

## FROM THE HOPPER

BY HOP, JR.

"PUT 'ER THERE" -- Robin Mahoney gets in position for a fast ball as Dale Camp is ready to swing, as the boys work out for Little League ball at Texico school Wednesday morning.

## Twin Cities Field Two League Teams

Little League ball for the junior players in the Twin Cities got underway this week, with both teams losing their first games, but working out daily in preparation for the next encounter.

The Lions, under the coaching of Johnny Green, were outscored by Charles Oil 12-1 at Bovina Tuesday night, Monday, the Red Tops were defeated by Parmer County Farm Supply 7-4. Darwin McLeod is directing them. Both local teams were slated to play last night (Thursday).

Traveling teams had not been selected at the first of the week, but are to be named soon. Boys who are not included on the traveling squads will have weekly workouts and possibly some swimming instruction, says Green.

Six teams are included in the league, the Red Tops and the Lions and Parmer County Farm Supply coached by Ken Horn; Oklahoma Lane Farm Supply by Harold Carpenter; Charles Oil by Nell Smith and Bovina Implement Co. by Don Compton.

Games begin at 7 p. m. Pitchers may pitch only six innings per week and all team members must bat once and play on defense one inning during each game. Games are played at Bovina.

Schedule for local teams appears below:

June 7 -- Lions vs. Bovina Implement, Red Tops vs. Oklahoma Lane Farm Supply.  
June 11 -- Red Tops vs. Oklahoma Lane Farm Supply  
June 12 -- Lions vs. Charles Oil Supply

June 14 -- Lions vs. Oklahoma Lane Farm Supply, Red Tops vs. Bovina Implement Co.

June 18 -- Red Tops vs. Charles Oil

June 19 -- Red Tops vs. Lions

June 21 -- Lions vs. Parmer County Farm Supply

June 25 -- Red Tops vs. Bovina Implement

June 26 -- Lions vs. Parmer County Farm Supply

June 28 -- Red Tops vs. Lions

July 9 -- Red Tops vs. Charles Oil

July 10 -- Lions vs. Parmer County Farm Supply

July 12 -- Red Tops vs. Lions

July 16 -- Red Tops vs. Bovina Implement

July 17 -- Red Tops vs. Parmer County Farm Supply, Lions vs. Bovina Implement

July 19 -- Lions vs. Charles Oil

July 23 -- Red Tops vs. Charles Oil

July 24 -- Lions vs. Oklahoma Lane Farm Supply

July 26 -- Lions vs. Bovina Implement, Red Tops vs. Oklahoma Lane

July 30 -- Red Tops vs. Parmer County Farm Supply

July 31 -- Lions vs. Oklahoma Lane Farm Supply

Fourth of July week is left open for make ups or exhibitions. An all-star game is planned with three members picked from each team and all-stars from the first, third and sixth place teams playing those from the second, fourth and fifth place teams.

## Local Lions To Meeting

Approximately 700 Lions and their ladies were in Ruidoso over the past weekend and through Tuesday to attend the state convention for Lions.

Principal speaker Monday morning was Dr. Jauncey of El Paso, who was winner of the Freedom Award in 1959. He spoke on "A Lion of Americanism" bringing out the aims of Lionism.

At the banquet on Monday evening, principal speaker was the president of Lion's International from Los Angeles.

Tuesday morning, election of officers was held. Local Lions say that their candidate Joe Helton who was on the slate for "Baby District Governor" received wonderful support since this was the first time the local group had attempted to have a candidate elected to a district office.

Attending from Farwell and Texico were Messers and Mesdames Elmer Teel, Joe Helton, John Getz, and James Ussery; also Otis Huggins, Robert Morton and Red Prather.

## Helton Tops Swift & Son

In Friday night's softball action, in Clovis, the Helton Oilers defeated Swift & Son Packing Company by a score of 5 to 1. The victory was credited to Raymond Hadley who allowed Swift & Son only three hits all evening long.

The loss was charged to Gene Semison who allowed the Oilers five runs off eight hits. Collecting hits for Helton were Albert Smith, Hadley, and H. D. Kelso who each got a pair. Jerry Henson, Eddie Smith, and Gene Echols got one each to wind up the action for the Oilers.

The next game is scheduled Friday night at the softball park in Clovis. Game time is 8 o'clock.

## Texico-Farwell Delegates To Boys' State Sessions

Vic Harrington and Willie Stover, representatives of the Texico High School to the annual session of Boy's State will leave Clovis, Saturday, for Roswell in company with the Clovis delegates where they will attend the Boy's State session on the campus of NMMI June 9-16.

Vic is the son of Mr. and Mrs. Russell Harrington and Willie is the son of Mrs. Drew Geer. Both boys are active in student affairs at the Texico High School where they were juniors the past year. Vic served as president of the student body the past year and Willie was selected to serve in the same capacity in 1962-63.

Bobby Actkinson, the Farwell High School delegate to Boy's State, is in Austin this week attending the Texas session of Boy's State.

Bobby is the son of Mr. and Mrs. J. T. Actkinson and was a junior student at Farwell the past year where he is active in all phases of school life. He has been selected to serve as president of the student body in 1962-63, is a member of the local chapter of Honor Society, and is president of FFA.

New-Tex Swimming pool, which had delayed its opening due to weather conditions and a few repairs, opened for business Wednesday afternoon at 1 p. m. By 3 p. m. approximately 75 persons had enjoyed a dip in the pool. Plans are for the pool to be open seven days a week 1-6 p. m. Arrangements for special parties may be made by calling Johnnie Green, pool manager. Fees for a party have been set at \$10, plus the lifeguard fee. All parties are to be after regular pool hours, Pat Hammond and Ronnie Madery are lifeguards at the pool.

## Texico City Board Has Busy Session

Texico City Commissioners, meeting in regular session Friday, were busy with complaints from citizens who felt that it was unfair to charge property owners with unpaid water bills of tenants.

Mayor W. D. Howard Jr. explained that it was not the policy of the commission to do so, but due to the recent repairs on the city water plant, the commission had no choice in the matter. The water and sewer bond issue when passed, had a clause which provides that all unpaid water and sewer bills may be charged to the property owner or a lien may be assessed against property until such time as the bill is paid.

Three building permits were granted; one to Olan Schleiter for the erection of a storage house on Garwood St.; one to Carliss Woods for an additional room at his home on Lamarr St., and the third to Carl Ryeburg for the erection of an office building at his car lot on Wheeler Ave. Olan Schleiter was also granted a permit to remove a portion of the curb at 412 Garwood and make a driveway.

Texico 4-H girls under the supervision of Mrs. Perry Winkles were granted the right to paint house numbers on the curb for property owners.

Harry Patton, city attorney, explained the recently passed water and sewer bond issue and some discussion was held on whether it would be feasible to raise the meter deposit to \$20 rather than the \$10 now required. Patton was granted authority to draw up an ordinance for the change and present it to the board at the next regular board meeting.

Bids are to be opened on the water bonds at the next board meeting also.

A report was heard from Sam Lewis, city judge, that a total of \$430 had been collected in fines during the month of May. The fines were levied for speeding, drunken driving, running stop signs and one case of an unlicensed dog.

The city will spray for mosquitoes in the near future with Russell Johnson to begin spraying as soon as weather permits.

Mr. and Mrs. Perry Winkles are shown here packing for a trip to the State Convention for Firemen and Firemen's Auxiliary members being held June 7-9 in Tucumcari. Winkles is assistant fire chief in Texico and his wife, Rada, is president of the local Auxiliary.

## Republicans Meet at OL

The newly organized Young Republican club held its second meeting Monday night in the Oklahoma Lane community center. Glenn Lust led the opening prayer and Harold Wilson led the group in the pledge to the flag. A committee of five was elected to set up several working committees and the group set (Continued on page 2.)

FIFTY-FIRST YEAR

SECTION I

## Light Session For City Dads

Farwell's city commissioners breezed through municipal business in less than an hour Friday afternoon during the monthly meeting. Bills were approved and paid, salaries were increased for two city employees, and a fire department request for equipment was considered.

Douglas Landrum, city maintenance man, was raised from \$320 to \$330 a month and Dorothy Eason, city secretary, was raised from \$300 to \$310. (This includes \$30 a month from Farwell Schools for tax-record work she does for them.)

Chief Otis Huggins has submitted a request to the city that they consider purchase of a resuscitator. Mayor

dridge and Commissioners Clarence Christian and Ebb Randol took the request under advisement and made arrangements to check out sources of supply to determine prices paid for such equipment.

The commission visited for a few minutes about other city business, including the upcoming street paving project.

Bills for the month of May: V. C. Venable, salary, \$135.00; Douglas Landrum, sal-

ary, \$310; Dorothy Eason, salary, \$256.61; Betty Stewart, office labor, \$67.50; Champ Landrum, weeds and trash hauling, \$21.50; Edward Copeland, weed poisoning labor, \$3.50;

Farwell Waterworks, water, \$3.70; Mtn. States Telephone, phones, \$33.60; Armstrong Pest Control, rodent control, \$3; Kemp Lumber Company, maintenance, \$24.50; Dwyer's Cosden Station, trash haul, \$3.25; Hughes Auto Parts, trash haul, \$8.93;

Texaco, Inc., \$113.79; Benger Air Park, insect dust, \$150; Farwell Hardware, insect control, \$12.41; Blain & Son, insect control, \$3; Ralph Humble, insect control, \$1.40.

