Navy Sets Dec. 14 For NROTC Exam

Vice Admiral W. R. Smedberg, III, Chief of Naval Personnel, announced today that the 18th annual national competitive examination for the Regular Naval Reserve Officers Training Corps will be given on December 14. Eligible high school

seniors and graduates should submit their applications before November 22.

Designed to supplement the officer output of the Naval Academy the NROTC Program makes it possible for a young man to earn a regular commission while studying at the civilian college of his choice from among the 52 colleges with an NROTC Unit. All tuition, fees and books are furnished by the Navy, and the student receives a retainer of \$50 per month for not more than four years. During the summers the student goes on interesting training cruises as a midshipman. After successfully completing a four year college course, he is commissioned in the Regular Navy or Marine Corps and goes on active duty as a career officer with the Navy's modern fleets. Immediate challenging assignments to aviation training, nuclear training or submarine training offer varied career opportunities to those graduates who apply and qualify.

High school seniors and graduates who will have reached the 17th but not the 21st anniversary of birth on 30 June 1964 may apply for the NROTC aptitude test. Those who make a qualifying score will be interviewed and given a thorough medical examination early in 1964. From the number of qualified young men remaining in competition, about 2,000 will be selected to attend college next September to prepare for their naval careers.

Application forms are available at local high schools and Navy Recruiting Stations or from the Chief of Naval Personnel, Department of the Navy, Washington 25, D. C.

Hoppers--

(Continued from page 1)
Ivee, in order to be properly understood and nondestructive, must be a personal act, limited to one person, a small group of persons or, at most, a community; it must be limited in its scope; and it must hold no promise of continuity. Given this set of conditions, both the giver and the recipient profit therefrom. The giver develops a stronger sense of personal and community responsibility and the recipient through his sense of obligation and gratitude for something received which he did not expect, can maintain his sense of responsibility, his incentive, and his self-respect by the simple act of trying, or just wanting, to repay.

"We have, therefore, after careful and searching thought made a very personal decision. Believing as we do, we have come to the conclusion that we can no longer honorably participate in a program which we believe to be harmful to both those who are forced (by taxation) to give, and to those who are taught that it is their 'right' to receive.

"We will, and we want to, continue to care for all people who come to our office. We will treat those patients (with some exceptions) who are on welfare without charge, but we will do it on a personal basis and not in the name of the welfare. The exceptions to which we refer are those patients whose families (and there are, to our knowledge, a considerable number of these) can well afford to pay something. We intend to explain this to the patients as carefully and as thoroughly as we have tried to explain to you, so that there will be the least possible misunderstanding.

"You will understand, we are sure, that, since we will take no fees, we will not be obligated to fill out any forms nor will we be obligated to write prescriptions on the welfare prescription pads. We will, however, upon the patient's request, give him a statement written on our letterhead stationery or prescription pads, which indicates that patient's illness, and other pertinent data which the patient may request. Those patients who are hospitalized will, upon their request be given a written statement with the diagnosis and what surgery was done, if any. The same procedure will be followed for patients who request physical examinations to determine fitness for work. In all instances, these statements will be given directly to the patient to do with as he sees fit. This will, in a small way, place upon the patient some responsibility for his own action and give him, perhaps, a little more awareness. It will require some extra effort on the part of the patient which, we believe, will be beneficial rather than harmful. It will not, as we see it, work any hardship on him unless you refuse to recognize those statements which he requests of us. This recognition is, of course, the responsibility of the welfare department.

"May we repeat that this is purely a personal decision, we will inform our fellow physicians of our action but this is a matter which each individual must decide for himself. . ."

Public Buildings To Be Inspected

Following a directive by the State Board of Insurance, the Farwell Fire Department will inspect all public buildings in the community and report on their fire hazards, announces Wilfred Quickel, local fire marshal.

The survey is designed especially for school and church properties, and will be carried out by October 1. There are 23 different checks that will be made on public structures to establish a rating on them. The local fire department official says the department is using this occasion to encourage

city residents to use a similar check of their own private property to keep fire exposures at a minimum.

He gave ten points that home and business property owners should keep in mind:

1. Are furnaces and stoves using natural gas or LP gas, and gas appliances, and vents in serviceable condition and well maintained?
2. Is the outside shut-off valve on gas supply line properly located?
3. Has furnace and natural gas and LP gas heating equipment

been inspected by gas company or qualified gas plumbing inspector for winter use?

4. Have all hot air ducts been inspected?
5. Is building free from electrical wiring or equipment which is defective?
6. Is electric circuit overloaded?
7. Is electric circuit properly fused?
8. Do all ventilating ducts terminate outside of building?
9. Are only approved extension or portable cords used?
10. Is building kept free of

gasoline and other flammable liquids?

Quickel emphasizes that if private property owners will use this time of year to check

these danger points and bring their holdings up to standard the chances for a fire-free winter season--in which risks are greatly accelerated--will be much improved.

Softball--

(Continued from page 1)
the Coyotes diamond.

In the afternoon's preliminary game the Texico Junior High boys were defeated by the San Jon team by a score of 10-7. Roy McDaniel was losing pitcher and Masters was winning pitcher. The junior boys have previously taken a win from Grady. They will be playing the preliminary game with the Dora Junior High School team Friday.

Behind the pitching of Billy Campbell, Texico's ace pitcher the Wolverine team came out on the long end of a 11-8 score in a thrilling game played at the local Lion's Club softball park, Thursday afternoon against the San Jon Coyotes. Catcher for the local team was

Tom Rickstrew.

In the first inning the first San Jon man up hit a homerun to put that team out in front where they stayed for the next six innings. They were able to add two runs in the third and Texico was able to only score two men.

