Steers-Springlake To Collide Sat. 1:45 p.m. At Springlake

The basketball game which was to have been played Tuesday night in Springlake has been rescheduled for Saturday at 1:45 p.m. with the girls teams from the schools to play in the opening game to be followed by the

boys game. Coaches are urging a good turnout for the game as it should prove to be one of the better games of the season. On Friday night (tonight) the local teams will meet Sudan

teams on the Sudan court. Game time is 7 p.m. Farwell teams lost a pair of games to strong Hale Center teams in play Friday night. Score in the boys game was 68-54 with the girls losing their game 42-32.

Coach Vernon Scott contributes the Steer loss to poor ball handling coupled with not being able to find the basket. "Our boys only hit 28% of their field shots," he said adding that Hale Center hit 53% of their tries for field goals.

Coach Scott cited Larry Gregory, sophomore, for his fine job in the game. "Gregory hit for nine points and did a fine job in all other areas," said Coach Scott in summing up the game. Leon Lovelace was high man with 15 points to his credit. In the girls game Joann Rhodes, Farwell took scoring honors for both teams hitting for 19 points. "Farwell girls did a good job, said Coach White, but the experience of the Hale Center team payed off in the win."

Both teams will be playing in the district tourney Feb. 11-13-14.

Hinkson Running For Representative

Frank Hinkson, Lazbuddie farmer and cattleman, has announced that he will be a candidate for the Republican nomination for the office of U.S. representative.

Hinkson filed Monday and made his announcement at that time.

The Farmer County resident is not the only person seeking the GOP nomination in the primaries. Hinkson's chief opponent will be Bob Price of Pampa, who announced last week. The Gray County man is also a farmer-stockman.

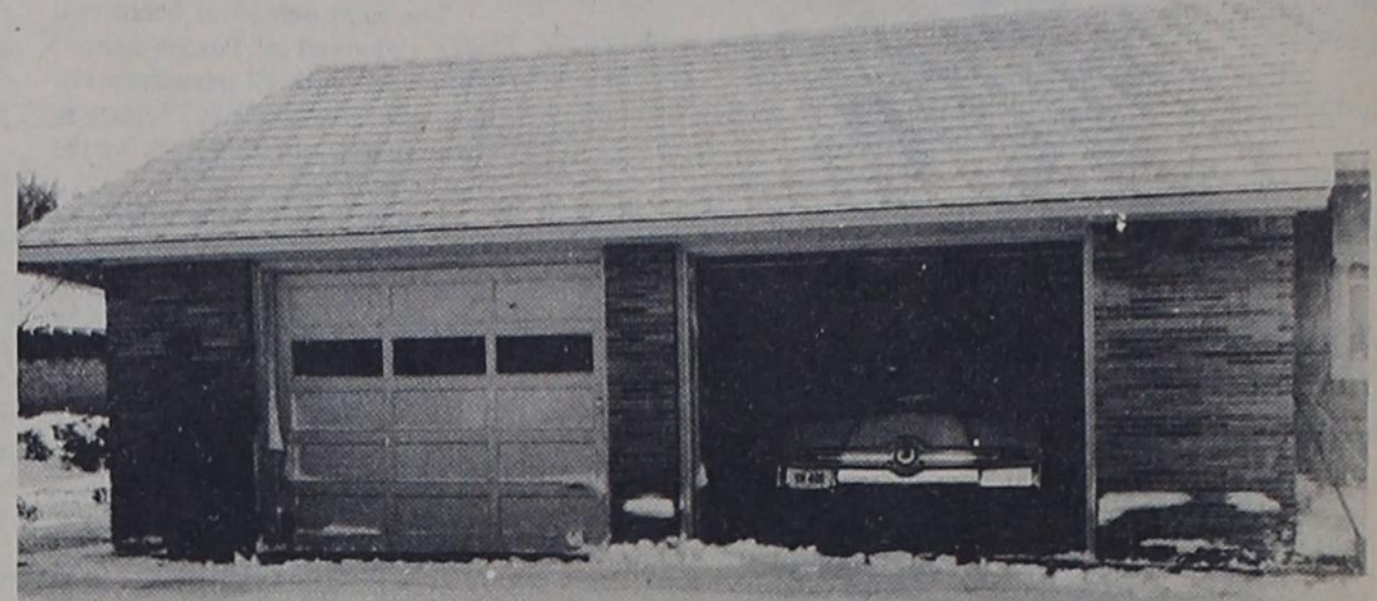

District 3-A Tourney Set For Feb. 11-14

District 3-A tournament play is scheduled for Feb. 11-13-14 at the Farwell gym. Brackets will not be drawn up for the

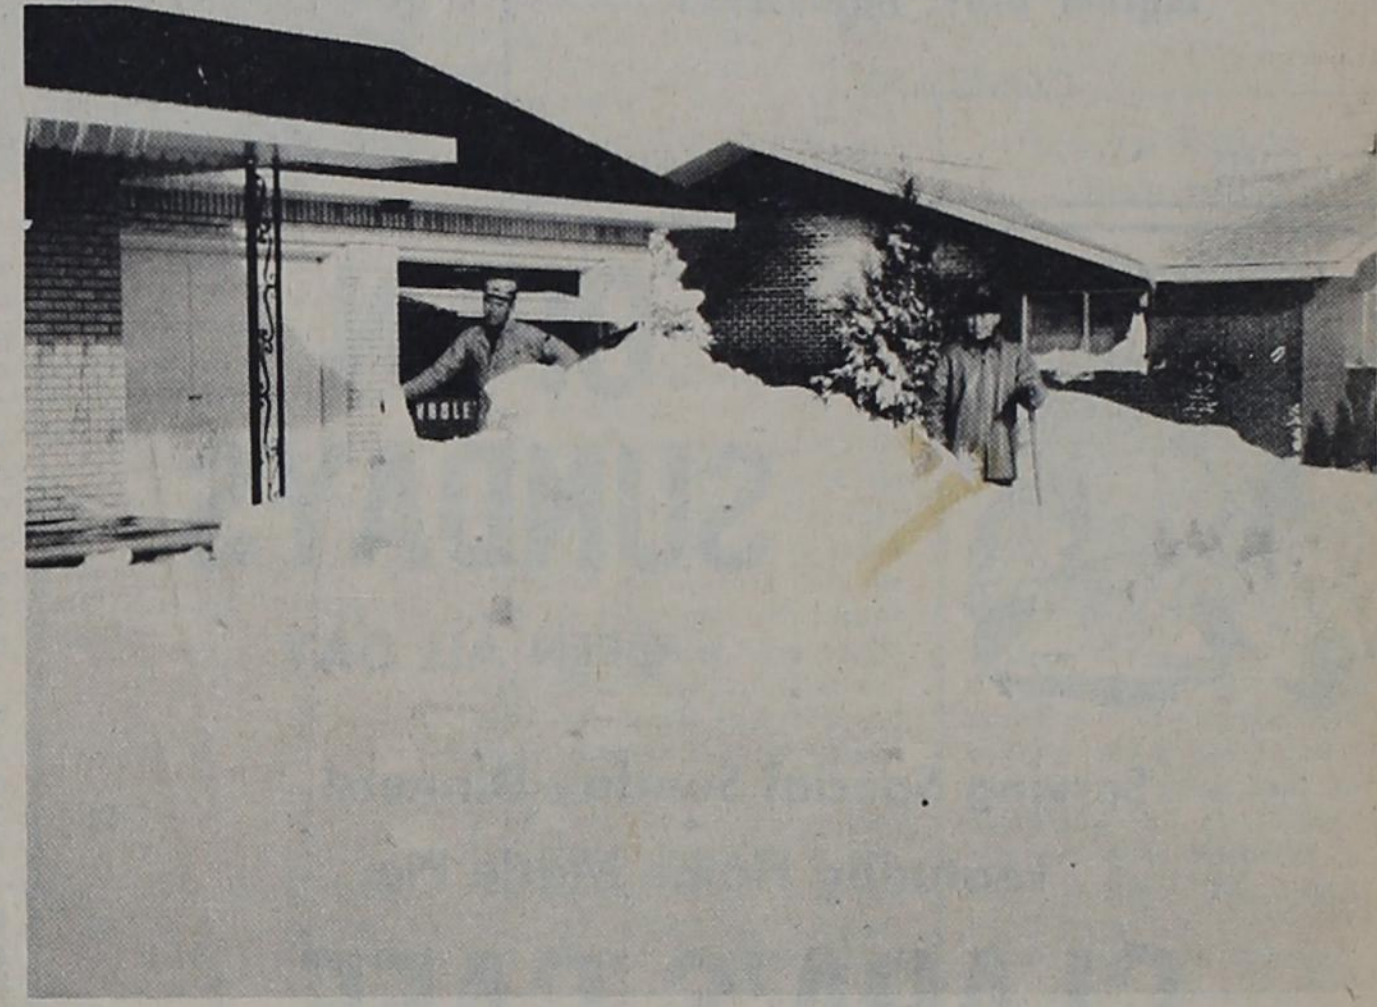

teams until after the Springlake-Farwell game Saturday afternoon. The game was postponed from Feb. 4 due to road conditions.

