IL DEVELOPMENT IN THIS SECTION

pady Progress in Development in Mitchell and Reagan County, To Test Showing in Sterling

Development in Sterling County. Upon investigating the Chicago-Oil & Gas Association's Durham No. 1, upon his arrival from ago last week, Paul S. Odward, sident of the company, decided the should be thoroughly tested at present depth and another test started. According to reliable orts, from four to five barrels of were bailed from this well in half hour. This showing is so promisthat it was deemed best to test oil stratum thoroughly.

n oil sand fifteen and one-half in thickness was encountered at pth of 1423 feet, it will be re-

Shannon No. 1 Has Showing

A nice showing of both oil and gas was struck in the Shannon No. 1. well of the Crockett Drilling Syndfcate, according to late at reports. The showing coming from a gray sandy lime at a depth of 2365 feet, caused considerable excitement among operators and scouts who have been closely watching this test. The lime, according to Dr. J. D. Young, closely resembles the famous Breckenridge lime from which many big wells were obtained. Dr. Young, while pleased with the showings, stated that this did not indicate a producer, as, in his opinion, the well had not reached the required depth.

Should the Shannon make a producer, it will mean an intensive drillof the Durham well has about ing campaign along the Sheffield Terrace on which this well is located. This company's Massie No. 1

the is still shut down at 1000 feet, but m, are now down 1640 feet work will be resumed on completion of the Shannon.

The discovery well is pumping 192 tween 50 and 60 barrels. No. 4 is near the 2200 feet. No. 5 is down 2405 feet. No. 6 is drilling at 1790 lows: pletion of five producing wells feet. No. 7 is below 750 feet. No 8 iding from 500 to 1000 barrels is due to spud today and No. 9 is o production in the field with- rigging up. ELECTED TUESDAY

Ticket Headed by Clyde E. Thomas for Mayor Wins

a big-hearted bunch, and do not believe in the city officials working "free grati-, for nothing," was most strikingly emphasized in the city election hold in our city Tuesday of Hotel on the second floor

One tucket with the following nominees, S. A. Hathcock for Mayor. A. J. Gallemore for Marshal, F. W. Bettle, R D. Mathhews and C. W. Cunningham for Aldermen, was proposed, their platform being to serve the city without any fees or salaries but to lump the salaries of the various offices and employ a city manager to give his entire time to looking after the interests of our city. The opposition, or Young Businessmen's Progressive ticket, had as their nomtnees the following, Clyde E. Thomas for Mayor, J. H. Hefley for City Marshal, A. P. McDonald, W. L. Mc-Colister and Jno. R. Creath for Aldermen.

Intense interest was manifested in the race as is evident from the number of votes cast. We believe there was a larger vote cast in Tuesday's election than in any city election ever was completed.

The result was announced as fol-

Raise Feed, Too

From West Texas come reports of literally hundreds of thousands of acres of new land being planted to cotton. West Texas farmers, says a West Texas newspaper, have got the "big eye" over cotton. In the midst of the enthusiasm can be heard here and there a voice of warning, such as that raised by the Big Spring Herald, near which place, it was recently reported, a land owner had plowed up 6,000 acres of prairie sod for a single cotton field. The Herald says:

"One of our substantial farmers who has made a crop here annually for many years, states that he has made it a point to plant a big feed crop each year. He finds that he can raise feed for less than he can buy it with cotton money.

"He said it is a mystery to him why farmers, instead of planting a big feed crop, plant all their land to cotton, knowing they are going to be compelled to purchase high-priced feed with hard-earned cotton money.

"Right now, men are being offered \$35 per ton for maize by others who devoted large acreage to cotton. With land here producing from 1,500 to 2,500 pounds of maize to the acre, this is not half bad. You know that maize can be grown any year that cotton can b is not molested by the many pests that can wipe out the most promis-

After the convincing manner in which the situation is thus explained, it does not appear that any West Texas farmer could fail to see the bad business of bringing himself to pay out cotton money for feed he could have raised himself. Agricultural economists have agreed, in the main, that the cost of cotton production runs around 30 cents per pound. This, of course, takes in the interest PERMANENT WAVE on investment and other features Ic All Members of Howard Camp, which rightly enter into the computa-

Dr. Morelock Here Last Thursday.

