

At no time has "Twin Cities" been as apt a reference to Texico and Farwell as it is now.

The release of Texico's census report last week revealed that these two state line municipalities are as equal in size, population-wise, as possible. Officially, Texico has 1,003 citizens and Farwell has 1,009.

This high total on the New Mexico side of the line is surprising because every logical factor used in estimating population revealed that Farwell had two or three hundred more citizens.

The Texas side of the Twin Cities has more utility connections, one of the most common population measuring sticks, more houses, more businesses, and a larger residential area. Any way you figured it, Farwell was the largest of the two towns.

Many folks have long contended that the combined population of the two towns was 2,000, but the estimated ratio was 1,200 for Farwell and 800 for Texico. When Farwell's census showed that there were just a few more than 1,000 citizens, these claims were withdrawn and the most optimistic guesses were around 1,700.

Juanita Autrey, Texico city clerk, estimated Texico's population at 1,100. Her estimate was the highest of anybody and she based her claims on the basis of 4 1/2 people per water connection.

This basis must be fairly accurate, but 4 1/2 people per residence is considered above average in this day and age. A more common factor now is 3.7 and in some places it is considered high.

The only explanation I can think of for Texico's surprising census report is that the families must be larger there than they are in Farwell. The old basic birthrate factor must be the answer.

There is another ironic twist to Texico's high rate of growth. Throughout the country, chambers of commerce and other civic boosters have been "sounding their horns" about high rates of growth during the past decade. That was before the official census reports and many of these horn blowers were disillusioned when the true facts were revealed.

This tendency to stretch the facts has been more the rule than the exception, but in Texico this hasn't been the case. The town doesn't even have a chamber of commerce, at least not an active one, and few people have even expressed concern about the town's growth.

I'm not sure just what this unexpected rate of growth indicates, but there is one thing I do know. Texico citizens have been building new homes, they've been moving over to make room for new citizens, and they've been having babies.

My apologies to Mrs. D. J. Brown at the Texico post office and the one other Texico businessman who had a flag waving on the Fourth of July. At least, there were two patriotic citizens in town.

It's all over now. The Massachusetts senator walked off with the democratic nomination for president, something few people thought was possible several months ago.

Even if a person can't go along with Senator Kennedy's political philosophy, his religion, or his methods of campaigning, his ability to organize does warrant respect. He and his associates put together one of the most effective political machines this country has ever seen.

Another Change To Be Noted In Phone Numbers

Mountain States Telephone and Telegraph Company has informed Texico-Farwell phone subscribers of another change to be made in numbers for the ensuing year. The most recent change in the numbers is a correction of one that was announced a few weeks ago.

The telephone company stated that Texico numbers, such as, HUDSON 2-3100 will change to 482-3100. Dialing HU is the same as dialing the numbers

(Continued on page 6)

Twin City Population Officially 2,012

FARWELL'S "MISS WHEATHEART," Jeanette Lindop, will be competing with other beauties throughout the country next month in the "Wheatheart of the Nation" contest at Perryton. During the past year, she has reigned as "Miss Farwell."

Miss Texico-Farwell Contest Scheduled

A search is under way in the Twin Cities for young women to compete for the title of Miss Texico-Farwell of 1960.

Theta Rho chapter of ESA sorority is sponsoring the contest which is open to all girls not under 15 and not over 20 years of age who live in the Texico or Farwell school districts.

Girls interested in entering the contest are asked to contact Mrs. John Getz, ESA president, at the Tribune or at her home not later than Monday, August 1. "We aren't making any individual contacts for entrants but we urge all young girls to participate," Mrs. Getz says.

The winner will be crowned at the ESA-sponsored style show in Farwell School auditorium Friday, August 12, at 8 p. m. Winner of the contest will be determined by which girl sells the most tickets to the style show. Each ticket will count as one vote.

"The contest is being conducted differently

this year in that no businessmen are being contacted for entrance fees and sponsorship, and voting will be by ticket only," Mrs. Getz explains.

Each contestant will be given a number of tickets several days prior to the show. All tickets sold in advance will count as two votes—one vote when the advance sales are tabulated and another vote when the buyer deposits the ticket in a box for a contestant the night of the show. Tickets purchased the night of the show will count as one vote.

This will be the second such contest sponsored by the local sorority. Last year the contest was conducted in conjunction with the Farwell Appreciation Day and the winner was Miss Jeanette Lindop.

ESA is entering Miss Lindop in the "Miss Wheatheart of the Nation" contest at Perryton next month. The winner of this year's Miss Texico-Farwell contest will be entered in the wheatheart contest next year.

County Eligible For New Office

In the democratic primary and general election of 1962, Parmer County voters will elect for the first time a district clerk separate from the county clerk.

Separation of the two offices, which have in the past been held by one man, will take effect due to the county's population exceeding 8,000. A written opinion on this subject from Will Wilson, attorney general, was received last week by Hurschel Harding, Parmer county attorney.

Harding had written to the attorney general asking for a ruling on the separation of these offices. The opinion received was a copy of one written for Andrews County, which had previously submitted the same question.

Here is the summary of the opinion: "Where a county had a population of less than 8,000 inhabitants, according to the 1950 federal census, and has a population of more than 8,000 inhabitants, according to the 1960 federal census, the combined office of a single clerk who shall perform the duties of the district and county clerk do not become separated until the expiration of the term of office to which the incumbent was elected, January 1, 1963."

Hugh Moseley is now county

and district clerk for Parmer County. He was re-elected to the office in 1958.

When elected, the new district clerk will handle all district court proceedings in the county.

He will be elected for four years.

The county clerk will be clerk of the county and commissioners court and will be recorder for the county.

City Dads Talk Fire Zone Change

Possible changes in the boundaries of Farwell's fire zone was a topic of conversation at a recent meeting of the city commission.

The commission and several other interested citizens discussed the possibility of redesignating the zone so that part of the area north of the railroad tracks and two blocks south of Highway 70-84 along Seventh and Eighth Streets could be taken out of the zone.

"The fire zone was set up to cover the mercantile district," Mayor Sam Aldridge says, "and part of this zone is not in the mercantile area."

It was thought by some individuals present at the meeting that the rigid construction requirements in this zone could be a deterrent to possible construction, especially the building of houses along the two blocks on Seventh and Eighth Streets. The fire zone, which extends from the west city limits east to Ninth Street, and from Avenue B north to the city limits, was established several years ago to give local citizens a lower fire insurance rate. All new construction that goes up in the zone must be of fireproof construction, thus the reason for a lower rate.

If the zone can be changed without altering the fire insurance rate, the city may do so at a later meeting, the mayor says. No decision was taken at the meeting last week, depending on the findings of a committee appointed to check into the matter.

In other business during the regular scheduled meeting, the commission paid monthly bills and authorized Douglas Landrum, city employee, to join the county in its fight against bindweed. A few patches of bindweed had been discovered in the city limits and Landrum was instructed to spray these areas.

Texico-Farwell's total population shot past the 2,000 mark this year, exceeding slightly what most people had estimated for the two towns.

Texico was the sleeper, coming through with 1,003 citizens, six below Farwell's 1,009. That makes the two state line communities almost identical in size and gives the Twin Cities a combined total of 2,012.

The census total for Texico was released last week by the district director of the census bureau.

Texico's census report surprised almost everybody, probably because most estimates are figured from the number of utility outlets.

Farwell has always had considerably more utility outlets than Texico, and when the Texas side of the community

population was just barely over 1,000, few people thought the Twin City total would exceed 1,700.

The only explanation for the high total is that Texico families must be larger in number than those in Farwell.

Really, the 2,000 figure is what many people have been claiming for some time, but the prognosticators were far off on ratios. Farwell's population had been estimated at 1,200 and Texico's at 800.

This is the first time in a long while that the Twin Cities have had an accurate population count. A complete census wasn't taken in 1950 and no one was quite sure what the population was then. It was estimated at about 1,100, and if that was the population then, the increase in just 10 years has been 82 per cent.

FORTY-NINTH YEAR

SECTION 1

Miss Lindop In Beauty Contest

Miss Jeanette Lindop, who has reigned as Miss Farwell for the past year, will be participating in the "Wheatheart of the Nation" contest at Perryton August 20.

Jeanette has been entered in the contest by Theta Rho Chapter of ESA sorority and will be competing with contestants from all over the country.

The winner of the contest will represent Perryton as "Miss Wheatheart of the Nation" at the Canadian National Exhibition, and on the KGNC Farm and Ranch Tour into Eastern Canada, New England and New York, beginning August 27. The girl selected as "Miss Wheatheart" will reign for one year.

The contest at Perryton begins with a parade in the morning, followed by a barbecue at noon when the contestants will meet the judges. Final judging will be at the Perryton High School auditorium at 6:30 in the evening.

A 1959 graduate of Farwell High School, Jeanette is the daughter of Mr. and Mrs. Tom Lindop. During her high school days, she won many honors. Her senior year she was named harvest queen, football sweetheart and Miss Farwell High School.

This is the first year for ESA to sponsor an entry in the wheatheart contest. The sorority plans for it to be an annual event with the winner of the Miss Texico-Farwell contest each year being their entry.

Moisture Totals High; Lightning Causes Damage

Last week's unseasonal rains brought large amounts of moisture and an electrical storm Friday night caused slight damage to several Texico homes in what was one of the most unusual sieges of weather this area has ever experienced.

Oldtimers say the 8.5 inches of moisture recorded in Texico-Farwell during the five-day period from Sunday through Friday is the most they've ever seen for this time of year.

Other rain totals throughout the area ranged from six inches at the West Camp community to 12.5 inches at Pleasant Hill. There are no official rain totals kept in the Twin Cities, but no one can remember when it rained this much in July, which is normally a dry month.

The crazy weather was both good and bad for area farms, helping "things in general," but damaging the already poor cotton crop.

The week's weather activities were capped last Friday night with an electrical storm that damaged at least three homes in Texico. Beth Ellen Peyton, daughter of Mr. and Mrs. Bud Peyton, was momentarily stunned when a bolt of lightning struck while she was

talking on the telephone. She was not seriously hurt.

The lightning burned out the Peyton's television set, damaged a motor on a dishwasher and burned some electrical wiring. Mrs. Ellen Daniel, mother of Mrs. Peyton, who was walking by the dishwasher when the lightning struck, received a slight shock.

Max Banard was knocked from a chair when lightning struck his home, but he was not seriously injured. The Banards' television set, air conditioner and stove received extensive damage.

Also hit by lightning was the Stanton Thigpen residence, across the street from the Peyton home. An electrical switch was knocked out and a wall was blackened, but there was no serious damage, Mrs. Thigpen says.

The sun did shine over the week end and on Monday of this week. However, Tuesday night the wet weather returned and one-half inch of rain was recorded. And, the end isn't in sight. More rain is forecast for this week.

(For rain totals throughout Parmer County, check the rain map in the Farm and Home section).

Powell's Place 3rd In Tourney

Powell Machine Shop of Farwell won third place in the first Annual Invitational Softball Tournament in Portales July 1, 2, 4, and 9.

Six teams entered the tournament, with Horton and Sons Furniture of Clovis winning. A Farwell man, Eddie Smith, plays for Horton's. Second place team was Bud's Couden from Roswell. The other three teams were the 832nd Operations Squadron from Cannon Air Force Base, Booth Pharmacy and the Furniture Mart from Portales.

Trophies were presented to the outstanding pitcher and to the player with the highest batting average. Bruce Chronister, pitcher for Horton's, walker off with both the outstanding pitcher and highest batting average trophies.

