NUMBER 26

Texico Band To Present Concert

Sunday, April 7, 3 p.m. is the time chosen by Texico High School Band for its annual spring concert. The band will present a program of songs ranging from marches to ballads and those with a love theme.

First part of the program will include "Under the Double Eagle"; "Romeo and Juliet"; "Pacific Grandeur"; and "Little Norwegian Suite".

Second half of the program will feature Howard Danforth in a solo "Two Moods"; the "Keynote March"; "Prairie Lament" and the program will end with the ever popular "Anchors Aweigh".

Admission is free; however the band will accept any and all donations.

Gary Stelting, band director in the Texico School will make several award presentations at intermission time. A trophy will be presented to the A band student who has been chosen outstanding bandsman by members of the band. A trophy will also be presented to the A band student who has worked the hardest or put in the most hours of practice outside school this semester. A cash award will

be made to the band student who has shown the most progress this year.

Members of the B band will come in for their share of (Continued on Page 2)

The other day while driving from Lubbock to Amarillo I noticed a sign advertising for visitors to an underground house in Plainview. I have heard about this unusual home, and remember having seen a pamphlet on it a good while back. They call it the "atomic house" or something like that. This is advertised as the way to live in the atomic age, and the residence supposedly provides immunity from the perils of nuclear war, which admittedly are great and real. As I recall, this house stirred up quite a bit of interest a year or two ago when it was first built, and I don't doubt that some of The Tribune's readers have gone through it. Of heavy concrete construction and located several feet beneath the level of the earth, the house has provisions for food and water, an air filtration system, and whatever mensurmise might be needed to come alive the day after the big bang, when and if it ever hits us. This is a very interesting approach to the problems of the present age, and from what I understand the home is very modern and comfortable and livable. Also, I read where the nation has constructed its first underground school, this one being in our own New Mexico, down at Artesia, I believe. The Atlas missile installations that dot the landscape around Roswell no doubt had their contribution in conditioning the mind of the community to taking such a viewpoint. It appears that we have gotten so concerned about the state of affairs that we have begun to accept the living underground philosophy as a practical approach. However, I want none of it.

I do not mean to suggest for a moment that I am not afraid of an atomic or hydrogen bomb. I have never seen one, but you can be sure I would be among those who run for cover when I hear one is on the way. I believe in fallout shelters and in knowing what to do to preserve our lives in the event of an attack. I even believe in "fraidy holes" here on the Plains for those doggone twist-ers, although the Grahams don't own a storm cellar. But I refuse to accept living underground as a way of life. Something about that idea runs completely contrary to my notion of being a human being. To do so would, I think, acknowledge and accept the inevitability of nuclear collision, and if anything was given to man that should be imperishable it should be his hope. In spite of all the discouragements of life among human beings on this planet, I am convinced that the best course is to continue to live like human beings. Things will probably work out surprisingly well. They always have.

Whenever I drop in to see an acquaintance at a newspaper in a neighboring town, invariably the publisher will offer to go get some coffee or a Coke, and as we hike a block or so to the refreshment house, he will pass scores of persons he knows intimately. To anyone within halting distance, he will raise his hand in salutation and call out, "Hi there, Bill," or "Hello Bob." This continues on into the cafe or drug store and sometimes his friends stroll over and plop down and join in on the conversation we are having--not needing any invitation. The hospitality is just as warm when I visit an acquaintance in a larger town, and again, we usually slip off for coffee or a Coke. But most of the time we make the trip without much arm waving, and usually we sit in a booth surrounded by strangers. I think nearly any businessman in a town of fewer than 5000 would be amazed if he could sit down and think of the persons he knows well enough to address them by their given name.

The other day when driving north through Abernathy and Hale Center I was surprised at the transformation of the highway through those two

Texico Tops Elida In Track Meet

In a track meet with Elida, March 15 Texico came home victorious with 96 points to Elida's 33. No times were available for this meet.

Texico met their cross-track rivals, Farwell Steers in a practice session Tuesday, March 20 and were able to defeat the Steer team 761/2 to 461/2.

Coach C. E. Stockton, says some pretty good times were turned in by both groups of boys in the practice session for this early in the season.

The 440 relay team, composed of Wayne Hudnall, Vic Harrington, Hal Ed Helton and Jackie Dyer won with a time of 45:09. Weldon Walker with a time of 16:05 won the high hurdle event.

Brad Billingsley Wins County Sketch Contest

Brad Billingsley, 13 year old son of Mr. and Mrs. Scott Billingsley, and a junior high student at Farwell, was judged winner of the Farmer County sketch contest over a field of 24 entries the past weekend.

The contest was sponsored jointly by the Texas Heritage Foundation, Canyon and the Farmer County Study Clubs. The sketch entered by Brad, depicts an elevator, an irrigation pump with running water and a blade of wheat. The sketch

will be reproduced in stone and will be placed in the Palo Duro Theater in Palo Duro Park. It is one of 37 sketches which will represent the 37 Panhandle Counties.

Brad will have his picture and that of his sketch placed in all the publications about the park theater, and will also be invited to participate in the opening ceremonies at the theater when it is completed. The

Mrs. Doris Darby, clerk in the office of the County Tax assessor and collector, is shown selling a set of car tags and two sets of farm vehicle tags to Richard Baxter, Bovina farmer, a few days prior to the April 1 deadline.

Schools Set For Trustee Elections

The four Farmer County school districts will elect school board officials Saturday, April 6.

Two trustees will be elected at Bovina, Farwell, Friona and Lubbudde.

Lazzbuddle will have the most candidates on its ballot, six,

while there will be five at Farwell, four at Bovina and three at Friona.

At Bovina, incumbent trustees M. H. Carson and Grady Sorley are on the ballot, along with Richard Vaughn and Don Murphy. Joe Wilson is up for re-election as county school

trustee, commissioner's precinct 2.

Farwell will elect two trustees from among Melborn Jones, Preston Martin, W. D. (Bill) Prince, Sterling Donaldson and James W. (Pat) Patrick.

Terms of Clay Henson and Walter Kiltwasser are expiring, but neither announced for re-election. Clyde Magness is candidate for county trustee.

D. C. Herring and W. M. Massie are up for re-election at Friona, with Charles Howell, a farmer, as the third man on the ballot. J. L. Shaffer is the candidate for county trustee at Friona.

Lazzbuddle voters will have the biggest choice. Of the six candidates, Alton Morris is up for re-election.

E. T. Ford is the other board member whose term is expiring, but he did not come out for re-election. Others besides Morris on the Lazzbuddle ballot include Hoyt Eubanks, C. W. Bradshaw, Don McDonald, Fred Burch and R. B. Seaton.

At Friona, the election will be held at the primary school building, as opposed to the high school, where it has usually been held.

Voting will be from 8 a.m. until 7 p.m. in each of the elections.

Deadline For Car License April 1

Farmer County residents are reminded that the last day they will be able to buy license for their cars, commercial and farm vehicles without a penalty is April 1.

All licenses must be on such vehicles by midnight April 1.

For the convenience of county residents, the assessor-collector office in the Farmer County Courthouse will remain open Saturday, March 30 until 5 p.m. All such license must be bought at the office of the tax assessor-collector.

On March 26, clerks in the office of assessor-collector, Lee Thompson, reported a total

of 2505 passenger car license sold, commercial tags total 527, and farm vehicle tags 1240. April 1 sales last year were car tags, 3190, commercial vehicle 685 and farm vehicles 1498.

Thursday Services For Mrs. Martin

Funeral services were conducted at Steed Chapel Thursday for Mrs. Mary Martin, 92, mother of Virgil Martin of Farwell, who passed away at Day Rest Home Tuesday morning.

Reverend C. C. Morgan, pastor of Forrest Heights Baptist Church officiated. Burial was in Mission Garden of Memories under direction of Steed Funeral Home. Grandsons were pallbearers.

Survivors other than the local son are six other sons, Barney, Vernon; Abe, Hereford; Floyd and John, both of Clovis; Frank, Needles, Calif; Ray, Roaring Springs; two daughters, Mrs. H. H. Mills, Lockney; Mrs. Jim Smith, Clovis; 26 grandchildren, 40 great-grandchildren and two great-great-grandchildren.

Mrs. Martin had made her home in Clovis since 1948 and has visited here on my occasions. She was well-known locally.

Baptist Revival March 31-April 7 In Farwell

Farwell First Baptist Church has scheduled a revival for March 31-April 7 with services twice daily at 10 a.m. and 8 p.m. The evening service will be preceded by a prayer service at 7:30 p.m.

Evangelist for the services will be Rev. R. L. Porter, Lubbock. He is a graduate of Howard Payne College and Southwestern Theological Seminary in Fort Worth.

Joe Jones, music director at Dora and a student at Eastern New Mexico University will be in charge of the music.

Reverend J. L. Bass, church pastor, says the public is cordially invited to attend this series of services.

District Volleyball Tourney Tuesday

The district volleyball tournament will be held in the Farwell High School gymnasium, beginning at 1 p.m. Tuesday, April 2.

Entered in district play will be both boys and girls teams in the junior high school division, senior high school division, and also freshman teams from Sudan, Springlake, Kress, Hale Center and Farwell.

Farwell senior girls were winners of the district title last year and are hoping for a repeat performance this year.

Farwell Band Takes Seven First Places In Regional Contest

Thirteen members of the Farwell High School band accompanied by John McGee, band director were in Canyon Saturday in regional competition. Seven of the band members

Two Fined In Justice Court

Arrested and charged with being drunk Tuesday were Tony Miller, Friona and Wallace Woolsey, Hereford.

They were tried in Justice Court and fined \$25.50 each by Justice Roy Thornton.

A new record in deposits at a "call date" was established by the three Parmer County banking institutions, according to figures released this week by the banks.

According to figures on the three banks' quarterly statements, there was on deposit in Parmer County banks on March 18 a total of \$14,827,095.85.

The deposit figure compared to that of \$14,317,385.51 reported on December 31, 1962, the last call date, and \$13,478,134.19 for the first quarter's statements a year ago.

That means that bank deposits in Parmer County are up a total of \$1,348,961, or roughly nine per cent over the same time a year ago.

Two of the three banks, Security State of Farwell and Friona State Bank, reported their highest deposit figures on record for a call. The third, First National Bank of Bovina, had its deposits fall somewhat from the last quarterly report, which was a record for deposits there.

Security State Bank of Farwell showed the largest increase, from \$5,416,856.28 at this time last year to \$6,398,495.27. This represented a gain of \$981,638.99 in deposits in the one-year period, or over 15 per cent.

"We were up by about a half million dollars from our December 31 statement," said Bob Anderson, vice president of the bank, who credited sales of farm commodities after the first of the year as being mainly responsible for the big jump.

Friona State Bank went from \$6,307,398.91 in deposits last March, its former all-time high for a call, to \$6,547,180.73 at present, an increase of \$239,781.82.

The Bovina Bank showed deposits on March 18 of \$1,881,419.85, which was \$121,389.92 below its December 31 figure of \$2,002,709.77, but was still \$127,540.85 more than it had on deposit at the same time last year.

Total assets at the three banks likewise set a new all-time record for the county. That figure on March 18 was \$16,111,987.84, which compared to \$15,456,498.85 on December 31, and \$14,584,075.69 at this time last year.

were given ratings of one, and three received ratings of two at the meet.

Receiving ratings of one were a clarinet quartet composed of Diane Lovelace, Jeannie Blair, Susan Blair and Janice Prince; and a clarinet trio composed of Diane Lovelace, Susan Blair and Ronnie Smith.

Second division winners were Jeannie Blair, with a clarinet solo, Donna Dunn, clarinet solo, and Larry Gregory with a trombone solo.

Approximately 30 bands from region 11 were in competition at the Saturday meet.

Band Week Next Week

The week of March 31-April 6 has been chosen for observation of band week in Farwell. During this week many activities have been scheduled. To headline the week a candy drive has been scheduled to help raise the needed funds to send the FHS Band to the Tri-state Music Festival, May 2-4. The festival is to be held in Enid, Okla.

