

Texico Plant Manufactures Trailers

A new industry, which will employ from 40 to 50 people and will manufacture steel camping trailers, is nearing completion and should be in operation in Texico within 30 days. Panhandle Trailer Company is the name of the new business, which is owned by Carl Penn, and which has for the past three years been manufacturing Thunderbird Campers at a plant in Ft. Sumner.

ico, has moved the industry from Ft. Sumner to Texico and the size of the operation is being increased.

A new, 80x200 foot steel building has been constructed at the west edge of Texico and Penn says "We plan to manufacture 3,000 trailers during our first year of operation." During the three years the company was in operation in Ft. Sumner, about 700 trailers were manufactured and sold by distributors throughout this part of the country.

New equipment is being purchased for the Texico plant and it should be here sometime next week. After the equipment arrives it should only be a short while before the plant is in operation.

"We hope to be in operation sometime during the first half of October," Penn says.

At the present time the company is taking applications for the nine women and the 35 men that will be needed to op-

erate the plant.

Except for a few key jobs, the plant will employ mostly unskilled labor.

"Right now we have only about 15 applications," Penn says. The applications are being taken at the company's office located in the front of the new plant.

The camping trailers produced at the Texico plant will be all steel, whereas in the past most of them have been constructed of wood.

The Thunderbird Camper is constructed so that it will fold up into a trailer which can be pulled behind an automobile.

It folds out into a "home away from home" and has such features as two innerspring mattresses, kitchen facilities, zippered doors and windows, 50 cubic feet of storage space, and flooring which is elevated above the ground.

The trailer weighs about 600 pounds and once it is folded up into a trailer it is 43 inches high, 75 inches wide and eight feet in length.

When it is folded out (it takes less than five minutes time to set up), it has a living area which is 8 feet by 12 feet six inches and it has 8 feet of headroom.

The trailer is built in four models, a compact twosome, and the Traveler 202, Traveler 303, and Traveler 404. The latter three are essentially the same with different features and fixtures.

Penn says he is optimistic about the future of the Texico plant and the success of the Thunderbird Camper. He points out that camping has recently come to be considered America's No. 1 pastime and more people are doing it all the time.

The company already has many distributors, especially in the Southwest, but plans are to market the trailers throughout the nation.

When the plant opens, it will operate one shift daily and will produce about 10 trailers per day.

Later the plant may employ two shifts and the size of the building may be increased and more equipment added, depending on the market, Penn says.

General manager and vice-president of the company is Charlie Dennis, of Clovis.

Farwell PTA To Auction "Off A Boy"

Farwell PTA will auction "Off a boy", September 25, 8:30 p.m., at the Farwell high school auditorium. Be sure and be present at this time as we will meet the teachers and discuss problems which have come before the PTA for consideration.

Preston Martin is president of the organization this year and Mrs. Bert Williams will serve as vice-president, with Mrs. Melbourn Jones to serve as publicity chairman.

Nickels Receives First Cotton

Nickels Gin in Farwell received its first load of 1962 cotton Tuesday afternoon around 5 p.m.; however the cotton had not been ginned at press time and no estimate was made on its grade or weight.

The cotton was brought in by Orle Jones from his farm six miles south of Farwell and was of the Gregg variety, which is an early maturing variety which most farmers in the area planted this year. It was from an irrigated field.

Jones says he may have a little more cotton which will be hand pulled but the major portion of the cotton harvest in this area will not get underway until after frost when strippers can be used.

Mrs. Janie Bowery is shown as she looks over some of the work she will be doing as a part of her duties as the new Farwell City Clerk.

School and City Tax Offices Separated

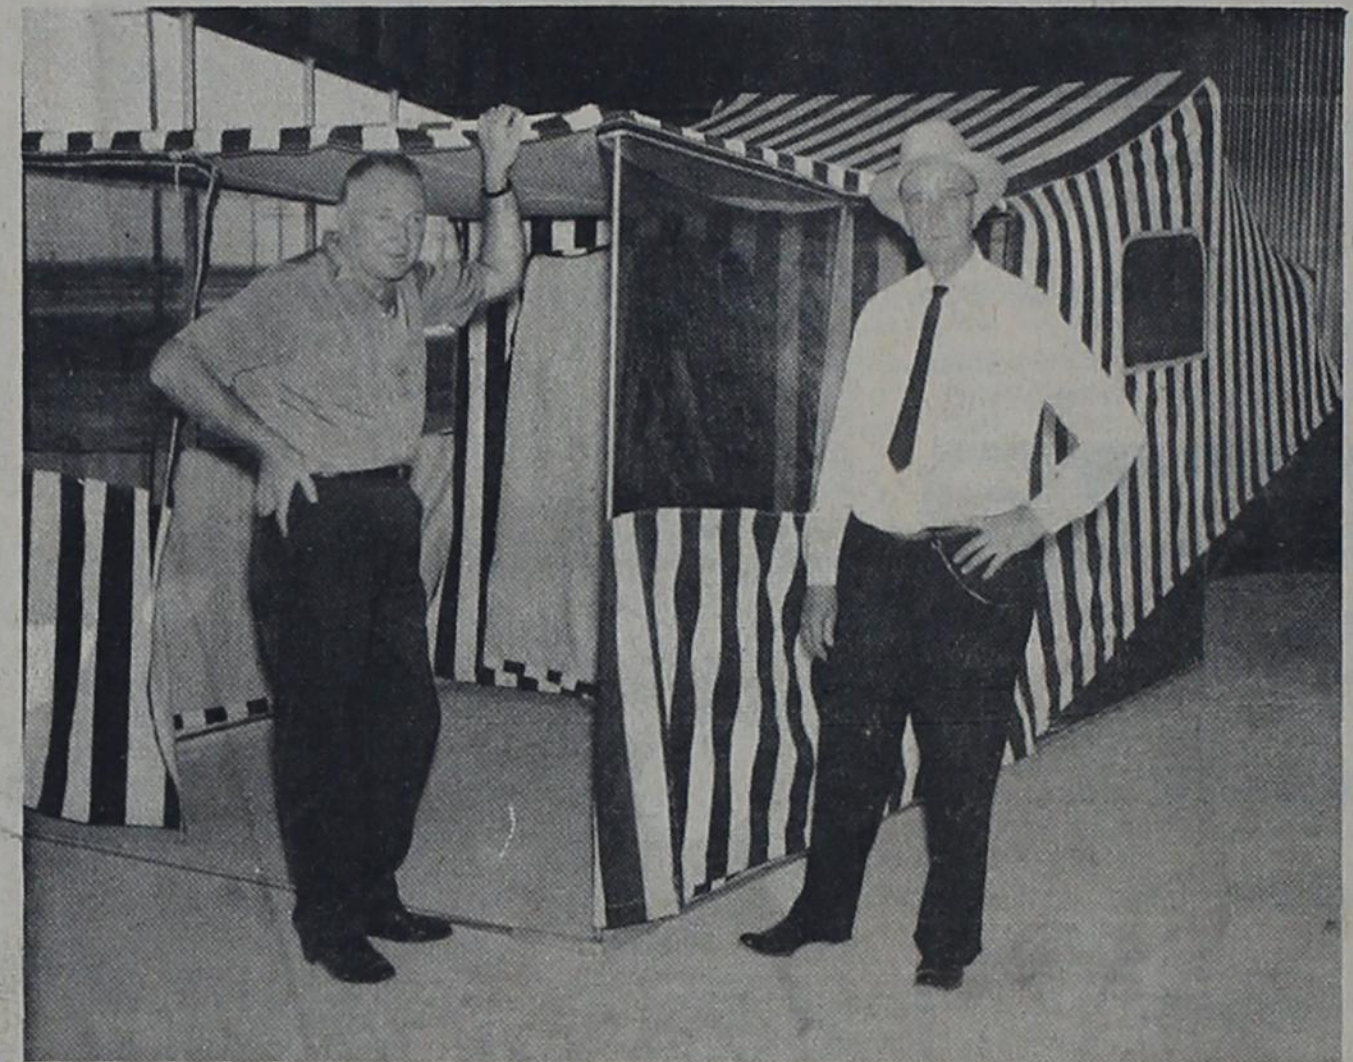

The Farwell School Board at its September meeting voted to separate the School Tax Office from the City Tax office. This move has been under consideration for the past two years and with the city buying the waterworks and adding this additional work to their office, the board thought it would be a good time to make the change.

The office will be moved to the school on October 1. It will be located on Sixth St. in a part of the old Home Economics Building. There will be an entrance directly from the street and it will be where the public can use it without coming in direct contact with the school.

Mrs. Dorothy Eason has been employed as full time tax assessor. Mrs. Eason has been employed by the school and the city since May 1959.

Mrs. Janie Bowery, a daughter of Mr. and Mrs. W. T. Magness, who makes her home east of Farwell with her six children was hired by the Farwell City Commission at a called meeting, Tuesday morning, to replace Mrs. Eason as city clerk.

Mrs. Bowery has had three and one half years experience working for two and one half years in the criminal division of the District Attorneys office in Hidalgo County and spending one year as an assistant in the delinquent tax division of the same office. Her children are all enrolled in Farwell School.

Standing in front of one of the Thunderbird Campers, which has been folded out into living quarters, are Charlie Dennis, general manager and vice-president of Panhandle Trailer Company; and Carl Penn owner of the company. The company plans to manufacture about 3,000 trailers at its new Texico plant during the next year.

Alexander, Prince Lead; Mrs. Johnson Tops

The women showed the men that football isn't necessarily a man's game, when it comes to armchair quarterbacking, when the tallies were counted in the Tribune football contest this week.

Thelma Alexander and Bill Prince were in the lead in the second week of the contest, with 17 points each. Thelma is the wife of Farwell Steer football coach and Bill is a businessman.

Bill had won second prize last week and guessed eight this time.

In this week's contest, the women were tops with Mrs. Albert Johnson missing only one prediction. She had placed Hereford over Canyon. She called the Farwell-Bovina score on the nose, 18-14. She is in line with several other contestants for second place for the grand prize with 16 points.

Sherri Austin, a high school student, was second. She missed the winner of the San Francisco 49ers vs. the Chicago Bears. She thought Farwell would top Bovina 20-13.

Tie for third went to Jim Clements and W. M. Roberts. Clements had named Hereford over Canyon and Roberts had named Eastern New Mexico over Central Oklahoma. Their predictions on the Farwell-Bovina clash were 23-14 and 21-16 respectively.

Although the Bovina Mustangs were rated high against the Steers, only two of the fans who entered the Trib contest, predicted that the Steers would not be victorious.

In the overall contest, other than Mrs. Johnson, tied for second.

(Continued on page 2.)

FROM THE HOPPER

BY HOP JR.

This is the grandest time of the year on the Plains. Surely those among us who cuss the sandstorms, the blue northerns and the tornadoes, will admit that from September 1 until November 1, this country is about as pretty--and the weather is about as ideal--as could be found anywhere.

The only complaint I have about conditions these days is my hay fever which, I guess, I'd probably have in a lot of other localities too. For the past few weeks I've had two or three fits of sneezing a day, and have noticed a lot of company in my plight. It seems to be a fairly common malady.

"It's good to hear that some people pull boners that are nearly as bad as the ones that plague me. And it is particularly consoling to see that some of these mistake-makers are polished professionals, who should be above such colossal public slipups.

Richard Hapke, who was editor of The Tribune a year or so ago, and who now works for the Lovington paper, tells me that the new chamber of commerce manager in that city of over 10,000 pulled one that will have him blushing for years.

Governor Ed Mechem was flying in to Lovington last week, and the new manager was among the first to greet New Mexico's No. 1 politician as he stepped off his plane at the airport.

The official, who has been CC manager only a few months and not too familiar with all the names of the area bigwigs, suffered a momentary mental lapse. He couldn't remember the governor's name. He stammered for a few moments, and Mechem, taking pity on the plight of the poor fellow, volunteered the correct information.

Then, in a loud and clear voice that he hoped would help overcome his poor start with the governor, the Lovington official blurted out, "Welcome to Levelland!" as he seized the governor's hand and pumped it vigorously.

"I don't know whether he still has his job or not."

I thought the president did a pretty good job of outlining our policy on Cuba in his speech last Thursday. Cuba is sure a hot chestnut, in any way you look at it. I am glad it is not my responsibility to make a decision on what should be done about so grave a problem.

President Kennedy did about all he could do, in my opinion, in speaking out in specific words what we would do under given circumstances to arrest the threat to this nation's safety that is appearing just over the horizon from the U. S. mainland.

Actually, it is just making the best of a bad situation. The mess we find ourselves in today had its beginning years ago.

