

**FROM THE  
HOPPER**

BY HOP JR.

That was pretty much of a grade B circus that came to town a few weeks back, but I'm not poking fun at it. For all the difference it made to my boys it could have just as well been Barnum & Bailey's biggest and best.

The wife was cooped up home taking in election returns that night, so it fell my lot to take the youngsters down to see what the circus had in store. It shouldn't be necessary to say that excitement ran pretty high that evening among the Graham boys and I thought to myself that it was both humorous and pathetic that they should be so keyed up for what looked to me to be such a tame event.

The really big time circus days are over, I guess. At least I read that in all the papers some time last year and I guess it is so. Anyway, the small-time outfits are still out on the circuits and this was one of them. I didn't pay any attention to the name of the show, and I guess it made little difference. It appeared to be pretty much of a family affair.

The big top had rents in it that the cold southeast wind whistled through. It was a two-ring circus only there weren't any rings. The way you could tell the reserved seats from the regular admission seats was by a boy leaning against a pole who directed you to the proper section and you trooped in.

The portable power plant was having trouble putting out the watts and the arena was dimly lit. There wasn't any sawdust on the ground and the paint on the poles was peeling.

There were murmurs through the crowd that the whole thing might collapse on the heads of the spectators. A few timid souls kept wary eyes on avenues of escape as the canvas heaved in the stiff evening breeze and the poles creaked and swayed.

The Grahams were the first ones into the tent. We perched in the middle of the "reserved" section and it was several minutes before anyone else entered. It turned out that when they announced the show would begin at 7 they were thinking about New Mexico time. As it developed, the show was ten minutes late starting, so we sat there like chickens on a roost for an hour and ten minutes before things got underway.

For a good while I began to feel that we were the only ones who were buying the reserve tickets (I'm always a sucker) but in time a family or two joined us in the luxury section and that it worked sort of like decoys work for ducks. Several came in on regular tickets, took one look at where the elite in the town were sitting, and went back to pay the 30-cent bonus to make the grade.

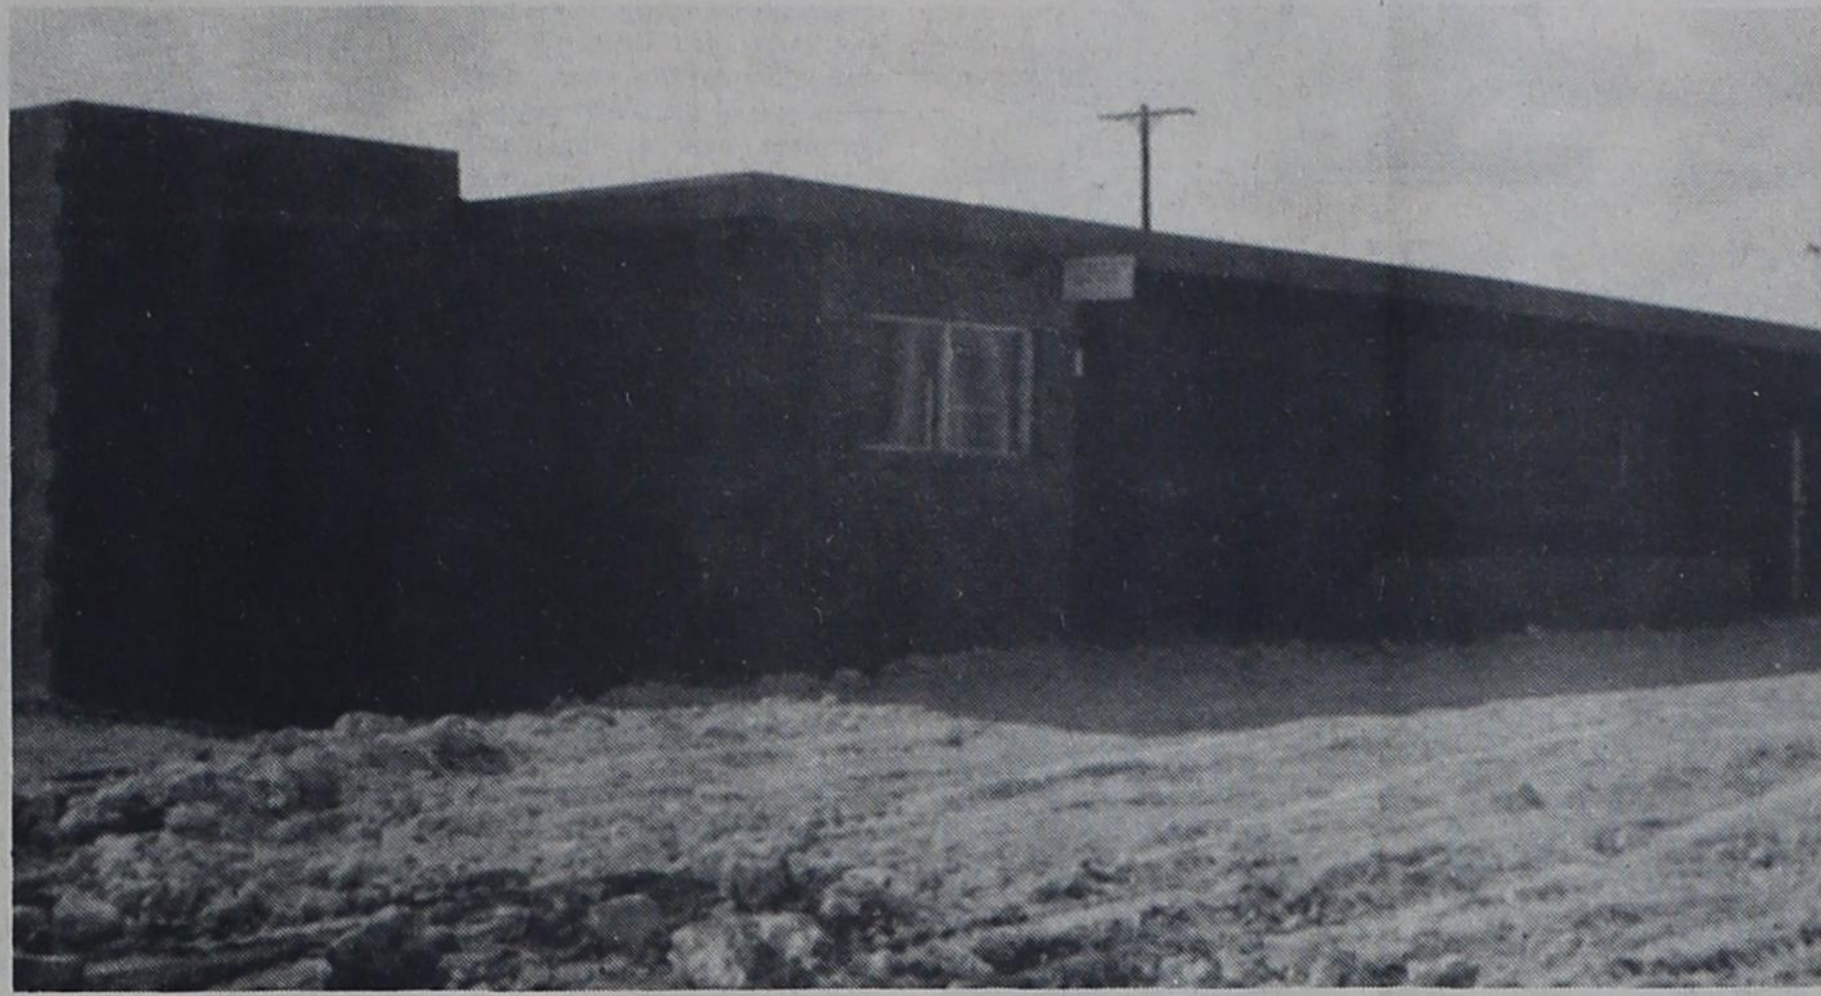

I don't know what kind of people it takes to run a circus like this but they all fit into the same classification. I believe I could pick one out of a crowd as being the "type." My notion of the type is about like this:

Dark complexion. Seemingly inappropriate clothing (sandals in all that dirt... mack-inaws with the sun streaming down... a scarf or choker). A cigarette in the mouth-always. Dirty fingernails. Heavy makeup on the women. The men in need of haircuts. Often physical impediments, like a short leg, a larynx-less throat, or missing fingers.

All of this over against a generally dingy, well-used list of equipment gives me a concrete conception of the type. There were some cracks from the crowd about the "high" trapeeze, the big brass band (a scratchy record player with a bellowing loudspeaker), and the adjectives used in the billings, but for the most part everybody who was there had come to enjoy themselves and they didn't let this dampen their spirits.

It surprised me how many finally drug in to see the performance. They turned up with pretty good group of spectators, I thought, considering everything. I won't say they made any money but they had more out for their show than I thought they would.

It seemed like most everybody here was sympathetic with the couple's efforts and responded well. We even all pretended to be taken in by the Barker's pitch on the boxes of candy. I doubt if anyone really expected to win a "gen-u-wine"

NEW HOME of the Parmer County ASC office is this brick veneer and concrete block building on 9th Street in Farwell. Equipment was moved to the building on Saturday and the office was open for business on Tuesday. Open house is planned by

ASC office personnel all day Monday, June 18, says Prentice Mills, office manager. Coffee and soft drinks will be served and the public is invited.

**ASC Office Plans Open House At New Quarters In Farwell**

The public is cordially invited to open house at the new quarters of the ASC office on 9th Street in Farwell all day on Monday, June 18, says Prentice Mills, office manager. Mills says "we are urging everyone, not just the farmers, but everyone, to come by and see our new offices sometime between 9 a. m. and 5 p. m. on Monday."

Coffee and soft drinks will be served to guests. Some 4200 feet of floor space compose the new offices which include eight office rooms, two rest rooms and a kitchenette. Walls are of concrete blocks and are painted pale green. Office personnel was busy Monday setting things to order. ASC offices had been housed in the Carver building on Avenue A, Farwell, since September, 1956, when they moved from

the county courthouse, in the new building after equipment was moved to the loca-

tion Saturday. The office opened for regular business again Tuesday.

**Campaign Begins Salk Institute**

A campaign to help finance the \$15 million Salk Institute Building at San Diego, Calif., is beginning this week in Parmer County, announces Joe W. Jones, county chairman of the National Foundation.

County campaign director Hugh Moseley says that the drive for funds to help in construction of the building will be done by mail. Each family in the county will receive a letter telling about the institute and its purposes. Persons are asked to return whatever amount they wish to donate to Moseley. He says that the mailers will be sent sometime next week.

The city of San Diego has donated the land for the institute which will provide facilities in which many of the world's most eminent scientists will study the elemental processes of life.

Dr. Jonas Salk, who has worked many years toward the elimination of polio, will be director of the institute which is scheduled to open in 1963.

The county chairman stresses the fact that this project is separate and apart from the March of Dimes and that the scientists who will work at the institute will be trying to make fundamental discoveries that will provide the keys to many unsolved disease problems.

The local campaign will end June 30, says Moseley.

**First Wheat To Lariat**

According to reports received by the Tribune last week, recipient of the first load of 1962 wheat in the immediate area was Sherley-Anderson Grain Co. of Lariat.

Their first load of wheat arrived Friday, June 1, and was brought in by E. M. Lowe who farms south of Lariat. The wheat, grown on irrigated land, weighed 56 pounds per bushel, says Asa Smith, elevator manager.

The first load received by Sherley-Anderson-Pitman, Inc., Farwell, was brought in Tuesday, June 5, from West Camp area by Wilbert Kalbas. He received a \$25 premium for having the first load at this elevator. Moisture content was 13.20 and the grain weighed 57.5 per bushel.

