FIFTY-SECOND YEAR

10 CENTS

With so much crudeness, roughness and ugliness in the world, it is a tonic to the senses to contemplate something beautiful. There is much beauty in nature, but sometimes we have to look hard to find beauty made by man.

Albert Johnson handed me a yellowed copy of what I would call a prose poem the other day, and it is one of the most striking things I have ever read. It was written by Sen. John J. Ingalls of Kansas (now dead), whom I had never heard of. The senator waxed rhapsodic -- as senators are sometimes wont to do -- but not for the sake of political advantage. He invested his talents in praise to one of God's creations, the lowly blade of grass.

Here is his tribute:
Next in importance to the divine profusion of water, light and air, those three physical facts which render existence possible, may be reckoned the universal beneficence of grass. Lying in the sunshine among the buttercups and dandelions of May, scarcely higher in intelligence than those minute tenants of that mimic wilderness, our earliest recollections are of grass; and when the fitful fever is ended, and the foolish wrangle of the market and the forum is closed, grass heals over the scar which our descent into the bosom of the earth has made, and the carpet of the infant becomes blanket of the dead.

Grass is the forgiveness of nature -- her constant benediction. Fields trampled with battle, saturated with blood, torn with the ruts of cannon, grow green again with grass, and carnage is forgotten. Streets abandoned by traffic become grass-grown like rural lanes, and are obliterated; forests decay, harvests perish, flowers vanish, but grass is immortal.

Belegued by the sullen hosts of winter, it withdraws into the impregnable fortress of its subterranean vitality and emerges upon solicitation of Spring. Sown by the winds, by wandering birds, propagated by the subtle horticulture of the elements, which are its ministers and servants, it softens the rude outline of the world.

Its tenacious fibers hold the earth in its place, and prevent its soluble components from washing into the sea. It invades the solitude of deserts, climbs the inaccessible slopes and forbidding pinnacles of mountains, modifies climates and determines the history, character and destiny of nations. Unobtrusive and patient, it has immortal vigor and aggression.

Banished from the thoroughfare and field, it bides its time to return, and when vigilance is relaxed, or the dynasty has perished, it silently resumes the throne from which it has been expelled but which it never abdicates.

It bears no blazonry of bloom to charm the senses with fragrance or splendor, but its homely hue is more enchanting than the lily or the rose. It yields no fruit in earth or air, and yet should its harvest fall for a single year famine would depopulate the world.

Margaret Haseloff Receives Good Citizenship Award

Margaret Haseloff, 17-year-old daughter of Mr. and Mrs. A. H. Haseloff, was presented with a certificate of good citizenship by Llano Estacado Chapter of Daughters of American Revolution in Amarillo recently.

The Llano Estacado Chapter annually selects eight girls from area high schools for this honor. Girls are chosen by a vote of faculty members on the merits of citizenship, patriotism, service, leadership, dependability and scholarship. Girls chosen must be a member of the senior class.

Margaret is currently en-

rolled in American history, English and chemistry. She is active in sports, playing on the volleyball team and basketball team. She was recently chosen as a representative of the Farwell School to the all district basketball team, by a unanimous vote of all coaches, and earlier in the year was chosen as a member of the all tournament team at the Farwell Invitational tourney.

Miss Haseloff has been a member of the annual staff, is a member of the student council and is serving as treasurer of the senior class. She has a part in the senior play to be pre-

sented at the high school auditorium tonight.

Her plans for after graduation call for her to enter the Lutheran School of Nursing at the Lutheran Hospital in St. Louis. She says "I have always wanted to be a nurse."

Miss Haseloff, along with other DAR Pilgrims, was honored at a get-acquainted coffee in Amarillo the past Saturday. Later in the day the girls attended a DAR area meeting and were presented with their individual awards.

Mothers of the area Good Citizens were also guests at the two events.

Margaret Haseloff

Fort Sumner Edges Texico For First In Texico Track Meet

Fort Sumner's Foxes tallied 93 1/2 points in the Texico Invitational track and field meet Friday to take first place honors, edging Texico's squad by some 13 points. Tatum with 71 1/2 points came in for third followed by Melrose, Farwell,

and Leon Hart of Tatum vaulted 11 feet, 7 inches to set a new record. The Texico 880 relay team comprised of Vic Harrington, Jackie Dyer, Hal Ed Helton and Bill Campbell ran the distance in 1:36.5 to tie a meet record.

Texico placed a man in 16 of the 17 events with Farwell doing well in the events in which they were entered.

Pearce Is New Member Of Texico School Board

Luther A. (Buddy) Pearce, farmer north of town, has been named by the Texico school board to fill the vacancy of Fred Danforth, who resigned recently.

He was selected Monday night in a special session of the board. The Texico board has been busy with the responsibility of filling the vacancy for the superintendent, caused by the resignation last week of Buck Doran.

Resignations from Doran and Danforth were accepted last Friday night, and the board immediately went to work to fill their places.

Another special session was called Wednesday night, and to date interviewees have included A. D. McDonald (present high school principal), Jack Lancaster, Clovis; John Niehart, Logan; and Allan Staley, ENMU, Portales.

The board is confronted with the problem of maintaining standards at the school in the face of diminishing tax support

from the state. Under the new "Weir formula" made effective this year, Texico faces a cash shortage of \$16,000.

TONIGHT AT SCHOOL

Farwell Srs. Present "Finders Creepers"

Farwell seniors under direction of Jack Markham and Clyde Powell are presenting their annual class play tonight (Friday) 8 p.m. at the high school auditorium. Price of admission is 75¢ for adults and 50¢ for students.

Perhaps they didn't know when they were well off, or just maybe they were gluttons for punishment, but Hercules Nelson's uncle and aunt long wanted him to come and spend a weekend with them. To top it off, they even went so far as to invite his bosom pal, Wilbur Maxwell.

The boys arrive for the weekend to discover that Uncle Bob, has taken a new job, but what they don't know until too late is that it is the job of an undertaker. Needless to say the boys are terrified and are ready to head for home, especially when they discover there's another guest in the house, an old boy named Mr. Quigley who "ran out of gas". His funeral is scheduled for the following Monday.

At this point Wilbur spots Celeste, a cute girl of fourteen summers and boom -- just like that he decides to stay. Nina Quigley, granddaughter of old Mr. Quigley, the supposed corpse, gets into the act by tipping off the family that her grandpop is very much alive -- things go from bad to worse, with Uncle Bob carted off to the clinic, and the boys coming face to face with the culprit, after getting everyone out of the house who might be able to help them. The boys finally escape with their necks, but not before one

of the wildest finishes ever. Cast of characters include Wilbur Maxwell (Billy McDonald) thirteen, tousle-haired, full of life and action, a pocket-size version of the atomic bomb; Hercules Nelson (Barry McCuan) also thirteen, Wilbur's bosom pal, together the boys form the epitome of unquenchable chaos; Celeste (Bonnie Cochran) about fourteen, Hercules' cousin, cute and sweet, and the object of Wilbur's affection. Nina Quigley (Shirley)

Dale Carnegie Course To Begin April 22

The Dale Carnegie Course, sponsored locally by Texico-Farwell Rotary club, is to begin April 22, 7:27 p.m. (cst) in the Texico high school auditorium and will continue each Monday night for the next 14 weeks. Buddy Bonner, El Paso is teaching the course and, he along with local Rotarians, is inviting all persons interested in taking the course to attend the April 22, meeting for a free demonstration.

Only 44 persons will be accepted for the course. Local persons who would like to reserve a place in the class are invited to contact one of the following committee members; Dr. T. J. Glenn, Joe Jones, Herbert Potts, Harry Sheets, Bill Bolling, Leroy Faville and Bobby Crume.

Texico Chooses Boy, Girl State Delegates

Three members of the Texico High School, all juniors will attend Boy and Girl State Sessions this summer. Chosen

Brother Of Local People Passes Away

Word was received here Monday of the death of John Boss, 79 year old brother, of Riley Boss and Mrs. P.M. Owens, Texico.

Funeral services were conducted in Wellington, Kansas, Wednesday for Mr. Boss, who came to the Texico area with his family early in 1902. He resided here until 1918 when he moved to Wellington, where he had made his home since that time.

In addition to the local people, Mr. Boss is survived by his wife, Grace, two daughters, one son, five grandchildren and several nieces and nephews.

The local people were unable to attend funeral services.

for the honor of study in government on the local, county and state level for a one week period are Jackie Hughes, Wayne Hudnall and Terry Niece. Parents of the students are Mr. and Mrs. H. L. Hughes, Rosedale, Rev. and Mrs. Harvey Hudnall, Texico, and Police Chief and Mrs. Lloyd Niece, Clovis.

Boy and girl state delegates are picked by the faculty on the basis of leadership, cooperativeness, honesty, citizenship, character, dependability and scholarship. In addition a student must return to the sponsoring school for at least one semester of the next school year.

The sessions for Boy's State will be held early in June in Roswell, on the campus of NMMI and Girl's State session will be held at the University of New Mexico later in June. The sessions are under auspices of the American Legion and the Legion Auxiliary and are sponsored locally by the Texico Woman's Club.

(Continued on Page 2)

Farwell Track Team To Regional Meet

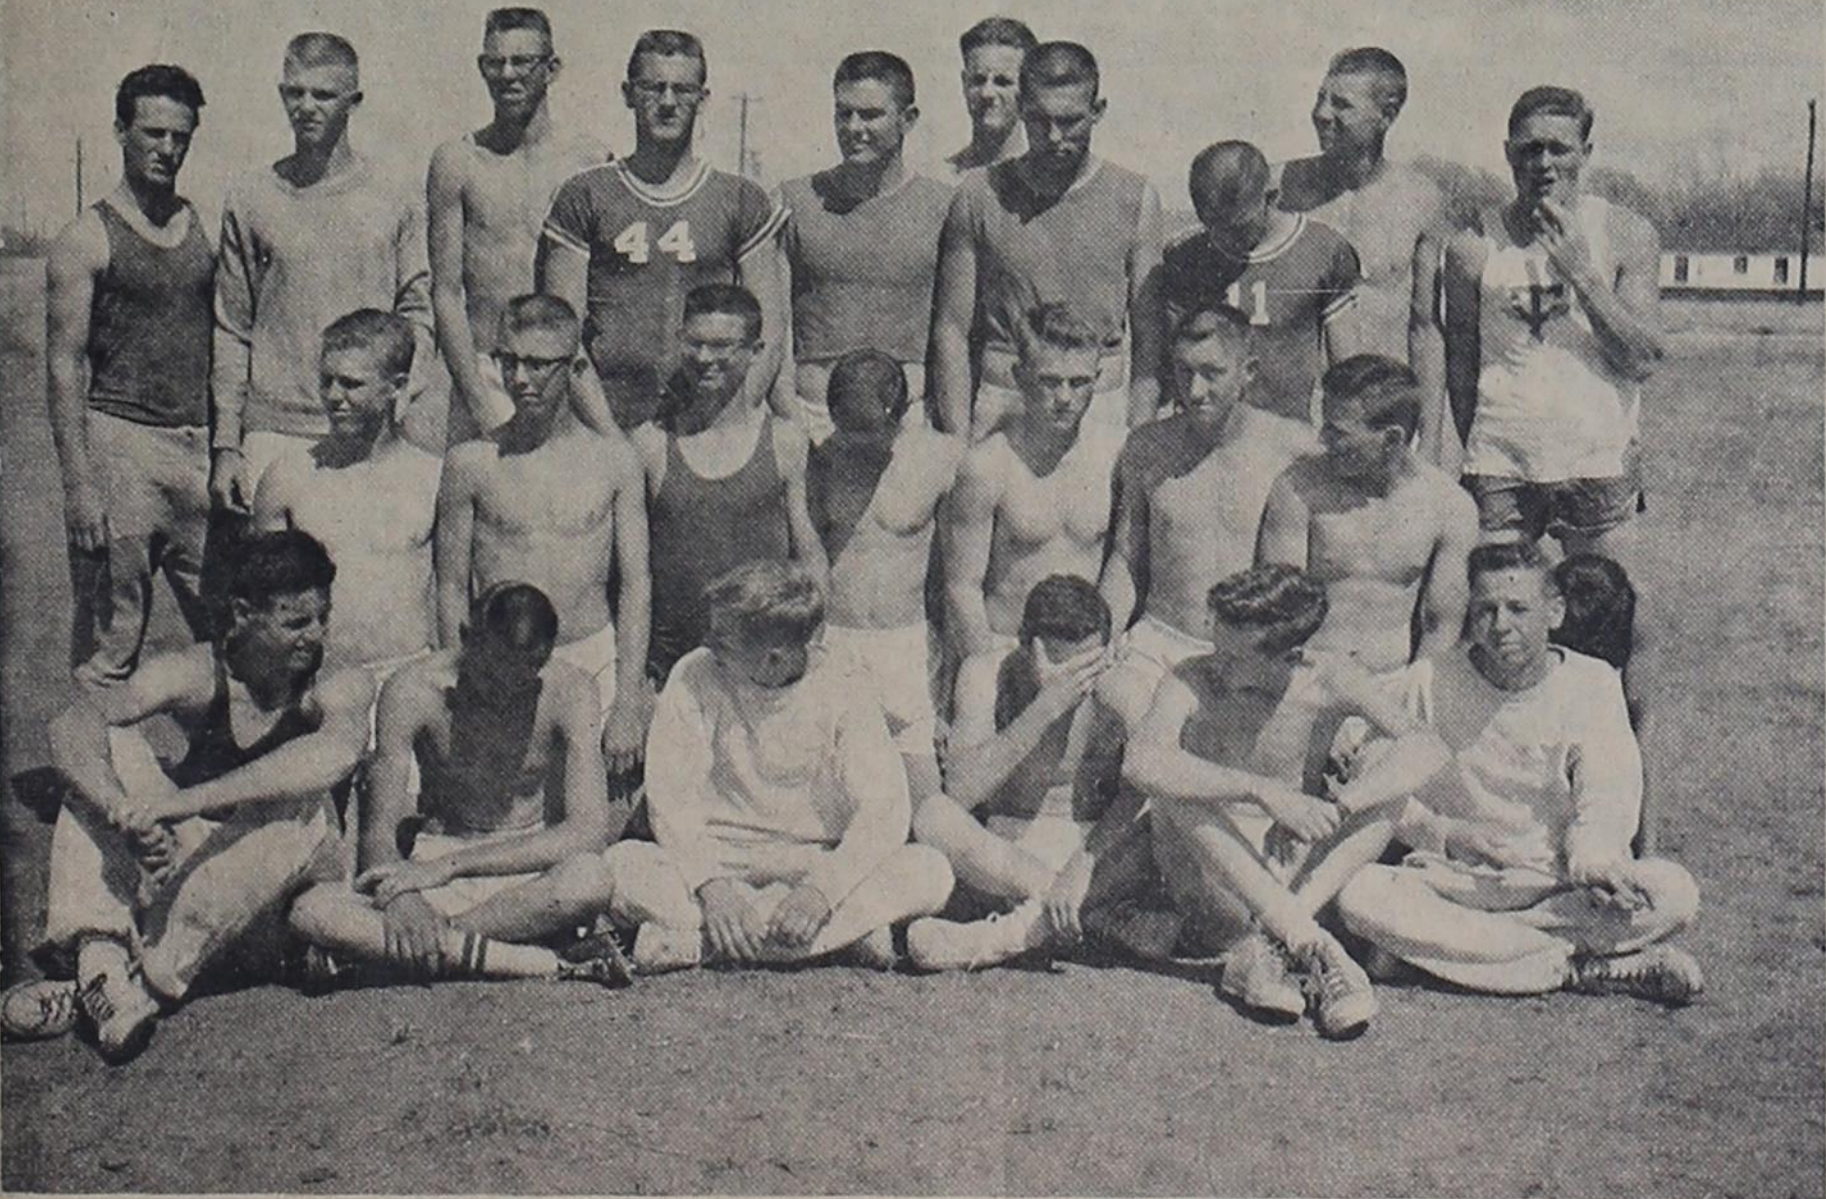

Coach Dempsey Alexander will be in Lubbock, Friday and Saturday, with four members of his Farwell Steer track and field team for the regional meet, on the campus at Tech.

Alexander says his team will be without the services of Danny Lindop, who has been suffering from an injured leg for the last few weeks, and Bob Scott Anderson, who underwent knee surgery last week. This is

expected to slow down the relay team.