## Texico Board Meets; Faculty Is Complete

Texico school completed its faculty this week with the hiring of two elementary teachers; Mrs. Nellie Rannals and Mrs. Lois Miller to fill the remaining vacancies.

Mrs. Rannals holds a BA degree in elementary education and has taught for the past 28 years with 18 being spent in the New Mexico schools. She has taught in Clovis for the past 15 years. She and her husband, V. W. Rannals live in the Oklahoma Lane community where he farms.

Mrs. Miller is a resident of Dawn but plans to move to Texico before the opening of school. She has just completed her work for a BA degree in elementary education. Mrs. Miller is the mother of four children, two sons who are students at WTSC in Canyon and two daughters, who are in nurses training. This will be her first teaching assignment.

Other new teachers in the Texico system will be Joe Corrigan who will replace Bob Teel as science teacher. Teel has a years leave of absence to study biology at the University of Utah in Salt Lake City. Gary Stelling will replace Harold Barnett as music director and Paul Crooks has been hired to replace Mrs. B. A. Rogers who is retiring. All other teachers you turn to the school.

John Hightower has been hired as lunch room director and Mrs. Paul Crooks as school secretary.

## Ten Students Enroll In Drivers Education

A special course in drivers education is now underway at Farwell High School with 10 students enrolled, according to Dempsey Alexander, instructor.

A marked lack of interest is being shown this year as the enrollment has dropped over 50% from the 22 students who were enrolled in the course last year.

The classes run from 8 to 10 every weekday morning in order to be eligible, a student must be 14 years of age or older.

Alexander states that in order to receive a restricted license, each student must have received 30 hours of classroom instruction. In this, the students study the basic mechanical principles of the automobile and the rules of being a good driver.

Upon completion of the classroom work, the student is then required to pass a special test prepared by the state of Texas. If he passes this test, he is then granted his restricted license. This license enables a student to drive only in his own neighborhood with a licensed driver in the front seat.

After receiving his restricted license, a student may get his permanent license by completing six hours of driving instruction. This is gained by actual driving under the supervision of an instructor.

Upon completion of the course, the boys that are enrolled are granted a 10% reduction in their auto insurance rates.

## Winkles Hurt In Accident

Perry Winkles of Texico was painfully hurt but not seriously injured Saturday, at his place of business, the Texico Blacksmith Shop, when a hoist on which he was working gave way, dumping a load of steel on his right foot and severely cut two toes.

Winkles was rushed to a Clovis hospital where the toes were later amputated at the first joint. He returned home Sunday and is reported to be resting well by family members.

## Tom Anderson To Speak in Clovis

Tom Anderson, editor-in-chief of Farm and Ranch magazine of Nashville, Tenn. will be in Clovis to speak at Marshall Auditorium tonight (Friday) 7:30 p. m. (CST).

Anderson has twice been winner of the "Liberty Award" once for his speeches and the Freedom Award of Freedom's Foundation at Valley Forge for bringing about better understanding of the American Way of Life.

## Range Honorary Kentuckian

Army 2nd Lt. Irby D. Range, 23, son of Mr. and Mrs. John Range, recently was made Honorary Kentuckian by the 100th Division, a Kentucky reserve unit on active duty at Fort Chaffee, Ark.

A citation signed by Kentucky Governor Bert T. Combs and division commander Maj. Gen. Dillman A. Rash, reads: "2nd Lt. Irby D. Range having served with honor, distinction and devotion as a member of Kentucky's 100th Division, is hereby adopted as an honorary Kentuckian."

Lieutenant Range is one of the 300 non-Kentuckians attached to the 100th Division, which has given basic and specialist training to more than 20,000 soldiers since being recalled to active duty last October.

A platoon leader in Company M of the division's 397th Regiment, he entered the army in February 1961. He is a 1956 graduate of Farwell High School and a 1961 graduate of Texas Technological College in Lubbock.

## Cemetery Group Plans Dinner

The Texico Cemetery Association is inviting the public to a dinner at the Women's Club Building in Texico Wednesday, June 13, beginning at 11 a. m.

Fried chicken, ham and all the trimmings will be served. All proceeds from the dinner will be used to purchase a mower for use at the cemetery.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

SUBSCRIPTION RATES -- Farmer and adjoining counties, \$3.00 per year; elsewhere, \$4.00 per year. Payable in advance.

TRAVEL

Ist Das Nicht Ein Schnitzelbank? Ja, Right in Heart of Venezuela

By CLAIRE COX United Press International TOVAR, Venezuela (UPI) — The U.S. Jeep has brought a German settlement in the heart of Spanish-speaking Venezuela into the 20th century.

This tiny replica of a Black Forest village is only 90 minutes by automobile from Caracas, capital of Venezuela, but until a few years ago it was reachable only on foot — a rugged nine-hour mountain hike from the nearest town.

For a hundred years, the colony of Tovar was almost cut off from the rest of the world. Its residents, all descendants of the first German settlers here, lived in their mountain homes without electricity or newspapers. Their books were in German and German was the language of the single school. Produce was carried on sturdy backs to market to be bartered for the necessities of life.

Then came the jeep, which opened a whole new wonderful world for Tovar by bouncing in over rutted tracks with supplies—and tourists. Now there is a gravel road over which even a large U.S. automobile can travel.

Tovar is named for a president of Venezuela who in 1943 was one of a group of leaders who brought a band of Black Forest Germans to this mountainside to develop the area, because it appeared to be much like the Black Forest of Bavaria.

A recent settler in the area, German-born Mrs. Ludwig Gutman, wife of a dentist who practices in Caracas, tells visitors

about the history of Tovar. "The emissaries who went to Germany to seek the settlers told them that butter grew on trees, bread grew on trees and bologna grew on trees," she said. "Each family was promised 60,000 square meters (nearly 15 acres) of land."

"Whole families came. There was a sickness on the boat and when the group arrived, the government would not have anything to do with them because they were sick. About 35 families survived and started the colony. They did not find what Tovar had promised. There was no butter, but avocado, growing on trees. The bread was a fruit and bananas were what was described as bologna. The wheat they planted grew only a few inches high."

Most of the people stayed, however. They had brought a printing press, a brick kiln and their own tools. Gradually enough houses were built for all and the settlers planted vegetables and wheat. They also planted coffee, which is among the best in South America. Today they cultivate garlic and rhubarb profitably and send flowers to market in Caracas.

Several small Bavarian-style hotels have been built in Tovar. One of them, La Selva Negra, which is Spanish for black forest, serves German food and beer.

The school in Tovar now has a Spanish - language curriculum, but the children speak German at home. A movie theater was built several years ago, with its own generator for power. Several of the more well-to-do families

also had generators, which they let their neighbors use.

Full electric service finally came to Tovar a year ago last Christmas. Now nearly every home has its own lighting—and television set.

Few of Tovar's blonde, blue-eyed youngsters go to school beyond the six years offered here. Two girls who ventured into the world as far as their forefathers' homeland in Bavaria were a center of attention.

A university professor who heard them talking made recordings of their speech. He said these girls from South America had the purest Black Forest German accent he had ever heard.

ALTAMONT, N. Y., ENTERPRISE: "Campaign promises are the same everywhere—bigger benefits, more services, something for everyone—and all for nothing. Costs are ignored. The public rarely is reminded that if these promises are fulfilled there will be higher taxes. Those seeking public office should show the price tag that accompanies each of their promises. Governments are, in a sense, consumers' cooperatives—they act as the purchasing agent for the public. Many persons fail to realize that when they elect a candidate pledged to increase government spending, they are in effect voting for higher taxes."

Editorial Comment: Dragging Our Feet

One area of community life which has been sadly neglected by Texico and Farwell is the summer recreation program for youngsters.

Most of the kids in the Twin Cities spend the long summer days in their home-town. Few go off to see gran'ma or spend the summer away at camp.

For a number of years there has been a semblance of a program to give these kiddoes something to do each summer, and it has been very successful in attracting their attention. The youngsters WANT to have their activities organized and directed. However, this program is always gasping for breath for want of sponsoring organizations to take the time and trouble, and to put up the money, to keep it going. Also, from time to time it has been difficult to find men willing to take the responsibility (even while being paid for it) to supervise the activities. It's a big job from every viewpoint.

Because it takes so much work, and because it does cost a bit of money (it took \$500 to outfit this year's baseball teams), the summer recreation program for the community's youth is a yearly hot potato in service circles. The Twin Cities are lagging behind with a program which fails to provide activities for all the community's youth who turn out.

Now comes Johnny Green, a coach at Texico, who thinks he has a workable plan that would move the program into high gear next summer. He believes that a pooling of efforts would make it possible for the community to offer a well-rounded project beginning next summer. We should investigate and support the plan if it appears workable. Texico and Farwell are dragging their feet in this important community responsibility.

Times have changed. There are no longer cows to be milked, pigs to be slopped, and weeds to be hoed out of the cotton. Our children deserve a better fate than a daily fare of canned TV programs or games in the streets.

How Corsicana Got Its Name

Corsicana, Texas, in Navarro County, was named by the man for whom the county was named—Jose Antonio Navarro. Navarro named the town after the Isle of his father's birth—Corsica, off the coast of Italy.

Much could be written about Navarro, but a monument in Corsicana listing some of his positions will give you an idea of just how great he must have been.

