Local Boys Attend State FFA Meet

Three members of the Farwell Chapter of Future Farmers of America will be among 800 members of the 38,000-membership organization to receive the state's highest award, the Lone Star Farmer Degree, at the state FFA convention in Ft. Worth, July 18-20.

Boys from the local chapter receiving degrees will be Robert White, Michael Nelson, and Danny Johnson.

Other Farwell members planning to attend the convention are Charles Roberts, chapter president, and Bobby Atkinson. Roberts is the official delegate to the meet and Atkinson is alternate. The group will be accompanied to Ft. Worth by FFA advisor Robert Morton.

The membership will confer honorary degrees on adults who have contributed in an outstanding way to the accomplishments of the organization.

Among the speakers will be Lyle Carpenter, Uma, Colo., immediate past president of Future Farmers of America, and Bob Murphy of Nacogdoches. Three thousand boys are expected for the convention which will meet at the Hotel Texas.

The local group will leave here Tuesday morning and will return Friday night.

Equalization Board Meets

The Board of Equalization for the city of Farwell will meet in the city hall Tuesday July 24, 9 a.m. until 5 p.m. All interested persons are invited to attend the meeting.

Members of the board are chairman Clay Henson, Sam Rundell and Ernest Kube.

Mrs. Watkins' Mother Dies In Oklahoma

Funeral services were held in Elk City, Okla., Wednesday for Mrs. J. Rea, 94, mother of Mrs. G. T. Watkins of Farwell, and Carl Rea of Bovina. Burial was in the Elk City cemetery.

Mrs. Rea passed away Tuesday morning after a lengthy illness.

Survivors include three sons, four daughters, several grandchildren and ten great-grandchildren.

Local people attending the services were Mr. and Mrs. G. T. Watkins and Mr. and Mrs. Donald Watkins and children.

Oilers Win Tourney For Second Time

The Helton Oilers, after losing the second game of the Portales softball tournament Monday, July 2, came storming back with five straight victories Wednesday, July 4, to pull it out of the fire and win the tournament for the second year in a row.

Wednesday morning, the Oilers played Dora and bounced them by a score of 8 to 4 behind the pitching of St. Koenigs and Ox Louis. Helton had eight hits while Koenigs and Louis held Dora hitters to only three.

In the second game Wednesday, Helton defeated Bishops of Portales. The Oilers had five runs off seven hits, while Bishops managed two runs off five hits. Koenigs was the winning pitcher.

In the next game Helton met Portales Furniture Mart again. The Furniture Mart had defeated Helton Monday but the Oilers came back to squeak out a 1 to 0 victory in this one. The win was credited to Ox Louis who allowed only one hit.

In the fourth game, Helton came up against the Walker Air Force Base team from Roswell who had not lost a game in tournament play. The Oilers won this one 3 to 0 behind the pitching of Koenigs. The win left Helton and Walker all tied up since each had lost one game each.

In the playoff game the Oilers doubled Walker by a score of 6 to 3 for the championship. The big gun for Helton was Raymond Hadley who blasted out a home run. Gene Echols got a double while Don Gillis and N. D. Kelso each got a single to wind up the hitting. The winning pitcher was Koenigs.

Charlie Phillips Named "Mr. Disc-Jockey U. S. A."

Charlie Phillips, son of Mrs. Kate Phillips of Farwell, was recently named "Mr. Disc Jockey U.S.A." in Nashville, Tenn. As part of this honor, Charlie appeared as a guest of the Grant

Turner Radio show on radio station WSM in Nashville last Friday night and appeared as a special guest artist and guest disc jockey on the famous "Grand Old Opry" on WSM

TV Saturday.

Charlie got his singing start when he was a member of the school chorus while attending Farwell schools. He started singing in earnest at that time.

He gained fame as the composer of the tune "Sugartime." This popular ballad was made famous by the McGuire sisters and became the number 1 song in the nation in February of 1958. "Sugartime" sold over a million copies and grossed the authors, artists, record companies, and agents close to \$3 million.

Charlie just returned last week from Nashville where he made two more recordings to be released on the Columbia label soon. His latest recording, "I Guess I'll Never Learn" and the flip side, "Now That It's Over," is high on the country music chart across the nation.

"I Guess I'll Never Learn" is a bounce ballad with piano and rhythm backing. It was written for Charlie by John Hathcock and Weldon Allard who wrote "Wake Up Irene" for Hank Thompson a few years back.

"Now That It's Over" is a slow thoughtful ballad that is also prime material for popular markets as well as in western. Both sides received the 4-star "strong sales potential" review from "The Billboard" and an equally promising spot light from "Charlie Lamp's Music Reporter" as the "single scoop-best single."

Charlie has appeared on Louisiana Hayride and The Red Foley Show and is now playing for shows or dances, with a made-to-order act to fit the needs of individual promoters. He is booked as a single or with the "Sugartimers" band.

Charlie was formerly employed as a disc jockey at KCLV in Clovis and is now a disc jockey at KZIP in Amarillo.

CHARLIE PHILLIPS

Stephens Going To Workshop

Sherron (Buddy) Stephens, son-in-law of Mr. and Mrs. Leroy Faville of Texico, is in Northampton, Mass., doing clinical practice at Clarke School for the Deaf. He was sent to the school by the Amarillo Regional Hearing and Speech Foundation where he is a speech therapist.

Stephens, who will attend the school for a period of six weeks, is doing graduate work on speech and language development of the pre-school age deaf child.

Clarke School is the training center of Syracuse University Department of Speech Pathology

West Camp Church Has New Pastor

Rev. Raymond Quick has been called as pastor of the West Camp Baptist Church, according to an announcement made this week.

Rev. Quick, who comes here from Bowie, replaces Rev. Carroll Herring who left recently to accept the duties as pastor of Union Baptist Church in Knoxville, Tenn.

Rev. Herring had been pastor at the church for two years.

Lions Target Shoot July 22

The "Silver Dollar Shoot" which has been planned by Lions Club members will be staged July 22 at the trap shoot east of town from 1 p.m. until sundown.

Fees will be \$1 and \$2 and the public is invited to participate with all money derived from the shoot to be used for the Texico-Farwell Youth program.

Albert "Blackie" Smith holds the first place trophy the Helton Oilers won at the Portales softball tournament last week. This is the second year in a row the Helton team has won first place in the tournament and the third year in a row that Smith has managed the tourney winner. He has managed the Helton team the past two seasons and managed the winning Horton team the season before that.

Farwell Closes Deal On Sewerage Effluent

Farwell's city commissioners closed a deal Friday that will put most--if not all of--the surplus water at the city sewerage disposal unit east of town to good use.

