REVIEWING THE BIG SPRING WEEK

BY JOE PICKLE

This is "back to church" Sunday, and a mighty good time for you to get into a mighty good habit. There never was a time when you needed the church more, nor when it needed you more.

In view of developments around Midway Island, we think it would be a fine thing if people would turn out in great numbers for the "Avenge Pearl Harbor" program at 1 p. m. today to show how they feel about this avenging that's going on right now.

These welcome bits of news (RAF bombings and Jap navy defeats) bring repeated and well taken warnings to avoid the pitfall of overconfidence. But we

He made the prediction at the close of a day-long tour of Detroit war plants on which he was accompanied by Oliver Lyttelton, British minister of production, W. Averill Harriman, lend-lease coordinator in London, and other United Nations production officials.

'Pearl Harbor Avengers' Join Up Today

1,000 Texans Due To Be Sworn In

By The Associated Press

Nearly 1,000 Texans—many of whom have never seen the sea—will join the navy Sunday to avenge Pearl Harbor.

Ceremonies in some 16 cities will enlist men as part of a nationwide drive to repay the Japs for the Dec. 7 attack.

Throughout the Lone Star state they will be sworn in at 1:25 p. m.—the hour six months ago when the Pacific base was attacked.

Six months ago most folks had finished a big Sunday dinner, were nodding in easy chairs with a newspaper in their laps and the radio going full blast.

At the same moment, but sunrise was the time of day, most sailors and marines were peacefully sleeping at Pearl Harbor, Hawaii.

In Washington, D. C., Japanese diplomats were calling on the state department, professing to seek amicable settlement of friction between the nations in the Pacific.

Everything changed in a minute. Out of the dawn called Japanese treachery at Pearl Harbor. Barracks, air fields, ships, warehouses and other military installations were bombed without warning.

Today Big Spring joins in a six-month anniversary of the infamous incident by participating in a nationwide "Avenue Pearl Harbor" program set at 1 p. m. on the courthouse lawn.

Incident by participating in a nationwide "Avenue Pearl Harbor" program set at 1 p. m. on the courthouse lawn.

Highlight will be the swearing of six men into the Navy at 1:25 p. m., the minute of the Japanese attack on Dec. 7.

Lieut. N. J. Atkins, USNR, Dallas, was to arrive this morning to administer the oath to Hamp Sneed Hanson, 200 Young street; Fount Thomas Armstrong, Midland; James Arthur Green, Fort Worth; Charles Oscar Howard, Hurst; L. Wade, and George Dewey Screws, all of Kermit.

Brief interviews over radio station KBBT will follow and they will be whisked away in the Navy station wagon to Abilene where they will join a chartered bus, bedecked with "Pearl Harbor Avenger" streamers for the beginning of their trip to their training station. Each will wear a badge declaring "I am a Pearl Harbor Avenger."

The program, arranged by E. The recruits will be grouped in 500 recruiting stations throughout the country.

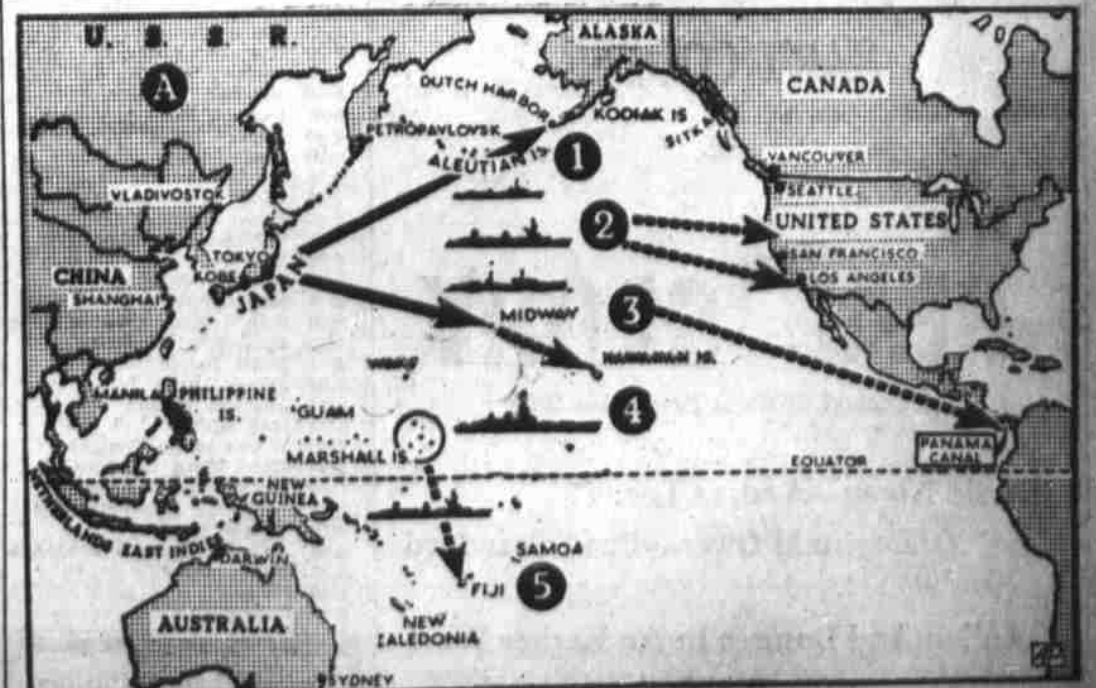

Mass Enlistment America's Answer

WASHINGTON, June 6 (AP)—Secretary of the Navy Knox declared tonight that mass enlistment of 12,226 men in the sea forces tomorrow would symbolize "this nation's grim determination to restore peace to the world by administering just punishment to those who have brutally and willfully transgressed all the laws of humanity."

Dubbed "Avengers of Pearl Harbor," the navy, marine and coast guard recruits will be sworn in simultaneously in a radio ceremony at 1:25 p. m. Central War Time—six months to the minute from the time Japanese bombers launched their raid upon Pearl Harbor.

The ceremony will be broadcast by the Columbia Broadcasting system.

The recruits will be grouped in 500 recruiting stations throughout the country.