In the fourth San Jon got three more men across and added one in the fifth while Texico was able to only score three men in the same periods.

The sixth inning was a shut-out for both sides with three up and three down for each side; however in the seventh

Steers. With the score 20-15 a single touchdown could give them the victory.

But it wasn't in the teal leaves and in just two plays the Steers handed their guests the ball on the Farwell 20 after a back-breaking fumble. The Eagles went right to work and, aided by a penalty, chalked up a first down on the Steer 10. From there halfback Ronny Fields charged around right end for the fourth Seagraves score. They tried another pass for extras and it too failed.

The Steers resorted to desperation passing as the four-minute mark came, but it was a losing cause. They lost the ball twice on interceptions and never really threatened before time elapsed.

Oklahoma Lane's First Bale

COTTON TIME--First bale of 1963 cotton was ginned at Oklahoma Lane Gin Tuesday, September 24. The 570-pound bale was produced by Wendol Christian, right, and was ginned from 1980 pounds of seed cotton. Ginner Floyd Coates is at left and A. T. Kersey, a neighbor, is shown in the center. (Photo by Dolph Moten)

Expect great things from Chevrolet again-for '64

Now... Jet-smooth Luxury '64 CHEVROLET

Chevrolet was luxurious before, but you should see it now. With smart new styling, the '64 Chevrolet looks even longer (but isn't). There's even a whole new series this year--the Impala Super Sports--with front bucket seats as standard equipment. (The new Impalas and Bel Airs are more luxurious, too. Even the lowest priced Biscaynes have new foam-cushioned seats front and rear and are fully carpeted.) Of course, you expect more than just luxury from Chevrolet. A choice of 16 power teams, for instance--a 6 and six V8's up to 425 hp (optional at extra cost). And quieter transmissions. Jet-smooth ride with Full Coil suspension. Flush-and-dry rocker panels, Delco-tron generator, self-adjusting brakes and other low-upkeep features. If you've ever wondered how luxurious Chevrolet could get--with all the extra-cost options there are to choose from--that seems to be entirely up to you.

Take your first look at the first CHEVELLE!

CHEVELLE! by Chevrolet
New Chevelle Malibu Super Sport Coupe--one of 11 models in three great series.
You've never seen anything like this totally new line of cars before. Chevelle is new in everything but Chevrolet quality. Chevelle is a good foot shorter than the big cars, so it parks easily. Yet the interior dimensions of its Body by Fisher provide a generous amount of head, leg and shoulder room. (Chevelle's trunk is big and roomy, too.) The ride is surprisingly smooth with a rugged coil spring at all four wheels. And not so surprisingly for Chevrolet, the new Chevelle offers a choice of engines ranging from an economical 120-hp 6 to a 220-hp V8 (optional at extra cost.) Choose the Chevelle you like best from the three series--the Malibu Super Sport, the Malibu and the 300 Series, eleven models in all--at your Chevrolet dealer's. (Like this good-looking Malibu Super Sport, maybe?)

At Home In Farmer County

By CRICKET B. TAYLOR
County HD Agent

I had the very pleasant experience this week of visiting with the Hub Home Demonstration Club for the first time. The meeting was held in the lovely spacious home of Mrs. A. L. Black. The program was a tour of Mrs. Weldon Stringers yard to see the progress in yard improvement.

In the early stage of their landscape development, flowers have been used by the Stringers to prevent the blank appearance that is common to newly planted landscape when shrubs are small. Irregular borders of cut flowers of both annual and perennials are along the fence at the rear of the house, which was a mass of color and beauty. Flower beds arranged in this manner, not only added beauty to the private area but it does not interfere with the care of the large smooth lawn when mowing. Flowers were used also in front of the newly planted euonymus japonicus at the front of the house, to fill in and add color, while shrubs are yet small.

While on the subject of flowers, perhaps you are planning to buy and plant tulip's this

fall, if you are then don't delay any longer - it will be too late to get them into the ground before winter freezes begin. Spring - Flowering bulbs should be planted in late September and early October. Here are a few tips from USDA's research service.

First, remember we get what we pay for in quality. Large bulbs are generally better than small ones. Make sure the bulbs are not diseased. Don't buy them that are moldy, discolored or soft.

Buy the specific colors you want. Its probably better to buy bulbs individually rather than in variety packs.

Choose either domestic or imported bulbs. They are equally good.

As to the planting - tulips grow best when they get long hours of direct sunshine and plenty of moisture. Well drained sandy soil is best. Plant on high or slightly sloping ground.

Here's a tip for early blooms. Plant specie type bulbs on a southern exposure - near wall or building. You will be the first with tulips next spring. For late spring blooms, plant bulbs in a northern exposure late in fall.

Burned out and dirty light bulbs in the laying house can cost egg producers real money due to reduced production, points out Bill Cawley, extension poultry specialist. His advice is to keep the lights burning brightly and the way to do this is to keep the bulbs clean.

THE HIGH PLAINS FARM AND HOME

Parmer Important Stop On CC Tour

Parmer County's private and commercial feeding operations -- which have undergone extraordinary growth in the past five years -- will be under the inquisitive eye of a special delegation from the West Texas Chamber of Commerce next month.

The Chamber, which spreads itself across a full half of the state, is sponsoring a tour of the livestock feeding industry in West Texas and local installations will be among the ones to be inspected.

The tour, which is expected to attract over 200 businessmen, farmers and ranchers, will pass through this area on

Tuesday, October 29. The visitors will look at both large and small operations, and area farmer-stockmen have plenty to show them in both departments.