Dr. Morelock, president of the We are authorized to announce the Sul Ross Teachers Training Normal ollowing for the respective offices, at Alpine, was a visitor in Big Spring on Thursday of last week. He came here upon an invitation from the members of the City Federation,

He delivered an especially interesting address to the pupils of the High school at 3:00 oclock Thursday afternoon. His subject was: "The Importance of Study."

At the Methodist Church at night he addressed an appreciative audience on the subject of "The Need of n College Education,"

He covered the subject in a thorough manner and his splendid talk was thoroughly enjoyed by his audi-

Our citizens will be pleased to earn that Dr. Morelock has agreed to deliver the Commencement Address to the graduating class of our High School on May 23rd.

Better Fire Protection Needed

Had Colorado City more fire fighting equipment the fire there last Saturday which threatened the entire business section, might not have been so costly. Fortunately Sweetwater having more equipment For Public Weigher, Precinct No. 1: could go to the rescue of Colorado. Had the Big Spring fire department answered the call, our city would have been without protection on account of our lack of equipment. F Then too, Colorado had two fires in two different sections of the city that afternoon. This doesn't happen often but it can.

We have always thought that Big Spring in failing to secure adequate fire fighting equipment was taking mighty big chances. We have been extremely fortunate up to date but we can't expect our luck to hold forever. Better play safe by being prepared to combat costly fires.

T. W. Angel for Public Weigher

We are authorized to announce T. W. Angel as a candidate for reelection to the office of Public weigher of Precinct One, Howard County. He announces subject to the action of the Democratic primary and his name appears in the announcement column of The Herald.

Mr. Angel has given entire satisfaction since he has held the office of Public Weigher of Precinct One and we believe a majority of the voters of the precinct will decide in favor of his continuing at this post. He has been just and fair and always ready to do just a little more than the office might require. He is courteous and obliging and everyone is assured a fair and square dea! while he is on the job. If reelected he will continue to serve just as faithfully and efficiently as he has

You are requested to consider his claims for your consideration when casting your ballot for Public Weigher of Precipct One in the July

Cattle Feeding Tests at U. S. Station

As a means of marketing the surplus feed of Howard County and to serve the best interest of the county as a whole, cattle feeding should be engaged in and tests to encourage same are now being held at the U.S. Experiment Station here under the auspices of the Extension Department of the A. & M. College of Texas. The Big Spring Chamber of Commerce arranged for securing the thirty head of yearling steers used in the test and is paying for some of

This stock has now been on feed the past one hundred and twenty days and the following is the report for the past thirty day period.

PEN NO. 1 15 head of calves for fourth period. Feb. 27 to March 26, inclusive: Amount of feed consumed by each; Sumac silage 20 lbs.; Sudan grass 2 lbs.; ground mile heads 10 lbs; cottonseed meal 1 3-4 lbs. Initial and final average weights for period: Initial 602.6 lbs; final 656.3 Ibs. Gain 53.7 lbs; Daily gain 1.92

PEN NO. 2 15 head calves, for fourth period. Feb. 27 to March 26, inclusive. Amount of feed consumed by each: Sumac fodder, 10 lbs.; cottonseed meal 1 3-4 lbs.; ground mile heads 10 lbs. Initial and final average weights for period. Initial 575.2 lbs; final 619.5 lbs. Gain 44.3 lbs; daily gain 1.58 lbs.

PE NNO. 3-15 head calves fourth period Feb. 27 to March 26, inclu-Amount of feed consumed by Cottonseed hulls 10 lbs; ground mile heads 10 lbs, cottonseed meal 1 3-4 lbs. Initial and final average weights for period: Initial 559.7 lbs; final 599.6 lbs. Gain 39.9 lbs; daily gain 1.42 lbs.

These calves will be kept on feed for a period of one hundred and eighty days.

