# New Legislation Will Affect School Here

★★

## Soil Moisture Measurement Test Conducted

In a continuing effort to help conserve water and land, Warren Givens of the local Blackwater Valley Soil and Water Conservation District, along with Dan Blackstock, a soil scientist from the Lubbock area office, have been conducting water tests to the south and west of Muleshoe on the Young farm.

Givens explained that the test, using a Soil Infiltration Monitoring Meter, was set up to check the density of the plow pan under crops in a field.

Three different monitors are used, and the monitors are moved at least one time during the testing period to check the hard pan beneath the crop.

In the cotton field tested this week, Givens showed where the three monitors are used to get an average penetration of the water which is released into the ground by a timer. Graphs are automatically drawn to show when the water was released and how deep it penetrates into the soil, creating a base for the roots of the crops.

"Basically," he said, "what we are doing is measuring to see how the plow pan affects moisture intake."

With a variety of soils, and different farming methods being used, such as no-till farming which is becoming more and more popular in order to save energy cost, and cut down on evaporation of water, the soil moisture tests, its absorption and what is happening to rainfall and irrigation is beginning to play more and more an important part to the producers, he explained.

Other methods being tested at this time include furrow diking, which is comparable to miniature terracing and conducting neutron tube testing.

SOIL MOISTURE MONITOR TESTING—Warren Givens of the Blackwater Valley Soil and Water Conservation District is shown checking some of the equipment being used to monitor the absorption of moisture into soil on a farm to the south and west of Muleshoe. Plow pan density is affecting the rate of absorption, he explained, along with the amount of moisture being able to penetrate beyond the roots of the young crops.

## Tax Checks Reflecting Increase

State Comptroller Bob Bullock Friday sent checks totaling \$55.3 million in local sales tax payments to the 988 cities that levy the one percent city sales tax.

"We've sent Texas cities nearly half a billion dollars this year," Bullock said. "That's more than 17 percent over what these cities had received by this time last year. Every one of the 20 biggest sales tax cities is ahead of last year's totals."

This period, Muleshoe received a payment of \$11,846.00, an increase of \$2,662.12 over the

same period last year. The city reflects an increase of 1.30 percent over last year with \$112,596.02 received in tax rebates this year, compared to \$111,146.43 for the same period of time last year.

Morton, in Cochran County, received a check in this amount of \$3,999.09 for this period, compared to \$1,700.07 for the same time last year, for a difference of \$2,298.39. For the year, Cochran County reflects a 21.33 percent increase over tax rebate figures since this time last year. Their payments are \$27,360.22 to date, compared to \$22,550.76 for the same time last year.

For Littlefield, the tax rebate check increase is 13.90 percent for the year. Their payment for this period was \$17,802.68 compared to the \$10,369.96 received during the same period last year. To date this year, Littlefield has received \$152,738.85, compared to the \$134,094.21 they had received during the same period last year.

Friona, located in Parmer County, reflects a difference of \$2,681.64 in the tax rebate check received this period over the same time last year. Friona's rebate check for this period was \$6,687.08, compared to the \$4,005.44 for the same time last year. To date this year, Friona shows a 13.28 percent increase with \$57,082.56 returned to the city coffers compared to the \$50,388.81 during the same period last year.

Houston's check totaled \$9.4 million, pushing the total Houston payment for 1984 to more than \$82.1 million. Dallas

received \$6.8 million, putting 1984 payments to date at nearly 20 percent above 1983.

San Antonio's \$3.1 million check brought its yearly total to \$26.9 million, up \$4 million over the total one year ago. Austin received \$2.6 million, pushing its 1984 total 31 percent ahead of last year.

## Runners Sought For Celebration Set At Olton

Running enthusiasts are invited to compete in the athletic competition of the Fifth Annual Sandhills Celebration slated Aug. 4 in Olton.

The pioneer reunion event will include a one-mile fun run and five kilometer race as part of the five day celebration Aug. 1-5.

Men's and women's division will be offered in both competitions with age categories set at 18 years and under; 19-29; 30-39; and 40 and older. Entry fee is \$4 per person for the one-mile fun run; \$6 for the five kilometer race.

Competition in the fun run will begin at 8:30 a.m.; in the kilometer race, 9 a.m. Presentation of medals for winners will be made in a 9:45 ceremony.

For additional details contact Jackie Clark, 285-2648, or Joe Cearley, 285-2313, or by writing Chamber of Commerce and Agriculture, P.O. Box 487, Olton, Tx. 79064.

## Muleshoe City-Wide Clean-Up Is Urged

It is summer time, which means it is vacation time. The Muleshoe Chamber of Commerce and Agriculture, along with numerous private citizens, are urging an entire city-wide clean up.

As the many summer travelers approach the city, the first impression they are likely to get of the city will be their lasting impression, according to one person who contacted The Journal.

"We need to urge all businessmen to cut the weeds around their property," she said. "With all the rain we have had recently, it really is beginning to look bad, with the tall weeds all up and down American Boulevard."

In fact, there are many youngsters registered with the Youth Employment Services,

YES, who would probably be more than willing to get out with their hoes, rakes and wheelbarrows to help clean up the highways and private property around Muleshoe.

Y.E.S. can be contacted between the hours of 1-5:30 or 6 p.m. by calling 272-3002. These youth want to work, they need to work, and you will be pleased with their work.

Toni Eagle, manager of the Muleshoe CofC, has added her voice to those who are asking that the city be cleaned up. "We want people to see our best side when they drive through town," she commented, "and I hope everyone will be out cutting weeds, and cleaning up their property."

Join the city-wide clean-up, fix up campaign and help make Muleshoe 'A Proud City.'

## No Significant Tax Increase Is Expected

During the regular meeting of the Muleshoe Independent School District Board of Trustees last Monday night, several informational reports were given members.

Superintendent H. John Fuller told trustees "that because of the strong local tax effort being made by Muleshoe ISD and because the MISD is classified as a poor school district (regarding tax base, for instance, MISD has no oil wells, gas wells or excessive amount of industry) Muleshoe ISD will receive a greater portion of state aid than other school districts of similar size and wealth."

He said, "Wealthier school districts and those making substantial local effort will receive only a small portion of new monies allocated by the legislature."

Fuller also pointed out several changes that will be made including a reduction of class sizes over the next five years, a pre-kindergarten for eligible four year olds beginning in 85-86, competency testing for teachers, and competency tests for students.

He added that new legislation also includes pay raises for professional staff members by a minimum of \$1700 for each staff member. Beginning teachers salaries will be raised from a minimum of \$11,110 to \$15,200.

In addition to this, Fuller said a four tier career ladder which awards outstanding teachers increments of \$2,000, to \$4,000 and \$6,000, respectively, annually upon recommendations of an evaluation team and approval by the local board.

Fuller also stated that preliminary information received from the state indicates that Muleshoe ISD will not have to increase local taxes significantly in implementing the new legislation. This is due to the fact that Muleshoe ISD has already implemented several of the items specified in the bill including annual testing of students at all grade levels with a nationally norm test and low student-teacher ratio in grades K-2.

According to the Superintendent, interpretations will have to be made on several items in the bill and that following these

interpretations, a more complete report will be made to the board and to local citizens. A copy of the bill is in the superintendent's office and he said interested persons can look at the new law between the hours of 8 a.m. and 4 p.m.

During the meeting, resignations were accepted from Rosalind Stapleton, diagnostician; Charles Brewer, fifth grade; Pat Brewer, kindergarten; DeAnn Hallford, junior high and Toni Eagle, DeShazo.

Contracts were given new personnel, including Dickie Reedy, DeShazo Special Education; Virginia Reedy, Junior High Special Education; Barbara Turner, DeShazo Elementary, Fifth grade; Bobby Turner, High School Head Track Coach; Anita Boyd, Dillman

Con't Page 8, Col. 1

## City Rabies Clinic To Be Conducted Here Thursday

The City of Muleshoe's annual Rabies Clinic is scheduled for Thursday, July 19, 2-5 p.m. at the Muleshoe Fire Department located at 214 E. Avenue B.