What They Were After—Naval experts have seen the Jap attacks on Dutch Harbor and Midway (solid arrows) as indicating an attempt to conquer Alaska (dotted arrow 1) an attempt to attack United Nations bases south of Hawaii and the Japanese Marshall Islands. These bases protect the US-Australia supply route. The route of the Nipponese at Midway, however, may have blasted Tokyo's strategy.

'Jesse James' At The State

Featured attraction at the State theatre today and Monday is a western melodrama based on the life of the colorful, lawless character, "Jesse James," with Tyrone Power, Henry Fonda, Randolph Scott and Nancy Kelly in the principal roles.

This story, woven around incidents in the James fable, was filmed in Technicolor and was photographed around the original home territory of the James boys. Brian Donlevy, Henry Hull and Slim Summerville are among the supporting players.

One of the big box office attractions of the past season, the picture, in making a return showing, will afford those who missed the original screenings and opportunity to see the action melodrama. Doubtless there are others who will want to see it again.

Among many peculiar names of Missouri towns is that of Peculiar, Mo., the birthplace of Carry Nation.

Gary Cooper In Film Drama Of Philippines

Now that the Philippine Islands are of military interest again, very timely is a re-issue of "The Real Glory," which unfolds a thrilling and exciting tale of the Philippine Scouts and their heroic bravery at the conclusion of the Spanish-American war, when the islands were overrun by insurrectionists and religious fanatics.

The picture, first issued in 1939, is being given a revival showing, and is at the Lyric theatre today and Monday. Gary Cooper has the starring role, and leading parts are played by Andrea Leeds and David Niven.

The central theme of "The Real Glory" revolves around the exploits of the scouts, who became a constabulary on the island and rallied to their support loyal natives and peaceful Moros. The Moros, a tribe of unorthodox Mohammedans, had retreated to the hills and jungles of the Sulu kingdom to wage a fierce religious war against the remaining American troops.

Henry Hathaway, who directed Cooper in "Lives of a Bengal Lancer," directed "The Real Glory," and the supporting cast is headed by unique players, among them Broderick Crawford, Reginald Owen, Kay Johnson, Vladimir Sokoloff, Russell Hicks and Henry Kolker. For the first time in his career, Cooper plays the role of a doctor, who comes to this distant outpost for medical experience. He remains to help the army quell the rebellion and establish lasting peace. Miss Leeds in the role of an American visiting her father, also stays on—not to win the war, but to win a trip to the altar on the army of Gary.

For weeks a corps of 500-odd workmen, most of them, skilled craftsmen, labored to complete a replica of a regular army post in the Philippines for this Goldwyn picture, and the results are startling. The space occupied by the set comprised six acres, and 40,000 square feet of asphalt were used for a lagoon 400 feet long and six feet deep, containing 1,500,000 gallons of water. This vast body of water wasn't static for a minute for a pumping plant was set up to maintain a natural current in the stream and a six-inch head of water tumbled constantly over a six-foot waterfall.

Joe E. Brown Has A Fling With Bandits

The Wild West's a lot wilder... and funnier... now that Joe E. Brown, the screen's greatest mouthpiece, has blasted every bad man in sight—with a belly-laugh! In Columbia's "Shut My Big Mouth," which proves that the warpath is just a haw-haw path when Joe E. is concerned, the popular buffoon appears today and Monday at the Queen theatre in what is described as one of the most delightful comedies of the year.

As a flower-loving tenderfoot inadvertently appointed marshal of the appropriately named frontier town of Big Bluff, Joe E. discovers that flowers—in wreaths—are one thing there's plenty of! A range renegade named Buckskin Bill has been popping off marshals as fast as they are appointed, so the horticulturist naturally attempts to return seat as fast as his stagecoach will travel. Disguised as a woman, and with his valet posing as his "husband," Joe E. manages to make good time—just about as far as the first bend in the road. Here the coach is held up by Buckskin Bill, and the "lady" is politely escorted to the outlaw hideout where "she" is supposed to act as hostage in a kidnap plot.

The ensuing complications are many and varied, and delightful. Joe E.'s masquerade contributes greatly to the fun of the film; the ingenuities of the screen play introduce other laughs.

Supporting the hinge-jawed star is a splendid cast of veteran comics and character actors, including Victor Jory, as Buckskin Bill; Fritz Feld, as Joe's valet and "husband"; Don Beddoe, Lloyd Bridges, Forrest Tucker and Jean Woodbury. Special mention must be accorded sly-eyed Adele Mara, a brunette newcomer to the screen.

ly, it was to be assumed that the plot would avoid formula, and it definitely does. With Miss Hepburn appearing as a brilliant newspaper columnist in the title role, Tracy is sports editor on the same metropolitan daily. They clash immediately and by their very differences find interest in each other.

The girl demands in her column that baseball be abandoned for the duration of the national emergency, which brings a swift rebuttal from Tracy. Their feud is silenced only when Reginald Owen, as the managing editor, orders an armistice. In the interval of peace, a series of events arise which brings about a marriage and an inevitable clash between husband and his career wife.

George Stevens directed the picture with deft understanding. Metro-Goldwyn-Mayer surrounded the two Academy Award winning stars with a strong cast including Fay Bainter, as Miss Hepburn's aunt, herself an imposing figure in public life; Reginald Owen, as the sympathetic managing editor, and in the supporting group Minor Watada, William Bendix, Gladys Blake, Dan Tobin, Roscoe Karns and William Tannen.

The story was written by Ring Lardner, Jr., son of the late newspaperman and playwright, and Michael Kanin. They submitted it directly to Miss Hepburn, who selected it over a dozen others as the suitable vehicle for her appearance with Tracy.

THIS ANTI-AIRCRAFT GUN COSTS \$50,000

YOUR HOUSE may not be a *military* target, but bombs don't stop to inquire. Bombs don't ask your name or the names of your children, either. In this war, as in no other in history, we are *all* targets. Black-outs merge soldiers and civilians alike. "War is hell" . . . for *all* of us. And it is costly . . . for *all* of us.

Take the anti-aircraft guns that must be counted on to protect *your* home, *your* family. Did you know that just *one* costs \$50,000? Just *one*—and we need 20,000 at once . . . for the fighting front as well as the home front.

