

STEERS ARE BI-DIST. CHAMPIONS

This column nearly always is written well in advance of the publication date of the paper, which sometimes may help to explain how we seem to lag behind in commenting on current events.

This week's writing comes after our just having finished witnessing the splendid performance of the Farwell football team against Hale Center at Plainview.

Dick Hapke, who is writing Tribune sports, hasn't gotten his story out yet, so we don't know how he intends to handle it, but whether our comment be repetitious or the only thing mentioned on the subject this week, we would like to pay tribute to the linemen of the team.

Especially defensively, the Steer's line has been outstanding. Any time the boys on defense can hold a high scoring team like Hale Center back, there is more here than may meet the eye.

Since, after all, the object of the game is still to move the ball into the opponent's end zone, it is only natural that fan and sports critic alike give practically undivided attention to the boys who do the carrying.

The art of watching line play, on the other hand, is one that needs cultivation, especially in high school circles where most observers scarcely have a working knowledge of the game's fundamentals.

There isn't often any glory in the sweaty line, where a boy may give every ounce he has every down and never be noticed by the fans. But on his efforts so often ride the reasons for the team's win. Besides enabling the ball to be moved by his team, the duty of every line is to see that the opponent is unable to make yardage.

Fortunately, Farwell's football team has no "heroes." It may have some all-state material on it, but it is rare to hear anyone mention any boy's name without an equal commendation for a fellow player who makes the first boy's success possible.

And that, after all, has been the "ace in the hole" for the group of which we all are so proud. They have played as a team, and not for the glory of any particular member.

An amiable person paid us a visit the other day. His name was Cliff Oliver, and he now works for the Santa Fe Railroad in Amarillo. He has been a "railroader" since 1912, but can recall more colorful days.

If his memory serves him correctly, it was in 1907 that he was a compositor or typesetter for the old Farwell Times, a weekly newspaper that has long since perished.

It was owned, he recalls, by W. E. Schooler, who later sold to J. Claude Wells, now of Memphis. Cliff says that times were pretty lean in those days for printer and publisher alike. It was hard for the printers to live on the wages they earned, and it was hard for the publishers to pay them even that much.

We told Cliff that maybe times hadn't changed so much, after all!

Cliff recalls that about the only folks in town who were making any money to speak of were the liquor store operators in Texico, a wide-open, tough "border town."

Not finding the work easy or too profitable, Cliff drifted to Clovis in a few years, and worked a while on a paper there. He later joined Santa Fe and has been with them ever since.

It was probably a smart move, he still believes, but he hasn't yet been able to forget the smell of printer's ink, and somehow it always lures him back into the newspaper shops wherever he goes.

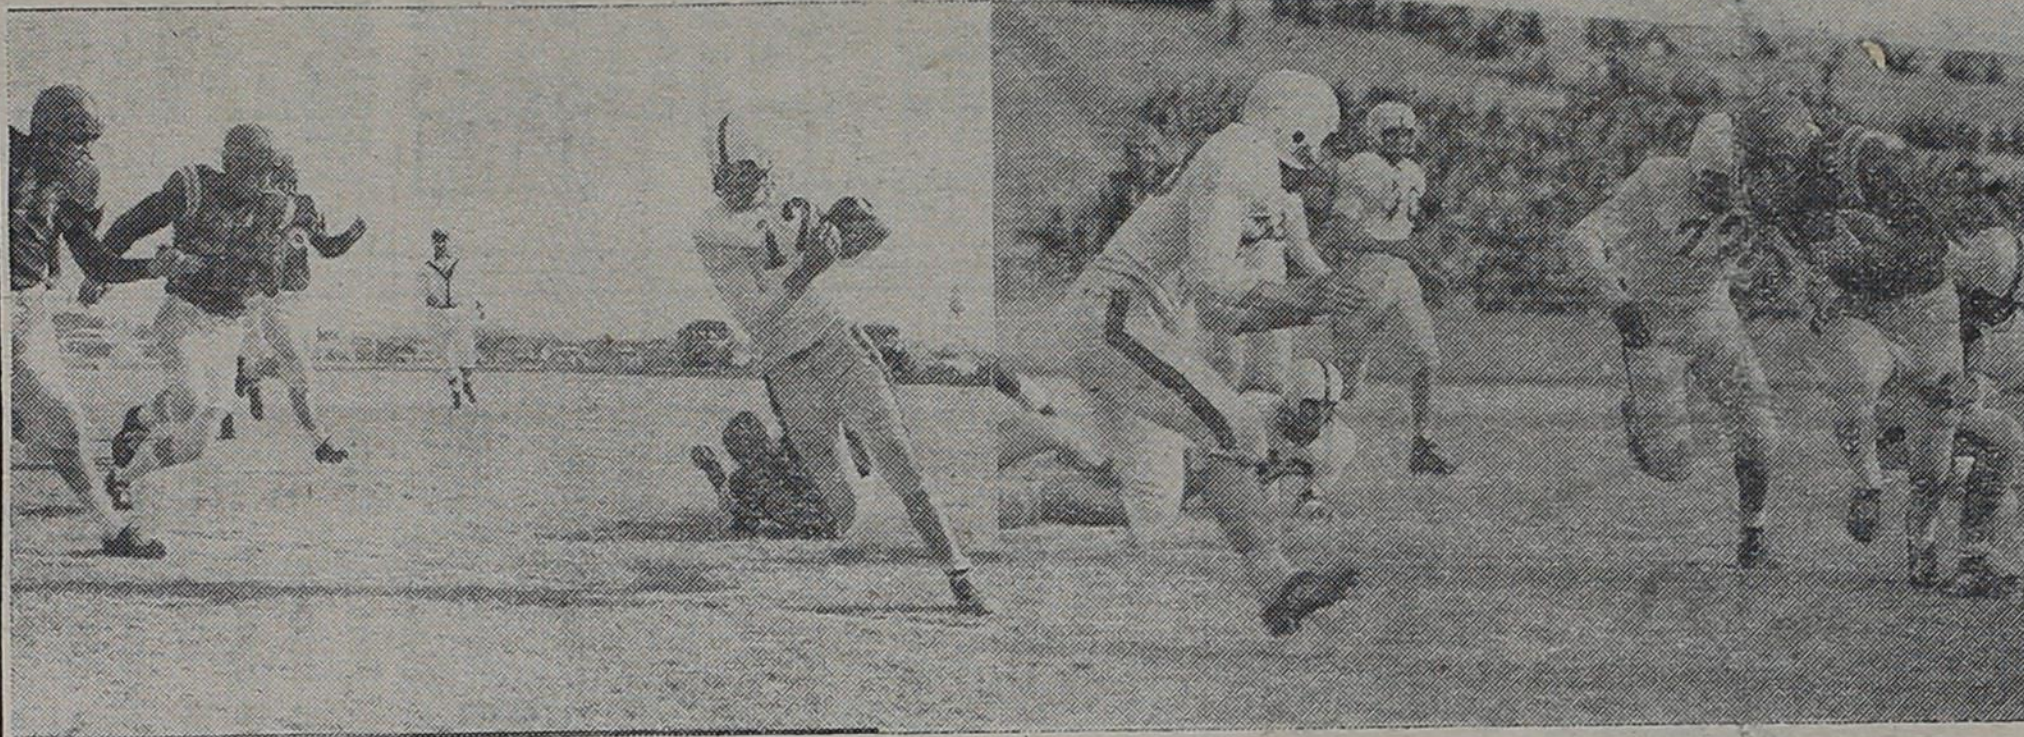

He enjoyed being in our place, though it was only for a few minutes, and we enjoyed talking with him.

The Oliver Sikeses must be getting tired of loitering all over the country. We would guess that they are getting a little homesick and are heading for home.

This assumption is based on the absence in the mails of anything from them about their travels for over a week now. A person who doesn't write home is often the most homesick, they told the writer when he was away at college.