Two types of candy, almond coconut and chocolate mint, will be sold by all band students in the Farwell Schools. The cost of a box of this fine candy is \$1. Band members will canvass Farwell and the surrounding area in hopes of raising enough money for the trip. It is the hope of every band member that each person in Farwell and the outlying districts will do his utmost to help send the band to Tri-state.

The students will be representing Farwell in fine style, with excellent performances and sharp eye-catching uniforms. In conjunction with the candy drive the Farwell Band Boosters Association is sponsoring several fund raising drives to help raise the needed amount of money.

Farwell's selections for the all-district girl's basketball team include Margaret Haseloff, a senior and a guard on the Farwell team, who was the unanimous choice of all district coaches, and Patricia Kiltwasser, also a senior and a forward on the Farwell team. Other schools placing girls on the district team were Sudan and Springlake. Miss Haseloff was the only girl to receive a unanimous vote of all coaches.

Brad Billingsley proudly displays his sketch which won the Parmer County Sketch Contest. The sketch will be reproduced in stone and placed in the Palo Duro Theater in Palo Duro Park, at Canyon.

Brad Billingsley --
(Continued from Page 1)

sketch will be framed and presented to Farwell School. Judges for the contest were Mrs. Dexter Todd, Mrs. Laura Greggs and Dr. Dean Merritt all of Clovis. Judging was based on the adaptability of the sketch to reproduce in stone and how well it represented Parmer County. First runner-up in the contest was Jimmy Grimsley, a Friona junior high student. Second runner-up was Mike Smith also of Friona and third runner-up was Wade Coker, a seventh grade student in the Friona School.

Beverly Purvis Named To District Play Cast

Beverly Purvis, with her portrayal of the wife who is driven insane by her insane husband, in the one-act play presented by Farwell High School at district competition Tuesday in Springlake, was named to the all district play cast. The Farwell group received a third place at the meet. First place winner was Hale Center with "The Wonder Hat". Winning second was Kress. The Farwell cast presented "Mooncalf Muford" a tragedy.

Hopper --
(Continued from Page 1)

towns, I hardly recognized the communities. I was so accustomed to driving through the middle of the business district that I hardly was aware the town was slipping by me as I drove along. There are sure good reasons for routing the traffic through towns as they have done in the last year or so with these two communities, and I know this is progress and all that, but I sort of miss chugging along Main Street, dodging pickups and pedestrians, as I eyeball the downtown area and see what's new. I like to see if a town has gotten a new business or some face-lifting. I like to see how many people are in town, and what is going on in general. Looks like I'll have to pull off the highway from now on just to keep posted on what's happening. Incidentally, I have an answer for those slide rule boys who can't figure out where all the traffic comes from when they build those fancy freeways, expressways, interchanges, cloverleaves, and what-have-you in the big cities these days. You know, they will spend millions of dollars building six-lane divided projects to handle the traffic load expected "for the next ten years," and, shortly after turning traffic in on them, will find them clogged with cars. Where do all the cars come from, they wonder. I would like to point out that about half of these cars are full of people who are lost, and are looking for a place to turn off, or a way to go back in the opposite direction.

Texico PTA To Meet Monday Night, April 1

Texico PTA will meet in regular session Monday night April 1, 8 p.m. in the old gym at the school. A special program has been planned for this time with Rev. Robert O. Tomlinson to present a film on "Child-Parent Relationship". He will also comment on the film. New officers will be installed at the Monday night meet. To be installed are Murray White, president; Mrs. Melvin Burns, vice-president; Mrs. Jack Eshleman, secretary and Mrs. Perry Winkles, treasurer.

Texico Band --

awards with two students from this band to be presented afterwards. One trophy will be presented to the student in this band who has put in the greatest number of hours in practice this semester, and a second award will go to the first band member to complete his band workbook. Steiting says he is pleased with the progress of the band this year and is looking forward to a good year next year. The band, while not gaining a great number of new students this year, has had an enrollment of some 43 members, most of whom will be in the band again with the opening of school.

CHRISTIANITY
Is The Bulwark of Our Way of Life

"HEART CONDITIONS"
Have baffled science and medical skill through the ages.

"WHAT IS THE CONDITION OF YOUR HEALTH?"
May we, let God be the Analyst.

I. A heart search;
Search me Oh God, and know my heart; try me, and know my thoughts; and see if there be any wicked way in me, and lead me in the everlasting way, Ps: 139:23, For out of the heart proceed evil thoughts, murders, adulteries, fornications, thefts, false witness and blasphemies, Matt: 15:19. These things defile a man, Matt: 15:20. David felt the need of a heart search; do we need one today?

II. The hardening of the heart;
Christ rebuked some for their unbelief and hardness of heart. Mk: 16:14. Because of the hardness of the heart of the people; Moses granted a writing of divorcement. The Lord ask us not to harden our hearts, hardening the heart could be fatal; every time we harden our hearts it makes it harder to yield to him. He that hardeneth his heart shall fall into mischief, Prov. 28:14. He that being often reproved, hardeneth his neck, shall suddenly be destroyed and that without remedy, Prov. 29:1.

III. The Holy Spirit operated on the heart.
After hearing this preaching the people were cut to the heart, Acts, 5:33. When they heard this (Peter's message) they were pricked in their hearts and said to Peter and the rest of the Apostles, "What shall we do?" and Peter replied "Believe on the Lord Jesus Christ and thou shalt be saved."
With the heart man believeth unto righteousness and with the mouth confesses Salvation. Rom: 10:18. Believing with the heart brings eternal salvation. As the scripture says, "Whoever believeth on him shall not be ashamed." It is the spirit that quickeneth; the flesh profiteth nothing. The words I speak to you are spirit and they are life, John: 6:63.

IV. A fixed heart.
Does your heart need fixing? After David had a heart search, and operation of the spirit of God on his heart, it was then and then only he could say, My heart is fixed, Oh God my heart is fixed, Ps: 57-7. A fixed heart is a changed heart, a perfect heart, I will behave myself wisely in a perfect way, I will walk within my house with a perfect heart, Ps: 101:2. Make you a new heart and a new spirit Ez: 18:31. Create in me a clean heart, O God! and renew a right spirit within me, Ps: 51:10. This is heart felt religion, the only kind that will do to trust in, keeping of the law; observing rituals and baptism, will not save the soul, or produce eternal salvation, but a searched, operated and fixed heart by the Holy Spirit of God always brings results.

IS YOUR HEART FIXED? WE PRAY IT CAN BE.

Delta Kappa Gamma Members To Hart

Local members of Delta Kappa Gamma society, of the Delta Xi Chapter will journey to Hart, Saturday for a salad supper in the high school cafeteria there.

Future teachers and exchange students will be special guests at the supper. The program will be presented by the Future Teachers Club of Friona High

School, with Mrs. Bengner in charge.

Sponsors of the exchange students will give a short story of the life and background of each of the students.

All members attending the supper are asked to bring a salad. The rest of the meal will be furnished by the host club.

Jerry Bakers Announce Arrival Of Daughter

Mr. and Mrs. Jerry Baker, Texico, announce the arrival of a daughter, March 14 at Clovis Memorial Hospital.

The little girl weighed 6 lb. 3 oz. and has been named Karrie Rose. The Bakers have a son, Lynn, two years of age.

Grandparents are Melvin Baker, Mariloma, Calif. and Mr. and Mrs. Ernest Arnold, Texico.

Coffee Honors Mrs. Hopper On 83rd Birthday

A coffee honoring Mrs. H. M. Hopper, Pleasant Hill on her 83rd birthday was held recently in her home.

The event was a surprise to Mrs. Hopper, who was unaware of the event until friends arrived bearing gifts and a birthday cake.

The birthday cake was served with coffee, from a table laid with a white cloth centered by the cake.

Hostesses for the event were Mesdames Alvis Clark, Jim McCullough and L. D. Taylor, members of the Willing Workers Sunday School Class.

Attending were Mesdames Elmer Langford, Gordon Smith, Marlon Walker, Floyd Boco, Pearl Singletery, the hostesses, and the honoree husband, H. M. Hopper.

Free coffee and donuts will be served throughout the day.

Attends Hair Stylist Show

Mrs. John Porter, hair stylist at Tom Paul's Beauty Shop, was in Roswell recently to attend the Pecos Valley Hair Style Show and Training School. She was accompanied by Mrs. Ruby Hedrick of Clovis.

Guest artist at the show and training school was Vera Slater, Minneapolis, Minn., one of the country's leading hair style experts. She gave private and group instruction in cutting and shaping of the hair as well as how to arrange a comb-out, after setting. She stressed the "Liberty Bell" as the newest thing in hair styling this year.

Sunday evening the show attendees were feted with a banquet, at which five of the leading hair stylist brushed and arranged, their models hair blindfolded. On Tuesday an open contest was held in hair styling, and the shaping and cutting of the hair.

Mrs. Porter was winner of a nine cup electric percolator, which was given as a door prize.

Girls Attend Area Meet

The Lazbuddie FHA girls along with their advisor, Mrs. Charley Walton, were in Lubbock March 16 to attend the meeting of Area I, FHA chapters.

Gayla Seaton ran for the office of Area I treasurer but was beaten in a runoff. Marianna Gammon was selected as a member of the state FHA Chorus. She will sing in the alto section.

After the meeting the girls went bowling.

Visitors In Walker Home

Weekend visitors in the home of Mr. and Mrs. E. A. Walker were his uncle, Willie Alford, Houston and Mr. and Mrs. E. O. Walker and family from Hereford.

E. A. Walker was recently released from the hospital following a heart attack. He is reported to be doing well and able to do a little work around the house.

Dr. Kraedel Speaks To Extension Club Members

Texico Modern Homemakers Extension Club met in the home of Mrs. W. E. Martin, east of Farwell for a short business meeting and social Tuesday morning.

Dr. Ernest Kraedel, Curry County Health Officer, was at the meeting and presented a talk on venereal disease to club members. Next meeting was set for the home of Mrs. Paul Skaggs, April 9. At this time a demonstration on textile painting will be presented.

Attending the Tuesday meet were Mesdames John Green, Paul Skaggs, Tommy Franks, Loren Wilson, W. E. Martin, Roy Rickstrew and Elward Combs.

Refreshments of pretzels, Fritos, doughnuts and coffee were served.

"Treaty Oak" in Austin, Texas, was selected by the American Forestry Association as the most perfect specimen of a tree in the United States.

Bradley's Beauty Shop

Spring was the keynote for the annual style show sponsored by Farwell Study Club and presented Friday night at the school auditorium.

The theme was noted by the stage decorations which featured a wrought iron screen entwined with roses, with a white wrought iron bench and chairs in the foreground. Floral trees were on either side on the focal point and a short picket fence of white edged the stage with bouquets and greenery accenting the arrangement.

Models for Gladys' were: Anabel Hillock, Mary Alice Ramm, Johnnie Rundell, Flora Lee Bass, Polly Dollar, Nella Beth Craig, Tina Rundell, Tamie Christian, Jana Bass, Mikala Austin, Phyllis Christian, Joyce Bass, Carol White.

Edith Ann Walling, Donna Rundell, Peggy Jones, Nell Walling, Bobbie Kay Kube, Mary Coffey, Gwendolyn Christian, Joy Beth Christian, Lynell Christian, Gwendolyn Rundell, Martha Coffey, Janice Prince, Dorothy Haseloff, Carolyn Lindop, Susan White and Sherri Bass, Sustie Blair and Mrs. Linda Gerles and Dondra.

Walden Henson narrated for Queens 'n Teens. Models were: Misses Sherri and Mikala Austin, and Misses Prince, Walling, Lindop and Phyllis Christian.

Mrs. Lewis Purvis described clothing worn from the Fashion Shop. Models were Clyde Dial, Sharon Norton, Tinky Mayfield, Pat Haseloff, Gladys Kaltwasser, LaMoin Williams, Mildred Cooper.

ESA Members Help With Convention

Members of Theta Rho chapter of ESA met in the home of Mrs. Joe Helton Monday evening to work on registration tote bags which will be given each ESA member attending the state convention slated in Clovis in April.