If there was ever a bipartisan blunder in statesmanship, this is it. The Republican administration of President Eisenhower gave aid and comfort to the Castro rebellion when it was nothing more than a guerilla movement in the mountains of Cuba.

Public sympathy for the rebels was running high in America, and there were scores, if not hundreds, of soldiers of fortune who went from the U. S. to Castro and fought by his side in a cause they thought just.

Batista ran a dictatorship, and not a very benevolent one at that, and on the whole the U. S. sympathized with this effort for freedom. After Castro succeeded in overthrowing the government, he wasn't long in showing his true colors, and we could see what blind fools we had been.

When the counter-revolution- (Continued on page 2.)

These three lovely lasses will be leading the Texico High School band in all appearances this year. L to R: Sharon Peyton twirler, Marquitta Wall drum major, and Veda Wilson twirler.

Texico Band Makes Appearance

Texico High School band students made their first appearance in the new Kelly-green

and white military style uniforms which were purchased this summer. Monday when they

were in Amarillo to participate in the Tri-State fair parade.

Monday, September 24, they will be in Lubbock to take part in the South-Plains Fair parade where they will be in competition with other bands in their class. The parade at Amarillo was non-competitive but gave the young band some good experience.

Leading the band this year as drum major is Marquitta Wall with Sharon Peyton and Veda Wilson to serve as twirlers.

Gary Stelting, new band director in the Texico School is well pleased with the progress the band has made to date and is looking forward to a good year.

School Menu

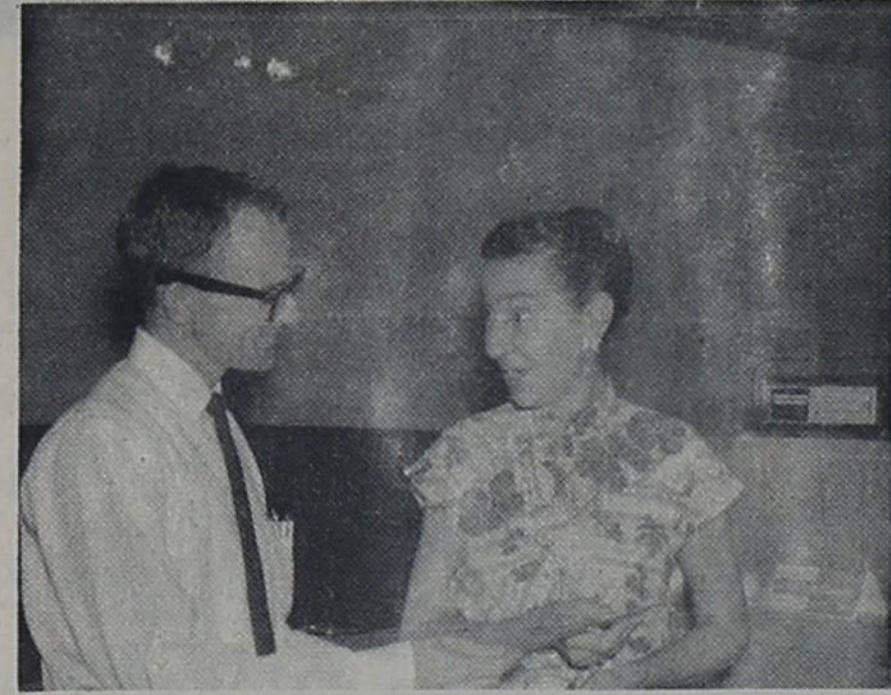

Monday: steak with cream gravy, creamed potatoes, green beans, hot rolls, butter, jelly and milk.

Tuesday: meat loaf, catsup, buttered potatoes, spinach, bread, butter, pears and milk.

Wednesday: chicken pot pie, tomato and lettuce salad, peaches, graham crackers and milk.

Thursday: hamburgers, cheese slices, potato chips, cookies, milk.

Friday: fish slices with tartar sauce, scalloped potatoes, buttered carrots, bread, butter, beatnik cake and milk.

R. W. Anderson of the Security State Bank presents Mrs. Albert Johnson last weeks contest winner with her first place check.

Farwell School Board Meets

At a meeting of the Farwell School Board in September, the following matters were taken up by board members.

1. Approved Financial Report, activity fund report, and bills for payment.
 2. Raised pay scale of substitute teachers from \$8 per day to \$12 per day.
 3. Employed F. E. Coan to make the annual audit of school funds.
 4. Approved budget for 1962-63 school year.
 5. Approved tax roll for 1962.
 6. Adopted a policy in regard to student use of automobiles or other motor vehicles during school hours.
 7. Voted to set up a tax office.
 8. Mrs. Dorothy Eason was employed as Tax Assessor and Collector.
- The policy in regard to student use of automobiles and other motor vehicles is as fol-

lows:

1. Cars must be parked upon arrival at school.
2. Students are not to sit in automobiles during the noon hour or any other time during the day.
3. Cars must not be driven away from school until school has been dismissed in the afternoon.
4. Students in automobiles should use Eighth or Ninth Streets when leaving school in the afternoon.
5. First offenders will be brought before the principal or superintendent for a conference.
6. Second offenders will be suspended from school and a conference with parents will be arranged. Reinstatement in school will be contingent upon their attitude. If a student is allowed to return to classes, his driving privileges will be suspended for a period of time.

Texico Teams Win One-Lose One

Texico softball teams again split a pair of games over the weekend when they met the Logan teams on the home field. Coach Johnny Green says that three of the four games played by the locals this year have gone into extra innings.

In the Friday games the boys were tied up, 2-2 at the end of the seventh with the Logan boys getting four runs across the plate in the top of the eighth and Texico unable to reciprocate ending the game 6-2.

Coach Green says errors and base running defeated his boys as Campbell, the local pitcher, struck out seven and only gave up nine hits. Texico boys were able to garner only three hits off the pitching of Henry Gallegos, who is considered the best pitcher in the league by area coaches. Kenneth Shiplet caught for Logan and Lynn Doshier for Texico.

In the girls game it was a different story with Logan able only to get in a single run in the second inning. They were able to get five hits off the pitching of Pauline Taylor but were unable to score again.

Texico girls were unable to do much scoring or hitting with Pauline Taylor practically winning her own ballgame with three for three. Susan Taylor had two for three for the locals.

Texico's big inning came in the fourth when they had three runners across the plate. Their other run came in the fourth. Getting runs for the local girls were Pauline Taylor, Vivian Duncan, Millie Autrey and Mary Creek. Final score was Texico 4 - Logan 1.

Texico will host the House teams Friday with game time set for 2:30 p.m.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

District Scout Round-table Well Attended

A district round-table for cub scouts was held Thursday evening at the city hall in Farwell with scouts and leaders from Portales, Clovis and Farwell attending. Approximately 45 persons were in attendance.

The local cub scouts will have a pack meeting at the old gym at the Farwell school, Thursday night, at 7 p.m.

Theme for the meet will be "Space" with the scouts to exhibit rockets which they have made at the cub meeting recently.

Junior Snider, cub master invites all parents and cubs to attend the meeting.

Tribune Rates Second In West Texas Contests

The Tribune has received word that the newspaper rated second in general excellence in annual newspaper contests sponsored by the West Texas Press Association. The awards were made at the annual convention held in August in Wichita Falls.

First place went to the Olton Enterprise, for cities under 3000 population.

Hopper--

aries launched their invasion two years ago, we gave them our best wishes, but then sat idly by with our hands in our lap while their feeble attempt failed miserably. That was during the Democratic administration.

So, it looks as if we have been proved wrong both times and under two different administrations. And the threat of Cuba, now backed by Soviet aid and comfort in a sinister way, continues to grow.

This is a good lesson in what a problem it is to be a leader among the nations of the world today. International affairs have become so terribly complex that it is almost beyond the ability of man to cope with them.

Only history will tell us the wisdom or folly of our choices.

Car Is Stripped Near Bovina

A car belonging to Butch Riddle, who lives five miles east of Bovina on Highway 86, was stripped last Sunday night while it was parked within 300 yards of the owners home.

Riddle reported that the automobile stalled, and was left beside the highway for a couple of nights. Then, on Sunday, September 9, vandals stripped the car of an air conditioner, three tires and wheels, a generator, battery, distributor, radiator hose and radio.

Familiar Faces

Among familiar faces to be watching for at the season opener between Texas Tech Red Raiders and West Texas State's Buffaloes September 22, will be Johnny Lovelace quarterback for the Raiders.

Lovelace was a standout with Farwell High School Steers for four years and has been playing with the Raiders for the past three seasons.

Other former regional stars playing will be fullback Carl Taylor of Anton; Guard Glen Koch of Brownfield; tackle Tommy Hayes of Electra; and end Tommy Doyle of Lamesa. Pistol Pete Pedro, the nation's leading touchdown maker will be playing for West Texas Buffaloes backed by tackle Bill Shaha from Dumas, and halfback David McInturff from Sundown as well as many other boys who played in this area during high school.

Johnson Tops--

ond are: Dargin Kirk, Leona Moss, Glenn Phillips, and W. M. Roberts. In third place with 15 points each are Clements, Charles Dannhelm, John Green, T. J. Kittrell, Bill Moss, Champ Porter, Loyd E. Smith and Don Williams.

Kirk was last year's grand prize winner and Mrs. Don Williams has been a winner.

He who knows, and knows he knows

He is wise -- follow him.

He who knows, and knows not he knows,

He is asleep -- wake him.