Dr. Jerry Gleason will be administering shots for dogs and cats during the afternoon.

Della Snell said rabies shots will cost \$6 and the city tags will be \$1 per pet.

## Baptist Church Kid's Day Camp Is Coming Soon

Muleshoe's First Baptist Church will conduct a Day Camp on Tuesday, July 24, for all children, ages four years through sixth grade.

The camp will be conducted from 9 a.m. to 3 p.m. and a hot dog lunch will be provided.

RON MONTGOMERY

## Ron Montgomery Named Manager Local SPS Office

Effective tomorrow, Monday, The local office of Southwestern Public Service Company will have a new manager. Dave Cavitt, who had served as manager of the local for several years, transferred to Guyton, Okla. earlier this month.

Ron Montgomery, who is currently serving as manager of the Sudan SPS office will assume his duties at the Muleshoe office this week.

A native of Plainview, Montgomery has been with SPS for the past 19 years in Lubbock, Dimmitt, and Sudan before coming here.

He and his wife, Mickey, plan to move to Muleshoe in the near future, as soon as housing can be obtained.

He is active with the Sudan Lions Club and they attend the First Baptist Church in Sudan.

## Final Certification Date Has Arrived

Danny Noble, County Executive Director for the ASCS office said this week, "Don't forget! The final date to certify or request aerial measurement service for spring seeded crops and ACR is July 16.

"A complete acreage report must be filed, including all program crops; sunflowers, soybeans, alfalfa, vegetables, and other crops by this deadline.

"An accurate certification is

very important," he stressed, "so don't guess. The reported acreage cannot differ from the measured acreage by more than the larger of 1.0 acre or five percent or the commodity is ineligible for program benefits."

**FAILED ACRES**  
If you have failed cotton, grain sorghum, or corn acres, be sure to report them to the ASCS office before you destroy the crop. Noble said failure to report these acres will result in the loss of history credit and/or yield.

**MAINTENANCE ACR**  
Noble continued, "We are sure that you get tired of hearing the same old story, but it is very important.

"The ACR land MUST be kept from wind and water erosion, free of weeds, and farmed in a workmanlike manner. Some spot checks have been made and county wide it looks pretty good. On the other hand, some fields are starting to look a little wooly.

"Should the acres NOT be properly maintained, you will be ineligible for ANY program benefits."

**1984 LOAN RATES**  
The 1984 Loan rate for Bailey County has been established for the following commodities: rye, wheat, \$3.29 bu.; barley, \$2.11 bu.; oats, \$1.50 bu.; corn \$2.72 bu. and grain sorghum, \$4.40 cwt.

**PROVEN YIELD**  
According to the local ASC director, in order to prove your farm's yield for the 1985 program year, turn in proof of production when harvest is completed in 1984.

**INTEREST RATE**  
The Loan interest rate for July is 12.0 percent.

Noble concluded with the

Con't Page 8, Col. 1

## Local Pioneers To Be Honored During Festival

In an effort to provide something for all ages to enjoy, Jeff Smith, coordinator of the annual Mule Day Festival, has named Clea Williams to coordinate a Muleshoe Pioneer Celebration.

They are encouraging all pioneers, and older citizens, to plan to attend the Muleshoe Pioneer Celebration at 10:30 a.m. immediately following the parade in downtown Muleshoe.

Williams said the Pioneer Celebration will be on the patio at Jeff Smith's home, located next to the barn two miles east and one half mile south where most activities will be conducted.

Special guests will be recognized and several prizes will be awarded, according to the coordinators.

Also, some of the citizens may enjoy staying for the noon barbecue, followed by the Old Fiddler's Contest, the mule rodeo, and entertainment by Chubby and the Comancheros.

Make your plans to attend the Muleshoe Pioneer Celebration on Saturday, August 11, during the Mule Day Festival.

## Sidedress Applications Fertilizers In Cotton

The recent rains and generally favorable growing conditions continue to improve the prospects for the 1984 cotton crop on the Texas High Plains. As a result, many producers are considering sidedress applications of fertilizers to either supplement what's already been applied or to replace nutrients lost through leaching by rainfall.

Typically, it takes about 40 pounds of nitrogen (N) and 20 pounds of phosphorus (P2O5) to produce a bale of cotton. In most area soils, sufficient nitrogen is mineralized from organic matter to produce about 200 to 250 pounds of lint per acre. If yield goals are above this production level, additional nitrogen will have to be added either through irrigation water or as a sidedress treatment.

Hence, if no fertilizer has been applied and the yield goal is a bale per acre, a producer would need to apply approximately 30 units of N to supplement that being supplied by the soil. If the yield goal is 1.25 to 1.5 bales per acre, than an additional 45 to 60 units of N would be required.

Nitrate-nitrogen (the form most available to plants) is not strongly absorbed in the soil and, therefore, is subject to leaching in the sandy land areas. Generally, if rainfall amounts exceeded 2 to 3 inches, some nitrogen losses probably occurred and application of additional nitrogen should be considered. Leaching of nitrogen can also occur on heavier textured (loam to sandy clay loam) soils. Soil tests can be used to check the nitrogen levels in these soils.

In some states, growers have been able to utilize petiole testing as a means of determining late season nitrogen requirements. This technique was evaluated on the High Plains, first in a 2-year study by the

Texas Agricultural Experiment Station researchers in the early 1970's and again in the early 1980's in field trials that were conducted by the Extension Service and supported by Cotton Incorporated.

In both studies, it was demonstrated that environmental variables greatly influence the nitrate-nitrogen levels in cotton petioles, regardless of the amount of nitrogen applied to the crop. Consequently, this limits the utility of petiole analysis as a diagnostic tool for recommending late season nitrogen applications to cotton.

Phosphorus may also be limiting in some area fields. Since cotton generally fails to exhibit any foliar symptoms of phosphorus deficiency, a soil test is usually required to detect and confirm problems with this nutrient. Unlike nitrogen, this element is not subject to leaching and residual levels readily carry over from one cropping season to the next.

Consequently, if phosphorus was applied prior to planting of the current crop, additional applications are not likely to be warranted. Likewise, if the previous crop was fertilized with phosphorus, a response from sidedress applications to the present crop is unlikely.

On the other hand, if soil phosphorus levels are known to be low, sidedress applications are warranted and may provide to be profitable. Generally, banding 20 to 30 pounds of P2O5 per acre should be adequate to meet this year's crop needs.

Cotton has its heaviest plant nutrient requirement while actively fruiting. When practical, sidedress fertilizers should be applied prior to the time cotton starts to square and certainly before it begins to bloom. Sidedress applications of fertilizers after the bloom stage are usually not profitable.

To minimize root damage, sidedress fertilizers should be knifed or chiseled into the middle of the furrow, 18 to 20-inches away from the plants. Placing the fertilizer closer to the plants often results in excessive root pruning which not only tends to "shock" the plants but also makes them more vulnerable to attack by soil borne diseases.

Placing the fertilizers at least 4 to 6-inches deep in the soil will position the nutrients in moist soil where root penetration and development is possible. This is especially important when phosphorus is being applied; since this element moves very little in the soil, it must be placed in the active

root zone to be available to plants.

In areas with sprinkler irrigation, nitrogen can be applied through the irrigation water. Nitrogen is used most efficiently when the total amount to be applied is divided among two or three irrigations applied between the early squaring and peak bloom stages of development.

Foliar applications of fertilizers can also be made. However, the quantities of nutrients applied in these treatments are generally too low to result in substantial yield increases. Generally, foliar applications are best suited for correcting deficiencies of micro-nutrients such as zinc.

## Three Way Grad Elected To Play All-Star Game

Brad Stegall, son of Mr. and Mrs. Frank Stegall of Goodland, was recently selected to play in the annual East-West All-Star Basketball game in Stephenville.