Who's going to pay the bill? Not only for the guns, but for the tanks and ships and planes our boys must have to smash the Axis?

Who? Why all of us; . . . you and I and the man next door. Because we are all in this war, and because blood and tears and sweat don't mean a thing if they do not come from *everybody*. *Everybody* must put every dime and dollar he can spare into Bonds and Stamps, even if it means going without something else . . . remembering that we are apt to go without *everything*, unless we win. Here is one sure way to turn your patriotism into action and to help win this war—go to your local bank, post office, or other official agency for *Bonds now!*

Remember you can start buying Bonds by buying Stamps for as little as 10c and that you get a \$25.00 Bond (maturity value) for only \$18.75.

The War After Six Months -- We're Getting Ahead With Job Against Axis

By DEWITT MACKENZIE
Wide World Analyst

As Uncle Sam reaches the half-way mark of his participation in the "war for survival" he has the satisfaction of knowing that he and his allies are on their way to a victory from which they needn't be diverted except by their own shortcomings.

Now I suppose that such an optimistic outlook will evoke protests from those who, while feeling that we shall win ultimately, believe that the general public should be led to view the situation as through a glass darkly. The idea is that the public will work harder if it believes we are getting a beating.

Maybe so, but this column feels that the man in the street thinks soundly enough and that best results are obtained by giving him the facts. And one fact is that we are getting ahead with our job of beating the Axis.

That doesn't mean we're out of the woods and romping home to victory. On the contrary we are on the verge of the bloodiest fighting of the whole war. We are about to measure arms with Hitler in a decisive battle which may open any day.

There are frightful dangers yet to be surmounted, and if we don't intensify our effort greatly -- if we slacken the least bit -- we may be beaten. But we definitely can win if we go all-out.

Uncle Sam's greatest individual achievement probably lies in production, that is, in starting from scratch and in six months making such great strides that on May 19 Donald Nelson, chairman of the war production board, was able to announce that the United Nations war production was "greater than the Axis' in every category."

That isn't to say we have caught up with the Axis nations, because they are profiting by years of intensive effort. It does mean that we are set to overtake them -- if we strain every nerve.

Soldiers alone cannot win this war. Men on the battle-field are helpless without material.

So upon the extent of our production depends the length of this war -- and a very long conflict will be disastrous if we "win."

Washington officials in close touch with production say the war ed out 36 big ships. Rear Admiral Howard L. Vickery, vice-chairman of the U. S. Maritime Board, says that by September we will be launching three a day and by January or February four a day.

Thus, taking things on the whole, as we enter our second semester we can go in with heads up.

America's fighting men now are in all theatres, and Lieut. General Brehon Somervell, U. S. Army supply chief, says "we can fully equip any troops we can send abroad."

Our tanks -- so vital in modern mechanized warfare -- are working for all our allies, from Australia to the smoking sands of the Libyan desert and the lonely steps of Russia. We surpassed Nazi tank production months ago.

Our warplanes are battling in all zones. They are sustaining Australia in a moment of dire peril; they have materially helped slow Japan; they are fighting for China and for Russia; they are participating in the unparalleled raids against Germany. And under Secretary of War Patterson says the United States will produce more than 50,000 planes this year -- the mark for which President Roosevelt called.

One of our great set-backs has been due to the Axis stinking of shipping but last month we turned

Change In Sugar Rules

New regulations on sugar for canning purposes have been received by the War Rationing Board, and several changes have been made concerning people who have moved into another county since registering.

The canning sugar must be applied for at the board where the applicant is registered. If a person is now living in another county he should go to his local board and give the name, serial number and county in which he was registered on all books in the family, and ask that they be transferred.

The allotment of sugar is practically the same as old regulations, which allows one pound per person for preserving and jellies, and one pound for every four quarts of fruit for canning.

New regulations set up a maximum of 24 quarts of finished fruit per person, except for people living in rural communities. They may be allowed 36 quarts per person. Any additional sugar above the maximum must be applied for on a special application and submitted to the board for action.

The local board will continue to accept and handle canning sugar applications on Monday and Friday of each week from 8 a. m. to 5 p. m. at the office in the courthouse.

DON'T Sentence your Car to SLOW DEATH!

CONSERVATION of your car during the emergency is an economic necessity. But putting your car in storage doesn't necessarily mean conservation. Your car, like a human, must have exercise to keep fit. Here's what happens when your car is not used.

- TIRES dry out, crack and rot.
- BATTERY corrodes, shorts out and becomes chemically dead.
- COOLING SYSTEM clogs up from rust and scale. Radiator corrodes, Rubber Connections rot out.
- UPHOLSTERY suffers from moth damage.
- FUEL SYSTEM becomes clogged.
- GEARS and PISTONS rust and corrode. Valves stick, Vital Parts and Rubber mountings deteriorate.

HERE IS A SANE, COMMON-SENSE APPRAISAL OF THE SITUATION

100,000 miles were built into your car. With proper care it will serve you for a long time. The average set of used tires will run 15,000 to 20,000 miles. With conservative driving, it is estimated that tires now on cars will last two or more years. By that time we are assured of ample Synthetic Rubber—a good amount by the end of this year. In the meantime, the nation's inventive genius is at work on other solutions... and never has American ingenuity failed to solve its problems.

THE SENSIBLE ANSWER, for the present, is to use your car conservatively. Drive it carefully, at moderate speeds. But USE IT! Keep it in shape through proper service and enjoy its convenience NOW. America has a battle to win on the home front. America's cars, if kept in operation, will help win this battle.

OUR SERVICE IS DEDICATED TO KEEPING YOUR CAR IN OPERATION. As Authorized Dealer we have a personal interest in your car. You also have an obligation to see that you get maximum Gas, Oil, and Tire mileage. You are entitled to no less. It is our job to see you get it. We will gladly analyze the condition of your car from a mechanical standpoint, also estimate the number of miles in your present tires. There are many suggestions we can make to enable you to conserve vital parts and get maximum mileage from both motor and tires. LET'S WORK TOGETHER TO KEEP YOUR CAR FIT.

Scrap Collection Plans Are Mapped

AUSTIN, June 6. (AP)—Coordinated plans for statewide collection of metal were announced today by the Texas salvage committee.