Paving of First Street in Farwell, although it won't be completed until warm weather again, certainly promises to be an improvement. Also scheduled is another big program in Texico, this also to come next year.

We are sure that we have said so before in these columns, but it's well worth repeating: There isn't anything that will make a little city out of a country town like paving, with curb and gutter.

GOOD OFFENSE—Quarterback Johnny Lovelace, exhibiting fine form, knocks down one Hale Center defender and charges into two others as he picks up 11 yards on a keeper play in the second quarter.

GOOD DEFENSE, TOO—Ferman McBeth, the big Hale Center fullback, here finds out the hard way how tough it is to get yardage against Farwell. The Steer defense made this sight a common one all afternoon.

One hundred and seventy persons have answered the invitations definitely stating that they will be here for the banquet. Mrs. Phillips says that many of these were received from persons out of this area. She urges that all ex-students here in this vicinity attend to give a warm reception to exes who are coming from out of town. Persons who have not mailed in cards saying they will attend, may call Mrs. Phillips at 7-2534 by Saturday noon for reservations. Tickets for the banquet are \$1.50.

Door prizes are to be awarded and gifts are to be presented to the ex-student traveling the farthest distance and to the oldest ex-student at the banquet.

Money Needed for Christmas Lights

Farwell's Chamber of Commerce is sponsoring the stringing of Christmas lights along Main Street this year and money is needed for the project, says Wilfred Quickel, Chamber secretary.

At a meeting of the group Tuesday night it was decided to put up the lights on December 8, but to do that, \$150 is needed. Plans are to contact local businesses for donations to this cause.

Chamber officials also asked for the help of individual citizens. Anyone who is interested in the community and wants to contribute to the lighting project, may do so by contacting Heinie Henderson, Bob Anderson, or Quickel.

Owls Are Victims By 27-14 Count

Continuing their winning ways, Farwell's fast-improving Steers moved a notch higher in the Class A state playoffs Friday, as they defeated the Hale Center Owls, 27-14, in a Bi-District game at Plainview.

The win was the 10th straight for the Farwell team and moves them into the regional playoff game against the Stinnett Rattlers at Hereford this Thursday.

The Steers took the opening kickoff and in 15 plays moved 80 yards for their first score. Johnny Lovelace hit David Willard with a 14-yard aerial for the touchdown and Tommy Lovelace ran the extra point. The score came after a Hale Center pass interception had been nullified by an offside penalty.

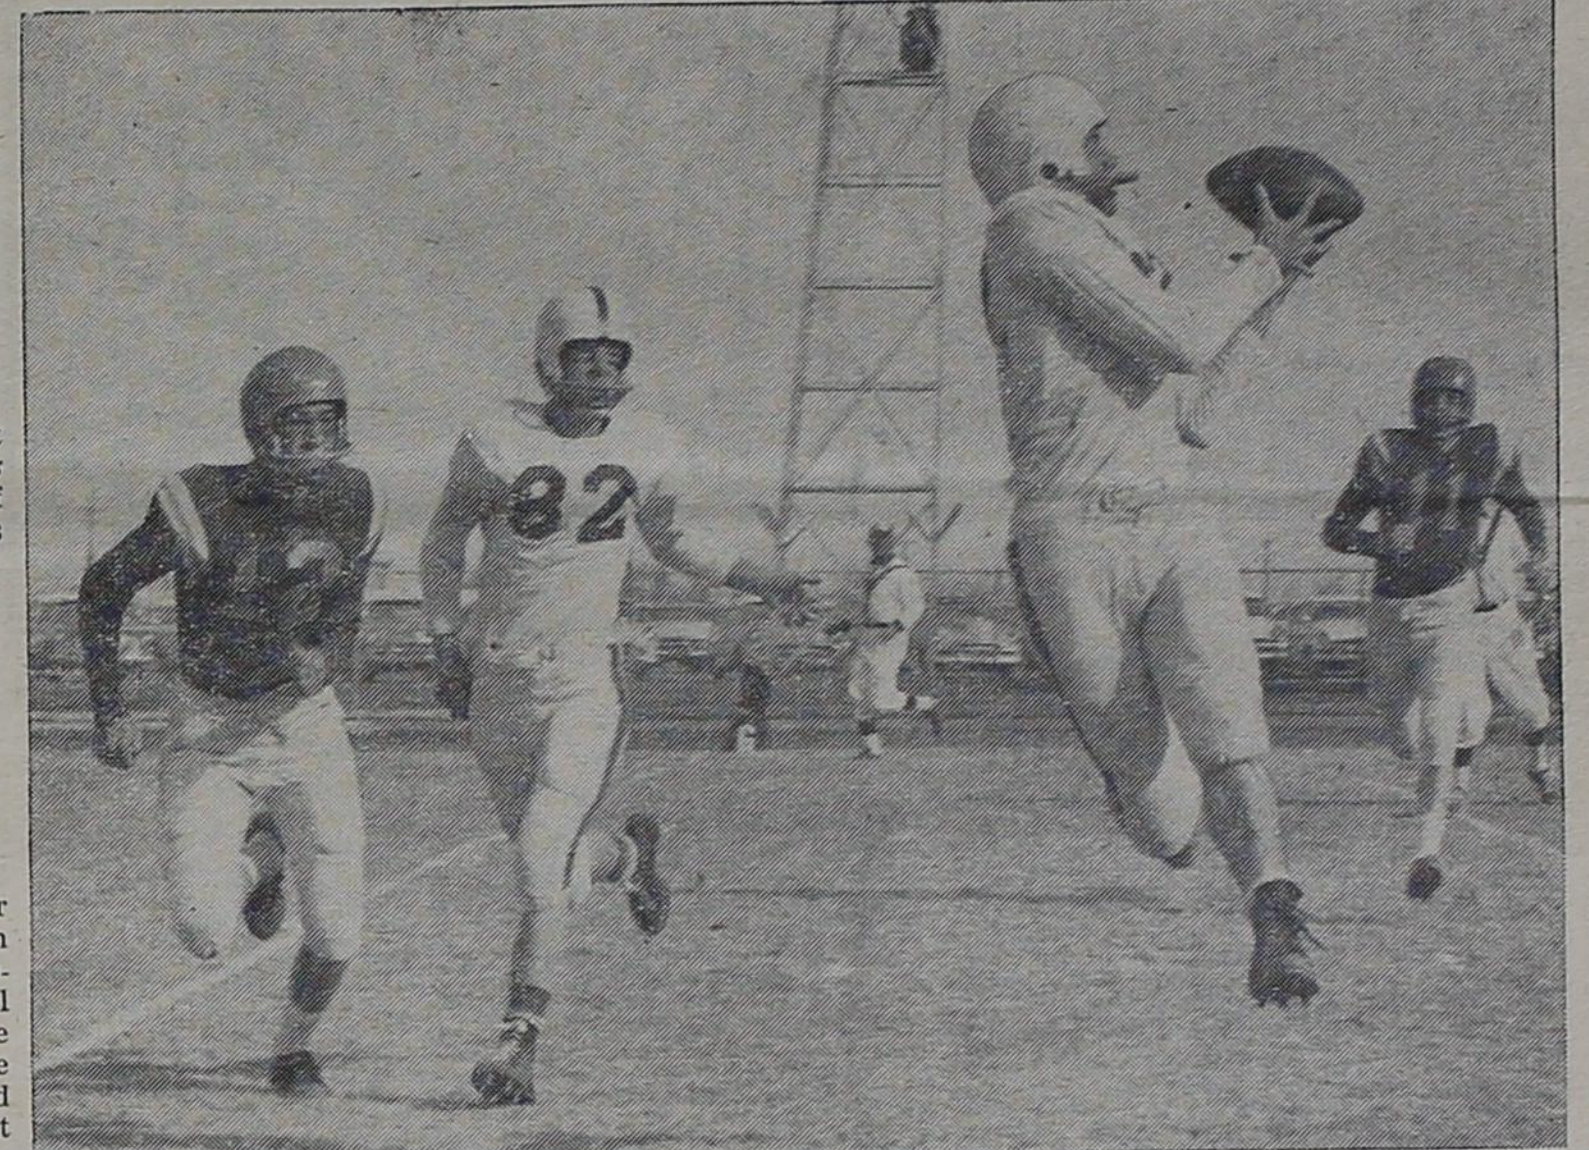

Hale Center then took the Steer kickoff and on their first play from scrimmage fumbled and Willard recovered for Farwell on the Owl 47. Nine plays later T. Lovelace went over for the second TD. The extra point try was no good and the Steers led 13-0 as the first quarter ended.