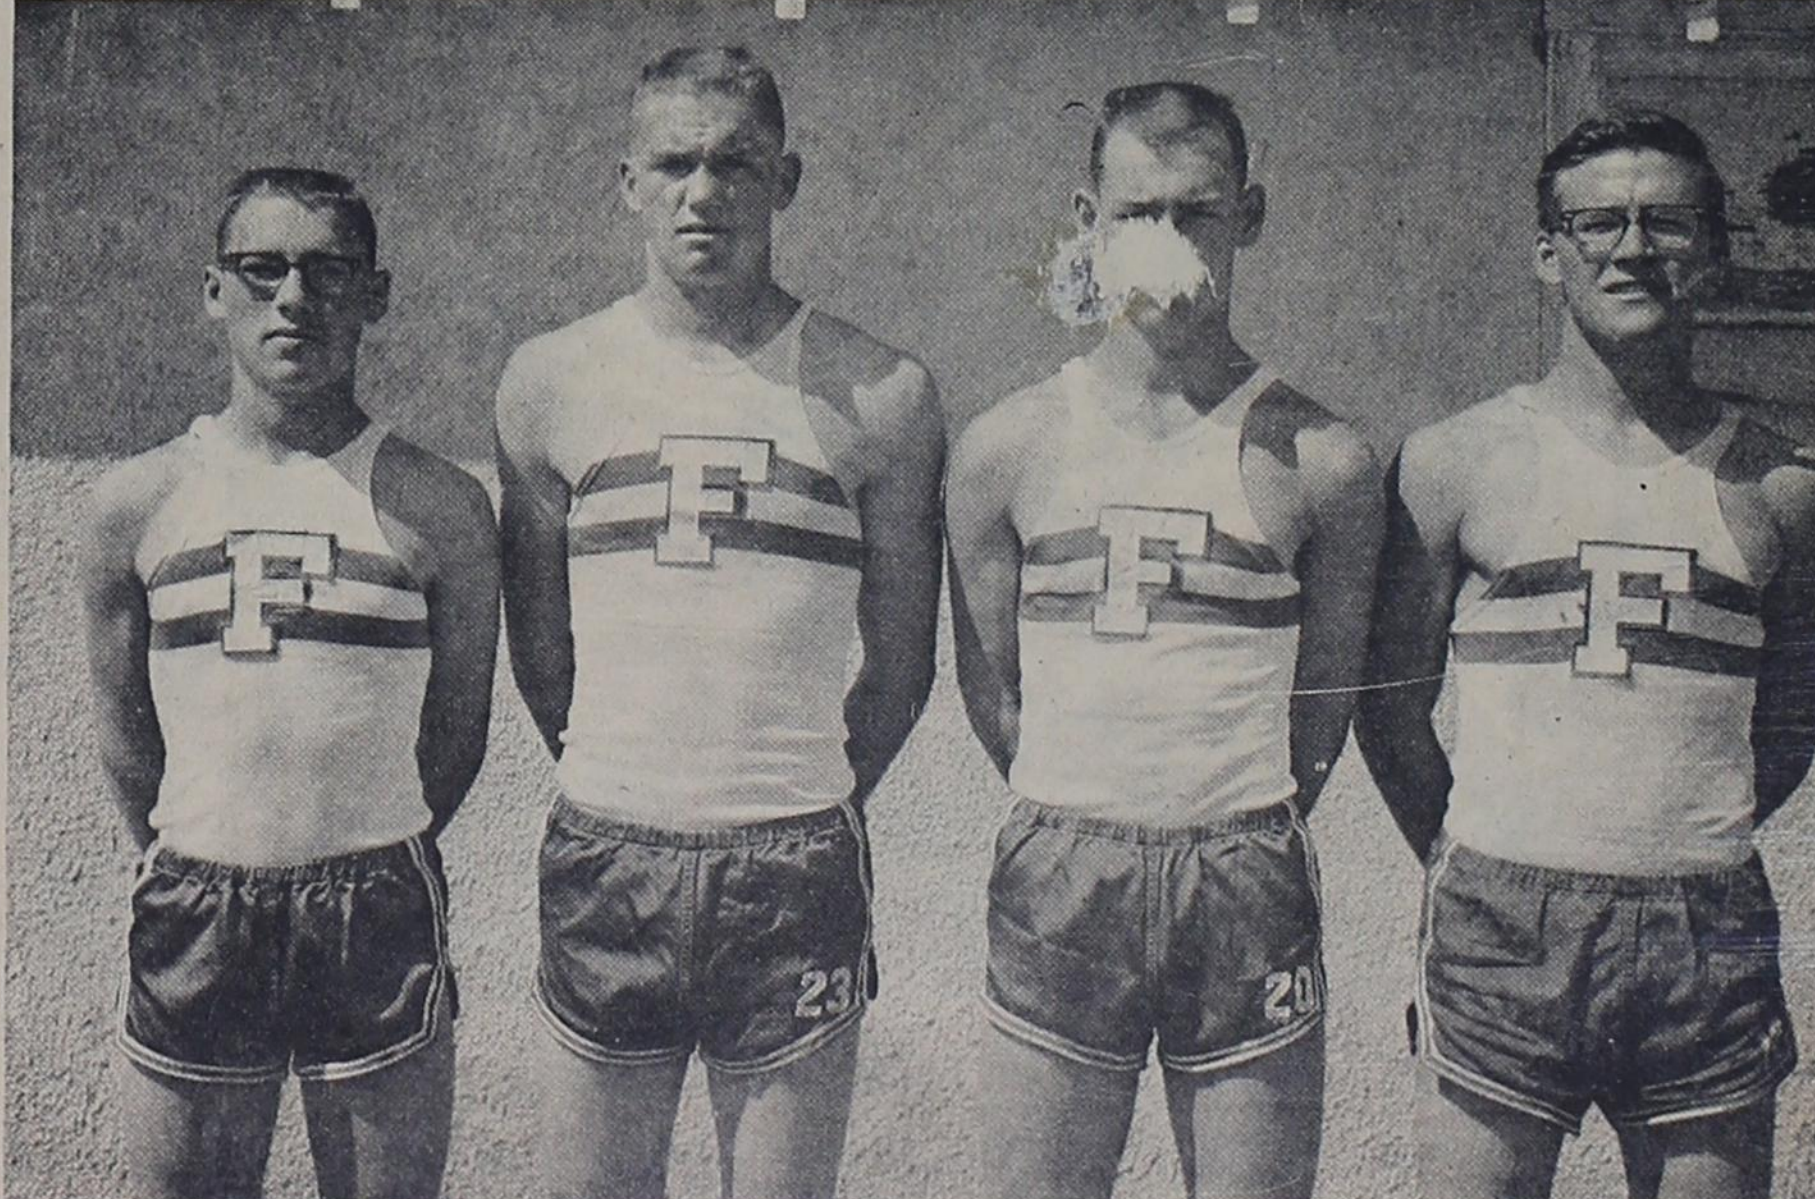

Boys making the trip and the events in which they are entered are: Leon Lovelace, shot put, discus, 440 relay team; Larry Donaldson, 440 relay team; Gareld Chisman, mile run; Ronnie Reed, 440 relay team; Roy Donaldson, sprints, 440 relay team and broad jump.

Preliminaries will begin Friday morning at 9:30 and the final events will be Saturday at 1 p.m.

The 23-man Texico High School track team has been turning in some good times this year in all track and field meets. They will be in Tatum this weekend to participate in the relays

there. They are coached by C. B. Stockton, Paul Frederick and John Green.

Six members of the Farwell Steer track squad qualified for the regional track meet to be held in Lubbock, April 20. Shown above are four members of the team, L to R -- Larry

Donaldson, Ronnie Reed, Roy Donaldson and Gareld Chisman. Other boys qualifying but not available for the picture are Leon Lovelace and Bob Scott Anderson.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

SUBSCRIPTION RATES -- Farmer and adjoining counties, \$3.00 per year; elsewhere, \$4.00 per year. Payable in advance.

Spring Musical At Texico School Saturday

The Texico High School chorus will present a Spring Musical Saturday night, April 20, 8 p.m. (CST) at the high school auditorium. Price of admission is 75¢ for adults, 50¢ for students grades 7-12, and 35¢ for children below the sixth grade. The musical will be directed by Gary Stelling, music director in the Texico school. Theme for the musical is "A Grand Night For Singing" and will feature songs from the three hit musicals "Flower Drum Song," "Oklahoma" and "South Pacific."

From the "Flower Drum Song" the chorus will sing "One Hundred Million Miracles" and will feature in solo parts Judy Tharp as Mei Li; Howard Danforth as Dr. Li; and Diana Baldrige as Liang. Kathy White will then sing "I Enjoy Being A Girl" as the second number from the show. The girls in the chorus will sing the third number "Love Look Away" and Don Chandler will sing "Don't Marry Me" as the character, Sammy. Boys will complete the first part of the show by singing "You Are Beautiful."

Second portion of the program will include "Ball Hi!"; Don Chandler will sing a solo, "Some Enchanted Evening" and the chorus will join in singing "A Wonderful Guy," "I'm Gonna Wash That Man Right

Outa My Hair," and "There is Nothin' Like A Dame."

Last part of the program will include selections from Oklahoma; "Oh, What a Beautiful Morning," and "The Surrey with the Fringe on Top," and will close with "Oklahoma."

The 34 voice chorus has prepared the song "Hay Ride" as an encore.

For each of the three musicals the chorus has secured appropriate scenery.

DELEGATES--

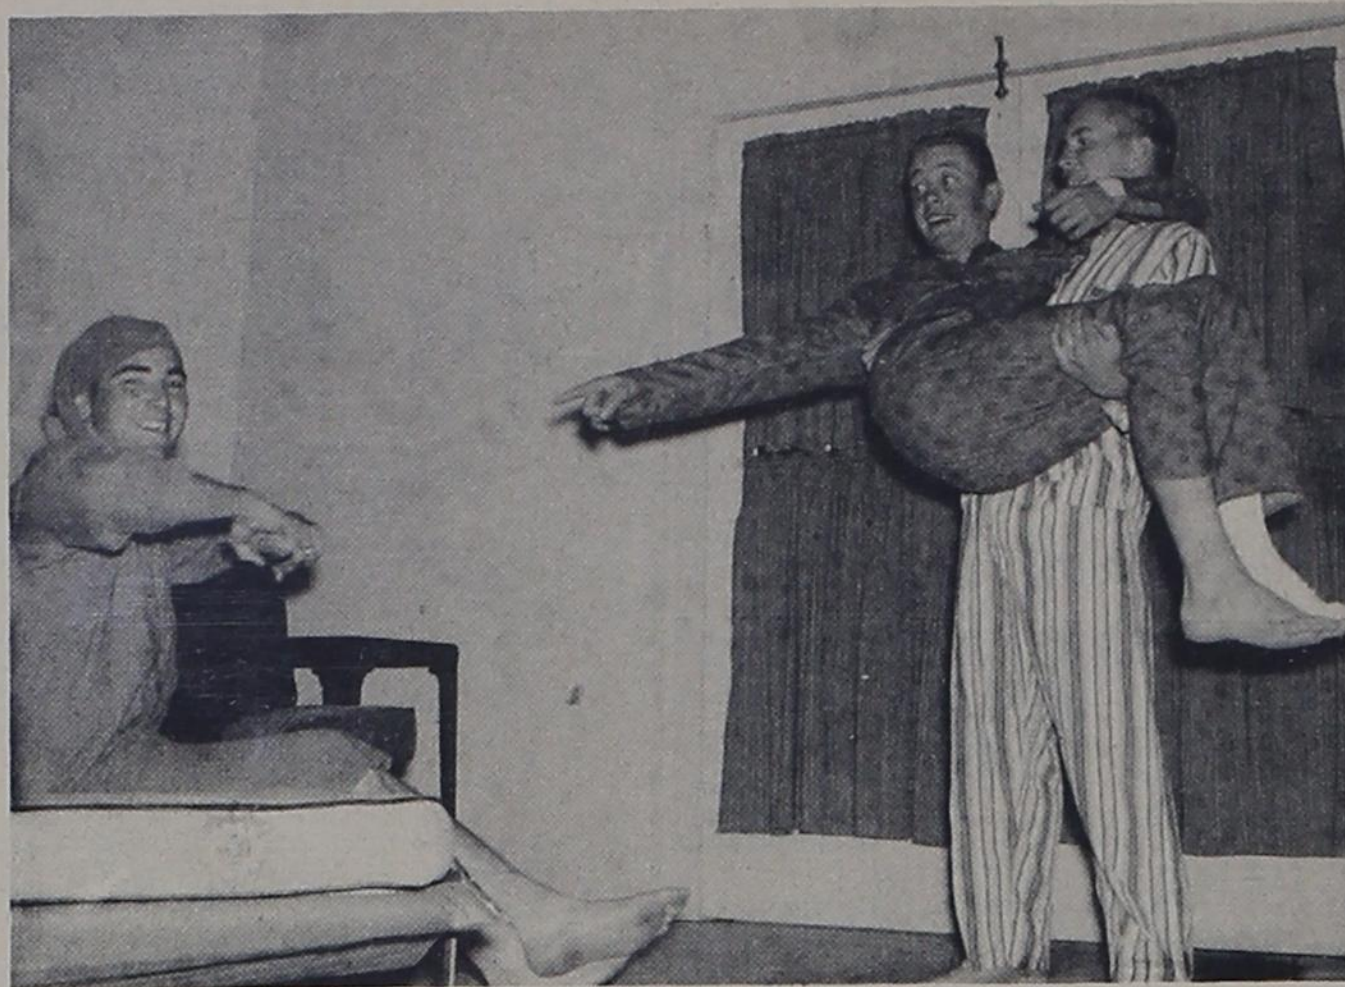

(Continued From Page 1)

Texico Firemen and the Texico-Farwell Lion's Club.

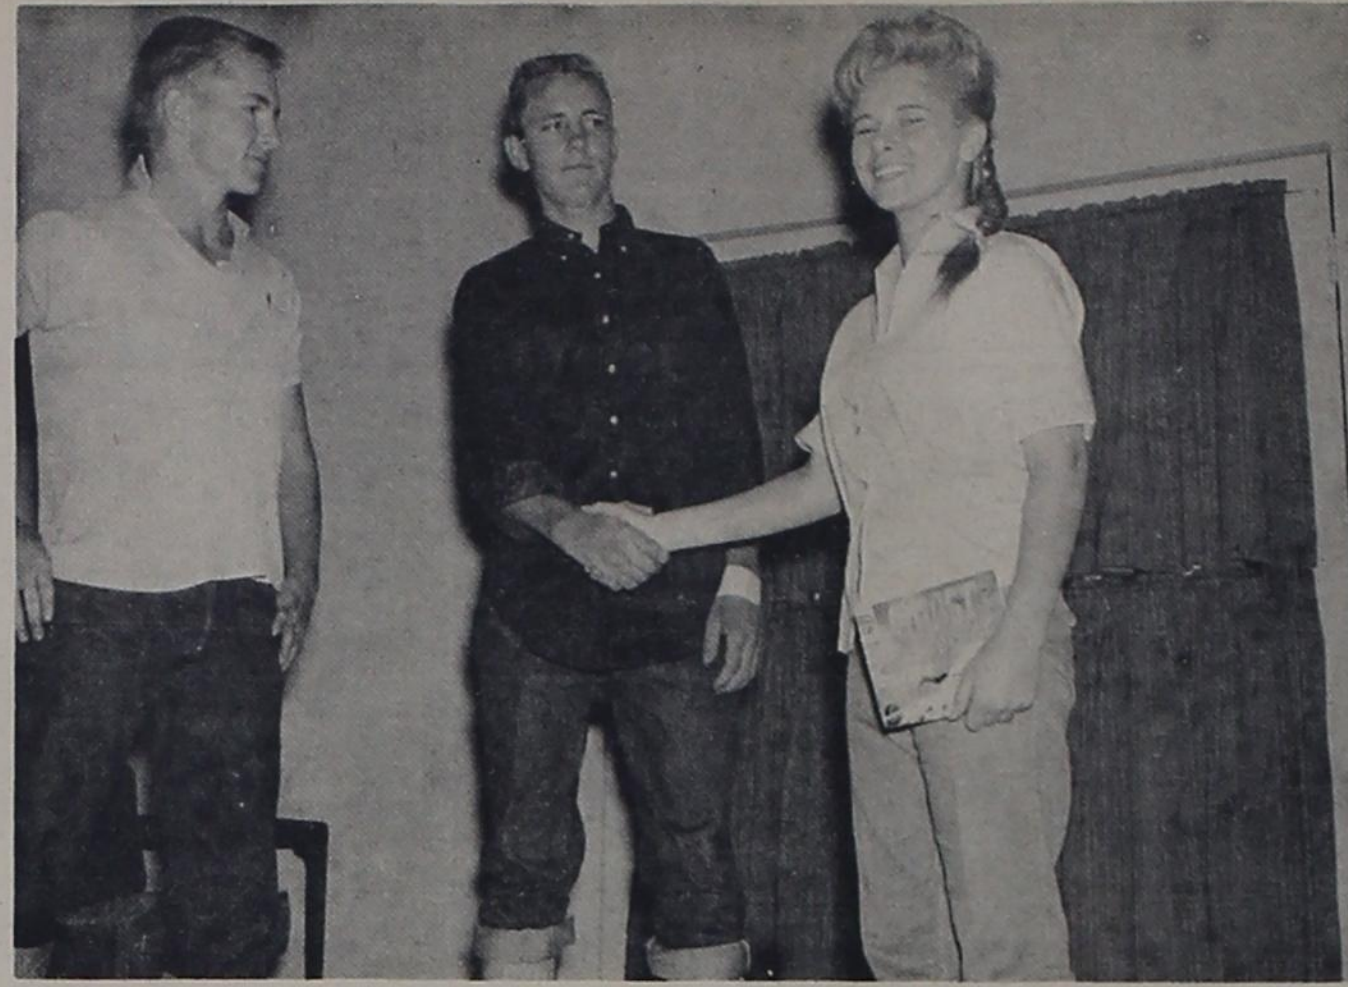

Alternates to the sessions are Miss Kathleen Smith, daughter of Mr. and Mrs. Clarence Smith, Don Chandler, son of Mr. and Mrs. Thurman Chandler and Gary Farmer, son of Mr. and Mrs. Ed Farmer.

Miss Hughes, 17, has served as a member of the high school student council, is a member of the science club, was chosen last year as homecoming queen, is a candidate for most beautiful girl, an A team cheerleader and a member of the National Honor Society, having been installed at the end of the first semester this year. She is enrolled in bookkeeping, short-

hand I, psychology, English III, chorus, problems of democracy and economics. She is also a member of the Farwell Church of Christ.

"Her--Her--Her--there is somebody in our bed," says Wilbur Maxwell (Billy McDonald) leaping into the arms of Hercules Nelson (Barry McCuan) for protection as he points to Mr. Quigley (Bobby Atkinson) who is resting comfortably in their bed.

Up until last year they thought I was a boy says Frankie (Dianne Fullerton) as she is introduced to Wilbur Maxwell (Billy McDonald) by her cousin Hercules Nelson (Barry McCuan) in a scene from the senior play to be presented at the Farwell High School auditorium, tonight (Friday) 8 p.m.

WAYNE HUDNELL

JACKIE HUGHES

TERRY NIECE

hand I, psychology, English III, chorus, problems of democracy and economics. She is also a member of the Farwell Church of Christ.

Wayne Hudnell 17, is presently serving as president of the student body, was recently elected to the presidency of district IV of New Mexico Student Councils, is a member of the science club, is parliamentarian of the honor society, and served as president of the junior class, prior to his resignation early in the year. He is enrolled in world history, algebra II, physics, problems of democracy, English III and physical education.

He is an outstanding athlete playing on the softball and basketball teams and one of the outstanding members of the track team. Recently he was a member of the 440 relay team which set a new record at the Menual Relays and he set a new individual record at the same track meet in the 440 dash. He was also second high point individual at the meet. Wayne is also an honor student, with his name appearing consistently on the honor roll.

Terry Niece, 16, has been a student in the Texico School for some eight years. He is a member of the student council, the honor society, which he serves as treasurer, is president of the junior class, since the resignation of Hudnell early in the year. His name also appears on the school honor roll consistently.

Niece does not participate in athletics although he is a spectator at all games. He has until recently been employed in a Clovis grocery store. Terry is enrolled in problems of democracy, bookkeeping, algebra II, English III, psychology and physics.

Workshop

All Texico-Farwell residents interested in checking their family history are invited to a workshop at the Mary E. Bivins Memorial Library in Amarillo, April 20, 10 a.m.

Farwell Srs. --

(Continued from Page 1)

Martin) also thirteen, (she too is cute and sweet), and the bright spot in Hercules' usually blackened eye.

Frankie (Dianne Fullerton) Celeste's little sister (probably about eleven), a live-wire, who loves mystery stories; Aunt Mary (Margaret Haseloff) Hercules' aunt, who has her hands full with her brood, and especially with the capers of Uncle Bob and Granny.

The one stabilizing factor in the whole house is Uncle Bob (Dean Crume) and although a mortician he's jovial, loves his

family and loves a good time and a good joke as well as anyone.

Granny (Jeannie Pettigrew) Uncle Bob's grandmother, is a ball of fire, full of life and always cracking jokes. Mr. Quigley (Bobby Atkinson) is over 75, quite a hep-cat and more concerned about this than the attempt made on his life. Dr. Brown (Joe Reed) has a good disposition which nicely matches his winning smile.

Madeline (Jeree Summers), Mr. Quigley's sister, is austere, has penetrating eyes and gives the impression of never having smiled. Harry Schuster (Ronnie Reed) is a lawyer, and friend of Made-

line, he is suspicious-looking, flighty, fidgety and nervous. Daphne (Barbara Conner), the maid, a quiet person, always has a smirk on her face. Claude (Ricky Cooper) is the caretak-

er. Quite friendly, he loves to talk and joke, is always talking with a high-pitched slow drawl. For an evening of hilarious entertainment be sure and see "Finders Creepers".

CHRISTIANITY

Is The Bulwark of Our Way of Life

DOUGLAS GOSSETT

THE AIM OF CHRISTIAN FAITH

"Now the end of the commandment is charity out of a pure heart, and of a good conscience, and of faith unfeigned." I Timothy 1:5

Paul the apostle was charging the young preacher Timothy to avoid the jangling kind of discussion about religion which has to do with mere speculation and "godless controversies." He pointed out that the end of God's commandments to man is love. If religion for us does not result in the love of God and the love of our fellow man, we are no better off than those who claim no religious faith at all. Religious wars, fought with words or swords, are a disgrace to the religion we claim. Faith in Jesus Christ as Saviour and Lord, genuinely practiced, will make men brothers instead of enemies.

In I Corinthians 13, Paul declares that all our "speaking," all our "knowledge," all our "faith," and our sacrifices or "gifts" in the name of religion will result in gaining us "nothing," if the result of those things is not "charity," or love. "For he who loves his neighbor has fulfilled the law." Romans 13:8. "You shall love the Lord your God with all your heart . . . and You shall love your neighbor as yourself," Jesus said. Matthew 22:37-40.

In America we have the freedom to propagate the religion we believe in. We are glad of this. But there is a question every one should ask himself. Does my religious faith result in such love as the New Testament teaches? "Therefore, since we are justified by faith through our Lord Jesus Christ . . . the love of God is shed abroad in our hearts by the Holy Spirit which has been given to us." Romans 5:1,5.

FHA Week Observed By Texico Chapter

Members of the Texico Home-making Department observed National FHA week April 8-12 by extending several courtesies to faculty members.

Monday each of the teachers in the school system was presented with a red rose for his or her desk, and on Wednesday

afternoon a tea was given honoring teachers, school board members and their wives, luncheon personnel and custodians in the school.

The special observances will terminate with a meeting for all interested high school students Tuesday, April 16, 8 p.m. at

which time a film "Dropouts" will be shown.

The Texico FHA members recently attended a state convention of FHA members and learned of some of the things other organizations throughout the state are doing. The state organization has a total of 2934 members of which 23 live in Texico.