Executive Secretary George Butler said there were reports of much uncollected scrap materials and his group in cooperation with the Texas roadside development program and the state highway department recommended a speedup in the program.

District highway department trucks will collect materials deposited by rural residents along roadsides. The salvage committee is directing the collection of scrap from automobile graveyards. Butler urged that all Texans collect scrap and make it available to these collecting agencies or take it to a junk dealer.

Tydings Calls For Probe Of Deferment Of Govt. Employees

Privilege Has Been Abused, He Asserts

WASHINGTON, June 6 (AP)—Chairman Tydings (D-MD) of a special senate committee recommended today that the selective service system check up on draft deferments given 1,000 young male employees of the government.

At the same time, Tydings said his group, which is looking into general conditions in the executive branch, was considering holding

open hearings on the question of draft deferment because of federal employment. Commenting on the results of preliminary investigations, he said:

"On the whole the deferment privilege has been judiciously used by most agencies of the national government but the abuses we have found stick out like a sore thumb."

To illustrate his contention he cited the case of "Mr. X," 21 years old when he was appointed a year ago to a \$1,500 a year job in an unidentified department.

"Nine months later," Tydings said, "he had become such an expert in the field of 'personal procedure surveys' that he was promoted and his salary raised \$1,000 a year. Further, four months after his appointment he had become such an indispensable cog in the administration of this department that it was necessary to have him deferred, and six months later, not being able to replace this highly indispensable 21-year-old expert, it was necessary to obtain a further deferment. This was the claim of the department for which he work-

ed. "This seems to us clearly an abuse of the deferment privilege. He is not even a college graduate, which is unusual; he has never been employed other than a student before entering the government service."

Tydings said "Mr. X" was only one of 12 personnel officers who were granted deferment out of a total of 42 clerical employees in the one departmental unit.

"How the deferments of these so-called 'personal officers' can be claimed or granted, because they are indispensable, rare or scarce, is incomprehensible," he added.

"To say that the work of this group is so demanding and requires such unusual abilities is ridiculous."

Big Spring State Hospital and the W.O.W. team held their places this week at the top of the city softball standings, with both aggregations showing six victories and no defeats.

Of special interest this coming week will be the replaying of a protested game between the two leaders, which is slated for the second contest on Monday night's bill.

The church league ended its first week of play in a three-way tie, with the First Baptists, First Methodists and the North Side Baptist Mission scoring a win each and no losses.

In Friday night's game, the East Fourth Baptists forfeited to the North Side group.

At New Possum Kingdom Lake -- There's A Record On Fish-Stories

By DAVE CHEAVENS Associated Press Staff

Fish and bigger fish stories originating in fabulous Possum Kingdom lake since that body of water was opened to the public last week have so intrigued your part-time fishing correspondent that he is almost in the notion of going up to see if it's true.

Will Tucker, the executive secretary of the game, fish and oyster commission, crawled out on a big limb over the deepest water in the lake and said it was "There's no exaggeration," he asserted. "I've seen 'em hauled out one a minute at times."

The brawling old Brazos has produced many a flood of water. But the flood of fish stories it is spreading over Texas today would make the famed overflow of 99 look like a trickle.

Up around Graham, Brecken-

ridge and Mineral Wells they're not talking about the war any more. It's fish, and it's epidemic. They've got fishermen all over the state in such an itch to give Possum Kingdom a fling that they're willing even to risk their lives.

Maybe Will Tucker heard the one about the fisherman who kept pulling tail-less black bass out of the water. Maybe he didn't.

Anyway, the fisherman got tired of fishing and investigated. To find that jealous has invariably—at Possum Kingdom dam, anyway—attached the successful bidder for the privilege of striking his lure.

A sober but glassy-eyed filling station man at Jackboro said he wouldn't believe it if he hadn't seen it. He was no amateur, having been on hand at the opening of Bridgeport lake when it was the big pay-off spot, and he swore he saw one man at Possum Kingdom catch six bass on three casts—such a double.

That is supposed to happen about once in 1,775 times in ordinary fishing. A double in fishing is when you hang two bass on a multi-hooked lure. One man claimed to have caught three bass on each treble hook, fore and aft, but it could not be said that he was sober.

They tell you with a straight face that folks go out on that limit of bass, crapple and channel cats, and land the minnows they have left over to the next man waiting in line for a boat.

Those that can't rent boats fish from the bank, and also catch their limit, so they say.

Willingham Still Holds WT-NM Batting Lead

Although Hugh Willingham, Borger manager, dropped six points last week he continued to hold the West Texas-New Mexico league batting lead after five weeks of play.

Ken Wyatt, the Clovis southpaw, stands out as the best hurler in the league since no team has been able to beat him and he holds a decision over every opposing club. He has nine wins without a setback. Nevertheless, Bill Evans of Big Spring, who has pitched in a dozen less innings than Wyatt, is tied with the Pioneer sensation with 87 strikeouts.

The home run lead went to Frank Hargrove, who with Dutch Prather, Dan Moore and Bus Dorman, punctured Borger's balloon last week. Hargrove has 10 circuit drives to his credit. He also is tops in doubles with 21. Earl Harriman, Clovis shortstop, added his eighth triple to take the lead in that department.

Mel Steiner of Clovis had 18 base thefts. The runs batted in race has narrowed down almost entirely to Warren vs. Warren. Frank E. C. Nix, Jr., 75; Harold Berman, 85; Dr. O. E. Rhode, 100; Dr. W. S. Rhode, 100; A. L. McSpadden, 100.

Bombers Folding? Meeting Set Today

West Texas-New Mexico league officials have scheduled a special meeting at Amarillo today, and the Associated Press was notified that Big Spring was reported to be planning to withdraw.

The Bombers have not been drawing sufficiently at the gate to warrant their staying in the league, apparently, and for the past several days it has appeared to be only a question of time until they would cease operation.

Complete details of the meeting were not available late Saturday night, but another league team was expected to ask permission to move some sources thought it was probably Lamesa.