This monument says, "Jose Antonio Navarro, lover of liberty, foe of despotism, born in San Antonio, Texas, February 27, 1795. . . died January 13, 1871 and buried there. . . member of the Legislature of Coahuila and Texas 1821. . . Land Commissioner of De Witt's Colony 1831 and of Bexar District 1834-1835. . . member of the Congress of the Republic of Texas 1836-1839, a commissioner of the Santa Fe Expedition 1841. . . Member of the Constitutional Convention of 1845. Senator of the Legislature of Texas 1846-1849."

"One can always tell when the home includes a child and a dog. The screen door bulges in the appropriate places." — James P. Howard, Albany (Ore.) Greater Oregon.

Study club members Mrs. John Boling and Miss Maude Hicks are shown with club president, Mrs. Clytie Dial looking over some of the materials to be used in the Cancer Crusade.

### Farwell Study Club Heads Cancer Drive

Farwell Study club met for a call meeting in the Fellowship Hall of First Baptist Church in Farwell, May 29 to make plans for the cancer crusade. Mrs. John Aldridge presented the film "From Door To Door Pays Off" emphasizing that every citizen should be given an opportunity to contribute to the funds for the study of the cause and cure of this dread disease, which today strikes two out of every three families. Plans were made to enlist all members of the club in an active door to door campaign with Mrs. Aldridge and Mrs. Clytie Dial,

club president to work out details. A concerted drive was made from 4-7 p.m. Tuesday. Members collected approximately \$280 in Farwell with the members at Lariat, Mesdames Robert Sanders, Asa Smith and Elmer Scott collecting \$46.65 there. The study club wishes to express its appreciation for the cooperation of the people in the Farwell and Lariat areas.

### JOTTIN'S By Jeanne

### Coffee Honors Mrs. Green

The home of Mrs. John Boling was the scene for an informal coffee Thursday afternoon, honoring Mrs. Noble Green, niece of Mrs. A. D. Smith, who was visiting here from Pomona, Calif. Dream pie was served with coffee to Mesdames A. D. Smith, Johnnie McDonald, John Aldridge, Guy Cox, Mabel Reynolds and the honoree, Mrs. Green.

We checked and double-checked the date, as is standard procedure on special events, but we forgot to tell the printing press. So the anniversary celebration for the N. R. Hardings which is planned for June 24 was confused in last week's paper. For some reason, the 4 dropped out and the date appeared wrong.

So we hope all you people will circle the 24th on your calendar and please don't think you missed the celebration because you didn't get there last weekend.

Experience is certainly a great teacher. A parent never wakes up the second baby to see it smile.

There are several area people who will be able to tell us about the World Fair, and here are even more who wish they could get away to attend. I'm sure it would be something to see.

If getting places to stay, food to eat, and money to pay for it, is any more difficult than it is when you attend the state fair--it will be something. Even though we have many pleasant memories of our last trip to Dallas to the state fair, I also remember that cold wiener on a dry bun that was called a hot dog, that we stood in line 45 minutes to get and paid 35¢ to buy.

We learned several things that were educational other than seeing the exhibits. We learned to take a bus (no parking places), take a lunch (lines were enormous at every eating place) take several days (too much to see) and take comfortable shoes.

Mr. and Mrs. Oliver Sikes returned Tuesday from their latest travels and Oliver was glad to be home when I visited with him briefly at the post office. They came through seven states coming home and now have seen the old-48 other than Minnesota. They came within a few miles of it.

Of course, they still haven't visited the two newest states-- Alaska and Hawaii. But they have a record that will probably top most Twin City travelers.

### MYF Enjoys Sandhills Hayride

Senior MYF of Hamlin Memorial Methodist church accompanied by Mr. and Mrs. Joe Helton enjoyed a hayride to the sandhills south of Texico Tuesday night, where they had a weiner roast and hotdog feed.

Attending were Tom Short, Cheryl Mills, Hal Ed Helton, Sharon Elliot, Hap Danforth, Linda Rundell, Sandy Tipton,

Dewey Foley, Linda Phillips, Peggy Martin, Bobby Tomlinson, Barbara Bieler, Vic Harrington, Carol White, Billy McDonald, Judy Sharp, David Watkins, Donna Mills, and Kay Sparks from House, who is a guest of Sally Whitesides.

### William Rundell Party Honoree

William Rundell, five year old son of Mr. and Mrs. Pete Rundell was honored with a party at the home of his parents on his birthday Monday, June 4.

Games were played and William displayed his gifts after which birthday cake and Cokes were served to Gwendolyn Rundell, Leslie Curtis, Toby Curtis and his aunt, Mrs. Fred Curtis, his grandmother, Mrs. Ray Mears and his mother, Mrs. Pete Rundell.

### N. R. Hardings To Be Honored June 24

Friends are reminded of the open-house reception at the home of Mr. and Mrs. N. R. Harding six miles south of Farwell honoring them on their Golden Wedding Anniversary. The reception is planned for Sunday, June 24, 2-5 p. m.

### Locals

Don Johnson and T. E. Randol are visiting in the home of the Bill Johnson family in Alva, Okla. this week. Randol plans to spend several weeks visiting with his grandchildren in parts of Okla.

Mr. and Mrs. Luther Pearce are in Seattle to attend the World Fair now in progress.

Mr. and Mrs. Elmer Teel accompanied by their daughter, Peggie, will be in McCamey for the remainder of the week where they will visit in the home of Mr. and Mrs. Bill Glenn and son, Mrs. Glenn is a daughter of the Teels.

Mr. and Mrs. Bert Williams of Boston are visiting in the Jack Williams home in Farwell and with Mrs. Alex Steinbock in Lazbuddie. Bert is a student at Princeton University.

Mrs. Buck Doran will leave this week for Las Cruces where she will attend a workshop for School Counselors through July 20.

Buck Doran and Bud Peyton are in Los Angeles this week to attend the Rotary International convention there.

Mr. and Mrs. Fred Danforth of Texico returned Tuesday afternoon from a visit with the Ollie Burton family in Santa Fe and a sightseeing tour of Bandelier National Monument. While gone, they were in Albuquerque where Danforth attended a business meeting.

Mr. and Mrs. L. B. Hensley of Walnut Springs and Leldon Hensley of Borger were here briefly this week visiting with the Ted Magnesses. The Hensleys were enroute to Morenci, Ariz. for a visit.

Mrs. Noble Green of Pomona, Calif. who has been a house guest in the A. D. Smith home for the past two weeks, left for her home on Friday. Mrs. Green is a niece of Mrs. Smith.

Mr. and Mrs. Milton Tainter of Kansas City who have been touring the west for the past month, visited Monday and Tuesday in the A. D. Smith home in Farwell. Mrs. Tainter is a niece of Mrs. Smith.

Mrs. Loree Hill, sister of Mrs. John Lockhart from Emory has been visiting in the Lockhart home this week. Mrs. Hill teaches mathematics in the high school there.

David Lockhart, a student at Baylor, is home for a brief visit with his parents. He plans to attend summer school at East Texas State College in Commerce this summer.

Mrs. Joe Murphy and children of Belen returned to their home Saturday after a visit in the home of Mrs. Murphy's parents, Mr. and Mrs. T. H. Ritchey.

Mrs. Joe Morgan, Jimmie Morgan and Mrs. Bonnie Sedberry of Montclair, Calif. visited last week in Lubbock, Cisco, and Arlington with relatives. Mrs. Sedberry who had been visiting in the home of her mother, Mrs. Morgan for the past month left for her home Saturday.

Word was received here this week of the death of Everett LaFollette of Stillwater, Okla. LaFollette was the father of Mrs. Ival Hesser a former Texico resident and had visited here several times.

Chris Moss, Society Editor --- Phone 481-3681

Members of the Texico Extension club who served a barbeque supper to the RLCA in Clovis Friday night are shown here with Gov. Mechem. In the picture from left to right are Mesdames Melvin Burns, Paul Skaggs, Elmer Teel, Gov. Mechem, Mrs. Elward Combs and Perry Winkles.

### Homemakers Serve Supper

Ladies of the Texico Modern Homemakers Club were in charge of a chuckwagon barbeque supper Friday, at the Youth Center in Clovis, for the Rural Letter Carriers of New Mexico and its Ladies Auxiliary with 110 persons in attendance.

Among the dignitaries present was Governor Edwin L. Mechem.

Mrs. Melvin Burns of Texico and Emzy Gaydon of Clovis were in charge of arrangements

for the supper. Other ladies assisting were Mesdames Elmer Teel, Perry Winkles, Paul Skaggs and Elward Combs. Serving tables were centered with prickly pear to carry out the western theme with yucca plants and wagon wheels placed throughout the serving rooms. A program of western music was presented by the Walton Brothers, Marvin and Dee.

### Salad Supper

### Honors Husbands

A salad supper entertained husbands and guests of the Rebecca class of First Baptist Church, Farwell, Monday evening. Homemade ice cream and angel food cake completed the menu.

Mrs. Asa Smith presented a devotional on "The Strength of a Righteous Man."

Attending were Mr. and Mrs. Willie Hardage, Mr. and Mrs. Asa Smith, Mr. and Mrs. Claude Coffey, Mr. and Mrs. John Boling, Mr. and Mrs. Johnnie Williams, Mr. and Mrs. Clyde Magness, Mr. and Mrs. Dick Gries, Mr. and Mrs. Elmer Scott, Mr. and Mrs. N. R. Harding.

Also Miss Maude Hicks, Mesdames Clytie Dial, Carrie Hardage, Mabel Reynolds and Dora Johnson, R. T. Langston was also a guest.