Harvest is just getting started good in the Farwell vicinity with most samples having had a fairly high moisture content until this week. Oat and barley harvest is nearing completion in this area.

**Dr. Sieler To Visit Local Methodist**

All officials and members of Hamlin Memorial Methodist Church are invited and urged to attend a get-acquainted covered dish supper honoring Dr. and Mrs. Ralph Sieler Wednesday, June 20, 7 p. m. at the church.

At this time quarterly conference will be held with Dr. Sieler in charge. This will be his first visit to the local church since being assigned to the Clovis District as superintendent. He came here from El Paso where he served the Asbury Church as pastor for the past six years.

**Rotarians Note First Birthday**

Texico-Farwell Rotary Club observed the first anniversary of the presentation of its charter at a regular meeting Wednesday noon at Lebow's Cafe.

Members of the Clovis Rotary Club were in charge of the program.

**Spur Restaurant Opens Thursday**

Texico-Farwell's newest eating establishment, Spur Restaurant, opened for business Thursday morning with Mr. and Mrs. Bradley Black as managers. Owners of the new business are Mr. and Mrs. W. D. Howard Jr., Texico.

The concrete block building will seat 84 diners, with capacity for 48 in the coffee shop and an additional 36 in a private dining room.

Turquoise and walnut are the predominant colors in the decor with touches of coral and antique gold. Table tops and the individually-divided counter top are of walnut-colored Formica. Chairs are of walnut with turquoise upholstery with gold trim. Gold flecked turquoise bamboo curtains cover the spacious windows and turquoise colored concrete blocks in open work design divide the coffee shop and dining room.

Waitresses' caps and aprons will be of coral with white edging.

Modern stainless steel equipment is used in the kitchen area which features a large cooking area and large storeroom.

A wall of walnut paneling which matches the tables is used between the coffee shop and two wash rooms.

A grand opening for the new business will be announced later.

**Texico Precinct Demos To Meet Farwell Has A Friona Telephone**

A meeting of all precinct democrats has been called in Texico, June 26, 8 p.m. (CST) with the meeting to be at the city hall.

The purpose of the meeting is to elect a democratic precinct chairman, precinct chairwoman, a secretary and eight delegates to attend the democratic county convention which is to be held at the Curry County Courthouse in Clovis 7 p.m. (MST) June 29.

Olan Schleuter is the present democratic chairman, with Mrs. Judge Stone serving as chairwoman and Mrs. Juanita Autrey serving as secretary.

Did you know that there is a Friona telephone in Farwell? Well, there is, and it belongs to Aldridge and Aldridge Insurance, placed there for the benefit of their customers.

"The service saves the client more than it does us, but that was the whole point in installing it," says Mary Lee Crume, secretary at the company.

The special line enables the Aldridge company to call anyone in Friona, or in Hub or Parmer exchanges, just as if they were in Friona. And, transversely, anyone in Friona or on

FIFTY-FIRST YEAR

SECTION I

**FFA Boys Attend Convention**

Three Texico FFA boys, accompanied by their instructor James Pierce, were in Albuquerque June 3-7 where they attended the state FFA convention.

The local FFA Chapter received a superior rating on their over all program for the past year. This includes all fields, such as dairy cattle, swine, crops, poultry, farm mechanics and public speaking. The three local boys served on the state convention committee.

Main speaker for the meet was Richard Black who is national secretary of FFA from Arkansas. Topics for discussion were "Public Relations" and "How to Improve the FFA Chapters."

Lynn Doshier, president of the Texico chapter was elected to serve as treasurer of district 4.

Other boys beside Doshier attending the meet were Ronnie Curry and Gary Skaggs.

**Transport Trucking Open for Business**

Open for business this week is the Transport Trucking Company service station on the Clovis highway near the port of entry. Owner of the business is Carl Penn.

The two-story building is 74x28 ft. and has office rooms, sales rooms, storage facilities and rest rooms on the lower floor. Truckers quarters are housed on the top floor with eight bedrooms, two baths and a lounge included in the setup.

**Court Sets Tax Rate For County**

The Parmer County Commissioners' Court, sitting as a board of equalization in their meeting Monday set the tax rate for the county at \$1.25 per \$100 valuation. The tax table below explains individual assessments.

The commissioners accepted a bid from West Texas Equipment Company for a new Number 14 Motor Grader, in the amount of \$23,995, F.O.B., Parmer County. The grader is to be paid for out of Precinct 2 funds.

A bid from Bovina Implement Company was accepted for the purchase of an M-50 tractor, in the amount of \$2,589. The clerk was authorized to issue a warrant for the amount out of the Farm to Market Road and Bridge Fund for Precinct 2.

Minutes of the last meeting were read and approved, and

**Moves to Denton**

Gerald Wilkinson, junior high teacher in the Texico school system has gone to Denton where he will enroll for summer classes at NTSC.

Wilkinson holds a BA degree with a major in history, an MA degree with a major in education and this summers work will be applied toward a PHD in secondary education.

**Stan Herington Has Hip Surgery**

Stanley Herington, 15-month-old son of Mr. and Mrs. Duane Herington of Farwell, underwent open hip surgery at Children's Hospital in Dallas on Monday of this week.

Little Stan was born with no ball on the end of his leg to fit into his hip socket and had worn a cast or brace on his leg much of the time since birth. Surgeons at the Dallas hospital said this was the first time they had ever seen this particular situation, and put a pin into the bone and socket.

Stan will be required to remain in the hospital for about three weeks at which time doctors hope to be able to remove the pin.

The child's father and his maternal grandparents, Mr. and Mrs. Clyde Magness, returned home from Dallas on Wednesday and report that Stan recovered nicely from the operation, but they do not know when he will be able to return home.

**Meeks To Wisconsin**

Leon Meeks of Farwell, an employee of Mountain States Telephone Co. in Clovis, is in Milwaukee, Wis., this week to attend the National Convention of Communication workers.

Meeks serves the Clovis area CWA Union as president.

Shown above is Linda Dowdy, 14-year-old daughter of Mr. and Mrs. A. B. Dowdy, who underwent open-heart surgery three weeks ago. Here she looks through her scrapbook which is filled with get well cards and letters from well wishers. Linda is feeling well and is looking forward to the new school year when she will be able to participate with other children in all sports events and other school activities.

all bills and warrants were approved for payment.

MISS HELEN HARTZOG

## Announce Engagement

Mr. and Mrs. A. L. Hartzog announce the engagement and approaching marriage of their daughter, Helen Arline, to Allen Homer Estlack Jr., son of Mr. and Mrs. Homer Estlack of Clarendon.

Texas Tech and is employed by West Texas Utilities Co. at Clarendon.

### LOCALS

Wedding vows will be exchanged July 28 at four p.m. at Bovina Methodist Church. Friends of the couple are cordially invited. Formal invitations will not be mailed to local residents.

Miss Hartzog is a graduate of Texas Tech and is a teacher in Clarendon school system. Estlack is also a graduate of

Visiting with Mrs. Ruby Dixon and Miss Laura Temple over the weekend were Mr. and Mrs. Harold Dixon and daughters, Pat and Sharon, of Albuquerque. Guests in the home of Mr. and Mrs. Fred Barker Sr., Sunday were Mr. and Mrs. Fred Barker Jr., Pat, Eddie and Johnnie of Friona and Mr. and Mrs. Elmer Langford and Carolyn.

## Lingnau-Beal Wedding Vows Read

In an evening ceremony at St. John's Lutheran Church of Lariat on Saturday, June 2, Miss Evelyn Elizabeth Lingnau of Farwell and Thomas Earl (Tommy) Beal of Clovis were united in marriage. Rev. A. R. Sander, pastor of the church, officiated at the double ring service.

Parents of the bride are Mr. and Mrs. Otto Lingnau of Farwell, and the groom's parents are Mr. and Mrs. Earl Beal of Clovis.

White velvet roping caught on white aisle posts flanked a white kneeling bench entwined with ivy at the center of the altar setting. Seven-branched candelabra with white candles, a large bouquet of white gladioli and daisies, and white hurricane lamps completed the decor. Family pews were marked with white satin bows.

Serving her friend as maid of honor was Miss Kerran Bragg of Dallas. She wore a ballerina length dress of pink organza which featured a scoop neckline and full flared skirt. She carried a colonial arrangement of carnations and pom poms.

Paul Stanford of Ft. Worth was best man and Delbert and Melvin Lingnau, brothers of the bride, were ushers. Candle-lighters were Carolyn and Edwin Lingnau, sister and brother of the bride.

The bride was given in marriage by her father and was dressed in a floor length gown of white pure silk organza over taffeta. The basque bodice was designed with a bateau neckline and short shirred sleeves. Sprays of taffeta appliques were

Mr. And Mrs. Thomas Earl Beal

featured on the bodice front and were repeated in scattered garlands falling to the hemline of the very bouffant skirt. Her elbow-length veil of illusion was trimmed with delicate lace and was attached to a half hat of flowers. She carried a white prayer book topped with a single orchid surrounded by Stephanotis and white streamers.

Mrs. Mike McManigal of Canyon, organist, played traditional wedding selections and accompanied Mrs. Ernest Ramm who sang "Because" and "I Love You Truly."

The bride's mother wore a dress of blue lace with bone colored accessories and a white carnation corsage. Mrs. Beal

wore a beige sheath dress and caramel colored accessories. Her corsage was also of white carnations.

A reception at the parish hall followed the ceremony. A three-tiered wedding cake, topped with a miniature bride and groom and decorated with pink wedding bells, centered the reception table which was covered with white lace over pink. The bride's bouquet completed the table decorations. Crystal appointments were used. Pink punch was served with cake to the guests by Mrs. Joe Don Shockley of Lubbock and Mrs. Wilbert Kalbas of Lariat, aunt of the bride.

For traveling the bride wore a baby blue sheath dress accented with white lace and white accessories. She wore the orchid from her bridal bouquet.

The couple is at home at 858 Scenic Hill Drive, Ft. Worth.

Mrs. Beal is a 1961 graduate of Farwell High School and he was graduated from Clovis High School in 1961. Both attended IBM school in Ft. Worth.

Out-of-town guests for the wedding included Mrs. H. J. Hintz and Mr. and Mrs. Charles Yarbrough and family of Honey Grove, Tex., Mr. and Mrs. Ernest Hintz and Sandra of Groesbeck, Tex., Mr. and Mrs. Herman Gloyna of Kress, Mrs. Emmett Gloyna and children of Amarillo, and Carolina, Alfred and Hubert Lingnau, all of Littlefield.

## Auxiliary Scrapbook Wins First At State

A club scrapbook, prepared by Mrs. Russell Johnson, historian of the Texico Firemen's Auxiliary, won first place in state competition at the state firemen and auxiliary convention last week at Tucumcari.

Mrs. Perry Winkles is president of the local auxiliary which was organized September 14, 1960. This was the first time the group had entered the state contest and their scrapbook was in competition with those from seven other chapters. The book included newspaper clippings and pictures of the club's activities during the year.

The Texico Auxiliary has had a busy first year, having served meals at homes where there was illness or deaths, sponsoring showers for newcomers to town and for a family who lost their home by fire.

The group also sponsored a candidate in the Miss America Pageant, honored women teachers with a "Back-to-school" coffee, sponsored a "Flame Girl" contest, made a quilt and sold tickets on it.