Mrs. Helton, Theta Rho member, is in charge of the gift committee for the convention with Mrs. Mitz Walling and Mrs. Pike Jordan serving on the planning committee.

Ice cream desserts and coffee or pop were served to members following the work session.

New officers will be installed at a dinner meeting April 8.

Range Home Scene Of Club Meeting

The home of Mrs. John Range was scene of an all day meeting for members of Pleasant Hill Extension Club members Thursday.

Mrs. Grady Pierce of Clovis was guest speaker and showed slides of her world travels, from which she has recently returned. Mrs. Nola Harris was a guest at the meeting.

Plans were made for the next meeting, which will be held April 4, in the home of Mrs. Juan Eskew, with Mrs. Joe Burford as co-hostess. Program at this time will be "Tips on cooking with care."

Attending the Thursday meet were Mesdames Mason Neely, Pearl Singletery, Leon Webb, Joe Heinz, Elmer Langford, Maurice Clark, Eual Hart, H. M. Hopper, Floyd Boco, John Tadlock, Jack Donahy, Jack Eshleman, Donald Clark, Charles Boulon, Bonnie Kelley, Tom Burnett, Eric Pierce and Gene Boatright.

Fireman's Auxiliary Visits Gladys

Members of Texico Fireman's Auxiliary met in the home of Mrs. Fred Danforth for a short business meeting, Monday evening after which they went to Gladys' and saw the new spring clothes on display there. After visiting the dress shop they returned to the Danforth home where a short program on Parliamentary Procedure was conducted by James Watts, Howard Danforth, Linda Palmateer, Donald Chandler and Dwayne Billingsley.

Next meeting for Auxiliary members will be in the home of Mrs. Otis Huggins, April 29. The program at that time will be on music.

Lovely refreshments were served from a table decorated in the Easter Motif. Small bunny rabbits and Easter Lilies were arranged as a centerpiece on the table.

Attending the meeting were Mesdames Judge Stone, Charlie Hromas, Tena Roth, Avis Patterson, Paul Skaggs, Mae Means and M. A. Palmateer, guests and Mesdames Russell Johnson, Perry Winkles, John Adams, C. H. Webb, Rip Snodgrass, and Fred Danforth, members.

I tried a new recipe last week that was quite unique, but the surprise was that it didn't taste at all like I anticipated, and was delicious, too. It was a pear pie. However, it tastes like an apple pie. The spouse insists it's the best "apple pie I've ever made." But there is a subtle difference in flavor that is a nice change.

- PEAR PIE
- 3/4 cup sugar
2 tablespoons flour
1/2 tsp. cinnamon
1/2 tsp. nutmeg
6 cups pears
Pastry for 2-crust pie
2 tablespoons butter
- Mix first 4 ingredients, add pears and mix lightly. Line pie pan with half of pastry. Add filling and dot with butter. Adjust top crust. Dot with butter and sugar. Bake in hot oven (425) about 50 minutes.

I did use the canned pears. The only problem was that the pie disappeared before the Graham boys satisfied their taste for the dessert.

Linda Palmateer Selected To Golden Spread Band

Linda Palmateer, 17-year-old daughter of Mr. and Mrs. M. A. Palmateer and a senior in the Texico High School, received word this week that she has been selected for membership in the 1963 Golden Spread Music Festival Band in Amarillo.

LINDA PALMATEER

Band members will meet in Amarillo on the campus of Amarillo College this weekend.

Students from the Texas Panhandle and adjoining states will participate in the festival under direction of Dr. Clyde Roller, for sixteen years conductor of the Amarillo Symphony, and now conductor of the Eastman Wind Ensembles and the Eastman Philharmonic.

Purpose of the festival, according to Donald Black, director of bands at Amarillo College and organizer of the festival, is to offer a significant type of recognition to senior musicians.

On Friday the program will consist of registration of students, rehearsals, and a mixer, Saturday the students will attend rehearsals, play in a concert and attend an awards banquet in their honor that evening.

Miss Palmateer has been a member of the Texico band for the past six years, playing first chair clarinet.

She is also an honor student in the school, serving as president of the honor society, and making the honor roll consistently. She was recently selected to represent Texico as Miss FBLA, at the state FBLA convention which will convene on the campus at ENMU in April.

Study Club Style Show Success

The style show sponsored Friday night by Farwell Study Club was well attended and club members termed it a success.

Mrs. Clyde Dial, president of the club, speaking on behalf of the club says "We wish to thank the four businesses who furnished clothes to be modeled, the models, all merchants who contributed door prizes and all who attended for making the show such a huge success."

This is the club's annual fund raising project.

Clothes modeled were from Gladys', Queens and Teens, Fashion Shop and Williams Children Shop. Coordinator of the show was Mrs. A. R. Sander and narrators were Mrs. Henson, Queens and Teens, Mrs. Sander, Gladys', Mrs. Louis Purvis, Fashion Shop and Mrs. Leora Williams, Childrens Shop.

Uncle Ray's 'Hot Air'

Setting for the show was a garden scene complete with blooming trees, climbing roses and white wrought iron garden furniture.

Miss Sherri Austin provided soft background music throughout the evening and accompanied Mrs. Ernest Ramm as she sang a solo.

One of the great mysteries of life is how the boy who wasn't good enough to marry your daughter can be the father of the smartest grandchild in the world.

Suitor: "Sir, I have an attachment for your daughter."
Father: "Young man, when my daughter needs accessories, I'll buy them for her myself."

You can buy almost anything you need at Uncle Ray's big little store.

Uncle Ray's 'Hot Air'

Dates Changed For Singing

The community singing conducted monthly at the Bovina Pentecostal Holiness Church has been changed from the last Sunday in the month to the first Sunday of each month at 2 p.m.

J. W. Muddick of Texico is in charge of the monthly singings.

Lazbuddie FHA Visits King's Manor

On March 24 members of the Lazbuddie Chapter of FHA visited King's Manor, the Methodist home for the aged in Hereford.

Girls attending presented a short program for residents of the home after which they were taken on a tour of the home. After the tour the girls served refreshments of homemade cookies and punch to the residents and also presented them with small remembrances.

FARWELL TO TRI-STATE

FARWELL CADET BAND -- This is the beginning band program for all children interested in band work. Here in this program students are taught the fundamental principles of band music. Students are also taught that cooperation with individuals in the band and in other walks of life are of the utmost importance. The elementary band program is the most important factor in the school program. Flutes: Cheryl Kaltwasser, Marsha Lovelace, Cynthia Phillips. Clarinets: Sharon Williams, Jim Martin, Cheryl Boling, Randy Stewart, Merideth Anderson. French Horn: Gary Keith. Cornets: Greg Hargrove, Douglas Harriman, Mark Williams, Greg Meeks, Rhonda Robertson, Janie Watkins. Baritone: Larry Phillips. Trombone: Dan Prince, Robert Haseloff. Sousaphone: Eddie Winegeart. Percussion: John Snider.

THE FHS STEER MARCHING BAND -- With much spirit and pride the Farwell High School Steer Marching Band is fast becoming known for its outstanding half-time shows and sharp precision parade marching. In the future the Marching Band will enter many marching contests in hopes of bringing home more recognition for Farwell. Anytime there is a parade or football game watch for the "Pride of West Texas," the Steer Marching Band.

THE FARWELL JUNIOR HIGH SCHOOL BAND -- The FJHS Band is very important in the development of a successful band program within the Farwell Schools. At the present 6th and 7th grade students comprise the Junior High Band. In the future the Junior High Band will be entered in many competitive musical events in West Texas and Eastern New Mexico. Flutes: Roberta Chisman, Kandy Meeks, Debbie Hargrove, Connie Dennis. Clarinets: Nelda Winegeart, Marion Busbice, Sharon Ensor, Carolyn Lingnau, Rayma Lemmons, Dickie Lunsford, Gary Capps. Oboe: Tim Crume. Bassoon: Donna Kirk. Bass Clarinet: Randy Crooks. Alto Sax: Vicky Kaltwasser, Loyce Craig. Tenor Sax: James Haseloff. Baritone Sax: Sharon Busbice. Cornet: Rosetta Chisman. Baritone: Billy Bourlon. Trombones: James Symcox, Jerry Keith, Kyle Sheets, David Lee. Drums: Jacque Gast, Troy Dowdy, Robert Curtis, Charles Lunsford. Bass Horn: Dennis Ensor.

Tri-state percussion ensemble -- Melody Coffman, Peggy Eason and Joe Costello.

FHA Band To Tri-State

May 2-4 are the dates for the Tri-State Music Festival in Enid, Oklahoma. The Farwell High School Steer Marching and Concert Bands will represent the community of Farwell in this nationally known music festival. Outstanding directors, judges, and performers from throughout the United States will be present to perform for and judge some 10,000 band, orchestra, and choral students from many different sections of the country.

The FHS Band will compete in Class CC in the following events: Parade marching, concert, sight reading, solos, and ensembles. Also the Band will be in competition for the Grand Sweepstakes Award for the outstanding band in Class CC. Many points must be gathered before a band can win the big award. FHS Band students have been entered in as many events as could possibly be arranged. Also in connection with the Festival there will be a grand finale concert given by the Tri-State Band, Orchestra, and Choir.

The annual Tri-State Music Festivals are music education projects. Tri-State has been developed by the many directors and individual participants whose suggestions have resulted in stimulating interest in building better school music organizations. Tri-State believes there is great value in bringing together of many

notable and experienced adult musicians for the purpose of listening to and giving constructive criticism to student musicians on their many efforts. Tri-State provides artistic performances by great virtuosi and concert groups for students to learn from hearing and seeing world renowned musical talent.

Featured soloists and guest organizations have been outstanding and varied. Included in this group have been the USAF Band, the US Marine Band, the US Army Band, and the US Navy Band.

Over the 30 Years of the Tri-State Music Festivals a young tradition of musician loyalty has developed in the several hundreds of thousands of Tri-State participants now scattered throughout the world. They reflect with pride on their many enjoyable Tri-State experiences contributing to their own personal and musical growth.

The great amount of time, effort and money expended in producing Tri-State is given solely for the benefit of schools who are interested in improving their musical organizations, for their progressive music directors, for the individually talented student musicians and their parents, and for the administrators of schools who understand and appreciate the great value of freedom of comparison the Festival provides.

OUR NEW UNIFORMS

Farwell Band Places Thirteen In Tri-State Band, Percussion Ensemble

Word was received by John G. McGee, band instructor in the Farwell school Friday that 13 of his band students had been chosen for the honor of playing in the Tri-state Band and Percussion Ensemble at Enid, May 2-4.

It is a great honor and distinction for a school of this size to have this many students make the band. These thirteen students will perform in the grand finale on the last night of competition at the festival, with the numbers played by the band to be directed by many outstanding composers and band directors.

By virtue of placing this many students on the Tri-state band, Farwell school has a good chance to be winner of the sweepstakes award. They gained 15 points by placing the students.

Chosen for the honor of playing in the band and ensemble were one eighth grade student, two freshmen, two sophomores, five juniors and three seniors.

In the Percussion Ensemble are Melody Coffman, tympani and traps; Joe Costello, snare; and Peggy Eason, snare and traps.

Band members include Beverly Purvis, first section French Horn; Diane Lovelace, first section clarinet; Sherril Austin, second section flute and piccolo; Ronnie Smith, second section clarinet; Jeannie Blair, second section clarinet; Janice Prince, bass clarinet section; Jimmy Armstrong, second alto saxophone; Barry McCuan, baritone saxophone; Alan Busbice, third section cornet, and Kenny Smith, bass horn section.

John McGee, band instructor, says he is well pleased at having these students chosen for the Tri-state band, and assures the public that they will be representing Farwell School and the community in the finest way possible at the festival.

He is the son of Mr. and Mrs. W. W. McGee, who own and operate a grocery store in Portales and was married the past year to Lynda Crawley, who now is employed by the telephone company in Clovis.

While in college McGee was twice a member of the national inter-collegiate band. He is a member of Texas State Teachers' association, Texas band association, Texas music education association, music education national conference, National Band Directors' Association, Phi Mu Alpha, Kappa Kappa Psi, music fraternities, and is also a member of the United States Army Reserve.