Berggren Opens Spraying Service

A tree, yard and livestock spraying service was opened this week by Dale Berggren. The new business will be known as Dale's Spraying Service.

Berggren says he has facilities for killing web worm and other insects in trees, and for controlling insects in yards and on shrubbery. He has a tall ladder mounted on the back of pickup for tree spraying.

Berggren, who also operates Meeks Service Station, formerly worked for the City of Farwell.

BIG, BLACK CLOUDS rolled over Texico-Farwell last Friday afternoon bringing the electrical storm which hit the community. This cloud also brought additional moisture to the already soaked ground.

Council Buys Bonds, Passes Resolution

In a meeting Saturday morning, Texico's City Council voted to pay off \$2,000 in water and sewer bonds and a resolution was passed, lumping all the town's gas tax revenue into one bond retirement fund.

By paying off now, the \$2,000 in bonds owned by The Columbian Securities Corporation of Texas, the town will save \$483. The bonds had a maturity date of July 1, 1966 and by that time interest paid on the bonds would have been \$450.

The San Antonio company, which recently purchased the bonds on the market, offered them to the city for \$1,963. This saves the city all the interest plus 1.85 percent on the original total.

The resolution passed by the council does away with the division in the city-assessed gas tax, of which two-thirds was earmarked for the first two paving projects and one-third for the last project.

This resolution was necessary because one-

third of the tax was insufficient to the first installment of \$7,150 on paving No. 3. Two-thirds of the tax is more adequate for retiring bonds on the first two projects.

By doing away with the division, the city will be able to meet all payments when they come due. In fact, the city is already one year ahead on paying off the first two projects. "We should be able to stay one year ahead and possibly get farther ahead on projects one and two," says Juanita Autrey, city clerk.

Bonds on project three will be paid off on schedule and all excess revenue will be used to pay off the first two projects as quickly as possible.

Since the gas tax was first assessed in 1956, the city has been collecting from \$13,000 to \$14,000 revenue from it per year.

Councilmen present at Saturday's meeting were Mayor Joe Helton, Olan Schlueter, Jess Richardson and Fred Danforth.

THE TRIBUNE'S EDITORIAL COMMENT

George Is Getting Tired

For many years now, most Texico-Farwell residents have been content to sit back, rest their expanding frames, and take it easy instead of ever taking it upon themselves to do anything worthwhile for their community.

That is, except for a few hale and hearty individuals who have tried to go it alone in spite of the indifference which plagues many of the people who would be working at their side. Some good has been accomplished and we have been able to look with pride at the community spirit which has existed.

In fact, about two years ago it looked like some of that old "get up and go" of yesteryear was about to find its way back. Farwell merchants adopted an "Appreciation Day" which was designed to take the place of an annual "community wide" celebration.

This first event turned out to be successful and it was undertaken again the following year. This time something new was added-- a contest to select Miss Farwell. The promotion mushroomed into a fervent campaign, and generally speaking, everyone had a really good time.

While this was only one activity, it did almost give the impression that a little progressiveness did exist. As the time rolls around for such an undertaking again this year, however, we find out that the annual celebration wasn't quite what it had appeared. While the promoters of the function had little trouble getting monetary backing (something which stymies many such promotions), that's all anybody wanted to do.

Nobody wanted to do the leg work. "I'll go along with the project if you do all the work," seemed to be the consensus of attitudes, and as a result the "faithful few" worked triple time in putting the project across.

This year the few workers say they've about "had it". "It's not worth it," said one person at a Chamber of Commerce meeting the other night, "unless more people will actively take part."

This attitude of "let George do it" has been prevalent in more circles than one and it has hindered most civic organizations when they undertook any worthwhile project. Considering the indifference of those around

him, ole George has done quite well. But now he's getting tired, and you can't blame him.

Keep 'Em On The Track

The go-kart craze has been sweeping the country for many months now, and just recently interest in these little racing machines has reached Texico-Farwell. This is all well and good and we're all for any sport or recreation which serves as an emotional outlet for today's generation.

Competing with one another on an authorized race track can be a lot of fun for the drivers and entertaining for the spectators. However, the race track is where these high-powered little machines should be confined. Not on the streets where many of them have been during the past few weeks.

Someone driving a car down the street would have a hard time seeing one of these go-karts, especially while coming around a blind corner, or at night. Several people have already reported almost running over one.

On the track they can be fun, but on the streets they're dangerous. Something should be done to keep them where they belong before someone gets hurt.

PREPARING TO CRAWL UP THE LADDER mounted on the back of this cut-down sedan is Dale Berggren, who this week opened a spraying service in Texico-Farwell. The ladder will be used for spraying trees.

THE STATE OF TEXAS

TO: R. W. King and Ed T. Massey, and should any of the above named defendants have been married, their respective unknown husbands or wives, and should any of the above named defendants be deceased, then their unknown legal representatives, heirs and assigns, Defendants, GREETING:

You are hereby commanded to appear by filing a written answer to the Plaintiff's Petition at or before ten o'clock A. M. of the first Monday after the expiration of forty-two days from the date of the issuance of this citation, same being Monday the 22nd day of August, A. D. 1960, at or before ten o'clock A. M. before the Honorable Court of Parmer County, Texas, at the Court House of said County in Farwell, Texas.

Said Plaintiff's Petition was filed in said court, on the 9th day of July, A. D. 1960, in this cause, numbered 2137 on the docket of said court, and styled, LAWRENCE HAM, Plaintiff, vs. R. W. KING, ET AL, Defendant.

The names of the parties to the cause are as follows: Lawrence Ham is Plaintiff, and R. W. King and Ed T. Massey, and should either of said named defendants have been married, their unknown husbands or wives, and should either of the above named defendants be deceased, their unknown legal representatives, heirs and assigns, are Defendants.

A brief statement of the nature of this suit is as follows, to-wit:

Suit in trespass to try title, Plaintiff alleging that on or About the First Day of July, A. D. 1960, he owned in fee simple and was in possession of Lots 1 and 2, Block 27, of the Original Town of Farwell, Parmer County, Texas, as shown by plat of said town of record in the Deed Records of Parmer County, Texas; and, A strip of land 100 feet x 150 feet, described as BE-GINNING at a point in the West line of First Street 285 feet South of the South line of Avenue C; THENCE West at right angles with

First Street, 150 feet; THENCE South parallel with First Street, 100 feet; THENCE East at right angles with First Street, 150 feet to West line of First Street; THENCE North with West line of First Street, 100 feet, to the place of beginning, and being all in Farwell, Parmer County, Texas, as shown by plat of said town of record in the Deed Records of Parmer County, Texas, and that defendants unlawfully entered thereon and ejected him therefrom and withhold possession thereof from him; and praying for judgment for title to and possession of said real property, and for writ of possession, and further claiming title by virtue of the five year statute of limitations, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Farwell, Texas, this the 9th day of July, A. D. 1960.

ATTEST:

News From LAZBUDDIE
BY MRS. C. A. WATSON

Judy Jones From Slaton is visiting this week with her aunt and family, Mr. and Mrs. Raymond Houston.

Mr. and Mrs. Al Jennings from Abilene visited his parents, Mr. and Mrs. Finis Jennings, Monday, and planned to go to Colorado for several days.

Mr. and Mrs. J. B. Young Jr. and Mr. and Mrs. Loyd Williams went fishing at Port Aransas over the weekend, and reported they had good luck.

Funeral services were held in Slaton Wednesday for Mrs. Louellen Wilk, mother of Mrs. R. L. Foerster of Lazbuddie. Mrs. Wilk was a resident of Lubbock.

Mr. and Mrs. E. D. Chitwood Jr. and family and the Bill Buchanan family were in Santa Fe, Tres Ritos, and Taos, N. M. last week.

Mrs. Bud White and her sister, Clo Pruitt, attended a family reunion in Mangum, Okla., last week. The reunion was in the home of Mrs. Maud Sanders, mother of Mrs. White and Miss Pruitt.

Mrs. Paul Templeton visited her sister, Mrs. Alton Morgan in Amherst Sunday.

A bridal shower for Miss Velma Golden will be Friday at 4 o'clock in the First Baptist Church in Lazbuddie. All friends of Miss Golden and the prospective groom, Ray Vanlandingham, are invited.

The West Plains Garden Club will meet July 22 in the home of Mrs. W. H. Hardage. The program is planned for the study of making corsages.

The quarterly conference was held in the First Methodist Church of Lazbuddie Sunday evening with Dr. J. E. Shewbert, District President from Plainview, in charge.

take a fun trip!

this weekend... why not load up the car and take the family for a weekend of fun at the lake or your favorite stream? It's not far by car. There's boating, or fishing, or maybe you'd enjoy the peace and quiet of getting away. A trip by car is the inexpensive way to treat the whole family to a world of fun in the out of doors. Before you leave, let your friendly Cosden dealer get your car "travel ready". He will give it bumper to bumper service and fill it with Cosden Premium Ethyl or Higher Octane Regular gasoline. For best mileage economy it's a better brand to GO BUY! You'll like the way Cosden performs. It's refined and "travel tested" especially for Southwest driving conditions. Best wishes for a world of fun this weekend!

DOUBLE EVERY WEEK

THE STATE OF TEXAS
COUNTY OF FARMER
SHERIFF'S SALE

WHEREAS, on the 28th day of March, 1960, in Cause No. 2065 in the District Court of Farmer County, Texas, wherein Farwell Consolidated Independent School District, State of Texas, Farmer County and High Plains Underground Water Conservation District Number 1 were Plaintiff and, Impleaded Party Defendants, recovered judgment against Anna Ware, Clara Williams, M. W. Gaither, G. W. Losey, J. W. Losey, C. H. Losey and should any of said persons be married, his unknown wife or wives and her unknown husband or husbands, and should any of said persons be deceased their unknown heirs and legal representatives; John Getz and his wife Joann Getz; L. B. Hart and his wife Lurline Hart, and K. E. Deaton, and all unknown claimants, Defendants, for taxes, penalty, interest, and cost against the hereinafter described property;

WHEREAS, on the 20th day of June, 1960, by virtue of said judgment and the mandates thereof the Clerk of the above mentioned District Court of said county did cause to be issued an Order of Sale commanding me as Sheriff of said county to seize, levy upon, and sell in the manner and form as required by law the hereinafter described property;

WHEREAS, by virtue of said judgment and said Order of Sale and the mandates thereof I did on the 20th day of June, 1960, seize and levy upon as the property of the above defendants the following described property, situated in Farmer County, Texas, to-wit:

(Said description showing the number of acres, original survey, locality in county, and name by which said property is most generally known.)
FIRST TRACT: Lots 7, 8, 9, 10, 11, 12, Block 2; Lots 1, 2, Block 3; Lots 1, 2, 3, 4, 5, 6, 7, 8, Block 4; Lots 9, 10, 11, 12, 13, 14, 15, 16, 25, 26, 27, 28, 29, 30, 31, 32, Block 5; Lots 17, 18, 19, Block 6; Lots 5, 6, 7, Block 7; Lots 5, 6, 7, 11, 12, 13, 14, Block 8; Lots 1, 2, 3, 20, 21, 22, 23, Block 9; Lots 1, 2, 3, 4, 5, 6, 7, 8, 26, 27, 28, 29, Block 11; Lots 31, 32, Block 12; Lot 15, Block 17, all in the Hamlin Heights Addition to the Town of Farwell, Farmer County, Texas, as shown by Plat of record in the Deed Records of Farmer County, Texas.