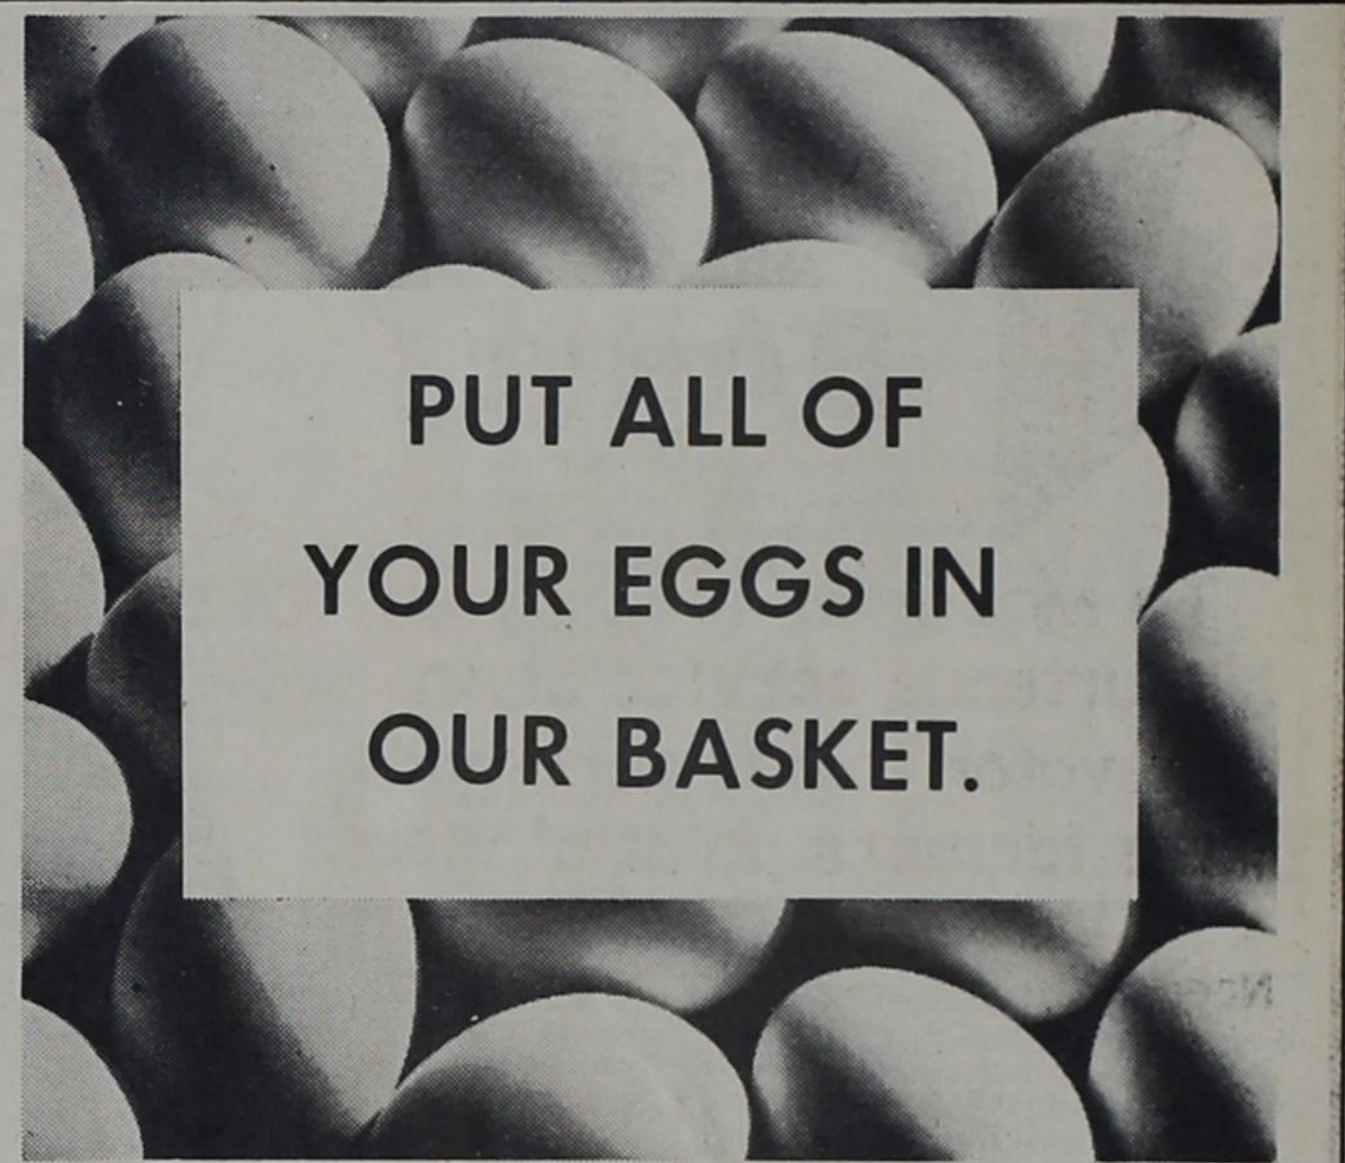

A Spanish boy was adopted at

Mrs. Russell Johnson, left, and Mrs. Perry Winkles, members of Texico Firemen's Auxiliary, look over the club's scrapbook which won first place at the state firemen's and auxiliary convention which was held last weekend in Tucumcari. Mrs. Johnson is historian of the auxiliary and Mrs. Winkles is president.

Christmas time by the Auxiliary ladies and food baskets were taken to two other families at this time. The group has had several suppers for the fire department members and families and special guests.

Attending the convention from the local group were Mr. and Mrs. Perry Winkles and Mr. and Mrs. Otis Huggins of Farwell. Mrs. Huggins is a member of the auxiliary.

## Son Born To Preston Martin

Mr. and Mrs. Preston Martin of Farwell are announcing the birth of their fifth child, a son, Saturday June 9. The young man weighed 9 lb, 6 1/2 oz. at birth and has been named Keith DeWitt.

Grandparents are Mr. and Mrs. W. E. Martin of Farwell and Mr. and Mrs. J. M. Keele of Tishomingo, Okla.

TRUE THEN TRUE NOW

## Ten Things You You Cannot Do.

1. You cannot bring about prosperity by discouraging thrift.
2. You cannot strengthen the weak by weakening the strong.
3. You cannot help strong men by tearing down big men.
4. You cannot help the wage earner by pulling down the wage payer.
5. You cannot further the brotherhood of man by encouraging class hatred.
6. You cannot help the poor by destroying the rich.
7. You cannot establish sound security on borrowed money.
8. You cannot keep out of trouble by spending more than you earn.
9. You cannot build character and courage by taking away man's initiative and independence.
10. You cannot help men permanently by doing for them what they could and should do for themselves.

### Billingtons Tour Eight States

Leaving Farwell May 27 and returning June 10, Mr. and Mrs. Sterlyn Billington, accompanied by their son, Mike, and a nephew, Billie Billington of Texico, toured points of interest in eight states.

Points of interest visited by the group in Arizona were the Painted Desert, Petrified Forest and Grand Canyon.

After shopping briefly in Las Vegas, Nev., where they saw some of the casinos they went on to San Jose, Calif., where they were guests in the home of a sister of Sterlyn Billington.

In California the Billingtons

attended the Southern Baptist Convention in Los Angeles and made the scenic drive down Highway 101 where they saw the Redwood Forest, and stopped briefly at the Golden Gate Bridge.

From here the Billingtons journeyed through Oregon on their way to Seattle where they visited the World's Fair. Of special interest to the local family was the electronically operated monorail which they rode into the fair grounds and the Space Needle which was one of the main attractions at the fair.

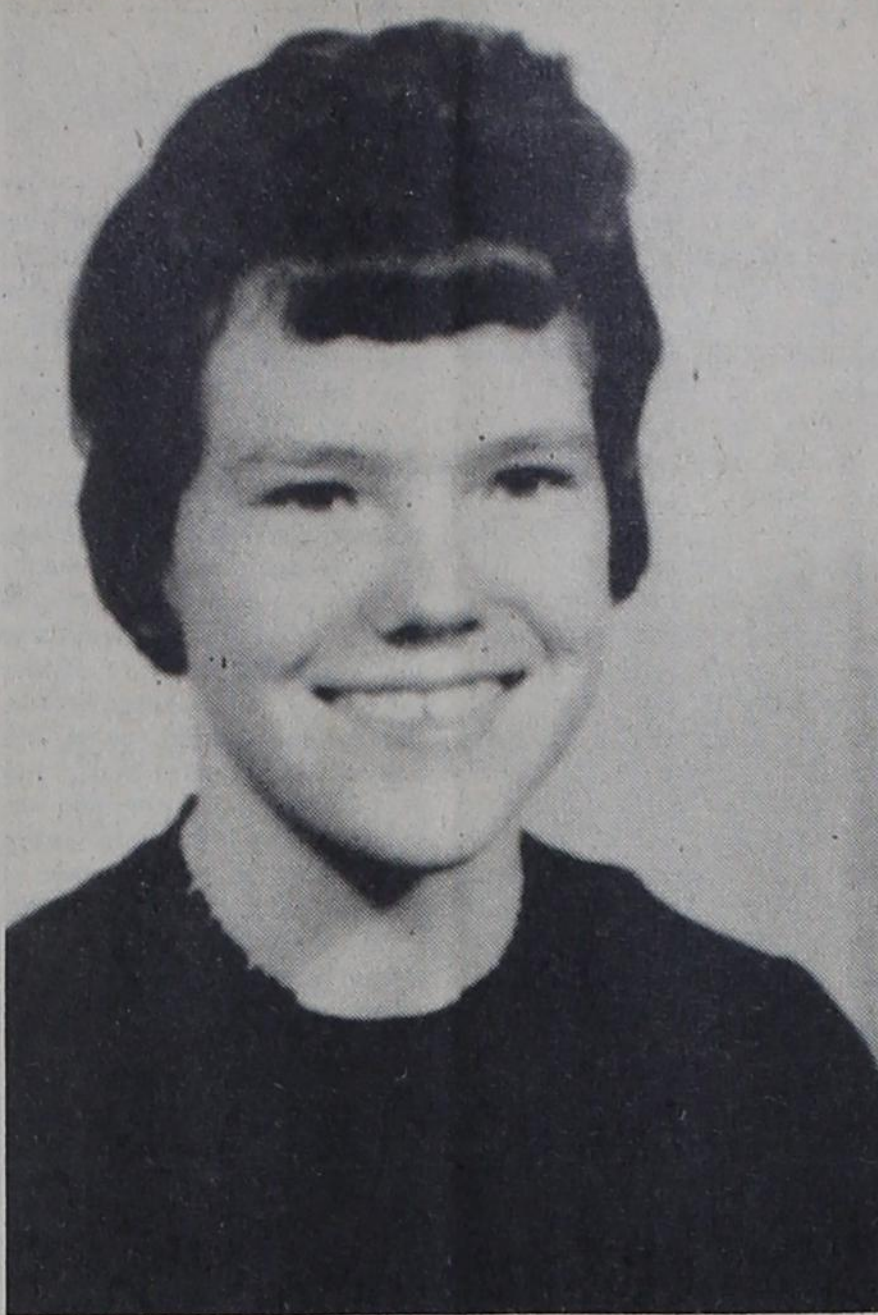

The Billingtons stopped at

Salt Lake City and visited the Mormon Grounds and were taken on a tour of some of the buildings although they were unable to visit the Mormon Temple.

States visited by the Billingtons were New Mexico, Arizona, California, Oregon, Washington, Nevada, Utah and Colorado.

#### LOCAL

Mr. and Mrs. Billie Joe Craft and family will leave Farwell Saturday for California where they will visit Mr. and Mrs. D. K. Kittrell in Lawndale, Mr. and Mrs. Johnnie Lewis in Hawthorne and Mr. and Mrs. Dan Wilcox in Barstow. They also plan to visit Disneyland.