McGee, says his favorite instrument is the tuba; however he can play all band instruments. He did his practice teaching in the Clovis school system, serving as assistant director at Gattis Junior High school and Clovis High school under Norvell Howell.

The community may rest assured, says McGee, that as long as I am director of the Farwell band we shall always be striving to build a bigger and better

SUPPORT YOUR LOCAL BAND

Band Concert

A concert by the Farwell High School Concert Band will be given in the High School Gymnasium, April 4, 7:30 p.m. Included in the program will be the numbers the band will perform in the University Inter-scholastic League competition in Canyon, April 24.

These numbers are the "La Banda Nascente March," "Little Norwegian Suite," and "Legende Overture." Other numbers to be played at the concert include "Orange Bowl," "French National Deffile," "The Foundation," allmarches. "Overture for Winds," "Fantasy for Band," "Song of Jupiter," "Miniature Chocole and Fuge," "Gypsy," concert numbers and "A Melodic Caravan."

Meet Your Band Director

Band and chorus director in the Farwell School system is John G. McGee 23, who began his first teaching assignment in September with the Farwell school.

McGee is a native of New Mexico and grew to manhood in Portales, where he graduated from high school in 1958 and immediately began training for a career as band instructor by entering Eastern New Mexico University the following fall. He received his Bachelor of Music Degree in spring graduation ceremonies 1962 at ENMU. He has a minor in applied music.

He is the son of Mr. and Mrs. W. W. McGee, who own and operate a grocery store in Portales and was married the past year to Lynda Crawley, who now is employed by the telephone company in Clovis.

While in college McGee was twice a member of the national inter-collegiate band. He is a member of Texas State Teachers' association, Texas band association, Texas music education association, music education national conference, National Band Directors' Association, Phi Mu Alpha, Kappa Kappa Psi, music fraternities, and is also a member of the United States Army Reserve.

McGee, says his favorite instrument is the tuba; however he can play all band instruments. He did his practice teaching in the Clovis school system, serving as assistant director at Gattis Junior High school and Clovis High school under Norvell Howell.

The community may rest assured, says McGee, that as long as I am director of the Farwell band we shall always be striving to build a bigger and better

JOHN G. MCGEE

band in the Farwell School, and will do our utmost to represent Farwell and the surrounding area in the best way possible to make the community proud to have us as a part of it." In addition McGee, extends his thanks to the community for supporting the band in the fine way it has this year. Special thanks go to the band booster club. "We are looking for a better year in 1963-64," says McGee.

Band Banquet To Conclude Band Week

Band week will conclude with a banquet at the Holiday Inn, Clovis on April 6, 7:30 p.m. Barry McCuan, band president, will serve as master of ceremonies.

Speaker at the banquet will be Dr. William Baldwin, professor of psychology at ENMU, Portales.

John G. McGee, band instructor in the Farwell School will present several awards to band members at the banquet and the band beau and band sweetheart will also be crowned.

The week of March 31 - April 6 has been proclaimed by Mayor Sam Aldridge as Farwell Band Week. He is shown here signing the official proclamation as Melody Coffman, band president, and Sherril Austin, a band member look on.

Official Proclamation

WHEREAS: There is always an existing need for better relations between the city of Farwell and other cities and, WHEREAS: Through a band program such as the one that exists in the Farwell Schools, it is possible to train young individuals to know and respect the opportunity to represent their community in worthwhile activities and, WHEREAS: the Tri-State Music Festival in Enid, Okla. May 2-4, 1963 is certainly a means of bettering relationships between communities, and that this festival offers an excellent opportunity for the band students of Farwell to become better educated in the principles of music education and to enlarge their social understanding of others through association with students from various sections of the United States, and, WHEREAS: it is certainly an honor for the City of Farwell to be represented in such an event as the Tri-State Music Festival by the Farwell High School Band, and since this event is of so great importance to our city and community that I hereby proclaim the week of March 31 through April 6, 1963 as, FARWELL BAND WEEK, Dated March 26, 1963.

Sam Aldridge
Mayor, City of Farwell
Farwell, Texas

Tri-state band -- Beverly Purvis, Janice Prince, Diane Lovelace, Jeannie Blair, Sherril Austin, L to R front row. Ronnie

Smith, Jimmy Armstrong, Kenny Smith, Alan Busbice, Barry McCuan -- back row L to R,

THE FHS CONCERT BAND -- Hard work does not stop for the Band when football season is over, but continues right on into the bandhall with concert season. The FHS Concert Band continues to represent the community of Farwell in many concert contests, such as the Tri-State Music Festival and many University Interscholastic League Contests. Many home concerts are given by the FHS Concert Band with the purpose of entertaining and acquainting the people of Farwell with many different types of Concert music. Flutes: Mary Coffey, Phyllis Christian, Teresa Quickel, Donna Rundell. Clarinets: Diane Lovelace, Jeannie Blair, Mikala Austin, Ronnie Smith, Jim Morton, Mike Camp, Doyle Johnson, Vicki Moss, Linda Nelson, Susan Blair, Edith Walling, Donna Dunn, Kathryn Guber, Charles Kitten, Sherry Bass. Bass Clarinet: Janice Prince. Alto Sax: Jimmy Armstrong, Carl Davis, Larry Flowers, Texnor Sax: Martha Coffey, Baritone Sax: Barry McCuan. Cornets: Alan Busbice, Jerry Childs, Burt Purvis, Michael Watkins, Jerry Ford, Patty Tatum, Jimmie Mace, Randy Robertson, Danny Huffaker. French Horns: Beverly Purvis, Peggy Martin. Percussion: Joe Costello, Peggy Eason, David Meeks, Julia Hughes, Ronnie Ussery. Tympani: Melody Coffman.

Community Meet At Okla. Lane Tonight (Friday)

The annual community meeting at Oklahoma Lane is set for tonight (Friday) 8 p.m. in the community center. Schools from the surrounding communities will furnish the evening's entertainment. All ladies are asked to bring cookies and punch for the social hour. Games and informal visiting will be enjoyed after a short business meeting. Three new members are to be elected to fill the expiring terms of Mrs. Clarence John-

son, Donald Christian and Claude Watkins. Holdover members of the board include Vernon Symcox, Lee Mason, Sterling Donaldson, Mrs. Delbert Garner, Mrs. W. T. Magness and Eugene Redwine. Vernon Symcox is presently serving as president of the board.

First secretary of the U. S. Treasury, Alexander Hamilton, was the father of our financial system.

THE STATE OF TEXAS

To: HERLINDA HERRERA Defendant, Greeting:

You are hereby commanded to appear by filing a written answer to the Plaintiff's Petition at or before ten o'clock A.M. of the first Monday after the expiration of forty-two days from the date of the issuance of this citation, same being Monday the 6th day of May 1963, at or before ten o'clock A.M. before the Honorable District Court of Parmer County, Texas, at the Court House of said County in Farwell, Texas. Said Plaintiff's Petition was filed in said court, on the 20th day of March A.D. 1963, in this cause, numbered 2358 on the docket of said court, and styled, RODRIGO ROBLES HERRERA Plaintiff, vs. HERLINDA HERRERA Defendant.

The names of the parties to the cause are as follows: RODRIGO ROBLES HERRERA is Plaintiff and HERLINDA HERRERA is Defendant.

A brief statement of the nature of this suit is as follows, to wit: Suit for divorce, Plaintiff alleging that he and Defendant were married in the Republic of Old Mexico in 1954 and again in 1956, and that because of wrongs on the part of Defendant toward Plaintiff, Plaintiff permanently separated himself from Defendant, and praying for divorce and severance of bonds in matrimony, as is more fully shown by Plaintiff's Petition on

file in this suit. If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved. The officer executing this process shall promptly execute the same according to law, and make due return as the law directs. Issued and given under my hand and the Seal of said Court, at office in Farwell, Texas, this the 20th day of March A.D. 1963.

Attest: Dorothy Quickel Clerk, District Court, Parmer County, Texas

The Care and Feeding of Experts

You've heard it said that an Expert is just an ordinary workman who lives in another part of the country. Which may explain why some of us are inclined to favor doctors, hairdressers, mechanics, and other service people doing business in some other town.

Of course, it's hard to realize that a next-door neighbor, some fellow we've known for years and swapped arguments with at P.-T.A. meetings, can be—and often is—more experienced, more competent to serve us than a stranger we must drive miles to see.

And these far-away experts can never offer us the real interest in, and familiarity with our particular problems that we get from the experts who live right here in our own community... just a few minutes from our front doors.

Let's remember, too, that the out-of-town-expert does not trade with us, pay taxes to help support our schools, contribute to our churches, nor work for the improvement of this community in which we live and work.

SOUTHERN UNION GAS COMPANY

YOUR FAIR SHARE...

Most Texans, we believe, are fair-minded folks. They believe in fair play, square dealing, and mutual respect for personal and property rights. Those who want to take advantage of their neighbors are the exception. Sometimes it may be hard to define "a fair share." This can occur in dividing oil or gas production, when two or more landowners are involved. As we all know, oil and gas don't pay any attention to fence lines. Here in Texas many wells have been allowed to produce more oil or gas than they should have because they were drilled on very small tracts. That extra oil or gas came from under the neighbors' land. Some oilmen made a regular practice of this type of operation. Obviously, one owner got more than his fair share—others, less. People in 26 out of 29 oil-producing states have found a way to divide their oil and gas so that each owner gets what is rightfully his. They simply put their small acreage together and share the costs and income. This system is known as POOLING. Such a system is needed in Texas. It is proposed in a bill now before the Legislature, HOUSE BILL 510. When the neighbors cannot agree, the Railroad Commission would set up a drilling block and see to it that the rights of all owners are protected . . . all costs and proceeds equitably divided. Oilmen who have made fortunes at the expense of others could not be expected to support House Bill 510. They are bitterly opposing it. But the responsible oilmen of Texas are overwhelmingly for it. So are the informed citizens who want to see justice done. Ask your Senator and Representative at Austin to support House Bill 510—so Texas, too, will have a reasonable and legal way to assure to each landowner his FAIR SHARE.

Okla. Lane Church Plans Revival

The Oklahoma Lane Methodist Church has announced plans for a week long Evangelistic Meeting. Rev. Franklin Wier, pastor of Sudan Methodist Church, will be the preacher for this meeting. He will be speaking each morning except Saturday at 10:30 a.m., and each evening including Saturday at 8:00 p.m., excepting Sundays when the evening worship regularly begins at 7:00 p.m., and the Evening Fellowships meet at 6:15 p.m. The Oklahoma Lane Methodist Church has recently re-decorated the Sunday School rooms of its building. The rooms were all painted a light beige. Vertical multi-color blinds were purchased and installed over the remodeled windows. The committee who made the purchase is Mr. and Mrs. Donald Christian, and Mr. and Mrs. Leon Billingsley. Other work done on the building this conference year included the remodeling of Sunday School windows, and the installation of some new rest room equipment. This work was supervised by Wendol Christian and Lee Jones. The Church has been using "The Lord's Acre" plan of raising funds for improvements on the church and parsonage. New living room furniture was purchased recently for the church parsonage, by the committee, Mrs. James Roach, chairman. The older organ was traded in for a new one this year. It is usually played for the church by Mrs. Donald Christian, Mrs. Sam Billingsley, or Miss Judy Billingsley. The total amount of all improvements for this conference year was reported to The Fourth Quarterly Conference by the Trustees as \$2378.