In the second quarter the Owls finally started to move the ball and from their own 30 moved the ball to the Farwell 11 with a first and 10 from that point. The Steer defense buckled down and they successfully made a goal line stand, taking over on the five.

That was the only Hale Center threat until early in the third period. Taking the kickoff to start the second half the Owls started moving from the 30. On the third play from scrimmage, Jimmy Carver broke through the Farwell line and travelled 53 yards before being hauled down on the Farwell 10 by Willard.

It looked like the Steer defense was going to hold again as in three plays the Owls had moved only two yards. With fourth and eight facing them, Furman McBeth scooted around right end for Hale

TOUCHDOWN PASS—David Willard, speedy Steer back, gathers in a pass in mid-air. His teammate, Glyn McDorman, blocked out John Bourland (12) of Hale Center, enabling Willard to cross the goal line.

Stinnett Today

A highly-publicized offensive team from Stinnett will furnish the opposition for the Farwell Steers today in the regional playoff game at Hereford, beginning at 2:30.

The Rattlers, winners in District 1-A were victors over Clarendon, 33-6, in their Bi-District encounter last week. The win was the eleventh straight for the Stinnett team this year, and they have handled all opposition rather handily.

The Rattlers have an experienced team with all four backs and the two ends being seniors. It will be about the same squad that went all the way to the state finals last year and dropped a 7-0 decision to Deer Park in the championship game.

Average weight of the Stinnett team will be about the same as

Hereford Is Site By Flip of Coin

A flip of the coin made Hereford the site of the regional playoff game between Farwell and Stinnett when the coaches of the two schools met at Canyon Sunday.

Hereford was selected as Farwell's home field and Stinnett's home field was to be Borger. Farwell won the flip and got the game at Hereford, to be played this afternoon at 2:30.

It was first thought by local coaches that the game would be played at either Canyon or Amarillo as they were the halfway points. However, Stinnett preferred to have the game closer to home and was willing to gamble for the opportunity to play at Borger.

The gamble backfired and Farwell won out, getting the game close to home for the local fans. Admission to the game will be \$1.25 for adults and 50 cents for students.

Farwell's 160 pounds. In the backfield will be a versatile 190-pound quarterback and a hard-charging 180-pound fullback. All four of the backs are fast and have been running wild all season, according to observers.

Only once this season have they been held to as few as two touchdowns and that was by Panhandle, runnerup to Stinnett in the district. The Rattlers defeated Panhandle, 13-0.

There is only one common foe

of the Steers and the Rattlers, that being Friona. Early in the season, Stinnett topped the Chiefs, 27-0, and later in the year Farwell took Friona in a conference game, 7-0.

Stinnett has been mostly a ground team this season, but it has been known to pass when the occasion arose. The team also excels on defense, giving it a well-rounded attack.

Farwell's coaches, Russell Young and Shelby Jobs, have (Continued On Last Page)

Woman and Son to Try Life in America

For the bright-eyed little boy who engaged in fisticuffs because he told classmates that Texas was bigger than France and Germany put together, and for the courageous mother who had waited a decade for this hour, Tuesday night was a turning point in their lives.

That was when Simone Maignie, a French woman, and her son, 9-year-old Harold, stepped down from the plane which had brought them from Washington, D. C., to Amarillo where they were met with open arms by friends and strangers alike.

Her first words on seeing her friend, Jo Ann Williams, whom she had met in France over a year ago, were "Oh, Jo, I can't believe it." And her delight and slight confusion was apparent as she was introduced to the man who sponsored her to this country, Jo Ann's father, Johnie Williams, and to the reporters from the daily newspapers who had been at the airport to meet Simone. Everyone in the station seemed to be

interested in the vivacious woman and happy little boy, who had flown all the way from Paris, France, to build a life in the United States.

Harold, who is scheduled to enter the fourth grade next week in Farwell, speaks three languages, German, French and English. He had been so thrilled over his journey that he had told French classmates that he would be going to school in Texas soon. But when he elaborated on the size of the state, he had to defend his views.

Simone has been employed by the United States as an interpreter for the Air Force, and has had a dream of coming to America for many years. When Jo Ann Williams was in Germany and France over a year ago, she met Simone and the two became friends. They toured the countries together, worked together, and formed a lasting friendship, which spanned the ocean, after Jo Ann returned home. And what was the reaction of Simone to her new home—Farwell? THE TRIBUNE'S EDITORIAL COMMENT

A Lesson To Be Learned From Football Squad

The football team is the pride and joy of local citizens this week, and rightly so. The present squad is the best in the history of Farwell.

To attain the record of achievement that the football team has this year, much work has been turned out by all concerned. It has not been the efforts of one individual or a few individuals which have contributed to the team's success, but by the efforts of the entire team and coaches.

Many teams have a certain amount of success by the efforts of a few. In other words, a few standouts can make a moderately successful team, but, in the long run, it is the one with the overall balance that achieves the highest goal.

To begin with, Farwell was not supposed to have anything outstanding in the way of a football team this year, especially since it was jumping to a higher classification. At the start of the season, it was just another team.

As the season progressed, though, so did the team, and in several games it was an all-out effort by the entire unit that turned defeat into victory.

A great determination, constantly trying to improve on past mistakes, putting forth the effort needed for each task, and most of all, each doing his part, all have to be attributed to the team's success.

The coaches have worked long hours in trying to teach the players a better brand of ball and mapping out strategy for coming games. The players have responded and through the efforts of each, has come a group working together toward one goal.

When one battle was won, the team did not rest on its laurels and think it was unconquerable, but always knew there was another task greater than the last. Each time the team rose to the oc-

That is certainly not all that has contributed to the successful season, but mostly, that is it. No other way could the team have gone as far as it has and still be climbing.

Everyone can gain something from the football team and coaches. If other groups would work with the same amount of zeal, it is quite certain their accomplishments would be numerous.

A Chamber of Commerce and other civic organizations, as well as a community itself, could certainly prosper if the people involved would follow the pattern set forth by the highly-successful Steers.

Parmer County Pioneer Dies

Funeral services will be held Friday afternoon, November 30, at 2 o'clock. Interment will be in the Bovina Cemetery with Roberts Funeral Home in charge of arrangements.

Special Meeting To Be At Watts' Tuesday

A special meeting for farmers of the Farwell vicinity is to be held at Watts' Machine and Pump Co. on Tuesday evening, December 4, at 7:30.