### Smith-Durham Vows Spoken

The home of Mr. and Mrs. W. E. Smith, Paducah, was the scene of the wedding of their daughter, Shirley, to Bill Durham of Farwell, Sunday, June 10, at 3:30.

Durham is the son of Mr. and Mrs. Cecil Durham of Farwell.

Rev. Jimmy Williams, pastor of the Valley View Baptist Church, officiated at the single ring ceremony before an improvised altar flanked by two baskets of pink gladioli.

Given in marriage by her father, the bride wore a dress of white lace over taffeta with a scooped neckline and short sleeves. A tiara held her shoulder length veil of illusion. She carried a bouquet of pink roses and white carnations.

Patricia Durham of Farwell, sister of the bridegroom, was maid of honor. She wore a dress of pink pima mist featuring a bouffant skirt and sash. She wore a corsage of white carnations.

Durvis Taylor served as best man.

Following the ceremony a reception was held in the home of the bride's parents. A three-

tiered wedding cake centered the reception table which was covered with white lace over pink.

For a wedding trip to Altus, the bride wore a beige sheath dress embroidered with white and a corsage from her bridal bouquet.

The bride is a 1962 graduate of Paducah High School, and Durham attended school in Philadelphia, Miss.

Attending the wedding from Farwell were the bridegroom's parents, Mr. and Mrs. Cecil Durham and Mrs. Doyle Goldsmith, and Johnny, Ken and Junior Durham.

#### LOCALS

Mr. and Mrs. Elmer Langford and Carolyn and Mr. and Mrs. Maurice Clark were guests in the home of Mr. and Mrs. Orris Eshleman for a picnic supper Sunday evening.

Mr. and Mrs. Joe Helton and Hal Ed and Mr. and Mrs. C. B. Stockton and Charlie were at Conchas Lake over the weekend where they enjoyed fishing and water skiing.

**HUKILLS ANNOUNCE ENGAGEMENT OF DAUGHTER**  
Mr. and Mrs. Sam Hukill of Texico are announcing the engagement and approaching marriage of their daughter Mildred Marie, to Ellis Parson, son of Mr. and Mrs. Thomas Parson of Friona. The wedding is set for July 1st, 2:30 p.m. in the Farwell Church of Christ with Minister Don Tarbett officiating. All friends and relatives of the couple are invited to attend the ceremony and the reception which will be held immediately following the ceremony at the Texico Woman's Club building.

### Mrs. Boling Attends State Convention

Mrs. John Boling of Farwell was among the 835 delegates from the 160 Chapters of Delta Kappa Gamma Society who attended the 33rd Alpha state convention in Austin, June 8-10. Mrs. Boling was a delegate from Delta Xi chapter along with Mrs. Melton Richardson of Dimmitt, Miss Della Stagner of Hereford, and Mrs. Merlin Kaul, also of Hereford.

Delta Xi's scrapbook was one of those receiving the highest rating in the state, reports Mrs. Boling.

"Publicity accounts for the greater part of points on which the books are rated, and the State Line Tribune gave us 56 of the required 150 points for superior rating," she says.

Progress reports of the 16 phases of work were given in committee workshop meetings where chapter problems were

presented, considered and solutions offered.

Some of the highlights of the convention, says Mrs. Boling, were the presidents' dinner which featured the grand march of 160 presidents; the founders' dinner which was attended by three of the original 12 founders of the society; the birthday dinner and the giving of scholarships; and the memorial service honoring the 76 members who have died during the year.

The Delta Xi delegates went to Austin on June 7 and returned Sunday night, June 10.

### 24 HOURS A DAY GAS SERVES WEST TEXAS

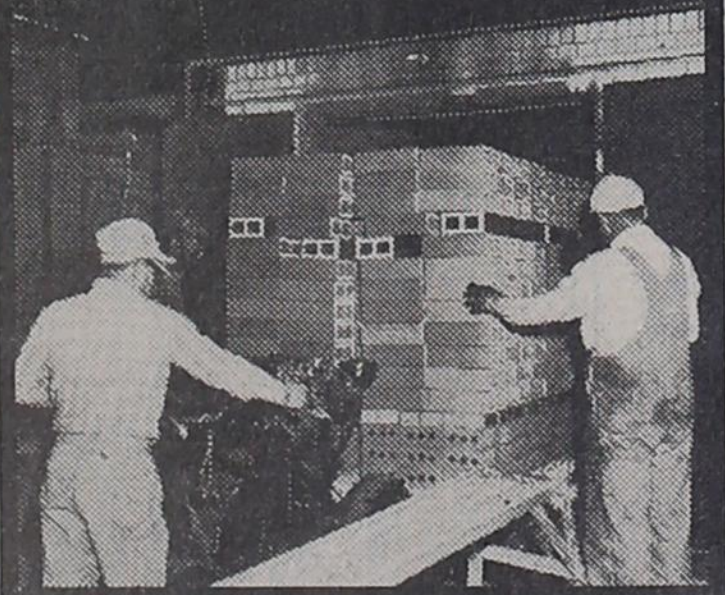

**MAKING SALES.** Year-round gas air conditioning helps maintain a perfect "buying climate" in this downtown store. Customers are comfortable — and displays are spotless, because gas air conditioning cleans as it cools or heats. (And gas does the job at less cost to the merchant than any other fuel.)

**MAKING SURE.** Gas appliances last longer and work better because trained people like this gas man are at your service. The companies that make the appliances help teach Southern Union servicemen how to adjust and repair. You get the benefits of this schooling.

**MAKING SCHOOLS.** It takes tax money to build streets, parks and schools. As an investor-owned, regulated business, Southern Union makes a substantial contribution in local taxes. In addition, the gas company's payroll — plus the money it spends here for supplies — add important dollars to the local economy.

**MAKING BRICKS.** Gas fires the kiln that will bake these bricks. Gas also helps make tile, cement blocks, bathtubs, paint and plate glass. Altogether, industry uses gas more than 25,000 different ways. Gas is vital to industry and a healthy economy.

**SOUTHERN UNION GAS COMPANY**

### Club Members Have Patio Breakfast

Members of Red Bud Garden Club and invited guests were treated to an outdoor breakfast on the patio at the Orris Eshleman home Tuesday morning at 7:30. The menu consisting of ham, eggs, hot biscuits, jellies, jams, butter and coffee was served from the fireplace by Mesdames Orris Eshleman, Maurice Clark and Elmer Langford hostesses.

Members wore original hats made from flowers and shrubs to the breakfast where a hat

show was staged with Mrs. Loyd Potter winning first prize on her original creation made from an inverted flower pot painted pale green and adorned with ribbons, grapes and topped by a parakeet. Mrs. E. L. Sutton won second and Mrs. B. A. McMillan third on their creations. Roll call was answered with "The hat I remember best."

After the hat show and breakfast members went in a body to Clovis where they were guests of other Clovis Garden clubs on the "Gateway Garden Tour."

Members in attendance were Mesdames Tom Burnett, J. T. Elmore, H. B. Hager, Guy Hockenhull, W. T. Jackman, Oakley McGill, B. A. McMillan, A. E. Milburn, Charles Oliver, J. H. Petty, Loyd Potter, H. C. Rodgers, F. B. Scott, E. L. Sutton, and John Tadlock and Misses Wanda Eshleman, Carolyn Langford and Mrs. Mary Stukart guests.

### Joint Meeting Held By Club Members

Pleasant Hill community club members and 4-H girls club members met in the home of Mrs. Leon Webb, Thursday afternoon with Mesdames Donald Clark and Edwin Fahsholtz in charge of a sewing class for 4-H club members.

Mrs. B. A. Kelley gave an illustrated talk to club members on "Quick tricks from all-purpose mixes and oven-ready biscuits."

This will be the last meeting until the last Thursday in August when a 4-H club achievement day will be held at the community center with Mesdames Byron Burford and Clarence Smith as hostesses.

Attending were Mesdames Barney Kelley, Maurice Clark, Martha Heinz, Donald Clark, Pearl Duncan, Tom Burnett, Mason Neeley, Alvis Clark, Frank Meier, Elmer Langford, Edwin Fahsholtz and Pearl Singleterry club members and Carolyn Langford, Jackie Glennis and Pat Fahsholtz, Marilyn Pounds, Jeanine and Betty Clark 4-H club members and one visitor Mrs. Pounds of Clovis.

### Guyer Home Scene Of Club Meeting

Stitch and Chatter Club members met at the home of Mrs. Mamie Guyer Thursday afternoon. Members enjoyed an afternoon of informal visiting and handwork.

Members voted to send a birthday gift to Mrs. Hulsey, a member who is hospitalized. They also sent her a card and sent cards to other members who are ill.

Vegetable salad and cheese tidbits were served with lemonade to Mesdames Hedwig Gast, Viola Birchfield, Hattie Thomas, James Cox, Kittle Newton and Dora Johnson, members, and one visitor, Mrs. Schlenker of Friona.

## Higher Education Goal Of Most Farwell Grads

By Mike Getz

With the coming of fall not far away, the 1962 graduates of Farwell High School find themselves in a position of having to decide about the future. The plans of the graduates are as varied as the graduates themselves.

Twenty-seven students out of a class of 33 have made plans to further their education by attending college.

West Texas State in Canyon is the favorite choice with 17 graduates to enroll there. Next is Texas Tech with three, Hardin Simmons University with two, Eastern New Mexico University, and New Mexico Military Institute with one each.

Two members of the graduating class plan to attend vocational schools while two plan to work. One graduate plans to farm and one is married.

After personal interviews with the graduates, their plans are:

Zell Billingsley, daughter of Mr. and Mrs. J. W. Billingsley, plans to attend Draughons Business College in Lubbock. Zell has been active in FFA during her four years in high school and has been an officer for the last two. She was a candidate for Miss FHS and was crowned football queen her senior year. Zell has participated in both the junior and senior plays.

Mike Billington plans to attend West Texas State College in Canyon. Mike has been active in sports and FFA during his high school career and has taken part in the junior and senior plays. He is the son of Mr. and Mrs. Sterlyn O. Billington.

Jimmie Cain has received a football scholarship to New Mexico Military Institute at Roswell. He has lettered in football all four years and was named all-district the last two. In his senior year, he was captain and received honorable mention on the all-South Plains team. He is the nephew of Mr. and Mrs. Ray Mears.

Jimmy Clements is planning to attend Texas Tech in Lubbock. Jimmy has lettered in football, basketball, and track. In his junior year, he was a candidate for "most handsome" and "most versatile." He has taken part in the junior play and was a bus driver his senior year. Jimmy is the grandson of Mrs. Willie Lovelace.

Van Crume, son of Mr. and Mrs. Kirt Crume, is to attend West Texas State College in Canyon this fall. Van has been active in FFA, baseball and chorus while attending Farwell High.

Attending West Texas State is the plan of Donald Dale, while at Farwell, he participated in football, basketball, baseball, track and was a member of the FFA. Donald is the son of Mr. and Mrs. R. D. Dale of Oklahoma Lane.

William Dannheim, son of Mr. and Mrs. W. H. Dannheim, plans to get a job next fall. While in high school, he was a member of the FFA and participated in football and track. He received honorable mention on the all-district football team his senior year.

Jolene Donaldson will attend Hardin-Simmons University where she plans to study library science of English. Jolene has been in the National Honor Society for three years and has been an officer for the last two. During her senior year she was basketball manager, office girl, and was named "brainiest girl." She was co-editor of the annual and was in the senior play. Jolene is the daughter of Mr. and Mrs. Sterling Donaldson of Oklahoma Lane.

