

# Border Banter

By Mike Pomper

**Bill and Ann, it's good to have you**

The Farwell Steer football game against Wilson was well under way when that bane of the sport occurred: an injury.

The ambulance was there, and so were the doctor and nurse -- Bill and Ann Green. They were there when they were needed.

It's been a year now since the Greens set up shop in the Twin Cities. All I can say is that we are darned lucky to have such a fine physician team available to us.

Y'know, most small towns don't have decent medical care. It's a real problem -- ask any mother who worries about her small children.

Yet, the Twin Cities boasts a top-notch dentist -- J.R. Ivins; a fine pharmacist, Steve Breckenridge, and Bill and Ann.

We all know that doctors can make oodles of money. You go to a big city and you can find specialists earning more money in a week than some of us make in a year. That's a fact.

That's why I consider it really special that Bill and Ann agreed to set up their office in our community. They won't earn as much as they could in a large city. But what they have done is make a lot of folks here appreciative of their decision.

There's more to life than just making money. We need a sense of feeling appreciated, a sense of helping, a sense of being a good Christian in order to make sense out of our lives.

We just want Bill and Ann to know they are appreciated. Very much so. A strong community doesn't just happen. It's because of the type of people within it.

People like Bill and Ann.

The Farwell school superintendent, John Grigsby, took me on a short tour last week of the renovated old gym. What a difference a new floor and some paint can make.

The big news is that floor. Its carpet-like material is called "Pro-Gym." It looks like a carpet. It feels like a carpet. But you can bounce a basketball on it just as if it was a hardwood floor.

Amazing.

Anyway, folks in Farwell should be proud of that renovation. It's always good to see an old facility remodeled so it can be used again. I hate to see a building allowed to fall into a state of disrepair that demolition is the only answer.

Speaking of the old gym -- and the new gym, isn't it about time that these two fine facilities are called something better than just the "old gym" and "new gym"?

Why not name these buildings after some outstanding folks who have lived here? What jumps to mind first are those two longtime former school superintendents -- Jack Williams and Willie Roberts.

Or, maybe, you know of some other folks who should deserve this type of recognition? Anyway, when you see one of the school board members, why not suggest that they get on the stick and use these two facilities to recognize folks who deserve it.

Wouldn't you rather see your kids play ball, say, in the "Williams Arena" rather than the "old gym"?

\*\*\*

I'd like you folks to know that State Rep. Pete Laney went to bat for us with the state on getting more brochures for the Twin Cities' new tourist information center at the drug store.

If you have been following the articles, New Mexico sent us a bunch of brochures and Texas nary a one. But Laney's office got on the phone and some real good brochures and posters have arrived from Austin.

I haven't met Pete in person yet, but I appreciate him remembering this far corner of his district.

Thanks, Pete.

## Watch out

LaDonna Cross, of the Fina Station in Farwell, called Wednesday to ask the Tribune to remind readers that bull snakes and rattle snakes are still around the area and children should be wary.

"They have a habit of getting in bar ditches, where some kids like to play," Mrs. Cross noted. "Children should be very watchful."

## Tourist info

As part of the Farwell Chamber of Commerce's tourism project, a rack with brochures and maps of Texas and New Mexico have been placed in the lobby of Farwell

United Drugs. Shown with the rack and Texas posters is pharmacist Steve Breckenridge. Highway signs noting the new tourism center are expected to be installed shortly.

## Farwell woman attends WIFE convention

Naomi Austin from Farwell attended the State Convention at Paris for WIFE (Wives Involved in Farm Economics).

WIFE was organized in 1976 at Sydney, Neb., as a non-profit agricultural association of women for the purpose of developing and promoting agriculture in the United States.

Membership is open to all women who are involved or interested in agriculture.

Current concerns of WIFE are: Lack of governmental response to the critical farm problems; the need for input from food and fiber producers in shaping agricultural policy; continued promotion and development of alcohol fuel and the protein rich food co-products; educate the non-farm public to the importance of agriculture to the economy and to themselves; and removing inheritance tax between spouses and direct line descendants.

WIFE members provide an active communications network to promote all farm commodities; provide a method for every individual farm family to have an active voice in formulating farm policy on local, state and national levels; and members are concerned for the future of the family farm.

Mrs. Austin said some of the supporting people in the area are Kelly Green Seed and Lovelace Oil. Others are International Harvester, Texas Instruments, Burlington Northern, Ford Tractor Operations, American Sugar Beet Association, Union Carbide, Du Pont, and many more, she said.

WIFE'S definition of the "Family Farm" is a form of business enterprise in which the management

NAOMI AUSTIN

decisions are made by a family engaged in the production of food or fiber for profit, which is to provide the major source of income and capital for investment."

The speakers at the State Convention in Paris were Pete Patterson from Paris, Sherri Brooks from the Lubbock Chamber of Commerce, Mike Moeller, the Texas Deputy Commissioner of Agriculture.

For the National Convention in Lubbock for 1986, they plan to make quilt blocks with farm scenes on them. It is to be given away as a grand prize.

WIFE has testified at Congressional hearings in Washington on meat imports, alcohol fuels, estate taxes, commodities such as feed grains, peanuts, cotton, embargo, conservation and other farm program legislation. They testified at former Secretary of Agriculture Bergland's Structure of Agriculture Hearings across the country.

They worked with American Agri-Women, Cowbelles and USDA in organizing the first Farm Women's Conference in 1980.

## Need a ride to the Farwell-Seagraves game?

The Farwell Booster Club agreed Tuesday night to charter a school bus to take fans to the Farwell-Seagraves football game tonight (Friday).

Fans should be ready to board the bus at 4:30 p.m. at the school bus barn. The bus will leave at 4:45 p.m. Fans should either bring sack lunches or be prepared to eat at the game.

The cost is \$3 per person. Carlos and Irene Woods will collect the money when fans board the bus. It's a 120-mile trip.

Since the bus has room for 48 passengers, going on it will be on a reservation basis. To reserve a seat, fans should call club secretary Cynthia Thigpen at 481-3619 (day) or 481-9355 (evening).

In other business, Mrs. Thigpen said plans are under way to honor past Homecoming kings and queens at this year's Farwell Homecoming Oct. 4. Invited are these kings and queens: 1956 -- Troy Christian, of Farwell, and Jeanette Hughes Freiling, of San Antonio; 1966 -- Doyle Johnson, of Farwell, and Donna Dale Chesshire, of Mule-

## School out early

The Farwell Schools will be let out early Friday (today) at 2:41.

This is to allow parents and students to travel to the Seagraves game, said John Grigsby, superintendent.

shoe; and 1976 -- Brad Jones, of Eules, and Charla Norton West, of Amarillo.

The club decided to honor two strong Steer supporters at next spring's school athletic banquet: former longtime school Supt. Willie Roberts, for his work as public address announcer at the games over the years, and Dr. J.R. Ivins, for his photographic help and team support.

The club also announced that its next meeting, at 8 p.m. Tuesday at the high school cafeteria, will be a special one.

All parents are invited, regardless of which sports their children are involved in, because the meeting will focus on topics such as equipment, injuries and training. Dr. William Green is expected to attend.

## Band Boosters to meet

The Farwell Band Boosters will meet Sept. 19 at 5 p.m. in the High School Band Room.

The Band Booster dues are still \$5 per family for the school year.

"It is not imperative that you join the Booster Club. We hope you are willing and able to help your child in the band program this year," said Ron McWilliams, band director.

# TRIBUNE

"OFFICIAL PUBLICATION OF FARMER COUNTY"

NUMBER 3

SEVENTY-FOURTH YEAR

25 CENTS

## Two tie for first in 2nd football contest

The second week in the 27th annual Merchants Football Contest found a host of participants pulling top scores.

Fourteen entrants predicted 11 of 12 games correctly last week. The game missed most often was Dallas vs. Detroit, won by the Lions.

Tying for first place were Domingo Orozco, of Clovis, and Darren Coffman, of Amarillo. Both were four points off the tiebreaker -- Texico, 30, Capitan 8. Both will get checks for \$10.

Others with 11 games picked correctly were Juanita White, Wayne Wolfe, Dale Sikes, Johnny Actkinson, Charles Dannheim, William Dannheim, Louise Green, Robin Gregory, Eric Harding, Art Hutchins, Sabrina Kittrell and Lonnie McFarland.