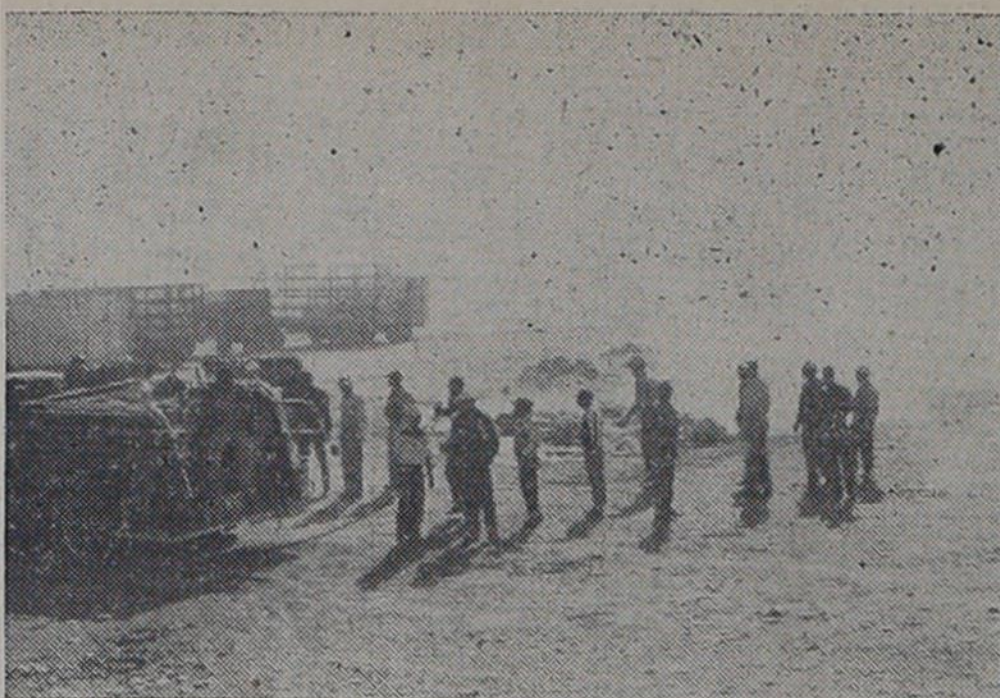

The meeting will have to do with lubrication problems and farmers are invited to attend so that they may ask questions concerning difficulties they may be having.

On hand to discuss lubrication problems will be Bill McKnight, area representative of the Kendall Refining Co. and J. R. Blakley from the Kendall home office in Bradford, Pa.

Special tours to farms in this area will also be made by the Kendall men on Monday, Tuesday and Wednesday of next week. Farmers are asked to drop by Watts' for information concerning any lubrication or greasing problems.

Free coffee and doughnuts will be served at Tuesday night's meeting, and films will be shown.

FIREMEN AT WORK—As the cotton burns at Nickels' Gin in Farwell Sunday morning, volunteer fire fighters work to keep the fire from spreading. Several trailers and about 40 or 50 bales of cotton were destroyed in the fire, caused by sparks from a burr incinerator.

Fire Hits Nickels' Gin Sunday Morning

A fire caused by blowing sparks from a burr incinerator destroyed several cotton trailers and about 40 or 50 bales of cotton at Nickels' Gin in Farwell Sunday morning.

The fire damaged 16 trailers in all and seven were completely destroyed, according to Guy Nickels, owner of the gin. Estimated amount of the damage was between \$10,000 and \$15,000 by Nickels.

The fire started soon after 11 a. m. Sunday morning, breaking

out at the south end of a lot where the many trailers of ungnined cotton were standing. A strong north wind caused it to spread but the bulk of the trailers north of the fire were protected from the blaze.

The fire department was called out and, joined by the numerous townspeople, worked for a couple of hours in trying to save the burning trailers.

The burning cotton continued to smolder for most of the afternoon.

We've always heard that if you want something done—get a busy person to do it! And when the Farwell Exes elected Bunk Phillips president of the group last year, they did just that. Bunk is so busy, that wife Billie, has taken over the many errands that go with planning such an affair.

Now Billie is the mother of four, all of them REAL active, and she is raising turkeys, keeping house, and doing the endless tasks that a farmer's wife must do.

But you should see what that gal has spearheaded for the exes banquet coming up December 1. She has had help in her calls, and the people that she has asked for favors, have been most generous. But if you don't come out to the ex-students banquet, this year, you will miss a treat.

Things are changing around on the home front down in our end of town. We understand that Mrs. Harry Jesko is moving into her lovely new brick home across from the Clay Henson residence, and the John Getzes have purchased the new flat-top house on First Street next-door to the Smokey Gasts. The newly-weds, the Dean Jones have moved into the rent house vacated by Clytie Dial, who recently completed her new home.

The Mem Sprows are to move into the house vacated by Mrs. Jesko.

No matter how bad the editor might feel when he is ill, he still has to joke with the nurse, cook and sick room companion, which is one person, yours truly.

The old aches and pains got him the first of last week, and while he was perched up in bed, threatening every five minutes to get up and go to work (when he couldn't even hold his head up), the staff members of The Trib were really hopping to get the paper out early for Thanksgiving.

We rushed into the house to check on the boss, after having been to the office to check on how the paper was doing, and going by Gram'ma's to see how the little Grahams were faring.