Six busloads of Chamber men

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Civic Clubs and others interested in Citizenship can hear either or both of two young ladies from Parmer County High Schools talk about it upon request. The girls are Miss Jane Bradshaw of Farwell High School and Miss Linda Rector of Friona High School. These young ladies were among 232 other Texas High School students who attended a three day seminar on the campus of Sam Houston State Teachers College in Huntsville in August.

They were under the tutelage of such men as John Noble of Wheaton, Ill., a former prisoner in Russian slave labor camps; Cleon Skousen, former FBI agent and author of "The Naked Communist"; Dr. Harry Love of Virginia Polytechnic Institute, well-known lecturer on economics and George Benson and Dr. Clifton Ganus, Jr., who are associated with the School of American Studies at Harding College, Searcy, Arkansas. We believe you will appreciate hearing these girls talk to you.

Farm Bureau officials are expecting more interest in open forums and county conventions

Four Accidents In County In Aug.

The Texas Highway Patrol investigated four accidents on rural highways in Parmer County during the month of August, according to Sgt. W. E. Wells, Highway Patrol supervisor of this area.

These wrecks accounted for six persons injured and estimated property damage of \$2,215.00.

The rural traffic accident summary for this county from January through August of 1963 shows a total of 75 crashes resulting in two persons killed, 27 persons injured and an estimated property damage of \$41,557.00.

Now is the time to have all motor vehicles "winterized", the sergeant stated; that is to have their vehicles safety inspected at one of the approved inspection stations to determine that all parts are in top condition.

The new 1964 vehicle inspection sticker is now available.

All vehicles registered in this state are required to be inspected once a year. All motorists are urged to have their vehicles safety inspected to avoid the rush later on.

The '64s from Ford are here: The Year of the Test Drive starts today!

Ford cars have changed. Only a test drive can tell you how much. Races and rallies, economy runs, braking and acceleration tests have bred into our 1964 models the kind of total performance you just can't create on the test track alone. They are hard-muscled, fast-moving, sure-footed. Open competition helped make them that way. They offer you substantially more car than anything at their price. You don't have to take our word for it. We're willing to rest our case on our cars.

TRY TOTAL PERFORMANCE FOR A CHANGE!
FORD
Falcon-Fairlane-Ford-Thunderbird

1964 SUPER TORQUE FORD
Strongest, smoothest, steadiest car in its field--by hundreds of pounds... More steel in frame and suspensions... Unique suspension lets wheels move backward as well as up and down to flatten bumps... Distinctive new rooflines.

1964 FAIRLANE
Unique combination of family-size room, sports car feel and modest price... Optional 289-cubic-inch V-8 so lively it was adapted for famous Cobra sports car... Five engine choices, six transmission choices, eight different models.

1964 FALCON
All new except the economy that made Falcon famous... Falcon's Six still holds all-time Mobil Economy Run record for Sixes or Eights... Plushiest ride ever built into a compact car... 14 models--plus 3 extra-duty wagons.

Broomcorn As Irrigated Crop Is New Venture

Broomcorn as an irrigated crop in Parmer County is a new venture and has been tried this year for the first time by Roy Clements, Friona farmer. His first venture with the crop includes some 300 acres, 200 acres of the crop is on land owned by Clements with an additional 100 acres having been produced on land owned by Raymond Fleming, who says he is an old hand with the crop, having moved to Parmer County from neighboring Curry County where broomcorn is important. Harvest is in full swing on

the Clements farms this week. The harvest was begun last week and is due to be completed by the last of this week. Some 170 farm hands have been busy snapping the heads from the stalks. The heads are then piled on stalks which have previously been broken over and made in readiness. Heads will remain here until frost when they will be threshed and baled for shipment to the market.

Fleming estimates that the crop is making 1500 lbs. per acre and at the present time the crop can be sold on the market for \$450 per ton. Several buyers have been in the area during the past few days looking over the Clements crop.

Fleming adds that the crop is one of the best and says that most farmers make the mistake of watering too often. Broom-

Broomcorn as an irrigated crop has been tried in Parmer County this year for the first time by Roy Clements of Friona. This field where harvest of the crop is in full swing has been showing a yield of 1500 lbs. per acre. The field runs adjacent to highway 60 a few miles south west of Friona.

FOOTSAVING EDUCATION

by James E. Edwards

Foot Care For Children #6

Principle #10

Examine your child's feet daily for any redness, pressure spots or blisters. Bathe them with mild sudsy water, dry carefully with a soft towel and dust with baby powder. To help keep toenails in prime condition, massage the cuticle often with baby oil. To avoid the possibility of ingrown toenails, trim very carefully straight across and never any shorter than the flesh.

Cont'd next Week.

corn is primarily a dryland crop. The Clements crop was watered one time, approximately a month ago, when the crop was just beginning to mature.

Clements was unavailable for an interview; however his wife says at this point he is pleased with his venture with broomcorn as an irrigated crop.

Research has shown that crop rotation, deep plowing and residue management are a combination of practices which will help cut cotton root rot losses. Deep plowing is most effective when done during a period of hot, dry weather.

Seedlings Available

Farmers and ranchers who plan to plant windbreaks this year can pick up applications for tree seedlings from their County Agricultural Agent, or by writing to the Texas Forest Service, College Station.

Windbreak species available this year are: Austrian and ponderosa pine, black locust, catalpa, Chinese elm, cottonwood, buffaloberry, mulberry, redcedar, multiflora rose, sycamore, euonymus and osage orange. Black walnut stratified seed are available also.

Seedlings are sold only for soil stabilization or windbreak purposes. They may not be used for landscaping or ornamentals. No order for less than 100 trees will be accepted.

Mason Cloud, head, Reforestation Section, Texas Forest Service, said the cost of both seedlings and seed will be \$1.50 per hundred prepaid plus state sales tax. Shipments will begin the middle of February and end around the middle of March.