He will represent the West All-Stars.

Brad is a 1984 graduate of Three Way High School. He averaged 18.9 points per game at Three Way with 11 rebounds per game. The game will be played July 21 at Tarleton State College.

Brad plans to attend South Plains College in the fall.

## Time To Treat For Grubs

Cattle grubs are undercover workers--all their damage is unseen, yet they cause greater economic losses to the U.S. beef cattle industry than any other insect pest.

While grubs are usually found on the backs of infested animals during the winter months, that's not the time for

control measures since the pests have already done their damage.

Grubs are the larvae of worm stage of heel flies, and adult heel flies are currently active over most of the state, says Spencer Tanksley, county agent with the Texas Agricultural Extension Service, the Texas A&M University System.

The time to control grubs is during the period of May through August when they are small and before infested animals suffer stress, weight loss and decreased feed efficiency, Tanksley points out.

Heel flies cannot sting, have no mouth parts and cause no pain to cattle. Yet, they frighten animals, making them difficult to manage.

Heel flies lay their eggs on an animal's hairs in the stomach and leg region, glued in position. Tiny larvae hatch in a few days, crawl down to the base of the hair and burrow into the animal's skin, explains Tanksley.

Then they begin a migratory course through the animal's body, congregating in the throat after a few months, and after six to eight months, appear in the grub stage in the animal's back.

If a producer has a history of grubs in his cattle herd, Tanksley recommends treating each animal over three months of age with one application of an approved systemic insecticide during the May through August period.

Systemic insecticides are absorbed directly through the animal's skin, circulate throughout the body, and kill grubs while they are small, says Tanksley.

## Letter To The Editor

(editor's note: The following correspondence was received recently by the Muleshoe Chamber of Commerce and Agriculture. If you have any knowledge of Tom L. Young, please notify the CoC in Muleshoe, or the newspaper.) Dear Sirs: Do you have any record of a barber shop in Muleshoe, operated by a Tom L. Young in about 1935-38? Any particulars you can furnish will help.

Thank you,  
Sincerely,  
Larry A. Shelley  
Chamber Manager

If some other agency in Muleshoe is more likely to have such data, would you please give them this note?

Larry A. Shelley  
2319 N. W. 75th  
Lawton, OK 73505  
Dear Mr. Shelley:

We are currently searching our library data and news paper files for information on Tom L. Young.

If you could give us more definite dates it would help.

Sincerely,  
Toni Eagle  
Chamber Manager

Here's a brief explanation for our interest. In about 1917, Tom L. Young disappeared from Clifton, TX. Some thought robbers killed him; others thought he had conflict with a sister-in-law. Recently, one of his nephews told me that in, I believe he said 1936, while he was in a CCC camp near Muleshoe, he went into a barber shop which had "Tom L. Young" over the door. The man, he said, looked and acted like an uncle whom he knew. The young cousin had not known Tom L. Being Young, he did not pursue the connection and only recently told me. We want to know whether any descendants are still living who would know of the connection. The disappearance of "Uncle Tom" is still an occurrence which still troubles the family members. This seems a clue worth tracing.

Thank you for any help,  
Larry A. Shelley

## MOTEL Management Couple For Heritage House Inn

The new Heritage House Inn will be opening soon in Muleshoe, Texas and we are looking for a husband/wife couple to manage the property. If you enjoy meeting and working with people and are dedicated to your success and ours, we'd like to talk with you.

To qualify, you should have a flair for dealing with people and great enthusiasm. Experience is a plus, but not a must. For more information concerning this opportunity - contact American Heritage Co.

# Lubbock Experiment Station Plays Key Role In Sorghum

## Development

Significant roots of progress in grain sorghum research have been made at the Texas Agricultural Experiment Station (TAES) at Lubbock. Research results are being noted as the station celebrates 75 years of service to the citizens of the Southern High Plains.

As only one of the facets of agriculture researched at the center, grain sorghum studies continue as scientists work to improve and develop all aspects of sorghum. "Today, the total sorghum research effort at the TAES easily ranks number two," said D.T. Rosenow, professor of plant breeding and genetics at the Lubbock Center.

Grain sorghum research became a major activity at the Lubbock research center in 1915. "We had varieties and strains from Kansas and Oklahoma's plant breeding programs, but they were not really adapted to this area," said Frank Gaines, sorghum breeder at the Lubbock station for 50 years. R.E. Karper, superintendent at the center from 1915-1925 led the breeding program; producing suitable sorghums bred to meet the area's needs.

A plant breeding program in 1916 involving the "re-curling of milo" was one of the station's first projects. This research resulted in a variety with an erect head and less loss by seed shattering.

When sorghum research was begun at the TAES, sorghum crops were hand harvested. "As wheat combines took over the harvesting of wheat, it became obvious to harvest sorghum crops with a combine," said Roy Quinby, professor emeritus of plant breeding.

Another early breeding program was the shortening of sorghum. Farmers first began to shorten sorghum themselves through plant selection and developed the double dwarf sorghum, Rosenow said. "The breeding program to shorten sorghum developed the combine types in the 1930's," he

said.

In 1923, Gaines discovered the original sorghum kafir plant growing in a test block at the station. This kafir plant had an erect head, was ideal for combining and when crossed with other grain types, it produced a suitable plant for combine harvesting. Gaines made the first breeding cross in 1924. "This plant was crossed with conventional varieties of sorghum to incorporate the combine type plant with other grain varieties," Gaines said.

The year 1936 brought the distribution of the first combine type sorghum. "We developed a plant to fit machine, whereas they told us they couldn't build

a machine to fit the plant," Gaines said.

Although distributed in the late '30's, combine varieties did not become popular until the 1940's. "The labor shortage in the '40's shifted the harvesting from hand to mechanical," Rosenow said.

After 15 years of plant breeding and selection, the Lubbock TAES is credited with the early development of several combine sorghum varieties. Those include Plainsman, Caprock, Combine 7078, Combine Kafir, Redbine 60 and Redbine 66. These varieties offered a selection that were shorter, earlier maturing, and suitable for mechanical harvesting.

The genetic process for grain sorghum hybrid production was discovered in 1953 by J.C.

Stephens, a USDA plant breeder, at the Chillicothe TAES; and 1957 brought the first hybrid production. "Probably the world's largest breeding program with hybrids was in Karper's nursery at the Lubbock experiment station," Rosenow said. The station is credited with some of the first hybrids released and used commercially.

"Karper's breeding lines provided all parental materials used in the first sorghum hybrids," Rosenow said. "This development is shared by the TAES centers at Lubbock and Chillicothe and the people involved." Some of the original breeding lines are still being used today in hybrid development, Rosenow said.

Research on grain sorghum with a yellow endosperm was a project of the early 1950's. "The idea was to make a yellow sorghum to compete with yellow corn," Rosenow said. A yellow endosperm would provide improved feed quality. These lines were used extensively in the late '60's.

A grain sorghum conversion

program was initiated at the Lubbock Center in 1963. The program was aimed at changing exotic sorghums of varying characteristics to that suitable for high plains agricultural conditions. In 1970, converted sorghum lines were available for use in temperate zones. Facets of the conversion program also include disease and insect resistant sorghums and improved grain quality.

"The conversion program has had a very positive effect of sorghums now used commercially," Rosenow said. "New commercial hybrids can be traced back to the conversion program." He said 75 percent

of the material used in hybrid breeding comes from the Lubbock Center.

Recent research includes green bug resistant sorghums. Green bug resistant materials were released in 1971 by scientists at Lubbock. All information concerning this comes from the Lubbock research, Rosenow said.

Disease resistant and mild resistant sorghums are also recent projects with germ plasm sources for this research coming from the conversion program. In 1974 a mild resistant variety was released.

## Feeling Good Means Being 'Health-Wise'

Feeling good physically and emotionally is an important part of a productive and enjoyable life. But people do not always do what they should to achieve good health in these areas.