They will be on feed sixty days longer. The last few weeks of feeding will do more to increase the market value of these steers than do the first few weeks. The cattle must be well finished to bring the highest

Immunity For "Glorious Larceny"

We need a new classification in the criminal code. If a man steals five dollars it is petit larceny. If he steals one hundred dollars it is grand larceny. Seemingly, however, if he steals one or two hundred million dollars it is glorious larceny and we have no classification for that. The government goes to enormous expense and clutters up the issue for years upon years before anyone faces the bar of justice, when a vivantic theft is alleged. Steal a loaf of bread and you are up the river in two days. Steal hundreds of millions and you can travel the ocean of easy life for the rest of your days without disturbance.

The present operations in Washington in relation to the oil situation present a spectacle calculated to produce more hel-hevism than any insideous propaganda that could posbe conducted by the reds either in the open or secretly. the charges, and graver disclosures are twisted into politi-. each man scrambling for position, each man trying spiralize the situation for himself or for his party until performance has become disgusting. The issue has been to sight. Everyone is heating the tom tom to lead the and down a dozen side lanes.

the country has been told that the United States governhas been robbed of property worth \$200,000,000, and the robbery was made possible by the connivance of we can ble officials and the bribery of others. If these be in -, then there is a plain, straightforward American course that can be pursued. Under the present system of probe in side probe, charge and counter-charge, the issues will ding along for years; so long, in fact, that the public with is short memory will have forgotten all about the matter.

If the government in Washington does not know how to approach the problem, let the readers of this newspaper write to the President and ask him to call a Special Federal Grand Jury. Ask him to have the evidence placed before that Grand Jury and indictments obtained. Then the issue can be tried in a prompt and orderly manner and the atmosphere cleared at once. Doheny, Sinclair, Fall and anyone else charged so openly with looting the American domain surely will welcome such a course if as innocent as they insist, and if they are not, then the sooner they are brought to book the better.

The Michigan Supreme Court did well to uphold the right of the State Normal School to expel one of its girl pupils for smoking cig-arettes. Unless we watch ourselves some high school girl will battle for her right to carry a flask on the hip.

It has been suggested that the new campaign song will be entitled "Should Oiled Acquaintance Be Forgot.

"Yours is a fine country," said the Scotchman to the Australian,
"I hear ye ha'e a great many Scotch over there." "Aye," replied
the Australian, "but our chief trouble is with the rabbits."

A chinese artist with quite a reputation when he was asked recently by one of New York's wealthy men to do a picture of his daughter in oil, said, "No. Me artist, not politician."

Old Thomas Trett would stew and fret, and toil and crave and He wouldn't stop if he should drop but said he'd rest tomorrow! Folks said he never went to bed-so hard he pined fer riches. He wasted time an' called it crime by puttin' on his breeches! He fed the stock an' watched the clock

he put up hay on Sunday. . . . "The world is mine." he would opine and every day was Monday. The neigh-bors guessed he'd have to rest if sickness overtook him—but. neither health nor sordid wealth neglected or forsbok him Some called it pluck, and others, luck—but all pronounced it slavin' because his life was endless strife of garnerin and savin' ... One eventide he up and died-which left us steeped in sorrow. . . Above his head, a tablet read, that he would rest tomorrow! it's so, though we dunno-he's too fur gone to foller-though some surmise he'd farm skies if he could make a dol-

The trouble seems to be that the man who raises the wheat makes a smaller profit than the man who raises the flour.

The people of the United States pay more than thirty million dollars a year for their pencils, but very few (of the people) ever make their mark in the world.

The fake stock salesmen know that man is the only animal that can be skinned alive more than once.

Cockleburrs Kill Pigs

Fields infested with cockleburrs should not be used for grazing pigs in the spring when the cockleburrs are sprouting, advises A. L. Ward, Swine Husbandman Extension Service, A. and M. College of Texas.

The most dangerous time is just as the cockleburr plant pushes up through the surface of the soil. The pigs like these young sprouts, which contains a poisonous substance which results fatally if eaten in sufficient quantities. Experiments have proven that 12 ounces of these sprouts contain sufficient poison to kill a 50pound shoat. Death usually results quickly, somewhat like sorghum poisoning of cattle.