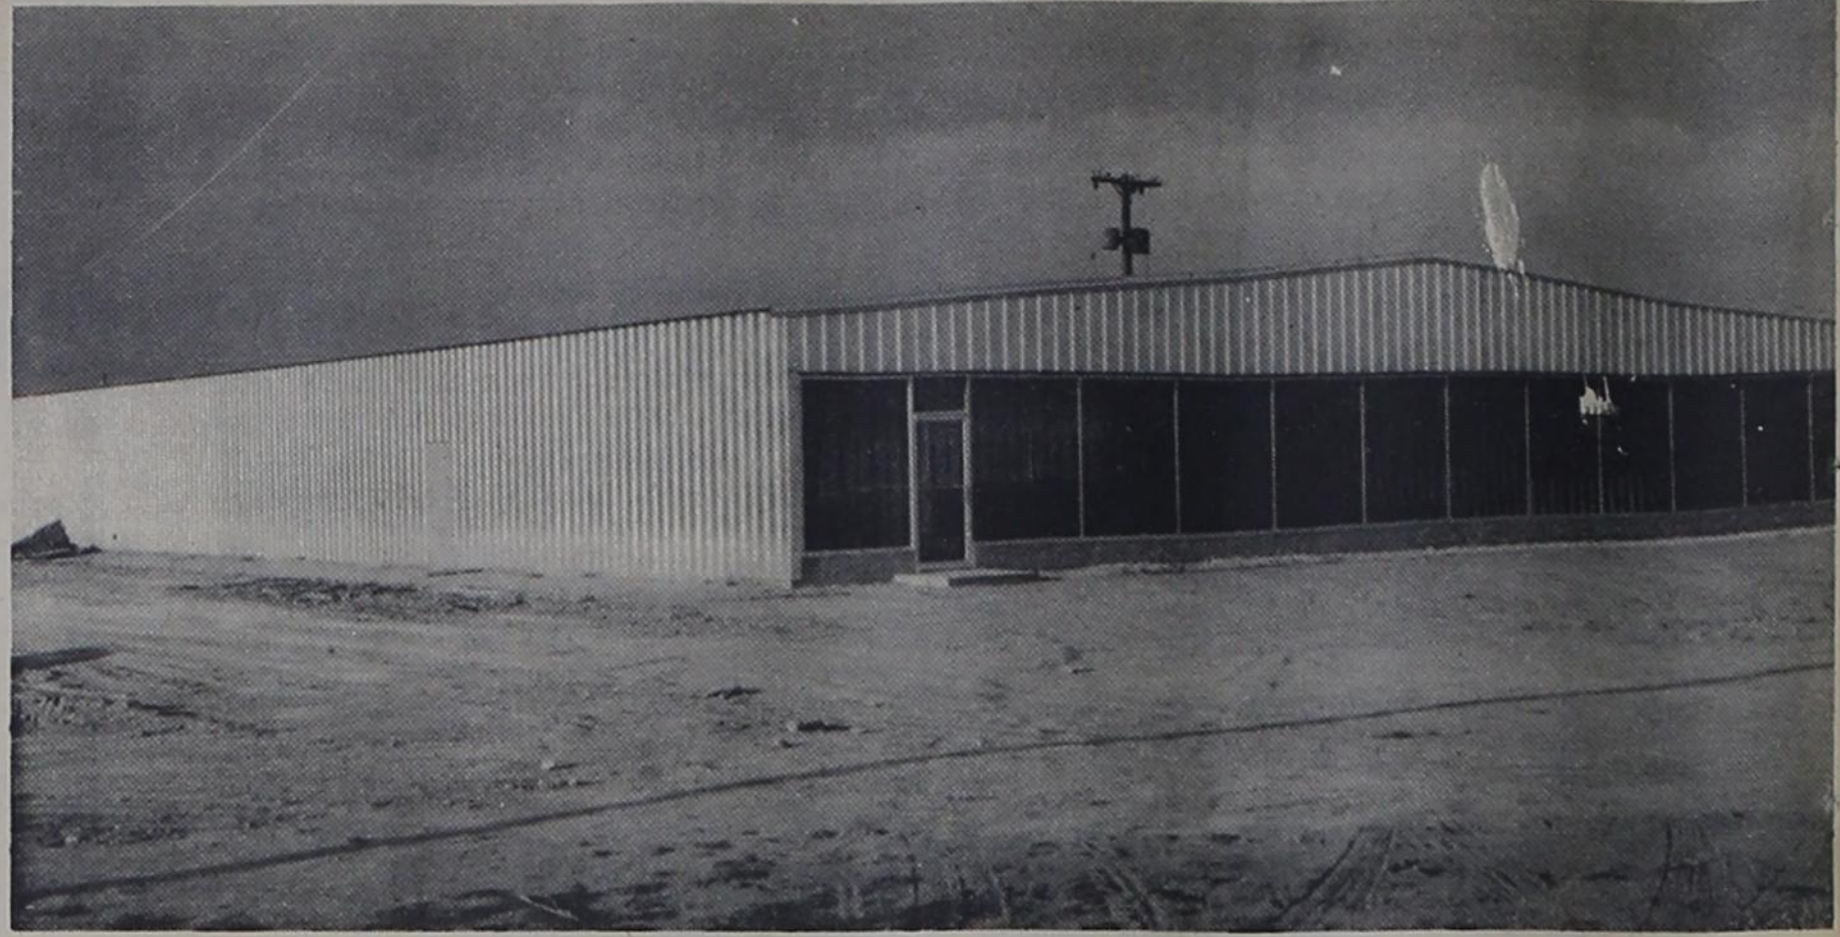

He who knows not, and knows not he knows not, --

He is a fool -- shun him.

He who knows not, and knows he knows not,

He is a child -- teach him.

Arabian Proverbs.

Pictured above is Panhandle Trailer Company's new plant in Texico. The all-steel building is 80x200 feet and it will

house equipment for manufacturing Thunderbird Campers.

Midland Services For Mrs. N. C. Smith

Funeral services were conducted at Calvary Baptist Church in Midland, Sunday afternoon for Mrs. Nelson C. Smith 62, who passed away at her home in Midland following a

heart attack, Thursday afternoon. Rev. Lloyd Lester, church pastor officiated and burial was in the Midland Cemetery under direction of Ellis Funeral Home, Eastern Star members conducted services at the cemetery.

Mrs. Smith had made her home in Farwell until a year ago when her husband retired from the postal service and they moved to Midland where they had made their home since that time.

Survivors include her husband Nelson C., one son Billy Baldrige of Fort Worth, Mr. Smith's daughter Mrs. Lola Jean Hams of Lubbock and three grandchildren.

Attending the funeral services from here were Mr. and Mrs. Albert Smith, Mr. and Mrs. Ed McGuire, Mr. and Mrs. Clyde Perkins, Mr. and Mrs. E. R. Barrie and Lee Meeks. They were accompanied by Gilbert Wollard from Muleshoe.

"Woman's Talk"

Wife: "Look at these rags I'm wearing. They're so shabby if anyone came to our home they would think I was the cook."

Husband: "Not if they stayed for dinner."

Junior High Teams Take Easy Wins

Texico junior high softball players took a couple of easy wins at House, Tuesday afternoon with Coach C. B. Stockton's girls team taking a 27-5 win over the House girls and Coach Johnny Green's boys taking a 25-1 win over the House boys.

Lubbock Services For W. A. Austin

Funeral services were held at the 25th St. Baptist Church in Lubbock, Saturday for W. A. Austin, 85, father of Guy and Partin Austin, who passed away in Lubbock Methodist Hospital, Thursday after suffering a heart attack.

Services were conducted by Rev. Jim Partin of Abilene assisted by Rev. Kershaw of Lubbock. Burial was in Lubbock City Cemetery under direction of Rex Funeral Home.

Survivors include his wife Mrs. Nell Austin, nine sons, Guy and Partin of Farwell, B. T. of Sudan and George, W. A. Jr., Russell, Donald, Donis and Cecil all of Lubbock, five daughters Mrs. Bill Johnson of O'Bryan, Mrs. Homer Watts of Farmington, New Mex., Mrs. Connie Powell of Whiteface, Mrs. Doc Walker of Lubbock and Mrs. Ted Houlette of Las Cruces. Also 43 grandchildren, 43 great-grandchildren and several great-great-grandchildren.

In the girls game pitcher was Frankie Lambert and Molly Burch was catcher with Lanelle Engram scoring four runs on four times at bat and four hits. She is first baseman for the Texico girls. Outfielder Nancy Brantley came to bat five times and scored four runs for the local with one of them a homerun.

House girls were able to score four runs in the first inning but were unable to score after the third inning when they got a single run across the plate. Lambert gave up nine hits for the locals with the Texico girls getting 34 hits off the pitching of Dee Moon from House.

In the boys game Joe Patterson was the big gun for Texico getting five hits for five times at bat and scoring five runs. Gary Burris, pitcher for the locals had five for five and scored three runs, one of which was a homerun.

Burris was relieved of pitching duties in the fourth by Roy McDaniel and caught the remainder of the game.

Mr. and Mrs. R. N. Reed of Roswell are announcing the engagement and approaching marriage of their daughter Joy Beatrice to Airman 3rd class Robert L. Sumner, son of Mr. and Mrs. LeRoy Sumner of Rogers, Nebraska. The wedding is set for 7:30 p.m., October 3 in Hamlin Memorial Methodist Church in Farwell. Friends and relatives are invited to attend the wedding and ensuing reception.

Dona Kay Pierce-Tommy Guy Wed In Home Ceremony

Dona Kay Pierce daughter of Mr. and Mrs. Dewey Pierce of Pleasant Hill and Tommy Guy son of Mr. and Mrs. Charles Guy of 209 Gidding St., Clovis were married in a simple but impressive ceremony performed in the home of the bride's parents by Rev. Hugh Frazier, pastor of Pleasant Hill Baptist Church, August 31 with only members of the immediate families in attendance.

Vows were exchanged by the couple before a background of pink candles set in white candleabra. For the ceremony the bride chose a street length dress of white embossed satin made with a three-quarter length jacket with a white fur collar. She wore a white circlet hat to which a short veil was attached and white wrist length gloves.

Mrs. Pierce, mother of the bride, and Mrs. Guy, mother of the groom, each wore blue dresses with black accessories and white carnation corsages tied with pink ribbon.

A reception was held immediately following the ceremony with refreshments of white cake and strawberry punch being served from a table laid with a white net cloth over pink. The tablecloth was caught up at the corners by pink and white carnations and was centered with a three-tiered wedding cake topped by a miniature bride and groom figurine.

Mr. and Mrs. Tommy Guy

The bride is a 1959 graduate of Clovis High School, and attended Wayland College in Plainview for one semester before transferring to ENMU where she received a secretarial science degree in 1961. She is now employed by Pacific Finance Co. in Clovis. The groom is a 1959 graduate of Progress, Miss. high school and at present is a junior at ENMU where he is majoring in accounting.

After a short honeymoon to Red River the couple are at home at 1931 Sheldon St. in Clovis. Special guests at the wedding were the maternal grandmother of the groom, Mrs. Guy Sowell of Las Cruces, and the paternal grandmother of the bride Mrs. J. C. Pierce and the maternal grandparents of the bride Mr. and Mrs. Forest Lee from Clovis.

Mrs. Clytie Dial, president of Farwell Study Club and Mrs. Bill Davis president of Caprock District discuss some of the club activities shortly before the Monday night meet.

District President Speaks To Study Club Members

Mrs. Bill W. Davis, O'Donnell, president of Caprock District of Texas Federated Clubs was honor guest and speaker at the salad supper meeting of Farwell Study Club in the Homemaking Cottage, Monday night. The meeting with Mrs. Clytie Dial, club president directing was held in the dining room. The speakers table was impressive with realistic models of "Stairways To The Stars" on the right of Mrs. Dial and "Lights To Brighter Pathways" at the right of the guest speaker. These are the respective themes of the local club president and the district president. Mrs. Claude Coffey introduced the speaker paying tribute to her service and dedication to Federated Club work. Mrs. Davis commended the club on

its plans to sponsor the organization of a new study club for the younger women of Farwell. She suggested that younger club members often enjoy teamwork of husbands and wives and really accomplish impossible things for the good of the community. In keeping with her theme, Mrs. Davis used as her scripture Psalm 119-135-"Thy word is a lamp unto my feet and a light unto my path." She emphasized the need of spiritual values in our living of today. She said knowledge is a great light and women should keep informed and abreast of the current advancement in science and in every other phase of living. A striking statement made by Mrs. Davis in encouraging women to make contributions to the content of life and its usefulness was, "There is little value in making contact and establishing communication with other planets unless we have a worthwhile message to communicate."

Special guests at the Monday night meet were Mesdames Cecil Atchley, A. C. Clarke, James Tuggle, Bill Craft, Walter Kalkwasser, Louis Pervis, Joe McWilliams, Ann Smith, Lenton Pool and a sister of Mrs. Davis, Mrs. Kraft from O'Donnell.

Four Installed In Texico Honor Society

Four new members were installed into the Texico High School Honor Society, Monday morning in ceremonies at the school auditorium. To become a member of the society a student must have a B plus average for his first two years in high school. Only junior and senior students are eligible to be members of the society.

Glendon Moss, a sophomore student at ENMU and a charter member of the Texico Chapter assisted by Linda Palmateer and Georgina Lambert both seniors at Texico, spoke to the assembly on the qualities one must have to become a member of the society. The qualities are: 1. character; 2. scholarship; 3. leadership and 4. service. Membership cards were presented to the new members, James Watts senior, Kathleen Smith, Terry Niece, and Wayne Hudnall, juniors, by Gary Singletary, a sophomore student at ENMU, and a past-president of the Texico Chapter.

Delta Kappa Gammas Meet In Hereford

Local Delta Kappa Gamma Members, Mesdames Harry Whitley, E. G. Williams, Margaret Kennedy and John Boling were in Hereford, Saturday, where they attended the Delta Xi Chapter meeting at Alkman School Cafeteria. Miss Della Stagner, chapter president opened the meeting with the chapter collect. Roll call was answered with something new learned during this summer. Reports were heard from Mrs. John Boling, Mrs. Melton

Richardson and Miss Della Stagner, who had attended the state Delta Kappa Gamma convention in Austin early in June. Miss Stagner stated that regular chapter meetings should not be more than one and one half hours in length and that they will start at the given time. Committees were reworked and each met for intensive work, after which reports were heard from the chairman of each committee. A salad luncheon was provided by the Hereford chapter.

Carol White Says, "Wake Up-America"

In speaking to Texico Woman's club members, Monday evening Miss Carol White, Texico senior who attended New Mexico Girl's state the past summer, stressed the fact that girl's stater's were warned time and time again that the time is growing short for the American people to wake up and fight Communism. She says, 1973 is the date set for the Communist Move to take over in America and that unless we as Americans do something we are doomed.

She says girls in attendance at the sessions were awakened to the great need for better leadership on the local front, in the state and in the nation with all the girls returning home with a great determination to do something.

In closing she thanked the club for making it possible for her to attend the sessions and expressed regret that more girls cannot be in attendance at the sessions, saying "It is a great experience and one I am proud to have a part in."

Plans were made by club members for a "Men's style Show" in the near future with a committee appointed to complete arrangements and set a date for the show to be held. Otis Foster, state patrolman, will be guest speaker at the next meeting of club members at which time he will bring a program on "Service Through Safety". Program topic for the year is "Accept The Challenge Service". The following committees were appointed with Mrs. Rip Snodgrass to serve as chairman of the finance committee

Carol White, Texico senior is shown pausing for refreshments after speaking to Texico Woman's Club members Monday evening.

First Child For Phil Elliotts

Mr. and Mrs. Phil Elliott of Texico are announcing the birth of their firstborn a daughter September 18, at 1:20 p.m. in Clovis Memorial Hospital.