And I will on the first Tuesday in the month of September, 1960, the same being the 6th day of said month, proceed to sell all the right, title, and interest of the Defendants in and to said property at the Court House door of said county in the city or town of Farwell, Texas, between the hours of 10:00 a. m. and 4:00 p. m. to the highest bidder for cash, provided, however, that none of said property shall be sold to the owner of said property directly or indirectly or to anyone having an interest therein or to any party other than a taxing unit which is a party to this suit for less than the amount of the adjudged value of said property or the aggregate amount of judgments against said property in said suit, whichever is lower, subject also to the right of the Defendants to redeem same in the time and manner provided by law and subject also to the right of the Defendants to have said property divided and sold in less divisions than the whole.
DATED at Farwell, Texas, this the 12th day of July, 1960.

/s/ Chas. Lovelace Sheriff
Farmer County, Texas

By Tom Atkins, Deputy 41-3c

When a congregation sleeps it's the parson who needs waking up.

Pleasant Hill Club Represented In County Contests

At the annual Curry County Dress Revue, Dianne Baldrige, of the Pleasant Hill 4-H Club Pals won the senior division talent contest, making her eligible to compete in the district contest which will be in Carlsbad July 18. She won the talent on her one-act comedy skit, "Sweet Potato Surprise".

Donna Kay Pierce won second in public speaking on "An American's Responsibility."

Six girls from Pleasant Hill entered the dress revue, with 85 girls from the county entering.

In each division, blue, red and white ribbon groups were chosen, and in the blue ribbon group the top three were picked.

Girls from Pleasant Hill entering and the prizes they won are as follows: Patricia Fahsoltz, blue ribbon, second place in home living I; Betty Clark, blue ribbon, home living III; Veda Wilson, blue ribbon, second place in the school dress division; Dianne Baldrige, blue ribbon, first place in the sportswear division; and Donna Kay Pierce, blue ribbon, first place in clothing V.

In the county demonstration contest held in Clovis recently several girls from the Pleasant Hill Club entered and won awards, making them eligible to enter the district contest.

Entering the junior contest was Jeannene Clark who won second in the foods demonstration. Her demonstration was on cottage cheese salads.

Glennis Fahsoltz entered the junior general agriculture contest, and won first place on "How to Pin and Label Insects." Veda Wilson won third place in junior home economics demonstration on the "Fundamentals of Embroidery."

Wayne Fahsoltz is on the junior livestock judging team which will enter the district contest.

Girls in the senior division were Judy Lovett, who won first place in general agriculture. Her demonstration was "Planning a Garden."

Lynell Lovett won second in her general home economics demonstration "The Art of Embroidery". She will also attend the state encampment.

Vicki Lovett won third in the general home economics division on "Lift for a Ladies Lesson"

Donna Kay Pierce entered the foods demonstration.

Of Interest To THE WOMEN

Wesley Bible Class Meets

The Wesley Bible Class of the Hamlin Memorial Methodist Church met July 12 at the church.

Mrs. N. L. Tharp presented the program followed by a regular business meeting with Mrs. Ruby Dixon presiding.

Mrs. E. G. Blair and Mrs. B. N. Graham served coffee to 14 members present. They were Mesdames Bunk Parks, Laura Temple, Ruby Dixon, Ralph Humble, G. W. Atchley, A. D. Smith, N. L. Tharp, Willie Lovelace, Jess Newton, E. E. Booth, Jennie Cox, and Claude White.

Fosters Hosts To Family Gathering

Visiting with Mr. and Mrs. W. N. Foster Friday were five of their children and families. Those visiting were Mr. and Mrs. Jack R. Feagan and children from Kansas City, Kan.; Mr. and Mrs. George Harold Trimble and children from Pleasant Hill; Mr. and Mrs. Jerry Don Bell and children from Black; Mr. and Mrs. B. J. Foster and children from Abilene; and Mr. and Mrs. Nelson Foster and children from Lazbuddie.

Jack and Jill Bell, twin children of the Jerry Bells are with the Fosters for another week.

Visiting with Mr. and Mrs. Foster this week are Mr. and Mrs. L. L. Jean of Arlington. Mrs. Foster and Mrs. Jean are sisters.

Gast Visitors Return Home

Visiting in the home of Mr. and Mrs. Smokey Gast this week were Mr. and Mrs. I. W. Pace of Shreveport, La. The Paces have been with the Gasts since July 2 and returned to their home Wednesday.

Mrs. Gast and Mrs. Pace are sisters.

Relatives Visit With John Getzes

Mr. and Mrs. Jess Schmied and children of Peoria, Ill., were weekend guests of Mr. and Mrs. John Getz and Mike. The Illinois visitors, who were en route to Colorado, arrived Friday afternoon and visited here until Monday morning.

Getz and Schmied are cousins. Accompanying the Schmieds to Farwell was Mike Getz, who had been visiting in Peoria with an uncle and aunt, Mr. and Mrs. Milton Miller, since May.

Swimming Classes Resume Monday

The swimming lessons which are being taught at the New-Tex Swimming pool have resumed after a week of rainy weather. About sixty youngsters signed to take the lessons, but Claud Dyer, manager of the pool, reports that about one-half of them have dropped out because of vacation.

Jimmie Starkey, instructor, plans to start an intermediate class next week.

Hills Visit With Teels

Rev. and Mrs. Gerald Hill are visiting with her parents and family, Mr. and Mrs. Elmer Teel, Allen, Peggie and Joe this week.

The Hills, who live in Farmington, visited in Lubbock with Mr. and Mrs. Bill Glenn during the week. Mrs. Glenn is the former Patsy Teel.

Rev. and Mrs. Hill will return to Farmington Saturday where he is Associate Minister of the Presbyterian Church.

Guild To Sponsor Ice Cream Supper

The Wesleyan Service Guild of Hamlin Memorial Methodist Church is sponsoring an ice cream and cake supper at the church Friday night, July 22, at 7:30.

A set fee will not be asked, but the Guild will accept donations to pay for the dishes for the kitchen.

Children Visit Mrs. Yoder

Seventy-five friends and relatives met in the Hillcrest Park in Clovis Sunday to help Mrs. Lena Yoder of Texico celebrate her 85th birthday.

Eight of her nine children were present. Ernest of California was not able to attend.

Those present were Mr. and Mrs. Albert Yoder, Mr. and Mrs. Raymond Yoder, Mr. and Mrs. Fred Yoder, all of Minco, Okla., Mrs. Annie Graves of Kermit, Mr. and Mrs. Parnell Jackson and Mary Edmonson from Clovis and Mr. and Mrs. Monte Parsons and Edward of Texico. Also present was a step-son, Dave, from Clovis.

Several grandchildren and great-grandchildren were also present.

The afternoon was spent taking pictures and visiting.

Esther Class Meets With Mrs. Curtis

The Esther class of the Farwell Baptist Church met in the home of Mrs. Evelyn Curtis Monday night.

Mrs. Billie Blain gave the devotional followed by a business meeting conducted by Mrs. Rubie Craft.

Refreshments of date-oatmeal bars, pops, and coffee were served by the hostess to Mesdames Ivydell Curtis, Rita Dollar, Pauline McDonald, Georgia Rundell, Audrey Terrell, Joann Zahn, Billie Blain, Rubie Craft, and Mrs. Beulah McWilliams, class teacher.

Coxes Host Sunday Guests

Visiting Sunday with Mr. and Mrs. Guy Cox were Mrs. Della Cox, Mr. and Mrs. Billy Cox and son Bill, and Mrs. Ronny Catlett and daughter DeEtte all of Phoenix, and Mrs. James A. Cox and Linda and Connie Phillips of Farwell.

Mr. and Mrs. Allen Riddle of Altus, Okla., announce the engagement and approaching marriage of their daughter, Betty Tom, to Howard E. Graham, son of Mrs. B. N. Graham and the late Mr. Graham of Farwell. The wedding is planned for August 6, at 6:30 p. m. in the chapel of the First Methodist Church in Pampa.

Nadine Rundell Marries Tommie Payne

Nadine Rundell became the bride of Tommie Payne, July 8, at eight o'clock in the Farwell Baptist Church. Rev. Sidney Cox, pastor, performed the ceremony with only close friends attending.

Attending the couple were Mrs. Raymond Martin and Turner Payne. Mrs. Martin wore a blue dress and a corsage of peach gladioli.

For her wedding, Mrs. Payne chose a pink lace dress over taffeta, with pink and white accessories and an orchid corsage.

The Paynes are presently living in Farwell, but plan to move to Bovina.

ESA To Sponsor Style Show

"Silhouettes of the Sizzling Sixties" is the theme of a style show to be presented by Fern's at the Farwell School auditorium on Friday, August 12, at 8 p. m.

Theta Rho Chapter of ESA is sponsoring the show.

Highlight of the evening will be the crowning of Miss Texico-Farwell of 1960. Contestants will not model in the show.

Entertainment, including some out-of-town talent, will be featured at intervals during the show.

Adult tickets are 75¢ and student tickets are 50¢. Children under 12 years of age will be admitted free.

Fern's will present door prizes.

Mrs. Parsons In Charge Of WMU Program

The Texico Baptist WMU met Monday afternoon at the church with Mrs. Monte Parsons, program chairman, presenting the devotional.

This was the Royal Service program, and Mrs. Parsons was in charge. Participating in the program were Mrs. Joe Morgan, Mrs. S. G. Billington, Mrs. Nora Day and Mrs. C. C. Morgan.

Others attending the meeting were Mesdames J. O. Ford, Olan Schlueter, D. J. Brown, and John Lockhart.

Twins Born To Haseloffs

Twin girls were born to Mr. and Mrs. Arthur Haseloff, Friday, in Friona. The little girls weighed about seven pounds each, and have been named Connie and Cindy.

Grandparents are Mrs. Lila B. Nickels of Muleshoe, maternal grandmother, and H. A. Haseloff of Vernon, paternal grandfather.

Morgans To Louisiana

AIC and Mrs. Robert Morgan and son, Bob, are in Baton Rouge, La., where they are visiting with his grandmother who is ill.

Mrs. Morgan is the former Katherine Pullam.

Five Girls To Camp

Five girls from the Texico Baptist Church left Monday morning for Inlow Youth Camp where they will spend one week.

The girls, Susan White, Kathy White, Zadene Burris, Linda Carrol and Marilyn Doshier, met the group from the Central Baptist Church in Clovis and traveled to camp with them.

Sewells Visit With Pullams

AIC and Mrs. Joe M. Sewell and their three children of San Antonio, visited last week in the home of Mrs. Sewell's parents, Mr. and Mrs. O. C. Pullam. Mrs. Sewell is the former Dorothy Pullam.

Hardings Visit With Parents

Visiting with the N. R. Hardings this week are their sons and families, Mr. and Mrs. Nathan Harding of Odessa, and the Warren Hardings from Galveston.

The Warren Hardings arrived Sunday and planned to visit here all week, and the Nathan Hardings were returning home Wednesday afternoon.

Lutheran Church News

The Women's Missionary League met Thursday, July 7, with good attendance in spite of the inclement weather. The Sunday School training class meeting planned for that night was postponed because of the rain.

Walthers League met Sunday, July 10, at the home of Arnold Kriegel in Bovina. New recreation officers appointed by the president, Margaret Haseloff, were Miss Janice Meissner and Arnold and Lawrence Kriegel. With the president, this committee will also serve on a new league program dealing with social and community responsibilities of Christian young people, entitled "Inasmuch."