Unfortunately, it often takes an illness or other health problem to motivate a person to become "health-wise," according to the Texas Medical Association.

This term means learning how to prevent disease as well as to promote health. The key is maintaining a healthy lifestyle by focusing on areas such as exercise, stress, smoking, alcohol, weight control, medication, and accident prevention.

"Once you identify the risks you are taking, you can work to reduce or eliminate them," says a TMA pamphlet titled "Feeling Good Means Being Health-Wise." It offers these suggestions on reducing health risks:

**Alcohol:** Frequent excessive drinking can lead to alcoholism, heart disease, cirrhosis of the liver, and accidents. When drinking alcohol, sip it slowly, and eat something before you drink. If you are upset or lonely, seek out a friend rather than drink. Eating: Being overweight can lead to such problems as heart attacks, high blood pressure, and diabetes. To help avoid overeating, eat slowly and eat less at meals. If you eat between meals, snack on low-calorie foods like fruits and vegetables. Avoid crash diets, and cut back on junk foods.

**Smoking:** Don't. **Stress:** Prolonged stress can lead to both mental and physical ills. Stress can come from job pressures, responsibilities at home, or troubles with friends and family. To relieve stress, find time to relax, whether it's reading a book, exercising, or doing nothing.

**Medication:** Avoid mixing drugs-prescription or over-the-counter-unless your doctor says it is safe. Never mix drugs with alcohol.

To obtain a copy of this pamphlet and seven others in the TMA HealthWise Series, call 512 477-6704 or write to the Texas Medical Association, Communication Department, 1801 N. Lamar Blvd., Austin 78701.

**LIBRARY AWARDS PRESENTED**—Several of the top 20 readers in the summer reading program at the Muleshoe Public Library were on hand Wednesday morning to receive their prizes. Pictured from left, back row are Jason Harmon, Jeremy Carpenter, Celia Villalobos, Angie Krey and Galin Latham. Front row, from left are Bea Foster, Heather Villalobos, John Richerson, Thomas Watson, Ted Villalobos and Audra Lee.

# Summer Reading Club 'Top' Readers Rewarded

Award and Recognition Day was held Wednesday morning for the "Magical Mysteries" Summer Reading Club at the Muleshoe Area Public Library.

Seventy one boys and girls received awards for reading 13 books or more during this six-weeks fun reading club. Those boys and girls who were unable to be present for the awards are asked by Librarian Anne Camp to pick them up at the Library any time they wish.

Mrs. Camp said that by popular request the movie "Hardware Wars" was shown, along with a Walt Disney special movie.

Shawna Delaney won the Riddle Word Puzzle contest, and received a prize. A name was drawn by Colby Latham for the grand prize in the Mystery Box, and the lucky winner was Jackie Thomas, who had read 13 books. This was a set of Read-along tapes and books, and was a prize that every boy and girl who reached their goal had a chance to win, explained the librarian. All awards and prizes were furnished by the Friends of the Library.

Mrs. Camp said this award program was the conclusion of the 20th Summer Reading Club for boys and girls sponsored jointly by the Muleshoe Area Public Library and the Texas State Library (who furnished much of the materials), to encourage boys and girls to include reading along with other summer activities.

First through fourth grade winners included Bea Foster, first with 147 books; Jarah Redwine, second with 104; Heather Villalobos, 89; Amanda Ashford, 78; John Richerson, 63; Justin Gardner, 61; Thomas Watson, 61; Ted Villalobos, 54; Julie McDonald, 53 and Audra Lee, 50.

Also, Jeanne Cox, 47; Mike Garcia, 39; Sherry Hood, Teresa Hood and April Hugg, 36 each; Donna Puckett, 32;

Americo Aguirre and Brian Rasco, each 29; Lindsay Krey and Shannon Sisco, each 28; Shawna Delaney, 27; Amy Hood, Erin Jones, Michelle Martinez, Keith Row, Tracie Row, Brooke Sinclair and Francisco Torres, each 25; Jodi Foster, Rebecca Green Stacie Harris, Lori Hodges, Lance Latham, Jason Ziegenfuss and Colin Zwickey, each 25; and Rae McGuire, 24.

And, Nathan Noble, 20; Jo-Anna Anzaldua and David Lutz, each 18; Emily Bomer, 14; and reading 13 books were Libby Anguino, Joshua Brown, Mason Conklin, Angela Guzman, Robin Hovland, Stacey Langfitt, Kit Layman, Leah Martinez, Scott Miramontes, Filmon Olivarez, Jackie Thomas, Jody Thomas, Felicia Villarreal, Allissa Wilson and Carissa Buie.

Jason Harmon was first in the fifth grade and up division with 114 books, with Amy Foster second at 101 books. Others included Jeremy Car-

penfer, 74; Lisa Torres, 50; Bertha Torres, 43; Joe Gutierrez, 39; Celia Villalobos, 32 and Angie Krey, 27.

Also, Jill Foster, 25; Galin Latham, 25; Wendi Bland, 15; Joe Martinez, 15; Clark Busby, 14; Monica Busby, 14; Connie Flores, 13 and Melissa Toombs, 13.

First and second place winners were presented "Magical Mysteries" T-shirts in addition to their reading prizes for both groups.

## Chicken Barbecuing Time Is Here

Texans enjoy backyard barbecuing and eating as much as anybody in the U.S., and chicken barbecue is an all-time favorite.

A few simple steps will enable you to enjoy mouth-watering chicken barbecue to your heart's content, says Dr. James Denton, poultry marketing specialist with the Texas Agricultural Extension Service, Texas A&M University System.

Chicken barbecuing involves four basic steps: First, split the birds in half and sprinkle each half generously with salt and black pepper before placing on the pit, advises Denton. To shorten barbecuing time cut halves into parts.

Second, make sure coals are white hot before putting the chicken on the grill. Any type of cooker can be used, but keep the coals 8 to 12 inches from the cooking rack for best results, says the specialist.

Another basic step for top-notch chicken barbecue is to use a basting sauce during the cooking process which contains no tomato product or sugar because such sauces burn easily. A basting sauce will keep meat moist and juicy and add a desired flavor. Apply basting sauce and turn chicken halves

frequently.

Denton suggests these ingredients for a basting sauce: 1 tablespoon salt, 1 teaspoon black pepper, 1 stick butter or margarine, 2 tablespoons Worcestershire Sauce and a few drops of hot sauce or red pepper. Heat the mix over a low flame until the butter or oleo melts; then add the juice of one lemon (vinegar may be substituted). Next fill the pan with water and heat but do not boil. Spices such as garlic salt or lemon pepper can be added to suit personal preference.

To top off the barbecuing process, apply a finishing sauce to the chicken about the last 20 to 30 minutes before cooking is complete. This is the most critical time during the entire cooking process, emphasizes Denton. Check the meat carefully and turn it frequently to avoid burning the finishing sauce.

Several types of finishing sauce are available and vary from mild to hot. To prepare your own sauce (for 10 chicken halves), use the following: 1 cup cooking oil, 1 cup vinegar, 1 cup catsup, 1/4 cup sugar and 1/2 cup water. Add salt, Worcestershire Sauce, hot sauce, garlic and other seasonings to taste.)

Chicken barbecue should be complete in about 1 1/2 to 2 hours. Cooking longer with less heat usually results in the most flavorful, juicy and tender barbecue. Placing the cooking rack closer than 8 inches to the coals will reduce barbecuing

time, but the meat will be drier and less tender, Denton points out.

A test for doneness is to twist the drumstick which is connected to the thigh. If the joint between the thigh and drumstick is loose, the chicken is ready to eat. Another test is to cut into the meat at this joint. The moisture in the joint will run clear if the meat is done.

The fun part of chicken barbecuing is to develop your own secret recipe and cooking style, says Denton. The four basic steps outlined can be varied to suit your style and taste.