Patricia Durham plans to study nursing at Texas Woman's University at Denton. While in high school, Patricia was in the National Honor Society, Future Nurses Club and was named class president and class favorite. She is the daughter of Mr. and Mrs. Cecil Durham.

Max Fields is to major in agriculture at West Texas State. Max has been active in football, basketball, student council, and FFA. During his senior year he was named "most versatile" and attended the student council convention. He is the son of Mr. and Mrs. Billy Fields of Oklahoma Lane.

Dickie Gerles, son of Mr. and Mrs. Dick Gerles of Farwell, plans to attend West Texas State where he will major in agriculture. Dickie attended Boys State and during his senior year was class president, an officer in the student council, and was named "most handsome." He also attended the student council convention, was named Mr. FHS, and "biggest flirt."

Mrs. Marcum Chadwick spoke on the nation of Pakistan and Mrs. Bob Dollar described the religious background of the people of Pakistan. Mrs. Bruce Blair showed how a sari is wrapped and worn. Baptist mission work, past and present, was discussed by Mrs. Truitt Hardage.

Members were served refreshments of Pakistani food which is prepared with many spices.

Mike Getz is to attend West Texas State this fall, where he plans to major in journalism. While in high school, he was active in the FFA, played basketball his sophomore year and took part in the junior play. Mike is the son of Mr. and Mrs. John Getz.

Iris Goldsmith will attend Abilene Christian College and plans to become a biology teacher. Iris has been in the National Honor Society for the last three years and has been an officer her junior and senior years. During her senior year, she was on the annual staff, took part in the senior play and was salutatorian of the graduating class. Iris is the daughter of Mr. and Mrs. N. H. Goldsmith.

Roy Hammonds plans to attend Western Electronics Institute in Albuquerque. He has been a member of the FFA for three years and during his senior year, was a member of the library club. Roy is the son of Mr. and Mrs. Bob Hammonds of Oklahoma Lane.

Errol Johnson will attend West Texas State for one or two years and then plans to transfer to Southwestern State College in Oklahoma where he is to study pharmacy. Errol has taken part in all sports and has been a member of the FFA for four years. During his senior year, he was on the annual staff, had a part in the senior play and was named the most outstanding senior of the graduating class. Errol is the son of Mr. and Mrs. Clarence Johnson of Oklahoma Lane.

Marshall Lee plans to attend West Texas State this fall. Marshall has been active in the FFA, band, and was a substitute bus driver and took part in the senior play. He is the son of Mr. and Mrs. W. H. Lee.

David Lindop, son of Mr. and Mrs. Tom Lindop of Farwell, also has plans to attend West Texas State this fall. David has lettered in football, basketball and track during his years at Farwell. He has been named to the all-district football team and received honorable mention on the All-South Plains team. During his senior year, he was named class favorite.

Jerry Lovelace received a football scholarship to Texas Tech where he plans to major in physical education. Jerry was named all-district for four years and received honorable mention on the all-state team during his last three years in football. He was co-captain for three years and was named hardest blocker and tackler his sophomore and junior years. During his senior year, he was named to the All-South Plains team. Jerry is the son of Mr. and Mrs. Charlie Lovelace.

Michael Nelson, son of Mr. and Mrs. Bernard Nelson, plans to attend West Texas State where he will study either accounting or landscape architecture. Michael has been active in FFA all four years in high school and has been an officer for three. He has participated in football, baseball, track and was on the annual staff.

Patricia Durham plans to study nursing at Texas Woman's University at Denton. While in high school, Patricia was in the National Honor Society, Future Nurses Club and was named class president and class favorite. She is the daughter of Mr. and Mrs. Cecil Durham.

Max Fields is to major in agriculture at West Texas State. Max has been active in football, basketball, student council, and FFA. During his senior year he was named "most versatile" and attended the student council convention. He is the son of Mr. and Mrs. Billy Fields of Oklahoma Lane.

Dickie Gerles, son of Mr. and Mrs. Dick Gerles of Farwell, plans to attend West Texas State where he will major in agriculture. Dickie attended Boys State and during his senior year was class president, an officer in the student council, and was named "most handsome." He also attended the student council convention, was named Mr. FHS, and "biggest flirt."

Mrs. Marcum Chadwick spoke on the nation of Pakistan and Mrs. Bob Dollar described the religious background of the people of Pakistan. Mrs. Bruce Blair showed how a sari is wrapped and worn. Baptist mission work, past and present, was discussed by Mrs. Truitt Hardage.

Members were served refreshments of Pakistani food which is prepared with many spices.

Mike Getz is to attend West Texas State this fall, where he plans to major in journalism. While in high school, he was active in the FFA, played basketball his sophomore year and took part in the junior play. Mike is the son of Mr. and Mrs. John Getz.

Members were served refreshments of Pakistani food which is prepared with many spices.

### Mrs. Worthington Is Shower Honoree

Mrs. Gary Worthington (Beverly Kay Reed) was honored with a miscellaneous bridal shower in the home of Mrs. Carla Flok in Texico, Thursday afternoon. Hostesses for the affair were Misses Barbara Bieler, Cheryl and Donna Mills, Joy Reed, Reba Lesly and Mesdames Carla Flok, Ann Carter and Rose Cash.

The bride's chosen colors of gold and white were carried out in room decorations. Misses Joy Reed and Cheryl Mills presided at the serving table which was laid with a white lace cloth over gold and centered with an arrangement of spring flowers. Gold-colored Hawaiian punch and lemon cake were served with nuts and gold-colored mints from crystal appointments.

Unique corsages of small kitchen utensils tied with gold ribbon were presented to the honoree and her mother, Mrs. Harden Reed.

THE STATE OF TEXAS  
TO: J. H. Arline and Mrs. J. H. Arline, A. A. Arline and Mrs. A. A. Arline, J. E. Arline and Mrs. J. E. Arline, and the unknown husband or husbands and wife or wives of J. H. Arline, A. A. Arline, and J. E. Arline, all of whose places of residence is unknown, and if deceased, then their unknown heirs, assigns and devisees and legal representatives, all of whom are un-

known, and all of whose places of residence is unknown, the residences, addresses and whereabouts of each and all of the aforesaid named parties are unknown, and all unknown claimants, are Defendants, A brief statement of the nature of this suit is as follows, to-wit:

Plaintiffs bring this suit in trespass to try title, alleging they are the owners in fee simple of Lots 1, 2 and 3, of Block 38, of the Original Town of Farwell, Farmer County, Texas, as fully shown by plat of said town of record in the Deed Records of Farmer County, Texas, and that on or about the 21st day of May, A. D. 1962, that Defendants entered unlawfully upon said land and premises and ejected Plaintiffs therefrom, and wrongfully withheld possession from said Plaintiffs of said property, as is more fully shown by Plaintiffs' Petition on file in this suit.

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

The officer executing this process shall promptly execute the same according to law and make due return as the law directs.

ISSUED and given under my hand and the seal of said court at office in Farwell, Texas, this 1st day of June, A. D. 1962.

ATTEST: Hugh Moseley, Clerk, District Court, Farmer County, Texas, Published in The State Line Tribune June 8, 15, 22 and 29, 1962.

In a moment, the organist will strike a chord. There will be a sudden hush in the church, then the strains of the wedding march will peal forth and she will take her father's arm and start up the aisle, her measured steps symbolic of the very real hesitation she will be feeling.

She would not be human if she did not hesitate. These steps she is about to take are the most important steps of her life. She is poised on the threshold of another existence in which the pronoun she uses will be "We" and not "I." Soon she will learn to think of another before she thinks of herself. Presently, she will come to know fully the meaning of the word "share."

As she moves forward, she falters for just a second. Then her step becomes sure, her lips curve in a smile. The church through which she walks is dear and beloved to her—and so is the man who stands waiting for her beside the altar. Her marriage, blessed by faith, is beginning where all marriages should begin—in the Church.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

### Miller Assigned To Lowrey AFB

Airman First Class Joe P. Miller of Yakima, Wash., son of Carl L. Miller of Texico and Mrs. Elmo Tipton of Amarillo has been reassigned to the United States Air Force Base Academy, Lowrey AFB, Colo., following his graduation from the USAF course for medical service technicians.

Airman Miller received advanced training in the technical and supervisory skills connected with the immediate care and treatment of patients.

### Paving Work To Begin

Daniels Bros, Construction Co. of Lubbock was moving equipment into Farwell the middle of this week in preparation for the paving project which has been much delayed.

Consultant engineer Ralph Douglas said Wednesday that actual work should begin by the end of the week.

Douglas also stresses that persons who wish to have curb and gutter work done in front

of their property must call the city office by Friday, June 22, 5 p. m. Persons must leave their names at the city office and an official of the construction company will contact them about the work.

The curb and gutter work is to be done by Hodges and Tierney Construction of Lubbock, and since this is all the work they do, they must do it all at the same time, says Douglas.

Douglas says that Daniels Bros. hopes to have the entire project completed within 30 days.

### Hoppers--

wrist watch." But the boys got a thrill out of looking through the box for the prize and didn't seem to mind coming up with trinkets that any variety store will sell for two-for-a-nickel.

The two elephants were real, the two performing girls were pretty good looking, and the dogs were downright smart. I didn't suffer a bit while I took this in, and of course it was strictly big time stuff to the boys.

Years ago when I used to go to the circus the show always closed with an "extra" (that you had to pay extra to get to see). Usually this was where the circus strong man challenged all comers to a free-for all in the ring. I well remember one summer afternoon when John Lee, who is about as tough an old boy as ever came from these parts, stomped down to take on the show toughie and nearly twisted his neck off.

Times have changed, though, and the circus that showed here a fortnight ago offered a challenge fit for the modern day we live in: to compete with their performers in a twist contest, I didn't stay.

Punch and pink birthday cake were served and candies and gum were given as favors to Gwendolyn Rundell, Deborah Harding, Cheryl Boling and also Mrs. Bill Boling, Johnny, Terri and Mike.

**News From LAZBUDDIE**

BY MRS. C. A. WATSON

Linda Gleason, Linda Lesly, Dick Chitwood and Gary Foster, accompanied by Mesdames Gleason and Foster, were in College Station at Texas A & M last week where they presented their demonstration on electricity.

Mrs. J. J. Haun from Aztec is visiting her daughter and family, the Don Schumans. The Schumans, accompanied by Mrs. Haun, visited in Amarillo with Mr. and Mrs. Clinton Haun Friday.

Mr. and Mrs. Harvey Bass, accompanied by Leon Watson, are in Ft. Worth this week where they are attending a singing school sponsored by the Primitive Baptist Church.

Sunday visitors in the J. B. Young home were Mr. and Mrs. H. J. Georan and family of Colorado City and Mr. and Mrs. Jim Robbins and family from Earth.

Cooper Young was in Waco last week where he took a series of tests at Baylor University.

Mr. and Mrs. Arvil Burnett entertained with a barbeque at their home Saturday evening. Attending were Mr. and Mrs. W. R. Burnett and Jan from Plainview, Mr. and Mrs. W. J. Burnett and family and Mr. and Mrs. Kenneth Burnett and family from Cotton Center.

Eugene Houston returned Wednesday from Dickens County where he has been in wheat harvest for the past week.

Mr. and Mrs. Charlie Watson and Mr. and Mrs. P. E. Cargile attended the Bass family reunion in Lubbock Sunday.

David Bradley of Dallas is visiting his grandparents, the A.M. Bradleys, this week.

Mr. and Mrs. Dan Cargile visited their daughter and family, the Dwin Menefees, Sunday.

Commencement exercises for the Vacation Bible School at First Baptist Church was well attended Sunday night.

Birthday greetings to Robert Maddox, Edward Masters, Joseph Finch, Danny Putman, Micky Broyles, Gloria Curtis and Jeanne McGehee.