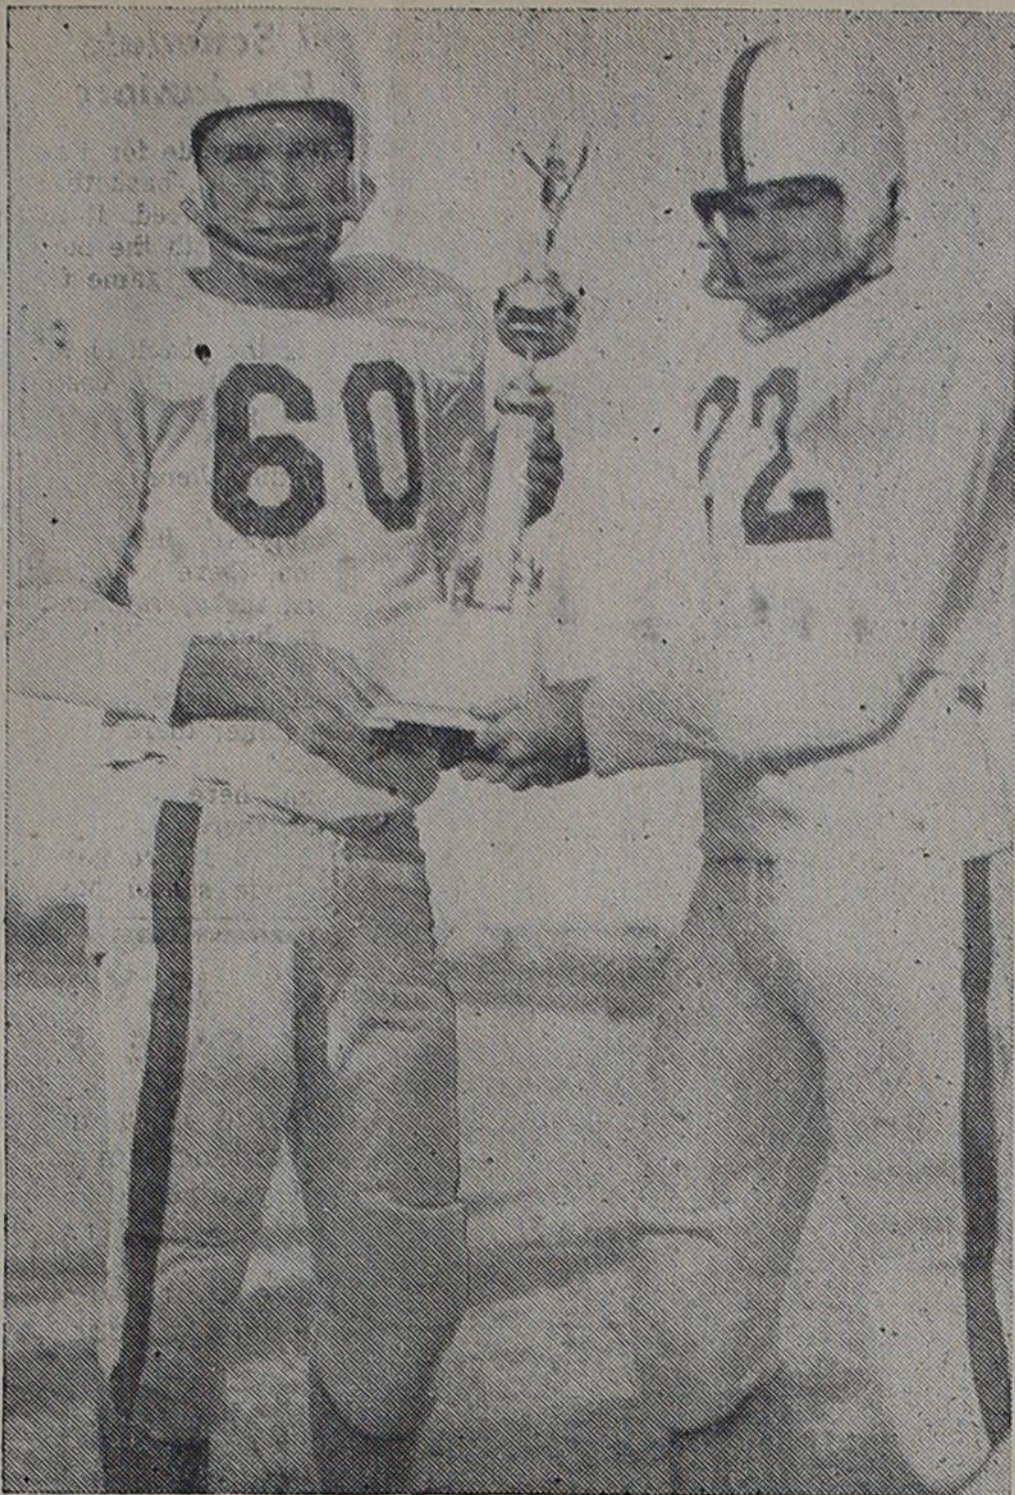

The editor dolefully told us "now I know what I've got."

Noting his seriousness, we questioned "What do you have?"

"I think I have the ulf."

"The ulf, what in the world are you talking about?"

"Well the last time I had the flu, I had a headache, then a sore throat, and then a stomach ache." Now I have the stomach ache this time, and if I get a sore throat, then a headache, I'll know I have the ulf, because that is right opposite of my symptoms, and ulf is

Posture Queen Is Guest Of ESA

"Your Face and Figure Is Your Fortune" was the theme of the informative program presented for members of Theta Rho chapter of ESA, under the direction of Mrs. Nell Walling, Mrs. Irene Jones and Mrs. Elizabeth Kaltwasser, at a meeting Monday evening.

Special guest was Miss Doris Harriman, posture queen of Farwell High School, who demonstrated the correct methods of standing, sitting and walking, to maintain good posture, as Mrs. Jones presented commentary on the subject. Miss Harriman also gave the contrast, by striking unattractive poses, that are caused by poor posture.

The second portion of the program was given by Nell Walling, who spoke on the correct way of applying make-up, including common errors in the use of make-up, and presenting the current "fashions for the face." She emphasized that make-up this year should emphasize the eyes, and explained how this could be done, with special pointers for those wearing eye glasses.

Mrs. Dardanela Helton assisted with the program. Following the program, Miss Harriman was presented with an appreciation gift.

A brief business meeting was held in which members planned the menu for their annual Christmas party, made a list of worthy people to which Christmas baskets will be given, and made final plans for the ESA doll give-away December 1.

It was also decided to give a Christmas check to a family with severe illness and to buy lunch-room tickets for children, whose family had had a sudden tragedy.

MRS. JAMES G. TIDENBERG

Brownfield Girl Weds James G. Tidenberg

The First Baptist Church of Brownfield was the scene of a recent afternoon wedding ceremony uniting in marriage Miss Parilee Nelson and James G. Tidenberg. Miss Nelson is the daughter of Mr. and Mrs. Homer W. Nelson of Brownfield, and Tidenberg is the son of Mr. and Mrs. H. L. Tidenberg of Clovis.

Officiating at the double-ring ceremony was Rev. Jones W. Weathers, pastor of the church. Background for the wedding setting was formed by an arch which was surrounded with greenery and flanked by baskets of gold and bronze chrysanthemums. White

candles marked the bridal aisle. Mrs. Pat Ramseur, organist, played traditional wedding selections and accompanied Miss Jan Norberg, Hardin-Simmons faculty member, who sang "Tell Me Why", "Through the Years" and "Together".

The bride wore an original gown of imported white French lace and nylon tulle over satin and net. The fitted lace bodice was designed with a high neckline and small rolled collar embroidered with irri-

descent sequins and seed pearls. The long sleeves came to petal points over her hands, and her skirt was made of alternating bands of scalloped lace and shirred tulle, with wide ruffles of tulle edging the bottom edge.

Her veil of silk illusion was attached to an open coronet of wired pearls enhanced with pearl teardrops at the front. She carried a cascade bouquet of white roses with white satin streamers. She was given in marriage by her

father. Matron of honor was Mrs. Jack Stockton of Portales, and Miss Sue Nelson, sister of the bride, was junior maid of honor. They wore coffee colored gowns of chiffon velvet fashioned with long torsos, scooped necklines, short sleeves and street length skirts released to fullness at the hips.

Miss Norma Crownover of Hardin-Simmons, Abilene, Miss Beth White of Texas Tech, and Mrs. Gordon Asbury of Baylor University, were bridesmaids and bridesmatrons, respectively.

Their gowns were styled identically to those of the matron of honor and maid of honor and were of emerald green, golden brown and shrimp chiffon velvet, respectively.

All the bride's attendants wore pearl bandeaus and carried cascade arrangements of cymbidium orchids, sent from Hawaii by a friend of the bride.

Billie Porter of Terrell, cousin of the bride, and Bill McCleskey, cousin of the groom, served as candlelighters. Cheryann Tidenberg of Clovis, niece of the groom, was flower girl.

Kenny McCleskey of Abilene was ringbearer. Clinton Tidenberg of Clovis served his brother as best man.

Groomsmen were Hal Haralson and Gerald Petree, both of Hardin-Simmons, and Graves Nelson, brother of the bride, of Muleshoe.

The reception was held at the fellowship hall of the church following the ceremony. Assisting the couple in the receiving line were their parents and members of the bridal party.

In the houseparty were Mrs. Graves Nelson of Muleshoe, Mrs. Punch Nelson of Brownfield, Mrs. Clinton Tidenberg of Clovis, Misses Patsy Hale, Sandy Casstevens and Charlyn Weigle, all of Brownfield, and Miss Elaine Porter of Terrell.

The reception table was laid with a white linen cloth belonging to the bride's grandmother, and featured a wedding cake shaped as an open Bible bearing the scripture "Love One Another for Love is of God".

Mrs. Punch Nelson served spiced tea from an heirloom silver service

Surpasses its Own Great Reputation!

You're looking at a mighty surprised man. Almost all of his adult life he has owned and driven Cadillac cars. And so, when he decided to take an hour out from his busy schedule to see and drive the new 1957 Cadillac, he thought he knew about what to expect.

Well, here he is—barely under way in the city—and already he is learning the startling truth. He is learning that *nothing* could adequately prepare a man for the new "car of cars"—not even Cadillac ownership itself!

He suspected it, in fact, the instant he stepped into the showroom and caught his first glimpse of this newest Cadillac creation. This was an entirely new kind of Cadillac beauty—brilliantly fresh in line and in contour.

And then he opened the door and swung into

the driver's seat—and found added evidence all around him. On every side were new miracles of interior beauty and comfort and convenience.

And when he turned the key and put his foot on the accelerator, his sentiment grew to conviction. The car was incredibly nimble and quiet and smooth of ride.

Surprised, did we say? Just wait until he hits the open highway and receives the final verdict.

No question about it—*this is the Cadillac that literally surpasses its own great reputation!*

We suggest that you come in soon to see and drive this most surprising new Cadillac in fifty-four years. It's an experience you shouldn't postpone—and one you'll not soon forget.

Steers Upend Owls, 27-14

(Continued from Page 1)

Center's first touchdown. McBeth also booted the extra point to make the score 13-7.

Later in the period, facing a fourth down and seven from their own 42, Hale Center faked a kick and, McBeth with the ball, failed to make the needed yardage by one foot. Taking over, the Steers went for another touchdown in seven plays, Phillip Berry going around left end from 14 yards out. J. Lovelace kicked the extra point to give the Steers a 20-7 lead at the third-quarter point.