Springlake and Farwell are tied for first in round robin play, each having lost one game and won five during the season. Outcome of the Saturday game will be the deciding factor in setting the brackets. At present time all that is

known is that team no. 2 in the district will draw a bye until semi-final play. Team no. 1 and team no. 4 will meet in first game of the tourney and teams no. 3 and 5 will meet in the second game. Team no. 2 will play the winner of no. 3-no. 5 game and winner of teams no. 1 and no. 4 will draw a bye until the finals. Brackets for boys and girls will be the same.

"It's all in the way you live," says Sam Rundell as he notes his clean driveway following the drifting snow of the past few days, in comparison with the driveway of neighbor Don Williams whose driveway is completely blocked by huge drifts. Williams and nephew, Brett Hargrove, are busy trying to clear a path in the drive.

Somehow everyone seems amazed at the snow and generally rough weather that moved in the first of the week. I don't see why it should be any surprise, because we were certainly overdue a storm. We old salts who can feel the weather in our bones know you can't pay too much attention to those professional meteorologists and their forecasting. They are good for telling you what's going on, but not much help on what's around the corner. Monday these bureau boys told us that some snow was on the way, all right, but they figured there wouldn't be much to it, and that it would clear off by Tuesday morning. The result? About 10 inches of snow that continued into the night Tuesday. If you want to know what the temperature, barometric pressure, relative humidity, direction and velocity of the wind is, listen to the weather bureau. If you want to know what the weather is going to be in the next 24 hours, talk to a veteran of the Plains who knows how to read a sunset, watch the hawks and small birds, look at the clouds, observe how the smoke hangs, study the northern horizon for that blue ridge, and sense those rheumatic twitchings. Those are the real weathermen.

The idea--that one function of the political agency is to confer an economic advantage on some men at the expense of their neighbors -- underlies every socialist practice. --W. M. Curtiss

Meet Tuesday

Farmer County Young Democrats will meet Tuesday, Feb. 11 at the Bovina Restaurant at 7:30 p.m. All Democrats between the ages of 16-35 are urged to attend, states David Smith, Lazbuddie, county secretary.

Mrs. W. A.

Bryant Buried In Bovina Monday

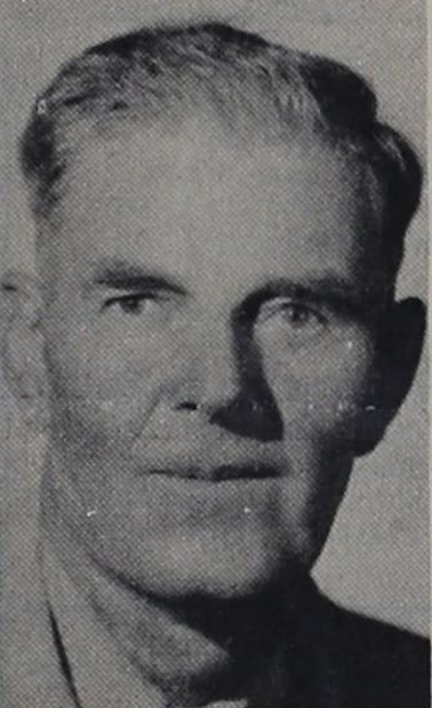

Mrs. W.A. Bryant, former resident of the Farwell, Oklahoma Lane, Bovina area was buried in Bovina Monday afternoon. She passed away in a Colorado Springs, Colo. nursing home Thursday. Mrs. Bryant was a pioneer resident of the Farwell area where she and her husband were engaged in farming for a number of years. They later moved into Farwell and ran a grocery store for several years before moving to Bovina. She is survived by several children.

TV Tower Const. To Begin

Construction on the 454 foot tower to be used for the Twin Cities TV Cable will begin by the end of the present week, according to reports received by Ray Stone, local manager for Sides and Associates TV Cable Co. Construction of the tower, for which a permit was recently issued, will be done by Ft. Worth Tower Co. with Everett Spurlin, son of Mr. and Mrs. W. H. (Pop) Spurlin as foreman of the construction crew. Spurlin will arrive in town today (Friday) and announces that weather will have little effect on erection of the tower as the crew is accustomed to all kinds of weather, having constructed towers as far north as Alaska. Work on stringing poles for the cable has been in progress since the middle of January and

Change In Meeting Date

Farwell Band Boosters, who had originally scheduled a meeting for Wednesday, Feb. 5 have announced a change in the meeting date. New date set for the meeting is Feb. 12, 2:30 p.m. in the band hall, weather permitting. Mrs. R. D. Anderson, publicity chairman urges a good attendance.

John J. Boling Passes Away Tuesday

Funeral services are scheduled today (Friday) 3:30 p.m. at Farwell First Baptist Church for John J. Boling 69, who passed away at his home Tuesday morning following a heart attack.

Officiating at last rites will be Rev. J.L. Bass assisted by Rev. Leroy Looper, Texico and Rev. Lee Perry, Imperial, Tex. Burial will be in Sunset Memorial Terrace with Our Chapel of Memories in charge of arrangements.

Mr. Boling, who had made his home in Farwell since 1957 following his retirement was born at Grapevine, Tex. He grew up at Iowa Park and attended Decatur Baptist College following which he moved to Wildorado in 1916.

He served as a member of the US Armed Forces from 1917-1919 with much of the time spent in France. Following his discharge from the army he returned to Wildorado and continued to farm for a number of years. He served as a deacon in Palo Duro Baptist Church at Wildorado from 1929-42.

In 1925 Mr. Boling was married to Hattie M. Jarnagin in Canyon and in 1942 they moved to Canyon.

For a period of time between 1942-45 Mr. Boling was

Texico Alumni Homecoming Set For Feb. 8

Homecoming for Texico High School Alumni has been set for Saturday, Feb. 8 with festivities to get underway with a barbecue meal served in the school cafeteria at 5:30 p.m.

CST. The meal is under sponsorship of the student council who are directing arrangements for homecoming festivities.

Price of the meal is \$1. for adults and 75¢ for children through grade six. The meal will include barbecue, beans, potato salad, bread, butter, tea or coffee and pie.

Juniors at the school are taking orders for homecoming mums and are asking all school patrons to order their corsages early.

Following the meal two basketball games will be played with Tatum to conclude the evening activities. Preceding the games a short program will be presented with Donald Chandler as M.C. Included on the program will be presentation of colors, pledge of allegiance, invocation, national anthem, Alma Mater, and recognition of the class with the greatest per cent of its membership present.

The school band directed by Gary Stelling will participate in the evening activities. During half time ceremonies of the B game a homecoming queen and king will be crowned by Judy Tharp and Vic Harrington, 1963 homecoming royalty. Candidates for queen include: Kathy White, Linda Hudson and Peggy Hughes. King candidates are: Wayne Hudnall, Billy Campbell and Mike Spearman.

Texico Girls, Eight Grade Boys Defeat Causey Teams

Texico girls won their second game this season by taking a win from Causey Thursday 22-17. This puts their season record at two wins, three losses.

In defeating Causey, Millie Autrey took scoring honors counting for nine during the evening. She was closely followed by Vivian Duncan Hudson with seven.

Eight grade boys defeated the Causey quintet 40-12. Nine boys saw action for Texico during the evening with each doing his share of point making to contribute to the victory. Standouts for the Texico team were Manuel Martinez with 14 points and Rodney Lacey with 12. Larry Combs contributed nine.

Going into the fourth and final quarter of play Texico was leading the Causey quintet by 14 points; which coaches said seemed to be a safe margin; therefore all substitutes were sent into the game for Texico and became stars by outscoring their teammates.