This study is based on Matthew 25:40 and will include special devotions, Bible study, topic discussion and important projects.

The league members will be hosts to their parents for a picnic at Palo Duro park at Canyon Sunday, July 17.

Sermon topic for July 17 will be "The Life Worthwhile." Mrs. Gilbert Kalkwasser, zone president of the Women's Missionary League, accompanied by Mrs. Ernest Ramm, local league president, and Rev. and Mrs. Sander, was in Littlefield Monday of this week for a presidents' meeting. Plans were made for the fall rally which will be conducted in September.

Oklahoma Lane Methodist Mentions

Rev. Woods spoke on "A Modern Substitute for the Gospel," Sunday morning.

Four visitors were present for the morning services. Sunday evening the MYF had charge of the services. Judy Billingsley gave a report on her trip to the assembly at McMurry College in Abilene.

Don McMahan, choir director, invites everyone who is interested to come to choir practice Wednesday evening.

The WSCS met Monday evening for the monthly program. Mrs. Sam Billingsley gave a devotional on "The Christian Use of Leisure."

Eight members were present for the meeting.

Texico Girls Enter Revue

The newly-organized Texico 4-H club entered six girls in the Curry County Dress Revue Monday night at the Sacred Heart Center.

The girls in home living I who won first place ribbons were Jill Billington and Beverly Winkles. Teresa Luce won second and Sharon Peyton and Linda Hukill won third place ribbons.

Lynell Engram won a second place in home living II.

Mrs. Melvin Burns is the leader of the club and she is assisted by Mrs. Paul Skaggs.

Mrs. Cox Presents Devotional

The WMU of the Farwell Church met Monday afternoon at the church. Mrs. Sidney Cox gave the devotional entitled "Our Duty As Christians."

Mrs. Billie Blain was in charge of the business meeting. Mrs. Dora Johnson served refreshments of ice cream, cake and iced tea to the following eight members: Mesdames Joe McWilliams, Rita Dollar, Blackie Williams, Otis Huggins, Nadine Langston, Billie Blain and Sidney Cox.

Seniors Reveal Future Plans

BY GALE HADLEY

As college time nears, people of this area will be seeing more than 50 per cent of the 1960 graduates of Texico High School striving to further their education in either a college or university.

Christy Bowers, daughter of Mr. and Mrs. Anson Bowers, is presently attending college at Eastern New Mexico University in Portales, but plans to enroll in Baylor University at Waco in the fall. While in high school, Christy was active in many phases of school activity. She served as president of the student body her senior year, as well as being on the "B" team cheerleaders. Other honors she held while in high school are band sweetheart and best athlete.

Barbara Johnson, formerly Barbara Chappell, was married to Fred Johnson in May. She is the daughter of Mr. and Mrs. Johnnie Chappell and plans to live in Clovis until Fred is discharged from the service. The Johnsons will then move to California.

Ursel Doran, son of Mr. and Mrs. J. Buck Doran, is making plans to attend Texas Tech and study aeronautical engineering. He is presently employed at the Clovis Airport. Ursel was an all-around boy in high school, serving as vice-president of the student council, Boy's State delegate and taking active part in all sports.

Linda Ivey is in Amarillo where she is working as a dental assistant. While in high school, Linda took part in volleyball, science club and business education club. She is the daughter of P. H. Ivey.

Phyllis Kelley took active part in all school sports. She is planning to attend ENMU, but her field of study is not yet determined. Phyllis is the daughter of Mr. and Mrs. B. A. Kelley. She also served as co-editor of "The Wolverine."

Mary McDaniel is making plans to enter ENMU and study elementary education. She is the daughter of Mr. and Mrs. Clyde McDaniel and was an outstanding figure on the campus. She took active part in all sports, was in the student council, National Honor Society, and attended girls state. She was also selected as best personality and DAR Citizen.

Valeria Meier, valedictorian of the class, is planning to study pre-law at ENMU this fall then transfer to the University of Texas for her degree. She is the daughter of Mr. and Mrs. Frank Meier and showed avid interest in all phases of school life. While in high school, she was selected as FFA sweetheart, most beautiful and best all-around student. She was also honorary president of the newly organized chapter of the National Honor Society.

Gayle Neeley, formerly Gayle Potts, was married in May to Max Neeley. She is the daughter of Mr. and Mrs. Roy Potts and was co-editor of the "Wolverine". She was also selected as class favorite, class officer and was a "B" team cheerleader.

Tommie Standefer, who is planning to enter New Mexico State University, plans to major in agricultural economy. He is the son of Mr. and Mrs. Ralph Standefer. He served as president of the senior class and took active part in FFA work. He represented New Mexico at the National 4-H Congress last year, took part in all sports and was in the senior play.

LaDonna Stewart is spending the summer with her parents on a ranch near Dumas, but plans to enroll in West Texas State

College in the fall and study elementary education, music, and voice. She is the daughter of Mr. and Mrs. Stanley Stewart and took active part in sports, home economics club and was in the senior play.

Travis Taylor, son of Mr. and Mrs. Dave Taylor, hopes to enroll in Wayland Baptist College in the fall. He is employed at Piggly Wiggly this summer. In school, Travis was selected as best personality and class favorite. He also designed the school flag.

Connie Tharp took many honors in high school, some of them being head cheerleader, majorette, drum major, FFA sweetheart, most popular, basketball queen and band sweetheart. She also appeared in the Who's Who section in the school annual. Her plans for attending college are indefinite. She is the daughter of Mr. and Mrs. Ray Tharp.

Joquetta Wall, daughter of Mr. and Mrs. Willie Wall, plans to attend ENMU, but doesn't know what she will study. Joquetta was a three year graduate and took part in home economics club and her name appeared consistently on the honor roll.

Joanne Brown is attending Baylor University at Waco where she is studying pre-med. She is the daughter of Mr. and Mrs. D. J. Brown and is a charter member of the Texico chapter of the National Honor Society. Joanne attended the New Mexico Institute of Mining and Technology last summer for an eight week science camp.

Darene Danforth, daughter of Mr. and Mrs. Fred Danforth is attending the summer session at ENMU. She plans to continue her studying there in the fall and major in home economics. Darene served as drum majorette for the school band her senior year, as well as being a cheerleader. She has appeared in the Who's Who section of the school annual for three years.

Bob Gooch is presently employed by the Greyhound Bus Depot in Clovis but plans to enroll in ENMU in the fall where he will study business administration. He is the son of Mr. and Mrs. Coy Gooch and has taken part in track, basketball and was junior class favorite.

Gale Hadley, daughter of Mr. and Mrs. John R. Hadley, is making plans to attend New Mexico State University where she will study journalism and home economics. She is working this summer as society editor of the State Line Tribune. While in high school she served as co-editor of the Wolverine's Tale, the high school publication. She also served as president of the home economics club, and was selected as band sweetheart her senior year. She has appeared in the Who's Who section of the annual for the past two years.

Velma Martin is employed by the county ASC office this summer. While in high school, she took part in the home economics club, business education club and pep club. She is the daughter of Mr. and Mrs. Delbert Martin.

Frederick Meier is planning to attend an auctioneering school, but is now farming with his father. He is the son of Mr. and Mrs. Frank Meier, and while in school, was active in FFA.

Larry Powell, son of Mr. and Mrs. Almar Powell, tentatively plans to enter the Navy. While in high school, he played softball and had a part in the senior play. He also took part in FFA, and was president of the Green Hand chapter.

Gym Workouts Under Way

With an average attendance of 30 boys, the gym workouts of the summer recreation program have gotten well under way.
 In charge of the workouts are Jack Williams and his son, Dickie.
 The boys, whose ages range from first graders to seniors in high school, are presently learning the fundamentals of basketball, but later are scheduled to take part in various other activities, such as weight lifting, ping-pong, and possibly volleyball.
 Mr. Williams stated that boys of all school ages are welcomed to attend these workouts.

RECENTLY COMPLETED was an extensive remodeling program at Piggly Wiggly in Farwell. Here, Alex Hatley places some packages in the new meat display unit, one of the many new fixtures added during the complete remodeling and refinishing of the store.

WILL DO house cleaning or baby sitting by day or hour. Contact Mrs. Lon Carpenter, last house on State Street in Texico. 38-6tp

Piggly Wiggly Completes Remodeling

Piggly Wiggly in Farwell has just completed a remodeling program, which included the installation of all new equipment and fixtures throughout the store.
 "We now have a complete new store," says Carl Davis, owner and manager of the store. The remodeling program was undertaken to provide additional shelving and display storage for meats, dairy products and produce.
 Davis says that the store's merchandise display capacity has been increased by 30 per cent. In addition to all new gondolas and the new meat, dairy and produce facilities, the store also installed new check counters.
 The remodeling program was started two weeks ago and completed early this week.

FOR RENT--2 bedroom house with den located 2 1/2 mi. north and 3 east of Oklahoma Lane churches. Call BA5-4368 22-tfnc

FOR SALE--Five yearling Toggenburg bucks from top quality registered milk goats. Registration papers obtainable. Price \$35. Contact Ben Pritchett, PO3-3339, or 2904 Wallace in Clovis. 41-3tc

Hospital Notes

Riley Boss who underwent surgery two weeks ago in the Veterans Hospital in Amarillo was reported by his wife as doing "pretty good"--Monday morning. Mr. Boss will be in the hospital for an indefinite time and is in room 352. He will be glad to receive cards and letters from his friends.
 Mrs. Bert Williams, who underwent surgery July 7 in Clovis is home now and doing fine. She was dismissed Sunday.
 Mrs. Mitz Walling was dismissed from the Clovis Memorial Hospital Tuesday following surgery there. She entered the hospital on July 4.

Seniors Reveal--

(Continued from page 5)
 Peggie Teel, daughter of Mr. and Mrs. Elmer Teel, is planning to enroll in ENMU this fall where she will study home economics and history. While in high school, she served as co-editor of the Wolverine's Tale, president of the press club, and was a charter member of the National Honor Society. She also appeared three years in the Who's Who section of the annual, and was awarded the Betty Crocker Homemaker of Tomorrow award for the school.
 LaNelda Wall is attending beauty college this summer and plans to make her profession beautician work. She is the daughter of Mr. and Mrs. Willie Wall, and while in high school she took part in basketball, and was a member of the publications staff.
 Betty Walton, took part in sports, chorus, and business

education club. She is working at the telephone office in Clovis.
 Harla Wall is employed as secretary for the John Parker Motor company in Clovis. She plans to continue working there through the fall. She is the daughter of Mr. and Mrs. John Wall and was a member of the home economics club, business education club and chorus. She took part in sports and was a candidate for most beautiful.
 Jowelene Grizzle, daughter of Mr. and Mrs. Jowell Grizzle of Clovis, is making plans to attend Baylor University where she will study music and drama. While in high school she took part in chorus and was a member of the National Honor Society. Jowelene will sing in the Baylor Chapel Choir.
 Wesley Engram, son of Mr. and Mrs. Wesley Engram, plans to farm this fall. While in high school, Wesley was active in all phases of school activities.