### Christians Visit, McFarlands Home

Mr. and Mrs. Everette Christian arrived Sunday morning for a visit in the homes of their daughters and families, Mrs. John McFarland and Mrs. Darrell Norton. Also here is another sister and her family, the Gerald Clancy's of Fort Polk, La. The Christians, former residents of Farwell, plan to be here a couple of weeks to see friends and other relatives.

Other recent guests in the McFarland home were John's parents, Mr. and Mrs. Lonnie McFarland of Pierre, South Dakota. Returning home with them Wednesday was their daughter, Gail, who has visited here for a couple of months.

### Lutheran Church

LWML met Thursday, June 7, with Mesdames A. R. Sander of Lariat and Charles Trimble of Bovina as hostesses. Mrs. Walter Kaltwasser showed a display of Texas District Projects which had been completed. She is a zone delegate to the convention in San Antonio June 13-14; and is also a candidate for recording secretary of Texas LWML. Walther League will meet June 10 in the home of Lawrence Kreigel, president of the group, in Bovina.

About 40 per cent of the weight of a fully-loaded jet airliner consists of fuel.

### Try Skillet Meals Cooked On Grill

Whether your cookout is in the backyard, at the beach or a camp site, simple, easy-to-do recipes are best. You can prepare all the ingredients in the kitchen, tuck into a large bowl or casserole and then cook it out!

Grills for these dinners need be only of the simplest type; a few bricks to hold an old rack will do nicely. A heavy old-fashioned skillet like the cast iron ones so much in use in the past are perfect for cooking.

Frank-Potato Skillet (Serves 4)

- 1 tablespoon salad oil
- 1 large onion sliced
- 2 cups sauerkraut
- 1 pound frankfurters, quartered
- 1 can potatoes, drained and sliced
- 1 tablespoon prepared horseradish

Heat salad oil; add onion and cook over low heat, stirring occasionally, until lightly browned. Add undrained kraut and remaining ingredients. Cover and cook, stirring occasionally for 15 to 20 minutes. Garnish with parsley, if desired.

Benjy Dial, of Farwell was honored as freshman class Yucca Beau when formal presentation of the 1962 yearbook, the Silver Pack, was made Tuesday night. Others in the picture are Misses Janelle Brown, Levelland, Jerilyn Burns, Alamogordo, Carolyn Bradley, Portales, and Sandra Booker, Birmingham, Ala., "Yucca Blossoms" and Gordy Hill, Wood River, Ill., Jim Culberson, Lordsburg, and Joe Harrell, Portales "Yucca Beaus".

## Pleasant Hill

BY MRS. BUCK TAYLOR

Rev. and Mrs. Hugh Frazier are in San Francisco to attend the Southern Baptist Convention. They will be gone two weeks. Rev. Jimmy Kennedy from Portales brought the morning and evening messages Sunday.

Mr. and Mrs. Mike Brown and Mr. and Mrs. Clarence Anderson and family were in Tucumcari Sunday to attend the wedding of Judy Brown, a niece of the local men.

Sunday dinner guests in the home of Mr. and Mrs. H. M. Hopper were Mr. and Mrs. John Spearman and family and Mrs. J. J. Armstrong.

Mr. and Mrs. H. M. Hopper have been visiting in the home of their daughter, Mrs. H. E. McCarty in Albuquerque for the past two weeks.

Ronnie Wall, son of the John Walls spent last week with Mr. and Mrs. Roy Richardson.

Linda and Karen Osborne of Plainview are visiting in the home of their grandparents Mr. and Mrs. Buck Taylor.

Mr. and Mrs. Amos Shockley and Myrtice have been in Truth or Consequences vacationing.

Mr. and Mrs. Clarence Anderson of House were recent visitors in the Tommie Anderson home.

Relatives visiting in the Mike Brown home Sunday were Mr. and Mrs. Ronald LaRue from Plainview, Mr. and Mrs. Riley Burnham from Clovis and Frank Brown from Pagosa Springs, Colo.

Mrs. May Hale from Sand Springs, Okla. is visiting in the Loren Wilson home.

Weekend guests in the home of Mr. and Mrs. Robert Servatius were Mr. and Mrs. Claud Thomas from Lubbock, Mr. and Mrs. Amos Shockley and Mr. and Mrs. Vaughn Hukill and children.

Mr. and Mrs. Bub Hand of Friona were Sunday guests in the home of Mr. and Mrs. Buck Taylor. The two families drove over to House to visit in the Clarence Anderson home Sunday evening.

Mrs. Frank Lofton of Friona is a guest in the home of her daughter Mrs. Thelma Eskew. Frank Lofton is on a business trip to Colorado.

Guests in the Eskew home Sunday were Mr. and Mrs. Carroll Lofton and family from Colorado Springs, and Mr. and Mrs. Sam Jones and family from Friona.

Lynell Lovett, daughter of Mr. and Mrs. Troy Lovett has returned to Plainview after a brief visit in the home of her

parents. She will attend summer school at Wayland.

Mr. and Mrs. Troy Lovett visited recently with Mr. and Mrs. Lewis Bonbarger in Clovis. They also visited with Mrs. R. L. Bain in Clovis Sunday. Glenn Kelley and Jack Patterson of Friona were fishing at Childress Lake the past weekend. They report a successful fishing trip.

Mr. and Mrs. Roy Richardson and family visited recently in the home of his mother, Mrs. Lillie Richardson in Melrose.

## To Korea

Army Sergeant First Class Gordon C. Billington, 42, son of S. G. Billington of Texico recently has been assigned to the 7th Logistical Command in Korea.

Billington is an ordnance supply sergeant in the command's Headquarters Company.

He is a graduate of Texico High school and a veteran of several overseas assignments with the U S Army.

## TO EACH HIS OWN

Wife: "Let's have some fun this evening."

Husband: "Okay, but leave the light on in the hallway just in case you get home before I do."

## College Students Come Home To Work and Rest

College students from the twin cities began arriving in Texico-Farwell late last week. Some will remain here for the summer while others will be here for short visits and then return to school to attend summer sessions.

Ursel Doran, son of the Buck Dorans, will remain in Las Cruces where he is a sophomore student at New Mexico State. He will study German this summer. He will also be employed at the college bookstore.

David Lockhart, son of Mr. and Mrs. J. T. Lockhart, visited briefly with his parents before going to Commerce where he will attend summer sessions at ETSC and study chemistry.

Christina Bowers, daughter of Mr. and Mrs. Anson Bowers, will visit in the home of her parents and commute to summer classes at ENMU.

Charlie Stockton, son of Mr. and Mrs. C. B. Stockton, will remain here for the summer and help with the wheat harvest on the family farm.

Tommy Williams, son of Mr. and Mrs. Jack Williams, will be employed by the local ASC office for the summer while his brother Dickie will be in Freeport where he will work for Dow Chemical Co.

Joanne Brown, daughter of Mr. and Mrs. D. J. Brown, will stay at home and commute to summer sessions at ENMU.

Varelia Meier, daughter of Mr. and Mrs. Frank Meier, will remain at home and "just keep house" this summer.

Jody Wall, daughter of Mr. and Mrs. Willie Wall, and Pauline Servatius, daughter of Mr. and Mrs. Robert Servatius, will "just rest" this summer.

Patricia and Bobby Patterson, daughter and son of Mrs. Avis Patterson will visit their mother and attend summer sessions at ENMU.

Dickie Adams, son of Mr. and Mrs. John Adams, will attend summer classes at ENMU

also. Peggie and Allan Teel, daughter and son of Mr. and Mrs. Elmer Teel, will be here for the summer with Peggie to work at the local ASC office and Allan will attend training at Ft. Bliss for two weeks in June, and plans to work for the remainder of the summer.

Kenneth Murdick, son of Mr. and Mrs. Bill Murdick, will work in Texico.

Lee Spears will work in wheat harvest with his father, LeRoy Spears, Gary Singleterry, son of the Glen Singleterrys, will work on the family farm at Pleasant Hill.

Leslie Winsper, son of Mrs. Irene Dyer, will be employed at the ASC office in Muleshoe, with Glendon Moss, son of Mr. and Mrs. Jim Moss to be employed by the local Piggly Wiggly store.

Tommy Wurster, son of Mr. and Mrs. Paul Wurster, will work this summer but is still undecided where.

Johnnie Lovelace, son of the Charlie Lovelaces, will be employed in Plainview this summer where he will drive a bread truck.

Loyd Allan Cain, son of Mr. and Mrs. Loyd Cain, will spend the summer in Farwell and work part time at the city park.

D' Rene Danforth, daughter of Mr. and Mrs. Fred Danforth, will work the first part of the summer as a counselor at the annual music camp at ENMU and spend the remainder of the summer visiting with her parents.

## Fire Burns Wheat

A wheat fire on the R. E. Blankenship farm recently resulted in the loss of about five acres of crop before the blaze was brought under control, according to reports. The farm is located a little west of Lariat.

President Wagner of the Chamber of Commerce of the United States is critical of employers who pay lip service to hiring qualified handicapped persons and don't follow through. In his words, "Mere acceptance of the idea that handicapped persons and don't follow through. In his words, "Mere acceptance of the idea that handicapped persons can make good employees is a long way removed from actually hiring them. And the boss who says that they should be hired but does nothing to make sure that employment opportunities are available to them, falls short of doing a good job."

## State RLCA Convention In Clovis

The New Mexico Rural Letter Carriers and its Ladies Auxiliary held the 1962 State Convention June 1-2 at Hotel Clovis.