At the same Conference where Dr. J. E. Shewbert, Plainview District Superintendent, presided on March 10, the treasurer reported that the church has paid a total of \$2628 for Conference Related Benevolences, which includes, Ministerial support, other than the pastor, World Service, Mission Specials, College and Wesley Foundation work, and several free will offerings, the largest of which is for the Methodist Home for Children, Waco. The Church carries a full program of evangelism and education. Sunday morning and evening worship services, and Wednesday evening Bible Study and choir practice are held. The Sunday School is superintended by R. E. Blankenship. The Sunday Evening Fellowship studies and meetings are held for children, youth, and adults at 6:15 p.m. The Woman's Society of Christian Service has 22 members who meet on Mondays at 2:00 p.m. during the school term. The Methodist men report 20 members, and they meet for breakfast and program on fourth Monday mornings at 6:00 a.m. The Youth Fellowship meets on Sunday evenings. The Sunday Evening Adult Fellowship study "The Adult Bible Course" under the teaching of Mrs. R. E. Blankenship, Mrs. Donald Christian, Mrs. Douglas Gossett, and Mrs. Johnnie Rundell work with the children using "Extra Sessions" materials on Sunday Evenings. "This Church has about the highest participation and achievement mark of any I have been privileged to serve as pastor," says the Rev. Douglas W. Gossett, who has been with the church since June 1, 1961. His family is composed of "Betty", his wife, and their two children, Warren, 16, and Linda Gayle, 11 years of age.

The Director of the Texas Department of Public Safety in Austin today reminded the 1,300,000 motor vehicle owners who haven't secured their 1963 inspection stickers that they only have two weeks to do so. Col. Homer Garrison Jr. said that as the April 15 deadline for inspections approaches, waiting lines will begin forming at the 5,000 official inspection stations. "Under the law there can be no extension of the deadline, and motorists who fail to display the new sticker on and after April 16 are subject to arrest," he said. Authority for the enforcement of the provisions of the Motor Vehicle Inspection Act is vested in law enforcement officers of the Texas Department of Public Safety, any sheriff or deputy sheriff and any city policeman.

Expert Badge To Stanley Wilson

Army Sgt. Stanley R. Wilson 23, son of Mr. and Mrs. Bay Wilson of Muleshoe recently received an expert badge for firing the 106 millimeter recoilless rifle while assigned to the 1st Armored Division, Fort Hood.

Sergeant Wilson is a squad leader in the headquarters company of the 46th Infantry's 1st Battalion. He entered the army in November 1961 and is a 1958 graduate of Muleshoe High School.

ELSIE HARDAGE

JUNE MAGNESS

Shown in these pictures are the winners in the Ladies Bowling Tournament held recently in Farwell. Singles winner was June Magness with a (handicap) score of 692. All events winner was Elsie Hardage with a score of 1460 (scratch). Winning team was Magness Real Estate, Elsie Hardage, Velma McDorman, Carrie Hardage, Jerrye Tharp, and June Magness, not shown. Team score was 2960 (handicap). Winner of the doubles were Mona Hardage and Sharron Norton with a score of 1267. A picture of the doubles winner was unavailable.

Two Weekend Accidents

Two accidents were investigated over the weekend by highway patrolman Carol Parker. The first of the accidents involving cars driven by Elmer Hargrove and Larry Gregory happened at 3rd St. and Ave F., Friday afternoon. Gregory and Kevin Hargrove, riding with his dad in the pickup, were examined by a physician following the accident but were released. The Hargrove pickup, a 1962 Chevrolet, was damaged in the amount of \$400. Damage to the Gregory car, a 1962 Corvair, was estimated at \$700. The second of the accidents involving cars driven by Patricia Kaltwasser Farwell and Rosalie Davalos, Clovis, was investigated at 4:30 p.m. Sunday. The accident happened on Highway 70-84. Damage to the Kaltwasser car, a 1963 Ford, was estimated at \$100 and damage to the Davalos vehicle was \$80.

Farwell Tracksters Third At Hale Center

Coach Dempsey Alexander's Farwell Steer Tracksters, came home from the Hale Center Relays Saturday with a third place win. Petersburg was first at the meet and was closely followed by Springlake. Farwell amassed a total of 64 points behind the scores of Leon Lovelace and Roy Donaldson, who each had a total of 18 points during the day. Winner of the broad jump with a leap of 18:11 3/4 ft. was Roy Donaldson, who also won a

second place in the 100 yd. dash with a time of 10:03. Leon Lovelace threw the discus 139 ft. 1 in. to win first and threw the shot put 44 ft. 1 in. to take second in that event. Danny Lindop was first place winner in the high jump with 5 ft. 4 in. Gareld Chisman with a time of 5:04.2 was 4th in the mile run. Butch Ford placed 4th in the 120 yd. high hurdles with a time of 16:05. Mile relay time was 4:42 for a 6th place and the 440 relay team with a time of 10:03 was second.

The locals were hurt by the absence of Jerry Childs and Larry Donaldson, who were attending a student council meeting in Abilene. Coach Alexander says the boys are showing progress in each meet as these are the best times turned in this year. The boys will be in Kress this weekend for the Kress Relays. This is the last meet before the district track meet. Farwell has participated in three meets this year winning second in one and third in the other two.

Honey Bees Busy
NEW YORK (UPI) — Bees produced a record crop of nearly 275 million pounds of honey this year despite a 1 per cent less hives than last year. This represents a 12 per cent increase over the 1960-61 average.

The NEW Santa Fe Trail

A report on some of Santa Fe's newest milestones
BY THE PRESIDENT OF THE SANTA FE

In 1963, Santa Fe is investing some 90 million dollars on new equipment and improvements. All this money is being used to keep the Santa Fe up-to-date in every way. As a matter of fact, so many new and exciting things are happening on the Santa Fe today that some people are calling it "The New Santa Fe Trail." Here are just a few highlights of the many improvements.

- 2548 new boxcars.
- 500 Mechanical Temperature Control cars.
- 550 covered hopper cars.
- 194 double and triple deck autoveyors.
- 181 flat cars.
- 68 new diesel locomotives.
- 24 hi-level passenger cars.
- 31 semi-lightweight mail and baggage cars.
- Increasing our microwave communication system to 2064 route miles.
- Experimenting with new and more efficient freight cars such as compartmentalized cars for automobile parts.
- Advancing our piggy-back operations to include joint rail-truck rates.

And we haven't been standing still up until now. We've invested over a billion dollars in progress since World War II. For example:

- The new cut-off line into Dallas.
- Major line relocations in Arizona.

The railroad that is always on the move toward a better way

Ask a Pontiac owner how he likes Wide-Track and you'll know why we put it in Tempest.

Try a Wide-Track Tempest on a road like this and you'll begin to wonder if there really are any roads like this.

Look at Tempest's price sticker and when you get through kicking yourself for not doing all this sooner —Grab it.

FOOTSAVING EDUCATION

by James E. Edwards

Why We Won't Compete With Discount Stores!

Drastic price cuts would prohibit us from giving you the quality products and services you want and have come to expect from our shoe department. For instance:

1. **REPUTABLE BRAND NAMES.** We would not be able to offer you the quality materials, workmanship, and long wear that you get with our carefully selected, established brand names. Likely as not you would end up spending the money you "saved" by buying new shoes more often.

2. **SKILLED FITTING.** You would not have the benefit of the years of experience and knowledge of our skilled, professional shoe fitters. You would be on your own to find your size. Your youngsters would take the brunt of this hit-or-miss fitting, because proper fit now is vital to good foot health in later years.

3. **COMPLETE SIZE RANGES.** There is no such thing as an "average" foot, but a price cut would demand that we stock just a limited number of the so-called "popular" or "average" sizes. Your exact size might not be there.

4. **NEWEST STYLES.** A style selection means a bigger investment, so we couldn't offer you much of a style choice in men's women's, or children's shoes. Our reputation is at stake with every pair of shoes we sell. And that's something we will not gamble away by selling cheap, "bargain" shoes. It makes good sense to us, and we're convinced it will to you, too. May we serve you?

THE HIGH PLAINS FARM AND HOME

Weed Control Conference At Hub Was Well- Attended

A conference on chemical control of weeds was well-attended at the Hub Community Center last Thursday. The meeting was sponsored jointly by the County Extension Service and the Texas Experiment Stations.

Three representatives from the experiment stations gave the gathering of farmers the latest findings on chemical control of weeds, and pointed up its efficiency and economy over hand labor.

"Farm labor is becoming more difficult to obtain, and in the future it may be necessary to eliminate hand hoeing if we are to continue row crop production," stated E. B. Hudspeth Jr., agricultural engineer with the U. S. Department of Agriculture, Texas Experiment Station, Lubbock.

"The real benefits in eliminating hand hoe labor in the immediate future would be the possibility of lowering the cost of production," Hudspeth said. He pointed out that the use of post-emergence herbicides

offers a good possibility of reducing or eliminating altogether hand hoeing in cotton grown on the High Plains.

"Cotton in 40-inch rows was produced without hand hoeing at the Lubbock station in 1962," Hudspeth said. He said the cotton was planted May 1 and the weeds were controlled with a rolling cultivator from the time of emergence until July 9.

On July 9 a multi-purpose, wheel-type post-emergence spray applicator was used to apply Diuron and a surfactant in a 10-inch band across the drill row. On July 19, the same applicator was used to spray the middles and ten days later a second broadcast application was made.

A cultivator or hand hoe was not used in the plots after July 9. Total cost of the chemicals used throughout the season was less than \$5 per acre, and could have been less, Hudspeth said.

A. P. Wiese, agronomist with the Southwestern Great Plains Field Station in Bushland, dis-

cussed the pre-emergence application of diuron.

In pre-emergence application, rainfall must activate the chemicals. It was pointed out that weather records show that pre-emergence applications of diuron will be activated by rainfall two years out of three.

Under favorable conditions, diuron reduced hoeing costs in weedy fields, and the cost was only about \$1.50 per acre. Weed control in sorghum has also been studied since 1950 at the Bushland station. Early studies have shown the feasibility of using 2,4-D for broadleaf weed control. Later studies showed that the chemical could most safely be used near sensitive crops when applied in high carrier volume and low spray pressure.

Later trials have shown that propazine is the most promising for a pre-emergence herbicide for sorghum which control both grasses and broadleaf weeds and not be toxic to cotton.

The specialists recommended that good seedbed preparations prior to planting, along with cultivation, rotary hoeing or harrowing, is probably the cheapest way of controlling weeds in sorghum.

In discussing close-row spacing of cotton, Hudspeth said a five-year study had shown that yields averaged 10 per cent higher on close-spaced rows than on conventional 40-inch rows.

"No special difficulties were encountered in the planting and weed-control operations, and mechanical stripper harvesting could be adapted to close-row planting," Hudspeth reported.

He said that general observations showed yield increases ranging from six to 25 per cent; lint yield increases as high as 165 pounds per acre. Fiber quality measurements and the results of close-spacing are as yet inconclusive. Fertility and water relationships and the effects, if any,

on fiber quality caused by close-row planting need further study, Hudspeth said.

Clovis Man Named Conference Prexy Lazbuddie FHA

New president of the Southwestern Savings and Loan Conference is Lynn L. Martin, executive vice president and director of the First Federal Savings and Loan Association of Clovis, New Mexico.

Martin's election to office was announced last Wednesday night at the annual banquet of the 41st Annual Convention of the Conference in Corpus Christi. Other officers announced along with Martin include: W. Marion McGough, first vice president, Greenville, Miss.; J. B. Douglas of Tecumseh, Nebraska, second vice president; and Herschel J. Rogers of Brownsville, secretary-treasurer. Robert G. Lake of Pratt, Kansas, is immediate past president of the Conference.

Martin is active in business, civic and religious affairs in Clovis. He is a member of the

U.S. League Committee on Federally Chartered Savings and Loan Association, and is immediate past president of the New Mexico Savings and Loan League.

Attends Meeting

By Jan Nowell

The Lazbuddie Future Homemakers of America attended the Area I FHA convention at Lubbock March 16. Gayla Seaton ran for the office of treasurer of Area I, but was defeated in a run-off.

The chapter is very proud of member Mariana Gammon, who will represent Lazbuddie High School in the state chorus in Dallas, one of four altos going from the area.

After the meeting, the girls went bowling before returning home. Mrs. Charley Walton, the chapter's advisor, accompanied the girls on their trip.

Use a curved, pointed grapefruit knife to remove soft-balled eggs from their shells.

Harts Buy Bull From Kepley

Dale and Laura Hart, Friona, have purchased Red Buddy P28-2763, a three-year-old bull, from F. E. Kepley, Farwell, Texas.

