The workings of government are wonderful to behold; apparently common sense does not apply in bureaucratic circles. We are referring to the local flap over the placement of U.S. 60 through Texico. The current brouhaha concerns New Mexico but wherever it is eventually routed it will have Historian is Lawrence Gobble. to be with the assent of the Texas Highway Department. what puzzles us is just the fact that there are extensive plans underfoot to alter the existing system. We receive news releases right along from the several highway departments, including comments from the federals, about the growing lack of gasoline tax funds. As our national consumption of gasoline decreases the amount of state and federal gasoline tax also decreases. At the federal level we have read of complaints about the efforts of the big city politicians to divert monies from the federal trust fund to urban mass transit projects. This tells us that there is a dearth of money to repair and maintain the present system. The gist of these releases is that funds are lacking for normal maintenance work. Now how in the Sam Hill do they expect to come up with money to replace systems that are at least usable, such as our present U.S. 60-70-84 set up.

leadership and high character Nikie McDaniel, co-valedicaward (I Dare You) and office torian, is the granddaughter of practice award in her junior Mr. and Mrs. W.O. Wall, and has been very active during She received the honor her years at Texico schools. As a freshman. Nikie received the algebra I award, health award, math-science award, family history award and was named student of the week. In her sophomore year, she received the typing I award and the civil service award, in addition to receiving the outstanding band award.

One answer might be is that the federal government, and the states, are planning to raise the tax on gasoline. But this seems counterproductive given the already seemingly high price of push water. It looks rather logical to assume that as the price of gasoline goes up, whether from market factors or from increased taxation, the consumption will decrease. As consumption decreases so will the total tax take.

We just do not see where the money will come from to pay for extensive major new highways, particularly if the current system is even half way adequate as now prevails with U.S. 60-70-84 through Farwell and Texico.

Looking several decades into the future a body can reasonably question whether individual transportation as we have known it since the early 1900's will survive. With the inescapable depletion of petroleum and the advent of technologies as yet unknown will we always have need for elaborate and extensive hig way systems?

We are only on the lip of vast changes in our way of life. Knowledge is accumulating at an exponential rate. Computers make this knowledge

Mrs. O.B. Coffey, Lisa has accumulated many awards and honors during her years at

Texico. Most recently, she received a Talent Day scholarship, freshman academic scholarship and a combined volleyball and

basketball athletic scholarship from Eastern New Mexico University in Portales, where she will be attending classes in the fall. She also received \$100 Women's Club.

At the recent awards assembly Lisa was named Student of the Year.

award, based on her academic achievement this year.

year.

She was a member of the Future Homemakers of America all through high school, serving as parliamentarian her senior year. She was a member of pep club all four years and served as a graduation escort her junior vear.

Lisa was active in Lady Wolverine athletics, receiving scholarship from the Texico, many awards, including being . named best all-around athlete in her freshman and junior years. She was a member of

teams. He was district champion in tennis and received honorable mention in all-district football.

Awards he has received include the high student English and physical science award, as well as the high student geometry award.

Class salutatorian Todd Gregory serves this year as president of the National Honor Society and is listed in Who's Who in American High Schools. He is president of the FFA and a class officer.

He was named to the all-district football team and was district champion in tennis. He also participated on the Lazbuddie basketball team.

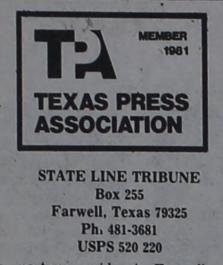

### **Expressing** Opinion

Texico-Farwell businessman building, expressed concern Hal Helton told the New Mexico officials "We definitely want an improved highway, but don't want our businesses left without access to them," in referring to the proposed construction project of U.S. 60-70 through the city of Texico. Several citizens at the meeting, conducted Monday night at the Texico community

over whether or not to have a median for one of the proposed highway routes, and whether that median should be raised or flushed. Officials told the capacity crowd attending the public involvement hearing that construction on the Relief Route would not begin for at least five years, and probably closer to seven.