Those with 10 correct were:

Homer Anzaldua, J.D. Carson, Hobbie Coffman, Diane Dannheim, David Dannheim, Eileen Dannheim, Sam Drager, Bruce Fellers, Lisa Geries, Carl Dean Goettsch, Gary Green, Buck Gregory, Gia Hardage, James Harding, Jeanette Horne, Andy Pat Hughes, Joe Hughes, Daniel Hutchins, George Langan, Ann Liethen, Kevin Owen, G.L. Straley.

Also, Eddie Meeks, Robert Lopez, Mark Owen, Mark Meeks, Brenda Ortiz, Carl Parker, Ron Fechner, Bobby Ford, Bruce White, Leonard Hillock, Eddie Villareal, E.A. Walker, Wanda Walker, Brian White, Coach Cates, Marcus Schauf, Modine Parker, Millie Phares, Liz Phillips, Dick Pylant, Bill Roberts, Clay Roberts, Jason Schilling, Rusty Stover, Sheryllyn Thigpen, Todd Thigpen and Ed Wees.

Here are the leaders after the first two weeks:

20 -- Art Hutchins, Ysleta Kittrell, Kevin Owen, Dale Sikes and Juanita White.

19 -- Johnny Actkinson, Lance Castleberry, Darren Coffman, Paulette Green, Buck Gregory, T.J. Kittrell, David Lynn, Carl Parker, Liz Phillips, Robbie White and N.B.

Domingo Orozco, who tied for first in last week's football contest, receives his \$10 check for first place from Daryl Ward, of Cal Jordan

implements, one of the contest sponsors. Orozco, a former longtime Texico resident, now lives in Clovis.

Winton.  
18 -- Donnie McDonald, Charles Dannheim, Bruce Fellers, Gary Green, Louise Green, Larry Gregory, Robin Gregory, Gerald Hardage, Gia Hardage, Jody Ketcherside, Lonnie McFarland, Domingo Orozco, Jason Schilling, Roy Thornton, Ed Wees and Wayne Wolfe.

Results of the games listed for last week are:

Farwell over Petersburg, Clovis over Canyon, Hart over Lazbuddie, Morton over Muleshoe, Texas Tech over Tulsa, New Mexico over New Mexico State, Alabama over Texas A&M, Texas Christian over Tulane, St. Louis over Cincinnati, Detroit over Dallas, Washington over Houston and Minnesota over Tampa Bay. The Grand prize of the 12-week

contest will be two tickets to the Dallas Cowboys-New York Giants game Dec. 15 in Dallas. The prize also includes lodging at the Regent Hotel, transportation to and from the stadium, and \$50 spending money -- to the person with the most points at the end of the 10 remaining games.

Entry blanks and contest rules are on the contest page in today's newspaper and are also available at the Tribune office.

Weekly cash prizes are given of \$10 for first and \$5 for second.

All totals are on display at the Tribune office during normal business hours.

All entries must be turned in at the Tribune office before 5 p.m. Friday (today) or, if mailed, must bear a Friday postmark.

## Committee approves 1985 Farm Bill

Congressman Larry Combest (R-Texas) said the House Agriculture Committee approved a 1985 Farm Bill after nearly five months of work on the bill, which would set some new directions for the nation's 50-year-old agriculture policy.

The bill, H.R. 2100, was adopted by the committee following agreement of budget-saving recommendations totaling \$11.8 billion over three years in an effort to bring the farm bill in line with budget guidelines.

"There are numerous provisions in the farm bill package that are worthy of support and offer some help for the farmer, however the bill can be better and it should offer more hope for American agriculture," Combest said. "We will attempt to make significant improvements in some areas, such as the wheat and feed grains section when it reaches the House floor or in conference."

The omnibus farm bill preserves an income protection "safety net" for farmers for five years and include -- among other major provisions -- continuation of current target price loan rates, an expanded export enhancement program and a conservation reserve provision.

"We are facing a critical time in agriculture, the worst since the Great Depression. The farm bill in itself is not going to solve all of the problems in agriculture. The budget deficit and its effect on interest rates, and the strength of the dollar in international markets continues to threaten the family farmer," said Combest. "Our financial house must be shored up before attempts toward long-term agriculture policy can be truly beneficial for the American farmer," Combest stated.

Major provisions of the 1985 Farm Bill include:

### COMMODITY STABILIZATION PROGRAMS

For cotton, wheat, feed grains and rice, the bill would adopt a market-oriented system for setting price support loans at levels that would make American crops competitive in international markets, coupled with continued target price protection. Basic loan rates for wheat and corn, for example, would be set each year on the basis of formulas using average market prices of recent years.

Basic loan rates for cotton and rice would also be set by a formula using recent open market price averages.

Target prices for grains, cotton and rice, which protect farmers' income with direct payments when market prices are below the target rate, would be frozen at current levels through 1987 to prevent any reductions in returns to farmers. For 1988, 1989 and 1990, the bill sets up a formula which would permit declines of no more than five percent a year in target prices.

When commodity surpluses are above designated levels, producers who want price supports would be required to comply with acreage, control programs including a 30 percent reduction for 1986 wheat, a 20 percent cut for 1986 feed grains, and cuts of up to 25 percent for cotton and rice. For 1987 through 1990 crops, if wheat and feed grain supplies are above designated levels, the Secretary of Agriculture would have to require at least a 20 percent acreage cut for wheat and a 10 percent cut for feed grains.

"We could enact a wheat and feed grains program that improves upon

current law for the vast majority of farmers," Combest said. "I supported an amendment which dramatically departed from current law by (1) mandating that the Secretary of Agriculture implement a 'marketing loan' and (2) 'targeting' maximum deficiency payments to medium-sized family farmers," said Combest.

"The marketing loan allows us to immediately become price competitive in the export market while protecting farmers' income. Farmers would receive federal price support loans on all of their production, but would only have to repay their loans at the lower of (1) the original loan rate, or (2) the state average price at the time they redeemed their loan, Combest added.

"I will work to amend the wheat and feed grains provision when the farm bill reaches either the floor of the House or in the conference committee," said Combest.

For cotton and rice, payments would be required for diversions of more than 25 percent. To make those programs work more effectively, the bill includes a permanent new system for establishing acreage bases and yields, and further permits multi-year acreage-idling agreements to qualify farmers for support programs. Also, the farm package includes discretionary authority for export certificates to help promote sales of grains and a standby provision for use of export and domestic marketing payments in kind for cotton and export payments for rice if world market prices fall below domestic support rates.

For sugar, peanuts and wool, the bill generally extends current pro-

**Obituaries**

**Jane Lindsay**

Funeral services were held Sept. 12 for Mrs. Jane Lokey Lindsay, 59, in Vernon.

She was a former resident of Farwell and was the daughter of the late Earnest and Norma Lokey. She was a former postmistress of Farwell.

She attended Farwell Schools, graduated from Stephen's College, Mo. and attended West Texas State University in Canyon.

She married Dr. Thomas H. Lindsay Jan. 16, 1945.

Survivors are: her husband, of Vernon; one daughter, Mrs. Ann Wright, Vernon; a son, Jim Lindsay, U.S. Navy, Idaho Falls, Idaho; a grandson, Jon Paul Wright, and a brother, Dr. Earnest F. Lokey Jr. of New Orleans, La.

**Winnie Vining**

Mrs. Winnie Vining of Plainview, 88, mother of Thelma Watts of Farwell and grandmother of Joyce Armstrong of Texico and Carolyn Tate of Ranchvale, died at 7:30 a.m. Sept. 14.

Funeral services were held Sept. 16 at the Ninth and Columbia Church of Christ in Plainview.

Survivors include her husband Homer; six daughters, Faye Finley of Olton, Thelma Watts, Ava Mae Cox of Carlsbad, Lois Jo Kirkpatrick of Wichita Falls, Pat Freeman of Morehead City, N.C. and Jean DuLaney of Dimmitt; a son, Glenn, of Earth; two sisters, Vernie Puckett of Paducah and Flossie Keys of Anaheim, Calif.; 23 grandchildren, 50 great-grandchildren

and six great-great-grandchildren.

Pallbearers were grandsons Billy Watts, Charles Finley, Donnie Finley, Monty Cox, Dean Kirkpatrick, Ronnie Kirkpatrick, Bobby Freeman, Stanley Burns, Brad DuLaney, Dell Vining and Gill Vining.

**Emergency farm loan applications accepted**

Applications for emergency farm loans for physical losses caused by this year's excessive rain and hail are being accepted at the Farmers Home Administration office at 207 Ave. D, Farwell, FmHA county supervisor Weldon C. Rainey said.