The new animal is a registered Milking Shorthorn and the record of the transfer of ownership has been made by the American Milking Shorthorn Society at Springfield, Missouri.

TRAINING FUTURE FORECASTERS in the art of forecasting weather the way the Indians did it years ago is J. W. Crim of Lazbuddie. In this case the future forecasters are Crim's grandsons, who attend the family ritual each year. Crim noted that the smoke was carried almost due north by the southerly wind, promising "no more" rain than we had last year.

WITH THE COUNTY AGENT

DERYL COKER

By Deryl Coker

Since we have lost a fairly large per cent of our wheat, especially on the beds, we probably will have a more severe weed problem than usual. I have noticed that a lot of wheat fields have a good stand of *Lans Mustard*, and *Pepper weeds*. Field control of these weeds is fairly easy at this time of the year.

Control can be obtained by using one-half pound per acre of ester or acid formulations of 2,4-d applied as soon as the wheat is fully tilled in the spring (Feb. 15 to April 1). Spraying wheat before it is fully tilled reduces the number of tillers which produce heads. Spraying during the boot or flowering stage may cause poor seed set.

Last week we had a county-wide weed meeting, in which experiment station personnel dis-

cussed weed control in cotton and grain sorghum, using the new chemicals that have come on the market the last year or two. There is certainly a place for these chemicals in weed control and if they are properly used, complete weed control can be obtained.

Probably the best news obtained at the meeting was that Karmes D. L., plus a surfactant can be used as a post-emergent spray and does give excellent weed control at a cost of less than \$1 per application. If anyone is interested in chemical weed control I have some good information in the office. Later on I will go into more detail on the subject.

There is nothing that will replace good seedbed preparation prior to planting, however, but it is certainly nice to know that we do have chemicals that will do a nice job of controlling weeds.

95 Per Cent Of County's Farms Sign For Program

A total of 1202 Parmer County farms signed up for participation in the 1963 Feed Grain program, according to Prentice Mills, office manager of the Parmer County Agricultural Stabilization and Conservation Service.

This number compares to a total of 1266 eligible farms in the county, Mills pointed out, or roughly 95 per cent participation among the eligible farms.

"Actually, with the exception of four or five fairly large grain farms, we signed up almost all of the farmers who have any grain base to speak of," Mills

said. Of the participating farms signing up, a total of 63,375 acres were pledged as diverted acres for 1963, with the remaining 200,689 acres to be planted in grain.

This represents a decrease in the number of layout acres as compared to 1962, and an increase in the number of acres to be planted, the ASCS official stated.

The total diversion payment to be earned by the 1,202 farms in 1963 amounts to \$1,197,650, it was announced.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

The 14th annual membership kick-off banquet held at the Farwell School Cafeteria and served by the senior girls and their mothers on the 18th, was, in our opinion, one of the best in history - The meal was delicious, service was courteous and continuously good. Table decorations, depicting patriotism and part of Farm Bureau's export marketing program, were unusually good. Mrs. Vernon Symcox did the decorating, we understand.

President Hamilton got the meeting going, and things kept moving right through the fine address by Odell Frazier, of the Levelland Farm Bureau, then, Vice President Frank Hinkson took charge, gave instructions and community workers got together and planned their work, and it was over. Sixty four were present.

We are glad to see H.S.R. 247, by Clayton and Moyer, introduced in Texas Legislature last week, urging the 58th Legislature of the State of Texas to go on record in opposition to the policy of the United States Arms Control and Disarmament Agency. We hope you are already familiar with this subject, and that you will keep abreast of any developments regarding it.

And then there is another, H.S.R. 234, by Macatee, opposing the same Disarmament Proposal, and stating that The House of Representatives will consider unconstitutional any such agreement surrendering the sovereignty of this nation to the United Nations. Farm Bureau favors both of these bills, and if you do, why not write your legislator in Austin and encourage him to vote for the bills.

Another, S. B. 230, which we mentioned sometime ago, and received some inquiries about, has been amended to strengthen, and reported favorably out of the Senate Committee on Jurisprudence last week. Senator Owen authored the bill, and it would prohibit the display of the flag of the United Nations on any property owned by the state, County, Cities or any political subdivision in Texas, and providing appropriate fines for violation. Your letters on this will be well worth while, too, we believe.

We would like to give our personal endorsement to Joe Jones, Jack Patterson, and all others associated with the March of Dimes for the fine job they did in helping get your contributions together, and then putting them to work in the most appropriate manner, rather than leaving the funds in account, doing no one any good.

CONSIDER THIS: Hell and destruction are before the Lord; how much more then the hearts of the children of men? Proverbs 15:11.

"CONSERVATION FARMING IS 'OUT OF THIS WORLD'!!"

According to the Washington Daily News local taxpayers increased their debt from \$3.8 billion to \$12.1 billion for schools from 1952 to 1960.

The Philippines Republic has swapped position with Cuba as America's No. 1 source of cigar imports, says the Philippine Tobacco Board.

From the Carlsbad, New Mexico, Current-Argus: "Half of the U. S. women getting married now do so before the age of 20, and the men they wed are two and a half to three years older. Assuming that this pattern continues, there will be about 90,000 more women than men of typical marriage age by 1965. The following year, maidens will outnumber youths by almost 365,000. That will be the high point of imbalance, but as late as 1968 young women are still expected to be substantially more numerous than the young men."

Ralph T. Moore writes in the Oregon Victor: "Just about every thinking person in these United States, from the President on down, is deeply concerned with our tax situation and what it is doing to our economy. A current cartoon epitomizes the issue rather well when it depicts a taxpayer leaning over a fence to watch an attractive federal taxcut prospect, while a horse of local and state taxation approaches with teeth a-gape to take a big bite out of his, the taxpayer's, rear. And so it goes all over the nation. The higher taxes so blithely voted in past years now return to clobber us where and when it hurts the most."

You can always spot a well-informed man. His views are usually the same as yours.

Cotton Variety Test Is Reported

Thirty varieties of cotton were tested at the High Plains Research Foundation in 1962. The lint yields ranged from a high of 825.88 to a low of 452.82 pounds of lint per acre. The average was 609.5.

Each variety was planted at the rate of 32 pounds per acre with a spacing of 40 inches between rows. Rainfall received from April 1 to October 1 amounted to 19.07 inches. One irrigation of 3.24 inches was made on August 15.

There was no significant difference in yield of the first twelve of the thirty varieties tested. The yields in these 12 varied from 825.88 to 657 pounds. There was little evidence of disease or insect damage in any of the varieties. The 30 varieties were originally planted on April 27, but a severe hail destroyed the complete test on May 16. All varieties were replanted on May 23 when the soil temperature was 65 degrees Fahrenheit.

The research was conducted by Barry Love and Paul M. Belcher of the Foundation's staff. Their report No. 57 issued several days ago included early vigor, bloom date, stand, height, number of bolls per plant, per cent open bolls, storm proof rating, ginning per cent and lint yield pounds per acre.

Off To England For Grain Sorghums

Dr. N. W. (Nick) Kramer, grain sorghum specialist at the Paymaster Seed Farm, Aiken, left this week for London, England, to participate in four meetings with feed manufacturers and feeders to talk about the "Quality factors in grain sorghums as related to its nutritional value."

These meetings are sponsored by the U. S. Feed Grain Council and the Foreign Agricultural Service of the USDA. The Grain Sorghum Producers' Association is part of the Feed Grain Council.

"The object, naturally," said Kramer, "is to improve the exporting of feed grain from the U. S. to the United Kingdom." Kramer said that the two big feed grain meetings will be held in London, England, and Dublin, Ireland. The other two meetings on the islands will be determined later. The persons to whom Kramer will be talking will not be farmers and cattle feeders, but mostly feed manufacturers, swine and poultry feeders. Kramer said that the beef cattle industry in England was well es-

tablished and had good forage sorghum specialist to be invited to participate in foreign feed grain economics. Up to this point, most all our representatives overseas have been from colleges, universities, experiment stations, and governmental agencies.

Another thing which Kramer and the Feed Council will try to sell, besides quality grain sorghum for concentrated feeds for mixtures to the manufacturers, is the idea that grain sorghum tariffs should be lifted and put on an equal basis with corn. At the present time, corn may be imported by England with little or no tariff, but grain sorghum carry a 10-cent tariff on each bushel.

As Kramer said, "My job is to sell U. S. grain sorghum to the manufacturer, the feeder and the politicians." Incidentally, Dr. Kramer is the first U. S. commercial grain

The HAPPY HOMEMAKER

BY JUNE FLOYD

At this time of year most homemakers begin thinking of planting seeds indoors for transplanting later in the season. Several Parmer County homemakers have cabbage plants, tomato plants, pepper plants and several varieties of flowers already growing in boxes and cans.

Annual flowers and vegetables that dislike being transplanted may be sown in individual plant containers or in peat pots. By using these containers and pots it is possible for any gardener to transplant all plants without disturbing the root systems.

Some plants that will profit by using this method are cantaloupes, watermelons, lima beans and some varieties of flowers. Individual containers are quite small and a large number of them may be placed on a small space.

After the tiny plants come up and all danger of freezing is past the container is placed in the soil and there is no shock or set back for the root systems.

Knowing when to plant vegetables and flowers is of utmost importance to anyone interested in growing them.

Some vegetables are called "hardy" because seedlings and small plants will live even if a light frost should occur when they are growing. These are the vegetables you can plant as soon as frost is out of the ground.

In alphabetical order, they are: asparagus, beet, cabbage, carrot, chard, kale, lettuce, onion, parsley, parsnip, pea, radish, spinach, turnip and New Zealand spinach.

"Half-hardy" vegetables, to be planted when danger is a heavy frost is over, include broccoli, cauliflower, celery, endive and kohlrabi.

"Tender" vegetables, which must wait until all danger of frost is past, are bean, corn and potato; while cucumber, eggplant, lima bean, melon, okra, pepper, pumpkin, squash and tomato are "extra tender" and soil temperature should reach 60 degrees before seeds are sown.

Larkspurs are one of the annuals that grow best when the weather is cool, even cold. That's the reason their seeds should be sown just as early as it's possible to do so. It even may be better to sow on soil that hasn't been carefully pre-

pared than to wait for weather which permits tilling.

Certainly larkspurs are among the most beautiful of annual flowers. Their long spikes of bloom in deep or sky blue, pink, red, salmon or white give a lift to the late spring or early summer garden. They are exceptionally good cut flowers and, even when there isn't a bud in sight, the dark green, finely cut foliage is a pretty sight.

Two salads which are tasty and yet a little different are Pineapple-Cottage Cheese Mold and Kidney Bean Salad.

Pineapple-Cottage Cheese Mold

2 tablespoons gelatin
3 tablespoons cold water
1 cup pineapple juice or pineapple juice plus water
2 tablespoons lemon juice
2 tablespoons sugar
pinch of salt
1/2 cup drained crushed pineapple (9 ounce can)
1/3 cup finely chopped celery
1/3 cup cottage cheese
Sprinkle gelatin on cold water and soak a few minutes. Heat fruit juices, add sugar, salt, and gelatin. Stir until gelatin is dissolved.

Chill until thick enough to hold solid food in place. Stir in the pineapple, celery, and cottage cheese.

Pour into small loaf pan or individual molds.
Chill until firm.

Kidney Bean Salad

2 cups drained cooked or canned kidney beans
1/3 cup thin tart dressing
1 small onion sliced in rings
1/3 cup chopped celery
1/4 cup chopped sweet pickles
Salt and pepper to taste
Mix beans and dressing; chill an hour or more. Turn beans in the dressing occasionally so they will absorb the flavor.

Just before serving, add rest of ingredients. Mix lightly. Season to taste.

Serve in lettuce cups, garnished with slices of hard-cooked egg.

Hinn, New Variety Soybean Is Introduced

HALFWAY -- A new variety of soybean was introduced Saturday during the semi-annual meeting of the board of directors of the High Plains Research Foundation.

The new variety, Hinn, was named by Dr. Earl Collister, breeder and developer of the strain, to honor Harold Hinn, chairman of the executive committee and board of trustees. Mr. Hinn has been one of the strongest supporters of the Foundation since before its conception.