When pigs are first affected the entire bunch should be removed to a dry lot for a short time, where they should be given whole milk, grease or lard. The surest preventative is to keep pigs from fields infested with burrs until the plants reach a height of 4 to 6 inches. The plants at this stage lose the poisonous pro-

inches deep. Curled hair filling.

in the costliest car we make.

of its price.

All-steel body.

Attractive cowl lights. Quick-action cowl ventilator.

Perfect motor balance. The supreme car of its class.

Non-skid cord tires.

STUDEBAKER is the world's largest maker of quality cars. Our assets are \$90,000,000. We have \$50,000,000 in model plants.

Our sales have almost trebled in three years, because of our matchless values. Last year, 145,167 people paid \$201,-000,000 for Studebaker cars.

Come and learn why

Come and see, before you buy a car, the reasons for this success. See this Light-Six Touring
Car, for instance.

Built of the finest steels. Of the very same steels we use in the cost-liest of our cars. On some we pay makers 15% premium to get just the quality specified.

Built under an engineering de-partment which costs us \$500,000

Each car subjected in the build-ing to 32,000 separate inspections. Same steels, same workmanship as in the costliest Studebaker

Two great features

There are many features in this Light-Six found in no rival car. But we want to mention two in par-

The motor is perfectly balanced. That means long life and freedom from vibration.

The reason is this: We machine all surfaces of our crankshafts and connecting rods by 61 operations. Just as was done in Liberty Airplane

Motors. This is done in no other car at our prices. Then we use more Timken bearings in this car than are used in any competitive car within \$1,500 of our price. And Timken bearings take up wear as no other bearings do.

Why this price?

This Light-Six Touring Car is priced at \$1,045. Built under ordinary conditions such a car would cost you from \$200 to \$400 more.

But we build 150,000 cars per year.
We make our own parts. We build
our own bodies in \$10,000,000 body
plants. We have 12,500 up-to-date
machines. Our major costs are divided by enormous output.

The result is a value no other maker even tries to match in a fine car of this size. Come see what it means to you.

Send for the Book

Mail us the coupon below. We will send you free our new book that will inform you on five simple things which reveal the value of a car. For-

It will enable you to look at any car and tell whether it's been cheap-ened to meet a price or offers true quality.

It will tell you why some cars rattle at 20,000 miles and others don't. It shows one single point in a closed car which measures whether you're getting top or medium quality. The book is free. Clip the cou-

T. W. Davidson appears to have pitched his campaign solely upon the anti-Klan proposition, while Lynch Davidson, equally strong in his opposition to the Klan, has made "more business in government and less government in business" the dominant plank in his platform. "Governor's Travels" have placed T. W. in position, as acting Governor, to do some flag-waving for himself. And he has exploited his opportunities for about all they were worth. In fact, he went so far in his flogging-investigaton pursuits during Neff's absence from the state, as to evoke the appellation of "T. Walton Davidson" among some of the boys-alluding to the radical whillom governor of Oklahoma_Jack Walton. This title appears to be about the only tangible accomplishment of T. W.'s flogging investigations save of course. the newspaper notoriety. Since the conferring of the title we have heard little more of investigations by him as acting governor, and the last time Neff left the state he was too busy to even take over the governorship reins.

It is pretty generally agreed that the continuance of both Davidsons in the race greatly jeopardizes the election chances of either. For that reason, it is known, numerous friends among T. W.'s own profession are urging him to withdraw from the race, and there is increasing prediction of his withdrawal in favor of Lynch Davidson. This is the logical thing, they say, for several reasons. One, that Lynch was the first to announce his intertion of being a candidate for Governor in 1924, he having voluntarily retired as Lieutenant Governor in 1922 for that avowed purpose, and having materia'ly assisted T. W. in his race to suc ceed Lynch for Lieutenant Governor, both with actual campaign work and with the prestige of the name David-

"What are we going to have for dinner!"

Every housewife and mother knows the difficulty of varying the dinner menu from the day after day feeds that become so tiresome and monotonous.

Here is an easy solution of this problem: A casual call on your next trip downtown; a ring on the telephone to No. 145and the wide range of wholesome, healthful foods in our stock brings you a limitless variety of appetising dishes for your table.