Windbreak planting guides are available free of charge from the County Agricultural Agents and from the Texas Forest Service, College Station.

On The Farm In Parmer County

By DERYL COKER
County Agent

Insects have been a problem all year, and now it is leafworms and bollworms.

Nearly all fields in the area have leafworms and a good many fields have bollworms.

In some instances fields should be sprayed for bollworms using an insecticide that will kill both bollworms and leafworms.

As late as our cotton is we cannot afford to let the leafworms destroy all of the leaves, because the plant uses the leaf to take up food to mature the cotton.

If the weather remains warm we can expect bollworm populations to increase. Bollworm activity slows down when temperatures consistently drop below 60 degrees at night.

Below is the recommendations for controlling leafworms and bollworms.

Insects, Insecticides, Pound per acre of actual insecticide to be applied as spray or dust, and Remarks as follows:

Apply dust at 10-15 lb. per acre unless otherwise indicated.

- Bollworms:**
- A. Strobane-DDT 3.0-4.5 (2-1 mixture)
 - B. Endrin 0.4-0.5
 - C. Endrin-DDT 0.3-0.4, 0.5, 1-0
 - D. Toxaphene-DDT 3.0-4.5 (2 to 1 mixture)
 - E. Sevin 1.6-2.4

How to Check for Bollworms

Examine the terminal buds (upper 3-4 in. of plants and 100 consecutive squares and bolls at each of several points in the field. Begin treatment when bollworm eggs and 4 or 5 young worms are found per 100 terminals or 5% of the small squares and bolls have been injured by small bollworms. Make additional applications as needed. Tobacco budworms may occur in damaging numbers late in the season. The maximum recommended dosages should be used to control this pest. DDT resistance to the bollworm and tobacco budworm occurs in several areas of the State. DDT alone may be used to control these pests where resistance does not occur.

- Leafworms**
- A. Guthion 0.25
 - B. Parathion 0.125-0.25
 - C. Sevin 1.0-1.25

D. Methyl parathion 0.125-0.25
E. Toxaphene-DDT 1.5-3.0 (2-1 mixture)
Apply dusts or sprays when cotton leafworms first appear. Young worms are easier to kill than old worms.

There will be a tour for everybody interested in feeding livestock, October 28, 29, 30, 1963. The tour is sponsored by the West Texas Chamber Commerce and will cost \$57.50. This cost includes transportation, lodging for two nights and meals but breakfast. If anyone is interested in feeding cattle this trip will certainly be worth while. You will travel all over West Texas. If you should need more information come by the office.

Officials of the scabworm eradication program are asking livestock producers to give even closer attention to worm cases in their livestock.

MISS MARY COFFER

Miss Coffey Installed Rainbow Worthy Advisor

Miss Mary Coffey, daughter of Mr. and Mrs. Claude Coffey of Farwell was installed Worthy Advisor of the Order of Rainbow for Girls, Saturday evening in open installation at Masonic Lodge Hall in Bovina.

Other officers installed were Martha Coffey, Worthy Associate Advisor; Peggy Eason, Charity; Janice Prince, Hope; Carol Mast, Faith; Linda Langston, Chaplain; Vicki Rogers, Drill Leader; Maureen Hammonds, Outer Observer; Brenda Dilger, Confidential Observer. Installing officers were Edith Blair, Jo Ann Zahn, Mae Porter, Donna Dunn and Susan Birdsong.

Cub Scout Plans To Be Made

A reorganizational meeting for the Cub Scouts is planned for Monday night, Sept. 30, at 7:30 in the Farwell School Cafeteria, says Webb Gober, Cubmaster, and boys who are interested in the organization should attend the meeting with their parents.

Attend Wedding

Among the local people attending the wedding of Monte Singleterry and Miss Rosabeth McConnell in Belen Saturday were Mrs. A. D. McDonald, LaNell and Gwinette Lovett, Jerry Bowers, Gary Singleterry and Mr. and Mrs. Glenn Singleterry.

Rummage Sales To Continue

The rummage sales sponsored by the ESA Sorority will continue through Saturday, Sept. 28 in the old Kirkland Pump Co. building in Farwell. The sale will be conducted from 3 p.m. until 5 p.m. Anyone having rummage to donate to the ESA may contact Mrs. Bert Williams, Mrs. W. H. Graham, Mrs. Joel Tankersley or Mrs. Joe Roark and they will see that the rummage is picked up.

Miss Coffey chose for her Rainbow Dad, R. T. Langston. Following installation services the honoree was hostess to a reception. The serving table carried out her colors of yellow and brown. Centering the table which was laid with a white lace cloth was a cake decorated with yellow and brown and featured the Rainbow Emblem in the center. Refreshments of cake, punch and nuts were served to guests.

Anyone interested in working with the Scouts is also invited to attend, says Gober. Boys should be 8 years old to be eligible for membership.