Hinn variety has already been approved by the state board of certification. Its development has come about over the past two years at the Foundation by Dr. Collister.

Field production of certified seed will be carried out this year. The Foundation will make contracts with cooperating farmers over the area. The seed will then be turned over to seed companies next year for sales and expanded production.

Because of its charter, the Foundation will not participate in the sales of the seed. Production of seeds this summer will be overseen by the staff, but only for certification and proper cultural practices.

When asked about the seed's characteristics, Dr. Collister said simply, "It's good."

The plant breeder and director of the High Plains Research Foundation stated the Hinn variety virtually does not shatter. The lack of shattering and increased yields will make the Hinn variety superior to the Lee and Hill varieties now considered the only adapted varieties for growth on the High Plains.

Yields by Hinn at the Foundation the past two years have averaged about 45 bushels, Collister said, adding "We've not had good conditions here either year, with hail almost wiping us out in both."

NEW SUB STATION
A sub station will be established by the Research Foundation in the Valley this year, with approval being voted at the meeting.

The station will be established between Edenberg and Harlingen. No land is dedicated to the station, but work in flame cultivation, as in the past two years, will be carried on with cooperating farmers of the area.

Don Staggs, recently promoted from field assistant to laboratory assistant, will handle the operations in the valley.

Farmers in the Valley area requested the sub station. Because of the very successful work carried out there the past two winters, they decided they wanted more of the same, so year-round work will now be carried on.

Valley supporters guaranteed complete financial support for all personnel and equipment needed for the work down there.

FIELD DAY SET
The Foundation's annual Field Day will be held Sept. 10 this year. It will combine the two field days held annually in the past, the flame cultivation and annual crops demonstration.

REQUESTS GRANTS
Among the grants requested for research at the Foundation are one for \$73,400 for a four-year period from the Cotton Producers Institute and one for \$36,000 from the Plains Cotton Growers, it was pointed out at the meeting.

The DuPont Chemical firm has (Continued on Page E)

NITROMITE

82.2% NITROGEN

A PRODUCT OF THE SHAMROCK OIL AND GAS CORPORATION

NITROGEN FERTILIZER

TIME The period of greatest utilization of nitrogen by all crops is the 6 to 10 weeks following germination. By the end of that period the die is cast and any deficiency in nitrogen cannot be overcome by later application. The plant and its fruit will reflect that deficiency regardless of how well cared for otherwise. This means that for maximum effect on the quantity and quality of the crop, the nitrogen should be in the soil waiting when the crop is planted, available from the first day the plant can utilize it. There is much to be said for Fall plow-down and side dress applications of nitrogenous fertilizer. But the single most important consideration is that nitrogen be available during the plant's early growth. It means that if you haven't fertilized with a high-nitrogen fertilizer since harvest, it would be wise to do so as soon as possible.

Your Nitromite dealer is ready now to put this profit maker to work in your fields. Call him right away. He has all the information on the Shamrock Farm Credit Plan.

108 PILE CLOVIS

to come by the County Agriculture Agent's office in Farwell and secure beet seeds for experimental plots in 1963. Holly Sugar Corporation, which is to begin construction of its \$18 million sugar refinery near Hereford in the next few weeks, sent a 50-pound sack of seeds to the county agent's office, for use by anyone who might want to try them. "For those farmers who have never planted beets, we will try to give them what information we can, although at present we are like most every-

one else -- we are inexperienced in growing beets," said County Agent Deryl Coker.

Coker emphasized that the extension service office would work with Holly Sugar Corporation and the area farmers in keeping farmers abreast of developments regarding signups for acres and so forth.

There will be no limit on the amount of seeds farmers can have -- they may have whatever they care to plant, Coker said.

FIRST ICE IN TEXAS

Ten cents per pound was the cost of ice in Texas in 1875. That's the year the first ice plant was established in Texas.

Site of this first ice plant is on the present Marion County Court House grounds in Jefferson, Texas, in the North East part of the state.

Later, this ice plant was moved to Harrisburg. Had ice plants flourished more rapidly in Texas, who knows, we might be larger than Alaska today.

To Trap A Fox

You fox trappers can make more and faster catches by using bacon.

Just place one or more strips of raw bacon on an overhanging limb, or on a pole with cross stick, about three feet above a stump. Set the trap on the stump.

Fox will be caught as he leaps for bacon.

'WE WONT WASH OFF THIS FIELD, ITS TERRACED.'

Call Screwworm Headquarters When Infestation Is Found

Knowing immediately where every screwworm case in the Southwest is located has become so important to the eradication program that arrangements have been made so livestockmen can call the Mission headquarters collect when an infestation is detected.

When a screwworm case is found, officials would like producers to do two things: (1) collect about 10 worms from the wound, place them in water or alcohol and hold for further instructions and (2) report the infestation to eradication officials by calling collect to Justice 5-1646 (Mission). No telephone call should be made unless a sample is available. The following information should be available at the time the call is made:

1. Name; 2. Address and telephone number where producer can be contacted; 3. Date when sample was collected; 4. Location of farm or ranch where case was found; 5. Location of wound on animal.

Producers are urged to call day or night, whenever the infestation is found. At night or on weekends, the information will be relayed to eradication officials, who will contact the producer for further information and instruct him to either mail the sample or hold it to be picked up by a livestock inspector.

From the information received, a determination can be made as to the action that is necessary. In many cases, a screwworm livestock inspector will be sent to the premises to pick up the sample and obtain additional information. If the sample is identified as a true screwworm, sterile flies will probably be dispersed in the area.

The key to the system, officials said, is that sample of worms be collected at the time the wound is detected. Without the sample, they won't know whether the infestation was from a screwworm or from some other maggot, similar in appearance and characteristics. Screwworm infestations are now at a minimum, the eradicators said, and through

prompt reporting, action can be taken to prevent the infestation from mushrooming into a large scale outbreak.

New Polyethylene Pipe May Boost Water Conservation

Farm and ranch owners who are faced with the problems of water conservation and the need for a more economical method of supplying water to livestock, may find their best answer in a new coil-type high density polyethylene pipe which has been recently field and laboratory-tested and approved by the National Sanitation Foundation, according to A. J. Brumbaugh, agricultural marketing authority of the Southwestern Plastic Pipe Company, Mineral Wells, Texas.

"Polyethylene not only has become one of the most reliable types of water system piping available, but high density polyethylene meets the United States Department of Agriculture requirements for Practice B-8

plastic piping," Brumbaugh stated. "This is a very important factor. It is a comparatively new type of polyethylene, which is made of first-quality basic ingredients. NSF-approved polyethylene pipe can be safely used for drinking water systems, notably in stock watering lines, but it is equally suitable for domestic systems serving the farm and ranch home."

It was also pointed out that one of the principal advantages of using this type of plastic pipe for farm and ranch watering systems is the fact it has a high tensile strength, and generally will withstand even the lowest temperatures. It is resistant to minerals and acids, which sometimes deteriorate

metal piping. This means it will not rust or corrode, Brumbaugh said.

"There are a number of other types of plastic pipe on the market today, but for a good low-cost watering system, high density NSF - Approved polyethylene pipe will prove to be a sound investment for any farm or ranch owner," the Southwestern Plastic Pipe official concluded.

A packet of applications bulletins and descriptive information on how to select and install plastic piping for farm and home water systems is offered, without charge, by the company, Brumbaugh said. Address Southwestern Plastic Pipe Company, P. O. Box 340, Mineral Wells, Texas.

Hinn, New Variety--

(Continued from Page C)

been contracted for a research grant on the company's weed chemicals and herbicides.

The board gave voted permission to the executive committee to sell the land on which the original office building and equipment shed once stood, should a reasonable offer be made. The house would be moved.

Plans for a new steel equipment shed were shown to the board. It is hoped by the board a grant requested from the Clayton Foundation for \$18,490 would pay for the U-shaped structure. A gin building for testing gin unit would also be figured in on the construction.

Present location ideas for the buildings would be near the new Foundation office building.

Delbert Langford pointed out that in the very near future the Foundation would be needing additional acreage to conduct experiments, should requests continue to flow in. "At present we have almost 6,000 plots on the 310 acre farm," he said. "We must have uniform soil conditions for crops, but using various amounts of fertilizers and chemicals and having so many tests, this is hardly possible any more," he pointed out.

Langford said many plots are now being planted on neighboring farms through cooperation of the farmers.

SPORTS AFIELD

By Ted Kesting

It's true; real landlubbers are rare today. But the sportsman who goes out only in the boats of friends is likely to get just a passenger's viewpoint and, if each friend has a different sort of boat, he may get no real insight into any.

If you have yet to buy your first boat, there is one big, important point to remember: there are rules for good, safe boat buying, rules for any boat buying. You must follow them all; being a beginner is no excuse. Only experts can make exceptions — they alone can figure out a calculated risk.

A boat must be chosen to suit both the waterway it will be run on and the load it will carry; that is the basic consideration you as a first-timer must never lose sight of. Nothing can reveal sheer imbecility better than buying a boat smaller than what the waterway calls for, simply because as is often said, it is easier for a beginner to handle. Only proper size can combat

steep waves, in a powerboat, and it's a genuinely safe bet no waves will ever level down because a novice is out in them.

This does not mean you have to buy a big boat, says Willard Crandall, Boats Editor, Sports Afield Magazine. The waves of the ocean, Gulf and large lakes, such as the Great Lakes, will not offer any problem, for you won't be going out on them. Not only are sheltered waters safer for those getting their experience, but also they afford quicker and more fun-filled chances to get that experience.

Of course, it is quite evident that circumstances vary for any first boat. Sheltered waters are of all kinds: swift rivers, tidal bays, quiet ponds, and so on; and they offer a variety of places on which to keep the boat as well as to run it.

An outboard of about 16 feet is about the most popular boat in America today; it's well-suited to a trailer, to one of intermediate size that's the easiest of all to learn to handle. For a first boat, you're wise to choose something outstandingly popular—since there's obviously less chance of going wrong in view of your inexperience. Besides, a 16-footer is a remarkably versatile boat. It's as good for the fun of family or guest cruising as for fishing.

Texas-Southwestern Cattle Raisers Re-Elect Officers

All officers were re-elected and five new directors were elected at the 86th annual convention of the Texas and Southwestern Cattle Raisers Association in San Antonio, March 18-20.

Officers are Leo Welder of Victoria, president; Fred Wulff of Brady, first vice-president; Ben Carpenter of Dallas, second vice-president; Joe Clarke of Fort Worth, treasurer; and Joe Fletcher of Fort Worth, secretary-general manager.

New directors elected to the TSCRA Board are William C. Donnell of Marathon, Benjamin Eshelman, Jr., of Corpus

Christi, Jay Pumphrey of Fort Worth, Ray Smyth of Aledo, and Oscar Evans of White Castle, La.

In his report to the convention, President Welder pointed out that membership in the Association stands at an all time high of 12,562 members and that membership increased more than six per cent last year.

Secretary-general manager Joe Fletcher reported that the

Association, in cooperation with local and state law enforcement officials, developed 214 cattle theft cases during the fiscal year ending February 28. These resulted in 283 years in the penitentiary plus one life sentence being assessed. Of these, probated sentences accounted for 97 years, and suspended sentences, 26 years. Thirteen cases were dismissed, and there presently are 150 cattle theft cases pending.

Fletcher said the Association's inspectors had inspected more than five and one-half million cattle during the past fiscal year. The field inspectors investigated the ownership of

1,535 cattle which appeared to be in improper hands. Of this number, 1,508 head, or the proceeds of same, were turned over to the rightful owners. The ownership of 27 head is still pending. The value of the returned cattle computed at the average price of those which passed through the markets amounts to \$145,779.45.

Fletcher emphasized the value of the Association in preventing cattle theft in these words: "Doubtless, our cattle theft problem would be much greater were it not for the fact that our market inspectors daily send in reports to headquarters describing all cattle sold on

posted markets in Texas, and listing the license number of the vehicle in which they were delivered and other pertinent facts which help in the apprehension and conviction of cattle thieves."