Parmer County is one of 10 in Texas recently named by Secretary of Agriculture John R. Block as eligible for loans to cover part of actual physical losses resulting from the rain and hail.

Rainey said farmers may be eligible for loans of up to 80 percent of their actual losses, or the operating loan needed to continue in business, or \$500,000, whichever is less. For farmers unable to obtain credit from private commercial lenders, the interest rate on the first \$100,000 borrowed is 5 percent; interest rate is 8 percent on the balance borrowed over that amount. For farmers who can obtain commercial credit but who choose to borrow from FmHA, the interest rate is 13.125 percent.

**Farm Bill**

grams.  
 - Payment limits in the bill include a \$50,000 annual per producer ceiling for program payments.

"An amendment I offered which was included in the farm bill exempts the payment limitation on deficiency payments which results from loan levels being set below the 55-cent loan floor for cotton any land diversion payments under an in kind program for cotton. This provision will allow the loan rate to fluctuate with world market prices.

**TRADE**  
 The bill authorizes a payment-in-kind bonus export enhancement program designed to make American commodities fully competitive in world markets where they have been undersold by other exporters in recent years.

**CONSERVATION**  
 A two-phase plan to protect fragile soils for future generations and move a substantial amount of such land into less intensive use is included in the conservation section of the farm legislation.

- For highly erodible land which has not been cultivated since 1980, the bill provides a "sodbuster" program to discourage plowing up fragile soils.

- For highly erodible soils which are already in crop use, the legislation provides a long-term Conservation Reserve Program under which farmers would contract to return up to 25 million of such acres to less-intensive uses such as grass or trees.

**CREDIT AND RURAL DEVELOPMENT**

The farm package reauthorizes and in some cases revises federal farm credit and rural development programs and includes discretionary authority for a program of planting-season advance commodity loans to farmers beginning in 1986. Authorization ceilings include annual caps for the 1986 through 1988 fiscal years of \$3.15 billion for Farmers Home Administration farm operating loans including \$2.5 billion in insured direct loans and the remainder in guaranteed loans. For farm ownership loans, the bill authorizes \$700 million annually including \$650 million in direct insured loans in fiscal 1986 with loans in the final two years all on a guaranteed basis.

For emergency disaster loans there would be a ceiling of \$1.3 billion in fiscal 1986, \$700 million in 1987 and \$600 million in 1988.

The Agriculture Department would be required to observe a

number of new restrictions on the way it handles farmland acquired by the government in future foreclosures of FmHA loans. USDA would be forbidden to sell such land if the sale would depress local farmland values, and any sales made would have to be -as far as practicable - in family-size units. Where the Secretary leases or operates foreclosed land, he would

**Texico residents sue Ford**

Two Texico residents have filed a \$12.5 million civil lawsuit in the District Court against Ford Motor Company and the Edith Singletery Estate.

Ted and Deanne Richardson, through their attorney Robert Brack of Clovis, allege that the 1971 Ford truck Richardson was driving on Dec. 10, 1984 was "defective and unreasonably dangerous."

Police reports state an accident involving the Richardsons and Mrs. Singletery of Clovis, driver of the second vehicle, occurred on Dec. 10.

Richardson sustained third degree burns over 35 percent of his body. His wife was not in the vehicle. Mrs. Singletery died as a result of the collision.

The lawsuit alleges the "fuel system of the truck was not protected from forceable conditions. The gas tank was placed inside the passenger compartment, thus subjecting the occupants of the pickup to unreasonable hazards in the event of a collision. Ford failed to adequately test the fuel system prior to marketing the truck. The defective and unreasonably dangerous condition of the vehicle sold by Ford was a direct and proximate cause of the injuries and damages sustained by Richardson."

Richardson is asking for \$2 million in compensatory damages and \$10 million in punitive damages. His wife is asking for \$500,000 for general and special damages.

**ASCS office to move**

The ASCS office in Farwell will move today (Friday) from Ninth Street to its new location on Third Street and Ave. B.

have to make leases on a competitive bid basis, giving priority to leases to former owners of the land, family farmers and beginning farmers.

**RESEARCH**  
 The research section includes a five-year extension of funding authority for agricultural research and extension programs, a number of new research priority guidelines,

(Continued from Page 1)

and a proposal to spur development of export promotion centers.

**FOOD ASSISTANCE**  
 The food assistance programs sections of the bill extends the Food Stamp Program for five years, improves some program benefits, and requires all states to set up special employment and training programs to help move jobless stamp recipients onto payrolls.

**New van**

The new van for the Farwell Convalescent Center has arrived. Center Director Ron Fechner said that Jack Moore, of the State Highway Department, was instrumental in obtaining the 80 percent

federal funding [plus 20 percent local] for it. The van, which has room for nine passengers and two wheelchairs, will be used to transport residents for shopping, doctor's visits and home visits.

**Commissioners contribute to handicapped center**

The Parmer County Commissioners voted \$2,500 for the Satellite Learning System in Hereford.

Two staff members from the center, which serves the handicapped, appeared before the commissioners to seek funds. They said they have arranged transportation for two or three Parmer residents to attend the center, where they can learn work experiences.

The commissioners will consider spending more funds for the center in six months.

In other business, a committee from the Community Heritage Society of Friona discussed the possibility of transferring City Park in Friona from the county to the city. Friona Attorney Bryan Johnston

and County Attorney Charles Aycock will check into this possibility further.

A letter was received from an architect inquiring about possible renovation of the courthouse. The commissioners agreed to reply that they are not ready to proceed with this renovation - dealing with the District Court - at this time so the matter was tabled.

**Tax rate set**

The Lazbuddie School Board held a special called meeting Tuesday to set the tax rate at 93 cents.

The board also agreed to dismiss school at 2:30 p.m. today (Friday) due to the ball game.

## Hispanic heritage celebrated

The Farwell third grade students celebrated Hispanic Heritage week Sept. 9-13.

One objective of the grade three social studies curriculum is for the children to identify ethnic contributions to community and state. During the week, a part of that objective was reached through music and art activities and in the study of Hispanic contributions. The children identified contributions in language, place names, visual arts, music and dance.

The culminating activity was Ole' Day, a fiesta which included singing songs of many Latin countries, folk dances, a pinata and refreshments.

The children have played a significant part in teaching English to a classmate who is having his first experience in school in the United States.

A special program of Mexican Folk Dances were performed for the group by Margot Loera and Oscar Saenz. Both are members of the San Jose Dancers.

## Rogers resigns

The Texico School Board met Sept. 9.

They approved getting a new school bus for the bus contractor. It will go to the state for further approval.

They accepted the resignation of Marie Rodgers. She was a part-time custodian.

Open House was set for Oct. 21 at 6:30 p.m. (MDT).

They discussed having the District School Board meet at Texico Oct. 17 at 1:30 p.m. (MDT). They will also serve supper at 6 p.m. (MDT). Also, the New Mexico Administrators will be on the program.

## Hospital District okays proposal

The Farwell Hospital District Tuesday night agreed to a Chamber of Commerce plan involving a tourist area.

The Chamber is considering a project calling for moving the Texas marker from its present site to the area behind Farwell United Drug. The area would be beautified and picnic tables placed there. This would tie in with the New Mexico and Texas tourist brochures that have been placed at the drug store.

The project is still in its planning stages and no final decisions have been made.

The Farwell third grade students of Nelle Craig and Verona Traynor are celebrating Hispanic Heritage. Above, they are, back row, from left, Jonathan Cunningham, Criselda Vidaurri, Leonel Perales, Kris Arce, Jovita Olmos, Rubie Rubio, Veronica Galvan, and Monica Mendoza; middle row, from left, Ricardo Gomez, Jesus Hernandez, Lisa

Serna, Alma Reyna, Priscilla Mendoza, Chastity Gutierrez, Ivick Garcia and Monse Nicolas and front row, from left, Chon Arce and Carlos Luevano. Below, in Ricardo's Corner is a learning center. Shown are, from left, Ricardo Gomez, Jovita Olmos and Veronica Galvan. Ricardo is learning English.

## Courthouse Notes

## GREAT PRODUCTS...GREAT VALUE DAYS at your Hesston Dealer

### Hesston's new 16"x18" Center-Line Baler ...the Model 4650, built tough for a tough market.

The Model 4650 builds solid 16 by 18-inch bales and uses Hesston's ingenious "Center-Line Design" to do it.

This Beeline Baler moves hay in a straight line from its Maxi-Sweep Pickup right through to a tight, finished bale that's

easier to stack, haul and feed.