The child has been named Leslie Shawn and weighed 6 lb. 14 1/2 oz. at birth.

Grandparents are Mr. and Mrs. W. E. Elliott of Clovis and Mr. and Mrs. Ray Tharp of Texico. Great-grandparents include Mr. and Mrs. N. L. Tharp of Texico and Clayton Reed and Floyd Elliott of Clovis.

Hamricks Return From Vacation

Mr. and Mrs. Marvin Hamrick recently returned from a vacation to points in Louisiana where they visited with friends and relatives. In Coushatta they were guests in the home of Mrs. W. H. Orr, mother of Mrs. Hamrick and in Shreveport they visited with Mr. and Mrs. G. M. Tucker. Mrs. Tucker is a sister of Hamrick.

Fairfield Busy Workers Have All Day Meet

Fairfield Busy Workers, club members, met at the home of Mrs. N. R. Harding, south of Farwell, for an all day meet,

with a covered dish luncheon served at the noon hour Friday, September 14. Thirteen members were in attendance with two visitors. Members brought crystal bottles from which vases were made with members doing hand painting.

The door prize went to Mrs. Bob Norris with Mrs. Wayne Martin Jr. winning the penny march. Secret Pal gifts were received by Mesdames Mary Kyle, T. B. McGregor, Henry Curtis, Lela Harpold and O. M. Allen.

Visitors at the meeting were Mrs. Wayne Martin Jr. and Mrs. W. J. Matthews with members in attendance Mesdames Wayne Martin Sr., M. E. Bradley, A. R. Kleeman, W. M. Vaughn, Darwin Nelson, Elmer Harpold, J. C. Dennington, O. M. Allen, T. J. Kittrell, Bob Norris and Mary Kyle.

Next meeting will be in the home of Mrs. O. M. Allen in Clovis, September 28.

Dykes Return From Idaho

Mr. and Mrs. Homer Dykes accompanied by Mrs. Ted Walker and Mr. and Mrs. Hubert Dykes and Gene from Sudan, recently returned from a trip to Boise, Idaho, where they visited in the home of Mr. and Mrs. Willard Dykes.

Reminder

Farwell Study Club members are reminded of the call meeting which has been set for Monday night 8 p.m. in Clara's Cafe in Farwell. This is to be a planning session and all members are urged to be present.

Miss Dunn To Be Installed Rainbow Worthy Advisor

All Eastern Star members, Masons, members of the Rainbow Assembly and friends of Donna Dunn, daughter of Mr. and Mrs. Otis Huggins are invited to attend an installation ceremony of Rainbow Assembly 158 at the Masonic Hall in Bovina Monday, September 24, 8 p.m. at which time Miss Dunn will be installed as Worthy

Advisor of Rainbow Assembly 158. Installing officers for the ceremony will be Mrs. Glenn Dunn, Donna's grandmother from Muleshoe; Installing Marshall will be Mrs. Roy Crawford of Bovina; Chaplain, Judy Crawford; and Rainbow Dad R. T. Langston of Farwell.

Coffee Surprises Mrs. Pike Jordan

Mrs. Pike Jordan was surprised with a coffee noting her birthday Monday morning at the home of Mrs. Mitz Walling. Mrs. Don Williams also served as hostess.

Birthday cake and coffee were served and Mrs. Jordan was presented gifts by those present. The cake of pale yellow was decorated to resemble a telegram, and was inscribed "Dear Donna, Happy Birthday Stop Many More Stop". Fresh flowers encircled the cake.

Attending were Mesdames Elmer Hargrove, Bob Hart, Jack Kirkland, Harry Sheets, John McFarlane, Darrell Norton, M.A. Snider Jr., Charlie Christian, Joe Helton, Marilyn Edwards, W. H. Graham Jr., Mrs. Charles Petty of Clovis and the mother of the honoree, Mrs. Jewel Castor of Clovis. Sending gifts were Mrs. Glenn Phillips and Mrs. Bob Anderson.

Visiting in the home of Mr. and Mrs. Russell Johnson Monday night, were Mr. and Mrs. Jim Alley of Harrington and Mrs. True Bell of Farwell. Superintendent Buck Doran of Texico School is in Harrington this week to attend the state meeting of school superintendents. He is president of the organization.

Get 25% More Applesauce With A Food Mill

A Food Mill such as the one shown here takes all the work out of making applesauce; gives 25% more sauce.

With all the modern appliances and cooking shortcuts available today, few women cook like their mothers used to cook. When it comes to applesauce, however, there is no better way to make it than the very way mother did, that is, if mother used a Food Mill. The Food Mill was introduced in this country in 1934 and has had a loyal following from the very beginning. Today, in its modern design, it still makes the best applesauce possible.

When you make applesauce with a Food Mill you actually get 25% more applesauce than when you strain the sauce by

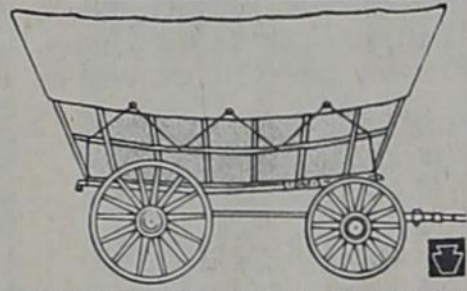

some other method. In making the sauce, there is no need to peel or core the apples. The Food Mill removes the peel, core and seeds as it strains the sauce.

Most applesauce fanciers have their own pet methods of cooking and seasoning the sauce. Good sauce begins with a knowing selection of apples. They should be firm, slightly acid and juicy. Cut the apples into quarters without peeling or coring them. Put them in a saucepan with just enough water to keep the apples from sticking. Cover and cook over low heat until the apples are soft. Put the softened apples through the Food Mill; season the sauce to taste with sugar and reheat just long enough to dissolve the sugar.

To can applesauce, pack it boiling hot into clean canning jars, filling to within 1/2 inch of the top of the jar. Cap the jar following jar manufacturer's directions. Process 25 minutes in boiling water bath. Freeze applesauce by packing into freezer containers, filling container almost to the top.

WHAT TO MAKE

By Allan Carpenter
Director, Service Bureau
Popular Mechanics Magazine

MODEL PRAIRIE WAGON

Complete in all details, this authentic model is a quaint reminder of covered wagon days. Although it is relatively simple to make, it will be a challenge to the hobbyist who has only worked on plastic-model kits. The wagon without the top is 8-3/4" long, 4-1/2" wide. The top is cut and sewn from unbleached muslin. All constructional details are given on Blueprint B728, available for 40¢ from Service Bureau, c/o this newspaper, 740 N. Rush, Chicago 11, Ill.

My God shall supply every need of yours. —(Phil. 4:19)

Don't we all need a feeling of greater confidence? As we open our minds to the mind of God and let His creative ideas flow through us, we gain new understanding—and our confidence in ourselves as an expression of God increases.

News From LAZBUDDIE

BY MRS. C. A. WATSON

Mr. and Mrs. Raymond Houston were hosts for a reunion of members of the Bostic family Sunday. Attending the affair were Mr. and Mrs. Stanley Friend of Leston, Va., Mr. and Mrs. David Lynch and family of Slaton, Mr. and Mrs. Dwight Frame of Albuquerque, Mr. and Mrs. Clyde Henry, Shirley and Danny Gunstream, Mr. and Mrs. Eugene Henry and Sharla all of Muleshoe, J. T. Bostic of New Deal and Mr. and Mrs. Clyde Redwine, and Eugene Houston of Lazbuddie.

Visiting Sunday in the home of Mr. and Mrs. Leon Smith Sr. were Elder and Mrs. Donald Day, Canyon and Mr. and Mrs. W. E. Goforth of Needmore. Sid Bullock and Lavena Davis are attending a Democratic Convention in El Paso this week.

Lazbuddie HD club met in the home of Mrs. Scotty Windham, Thursday, with new officers being elected. Those to serve this year are Mrs. Jimmy Briggs president; Mrs. Everett McBroom vice-president; Mrs. Harvey Blackstone secretary-treasurer; Mrs. Raymond McGehee council delegate; and Mrs. Adrian Weir reporter. Mrs. Robert Ivy was admitted as a new member and plans were made for several garden tours in the near future with the next regular meeting set for the last of October.

Birthday greetings to Nickie Nolan, Gail Hawkins, Rickie Hassell, Karen Johnson, Earl Ryder, Jane and Jerry Bruns, Linda Lesly, Carroll Ann Miller, and Debbie Jennings.

Mesdames Raymond Houston, John Agee, Earl Peaterson, Eugene Redwine, H. H. Briggs, Dixie Barnes, Carrie Withroe, Doris Ashford and H. D. Hambright were hostesses for a miscellaneous shower honoring Miss Hazel Carpenter, bride-elect of Sam Bradley, Friday afternoon.

Pink, blue and white, chosen colors of the bride were carried out in decorations. Mrs. Ronnie Briggs played soft background music throughout the afternoon and Mrs. John Agee sang several appropriate selections.

A HOME FOR CARE-FREE LIVING

This dramatic house, with its special metal roof sweeping to a dramatic peak, is Popular Mechanics House for Care-Free Living, featured in the magazine's annual September housing section. Its unique central atrium is open to the sky, allowing for a garden or private patio in the heart of the house. Designed inside and out to be almost maintenance free, the house has no gutters to clean, a roof impervious to weathering, and redwood paneling above a low concrete wall. Complete plans are available for \$50 from Popular Mechanics Service Bureau, c/o this newspaper, 575 Lexington Ave., New York, N.Y.

Guests were registered by Miss Marie Redwine.

Guest in the home of Mr. and Mrs. Ralph Cox, Sunday were Mr. and Mrs. Garry Shankles and Mr. and Mrs. Sam Cox and son. Shankles and Cox are students at ENMU in Portales.

Mr. and Mrs. Paul Templeton visited in the home of his parents Mr. and Mrs. J. L. Templeton in Amherst Sunday.

Among students from this area leaving for college are Cooper Young, Eva Dean Ivy, Beverly Smith, Dick Chitwood, James Brown, John Agee, Paul Wilbanks, Don Watson, Dale Vice, and Donnie Smith.

Smile

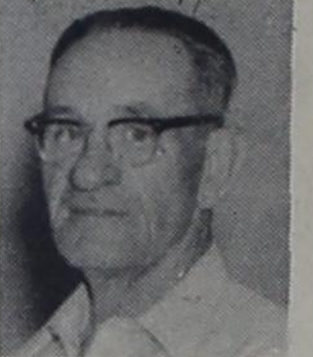

Loss or Gain?

Our old friend, the absent-minded professor, looked with surprise at the length of rope he was holding in his hand.

"This means," he said to himself, "either that I've found a rope or lost a horse."

"Won't your wife hit the ceiling when you come home?"
"I hope so. Last time she put a bullet through my hat."

Uncle Ray's "Hot Air"

The little girl when asked what her father was doing, replied, "He's listening to the ignited nations."

"You let your maid go?"
"Yes, my kitchen is completely automatic, so I hired a mechanic instead."

For those everyday needs - shop Uncle Ray's for the best!

Tough new '63 Chevrolet Trucks are here!

...THE ONES THAT WHIPPED THE BAJA RUN...TOUGHEST UNDER THE SUN...
TO SHOW THE WORTH OF NEW ENGINES, FRAMES AND SUSPENSIONS!

Round trip from Detroit to the end of the Baja Peninsula is over 8,000 miles.

Millions of years ago nature fashioned a proving ground for trucks that man can never duplicate. Today it is known as the Baja (bah' hah) California Peninsula, Mexico.

These pictures give you only a bare idea of the place. The road is fine for 140 miles below the U.S. border. Then the beating begins. Rocks and hard-baked ruts bang, jab and jerk the trucks from stem to stern. Loose sand makes them struggle and strain. Dust chokes them. Heat roasts them. Rivers drench them.

The Baja Run took this Chevrolet truck caravan 17 days to go the 1,066 miles.

All the trucks performed magnificently. Not one was forced to drop out because of mechanical difficulty.

Trucks that can take this kind of beating can take on your toughest truck jobs. Come in now and see tough quality-built '63 Chevrolet trucks with all their new improvements.

QUALITY TRUCKS COST LESS

Sometimes the caravan crept along for hours in low gear. It took 17 days to go 1,066 miles! This is the road near Loreto.

See the "New Reliabilities" now at your Chevrolet dealer's!

IT'S GAS!
OF COURSE

THE "CHARM" BY ROPER

Looks built-in . . . put it anywhere!

CLEANER than electric! Smokeless! Only gas lets you broil with the oven door closed!

COOLER than electric! When it's "Off," it's off! No hangover heat!