Bill Owry, who owns land adjacent to the city site, proposed that the city enter into a 10-year agreement under which he would pump water from the lake to tilled acreage on nearby hillsides. He will use the effluent to irrigate about 20 acres of bermuda grass pastureland.

Owry will not be charged anything for the water, but he will have to go to considerable expense to equip his farm to pump and use it. His main concession to the city on the deal was to keep the settlement pits cleaned out near the treatment plant, and to furnish bacteria for the decomposition process whenever needed.

Other action at the commission meeting, attended by Mayor Sam Aldridge and Com-

missioner Clarence Christian, was minor. The city accepted \$47,000 in funds from the state to pay for widening of the half-mile of highway 70-84 from 7th Street to the city limits (this will tie in with the new divided, four-lane highway to the county line southeast of new divided, four-lane highway to the county line southeast of Lariat), and discussed the street paving work now in progress in the city.

Farwell's paving project has been off to a slow start this summer and the commission indicated concern with delays.

Street lights have recently been installed in downtown Farwell and the commission heard a request to extend them two more blocks eastward. However, the request was not granted.

The city has set Tuesday, July 24 as the date for the next board of equalization meeting. Serving on the board will be Clay Henson, Ernest Kube and Sam Rundell.

Texico Completes School Faculty

With the hiring of a science teacher last week the Texico school completed its faculty for the coming year.

Kent Foster, who will receive his B. S. degree in Chemistry from ENMU in August, was hired to fill the vacancy left by the resignation of Joe Corrigan.

Foster is a graduate of the Alamogordo High School and is presently living in Portales, but he and his wife will move to Texico before the beginning of school.

Other new teachers in the Texico School system this year are Paul Crooks, Mrs. Nellie Rannals and Mrs. Emmitt Clifton.

Commissioners Hold Routine Meeting Monday

The Parmer County Commissioners' Court took care of routine business in its meeting Monday in Farwell.

All June bills were approved for payment, and the County Treasurer's report for the April 1--June 30 quarter was approved. Minutes of the last meeting were read and accepted.

Oilers Beat Swift 5-3

The Helton Oilers defeated Swift & Son Packing Company of Clovis Tuesday night by a score of 5 to 3.

The winning pitcher was Ox Louis who allowed Swift & Son only five hits while Helton hitters collected nine.

The big gun for the Oilers was Gene Echols who bombed

out two home runs to lead the hitting. Others getting hits were Eddie Smith, Ernest Ramm, Hal Ed Helton, St. Koenigs and Raymond Hadley.

The win left Helton undefeated in league play and tightened their hold on first place in league standing.

Texico Council Meets Twice Each Month

At the July meeting of Texico city dads, they voted that since there is usually too much business to handle in one meeting, that hereafter commission members will meet on the first and third Fridays of each month at 4:30 p. m. Next meeting will be July 20th-4:30 p. m.

The Jones Brothers, who haul trash for the city, met with board members to make complaints that city residents are dumping trash at the dump ground gates. The Jones Brothers say they are at the dump ground all day on Friday from 8 a. m. - 6 p. m. and residents who desire to haul their own trash may dump it free on Friday when they will be admitted to the grounds. All residents who dump trash on other days will have to pay a small fee to do so. Signs are to be erected at the city dump in the near future.

An ordinance was passed stating that in the future all persons who are connected to the city water line will have to pay \$20 rather than the \$10 which has been charged in the past. Any person who has his water turned

off for non payment of his bill will have to pay an additional 50% fee.

The Texico 4-H girls were given permission to paint house numbers on the curb for city residents and a report was heard from Sam Lewis, police magistrate, who stated that a total of \$210 had been collected in fines during the month of June with six for failure to heed stop signs, two fined for making U-turns and one each for reckless driving, weight overload, speeding, and permitting an unlicensed driver to operate a motor vehicle.

Four building permits were issued with one each to: Paul Crooks for the erection of a frame stucco home valued at \$12,500; Carl Penn for the erection of a factory \$42,000; N. L. Tharp, \$10,000 for the addition of nine units to his motel; and to Jess Coburn, \$500 for a frame stucco house.

All bills with the exception of two were approved and ordered paid.

The city also voted to give \$150 to the summer youth program.

County's First Four-Lane Highway Is Step Closer

The first four-lane highway to be constructed in Parmer County has been approved along with the 1963-64 consolidated highway program for Texas, it was announced this week.

O. L. Crain, District Engineer of the Texas Highway Department at Lubbock, has stated that among the highways in this area, work is scheduled on U.S. Highway 84 from Farwell southeast to the Bailey County line.

The job calls for the construction of two additional lanes, with the two existing lanes to be reconstructed for the distance of 9.7 miles.

Also approved was the widening of the pavement in the Farwell city limits from Seventh Street to the east city limits. Curb and gutter work for this job has already begun.

County Judge Loyde Brewer said he had no way of knowing

how soon the highway work would be begun, but that it was his belief that the Highway Department was anxious to get the work done "on this end" of the highway because of its condition as compared to other parts of the road.

Southwestern Public Service lines, some irrigation wells, and some gas lines have been moved in preparation for the new highway, so that little remains to be done when the state gets ready to begin construction.

Cost of the construction jobs in Parmer County is estimated at \$961,000. Resident Engineer for the work in the county is Rhea Bradley.

Crain's notice said that work would begin on each project as soon as "final planning is completed and right of way secured." Judge Brewer

pointed out that the securing of right of way, in which the county and state shared costs, was virtually completed.

Around \$100,000 has been paid for the right-of-way and utilities. The state has paid the county their portion.

Also on the state's highway program is 7.9 miles of old pavement to be reconstructed in Bailey County from Muleshoe southeast to the Lamb County line, then 1.7 miles southeast from that point. Also approved was a six-mile loop which will bypass the city of Littlefield on US 84.

With these projects approved, the proposed "super highway" from Clovis, N.M., to Lubbock came several steps closer. Work currently being done on the highway includes eight miles between Littlefield and Hockley

Bonds have been voted, and right-of-way purchasing has begun in Bailey County from Muleshoe northwest to the Parmer County line to connect with the four-lane highway currently approved in Parmer County.

Texas Bust: Texans drink three times as much beer as the national average, according to a 1961 survey.

**Nine Enroll In
Swimming Classes**

According to Johnny Green, pool manager, nine persons have enrolled in the beginners swimming classes at the New-Tex pool in Texico. Instructor for the lessons is Carol Thompson.

Green says that if enough persons are interested in advanced swimming lessons, these instruction will also be worked out. Anyone interested in an advanced swimming course should contact Green at the pool.