Hesston's exclusive Prepacker Chamber preforms each flake of hay before it enters the bale... to help seal in nutritious leaves and produce consistent density. See it at your Hesston dealer today.

### Hesston's new 1150 Mower-Conditioner ...big capacity cutting at a lower price!

The 1150 is Hesston's highest capacity mower-conditioner... offering nine-foot swaths behind a 12-foot cutting width! It leaves a wide, fast-drying swath so you can start baling sooner. The 1150 lets you switch to windrowing quickly and easily, too...without using tools. And...this great machine has an unbeatable price. Compare it to any of the competition...the 1150 wins "hands down!"

Celebrating Mexico Independence from Spain Monday were Texico Elementary School students. Above, Vicky Lynn's first grade

students are dancing the LaRasta. Below, Texico students are getting ready to bust the pinata as part of the celebration.

## Kings, queens crowned

The Texico Elementary classes held a celebration Monday for Mexico's Independence from Spain. It is like the U.S.'s Fourth of July.

The dancers from San Jose Catholic Church of Texico presented a program.

In different classes they had a tasting of Mexican foods. Some of

the foods were chili pie, chili, Mexican wedding cookies and enchiladas.

They crowned kings and queens from the elementary classes.

Crowned were: Tony Cabral and Vanessa Anaya, second grade; and Tino Botello and Lori Vega, for the fourth grade.

## Want to go camping?

Texans 55 and older have an opportunity to enjoy camping programs at the Texas 4-H Center at Lake Brownwood this fall.

Called Octoberfest '85, the camping program offers older Texans a chance to spend a week "learning and doing" in a comfortable and supportive atmosphere, points out Marshal Crouch of Brownwood, 4-H specialist with the Texas Agricultural Extension Service, The Texas A&M University System. The program allows participants from throughout the state to meet new friends and enjoy old ones and to take part in an enriching experience.

This year's program offers five different sessions: Oct. 1-4, Oct.

8-11, Oct. 15-18, Oct. 22-25 and Oct. 30-Nov. 1.

Each session allows participants to engage in a variety of "hands on" experiences as well as to enjoy a wide range of recreational activities, says Crouch.

"We feel this camping program is the best camping deal in Texas, and we hope older Texans will take advantage of it," says Crouch. "Interested individuals should contact their county Extension office for reservation forms. Reservations must be received at the 4-H Center at least one week prior to the camp the individual plans to attend."

Programs will feature Extension specialists and other resource people.

## Texans OK seat belts

Texans, apparently by an overwhelming majority, approved of our efforts to raise the legal drinking age from 19 to 21. And, they also appear to be giving tentative support to the state's new mandatory seat belt law.

Those were the results of the most recent Texas Poll, conducted by Texas A&M University's Public Policy Resources Laboratory. The poll indicates a whopping 82 percent of all Texans support our Senate Bill 21, which raises the legal drinking age, and 56 percent approve of the law requiring all Texans to buckle up.

We're not particularly surprised at the overwhelming support accorded S.B. 21. We knew from the beginning that most Texans had become convinced that raising the drinking age will save lives.

Statistics show beyond any doubt that states with a 21-year-old drinking age have fewer alcohol-related fatalities than those without such a law. Reports from our own Department of Public Safety indicate a disproportionate number of Texans under age 21 are involved in alcohol-related fatalities.

If there was any surprise in the drinking-age poll, is the strong support the bill enjoys among younger people. Half of those surveyed who were between 18 and 21 support the bill. Among those 18 to 29, approval was 78 percent.

We find such backing extremely gratifying. After the law goes into effect Sept. 1, 1986, we're confident the resulting drop in the fatality rate will prove that support was worthwhile.

## Taylor honored

A Wayland Baptist University Student has been named recipient of scholarship funds by the Division of Mathematics and Science for 1985-86.

Sharlet Taylor, a junior math major from Texico, has been awarded the Dorothy McCoy Scholarship for outstanding achievement in the field of mathematics.

Miss Taylor is a 1983 graduate of Texico High School and is pursuing a teaching career at Wayland, where she has been a Dean's Honor Roll student.

She is the daughter of Mr. and Mrs. J.B. Taylor of Clovis.

The scholarship is awarded periodically to Wayland students who have demonstrated superior academic accomplishments in either math or science.

Recipients must maintain a grade point average of 3.2 on Wayland's 4.00 scale in order to retain the scholarship, according to Mrs. Myrna Clark, assistant professor of mathematics.

## Senator Bill Sarpalius Reports

Though the drinking-age survey merely confirmed what we already suspected, the results of the seat belt questionnaire came as a pleasant surprise. We backed the mandatory seat belt law with mixed emotions, so we're happy to see Texans beginning to warm to the idea.

At the time the bill was introduced, we seriously questioned whether a mandatory seat belt law would be too intrusive, whether government would be stepping too far into everyday lives. Most of all, we resented the federal government telling us we had to pass a law, as it was telling us in this case.

Finally, we decided the federal government's interference could be ignored in this one instance because so many lives were at stake. We also decided forced buckling up did not represent a loss of essential liberty. The bottom line, of course, is that lives are going to be saved.

Already a majority of Texans agree with our reasoning. We think the benefits of the law will become evident after Sept. 1, when the law takes effect. As lives begin to be saved, the mandatory seat belt law may enjoy just as much support as S.B. 21.

If you have any questions about the drinking age, the mandatory seat belt law or other issues, please write us at P.O. Box 12068, Austin, TX, 78711.

## Recipe of Week

### MORE CARAMEL CANDY

- 1 qt. whipping cream
- 1 lb. brown sugar
- 3/4 lb. butter
- 2 1/2 c. sugar
- 1 T vanilla
- 2 lbs. pecans
- 1 qt. dark Karo
- 1/2 t. salt

In a large kettle, mix brown sugar and white sugar. Add Karo and butter and one-half of cream. Bring to a boil. Add other one-half of cream slowly. Add salt and cook over medium heat until soft ball stage (225°) in cold water. Stir constantly. Add nuts.

Cook 10 minutes longer; then add vanilla. Pour into well-buttered pan 12x12x2. Let stand overnight in cold dry place. Cut into pieces.

## A bit of history

This ranch house, now located at the Ranching Heritage Center, Museum of Texas Tech, Lubbock, was one of seven division headquarters for the

three million acre XIT ranch, which included Parmer County. This building was originally located in western Deaf Smith County.

## Sheriff's Report

Here is the weekly report by the Parmer County Sheriff Bill Morgan.

On Sept. 12, Wesley Barnes Jr., Lazbuddie, reported that his barn located northwest of Lazbuddie had been broken into. Items taken were assorted tools.

On Sept. 13, Lovelace Oil Company, Farwell, reported that its warehouse had been entered and a number of items taken.

On Sept. 13, Farwell United Drug, reported that its store had been entered the night of Sept. 12. Two bottles of narcotics were taken.

On Sept. 9, Mrs. Alan Monroe, Friona, reported that they had a vacuum cleaner taken from their residence located southeast of Friona. They were in the process of moving.

On Sept. 10, D.C. Herring, Friona, reported that his barn had been entered and a number of items had

been taken. The barn is located northwest of Friona.

On Sept. 15, Cash Richards, Lubbock, had parts taken from a vehicle belonging to him and parked at his farm south of Bovina. Upon investigation, an arrest has been made.

The following arrests were made: On Sept. 12, Glen Allen Huff, 36, Hereford, was arrested by the Sheriff's Department on a charge of felony theft. His bond was set at \$10,000 and his case is pending before the Grand Jury.

On Sept. 15, Jose L. Ramirez, 28, Clovis, was arrested by the Sheriff's Department on a charge of burglary of a motor vehicle. He appeared before Justice of the Peace Judge Albert Smith on Sept. 16. His bond was set at \$2,000 and the case is pending before the Grand Jury.

EAST MABRY DRIVE CLOVIS 763-5517

MR. AND MRS. FRANK LANDRY

# Stewart, Landry wed

Sharla Rene Stewart and Frank Landry were married Aug. 24 at the First Baptist Church of Farwell. Sharla is the daughter of Mr. and Mrs. Neil Stewart of Farwell. Frank is the son of Ron and Jean Pageau of Farwell and Tom Landry of Waterbury, Conn. Officiating was Rev. Randall Stewart, brother of the bride.

Sharla was given in marriage by her father, Neil. Best man was J.R. Landry, Farwell, brother of the groom. The matron of honor was Elaine Stancell, of Abilene, Texas. The bridesmaid was Tonya Meeks of Farwell. The groomsmen were Jeff Steelman, of Bovina. Candelighters were Jeffrey Stewart and Misty Stewart, nephew and niece of the bride, from Farwell.