"Joe Likes Steak!"

Every man does and at this season of the year, smothered in onions to a temptingly tender brown it is the most healthful food morsel you can place before him. Heed these words, Mrs. Housewife and give him a spring tonic he will relish.

HOW ABOUT A SWIMMING POOL?

Y. M. C. A. to Foster Movement to Secure One for Big Spring

One of the most obviously missing things in the way of civic necessities in Big Spring at the present time is a natatorium. This is readily seen from the use which is made of every tank, lake and mud-hole during the swimming season as a place in which to take a dip. Scarcity of any really good places in which to swim, has deprived the citizens of this town of the benefits of this most healthful exercise for a long time, and it is just about time that some concerted movement on the part of the citizen hip of this community be made to remedy the situation.

Up to the present time no individual has seen fit to put in a really good swimming pool one that can accommodate all the people, and yet be kept in the proper sanitary conditions, although such an investment rould not but prove most profitable. Those who have been interested in building a really good pool generally have risen to the heights of enthuiasm during the summer months, and declare an intention to install a poot land is becoming evident from the by "next season," and then, as soon as the weather has become too coof for a comfortable plunge, turn their attention to some other thing.

The Y. M. C. A. in its capacity of being an institution to serve the needs of the community stands ready to foster a movement to put in a swimming pool to be ready for use this summer if sufficient publicspirited people evince an interest in numbers of homebuilders as good the project. A swimming pool which would be avallable to use by less per acre than is being demanded the women as well as the men, sub- in the Plains section. Five-acre Cotton Production Contest

The Dallas Morning News and Semi-Weekly Farms News in cooperation with the Extension Service of Texas A. & M. College and U. S. Dept. of Agriculture will this year Ever have a "low-down" pain in conduct a Five Acre Cotton Production Contest, A grand prize of \$1,000 is offered and in addition local and district prizes will be arranged for.

Cotton raised under irrigation will not be admitted to the contest. Only "I had heavy, bearing-down pains in my back and was all tired out I ture is to be received by the cotton competing.

This campaign is for the purpose of encouraging the intensive cultiso I started using them and I got vation and production of cotton. Good farming land is every day becoming scarcer and therefore higher in price. To be able to get greater yields and better quality from a much smaller acreage means more money for less land and labor.

A number of Howard County farmers should enter this contest. Just think what it would mean to you and your county if you should win the grand prize. It would not hurt our county for you to win a district grand prize.

We have a fine cotton county, so it just depends on whether you are city enroute to the Plains section- willing to go to a little extra trouble.

Let's notify The News that we are going to organize a local Five Acre Cotton Contest whose members are eligible to enter competition.

The Baptist ladies announced a fine supper to be given at the Bap tist Church Friday night. Let's all be there.

The Presbyterian ladies had their out the annual reports and sent off the donation to the different benevolences. Sixty dollars was sent, leaving a small margin to the Auxiliary's

credit at the bank. NEW OFFICERS WERE ELECT-ED_The junior members of the C. E. report a delightful hour in the home of Mr. and Mrs. Houston Crocker Friday evening. The C. E. had a most excellent program Sunday evening. Every one who was on the program was present and responded. It was Putman Cramer's circle who rendered the program, save Mrs. Frank Logan whom Louise Graham, the other captain, loaned for a solo. The solo was in accord with the lesson of the evening; well rendered, and enjoyed by everyone present, and the house was comfortably filled. Mrs. Logan's songs aralways inspire her hearers to a greater effort to live on a higher plane or Christianity

After the program some business matters were discussed and it was the plan of paying dues. A collection was taken, enough was put to the plate to finish paying the Pecos trip. The two pendants received in Pecos were placed on the wall one received for attendance, and one for being second to get the registration money, in the convention treasury

SAME HENS--Fed Differently

Ordinary chicken feed will make a good hen lay two eggs a week. PURINA will make the same hen lay four eggs a week, so don't ask for chicken feed. Demand PURINA CHICKEN CHOWDER and PURINA HEN CHOW in checkerboard bags. Please do not feed Chowder without Hen Chow or Hen Chow without Chowder-to do so upsets the scientific balance and loses you extra eggs. Feed as directed on the instructions with each bag and get more eggs.