Early in the final stanza, McBeth faked another kick on a fourth down situation and this time lost four yards. The Steers took over on the 29 and a backfield in motion penalty pushed them back to the 34.

Willard went for 15 yards, Berry drove for 13, and Willard made four, before J. Lovelace plunged across for Farwell's final touchdown from the one. Johnny also ran the extra point to give the Steers a 27-7 lead.

In the final minutes of the game, the Owls pushed across their final score with a 58-yard march. McBeth going over from the three. McBeth also made the extra point.

As has been the case in most of Farwell's games this season, there was not an outstanding player. It was the overall performance of the team, both offensive and defensive, that contributed to the winning cause.

The defense showed that it had it when it was needed and the offense clicked with precision most of the time. The offensive attack was marred by several fumbles, but each time the Steers recovered.

All of the backs contributed to the offensive game, with Willard leading the pack with 98 yards rushing. Close behind was T. Lovelace with 94, followed by J. Lovelace's 32, Berry's 31, and Henson's 25.

Larry Pike, in the lineup for the first time since breaking his leg in the Lazbuddie game, midway through the season, carried the ball two times for five yards.

J. Lovelace was on the throwing end of both of Farwell's complete passes and Berry caught one for 22 yards and Willard was on the receiving end of a 14-yard pass.

McBeth, who scored all of Hale Center points, was the leading offensive man of the game, gaining 103 yards for the losers.

Crooks, Mrs. Mildred Burns, Mrs. Ansel Doolittle. Mrs. Tena Roth will not see action in Monday's game as she fell during practice Monday night of this week and broke her right arm.

Team members will be dressed in traditional "bloomer" fashion, wearing black bloomers, white middie blouses with large black bow ties, and black stockings.

Mrs. John Hightower and Mrs. Frank Doshier are the pep club cheerleaders. Members of the pep club include Mrs. Ronny Ferguson, Mrs. C. C. Morgan, Mrs. Les Means and Mrs. Russell Johnson.

Calling the game will be referees Agrie Jones and Ansel Doolittle. Gate keeper will be Mrs. C. B. Stockton, and Mrs. N. W. Peyton will keep score.

Admission will be 50 and 25 cents or \$1.25 per family. Proceeds will go to the Texico Woman's Club to be used for redecorating the community building which the club will use. Mrs. Fred Danforth, president of the club, says that some work on the building will probably start this Saturday.

been drilling the Steers on defense this week and whether or not the high-stepping opponent can be stopped remains to be seen. The fact that Farwell has been improving rapidly for the past few weeks definitely makes it a squad to be reckoned with. No one is counting the Farwell team out, even though it will definitely be the underdog, the role which the undefeated Steers have played so many times this year.

The winner of today's contest between the unbeaten will meet the winner of the Merkel-Senora game

next week in the quarter-finals of state championship play.

The Steers should be at full strength this week and the starting lineup will probably be the same as last week, say the coaches.

Shaffer Gin Feeds Turkey To Over 300

Folks in and around Lariat got a Thanksgiving treat of turkey and all the trimmings last Thursday, compliments of the Shaffer Gin.

The feed, which was open to the community, was attended by over 300 persons, estimates Lawrence Cooper of the gin. Hungry visitors started lining up about 11 o'clock that morning, and six turkeys were gobbled up.

Ginning proceeded as usual while the gin played host. The same kind of Thanksgiving feed was served up last year, and residents seem to think it's a pretty good idea.

ESA Doll To Be Given Away Soon

The Epsilon Sigma Alpha doll, which is now on display at Southern Union Gas Co., will have a new owner Saturday, with the give-away event planned for 4 o'clock in the afternoon, west of the G. T. Watkins building in Farwell.

The 20-inch ballerina doll has a complete wardrobe with daytime dresses, formals, pajamas, robe, fur cape and hat, play clothes, and even a traveling case containing "play" make-up.

The doll give-away is an annual event held by the members of ESA.

Shaving was originally a protective measure since long beards were easy for opponents in combat to seize.

Darwin Green, 3, son of Mr. and Mrs. Doyle Green, takes to a giant drumstick at the Thanksgiving dinner sponsored by Shaffer Gin in Lariat Thursday of last week.

Adrian Basketball Game Cancelled

The scheduled basketball games between Farwell and Adrian here Friday night have been cancelled, announces Calvin Murray, athletic director and boys coach. The games have been called off due to the football playoff game between Stinnett and Farwell.

Both the boys and girls teams have games scheduled with Muleshoe next week and if the football team wins today at Hereford, these games will also be cancelled, Murray says. Too, both teams are scheduled to take part in the Muleshoe invitational basketball tournament next weekend, but if the

football team wins, the boys will withdraw, the coach says.

The reason for having to cancel the games is due to most of the players who will make up the basketball team, are also playing football.

Will Be A New Concept In Motoring

Fun, Style, and Convenience!

A 1957 FORD CAR offering the advantages of both the hardtop and the convertible represents the first revolutionary new idea in automotive design since the development of the closed car 40 years ago. To change the hardtop into a convertible, the driver simply presses a button and the all-steel top automatically slides into the trunk where it is completely concealed. It's equally simple to raise the top. The center picture shows the top in operation. Production of the car, a Ford first, will start in January.

Scales Introduced To Beef Production In Parmer County

The practice of weighing a calf before he is sold is certainly nothing new to cattlemen, but the idea of weighing him around weaning age just to see how he is getting along is another matter.

High Plains breeders and commercial cattlemen are now being introduced to a new system of evaluating calves that does not replace the time-tested technique of the human eye, but considers factors that the cowman's eye may tend to overlook.

Increasing beef production with performance tests and production records has brought about new methods, and one of them is the weight for age test, which this week was demonstrated in the Jess Osborn—A. E. Redwine registered Polled Hereford—herd in Parmer County.

Doug Wythe, from the district agent's office in Amarillo, was in charge of the testing, and was assisted by County Agent Joe Jones. Others were present to view the checking.

The idea was to weigh in all the herd—22 calves—that were between five and eight months of age. Then, their ages were "converted" to 205 days each in order that all might be evaluated against the same formula. (Normal weaning age is 205 days.)

The calves were classified (by eye) as to quality, and then were compared on a weight-for-age basis to see if the ones that looked good actually stacked up in the weight department, where it counts.

"This is a basis for selection that will single out the animals that are doing a good job of putting the meat on the ground. This beats the eye test alone," says Agent Jones. The testing will be valuable not

only for those producing commercial stock for sale and fattening, but the breeder as well, who wants to be able to find out which cows and which bulls have weight-producing characteristics which they are capable of passing onto their offspring.

Although tests of this kind are now in their second year, this is the first time such statistics have been compiled on a Parmer County herd, believes the county agent.

Wythe will be back in April of next year to weigh the animals again, plus take some initial tests on calves who were too young to be checked this time.

The Extension Service, Jones says, is introducing this system for beef producers, and hopes it will be adopted by them after they see benefits obtainable under it.

Oklahoma and New Mexico cattlemen are ahead of Texas in this respect, as many cattle raisers have already adopted the practice.

An A&M Bulletin points out, "When purchasing bulls by sight alone, a person may buy one that is capable of gaining three pounds per day, but there is a much better chance of getting one that is capable of only two to two and a quarter pounds."

"For this reason, when buying from a breeder who does not have performance information, you may select bulls that will reduce the feedlot gains, and in many cases the weaning weight of your calves."

FU Meet Has Big Turnout

About 125 persons attended the annual meeting of the Parmer County Farmers Union in the school cafeteria Tuesday evening. Guest speakers were Vernon Tiley of Texline and L. Dean Butler of Tulia. Tiley and Butler are both members of the state board of directors of the organization.

Tiley, who was a member of the state resolutions committee last year, discussed the program planned on the state level. Butler talked on "Why I Like Farmers Union."

W. L. Edelman, president of the local unit, gave the annual report and discussed plans for the future. In this report, Edelman revealed that the organization had grown from a membership of 13 when it was organized in February of 1955 to 272 in 1956.