Friday at the joint session, Mrs. Loren Wilson of Texico, State Auxiliary president spoke to the group on "Our American Heritage." Principal speaker for the Friday session was Governor Edwin L. Mechem who spoke on "Rural Highways."

Friday evening members of the Texico Extension club, with Mesdames Paul Skaggs, Perry Winkles, and Edward Combs in charge, served a barbeque dinner to the 109 delegates attending the convention. Marvin and Dee Walton provided entertainment throughout the evening.

Committee meetings followed the dinner with a roundtable discussion held with C. H. Pollock, regional chief of postal delivery services as moderator. Others on the panel were E. R. Gore and L. A. Mitchell of Albuquerque, and H. R. Kuebelbeck of Roswell.

At Saturday sessions conducted by Mrs. Wilson, Auxiliary president and A. B. Perkins, Carrier president principal speaker were Mrs. L. H. Golsen, National Auxiliary president, Prattville, Alabama and Tommy Martin, National Letter Carriers president of Washington D. C.

Charles Stanfield, Clovis postmaster, showed a film on "The Other City" which has to do with cancer research, \$50. was donated to the cancer drive which is now underway.

Senator Wm. H. (Bill) Duckworth of Clovis spoke on "How an Idea Becomes a Law."

A banquet was held in Hotel Clovis ballroom, Saturday night with Charles Stanfield as toastmaster. Dr. C. L. McKay of LCC in Lubbock was guest speaker. He spoke on "The Challenging Sixties."

One of the highlights of the convention was the organization of the RLCA Juniors. Mr. and Mrs. B. A. Tillman of San Jon were elected as junior sponsors with Veda Wilson of Texico being chosen to serve as president of the newly organized chapter.

Mrs. Melvin Burns of Texico was elected to serve as vice-president of the Ladies Auxiliary for 1962-63 and Melvin Burns was elected to serve on the board.

Mrs. Loren Wilson was elected as a state delegate to

Recently commissioned a second Lieutenant in the Army by Lt. Col. Edward L. Lindsey, was Harold Don (Donnie) Carpenter, son of Mr. and Mrs. Harold Carpenter of Oklahoma Lane. Ceremonies were held in the Fine Arts building at West Texas State College in Canyon before friends and families of Donnie and other cadets. Carpenter is stationed at El Paso for 13 weeks for a missile training school. In September, he will be sent to Okinawa. His wife, Kay, plans to accompany him overseas. Kay is pinning on his bars.

## News From LAZBUDDIE

BY MRS. C. A. WATSON

Registration for VBS at the First Baptist church was held Monday afternoon from 4:30-6:30. Those in attendance enjoyed a picnic. Classes will be each day Monday through Friday.

Mr. and Mrs. Finis Jennings accompanied by Mr. and Mrs. Billy Watts of Farwell attended the North West Texas Conference for Methodist Churches in Big Springs the past week. The Jennings son, A. E., was ordained as a minister at the conference. Joining the Jen-

nings and Watts in Big Springs was Mrs. Paul Pittman and Mrs. John Hughes. A. E. Nobles, father of Mrs. Finis Jennings suffered a broken hip Friday and is in a Lubbock hospital. A. E. Jennings from Dallas visited with his parents Mr. and Mrs. Finis Jennings over the weekend. He was guest speaker at the Methodist Church Sunday. Don Davidson is the newly appointed Methodist pastor. Mr. and Mrs. Charlie Watson entertained with a weller roast Wednesday. Attending were Mr. and Mrs. Harvey Bass of Muleshoe, Mr. and Mrs. P. E. Cargile and family of Lariat, Dorothy and Margaret Bass of Littlefield and Lt. and Mrs. Howard Watson from Ft. Rucker, Ala.

Visiting in the T. L. Gleason, E. A. Parham and J. T. Mayfield homes recently were Mr. and Mrs. Kenneth Gaston and family from Byron, Ill.

Mr. and Mrs. Riney Steinbock are leaving for a vacation in Eugene, Ore. with Mrs. Ella Bewley and Mrs. Carl Steinbock from there they plan

# Doc Uses Radio To Get Inside Dope on Ulcers

By JOE McDAVID  
United Press International

MEMPHIS, Tenn. (UPI) — High-pressure business executives soon may be swallowing miniature radio transmitters to find out if they are ulcer-prone.

Dr. Edward Storer is trying to develop a "pill-sized" transmitter which would enable him to "tune in" patients' stomachs as they go about their daily routine.

The radio would beep out a continuous report on the amount of acidity in the person's stomach. A change in acidity would cause a change in the frequency of the radio signal.

"Too much acidity too long and

a.1 ulcer develops," Storer explained.

If the radio showed regular high-acidity readings, the doctor could prescribe medication to counteract it.

Storer has developed several models of the transmitter but so far has tried only one, and only on himself.

"I wouldn't have the nerve to ask anyone else to swallow it," he said.

"Even an elephant couldn't have swallowed the first model. It was nearly the size of a portable radio. 'The one we're working with now is considerably smaller — about the size of a 'horse pill.' We hope to get it down to the size of a regular vitamin pill."

The "we" includes Storer and his two assistants, college students who are amateur radio enthusiasts. Storer confesses he's pretty much of a dud when it comes to electronics.

The students do the work in miniaturizing the transmitter, while Storer handles the medical end.

The University of Tennessee medical researcher started working on the transmitter idea because it "just didn't seem right" to him to be poking wires and tubes down people's throats and mouths to get an acidity reading.

The present transmitter looks something like an oversized vitamin pill — 1 1/2 inch long and 1/2 inch in diameter. It is a cylinder with little glass bubbles of acid-sensitive glass on each end.

When perfected, the "pill" will be eliminated naturally. The present device is too large for that. Storer ties a piece of sur-

A heavy skillet cooks an out-of-doors supper very nicely even though the grill is of the simplest type. This one includes sliced potatoes, sauerkraut and frankfurters. It's easy to serve with French bread heated in a foil wrapper, chef's salad and a simple cake laced with powdered sugar.

**THE CHURCH FOR ALL**  
ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake; (2) For his children's sake; (3) For the sake of his community and nation; (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Lonely, gnarled, and neglected, but a thing of beauty, isn't it?

We know that trees are functional, that is, they hold the soil, the good earth, the rain. But more than that, each tree, in loneliness or forest, sings out the praises of its Creator, God.

Much more so, does man reflect the glory and image of God. He too then, must sing out the praise and honor to God, his Creator. There is a place for that worship and honor; it is your church. Whether lonely, solitary, or in crowds, He awaits you... to hear and to answer.

**Hoopers--**

time to master this rag crackling. I never did.

When my shoes were an opulent sheen and I could see reflections in them he would put away his rag and carefully untie and then retie my laces, making sure that everything was in perfect order. Then he would step back and grandly pronounce, "Yas, Suh."

That was the moment of truth. I would clamber down from my high perch, drop a sweaty dime that I had been holding all the while into his hand, and stride out onto the street with my dad, confident that I was about the snazziest-looking boy around.

**On Defense:**

"The advice nearest to my heart and deepest in my convictions is that the Union of the States be cherished and perpetuated. Let the open enemy of it be regarded as a Pandora with her box opened; and the disguised one, as the Serpent creeping with his deadly wiles into Paradise."

**Uncle Ray's "Hot Air"**

"How did you find the weather while you were away?"

"Oh, I just went outside and there it was."

Doctor: "Why do you have that A-58445 tattooed on your back?"

Patient: "That's not tattooed, That's where my wife ran into me while I was opening the garage door."

She was in a hurry to shop at Uncle Ray's Store.

**Sink Your Teeth into This!**

BERKELEY, Calif. (UPI) — Ever wonder how much you eat in a year?

- The California Farm Bureau Federation wondered, and based on its own and U.S. Department of Agricultural Department statistics, concluded that the average American every year eats:
- 161 pounds of red meat;
  - 35 pounds of poultry;
  - 650 pounds of milk, cheese, butter and eggs;
  - 100 pounds of potatoes;
  - 144 pounds of vegetables;
  - 90 pounds of fruit;
  - 10 pounds of breakfast cereals.

In red meat alone, the bureau figures the average American eats in a lifetime about eight steers, 10 lambs, four veal calves and 30 or more hogs.

Or, said the bureau, the American eats in his lifetime the annual production of a good-sized farm.

A safety check may save your neck.

# Parmer County Voters Give Majority To Yarborough

Parmer County voters continued to differ from the statewide trend in last Saturday's Democratic runoff.

County voters gave the majority to Don Yarborough in the gubernatorial race, 535-450, although John Connally gained the nomination with a rather narrow victory statewide.

Parmer voters went for Marshall Formby in the first primary. He failed to make the runoff, placing fifth in a field of six.

In a real neck-and-neck race as far as the county was concerned, voters gave a two-vote majority to Woodrow Wilson Bean over Joe Pool in the Congressional - at - large race, 490-488. Pool won handily statewide.

The county gave overwhelming majorities to both candidates from Lubbock, Preston Smith in the lieutenant governor's race and Waggoner Carr for Attorney-General.

Carr, who likewise received the largest margin statewide

in the second primary, was given the largest margin of any candidate on the ballot by Parmer County voters. He polled 789 votes to 212 for Tom Reavley.

Smith, whose total margin for the state was a bit less, received a good majority here, 755 to 241 for James A. (Jimmy) Turman.

County voters also went with a winner in the race for State Representative, 91st District, Springlake's Bill Clayton, received an even 600 votes, to

408 for B.M. Nelson of Dimmitt.

The county went for Muleshoe's Bill Millen in the first primary, and had Clayton in second.