One variation is to debone the breast and thigh meat and marinate it overnight in the refrigerator in a mixture of 16 oz. herb-seasoned Italian dressing and 8 oz. picante sauce. Cook in the same manner as before while basting with the marinating sauce.

For another type of marinated chicken barbecue, Denton suggests using a soy-teriyaki (or Worcestershire) sauce marination for two-to-four hours before cooking.

Most of all, let your imagination be your guide and have fun, says the specialist. Who knows? The world's greatest barbecue chef may be in your own backyard.

Malcolm Baldrige, Commerce Secretary:

"I expect higher trade deficits in coming months before we see further improvements."

## Pauline Guinn Honored With Surprise Picnic

Pauline Guinn was honored for her birthday with a belated surprise patio-picnic on July 11.

Hostesses for the day were Kay Madry and Lois Martinez. Following the 'cookout' several games were played and Mrs. Guinn was presented a group 'gift.'

Later a "spring hat" birthday cake was cut, and served with ice cream.

Attending were Pauline Guinn, Kay Madry, Lois Martinez, LaJune Duren, Violat Barham, June Dunham and two grandchildren, Nicki and Paul Clark of Lubbock; Vicki Jackson, Lydia Wright, Ada Thompson, Faye Wellborn and Nora Flanary.

Also from Sudan were Del Aycock, Ramona Engram, Bertha Wilkener, Pat Cummins and Marie Hendrix.

This was the second picnic the ladies have enjoyed this summer. An earlier picnic was held at the Pat Cummins home in Sudan with 16 present.

**Shouldn't your electronic typewriter come from the company that started it all? Olympia.**

Olympia's reputation for quality typewriters goes back over 75 years. Today we're one of the top five office equipment companies in the world. So it's only natural that Olympia was one of the first to introduce a fully electronic office typewriter. Now, there's an entire family to choose from. The ES Series. From basic typewriters to word processors, and beyond. All with that famous Olympia reliability. And every one backed by Olympia's extensive nationwide service organization. The electronic ES series will help to make your office more productive, more efficient. At prices competitive with ordinary ball electrics.

**Olympia. Your key to the electronic office.**

## Class Of '69 Hosts Fifteen Year Reunion

The Muleshoe High School Class of 1969 held their 15 year Class Reunion on Saturday, July 7, beginning with a family get-together at 10 a.m. at the West Avenue D City Park.

They met families, had refreshments and did lots of visiting.

In the evening, the class members, spouses and guests met at the Muleshoe Country Club where they enjoyed a buffet dinner of barbecue brisket, beans, potato salad and apple cobbler.

A short business meeting was held and cards and letters were read from several classmates who were unable to attend.

It was decided to have a 20 year reunion in five years.

A motion was made and approved for the members to make a donation to Karla Lovelady Eubank, whose child is in need of a liver transplant. A fund to help defer the addition-

al \$40,000 needed over the insurance available has been set up for the family.

Persons wishing to donate to this fund may do so by contacting the Muleshoe State Bank, First National Bank or Lindy Schuster at Route Five, Muleshoe, Texas 79347.

After the meeting, those present heard the sounds of "Triple A" as they remembered the Rock, Disco and Country Western music of the late 60's and early 70's, along with today's sounds.

Classmates attending were Randy and Vicky (Henexson) Selman, Tony and Debra Perez, Tom and Teresa Lemmons, Rey Sanchez, Charlotte Davis, Randy and Annette (Williams) Watson, Larry Calvert, Karen (Dobbins) Riddle, Thomas and Vina (Bass) Strayhorn and Roy and Judy DuBose.

And Bob and Lana Bomer, Scott and Linda (Lee) Schwartz, Dick and Marilyn (Barnett)

## Angie Heathington Named Texas' Miss Cinderella

Angie Dee Heathington of O'Donnell, daughter of Kenneth and Claudia Heathington, and granddaughter of Hattie Heathington of Muleshoe, has been crowned the 1984 Texas State Cinderella Tot and will be representing the South Plains and the state of Texas at the Cinderella International Finals later this year in Florida.

She was named the overall winner in competition with 62 girls between the ages of three and six who had qualified for the state Cinderella Pageant by winning preliminary competition.

She received a \$500 cash scholarship, a Caribbean cruise for herself and a chaperone, a television, two days at Disney World, and a week's stay in Miami for the international finals. Finals are scheduled for August 4-11.

Angie has a sister, Chandy, age eight, at O'Donnell and Kristi and Joey Heathington, both of Muleshoe.

Kayla Ruth Glover

Mr. and Mrs. Gary Glover welcomed the birth of a new daughter, Kayla Ruth, on Saturday, July 7, 7:49 a.m. at South Plains Hospital in Amherst. She weighed seven pounds and was 20 inches long.

Kayla Ruth has two sisters, Jenna, eight and Keetha, seven and one brother, Judd, age two.

Grandparents are Mr. and Mrs. M.T. Killough, Needmore; Mr. and Mrs. Ralph Glover of West Camp and Mr. and Mrs. J.M. Flowers of Progress.

A great-grandmother is Jo Lee Truelock of Earth.

## Jennifer Elaine Hammer

Jennifer Hammer was born to Mr. and Mrs. Paul Hammer at West Plains Medical Center in Muleshoe on Monday, July 9, at 5:59 p.m.

She weighed seven pounds and six ounces.

Jennifer Elaine has a sister, Amber Nichole, age two.

Grandparents are Mr. and Mrs. Charles Gurwell of Portales and Mr. and Mrs. Richard Hammer, Mosquero, N.M. and a great-grandmother, Agnes Trompe, Roy, N.M.

## Cindy Turner Hardy Given Scholarship To Help Education

Cindy Turner Hardy, daughter of Mr. and Mrs. Darrell Turner, has been selected to be the 1984 recipient of a \$100 scholarship given by the American Association of University Women.

Mrs. Hardy graduated from Muleshoe High School in 1982, where she was a member of the National Honor Society and valedictorian of her graduating class.

She graduated from South Plains College in Levell and May, 1984 with a 3.75 grade point, receiving an associate degree in Science. While attending SPC, she was inducted into Phi Theta Kappa National Honor Society. Cindy was on the President's or Dean's List all four semesters. She was also selected to appear in Who's Who in American Junior Colleges.

She plans to continue her education at Eastern New Mexico University in Portales, N.M. to receive a degree in Business Administration. Cindy became the bride of Andrew Hardy on July 7, and they are currently in Florida on their honeymoon.

A spokeswoman for AAUW commented, "AAUW takes pride in helping young women to further their education. Cindy is truly a worthy recipient of this scholarship."

"Each summer, AAUW selects a Muleshoe graduate who has excelled in college as a scholarship honoree. Previous scholarship winners are Lauri Burgess in 1982 and Tena Landers in 1983."

AAUW scholarship committee members are Johanna Wrinkle, chairman; Lucy Faye Smith, Esther Marie Dillman, Virginia Bowers and Tracy Ellis.

CINDY TURNER HARDY

## Muleshoe Chapter Rebekah Lodge Installs Officers

Sixteen members and five visitors attended the meeting of the Muleshoe Rebekah Lodge No. 114 last Thursday. Preceding the business meeting a "pot luck" meal was served.

Following routine business, the meeting was turned over to Lavita Fitzgearld, who installed officers for the ensuing term. Mrs. Fitzgearld is the District Department President. Sandra Robinson was installed as Noble Grand and Thursie Reid as Vice Grand. Appointive officers installed were Dodie Atkinson, Warden; Mary Franklin, Conductor; Dorothy Chance, Chaplain; Renee Rudd, Flag Bearer; Patsy Chance, Right Support to the Noble Grand; Opal Talley, Left Support to the Noble Grand; Juanita Busby, Right Support to the Vice Grand; Maud Young, Left Support to the Vice Grand; Vi Michell, Inside Guardian; Joylene Costen, Outside Guardian and Jessie Robinson, Musician.