Looking 'Em Over

A former Big Spring baseball player apparently on his way up is Frank "Pat" Stacey, now with the Minneapolis Millers in the American Association. Stacey coached the right field pasture for the local team three years ago, and then went up to Moline in the Three-I league. After a poor season the Moline club folded at the end of the 1941 campaign. Playing with a last place club there Stacey was one of the top four hitters with a .376 average. He has not gained a regular berth at Minneapolis yet, but the Millers are holding on to him, and use him frequently as a pinch hitter.

Soon after they traded Frankie Hayes to the St. Louis Browns, the Philadelphia Athletics were faced with the prospects of losing another catcher this week, when Jim Castiglia announced that he was enlisting in the U. S. cavalry. However, they got young Bob Swift, a fair backstop, in the St. Louis deal and this Wagner led is proving somewhat a sensation. Castiglia will be remembered here as the baseman and catcher that worked behind the plate most of the game when the Athletics and Pittsburgh Pirates met in their exhibition tilt in the spring.

Davis Blanks Cubs For His Eighth Win

CHICAGO, June 6 (AP) — Curt Davis shaded Bill Lee in a tight mound duel today as he pitched the Brooklyn Dodgers to a 2-0 shutout over the Chicago Cubs for his fifth straight victory and his eighth of the season.

With the second and third place teams, St. Louis and New York, bumping into a postponement, the triumph boosted Brooklyn's National league lead to seven games.

Davis, who has lost only once this season, scattered seven hits in compiling his third shutout of the year, while Lee yielded eight blows, three of them in the second inning when the Dodgers pushed over their first run.

The Cubs got a runner to third base in the first, fifth, seventh and eighth innings but never were able to break through the Dodgers defense for a tally.

Poloists To Play At Lamesa Today

Doc Bennett, Louis Rix, Rip Smith and Lloyd Wasson are due to make the trip, to be joined by Gus White, Jr., for the afternoon's play.

Shut Out Becomes '42 Champ, Adding Belmont Stakes

NEW YORK, June 6 (AP)—Equispoiler's chocolate baby, stretch-rod Shut Out, put a strange hold on the championship of the three-year olds today by adding the ancient Belmont stakes to his Kentucky Derby triumph—and once more making Alabab "holier smolier."

Topping off a Belmont Park program from which war relief beneficiaries were to receive a half a million from home and let Al Sabath's Chicago hope share his lengths.

It was Shut Out's second "big one" this spring in races in which his great daddy never had a chance to run. Equispoiler took stik the eve of his derby in 1931 and never ran for the big money in Blue Grass classic of Belmont's mile-and-a-half grind of which today's was the 74th running. He died more than a year ago, and this spring his last son went out to represent the old man.

He did it smartly in the derby. And he had even more fun today under a smashing, heady ride by wise Eddie Arcaro, because Alabab was a 2 to 5 shot in this one and all but a few of the crowd of 29,832 customers figured "The Sab" had it in his mercy.

But Shut Out and Arcaro not only won—they did it Alabab's way. They stayed far back with Sabath's Pride and Joy through the first three quarters of a mile. When Alabab started to move up, they went right along. At the mile mark, Arcaro got Ekky' Kid on top and, holding Alabab safe all the way, just rumped in by open daylight.

A \$9-to-\$2 shot, Mrs. Payne Whitney's colt was caught in the good time of 2:29 1-5, only four-fifths off the track record in picking up a \$44,520 pay-check for this third "jewel" of the triple crown and, with his derby "salary," Shut Out boosted his bankroll for a year-and-a-half of racing to \$138,107.50.

Although the crowd was slightly under the hoped-for turn-out, the track's proceeds from the betting handle of nearly \$2,000,000, plus the "breakage," admission fees and all other intake, and minus only purses to horsemen, made it appear the war effort would benefit considerably.

Ruffing Hangs Up Record Of 250 Victories

NEW YORK, June 6 (AP)—Charley (Red) Ruffing, dean of the New York Yankees pitching staff and winner of more games than any other major league hurler reached the 250 mark today when he tossed a fancy four-hitter at the Cleveland Indians for a 5-0 shutout.

Joe Gordon helped the Yankees rightward becomes the first active pitcher to win 250 games and boosted his own hitting streak to 22 consecutive contests by driving in all the runs on a five-inning double with the bases loaded.

The victory was the sixth of the year against two defeats for Ruffing, who had won 244 games and lost 210 in 18 previous seasons with the Yankees and the Boston Red Sox.

Ruffing also leads the major league pitchers in shutouts and today's whitewashing was his second of the season and the 50th of his career, two more than the National league leader, Brooklyn's Larry French.

Lowell (Chubby) Dean, the only southpaw who holds a decision over the Yanks this year, was Ruffing's opponent and the world's champions lost no time in lagging him with his second loss against four wins.

Buddy Hassett singled with one out in the opening frame, increasing his hitting streak to 17 straight games.

Miss Laneous Notes

By MARY WEALEY

In history books and from the pulpits, some day people will tell about the years of the dizzy 30's and the terrible 40's where prosperity and peace and depression and war mingled and mingled.

Historians will have trouble separating facts from fancies and enemies from friends. Short staturesd youngsters will knit many puzzled brows over their history and economic lessons.

Living day by day in this era, it is impossible to understand many things. From the black and white of a printed page, many actions will be inconceivable, some laughable.

Some day an object lesson in what not to do will be the brain trusters orphan child—plowing under fields, paying farmers not to raise produce, and keeping prices artificially high, while children wasted and adults died of starvation within sight of plenty.

Labor's growth from an underprivileged child to a bullying man and finally to just another chastened American will be another economic miracle and wonder. Children not yet born will discuss the phenomenon of "people working and slaving with no slice of the profits."

These years will be labeled by more brain trusters as an era of upheaval and discarding of social and economic standards cherished for years. People will disagree on many things in years to come about this age of ours. On one thing they can agree—the only constant thing is change.

Cookie Sales By Girl Scouts Go Well Over Expected Total

Cookie sales by the girl scouts were over the top Saturday so officials advised as latest reports showed 3538 boxes sold by the 180 local girl scouts.

The successful sales made possible the year's budget of approximately \$150 needed by all the troops. All funds over and above the budget will remain in the treasury of the group which sold cookies above the troop quota.

Top honors so far went to Mamie Jean Meador who sold 83 boxes by herself. Nearly every troop was over its quota and two senior girl scout troops were selling boxes from booths downtown Saturday and two more senior troops will sell again next Saturday to make their quota.