MORE AUTOMATIC than electric! Complete oven control, even down to a dinner-holding 140°! Plus famous Tem-Trol Automatic Burner that makes any pot a range-top automatic cooker!

EASIER TO CONTROL than electric! Every degree of heat, lowest to highest! Not just low-medium-high!

MUCH MORE ECONOMICAL than electric! The money you save will buy plenty of thick steaks!

AND MATCHLESS! Ovens and burners turn on without matches!

The range in the picture is the Charm by Roper, a built-in type that doesn't have to be built in. Other Charm models as low as \$399.95. Contact a Southern Union office in your area for a demonstration.

The modern answer is gas!

SOUTHERN UNION GAS COMPANY

Farwell Band In Tri-State Fair

Farwell High School Band was in Amarillo Monday where they participated in the Tri-State Fair parade. After marching a total of 18 blocks they were still in high spirits and John McGee, band director says they looked as good or better than when they started. He is high in his praise of the band and reports that they did a fine job and he is well pleased with their performance.

On October 19 the band will present a halftime show at the Farwell-Morton football game and on October 20 will be in Portales where they will participate in the homecoming parade at ENMU. On October 23 they will be entered in regional contest at Amarillo. They are working on several marches and special arrangements by the band director and Phil Wilson, director of Marshall Junior High Band. Halftime announcer for the band is Clyde Powell, biology teacher at Farwell High School.

Band officers were elected Monday with the following to serve this year. Melody Coffman president; Leon Lovelace vice-president; Janice Prince secretary-treasurer; David Blair historian; and band senate members Beverly Purvis and Barry McCuan.

Any person desiring to have his name or wedding anniversary placed on the community calendar, who has not been contacted is urged to get in touch with either McGee or Mrs. Walter Kaltwasser, president of band booster club. Names may be placed on the calendar for twenty-five cents each up to four names in a family after which time no charge is made for additional names. All anniversaries are twenty-five cents each. Maximum cost on any calendar is \$2.25.

Farmers Union Meeting Held At Hub

Parmer County Farmers Union groups, met at Hub Community Center, September 13 with a resolution adopted by the group to combine the county units into one organization.

Officers elected to serve for the next year were Leon Smith president; Clyde Redwine vice-president; and Sam Bradley secretary-treasurer.

Jay Namman, state president of Farmers Union, spoke on "What Farmers Could Do For Better Farm Legislation."

Four door prizes were given and refreshments of pie and coffee were served.

A GOOD RULE

It is a good and safe rule to sojourn in every place, as if you meant to spend your life there, never omitting an opportunity of doing a kindness, or speaking a true word, or making a friend.

Group Faces Charges

The group is currently employed by the R.S. Dudley Shows which have been in Portales. Being held on a burglary charge are Virginia Sue Talley, 33, of Connecticut; David Barnes, 24, of New York; Dale Kellogg, 27, New York; Gerald Ecker, 31, South Carolina; and Frank Anderson, 28, Georgia. Anderson is wanted by the FBI in Georgia and North Carolina. It is reported that he jumped a \$6,000 bail in Georgia.

The Portales sheriff's department bound over five persons to Parmer County officials who have admitted breaking in to the AA Bowl in Farwell August 28.

Taken from the bowling establishment August 28 was a \$190 television set, along with some money and cigarettes.

The television set was recovered from Littlefield by Parmer County Sheriff Charles Lovelace. The set had been sold to a merchant in Littlefield.

Lovelace said that confessions had been obtained from part of the group admitting taking the set. The group agreed to return to Parmer County and face charges, and were brought to Farwell on Tuesday.

FARMERS If You Are Planning To Place GRAIN SORGHUMS IN C. C. C. LOAN

FEDERAL REGULATIONS DEFINING "ELIGIBLE GRAIN SORGHUM" STATE:

Grain sorghums containing over 13% moisture shall not be eligible for the loan, except under the following conditions:

- (1) Grain sorghums containing from 13.1% to 15% moisture will be eligible for loan provided the warehouseman agrees to deliver grain to CCC containing not in excess of 13% moisture.
- (2) Grain sorghums containing from 15.1% to 18% moisture will be eligible for loan provided the warehouseman agrees to deliver grain to CCC containing not in excess of 13% moisture, and provided that the warehouse receipt shall represent the ACTUAL QUANTITY of grain remaining after drying to 13% moisture.

TO COMPLY WITH THESE REGULATIONS, THE UNDERSIGNED ELEVATORS HAVE ADOPTED THE FOLLOWING POLICY:

Grain containing up to 15% moisture - No shrinkage

Grain containing 15.1% to 18% moisture - Shrinkage deducted down to a 13% moisture basis

Grain containing over 18% moisture - Not eligible for loan under any conditions.

Texico Boys To Attend National FFA Convention

Representing the Texico FFA Chapter at the National FFA Convention in Kansas City, October 10-12 will be Ronnie Curry president of the local chapter. They will be accompanied to the meeting by Jim Pierce, advisor of the local group.

FFA boys did well with their exhibits at the Curry County Fair bringing home six grandchampions, three first places, seven second places, four third places, and five fifth places for a total of \$296 in prize money.

The Texico FFA boys won third place on their booth entitled, "Be Wise-Kill Flies."

Nine boys from the chapter along with their advisor are in Albuquerque attending the state fair and they are hoping to do even better than they did at the County fair. The boys left Friday and will return this Sunday.

Locals

Mr. and Mrs. Clifford Robertson from Vera visited briefly in the home of Mr. and Mrs. Leon Billingsley, Sunday.

Mr. and Mrs. Everett Spurlin from Belen visited over the weekend with Mr. and Mrs. W. H. Spurlin. They were enroute to Abbeville, La. where Spurlin will be engaged in painting a TV tower.

Pleasant Hill

BY MRS. BUCK TAYLOR

Pleasant Hill Baptist Church was host to a workers conference of Plains Baptist Association, September 11. Theme of the program was "Emphasis On WMU". Mrs. D. L. Langston led the song service and the devotional was given by Mrs. Vacheral Ridley. Mrs. Bob Lagrone led the call to prayer, and Rev. Earl Landtroop gave missionary moments. Rev. T. J. Gamble called the roll and special music was by Mrs. Ray Baker and Mrs. Quylow brought the message. Lunch was served at the noon hour to approximately 90 guests.

Miss Lynell Lovett spent the weekend in the home of her parents the Troy Lovetts. She is teaching in Springlake.

Pauline Servatius returned to ENMU, Friday.

Several persons from this area were in Clovis to attend the funeral of D. A. Badgett, formerly of this community, Monday.

Sunday dinner guests in the home of Mr. and Mrs. Jim McCullough were Mr. and Mrs. Buck Taylor and Mr. and Mrs. Marlon Walker and daughter, Sarah Beth.

Eugene Servatius spent the weekend in Anton with his grandmother, Mrs. Janie Anderson. She returned home with him to spend a week visiting relatives.

Overnight guests in the home of Mr. and Mrs. Jim McCullough were Norman Flowers and Stanley Flowers from Altus, Okla.

Mr. and Mrs. Buck Taylor made a business trip to Muleshoe, Saturday.

Mr. and Mrs. H. M. Hooper returned from California, Friday where they had been visiting the past six weeks.

Freddie Taylor is visiting in Houston with his sister and her husband, Mr. and Mrs. Eugene Eslich.

Class Officers Elected At Texico High School

Officers have been elected to lead the respective classes in Texico High School in meetings of all classes last week.

Seniors have selected Ernest Meier as president and to serve with him are Lynn Doshier vice-president; Latitia Harrison secretary; Judy Tharp treasurer; and Georgina Lambert reporter.

Heading the junior class this year is Wayne Hudnall as president; Linda Campbell vice-president; Callalya Roberts secretary-treasurer; and Lloyd Harrison reporter.

Sophomores have chosen Mike Spearman for their president and Jim Adrian vice-president; Gwinette Lovett secretary-treasurer; Mickey Lofton parliamentarian; and Sandy Tipton reporter.

Freshman class officers are Teresa Luce president; Joe

Patterson vice-president; Marilyn Doshier secretary-treasurer; Peggy Hughes parliamentarian; and Veda Wilson reporter.

President of the eighth grade is Jackie Billingsley with Roddy Pearce being chosen by his classmates as president of the seventh grade, and Tanya Thompkins to serve the sixth grade as its president.

Methodist Men Fete Teachers

Faculty and school board members of Texico and Farwell Schools were special guests Tuesday night when Methodist Men entertained with a potluck supper.

After a buffet meal, Joe White introduced W. M. Roberts, Farwell superintendent and A. D. McDonald, Texico principal, who in turn, introduced the guests. Rev. Bob Tomlinson, pastor, welcomed the group.

Mr. and Mrs. James Craig who took an extended tour into Alaska during the summer, presented color slides of highpoints of their trip and showed souvenirs of the areas visited.

Tilt-Away Steering For Added Motorist Comfort

Optimum ease of entry and exit is provided by Oldsmobile's new Tilt-Away steering wheel to be offered on the 1963 full-size Oldsmobiles. By operating a small lever at the base of the steering column, Oldsmobile buyers may tilt the wheel to its most vertical position for maximum ease of getting in or out of the car. In addition, the driver may position the steering wheel at any one of seven angles to best suit his driving comfort. The Tilt-Away, shown installed on a 1962 Oldsmobile, was designed and built for Oldsmobile by the Saginaw Steering Gear Division of General Motors. It will be available as an extra cost option on all 1963 88's, 98's and Starfires equipped with power steering.

Area Farmers Pledge 70,000 Acres To Beets

Some 700 farmers in four counties of West Texas and eastern New Mexico have signed declarations of their intentions to grow more than 70,000 acres of sugar beets to supply a beet sugar processing facility proposed for construction by the Holly Sugar Corporation in the Hereford-Dimmitt area of West Texas.

Check Bindweed Plots, Says Jones

J. T. Jones, chairman of the Parmer County Farm Bureau Weed Committee urges that farmers who have treated bindweed plots on their land or county right of ways this year check them soon for any surviving plants. If there are some, says Jones, they can easily be treated again and this would avoid the necessity for treating this plot again next year.

The preliminary sign-up was conducted by a team of five Holly representatives who received the written statements of intent from farmers who met with them in five communities, located in the proposed sugar beet production area -- Hereford, Dimmitt, Friona, Bovina, and Clovis, New Mexico.

If there are scattered plants showing up in these areas next year, part of the effectiveness of the first treatment has been lost, he said. The State Highway Department has done a good job, apparently, on those right of ways, and Santa Fe Railroad has treated all known plots on their property according to Jones, and with the cooperation of individuals it will be possible to keep these weeds within the realm of easy and inexpensive control.

Committee Told Of Labor Needs

Judge Loyde Brewer and Bill Nichols, serving as a county Farm Labor Committee, met with Billy L. Lynch, manager of the Texas Employment Commission office recently, to review the total seasonal employment needs developed by the TEC.

The committee was presented with figures from the TEC which showed that Parmer County will be short 950 cotton pullers during the peak period of the cotton harvest. This shortage will be met by the importation of Mexican National Bracero workers.

The committee will function under Public Law 78, obtaining facts relevant to the supply of domestic farm workers existing in Parmer County and the shortage of workers, if any, which must be met by importing Mexican Nationals to harvest the cotton crop.

Under Public Law 78, the TEC must supply this information to the Secretary of Labor who must limit the number of Mexican Nationals to be used in the county by granting a "ceiling."

Brewer and Nichols met with Dick Poteet, manager of the TEC office in Muleshoe, last Thursday at the Community Room of the Friona State Bank.

Cattlemen Meet At Wichita Falls

Cattlemen attending the quarterly directors' meeting of the Texas and Southwestern Cattle Raisers Association in Wichita Falls, Sept. 22, will be brought up to date on a number of developments of importance to the livestock industry.

The general session, open to the public, is scheduled at 9 a.m. in the Kemp Hotel, headquarters for the meeting. Committee meetings are scheduled prior to the general meeting, according to Joe S. Fletcher, TSCRA secretary - general manager.

Reports on animal health and water conservation will be among the number of topics covered in the general session.

ENTERPRISE: "If our old Uncle were a private citizen, it isn't improbable that some of his nieces and nephews would be asking that he be declared incompetent and a guardian appointed."

By Dolph Moten "You farmers out here (on irrigated Plains) are cream of farmers of Texas." Those were words of Jay Naman of Waco, state president of Farmers

Union, who spoke at a Parmer County FU meeting Thursday night at Hub Community Center. In a business session prior to Naman's talk, Leon Smith of Lazbuddie was elected presi-

dent of the county organization succeeding T. O. Lesly.

Clyde Redwine of Bovina was elected vice president and Sam Bradley of Lazbuddie was re-elected secretary-treasurer.