Swimming classes are conducted from 9 a.m. to 12 noon with the pool open for public swimming from 1 to 6 p.m. New life guards are Gary and David Farmer.

Green says business at the pool has been good thus far this summer.

A group of Texico 4-H Club girls pause in front of the Morgan Billington home in Texico during their project of painting house numbers on the curbs in Texico. The fee for painting the number on the curb at a residence is \$1 or \$1.50 for two rental properties. Shown left to right in front are Betty Hukill, Diane Fought, Jill Billington, Merle Arnold, Linda Hukill, Beverly Winkles and Arlene Arnold. In back, left to right, are Hazel McDaniel, junior leader, and Mrs. Perry Winkles and Mrs. Melvin Burns, club sponsors.

**Texico 4-H Girls
Paint House Numbers**

Texico 4-H girls started their project to paint house numbers of local residents on the curbs in luminous paint Monday morning with the project to continue through the summer.

The girls plan to try to contact all property owners in Texico so that all residents will have an opportunity to receive this service. Property owners may have their house numbers painted on the curb for a fee of \$1 or may have the numbers painted at two rental properties for \$1.50.

This project is being sponsored by the Curry County 4-H clubs and they will receive half of the fee with the local club to retain the remainder of the fee to be used in local projects.

Any person who is not contacted and desires to have the numbers of his house painted may call either Mrs. Melvin Burns or Mrs. Perry Winkles, club sponsors.

The best way for housewives to have a few minutes to themselves at the end of the day is to start doing the dishes.

**Uncle Ray's
"Hot Air"**

I never knew how hard it was to drive a bargain until I bought a second-hand car.

After refusing to speak for the first four years of his life, the baby uttered his first words in the form of a complaint at the breakfast table. "Mom", he said, "the toast is burnt."

His amazed mother shrieked with joy, "Junior, you spoke. How come you've never talked before?" "Well," replied Junior, "up to now everything's always been O.K."

You will not have any cause for complaint when you trade at Uncle Ray's.

FISHERMEN

Dad and Butch are both getting a big kick out of this. If Butch catches a fish — even a minnow — it's hard to say who will be the prouder.

We suspect, though, that it will be Dad. He'd probably give this little man all the fish in the ocean, if he could!

He is giving him things that really count. Good clean fun and happiness, a sense of sportsmanship, and that special man-to-man bond between father and son. And because his son means so much to him, Dad takes Butch to the services of their church each week.

Boys have to do a lot of growing to get to be men. It takes a lot to keep them growing the right way. Weekly church and church school attendance is a big step forward. Don't keep your child from taking it!

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Mildred Hukill - Ellis Parson Exchange Wedding Vows

In a mid-afternoon ceremony at Farwell Church of Christ Sunday, July 1, Miss Mildred Marie Hukill, daughter of Mr. and Mrs. Sam Hukill of Texico, became the bride of Ellis Jim Parson, son of Mr. and Mrs. Thomas Parson of Friona.

Double-ring vows were read by Don Tarbett, minister of Farwell Church of Christ, before an altar arrangement of spiral candelabra centered with a sunburst arrangement of white gladioli and carnations which were flanked by seven-branched candelabra and palm.

Nita Holly, an aunt of the groom from Artesia, sang "Because".

Mr. And Mrs. Ellis Jim Parson

Miss Darlene Tipton, cousin of the bride from Idalou, was maid of honor. She wore a pastel blue dress styled with a round front neckline extending to a V at the back. The shirt was made with soft unpressed pleats and accented at the waist by a large bow. She carried a colonial cascade bouquet of white carnations tied with blue ribbon.

Miss Hukill, who was escorted to the altar and given in marriage by her father, wore a white lace ballerina length dress over taffeta styled with a scalloped neckline and petal point sleeves. The softly flaring skirt was accented at the back with tiers of ruffles extending to the scalloped hemline.

her white shoes and blue was the traditional garter, a gift from Miss Elaine Parson, sister of the groom. For good luck she carried in her shoe a penny minted in the year of her birth.

Near Parson served his brother as best man, Kenneth Arnold, cousin of the bride from Idalou, and Davie Parson, cousin of the groom, served as ushers and also lighted the candles.

Mrs. Hukill attended her daughter's wedding wearing a navy blue dress with white accessories. Both mothers wore white carnation corsages.

A reception was held at the Texico Woman's Club Building immediately following the ceremony. The serving table was laid with a white lace cloth over blue and centered with a floral arrangement of blue and white carnations in a white milkglass wedding bowl. The three-tiered wedding cake, which was decorated with white wedding bells and blue roses and topped by a miniature bride and groom figurine, was served with blue lemonade by Mrs. Eual Tipton, aunt of the bride, and Mrs. Parson.

When the couple left for a short wedding trip to south Texas, the bride was wearing a white sheath dress with white accessories and a corsage taken from her bouquet.

The newlyweds will be at home in Friona until September

Mr. and Mrs. David Ratliff of Odessa announce the marriage of their daughter, Rebecca Ann, to Pryor Reeves, son of Mr. and Mrs. Winfred Reeves of Farwell, Thursday, June 25, in Tulsa, Okla. The couple plan to make their home in Tulsa where he is attending an aeronautical school.

Going Away Party Honors Markhams

Rev. and Mrs. W. H. Markham were honored with a going away party at their home in Farwell Friday afternoon with Mesdames Harrye Whitley, Lenton Pool and O. C. Petree as hostesses.

The entertaining rooms were beautifully decorated throughout with bouquets of wild roses. Refreshments of orange chiffon cake and lemonade were served.

Rev. J. L. Bass, pastor of First Baptist Church in Farwell, gave a short devotional and Mrs. Markham responded

thanking all their friends for their many kindnesses since the family came to this community many years ago.

Attending and sending gifts were Mesdames Harden Reed, A. Milstead, H. R. Crooks, H. A. Grimes, Bruce Blair, Carrie Hardage, Buck Bradshaw, J. T. Hulsey, Joe McWilliams, Elmer Scott, M. C. Osborn, R. T. Langston, Charles Hromas, Melvin Snider Sr., Dick Geries, J. T. Lockhart, Mabel Reynolds, E. G. Williams, Clytie Dial, Asa Smith, Ella Penn, Charley Lunsford, and Clay Henson.

Also, Fred Geries, Claude Rose, Harry Whitley, WMU of First Baptist Church, Rebecca Class, Esther Class, and Misses Betty Lockhart, Susan Blair, Margaret Goforth, Janie Bradshaw and Paige Osborn, and Rev. and Mrs. J. L. Bass and Jana.

Party Honors Carolyn Langford

Carolyn, daughter of Mr. and Mrs. Elmer Langford, was honored with a party on her twelfth birthday Thursday, July 5.