The group discussed the possibility of getting a state resolution presented at the state convention aimed at alleviating the shipping bottleneck during the harvest season.

The resolution would be a request for permission to move grain by transport truck. If this permission could be secured, transport trucks would be allowed to haul grain from local elevators to terminal elevators. This would be helpful during boxcar shortages which exist during rush seasons, says Edelman.

During the business meeting, new officers were elected and 15 farmers indicated interest in attending the state convention which will be held at Abilene in December. The 1957 membership drive was opened Tuesday evening and about 40 members paid dues.

New officers are W. L. Edelman, president; John Renner, vice-president; Oscar Baxter, secretary.

Sandwiches, cookies, and coffee were served. Special guests were members of the junior class, play cast. Five persons received dressed turkeys as attendance gifts. They were Otey Hinds, Mrs. Glenn Taylor, L. R. Hand, Rudolph Renner, and Mrs. Lloyd Mings.

Foundation Office Set Up at Plainview

Office for the High Plains station of the Texas Research Foundation has been "temporarily" established at 704½ West 5th Street in Plainview, in the Realty Barn building.

Dr. T. C. Longnecker, director; Dr. John Davis, assistant director; and C. H. Janeway, field representative—all from the staff of the Foundation at Renner—are now assigned to the High Plains station.

Additional staff personnel will be selected when the program at Halfway, west of Plainview, gets started, reports the Foundation news service.

THE HAPPY HOMEMAKER

A recipe for punch, which is delicious at any season, follows: Mix 1 qt. grape juice, 1 pt. lemon juice, 1 pt. orange juice, ½ pint pineapple juice, 1 qt. carbonated water, and 1 qt. gingerale thorough-

ly and pour into punch bowl over a block of ice. Garnish with any sliced fruit.

You can add a clever touch to your table during the holiday season by cutting place mats from Christmas wrapping paper. They can be cut with pinking shears and will be very attractive.

The Happy Homemaker has had several calls from persons who want a good recipe for an unbaked fruit cake. If you have one, we will appreciate a copy of it. We have eaten several that were delicious but do not have a recipe.

A very special friend of ours makes a delicious Banana Nut Cake. Maybe you would like to try the recipe.

"The Place Where Most People Trade"

Friona, Tex., Tuesday, Nov. 27, 1956

Fall may be some folks' favorite time of the year, but before long, Friona folks will be raking leaves like easterners. We remember when trees were so scarce in Friona that leaves weren't a problem, but now there are more trees and bigger trees, so soon we'll all be raking and burning leaves.

Fall is a wonderful time of the year to buy a new car. Have you driven the new Oldsmobile? For real driving pleasure, comfort, beauty, and economy, nothing beats the new Oldsmobile.

A couple of Dallas hunters suddenly discovered that a bull was charging down toward them. They tossed away their guns and raced for safety. One climbed a small tree that barely put him out of reach of the animal's horns and the other man jumped in a hole. He sprang out in a moment and the bull wheeled and rushed toward him, whereupon the man jumped back in the hole, but in a little bit, he sprang out again. His friend up the tree yelled, "Henry, for goodness sake, stay in there so the bull will go away." The other said, "There's a wild cat in this hole."

A new five-rib tire in a low price range has been put on the market by Goodyear, the greatest name in rubber. Rayon cord, triple tempered by Goodyear exclusive 3-T process, the tire has a more resilient body and more recaptability. The flatter tread increases mileage 10 per cent.

We want to congratulate our neighbors for their football team. This is the first year they have played Class A football, which makes us and their home town just that much more proud of them. Congratulations to a great football team and to their home town, Farwell.

We've always heard that the only sure things in life are death and taxes, but we would add cold weather in the Panhandle of Texas, so you better get plenty of anti-freeze now. Our prices are lower and we have plenty. I. H., Zerex, and Prestone.

Have you noticed the new TV towers that are going up across the country? One is located on the Fred Carson farm south and west of Friona. These towers are to add strength to the micro-wave or something, anyway, they mean better reception for television viewers.

Our parts department is one of the largest in Texas. We have three experienced parts men to help with your repair jobs. Call 2081 or visit the parts department of the Parmer County Implement Co.

The greatest miracle of life is this: That the more you give and do, the more you have and are.

Several Friona fellows had pretty good luck quail hunting in New Mexico, Saturday. Harold Joe Wells was with them and the birds outran him all day long. He says he's sure he can run as fast as the quail, if he could just get an even start.

If you are planning to use a guide on your tractor this fall, you will need a safety switch. Come by the Parmer County Implement Company and let us show you this inexpensive safety switch that will kill your tractor as soon as it stalls or leaves the furrow.

Members of the Drivers Education class of the Friona Schools have been giving programs on traffic safety to the local clubs. These boys and girls learn to drive safely and sanely. They

believe if all drivers were required to pass a course in drivers education, there would be almost no traffic fatalities.

Now we can make long trades on the world's finest pickups and trucks — Internationals — test drive one and be sure. As low priced as any comparable truck or pickup, but higher in value.

"Oh, I think you are clever," has won many a girl a reliable husband, but "Dinner's ready whenever you are, dear" has kept him.

Friona was the only town in the Littlefield district to win a first place and to be eligible to go to the state meeting. Gerald Daniels, Don Clements, Ronnie Woods, and Jimmy Bainum are the boys on the Jr. Farm Skill team. They demonstrate the debarking of poultry.

With so many caged hens in the county, now folks are interested in the debarking process because it prevents cannibalism. J. T. Gee, the boys instructor, will be one of the judges for senior farm skills at the state meeting. Mr. Gee acted as one of the judges at the district meeting in Amarillo.

For your deep breaking, don't fail to see the 94-43 IH plow. It pulls easier, turns the soil better, and lasts longer than any make plow you can buy.

There will be an interdenominational meeting of the church women of Friona at the Baptist church Friday afternoon at 3 o'clock. Miss Vera Ann Jones of Borger will be the speaker and her talk will be on "World Peace and Understanding." Denise Magness and the Trebleaires will furnish the music. Every fifth Friday is regular meeting time for the interdenominational church women.

4-H Members Plan Achievement Day

A committee of 4-H Club members from throughout the county met at the courthouse in Farwell on Saturday, November 17, to make plans for the annual 4-H Achievement Event.

January 5 was the date selected for the annual event and the place will be the Bovina School auditorium and the party will be held in the gym.

Sharon Thorn of Lazbuddie was elected as chairman of the committee in charge of arrangements.

The program will consist of the welcome, to be given by Frankie Coffman; the 4-H Club pledge, to be led by Gladys Dean; the presentation of awards, to be made by County Agents; and slide pictures, to be shown by Cooper and J. B. Young. Margaret Mabry will lead the 4-H Club prayer to close the program. The group will then adjourn to the gymnasium for the party.

The following committees were appointed for the event: pre-party games: Friona Clubs, Margaret Mabry, Dwain Phipps, Laverne Mabry, Jimmy Sheek, Jackie Sheek, Carolyn Singleberry, and Jacquelyn Magness; get-acquainted games: Lazbuddie Club, Katherine Smith, Carrol Redwine, Odie Bradshaw, John Agee, Lou Venia Williams, Beverly Smith, Janice Darling and Sharon Thorn;

Also, circle games: Bovina Club, James Stevens, Lindy Dean, Barbara Rea, Virginia Rea, Dickie Clayton and Joe W. Jones; and closing ceremony: Farwell Clubs, Truman McKillip, Tommy Barker,

Benjy Dial, Carolyn Watts, Zell Billingsley and Carol Smart.

The recreation training meeting will be held at the Bovina Legion Hall at 7 p.m. on December 20.

Girls and mothers planning to attend the county-wide achievement program are to bring four sandwiches each. Boys are to bring 20 cents each. Bovina adult leaders and parents will be in charge of the refreshments.