## **Proposal 2 Variation Accepted**

Chamber of Commerce agreed to support a variation of proposal 2 in the Highway 60-70 construction project, at their meeting conducted Monday night, according to Louise Engram, chamber secretary.

"They agreed with the proposal, to come through

recommendation to the local town council. Surveys will be made for the design. It will be five years, and closer to seven before we see construction." said Bowers.

But you have to begin somewhere, and the officials began with explaining costs, design criteria, economic effects, effects on gasoline sales, projected air quality impacts, noise impacts, design speeds and traffic volumes to the Twin Cities citizens.

"All will have some effect in determining effect of business-

es," the engineer said. Estimated costs for the proposed routes were listed as, 2a, \$2.4 million; 2b, \$5.2 million; 3, \$5.7 million and 4, \$6.3 million. "These are very preliminary figures. They will be refined as we do additional studies," said Fred Pearson of Gruen Associates, consultants to the highway project.

The attendance at Monday night's meeting was what Bowers called "one of the larger turnouts we've had on any of our US 60-70 meetings. This is an excellent turnout," he said.

60

If you demand high performance from your 14 x 18 baler, here's good news John Deere has taken its popular 346 baler and beefed it up even more

We improved performance up front by adding two extra rows of teeth to the pickup. Now you get 156 hungry teeth to help you gobble up all of today's wider windrows. In fact, you can't buy a baler that has more teeth. We even added an adjustable compressor that floats right with the pickup to give you consistent compression over bumps and dips.

Other improvements include a new beefier knotter, an optional Category 5 driveline and a fast 93-strokes-per-minute plungerhead speed that makes solid bales and increases capacity If you want big capacity and durability, take a look at our new 347 Baler.

# **PUBLIC NOTICE**

On April 16, 1981, Bailey County Electric Cooperative Association filed with the Public Utility Commission of Texas an application for tariff changes as follows:

In the Collection Policy the disconnect date for non-payment is changed to read twenty-two [22] days from the date the bill is issued, and to give seven [7] days' notice prior to stated date of disconnection. In this same policy, we have requested that the mileage charge for collection trips be removed. This revision is applicable to all classes of service.

In our Outdoor Lighting Service Tariff we have requested the addition of the wording, "This monthly minimum shall not include any billing adjustment charges." This revision is applicable only to the Outdoor Lighting Service Tariff.

Applicant serves in all or portions of Bailey, Castro, Cochran, Lamb and Parmer counties. Protests to or motions to intervene may be filed with the Public Utility Commission of Texas. On April 27, 1981, the Public Utility Commission of Texas ordered the Cooperative to suspend these changes for 120 days, and further ordered that the substance of the Cooperative's application be published as required by P U R A, Section 43 [a].

sunt owers make the most ra ittewater.

SAAD AG

Here in the High Plains of Texas, a little water has to go a long way. But now, you can make the most of a little water by planting SeedTec sunflowers, the drought-tolerant crop that thrives in hot, dry weather.

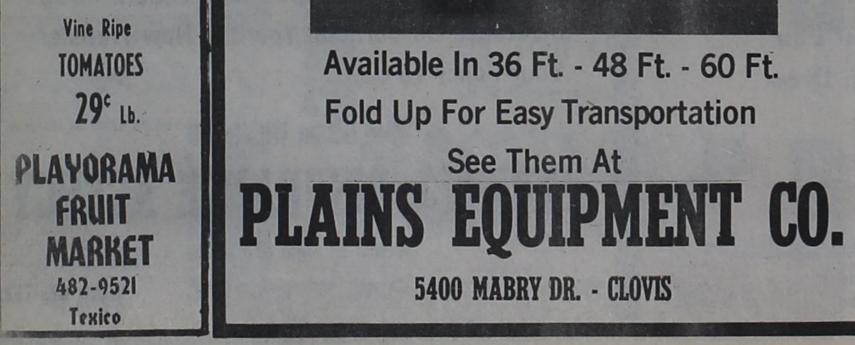

### Cut your irrigation costs and conserve water.

By planting SeedTec sunflowers now, you can cut irrigation costs and conserve one of your most valuable resources-water. With only one or two waterings, your SeedTec sunflowers can have the moisture they need for excellent performance. Compare that to the expense of irrigating corn or sorghum, and you'll see why SeedTec sunflowers are the logical alternative to world demand for sunflower oil is high. So sunflowers offer excellent profit potential.