Guests gathered at the Langford home and drove to Texico where they enjoyed swimming at the New-Tex swimming pool.

Refreshments of birthday cake decorated with pink and blue flowers and the words "Happy Birthday Carolyn" was served with ice cream cones and punch to Misses Janine Clark, Janet Sharp and Betty Clark.

Dosher's Have Daughter

Mr. and Mrs. Jerrall Doshier of Texico are announcing the arrival of a daughter, July 7, in Clovis Memorial Hospital.

She weighed 9 lb. 14 oz. at birth and was 21 inches in length. The little lady has been named Kristi Lanell.

The Doshiers have one other child, a son Darrell, who is four.

Grandparents are Mr. and Mrs. Dick Doshier of Texico and Mr. and Mrs. Robert Wallace of Gentry, Ark.

Daughter Born To Darby's

Mr. and Mrs. Jerry Darby of Lubbock are announcing the arrival of their first-born, a daughter, Sunday July 8, in a Lubbock hospital.

The little miss has been named Letha Ann and weighed 6 lb. 13 1/2 oz. on arrival.

Grandparents are Mr. and Mrs. D. O. Rolland of Farwell and Mr. and Mrs. C. J. Darby of Ridgeway, South Carolina.

First Daughter For Billy Don Crumes

Mr. and Mrs. Billy Don Crume are announcing the arrival of their first daughter, who was born Monday, July 9, in a Lubbock hospital.

She weighed 7 lb. 6 oz. at birth and had not been named at press time.

The Crumes have two son, Delane and Carter Lynn.

Grandparents are Mr. and Mrs. L. M. Grisson of Bovina and C. E. Crume of Farwell.

McDonalds Visit Relative Here

Mrs. Leroy McDonald and children of Mesa, Ariz., formerly of Farwell, arrived here Monday afternoon for a visit with relatives.

They were guests of her parents-in-law, Mr. and Mrs. Johnny McDonald, in Farwell, and visited her mother in Muleshoe and her sister in Lazbuddie.

McDonald plans to come to Farwell in about two weeks to drive home with his family.

WHAT IS DRYCLEAN ONLY?

It is the process of dry cleaning clothes (without pressing), and is charged by the pound instead of the individual garment. When done by a recognized, professional cleaner it provides many extra services, all designed for safer, surer and more satisfactory results. Only the established cleaner can give you these advantages:

PROFESSIONAL DRY CLEAN ONLY

25¢ LB. CITY CLEANERS FARWELL

ADD NEW GYROSCOPIC STABILIZERS, IT'S LIKE A SET OF TIRES FREE
for every car you drive for the rest of your driving life!

LIKE A GIANT GYROSCOPE IN YOUR WHEELS

This fabulous invention stabilizes your car and your ride using the same Gyroscopic Principle used to stabilize Giant Ocean Liners, Jet Planes, Atomic Submarines and Space Rockets. Read how GYROSCOPIC STABILIZERS improve the performance of your car, give you more safety, comfort and economy every mile you drive for the rest of your driving life! YOU MUST SEE THE DIFFERENCE . . . FEEL THE DIFFERENCE . . . HEAR THE DIFFERENCE THE FIRST TIME YOU DRIVE WITH THIS INVENTION OR IT COSTS YOU NOTHING!

Why Gyroscopic Stabilizers Can Add Up to 10,000 20,000 EXTRA MILES to Your Tires

- Gyroscopic Stabilizers Give the Driving Ease of Power Steering—Even If You Don't Have Power Steering.
- Makes light cars hold the road like heavy cars even in high winds.
- Reduces skidding and drifting.
- Uses instant gyroscopic action.
- Can't wear out or break down—never needs repairs or servicing.
- Can be changed from car to car—fits any American car and most foreign cars, regardless of year, make or model.
- Can't fly off or interfere with full wheel covers.
- If you happen to change from an American to a foreign car we will send you adapters to make it fit.

HOW FRONT-END TROUBLES SOUND TO YOU

Can Take Thousands of Miles Off the Life of Your Tires!

Cupping Uneven Feathered Tread

Gyroscopic Stabilizers Check These Front-End Troubles Before They Start—Add Thousands of Miles to the Life of Your Tires

Smooths out the bumps—cuts wear and tear on vital front end parts—keeps steering assembly tight—makes your car hug the road like a custom-built racing car. You get thousands of EXTRA miles out of your rubber—up to double the life of your tires—makes your ride SAFER, SMOOTHER, SURER—all the way!

A Tip From a Top

Did you ever see a kid playing with a gyroscope—top—you know, the kind with the wheel whirling around inside a ring—that fantastic gadget that spins at the craziest angles, yet always manages to straighten itself out? What has it got to do with your car? How is this going to keep your steering assembly safe and firm, your front end tight . . . your ride smooth and relaxed?

The answer is gyroscopic stabilizing. Because, believe it or not, from that kid's toy top has come the gigantic gyroscope industry which is revolutionizing man's concept of modern transportation.

The wheels of your car are potential gyroscopes. When standing still, of course, they're just wheels. But once those wheels start turning, with Gyroscopic Stabilizers mounted under your hubcaps, those wheels are suddenly transformed into giant gyroscopes that work by the fundamental gyroscopic laws of the universe to stabilize your car and your ride every second your car is rolling, at any speed—under any conditions. Once Gyroscopic Stabilizers are put on the wheels of your car, you are assured of a safer ride, a surer ride, and a more economical car to operate. No wonder those who have used Gyroscopic Stabilizers say "it's like enjoying a rest cure on the road."

Gyroscopic Stabilizers Can Be Installed By You In Minutes Using Only Your Lug Wrench

The gyro-stabilizer is bolted under the wheel bolts of your front wheels and is completely hidden by your hubcaps. Far easier to install than changing a flat. No one can tell it's there except you and you can only tell by the miraculous improvement in riding, handling and economy. They start working the moment your wheels start turning; you feel, see and hear the difference instantly, and they last forever. Just can't break down, wear out, are good for the life of your car and every car you drive after that. It's a better ride all the way—and like getting a set of tires free for every car you drive for the rest of your driving life. They'll fit all American and most foreign cars, will work just as well years from now as the day you get them. Gyroscopic Stabilizers make driving so safe, so comfortable, such a pleasure, that now when you've got to make long journeys for business, vacation, etc. instead of taking the bus or train, you'll take your car.

GYROSCOPIC STABILIZER STORY

An explanation of how Gyroscopic Stabilizer wheel balancers accomplish a finer, more accurate degree of balance; increases braking power and creates a gyroscopic stabilizing action that cannot be obtained by any method of balancing.