Ushers were Charles Johnson, Wesley Davis, Scottie Gilliam and Craig Horne, of Farwell and Texico.

The altar was decorated with an arch candelabra with 15 candles and two spiral candelabras with 15 candles on each side. The candelabras were decorated with arrangements of burgundy and pink carnations and roses.

The musical program included organist Margie Watkins, pianist Leandra Byrd and soloist Jan Hartzel.

For this joyous occasion, Sharla selected a sweeping gown of bridal netting over satinette with lace-trimmed high neck and sheer yoke. The Victorian neckline and ribbon trim compliment the beautiful full tiered skirt, causing this gown to be alluring, yet demure.

Something old was her great-grandmother's handkerchief. Something new was the wedding dress. Something borrowed was her mother's pearl ring. Something blue was her garter.

The attendants wore floor-length burgundy taffeta gowns and carried bouquets of burgundy roses and pink and white carnations.

The mother's dress was dusty rose with chiffon sleeves with a corsage of burgundy and pink roses.

The mother of the groom wore a dress of blue with a corsage of burgundy and pink roses.

The reception was held in the fellowship hall. The cake was four

tiers and a pink fountain flowed between the first and second tiers. The cake was made by Mary Ann Stewart, sister-in-law of the bride. Reoene Stewart and Mary Ann Stewart served at the bride's table. House-party members were Gladys Kaltwasser, Carol Dean Huggins, Linda Geris and Rose Longley.

For their wedding trip, the Landrys went to Red River, N.M. They will be residing in Farwell. The bride is employed in the Parmer County Clerk's office in Farwell. The groom is employed at Worley Mills in Farwell.

Out-of-town guests included Mrs. Leltie Chapman, of Abilene; Oneta Williams, of Winters, Texas; Mrs. Judy Parker, of Andrews, Texas; Mr. and Mrs. Noel Fagan, of Ennis, Texas; Mr. and Mrs. Milton Shelburne, of Ballinger, Texas, and Sheila Towns, of Lovington, N.M.

Songs sung during the ceremony were "There Is A Quiet Understanding," "The Love That lasts A Lifetime" and "The Lord's Prayer." "Rest In His Love And Abide" was sung as the couple lighted the unity candle.

## The Latest

Karen Snodgrass is attending Howard County Junior College in Big Springs.

Frances Kube recently enjoyed a visit from her brother, Jim Daude of Idaho.

Polly Turner of Farwell is attending West Texas State University.

Wesley May of Farwell is attending T.S.T.I. in Waco.

Mr. and Mrs. Ted Engram of Farwell left Sept. 6 for Grand Junction, Colo. and visited friends and relatives. They came by Red River on their way home. While at Red River they celebrated their 55th wedding anniversary. They returned home on Sept. 17.

# Peggy Goettsch elected

Members of Alpha Rho Lambda chapter of Beta Sigma Phi met at the home of Cynthia Thigpen on Sept. 10 for their first regular meeting of the 1985-86 sorority year.

Peggy Goettsch was elected the chapter Sweetheart for the Sweetheart Ball which will be held in February.

Gwen Corn spoke to the members about the Parmer County Home Arts Fair which will be held at the Friona Community Center during the last week of September. Area residents are encouraged to enter their garden, sewing, cooking or hand-crafted items in the fair.

Members of Alpha Rho Lambda were invited to a social following the Farwell-Petersburg game Sept. 13 at the home of Judy Pomper.

Members were also invited to attend the Northwest Area Convention in Dimmitt Oct. 19 and 20.

Following the meeting, Chris and Peggy Gikas presented an interesting and informative program to

go along with the yearly theme: "Walk in the Sunshine, Find Renaissance." The Gikas showed slides of artwork and artifacts from the Renaissance-which they acquired in Europe this summer.

Mr. Gikas is currently teaching art appreciation at Eastern New Mexico University in Clovis, so he shed a scholarly light upon the theme.

Following the meeting, members enjoyed fresh apple cake, a cheese ball and sausage balls prepared by hostess Cynthia Thigpen.

Present at the meeting were guests: Gwen Corn, Leesa Stephens, Colleen Stover, Lynn Mahaney, Jennifer Bearss, Peggy and Chris Gikas. Also present were members Rhonda Kirkland, Cynthia Thigpen, Peggy Goettsch, Joan Johnson, Pam Smith, Sheree Montgomery, Cindy Patterson, Kendale Burch, Nedda Travis, Linda Foster, and Judy Pomper.

# Pennington to be delegate

The Farwell Study Club held its first meeting for 1985-86, Sept. 16 at the Farwell Community Center.

During the business meeting, a voting delegate to the Fall Convention was voted on. The delegate will be Bernice Pennington, and Mildred Haseloff as alternate. The convention will be at Girls Town on Oct. 12.

Also the annual rummage sale dates were decided for Oct. 18 and 19.

Three members of the club were voted on to be honorary members with their names placed in the Golden Book in Austin. They are Hattie Coffey, Gertrude Foster and Nina Glasscock.

Gwen Corn of Farwell was present to speak on the Parmer

County Home Arts Fair that will be held Sept. 27 and 28 at the Friona Community Center.

The program was presented by Mildred Haseloff on getting new membership. Assisting were Frances Kube, Eunice Crume and Gladys Hardage.

The next meeting will be Oct. 22 at 4 p.m. at the Community Center with Connie Moyers, home economist from SPS.

A salad supper was hosted by the social committee. The members present were Frances Kube, Mildred Haseloff, Gladys Hardage, Eunice Crume, Ellen Wurster, Carrie Christian, Julia Symcox, Sal Vincent, Bernice Pennington and Mary Lou Hillock.

Lorri Jean Landry and Charles Johnson

# Engagement announced

Pam and Jean Pageau of Farwell and Tom Landry of Waterbury, Conn., announce the engagement and approaching marriage of their daughter Lorri Jean Landry to Charles Andrew Johnson, son of Calvin and Robbie Johnson of Andrews, Texas (and formerly of Farwell).

Wedding vows will be exchanged Oct. 20 at 2 p.m. MDT at the First

Baptist Church of Texico.

The bride to be attended Bovina High School and was employed at the Farwell Convalescent Center. The prospective bridegroom is a 1979 Farwell High School graduate and is employed at Grimitt Bros. Construction in Andrews.

All friends and relatives are invited to attend the wedding and reception following at 100 Ave. B in Farwell.

# Inman to attend board session

Marlon Inman of Farwell, a member of the Hardin-Simmons University Board of Development, has been invited to attend a special dinner commemorating the 25th anniversary of the founding of the development board on Sept. 26.

The HSU Board of Development

consists of approximately 100 men and women who help to interpret and promote HSU, recruit students and provide financial support for the university. Meetings are held semi-annually, in the spring and in the fall.

ROBERT MARTIN AND CYDNEY FORD

# Approaching marriage

Mr. and Mrs. Doyle Ford of Farwell and Mr. and Mrs. Bob Martin of Clovis announce the engagement and approaching marriage of their children, Cydney Chanel and Robert Douglas.

Cydney is a 1985 graduate of Lubbock Christian College and Robert is a 1984 graduate of Texas Tech University.

Wedding vows will be exchanged on Oct. 26, at 6 p.m. (MDT) at the First United Methodist Church in Clovis.

Friends and relatives are invited to attend the wedding and reception following.

# Successful wash

The free car wash Saturday, a fund-raiser for the Hamlin Memorial Methodist Church youth group, netted more than \$1,000, according to Daniel Hutchins.

Pledges were made to the group for the number of vehicles washed.

# Farwell comes back to stop Petersburg

By DeeAnn Curtis

After a shaky start, the Farwell Steers came alive last Friday at home to defeat the Petersburg Buffaloes, 26-16.

Farwell is now 2-0 on the season, going into tonight's away game against Seagraves.

Farwell took the kickoff and Bobby Ford ran it to the 40. Petersburg's defense stopped the Steers. Petersburg scored on its first possession, and the kick after was good, making the score 7-0.

Steer runners Kevin Owen, David Woods and Blake Kelley were stopped by the tough Buffalo defense again. After Petersburg got the ball back, they scored on a 20-yard field goal, for a 10-0 lead in the first quarter.

Although David Rubio recovered a Buffalo fumble, the Steers couldn't penetrate the Petersburg defense. Meanwhile, the Steer defense was strong with key tackles made by Eric Williams, Ford, Jason Schilling, Joe Jaime, Rubio and Kelley.