The FHA organization motto is "Toward New Horizons" and has as its purpose to promote international good will, to create leadership in the home and in the community, to work for the good of the home, to emphasize the importance of worthy home membership, to provide wholesome individual and group recreation and to further interest in home economics.

Officers of the Texico Chapter are Georgina Lambert, Shirley Huber, Wanda Eshleman, Cynthia Spence, Jean Morris, Lucille Halsell, Faye Martin, and Kathleen Smith. Sponsor of the local group is Mrs. Lillian Allman.

Easter Visitors

Mr. and Mrs. Earl Harrison and daughters, Abilene, spent the Easter weekend visiting in the homes of his brothers Virgle and Paul Harrison, Texico and in the home of his parents, Rev. and Mrs. B. B. Harrison, Clovis. Harrison is an instructor at Hardin-Simmons College.

Mr. And Mrs. Wayland D. Thomas

At Home In Clovis Following Wedding

At home at 605 Lea St., Clovis following their April 12 wedding are Wayland D. Thomas and his bride, the former Lola Jean Morris.

The couple was married in a candlelight ceremony, 8 p.m. at the Texico Baptist Church by Rev. C. C. Morgan, pastor of Forrest Heights Baptist Church, Clovis and former pastor of the Texico church.

Parents of the couple are Mr. and Mrs. J. O. Morris, Texico and Mr. and Mrs. O. G. Thomas, 509 Thomas St., Clovis.

Double ring vows were exchanged before an altar arrangement of cathedral windows centered by a large bouquet of white gladioli and pom pom mums. At either side of the cathedral windows were seven branched candleabra, entwined with greenery and white nylon roping, holding white tapers. Flanking the candleabra were palms. Centering the altar setting was a white wrought iron kneeling bench entwined with ivy and nylon roping. Nose-gays of white carnations marked family pews.

Candles were lighted by Floyd Morris, brother of the bride and Zadene Burris.

Miss Carol White, organist and a classmate of the bride, played soft nuptial music preceding the ceremony and accompanied Miss Judy Tharp, also a classmate of the bride as she sang "Because" and "Bless This House."

Serving his friend as best-man was Kenneth Aklen, Clovis. Maid-of-honor was Miss Shirley Huber, classmate and close friend of the bride. She wore a street length, sheath dress of orchid brocaded taffeta, styled with a round neckline and cap sleeves. Her headpiece was a whimsy hat made from orchid tulle. She carried a colonial bouquet of white carnations, tied with orchid satin ribbon. White accessories completed her attire.

The bride, who was given in marriage by her father, chose a floor length bridal gown of white tulle with pointed overlays of Chantilly lace emphasizing the softly flaring skirt. The dress was styled with a fitted bodice, extending to a point at center front, a scalloped neckline, outlined with sequins and long sleeves tapering to petal points over the wrists.

Her fingertip veil of white tulle fell from a tiara of seed pearls and rhinestones. She carried a cascade bouquet of white carnations and pom pom mums, tied with white satin ribbon, atop a white Bible, borrowed from Mrs. Max Frazier, a cousin of the groom.

Mrs. Morris, mother of the bride chose for her daughter's wedding a navy blue suit with

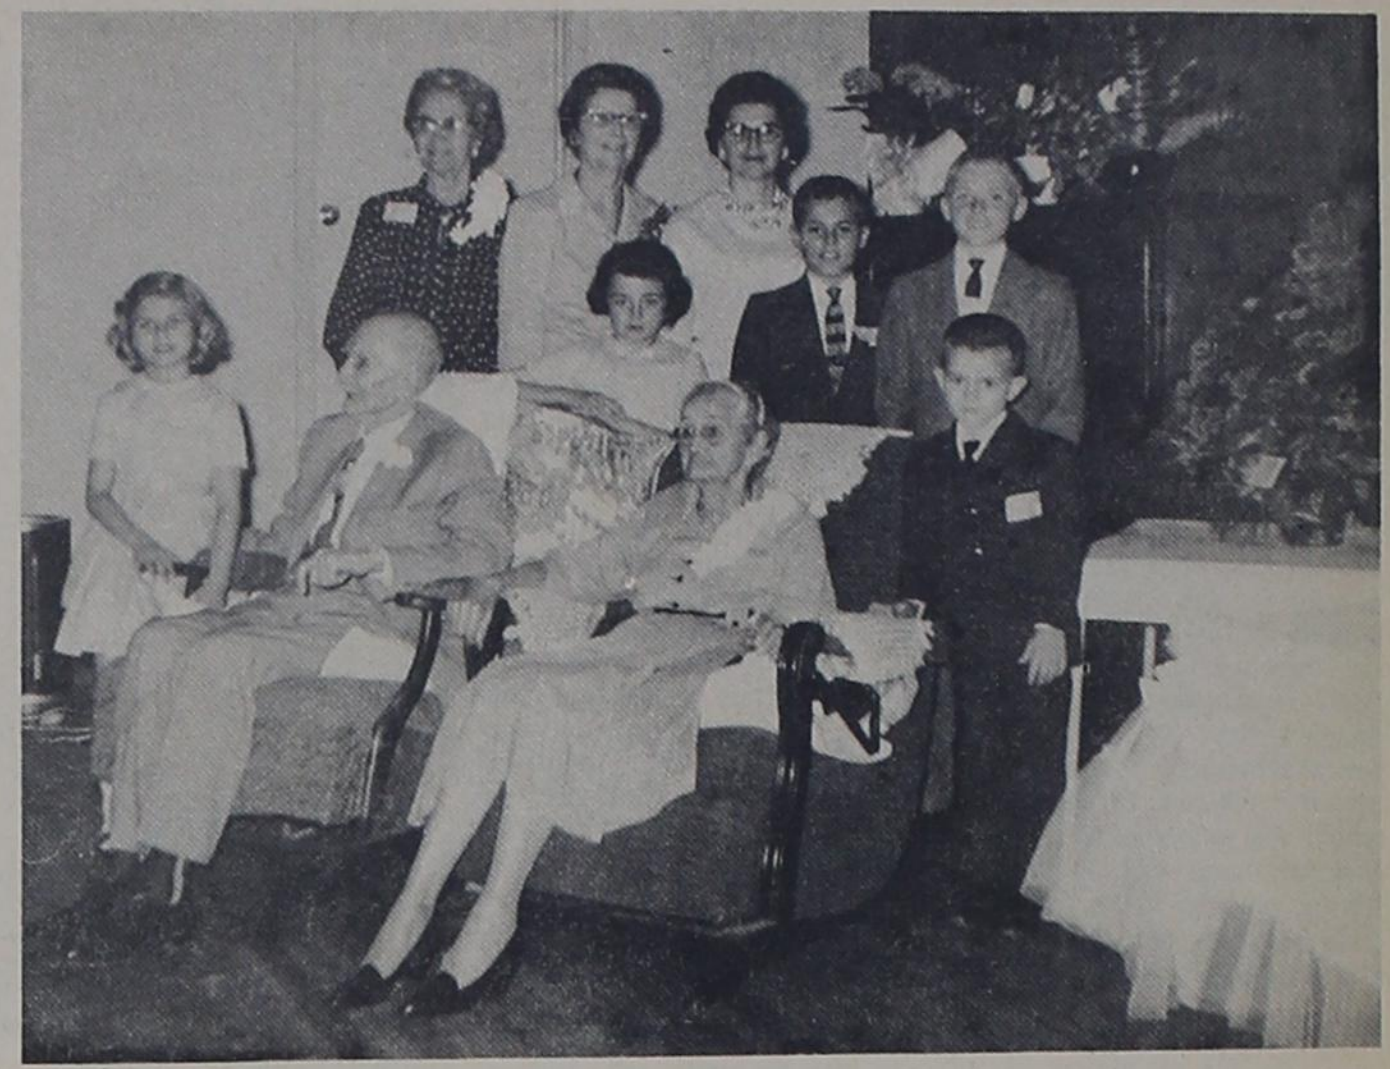

white accessories and a corsage of white carnations.

Mrs. Thomas wore for her son's wedding a dress of navy blue with white accessories. She also wore a white carnation corsage.

Immediately following the ceremony a reception was held in the church basement. Serving table was laid with a white lace tablecloth over orchid. Centering the table was an arrangement of white carnations in a low bowl, flanked by the three tiered wedding cake, decorated with white wedding bells, and orchid flowers topped by a miniature bride and groom figurine, and the crystal punch service from which orchid punch was served. Napkins inscribed with the names "Wayland and Jean" completed table decor.

Presiding at the serving table were Miss LaNelda Williamson, Clovis and Miss Kay Rierson, Tucumcari, cousin of the bride. Miss Brenda Sims, cousin of the bride registered the guests. When the newlyweds left for a short trip, Mrs. Thomas was wearing a suit of navy blue and white, with white accessories and a corsage, lifted from her bridal bouquet.

The bride is a senior in Texico High School and plans to continue her school work. The groom attended Clovis schools and is presently employed by Clovis New Journal.

Five generations of the family of Mr. and Mrs. W. H. Blackwell are shown in the above picture. Front row, 1 to r - Janet McGuire, Mr. and Mrs. W. H. Blackwell, Jerry McGuire. Back row 1 to r, Mrs. Mollie Young, daughter of the Blackwells, Mrs. Frank Doshier, their granddaughter, Mrs. Jimmy McGuire, their great-granddaughter, Janet McGuire, Johnnie and Steven McGuire. All of the children are the children of Mrs. Jimmy McGuire, and great-great-grandchildren of the Blackwells.

Celebrate 75 Years Of Marriage

Celebrating 75 years of marriage April 8 were Mr. and Mrs. W. H. Blackwell, Littlefield, grandparents of Mrs. Frank Doshier, Texico. Mr. Blackwell is 97 and his wife is 91.

They were married in the home of Mrs. Blackwell's parents in 1888 in Arkansas. They moved to east Texas where Blackwell was engaged in farming until his retirement several years ago. He and his wife now make their home at 821 A West 9th, in Littlefield. A daughter, Mrs. Willie Bruce, makes her home with them.

Family members from throughout the United States came to help the couple celebrate the occasion with a re-

union and reception, over the weekend. In attendance was a half-sister of Mrs. Blackwell, Mrs. Myrtle Mesner, Swan, Iowa, eight of their nine surviving children and numerous grandchildren and great-grandchildren.

Five generations of the family were in attendance at the celebration. They are the parents of 13 children, have 42 grandchildren, 86 great-grandchildren and 48 great-great-grandchildren.

One son, who lives in Fairbanks, Alaska was unable to attend and family members each spoke a few words into a tape recorder and sent a recording

to him. Family members wore name tags, identifying them as daughter, son, grandchild, great-grandchild, or great-great-grandchild of the couple. Since singing is one of the favorite hobbies of Blackwell a group gathered near his chair and sang several of his favorite songs.

A pearl and white theme was carried out in decorations with large bouquets of white flowers placed in the receiving rooms. The anniversary cakes were iced in white and decorated with pearl roses. They were served with floating punch and coffee.

Members of the Littlefield church, of which the Blackwells are members, presented them with a money tree, with \$75 attached, \$1 for each year of their married life.

Telegrams and letters of congratulations were opened and read by the couple and many friends stopped for a visit with them.

Young Athletes Honored At Banquet

Young athletes of the Farwell junior high school were honored with a banquet at the high school cafeteria Friday night, when mothers of the students prepared and served a meal of dogs in a blanket, potato salad, a relish plate, homemade ice cream, and tea.

The banquet room was decorated in the school colors of blue and white. Head table was centered with an arrangement of blue and white flowers in a low white bowl. Blue and white crepe paper ropes were placed down the center of each table and colorful balloons were suspended from the ceiling.

James Craig, junior high school principal, was master of ceremonies for the evening, and introduced Mayor Sam Aldridge, speaker of the evening. He also introduced Coaches Dempsey Alexander and Bill Mayfield, who commended the athletes for their fine display of sportsmanship this year.

Craig also presented each of the girls who had played basketball on the junior high team this year with a miniature individual trophy. Approximately 65 students and special guests, Dempsey Alexander, Mr. and Mrs. Bill Mayfield, Mayor and Mrs. Sam Aldridge and Mr. and Mrs. James Craig attended the affair.

The banquet was sponsored by the high school pep club, under direction of Mrs. Amos Tatum.

Okla. Lane Has Community Social

Directors of the Oklahoma Lane Community Center were host and hostesses for a community wide progressive 42 party Friday night. Refreshments of pie and coffee were served at the close of the evening.

At a board of directors meeting held during the evening, tentative plans were made for a community chicken fry in June.

High scorer for the men in 42 was N. D. Kelso with Mrs. Harold Carpenter winning high for the ladies.

Present were Mr. and Mrs. Claude Watkins, Mr. and Mrs. Harold Carpenter, Mr. and Mrs. Delbert Garner and family, Mr. and Mrs. Lee Mason, Mr. and Mrs. Vernon Symcox and family, Mr. and Mrs. Sterling Donaldson, Mr. and Mrs. James Ensor and family, Mr. and Mrs. Lee Hutchins, Wendell Christian, N. D. Kelso and daughter, and Mrs. Lena Kelso.

Farewell Shower Honors Mrs. Cassady

Pleasant Hill Community center was scene for a farewell shower honoring Mrs. Marcella Cassady and children, who left Tuesday morning to make their home in Colorado with her parents, Mr. and Mrs. Muggs Magness, Monday night.

Hostesses for the affair were Mesdames John Range, Buck Taylor, Herman Gerles, Henry Johnke, John Lorenz, E. J. Hodges, Wayne Magness and Jim McCullough.

Attending and sending gifts were Mesdames Judge Stone, Andries Drager, John Adams, Elmer Langford, Willie Hester, O. L. Woody, Elizabeth Turner, Troy Lovett, Joe White, Eric

Pierce, Gene Boatwright, Imogene Cox, Shirley Calloway, W. L. Magness, Bertha Kelley, Homer Kelley, Robert Hale, C. A. Cassady, Dea Williams, Willie Williams, Ray Ford, Pearl Singleterry, Glenn Singleterry, Ennis Cummings, Wayne B. Stark, Bunk Phillips, Joe Magness, Hugh Frazier, Ted Magness, Joe Collier and Selma Habbinga.

Also Mesdames Floyd Bocox, Marion Walker, Dorothy Pierce, John Porter, Dale McCuan, Albert Smith, Truman Kittrell, Doyle Cummings, John Armstrong, Elmer Hargrove and Dot Chemical and Clovis Piggly Wiggly. Several children also attended.

Easter Visitors

College Students

Among college students visiting in the Twin cities during the Easter weekend were Ursel and Kit Doran, Dwight Turner, Charlie Stockton, Beth Ellen Peyton, Tommy Wurster, Loyd Allan Cain, Mike Getz, Monte and Gary Singleterry, Donna Kay Osborn, Benjy Dial, Carrol Huggins, Dickle and Tommy Williams.

Up the creek...

Being without the proverbial paddle aptly describes having your battery go dead at a critical moment. Batteries always die at the wrong time. Best way to avoid this embarrassing situation is to let your Phillips 66 Dealer check your battery frequently. He'll put in water, inspect the terminals, give it loving care. If your battery is showing signs of weakness, let us install a powerful new Phillips 66 Tropic* Battery.

Drive in and see us soon. You'll like our service...and our products!

Farwell Study Club Elects Officers

Farwell Study Club members met in regular session in the home of Mrs. Claude Coffey, Monday night with Mrs. Clytie Dial, club president presiding over the business meeting, in which a report of the nominating committee was heard.

Mrs. Clarence Christian reporting for the committee, presented the names of Mrs. Clytie Dial, president, Mrs. Bruce Blair, secretary, Mrs. A. R. Sander, first vice-president, for a second term in their respective offices. In addition to which the names of Mrs. L. R. Vincent, treasurer, Mrs. T. J. Glenn, reporter, Mrs. John Boling, parliamentarian and Mrs. Claude Coffey, counselor were

presented for election. All ladies were elected by a unanimous vote of club members.

Mrs. T. J. Glenn gave a coverage report of the Federated Club's District Convention held in Lubbock, which she and Mrs. Sander attended.

Mrs. John Aldridge explained the work of the Parmer County Cancer Society, and extended a cordial invitation to club members to attend the meeting of the society, which are held at the courthouse on the first Wednesday of each month, 2 p.m. The Study Club voted to sponsor the cancer drive in Farwell in late April.

A film "At Dawn's Early Light" was shown which reviewed the history of the scientific discovery of atomic energy and stressed its possible use in the progress use of mankind.

Hostesses Mrs. Coffey and Mrs. Glenn assisted by Mary and Martha Coffey served ice box pudding and coffee to Mesdames John Aldridge, J. L. Bass, True Bell, Bruce Blair, John Boling, C. C. Christian, Ralph Franse, M. T. Glasscock, Mable Reynolds, Asa Smith, L. R. Vincent and Miss Maude Hicks.

Johnsons Visit In Oklahoma

Mr. and Mrs. Russell Johnson of Texico were in Stillwater, Okla. over the Easter weekend where they were guests in the home of their daughter and son-in-law, Mr. and Mrs. Jack Hesser and Randy.

Joining them on Easter Sunday for a reunion and to celebrate the birthday of Russell Johnson were all of their children and Mr. and Mrs. Ival Hesser.

Attending the celebration were Mr. and Mrs. Cecil Dykes and children, Amarillo; Mr. and Mrs. Bill Johnson and family, Alva, Okla.; Mr. and Mrs. Jerry Johnson and daughters, Canadian; Don Johnson, Stillwater and Mr. and Mrs. Jack Hesser and Randy and the honoree and his wife, Mr. and Mrs. Russell Johnson.

THDA Convention Held In Friona Last Week

Around 300 women attended the annual spring meeting of District 1 of the Texas Home Demonstration Association at Friona Thursday.

"This is the most responsible moment in our history. We as homemakers must make our voices heard over the clamor of the world," challenged Mrs. L. M. Parker, THDA state secretary from Liberty Hill.

Mrs. Parker was one of two state THDA executives present for the meeting. Also on hand was Mrs. Gladys Kolander, College Station, the state home demonstration agent.

"The only people who are free and can remain free are those who are worthy of it," said Bob Wear, Church of Christ minister from Canyon who was the main speaker for the convention.

"We must not be remembered as the generation who lost our most cherished heritage -- our freedom. Our real strengths and riches are going to have to be found in the moral and spiritual values of our people," Wear told the group of ladies.

Raymond Fleming, mayor of Friona, presented greetings to the group. Judge Loyde Brewer gave the welcome, and interjected some points on the history of Parmer County.

Workshops were conducted on citizenship, family life, civil defense, health and safety, and 4-H work.

An address "How THDA

THDA OFFICIALS . . . These women had an active part in the district convention of the Texas Home Demonstration Association last week in Friona. Standing are Mrs. R. A. Hodges, district director, and Mrs. Vernon Symcox, county THDA chairman. Seated are Mrs. Floyd Brookfield, who served as songleader for the general session, and Mrs. John D. Sanders, co-chairman with Mrs. Symcox for the convention.