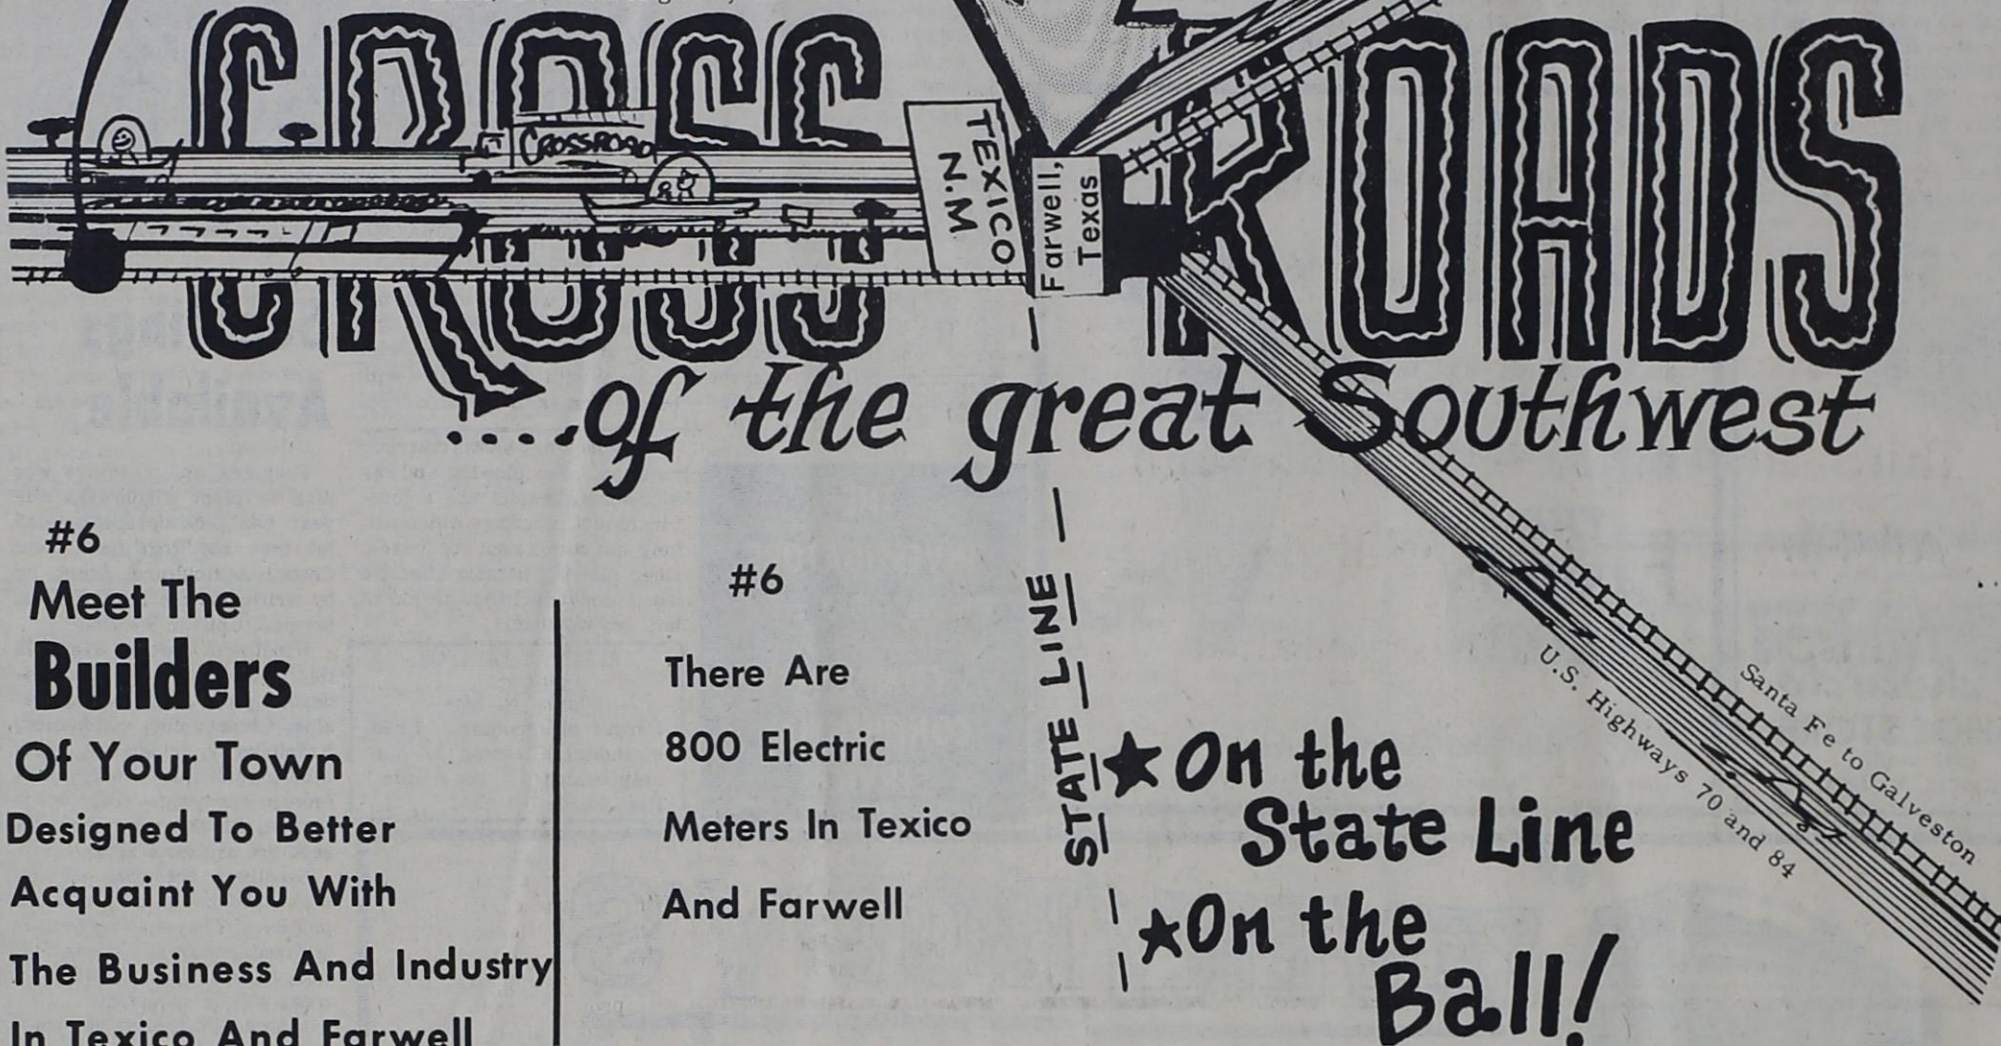

Women Learn About Tile

A demonstration on tile artwork was presented when members of Texico Modern Homemakers Extension club met in the home of Mrs. Ed Combs. Mrs. Glenna Dunn received the door prize. Hot coffee and rolls were served to Mesdames W. E. Martin, Loren Wilson, Roy Rickstrew, Duane Herrington, Joe Camp, C. H. Webb, Paul Skaggs and Perry Winkles, members, and Mesdames Duane Martin, Willie Hammond and Glenna Dunn, visitors; also Mrs. Jameson, who directed the program. Next meeting will be with Mrs. Johnny Green Oct. 8. Plans are to hold an all-day meeting with a sack lunch scheduled. Attendants will make clown dolls.

Peyton-Schlenker

(Continued from Page 3)

brother-in-law of the groom; Glen Daniel, cousin of the bride, both of Lubbock; Jim Ates, Portales; Dwayne Fryar, Hereford; and Terry Niece, Clovis.

Scott Wright and Sue Ann Wright, cousins of the bride and son and daughter of the Howard S. Wrights of Wichita Falls, were candlelighters. Miss Wright was attired in a dress of chartreuse slipper satin styled like those worn by the bridesmaids. She wore a wristlet of tinted carnations.

For her daughter's wedding, Mrs. Payton chose a teal blue silk dressmaker suit with bone accessories and a white car-

nation corsage. Mrs. Schlenker, mother of the groom, wore an imported silk chocolate-brown sheath with beige and pink accessories, and a white carnation corsage.

For traveling, the bride wore a gold boucle sheath dress with a gold and black plaid coat in matching boucle. She chose black accessories and wore the corsage from her bridal bouquet.

A reception was held immediately following the wedding in the church parlor. The young couple with their parents and the bridesmaids formed a receiving line for the guests.

The refreshment table was laid with white lace over white, with crystal and silver appointments. A silver cornucopia fil-

led with white mums and flanked by six white tapers in crystal candelabra centered the table.

The unusual four-tiered cake was separated by columns with the bottom tier designed as four sweetheart shaped cakes, and trimmed with wedding bells, swans, blue and yellow roses with layers encircled with daisies and topped with a miniature bride and bridegroom. Citrus punch over tangerine ice was served from a crystal pedestal punch bowl. Napkins were inscribed "Johnnie and Beth" in silver.