Guests in the Davis Gulley home Sunday were Mrs. H. C. Tucker from Phoenix, Mr. and Mrs. Eugene Gulley from Truth or Consequences, and Mr. and Mrs. O. G. Gulley from Farwell.

Midway HD Club met in the home of Mrs. Alzada Gulley Tuesday afternoon with Mrs. Lora Brown and Mrs. Gulley presenting a demonstration on accessories for the home.

Orange chiffon cake and coffee were served to ten members and one visitor, Mrs. H. H. Humphrey, of Farwell.

Mrs. J. O. Webb from Malone is visiting with her daughters, Mrs. James Robinson and Mrs. George Crain.

The singing school at the Lazbuddie Church of Christ will continue through Wednesday.

Sister Alice from Graymoor-Garrison, N. Y., is visiting in the homes of her brothers, Joe and Alex Jesko, and her sister, Mrs. Koelzer.

Mr. and Mrs. C. C. Graef attended the Williams reunion in Lubbock Sunday.

Mr. and Mrs. Gene Phillips and children from Clovis visited in the C. C. Graef home Thursday night.

**JOTTIN'S By Jeanne**

The rumor around the neighborhood that we have a new dishwasher is true--he is six years old and is becoming rather proficient, but not so enthusiastic as he was the first week.

Since there are no Graham girls to help me keep ahead of the household tasks, I've learned that boys may grumble more, but they can wash dishes and pick up their own socks--sometimes.

.....

Newest addition to the family is a slightly frightened cottontail rabbit that found its way to our garage. We've fed him with an eyedropper, given him lettuce and the boys have fashioned a bed for him.

When the three-year-old was awakened in the middle of the night, he must have been dreaming. He sat up in bed exclaiming "dat wabbit."

.....

More people are commenting on the unusual weather picture this year. You can certainly tell who the good gardeners are. Since our lawn is pretty sad-looking, I admire anyone who can water and weed and feed so they do have a beautiful lawn this year.

.....

Mrs. Charlie Bieler and Barbara found an old cookbook in their attic last week, and were kind enough to let me keep it for a few days. If a housewife isn't thankful for our modern conveniences, she should read how "Gram-ma" kept things neat in 1900.

We hear many stories from our own grandmothers, but reading the how-to in black and white really makes you realize that ironing may not be fun, but an electric iron makes it more pleasant than heating a flat iron. There are many other reminders in the book, such as regulating the oven for baking.

.....

The Tribune has had some nice comments on the work that Mike Getz is doing. Mike decided only recently that he would like to major in journalism and all of us here in the office have been pleased with the type work he is turning out.

**Uncle Ray's "Hot Air"**

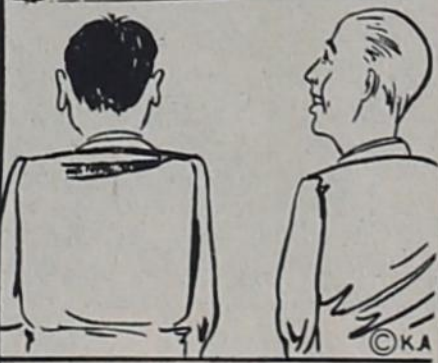

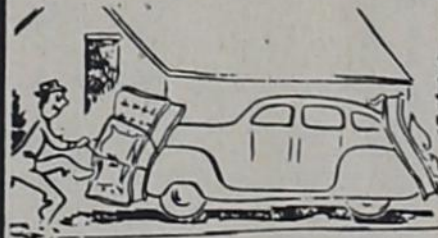

"I was so cold last night I couldn't sleep."  
 "Did your teeth chatter?"  
 "I don't know; we don't sleep together."  
 .....

"Have you been a good little girl since I last saw you? asked the fond uncle of his four-year-old niece.  
 "Oh, yes," she replied, "I've learned to count."  
 "Good," said the uncle. "Let's hear you."  
 "One, two, three, four, five, six, seven, eight, nine, ten, jack, queen, king,"  
 .....

And bargains are trump when you shop at Uncle Rays' big little store.

# Wheat Harvest Gains Momentum In County

HARVEST UNDERWAY. . . Eugene Boggess, who has a dryland wheat field just east of the Friona city limits, was one of the first to get the harvest machinery into the field last week. Boggess averaged about 15 bushels to the acre, with a moisture content of 11.80 and a test weight of 61 pounds per bushel.

County wheat farmers were trying to get the harvest into full swing this week, with interruptions almost nightly in the form of showers, leaving the grain too wet to harvest.

Observers expected the harvest to be well along by the latter part of the week, barring any further delays, with the beginning of the irrigated wheat harvest expected to breakout in full force.

Although the small amount of dryland wheat which has been harvested hinders a close estimate on what the average yields will be, dryland was generally running from 10 to 15 bushels per acre.

With practically no irrigated wheat harvested, estimates on

the yields there are purely guesses so far, but it is thought by some that the yield per acre may not be as good as last year's crop.

The barley harvest likewise is slow, since that crop was also late.

Wheat farmers will have a shot at a 25 cent-per-bushel premium on their crop this year, depending on the sedimentation test.

The Farwell Grain Exchange has been approved to run the tests, and will probably get most of the county business in that respect.

Most elevators plan to run an average on the samples collected, and issue their receipts on the average test.

## WITH THE COUNTY AGENT

DERYL COKER

As a whole we got our cotton crop off to a fairly early start this year, but cotton hasn't done as good as it should. The main reason for this has been the dry hot winds, which have sapped up the moisture, and also most cotton has had sand damage which makes it look bad.

I have been in several fields lately and in all instances I have found disease problems and thrip damage. This disease problem seems to get worse each year. Seedling diseases are caused by a number of seed-borne and soil inhabiting fungi and bacteria. As a general rule these diseases are worse during cool wet spring, but this year they have shown up, even though it has been hot and dry. Our nights have been fairly cool which could have aided these diseases. Terms such as damping-off, sore skin, and seedling blight are used as collective descriptions of the disease.

You can find this disease by digging up the plant and at ground level or just below ground level, you will find a brown ring around the tap root. Most of the plant cells in this ring are dead and thus it is hard for the root system to send the plant food to the leave which causes the plant to grow.

If possible you should check the fields for these diseases and if they are present make plans to move your cotton to another location next year. If a farmer could rotate from a fibrous root system to a taproot, it would be a big help.

There are fungicides that can be mixed with the covering soil which will help in con-

trolling seedling diseases.

Thrip are also hurting cotton, and you should examine it for thrip damage. If you can't see the thrip look for a silvery color on the bottom side of the leaves. The leaves will also have a wrinkled blackened appearance. Thrip can delay plant maturity for a few days up to a few weeks. Thrrips can damage cotton up until it starts squaring.

We have plenty of cotton insect guides available in the office, so come by and pick up one.

I was talking with C. L. Mahaney and he seems to think the cotton that had Di-Syston, the systemic insecticide applied at planting time, was doing considerably better than the cotton where no Di-Syston was applied. He said thrip were present in the cotton with Di-Syston, but did not seem to be hurting it as bad.

A lot of people are watering grain sorghum and cotton to get it to growing. This is well and good if it needs it, but let's all study the water requirements of the plants we grow, and try to water them accordingly.

Accidents in the farm home kill more than 2,700 and injure nearly 400,000 farm residents each year.

## THE HIGH PLAINS FARM AND HOME

### Test Well Planned For Artificial Water Recharging

A new observation well for the artificial groundwater recharge program will soon be added at the High Plains Research Foundation.

James Valliant, Associate Water Engineer, stated the new observation well was being added to better study the effect of recharge upon the underground formation. The well will be used to study ground water movement; the effect of suspended solids in recharge water upon the formation; and the effect of acids and detergents on these solids.

The well will be cased with 6 5/8 x 0.188 inch casing down to the red beds with perforations beginning approximately 19 feet above the static water level. The observation well will be located 200 feet southeast of the recharge well.

Casing for the new observation well was presented to the Foundation by four Lubbock pipe firms.

### Parmer's Rural Accidents Total 12 For Last Month

The Highway Patrol investigated 12 rural accidents in Parmer County during the month of May according to Sergeant W. E. Wells, Patrol Supervisor of this area.

These wrecks accounted for one person killed, seven persons injured and an estimated property damage of \$10,820.00.

The rural traffic accident summary of Parmer County from January through May of 1962 shows a total of 41 crashes. As a result of these crashes there were three persons killed and 21 persons injured. The estimated property damage amounted to \$25,940.00.

Beginning with this month, the Texas Department of Public

Safety lends its support each year to the national "SLOW DOWN AND LIVE" summertime Safety campaign which, as its name indicates, has as its objective the task of emphasizing the need for motorists to control their driving speed. Speed control is vital to Safety, because of the overcrowded condition of the highways caused by thousands of vacation travelers, most of whom are in a big hurry, since vacation time is usually all too short.

The veteran patrol supervisor said, "the hurry attitude frequently steers them into a speeding violation or, worse than that, a serious accident, or even death itself."

# HD Agent's Notes

BY MISS ETTIE MUSIL

Picnic time is here for everyone. Maybe wieners or hotdogs is a family favorite for this special time. Have you noticed the variation in prices of a pound of wieners or hot dogs?

Here is some information for you picnic shoppers. This information was received from Mrs. Gwendolyn Clyatt, Extension Service food marketing specialist. She states that the list of ingredients on the label of wieners will tell you why some are higher priced than others. Ingredients on the label are listed in order and according to the amounts included. For example, ground beef, pork, cereal, dry non-fat milk and soy flour in the order of amounts.

There are some ingredients, other than the meats, that absorb and hold water, thereby increasing the weight. These wieners are lower priced than the all meat ones because they will have larger amounts of these ingredients in relation to the meat content.

The federal meat inspection mark is the shoppers' guarantee that the product is wholesome, suitable for human consumption, and is honestly labeled. The mark is a round purple stamp with the words "U.S. Inspected and Passed" printed within the circle. The stamp also has a code number that identifies the packing house that processed the product.

Compare the cost with the ingredients and the number of

wieners in each package. It's amazing how much the prices compare and vary from area or section of the state with the same brands. Compare wieners with other picnic meats costs and servings.

Last week we were so excited in getting ready to attend the Texas 4-H Roundup in College Station. This is always a special event for everyone who has worked so hard with their method demonstrations making them eligible to attend the state contest.

We left Tuesday morning at 4:00 to make the 532 mile trip to College Station. We arrived at 3:00 p.m. at which time we registered, found our dorm rooms, and unloaded our belongings for the full days. After district meetings at 5:00 we feasted on delicious barbecue paid for by the Texas 4-H Recognition Committee who are people who donate large sums of money for the 4-H program in the state.

After the general assembly and welcoming of the 2700 4-H members, leaders, parents, and friends of 4-H we attended special activities planned for the group. Everyone could select Share-the-Fun Acts, folk games, square dancing, or bowling. Lights were out at 11:00 p.m. for a tired group of boys, girls, and adults.

We were up at 5:00 to be dressed for breakfast at 6:00 a.m. Gary Foster had to meet at 7:00 for his Tractor Operators contest. Linda Lesly and Linda Gleason had to start at 8:00 in their Electric contest.

After the contests we were still a little tense awaiting the results of the demonstrations. Lunch at noon helped us to wait a little longer until all contests were completed. Announcements were made at 3:00 p.m. at which time the three top teams or individuals were revealed.

# 4-H Conducts Foods Show In Hub Community Center

Parmer County 4-H Favorite Foods Show will be held June 19 at 3 p.m. in the Hub Community Center. This is the first show of this kind to be held in the county.