Boty Yarborough and Connally carried four boxes, Yarborough had the largest single majority, with a 172-59 margin in the Bovina box, Connally's largest margin came in the Friona box, 191-125. Connally had a 12-7 edge in absentee ballots.

Carr carried every precinct, as well as the absentee box. The Farwell precinct really went for the Lubbock Attorney in a big way, 163-3.

Smith carried every box except Precinct 7 (Rhea), where Turman had a 12-6 edge.

Bean won five of the eight boxes in his narrow lead from the county, with Friona, Farwell and Black going for the winner, Pool. To show the closeness of the vote in that race, both candidates received 10 absentee votes.

Clayton and Nelson split the

eight precinct boxes. Clayton winning the largest box, as well as the absentees.

Although the voting statewide was only about one-half as large as the first primary,

Parmer County voters turned out fairly good--with 1,014 casting their ballots, as compared with 1,789 for both parties in the first primary. Since those who voted in the Republican primary could not vote Saturday, the

turnout probably represented about one-half of the county's qualified voters.

Politicians now have a chance to catch their breath, before hitting the campaign trail for

the general election Nov. 6. Republicans, with Jack Cox as the candidate for governor, will make their first major campaign for governor since 1932.

### Furniture Finishing Workshops Planned

"Do you have any old furniture that you want to refinish to look like new?" asks Miss Ettie Musil, County Home Demonstration Agent. If the old furniture is still in good condition, it can look like new for many more years. County-wide Refinishing Furniture Work-

shops are planned in each of the four Parmer County precincts for everyone. Men, women, and interested boys and girls are all invited to participate in the workshops. Schedule for the workshops are: Friday, June 8 at 2:00-5:00 in Hub Community Center

for Lazbuddie and Hub Communities, Tuesday, June 12 at 2:00-5:00 in American Legion Building in Bovina for Rhea and Bovina Communities, Wednesday, June 13 at 2:00-5:00 in Oklahoma Lane Community Center for Farwell, Lariat, Oklahoma Lane and Midway Communities, and Friday, June 15 at 2:00-5:00 in Black Community Center for Friona, Black, Northside and Lakeview Communities.

any small wooden furniture or object to refinish during the workshop. Wait to remove varnish or sand wood at the workshop.

To the workshops bring card tables, plenty of newspapers to protect the tables and floor, old paint brushes, pint size jars or cans, plenty of old nylon hose, old rubber gloves, fine sandpaper or garnite paper, fine 3 or 4 "O" steel wool, old rags, and denatured alcohol.

Eligible turkey producers will have an opportunity between June 18-22 to vote on the proposed turkey market order as announced by Secretary of Agriculture Orville L. Freeman. Growers who produced and marketed less than 3,600 pounds of turkey-liveweight -- in 1961,

or producer-handlers who produce and handled not more than 100,000 pounds of turkey -- liveweight -- in their own handling facilities and who bought and sold not more than 5,000 pounds from or to other persons are not eligible to vote in the referendum.

Everyone should bring a picture frame, salad bowl, small stool or coffee table, or

Marriage -- when a man gets hooked by his own line.

### Screwworm Control Is Advancing

The screwworm control program, initial project of the newly organized Southwest Animal Health Research Foundation, is gaining momentum daily, according to Director John E. Hutchison, Texas Agricultural Extension Service.

Fast moving events of the past few weeks prompted C. G. Scruggs of Dallas, acting Foundation president, to describe the drive as "The biggest, most wide-spread and dramatic agricultural program Texas has seen." Already, more than half of the counties

in the state have organized committees, named officers, and are busy raising funds to finance the drive. Approximately half of the remaining counties have held initial planning meetings.

Vocational agriculture teachers and county agricultural agents have provided educational and organizational leadership on the county level. The East Texas area seems to be leading the rest of the state in this all-out effort to rid Texas of one of its most costly pests, Scruggs said.

U. S. News & World Report recalls that in 1958 Khrushchev announced a plan to increase farm output 70 per cent by 1965. Production in 1961 would have had to show a rise of 20 per cent if the schedule was met. Actually, production declined by 6 per cent in the

1958-61 period.

Wise words from the past-- Thomas Jefferson once said: "I have never considered a difference of opinion in politics, in religion, in philosophy, as cause for withdrawing from a friend."

### FOOTSAVING EDUCATION

by James E. Edwards

Is foot health taught in the schools?

No. There are exceptions but, generally speaking, the only mention of feet and shoes is in the health unit of the biology course. The discussion is brief and usually might just as well be left out entirely. For example one very popular textbook says "Shoes are very important to foot health. Shoes should not be too long, too short, too narrow or two wide." Next Subject.

Pages and pages are devoted to eyes and teeth because the authors of textbooks, like the general public, are eye conscious and tooth conscious but seem to be oblivious of the fact that 99% of our foot trouble is caused by ill-fitting shoes.

One notable exception to the lack of foot-health education was the project in the schools of Lorain, Ohio where each child in the elementary grades had his feet measured each year for 3 years. The first year 76.4% of the children were wearing ill-fitting shoes, the second year 71% and the third year 59%.

If, as medical authorities agree, ill fitting shoes cause the vast majority of foot trouble, the Lorain Schools seem to have discovered the way to eliminate the cause.

## Research Station Tour Scheduled

Initial plans in preparation for the third annual Flame Cultivation tours and demonstrations on August 10 at the High Plains Research Foundation were made recently by representatives of the Foundation, the Texas Butane Dealers Associations & manufacturers of flame cultivation equipment.

A full day of activities were planned at the meeting. A press conference for agricultural editors & reporters was scheduled at the Foundation's new office building for Friday morning. The tours to view the research results on various crops were scheduled for 1:30 to 4:00 PM. Exhibits and demonstrations of the latest equipment will be the last stop of the 6 scheduled tours.

A conference on weed control through flame & other results will conclude the afternoon program at Halfway. The group preparing for the tour included Ted J. Parks of Austin, Public Relations Director for the Texas Butane Dealers Association; Fred Garrison, Plainview Garrison Oil Co., District Director for the Texas Butane Dealers Association; Jodie Howard, Lubbock Western Tank & Steel and AFCO; Bill Taylor, Jones Copeland, Bill Watson, B. T. Lusk, Gene Bumpus Co. & Gocher Mfg. Co., Dr. Earl H. Collister, Director and C. H. Janeway, head of Public Relations of the High Plains Research Foundation.

Nation wide interest and attendance at the special Flame Cultivation Day is indicated. The public is invited to attend the tours.

## CONFIDENCE rules the DIAMOND WORLD

There has been much of pious pronouncement and noble platitudes but little of real accomplishment in coping with our unemployment problem to date. This writer is convinced that this is because we are going at it from the wrong end by using government when we should be using American industry itself. We give exclusive attention to the drum-majorettes who lead the cheering when we should be developing the team that has to play the game, and upon whom the winning or losing exclusively depends. Our nation's growth has been best and strongest during periods of least governmental interference with business. Yet now we are staking our chances on the very government intervention that so hampered us at times in the past."

There is no other field of merchandising where confidence plays a larger part than in trading in diamonds. Our suppliers trust us with large shipments of diamonds. We trust their word implicitly because we select our sources with infinite care. So, too, can you join the charmed circle of trust. Start by choosing your jeweler with the greatest of care and the rest follows as the night the day; you cannot miss. The keynote of diamond buying is trust and it is a firm foundation on which to build an heirloom or a business.

# Legislation Permits Oil Crops On Diverted Acreage

Permission to grow oil seed crops on diverted wheat and feed grain acres became official this week with a report from the county ASC office.

The changes will permit farmers greater flexibility in using acreage diverted from the other grain crops under the 1962 programs. The changes are authorized by a recently enacted Public Law 87-451.

Flax, rapeseed and mustard seed have been added to the list of crops that may be grown on acres diverted from production of wheat and feed grains, following the required review of the current supply situation with respect to all of the crops eligible for consideration. Production of guar, sesame, safflower, sunflower, and castor beans on such acreage was already permitted.

The new law amends the Agricultural Act of 1961 by authorizing the Secretary of Agriculture to permit acreage diverted from wheat and feed grains to be utilized for annual non-supported field crops and flax when these crops are not in surplus supply and will not be in surplus supply if produced on the diverted acreage. No price support may be made available for production of any such designated crop on the

diverted acreage. The new law amends the Agricultural Act of 1961 by authorizing the Secretary of Agriculture to permit acreage diverted from wheat and feed grains to be utilized for annual non-supported field crops and flax when these crops are not in surplus supply and will not be in surplus supply if produced on the diverted acreage. No price support may be made available for production of any such designated crop on the diverted acreage.

The new law also empowers the Secretary, if further justified by the supply situation of a permitted crop, to establish a partial payment for that crop up to one-half the rate which would otherwise be applicable if the acreage was devoted to conservation uses.

Accordingly, a determination has been made to provide partial payment for 1962 on diverted acres planted to guar, sesame, sunflower and castor beans. These payments will be computed in the case of guar and sunflowers by taking 20 percent of the applicable commodity rate for minimum diversion for the farm.

The partial payment rates for castor beans and sesame will be computed by taking 30 percent and 40 percent, respectively, of the minimum regular rate for the acreage involved.

Safflower, flax, rapeseed and mustard seed may be grown on diverted acres but no payment will be made. Flax produced on the diverted acres will not be eligible for price support, but any other flax on the farm may qualify for support.