He was in the student council, president of the local FFA chapter, and had parts in the junior and senior plays. He was selected as best athlete, basketball king, and most popular this year.
 Anna Gaines is employed by the telephone company in Clovis where she plans to continue working. She was active in business education club, home economics club and had a supporting role in the senior play.
 Don Johnson, son of Mr. and Mrs. Russell Johnson, is planning to work during the summer and fall. He was a basketball player to high school as well as serving on the publications staff and taking part in other sports.
 Bob Walker, son of Mr. and Mrs. Robert M. Walker, is planning to attend ENMU on a scholarship where he will study math. He was president of the science club, took part

in athletics, and was selected best citizen his senior year. He is also a member of the National Honor Society.
 Charles Stockton, son of Mr. and Mrs. C. B. Stockton is planning to attend college but has not decided where. Charles took part in sports, and

was selected to play in the north-south basketball game in August. He was a member of the Texico band for 11 years, playing an alto sax.
 Jackie Morris is planning to work this summer. While in school he was a member of the science club, took part in track, basketball and had a part in the senior play. He was selected as best sport his senior year.
 Loretta Stapp was active in the home economics club and business education club, and had a supporting roll in the junior play. She was also a member of the chorus.

Phone Numbers--

(Continued from page 1)
 48. Farwell numbers, such as IVanhoe 6-3100, would change to 488-3100. Again, IV on the dial is the same as 48.
 Since that announcement was made, technical complications have forced another change which will make it necessary for all Farwell numbers to be 481 instead of 488. The last four digits of the present numbers in both towns will remain the same.
 Mr. and Mrs. Keith Scott from Odessa visited with Mr. and Mrs. T. T. Doolittle, Mr. and Mrs. Orval Francis and other friends and relatives in this area this week.
 Mrs. Jerry Henson of Seymour visited this week with her parents, Mr. and Mrs. Jim Moss.

Moved

Only one name appears on the moved list this week. Vernon Lewis moved to the J. D. Lewis rent house in Texico.

Mr. and Mrs. Ted Magness, Kim and Kristi visited with relatives in Amarillo during the weekend. They visited Mr. and Mrs. Clair Lackey, Mr. and Mrs. Marion Hensley and Leldon Hensley.

Heavy Rains Were Generally Beneficial

Cotton In Poor Shape

Heavy rains which brought from 7 to 15 inches of moisture to the High Plains last week were for the most part beneficial to area farms.

That was the consensus of opinion among farmers in spite of the fact that prospects aren't too bright for this year's cotton crop. Except for isolated areas near Texico-Farwell where there was some hail damage, the weather did not severely affect the cotton crop.

Neither did the large amounts of moisture help this basic High Plains crop which got off to a slow start this year due to a cold spring and insect infestations. The week-long, unseasonal rains came at a time when the sun was needed to bring out the blooms and point the crop toward maturity.

"Right now the cotton crop doesn't look very good," points out Joe Jones, Farmer County agent. "It wasn't in very good shape before the rain and naturally this moisture hasn't helped."

Jones was out over the county on Monday of this week checking some of the cotton and he reported much of it in poor shape. Some of the cotton is suffering from Ascochyta and Bacterial blight, fungus diseases which affect the leaves.

Due to the cold, wet spring, which contributed to widespread disease in the plants, some cotton had already been plowed under and sown into maize before the rain. There are still more fields which are suffering.

However, with the proper weather conditions from here on out, there is a possibility for what Jones termed a "fair" cotton crop. By proper weather conditions he was referring to plenty of sunshine for the next

several weeks and a late frost. Jones says that cotton is several weeks behind schedule. "In past years we have had blooms on the cotton by July 4, but this year it looks like it will be early August before there will be many blooms," he says.

What the cotton needs along with the sunshine is good cultivation, Jones says.

Aside from this year's cotton crop, the rains were generally a boon to agricultural prospects in the area. Grain sorghums and other feed crops will benefit the most from the moisture. Water is what was needed for and these crops and the rain couldn't have come at a more opportune time for the feed.

Also, the moisture on the wheat stubble will aid in getting this ground prepared for the next crop. It will now be much easier to plow under and the rain will help to provide a good moisture base for the next

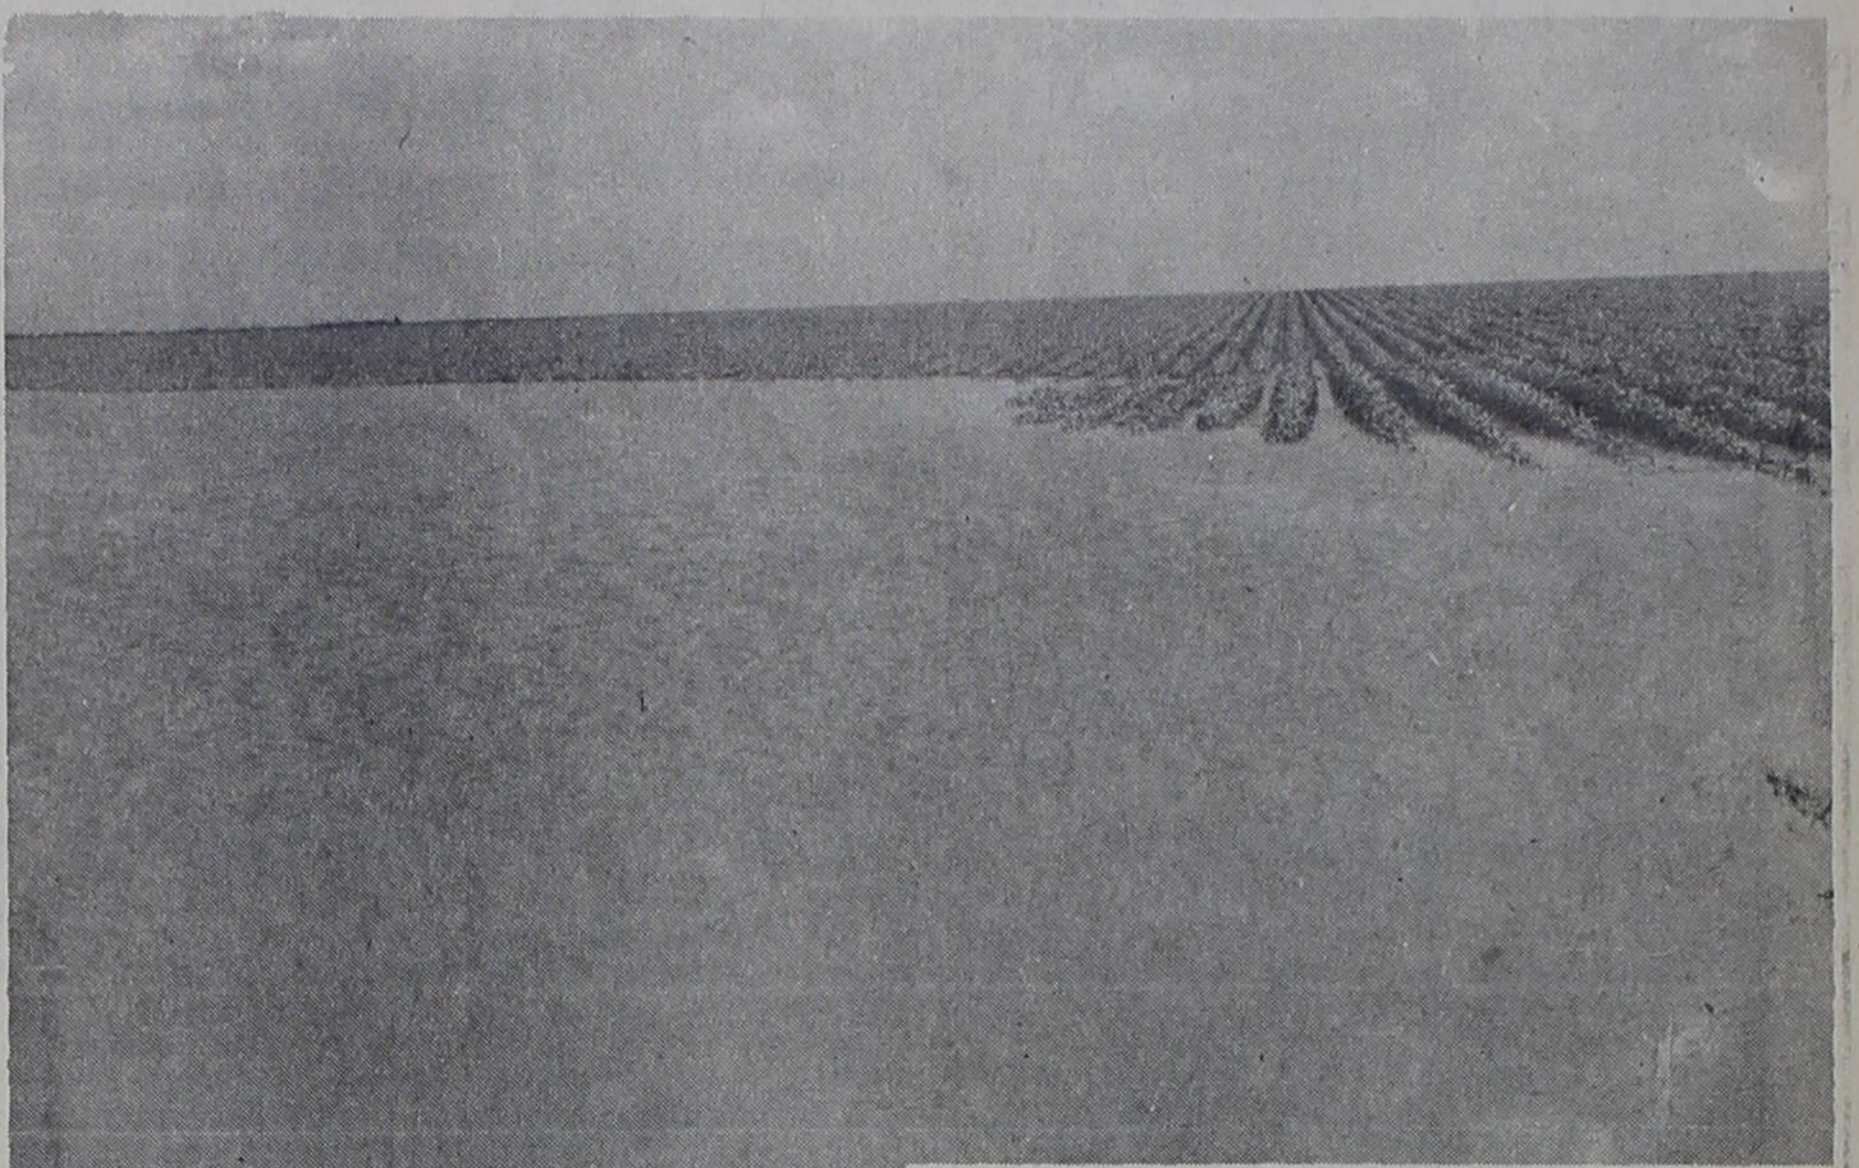

seed bed.

Weeds will naturally be a problem in all the fields now and will be hard to control. The rains will make them shoot up rapidly.

Because the moisture totals are already the highest on record for July, it would appear that additional water is something the crops can do without for a while. This is true to a certain extent, but it won't be long until the irrigation wells are running again, providing it doesn't rain some more.

"It won't take long for the cotton and feed to sap out the moisture from the top soil," Jones says. "And, the farmers will be turning on irrigation wells before the ground really needs it. That's so all of the fields will be covered by the time the crops are in need of added moisture."

(Check the rain map on next page for rain totals throughout the county.)

SCENES LIKE THIS WERE common sights throughout the county early this week following the week-long rains which brought as much as 15 inches to some areas. This picture was taken on a farm northwest of Bovina.