Boys seeing action for Texico were Manuel Martinez, Rodney Lacey, Larry Combs, Douglas Autrey, Alan Britenbach, (Continued on Page 2)

Curry County Supts. Meet In Texico

Superintendents of the Curry County schools met in Texico recently in the home of Supt. A.D. McDonald for a dinner, after which they adjourned to go

to the school building for a business session and to discuss general school problems concerning each of the administrators.

Attending the meeting were Travis Stovall, Davenport Beasley, and Ribble Holloman all of Clovis, Willard Moon, Melrose and R. L. Journagan, Grady.

Wolverines Take Win From Grady Bronchos

Playing on their home court, Texico Wolverines took a win from Grady Bronchos, Friday night. Final score was 85-53.

The game was much better than the lop sided score would indicate as during the first half of the game the scoring was evenly divided by the Wolves and Bronchos. Following half time the Wolves came alive and seemed to catch on fire as they poured shot after shot through the basket to widen the margin. Twelve boys saw action for Texico in the game.

Top scorer for Texico was Billy Campbell with 20. Wayne Hudnall counted for 18. Milligan was high man for Grady. In the opening game of the evening Texico B defeated Grady B-53-34. Neil Lambert, Texico and Don Mote, Grady shared scoring honors each hitting the basket for 18.

Next game for the Wolverines will be with Melrose (Friday) tonight in Melrose. Melrose is the team that beat Texico in the EPAC tourney recently.

\$900 Needed By Farwell Firemen; Solicit Funds

Farwell Firemen are in need of \$900 to pay the balance of the cost of the fire truck, which is being purchased for the department.

The city is assuming \$4,000 of the total cost of \$4,900 with firemen agreeing to be responsible for the remaining amount. "The \$4,900 is the lowest price Thunderbird Sales Co. would agree too," said Fire Chief Otis Huggins.

Mothers' March Postponed

The money must be on hand by delivery date of the truck, set for around the middle of April and all firemen are busy soliciting funds from townspeople. "Any person desiring to make a contribution to this worthy cause should call any of the Farwell firemen and they will pick up the donation," says Huggins. Contributions in any amount may also be left at the offices of Southwestern Public Service Co.

"All donations will be appreciated and if we miss seeing you please call and let us know the amount you wish to give," said Huggins.

Mothers March to be conducted by ESA in Farwell has been postponed due to the bad weather of the past week; however Mrs. Joe Helton, president of ESA chapter announces that the march will be conducted as soon as the weather conditions will permit.

The march is conducted each year by ESA during the March of Dimes drive.

Mothers March to be conducted by ESA in Farwell has been postponed due to the bad weather of the past week; however Mrs. Joe Helton, president of ESA chapter announces that the march will be conducted as soon as the weather conditions will permit.

The march is conducted each year by ESA during the March of Dimes drive.

Farwell City Dads Agree To Assist With Purchase Of Fire Truck

With all members of the council in attendance at the Friday meeting of city dads councilmen came to an agreement with representatives of the Volunteer Fire department

on the purchase of a fire truck from Thunderbird Sales Co., who is selling the neighboring town of Texico a new truck. The truck a 1952 Chevrolet is

fully equipped with all necessary fire fighting apparatus. Texico is purchasing a new truck for its department and has no further need of the 1952 truck. Firemen expressed the thought that, "Farwell is badly in need of an additional truck."

When the councilmen were approached by firemen with the idea of purchasing the truck on the lend-lease plan they (the councilmen) were hesitant reasoning that they had no authority to enter into any agreement where in the city is made responsible for indebtedness over a long period of time. Mayor Aldridge explained to the firemen that the only avenue possible for councilmen to assist in any amount was to use money from the general fund, which is for current expenses of the city.

Ray Campbell, speaking for the firemen asked, "Will the city assist firemen in the amount of \$4,000 to purchase the truck?"; whereupon Councilman Christian made a motion that the city agree to assist in that amount with the necessary amount to be taken from the general fund. The motion was quickly seconded by Councilman Blair and voted "Aye" by Mayor Aldridge and the councilmen.

"That," said Campbell, is all we need to know; we shall assume responsibility for the remainder of the necessary amount."

A report was heard from Clerk Janie Bowery to the effect that 34 dogs had been caught or disposed of by the poundman since the pet ordinance went into effect. Eighteen dogs were caught in one recent

day, she said. She also reported \$42.50 collected in pet license fees. "Most persons have paid their city taxes, said Mrs. Bowery, with \$10,030.86 collected to date from property owners."

Councilmen agreed to send Mrs. Bowery to Hereford to attend a tax workshop on Feb. 6. She will attend classes on all phases of taxation. All other business transacted by the council was routine with bills Dec. 20-Jan. 31 approved for payment. Firemen attending the meeting were Otis Huggins, Ray Campbell, R. T. Langston, Mose Glasscock, Frank Seale, Ernest Hillock, Vic Venable, Lee Hutchins, and Alton Millstead. Also in attendance was Douglas Landrum a city employee.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

SUBSCRIPTION RATES -- Partner and adjoining counties, \$3.00 per year; elsewhere, \$4.00 per year. Payable in advance.

Texico School Releases Semester Honor Roll

The first semester honor roll was released by Texico school this week with 29 persons making the coveted list. Also released was the third six weeks honor roll.

Juniors and seniors led the list with eight students listed from each class, freshmen placed six on the list and sophomores listed five.

Listed from the senior class were Linda Campbell, Don Chandler, Gary Farmer, Wayne Hudnall, Jackie Hughes, Susan Taylor, Callalya Roberts and Kathleen Smith.

Juniors making the list were: Emmitt Autrey, Linda Hadley, Gwynette Lovett, Floyd Morris, Mike Spearman, Cynthia Spence, Sarah Walker and Kathy White.

Sophomores listed: David Duncan, Peggy Hughes, Terry Lovett, Joe Patterson and Veda Wilson. Freshmen are: Linda

Armstrong, Jill Billington, David Farmer, Pam Roberts, Robert Spearman and Susan White.

Brenda Sims and Janet Wilson were listed by the eighth grade with Cynthia Armstrong, Roxie Lacewell and Tanya Thompkins listed by the seventh grade.

Mike Spearman, junior, Linda Armstrong and Robert Spearman, freshmen were listed on the six weeks roll but did not make the semester list, while Wayne Hudnall, senior, Kathleen Smith, senior, and Emmitt Autrey, junior, made the semester list but were not named to the six weeks roll.

In order to make the list a student must have an average of 9.0 for the grade period.

Burglars Strike

Burglars struck the M. T. Hukill farm, one and one half miles east of Hub on highway 86 Saturday night taking approximately \$125-\$150 in tools and electric equipment.

Loot taken included electric drills, skill saws and other tools.

Sheriff Charlie Lovelace and his deputies were busy checking out leads first of the week.

John Boling--

(Continued from Page 1)

employed by Pan-Tex company and in 1945 he became chief-of police in Canyon where he served until 1949. In 1949 he returned to his farming operation at Wildorado; however they continued to make their home in Canyon until 1957 when he retired. Mrs. Boling has been employed as a teacher in the Farwell School system since the family moved here.

Survivors are his wife, Hattie M., two sons, Billy of Farwell, John of Orange, Calif., one daughter, Mrs. Dottie Evans, Odessa, one brother, Homer, Belen, and six grandchildren.

Serving as pallbearers will be: L.T. Utsman, R.S. Smalts, V.C. Venable, Rochelle Christian, Jess Landrum, Tom Atkins, Claude Coffey and Asa Smith.

Honorary bearers include: W. M. Roberts, Dick Gerles, Jack Williams, Bruce Blair, C.G. Davis, Roy Lovett, A.M. Cunningham, Noble Goldsmith.

A GREAT HERITAGE THAT LINCOLN LEFT TO ALL AMERICANS...

THE GETTYSBURG ADDRESS

"Fourscore and seven years ago our fathers brought forth on this continent a new nation, conceived in liberty and dedicated to the proposition that all men are created equal.

Now we are engaged in a great civil war, testing whether that nation or any nation so conceived and so dedicated can long endure.

We are met on a great battlefield of that war. We have come to dedicate a portion of that field, as a final resting place for those who here gave their lives that that nation might live.

It is altogether fitting and proper that we should do this. But in a larger sense, we cannot dedicate -- we cannot consecrate -- we cannot hallow this ground. The brave men, living and dead, who struggled here, have consecrated it far above our poor power to add or detract.