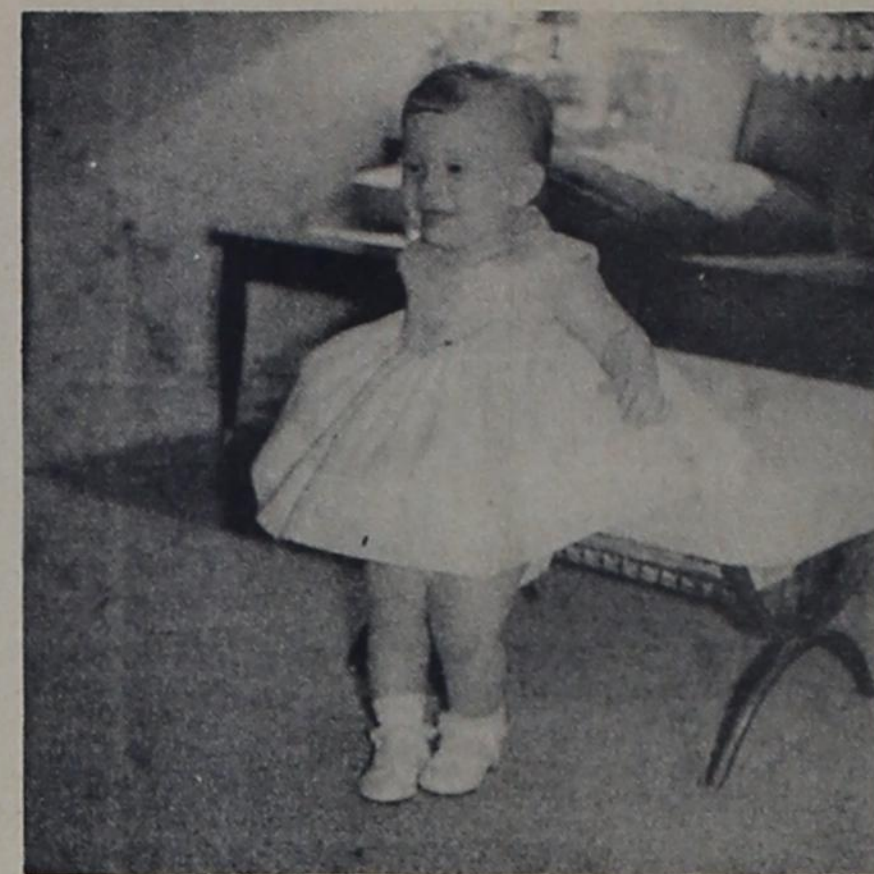

Debra Prather Honored With First Birthday Party

Little Miss Debra Darnell Prather, one year old daughter of Mr. and Mrs. E. C. (Red) Prather, was center of attraction at a party held in her honor marking the event of her first birthday Monday evening.

She was dressed for the occasion in a dress of sheer blue and white accented by a pastel blue can-can. She was assisted in opening her gifts by her parents. Special gifts were a toy chest, busy box and portable TV and Radio (which plays Jack and Jill).

A pink, blue and white color scheme was carried out in room decorations. Serving table was laid with a pastel pink linen tablecloth and centered by a tall birthday candle, which will burn on each of her succeeding birthdays until she reaches 21. Flanking the candle were the birthday cake and a crystal punch service. Napkins and silver completed table arrangements.

The birthday cake was iced in pink and centered by a doll whose skirt was pink with blue trim. The cake was served with ice cream, punch or coffee to Messers and Mesdames Joe Helton, Johnnie Leslie, Johnny Wright, Troy Prather, and Mrs. Tom Hammick, Mrs. Jack Mahoney, Mrs. Dale Kemp, Hal Ed Helton, Everett and Belinda Prather.

DEBRA PRATHER

Visit In Lovington

Mr. and Mrs. Buck Doran, accompanied by their sons Urssel and Kit, who are visiting here over the Easter vacation with their parents, were in Lovington over the weekend visiting in the homes of Mr. and Mrs. J. D. Doran and Mr. and Mrs. Bennie Doran.

They were accompanied home by Mrs. W. S. Marley, mother of Mrs. Doran, who will spend the next several days visiting here.

Urssel Doran returned to his studies at New Mexico State University Las Cruces on Monday; however Kit will remain here until the end of the week before returning to his studies at University of New Mexico, Albuquerque.

Odd Size? Unusual Taste? Special Need?

No doubt about it... some of the out-of-town buying that drains off tremendous amounts of our community's economic life-blood is unavoidable. If it takes some unique size of clothing to fit us, or if the particular brand of toothpaste or bubble gum that we like is not popular with other people in this area, then we may well have to go somewhere else to get these items.

But sometimes we're not really as odd in size, nor as different in our tastes or needs as we think... and most of the time our home stores do have the things we want; they just haven't told us about them, or we haven't asked for them recently.

Actually, it's pretty expensive to spite our neighbor in business by going off somewhere else to trade if he doesn't have exactly what we want. It hurts not only him but ourselves... because this is our community, too, and our jobs, our businesses, our property values, our schools, our churches and our economic welfare depend on the volume of trade that stays at home. We share in the prosperity... or in the failure... of every enterprise in our neighborhood.

So let's ask at home first for everything we need... ask repeatedly, if necessary. It will insure better service, and more prosperity for all of us.

THE STATE OF TEXAS

To: HERLINDA HERRERA Defendant, Greeting:

You are hereby commanded to appear by filing a written answer to the Plaintiff's Petition at or before ten o'clock A.M. of the first Monday after the expiration of forty-two days from the date of the issuance of this citation, same being Monday the 6th day of May 1963, at or before ten o'clock A.M. before the Honorable District Court of Parmer County, Texas, at the Court House of said County in Farwell, Texas.

Said Plaintiff's Petition was filed in said court, on the 20th day of March A.D., 1963, in this cause, numbered 2358 on the docket of said court, and styled, RODRIGO ROBLES HERRERA Plaintiff, vs. HERLINDA HERRERA Defendant.

The names of the parties to the cause are as follows: RODRIGO ROBLES HERRERA is Plaintiff and HERLINDA HERRERA is Defendant.

A brief statement of the nature of this suit is as follows, to wit: Suit for divorce, Plaintiff alleging that he and Defendant were married in the Republic of Old Mexico in 1954 and again in 1956, and that because of wrongs on the part of Defendant

ant toward Plaintiff, Plaintiff permanently separated himself from Defendant, and praying for divorce and severance of bonds in matrimony, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Farwell, Texas, this 20th day of March A.D. 1963.

Attest: Dorothy Quickel Clerk, District Court, Parmer County, Texas

(SEAL) Published in The State Line Tribune March 29 and April 5, 12 and 19, 1963.

NOTICE TO BIDDERS
Parmer County will accept bids until 10:00 o'clock a.m. on May 13, 1963 at the office of the County Judge for the purchase of one new motor grader, with not less than 150 horsepower diesel engine and

Five Rural Accidents For County In March

The Highway Patrol investigated five rural accidents in Parmer County during the month of March, according to Sergeant W. E. Wells, Patrol Supervisor of this area.

These wrecks accounted for two persons injured and an estimated property damage of \$3,305.

The rural traffic accident summary for Parmer County from January through March of 1963 shows a total of 30 crashes resulting in no persons killed, four persons injured and an estimated property damage of \$11,474.

Each year, with the coming of

April, it seems natural for motorists to want to get back out on the highway and enjoy the invigorating atmosphere and colorful countryside. Many of these motorists are apt to forget that increased violations of traffic laws play a vital roll in the annual traffic accident toll.

The motorist should realize that highway travel multiplies by leaps and bounds in April. The Sergeant stated, "What better time than April to remind motorists, pedestrians, and all street and highway users about the importance of knowing and obeying traffic laws."

County Men Attend Draw Project Meet

Several Parmer County residents attended a meeting of the Steering Committee of the Running Water Draw Watershed project in Dimmitt Tuesday night.

The committee was making final plans for its priority hearing with the State Soil Conservation Board next Wednesday. The hearing will determine how far "up the ladder" the five-county, two-state project will be placed.

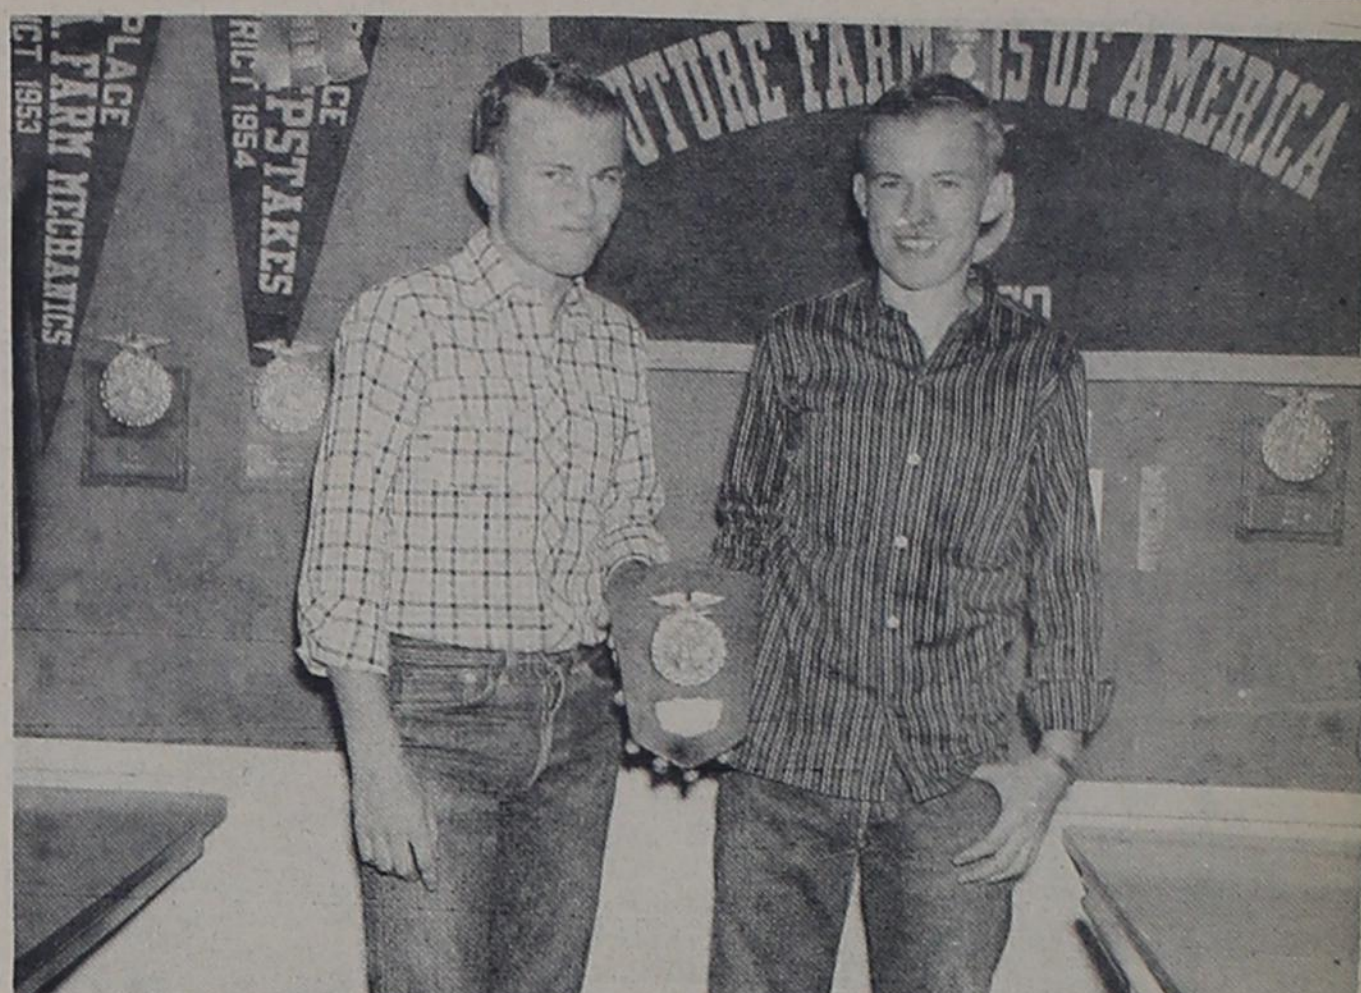

There are many such projects which have made application through the State Soil Conservation Service, but the local project is the largest in land area, it was pointed out Tuesday.

A priority hearing is necessary to see if the planning and

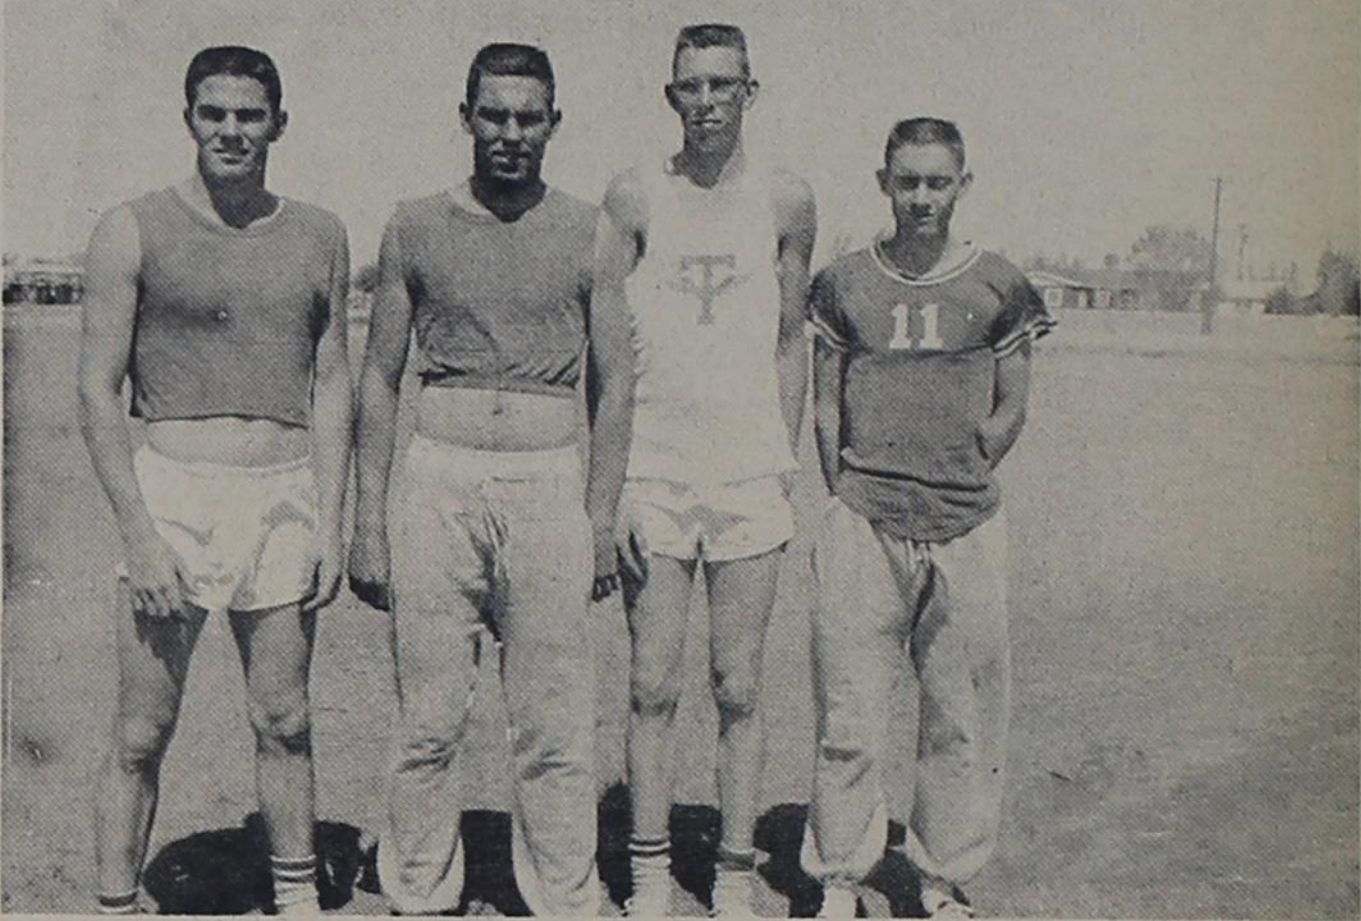

gasoline starting motor, to be equipped with 14x24:00 tires front and rear, tandem drive with cab and heater, head lights and windshield wipers, and with 14 foot moldboard with two foot extension. Successful bidder will be required to accept in trade a used No. 12 Caterpillar Motor Grader, which may be inspected at the county warehouse at Lazbuddie, Texas.

Parmer County reserves the right to reject any and all bids, or to accept the bid deemed the most advantageous.

Loyde A. Brewer
County Judge

Alan (left) and Jimmie Hill, members of the poultry team which recently won second place at the New Mexico State FFA judging meet, proudly display the trophy won by the team. Lynn Doshier, other member of the team was unavailable for a picture. Jimmie Hill was also third high individual in the judging of poultry in the state and received a nice award for his efforts.

Breaking records at the Menual Relays in Albuquerque in the 440 and 880 relays were the Texico Relay team composed of (1 to r) Vic Harrington, Hal Ed Helton, Bill Campbell and Wayne Hudnall. Time for the 440 was 46.4 and time on the 880 relay was 1.36.

Results Of Junior High Track Events

Following is a list of winners in the Farwell 7th, 8th grades and freshman boys track and field meet held recently. Boys in the 7 and 8 grades placed second at the meet with freshman boys placing fourth. Coaches for the teams are Bill Mayfield and Bill White.

Seventh grade results: 100 yard dash - 3rd - Bobby Chadwick; 440 dash - 1st - Larnece Bryant; 75 yard dash - 1st - Alfredo Flores; 660 dash - 1st - Larnece Bryant; low hurdles - 1st - Louie Bradshaw; high hurdles - 2nd - Louie Bradshaw; 220 dash - 1st - Alfredo Flores; 3rd - Tim Crume; 6th - James Symcox; 880 relay - 1st - (Bobby Chadwick, Louie Bradshaw, Tim Crume, Alfredo Flores).

Chin - ups - 2nd - Alfredo Flores; high jump - 2nd - Louie Bradshaw; pole vault - 2nd - Bruce McCuan; broad jump - 2nd - Alfredo Flores - 6th - Larnece Bryant and discus - 4th - Tim Crume.

Total points garnered by the boys in the seventh grade was 132.

Eighth grade results: 100 dash - 2nd - Bobby Fields; 50 yard dash - 2nd - Joe Castillo;

5th - Johnny Schell; 440 relays - 2nd (Joe Castillo, Gary Sullivan, Harold Sanders and Buddy Fields); Low hurdles - 2nd - Jerry Ford; 4th - Johnny Schell; high hurdles - 1st - Charles Wade Norton; 2nd - Johnny Schell and 5th - Jerry Ford.

220 dash - 2nd - Gary Sullivan; 3rd - Harold Sander; 880 relay - 1st - (Joe Castillo, Jerry Ford, Bobby Field and Gary Sullivan); Pull-ups - 1st - Charles Norton; shot put - 2nd - Bobby Field; 5th - Gary Sullivan; high jump - 5th - Jerry Ford; pole vault - 1st - Charles Norton; discus - 2nd - Bobby Fields.

Total points 158.

Freshman team results: high jump - 1st - Charles Dannheim; pole vault - 1st - Doyle Johnson; 3rd - Charles Dannheim; broad jump - 1st - Doyle Johnson; discus - 3rd - Charles Dannheim; 660 run - 1st - Charles Dannheim; 5th - Jimmy Mace; 60 yard high hurdles - 4th - Hobby Coffman; 50 yard dash - 6th - Bill Roberts; chin-ups - 3rd - Lewis Thomas; 880 relay - 4th - (Doyle Johnson, Lewis Thomas, Hobby Coffman, Danny Helm); 100 dash - 3rd - Doyle Johnson; 220 dash - 4th - Doyle Johnson.

Ordinarily, anythin' whispered 'r shouted isn't worth listenin' to.

"SEARCH THE SCRIPTURES" YOUR CONVERSION

INSTRUCTIONS: Read Jn. 5:39; Acts 17:11. Then, draw a line from each case of conversion to what the Bible says THEY did. Then draw a line from "YOU" to each thing YOU did to be saved.

JESUS Ac. 2:36-47	For example: "GOT RELIGION"
SAMARITANS Ac. 8:5-12	SAVED BY FAITH ONLY
SIMON Ac. 8:13	PRAYED THROUGH
EUNUCH Ac. 8:35-39	HEARD THE GOSPEL
SAUL Ac. 9:3-18; 22:16	BELIEVED
CORNELIUS Ac. 11:13-18; 15:7; 10:48	REPENTED
LYDIA Ac. 16:13-15	CONFESSED CHRIST
JAILER Ac. 16:30-34	BAPTIZED
CRISPUS Ac. 18:8; 1 Cor. 1:14	LORD ADDED TO CHURCH
CORINTHIANS Ac. 18:8	WERE SPRINKLED
EPHESIANS Ac. 19:1-5; 18-19; Eph. 2:8-9	JOINED A DENOMINATION
"Y O U"	

Does the account of YOUR conversion compare completely with what these people did? If not, which is wrong -- YOURS, or THEIRS? Don Tarbet will be glad to assist you in following the Bible. Phone him at 481-3833. (Read Jer. 10:23; Prov. 14:12; Rom. 8:16)

Phillips Receives Rank Of Lt. Col.