No. 1: All vibration resulting from unbalanced wheels, uneven road surfaces, etc., must necessarily be transmitted to other parts of the car at the point where the bearing rotates around the axle.

When a hub is mounted on a bearing, a brake drum mounted on the hub, a wheel is mounted on the brake drum and a tire is mounted on the wheel, then the entire weight of the tire, wheel, drum and hub must rest on the bearing. If there is any out of balance condition in any part or combination of the assembly, it then must be transmitted to the bearing when the heavy quarter of the assembly is rotated to the top.

No. 2: Since all vibration begins at the bearing, then only by counter-balancing at the bearing, or as near the bearing as it is physically possible on a two-point counter balance, would it be possible to have a perfect balance at 360 degrees at all speeds from zero up to and including 120 miles per hour. It would be impossible to have a perfect balance, as you would then have two quarters of the wheel assembly that would be heavier than the other two quarters.

No. 3: It would be impossible to have a perfect balance at all speeds by adding weights to the rim of the wheel. Assume that you have an absolutely perfectly balanced hub, drum and wheel, but that you do have a tire with a two ounce heavy section in the tread. Then depending upon the size of the weight you would have to add 3, 3 1/2, or 3 3/4 of an ounce of lead on the rim. You would then have a perfect balance at only one speed as the weight on the outer diameter (the tire) would increase more than the weight on the inner diameter (lead on the wheel rim) hence a high or low speed vibration would develop when the force of gravity of one weight travels in a larger diameter against an opposing weight traveling on a smaller diameter.

Stocktons Home From Trip

Mr. and Mrs. C. B. Stockton and son Charlie returned Tuesday from an extended trip which took them through nine states and a part of Canada. Leaving here June 29 the Stocktons drove through Oklahoma, Kansas, Nebraska, South Dakota, Montana, and on into Canada returning by way of Idaho, Nevada, Arizona and New Mexico.

Highlights of the trip were stops at Glacier National Park in Montana, Grand Canyon in Arizona and a tour of the night spots in Las Vegas.

They visited briefly in Mesa, Ariz., with a brother of Mrs. Stockton.

Texico 4-H Girls In County Contest

Six girls from the Texico 4-H Club were entered in competition at the Curry County dress revue recently with all girls entered bringing home ribbons.

Four girls were entered in home living I and entered aprons. Bringing home blue ribbons were Merle Arnold and Diane Fought. A red ribbon was won by Arlene Arnold and a white one was won by Betty Hukill.

The two girls entered in home living II were Beverly Winkles and Linda Hukill. Beverly won a blue ribbon on her skirt and blouse with Linda bringing home a red one.

Beverly Winkles will represent the local group this weekend in Portales where she will participate in a district home-making contest in table setting, cup towels, biscuit and sewing equipment.

Party Honors Jana Crooks

Jana Crooks, two-year-old daughter of Mr. and Mrs. Paul Crooks, was honored with a party on her second birthday in the home of her grandparents, Mr. and Mrs. Milton Henson Thursday, June 28.

The serving table was laid with a white linen cloth and centered with a bouquet of miniature pink roses in a white milk-glass bowl flanked by the three-tiered white birthday cake which was decorated with pink rosebuds and green leaves.

Hopper --

ment about everyday Americans' access to the facts through our international press services. He says the foreign correspondents on the scene are furnishing news to this nation that is completely false.

All this could be true, I hope it is not, but it could be. But I know some of these people he is talking about, I have a high regard for their professional ability and veracity, and I just can't understand how Welch can stand in an auditorium in Amarillo, Texas, and tell me more about what is going on in Algiers than can a corps of news professionals who are on the scene.

Welch says that deGaulle is pro-communist and that France will be the next major nation to have a communist alliance. He hints that in a few years deGaulle may come up with a public pronouncement on the order of Fidel Castro's, revealing he is a communist and has been for years.

Well, if you're wondering how all of this affects me, I'll say that I'm not a member of the Society, and at the present time don't feel like joining. There are a number of reasons. However, I am pro-John Birch in the sense that I think this group has an important place in helping form American opinions, and for the size of the organization, it has done a tremendous and amazing job at stirring people to inquiring into national and international events.

It has cut down on a lot of TV-watching, which is the national sabotage to thinking. It has started a lot of arguments and promoted a few fist fights, which are regrettable, but it's encouraging to see a few folks still have enough red corpuscles to get mad enough to want to fight for what they believe.

The John Birchers are not fanatics. They don't wear arm bands, salute Robert Welch, or burn homes. Like any other movement they have a few over-enthusiastic and misguided souls. But the Birch movement on the whole is not the lunatic fringe it has been made out to be. It is made up mostly of people who reason.

Jones Receives Fellowship Grant

Monte E. Jones has been awarded a fellowship grant from the federal government as one of the two recipients from the state of New Mexico. He was selected by the New Mexico Department of Education and has been accepted as a doctoral candidate by Colorado State College in Greeley where he will concentrate in the field of special education for the mentally retarded.

Jones, who has been on the staff of the Alamogordo Public Schools for the past four years, is the son of Mr. and Mrs. Agrie Jones of Alamogordo, former Texico teachers. He is a native of eastern New Mexico, having graduated from the Grady High School and received his B.A. and M.A. degrees from ENMU in Portales.

He is married and has one son, Monte Lynn, five years of age. Mrs. Jones has also been teaching at Alamogordo and plans to continue teaching in Colorado.

Fred Danforth is in Denver this week where he is attending a meeting of an insurance company. He will return home Saturday.

LOCALS

Mr. and Mrs. Dutch Quickel and family, accompanied by Susan and Irene Thornton of Bovina, were at Conchas Lake for a weekend outing.

Mr. and Mrs. Jimmy Henson and children, Jay and Terri, have moved to Grants where Henson will be employed.

Mr. and Mrs. Jimmy Don Moss and son, Mike, have returned from a visit with relatives in Kansas and Oklahoma.

Potatoes Begin Rolling To Parmer County Markets

Farm Bureau Holds Training Institute

The 14th annual Texas Farm Bureau Institute, a training school for county Farm Bureau leaders, will be held here at the Robert Driscoll Hotel July 24-27, according to J. H. West of nearby Bishop, TFB president.

"Purpose of the Institute is to provide basic information and training to county leaders so that they can better fulfill their responsibilities in their leadership positions," West explained. "Specific training will be provided for leaders in the county organization, with additional courses designed to provide better understanding of citizenship responsibilities, agricultural problems, and economic forces," he added.