The world will little note nor long remember what we say here, but it can never forget what they did here. It is for us the living, rather, to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced.

It is rather for us to be here dedicated to the great task remaining before us -- that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion -- that we here highly resolve that these dead shall not have died in vain -- that this nation, under God, shall have a new birth of freedom -- and that government of the people, by the people, and for the people shall not perish from the earth."

Lazbuddie Homemakers Discuss Time Saving In Meal Preparation

Lazbuddie Young Homemakers meeting at the Home Economics Cottage recently, with Mrs. Cricket Taylor, HD Agent as guest speaker, discussed ways to save time in meal preparation by serving one dish dinners, when possible.

Plans for the years' work were completed with committees reporting that the programs are ready to send in for state affiliation. After the business meeting Mrs. Jeanell Smith auctioned off the white elephant items with a net result of \$30. The money will

be used in the community project to assist FHA and PTA in securing tennis courts at the Lazbuddie School.

Young Homemakers will sponsor a pancake supper, Sat., Feb. 8 at the gym with a volleyball play to follow the meal. Tickets may be purchased from any member of the organization.

Brownies and punch were served by Faye Weaver and Rebecca Stroud to Mmes. Deon Broyles, Jeannie Wimberly, Minnie Jo Moore, Adell Trellder, Jimmie Briggs, Jeanell Smith, Claudine Clark, Jo Harmon, Marilyn Engelking and advisor, Mrs. Frances Walton.

Invitation Issued

A reminder is being issued this week by the children of Judge and Mrs. Sam Lewis, Texico, that friends and relatives are invited to attend an open house for the couple at Texico Woman's Club building Sunday, Feb. 9, 2-4 p.m. in honor of their 50th wedding anniversary. Children of the couple are hosts and hostesses for the occasion.

Housewarming Honors Bill Boursions

Several friends of Mr. and Mrs. Bill Boursion called at their new home north of Farwell, Friday night bringing gifts and wishing them well.

Hostesses Mmes. Bill Roberts, Don Tarbet, Johnie St Clair and W. T. Meeks had arranged a unique centerpiece for the table, making a heart from old newspapers and binding it with red rickrack. Centering the heart were the words "Home is Where the Heart Is," also made from rickrack. Surrounding the heart were things that go to make a happy home. These were: food (represented by four slices of bread), clothing (represented by one of Bill's shoes), God was represented by the Bible, and love (represented by the paper heart), shelter (represented by the new home).

Gifts were opened and games of 42 and pass word were enjoyed until a late hour after which refreshments of a variety of chips, dips, cookies, coffee and soft drinks were served.

Attending were: Mrs. Curtis Birchfield and sons, Mrs. Bob Hammond, Mrs. Glen Lesly, Messrs. and Mmes. R. S. Shuman, Lee Thompson, Lewis Sharp, Dwain Nance, Johnie St Clair, Bill Roberts, Don Tarbet, Billy Meeks, Estes Martin, Preston Martin and Ethel Howard.

Sending gifts but unable to attend were: Messrs. and Mmes. Melvin Burns, Lee Meeks, Lexie Branscum, Alvin Mace, Harry Sheets, C. J. Huffaker, C. L. Mahaney, Clarence Meeks, Ebb Randol, W. T. Meeks, Shorty Hughes, Mrs. Virginia Sheets and Mrs. Carl Davis.

Local People Attend State Meet

Executive meeting of the New Mexico BMA and WMA were held in Alamogordo over the weekend with the Texico Calvary Missionary Baptist Church represented by Rev. and Mrs. Johnny Willson and Juanetta, Mr. and Mrs. Irvin Martin, Becky, Patty and Wayne and Mr. and Mrs. G. T. Watkins.

Rev. Johnny Willson brought the morning devotional for the BMA meeting, and officers for the year were elected with Irvin Martin selected to serve as clerk.

Topic for the WMA meeting was "The Untrodden Path," with the speaker using the story of the children of Israel wandering in the wilderness to emphasize that "We have not passed this way before as each new day brings new opportunities." Mrs. Irvin Martin of the local church is state WMA program chairman.

Date for the state youth encampment was announced for the week of August 10-14 at the Skyline Ranch near Cloudcroft. Speaker at the encampment will be Harold Morris, missionary to Brazil for the past 10 years.

Hair Styling Topic For Lazbuddie Club

Mrs. Dorothy Anderson, Muleshoe presented a demonstration on "hair styling" for members of Lazbuddie HD Club when they met in the home of Mrs. Jimmie Briggs.

Six members and two guests were present. Next meeting was set for Feb. 13 at the Hub community building. All ladies are invited to attend.

What's Cooking At Farwell School

MONDAY: steak, gravy, green beans, snow-flaked potatoes, hot rolls, butter, jelly, milk.

TUESDAY: corny dogs, ranch style beans, baked potatoes, butter, tomato-lettuce salad, milk, chocolate cake.

WEDNESDAY: bean casserole, buttered corn, tossed salad, hot rolls, butter, milk, pumpkin pie.

THURSDAY: hamburgers, pickles, onions, lettuce, tomato, relishes, cheese slices, potato chips, milk, brownies.

FRIDAY: salmon loaf, spaghetti with tomatoes, tossed salad, cornbread, butter, milk, berry cobbler.

The Women's Page

Chris Moss, Society Editor --- Phone 481-3681

A Son For Tommy Beals

Mr. and Mrs. Tommy Beal announce the arrival of their first born, a son, whom they have named Linny Mark, on January 29 in a Muleshoe hospital. The little boy weighed 6 lbs. 9 oz. on arrival.

Mother and son are doing fine and have been visiting in the home of Mr. and Mrs. Earl Beal in Clovis since being released from the hospital on Friday. They returned to their Farwell home Wednesday.

Maternal grandparents are Mr. and Mrs. Otto Lingnau, Lariat. Paternal grandparents are Mr. and Mrs. Earl Beal, Clovis. Great-grandmothers of the infant are: Mrs. Martha Kalbas, Lariat, Mrs. Lucille Jackson, Clovis and Mrs. H. J. Hintz, Honey Grove, Tex.

Children Located, Safe In Abandoned House

For almost three hours Monday afternoon a gigantic hunt was on for six children who were reported missing by their parents following their failure to return home from school. The schools were dismissed at 1 p.m. due to the blinding snowstorm, when the children failed to return home in a reasonable length of time they were reported missing by parents who were alarmed because visibility at that time was zero.

Residents of Texico and Farwell were joined in the search by Clovis City Police, New Mexico State Police officers, and officers from the Curry County Sheriff's office. At time the children were found a National Guard Unit was enroute to Texico from Clovis to join in the search.

The children were found in an abandoned house two blocks from the school where they had taken refuge from the storm. They were in good condition when located.

Missing children were listed as Jerry Martin, Pat and Debbie Hahn, Loren Gibbs, Gene Arnold and Jimmy Ortiz.

Completes High School While In Army

Army Specialist Five Joe L. White, son of Mrs. Mary Justus of Farwell has recently completed his high school education through the Armed Forces Institute's General Education Development (GED) program. He is assigned to the 521st Engineer Group in Germany.

Specialist White, an engineer equipment repairman in the group's 78th Engineer Co., entered the army in October 1953. He arrived overseas on this tour of duty in July 1963.

Before entering the army the 28 year old soldier attended Muleshoe High School.

LUTHERAN NEWS

Worship service at 8:30 a.m. each Sunday with Sunday School and Bible services at 9:30 a.m. Saturday at 10 a.m. children's confirmation classes at Immanuel Lutheran Church, Clovis.

Wednesday, Feb. 12 special Lenten services at 6:30 p.m. Thursday, Feb. 13 LWML will meet at the parish hall, 2:30 p.m.

Carolyn Lingnau 13, daughter of Mr. and Mrs. Otto Lingnau, has returned to M.D. Anderson hospital in Houston for a checkup.

St. John's Congregation is rejoicing with the announcement that Pastor Pieman of Berger has accepted a call to serve here. He will arrive with his wife to take over his duties soon after Easter. The Adolph Haseloff family has double reason for rejoicing as Pastor and Mrs. Pieman are parents of Mrs. Haseloff.

Mr. and Mrs. Tommy Beal are proud parents of a son. Grandparents of the child are Mr. and Mrs. Otto Lingnau and Mr. and Mrs. Earl Beal, Clovis. Rejoicing over the arrival of her first great-grandchild is Mrs. Martha Kalbas.