Mrs. Kate Phillips of Farwell was notified this week of the promotion of her son, Carlton, from the rank of major to that of Lt. Col with the United States Army. He has been a member of the armed forces since early 1941.

Lt. Col. Phillips has served in the Pacific and the Atlantic theaters and is scheduled for reassignment early in May. He has been stationed for the past three years at Memphis, Tenn. where he has been an instructor at the University of Tennessee.

Lt. Col. Phillips has received both his BA and MA degrees while serving with the armed forces. He is married and the father of two sons.

Local Boy To Be Honored Sunday

Brad, 13-year-old son of Mr. and Mrs. Scott Billingsley, will be among the 40 students from the Panhandle honored Sunday, April 21, at the dedication ceremonies for the first section of the Southwest's first Symphonic Drama Theatre in Palo Duro Park.

Each of the students will receive an honor award and his original sketch will be placed in his school.

Brad drew the winning sketch, to represent Parmer County, in a contest recently held. The

sketch will be reproduced in stone and placed at the entrance to the theatre along with the 39 other county winning sketches. The contest was sponsored locally by the Parmer County Study Clubs and the Texas Panhandle Heritage Foundation.

All County officials along with other persons who have worked on the project will be recognized at the Sunday ceremonies.

Principal speaker will be R. B. Johnston, an Amarillo educator and noted Panhandle historian.

Texico Church Presents Cantata

Members of the Texico Baptist Church choir under direction of R. O. Johnston, music director at the church, presented a cantata Sunday evening at the regular church hour. Featured as soloists were R. O. Johnston, Mrs. Murray White, Kathy White, Wayne Hudnall and Buddy Pearce.

Mrs. Ruth Reid and Mrs. Olan Schlueter were featured in a trio.

Narrator for the cantata was Rev. Harvey Hudnall and Miss Carol White was pianist.

Annual Egg Hunt At Methodist Church

Children of the Nursery and Kindergarten departments at Hamlin Memorial Methodist Church staged their annual Easter egg hunt Saturday afternoon at the church. Games were played and the egg hunt was enjoyed after which refreshments were served to the children and parents attending by the department teachers.

Children attending were Kim and Kristi Magness, Cindy and Kayle Watts, Donna and Danny Campbell, Joe Kirk, Robert and Mike Roark, Brad and Russell Jones, Truitt and Shawn Smith, Allen Warren, Peggy and Boyd White, Jeanette Morton, Mark Howard, Deana Williams, and Toby Curtis.

Mothers attending were Mesdames Dargin Kirk, Joe Roark, Roy Campbell, A. V. Warren, Loyd Smith, Joe White, M. A. Snider Jr., and W. D. Howard Jr.

Teachers are Mrs. Ann Smith, Billy Watts, Robert Morton and Joe Jones. Misses Kim Snider, Jean and Donna Kirk helped with games and hiding the eggs for the egg hunt.

Mr. and Mrs. W. H. (Pop) Spurlin are hospitalized in Clovis Memorial Hospital suffering with pneumonia. They are expected to be released from the hospital later this week.

JOTTIN'S By Jeanne

In my "nice to know" department, I'd include Wanda Walker. She is always pleasant and has a smile for everyone.

Noticed: Workmen busy at the new Farwell city park, working on the next step on the park table and benches.

Grass turning green and townspeople working in the yards -- on days when the wind isn't blowing.

Jean Prince wearing the most gorgeous hat on Easter Sunday. Kids talking about the short time remaining before school will be dismissed for the summer.

The time is almost here for the annual May Day program at Farwell schools.

That soon another group of young people will be graduating from Texico and Farwell high schools and wondering what the future holds for these very special young people.

A few people rushing madly to comply with two deadlines April 15 -- income tax and car inspection.

Another rabbit that the friendly stray dog that adopted the Grahams likes to bring to the yard.

That a chat with Sally Whitesides always encourages me to do that job I've been postponing -- she is one busy person.

The humor of Liz Phillips who can tell an anecdote as well as anyone I know.

That we are fortunate to live among wonderful people who are interested in those around them.

Reunion Of Medley Family Easter Sunday

A family reunion was held in the home of Mr. and Mrs. G. L. Medley in east Farwell, Easter Sunday, when all of their children and grandchildren were home. Some 31 members of the family attended.

The family attended church as a group Sunday morning and returned to the Medley home where dinner was served. In the afternoon an Easter egg hunt was enjoyed by the children. A prize egg was hidden and a prize presented to the finder of the egg. Pictures were made throughout the day.

Attending were Mr. and Mrs. Jack Medley, Mike and Carol, Oklahoma City; Mr. and Mrs. Bennie Christian, Garry and Terry, Odessa; Mr. and Mrs. Billy Medley, David and Debbie; Mr. and Mrs. Johnnie Fleming, Greg, Pam and Sandra.

Attend Track Meet, Visit Hudnall Home

Visiting in the home of Rev. and Mrs. Harvey Hudnall, and Wayne, in Texico Friday were Mr. and Mrs. Johnnie Warrick and daughter, Renee, Las Vegas; Mr. and Mrs. T. J. Coston, Terry, Annette and Debbie of House. They attended the Texico Invitational track and field meet.

Debbie remained in the Hudnall home for a week's visit.

Easter visitors in the Hudnall home were Mr. and Mrs. George Poteet and children, Spade, Mr. and Mrs. Robert Johnston and children, Lubbock; Mr. and Mrs. Claud Heath, Lazbuddie, Mr. and Mrs. Robert Harmon, Portales and Mr. and Mrs. Johnnie Warrick and Renee, Las Vegas.

Most of the group attended church at the First Baptist Church in Texico, Sunday morning, with several family members remaining for the Easter Cantata presented at the church Sunday night.

Sunday afternoon the group visited the zoo in Clovis.

Girls Invited To Try Out For "Queens"

All senior girls in the area who are interested in attending Wayland College and playing basketball with the Hutcherson Flying Queens are invited to tryout for a berth on the team April 20, 2 p.m. and 6 p.m. Scholarships are awarded for a one year period on a players basketball ability and her academic record. They are renewable each spring on that basis.

Girls planning to attend the April 20 tryout should contact Harley J. Redin, director of athletics at the college for reservations.

Girls will stay in the dormitory and eat at the school cafeteria as guests of the college; however they will be required to furnish their own linens and practice equipment.

dra; Mr. and Mrs. Lee Nutt, Ken, Karen and Calvin, all of Clovis; Mr. and Mrs. Nell Hendrickson, Jeannette and Steve and Mr. and Mrs. Donnie Powell and Jay, all of Farwell and the host family Mr. and Mrs. G. L. Medley.

Jay Powell, the only great-grandchild of the Medleys, was the center of attention at the family gathering.

Baseball Workouts At Farwell School

Baseball workouts at Farwell High School got underway Tuesday with the local team scheduled to face a heavy schedule this season.

All local games for the team will be played at Bell Park, Clovis at 3:30 p.m. (est) unless a change in time and place is announced by Coach Bill Mayfield, previous to the scheduled game.

Teams in the league with Farwell include Petersburg, Silverton and Lorenzo.

A complete schedule of games follows:

April 23: Farwell at Silverton; April 26: Lorenzo at Farwell; April 30: Farwell at Petersburg; May 3: Silverton at Farwell; May 7: Farwell at Lorenzo and May 10: Petersburg at Farwell.

Pearce --

(Continued from Page 1)

A new budget was drawn, expenses "pared to the bone," and with prudent fiscal policies, in addition to some state support from "emergency fund" sources, officials hope to bridge the gap at the same time they advance teacher pay increases to make the local scale competitive with other schools of this area. A \$125 increase per teacher was included for next year.

Texico, along with some other smaller districts, finds itself at a strong disadvantage in distribution of school tax monies under the new method primarily because of the disproportionate number of elementary students as a ratio to high school students. This is a typical situation in smaller schools.

The theory upon which the Weir formula is based is that it is more expensive to educate high school students than younger pupils.

Bob Scott Anderson, who underwent surgery on his leg last week returned to his home Saturday and was able to return to school this week.

Miss Laura Temple, who suffered a broken arm in a fall last week has returned to her home in Farwell and is resting well.

Pickup Taken From Company

A 1951 GMC pickup-truck was stolen from the Friona Motors lot last Thursday. A salesman for the company, Darrell Read, reportedly met the vehicle while enroute from Bovina to Friona, where he intended to get the pickup for a customer.

Read spotted the vehicle about 9 a.m. Thursday, and thinking some one else had already sold the pickup, didn't think too much about it. It wasn't until about noon Thursday that company officials realized the vehicle had been stolen.

THIS IS YOUR INDIAN! from Paymaster

Comanche is the new early maturing hybrid--earliest now being produced by Paymaster Seed Farms. It is widely adapted and is especially recommended for early plantings and early harvest. Also, it may be planted late as a second crop with satisfactory yields.

Comanche has short, stiff, leafy stalks, and stubble has high grazing value after the grain is harvested. Tests indicate Comanche has excellent resistance to head smut and other sorghum diseases.

Come in and let us show you how you'll profit when you plant Comanche, one of Paymaster's new Indians. See us today.

FOR WATER CONSERVATION

Hub Area To Be "Showplace Of The Plains"

By BILL ELLIS
Editor, Friona Star

THE HIGH PLAINS FARM AND HOME

A 36-section area in Farmer County is being made a "test area" by the High Plains Underground Water Conservation District. Because of this, the section, and eventually perhaps the entire county, may be able to extend its productive life by a number of years through better management of its underground water.

The Parmer County area was picked for the project for a couple of reasons. First, it was an area where waste needed to be curbed. Also, Parmer County still has a large percentage of its underground water, so that if good practices are adopted, farmers can extend the life of their water before it becomes critical.

The test area extends three miles every direction from Hub, including all farms in the resulting square of this area.

The water district authorities pointed out that Parmer County has used approximately 15 per cent of its available water supply, based on measurements in observation wells by the district since 1946.

This figure compares with percentages which are higher in many counties in the southern portion of the district. Farms in some sections are already feeling the pangs of a limited supply of water, spawning from

mis-use, and many years of irrigating with the idea that their supply was unlimited.

Parmer County began to develop its irrigation fully in the early 1950s, and just in the last 10 years has it reached its full potential.

The Parmer County project is the only one of its kind in the entire water district. If it proves profitable, similar ones may be established in other counties.

Statistics prove that something must be done. According to water table measurements by the High Plains Underground Water District, the Parmer-Castro-Deaf Smith area experienced the largest water decline in the entire district during the past year.

Water levels fell from as little as one foot in some wells to 12 and 14 feet in others.

A crew from the HPUWD has been working in Parmer County since spring watering started.

They have installed several "weirs" in barrow ditches, which measure the amount of tailwater which is being lost.

Purpose of the weirs is mostly for educational reasons. Wayne Wyatt, water district field representative, who has been working in the Parmer County area the last year and a half, puts it this way:

"The farmer doesn't know for sure, and we don't know exactly how much tailwater he is losing. By using the weir we get a good picture of the amount."

Wyatt explains that many times a farmer doesn't think he is wasting enough tailwater to merit installing some form of tailwater re-circulating system. The weir usually proves otherwise.

Then, too, the presence of the weirs along with the water district personnel often makes farmers more waste-conscious, and they are a little stricter.

The 36-section project is designed to be a "showplace of the entire district." "We are going to show farmers throughout the High Plains what can be done through re-circulating systems," Wyatt says. "We're extremely pleased with our progress so far," he continued.

Wyatt and the other water district officials are impressed by the improvement in the amount of wasted tailwater in the county this year as opposed to last year, saying it was almost 100 per cent better.

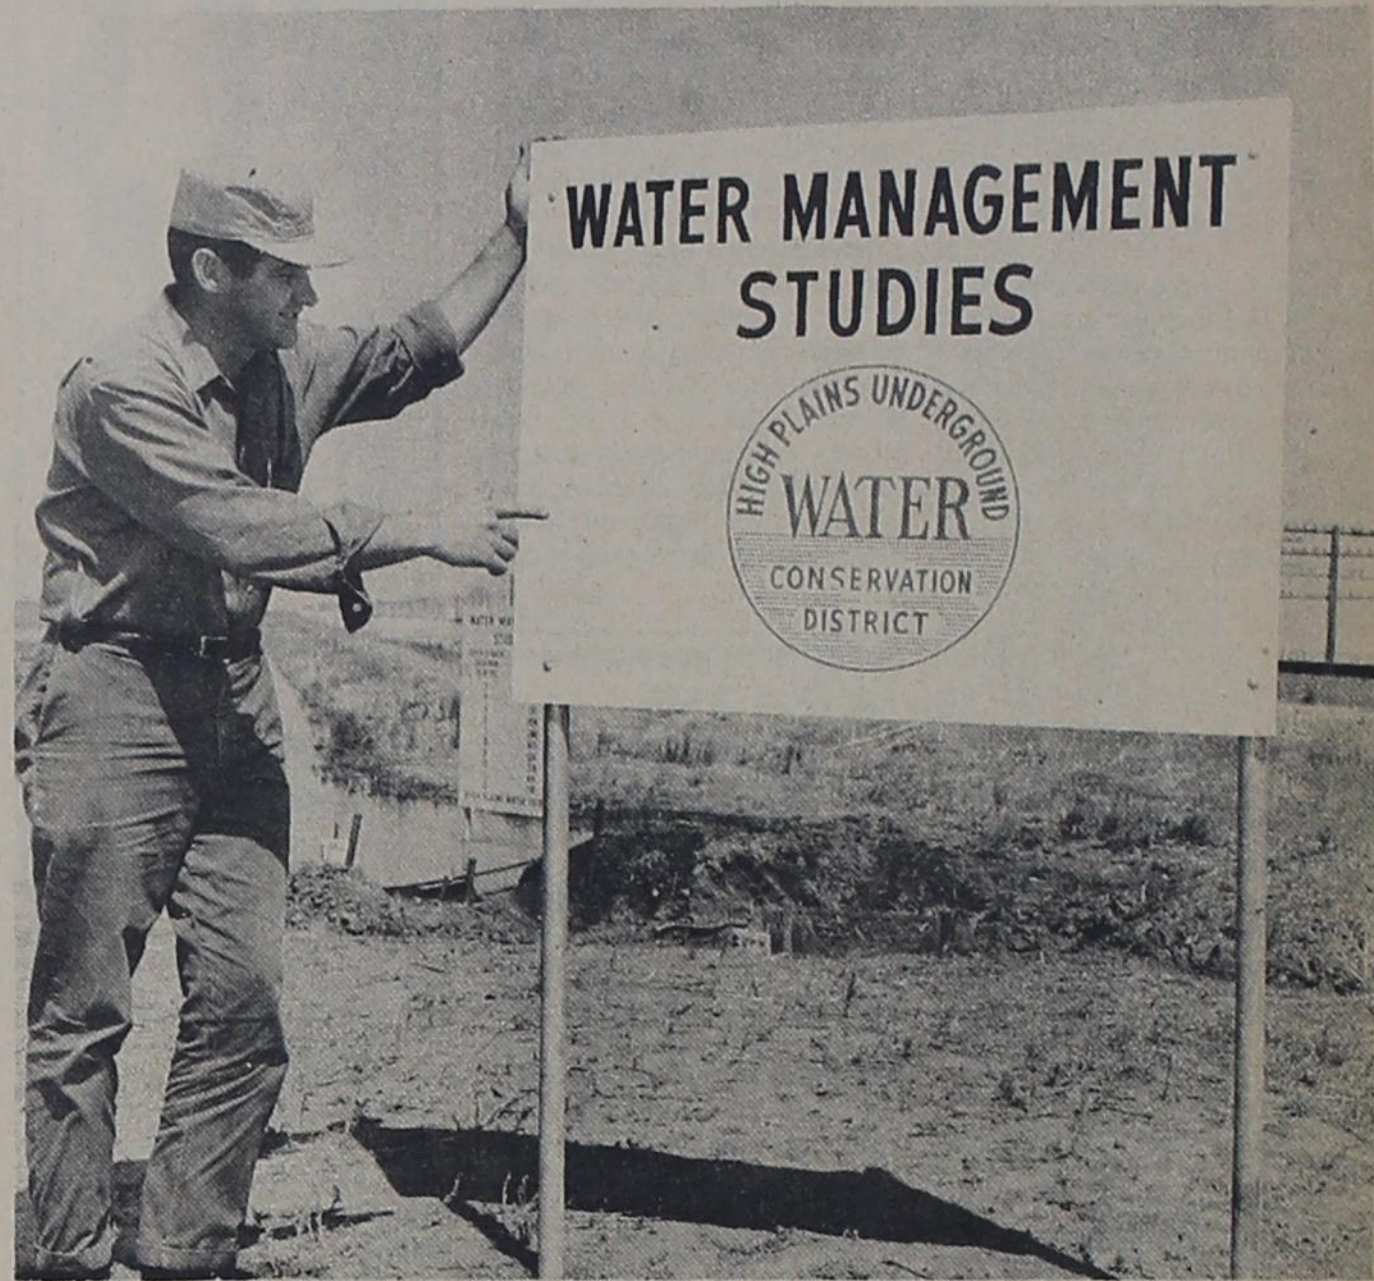

Tom McFarland, district manager, says Parmer County farmers have been particularly cooperative with district officials.

"There are very few cases of farmers being resentful toward our operations. They are saying 'Show us what to do and we will try to do it,'" McFarland said.

He pointed out that the officials realized the county's problem with its "tight soil," something farmers farther south do not have to contend with.

"Keeping water out of the roads eventually benefits all residents of the county," one of the officials said. "It saves the county money in maintenance of its roads," he said. Also, tailwater often carries Johnson grass seed and weed seed down barrow ditches, where it grows and blows onto adjoining land the following year.

Wyatt is keeping a chart on every farm in the 36-section area. He has gauges in every lake and pit, to show the amount of water which comes in, and is pumped out. He hopes to correlate figures for each irrigation well to determine the amount of water used on each farm, and how much it cost, with particular emphasis on how much money a tailwater

WAYNE WYATT, field representative with the High Plains Underground Water Conservation District, indicates one of the signs in Parmer County which proclaims the district's water management studies.

FOOTSAVING EDUCATION

by James E. Edwards

GIRLS' FEET VS. BOYS'

The sad plight of AMERICAN FOOT-HEALTH came to light in the selective service examinations for World War I.

There were no Wacs, Waves, or Women Marines in that war so there are no statistics to compare.

In World War II the examining doctors WERE NOT VERY EXACTING ABOUT FOOT DEFECTS among the men so, again, the statistics would not be reliable.

It is a safe bet that if the same tests were applied there would be FAR FEWER FOOT DEFECTS AMONG WOMEN than among men. The reason? It is fun to take little girls shopping AND THEY LEARN TO BUY INTELLIGENTLY. It is easier to leave little boys at home and to bring them a pair. The boys don't care, either, AND THE BUNIONS WON'T HURT until they are grown men.

system might save the farmer.

Many farmers are impressed both with the low cost of salvaging water from tailwater systems, and with their capacity. Gilbert Wenner, who farms south of Friona, has a system which pumps 72,000 gallons of water per hour, requiring only about one gallon of butane per hour for the pump.

"Sometimes the problem is small enough that a tailwater tank and re-circulating system may be economically unwise. In such cases, we try to go 'half-way' with the individual if he makes a genuine attempt to curb his waste," one of the men remarked.

Most of the farmers appreciate the advice, and technical assistance. It should mean money in their (and our) pockets if they cooperate fully.

Farm Bureau Sets Meeting

The Parmer County Farm Bureau is sponsoring a meeting to discuss the 1964 wheat program Friday, May 10.

The time and place will be set at a later date, according to Harry Hamilton, president.

Screwworm Case Alerts Cattlemen

A screwworm infestation discovered in Liberty county in late March served as a sharp reminder that it is not too early in the season for livestock producers throughout all of Texas to be alert for evidence of the pest.

In most years, livestock producers in Liberty county do not experience screwworm infestations until late spring; however, the March discovery points up that stockmen already need to be watching for screwworms, eradication officials stated.

