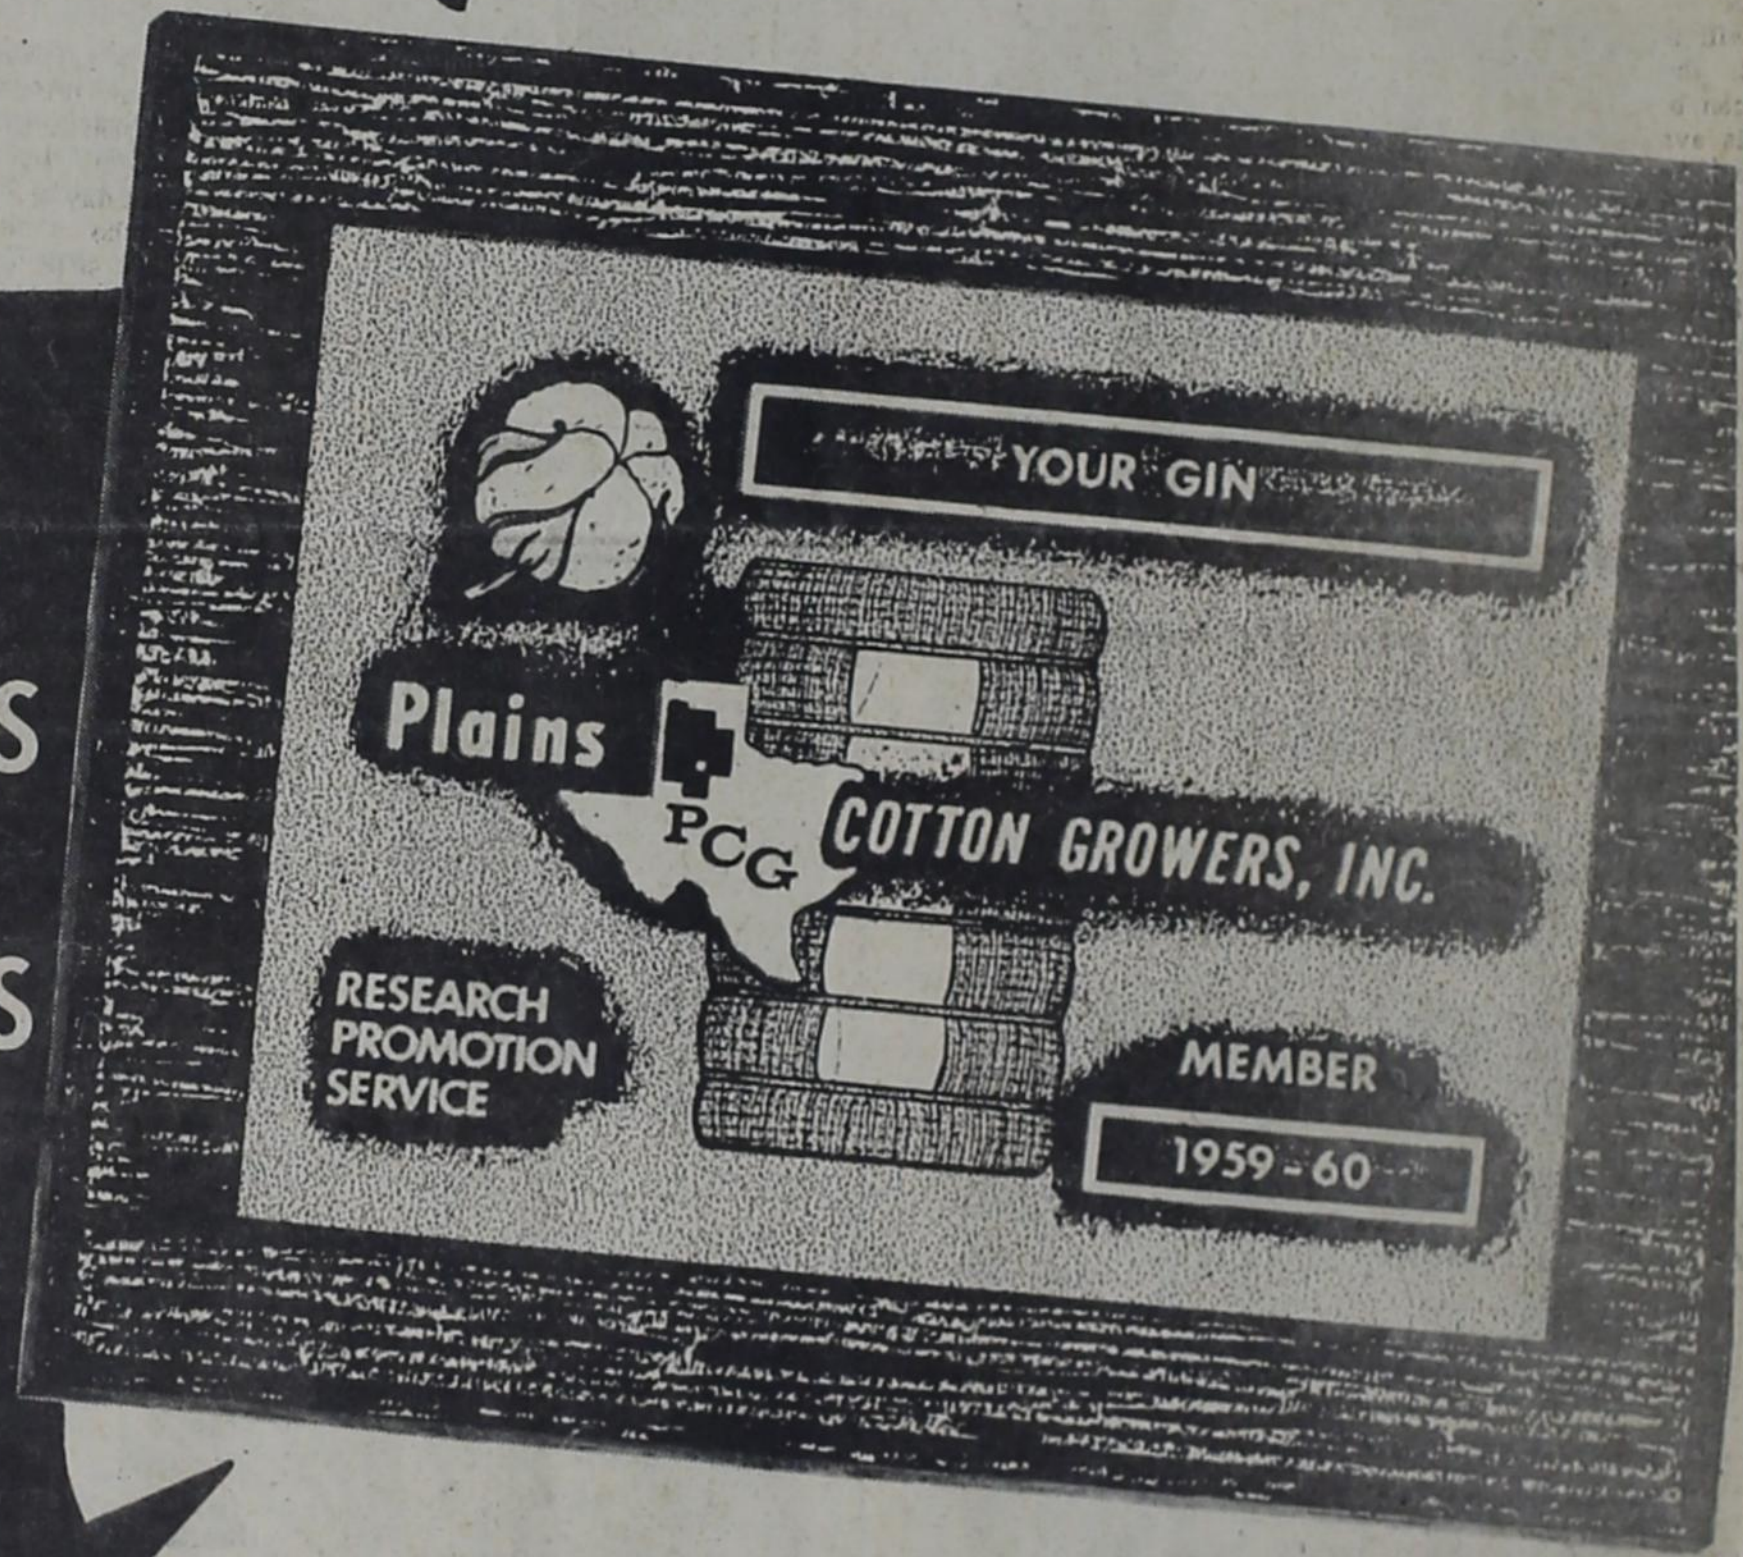

One thousand five hundred blankets and 80,000 pounds of flour, corn meal and milk are being sent to the devastated area from CWS supplies in Chile, and \$5,000 has been sent by Church World Service. \$14,000 has been sent by the British Council of Churches.