Mrs. G. P. Meissner has recently returned from California where she was a guest in the home of her daughter, Mrs. Wallace Palju. She also made the acquaintance of a new grandson while there.

The Walter Kaltwasser family whose home was badly damaged by fire in December have returned to their home following a stay in the Gilbert Kaltwasser home while the house was undergoing re-decorating and repairs.

Uncle Ray's "Hot Air"

A small girl was entertaining the visitors while her mother was in the kitchen. One woman guest cast an appraising look at the little girl and then whispered to her friend "Not very p-r-e-t-y."

"No," answered the child, "but awfully s-m-a-r-t."

An extra-safe tire for the winter season

PHILLIPS 66 TRACTION TREAD

This modern, nylon cord winter tire with a *patented*, specially engineered tread, provides extra traction on ice and snow, in freezing rain, and on any slippery surface. Thousands of abrasive particles in the tread itself result in grip and traction on any road, in any weather.

During winter driving, the motorist with TRACTION TREAD conquers the problems of starting and stopping on icy surfaces.

For convenience and safety, consider these other extras...

- EXTRA DEEP TREAD—56% deeper than first line conventional tires—for greater traction, greater safety.
- SPECIAL TREAD DESIGN provides smooth, quiet performance—no humming or buzzing.
- THOUSANDS OF ABRASIVE PARTICLES give super traction on slippery streets.

Mount one winter tire on the spare, the other on an extra rim... this provides a quick changeover for different climatic conditions.

JOTTIN'S
By Jeanne

Snowtime is here, and all the area economists heaved a sigh of relief at all that lovely white moisture... and all the mothers heaved a different kind of sigh as they located the overshoes and the mops.

But the kids think it's wonderful -- and Texico-Farwell was a winter wonderland. The 8-year-old took a nose dive off the fence Sunday and spent some time in the hospital and has been confined to limited activity -- so he'll never forgive Mother Nature for providing snow when he can't get outside and enjoy it.

The 10-year-old was playing outside and took the shovel for some special game. He failed to bring it in, now new snow has covered it and he can't find it. I had mentioned something about clearing the drive later. He isn't worried, he knows we'll find it -- as soon as the snow melts... and after the drive is cleared, I suspect.

The hustle and bustle of folks making ready for all sorts of meetings and other activities was in the air -- and everything was stopped suddenly. No school, no night events, no special entertainments, no scurrying some place or other, and socializing done mostly by phone.

Regardless, snowtime is really a lovely time, it does slow the tempo a little for most of us, and give us a chance to stop in our mad rush and take time to be thankful.

Mrs. Clytie Dial and Mrs. John Boling of the Farwell Study club met with Chamber of Commerce members at their noon luncheon on Tuesday to explain how the bookmobile, which the Study Club is co-sponsoring with other civic organizations in this area operates.

Mrs. Floy Brake of Andrews announces the engagement and approaching marriage of her daughter, Carolyn, of Lovington, N.M. to Richard Hapke, formerly of Texico and now of Lovington. The wedding will be at 6:30 p.m. on Valentine's Day, February 14, at the home of Mr. and Mrs. Robert W. Ward in Lovington. The bride-to-be graduated from high school at Hobbs in 1957 and attended Texas Women's University at Denton. She is now employed as secretary for the law firm of Ward, Potter and Payne in Lovington. Hapke, who is the son of Mr. and Mrs. A. E. Hapke, Texico is a 1952 graduate of Texico High School and a 1958 graduate of Eastern New Mexico University. He formerly was editor of the State Line Tribune and is now editor of the Lovington Daily Leader.

Valeria Meier Nominated For "Woman Of Year" Honor

Valeria Meier, a 1960 graduate of Texico High School and a senior at ENMU has been nominated for the honor of "Woman of the Year" at Eastern. She is the daughter of Mr. and Mrs. Frank Meier, Texico, Route 1.

Woman of the Year, goes annually to the senior girl selected in a campus-wide election by the women students at Eastern. Men students do not vote in the election.

Eligibility for the honor is determined on a point basis. Associated Women Students supplies each woman with a form to fill out. Each girl lists all of her organizations, offices held, honors won, cumulative grade point and activities.

These are all assigned point values and the six girls having the highest number of points become candidates.

Other girls chosen as candidates are from Portales, Clovis, Santa Fe and Carrizozo.

Marriage Licenses Issued

Two marriage licenses have been issued from the office of County Clerk Bonnie Warren, during recent days. First of the licenses went to Jose Salomi Flores and Elodia Hernandez both of Bovina. The other license was issued to Billy Darwin Billingsley and Dorothy Jean Weaver both of Big Spring.

Welcome aboard Amigos!

Now on Chico's new **BARGAIN FARES**—travel round trip for only 40% more than one-way fares through April 30th

Now the entire Santa Fe is a terrific travel bargain through April 30, 1964.

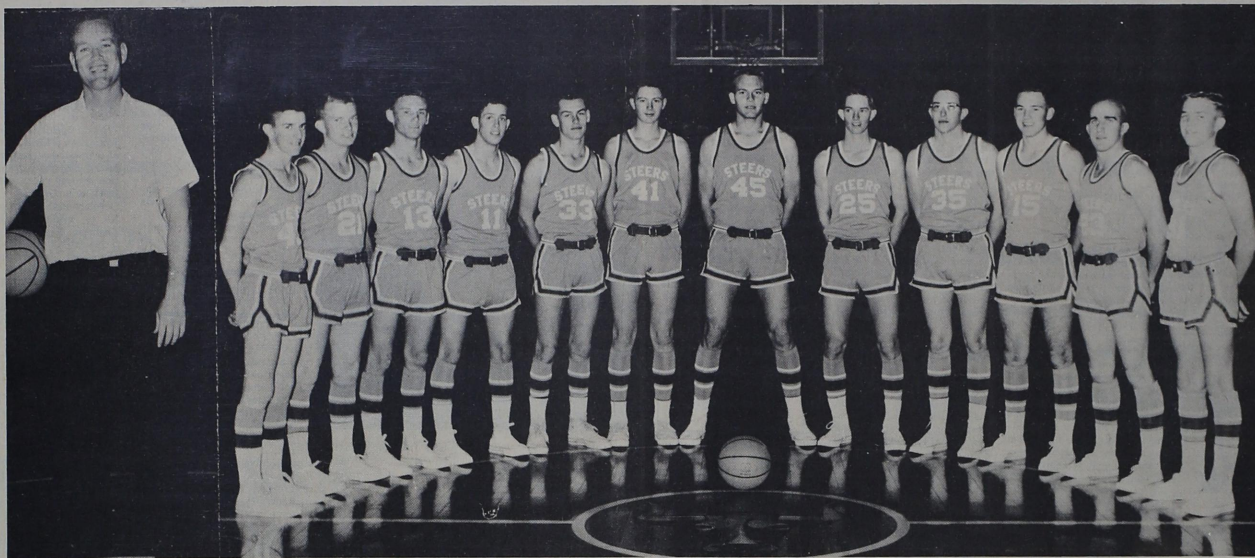

Here's how Chico's travel bargains will save you money: If the one-way fare is \$10, you can travel round trip for only \$14. When the one-way fare is \$25, you travel round trip for only \$35. On one-way fares costing \$50, the round trip is only \$70.

Round-trip bargain fares will apply for all trains between all Santa Fe stations, making it easy for you to enjoy a trip at special savings. And you have a 30-day return limit on these bargain-fare tickets.

Remember, family fares are even lower than Chico's bargain fares, making Santa Fe the most economical way for husband and wife, or family groups to travel.

Let your hometown Santa Fe agent furnish complete information

Gas Users Meet With Federal Power Commission

Bruce Parr, President of Parmer County Gas Users Association, reported today that Parmer County Gas Users Association would meet at 7:30 p.m. on the 10th day of February 1964 at Bovina School Cafeteria at Bovina, Texas to hear a report on a recent meeting of representatives from the

Plains Irrigation Gas Users Association with Joseph Swidler, Chairman of the Federal Power Commission in Washington, D.C. on January 21, 1964.

rate and remove inequities and probate problems from the present contract with Pioneer Natural Gas Company.