Lavita Fitzgearld was accompanied from Hereford by Ann Conklon, Roberta Combs, Karrol Reitman and Susie Kirt-singer, who were the conducting team.

Following installation, the new Noble Grand outlined the program for her term and the members were unanimous in wishing her success.

The famous violin maker, Stradivarius, whose products now sell for thousands of dollars, sold them originally in the early 1700s for what would be less than \$10 today.

## Party-Plan Not Always Bargain

Buying merchandise at a "party" can be fun but may not make much shopping sense.

Party-plan sales are an increasingly popular way to sell everything from pots and pans to cosmetics, jewelry and lingerie, says Texas A&M University Agricultural Extension Service home economist Bonnie L. Piernot.

But consumers should recognize that the parties depend on peer pressure to make sales, she cautions.

Once you come into a friend's home for a party and see neighbors signing up for merchandise, it's very difficult to resist buying something, says Piernot. "This can be a real problem for the person who is trying to avoid impulse buying and stick to the family budget."

The number and value of the

"free" gifts the party hostess receives usually depends on the amount of merchandise sold at the party, which can also increase the sales pressure, she notes.

The best approach to sales parties is to treat them as you would any other consumer purchase decision, advises the specialist.

You don't go to a store unless you want to buy the products sold there. So if you're not interested in buying the merchandise sold at sales parties, turn down invitations to attend them, Piernot suggests.

If you are interested in buying, she says, check the quality and cost of similar merchandise in retail stores before going to the party. Then if the items are overpriced, enjoy the party without feeling obligated to buy the products.

## Brandon Burris Feted With Baby Shower

A baby shower honoring Brandon Scott Burris, son of Staci and Jackey Burris, was held Saturday, June 30, at the Three Way Home Economics Room at the Three Way School.

Special guests were his mother, Staci Burris; grandmothers, Reuel Kirby, Mrs. J.G. Arnn and Mrs. Sonny Burris; aunt of Brandon attending were Mrs. Craig Kirby, Mrs. Veldon Wallace and Mrs. Bob Ethridge.

The serving table was decorated with a baby blanket and bottle arrangement for the centerpiece, and cookies and punch were served from a lace trimmed table.

Hostess gifts were a high chair and wall hanging.

Hostesses were Mrs. Freddie Parkman, Mrs. Bobby Foley, Mrs. Jack Lane, Mrs. Jerry Thomas, Mrs. Johnny Ferguson, Mrs. Homer Richardson, Mrs. Mickey Sowder, Mrs. Darwin Robertson, Mrs. Nelson Carlisle and Mrs. Joe Sowder.

The tongue can not man tame; it is an unruly evil, full of deadly poison.

Con't From Page 1  
Elementary Kindergarten and Sue Gibson, DeShazo Elementary.

In other action, the board heard about the summer maintenance projects at the schools, including the all rooms throughout the school district have been stripped and re-waxed, all three gymnasiums have had their floors refinished, and several classrooms have been painted.

Also, ground work at Dillman Elementary and High School has been completed and exterior painting begins this week.

Also, board members heard the accreditation report, the financial report, and approved a policy update Twenty-Two.

The board approved phase I of the volunteer program which includes administration and staff training. Phase II is expected to follow in the spring of 1985 with full implementation expected in the fall of 1985.

Lunchroom prices were approved at the same rates as the previous year, with no increases.

Also, the board approved the student accident insurance program. It will be with the same company as last year.

Con't From Page 1

public meeting on farm policy which is to be held July 19 in Dallas. Secretary of Agriculture, John R. Black is scheduled to be guest speaker.

Noble said the meeting is designed to give the public an opportunity to express views to the Secretary of Agriculture and other USDA policy people.

The meeting will begin at 10 a.m. at the Ramada Hotel, 1055 Regal Row in Dallas.

**Tax Check...**

Con't From Page 1

Midland's check totaled \$616,000, bringing 1984 payments to date 15 percent over 1983.

Bullock also sent checks to Metropolitan Transit Authorities in Houston, Dallas, San Antonio and Fort Worth. The Dallas DART check was for \$8.5 million. San Antonio's VIA check totaled \$1.6 million, and Fort Worth received \$466,000. The Houston MTA check was \$11.8 million.

July payments reflect taxes on sales made in May and reported to the Comptroller by June 20.

Life would be much simpler if we didn't try to make people think we're what we're not.

**Enochs News**  
by Mrs. J.D. Bayless

Mr. and Mrs. Buford Peterson visited their daughter, Rev. and Mrs. Harold Abney and children, at White Deer Tuesday and Wednesday.

Mr. and Mrs. Cleo Hall of Phoenix, Arizona arrived Monday afternoon July 1, 1984 for a visit with her parents, Mr. and Mrs. J.D. Bayless also his sister, Mr. and Mrs. J. E. Layton and friends and relatives.

Clyde Price underwent some surgery recently at the Littlefield Medical Center. He was a patient Tuesday till Saturday, Get Well soon Clyde.

The Shults family had their annual family Reunion at Floydada July 4th. Those attending were Mr. and Mrs. Ike Shults of Levelland, Mr. and Mrs. Ray Shults of Pampa, Mr. and Mrs. Clarence Shults of Sundown, Mrs. Audra Shults of Chillicothe, Wendel Shults of Pampa, Mr. and Mrs. Lee Bely and Andrew of Three Rivers, Texas, Mr. and Mrs. George Baker of Wichita Falls, Texas, Mr. and Mrs. Clifford Snitker of Morton, Texas, Mr. Curtis Snitker and Melissa Snitker of Hart, Texas, Mr. and Mrs. J.C. Snitker and John of Bula, Stan, Shawn, Clindy and Erica of Amarillo, Serna Hardin of Portales, New Mexico, Rex Gennings of Amarillo, Texas, Amie Green of Pampa, Texas, Robert Zamora of Bula and Mr. and Mrs. Verlan Leavell of Brownfield.

Mrs. Juanita Snow of Muleshoe spent two nights with her sister, Mrs. Etta Layton they also visited in the home of Mr. and Mrs. J.D. Bayless Thursday afternoon.

Mr. and Mrs. Zed Robinson and her daughter, Mrs. Nelouise Greg from Redondo Beach, California visited in the Enoch community, with Mr. and Mrs. E.N. McCall, Mrs. Adaline Welch, the J. D. Bayless and Mr. and Mrs. Clyde Price.

Grandchildren of Mr. and Mrs. E.M. Autry, Tim and Heather of Houston came Thursday for a two weeks visit with them.

Mr. and Mrs. D.M. McBea visited her parents, Mr. and Mrs. Morris Phillips July 4th and went to the fire works at Muleshoe that night, at Muleshoe.

Mrs. Winnie Byars and Mrs. Bill Key went to Lubbock with the Morton Senior Citizens and took a sack lunch and ate in the Park and went to a play and Musical the Syracuse at the Civic Center.

Visiting Mrs. Lorella Jones and Wendell were her daughters, Mr. and Mrs. Earl Shields and son Derecl of Lelia Lake and Mrs. Sarah Jones and children, Britt, Lesleyan of Bartwow, Georgia.

Jason and Debi Huff and Stacy and Kim of Amarillo visited the Bud Huff's Friday till Sunday.

Mr. and Mrs. Edd Autry had their family gathering at the home of Mr. and Mrs. Dennis Turnes Saturday and Sunday. There were 76 in attendance from Ervin, Clovis, New Mexico, Colorado, Junction, Dimmitt, Houston, Lubbock, Tatum, New Mexico, Pep, New Mexico, Morton, Bledsoe, Enochs and all of their children were present but one, there were several friends also present, Donnie McCall, Buckie Fred, Mr. and Mrs. Jerry Thomas the Claunches, Mrs. Lillie May Robertson and Mother from Arizona.

Renee Huff, Toba Chrystal visited her mother in Lubbock the past week.

Mrs. Edward Crume and daughter, Diane visited Mrs. Etta Layton and Mrs. Juanita Snow Thursday.