Those present at the meeting voted to establish a county organization on a stronger basis and do away with local organizations at Bovina, Farwell, and Lazbuddie. The Friona local was not represented at the county meeting and decision was made to invite that group to join the county organization or retail its local, whichever its membership preferred.

"The problem of participation and responsibility is an important one for farmers," Naman said. "We as farmers cannot afford the luxury of apathy when the forces that are attempting to grasp away our way of life are so great."

"During the last two years, under a Democratic administration, we (farmers) have had most favorable environment ever," Naman pointed out.

Net farm income per capita is now highest in history, the farmer from Central Texas told his listeners.

Naman blasted National Farmers Organization in the Midwest for its current program of withholding livestock from the markets. "That's direct action and it's been proven time and time again that it won't work successfully," the state president said. "So much more good could be done by channeling that energy and money into indirect action."

Naman also praised Lesly for his work as a leader in the county organization and for his work on the state FU executive committee.

BOONE, IOWA, NEWS-REPUBLICAN: "The federal highway network now under construction is expected to give fresh momentum to the national wanderlust -- and frustration to anyone who wants to stop long enough to see anything."

We Are Getting Ready For Cotton Stripping Time

The McCormick No. 21 Cotton Stripper Big In Capacity -- Big In Performance

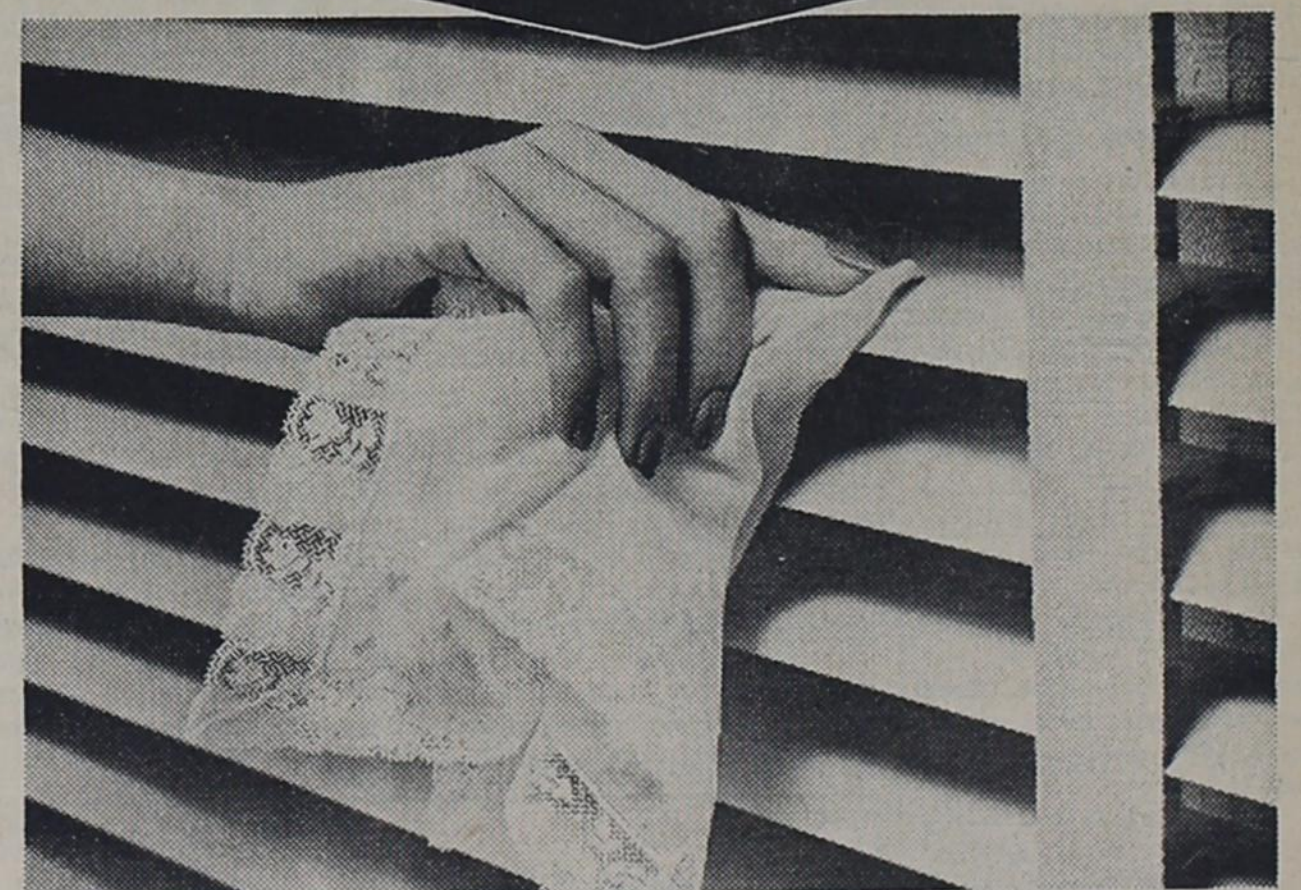

- 1 Wide, free-floating plant lifters bring in all the crop... make it easy for you to follow the row
2 You adjust stripper plate to stripper roll spacing from the tractor seat... without stopping or dismantling
3 You adjust stripper working height while on the go... to take care of varying crop and row conditions
4 You lift row units hydraulically... to save time and muscle at the row ends
5 Unobstructed view of the rows ahead and of stripping units help you stay on the row... to get all of the cotton

LOOK HOW CLEAN MODERN ELECTRIC HOME HEATING IS!

EVEN A SNOW WHITE HANKERCHIEF STAYS CLEAN WITH ELECTRIC HEAT

From home after home where electric house heating has been installed, you hear comments like these:

"Dusting is practically unnecessary..."

"Drapes just never seem to get dirty."

"We haven't had to redecorate in years."

And, then, electric heat homeowners volunteer information like,

"There just aren't any cold drafts or hot blasts."

"We've never felt so completely comfortable."

"It's amazing, there's just no maintenance to pay for or worry about."

Clean and comfortable -- that's electric heat. And more economical than you believe possible. Ask your

Public Service manager about electric heat -- including a special heating rate.

SOUTHWESTERN PUBLIC SERVICE COMPANY

WITH THE COUNTY AGENT

DERYL COKER

So far this year we have six farmers who have said they will run a fertilizer demonstration on wheat. They are Pete Jesko, A.L. Reznik, Keith Brock, Melvin Sachs, Tom Caldwell, and James Boardman.

Also if anyone in the county has put down different rates on fertilizer on wheat I would appreciate obtaining the results.

It won't be long until crops will be harvested and each year the question comes up as whether or not we should use a desiccant or defoliant on cotton. The Texas Agricultural Extension Service has prepared some questions and answers on the use of desiccant which should help you in determining their use.

The true defoliants have not given uniform results. Desiccants have been more effective in preparing cotton for stripping.

1. What is a desiccant? A--A desiccant is a chemical material applied to cotton for the purpose of drying the leaves in preparation for stripper harvest of the open bolls.

2. How do desiccants differ from the action of true defoliants? A--Desiccants do not cause all the leaves to fall to the ground. Because of faster action on the tissue of the leaf, it may dry and stick on the stalk.

3. What are the recommended desiccant? A--Pentachlorophenol and Arsenic Acid, usually 75% have been very effective.

4. When should the desiccant be applied? A--Cotton should be fully mature, 60 to 80% open and preferably 90% open. "Penta" is applied with diesel oil after the dew dries. Arsenic Acid is applied with water and can be applied under conditions of higher humidity than "Penta."

5. What is the cheapest material for use as a desiccant? A--Commercial preparations containing about 75% arsenic acid.

6. Is Arsenic Acid poisonous to man and animal? A--Yes. It is very poisonous and the SAFETY DIRECTIONS ON THE MANUFACTURE'S LABEL SHOULD BE FOLLOWED. It is also corrosive to equipment. Sprayers should be flushed with water and baking soda solution after each spraying. Black pipe is less corrosive than galvanized. Copper, aluminum, etc. is still less corrosive.

7. Is there a safer material to desiccate cotton? A--Penta is less corrosive and does a satisfactory job with favorable weather (hot and dry) but is more likely to require two applications. A shower before Penta completes its action reduces its effectiveness.

8. What about emulsifiable Penta? A--Two emulsifiable "Penta" materials are listed in the Cotton Defoliation Guide L-145. They are applied in water. No spreader or sticker need be added because excessive foaming in the sprayer tank will result.

A number of growers have ob-

tained good results with 1 and 1/2 quarts emulsifiable Penta plus 1 pint of Arsenic Acid per acre. This combination seems to tone down the harsh effect on the leaves that acid usually produces, causes greater leaf drop and yet still results in final desiccation.

It is not easy to emulsify Penta and the two emulsifiable Penta are the result of hard work. Results have been good.

9. What about the upper rates of chlorates or the possible use of emulsifiable Penta as an additive? A--Growers have gotten good desiccation results with magnesium chlorate and sodium chlorate defoliants used at the higher rates. Growers have found that combinations of emulsifiable Penta as an additive to the chlorate defoliant formulations make them perform well as desiccants for stripper harvest.

10. How much Arsenic Acid should I use? A--Three fourths to 1 1/2 quarts per acre depending on the size of the cotton.

11. What is Arsenic Acid mixed with? A--Water - 8 to 12 gallons per acre for ground spraying and 5 gallons for aerial spraying.

12. How should a ground sprayer be prepared for applying desiccants? A--Use a regular cotton sprayer with 3 to 5 cone type X3 or X4 nozzles, per row 8 to 10 inches from the cotton; pump pressure 40 to 50 p.s.i.; 50 mesh strainer; tractor speed 3 to 5 miles per hour. Cotton under 24 inches high use 3 nozzles per row, over 24 inches high use 5 nozzles. Get material on all leaves. Under windy conditions, protect the operator and the machine from spray drift. It might be necessary to spray in one direction of travel only.

13. How do you tell when the desiccated leaves are dry enough for stripping? A--When leaves near the bottom of the stalk will crumble in the hand and the leaf stems break. Normally this will be 7 to 8 days after applying. In the mornings these leaves are tough and will not crumble. Higher grades come with dry harvest. Let cotton dry to 8% moisture. Eat an early dinner, then to the field with the stripper at about 11:00 a.m.

14. How do you tell if a second application is necessary? A--At the McGregor Experiment Station, they recommend retreating if more than 4% of the old leaves are still green. The better grades will pay for the second treatment.

15. Can the cotton field be grazed after desiccation? A--The answer is no, especially if arsenic acid was used. Also, if the stalks are shredded, the insect situation will be improved.

16. Is there any danger from drift in spraying desiccants? A--A wind will drift the desiccants if it is strong enough. Arsenic acid may drift into grazing areas and endanger livestock. Home plantings, vegetables, flowers, shrubs and trees might be damaged by any desiccants.

17. What are the possibilities for some of the true defoliants for stripper harvesting? A--Organic phosphorus compounds, DEF, Floex, De-Leaf and Fos-Fol can be used on drought-stressed cotton at 2 pints per acre in 3 to 5 gallons of white diesel oil.

18. Does the addition of activators or spreaders give some increase in leaf kill or desiccation? A--Tests have shown that conditions of cool days and cool nights or plants under moisture stress are unfavorable to desiccation. Addition of spreaders or activators to arsenic acid mixtures does tend to help under the above con-

JIMMY SMITH

Jimmy Smith Joins Parmer County SCD

Jimmy Smith, 27, became Work Unit Conservatorist for the Parmer County Soil Conservation District this week.

Smith, a 1957 graduate of Texas Tech, with a major in Animal Husbandry and a minor in Range Management, has been with the Soil Conservation Service since June of 1956.

He worked as a student trainee with the SCS in the summer of 1956, and became a full-time employee shortly after his graduation from Tech in June of 1957.

Smith became a Soil Conservatorist at Panhandle in

December of 1957, after the customary six-month training period. He has served as assistant to the Work Unit Conservatorist there since that time. His appointment was made by Guy Nutt of Amarillo, Area Conservatorist.

Smith is married, and he and his wife Dixie have two sons, Stephen, 3, and Randall, 2. He is a native of Roscoe, in Nolan County. He replaces Bob Crozier, former Work Unit Conservatorist, who has joined Gifford-Hill-Western as a salesman in Canyon.

Farwell Outscores Scrappy Mustangs

Farwell Steers continued their football mastery over Bovina Mustangs in a non-district clash between the Parmer County rivals there Friday night as they took a hard-fought, 18-14 win from the maroon and white.