After more than two years of negotiations with Pioneer with no success, and after Pioneer had refused to make any concessions, the Board of Direc-

tors of the fourteen county organization at its regular monthly meeting on January 9, 1964, instructed Parr, President of the Association, Jay Boston from Deaf Smith County, and John D. Alkin, the Association's attorney, to set up a meeting with the chairman of the Federal Power Commission to see if it could afford any relief for the irrigation farmers.

A report on the Washington meeting will be made to the Parmer County Irrigation Gas Users. Parr expressed the hope that all irrigation farmers would turn out to get first hand the results of the conference with representatives of the Federal Power Commission.

The officers in the Parmer County Gas Association are Bruce Parr, President; Gilbert Kaltwasser, Vice President; Carl Schlenker, Secretary-Treasurer; Ellis Tatum, Director; E. T. Ford, Director; Vernon Syncox, Director; Melvin Sachs, Director.

Rural Families Borrow \$74,526,000 From FHA

The U. S. Department of Agriculture's Farmers Home Administration made or insured \$74 1/2 million in loans to Texas farm and other rural families, during 1963. L. J. Cappelman, state director of the agency announced in Temple today.

A total of 11,977 families used one or more of the agency's loan programs during the year. Farmers Home Administration operates a broad program of supplementary credit for rural development in Texas.

The agency makes loans for family farming operations, farm development, rural housing, community water systems, soil and water conservation and development, recreation enterprises, and other purposes.

Loans are made only to borrowers who cannot obtain credit from banks, Production Credit Associations, and other conventional lenders.

Mr. Cappelman reported that in 1963 Farmers Home Administration supervised loan programs had two major results of importance to the economy of the state.

"Loans to family farmers enabled them to make a major contribution to the well being and progress of the state's agriculture during 1963," he said.

"Capital and management assistance supplied by Farmers Home Administration to its borrowers helped them develop and enlarge their farms, operate more efficiently, and build a sound farming business.

"In addition, Farmers Home Administration loan services for the broader rural community resulted in new homes

and better rural neighborhoods in many parts of the state. These services of Farmers Home Administration were expanded in 1963. We believe they will continue to grow in line with increased emphasis of national and state leaders on rural and area development programs," Mr. Cappelman said.

Mr. Cappelman gave the following breakdown of FHA's loan programs in Texas for 1963.

A total of \$35,000,000 went to 6,755 Texas farmers to pay for equipment, feed, seed, livestock, for other farm and home

operating needs, and to refinance chattel debts, carry out forestry purposes, and develop income-producing recreational

State FFA President Visits County Chapters

By Jeanne Graham

Two young men exhibiting forthrightness and self-assurance as they work with Future Farmers of America made an official visit to Parmer County Thursday, in Farwell and Bovina. Benny Mays, 18, is state FFA president, and his companion is Mark Harbin of Levelland.

The two FFA leaders arrived in Farwell shortly before 2 p.m., took time for an interview, a brief visit with Robert "Prof." Morton and Farwell FFA president Johnny Atchinson, posed for picture, spoke to the high school students in assembly, and were on their way to Bovina by 2:30. Farwell was the seventh stop on their agenda for the day.

Mays, president of the mammoth Texas organization, is from Sulphur Springs, where he received his high school diploma last spring and is now devoting the major portion of his time to his work as state FFA president. He is also working on his American Farmer degree and plans to make application to the district in April and the area in May. He will know this summer if he achieves this goal. One boy in every 1000 receives the coveted degree, with selection based on projects and his work in FFA.

As state FFA president, he represents almost 1000 chap-

ters over the state, with approximately 400,000 boys represented in the program. He was elected to the post at state convention last summer in Lubbock, and will serve until the state convention in San Antonio in July.

The son of Mr. and Mrs. Guy Mays of Sulphur Springs, he has worked with his father, who is a dairy farmer. The family owns 280 acres and leases another 200 acres. Mays has visited 375 FFA chapters over the state this year, and hopes to visit about 200 more. His plans for the future include college, he thinks he will probably attend East Texas State College and study government and agricultural economics.

Mark Harbin, vice president for this area, is the son of Mr. and Mrs. J.B. Harbin of Levelland, and exhibits the same interest in FFA and his work. He is a student at South Plains Junior College in his home town. He and Mays work

together on personal appearances at fat stock shows and when possible, he assists the president when he is in his area. They young men had traveled to Parmer County from Muleshoe.

The state is divided into 10 FFA areas and each area elects one state officer, says "Prof." Morton. Leaders are elected at state convention. Then the president is selected from the 10 and other boys serve as vice-presidents. "We have one president and nine vice-presidents", the boys explain.

Friona and Lubbock were not on the travel agenda for this trip, Mays related, but he hopes to visit these schools in May.

Atchinson introduced Harbin at the school assembly in Farwell and Harbin in turn, introduced Mays. In his remarks, Harbin revealed that Mays was the winner of the state FFA public speaking contest and runner-up in the Farm Bureau public speaking contest, as well

as holding many honors in FFA. Mays had related that his FFA work is time consuming, but he maintains an interest in reading, politics, sports and chess.

Both officers spoke extemporaneously and lived their talks with wit.

Mays spoke seriously of the purpose of FFA, reciting the purpose from the meeting ceremony "To practice brotherhood, honor rural opportunities and responsibilities, and develop those qualities of leadership which a Future Farmer should possess."

He reminded that FFA will have a part in supplying the future farmers who will, with the population increasing, have to do more with less space as more land is needed for housing, highways and other improvements. "This is the biggest challenge of our generation," he stated, as he emphasized that young people are equal to the challenge. "If you and I are prepared to meet the challenge, the world will come out all right," he continued.

As a closing thought, he told the receptive audience that "what we are doing now and in the next few years will determine what we'll be doing the rest of our lives." He reminded listeners of individual responsibility, and recited a poem "I am but one, but I am one..."

Workshop Information

All homemakers in Parmer County, whether a member of any HD Club or not are invited and urged to attend one of the workshops, to be held in Farwell and Hub on "Use of Cleaning Equipment and Carpet Care." The workshops are sponsored by the County HD

Clubs, says Mrs. Cricket B. Taylor, Parmer County HD Agent.

Following is a complete program for the workshops: USE OF CLEANING EQUIPMENT & CARPET CARE Wednesday, February 12-- City Hall, Farwell Thursday, February 13 -- Hub Community Center

1:30 -- Introduction -- Purpose of Program -- Cricket B. Taylor

1:40 - To Buy or Not to Buy Carpet? -- Mrs. Murrell Bridges, Director of Home Service Advisors, Southwestern Public Service, Amarillo

1:55 -- Demonstration of Cleaning Equipment -- Mrs. L. W. Spitzer, District Manager, Hoover Co., Okla. City, Oklahoma

2:55 -- Coffee Break--Courtesy of Home Demonstration Clubs

3:05 - Spot Cleaning of Carpets -- Mrs. Laura Hickey, Home Advisor, Southwestern Public Service, Clovis, New Mexico

3:30 -- Research on Different Principles of Cleaning -- Mrs. Cricket B. Taylor, Home Demonstration Agent, Parmer County, Question and Answer Period.

Rhea Club Hears Program On Poverty Within The U.S.

"Poverty within the United States" was the program topic for members of Rhea HD Club when they met in the home of Mrs. Jack Patterson recently.

Mrs. Franklin Bauer opened the program by reading a poem and Mrs. Floyd Schueler directed games.

Porter Roberts, Friona, spoke to the group on supporting a bookmobile, which is a

joint effort of several groups. Plans were made for a pie supper Feb. 15, at the parish hall with the proceeds to go to the March of Dimes Drive.

Cake and coffee were served to Mmes. Floyd Schueler, Jim Dixon, Norbert Schueler, Elmo Dean, Walter Schueler, Franklin Bauer, Norman Taylor, Bill Brandt, Dwayne Ridley, members, and Mrs. Larry Gresham, a guest.

At Home In Parmer County

By CRICKET B. TAYLOR
County HD Agent

At this time of the year our thoughts are beginning to wander to the subject of planting trees & shrubs, preparing for planting of vegetables and flower gardens.

Everyone enjoys and appreciates a beautiful home that is well-landscaped with attractive surroundings.

Many errors have been made in an effort to beautify the home. This is often not recognized until too late. Trees and shrubs planted too close to the house,

tree roots causing plumbing trouble and shrubs too tall for the window, obstructing view of door and windows or planted to obstruct passage of traffic area. Random planting of trees, shrubs and flowers on the home grounds will not give the desired effect and much money and effort are lost.