The Clover Troop, led by Mrs. Elmer Lovelady, with a quota of 132 boxes reported 264 sold. The Blue Bonnet troop, led by Mrs. Virginia Warr, had a quota of 334 boxes and sold 528. The Fashion troop sold 335 boxes, Mrs. Florence McNew, leader, reported, and had a quota of 252.

Mrs. M. A. Cook's Browline troop with 180 quota sold 288 boxes and Mrs. Wayne Pearce's troop sold 205 boxes with a quota of 182. Mrs. Dan Conley's senior troop brought in orders for 70 boxes and Mrs. L. A. Coffey's senior troop 131 orders, both of which were just slightly under the quota set.

Mrs. Fred Mitchell's Beaversettes sold 290 boxes and had a quota of 180. Mrs. H. B. Culley's troop reported 100 boxes sold and Mrs. Clyde Thomas, Jr., troop had 150 boxes sold, beating their quota by 25 boxes.

The Lily of the Valley troop, led by Mrs. Durl Haynie, sold 148 boxes and passing their quota of 156 boxes. Mrs. Lee Harris' senior girl troop reported 80 boxes sold. Deliveries on cookies will be made next week by the scouts.

Bonnie Fashions A New Career

By RAY PEACOCK
Wide World Features Writer
NEW YORK — This is sort of an open letter to you folks who have been wondering how Bonnie Baker has been getting along since she and Orrin Tucker called it quits in February.

She's doing all right. She had sense enough to know she was slipping, and sense enough to find the remedy.

The seeming proof is extension of an April and May engagement at the Hurricane night club from two to four weeks, during which the club's dinner business was doubled; broken attendance records at several New England theatres.

Back to The Footlights
Before Bonnie joined Tucker's orchestra and gained an amazing fame from singing just one little song—and an old song at that—she was a solo in theatres and clubs. She's there again, in a field she likes. Being famous isn't hurting her a bit.

The song, of course, was "Oh, Johnny," sung in a shy, effortless, baby-doll way that made her everybody's kid sister. Trouble was, the song wore out.

There have been many rumors about her parting with Tucker, but Bonnie says this:

"I had done all I could with the band, and Orrin and I both decided that the right thing to do was for me to leave. I wanted a career of my own. We still are very friendly.

"Were we in love? No. You shouldn't believe everything you hear."

That being that, Bonnie was on

her own again. "But I liked it better. I knew the thing to do was break away from type. I started using more voice and varying my style to prove that I could do something besides sing in an ingenuitous voice."

She retains "My Resistance Is Low" from the baby-voiced repertoire, but only for change of pace. People still insist that she sing "Oh, Johnny" but she does it in a new swing version.

The little girl with the brown eyes, black hair and determined jaw was born in Orange, Tex., but Houston always has been her home. She had only a local fame before she went with Tucker's orchestra, and nothing much happened until they were at the Palmer House in Chicago in 1939.

Then "Oh, Johnny" was dusted off. They made a recording and it sold 600,000 copies.

Her Finances Are O. K.
Bonnie, who was earning \$50 to \$70 a week at the time, got exactly ten dollars for making the recording. She doesn't consider that outrageous. There was no way of knowing the song would knock everybody for a goal. But Tucker promoted a \$1,500 bonus for her next recording, and the money began to roll in. She has bonds and annuities, and owns her home in Houston, where she is raising carrier pigeons.

Oh, yes. There's Robert Parker of Macon, Ga., who, it seems, is a boy that I know school with. "We're not engaged or anything," Bonnie says. "We're just... well, he's my fellow in the Army, that's all."

BONNIE—four feet, ten and three-quarter inches tall with those 3-inch heels. And she's sung "Oh, Johnny" 2,000 times a year for three years.

Editorial: District Well Represented

Closing of the lists on announcements for state and district political offices shows that Texas voters will have little ballot marking to do this summer, as compared with other years. While there are considerable numbers of candidates for various state offices, in most instances there is a stand-out favorite who will have little trouble in winning. An exception, of course, is in the race for the U. S. senate.

In our own district, the people have again demonstrated their confidence in the ability of a couple of lawmakers, in accepting their candidacies without opposition. Reference is to George Mahon, the 19th congressional representative, and to Dorsey Hardeman, 1st legislative representative. We are glad that this is true. In the case of Mahon, his services in Washington in these critical times are of such importance

that there should have been no need for him to return home for campaign purposes. Steadily growing in prestige and stature in the halls of congress, Mahon is currently becoming a more valuable representative for his district, and the people are wise in seeing that he is retained. He has taken a solid and sensible view on all matters pertaining to the war effort, showing full support for the administration on its international policies, and standing foursquare against the home-front squabbles that have hampered our production program.

Mahon has the judgment and the character to see the vital war issues through to the proper conclusion, and to see that important post-war programs are handled sanely and to the people's best interests. The people's trust in him will not be misplaced.

The same can be said for Dorsey

Hardeman, who has represented us faithfully and ably at Austin. Here, too, is a man gaining standing with his fellow lawmakers, to the extent that he is being considered for speaker of the house. Hardeman has never overlooked the interests of the Big Spring area, and we may count on him to continue his interest in us. State legislation, too, is important in times like these, and we need to retain the best of our representatives. Hardeman is one of the best.

Hollywood Sights And Sounds — Jinx Falkenburg Romance Looks Mighty Interesting

By ROBBIN COONS
HOLLYWOOD — Hollywood romances, especially in springtime, are such ephemeral, cotton-candy stuff they're scarcely worth mentioning, but Cupid's aura over the home of Jinx Falkenburg is something else again.

Jinx, you know, is that pretty, healthy outdoor girl who plays tennis and models magazine covers and acts in pictures and seems to have a great time just being alive.

I dropped in at a rehearsal hall to watch Jinx watch the chorus girls go through the dance routines Jinx will have to do for "Lucky Legs." I wasn't there long before I learned about Tex, a New York gentleman of whom Jinx is very fond—so fond that she's a little coy about his complete identity. And from there we went on to Jinx's teen-age brothers, and Shirley Temple, and the resulting telephone complications in the Falkenburg ménage.

was bigger than the other from tennis.