Special general assembly programs will be conducted by Dr. Harry M. Love, Department of Economics, Virginia Polytechnic Institute; and Dr. C. L. Kay, vice president for Public Services, Lubbock Christian College. Dr. Love will lead a discussion on "opportunity versus security," dealing with economics. Dr. Kay will speak on "Challenge of the Sixties," pertaining to citizenship.

Guest instructors include Dr. Earl H. Knebel, College Station, head of Department of Agricultural Education, Texas A. and M. College; and Warren Newberry, Vernon, American Farm Bureau Federation field representative. George McArthur, assistant county agent in Victoria County, will be in charge of recreation events at the institute. Other instructors are staff members and officers of the TFB.

Classes will be taught on membership acquisition, motivation of people, policy development and execution, Farm Bureau history and philosophy, information and public relations, economics, safety, services to members, and Farm Bureau structure.

HURST'S

FRIONA

Potato harvest got underway in Parmer County last week, and indications are that this year's crop will make a good yield, and so far, the market price is very attractive.

The first potatoes were processed at Gregory Produce Company in Lariat last Monday, July 2.

"We've been going slow, in order to allow the potatoes to mature ahead of us," said Buck Gregory, who has about 275 acres to be harvested, with 100

acres of fall potatoes. He said his plant had processed from 12,000 to 14,000 sacks of potatoes as of Tuesday.

Gregory said that the quality of his potatoes looked good so far. The price started off at \$4 per hundred, but has dropped to about \$3.75.

Harvest in the Friona area got underway on Friday, when John Renner began harvesting his 45-acre plot of potatoes. He began digging the early Norland variety, and the red-jacketed spuds appeared to be averaging around 180 sacks per acre.

Kenneth Neill, of Friona Growers and Shippers, was to begin digging his potatoes Tuesday. There are approximately 450 acres of potatoes around Friona this year, Neill estimated. There are little or no onions this year, however, Neill said Friona Growers had handled none this year, and none were expected.

Early price for potatoes in Friona was \$3.90, which would indicate a good return to the farmer if the price holds up. Renner, who is one of the area's foremost vegetable producers, said he had had a good break from the weather with the harvest, in that rain had not intervened.

Gregory, who said his potatoes were averaging from 175 to 225 sacks per acre, has finished with his Norland variety, and has begun digging the Red Lasota type. He indicated that the Early Gem, a white Russet-type potato, will be ready to harvest by next week.

Hail slowed down Gregory's crop to some extent, but it came back and did well, he said.

THE POTATOES come rolling out of the soil at the John Renner farm south of Friona. Potato harvest was begun there last Friday. Potatoes were delivered to Gregory Produce in Lariat four days earlier, on Monday, July 2.

FHA Loans In County Total Over \$600,000 For The Year

A total of \$642,720 was loaned during the past fiscal year to farmers served by the local office of the Farmer's Home Administration at Farwell, according to W. D. Buske, chairman of the Agency's Parmer county committee.

The loans were made to local farm families after they were declared eligible to receive credit by the county committee. One hundred sixty seven applications were reviewed by the committee.

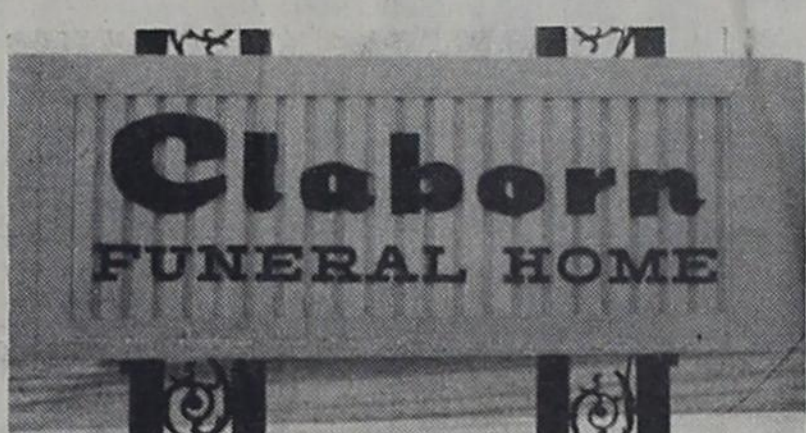

Operating loans accounted for

most of the loans made. These loans were used to purchase stocker calves, machinery and to finance the farm and home operating expenses.

Borrowers repaid a total of \$777,793 on loans previously made, some of which were amortized over several years but repaid ahead of schedule. During the fiscal year, 31 farmers repaid their loans in full to the Farmer's Home Administration and now obtain their credit needs through the Banks and other local lenders.

Farmer's Home Administration supervised credit is designed to help each farmer establish a sound farming operation, raise his income and make a full contribution to the strength of our nation's economy.

Local farmers can apply for loans through the office of Billy R. Boling, County Supervisor at Farwell.

Your family can enjoy fresh corn in the middle of winter!!!

It's great to eat fresh corn-on-the-cob anytime you want to. And, it tastes even better when you realize a savings on every ear you buy. But it's possible when you have an electric home freezer — a place to safely store the corn you buy in season — with a savings of as much as 5¢ an ear.

You'll like your electric home freezer!

SOUTHWESTERN **PUBLIC SERVICE COMPANY**

*BASED ON AVERAGE IN AND OUT OF SEASON PRICES

WITH THE COUNTY AGENT

DERYL COKER

Several 4-H members and their parents have been wanting to know where they could buy livestock that would make suitable projects.

On Monday, July 23 at 5 p.m. there will be a Swine Sale at Earth, Texas. Three breeds of hogs will be sold: Hampshire, Berkshire, and Poland China. The sale will include bred sows, open gilts, and boars. It might be possible that you could find something you would like if the prices are within reason.

I have always heard that you can tell how prosperous a county is by its paint and landscaping. Last year 2150 trees were ordered from the Forestry Service and planted in Farmer County. This number was made up of Loblolly pine, Austrian pine, Ponderosa pine, and red cedar. We should continue to improve our landscaping so that Farmer County will be a pretty place in which to live in the future.

Here lately, mosquitoes have made it nearly impossible for people to be out late in the evening. Mosquito control should involve at least these four areas:

1. You should take a survey around your home or farm to see if both adult larvae are present. Even where capabilities are limited a brief survey of premises to be treated may provide helpful information concerning breeding sites, etc.
2. Whenever possible the removal of water available for larvae development should be done away with. Mosquito larvae can breed and multiply in any container that can hold water

Farm Legislation Referendum Is July 24

The Secretary of Agriculture has designated July 24 as the date for the 1963 wheat marketing quota referendum and has announced that the national wheat allotment for 1963 is to be 55 million acres, the minimum provided for under the law.