Authorities noted that because the infestation near Liberty was detected during the early stages of the maggots' development and was reported promptly to eradication headquarters at Mission, it was possible to quickly implement emergency measures to prevent the spread of screwworms to other areas. Sexually sterile screwworm flies were being dispersed on and near the infested premises within 48 hours after the case was discovered in the wound of a goat.

Liberty High School vocational agriculture students were lauded for their fast action in collecting a sample from the animal and reporting the case to Mission by telephone. Officials stated the action by the students and their teacher may have prevented spread of screwworms into East Texas and Louisiana. The Liberty class is

one of many vocational agriculture departments throughout the state cooperating with the Southwest Screwworm Eradication Program by contacting producers and reporting all screwworm infestations found.

Eradication authorities said that similar screwworm outside of the overwintering area can be expected in the months ahead, but they are confident they can be controlled if livestock producers will keep their animals under close surveillance, treat wounds with approved insecticides and report infestations promptly.

WITH THE COUNTY AGENT

DERYL COKER

Greenbugs develop to large numbers under certain conditions and may cause serious losses. These plant lice suck sap from plants of all small grains. Infested fields may have small "Deadened" areas during the winter. Later, greenbugs in these spots may continue to increase and soon migrate throughout the field. In some cases, entire fields of grain are killed. Greenbugs cause more damage when wheat or small grains are suffering from deficient moisture in mild win-

ters and cool springs. The greenbug reproduces rapidly at temperatures between 55 and 75 degrees F. Its natural enemies, however, reproduce very slowly when the temperatures are below 65 degrees F. Thus, in cool weather the greenbug may increase to enormous numbers while the numbers of its natural enemies increase slowly.

Make a minimum of five counts, each consisting of 1 linear foot of row, at random while walking diagonally across the field. More counts may be necessary where large acreages are involved. Greenbugs should be shaken from the plants onto a piece of paper or cloth and counted. If greenbugs are numerous, estimate the number present.

The necessity for applying insecticides for greenbug control depends on such factors as the number of greenbugs present, size and vigor of plants, variety, temperature, time of year, moisture conditions, state of growth and presence or absence of parasites and predators. As might be expected irrigated wheat can withstand larger populations of greenbugs without marked loss in yields.

Results of experimental tests during the past 5 years indicate the most benefits from applications on insecticides on wheat resulted when they were applied in March and April. It is impossible to outline specifically the condition under which insecticides should be applied for greenbug control. However, the information presented in the following table may serve as a guide for determining the need for treatment.

Time of Year	Plant Height	No. of Greenbugs Per Linear Foot
February	3"-6"	100-300
March	4"-8"	200-400
April	6"-16"	300-800

The appearance of small deadened areas caused by greenbug feeding is also a good indication that insecticides should be applied. Occasionally populations of 25 to 50 greenbugs per foot in very young or spring planted small grain may warrant treatment. This is especially true where oats and barley are involved. Both oats and barley are considerably more susceptible to greenbugs than wheat.

Willy was sobbing bitterly. Between sobs he told the teacher: "I don't like school, and I have to stay here until I am 16."

"Don't let that worry you," consoled the teacher. "I have to stay here until I am 65."

The HAPPY HOMEMAKER

BY JUNE FLOYD

Several requests have been received for a Milky Way cake. The only one I have seen that was baked locally was bought at a bake sale and I didn't learn the maker's name, so this isn't a Parmer County recipe.

I copied it from Petticoat Patter in the Canadian Record and it was printed thusly: Mrs. Bud Hoobler's Milky Way Cake

Melt in top of double boiler: 8 bars Milky Way
1 stick oleo
Cream together:
2 cups sugar
1 stick oleo
1/2 teaspoon butter flavor
Add:
4 eggs
Cream mixture well after adding each egg. Then add:
1 cup buttermilk
2 1/2 cups flour
1/4 teaspoon salt
1/4 teaspoon soda
1 cup chopped nuts
Add Milky Way mixture last. Bake in greased and floured tube pan at 275 degrees 1 1/2 to 2 hours. Cake will pull away from side of pan.

Graduation time is almost here again and this year it seems most difficult to select gifts that will be used and appreciated by the recipients.

If the graduate for which you plan to buy a gift is a girl, your problem is somewhat simplified, but even then it is difficult to select a gift which seems exactly right.

You can purchase material by the yard which is specially treated to prevent silverware from tarnishing. From this material you can fashion holders for knives, forks, pitchers, platters or other pieces.

These holders will make attractive gifts that are sure to be appreciated by any girl who is collecting items for her future home.

If you are counting calories, you will want to try the following recipes. The basic recipe is for Wonder Marshmallows and there are two variations.

Wonder Marshmallows
1 envelope Knox unflavored gelatine
1/2 cup sugar
1/3 cup water
2/3 cup light corn syrup
1 teaspoon vanilla
4 cups corn flakes
Mix gelatine and sugar thoroughly in a small saucepan.

Add water. Place over low heat and stir until gelatine is dissolved.

Pour corn syrup into large bowl of electric mixer; add gelatine mixture and vanilla. Beat on high speed until mixture becomes a thick and of a soft marshmallow consistency, about 15 minutes.

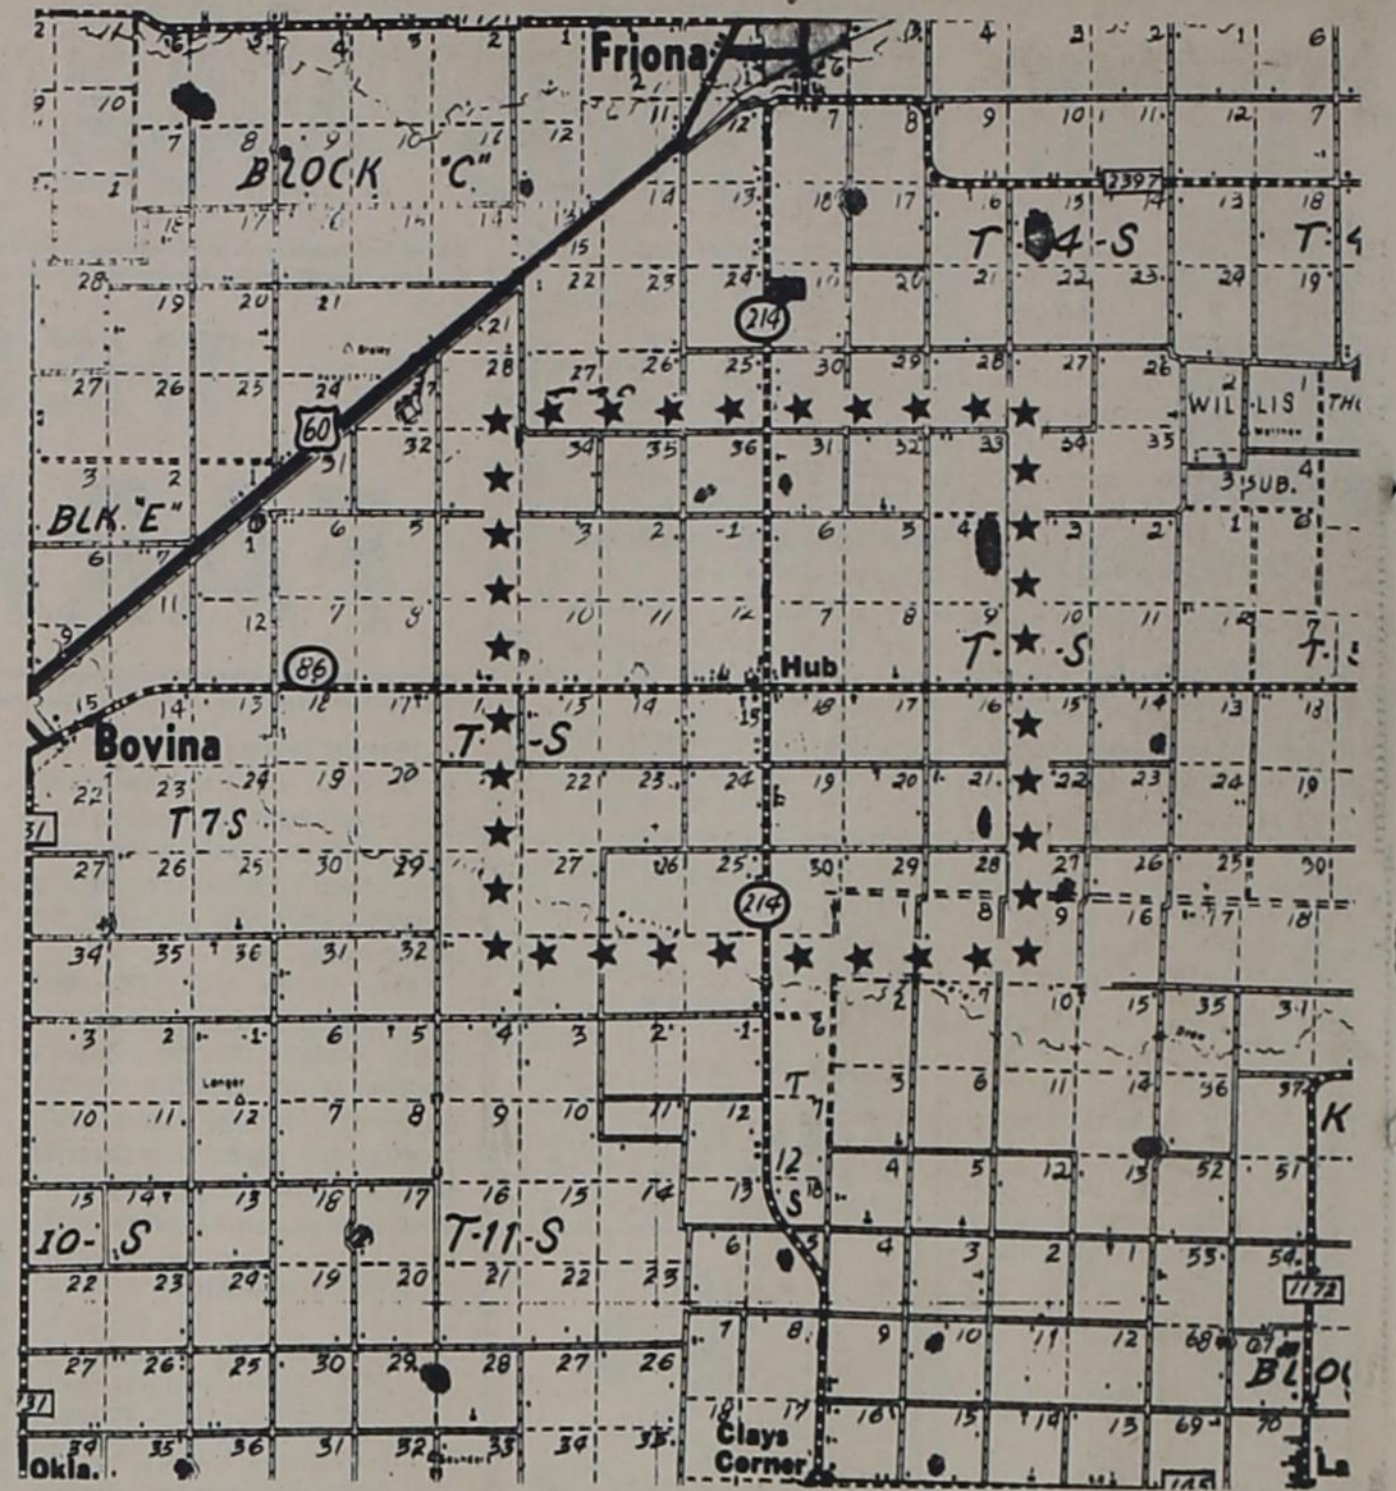

Grease well a pan 7 x 10 x 1 1/2.
Crush corn flakes with a rolling pin, using part to line sides and bottom of pan.

Pour in marshmallow, smoothing off top with spoon or knife, and sprinkle top with part of remaining corn flake crumbs. Let stand in cool place, (not refrigerator) until well set, about 1 hour.

To remove from pan, loosen around edges with knife and invert on cookie sheet or board. Cut into squares with a sharp knife moistened with cold water.

Roll in remaining corn flake crumbs to coat sides of marshmallows.

Variations:
For Coconut Marshmallows: Roll in 3 cups toasted flaked coconut. Proceed as for marshmallows rolled in corn flakes.
For Ginger or Chocolate Marshmallows: Roll in 18 crushed gingersnaps or crisp chocolate cookies. Proceed as for marshmallows rolled in corn flakes.

THE AREA ENCLOSED in stars is the 36-section test area which the High Plains Underground Water Conservation District proposes to make a "showplace" of water conservation for the entire district. Records are to be kept on each individual farm, showing the effect of the conservation efforts.

A couple of city salesmen stopped in a farm yard. While looking around for the farmer, they noticed a small calf that somehow had got its tail caught in a knothole in the barn door. Peering around a corner the farmer heard this bit of conversation.
"I can't figure how that calf ever got through that little hole," said one salesman.
"Well, here's what puzzles me," said the other, "if he could get that far, why can't he get the rest of the way through?"

A Dutchman was explaining the red, white and blue Netherlands flag to an American.
"Our flag has a connection with our taxes," he said.
"We get red when we talk about them, white when we get our tax bills, and we pay them till we're blue in the face."
"That's just how it is in the U.S.A.," said the American, "only we see stars, too."

new **PIONEER** brand
Grain Sorghums

At every stage in the crop season, new Pioneer brand grain sorghums offer you real advantages. Vigorous, high germinating seed gets your crop off to a fast, sure start. Uniform head height, good exertion, and strong standability—a result of advanced breeding and careful seed production—make harvesting run smoothly, helps you cover more acres per day.

Add to these advantages the high yields of Pioneer brand sorghums . . . and you have a crop that spells both profit and satisfaction.

Choose from three new Pioneer brand sorghums: 848, 846, and 820. They cover a maturity range from RS 610 to full-season numbers. Bred by one of America's leading hybrid seed producers, Pioneer brand sorghums can put you—and your sorghum crop—on "safe ground" this year.

Bonnie Warren Clerk, County Court Parmer County, Texas.				

Farmers Give Opposite Views On Wheat Election

(Editor's note: The following letters were submitted to High Plains Farm and Home, dealing with the 1964 wheat program. Each takes a different viewpoint in the election. Frank Hinkson was for a time candidate for U. S. representative

for the 19th district. Smith is president of Farmer County Farmers Union.)
The issue in the May 21 wheat referendum is not \$2-per bushel wheat versus \$1-per bushel wheat. The issue is whether the American farmer or the Federal Government will manage the farms of America.
From a dollars and "sense" standpoint I can see where a "no" vote in the referendum will be to my advantage. Let us start in from the dollars standpoint. If the referendum carries there will be a loan, National Average, of \$1.30 per

bushel on all wheat produced on allotted acres. The penalty for over-planting would be so severe I am assuming everyone will plant only allotted acres. There would be a certificate worth 70¢ per bushel on 80% of each farm's normal yield as set up by committees. My normal yield is 33 bushels per acre. Yet in the Lazbuddie community of Farmer County, where I farm, 50 bushels per acre and more are common yields. So I would get a certificate worth 70¢ per bushel on 80% of 33 or 26.4 bushels per acre of allotted wheat. The only way possible I could get a \$2-per bushel loan would be to raise only 80% or less of my normal yield. If I raised 50 bushels per acre and adding \$19.80 per acre of diverted acres the total value of my wheat would be \$1.68 per bushel on 90% of my wheat base. If I received \$1.51 per bushel on 100% of my wheat base I would have just as much money. At harvest time, on the open market, I sold wheat in 1959 at \$1.73 per bushel, 1960 at \$1.71, 1961 at \$1.75 and 1962 at \$2.05. So I would rather take my chances on the open market, it looks like more dollars in my pocket to me. I urge each wheat farmer to use his pencil to his allotted and diverted acres and his assigned normal yield. I now predict that the powers that be will try to sell the wheat program to Farmer County farmers by raising Farmer County's normal yield.
In case the referendum is defeated there would be a loan of

about \$1.25 per bushel, on all wheat grown on allotted acres. Right now wheat will bring about \$2.10 per bushel in Farmer County, and if you subtract the export subsidy of 59 or 60¢ per bushel, the world market will support the price of wheat at Lazbuddie at \$1.50 per bushel. The less than 15 acre farmers will have allotments in 1964 if the referendum carries. Most of these allotments will come from we farmers who now have allotments, so we had just as well prepare for a greater than 10% reduction in allotted acres.
Now let us consider the wheat referendum from the standpoint of "sense", just plain old-fashioned common sense. We, as United States Citizens, should consider three basic principles. First, no matter what anyone says or does, the only way to have more things for more people is to produce more things. It can't be done by producing less.
Second, the United States became a World Power by competing on the markets of the world and making a profit, because our free enterprise system gave each individual the opportunity and the incentive to produce. We will remain the No. 1 World Power only if we compete, at a profit, in the markets of the world in the majority of the industrial and agricultural goods we produce.
Third, thirty years of a philosophy of government that has encouraged people to work less, that has substituted government handouts, controls and burdensome taxes for individual initiative and responsibility has created a serious unemployment problem that no end of government make-work jobs has solved. The unemployment problem will be solved by complete socialism and planned poverty, or by removing the handcuffs from our free enterprise system under which 6% of the world's population is now producing 44% of the world's goods. A NO vote in the wheat referendum will be a step in the right direction.
Farmer County produces more milo than any county in the United States, yet by A.S.C. estimates, only 9% of the dollar value of the crop sold in the open market in 1962. Wheat is Farmer County's second largest crop and in 1962 nearly all of it went into government loan. Not one bushel of wheat or milo has been redeemed from the loan, so that makes the Commodity Credit Corporation the only first hand merchandiser of wheat and milo now in Farmer County. To me, a government monopoly is no better than any other monopoly.
If the certificate plan goes into effect, I would expect many Billie Sol Estes scandals, because when \$1.30 and \$2.00 per bushel wheat comes to the elevator in the same truck, things are going to get complicated, to say the least. The manufacturer of food products containing wheat must use a conversion ratio in the manufacturing process. It will take an army of men to administer this sort of program and I would like to know of what productive value

they can possibly be. We wheat farmers will be paying the bill one way or another so why not use the same money to compete in the market place? A Yes vote in the wheat referendum will continue the same policy that has just about ruined our cotton market and increased stocks of cotton.
I urge each farmer to get a copy of the Food and Agricultural Act of 1962, H.R. 12391, and study it. Under the Secretary of Agriculture has broad regulatory powers that actually become law. So now we have an agent of the Federal Government who is not elected by the people, who has legislative, executive and judicial power. This is government by man and not by law. Have we, the American people, so little faith in freedom and individual initiative that we think government by man is better in 1963 than it was in 1776?
Now, this Administration condemns the Poll Tax as an unjust eligibility requirement to vote, but how about this? Before being eligible to vote, a small wheat farmer (15 acres or less) must go to the A.S.C. Office and sign the following statement and I quote: "I elect to be subject to the farm wheat acreage allotment indicated on the reverse side of this notice."
There are twice as many fifteen-acre or less farmers than there are larger wheat farmers. Right now, many A.S.C. offices are actively trying to sell the wheat program to the farmers. One I noticed recently did not mention what the price per bushel would figure at a high yield per acre, but it did stress how much a farmer could be sure of whether he raised any wheat or not. So since, by his regulatory powers, the Secretary of Agriculture chose to permit the fifteen acres or less farmers to become eligible to vote for the first time in a wheat referendum (these 2/3 of the nation's wheat farmers produce 20% of the wheat) I now predict that about two weeks before the election (May 21) a mighty effort will be made to sell the program to the small farmer and the appeal will probably be along the line of how many dollars they can be assured of even if they do not plant their allotment. I am never worried about the outcome of an honest election if the people understand the issues involved. I hope each wheat farmer informs himself of all issues involved in the coming wheat referendum and votes his convictions.

tion of his income from farming feels that his profession is one which is vital to this nation's stability. If you will notice, I said "One"! Profession — There are many of course. So what is the point I am trying to make? The point is this — why is there one farm organization which insist on lowering the hourly wage earnings of the wheat farmers of America? Who do these people continue to be against progress in the agriculture field, and stable markets for our farm products? Is this organization interested in helping the farmers or destroying them? These simple questions can be answered with one statement. The only reason why anyone would want to lower the wage earnings of the farmers is that by lowering the farmers' income, they eventually line their own pockets and promote monopolistic take-over of the farm.
Was I wrong in saying that this farm organization is determined to lower the earnings of the wheat farmer? I don't think so and I'll show you why. Very soon, as you've no doubt heard, the wheat farmers of the nation will vote on whether or not to accept the new wheat program passed on recently. The results of this vote will be most important to not only the wheat farmer, but all the farmers throughout the country. The House Committee on Agriculture, along with many others, have worked for years to come up with a program which will enable the wheat farmers to receive a reasonable return on his investment and at the same time cut down on the billion bushel surplus now on hand. Yet this farm organization is telling the people that should the program be voted down, Congress will drop everything and go right to work on drafting a new wheat program to keep the price of wheat up. Right here they, too, admit that the bottom will drop out from under the wheat farmer if this program fails to pass.
What's more ridiculous is that after years of working and finally passing on a program for wheat, the congressmen are not about to drop what they're doing just to save the wheat farmers and gain a few votes. Does it seem likely to you that they will pass up many other more serious problems to turn back and start all over on new wheat legislation. Something else to con-

sider is that there are only 131 seats in the House occupied by representatives who are from farming districts. This leaves 304 members who represent the non-farm majority and it seems highly unlikely that they will go along with starting all over just for a new uninformed farmers. It sounds strange does it not that a farm organization will advocate such irresponsible, unsound advice and claim it to be the truth.
One last remark — if you want the true facts, and I'm sure that you do, check with your county agent or the county ASC Committeemen. Find out for yourself what the results will be dollar wise if the wheat referendum fails. Do this instead of letting a certain farm organization manage the news that is sent to you.