Cut nutritious silage from SeedTec sunflowers. SeedTec sunflowers make great silage, any way you cut it. In fact, sunflower silage contains more protein and fat than corn or sorghum silage. Yet sunflower silage costs less to produce.

To make the most of a little water this year, call your SeedTec dealer today.

Sometimes a speech is like wheel - the longer the poke, the greater the tire.

high pumping costs and dwindling water supplies.

Cut your total production costs. On irrigated land, sunflowers cost less to produce than corn, cotton or sorghum. And while sunflower production costs are low, the

# Jr. Rodeo Association Sets Summer Schedule

The High Plains Junior Rodeo Association has announced its slate of rodeos will begin May 23 in Clovis at the Mounted Patrol Arena.

More rodeos are slated for June 6, in Lovington; July 24, Farwell's Border Town Days; August 8, Melrose; August 15, Bovina's Bull Town Days.

"We would like to solicit more rodeos for the High Plains Junior Rodeo Association," said Mike Camp, member of the group's board of directors. "Any interested towns or organizations should contact Cindy Moore at 762-7598 in Clovis.

Camp said that the organization is currently taking bids as to where the finals will take place, and that trophy saddles and belt buckles will be given away at that time. Members of the junior rodeo

association must "be in good competiton is barrel race, pole standing with their schools, or bending, goat tying, breaking," Camp said.

of four age groups. Boys and girls compete together in age group eight and under; and the two are separate in age groups 9-12; 13-15; and 16-19.

"Birthdates are as of January 1," Camp said. Events for the children in the 8 and under group include barrel racing, flag racing, and goat tying.

Girls in the 9-12 category participate in barrel race, pole bending, goat tying and flag race. Boys in the 9-12 age group compete in calf touching, steer riding, breakaway roping and steer stopping. Entry fee for each event is \$7.50.

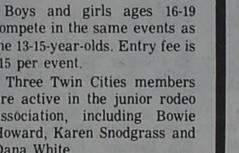

have graduated in good stand- away roping and ribbon roping. Boys compete in bareback The youth participate in one bronc riding, tie down calf roping, bull riding and team roping. Entry fee for these events is \$10 each.

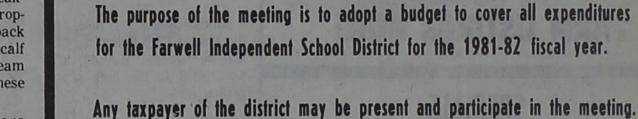

> compete in the same events as the 13-15-year-olds. Entry fee is \$15 per event.

are active in the junior rodeo association, including Bowie Howard, Karen Snodgrass and Dana White.

For information on membership or on scheduling a rodeo, contact Robert White at 481-9043; Mike Camp, 481-9491; Cindy Moore, 762-7598; or Janice Moore, 985-2624. White and Camp are the

uphill fight to do right and easy grace" (Rom. 6:14). In grace to do wrong. No mother ever had to teach her child to tell'lies, and in response to that grace. or to steal or to disobey. Every child does these things naturally. All, by nature, are slaves to what He has done for them. sin.

BY CORNELIUS R. STAM PRES. BEREAN BIBLE SOCIETY

CHICAGO, ILLINOIS 60635

Some, on the other hand, have sought to make themselves slaves to the Ten Commandments in order to overcome their natural tendencies toward evil, but this doesn't produce either. God didn't give the law to help us to be good, but to show us that we are bad and need a Savior. In Rom. 3:19 He ers, who enjoy this wonderful says that He gave the law "that every mouth may be stopped and that all the world may become guilty before God" and in verse 20 He says that "by the law is the knowledge of sin." Only believers in the finished work of Christ are liberated from sin and its results. This does not mean that it is not possible for them to sin, but that it is now possible for them not to sin-to have victory in