The Department's revised regulations for administering the

amended Agricultural Act of 1961 will include the following provisions:

--Signup will not be reopened and previously stated intentions to divert may not now be increased.

--Producers may redesignate diverted acreage only for the production of one or more of the permitted crops. This re-

designated acreage may already be planted to the permitted crop. However, the producer will be required to pay the performance cost of any such redesignation.

--Permitted crops disposed of as a green manure, or destroyed by natural causes by a deadline date (not later than 30 days prior to the normal harvest date for the applicable per-

mitted crop as determined by the ASC State Committee) may be considered as a conserving use provided other conservation measures are carried out, if necessary, to protect the land throughout the 1962 crop season. The original program payment rate will be reestablished in such cases. If the permitted crop fails or is disposed of or not harvested after the dis-

posal date, no upward adjustment will be made in the program rate.

--If a producer elects to plant the entire diverted acreage to a permitted crop for which no payment will be made and an advance payment has been made, he will be required to refund the advance, but no interest would be charged.

--Participation under the new provisions shall not serve to extend the compliance deadline date for wheat, barley, corn or grain sorghum.

--Each producer who wishes to take advantage of these provisions should go to the ASCS County Office and request a change in his intentions not later than June 29.

USDA 1864-62

## HD Agent's Notes

BY MISS ETTIE MUSIL

A few weeks ago I sent plant specimens of a diseased nandina and photinia to the state Plant Disease Lab in College Station. The C. C. Christians of Farwell had noticed both of these shrubs in poor condition.

The photinia seemed to be losing leaves. Those that were left had white to grayish growth covering the upper surface of the leaves. New growth had lost its vigor and remained small.

According to Dr. Harlan E. Smith, Extension Plant Pathologist, the photinia is diseased with powdery mildew. It is quite common on crapemyrtle, zinnia, philox, and roses. This disease begins in the spring and continues throughout the year.

Powdery mildew can be treated by dusting plants with sulfur at first appearance of the mildew or spray with wettable sulfur. Repeat as necessary. Karathane or Actidione PM may also be used. However, do not dust roses with sulfur in hot weather because the leaves will be burned.

Mr. Christian's nandina leaves also were analyzed and diagnosed as a ring spot virus disease and 2,4-D or 2,4-ST herbicide damage. Others of you may have this damage on your plants at this time of year.

The leaves of the nandina with the 2,4-D or 2,4-ST damage appear mottled, shriveled, and deformed. Any plants or shrubs can be damaged by this weed killing spray. The plants usually outgrow the herbicide damage, but these leaves remain deformed. Otherwise, there is no treatment for this

damage.

If you use 2,4-D or 2,4-ST weed killer sprays be extremely careful. Spray only on calm days so that the fine mist or spray does not drift too far to your or neighboring plants and trees.

It is known that these herbicide spray mists have drifted 25 miles. If you are spot killing weeds in small areas try using the mop method. Wet a rag with the herbicide and press the weed with the rag.

Dr. Smith mentioned, that there is no control for the ring spot virus disease. The leaves on the nandina were light green or yellow with irregular rings occurring in the leaves. Plants tend to be smaller and low in vigor.

Since there is no control these diseased plants should be destroyed.

Many diseases on shrubs and flowers can be treated if we find it in time. For instance the ring spot virus disease on the nandina appeared like rust. I have noticed many, many rose bushes suffering seriously with black spot disease.

In talking with homemakers as we notice the black spot, many have commented, "Oh, I thought that was caused by the weather". Black spot is a serious rose disease that can cause a bush to die.

Large, roundish, black spots with irregular or frayed margins occur on the leaves of the rose bush. The spots may occur on either or both leaf surfaces, and frequently develop unnoticed on the soft twigs and branches. When severely infected, the leaves may turn

## SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

The term "grassed waterways" is getting to be a common one to the farmers of the Farmer County Soil Conservation District. Waterways are the best way and in some cases the only way to solve some of the difficult drainage problems.

Prior to the time when the plow came to the High Plains of Texas and all the land was in good native grass, drainage was no problem. Rain falling on the grassland gradually moved to natural draws and playa lakes causing no damage.

The story today is different. With most of the land plowed, there is very little material to

slow the water down so it can soak in the ground; consequently some of our best land is being scoured and gullied.

One way to solve the problem of moving excess water off the land without erosion is by a system of grassed waterways, diversions and irrigation systems. The grassed waterway is the key to developing a good drainage system. It must be well established first since all the remaining systems will empty into it. Without it there is no place to start to properly drain land without erosion.

Some of the waterways that are now built or are now under construction are on the farms of Roy Miller, Gilbert Wenner, Joe Frank, D. L. Schuman & Leon Smith, Bruce Parr & Grover Goggins and Billy John Thorn.

This year the ASCS Office in Farwell has increased the cost share for building grassed waterways. They have increased it from \$45 an acre not to exceed 50% of the cost to \$80 an acre not to exceed 70% of the cost. This is an excellent opportunity for farmers to build some badly needed waterways and establish grass on them.

"YES SIR, THATS OUR BABY."

## Thank You

IT IS WITH DEEPEST GRATITUDE THAT I USE THIS OPPORTUNITY TO PERSONALLY THANK EACH AND EVERY ONE OF YOU WHO SUPPORTED ME IN SATURDAY'S ELECTION. THE CONFIDENCE YOU HAVE PLACED IN ME WILL ALWAYS BE HELD IN SACRED TRUST. YOUR CONTINUED SUPPORT THIS FALL IS EARNESTLY SOLICITED AND I PROMISE TO REPRESENT YOU WITH UNENDING VIGOR, HONESTY AND INTEGRITY AS YOUR REPRESENTATIVE. AGAIN LET ME SAY IN ALL SINCERITY AND HUMILITY THANK YOU FOR YOUR SUPPORT.

Bill Clayton

### NOTICE OF BOARD OF EQUALIZATION MEETING

Notice is hereby given that the Farmer County Commissioner's Court will meet as a Board of Tax Equalization in the County Court Room in the Court House in Farwell, Texas at 2:30 P.M. on June 11, 1962.

Anyone having business with the Board of Equalization is invited to be present at that time.

Loyde A. Brewer  
County Judge  
Farmer County, Texas

## BUILDING FOR THE FUTURE

Another link has been forced in the Sherley Anderson Elevator group on the high plains. The Crowe - Gulde Cement Co. is proud to have supplied the concrete for this modern grain elevator in the Lazbuddie community. Demonstrating our ability to deliver concrete in any quantity and in any locality on the Golden Spread. If you are planning to build anything, there is a Crowe-Gulde product for the job.

# Screwworm Production Facilities Dedicated

Are they really screwworms? The only sure way to identify a screwworm is to collect maggots for microscopic examination by a specialist. This is why livestock producers are asked to collect worms from every infested livestock wound. Success of the eradication program will depend, in part, on positive identification of as many cases as possible. These records are vital in the day-by-day execution of the program. Cooperation in Parmer county to date has been excellent, but County Agent Deryl Coker also stressed the importance of continued cooperation.

Although the largest number of wounds infested with maggots are infested by those of the true screwworm, other kinds of maggots may be involved. This has been confusing to some producers.

The true screwworm is only one of a large group of flies, most of which are referred to

as common blow flies. However, screwworm maggots infest only the wounds of living warm-blooded animals. Some of the maggots infesting wounds may be maggots which breed primarily in carcasses. When they are found in living animals, carcass-breeding maggots are usually found feeding on soiled wool or in wounds containing decaying blood and tissue.

The true screwworm is distinguished from common blow fly maggots by two dark parallel air tubes. These tubes are readily visible in full-grown maggots of the screwworm but are scarcely visible in the maggots of other blow flies. Screwworms have a pinkish tinge when they have completed feeding and are about ready to leave the wound. Most common blow fly maggots have white, yellow, or gray colors.

However, microscopic examination by a specialist is the

only sure means of identification. Producers should continue to collect 10 or more worms from deep in each wound and take them to their county agent, vocational agricultural teacher or local livestock inspector.

## NEWS FROM THE FARM BUREAU

BY RAYMOND FULER

"Am I for a free agriculture, or a managed agriculture?" The fact is, a person or individual cannot be for both. There is no such thing as freedom and security. As security is guaranteed by a government or any other group powerful enough to manage men, freedom must be denied.

Most farm leaders know that agricultural people favor freedom in agriculture in words by about 53 percent. In action, fewer than 3 per cent favor freedom in agriculture. Approximately 4 per cent actually favor the supply management approach.

The question is, why do farmers and ranchers continue to plunge forward in this move toward a managed agriculture? The answer obviously lies in the fact that most agricultural leaders and individuals believe that we can go just a little further without being completely destroyed. Most of the remedies being offered in the form of legislation in Washington are reluctantly accepted by farmers, thinking they can do nothing to prevent the move toward a managed agriculture. This results in a scramble among producers of agricultural products for the benefits of the programs offered, at the same time knowing that they will eventually destroy him. In the final determination, the problem can be reduced to one simple question that each individual farmer and rancher in the United States of America must decide once and for all. This is the question posed at the beginning of this column.

It is very clear that farmers

# Study Tour Scholarships Awarded Two County Agents

County Agricultural Agents Thurman J. Kennedy of Young County and Uel Ray Stockard, Ellis County, have been awarded 1962 Dow Study Tour Scholarships, according to Ollie Liner, Hale county agent and chairman of the Professional Improvement Committee of the Texas County Agricultural Agents Association.