Mrs. Eddie Smith served punch and Miss Patricia Patterson presided at the punch service. Floating hostesses and assistants at the reception were Mrs. Ray Cope, Lubbock; Mrs.

John Lockhart, Mrs. John Hadley, Mrs. Avis Patterson, Mrs. Herschel Hughes, Mrs. Buddy Harrison, Mrs. Raymond Hadley and Miss Linda Hadley of Texico.

Background wedding music was played by Fred Phelps during the reception and he accompanied a group of the groom's fraternity brothers as they serenaded the newly married couple.

After a wedding trip to Ruidoso and points in New Mexico, the couple is at home, Apt. 67, Verville, Eastern New Mexico University, where both are students. She is a sophomore home economics major and he will work on his Masters degree.

The bride is a 1962 graduate of Texico High School, where she was a member of the National Honor Society, a cheerleader and drum major. She attended ENMU where she was a candidate for best dressed. She was winner of the Miss New Mexico Maid of Cotton contest, and resigned the title when she announced her engagement.

The bridegroom attended Portales Schools, Durango Junior College and Texas Western at El Paso. He was graduated from ENMU Aug. 2, is a member of Phi Alpha Fraternity and was president of Alpha Psi omega dramatic fraternity last year. He was active in the Children's Theater and played several major roles in university productions. He spent one summer with the summer stock theater, Buck Skin Joe, at Canon City, Colo., and one summer with the Virginia City Players, Virginia City, Mont.

Out of town wedding guests included Mr. and Mrs. R. C. Peyton, Johnny Peyton, Mrs. Elizabeth Peyton, Mrs. Larry Fletchall and daughter Lorle, all of Altus, Oklahoma; Mr. and Mrs. Harold Dobbs, Mr. and Mrs. L. T. Cope, Levelland, Texas, Mr. and Mrs. A. D. Daniel, Glen Daniel, Mrs. Sallie Newman, Mr. and Mrs. Jerry Woods, Mr. and Mrs. Ray Cope and daughters of Lubbock, Texas, Mr. and Mrs. Howard S. Wright, and children, Wichita Falls, Texas, Mrs. Fessie Hill, Mr. and Mrs. Mink Smith and

Carol, Dora, New Mexico, Chief and Mrs. Lloyd Niece and sons, Clovis, New Mexico, Mr. and Mrs. Cordie Potts, Mrs. Malle Hartwell, Mrs. Floyd Schlenker, Mrs. Dutch Dean and Mr. and Mrs. Carl Schlenker and Mr. and Mrs. Roy Daniel, all of Friona.