In a featured address, Senator Clinton Anderson of New Mexico said cattlemen in Texas and the southwestern quarter of the United States should have a great interest in every phase of water resources activity. "Serious shortage of water to

sustain growth—yes, to sustain even the present population—now exists in the extreme southwestern corner of the nation, the shortage area, and is moving steadily eastward," he cautioned.

Governor John Connally complimented the cattlemen for their efforts in raising funds through voluntary contributions to be used in the screwworm eradication program and said he was vitally interested in this program.

Dallas was selected as the site for next year's convention.

Club Entertains Home For Aged

Lazbuddie Future Homemakers chapter visited King's Manor, the Methodist home for the aged at Hereford on March 24.

The girls presented a short program for the residents, and afterwards were taken on a tour of the home. Refreshments of homemade cookies and punch, brought by the girls, were served to the residents, and gifts were presented.

Spinning reels were first used in England, around 1900.—Sports Afield.

Food chains with two or more stores had a sales volume of \$27,535 billion last year, according to Chain Store Age—a gain of 3.8 per cent over the previous year.

From the New York Times: "The 17-nation disarmament conference . . . is to give priority to the nuclear test ban talks broken up by the Russians in New York, but the prospects for success are slim because the scene is now dominated by the Soviet maneuvers to exploit the Western differences for their own ends. What these ends are is bluntly stated by the United States Arms Control Agency . . . In a report forwarded to Congress by President Kennedy, the agency accuses the Soviets of making their disarmament proposals solely as an 'extension of their foreign policy objectives aimed at expansion of Communist influence by gaining military advantage' and showing no desire to reach agreements to insure the security, freedom and independence of all nations." That is why, regrettably, the United States has resumed underground tests."

According to a Department of Agriculture publication, the persistence of a relatively high birth rate, a low death rate, and a moderate amount of immigration have made it likely that the U. S. population will rise to 245 million or more by 1980. That is 30 per cent above the present population of 187.5 million.

Shorthorn Journal Carries Hart Story

By Dale Hart, Friona, Texas

ON March 23, 1962, we entered our herd of Polled Milking Shorthorns in Performance Registry International, Denver, Colo. This was our first record as ours was the first Milking Shorthorn or any dual-purpose breed to be entered in PRI. So far we have weighed and qualified three calves for PRI certificates. Hartsdale Texas Master WR 22 was weighed and qualified for a PRI certificate on November 9, 1962. He scored our second first for the breed by being the first Milking Shorthorn or dual-purpose animal to qualify for a PRI certificate.

Our three calves to qualify so far are Hartsdale Texas Master WR 22, weaning at 249 days of age at 610 lbs. with a 2.45 lbs. per day of age, 217 lbs. of adjusted daily gain, 515 lbs. adjusted 205 day weight. Hartsdale Texas Royal, weaning at 245 days of age at 600 lbs. with a 2.45 lbs. per day of age, 216 lbs. of adjusted daily gain, 513 lbs. adjusted 205 day weight. This compares with the PRI standard of 475 lbs. at 205 days and 1.97 lbs. of adjusted daily gain.

Our heifer, Hartsdale Texas Regina, qualified, weaning at 223 days of age at 500 lbs. with a 2.24 lbs. per day of age, 1.93 lbs. adjusted daily gain, and 466 lbs. adjusted 205 day weight. The PRI standard for heifers is 173 lbs. adjusted daily gain and 425 lbs. at 205 days.

Now for the conditions that these records were made under, neither the cows nor the calves had a bite of protein or concentrates. They were just running out and under poor grazing conditions much of the time at that. They were grazed on over-grazed native grass, stalk fields, cot-

ton fields and what have you, just out roughing it. Also, the cows had two calves on them for about the first three months to take care of the extra milk. Even under these conditions our calves made better gains than the average of the beef breeds where the calves were creep fed and the cows caked.

David McVey, our Friona Vocational Agriculture teacher, who certified our test was very surprised at our records. He said that these gains were as good or better than many of the club calves that were being fed out for the shows, they being on nurse cows and a very high grain ration. Also, the county agent was very impressed with these gains. What would the gains have been under irrigated pastures, supplemental feeding of the cows, and creep feeding such as many of the registered beef breed calves were receiving while on test?

Some of the aims of PRI are to measure "grow-ability" rate of gain, efficient conversion of feed to meat, desirable carcasses, the searching out of superior herd bulls and brood cows and many others.

Our two bulls were also entered in our own Gain Registry program. Yes, we think we have a true dual-purpose breed.

(Editor's note: This article was featured in the March issue of the Milking Shorthorn Journal, a copy of which was sent to Farmer County Newspapers by Ray Schooley, managing editor of the Journal)

New "Hummel" Hunter

Hunting for a new figurine? Stop the search and add "Good Hunting" to your collection. This latest addition to the famous "Hummel" ceramics portrays a charming scene. A little boy huntsman is so laden down with gear he misses the rabbit standing right at his feet.

"Hummel" figurines are the most widely collected ceramics in the United States. Adapted from the sketches of the late Sister Berta Hummel each original design is made with meticulous care by the W. Goebel Company, Bavaria.

Hand tinted in subtle colors, "Good Hunting" stands 5 1/2" high and is available at fine gift and department stores.

Only authentic "Hummel" figurines are identified by the indented M. I. HUMMEL on the base of every piece. These markings assure you of an original design destined to become a collectors item.

Secretary of Labor Wirtz says the public will demand compulsory arbitration of labor disputes unless unions and management devise better ways for settling their arguments.

TEXAS COTTON GROWERS REPORT:

Entire Season Control of Thrips, Aphids and Mites...

Untreated plant at four weeks

Di-Syston treated plant at four weeks

Di-Syston Treated Plants Are Stronger, Straighter... Produce More Squares Earlier

West Texas and New Mexico cotton growers now have a new way to control thrip damage and early-season stunting... with Di-Syston granular insecticide. Di-Syston is placed in the soil with the seed or side dressed after planting. The chemical is then absorbed by the growing roots and carried to all parts of the plant through the sap stream—as soon as the plant emerges. No part of the plant is unprotected—even tender new growth as it is formed.

The result? With Di-Syston, your early cotton grows faster, has stronger, straighter stems, more vigorous foliage. Squares form earlier and the plant produces more of them. Many growers in the Lubbock area have reported full season control of thrip with just the one application. You get higher yields because of the good Di-Syston start. This year, get your crop off to a good start with Di-Syston. Complete instructions for use are printed on the label on every package. Use Di-Syston.

CHEMAGRO CORPORATION
KANSAS CITY 20 • MISSOURI

36 days that proved Ford's total performance!

RIVERSIDE, CAL.
January 20

In a total performance test of brakes, suspension and steering on the twisting Riverside sports car course, Dan Gurney drove a Ford hardtop to victory over 43 other stock cars. The 500-mile grind demonstrated Ford's superior stamina and road-holding.

MONTE CARLO
January 23

The '63 1/2 Falcon V-8 Sprints made their debut with a fantastic showing in the 2,500-mile Monte Carlo Rallye. Through Europe's worst winter weather they placed 1st and 2nd in class. Besides this... one Sprint defeated every entrant in the Rallye's six special stages.

PURE OIL TRIALS
January 27

In a competition designed to test all-around performance, Fords were overall winners in Class I and Class II in the Pure Oil Performance Trials at Daytona. Their total performance design added up to most total points in gas economy, acceleration and braking events.

DAYTONA, FLA.
February 24

Daytona "500" history was made when '63 1/2 Fords blazed into the first five places! Since Daytona is the toughest track in the world, this was eyewitness proof that Ford's total performance design can endure the maximum in automotive punishment.

... and here are the 63 1/2's that gave total proof of Ford's durability and handling!

You may never see a competitive auto event. But at 30 mph on rain-slick blacktop, in the close-packed rush of 5 o'clock traffic, on a twisting mountain road, the results are important to you. On every slippery surface you need the kind of roadability that placed five Fords out front in

the Daytona "500." On every busy cross street—you want the brakes that won on Riverside's sports car circuit. Your engine will hold up better through years of turnpike use because it's as beautifully balanced as Falcon's Monte Carlo V-8's. The winning competition car is bound to be a great road car—and Ford is the big winner!

If it's Ford-built, it's built for performance... total performance!

New Fertilizer Plant For Plainview

Plainview has been selected as site for a new fertilizer manufacturing plant.

Best Fertilizers Company of Texas announced Monday of its taking option on a 119-acre tract of land northwest of town, on the Dimmitt Highway. The plant will use only 50 acres of the tract, however.

The chemical complex will manufacture anhydrous ammonia, ammonium phosphate, super-phosphate, ammonium sulfate and other industrial chemicals.

In addition, a sulfuric acid manufacturing plant will be included as a subsidiary to the fertilizer production. This plant will have a capacity of 250 tons of sulfuric acid per day.

This is the second fertilizer manufacturing company to announce building plans on the High Plains in the past two months. Another plant for making anhydrous ammonia will be built at Dimmitt this year.

Completion of the new \$6.5-million plant is expected by Best Fertilizer officials to be sometime late this year. Upon completion the plant will be capable of producing 200,000 tons of chemical fertilizers and industrial chemicals annually.

Equipment and machinery have been ordered and construction will begin in about 30 days.

Credited with coordinating Best's location in Plainview are four members of the Plainview Chamber of Commerce: J. M. Collins, Chairman of the Industrial Development Committee, Mayor M. B. Hood, Hall

Nall and J. B. Wheeler.

The site was secured through Leroy Elmore, Lubbock realtor and land development specialist.

The facilities will be capable of producing 250 tons per day of sulfuric acid, as well as a complete line of dry, pelleted fertilizers which company officials describe as being especially well suited for improving crop production in the Southern Great Plains area.

Anhydrous ammonia will also be sold for direct field application.

Best Fertilizer Company of Texas has headquarters at Houston. Operations are directed by R. C. Dellinger, President. Kenneth Winborn is Vice President of Sales. The company markets its products throughout Texas and surrounding states through distributors and applicator-dealers.

Paul Lowry is Sales Manager for the West Texas area, and Dr. Gaylord Haynes is in charge of the upper Panhandle and Oklahoma. Haynes is especially well-known for his work with Oklahoma State University where he did extensive work on increasing crop production through the proper use of fertilizers.

The Disappearing Indian: Texas once had 46 principal tribes of Indians, ranging from the Ais (who lived along the Brazos and Colorado Rivers) to the Xarame, who lived where San Antonio now stands. The only tribe left is the Alabama Coushatta. They live on a 1,280-acre reservation in Polk County and have since 1928,

Ulcers are the results of mountain climbing over mole-hills.

Beef, Pork Are Featured On April 'Plentiful' List

April will be a good time to eat "high on the hog," both literally and figuratively.

Texas consumers also may well choose the better cuts of beef, because both pork and beef are on the nine-item April list of plentiful foods, reports the Texas Agricultural Extension Service.

The list features pork and carrots, as April supplies of each promise to run far above usual trade needs.

Beef rates a spot on the list for the first time in one and one-half years. Prices on both pork and beef are noticeably lower than last winter.

Also plentiful are milk, eggs, potatoes, peanuts and all peanut products, including peanut butter, canned freestone peaches and canned ripe olives.

The monthly list is prepared by the Agricultural Marketing Service, a part of the U. S. Department of Agriculture, in cooperation with producers, processors and the food trade. When supplies of any food exceed expected demand, it is eligible for official listing as a plentiful.

Distributors and retail grocers cooperate in the Plentiful Foods Program by providing special promotions, including lower prices on many items. Extension home economists

suggest that consumers will find it to their advantage to serve plentiful foods often, as foods in abundance usually provide economy, ready availability and wide choice in quality.

According to the Council of State Chambers of Commerce, if Federal expenditures were controlled at current levels the country could have tax cuts and still expect a balanced budget within a year or two. This conclusion was reached in a critical analysis of Administration budget proposals for 1964. That budget--of \$98.9 billion--would be 29 per cent above that of 1960, the last full budget year of the previous administration.