Prentice Mills, office manager of the Farmer County

ASC, pointed out that unless Congress passes some sort of farm legislation in the meantime, the farm program will revert back to the 1958 provision.

This means, Mills said, that each individual farm allotment would then be established in accordance with the provision of the 1958 Agricultural Act.

Generally, this means that the wheat allotment on each individual farm will be approximately the same as it was in 1961--taking into account any increase or decrease in the county allotment.

The support price for 1963 wheat has been established by the Secretary of Agriculture at \$1.82 per bushel national average.

Of course, there will be no diverted (lay out) acreage for wheat this coming year," emphasized Mills, stating that this was provided for under the 1962 Wheat Stabilization Program. The Farmer County Wheat allotment has not been received as yet, however individual farm allotment notices will be mailed.

such as tin cans, old tires and other objects.

3. Larvae can be controlled by a number of conventional insecticides or kerosene or number two fuel oils. These oils are toxic to eggs, larvae, and pupa, which should be applied 15 to 20 gallons per acre. Some oils may have a direct toxic effect; others suffocate the inadequate immature stages.

In treating small areas of water with oils, such as tanks use 8 to 10 ounces per 100 square feet on tanks with vegetation or 2-4 ounces per 100 square feet for tanks without vegetation. Stock tanks may be treated with kerosene without harming livestock that drink from them.

4. Adult mosquitoes must be destroyed. They can be sprayed with a residual spray such as Lindane, Chlordane, or DDT. These sprays are potent for a week or more after they are applied to surfaces. As long as they remain on the surface they kill mosquitoes that come in contact with them. Apply these residual sprays around foundations, tree trunks and in shrubbery.

the New PIPER WAY

QUICKLY • EASILY • THOROUGHLY

New Piper-approved hi-fi records and full-color filmstrips explain and illustrate six separate aviation subjects—all the facts you'll need to pass the written Private Pilot exam. Includes easy-to-understand diagrams and photos of the Piper Colt, world's most popular new sport and training plane.

You'll see and hear why an airplane flies, what happens when you move the controls, how to inspect and check an airplane for take-off. You'll learn all about navigation, radio usage, weather and FAA rules. Actual in-flight photos of the Piper Colt will give you a pilot's perspective to put you at ease when you start flying yourself.

Stop in any time for a FREE DEMONSTRATION of the new Piper-approved audio/visual ground school. Then enroll in the most exciting adult-education course you've ever discovered.

HD Agent's Notes

BY MISS ETTIE MUSIL

Last week was an eventful time for Miss Cella Patton during her first week in the county. She will receive one to three months of training before she is assigned to a county in this district as county home demonstration agent.

To start her first day in training we accompanied Mrs. J. D. Sanders, Mrs. Ralph Price, Mrs. H. R. Cocanougher, Mrs. Herbert Schueler, Mrs. Vernon Symcox, and Mrs. T. J. Presley to Hereford for an all day meeting.

Miss Bonnie Cox, Extension Organization Specialist and Miss Edith L. Wilson, District Agent, led a discussion on planning programs for the home demonstration clubs. We learned that the committees of the County Program Building Committee makes up the hub nucleus of our programs in the county according to needs and wants of the people.

Tuesday we stayed in the office at which time Miss Patton read background history and information about Farmer County. Thursday proved to be a full day for both of us as we started the advanced class of the 4-H clothing workshop. This all-day workshop was conducted in our office in the courthouse.

You should have seen the fabrics and patterns the five girls brought. Most of the girls are sewing shirtwaist dresses. Several of the girls thought they had chosen fabrics that did not have to be matched. What a surprise when we found stripes, plaids, and definite designs in prints. All fabrics had to be matched in some way.

Miss Patton and I had to fit the patterns to the girls to shorten or lengthen waist lines or change position of darts. Finally the girls cut out their garments after stretching fabric and placing patterns accurately.

Of course, the girls pre-shrunk their fabric before the workshops. To pre-shrink the fabric the girls soaked the folded fabric in warm or hot water for thirty minutes making sure all fabric was wet. The folded wet fabric was removed from the water and hung on a towel rack to drip above a bath tub or shower. The fabric remained folded to dry. The

girls turned the folds only occasionally as the top side dried. No pressing was needed.

We shall be supervising these girls in workshops every day this week from 9 a. m. to 4 p. m. Making dresses in these advanced workshops are Reba and Viane Lesly, Katie Blackstone, Mary Coffey and Judy Koelzer.

We hope to meet you sometime during Miss Patton's training in the county. She will write newsletters and individual official letters as she is trained. We shall make home and demonstrator visits to homemakers who invite us. At first she will accompany me on these invited visits, but later she will plan for and make the visits alone.

Telephone calls and office visits are an important part of our teaching you information you request. You may hear a new voice answering from time to time that will be Miss Patton's. We have been invited to 4-H and HD Club picnics and meetings. These are all important to become acquainted with similar meetings she will have as an agent in her county. Come by to meet her.

Treider Replaces Glasscock On FHA County Committee

Ted J. Treider, Lazbuddie farmer, has been named to the Farmers' Home Administration, according to Billy R. Bolinger the agency's county supervisor here. The appointment is for three years beginning July 1.

The purpose of the county committee is to review applications for FHA loans. Composed of three members, the committee is set up on a rotation basis with one new member appointed each year. Treider succeeds M. T. "Mose" Glasscock of Farwell who has served on the committee the past three years. Other committee members are Harold Carpenter of Oklahoma Lane and W. D. Buske of Friona, Texas.

The Farmers Home Admin-

4-H Youths Make Safety A Practice

The impact of 660,000 dedicated boys and girls working for safety is bound to make a sizable dent in accident statistics. These safety-minded youths are 4-H Club members representing just about every county from coast-to-coast.

Based on last year's statistics, it is estimated that around 5,000 members will qualify for a 1962 safety medal award. One 4-H'er from the state will be selected to be the safety delegate to the National 4-H Club Congress opening in Chicago, Nov. 25.

The trip plus eight \$400 college scholarships will again be sponsored by General Motors, donor of the national 4-H safety program awards for the 19th straight year.

Activities in virtually every kind of safety are undertaken by the 4-H'ers. For example, Jefferson County, Colo. is credited with pioneering rifle safety in the state with the cooperation of several state, county and national agencies.

Residents of Rock County, Ill., benefited from stepped up information on the Civil Defense program brought about through the efforts of local 4-H Clubs. Safety tips on use of power lawnmowers reached about 4,000 residents of Portage County, Ohio. Club members personally delivered and explained the bulletins to neighbors.

Obeying safe driving rules is urged, especially during vacation months when thousands of cars throughout the state take to the open road. Safe operation of automobiles and tractors is another facet of the 4-H program.