The Mustangs, only slight underdogs going into the game, drew first blood and it was anybody's game until the final two minutes or so, but the additional depth which was available to the Class A Steers proved to be too much for the hearty and determined Class B Mustangs to overcome.

The field was wet and slick from a shower which fell some two hours before gametime. This caused more-than-would-be-expected mistakes and fumbles by both ballclubs.

An overflow crowd was on hand for the contest that saw both teams go into the game with a win. This was second game of season for both.

Bovina took advantage of the game's first break to score the first touchdown early in the initial period. Farwell kicked off to the Mustangs who put the ball in play on Farwell's 40-yard line. Bovina gained only two yards in three tries and punted to the Bovina 32. Farwell fumbled on the first play from that point and Bovina recovered.

The Mustangs punched the ball across in eight plays and two first downs from that point. Fullback Tally Kelso carried the six-pointer over from four yards away. Quarterback Don Cumpton passed to End Mac Glasscock for the extra points and Bovina was out front, 8-0.

The Steers took advantage of a Mustang miscue to rack up their initial score early in second period. Held on downs, they were forced to punt from Bovina's 38. The wet ball slid through the Mustang receiver's arms and Steers were in possession on Bovina's seven-yard line.

It took three plays to get the score from that point with Steer Quarterback Leon Lovelace sneaking the score over from one yard away. Lovelace was stopped on an attempt to carry the extra points around his left end to leave the score 8-6.

Both teams made sustained drives inside the other's 20-yard line during the second period, but both lost the ball on downs after failing to pick up sufficient yardage for a first down.

The Steers' second TD was set up with time running out in the half as Lovelace latched on to a stray Bovina aerial and returned it to Bovina's 15-yard line. It took five plays to get the score from that point in spite of a five-yard penalty against the Steers. Fullback Jerry Field picked up bulk of the yardage with a 15-yard scamper to the one, prior to the penalty. Lovelace banged over for the score from two yards out.

An attempted pass for extra points was no good to leave score, 8-12.

The touchdown came with only 0:04 remaining on scoreboard clock and there was just enough time for the kickoff prior to the half.

Field tacked on the winning touchdown for Farwell on first play of fourth quarter on a four-yard scamper to paydirt. Field highlighted a 14-play drive for the Steers which originated on Farwell's own 26-yard line following a Mustang fumble.

Pass for extra points was again no good to leave score 8-18.

Mustangs, taking to the airways in spite of the slick ball, bounced right back for their second TD to end the night's scoring.

Putting the kickoff in play following Farwell's final TD on their own 40, the Mustangs had their six points in nine plays

with Kelso going the final four yards. The drive was highlighted by passes of 26 yards to Kelso, 15 yards to Pat O'Brien and 25 yards to Glasscock. Pass for extra points failed to leave the scoring over at 14-18.

Following the kickoff, Mustangs forced the Steers to punt from Bovina's 24 yard line. They picked up one first down and were only two yards shy of the second on Farwell's 36 when they lost the ball on downs on an incomplete pass on fourth down.

Farwell took over at that point and ran out the remaining time by picking up a pair of first downs and getting down to Bovina's 40 as the final whistle blew.

ASC Names Committeemen

Results of the ASCS community committee election was announced this week by Prentice Mills, office manager of Parmer County ASC.

In the mail voting, three communities elected five committeemen apiece.

For Community "A", the Friona area, Billy Dean Baxter was elected chairman, Roy Hüller vice chairman, Dick Rockey member, C. V. Potts, first alternate and John L. Ray, second alternate.

In Community "B", the Lazzbuddie area, E. T. Ford was named chairman; J. T. Mayfield, vice chairman; Luther Hall, member; Max Steinbock, first alternate and Wayne Clark, second alternate.

Community "C", the Farwell-Bovina area, elected Robert Calloway as chairman; Vernon Estes vice chairman; Lee Jones, member; Lawrence Jamerson, first alternate and Norvell Strawn, second alternate.

This marked eighth consecutive year for Farwell to win over Bovina.

Kelso and Halfback Jerry Frazier paced Bovina ball carriers. Kelso made 55 yards in 15 carries and Kelso accounted for 46 yards in 12 attempts.

Halfback Danny Lindop was Farwell's leader with 63 yards in eight attempts. Fullback Joe Reed, who was injured in second quarter, made 37 yards in six tries while his replacement, Jerry Field, made 48 yards as he carried the ball 14 times. Lovelace accounted for 50 yards in 17 trips.

Dean Highlights Field Day

HALFWAY . . . The High Plains Foundation had its most successful field day. Smokey Hewett fed 2000 people, and more than 2,500 persons visited the Foundation during the day.

The evening talk by Dr. Earl Butz, Dean of Agriculture from Purdue and a former Undersecretary of Agriculture, was an inspiration to the listening audience, and a speech which should have been heard and taken to heart by ALL farmers and businessmen throughout the nation.

For example, Dr. Butz said to a visitor, "What is your name and what do you do?"

The fellow answered, "I'm just a farmer."

Dr. Butz replied, "Don't ever say that again! Sure, you and I are both farmers, but throw those shoulders back and tell the world --I'm an American farmer! Even after you hear politicians declare that agriculture is a declining industry, read about surplus crops, about cotton allotment scandals, about the cost to the taxpayers, etc., . . . Don't believe it!

Agriculture is not a declining industry. We are doing a better job with fewer workers. Every

condition; however they are not to be used with Penta and diesel. Generally, 1 to 1 1/2 pints per 100 gallons of spray solution is recommended.

19. How much acreage should be sprayed at one time? A--Stagger the application. Cover the field at about the same rate you expect to harvest. This will help in avoiding greening up.

year agriculture uses more capital than the year before, more science, more brain power, and more research. Agriculture is an EXPANDING industry, NOT a DECLINING industry. Nowhere else can anyone brag about eight per cent of the total population feeding and clothing the other 92 per cent. This is the tremendous feat which makes American agriculture great."

"The greatest strength America has today in facing the totalitarian world is her agriculture."

Other statements made by Dr. Butz which have such a solid foundation for politicians to listen to are as follows:

"Nehru in India wishes for our agricultural knowledge. It requires 95 per cent of their people to till the land--and still they are hungry."

"Mr. K. in Russia wishes he could take a part of the 45 per cent farm labor required in producing food and fiber and put them in factories making cars, TV sets and shoes. He realizes that the weakest link in his whole Russian society is agriculture."

"When Mr. K. arrived in the U. S. he spent a few minutes laying a wreath at the Washington Monument, and a half day at the Beltsville Experiment Station asking questions, he flew to the West Coast, but on his way back he wanted to stop at an Iowa corn-hog farm. He knew all about our nuclear plants, he knew about our military operations, he did not want to see rockets and guns; Mr. K. wanted to see how two men in Iowa could operate a 500 acre farm, when in his country it required 50 men.

"Did you ever think of how the Lord's Prayer was put together? First, there is the general petition asking for things to come, then there is the second petition of asking for individual things --and the first request is for bread. 'Give us this day our daily bread.'"

"Two out of three people around the world each night ask

HART, TEXAS

Texas Will Need Temporary Pastures For Winter Grazing

Most sections of Texas will soon need temporary winter pastures for normal grazing and to fill the gap created by the severe summer drouth, points out Ted Trew, extension pasture specialist.

Green forage that animals can get in no other way can be supplied by these pastures, says Trew. These cool weather crops also allow summer grasses to rest before being grazed again, and they protect and improve the soil.

In planting the pastures, allow an acre for each animal unit to be grazed. However, if land is not available, Trew says, plant as much as you can and ration the grazing. The time of planting is very important in winter pasture production, says the specialist. Planted too early, your crop may get caught by hot, dry weather but if planted too late, it will not provide grazing until spring.

The newer varieties of oats are Moregrain, Suregrain and Alamo-X. They will each pro-

vide early grazing but only the first two named are resistant to leaf rust, Elbon and Gator are rye varieties which produce early grazing of good quality. However, since they mature early, they do not provide grazing all winter.

Gulf ryegrass has proved itself as a forage producer in Southeast Texas, says Trew. He adds that two new vetch varieties, Lana Woolypod and Oregon Woolpod, and both earlier than hairy vetch.

In many areas, fertilization will be necessary to get the most production from the winter pasture. A soil test is the best guide for determining the

amount and kinds of plant food needed, says Trew. Top dressing may also be beneficial for stimulating early and late spring growth. And don't be too anxious to graze the pasture once it is up, explains Trew. Allow oats to get 6 inches high before grazing and when they are grazed down give them 4 to 5 weeks for regrowth, he says.

Temporary winter pastures can take up where summer pastures leave off if they are planted at the right time and given good management. Trew suggests a visit with the local county agent for details on winter pasture programs.

The HAPPY HOMEMAKER

BY JUNE FLOYD

It seems that all of us are reluctant to change our way of doing any chore around the

house. Some times this isn't good. For example, there has been an improved cold water soap on the market for quite a long while that was designed especially for washing woollens.

This product will keep any woolen material soft, fluffy and color fresh. It will also keep your favorite cashmeres, orlon and nylon knits and lingerie fresh and beautiful.

All you need do is to squeeze articles gently in water with soap and rinse. All garments come out as soft, as fluffy and as color fresh as new.

If you want beautiful blooms on your perennials, begin to plan for them now. By drawing up a plan showing how you want your flower garden to look a year from now, you will have something definite to work on and will be much more likely to achieve the goal you set for yourself.

Since there will be a cool growing season for perennials, you should divide them and get them started growing in time to establish a good root system before there is a killing freeze.

Some points to keep in mind are (1) colors desired, (2) height of plants and (3) overall look you desire. Some plants require more sun than others and some require different kinds of soil. Most perennials should be divided every three years. However, chrysanthemums need to be divided every year. Any of them need room to grow to do their best.

Beds should be spaded good. Plants need room for roots to reach out and start growing. Use some good plant food or well rooted manure for fertilizer. If commercial fertilizers are used, remember to read and follow directions carefully.

Size of grown plants should be your guide as to spacing. Allow sufficient space for the mature plants. Plants will do much better if they are not crowded.

"When dividing plants, lift flowers with a spading fork and place in a shady spot while the bed is being prepared. It is good to place a damp burlap or similar cloth over the plants.

All dirt should be shaken from the roots so that you can see how to divide the plants. Best growth comes from a single division.

All plants should be placed in the ground approximately the same level they were before being removed. More watering will be necessary immediately after the plants are set out.

After the first freeze, mulch the bed good with any coarse material and forget about it until spring. You will be well pleased with your perennials when spring comes.

The first community forest in the United States was established in 1710 at Newington, N.H.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

This is the harvest season for ideas in Farm Bureau, and local Farmer County Farm Bureau Members are being urged to participate in the annual process by which the organization decides its positions on hundreds of issues on local, state and national issues.

The process begins at the grass roots with local discussion meetings attended by Farm Bureau members. The first official step in the process is the county annual convention at which county policies and recommendations on state and national issues are adopted after discussion and debate.

The Farmer County Farm Bureau Annual Convention will be Monday, October 1, 8 p.m. at the School Cafeteria in Bovina. All adopted resolutions pertaining to county-level matters become policies for the local organization for the ensuing year.

All approved resolutions dealing with state and national matters are forwarded as recommendations to the Texas Farm Bureau convention which will be held this year November 11-14 in San Antonio. County Farm Bureaus send delegates to the state convention to adopt state policies for the coming year and to make recommendations on national issues for consideration by the National Farm Bureau convention to be held this year in December at Atlanta.

The number of delegates from a county is based upon the size of membership of that county. For example, Parmer County Farm Bureau, which had 506 members in 1961 was eligible to send six delegates to the state convention last year.

Finally, the policy development process is culminated at the national convention in December where delegates from 49 state Farm Bureaus (all except Alaska) adopt national policies for Farm Bureaus everywhere. Here, too, the size of state delegations is based upon number of members. Only three other states—Illinois, Indiana and Iowa—have more voting delegates than Texas.

This, then, is the Farm Bureau policy development process. And it is open to each Farm Bureau member. It is with the individual that ideas, which finally become policies, originate.

Farm Bureau policies are not made by taking an opinion poll. An opinion given in such a poll represents one's ideas based on his total information and prejudices on a given subject. In Farm Bureau, it's different. To be adopted as a Farm Bureau policy, an idea must be sound enough to survive the rough-and-tumble arena of debate and free exchange of ideas. It is the collective knowledge of large numbers of Farm Bureau members that determines the organization's policies. The more members that are involved, the more likely will the resulting policies be fair and reasonable and sound.