Farm people in 1959 received 1.29 for 1 hour of farmwork including income from capital assets. By contrast, one hour's work in a factory averaged \$2.22, and hourly earnings in food marketing averaged \$2.06.
Does it seem reasonable to you that the farmer should receive less for his labor than the factory worker or those who work in food marketing? Is the farmer any less important than these just mentioned? I believe that a reasonable man who derives at least a greater por-

Cotton Growers Announce Addition To HQ Staff

Plains Cotton Growers, Inc., has announced the recent addition of Oscar "Cotton" Fanning to its headquarters staff at Lubbock. Fanning will be charged with the preparation of PCG publications, news releases, advertising, and other duties connected with the research and promotional efforts of the 25,000-member cotton producer organization.

Most recently associated with Texas Farm Labor Agency, of Lubbock, Fanning is a 1949 Journalism graduate of Texas Technological College, and was manager of Basin Growers Association, of Stanton, from 1954 to 1962. He has been working with PCG on contract basis since March 1, but was only recently made a member of the regular staff.

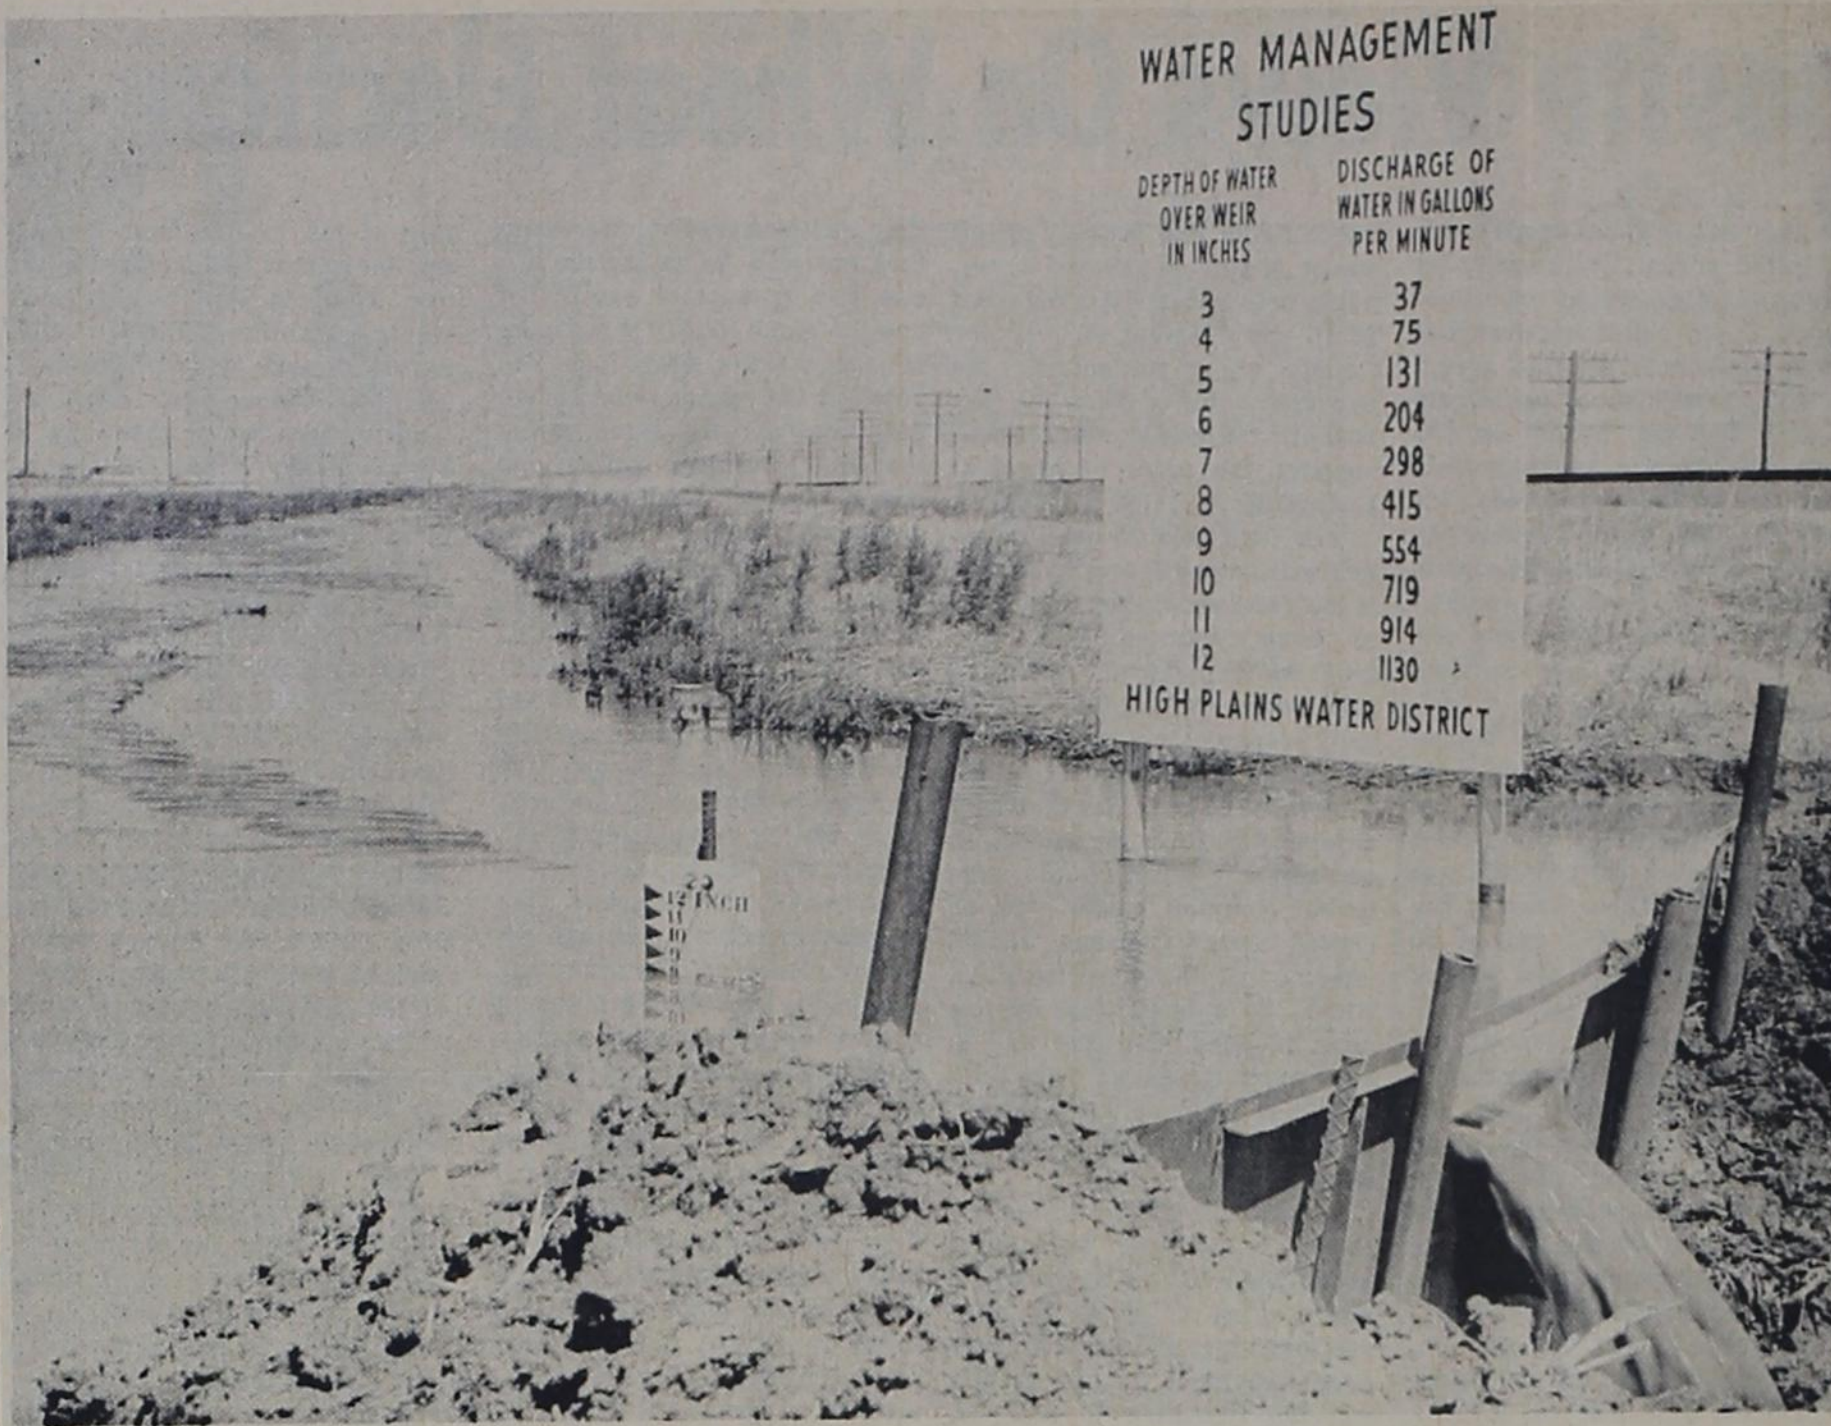

In addition to his experience with farmer organizations, Fanning has been employed by the U. S. Departments of Labor

and Agriculture in the Republic of Mexico, and did part time work for the Lubbock Avalanche Journal and Radio Station KSEL while in college.

As manager of the Stanton farmers association, he was a director and one of the organizers of the West Texas Agricultural Employers Group, and was an active worker in that group's legislative efforts pertaining to farm labor.

PCG Executive Assistant, Donald A. Johnson said that this addition to the staff would allow the organization to handle its increased service activities more completely and more effectively, and would especially aid in the dissemination of information concerning research and other developments in the cotton industry.

A nail driven into a tree trunk would be at the same height from the ground five years later.

Curbing Vegetable Diseases Is Topic Of New Leaflet

Vegetable diseases can seldom be cured but they can be controlled by carrying out a planned disease control program, say the authors of a new publication, L-583, "Guide for Reducing Vegetable Disease Losses" recently released by the Texas Agricultural Extension Service.

The authors, Harlan Smith, former extension plant pathologist, and Robert Lambe, area extension pathologist, point out that most fungicides and nematocides are poisonous and should be used in accordance with the manufacturer's recommendations. They should be stored out of reach of children, irresponsible persons, livestock and pets and empty containers should be either burned or buried. Use all chemicals with caution, they advise.

The authors suggest several measures for cutting down plant disease losses and they include the rotation of the vegetable

crop each year; not planting susceptible varieties on soil infested with Southern blight, wilts, nematodes and root rots; growing disease resistant and adapted varieties; fertilizing according to a soil test; using transplants or seed produced under disease-free conditions and by keeping a close inspection of fields so that control measures can be used successfully when needed.

Charts showing the most common and troublesome diseases along with control recommendations are included in the leaflet.

Copies of the publication are available from the offices of county agents or from the Agricultural Information Office, College Station, Texas. Ask for L-583.

TEXAS COTTON GROWERS REPORT:

Entire Season Control of Thrips, Aphids and Mites...

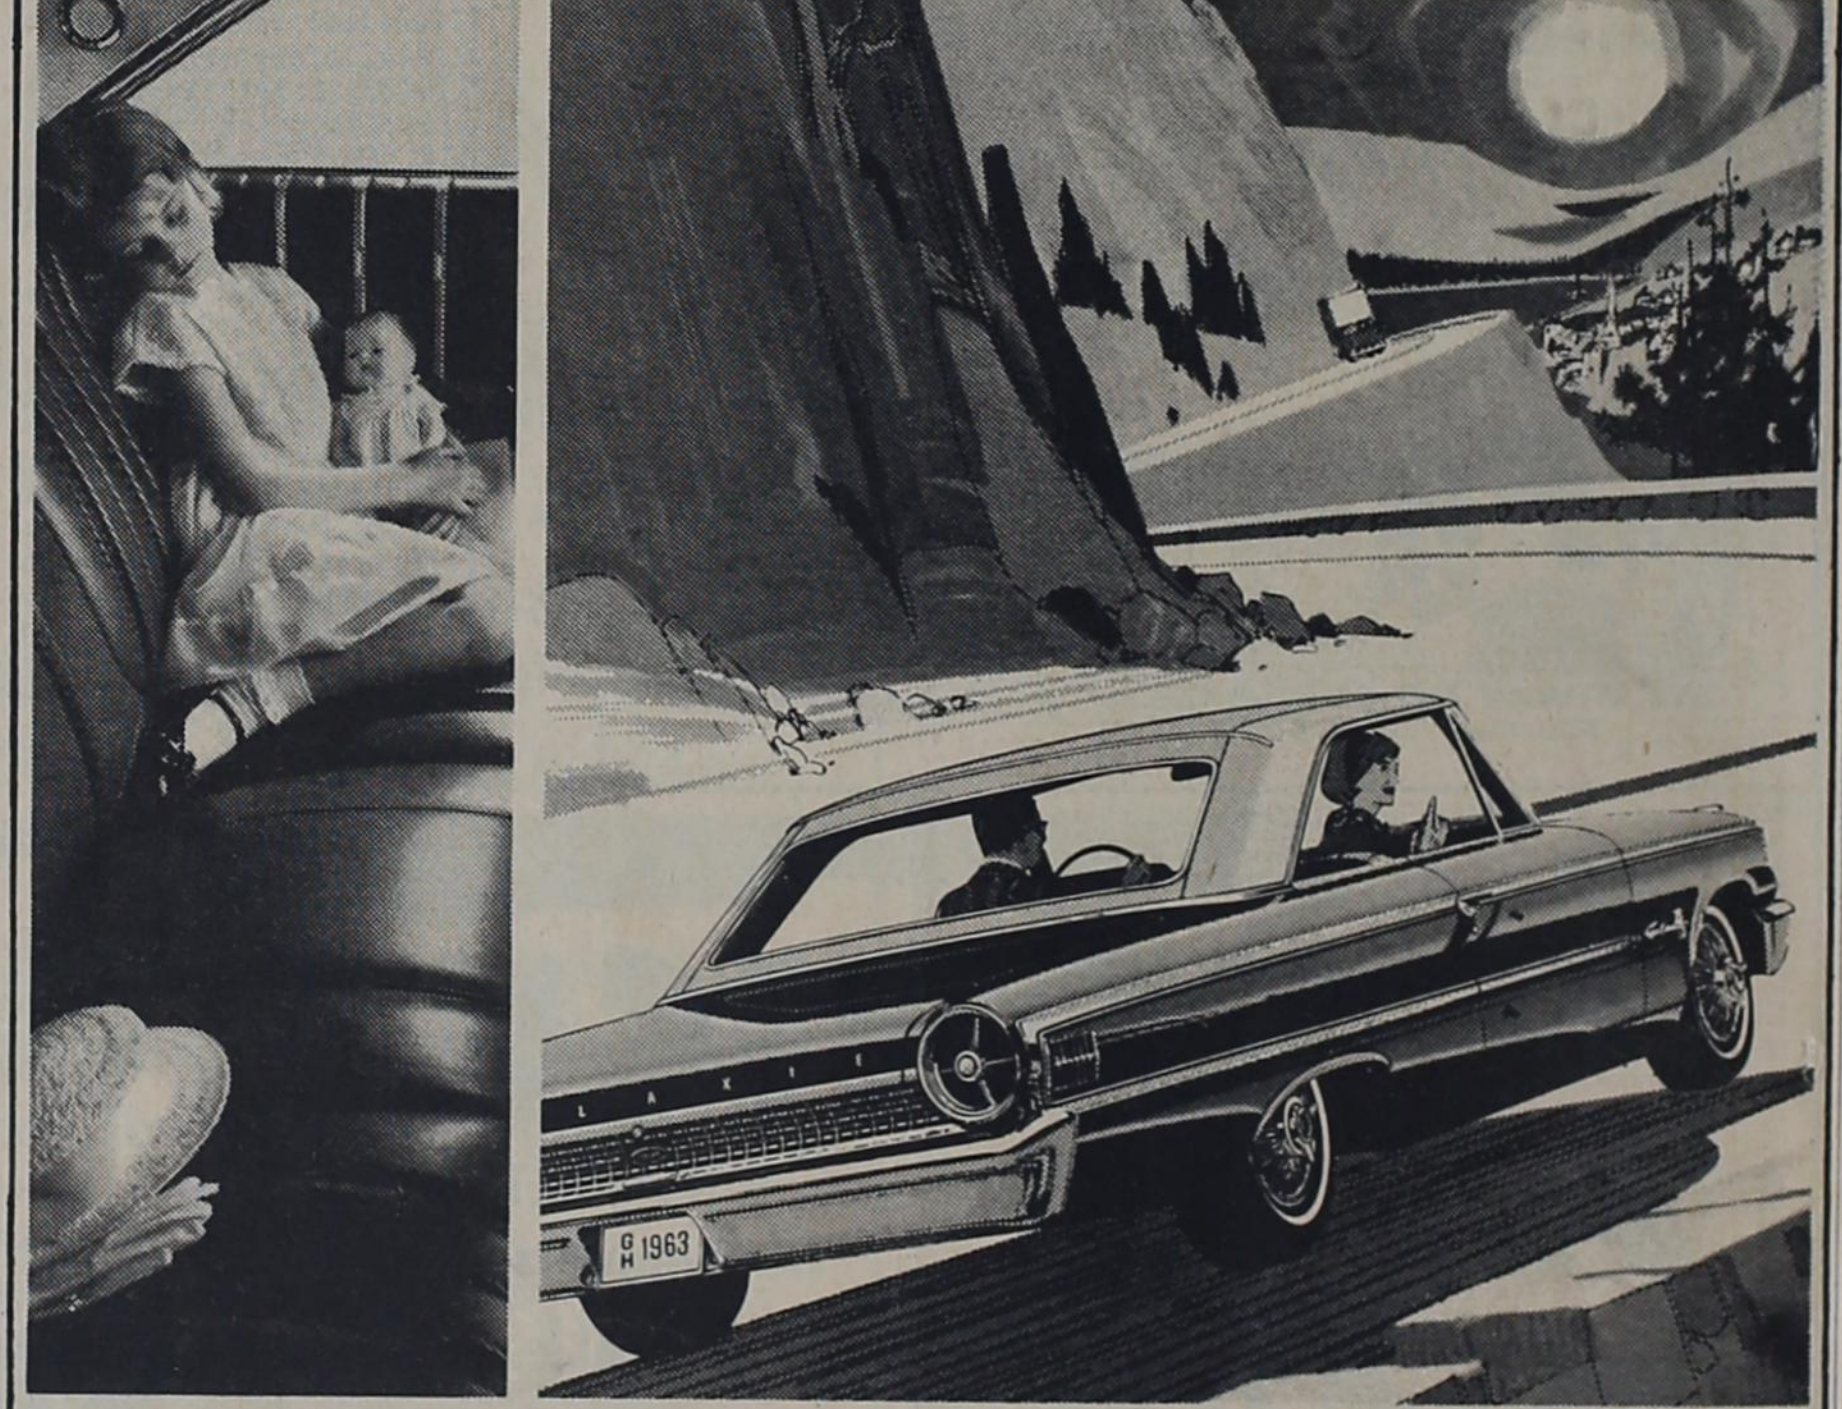

Di-Syston Treated Plants Are Stronger, Straighter... Produce More Squares Earlier

West Texas and New Mexico cotton growers now have a new way to control thrip damage and early-season stunting... with Di-Syston granular insecticide. Di-Syston is placed in the soil with the seed or side dressed after planting. The chemical is then absorbed by the growing roots and carried to all parts of the plant through the sap stream—as soon as the plant emerges. No part of the plant is unprotected—even tender new growth as it is formed.