Legal Notice

NOTICE TO BIDDERS OF CITY'S INTENTION TO LET CONTRACT OR CONTRACTS FOR MAKING CERTAIN IMPROVEMENTS TO THE CITY'S WATERWORKS SYSTEM, TO-WIT: CONSTRUCTING AND INSTALLING A WATER TOWER, AND TO ISSUE TIME WARRANTS NOT EXCEEDING \$35,000 IN PAYMENT OF ALL OR A PORTION OF THE COST THEREOF

SEALED PROPOSALS addressed to the Mayor and City Commission of the City of Farwell, Texas, will be received at the office of the City Clerk, City Hall, Farwell, Texas, until 5:00 o'clock P.M., on the 4th day of October, 1963, for furnishing all labor, materials and equipment and performing all work required for making improvements to the City's Waterworks System as follows:

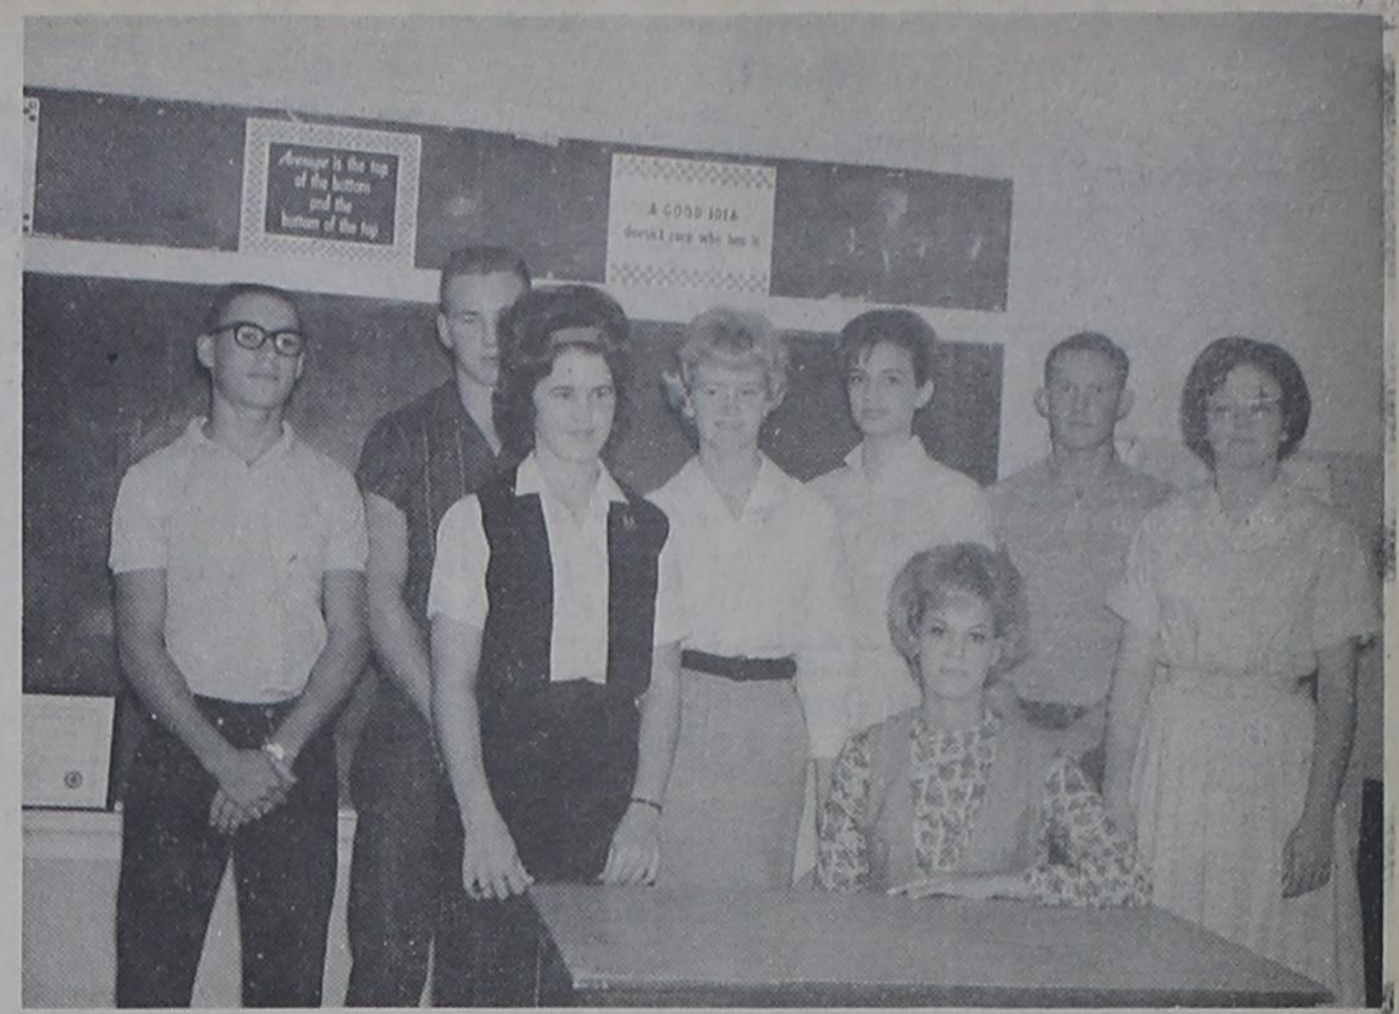

Furnishing and installing a 125' height watersphere type tank, 100,000 gallon capacity of pickled steel construction, tank of 1/4 inch and base of 1/2 inch steel, on concrete foundation to be located on Block 31 in the City of Farwell, Texas

all in accordance with specifications and plans approved by the City Commission, on file in the office of the City Clerk, and at such time and place all such proposals will be publicly opened and read.

PLANS AND SPECIFICATIONS may be examined without charge in the office of the City Clerk, City Hall, Farwell, Texas.

A CERTIFIED OR CASHIER'S CHECK, or an acceptable bid bond, in an amount not less than five per cent (5%) of the total bid shall accompany each bid as a guaranty that, if awarded the contract, the bidder will promptly enter into contract with the City of Farwell, Texas, and furnish bonds on the forms provided.