Fifty-three 4-H Club girls in the county are eligible to take part in the show. According to state rules a 4-H member must be enrolled during the current year in a 4-H foods and nutrition subject matter group taught by trained adult leaders.

Each one entering the show will prepare a serving dish containing all of the food made from the recipe used except two servings. One of these servings will be displayed in the "service for one" exhibit and the other will be served to the judges.

Each display may be set up on card tables or tables available in the Community Center. Appropriate table settings of dishes, silver, and linens should be used to exhibit the food. Table decorations of flowers, figurines or ivy should be used for attractive serving of the food.

A recipe for the favorite food should be typed or

Our contestants did not place in the top three, but they gave the others a hard try. Linda and Linda competed with 23 teams and Gary had almost as much competition. I heard several comments that the teams this year were better than ever before. This only means that the competition was extra hard for this year. You don't just get something for nothing.

We are all still proud of the three Parmer County contestants because they were tops to be eligible to attend the state contest. All first place winners were announced at the banquet at 6:00 Wednesday night.

Another special assembly was held for everyone when the officers and directors of the 4-H Recognition Committee were introduced. Then a comedy and musical show entertained the Roundup delegation as sponsored by the 4-H Recognition Committee.

Thursday morning we left College Station at 5:00 for home, arriving at Clay's Corner at 3:00. We were all happy to get back to cool Parmer County and tired. College Station was so hot and sultry during the three days. Mrs. Thrumman Gleason and Nelson Foster took their cars for the long drive.

printed on a three by five standing card and set up as part of the display. Another five by eight inch standing card should have a complete day's menu written that includes the food used.

In addition to the food display each girl will be asked questions about the food they prepared. Record books will count fifty percent of the total score. The display and questions will count the other fifty percent.

Foods will be entered in the four foods groups of milk, vegetables-fruit, meat, and bread-cereal. A high scoring member will be judged in each of the four foods groups whether junior or senior division.

The two highest scoring members in the senior division (14-20 years) in different foods groups will participate in the District 4-H Favorite Foods Show in Amarillo, June 26. High scoring members for the junior division (9-13 years) will be judged the same as for the senior division and will take part in the district show.

According to state rules all contestants will do their own preparation, exhibiting, and cleaning up. Any assistance from agents, leaders or others will disqualify the contestant for judging.

Other 4-H club boys and girls not participating in the Foods Show are invited to attend. Parents, adult leaders, and everyone are all welcome to attend.

## NEWS FROM THE

### FARM BUREAU

BY RAYMOND EULER

We think you ought to appreciate your Farm Bureau President, H. P. Hamilton. He had a boy and a girl getting married Saturday evening, but he spent several hours on the phone and in his pickup Saturday morning for you.

He was urging and getting farmers and businessmen to write letters to their congressman in opposition to the administration farm bill, HF 11222. We are confident that if people actually knew the contents and intents of this bill, Parmer County Post Offices would have handled a record volume of mail in opposition. Since most people are not aware of the significance involved, only those who keep up with legislation, or who are informed briefly by those who do, write or wire.

Many farmers have been misled by the report that the bill that came from the Senate Agricultural Committee was "watered down" and made to appear much less harmful. This was a fact. However, when the Senate considered the bill, it was returned to its original form and intent by amendment, and then passed. It is now, (Tuesday) up for consideration and vote by the House of Representatives. This is the only place it can be killed.

Farm Bureau, State, National and County, is using every means possible to kill it. The permanent Farm Bureau Staff in Washington has worked constantly against it. But it is necessary that many letters from individuals be mailed in to give more strength to the opposition.

Professional political pressures will not sway the vote of a congressman armed with thousands of letters from his constituents at home.

The bill in question has many points more serious than these, but these two are easy to understand; if the bill passes, and

# 4-H Contestants Return From State

Parmer County 4-H Club contestants returned Thursday from Texas 4-H Roundup in College Station. A total of 2700 4-H members, adult leaders, extension agents, parents, and Friends of 4-H attended the annual state contest, June 5-7.

Representing the county were Linda Gleason and Linda Lesly competing with 23 teams in the Electric Awards program. Gary Foster competed in the Tractor Operators program. Earlier in the year they had won in the county and district Method Demonstration contests.

The 4-H Roundup is the highlight of a year's work for the 4-H members. State winners in 27 subject-matter contests were announced at the banquet Wednesday night. Many of these winners will attend 4-H Club Congress in Chicago in November as an all-expense paid trip.

This Roundup was dedicated to Calvin T. Johnson, longtime friend of 4-H and former director of public relations for Sears-Roebuck Foundation. One volume of a resume of his work and seven volumes of appreciation letters were presented to him at the banquet Wednesday night.

The theme of the 1962 Roundup was "Building Upon Our

farmers, in referendum, vote against the provisions, the Secretary of Agriculture will be authorized to dump 200 million bushels of wheat to depress the market you would expect to exist, and 19 million tons of feed grains for the same purpose. We believe you can understand why farmers would vote "yes" in a referendum under these circumstances. And the "yes" vote would give bureaucrats complete control of your farming operations.

If this bill is still under consideration, please express your opinion by telegram to your congressman, Walter Rogers, House Office Building, Washington, D. C.

We are happy to announce that Gilbert Kaltwasser was elected to the Steering Committee of the Cotton Producers Institute. He was one of 119 members of the original founders committee.

CONSIDER THIS: Read a chapter in Proverbs in your Bible.

Heritage," commemorative of the Centennial Anniversary observance of the Land Grant College movement in the United States.

Attending from Parmer County were the three contestants and Richard Chitwood. They were accompanied by Mrs. T. L. Gleason, Nelson Foster and Miss Ettie Musil, County Home Demonstration Agent.

# Two County Men Named To Cotton Producers Board

A 33-man Plains Wide Steering Committee for the Cotton Producers Institute met in Lubbock recently to make decisions and plans for moving the Institute forward during 1962.

The committee, consisting of County Chairmen and other leaders, was appointed by Roy Forkner at the request of the Producer Organizations which initiated the C.P.I. program in West Texas. W. L. Edelman of Friona and Gilbert Kaltwasser of Oklahoma Lane are to represent Farmer County on the Steering Committee.

Mr. Forkner announced that an excellent first year start was made in the western states that initiated the program last year. Well over the one million dollar minimum requirement has been deposited to the C.P.I. escrow account and there will be a program in operation before ginning starts on this crop.

"Total collection this year should reach about \$11/2

million," Mr. Forkner said. A substantial research and promotion program can be started with this volume of money and it's none too soon when we understand accelerated challenge cotton faces from its synthetic competitors. It was pointed out at the meeting that cotton suffered a direct competitive loss of 200,000 bales to rayon during the first three quarters of 1961.

Forkner said, "The Cotton Producers Institute is a must if we are to survive as a major industry in the face of these new competitive threats."

The steering committee spent a great deal of time working out a method for the election of West Texas Trustees to the Institute. Based on the formula of one trustee for each \$150,-

000,00 raised, the Plains is allocated two trustees this year.

The steering committee unanimously agreed to submit a mail ballot to all participating growers to let them select whom they want to represent them at these important posts. The 33 man steering committee nomi-

nated Roy Forkner of Lubbock County and Allen Webb of Castro County for Place 1 on the ballot, and Le Roy Durham of Floyd County and H. L. King of Terry County for Place 2. The participating grower has write in privileges but is asked to vote for one man at each place.

## Tech's 11th Annual Swine Conference Featured July 5-6

The 11th annual Swine Conference will be held on the Texas Tech campus July 5-6. It will feature speakers from Oklahoma State University, Iowa State University and Texas A&M.

Prof. Stanley Anderson, associate professor of animal husbandry at Tech, said the conference will include reports on swine feeding tests run at Texas A&M, a report on research work conducted on atrophis rhinitis and virus pneumonia, and a session on different methods and equipment developed for

swine management programs.

A carcass contest will be open to anyone wishing to bring a hog to the conference so it can be butchered and graded according to the per cent lean cuts it will produce.

Anderson said swine breeders or raisers who wish to enter their animals in the contest should have them at the Tech animal husbandry department during the early morning of July 5 so the animals can be slaughtered and processed for the contest.

## SOIL CONSERVATION DISTRICT NEWS

Soil organic matter is a term that we hear quite often but a term that is not considered seriously enough. We know that it is something that is in the soil and it is a good thing to have but do we know just what does for the soil.

There are many factors that enter into soil fertility and one of the most important is the organic content of the soil.

The organic matter in soils originates from plants, animals and soil micro-organisms. The crop residues, such as wheat stubble, is the main contributing source of organic matter in this part of the country.

The virgin soils of Farmer County contained approximately 3 to 5% of organic matter. Under cultivation this percentage is reduced. The average dryland farm has about 1 percent. The average content of the irrigated land is about 0.7 percent. These figures are considerably lower than the figures for the virgin pasture land.

There are several reasons why organic matter is very important to the soil.

Organic matter present in the soil directly affects the water-holding capacity of the soil. The small fragments of organic matter have the ability to hold up to ten times as much water as a soil particle the same size. Therefore any increase in the organic matter content will increase the amount of water a soil can store. This is extremely valuable to the dryland farmer who depends on water stored in the fall and winter to produce the next crop and to the irrigator who pre-irrigates. Crop production depends on the water stored in the soil.

Organic matter increases the water intake rate of the soil. During the process of decomposition of the organic matter, there is a glue-like substance given off. This substance tends to stick the soil particles together in small clumps called aggregates. A soil that is well aggregated will take water more rapidly than will a soil in poor condition. This is especially true in tighter soils.

To increase the permeability of a soil is helpful in this area where many of the rains fall in a short period of time. A well aggregated soil tends to resist both wind and water erosion. This resistance is due to the fact that several of the smaller particles are stuck together creating a larger aggregate which is not easily moved.

Another important function of organic matter is the increase in bacterial activity. An abundant supply of microscopic bacteria is necessary for plants to be able to use the nitrogen plant food. The bacteria use decaying organic matter for food to supply the energy required to change the nitrogen to a form that plants can use.

Bacteria are also helpful in the plant utilization of phosphates by storing the phosphorus in their bodies to be released all during the growing season. The number of bacteria in the soil is amazing. One gram of soil contains from 100,000 to several billion. This means that there are approximately 5,000 pounds per acre on dryland and 20,000 pounds or more per acre on irrigated land. Without these bacteria working for us our soils would be infertile. Any way that we can increase the food supply of these bacteria will increase the fertility.

The most economical way

## County ASC Moves Into New Office

Farmer County ASC moved into a new location this week in Farwell, at 114 9th St., a block south of the Sherley-Anderson-Pitman Elevator.

The official opening for the office will be Monday, June 18. "We invite the public to come see our new office, and have refreshments during the day" said Prentice Mills, office manager of the ASC.

Coffee and soft drinks will be served during office hours Monday, from 8 a.m. to 5 p.m.

The new office contains about twice the floor space as the old office had, Mills said. The ASC previously required two buildings in order to house its records.

"Our office is much better arranged now, and we have a better parking area," said Mills. "We hope to be able to give much better service to the farmer," he added.

Something which should be noted is the new telephone number of the county ASC office, which is 481-3311.

## 4-H Scholarships Available Through Extension Service

Six 4-H scholarships that have to do with conservation are being offered again this year by the Cooperative Extension Service through the National 4-H Service Committee of Chicago and the scholarship sponsors.

Four are for \$1,600 each and are the largest college scholarships offered in the national 4-H award programs. They will be provided for the sixth straight year by Homelite, a Division of Textron Inc. of Port Chester, N.Y.

Present or former 4-H Club members are eligible to apply if they are college freshmen planning to major or minor in forestry.