BIG SPRING HERALD BY JORDAN & HAYDEN

\$2.00 A YEAR IN COUNTY \$2.50 A YEAR OUTSIDE COUNTY

Entered as second class matter at the Postoffice, Big Spring, Texas, under Act of Congress, Mar. 8, 1897.

Big Spring, Friday, April 4, 1924,

To Attend Citizen's Military Camp.

Fort Sam Houston, Texas,....The commanding General, Eighth Corps Area, has approved the application of Reginald Harris Castle of Knott, Texas, for admittance to the Citizen's Military Training Camp for 1924. Mr. Castle will be privileged to attend the C. M. T. C. Camp to be held at Fort Sill, Oklahoma, during the month of August, all his expenses being paid by the Government

It is hoped to have a large number of young men from Howard County at Fort Sill this summer and applications should be made without delay ring days of 1912, when Theodore to the C. M. T. C. Officer, Fort Sam Roosevelt and his Bull Moosers threw Houston, Texas,

LaFollette in North Dakota and Mc-Adoo in Georgia Give Both Republicans and Democrats "Much Fat to Chew."

Written Specially for The Herald. By W. H. CLAGETT (Through Autocaster Service)

showed he was still very mu the race for the Democratic dential nomination, by an whelming defeat of Senator U wood in the Georgia prefer primary.

Washington .- No matter to what his opponents attribute the causes, the sweeping victory of William Gibbs McAdoo over Senator Oscar Underwood in the Georgia primaries has greatly revived hopes of his supporters and added a perceptable impetus to his campaign for the Democratic Presidential nomination.

Until mentioned in connection with the oil investigation, it was freely admitted by all factions of the party that the candidate who beat the former Secretary of Treasury would unquestionably receive the nomination. This sentiment was pronounced even among his avowed enemies, at the meeting of the Democratic National Committeemen here in January, and while there were those who openry boasted he would never muster the necessary two-thirds majority, the candidate himself and all of his associates seemed sublimely confident of ultimate success.

Then came announcement by E. L. Doheny that Mr. McAdoo was one of his counsel, the hurried trip of the candidate to Washington to disclaim any knowledge of the alleged oil irregularities, his severing of connections with Doheny and the hurried gathering of all McAdoo leaders at Chicago, where a "clean bill of health" was given the candidate and he was importuned to continue in the

While in no way curtailing their campaign plans, from the time of Mr. McAdoo's appearance before the Senate Committee until the results of the Georgia primaries were announced, the candidate and his managers "rested on their oars" as it were, but now that they feel a thorough vindication has been attained a spirited fight in all sections of the country may be looked for from now until the convention in June.

Many McAdoo admirers, especially in the South, feel that the death of President Wilson, his father-in-law, has helped his candidacy immeasurably, and in all recent speeches the candidate himself has referred to the dead executive at every available

White House Hope

Senator La Follette of Wisconsin, Progressive Republican, whose sensational showing of strength in the sational showing of atrength in the North Dakota primary has the whole country talking He ran second to President Coolidge and ahead of Hiram Johnson despite the fact that his name was not on the ballo, but had to be written in or placed on a sticker.

Washington .- Not since the stir a monkey-wrench into the G. O. P. works, have Republican leaders been PAIR O' SURPRISES so nonplussed at the trend of affairs as now.

The remarkable showing of Senator Robert M. La Follettte in the North Dakota primaries, when by means of a last-minute distribution of stickers, his supporters rallied sufficiently to give the old-time party adherents the scare of their lives, is still the chief topic of conversation here in Washington,

That the Wisconsin's old war horse has a strong following in certain sections of the country, especially the Northwest, where the Farmer Labor vote is most marked, is conceded by those in gharge of the Coolidge campaign. In fact, standpat leaders fear La Follette and the prospect of a third-party movement more than any embarassment threatened by Hiram Johnson.