The main objective in efforts to beautify our homes is to produce a beautiful picture. This simply means that all the various features which go into a landscape must show evidence of orderly arrangement.

Trees and shrubs properly located about a house is a pleasing picture and a source of enjoyment by family members as well as the pleasure the general public gets from a well landscaped home.

A house without trees, shrubs, flowers and lawn is not attractive.

Plan before Planting - is really the only safe and satisfactory way to plan a landscape. Draw a sketch on paper, showing location of house, driveways, walks, and other buildings. After a study of shrubs and basic principles of good landscaping, locating the plants on the plan, make planting easy and a safe guide to follow. Information on landscape principles, shrubs, trees, and how to develop a plan are available at my office in the courthouse. I will be glad to assist in the development of a plan for your home. Come by or call 481-3619.

Rural Families --

(Continued from Page A)

enterprises.

Farm ownership loans totaling about \$10,000,000 were used by 436 farmers to enlarge, develop, and buy farms not larger than family size, and to refinance debts, carry out forestry purposes and develop income-producing recreation enterprises.

Emergency loans amounting to an estimated \$18,000,000 were made to 3,785 farmers to assist in maintaining normal farming operations following the various emergencies in different sections of Texas such as drouth, excessive rains, storms or tornados, insect damage, etc.

Rural housing loans estimated at \$6,000,000 were made to 671 farmers and other rural residents.

Water development and soil conservation loans totaled an estimated, \$5,300,000. Most of these funds were used to install 36 rural community water systems. These systems with 3,508 connections enabled some 14,000 people to have good water that would pass Texas Health Department requirements.

In addition to the state office in Temple, Farmers Home Administration has 136 local offices serving all counties in Texas.

Grissom Completes Sprinkler Irrigation System In Parmer County

Leon Grissom, participant in the Great Plains Conservation Program, has just completed the installation of a sprinkler irrigation system on his farm located five miles south and one mile East of Bovina, Texas.

This system consists of 1955 feet of underground 150 foot head Asbestos Cement main-irrigation line, and three four inch sprinkler laterals. The system is being used to irrigate Midland Bermuda on a loose soil. The slope of the land was too steep for furrow or Border irrigation. In order to conserve water and to control erosion on the land, Leon decided on this sprinkler irrigation system and Bermuda grass.

Sprinkler Irrigation systems

are beginning to appear all over the plains. If your soil is loose or the slope of the land is more than eight inches per one hundred feet, then the sprinkler irrigation system is probably the most efficient system that

you can use. While it is true that you have to move the laterals it is also true that you have to change tubes, and check the end of the rows to make necessary adjustments in furrow stream. All things consid-

ered it takes about the same amount of time to irrigate a given piece of land regardless of what kind of system you have. One of the greatest advantages of the sprinkler irrigation system is that it eliminates

this problem of tail water. And tailwater is still our number one problem on the plains. As a well decreases in its output a sprinkler irrigation system becomes more valuable. If our water continues to decrease we must all

become more conscious of tail water and try to make this a word that they used to use in the past.

If you are having excess tailwater, silt collecting at the end of your rows, or a decrease in production, the chances are you need to have your present irrigation system overhauled.

For more information on irrigation systems or assistance on improving your present system contact your local Soil Conservation Service Technicians at Friona, Texas.

Research—Market Development—Service

FARMER-ELECTED OFFICERS guide the Research, Market Development and Service policies of the Association. With W. W. Grisham, Jr., Extension District Agent, are Association presidents, R. G. Peeler, 1956-1958, Frank Moore, 1959-1961, and Elbert Harp, 1962 to present.

Lazbuddie FFA Boys In Houston

Kirby Burch and Michael Hinkson, Lazbuddie F.F.A. Club members, will be contestants in the calf scramble at the Houston Livestock Show and Rodeo on February 29 at the 2 p.m. performance. They will see "America's Wildest Rodeo" as guests of the show at this performance.

When the Houston show held its first scramble in 1942, 24 calves were awarded. It was not dreamed that the project would result in putting some 4000 boys into the cattle business in the next 22 years.

In 1944, 112 boys scrambled for 56 calves in 5 contests. Each year the calf scramble activities increased, and more and more sponsors stepped forward.

The Calf Scramble contests became so popular with the rodeo audiences that for the past fifteen years, there has been a contest included as an event in each of the 19 rodeo performances.

During the course of one season, four hundred boys now scramble for 200 calves. Half of the calf certificates are given to boys interested in dairy cattle and the other half to those who prefer beef cattle.

When the calf scramble contestant wins, his work has just begun. With his cash certificate he purchases the best animal he can find. He must then care for the calf, furnish monthly records to the Houston Livestock Show and his sponsor, and return his animal to the show the next year.

As a result of the Calf Scramble contests, nearly a million and half dollars in livestock, cash and prizes have been put into the hands of Texas youth, giving them substantial start in business.

Review Income Tax Rules

It soon will be time to start to work on your income tax report, says Mrs. Wanda B. Meyer, home management specialist with the Agricultural Extension Service at Texas A&M University.

You may want to review some of the rules which may help you save -- if they apply in your case. Here's a checklist:

A portion of a dividend payment on stock that is designated as return of investment is not subject to tax, although it reduces the cost basis on which you figure your profit when you later sell the stock.

A mutual-fund dividend, the portion that is designated as capital gain, is taxable, in effect, at only one-half of your ordinary rate.

Capital gains allotted to you on mutual-fund shares, but not paid, have to be reported as capital gains on your return. But you can claim credit of 25 per cent of the amount as taxes you have paid, as that's the sum paid by the company.

A child who finished college in June, 1963, can be claimed as an exemption under the rule for full-time student of 19 years or over, provided you furnished more than one-half of his support for the entire year.

Scholarship payments received by a child in college aren't counted in calculating whether you furnished more than half of his support.

Social security and other tax-exempt income received by a dependent doesn't count toward the income test that has to be met for an exemption. But any such income spent by the dependent for his own support has to be included in estimating whether you furnished more than half.

Other rules to consider are: A couple married at any time during the year as late as December 31, can get the benefit of a lower rate for 1963 on a joint return; a dependent who died during the year, even the first week, can be claimed as

an exemption if you were furnishing more than half of his support; people who reached age 65 on January 1, 1963, are entitled to an extra exemption and larger medical deduction.

Seeks Texas Rural Hero

Some courageous Texan will receive the Texas Farm & Ranch Safety Council's Rural Heroism Award during the annual meeting of the Texas Safety Association March 15-18 in Dallas, according to Bob Etheredge, chairman of the Council's Awards Committee.

Etheredge is heading the search for the rural hero of the past year. Each year the Texas Farm & Ranch Safety Council presents its highest award to a deserving person who has risked personal life or injury performing an heroic act.

Farmers and ranchers, county agents, vocational agriculture teachers and other leaders of Texas rural life are urged to send in nominations for this award. The nomination should include names and addresses of persons involved, a description of the incident, along with news clippings and pictures if possible.

Deadline for entries is March 1, 1964. Send all entries to Rural Heroism Award, 3900 Barnett Street, Fort Worth 3, Texas.

If You Have FARM MACHINERY TO SELL Call Big Nick Trienen at Machinery Supply Hwy. 60 Bovina Phone 238-4861

Cleanup is one phase of corral maintenance too often neglected. Litter and debris such as discarded machinery, fallen timber, rolls of fencing, and broken feeding equipment present the threat of injury or death to animals.

Paleness, decreased appetite, loss of condition and occasionally blood in the droppings may occur in several diseases. Before starting treatment, establish the true nature of the disease because incorrect treatment can do more harm than good.

Ribbons are found in girls' hair, on packages, and on dresses. When was the last time you wore a Wildcat booster ribbon?

No Friends to Lose A good person is one with no friend to lose. Not that he doesn't have any, but he feels all he has are too valuable to lose.

FOOTSAVING EDUCATION

How Will We Find The Time?

The weak feet of many children need the wonderful exercise of running barefoot in sand. We often hear that doctors recommend this exercise in addition to corrective shoes or whatever therapy they prescribe but, when we mention it, the parents protest that they are too busy. Other parents promise but never get around to doing it.

It probably won't do much good but we suggest that if the child had a condition that required visits to the hospital three times a week would be found.

Could it be that down through the years we have acquired the idea that remedies must be distasteful or expensive to be effective?? Exercise is certainly, not distasteful to children, bless 'em, and no amount of money can buy the strengthening of weak muscles.