"The medallion," she said, "is more interesting." She let me read; a combination of the names Tex and Jinx, and on the reverse a list of cryptic phrases including "revolving door," "drive-in," "macaroon," "cut!" "camellias."

I inquired if "Tex" were really Salvador Dali, the surrealist, but she said, "No, and it makes sense—really it does."

"Tex" had called long distance the other evening, but Bobby—he's 15—was on the phone. "He talked to Shirley Temple for an hour," said Jinx, "and when he finally hung up Tex's call came through. Bobby said to hurry up—he wanted to use the phone himself. I like that!"

Bobby and Tommy met Shirley at a tennis gathering up at Ojai—and between them Shirley has had plenty of telephones to answer.

So much for romance. The Jinx career is blooming, too. She's the lead in "Lucky Legs," the owner of those of the title. She's just back from a stage tour, during which she did some heavy-entertaining for service men wherever she stopped, picking up an honorary coast guard captaincy among other laurels and emblems.

"And I still have my name," she said. "All of it. They've tried to call me everything—from plain Jinx to Jinx Falkenburg to Genia Falkenburg and Gene Allen—but I'm still Jinx Falkenburg. And I've had so many people say the name has helped them remember me."

There's More Sugar, But None For You

WASHINGTON, June 6 (AP) — Sugar supplies are bulging the warehouses in some areas, but don't expect more for your sugar bowl.

Storage space has been almost exhausted in some areas. Office of Price Administration sources said. In the Midwest large industrial consumers have been using up their pre-rationing stocks, a prerequisite to getting replenishments.

In the east demand for refined sugar has been much slower than estimated, but picked up in the last week. On the west coast ships have been unloading Hawaiian sugar at a rate far higher than anticipated on the outbreak of war in the Pacific.

This might be expected to pre-empt liberalized sugar rations, but officials said emphatically that it doesn't. Total supplies are still not far out of line with their estimates, and a certain amount of stock-piling is healthy rather than otherwise.

Stanton Men To Be Inducted In Army

STANTON, June 6—The following registrants will leave June 15 for the army examination station at Lubbock: Pablo Morales, David Clark Saunders, C. B. Donnel Davenport, Daniel Morales, John Tella Atchison, Edgar Preston Reed, Enrique DeLeon, Harold Calvin Guy, Marshall Alonzo Milam, Jr., Elmond Cowan St. Clair, Claud Junior Glaspie, Elma Allen Gunn.

although there is plenty of bluster and blame about details in the program, very little of it has been aimed at Nelson and that has been far outweighed by the credit for general policies and accomplishments.

Eastman's huge job of straightening out our rapidly muddling transportation problem is really just a beginning under way, but it will move like a tornado from here on. (Gasoline rationing, from the rubber shortage, railroad congestion, the interstate bus and trucking barriers, the lack of new autos to replace those going into the bonfire, the mass movement of troops, and some thousand other major transportation ailments are forcing Eastman's job to a crisis.

Of the administration "hod carriers," nobody has stepped so far forward in these early months of war as Leon Henderson. The price administrator has the job nobody wants and the job that almost everyone agrees is the toughest in Washington today.

New also to his big job (although not to the department of justice) is Attorney General Francis Biddle. The wheels of justice grind too slowly to have raised or lowered Biddle very far in the six months since that fatal Sunday in Hawaii. But with the prosecution on saboteurs, spies, subversive enemy aliens, war contract chiselers, and what-not in his lap, Biddle will eventually have to stand or fall on a record dating virtually from December 7.

Many of the other cabinet members and men and women in key posts are doing jobs that deserve armloads of bouquets, but you can hardly call them new faces—even Guy, Marshall Alonzo Milam, Jr., Elmond Cowan St. Clair, Claud Junior Glaspie, Elma Allen Gunn. (Tomorrow: Congress.)

UNFAIR TO LOVE By Watkins E. Wright

Chapter 24
Letter From Laura
The next two days were the longest two days Kathleen Vaughan had ever spent. It seemed to her that Wednesday would never arrive—and with it her part in "Goodbye, Honey Chile!" But the day came eventually, and Kathleen lost no time jumping into her Uncle Frank's roadster and driving out to Ye Old Barn Drama House.

Fred was rehearsing the company when she arrived. She slipped into a rear seat and watched the activities upon the stage. They fascinated her. And to think, soon she would be up there rehearsing! It was too wonderful for words! After all this time, she was at last to have a part and—

"Does Ruby have to stand directly in front of me in order to speak her lines?" Paul said angrily.

"One does usually stand in front of a person to speak," said Fred.

"Oh, is that so?" said Paul. "Then the audience isn't supposed to see me at all—is that it?"

"I don't think it's particularly important that it does," said Fred. "Not during this scene. After all, what Ruby's saying to you is what's really important."

Kathleen, disturbed by the things said on the stage, and the tones used, felt a moment of dread. But she fought it off. She must remember about Paul's full face and profile—must remember when she flung herself in his arms, not to cover him up too much. If she remembered that, and a lot of other things, she had learned from watching rehearsals, she ought to get along splendidly.

Presently Fred called it a day. He jumped down from the stage, and mopped his brow. He saw Kathleen, and came over to her.

"Hello!" he said. "How about driving me out to Miss Camilla's? Now that I know where we'll find the things for the Civil War play, I'd like to let her know."

"Right now, you mean—today?" said Kathleen.

"Yes. Have you got a date or something?"

"Oh, no. I came out for my part."

Ruby and Paul joined them.

"I'm glad we're all together," said Paul. "You see, Kathleen, Ruby and I sort of run things, and since Fred directs, and you're to have a more or less important scene, we ought to have a conference."

Kathleen smiled. "Yes, Paul," she said, trying to keep the excitement out of her voice.

"Everyone says," Paul went on, "that this theatre make a mess of trying out new plays, and we want to prove them wrong. In 'Goodbye, Honey Chile!' we have an opportunity to do this."

Kathleen's eyes widened. "Not really?"

"Yes, really, my child," said Fred, bored. "Get on with what you want to say, Paul. I've got to drive out and see about that furniture I told you about."