In 1963, special emphasis will be placed on fire prevention, including fires likely to start from faulty electrical wiring or appliances, according to the national 4-H safety development committee.

Delegates Selected For State HD Association Convention

Parmer County Home Demonstration Council met Friday, July 6 at 2 p.m. in the Community Room of the Friona State Bank in Friona. Six members representing five of the eight home demonstration clubs attended. Also attending were council chairman, Mrs. J. D. Sanders, who presided at the meeting, and THDA chairman, Mrs. Ralph Price, County Home Demonstration Agent, Miss Etie Musil, and Junior Assistant Extension Agent, Miss Celia Patton.

The meeting had been previously postponed. Mrs. Floyd Brookfield served in the absence of the secretary. Folding chair relay was led by Miss Musil as opening exercise.

Finance chairman, Mrs. Brookfield, reviewed expenses for the state meeting of the Texas Home Demonstration Association in Dallas, September 19-20. Delegates who will represent Parmer County are Mrs. Elmo Dean, Mrs. Vernon Symcox, and Mrs. C. A. Weir. Alternate delegates are Mrs. H.R. Cocanougher and Mrs. W. E. Stringer.

Mrs. Herbert Schueler, yearbook chairman, reported on the special program organization meeting in Hereford Monday, July 2. Attending from the county were yearbook committee, Mrs. Schueler, Mrs. T. J. Presley, and Mrs. H.R. Cocan-

ougher. Also THDA chairman Mrs. Ralph Price, council chairman, Mrs. J. D. Sanders, Mrs. Vernon Symcox, Miss Musil and Miss Patton.

For the Health and Safety Committee, Mrs. Price announced the promotion of everyone in the county carrying Personal Health cards. Five thousand cards have been received

for everyone to use in case of health emergencies. These cards are available in the Extension Agent's office and Parmer County Community Hospital at Friona.

Council voted to send Miss Musil to represent District 1 at the state THDA meeting in Dallas, September 19-20. It was voted that each delegate

and visitor attending state meeting is to pay her own fare if she attends Six Flags Over Texas.

Everyone is invited to the County 4-H Dress Revue to be held Tuesday, July 24 at 8:30 p.m. in the Hub Community Center. Miss Musil also announced that the Parmer County Farm Bureau contributed \$80.00 for

the expense of the 4-H boys and girls who participated in the Texas 4-H Roundup in College Station, June 5-7.

In conclusion of council meeting Miss Musil explained the training of Miss Patton in the county. The training will be one to three months in all phases of home demonstration work.

Attending Council besides the above mentioned officers and agents were: Mrs. T. J. Presley, Mrs. Walter Cunningham, Mrs. J. B. Williams and Mrs. Bill Dollar.

New Booster Is Discovered To Supplement Weed Killer

A booster can be added to "Karmex" diuron weed killer for lay-by weed control in cotton this year as a result of discoveries which may prove as valuable as the introduction of a new family of weed-killing compounds, according to the Du Pont Company.

Use of the booster compound, Du Pont Surfactant WK, with "Karmex" diuron weed killer supplements, rather than replaces, earlier recommendations for "Karmex" alone applied in cotton fields at lay-by time. With the surfactant added, "Karmex," which has previously worked primarily through the roots of weeds, becomes an effective foliage herbicide.

The new recommendation

provides control of emerged weeds up to four inches tall (as may be necessary in a wet year), and rainfall is not needed to activate the chemical. Previously, the common methods for killing emerged weeds were cultivation and oil treatment.

Effectiveness of surfactants as weed killer boosters was discovered in cotton trials at the Mississippi Delta Branch Experiment Station in Stoneville and at the U. S. Department of Agriculture Research Center at Beltsville, Md.

The combination is presently approved only for lay-by application in cotton, but it appears promising for selective weed control in some other crops and for soil sterilization on industrial sites and railroads. Many combinations of surfactants weed "Karmex" diuron weed killer and other herbicides will be tried this season for selective weed control in corn and other crops and for other vegetation control problems.

Experimental results indicate that the addition of the proper surfactant to a weed killer spray mixture may reduce the amount of weed killer required; reduce the waiting period for planting certain crops in treated fields; or im-

prove the weed control effectiveness of certain compounds without increasing the risk to desirable plants. Field tests have demonstrated that directed sprays of the combination at lay-by are as safe to cotton as "Karmex" used alone.

The standard recommendation for lay-by weed control with "Karmex" is one to one and a half pounds of "Karmex" to the acre (going up to two pounds in California and Arizona), applied in 25 to 40 gallons of water per acre, immediately after the last cultivation but not before the cotton has reached a height of at least 15 inches. If Du Pont Surfactant WK is used, it is simply added to the spray tank after the "Karmex", at one to one and a half pints of Surfactant WK per acre.

Applied as a directed spray under the foliage of cotton plants, the combination of "Karmex" plus Du Pont Surfactant WK controls certain emerged annual weeds up to four inches tall, and also gives residual control of weeds which germinate later.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Texas Farm Bureau has consistently opposed the so-called "Merit Rating" plan for automobile insurance on the basis that it was unfair to those who had never had a claim but who had been caught speeding, etc, and also because the cost of bookkeeping was increased to such an extent that rates naturally went higher for everyone, including those with no points.

The fact of the matter is, after only two and one half years of the experiment, those who were paying the premium showing a 20% discount were paying just about the same as they were the day before the plan went into effect. So even though the cost for the "preferred driver" will be about 3 or 4 per cent higher after August 1, it is our opinion that it will be less, in a year or two, than it was under the merit system.

We are, however, in favor of a plan that would actually consider those without any claims whatever over a period of time. Claims, not speeding tickets, are what effect the cost of insurance. Now that this experiment is over, Farm Bureau still favors a flexible rating plan that would allow each company to set its own rates, with the approval of the commission.

Competition is what keeps the business world going 'round. Farm Bureau has never believed insurance laws should be set up in the interest of the companies beyond the extent necessary to provide protection for the policy holder.

Defeat of the National Marketing Order for Turkey Growers is hailed by Farm Bureau as a major victory against this type of government regimentation in all live animal industry. Fifty per cent of the marketing volume produce voted, and only 43.4 per cent of those favored the order.

The wheat referendum will be voted upon again on July 24th. Texas Farm Bureau is holding three area meetings to discuss the involvement present in this referendum so that the voters will be more aware of what they are voting for or against. One of the meetings was to be in Amarillo Wednesday of this week. We hope several wheat farmers attended this meeting.

Your office secretary and her husband, Buster Davis are taking a week's vacation in Grand Canyon and other western points this week, so your service agent will spend most of seven or eight hours in the office serve you.