The result? With Di-Syston, your early cotton grows faster, has stronger, straighter stems, more vigorous foliage. Squares form earlier and the plant produces more of them. Many growers in the Lubbock area have reported full season control of thrip with just the one application. You get higher yields because of the good Di-Syston start. This year, get your crop off to a good start with Di-Syston. Complete instructions for use are printed on the label on every package. Use Di-Syston.

TOTAL PERFORMANCE:

YOU'LL KNOW WHY SHE DOESN'T FEEL THE BUMPS...WHEN YOU TEST-DRIVE FORD'S NEW \$10,000,000 RIDE

The 1963 Ford gives you a ride every bit as smooth as cars costing hundreds more, and for two reasons: a revolutionary new suspension system... and added road-hugging weight.

It took ten million dollars to develop the new Ford ride. We designed a revolutionary new suspension system for the '63 Ford. Where ordinary suspensions move only up and down to absorb road shock, the Ford suspension moves backward as well. In this double-action suspension system, coil springs up front and leaf springs in the rear combine to give you firmness in cornering and a special smoothness over the road.

We added weight, strength and stability. The new Ford is now actually hundreds of pounds more car than any other car in its class. This remarkable weight advantage is in the suspension, frame, and body. And, as you know, this added weight means a more stable ride.

But a solid, road-smoothing ride is only part of Ford's total performance story for 1963. Look how Ford swept the field this

year in the grueling Daytona, Riverside and Atlanta 500's and in the demanding Pure Oil Performance Trials. Only a car with total performance—the best combination of strength, balance, precision control, braking power and road-clinging suspension—could roll up so many wins.

Before you buy any new car, test-drive a Super Torque Ford. If you haven't driven one lately, you can't really know what a new Ford is like. Make this important discovery—if it's built by Ford, it's built for performance... total performance.

Hereford Meeting Centers On The Wheat Referendum

A panel of specialists from Texas A&M College will present all aspects of the May 21 wheat referendum in a public meeting at Hereford next Thursday, April 25. All wheat farmers and other interested persons are invited to attend. The meeting will be held at the Bull Barn beginning at 10 a.m. District Agent Bill Grisham of Amarillo will preside at the meetings. Those to appear on the program include Thomas D. Aaron, grain marketing specialist; Ben Spears, agronomist; and Cliff H. Bates, farm management specialist.

The meeting is one of a series of meetings in the state and area. In case someone in the immediate area cannot attend the Hereford meeting, similar programs are to be presented at Amarillo Monday at 10 a.m. in the Commercial Exhibit Building on the Tri-State Fair Grounds; Tuesday in Pampa at the Coronada Inn at 10 a.m., Wednesday at Dumas in the Community Center

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

It is expected that the Farm Bureau sponsored High School Student's Citizenship Seminar will be held at Sam Houston State Teachers College, Huntsville, August 20-23 of this year.

Farmer County Farm Bureau is sponsoring Miss Linda Rector, first place winner of the speech contest held before a panel of judges in the regular meeting of directors in February. Miss Jane Bradshaw, a Farwell student, will also be eligible to attend under the monetary sponsorship of Worley Grain Co. of Farwell. Both of these young ladies were selected from the student body by school administrators of Farwell and Friona schools.

Purpose of the seminar is to convey to the sponsored students a better understanding of the American system and way of life, and that they, in turn will pass it along to others upon their return.

Frank Hinkson and his workers continue to bring in new Farm Bureau members. The goal of five hundred fifty has been exceeded, but we do not

know exactly what the number is at this time. This means that over five hundred fifty have paid \$10 for membership within the last year. In order to maintain this membership number on October 31, more than two hundred new and renewal checks will be needed. Last year, more than three hundred such checks were received in that period of time.

Hinkson is also chairman of the Farm Bureau Wheat Referendum Committee, and is making arrangements for a meeting on this subject in the near future. Watch for an announcement of this meeting. In the meantime, if you are interested in knowing the policies of Texas and American Farm Bureau as formulated by the membership, we have booklets that explain these policies in detail.

Some people seem surprised to learn that Farm Bureau is interested in farmers earning always been Farm Bureau policy, but some misinformation continues to be available to distort this fact. Freedom and opportunity for the present and future generations occupy first place in all Farm Bureau literature. Some information being circulated indicates that Americans have the choice of less freedom or less money. Farm Bureau people believe that either of these begets the other in the American Economic System.

CONSIDER THIS: The fear of the Lord is the instruction of wisdom; and before honor is humility. Proverbs 15:33.

Small boy studying civics: "What does the Chaplain of Congress do, Daddy?" Father: "Oh, he just gets up on a platform, looks at Congress, and prays for the country."

Wanted: Man to work on nuclear fissionable isotope molecular reactive counters and three-phase cyclotronic uranium photo synthesizers. No experience necessary.

The little boy was visiting a farm for the first time in his life. He was taken out to see the lambs and finally built up enough courage to pat one. He was delighted, "Why," he cried, "they make them out of blankets!"

"Congratulations! You have just made our one millionth request for a raise!"

MAKING A READING from a "flow meter" attached to a tailwater pump on the J. B. Taylor farm south of Friona is Wayne Wyatt of the High Plains Water District. At the time the reading was made, the pump was putting out 800 gallons per minute or 48,000 gallons per hour. Some pumps in the area are logging up to 72,000 gallons per hour, at a nominal fuel cost.

Too High for US So India Buys It

Senator J. Glenn Beall (R.-Md.) reports that last Fall the United States gave up the idea of buying a Geneva, Switzerland chalet for the embassy there because it was too expensive.

Recently, the Senator said, India, which has received more than \$4.6 billion in U. S. foreign aid, purchased the building.

Small boy studying civics: "What does the Chaplain of Congress do, Daddy?" Father: "Oh, he just gets up on a platform, looks at Congress, and prays for the country."

Wanted: Man to work on nuclear fissionable isotope molecular reactive counters and three-phase cyclotronic uranium photo synthesizers. No experience necessary.

The little boy was visiting a farm for the first time in his life. He was taken out to see the lambs and finally built up enough courage to pat one. He was delighted, "Why," he cried, "they make them out of blankets!"

HE Exes To Meet At Texas Tech

The annual spring luncheon of the Texas Tech Home Economics Ex-Students will be held in the New Ballroom of the Student Union Building on Saturday, April 27, at 12:30 o'clock.

The program will be a fashion show presented by Mary L. Behrens, Home Economist with the Maytag Company, using models from the Home Economics Division at Texas Tech. The recipient of the Margaret W. Weeks Scholarship Award, Marcia Rose Campbell, a home economics education and home and family life major from Borger, will be presented. Officers for the coming year will be elected.

All former students and current faculty members of Texas Tech are eligible to attend the

luncheon. Graduating seniors of the School of Home Economics are invited. Price of the meal and dues will be \$2.25, payable at the door. Reservations may be made by contacting one of the following ex-students by April 24th: Mrs. Wayne Timmons, telephone SW 9-8296, Mrs. J. W. Smith, telephone SW 9-5152 or Mrs. A. L. Hawkins Jr., telephone SW 9-8711.

Officers serving this year are: Miss Joy Pannell, president; Mrs. Timmons, vice-president; Mrs. Smith, secretary-treasurer; and Mrs. Hawkins, reporter.

The older a man gets the further he had to walk to school as a boy.

Wheat Notices To Be Mailed To County Farmers Friday

(Editor's note: This is the third in a series of articles prepared by the Parmer County ASCS office concerning the upcoming wheat referendum.)

Notice of wheat acreage allotments and normal yields will be mailed to wheat farmers in the county Friday April 19. The normal yield established for each farm in the county is based on the county average for the years 1958, 59, 60, 61 and 62 as reported by the Agricultural Marketing Service and the Bureau of Census. The normal yield for Parmer County during that period was 34.3 bushels according to these agencies.

Yields on individual farms are established on each farm on the basis of the farm's potential productivity as compared to the average farm in the county. For example: A farm that is one hundred per cent of average for the county (in the judgement of the committee-men) would have a normal yield of 34.3 bushels per acre es-

tablished for 1964 program purposes. A farm that is considered 105 per cent of average would have a normal yield established at 36.0 bushels and etc.

The normal yield established for each farm will be used to compute the diversion payment rate for the farm and to determine the number of bushels of certificate wheat for the farm.

MAY APPEAL

A farmer may appeal the yield established on his farm by submitting proof of production for the five year base period.

If when a farmer receives his notice of yield, he is not satisfied and wishes to file an appeal for a higher yield, he may have his yield established at the actual average five year production for the farm by submitting proof of the actual yield on the farm to the ASC County Committee (ASCS Office) within fifteen days after the mailing of the notice for the farm. Proof of the actual production of wheat on the farm for each of the five years (58 through 62) is required before the appeal will be considered.

Farmers who desire to file such an appeal, should keep in mind (as mentioned above) that they have only 15 days in which to do so.

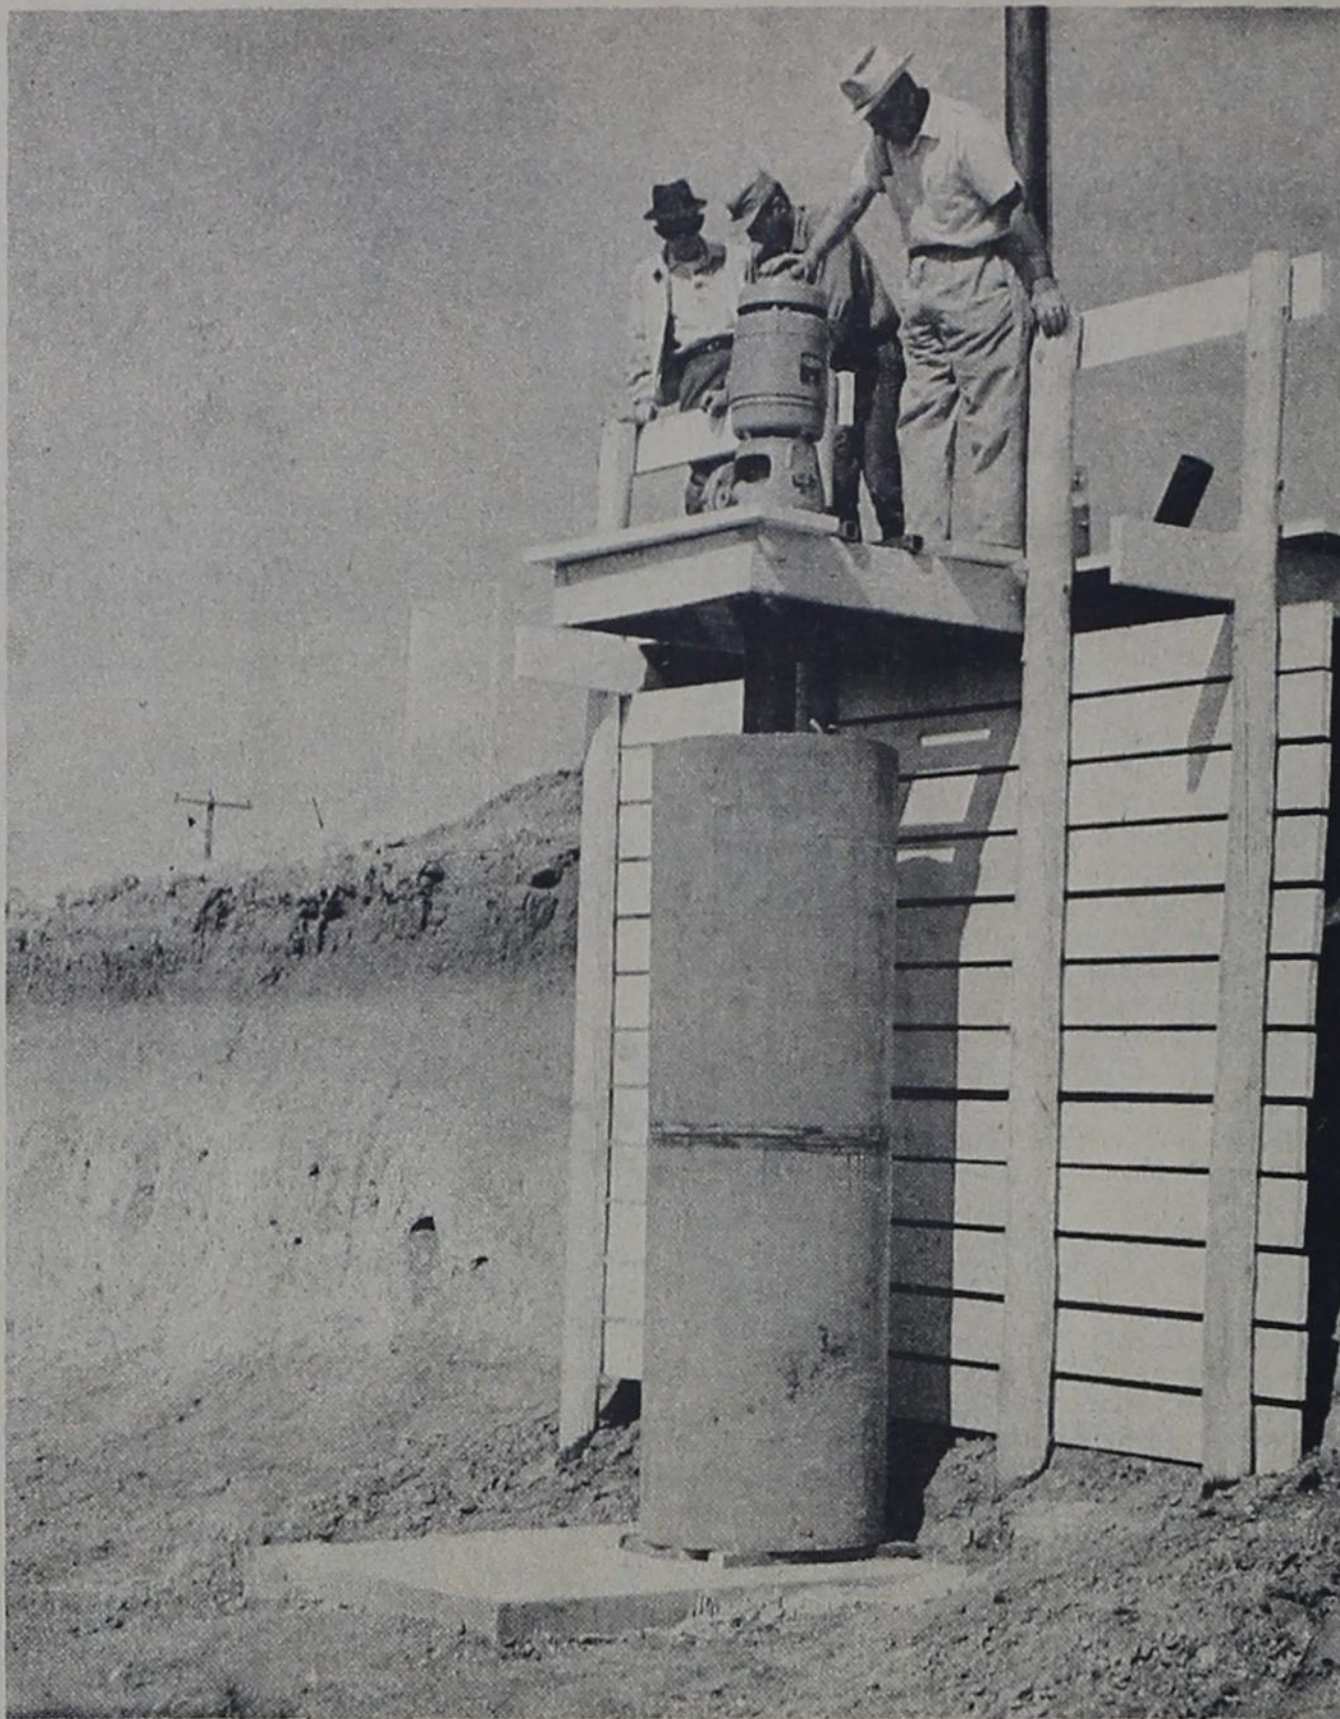

Farmers are being notified of their acreage allotment and

normal yield in the notices to be mailed on April 19. These notices will not tell them just what their diversion payment is, nor will it tell them what their minimum and maximum diversion payment on the farm is; however, they can compute their payments (within a few pennies) as follows:

To arrive at the minimum diversion rate per acre - multiply the normal yield per acre by 60 cents and this would be the minimum diversion rate. For example: Farm has normal yield of 35 bushels per acre 35 x 60¢ equals \$21.00 per acre. This \$21.00 would be the payment to be earned on the minimum acres to be diverted which is approximately 10 per cent of the 1963 allotment.

The program (as most people now know) provides for an additional diversion (if the farmer so desires) of 20 per cent of the 1964 allotment. The payment on these diverted acres may be computed by multiplying the normal yield by \$1. In this example the rate for each additional diverted acre would be at \$35 per acre.

In this example there would be 28 bushels of certificate (\$2) wheat per each planted acre on the farm up to the allotment. (Average farm producing normal yield)

HELPING INSTALL a tailwater pump system on the James Mabry farm at Hub are these representatives of the High Plains Water district. This pump is to be a special test case in that it is designed to filter out weed seeds and other material which sometimes causes problems in tailwater pump operations.

TIPS for OUTDOORSMEN

by Vern Sanford

To Steady Your Aim

Here is an odd solution to a serious problem. But it works - and works well. A jerky trigger finger plays the devil with your aim. Place a coin on the front sight of an empty gun, aim and squeeze the trigger.

Practice this until you can squeeze off a shot without disturbing the coin and you are cured.

Hammer Guard

Rifles, especially carbines, have projecting hammers that are apt to wear holes in gun cases.

Such holes are unsightly, expensive and unnecessary.

A one-inch piece of small rubber tubing makes an excellent hammer guard. It can be removed instantly by a flip of the thumb, should an emergency arise.

Consider Your Dog

Remember that dogs suffer more than you realize in hot weather.

Yours will be a happier and healthier dog if you'll make sure he has access to shade, plenty of fresh water, and freedom from fleas and ticks.

Exercise him in the cool of the evening and underfeed him a bit until hunting begins.

Tree Hunter's Aid

Deer hunting from a tree produces good results but it's often dangerous.

An accident easily can occur if a hunter tries to turn

around on the limb where he is standing. Unfortunately he turns instinctively when he hears a sound behind him that might be an approaching buck.

A small mirror angled just right to cover the immediate terrain, to the rear of the hunter, will eliminate the necessity for movement.

Lindsey

Hybrid Sorghums

788 LINDSEY 788 has proven to be the yield standout of all varieties. 788 can "sit out" dry spells and still produce a yield seldom found in full season hybrids.

755 LINDSEY 755 is a new high yielder featuring GHD (Genetic Head Drying). GHD means you harvest the grain before Autumn weather does... as early as 610.

744 LINDSEY 744 is the Hybrid for dryland conditions. 744 features GHD for early harvest, outstanding yield... as much as 2 weeks earlier than 610.