THE HIGH PLAINS FARM AND HOME

Magnesium In Cotton Production Studied

Magnesium is one of the essential nutrient elements required by higher plants for normal growth and reproduction. Until recently, very little work had been done in relation to the magnesium requirements of cotton.

The Texas Agricultural Experiment Station has completed a series of studies in an attempt to learn these requirements. The studies were made under controlled conditions, and should be very useful as a guide for future field experiments. American Upland (Stoneville Z-106) and Egyptian (Pima S-1) cottons, grown in a nutrient solution under greenhouse conditions, were used in the tests.

The characteristic foliage symptoms of magnesium deficiency appeared first in the lower leaves of Pima S-1 plants which were more sensitive to magnesium deficiency than the Stoneville Z-106 plants. Magnesium content of the plants reflected a positive correlation with the magnesium supply on which they were grown.

Substrate magnesium had a marked influence on plant growth and development as measured by height, weight, flowering, boll set, relative chloroplast pigment content and chemical composition. Differences in the response of the two species to various levels of substrate magnesium were also pronounced.

Complete results of these tests have been published by the Texas Agricultural Experiment Station. This publication may be obtained by writing the Agricultural Information Office, Texas A & M College, College Station, Texas. Ask for MP-411.

FLOOD WATERS WASHED OUT this road north of the Pleasant Hill community near Frio Draw. The washed-out area was about 15 feet in depth and 30 feet across. This area received nearly 10 inches of rain in one 24-hour period.

Farmers Union Asks President For Sugar Quota

A letter congratulating President Eisenhower for having cut the Cuban sugar quota and asking him for sugar beet acreage for Texas farmers was sent to the President last week by Alex Dickie, Jr., president of Texas Farmers Union.

In the letter Dickie said, "Congratulations on having cut the Cuban sugar quota. I think the vast majority of the citizens of this country feel this was long past due and you and the Congress have acted wisely. I would respectfully like to urge you to immediately take steps to have the Department of Agriculture distribute sugar beet acreage to our many thousands of adaptable sugar beet acres in Texas and surrounding states. Our farmers are in desperate need of this money crop."

"I strongly feel that the United States consumer would prefer sugar grown on American farms to that of any other country in the world. We in Farmers Union stand ready to help in promotion of the sugar beet acreage in the adaptable areas in any way that we can."

Dickie stated that he would like to urge all interested farmers and sympathetic citizens to write to their congressmen and senators to release sugar beet acreage to adaptable farm areas throughout Texas.

"We should all work through our organizations, both farm and civic, to get this story of

If you are one of those, be sure to come in soon, before more of them expire.

Did you know that only five and six tenths per cent of the wheat farmers in the United States voted in favor of quotas last year? This is about four times as many as voted against them, but it still is not a very representative vote, is it? Why don't you vote this year?

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

We hope all of you will remember to file for the Federal Road use tax refund on your farm fuels. You can do it now. Your dealer will give you the amount of gas you bought prior to, and after, October 1, 1959. The refund is 3¢ per gallon on that prior to that date and 4¢ after that date. We will be glad to help you with it if you wish.

Some of you still have invoices that can be sent in for refund of the 5¢ state tax, too.

Because of various things, Rhea Community did not hold a Fourth of July celebration this year. That's the first time in many years. Wheat harvest, other farm activities and work being done on the Parish Hall, where such meetings are usually headquartered were the reasons.

Farm Bureau Directors will meet Monday night. They skipped meeting the Fourth, too. You are welcome to attend. They'd be glad to see you, says Herman Gerles, and his directors and other officers join him.

July 24-30 is National Farm Safety Week. We suggest that, in preparation for that week's observance, you practice safety beginning now. Think about this subject, and you will no doubt make some changes in some of your procedures on the farm for the sake of safety.

We've always wanted to see that new volcano in Mexico (it appeared in 1942) and if we were in a position financially and had time, we'd go on the Texas Farm Bureau Goodwill tour July 14-24. Maybe you can go.

CONSIDER THIS: He that justifieth the wicked, and he that condemneth the just, even they both are abomination to the Lord. Prov. 17:15

New Cotton Defoliation Guide Released

Effective March 5, 1960, defoliant and desiccants came under the regulations of Public Law 518. The basis for the control program on farm chemicals is to prevent undue risk from residues of the chemicals in the raw agricultural product.

Certain of these chemicals, however, have been granted an extension by the Food and Drug Administration, explains Fred Elliott, extension cotton work specialist. This extension is good until March 5, 1961, he says.

Any defoliant or desiccant used will eventually have tolerances or an exemption from tolerances designated for its safe use or will be registered on a nonresidue basis. Until official Federal regulations are issued governing the use of a specific defoliant or desiccant, it should not be used, Elliott warns.

In a recently published Texas Agricultural Extension Service leaflet, Elliott lists the chemicals that have been granted this extension, and gives a guide for their use. This leaflet may be obtained from the local county agent or from the Agricultural Information Office, College Station, Texas. Ask for L-145.

Buske Named To FHA Committee

W. D. Buske, who farms near Friona, has been named to serve on the Farmers Home Administration county committee, announces Billy R. Boling, the agency's county supervisor in Farmer County.

Buske succeeds Richard V. Rocky of Black, who has served on the committee for the past three years. Buske, also selected for a three-year term, will serve with Earl D. Stevenson, Bovina and M. T. Glasscock, Farwell.

Mr. and Mrs. Buske have three children and have lived in the Friona area for the past six years. They farm 1300 acres of wheat, grain sorghum and cotton and also run some cattle. "With his knowledge of the county and farming conditions here, Buske will be a valuable addition to the committee," Boling says.

The county committee determines the eligibility of individual applicants for all types of FHA loans. The committee also reviews borrowers progress and aids the county supervisor in adapting the agency's loan policies to conditions faced by farmers in this area.

Members are selected and appointed so that, as far as possible, different areas or neighborhoods are represented, Boling says.

MOISTURE MAP (From Last Sunday Through Monday)

Wheat Allotment Virtually Same

Notices of the 1961 wheat allotment have been mailed to Parmer County farmers, and there is virtually no change in acreage as compared with the present year. Parmer County's allotment is 106,354--down only four acres from the 1960 total.

The national acreage allotment remains at the minimum 55 million acres which has been in effect for the past six years. That is the main reason for the local allotment stability.

Individual allotments are based primarily on past wheat production history.

"All growers who will produce more than 15 acres of wheat in 1961 will be eligible to cast ballots in the July 21 referendum, on marketing quotas for the 1961 crop," points out Prentice Mills, ASC office manager.

"Growers who have smaller acreages and those who are taking part in the feed wheat pro-

gram are not eligible to vote, since the wheat from such farms would not be subject to marketing quota penalties."

Mills says the referendum will decide important questions for wheat producers. If at least two thirds of the growers approve quotas, then they will be in effect for the 1961 crop, marketing penalties will apply to the "excess" wheat of growers who do not comply with their farm allotments, and price support will be available at not less than 75 per cent of parity. The exact support price level is soon to be announced.

If more than one third of the voters approve the quotas, there will be no quotas or penalties for the 1961 crop, and price support will be at 50 per cent of parity. Allotments will remain in effect as a condition of price support eligibility only.

Flocculent May Prove Successful For Removing Playa Lake Sediments

Tests conducted recently on the High Plains indicate that a commercial flocculent, Separan AP-30, may prove successful for removing sediments from playa lake water used for groundwater recharge. Application of the flocculent reduced the amount of silt plus clay entering a recharge well in a 24-hour period by 49 per cent.

During the test, which consisted of a 24-hour recharge period, the flocculent was added at a constant rate of 0.7 ppm to the water at the inlet pipe in the lake. The irrigation pump was operated for one hour at the end of the recharge period. Samples were taken of the unflocculated water at the pipeline intake and of the flocculated water at the well inlet. All samples were mixed for a minimum of 3 minutes, and no dispersant was added. The sediments in the flocculated samples were determined in only two categories: sand and silt plus clay.

There was an increase in sediments in the untreated water about 4 hours after the test was started. This sediment increase was caused by an increase in wind velocity. A correspondingly smaller increase in sediments occurred in the treated water. The smaller increase in the sediments in

treated water indicates that the flocculent may be more efficient when used in water containing higher amounts of sediments. The total silt plus clay flocculated from the water that entered the well, using Separan AP-30, was 1,576 pounds, or 49 per cent of the total sediments in the water.

Results from this test indicate that, under more favorable conditions, Separan AP-30 may prove to be a successful flocculent for removing sediments from playa lake water used for groundwater recharge. More tests are planned for the future in which conditions will be varied to determine if more efficient results can be obtained.

These studies were conducted cooperatively by the Texas Agricultural Experiment Station and the Soil and Water Conservation Research Division of the USDA.

WITH THE COUNTY AGENT

JOE JONES

Those of you who plan to sidedress grain sorghum should remember that for best results the sidedressing should be done about 35 to 42 days following planting. This will insure you that the plant food is there for head formation.

Applications should be made in or near the middle of the row to prevent root injury. Sidedress with nitrogen only. Phosphate should be put down prior to planting or at planting time.

Tascosa wheat looked good this year. It is just a little shorter, has a strong straw, the kernels are held tightly by the glumes. It is just a little harder to thresh in most instances which could also be an advantage in case of light hail or hard winds. No one has reported any difficulty with combining Tascosa even though it is held a little tighter by the glumes.

Two-hundred-ninety-six pairs of Bobwhite Quail were delivered to 29 co-operators last week. J. L. Ivy of Lazbuddie did not receive his, but they are ordered and will soon be here making 30 co-operators receiving quail.

If you want fish for your lakes you had better hurry and order. I have been informed that deliveries will be made to Parmer County in late July or early August. I have order blanks in my office. A. L. Kirby, Bovina; W. L. Edelman, Friona; and Bill Nichols, Friona, also have blanks.

This year's wheat crop will soon be history except for the residue left around. What is done with this residue within the next 30 days will greatly influence the 1961 wheat crop and future crops.

It takes moisture, temperature and nitrogen for the bacteria to feed on to decompose organic matter. If you want to get your land in the best possible condition for a 1961 wheat crop, you had better consider addition of a nitrogen fertilizer before turning the straw under. Try to get the breaking job done in July if possible while there is plenty of moisture and warm weather left to rot the straw.

Wheat straw rolled into a lister ridge does not make a good seed bed. In most instances such preparation of land results in lower yields, which in turn means you have paid for

nitrogen and tillage practices necessary to decay the straw and just a little extra. A lot of the wheat produced in 1961 will be produced within the next 30 days.

Every form of fertilizer has its place and you may find it advantageous to use a dry form of fertilizer such as ammonium sulfate or ammonium nitrate, urea, or uran which is a liquid form of urea.

The rains have come and gone for the present and left us just as wet as we can possibly be, but our early grain sorghum will need water sooner than you may think, so be ready and don't get caught.

H. D. AGENT'S CORNER

Jimmie Lou Waincott

MAKE THE MOST OF MID-SUMMER CLOTHING SALES...

There's something about a sale that seems to arouse a sense of adventure in women--an expectant sort of feeling that has to do with "getting a really good buy."

Right now, many stores are having sales--featuring fabrics, summer dresses, and other items. Extension clothing specialists of Texas A & M College point out that as a careful shopper, you can make the most of these special prices to fill gaps in wardrobe, or add some needed pieces.