Irrigation Pipelines Pay For Selves

Many irrigation farmers have found that irrigation pipelines pay for themselves in a few years through savings in labor and maintenance costs alone. Additional benefits are received from water conservation, erosion control, and preventing salty land.

Irrigation pipeline prevents objectional weed growth in ditches. Fields can be irrigated in less time due to increased water carrying capacity of the pipeline and the elimination of seepage losses.

Although irrigation has been practiced for many centuries, most of the very early irrigation projects no longer exist. Some of them came to an end because water supplies failed. Many, however, had to be abandoned because the land became too salty to grow crops successfully. Poor drainage, over-irrigation and seepage all contributed to the failure of these projects. Today, these same factors are causing much irrigated land to become too salty for profitable farming.

The part that seepage from unlined canals and ditches plays in producing these effects makes it a serious agricultural problem, especially in areas which have plenty of low cost irrigation water that is high in soluble salts.

Seepage losses vary in unlined ditches depending primarily on soil permeability, the depth of water in the ditch and the depth to the water table in the soil.

How does this invisible waste called seepage affect cropland? Seepage water percolates down through the soil until it reaches an impervious layer. Over a period of time, seepage accumulation causes the water table to rise. When the soil becomes waterlogged, the water replaces oxygen, and cools the soil. Soil organisms cannot live and produce organic matter without warmth and oxygen. Without organic matter plant life cannot survive. When plant life is gone the bare soil lies exposed directly to the sun. The hot sun causes evaporation and this in turn sets up capillary action and moisture moves slowly upward carrying its burden of soluble salts.

The moisture evaporates on the surface, but the salts are left behind gradually causing productive land to become useless because of high salt content.

Of course, irrigation pipelines are not all the answers to the elimination of water

waste, salty land and poor drainage conditions, but they are a step in the right direction.

Coker

On The Farm In Farmer County

By DERYL COKER County Agent

People are certainly proud of the pheasant in the county, and I guess I've heard more remarks pertaining to pheasant than anything else, especially since we released them last fall. From now till spring is the most crucial period for pheasant, because food is very short. It would sure pay us all to feed these birds for a while, so as they will be in good shape this summer to raise chicks.

A. L. Hartzog came up with a good idea. He is using clean sodium cholate cans tied to a fence post low to the ground, filled with grain. The cans have some small holes on the side, at the bottom, and the pheasant can pick at the holes in the can and get grain. The lid is left on the can to keep grain dry and keep livestock from getting it.

This is a very good method, but if you don't have the cans, or time to fix them, just throw some grain out in a place where they stay.

A recent ruling issued by the International Revenue Service has some important implications for travel expense claims

of employees and self-employed persons. The specific notation is in TIR 537, issued on January 20, 1964. Comments relating to this ruling are taken from Tax Coordinator, Vol. No. 4, Jan. 23, 1964 as follows:

"For 1963 and on, a self-employed individual or an employee who uses a passenger car for business purposes can generally deduct his costs allocable to business use in either of two ways. For each year he can choose to deduct either (1) his specific costs of gas, oil, taxes on gas and oil, insurance, license tags and depreciation, or (2) an optional mileage deduction based on a flat 10 cents a mile on the first 15,000 miles of business travel and 7 cents over that. Parking fees and tolls are allowed in addition to the optional mileage deduction. Also, the state and local taxes on gas and oil allocable to personal use of the car are deductible as taxes by an individual who itemizes his personal deductions, even where he uses the optional mileage allowance."

Changes Noted In Screwworm Program

Highly successful eradication measures, cold weather and the need to conserve funds have prompted screwworm eradication officials to cut the production of sterile screwworm flies by 50 per cent.

An average of 70 million flies per week will be reared in the weeks ahead; production had been hovering near the 140 million per week mark during the fall. Eradication workers are confident this number will be sufficient to adequately treat those areas of Texas where native screwworms can survive the cold temperature.

The sterile flies, which are released by airplane over screwworm-infested territory, mate with native, fertile female flies, but no offspring are produced. Nearly six billion sterile flies were reared and sexually-sterilized at the huge "fly factory" near Mission last year.

Eradication officials stated that the decrease in fly production, as well as a cut-back in personnel of nearly 175 employees, was made possible by a significant reduction in the number of screwworm infestations in the past month. At the time that the decision to hold back production was made, several weeks had elapsed with no cases being reported in any of the five states in the eradication area. Authorities also said that it is important to conserve funds now to insure that money is available to initiate emergency measures that may become necessary later in the season.

During 1963, producers in 182 Texas counties reported 4,915 screwworm cases; the previous year, 49,484 cases were detected in 242 counties. While this indicates a 90 per cent decrease, officials feel reporting was so much more effective than during 1962 that an even greater degree of control may have been achieved than the totals indicate.

After decades of experimentation the American Medical Association says, solid advances in the ability to provide spare parts for the human body through organ transplantation were reported during 1963. Accomplishments in this field added up to the most exciting medical story of the year. The major gains in organ transplantation were with kidneys.

NEWS FROM THE

FARM BUREAU

BY RAYMOND EULER

It seems that those who spend your tax money are determined to banish "poverty" from all areas of the United States even if they have to try to use the same methods turned down by the "poverty stricken" wheat farmers who turned down the same program as that being promoted by the planners now. It seems rather strange that the "servants of the people" refuse to believe that these same people whom they profess to serve know so much less than the "servant" believes he does about his needs and desires.

Potato growers remember the several days they spent in Amarillo and other areas of the United States last year, testifying AGAINST potato marketing quotas until the USDA decided it was useless to try to impose them again. And now President Johnson states that it is imperative that this rejected program be imposed in the interest of abolishing poverty, not only among the producers but other rural people, as well. We suppose the attempt by the same planners to impose the minimum wage provision upon the same folks where it has been proven it is not equitable or possible to pay it, will also be presented as a weapon against poverty in this third period of unprecedented prosperity.

We do note, however, that the proposal for a cotton acreage diversion program has been declared dead by none other than USDA Secretary Orville Freeman, not by his choice, by any means, but by the refusal of congress to appropriate funds for paying for the diverted acres. This, we hope, may indicate an acceptance of the Farm Bureau plan which would attempt to pay farmers for what they produce, rather than for what they don't produce on a basis that would improve the possibility of increasing, rather than decreasing production. Reasonable market prices would be the primary foundation for this program. Although Texas Farm Bureau regrets the resignation of Organizational Director Millard Shivers, it is believed that Wayne Little, who has been in this department for twelve years or more, will make a successful replacement. John Henderson, who heads organizational and membership work, will attend a district membership meeting in Lubbock this Monday, along with other Farm Bureau leaders.

CONSIDER THIS: He that handleth a matter wisely shall find good; and whoso trusteth in the Lord, happy is he. Proverbs 16:20.

The post oak is the most widely distributed oak in Texas.

Utilization Research To Study Grain Sorghum Pigments

Research to identify pigments and related compounds that color or flavor grain sorghum and its products will be conducted by the Indiana University Foundation under contract with the U. S. Department of Agriculture, Elbert Harp, President of Grain Sorghum Producers Assn., announced this week.

The research is aimed at providing a basis for future studies on avoiding discoloration of sorghum products such as starch and on avoiding bitterness in sorghum feeds, it is part of a broad effort by

USDA's Agricultural Research Service to find new uses for farm products, Harp said, and that Bill Nelson, GSPA's Executive Vice President, had made two trips to the Industrial Utilization Research Center at Peoria, Illinois, in the past

to gain attention to grain sorghum in the overall program. This pigmentation problem was one discussed last March at the Association's Biennial Research and Utilization Conference which was attended by Dr. F. R. Sent Head of USDA's Utilization Research Program.

Under the Indiana contract, Professor Ernest Wenkert will study the isolation and characterization of pigments from varieties of milo or kaffir sorghums. He will also test the response of these pigments to bleaching and other treatments.

Earlier ARS studies by C. W. Blessin, C. H. Van Etten, and Dr. R. J. Dimler, scientists at the Northern Utilization Laboratory, Peoria, Ill., show that sorghum grain contains -- in addition to pigments -- unidentified colorless compounds that are converted to colored ones by acid. These compounds could discolor sorghum products that are expected to be white; they are also believed to cause bitterness.

Dr. Dimler will be USDA's technical representative on the project.