The other two scholarships for \$800 each, are identified as crop protection-crop production. They also will be given for the sixth year by California Chemical Company, Ortho Division, San Francisco.

To qualify, students must be juniors in a college of agriculture, majoring for two years in one or more of the following: agronomy, soils, entomology, plant pathology or horticulture to supply this needed organic matter is by the efficient use of crop residues and green manure crops. The addition of organic matter increases the amount of plant food available to the plant by speeding the breakdown of the rocks and mineral of the soil. Acids are given off in the decomposition of organic matter. These acids help eat away these minerals leaving the plant food.

When crop residues are burned, not only do we eliminate the main supply source for organic matter but the heat from the fire directly destroys the working bacteria.

The organic matter content of a soil is related to the ease of tillage. Soils that are low in organic matter tend to pack and form clay pans or plow pans; much more rapidly than soils high in organic matter. A packed soil reduces the infiltration of the rain and restricts the development of plant roots.

The addition of organic matter will not solve all of your fertility problems; however, it is a step in the right direction.

# Premiums Offered By CCC For High Quality Wheat

In an effort to encourage farmers to grow a higher milling quality wheat, premiums are being offered by CCC for high quality wheat offered for loan starting in 1962. The quality of the 1962 crop of wheat is based on the sedimentation value of the wheat at the time it is placed under loan.

The sedimentation test is a simple and rapid way to estimate the strength and quantity of wheat protein. Generally speaking, wheat with a high protein content has a relatively high sedimentation value and vice versa.

Sedimentation values range from about three for very weak wheat, up to about 70 for the strongest wheat. Wheats with a sedimentation value of 40 or more are preferred for flour for use in commercial bread baking.

Wheat with sedimentation values of 60 and over usually contains a protein content above 14 per cent, is of superior gluten quality, has superior baking strength, and is suitable for mixing with weaker wheat for production of commercial bread flour.

Generally the range of values from 40 to 59 indicates a protein content of from about 12 to 14 per cent. The quality of the gluten is usually good. This wheat consists almost entirely of hard wheat (other than durum) and is of the type most widely used for production of bread flour. Hard wheat of recognized weak varieties falls into this range only when of very high protein content which would give it reasonably high bread-baking strength.

Premiums to producers for sedimentation values are as follows:

Sedimentation Value	Premium Cents per Bushel
40-41-42	3
43	4
44	5
45	6
46	7
47	8
48	9
49	10
50	11
51	12
52	13
53	14
54	15
55	16
56	17
57	18
58	19
59	20
60	21
61	22
62	23
63	24
64 and over	25

of their wheat prior to the time it is offered for loan. The producer may determine the sedimentation value of his wheat in one of two ways, depending upon the elevator's settlement procedure to which he delivers his wheat.

If a producer delivers his wheat to a warehouseman who has agreed to CCC to issue warehouse receipts on a sedimentation basis the sedimentation value placed on the wheat will be that agreed upon by the producer and the warehouseman. Generally this would be station average.

For example: If the average sedimentation value of wheat delivered to such a warehouse is 29 then all warehouse receipts would probably be issued to reflect this.

In the event a producer delivers his wheat to a warehouseman who has agreed to settle with CCC on a protein basis, he may request, before he unloads, that a sedimentation test be made on his wheat. In this case producer's warehouse receipt will show the actual sedimentation value of the wheat delivered by him. A sedimentation test will not be made by a "Protein House" unless the producer requests it. The cost of having this test made will be around \$3.00.

In the case of farm-stored wheat placed under CCC loan, a sedimentation test will be made in all cases. Tests made to date indicate that at least a part of the wheat grown in Parmer county does have a sedimentation value high enough to warrant a premium if placed under CCC loan.

Out of 48 tests run to date in the county, the sedimentation values ranged from a low of 33 to a high of 67, the average being 46.

For further information on this subject, producers may contact the ASCS office or one of the following men, who are ASCS committeemen: Archie L. Tarter, Louis Welch, Tom Beauchamp, Darrell Norton.

The three soil testing laboratories operated in Texas by the Agricultural Extension Service, during March and April, handled 4,330 samples. They came from 173 Texas counties, from Mexico and Nicaragua and Colorado, New Mexico and Oklahoma, according to W. F. Benet, extension soil chemist.

"ENJOY IT WHILE YOU CAN, THERE IS NOT MUCH SOIL LEFT ON THIS FARM."

## Cotton Marketing Problem Topic of Dallas Meeting

Major marketing problems of the U. S. cotton industry will be examined at a meeting in Dallas July 10-11, according to the National Cotton Council.

Attending the Cotton Marketing Conference at the Statler Hilton will be farmers, ginners, merchants, spinners, machinery and instrument manufacturers, research and education workers, and others associated with this phase of the industry.

Burriss C. Jackson of Hillsboro, president of the Council, will open the conference with an address on the need for increased efficiency in producing and marketing cotton.

Program for the first day will include reports on the value of "area" programs in quality improvement, preservation and marketing; impact of modern mill processing on quality; potential influence of Common Market on U. S. exports; tolerances and fiber specifications in marketing; fineness and strength values in merchandising; length and other properties important to manufacturing; and data processing in merchandising and manufacturing.

The second day will feature discussions of the influence of ginning practices on market values; economics and effects of multiple lint cleaning; and new developments in instrumentation.

## The HAPPY HOMEMAKER

BY JUNE FLOYD

Many readers of this column probably receive The Workbasket. Anyone who doesn't will probably enjoy using this recipe for dried orange peel which I copied from it.

**Orange Peel**  
Do you like the taste of orange peel? If you do, try using some in cookies.

First wash and dry orange before peeling. Place peels in shallow pan and place in a very low oven and dry. It may be necessary to repeat this process several days in succession before all moisture is gone and peel is completely dry.

Then put between soft cloth and pound with small kitchen hammer. Be careful not to leave large lumps. Sometimes it will take several tries before powder stage is reached and cloth may have to be changed as it wears through.

When in powdered stage, put in small jars (such as sandwich spread or mayonnaise jars) using one large and several small ones.

Sometimes lids have printing on them. If this is the case they may be sprayed white or covered in foil.

You will find many uses for powdered orange peel. Not only is it tasty in cookies but try adding a spoonful to breads, puddings and cakes. These also make decorative little gifts when slipped in attractive boxes and tied with pretty ribbons.

Something new on the market which will be of interest to all homemakers who sew is a pattern case. This delightful piece of equipment comes with a washable leather-like plastic cover, has one dozen indexed dividers and holds up to 25 patterns.

Summertime is punch time. A tall glass of cold punch is a good "picker-upper" just about any time of day. If you haven't tried one of the new recipes developed with gelatin bases, try this one.

**PARTY PUNCH**  
Empty into large bowl:

2 packages cherry or raspberry flavored gelatin  
Pour over gelatin:  
2 cups hot water

Stir until gelatin dissolves. Cool. Add 3/4 cup lemon juice, 1 cup pineapple juice, 3/4 cup orange juice and 3 cups ice water. Pour over ice cubes or cracked ice and float thin slices of orange and lemon rind in chilled punch.

\*\*\*\*\*  
Another cold drink recipe that you will want to try when preparing for a crowd of 30 to 40 is

**FRUIT PUNCH**

1 pint grated pineapple  
2 pounds granulated sugar  
4 cups boiling water  
2 cups hot tea  
2 cups loganberry juice  
9 lemons, juiced and grated  
6 oranges, juiced and grated  
5 quarts ice water  
2 quarts ginger ale  
Cook sugar and boiling water 10 minutes. Add pineapple, cook five minutes more. Strain, cool, add fruit juices. At serving time add ice water. Place large block of ice in punch bowl. Add ginger ale just before serving.

\*\*\*\*\*  
Just about everyone has tried German Chocolate Cake, but have you ever tried German Chocolate Pound Cake? The following recipe is recommended by Mrs. Bill Phillips of Springlake.

**GERMAN CHOCOLATE POUND CAKE**  
2 cups sugar  
1 cup shortening  
4 eggs  
2 teaspoons vanilla  
2 tablespoons butter flavor  
1 cup buttermilk  
3 cups flour  
1/2 teaspoon soda  
1 teaspoon salt  
1 package German Sweet chocolate  
Cream sugar and shortening; add eggs and flavoring. Add milk, melted chocolate and dry ingredients. Pour into greased and floured tube pan. Bake about 1 1/2 hours at 300 degrees. Cover tightly until cool.

## New Peace Corps Project In Brazil

The Peace Corps has accepted an invitation from the Government of Brazil to send 163 Volunteers to assist the San Francisco Valley Commission in the integrated development of the 2000 mile long river valley. This program will affect directly 51/2 million people who now live in the valley area.

Volunteers will be assigned to agricultural extension work, rural community development, rural electrification, irrigation, health education, sanitation and social work.

The project requires 89 agricultural specialists and workers with training and/or experience in various agricultural, forestry and home economics skills, 13 electrical engineers and/or electricians, 1 dentist, 6 nurses, 8 medical technicians, 10 health and social workers, 15 mechanics, 2 marine diesel repairmen, 4 radio technicians, 4 cottage industry instructors, 3 geologists, 3 well diggers, 2 fishing technicians, one carpenter, one cotton textile worker, and one audio-visual specialist. Training of Volunteers selected for this project will begin

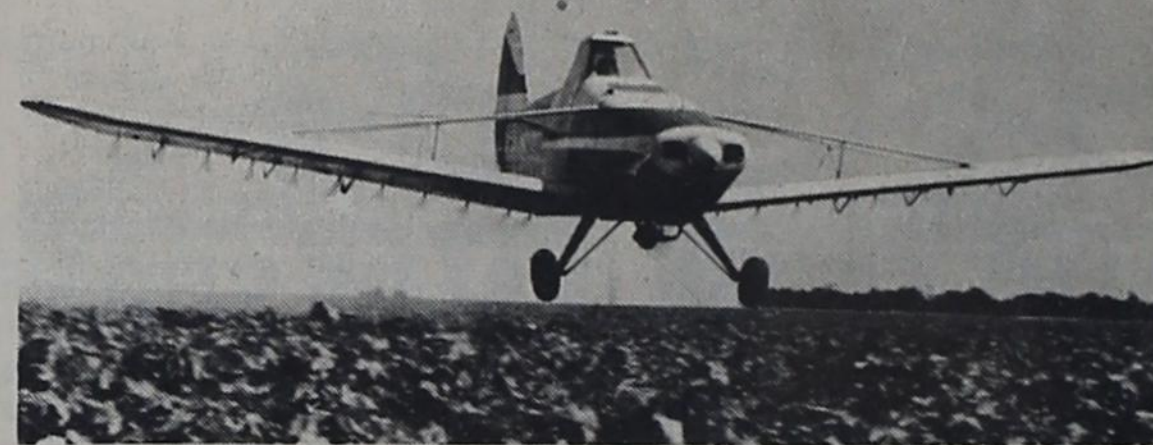

about July 30, 1962, and will include on-the-job skills, as well as language and culture of Brazil. Prior knowledge of Portuguese will be helpful, but it is not a requirement for selection.

Volunteers must be American citizens at least 18 years of age. There is no upper age limit. The basic educational requirement is a high school education. Greater formal training or experience is required for some positions. Married couples are eligible if both husband and wife qualify and they have no dependents under 18.

Volunteers receive a living allowance for food, clothing, housing, medical care, transportation and incidentals plus a termination payment of \$1800, based on \$75 for each month of service.

Peace Corps applications may be obtained from local post offices, county agents, Peace Corps Liaison officers at colleges and universities, or from the Peace Corps, Washington 25, D.C. They should be completed as soon as possible and returned to the Peace Corps, Washington 25, D.C.