Here are some tips offered by specialists for analyzing the situation before you buy a certain fabric or clothing item on sale or otherwise:

- Keep your total wardrobe plan in mind. Buy only those items that fit in with your budget, color plan, accessories and activities.
- Consider lines, color and texture of the garment. Are they really suited to your type? Are they extreme or high fashion--likely to look wrong next season?
- Look at the label carefully. Get as much information as possible on care and cleaning.

Other suggestions for stretching clothing dollars are given in the extension bulletin,

"Wardrobe Dollars and Sense." Principles given in the publication apply to all family members.

Ask for a copy of the bulletin from your county home demonstration agent's office.

KEEP VEGETABLES FRESH --STORE THEM PROPERLY...

Store those fresh vegetables properly, when you bring them from the store or garden. Otherwise, they will lose flavor, food value and appeal quickly, says Frances Reasonover, extension foods and nutrition specialist of the Texas A & M College System.

Refrigerate all vegetables except potatoes and dried onions, as soon as possible after purchasing or harvesting. Exposure to air and light causes wilting and a great loss of essential nutrients.

Wash and clean vegetables carefully. Dirt may hasten spoilage. Drain off excess water, but store while moist for better crispness. Trim away bruised or spoiled areas to prevent rapid spoilage.

All leafy vegetables and broccoli, cauliflower, peas, beans, carrots, celery, green onions, radishes and cucumbers, should have moist cold. Store them in the crisping pan of the refrigerator in moisture-vapor-proof wrapping, such as aluminum foil, cellophane or plastic.

Never pare or cut vegetables before storing. Peas or fresh lima beans retain more vitamins if stored in the pod. If they must be shelled in advance, store in tightly covered jar or plastic bag in the refrigerator.

For more information on vegetables, get a copy of "VEGETABLES--SELECTION, CARE, COOKING" from your county home demonstration agent.

County FHA Loans Total \$552,955

Loans totaling \$552,955 were made by the Farmers Home Administration to farm families in Parmer County during the fiscal year ending June 30, reports Billy R. Boling, FHA's county supervisor.

Borrowers repaid \$722,543 during the year on loans of all types, Boling says. These payments were on loans made in past years and they came mainly from the sale of wheat, grain

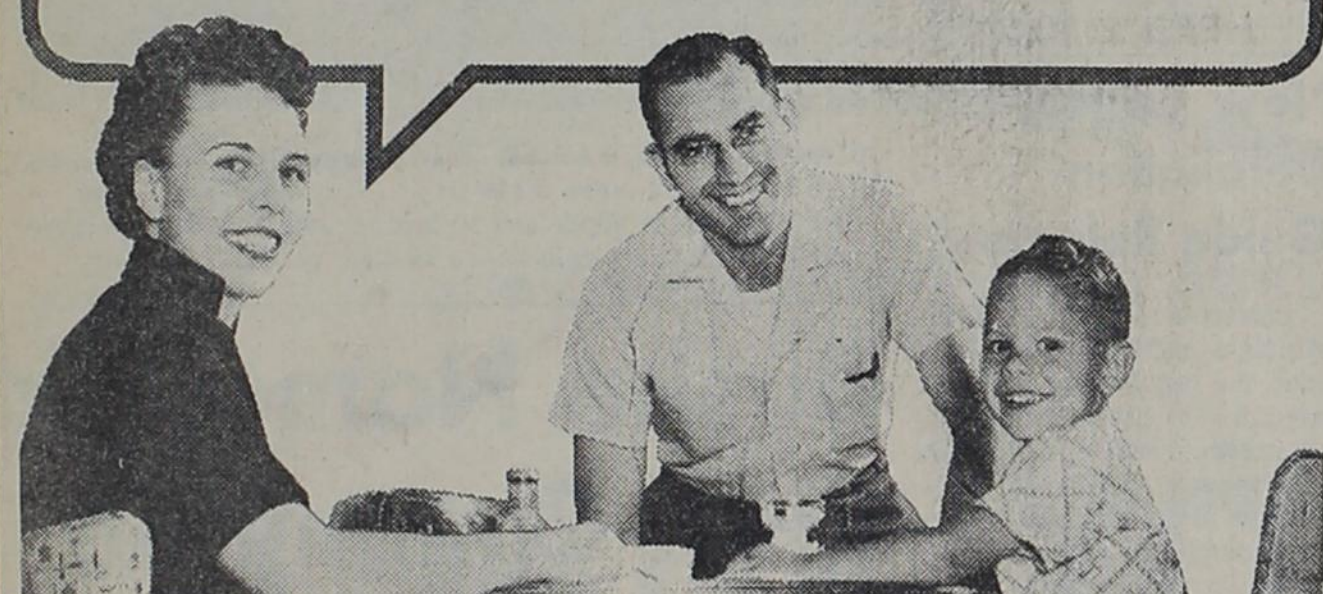

sorghum and cotton. The bulk of the loans made this past year were for operating purposes, such as the purchase of feed, seed, fertilizer, pesticides, livestock, machinery and equipment, and the making of recommended adjustments in farming systems. Loans made to meet this type of need totaled \$545,005.

Farm real estate loans during the year totaled \$7,950.

Farmers used these loans to improve or purchase farms or farm land, to build or repair farm dwellings, to install and repair irrigation systems, and to finance other essential farm construction.

Throughout the county are many farm families who have borrowed from FHA in former years and are still making scheduled repayments, Boling says. Many other families in

"From 3 to 13 My Dishes Get Clean.. Automatically-"

says Mrs. Don Winter, 1401 W. Beaver, Guymon, Okla.

Here's an enthusiastic homemaker who fully utilizes her electric dishwasher, whether it's just the family three for breakfast or a friendly dinner group of thirteen. In either situation, Mrs. Winter merely "pushes the button" for sanitary, clean dishes. Incidentally, all the dishes used by the thirteen people in the actual dinner party pictured easily went into Mrs. Winter's electric dishwasher with plenty of room for proper washing.

"OUR ELECTRIC BILL IS THE BIGGEST BARGAIN WE HAVE"

It's the man of the house who usually pays the bills and Mr. Winter is no exception. Despite unlimited use of electric service in the Winter home, Mr. Winter is happy with the low cost of his electric service. No wonder he says, "Our electric bill is the biggest bargain we have."

* Straight per cent weight adjustment up and down to 14% moisture
 **Black Smut
 **Heaviest hail damage noted in Knox variety.
 Hail was received on the test plots May 28, 1960. Adjustments for 16% damage made by Ethridge-Spring Agency, Friona, Texas.

Wheat Harvest Above Average

For all practical purposes, this year's wheat harvest, considered above average by most elevator men, has drawn to a close. Last week's soaking rains came before all of the wheat was out of the fields, but only a few acres remained to be cut. "It's at least 95 per cent over," was a statement heard from most elevator men in the county early this week.

If it doesn't rain any more, combines should start getting back into the field this week and by the early part of next week the harvest should all be over with. As far as the wheat crop as a whole was concerned, the rains couldn't have come at a better time.

This large amount of moisture will make the wheat stubble much easier to handle and it will also help the moisture base of the next seed bed.

Average yields on irrigated wheat this year were from 40 to 50 bushels per acre and some yields were 70 bushels and above. Quality of the wheat was

considered above last year, weighing in the neighborhood of 60 pounds.

There was considerably more hail damage in the county last year than this year, thus the reason for this crop being considered a little better. There was some hail this year but it was spotted and not nearly as widespread as last year's.

The HAPPY HOMEMAKER

BY JUNE FLOYD

Some of the most interesting articles in print today are anonymous. Someone jokingly remarked on day "That Mr. Anonymous must have been a very intelligent person. He wrote so many interesting things."

Our first recipe this week was probably written by "Mrs. Anonymous."

How To Cook A Husband

A good many husbands are utterly spoiled by mismanagement in cooking, and are not tender and good. Some women go about it as if their husbands were bladders and blow them up -- others keep them constantly in hot water -- and others let them freeze by their carelessness and indifference. Some keep them in a stew by irritating ways and words -- others waste them. Then some keep

them in a pickle all their lives.

It cannot be supposed that any husband will be tender and good if managed in this way, but they are extremely delicious when properly managed.

In selecting your husband you should not be guided by the silvery appearance as in buying mackerel, or by the golden tint as if you wanted salmon.

Edelman Predicts Tascosa Will Be "Most Popular" Wheat

"Tascosa wheat has a shorter straw and therefore easier to work back into the ground, not as susceptible to rust, and is ready to harvest earlier," says Edelman.

Walking across the stubble ground on his place where the test plots were planted he pointed out the variation in stubble length and picked up a few heads of wheat on the

ground.

"We got 16 per cent hail on our wheat this year and several of the varieties really got hurt," he says.

"I feel that the Tascosa will still produce more after such treatment than most of the wheat we had planted," he says.

"Tascosa wheat will be the most popular planting wheat on the Plains when they get enough seed to go around," predicted W. L. "Preach" Edelman, a Parmer county farmer who runs his own experiment station on his land in the Black Community.

Edelman based this prediction on his own experience with the new wheat variety after cutting the 12 varieties of wheat he had sown on his land this year.

Despite the fact that Concho wheat out produced his Tascosa variety Edelman stuck with his opinion and based it on three facts --

Edelman planted 12 varieties of wheat in a 25-acre plot and treated all the varieties alike.

All were watered four times, once in December then two times in April and the last time May 10.

The land was fertilized with 100 pounds of anhydrous ammonia and the wheat was sown on summertilled land.

All 12 varieties were planted October 15, 1959 and all were harvested on the same date, June 22, with the exception of Cheyenne which was too wet to cut and was harvested one week later.

Edelman got seed for three of his plots from the Bushland Experiment Station near Amarillo. These were Tascosa, Westar and Aztec.

Community Grain contributed the Knox seed and John Mars the Kiowa seed.

"Wheat stubble is one of the hardest things we have to work back in our soil, and a shorter stemmed wheat, plus one that will yield well is what we need, or what I think I would rather have on my farm," he says.

All the wheat was harvested with the exception of the

Cheyenne on the same day regardless of moisture content. The yields were then converted to 14 per cent moisture on straight percentage basis in order to find some common rating for all varieties.

A complete graph with all the information Edelman recorded concerning this experiment accompanies this story.

New Wheat Variety Released For '61

Seed from Tascosa, a new hard red winter wheat variety which produces excellent yields of outstanding quality, will be

available from producers of certified seed after the 1960 harvest. Tascosa was developed by the Small Grains Section of the Texas Agricultural Experiment Station in cooperation with the USDA. It was named for Tascosa, the early Panhandle settlement west of Amarillo.

Tests on the Rolling Plains show Tascosa ranking first in yield. In regional trials in 61 station-year tests, Tascosa averaged 33.7 bushels per acre over a 4-year period compared with 33.3 for Concho and 31.4 for Comanche. The new variety has not yielded as well as Crockett in North Central or Central Texas tests, and because of this and its susceptibility to certain diseases, it is not recommended for these areas.

Tascosa differs considerably from the present commercial varieties grown in Texas. The plants are shorter in stature and the straw is strong, which aid in resisting lodging. The variety resists shattering and may require special setting of the concaves for threshing because the kernels are held tightly by the glumes.

Further information about Tascosa can be obtained by writing the Agricultural Information Office, College Station, Texas, and asking for Leaflet 483.

Do not stick any sharp instruments into him to see if he is becoming tender. Stir him gently, lest he lie too flat and close to the kettle and so become useless. You cannot fail to know when he is done.