In cooperation with Lutheran World Relief, 115,000 pounds of clothing is now being shipped. Antibiotics valued at \$10,000 are being sent immediately, as well as 480,000 multivitamin tablets.

Wheat yields increase 12 to 20 bu. per acre with ammonia application

Well-known West Texas farmers like WADE MILLS apply 100-120 lbs. ammonia per acre on wheat

Wade Mills, who farms approximately 765 acres in Castro County, reports: "The first time I used ammonia on wheat land I got increases from 12 to 20 bushels per acre. We applied 100 to 120 pounds of Phillips 66 Ammonia per acre.

"Applications of 120 pounds of Phillips 66 Ammonia on maize land has produced an average increase of 2000 pounds per acre. On maize following maize, Phillips 66 Agricultural Ammonia

is a must," he explains.

Thousands of Texas farmers are using Phillips 66 Ammonia to help assure top net profits per acre. Actual field reports prove that Phillips 66 Ammonia (1) boosts wheat and small grain yields (2) increases maize yields (3) produces more high grade cotton (4) improves forage production.

See your local Phillips 66 Ammonia Distributor now. You can depend on better ammonia service.

Group Returns From State SC Workshop

Ten members of the Texico Student Council returned Friday night from Silver City where they attended the annual New Mexico Student Council Workshop on the campus of New Mexico Western College. The group left Monday morning and while there they were divided into groups and discussed such things as leadership, parliamentary procedure, and aims and objectives of student councils. Attendants enjoyed various forms of recreation and visited the world's largest open pit copper mine near Silver City. On the return trip the group stopped at Elephant Butte Dam for a picnic. Those attending were Wiley Stover, Dwight Turner, Betty Westberry, Lucille Halsell, Judy Lovett, Carol White, Donnie Chandeler, Kit Doran, and

Gary Singleterry. Mrs. Ruby Doran was sponsor of the group.

Lutheran Church News

The Sunday services will be in charge of Rev. Stroble of Rhea due to the absence of Rev. Sander who will be guest speaker for the Mission Festival at Rhea. Rev. Stroble will also be in charge of the adult Bible class. The Walther League Board met Sunday evening. Following the meeting, the group practiced volleyball for the rally at Lamesa Sunday. The group also repaired Bibles and hymn books. Nolan Kriegel broke a leg in an accident Sunday evening and is in room 301 in the Clovis Memorial Hospital. He will be confined there for a week to ten days and will enjoy getting cards and letters from his friends. The Lutheran Women's Missionary League will meet September 1, and the Sunday School Training Class will meet August 31.

Radio Club Meets

The Blackwater Valley Amateur Radio Club met Saturday evening in the home of Mr. and Mrs. Gene Field of Texico. A turkey dinner was served to those present after a business meeting. Those members present were Mr. and Mrs. J. W. Herrington and children, Muleshoe; Mr. and Mrs. Pat Kent, Sudan; Mr. and Mrs. Nelson Smith, Farwell and one guest Hubert "Ham" Carrico of Littlefield and the host and hostess and their son, Bill. The next meeting will be in the home of Nelson Smith September 17.

Lazbuddie

Mrs. Finas Jennings last week. They returned home Sunday taking their son, Johnnie, who had been with his grandparents for the last month. Mrs. Billy Watts and daughter of Farwell visited her parents, Mr. and Mrs. Finas Jennings Wednesday. The Lazbuddie teachers had a workshop Wednesday. Mrs. J. J. Haun from Aztec, N. M. is visiting her daughter and family, Mrs. Don Schumann this week. Guests in the James Harvey home Sunday were Mr. and Mrs. H. F. Hendrix, Vicky, Buck and Jerry of Roswell. Evelyn Matthews of Lubbock spent the weekend in the home of her parents, Mr. and Mrs. C. C. Matthews. Mr. and Mrs. Chunky Ivy and Mark of Lamesa are visiting his parents, Mr. and Mrs. Olan Ivy this week. Mr. and Mrs. Joe Bell from Bovina were Sunday guests in the C. C. Matthew home.