Mr. and Mrs. Robert George and son Brent spent the 4th of July Celebration with her parents, Mr. and Mrs. E.N. McCall.

There were 21 present at the home of the pastor, Rev. and Mrs. Mike Heady and children Wednesday evening for a hamburger cook out with all the trimmings for a celebration of July 4th, they enjoyed the supper visiting and playing games.

**Supreme Court Decision Makes Law Officers Happy**

Last week, the U.S. Supreme Court issued what Law Enforcement Officers nationwide are hailing as a 'boon' to law enforcement.

Despite opposition from liberals, and three dissenting justices, the vote was approved on a 6-3 margin, and provided law enforcement a major victory by creating an exception to the "Exclusionary rule" which often receives the blame for letting criminals go free on technicalities.

The exclusionary rule decision appeared to deal only with defective court warrants and did not create an across-the-board exception to the rule, which bars illegally obtained evidence from being used in court.

The decision said nothing about those instances when police violate someone's rights in a search or arrest without first obtaining a court warrant. Nevertheless, Justice William J. Brennan, in a dissenting opinion, denounced what he called the court's "strangulation" of the exclusionary rule. The exclusionary rule, first fashioned by the high court in 1914, plays a part in only a tiny fraction of all criminal cases. Nonetheless, it has become a political lightning rod.

In essence, the rule is a remedial device for protecting Fourth Amendment rights against unreasonable police searches and seizures. Fifth

Amendment rights against self-incrimination and Sixth Amendment rights to adequate legal help.

Writing for the court today, White said when police officers take the time to obtain a court warrant for a search arrest, they rarely can be found to have acted unreasonably.

"In the absence of an allegation that the magistrate (or judge) abandoned his detached and neutral role, suppression is appropriate only if the officers were dishonest or reckless in preparing their affidavit (justifying warrant) or could not have harbored an objectively reasonable belief" the necessary proof for a warrant existed, White said.

He was joined by Chief Justice Warren E. Burger and Justices Harry A. Blackmun, Lewis F. Powell, William H. Rehnquist and Sandra Day O'Connor.

Justices William J. Brennan, Thurgood Marshall and John Paul Stevens dissented.

Brennan, writing for himself and Marshall, denounced what he called the court's "strangulation" of the exclusionary rule. "It now appears the court's victory over the Fourth Amendment is complete," Brennan said.

Friendships are not the results of a rushing acquaintance-ship.

**Food Advertising Can Mislead Consumers**

Consumers can be easily misled by food advertising that plays on their concerns about calories, cholesterol and sugar, says a Texas A&M University Agricultural Extension Service nutritionist.

Advertising is regulated by the Federal Trade Commission, and cannot contain incorrect information, says Dr. Alice Hunt. But some advertising claims take advantage of consumers' lack of nutrition information.

Many products are labeled "light" or "lite" to capitalize on consumers' interest in lower calorie foods, she says. While these products may be lighter in color or taste, they often have the same number of calories as other brands of the same product.

The labels on some vegetable oils, margarines and peanut butters state they have "no cholesterol." "Unfortunately, many consumers don't know that cholesterol is found only in animal products, so a vegetable product wouldn't contain it anyway," says Hunt.

These consumers may also mistakenly assume that similar vegetable products contain cholesterol, simply because their labels do not claim otherwise, she adds.

Consumers trying to cut down on sugar may be misled by similar advertising. For example, some brands of orange juice claim to have "no sugar added." This implies that other

brands do have sugar added.

Yet under federal standards, any product labeled "orange juice" must be 100 percent orange juice with nothing added," explains the nutritionist.

Products advertised as having "half the sugar," may or may not have less sugar than other brands, Hunt points out. Often the product has fifty percent less sugar than it did before, but it may still contain a high amount of sugar.

## Off-Farm Income Keeps Farmers In Business

Off-farm income exceeded \$39 billion in 1982, representing 62 percent of the \$63 billion income of the farm population. Even so, individual income from both sources amounted to only 78 percent of per capita disposable income of the non-farm group. Since 1934, average income of farmers has equaled or exceeded that of non-farmers in only one year--1973.

Much of the off-farm income is tied to smaller farm and ranch units, says Dr. Carl Anderson, economist with the Texas Agricultural Extension Service, Texas A&M University System. Most of these units are operated as a spare time activity to generate added income, for recreational purposes, for long-term investment, to use family labor and to enjoy a home in a more open area.

Farm operators selling less than \$20,000 worth of farm commodities in 1982 represented 60 percent of the nation's 2.4 million farmers but accounted for only some 6 percent of total farm cash receipts. They also averaged negative net farm income, Anderson points out.

Large farm operators also receive a considerable amount of off-farm income, notes the economist. Those with \$100,000 to \$199,999 in sales received 36 percent of their income from sources off the farm in 1982.

From the standpoint of total income, medium-sized farm operations fared the worst. These units tend to be too small to efficiently use labor, capital and technology, says Anderson.

Twenty-nine percent of the mid-sized farm operators (those with sales of more than \$40,000) receive 88 percent of total cash receipts. These 691,000 operators produce most of the agricultural commodities. Among the reasons large units have increased in size is that they have the capability to adopt new and efficient technology as well as to accumulate capital from both income and credit sources, notes the economist.

Commercial farming and ranching operations are big business. Farms and ranches with sales of \$100,000 to \$199,999 in 1982 had assets that slightly exceeded one million dollars per farm. The \$200,000 to \$499,999 group posted assets of \$1.7 million per farm and the \$500,000 and over group, \$4.1 million. As a group, these farms account for 47 percent of all assets in agriculture and 57 percent of the debt.

Debt (credit) plays a major role in larger operations. Loans averaged \$223,145 in the \$100,000 sales category, \$432,687 for the \$200,000 group, and for the \$500,000 and over class, \$1,486,945. The debt-to-asset ratio averaged 21.4, 24.3, and 35.9, respectively, for these sales groups. The ratio stood at 21.4 for all farms in early 1983, up from 17.2 in 1981.

In a fairly competitive industry such as agriculture, technological advances set in motion the use of more capital and credit, says Anderson, and this tends to increase farm productivity.

As a result, consumers benefit from plentiful supplies of quality food with relatively low farm values. The farm value of each dollar spent for food averages only 27 cents, with the remaining 73 cents going to processing, marketing and retailing costs.

Off-farm income is used to offset some of the impact of low farm prices against rapid inflation that has eroded the buying power of income.

Anderson notes. Based on the purchasing power of the 1967 dollar, net farm income since 1980 has averaged about \$9.1 billion annually, the lowest level in 50 years. Inflation adds pressure to the cost-price squeeze by increasing production costs but does not necessarily boost farm prices.

Consequently, farmers continue to face declining income after expenses. Net farm income as a percentage of gross farm income has dropped from 41 percent in 1950 to 13.6 percent in 1982. In other words, for every dollar the farmer takes in, there is only about 13 cents left after paying expenses.

And what is left is by no means all profit, says Anderson. The farmer still must allocate expenses to pay family help and to cover returns to equity capital and management, including risk costs.

So, it's clear that farm families rely heavily on off-farm income to live on a farm and still sustain a unreasonable standard of living, notes the economist. For many people farming is a "way of life." For others facing low farm income, it means coping with the situation by "belt tightening," getting an off-farm job, getting better and bigger, or getting out.

### Nursing Home News

by Joyce Stancell

Our thanks to all of our faithful volunteers. Sharon Williams came for Devotional Thurs. morning. Retta Shipp, J.E. Embry, Maud Kersey came to play Skip-Bo, 42 & dominoes with the residents Thurs. afternoon. Friday afternoon Horner Milsap took some of the residents for a bus ride on the Sr. Citizens Bus. He took them out to see an old Ranch House South east of town. We stopped by the Dairy Queen for refreshments. Those going for the ride were Alma Henley, Ora Roberts, Effie Smith, Lois Ehtridge, Louise Sullivan, Cleo Bellar. Sat. morning J.C. Shanks came to cut the mens hair & give shaves. The Muleshoe Singers came to sing to the residents. Tues. the Hospital & Nursing Home aux. came to shampoo & set the ladies hair, give manicures and play Skip-Bo.