THE SUCCESSFUL BIDDER will be required to furnish a Performance Bond and a Payment Bond, each in the amount of the contract, written by a responsible Surety Company

Officers for the Future Teachers Organization in the Farwell High School were recently installed. Farwell Sr. Class Elects Sponsors

The Farwell senior class elected sponsors and class parents for the year in a recent meeting. Sponsors are Mrs. Roy Woodard and Mrs. Billy White. Class parents are Mr. and Mrs. Clay Henson and Mr. and Mrs. Bill Prince.

Also elected was a new student council member, Leon Lovelace. Permanent members are Sherri Austin and Alan Busbice.

Plans were made for organizing concession stands.

Plans for the contractor to dispose of the warrants herein mentioned at their face value, and the contractor must agree to deliver the warrants at face value to the party with whom the City has made such arrangements.

The City reserves the right to reject any or all bids and to award the contract to that bidder or bidders, who in the opinion of the City Commission, offers the proposal to the best interest of the City.

CHRISTIANITY

Is The Bulwark of Our Way of Life

SACRIFICE
Romans 12:1

To sacrifice in the higher sense means to give to a cause even that which we need for ourselves. To do more than is ordinarily expected is the mildest meaning that can be given to the word. With these definitions in mind let us consider three things:

1. **MAN'S LOVE FOR MAN IS MEASURED BY SACRIFICE.** The love of one human being for another will be manifested by "over and above" service. The love that we have for our family and friends will be revealed not by the words we say but the things we do - the sacrificial things that we do for them.

2. **GOD'S LOVE FOR MAN WAS MEASURED BY SACRIFICE.** II Corinthians 8:9 says: "For ye know the grace of our Lord Jesus Christ, that, though he was rich, yet for your sakes he became poor, that ye through his poverty might be rich." God was willing to give the best that he had, his Son. Christ was willing to give all that he had, his pride (humanly speaking) and his life, in order that salvation might be provided for sinners like us. This is the highest possible example of sacrifice.

3. **MAN'S LOVE FOR GOD WILL BE MEASURED BY SACRIFICE.** If we really love God we will do more than just talk about it. The Bible tells us how we ought to live. Are we living that way? The Bible tells us how we ought to give. Are we giving that way? The Bible tells us how we ought to witness. Are we witnessing that way? The Bible tells us how we ought to pray. Are we praying that way? I John 3:22 says that we are expected to do more than just obey God's commands. We are to voluntarily do those things that are pleasing in his sight even though they are not explicitly commanded. We must go beyond strict obedience if we are to demonstrate sacrificial love. Our love for God, if we really love him, will be measured by the sacrificial things that we do for Him.

Band Boosters To Meet

Farwell Band Boosters Club will have its first regular meeting Wednesday, October 2, 2:30 p.m. in the band hall. Everyone interested in the band is in-

vited to be present at this meeting. Parents of new band members are issued a special invitation. The band hall is located in the back or south part of the gymnasium.

News From LAZBUDDIE

BY MRS. C. A. WATSON

Lazbuddie FHA girls met at the school and traveled by school bus to several homes in the community for a progressive meal recently. Places visited were the Truman Gleason, Kirk Steinbock, Calvin Embry, Wesley Barnes and Dee Chitwood homes. After the meal the group returned to the school where a formal initiation service was held. All Freshman girls initiated were presented with red and white ribbons designating them as members of the organization. Roll call was answered with the name of a state, after which the treasurers report was given. Name selected for the chapter was "Lasting Rose." Club parents selected were Messrs. and Mmes. Jimmy Seaton and Barney Floyd.

At a meeting of Lazbuddie PTA held Monday night PTA members chose a merry go round for the school playground and an Intercom for the school as its projects for the year. Committees were appointed and membership dues were collected with a reminder given to all PTA members to pay dues promptly. In the room count Mrs. Wilbanks 3rd grade won.

A revival is in progress at the Baptist Church. Rev. Carlos Gruber is speaker for the series of meetings. In the evening he shows films of his mission in Japan. The meeting will close Sunday.

Mr. and Mrs. Harvey Bass, Carolins and Vina and Mary Mayo were guests in the C. A. Watson home Sunday.

Birthday greetings to: Connie Elliott, Robert Flores, Robert Morris, Vonnie Hardin and Linda Ashford.

Ed Myers of Mesa, Arizona, brother-in-law of Mrs. Joe Frank Paul passed away Wednesday. Funeral services were conducted Saturday in the Muleshoe Methodist Church.

Mrs. Harvey Blackstone was honoree for a pink and blue shower Tuesday afternoon, in the home of Mrs. Joe Briggs. Assisting with hostess duties were Mmes. Roy Miller, Gerald Rammage, Dean Powell, Everett McBroom, and C. A. Weir. Punch and cookies were served to approximately 25 guests.

Mr. and Mrs. Leon Smith and son, David, spent last week visiting and fishing at Troup.

Mr. and Mrs. Glenn Wallace from Okmulgee, Okla. visited in the Raymond Treider Jr. home during the weekend. They accompanied Mrs. R. G. Treider Sr. to Lubbock to visit with R. G. Treider Sr. who is hospitalized at the Methodist Hospital there.

Mr. and Mrs. Edgar Byrd and children spent the day Sunday with Mr. and Mrs. T. L. Byrd.

Attending the fair in Lubbock Monday were Mr. and Mrs. John Adduell and Marsha, Mrs. Dee Brown and Gary Mack, Janet Slayden, Linda Gleason, Johnny Mabry, Bob Blackburn, Kenneth McGehee, Mike Bean, H. W. Moore, Richard Gordon, Darrell Mason, Mack Holt and Johnny Mitchell.