"Let's see, where was I?" said Paul.

"You were out to prove everybody wrong about summer theatres," said Ruby.

"Oh, yes, so I was," Paul smiled at Kathleen. "Ruby and I have quite a bit invested in this venture, and if we can put on a play

that goes over big, it will mean a lot to us in our profession. We might get worthwhile offers from Broadway producers, and—well, things would pick up for us both."

"Why are you telling Kathleen all this?" Fred cut in. "Get to the point, if there is one."

"I'm trying to impress upon her how important this play really is to us all," said Paul.

"And how magnanimous you've been to permit her to play in it," said Fred. "Is that it?"

"Listen, Fred, would you mind buttoning up your lip for about five minutes?" Paul said.

"Okay! Proceed."

Paul gave his attention to Kathleen. "You see, loveliness," he continued, "what I'm trying to convey, is this: we've all got to work long and hard to make the play a hit."

"Yes, of course!" said Kathleen. "But won't it be sort of hard to do it with only a week's rehearsal? We always rehearsed at least three weeks when we put on a play in Lincoln."

"There's a slight difference, my dear," he said, "in an amateur production for home-town consumption, and a play that hopes to see the bright lights of Broadway." He patted Kathleen's hand. "You're in for a lot of hard work, Kathleen—but I know you'll make good."

"I'll try hard enough," said Kathleen. "I certainly want to prove you haven't made a mistake."

"I'm sure you will," said Paul. "And now I'll run in and get your part."

Flare-Up
"Nervous?" Fred said to Kathleen.

"A little," admitted Kathleen. "I hope you won't be too hard on me."

"He's a fiend when he starts" (See STORY, page 12)

What You Buy With WAR BONDS

The power of the greatest Navy in the world, our own two-ocean fleet, rests in large measure on its backbone—the Battleships of the Line. They displace approximately 35,000 tons and cost up to \$70,000,000. We have something like a score of these huge ships in the Atlantic and Pacific.

Eight huge battleships are under construction and more are contemplated. To finance these modern goliaths of the sea it is necessary for every American everywhere to buy more and more War Bonds. We can do it if everybody does his share. Invest at least ten percent of your income every pay day to help your country go over its Bond Quota. U. S. Treasury Department

Rodeo Profits To Go Into War Bonds

STAMFORD, June 6—The Texas Cowboy Reunion will go "all out" in the war effort in this year's event, to be held here July 2, 3 and 4, according to recent unanimous action by the board of directors.

All of the net profits from the show will be used to purchase United States War Bonds, and this, with the addition of the federal admission tax, levied this year for the first time, will contribute a neat sum toward winning the war, if attendance is comparable with reunions of past years.

Full speed ahead was the decision of the directors and all committee members, after completing details for their divisions with the aim of giving a bigger show this year than ever before.

The reunion, inaugurated in 1930 for the purpose of keeping alive the memories and traditions of the Old West, is a non-profit organization and not a penny has ever been paid in dividends to stockholders during the dozen years of its existence. All the profits have been used for maintenance, improvements and additions to the buildings and grounds.

Eggs Marketed On Cooperative Basis

Cooperative marketing of Howard county's best quality eggs has started on a small scale here.

Eight egg producers are offering their product in 4-H club egg boxes through local grocers. Each egg is stamped "Quality Eggs—Guaranteed," and each carton contains a folder giving recipes for the use of eggs.

All eggs are of finest quality and size, guaranteed to weigh 24 ounces per dozen.

Plan is to convince the buying public of the superior quality of these eggs, so that they will have a ready market.

Poultry Clinic To Be Held Wednesday

Howard county poultry raisers are urged to bring ailing birds to the county courthouse Wednesday for a poultry clinic, to be directed by Dr. W. A. Boney, poultry veterinarian of the A. & M. extension service.

The clinic will be held from 10:45 a. m. until noon. Preceding this, a discussion of poultry management will be conducted by H. H. Weatherby of the extension service, beginning at 9 a. m.

There will be another meeting for 4-H club boys, under direction of J. W. Fotts, assistant state 4-H club leader.

County's Crop Outlook Good

Crop conditions in Howard county have been improving continually through the spring, and at present are probably better than ever before, County Agent O. P. Griffin said Saturday.

Rains have been general, insuring a good season in the ground for the entire county, and pastures have never been better.

There are a few weedy cotton fields over the county, but their condition is not so bad that it cannot be taken care of.

The last feed crops are now being planted under very favorable conditions.

The insect situation is decidedly better than it was a year ago. Especially noticeable is the scarcity of the cotton flea hopper.

The Week

Continued From Page 1

Flag Week starts Monday in accordance with a proclamation by Mayor G. C. Dunham.

The only danger of raising the base army pay is that the figure will be so attractive by comparison that the army will find itself with far too many ex-newspaper men.

At the farm anti-inflation meeting here Friday it was brought out that the \$22 increase in the annual food bill of an average family since Pearl Harbor, only \$2 went into the hands of the farmer.

New air raid warden classes start this week, and all who have volunteered or who can help with this sort of service should make it a point to take the training.

The house ways and means committee has voted tentatively to lower individual income tax exemptions from \$1,500 to \$1,200 for married persons and from \$750 to \$500 for single persons.

The housing situation is becoming so acute here that we look for someone in authority to plea for all who can to convert extra space in their homes to bedrooms or better still to small apartments.

Don't know what the tests will show from a scientific point, but steers from the U. S. Experiment Farm feeding lots last week topped the market at Fort Worth and some drug down \$12.80.

Cut Out This Chart For Wartime Sugar Rationing

The following table gives the sweetening power of different syrups, of honey and of maple sugar, as compared with refined. The calculations are based on sweetness equal to one cup of refined white sugar:

MAPLE SUGAR	1 CUP
MAPLE SYRUP	1 CUP
HONEY	1 1/2 CUPS
SORGHUM SYRUP	1 1/2 CUPS
CANE SYRUP	2 CUPS
CORN SYRUP	2 CUPS

Other thrift hints to remember are serve fresh and cooked fruits often; they are a rich source of sweetness. Also, next time try a pinch of salt to increase the sweetening power of sugar in cooked food. Be sure all sugar is completely dissolved to get its full sweetness.