David Lawrence writes, in U. S. News & World Report: "President Kennedy has made a serious mistake in declaring that the recent vote in the Senate against his medical-care plan should be made an issue in the coming congressional elections. For, it may be asked, which party will the President hold responsible for the defeat of his plan? Will it be the Republican Party, five of whose prominent members voted with the President? Will it be the Democratic Party, 21 of whose Senators voted against the President? Or will Mr. Kennedy campaign against both the Democratic and Republican Senators who did not vote with him and who are up for re-election?"

These Elevators Are Cooperating with Farmers In This Manner To Seek Expanded Markets And More Favorable Legislation For Grain Sorghum.

Six Rural Accidents Reported In County

The Highway Patrol investigated six rural accidents in Parmer County during the month of August according to Sergeant W. E. Wells Patrol Supervisor of this area.

These wrecks accounted for one person injured and an estimated property damage of \$2,290.

The rural traffic accident summary for Parmer County from January through August of 1962 shows a total of 64 crashes. As a result of these crashes there were three persons killed and 37 persons injured. The estimated property damage amounted to \$42,065.

The veteran patrol supervisor stated, "With fall and

winter approaching, now is the time to have vehicles checked in preparation for the cold winter ahead."

The Vehicle Inspection Program in Texas has proved itself to be a valuable tool in reducing accidents on Texas streets and highways. All vehicles registered in this state are required to be inspected once a year, he added.

The new motor vehicle inspection year began September 1. However, the only thing new about the inspection this year is the sticker itself. The Sergeant pointed out, that this new sticker is a dry mount decal which we believe will adhere regardless of weather conditions.

HD Agent's Notes

BY MISS ETTIE MUSIL

Here's something to think about. Recently we attended a district meeting in Hereford to obtain certain background information that is most important in understanding you the people we work with. This information will be used with the County Program Building Committee in planning long range objectives and goals of the county, too.

We were interested to learn that we have a large percentage of our population who attended or graduated from a college or university. Would you have guessed that we have 291 men and women who have completed 4 years or more of college work?

And we also have 390 men and women who completed 1 to 3 years of college education. This gives us a total of 681 men and women who have had at least one year of college education. This is a good percentage since our county population was 9,583 according to 1960 census.

We could go on to state that we have 587 men and 739 women in the county who have completed four years of high school. This is a good percentage of the population but we need to encourage more boys and girls to complete their high school education.

Now what does this mean? With this education we wonder how much return of costs do we have from higher education? In other words, how much is a college education worth in dollars?

One can obtain an idea about the value of a college education

from a study made by the U.S. Census Bureau that covered the earnings by educational levels. The study also shows that the year spent in completing work for a degree adds more to earnings than any preceding year of college.

This study showed that a grade school graduate would have an average lifetime earnings of \$182,000. According to the 1960 census we have 1,169 men and women in Parmer County who have completed the first 8 years of grade school. To go on with the study, high school graduates will have an average lifetime earnings of \$258,000.

The total 681 men and women who are college graduates in Parmer County have an average lifetime earnings of \$435,000. These studies should help us to plan ahead for the education of our children.

With the cost of a college education increasing each year we must plan now even for the first graders and younger children. Did you know that 45 per cent of our population are 19 years of age or younger?

Littlefield Native Named Soil Scientist At Halfway

Dr. Arthur F. Gohlke was elected to the position of Soil Scientist at the High Plains Research Foundation, by the Board of Trustees, upon the recommendation of Dr. Earl H. Collister, Director, at the semi-annual meeting of the Board on September 14. Dr. Gohlke will conduct research on specific soil and plant projects and also supervise the research at the Foundation with soil and water research.

He will join the staff at Halfway permanently when he completes some very important basic research projects in radio-active phosphorus and soil and water relationships in the Department of Biochemistry at Michigan State University, Lansing, Michigan.

Dr. Gohlke is a native of the High Plains of Texas. He farmed with his father and brothers near Littlefield, Texas. He received his bachelor of Science degree at Texas Technological College in 1953. He was employed by Agricultural Chemicals Inc., Greenville, Mississippi. He was employed by the Plainsman Supply Co.,

Plainview in 1956 and 1957. In the spring of 1957, he commenced his graduate program at Texas Technological College receiving his Masters degree in Agronomy in August, 1958. He was accepted for graduate work at Purdue University, Lafayette, Indiana, in September 1958, securing his Doctor of Philosophy degree in Soil Chemistry in 1961. He is at present conducting post doctorate research in bio-chemistry at Michigan State University, Lansing, Michigan.

His work in this field of soil and plant relationships will be of great value to the agricultural industry in the High Plains. His studies of the yields of cotton and grain sorghum of irrigated Amarillo Clay Loam in two moisture levels; cotton insect control activities in Lubbock County together with his scientific studies and publications at Texas Tech, Purdue, and Michigan State will be very helpful as he starts his activities at the Foundation.

The new soil and plant research laboratory given to the High Plains Research Founda-

tion by the Killgore Foundation in Amarillo is already equipped for some of the work Dr. Gohlke will be doing in soil and plant research. Other laboratory equipment needed will be secured to give him the facilities for his studies which will be directed to continue the strengthening of the agricultural and business economy of West Texas.

Dr. Gohlke's father and brothers are active in farming in Lamb County. Dr. Gohlke, his wife Mary Lene and daughter Debra Ann will move from Lansing, Michigan to Plainview in December.

Dr. Earl H. Collister in announcing the approval of the board stated "The addition of Dr. Gohlke to our staff will round out our program in Soil Sciences and make the Foundation one of the best staffed research centers in West Texas."

Farmers Told To Be Cautious In The Use Of Defoliants

With the growing importance of cotton character and fiber fineness to the spinners and users of raw cotton, Adolph

Hanslik, president of the Lubbock Cotton Exchange, has issued an appeal to producers of cotton in the South Plains area.

Hanslik is asking producers, for their own benefit, to exercise caution in the use of defoliants and desiccants prior to harvest this Fall. Mr. Hanslik explained that most of the Central Texas crops have suffered from lack of moisture and is therefore poor character cotton.

Due to this, the cotton textile mills probably will be in need of cotton of good character and he urges producers in this area to use caution in the use of chemicals that might affect cotton quality.

Your Experiment Station tests show that cotton should be at least 60 per cent open under dryland conditions and 80 per cent open in irrigated fields before desiccants are applied.

It has been suggested that before producers use desiccants that they ask themselves if they are ready for a killing freeze tomorrow.

Immature fibers last year cost area growers several million dollars. We can't afford to damage a crop that shows promise of good character (high micronaire) with the premature use of defoliants and desiccants.

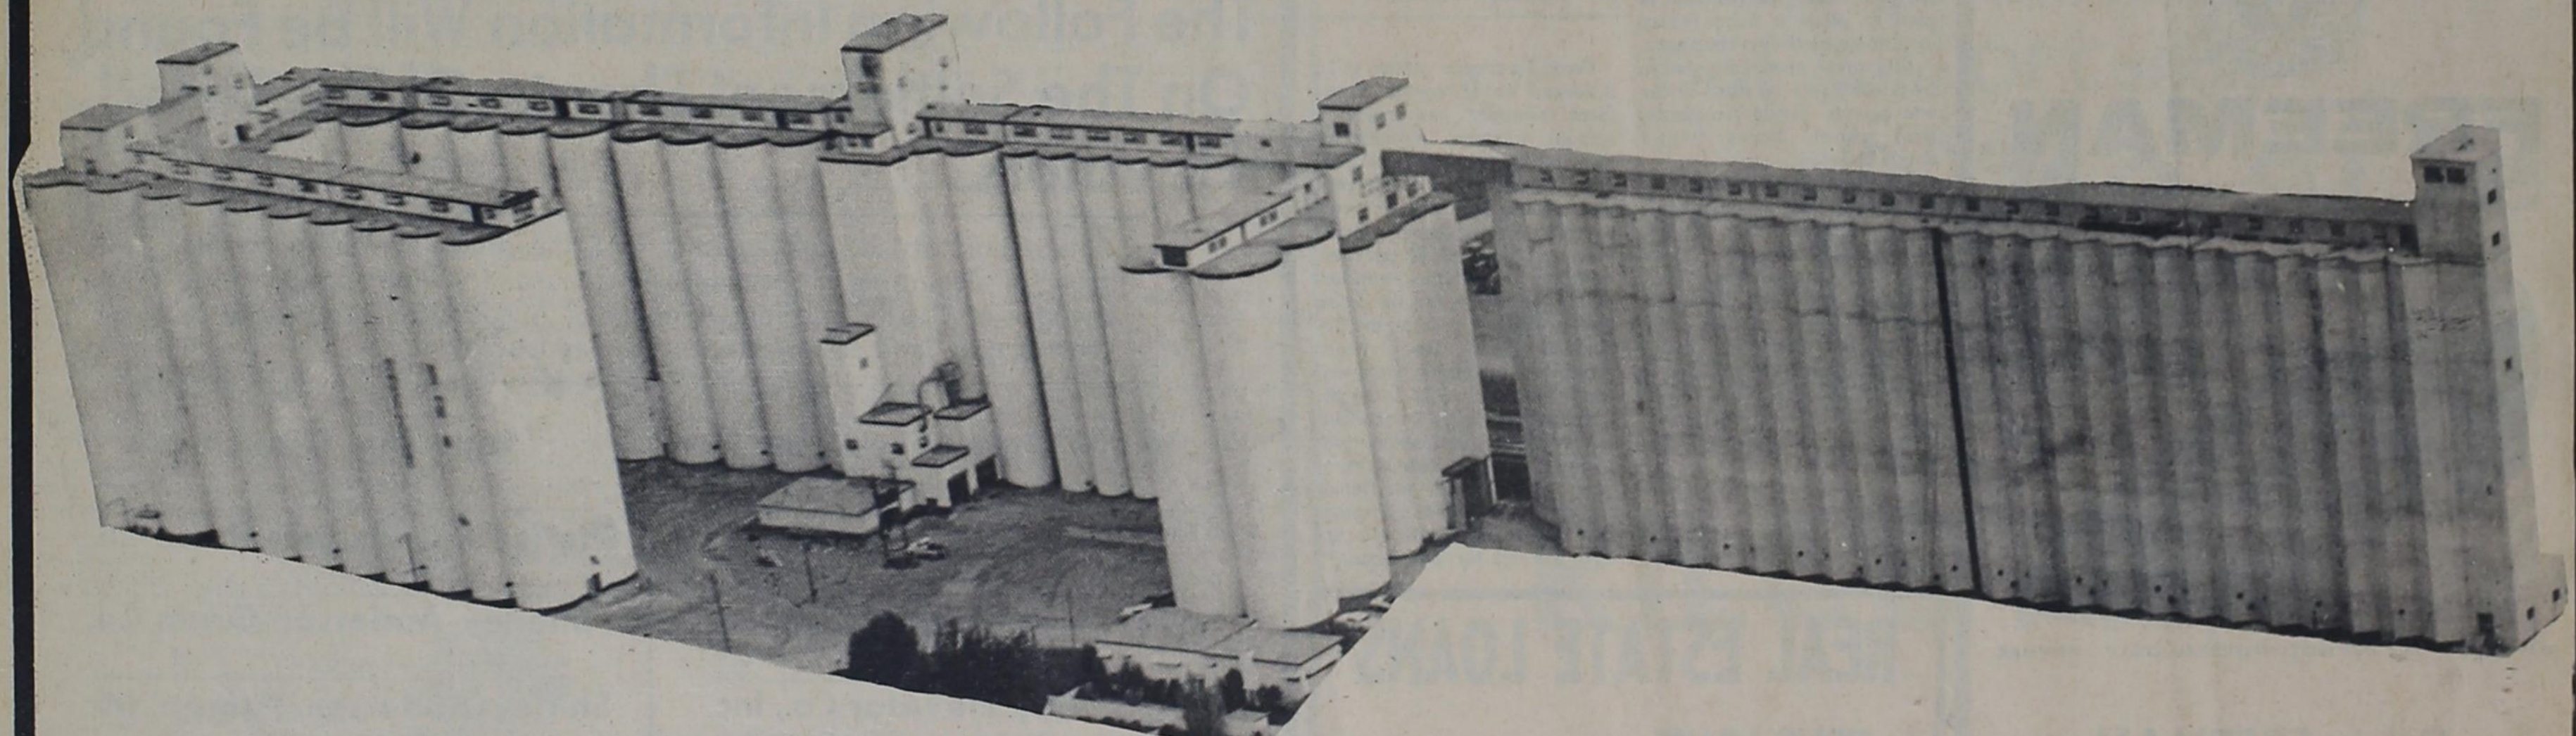

Honey was of great importance as an article of diet for the ancients, being almost the only available source of sugar. It also was valued highly for its medicinal properties, particularly as an antiseptic.