Miss Judy Billingsley, Farwell Senior Club, is publicity chairman for the event. Bovina Clubs will

SCD News

Each day the country as a whole becomes more and more concerned about the water problem. It would seem wise for each citizen to be informed on water conservation and water resources. Much as we may wish to forget this problem, we can't, so let's face it with the facts.

"Half of our country's \$1.2 billion average annual floodwater and sediment damage occurs on the headwater streams and small tributaries. About seven-tenths of the upstream damage is agricultural, including loss of crops, and pasture and damage to farm property, roads, stored crops and livestock.

Through efforts of our soil conservation districts, upstream watershed protection now has rightful recognition in our nation's total flood control picture. Districts have taken on the important new job of getting much needed small watershed protection work underway.

"The 1954 Small Watershed Protection of Flood Prevention Act incorporated the district approach of local initiative, local responsibility, and local control.

The small watershed protection phase bridges the gap between our individual farm soil and water conservation programs and the development and flood protection work in our major river valleys, greatly enhancing ultimate benefits of both.

"In the years ahead, soil conservation districts offer America the greatest opportunity it has had in modern times to strengthen its ideal of self-government and solve at the same time one of the most fundamental problems—the protection of its vital land and water resources." The above is a quotation from The Why and How of Soil Conservation Districts.

HD Council Meets Monday in Farwell

Eleven members and two guests were present at a regular meeting of the Parmer County Home Demonstration Council on Monday afternoon, November 26, at the home demonstration agent's office in Farwell.

Annual club reports were given from 11 clubs represented, and Mrs. Fred Bolton gave the annual Council report. Mrs. Lookingbill, new THDA delegate, was introduced to the group.

Miss Jimmie Lou Wainscott, home demonstration agent, asks that all club presidents, vice-presidents, secretaries, reporters and council delegates attend a meeting at her office in Farwell on January 26 for an officers training course.

THE FARMER FARMER

The current issue of Farmer-Stockman magazine has a swell write-up on Parmer County's Black community, which took second place in that publication's rural development contest this year.

Garland "Cotton John" Smith of Amarillo did a nice job of writing the story, and also managed, somehow, to get the publishers to run the article as a "lead" in the magazine.

Parmer County can certainly stand this kind of publicity, and we all must doff our hats once again to the community of Black for getting it for us. A person never knows just when such a plug as this might bring more people to this area to settle down and help us grow.

Mention of the Farmer-Stockman also brings to mind a note of sadness. We have heard that T. O. Richardson, "The Rambling

Longhorn," who was associate editor of the Texas edition of that magazine, is dead.

The fine old gentleman, whose goatee and easy smile won friends in this area and across the entire Southwest, "died with his boots on" while on a story assignment. He will be missed by many.

Growers of Supima, a long-staple cotton not suitable for production at our latitudes, are jubilant over the acreage increase allowed them this year which is almost 100 percent above 1955.

This is a case of growers lifting themselves out of trouble with their own bootstraps. They voluntarily reduced support prices so that their product could compete with Egyptian cotton.

They linked hands with the National Cotton Council and charged themselves \$3 a bale for promotion to sell their wares under the banner, "The World's Finest Cotton." It worked. Just two years ago, only 400 bales of Supima sold on the market—less than 1 percent

This year, it looks like they'll be hard-pressed to meet the demand, so acreage has been upped.

NEWS FROM THE FARM BUREAU

By RAYMOND EULER

We don't know at this time how many Parmer County people will attend the American Farm Bureau convention in Miami, Florida, December 9-14. Several had planned sometime ago to attend, but various obstacles have eliminated several of them. The last we heard, Ernest Anthony and his wife were still planning on going. They have relatives along the way to visit. Your writer plans, at present, on catching a plane the day before the convention and returning in like manner to save the seven or eight days necessary for travel by automobile. Plane fare is very little more than train fare. Any one who feels like a Miami vacation in December would be very welcome to spend it in the vicinity of the convention where a great many other Texans will be.

Albert Einstein would not be able to qualify as a mathematics teacher in our public schools because his education did not indicate that he had sense enough to work a simple algebra problem. We believe the "paper bottleneck" is possibly one of the greatest causes of the shortage of teachers in our public schools. Why wouldn't a proper qualifying examination do as well as some of the college hours now required? And pay based on the actual ability and willingness to teach would seem more sensible than pay based on how many hours the subject spent under the tutelage of certain "qualified" professors.

Consider this: To have respect of persons is not good; for, for a piece of bread that man will transgress. Proverbs 28:21.

Freight Rates Cut For Drouth Counties

Reduced freight rates have now been arranged for drouth disaster counties, and eligible applicants are entitled to such benefits under revised routines in handling freight rate certificates, according to Walter T. McKay, state FHA director.

These orders provide that the class of persons entitled to reduced rates are those designated as being in distress and in need of relief by the USDA or by such state agents as designated by the Department. The secretary of agriculture has authorized governors of all drought stricken states to designate persons entitled to reduced freight rates. Effective November 15, Governor Shivers re-delegated to all county judges in designated drought counties in Texas the authority to execute certificates.

"Heretofore, Farmers Home Administration County Supervisors were authorized to execute certificates and only stockmen who were eligible for emergency feed could obtain the certificates. This revised authorization will extend the benefits of reduced freight rates to all stockmen in designated counties," McKay stated.

Ninety-Five Attend Thanksgiving Supper

There were about 95 persons present for the annual Thanksgiving supper held in the basement of the Baptist Church given by the WMU. The entire faculty of the school were honor guests this year. A short program was given after the supper by the G. A.'s and the pastor, C. K. Roberts, expressed the church's appreciation to the school for the splendid cooperation given in all church activities. We wish to express our thanks to Mr. and Mrs. W. S. Menefee for furnishing fish for the group and to Sam Brownlee for frying the fish. They were delicious.

Mail Christmas Packages Early Says Mrs. Brown

Launching her annual "Mail early for Christmas" campaign, Postmaster Lucy O. Brown at Texico said today that now is the time to prepare and plan the mailing of Christmas cards and gifts. Get out your Christmas list and be sure you have the full name, street and number, city, zone and state for everyone, she says.

Right now is not too early to start your gifts to the most distant points and try to have them all mailed by the first week in December, Mrs. Brown says. The postmaster especially requests that you do not mail all of your Christmas cards at the last minute.

Those out-of-state addresses should go by December 10 and all others should be mailed by at least a week before Christmas. Most important of all, be sure that each Christmas card and parcel is clearly and accurately addressed, Mrs. Brown concludes.

Farwell Post Office Says "Mail Early For Christmas"

Pointing up the need for your cooperation on the 1956 "Mail Early For Christmas" campaign, Postmaster Noma Lokey says if you will follow these three simple rules, all of your gifts can be delivered before Christmas Day: Wrap them securely, Address them correctly, and Mail them early.

Amplifying these rules, the Postmaster said, "Avoid the risk of mailing poorly wrapped packages. Use corrugated mailing cartons, plenty of heavy brown wrapping paper, and be sure that every package is tied with strong cord. Cartons containing several gift packages should be stuffed with tissue or old newspapers to cushion the shocks." She also reminds us that size and weight limitations for Parcel Post packages vary according to place of mailing and destination, and advises us to se-

cure Pamphlet No. 2 at the Post Office, telling all about Packaging and Wrapping Parcels for Mailing, and Pamphlet No. 3, giving complete details on Domestic Postage Rates and Fees.

Speaking about correct addressing of Christmas gifts and cards, the Postmaster said: "Be sure your Christmas mailing list is up to date and that you have the complete name, address, zone number, city and state for everyone on your list. Send all your Christmas cards by First-Class mail, because they will be processed and delivered quicker, and they'll be forwarded, or returned, if it becomes neces-

sary." Only Christmas cards sent First Class mail may carry written messages, a custom everyone enjoys. Moreover, Christmas card envelopes smaller than 2 3/4" by 4" or larger than 9" by 12" require hand cancellation, and must carry First-Class postage.