If thus treated you will find him very digestible, agreeing perfectly with you and he will keep as long as you want, unless you become careless and set him in too cold a place.

Be sure to select him yourself as tastediffer. Do not go the market for him as the best ones are always brought to the door. It is far better to have none unless you will patiently learn how to cook him. A preserving kettle of finest porcelain is best, but if you have nothing better than an earthenware pipkin, it will do with care.

See that the linen in which you wrap him is nicely washed and mended and has the required number of buttons and strings neatly sewed on. Tie him into the kettle by a strong silken cord called comfort, as the one called duty is likely to be weak. They sometimes fly out of the kettle and so become burned and crusty on the edges, since, like crabs and lobsters, you have to cook them alive.

Make a clear steady fire out of love, neatness and cheerfulness. Set him as near this as seems to agree with him. If he sputters, do not become anxious. Some husbands do this until they are quite done. Add a little sugar in the form on what confectioners call kisses, but no vinegar or pepper on any account. A little spice improves them, but it must be used with great judgment.

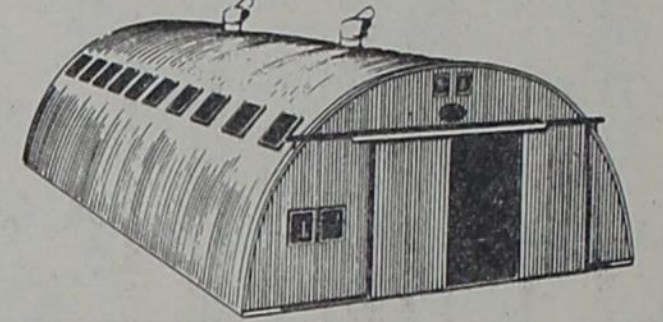

Do not stick any sharp instruments into him to see if he is becoming tender. Stir him gently, lest he lie too flat and close to the kettle and so become useless. You cannot fail to know when he is done.

If thus treated you will find him very digestible, agreeing perfectly with you and he will keep as long as you want, unless you become careless and set him in too cold a place.

Market Development Program Expanded

The entire feed grain industry including corn producers, the grain seed industry, export firms and cooperative and independent grain dealer, it was announced this week, are mustering forces behind the foreign market development program which the Grain Sorghum Producers Association of Amarillo initiated and has been administering the past two years.

It is expected that this new and broader interest in financing and directing the export promotion program will increase activities in this connection as much as five times over the present program.

The announcement relative to the expanded program was made after an area directors' meeting of the Grain Sorghum Producers Association in Tulsa last Wednesday. The Board acted on the recommendation of R. G. Peeler, Director, of Hereford, and Bill Nelson, Amarillo, the Association's Executive Officer, who have been negotiating with the other grain interests in the past several months. Organizations joining with the

Grain Sorghum Producers Association are the Hybrid Corn and Hybrid Sorghum Divisions of the American Seed Trade Association, Chicago, Illinois; the National Corn Growers Association, Boone, Iowa; The North American Export Association, New York City; Farmers Grain Dealers Association of Des Moines, Iowa; Continental Grain Company, New York City and Cargill Grain Corporation, Minneapolis, Minnesota.

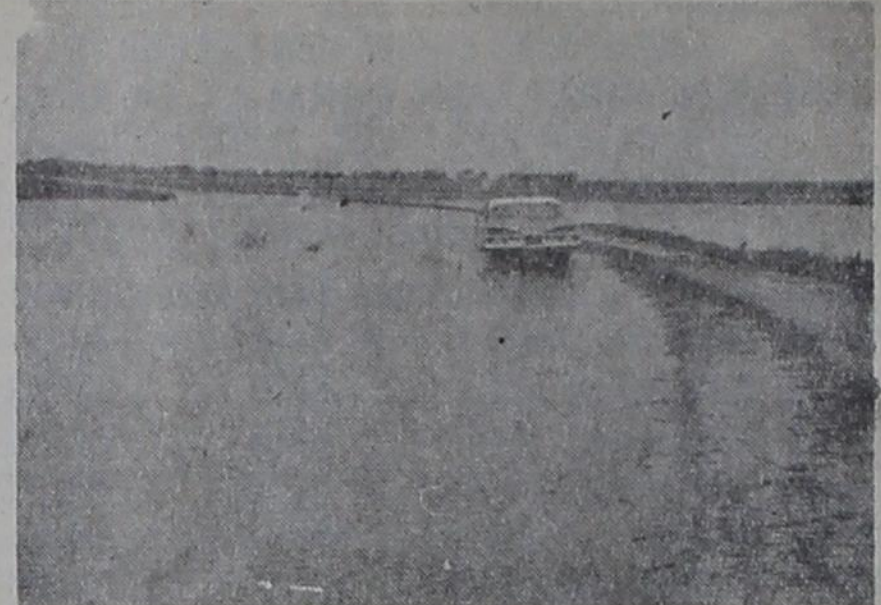

All of these grain industry groups are combining forces for this effort through a newly formed organization which is to be known as the U. S. Feed Grains Council. The expanded Council program is to remain under the administrative direction of Bill Nelson who is to serve as the executive director.

It is expected that this council approach will provide for an increase in the exchange of county agents and other agricultural leaders in potential U. S. grain market areas, as well as allow for the bringing of an increased number of

foreign feed grain users and processors to the area to study grain sorghum and other feed grains, and provide greater understanding of our grades, standards and trading practices.

Other business at the Grain Sorghum Producers Association meeting in Tulsa included a report from Charles C. Gidney, Jr., from Rome, Italy who is administering the European feed grain market development projects. He is encouraged at the potential for expanding grain sorghum and other U. S. feed grain exports to the European area if continued efforts are made toward removing or lessening trade barriers, import duties and licensing restrictions.

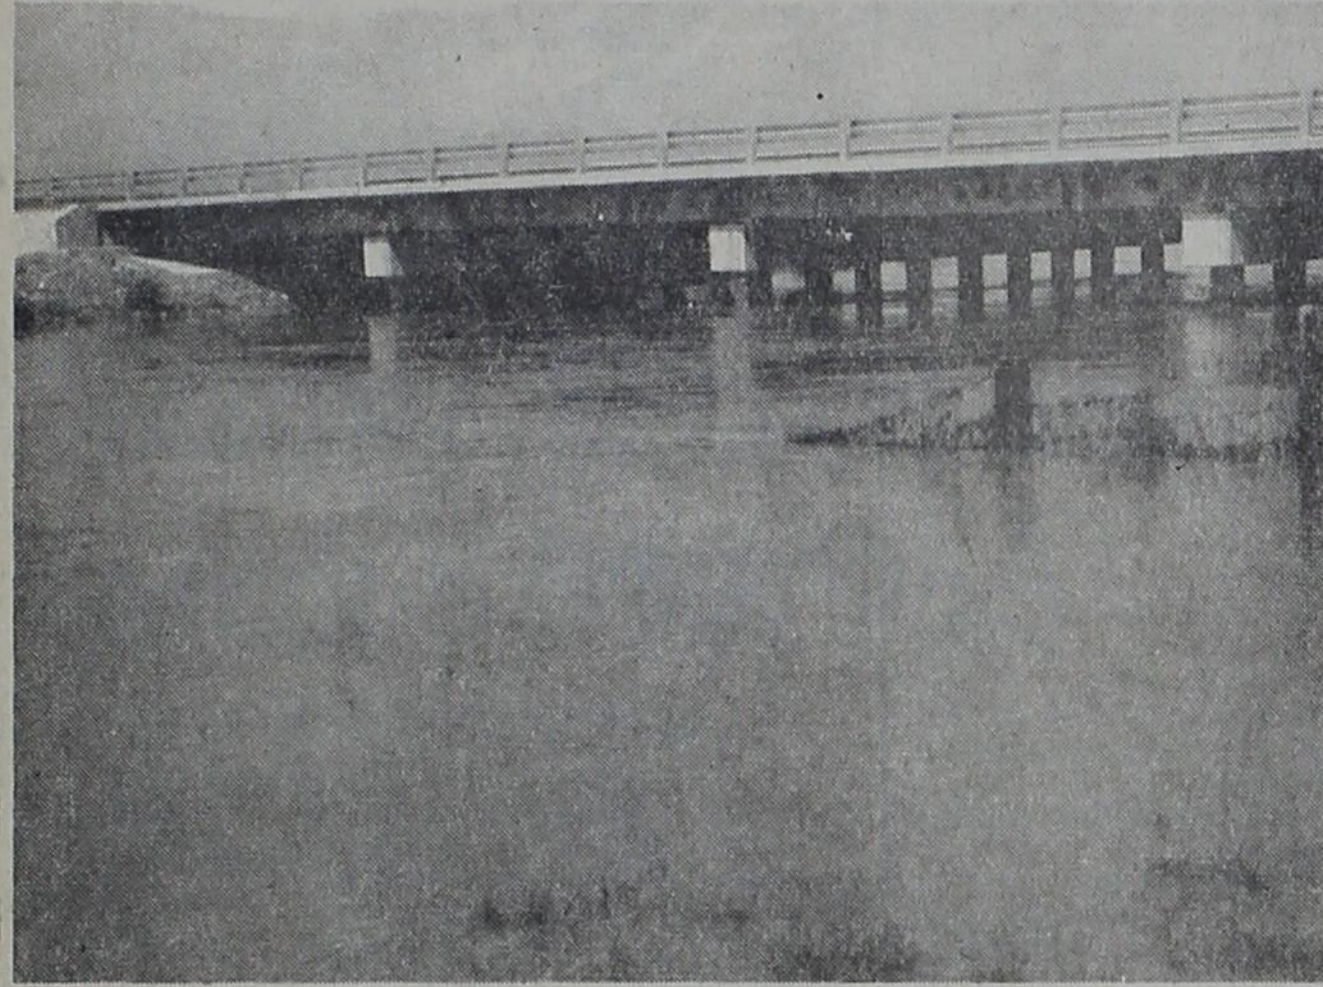

There are indications, says A. M. Meekma, extension dairy husbandman, that the number of dairy animals may increase during the next year or two. A strong factor is the increased number of replacement animals now on hand.

FARM-TO-MARKET ROAD west of Bovina was flooded and closed to traffic following a three-inch rain Friday night which brought to a close the week's rainfall. This car started to go through the flooded area but decided against it when the water reached a depth of two feet.

PART OF PAVED STATE LINE ROAD north of Pleasant Hill was washed away during the downpour. Further down the road (just off the pavement) is where the complete road was washed away. Beyond the next hill is Frio Draw.

LOTS OF WATER was running under this bridge on Running Water Draw between Bovina and Farwell. This is the fastest the water has been sweeping down the draw in many years.

Asgrow Seed To Sponsor Tour

Asgrow Seed Co. of San Antonio is sponsoring a tour of its production fields and seed processing plant next week for its area seed dealers and several newsmen in the area.

A group of about 40 area men will leave by bus Wednesday, July 20 for Uvalde where they will spend the night. Thursday they will tour Asgrow's production fields near Crystal City and later in the day tour

the company's seed processing plant in San Antonio. They will return Friday.

Ants can be controlled in and around the home with insecticides. Entomologists of the Texas Agricultural Extension Service say that chlordane or dieldrin, sold in many stores as roach and ant sprays, are very effective. They suggest that a copy of L-311, "Texas Guide for Controlling Household insects," be obtained from the local county extension office for detailed information on control measure not only for ants but other insects which attack fabrics, foods, structures and humans.