Farwell Steer Quarterback David Woods (10) cuts up field against Petersburg last Friday. Woods ran a strong option play off the wish-

bone throughout the game. At right is halfback Kevin Owen, waiting for a pitch if the Petersburg defensive end goes after Woods.

## Steers of the Week

Named as Steers of the Week for play in last Friday's game were, from left, David Woods, Kevin Owen and Eric Williams. Woods,

the quarterback, ran 147 yards and had two touchdowns; Owen, a half-back, ran 144 yards and had two

touchdowns; and Williams, a defensive back, had three pass interceptions.

Owen broke loose for 46 yards and a TD with 1:22 left, boosting the Steer lead to 26-16.

Petersburg tried some desperation passes but Schilling blocked one and Williams intercepted the final Buffalo throw.

Individual Steer statistics showed Williams catching one pass for 45 yards, and in rushing; Woods, 18 carries for 147 yards; Owen, 21 for 184; Kelley, 12 for 48, and Ford, 10 for 21.

Here's what Coach Monte Barnes had to say:

"During the second quarter, the offensive line started to do a better job in controlling the line and the ball. Petersburg had a dangerous backfield, including the quarterback. They hurt us but we came back.

"The individuals who did really well for us were Williams, with three interceptions; Schilling, who slapped down a fourth-down pass; Owen and Woods, who ran real well; Jesse Anzaldua and Homer Anzaldua, who did well on the offensive line, and Schilling for his defense."

Barnes said, in looking ahead to

# Lazbuddie falls to Hart

Although the final score ended up with Lazbuddie on the short end of 30-6 to Hart last Friday, the game was really close except for about a five-minute span in the second quarter.

In that span, Hart scored 22 points to put away the game.

Lazbuddie was the first team to score in the game, played at Hart. Paul Gonzales caught a 25-yard pass from quarterback Tim Lust in the first quarter. But in the same quarter, Hart bounded back to take an 8-6 lead.

Then came that five-minute span. It included a Lazbuddie fumbled punt on its own 5 yard line; an 82-yard TD run by Hart, and a Hart interception run back for a touchdown.

Both teams played evenly in the second half, with neither scoring.

For the game, Lazbuddie had 17 first downs to Hart's 27. Lazbuddie's total yardage of 168 yards included 124 by passing and 43 on the ground. The ground yardage total is deceiving since the Longhorn quarterback was sacked for 41 yards. David Schacher, who Head Coach James Bartosh said did a fine job, gained 80 yards on the ground. Kurt Miller gained 12.

Catching passes from Lust were: Gonzalez, 6 for 87 yards; Schacher,

The second quarter was slow for both teams. Williams had an interception but the Steers were plagued by incomplete passes, a penalty and an unsuccessful field goal try. David Woods' run of 25 yards for an apparent TD was called back due to a penalty.

The third quarter began with Carey Stancell kicking to Petersburg. Possessions alternated until Williams intercepted another pass, putting Farwell on the Buffalo 13. Owen scored the Steers' first TD from the 3-yard line, leaving the score 10-6 at the end of the third quarter. Key tackles were made by Stancell, Jesse Anzaldua, Rubio, Damon George, Ford, Williams, Kelley and Schilling.

The Steers came on in the final quarter. Woods scored a 33-yard TD with 9:21 left on the clock, giving Farwell a 12-10 lead since the point-after failed.

Petersburg didn't cave in. They scored again to regain the lead at 16-12. Their point-after run failed when Joe Jaime tackled the ball carrier.

After a couple of short carries, Woods ran 45 yards for another TD. Ford raced over for the two points, and the Steers again were in the lead, 20-16.

More key tackles were made by Kelley, Loenard Hillock and Williams. Plus Schilling intercepted a pass.

1 for 1; Miller, 2 for 16 and Guy Brockman, 2 for 20.

Other statistics showed that Lazbuddie punted 7 times, for a 32.3 yard average, and two Longhorns intercepted Hart passes - Chris Fuqua and Brockman.

Lazbuddie, now 1-1 on the season, takes on O'Donnell tonight (Friday).

"O'Donnell is big but we think we have a good chance," said Bartosh. O'Donnell is also 1-1 on the season.

STATISTICS

## PUBLIC NOTICE BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS GENERAL ELECTION NOVEMBER 5, 1985

### PROPOSITION NO. 1 ON THE BALLOT

Sections 1 and 2 of House Joint Resolution 6 propose a constitutional amendment that would authorize the Texas Water Development Board to issue an additional \$980 million of Texas Water Development bonds.

The additional bonds to be issued will be dedicated for deposit in the Texas Water Development Fund, with \$190 million of those bond proceeds to be used for water supply loans and facilities acquisition and with \$400 million of those bond proceeds to be used for state participation in the acquisition and development of facilities for storage, transmission, transportation, and treatment of water and wastewater. Of the remaining bonds authorized, \$190 million will be dedicated for use in water quality enhancement projects, and \$200 million will be dedicated exclusively for flood control projects.

The amendment would also allow the legislature to provide for the creation, administration, and implementation of a bond insurance program to which the state pledges up to \$250 million of its general credit to insure payment of the principal of and interest on bonds or other obligations issued by political subdivisions of the state for water conservation, water development, water quality enhancement, flood control, drainage, recharge, chloride control or desalinization. Unless authorized to continue by a two-thirds vote of the members of each house of the Legislature, the bond insurance program will expire on the sixth anniversary of the date on which this section becomes a part of the constitution. Bond insurance issued before expiration of the program will not be affected by such expiration.

The amendment would authorize the legislature to create and appropriate money to special funds in the state treasury to make grants, loans, and other financial assistance available to governmental entities for certain enumerated water planning purposes. Also, the legislature would be permitted to extend the benefits of constitutionally approved water projects to nonprofit water supply corporations.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the issuance of an additional \$980 million of Texas Water Development Bonds, to create special water funds for water conservation, water development, water quality enhancement, flood control, drainage, subsidence control, recharge, chloride control, agricultural soil and water conservation, and desalinization, to authorize a bond insurance program, and to clarify the purposes for which Texas Water Development Bonds may be issued."

### PROPOSITION NO. 2 ON THE BALLOT

Section 3 of House Joint Resolution 6 proposes a constitutional amendment that would allow the Texas Water Development Board to issue and sell Texas agricultural water conservation bonds in an

amount not to exceed \$200 million, if authorized to do so by a two-thirds vote of the members of each house of the legislature. The Texas agricultural water conservation bonds would be general obligations of the State of Texas, and would be paid from the first money coming into the state treasury in each fiscal year. The amendment would allow Texas agricultural water conservation bonds to be issued and sold only for four years after the date on which this Act becomes a part of the constitution.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the issuance and sale of \$200 million of Texas agricultural water conservation bonds."

### PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 54 proposes a constitutional amendment that would permit the legislature to authorize a city or town to spend public funds and levy assessments for the relocation or replacement of water laterals on private property if such relocation or replacement is done in conjunction with or immediately following the relocation or replacement of water mains serving the property. Any legislative enactment permitting the expenditure of funds for such purposes would authorize the city or town to fix a lien on the property, with the owners' consent, for the cost of relocating or replacing the water laterals, and would provide that such cost shall be assessed against the property, with repayment by the property owner to be amortized over a period not to exceed five years at the rate of interest set by law. Such liens could not be enforced until after five years from the date the liens were affixed.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the legislature to enact laws permitting a city or town to spend public funds and levy assessments for the relocation or replacement of water laterals on private property."

### PROPOSITION NO. 4 ON THE BALLOT

Senate Joint Resolution 21 proposes a constitutional amendment that would authorize the use of the proceeds from the sale of permanent school fund land to acquire other land for the permanent school fund. Currently, the constitution requires that proceeds from the sale of such land be invested in certain bonds and other securities.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing proceeds from the sale of land dedicated to the permanent school fund to be used to acquire other land for that fund."

### PROPOSITION NO. 5 ON THE BALLOT

House Joint Resolution 89 proposes a constitutional amendment that would enable the legislature to regulate the provision of health care by hospital districts by determining

the services the district must provide, by setting requirements a resident must meet in order to qualify for services, and by determining any other relevant provisions necessary for providing health care to residents.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the legislature to regulate the provision of health care by hospital districts."

### PROPOSITION NO. 6 ON THE BALLOT

Senate Joint Resolution 6 proposes a constitutional amendment that would enable the State of Texas to enter into an agreement with another state to confine inmates from the state of Texas in penal or correctional facilities of the other state.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to permit state prisoners to be placed in penal facilities of another state pursuant to an interstate agreement."