Enthusiastic support from Senators Brookhart, Mangus Johnson, Shipstead and others will be, it is said, at the disposal of the Badger State Legislator for the asking, and the farther the Senate Committees' investigations go the greater seems to be clamor of La Follette followers for a third-party "Moses" to lead them out of the wilderness.

True, Senator La Follette's recent illness has been a source of great concern to his admirers. He is not in various lines of business activ well man by any means, and whether he could stand the strain of a strenuous Presidential campaign. would surely be the case should a third party materialize, is problematical. His fighting proclivities are well known, however, and nothing short of a complete break-down would possibly deter him, once he felt the call for his leadership was imperative.

Senator La Follette is serving his fourth term in the Senate. He is sixty-nine years old, and until his recent illness has always been noted for his rugged constitution and indomitable spirit.

GROWTH OF HOSTILITY TO-WARD THE RAILROADS

By WALTER SPLAWN Railroad Commissioner of Texas

(Continued from last week)

From 1891 to 1922 inclusive there were constructed in Texas 7511 miles of railroad, an average of 235 or about \$14,000,000 per year. This brought the total railway mileage of the state up to about 16,000 miles.

Thus far we have been tracing the Bank Building. development of railroad mileage in Texas. We have noticed the extent to which state aid was supplied the railroads and the eagerness with

thought that competition would be sufficient to regulate railroads and assure fair rates and adequate service, just as competition is relied upon During the past forty years the railroads of the country have been definitely brought under the close regulation of state and federal governments. We can understand this only after an inquiry into the causes of a change in the attitude of the public toward the carriers. This change amounted to a hostility toward the old method of management without regulation. In these articles we will speak of hostility toward the railroads; meaning by that phrase, hos-

to be objectionable and which were attributed to lack of public regula-The growth in Texas of hostility toward the railroads may not be explained apart from conditions which prevailed in other parts of the United States. It is both southern and western. Before the Civil War the development of Texas was an extension of the Old South. After the Civil War the development has been much that of a western state. Texas has developed intimate and important commercial relations with both the Middle West and the Atlantic seaboard. The industrial disturbances and upheavals in public opinion which took place in the north and west during the first twenty-five years after the Civil War greatly affected the thinking and conclusions of the people of Texas. Let us now inquire how this came about. While the facts

Urges Texas to Fatten Steers

A St. Louis manufacturer in addressing a convention of feed dealers at Fort Worth recently, stated: "that no section of the country needs more to have the doctrine of diversification preached among farmers than does Texas." He added:

"Iowa and Illinois farmers are getting rich off of Texas because less than the market, shipping them back home where they are fed on Ask your dealer for Sauk Rapids fattening foods and then selling them Shades, If they do not carry them at a premium above the market as extra fancy Western beef. That money really belongs to Texas since Texas folks can fatten these steers

Perhaps the feeding experimental work now being carried out at the U. S. Experiment Station at Big Spring will be instrumental in encouraging some of our cattlemen to finish their cattle before sending

LET LION ROAR VIA RADIO THE LAST SILVER THREAD. THREE KINDS OF WEALTH. LET THEM DANCE.

Here is a new radio idea. British broadcasters will install a microphone and very small transmitter in some wild wood, frequented by nightingales, and the wonderful bird "not born for death" will be heard all over England.

Suggestion for American broadcasters. Instead of a bed-time story. let youngsters hear the lion roaring. elephant trumpeting, hyena laughing and baboon yelling from the zoo. It could be arranged by adjusting the feeding hours. Every boy would like it, especially the lion's roar.

"I'll fight no more," says Firpo, giant of the Pampas, "after this one fight with Reich."

The Argentine giant means to live his own life and leave the atmosphere of the prize ring, which does not please him. He even refuses the possibility of making half a million by one more fight in the United

The Secret Fear

In the black recesses of every mind is the secret fear that the day will come through accident, breakdown, or illness the ability to earn a living will be gone isn't often any of us bring out this fear for a close inspection and mastery but it ists nevertheless and no better time than NOW will ever be available.

The defeat of this fear is easy. It requires only strength of will to hush fear fer time. A systematic plan of saving-regularly putting aside a portion of what you -is the way. Then later maybe an investment in first mortgage bonds-a guara investment.