The tour program is carried out by the National Association of County Agricultural Agents in cooperation with the Agricultural Chemicals Department, Dow Chemical Company, Midland, Michigan. The professional improvement program is designed to meet the needs of county agents by giving them opportunities to study marketing enterprises, outstanding farm operations, agribusinesses, successful Extension Service and research programs and rural development projects, Liner said.

Kennedy will join other scholarship winners from the Western Region in Boise, Idaho, June 11, to begin the 19-day tour. This group will visit in Idaho, Oregon, Washington, Montana and Wyoming and return to Boise on June 30.

Stockard will join the Southern Region group in Little Rock, Arkansas, also on June 11, and will make four stops in Arkansas, Missouri, Kansas, Colorado, New Mexico, Texas and Oklahoma before returning to Little Rock on June 30.

Kennedy and Stockard are veteran Texas county agents; both have directed many outstanding Extension programs in the counties they have served; both are active members of their state association and are in a position to put into use information gained from the training opportunity. Kennedy

has served as secretary-treasurer of the Texas Association for several years.

Both are graduates of Texas A&M College and have conducted outstanding adult as well as 4-H programs during their Extension careers. Kennedy has served in Wilbarger, Stonewall and Young counties and Stockard in Hopkins, Tarrant and Ellis Counties. Both began their service as assistant county agents immediately after graduating from college.

# WITH THE COUNTY AGENT

DERYL COKER

I took two days annual leave last week, Thursday and Friday, to try my luck at fishing and believe it or not, I didn't get to fish any because of rain. I went to Oklahoma and it rained all the time I was there. It's not fair that they get all the rain and we get nothing, but we can't change Mother nature.

A few people are applying backtags to their female cattle over three years old, when they sell them. So far all tests have come back negative. This is good practice for we want to keep Parmer County a Brucellosis Free County. Every three years a county has to re-certify, and this is done by jerking blood samples on 20% of the herds not participating in the backtag program. Let's put it another way, at least 15% of the cattle must be tested each three years, and if we can do this by the backtag system, the Animal Disease Eradication Division won't have to come back in the county and test 20% of the herds. Enough herds will be checked to make up the required 15%.

Also, at least 80% of the eligible heifer calves retained in the county must be vaccinated. Vaccination is not required in strictly range areas where winter feeding is not practiced. However, a high level of calf vaccination is required in all herds.

By vaccinating your calves and backtagging your slaughter cattle you can assure the brucellosis free status of your own herd and help recertify your

county without additional ranch tests except in known infected herds. This will save you time and money, help to maintain your area's modified-certified status with less work, and contribute to eradication of the disease.

It is real easy to apply a backtag to your cows after you load them to take them to the auction or slaughter plant. Backtags and glue are available in my office and if you are in Farwell drop by and pick up some.

After you put the tags on the cows you are selling a blood sample will be taken at the place of slaughter and the results will be sent back to you. I know everyone with cattle will want to know if there herd is staying clean.

Also, we might have a few cases of screwworms and if you should find a case, be sure that you get a few of the worms and bring by the office. We will send them off and if they are screwworms the people in charge of the program can take measures to stop the spread.

A true peanut variety, Starr, developed by the Texas Agricultural Experiment Station is the subject of much discussion among Texas peanut growers. The performance of the new variety in statewide research and farm demonstration tests last year have put in orbit, reports Ben Spears, extension agronomist. Enough planting seed are not available to take care of the demand.

# Screwworms Or No?

Formal dedication of the new sterile fly production plant at Mission, headquarters of the Southwestern Screwworm Eradication Program, are scheduled for Saturday, June 16.

The new plant, located at Moore Air Force Base, is designed to provide 50 to 75 million sterile flies per week. With production beginning in mid-June, the first flies from the new plant will be released in early July.

"We are very pleased with construction progress at the Mission plant," Marvin J. Bridges, executive director, Southwest Animal Health Research Foundation, said. "We will have fly production underway ahead of the date we originally hoped construction would be completed."

"Early completion of the plant will be a tremendous boost to the program since we will have the sterile flies required to cover the wide area neces-

sary for eradication in the Southwest.

"Completing a 'crash' construction program of this type would not have been possible except through the Southwest Animal Health Research Foundation, using funds contributed by individual livestock producers and sportsmen from all over the Southwest."

Release of flies produced at the temporary plant at Kerrville has been increased to over 20 million per week. This, along with last winter's cold weather, has significantly retarded normal build-up of native screwworm populations. The increased production at the Mission plant will provide sufficient sterile flies to give added impetus to the eradication program.

The program is a joint effort of the Texas Animal Health Commission, the Southwest Animal Health Research Foundation, and the U. S. Department of Agriculture.

## The HAPPY HOMEMAKER

BY JUNE FLOYD

Some of you homemakers probably are busy canning cherries at the present time, or will be engaged in doing so in the very near future. All of us can cherries for pies and make cherry jelly and conserve, but have you ever thought of making pickled cherries?

If not, you will probably want to try the following recipe.

**PICKLED CHERRIES**  
Remove pits from ripe cherries, cover with vinegar for 24 hours. Drain and add to each cup cherries, 1 cup sugar. Then stir in 1 teaspoon each of cloves and cinnamon. Stir once a day until sugar is all dissolved, then put in jars and seal.

Next time you want something different for a salad that keeps well for a meal you want to prepare ahead of time, try

**TWENTY-FOUR HOUR BEAN SALAD**

Onions  
Green peppers  
1 cup chopped celery  
Small can pimiento  
1 can peas, drained  
1 can green beans, drained  
salt and pepper  
1/4 cup Wesson oil  
3/4 cup cider vinegar  
1/4 cup garlic wine vinegar  
1 tablespoon sugar  
salt and pepper  
Fix in layers onions, green pepper, celery, pimiento, peas, green beans, salt and pepper. Shake. Pour over vegetables and set for 24 hours.

For a new crochet technique, make a simple filet background in a basic color. Then for an interesting textured effect, weave various shades and weights of yarn through spaces. Ribbon also makes pretty decoration for these crocheted pieces.

There are so many meats and vegetables that you want to serve white sauce with that a basic white sauce recipe is one of the things every homemaker should develop to suit her needs.

If you don't have one you particularly like, try this one. You may want to use the variations developed for it, or you might prefer experimenting on your own.

**WHITE SAUCE**  
2 tablespoons flour

1/4 teaspoon salt  
few grains pepper  
2 tablespoons salad oil  
1 cup milk  
Combine salt, flour and pepper in saucepan; add salad oil and blend until smooth. Slowly stir in milk, mixing until smooth. Cook over medium heat, stirring constantly; boil 1 minute. Makes 1 cup.

**VARIATIONS**  
Cheese Sauce: Serve this over vegetables, croquettes or your favorite souffle. Add 1/4 teaspoon dry mustard with the seasonings. Blend in until melted 1/2 cup nippy American cheese (cut up or grated.)

Mushroom Sauce: An elegant touch to meat, fish, poultry or eggs. Saute 1 cup sliced mushrooms and 1 teaspoon grated onion in salad oil five minutes before adding flour.

Sea Food Sauce: For a quick supper, serve over split toasted buns or muffins. Carefully stir in 1/2 to 1 cup cooked shrimp or pieces of cooked lobster.

Parsley Sauce: Wonderful with croquettes or fish cakes--special with boiled or baked potato. Add 2 tablespoons finely chopped parsley.

Egg Sauce: Good over asparagus, broccoli or spinach. For a real treat, add sliced celery, cooked peas, chopped onion and grated American cheese--serve hot over biscuits. Carefully stir in 2 diced hard cooked eggs.

A good and easy way to cook green beans, sliced carrots, onions, summer squash or other vegetables is called the farmstead skillet method.

Pour 1 tablespoon salad oil in 9" or 10" skillet. Add 1 pound vegetables and 3/4 teaspoon salt and stir over medium heat 1 or 2 minutes. Add boiling water to one-half the depth of vegetables and 3/4 teaspoon salt; cover and simmer 10 to 15 minutes or until tender.

Uncover, add herbs and extra seasoning, if desired; continue cooking until water boils away. Yields approximately four servings.

Every year American agriculture provides enough cotton for about 24 house dresses or 30 dress shirts and 2 pounds of apparel wool for every man, woman, and child in the nation.

## Water Dist. Publishes Plains Water Table Map

The High Plains Underground Water Conservation District has announced the publishing of a map which indicates the decline of the ground-water table in the southern High Plains for the 24-year period, 1938 to 1962.

The map is prepared in three colors, black, yellow and red, it uses the different colors to indicate various increments of decline.

A total of five increments are shown -- 10-40 feet, 40-60 feet, 60-80 feet and more than 100 feet of decline since 1938.

the 13 counties in the High Plains Water District, something on the order of 20 percent of the ground water available to pumps in 1938 has been depleted. The percent of depletion for the counties in the District is: Armstrong, 32 per cent; Bailey, 13 per cent; Castro, 19 per cent; Cochran, 20 per cent; Deaf Smith, 18 per cent; Floyd, 22 per cent; Hockley, 30 per cent; Lamb, 15 per cent; Lubbock, 44 per cent; Lynn, 38 per cent; Parmer, 12 per cent; Potter, 33 per

cent; and Randall, 20 per cent. The map has been reproduced in the Water District's non-advertising monthly newspaper,

"The Cross Section" and mailed to those persons on the circulation list. For others, who do not receive "The Cross Section" but who would like a copy of the map, it will be made available free of charge upon request. Address map requests to: High Plains Water District, 1628-15th Street, Lubbock, Texas.