### PROPOSITION NO. 7 ON THE BALLOT

House Joint Resolution 27 proposes a constitutional amendment that would authorize the commissioners court of Chambers County to divide Chambers County into not less than two and not more than six justice precincts. Under current constitutional law, Chambers County may be divided into not less than two and not more than five justice precincts.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing Chambers County to be divided into two to six precincts."

### PROPOSITION NO. 8 ON THE BALLOT

Senate Joint Resolution 9 proposes a constitutional amendment that would grant an additional \$500 million in bonding authority to the Veterans' Land Board for the veterans' housing assistance program. Under the current constitution, the Veterans' Land Board is authorized by Article III, Section 49-b-1 to issue and sell not more than \$800 million in bonds, \$500 million of which may be used for the Veterans' Housing Assistance Fund. This amendment would increase that authorization to permit the issuance and sale of up to \$1.3 billion in bonds, \$1 billion of which would be used for the Veterans' Housing Assistance Fund. In addition, the amendment would remove the current definition of "veteran" from the constitution and permit the legislature to redefine "veteran" as the changing times and circumstances require.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing \$500 million in additional bonding authority for the veterans' housing assistance program and changing the definition of those veterans eligible to participate in the veterans' land program and the veterans' housing program by authorizing the legislature by law to define an eligible veteran for the purposes of those programs."

### PROPOSITION NO. 9 ON THE BALLOT

House Joint Resolution 72 proposes a constitutional amendment that would permit the legislature either to enact a statute or to attach a rider to the General Ap-

propriations Act to require prior approval of the expenditure or emergency transfer of any funds appropriated by the legislature to state governmental agencies.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to protect public funds by authorizing prior approval of expenditure or emergency transfer of state appropriations."

### PROPOSITION NO. 10 ON THE BALLOT

House Joint Resolution 19 proposes a constitutional amendment that would authorize the legislature to provide for the issuance of general obligation bonds, the proceeds of which would be deposited in a fund to be known as the farm and ranch finance program fund. The fund would be administered by the Veterans' Land Board and would be used to make loans and provide other financial assistance for the purchase of farm and ranch land. The amount of bonds outstanding at any one time would be limited to \$500 million. The principal and interest that becomes due on such bonds in each fiscal year would be paid from amounts remaining in the interest and sinking fund at the close of the prior fiscal year, with the balance due to be appropriated from treasury revenues in the fiscal year when such amounts become due.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the issuance of general obligation bonds to provide financing assistance for the purchase of farm and ranch land."

### PROPOSITION NO. 11 ON THE BALLOT

Senate Joint Resolution 16 proposes a constitutional amendment that would define indictments and informations as instruments charging a person with the commission of an offense, and would delete certain technical requirements as to the form of writs and processes.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment relating to the manner in which a person is charged with a criminal offense and to certain requirements applicable to state writs and processes."

### PROPOSITION NO. 12 ON THE BALLOT

Senate Joint Resolution 10 proposes a constitutional amendment that would grant the Texas Supreme Court and the Texas Court of Criminal Appeals jurisdiction to answer questions of state law certified from federal appellate courts. In addition, the two courts would promulgate rules of procedure relating to the review of those questions.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment granting the Supreme Court of Texas and the Court of Criminal Appeals of Texas jurisdiction to answer questions of state law certified from a federal appellate court."

### PROPOSITION NO. 13 ON THE BALLOT

Senate Joint Resolution 14 proposes a constitutional amendment that would create a board with responsibility for the reapportionment of judicial districts, subject to legislative approval. The amendment would provide for the continued power of the legislature to provide for judicial reapportionment, and would provide that reapportionment

will be the responsibility of the Legislative Redistricting Board if the Judicial Districts Board fails to make a timely reapportionment. The amendment would provide for the creation of judicial districts smaller than a county in counties where the creation of such districts has been approved by the voters at a general election. The amendment would provide for more than one judge for a judicial district. The amendment would rename supreme judicial districts as courts of appeals districts. The amendment would provide that the jurisdiction and terms of court of district and county courts may be as provided by law. The amendment would provide for the jurisdiction of justice courts, which may have additional jurisdiction as provided by law. The amendment would provide for rules of judicial administration and civil procedure to be promulgated by the Supreme Court, and would provide that the legislature may delegate additional rule making power to the Supreme Court or to the Court of Criminal Appeals. The amendment would provide that courts and judges in existence at the time of its adoption remain in existence until otherwise provided by law.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing for the reapportionment of the judicial districts of the state by the Judicial Districts Board or by the Legislative Redistricting Board, and providing for the administration and jurisdiction of constitutional courts."

### PROPOSITION NO. 14 ON THE BALLOT

Senate Joint Resolution 27 proposes a constitutional amendment that would abolish the office of County Treasurer in Andrews County and transfer the powers and duties of that office to the County Auditor. The amendment would also abolish the office of County Treasurer in El Paso County if, at the statewide election at which this amendment is submitted to the voters, a majority of the voters who vote in El Paso County favor the amendment. The functions of the office of El Paso County Treasurer will be performed by a person employed or designated by the El Paso County Commissioners Court. The amendment also provides for the abolition of the office of County Surveyor in Denton, Randall, Collin, Dallas, El Paso, and Henderson Counties upon approval of such abolition by a majority of the voters who vote on the question at an election called by the commissioners court of the county. If the office of County Surveyor is abolished in any county, the commissioners court may employ or contract with any qualified person to perform the duties of the office.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to provide for:

- (1) the abolition of the office of county treasurer in Andrews County and El Paso County;
- (2) the abolition of the office of county surveyor in Collin, Dallas, Denton, El Paso, Henderson, and Randall Counties."

Estos son los informes explana-torios sobre las emmiendas propu-estas a la constitucion que aparac-eran en la boleta el dia 5 de noviembre de 1985. Si usted no ha recibido una copia de los informes en español, podra obtener una gratis por llamar al 1/800/252/9602 o por escribir al Secretario de Estado, P.O. Box 12887, Austin, Texas 78711.

## Upcoming Sports

### THURSDAY, SEPT. 19

Farwell JV football team will meet Springlake-Earth at Farwell at 6:30 p.m.

Texico Lady Spikers will meet Portales at Portales at 5 p.m. (MDT).

### FRIDAY, SEPT. 20

Farwell Steers will meet Seagraves at Seagraves at 8 p.m.

Texico Lady Spikers play Hobbs Tournament at Hobbs.

Texico Wolverines will meet Eunice at Texico at 7:30 p.m. (MDT).

Lazbuddie Longhorns will meet O'Donnell at O'Donnell at 8 p.m.

### TUESDAY, SEPT. 24

Texico Lady Spikers will meet Tatum at Texico at 5 p.m. (MDT).

SUNDAY - Turkey Divan, broccoli, cheese sauce, hot roll, tomato slice, strawberry short-cake, beverage.

## He's less enthusiastic

(Editor's note: One of our subscribers asked us to reprint this letter he sent to John Heinz, chairman of the Republican Presidential Task Force.)

Dear Mr. Heinz:

Thank you for your letter of Aug. 26. I am pleased that you can make special mention of member input to the President. Here is what I want you to tell the President for me: 1) Overall, July farm prices averaged at their lowest in over five years. 2) Recent grain prices hit a 25 year low. When adjusted for inflation, based on 1972 prices, corn has an adjusted value of \$1.16 per bushel and soybeans \$2.57 (Sources -- Progressive Farmer, Texas Farmer Stockman and National Cattleman's Association).

According to USDA, total U.S. farm income is down from \$34.5 billion in 1984 to \$22 to \$25 billion in

1985. It was bad enough at the 1984 level.

Please tell the President and Sec. Block that farmers need more substance and less rhetoric in the 1985-89 farm program now locked in debate in both houses. They need to know what they can plan on -- now!

In conclusion, I have become less enthusiastic about sending contributions since corn dropped below \$3 (1985 dollars) and farmland is off 30-40 percent since 1980.

Sincerely,  
Carthon Phillips  
Austin, Texas

## 'A little closer to them'

Dear Mike,

First, let me congratulate you on your one-year anniversary with the

## Letter To The Editor

Tribune. I have only been a regular subscriber since January but I look forward to receiving the Tribune every week.

My grandparents, Mr. and Mrs. Robert D. Williams, live just outside Farwell, and getting the Tribune makes me feel just a little closer to them. I have been to Farwell for

short visits the last four years and really have enjoyed the time I spent there.