We are happy to hear that D. J. Gage is doing well in the Veterans Hospital in Amarillo. It was good to see his sister Lena Hawkins who came by the Nursing Home for a visit Tues.

Lula Mae Shanks brought & helped serve pies baked for the residents by ladies of the Trinity Baptist Church Tues.

Our thanks to Bro. Huggins of Trinity Baptist Church for coming Friday and conducting our Devo. We appreciate him coming at a late notice.

To anyone feeling low in spirits for any reason the message is: Take heart. The clouds will lift, the mood will pass. There is lifting up.

We received a nice letter from Rosemary Pool this week. She appears to be doing well.

Physical strength is something we all want. But physical strength is not enough. We also want strength of mind, strength of emotions, strength of spirit. "The Joy of the Lord is your strength." Neh. 8:10 (copied from Daily Word).

We appreciate our volunteers and all the help they give us.

Rosa Silva has been doing a lot of volunteer work for the Nursing Home. We really do thank her for this.

Congratulations to our residents Archie Scarlett for being selected Sweetheart of the week on Channel 6. We think this is well deserved.

"The blessing of the Lord be

upon you! We bless you in the name of the Lord!" Psalms 129:8.

Our thanks to the Mary Martha Sun. School Class for their generous gift for our Craft Class.

### Sudan News

By Evelyn Ritchie

Mr. and Mrs. Bob Nelsom of Littlefield & their daughter, Mr. and Mrs. Jackie Brutos and girls of Levelland were Sudan visitors, Saturday.

Mr. and Mrs. Bill Adams & Shelley of Saginaw & Mr. and Mrs. Leland Breese of Lubbock visited last week with Mr. and Mrs. John Williams.

Mrs. Inocente Martinez visited recently with her daughter, Mr. and Mrs. Carl Burdett of Hugoton, Kansas & was there to meet her new grandson, born July 2.

We believe there are good people, tolerant people, and fair people, in about the same proportions in all sections of the country.

## Price Makes Grain Sorghums Better Buy

High technology helps to make a feedlot operation a paying one. More feedlot operators now use a nutrition specialist and computers to manage the ingredients they will use as finishing rations for livestock.

Dr. Kenneth Eng, Eng-Inc., a beef nutritionist from Casa Grande, Arizona, works over a large part of the United States and worldwide. On an annual basis, his clients will feed more than one million cattle.

When asked which grain he preferred, Eng said, "We have no preconceived bias as to which is the best grain. We strictly look at it from a total diet standpoint and how we can put together the best ration most economically. In the overall industry, this is not always the case. For example, some people like to feed corn because they want to see something yellow in the feed. We don't think that is significant from a performance standpoint.

"We like grain sorghum because we think the price is attractive more often than not. We use a lot of grain sorghum and price is the reason."

While grain is the largest

single ingredient of the ration, it must be considered simultaneously with other ingredients. Those ingredients would include roughages like cotton seed hulls, alfalfa, or silage, plus all the supplemental ingredients that might be needed.

The way grain is processed determines how much feed value can be realized. Eng said, "Where we can do an excellent job of processing the milo, it may have 97% of the value of corn." He further stressed that the nutritional level of grain sorghum may drop considerably if it is not correctly processed.

The protein value of grain sorghum is little higher than that of corn but lower than that of wheat. Eng continued, "When the cost of supplemental proteins is high, for example, if the price of soybean meal is high along with the price of urea, then the computer--which we tend to use a lot--will favor the use of wheat." Wheat would probably be limited to 50% of the grain in the ration and the other grain would be chosen relative to price.

Dr. Eng said when the rations are balanced properly, there is no difference in the carcass value of beef fed on one grain vs. another.

Mabry Foreman, a rancher, farmer, and feedlot owner in Felt, Oklahoma, is one of Dr. Eng's clients. He feeds only his own cattle in his 5,000 unit feedlot. Foreman said, "I raise quite a lot of grain sorghum myself. But then, I also buy additional grain to feed. The price differential is nearly always such that we feed sorghum."

Foreman said when comparing one grain to another with a balanced ration, he finds no difference in the time required to finish the animal. "Profit is the objective of my feeding operation," Foreman concluded, "and for the last several years, I have found it more profitable to use grain sorghum than corn."

Dan Rostenkowski, Rep. (D-Ill.) on tax hike bill:

"This is a promising step toward equitable deficit reduction."

### Pivot Products Distributors Announces The Following Items

\* P&R Surge Systems has authorized a special summer irrigators sale on the purchase of P&R Surge Valves.

Ends  
Aug. 15, 1984

\* The P&R Surge unit now comes with a detachable controller. This can simplify changing gated pipe without using two separate complete units or shutting the well off.

**New Redesigned Surge Valve!**

- Reliable
- Simple
- Lighter Weight (40 lbs.)

\* The new compact Boss Surge Valve is now in stock priced for summer sale at \$925.00. For simple non-programable applications this is an excellent buy.

\* Delmhorst moisture sensing blocks and meters are in stock. These are very helpful in determining the field condition at various depths and can be helpful in scheduling irrigation cycles.

**18. Legal Notice**

**CITATION BY PUBLICATION THE STATE OF TEXAS**

To: John Doe, Respondent:

**GREETINGS: YOU ARE HEREBY COMMANDED** to appear and answer before the Honorable District Court, Bailey County, Texas, at the Courthouse of said County in Muleshoe, Texas, at or before 10 o'clock a.m. of the Monday next after the expiration of 20 days from the date of service of this citation, then and there to answer the petition of Joe Edward Lovato and Helen H. Lovato, Petitioner, filed in said Court on the 12th day of July, 1984, against John Doe, Respondent, and said suit being numbered 5194 on the docket of said Court, and entitled "In The Interest of A Baby Girl, A Child", the nature of which suit is a request to Adoption, Said child was born the 3rd day of July, 1984, in Muleshoe, Bailey County, Texas.

The Court has authority in this suit to enter any judgment or decree in the child's interest which will be binding upon you, including the termination of the parent-child relationship and the appointment of a conservator with the authority to consent to the child's adoption. If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved. The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs. Issued and given under my hand and the seal of said Court at Muleshoe, Texas, this the 12th day of July, 1984. Nelda Merriott Clerk, District Court, Bailey County, Texas. By Elaine Parker, Deputy. 18-29s-1tc

By Evelyn Ritchie

Word was received this week that Missy Fisher was selected to the Converse High School All-American team as an honorable Mention. She was nominated for this honor along with four other Texas players by the Texas High School Girl Coaches Basketball Association. The final selection was made by the National Coaches Association.

Out of 250 girls, only 75 girls are selected to the Firt team with others being selected for the honorable mention team. Darla Issacs of Levelland and Angela Lawson of Longview joined Missy on the honorable mention team. Cathy Dixon of Duncanville and Beverly Williams of Del Valley made the All-American first team.

As a result of this honor, the school received a certificate to be displayed at the school.

We are proud of Missy's accomplishment and want to congratulate her for this honor. \*\*\*\*\*

Kris Humphreys was honored on his 5th birthday in the home of his grandparents, Mr. and Mrs. Pete Phillips. The decorations were red, white & blue.

Cupcake cones, icecream & koolaid were served to the following guests--Chyrel Chumbley of Lubbock, Mindy Humphreys, Pam & Kyla Morris, Sandra & Aaron Nix, Jana & Kristy Synatschk, Tanya Ryan & Stacie Masten, Mary Ann Shane & Heath Harper, Shelley Zach, & Chad Chester & his grandparents Mr. & Mrs. Pete Phillips & Edith Humphreys. \*\*\*\*\*