I just wanted to let you know I like the Tribune very much and will be renewing my subscription soon. Keep up the good work.

Randell Wendt  
Chicago, Ill.

## Hospital Notes

Nicholas Ketcherside, son of Mr. and Mrs. Ricky Ketcherside of Farwell, had hip surgery in Albuquerque. He is home and doing quite well.

San Antonio. She is the wife of Truitt Smith.

# Hi-Plains Playday held here

The Hi-Plains Playday, held each month at a different country club, was held in Farwell Sept. 11.

Thirty-six members participated. Members belong to clubs in Dimmitt, Olton, Clovis, Tulia, Muleshoe, Farwell and Canyon.

In the second flight, Sandy Ware, Farwell, left, had low gross and low putts [tie]. Helen Fritz, Clovis, center, tied for low putts. Helen Templeton, Muleshoe, had low net.

Jeanetta Precure, Muleshoe, left, was medalist. Sue Ward, Tulia, had low net.

In the championship flight, Anna Crook, Clovis, left, tied for low gross; Lou Hardy, Tulia, center, had low net; Joan Fontanilla, Clovis, right, had low putts and tied for low gross.

In the third flight, Arlene Malone, Clovis, left, had low gross and low putts. Nadine Weaver, Olton, had low net.

In the fourth flight, Mary Davis, Tulia, left, had low net. Betty LaGrone, Canyon had low putts.

In the fifth flight, Maria Seal, Tulia, left, had low gross and low putts. Jerri Horton, Dimmitt, center, tied for low putts. LaRonda Holmberg, Clovis, had low net.

In the first flight, Betty Morgan, Canyon, back left, had low net; Bernice Teeters, Clovis, back right, tied for low putts; Bev Obenshain, Farwell, front left, had low gross, and Cookie Bamert, Muleshoe, front right, tied for low putts.

KELLY DAVIS AND JAMES LOVE

## Approaching marriage

Kelly Marie Davis, daughter of Mr. and Mrs. Jerry Davis of Farwell, and James E. Love, son of Casey Pruitt and the late James Love of Texico, announce their engagement and approaching marriage.

Wedding vows will be Oct. 19 at 5 p.m. (CDT) at the Hamlin Memorial United Methodist Church in Farwell.

All friends and relatives are invited to attend.

## Home Arts Fair planned

County youth and adults have an opportunity to show their home-grown and hand-made items. The Parmer County Extension Home Economics Committee is sponsoring the County Home Arts Fair in conjunction with the Maize Days festivities held in Friona.

First through third place ribbons are being donated by the Friona Chamber of Commerce, and will be awarded in each class. Exhibit divisions include: Field Crops, Fruits and Vegetables, Food, Clothing, Crafts & Hobbies and Fine Arts. The Farwell and Bovina Chambers of Commerce are supporting

this county event by donating trophies for Champion and Reserve Champion exhibitors. These awards will be given in the youth and adult divisions.

Entries may be taken for all exhibits, except fresh products Sept. 26 from 3 until 7 p.m. at the Friona Community Center. Entries for all exhibits will also be taken Sept. 27, 7:30 until 10 a.m. at the Center.

For a Home Arts Fair Catalog or more information, contact Janette Pierce, Parmer County Extension agent at 481-3619 or on the second floor of the Courthouse in Farwell.

# Texico rolls to third win

"The keys to the game were the offensive and defensive lines. We were stronger than they were." That's what Texico Head Coach David Lynn had to say about the Wolverines' 30-8 victory over Capitan at home last Friday.

The win boosted Texico's record to 3-0 and takes them into tonight's game at 7:30 p.m. MDT against Eunice. It's Parents Night at Texico. Eunice won its last game, 36-15, against Wink, Texas.

Texico held Capitan to a minus 9 yards rushing, in 15 attempts. Capitan gained 97 yards passing, for a total yardage of 88. Meanwhile, Texico gained 26 yards passing and 402 on the ground - in 72 rushes.

Texico jumped ahead in the first quarter, with quarterback John Thomas keeping the ball on a six-yard rollout. The point-after kick failed.

In the second quarter, Charlie Bibbs plowed over from the 3. The PAT run failed, leaving Texico with a 12-0 lead.

Then Capitan got on the board, on a 31-yard pass from Troy Padilla to Troy Keller. The Padilla to Keller connection also clicked on the point-after, as the teams went into halftime with Texico ahead, 12-8.

Texico kept on the pressure in the third quarter. Thomas scored on a four-yard run, upping the count to 18-8. Then Larry Dudley raced in from the 17 for another Wolverine score.

And in the final period, Thomas scored again on a run, leaving the final tally at 30-8.

Rushing statistics for Texico showed: Bibbs, 11 for 45 yards; Stanley Cross, 26 for 142; Thomas, 12 for 50; Dudley, 21 for 158. Texico

only completed one pass, a 26-yarder to David Loera from Cross.

Three Wolverines had interceptions: Loera, Cross and Thomas - with 2.

Lynn said other positive aspects of the game included his defensive line's pressure on the Capitan quarterback and the running of Dudley.

Looking ahead to Eunice, Lynn said: "The Cardinals have a sophisticated offense. You have to stop their sweeps and bootleg passing."

STATISTICS	
Texico	Capitan
First Downs	25 6
Net Yards Rushing	402 -9
Net Yards Passing	26 97

Penalties	8 4
Yards penalized	70 30

Charlie Bibbs carries around left end against Capitan.

Wolverine Quarterback John Thomas carries on a keeper against Capitan.

# Lady Spikers win tournament

The Texico Lady Spikers took first place at the Cloudcroft Volleyball Tournament last weekend.

Two Lady Spikers were named to the All Tournament Team. They were Loretta Gonzales and Kelly Lynn.

In the first match with Dexter, Texico won 18-20, 16-14, 15-9 and 15-3.

The individual scores were: Kelly Lynn, serving four aces, 14 kills and two blocks; Loretta Gonzales, serving one ace and one kill; Coy Jo Burk, serving one ace, four kills and two blocks; Helen Jo Boarman, served three aces, six kills, one assist and five blocks; Tracey McDonald, served one ace and one kill; Robin Pierce, served three aces.

In the second match with Hatch, Texico won 15-5, 17-15, 13-15, 10-15

and 15-11.

The individual scores were: Lynn, serving three aces, 18 kills and seven blocks; Gonzales, serving two aces, one kill and 38 assists; Burk, serving two aces, nine kills and five blocks; Boarman, serving two aces, five kills and two blocks; Longo, serving one ace, three kills and four blocks; and Pierce, serving one ace.

In the Championship match with Canutillo, Texico won 15-12, 15-9 and 15-9.

The individual scores were: Lynn, serving one ace, eight kills and four blocks; Gonzales, serving one ace; Burk, serving one ace and three kills; Boarman, serving one ace, nine kills and two blocks; Longo, serving four aces, two kills and four blocks.

The Lady Spikers have a 3-0 record.

## Big Lick awards

The recipients of the Big Lick Award for this week are, from left, Urban Orozco, Cory McDaniel and Stan Cross. Texico Coach David Lynn said Orozco was excellent on kickoffs and on pass rush on defense. McDaniel is the leading tackler with six tackles. He is an excellent player, said Lynn. Cross rushed 26 times for 142 yards and intercepted a pass. He shows good leadership ability, said Lynn.

## Field mass planned

San Jose Catholic Church in Texico has planned a field mass at the Farwell city park starting at 9 a.m. MDT Sunday.

The mass will be recited by Fr. Gordon Blank. The community is invited.

"This is our annual field mass. It's a tradition with us and its purpose is to build up the spirit of the community," said church director Elidio Loera, of the Knights of Columbus.

After the mass, a picnic will be held at the park. Participants are asked to bring a covered dish. Following, games for youngsters are planned.

## Texico 8th ties Portales

Texico Junior High played Portales 8th Sept. 12 and tied 0-0. This was their first game of the season.

According to Coach Borde Williams, "We had our chance to win. We had the ball inside the 30 yard line two or three times. We made a lot of mistakes mentally and we were offside."

"We did well on offensive and defensive plays."

Larry Powell, Mike Day, Spicer Lewis, Keith Harrison did well on

the defense, he said.

Lance Akers, Mike Day, Mike Williams and Keith Harrison did well on the offense, he added.

The ball carriers were Lance Akers, Spicer Lewis and Larry Powell.

On Sept. 28, Portales 8th will meet Texico Junior High at Texico at 10 a.m. (MDT).

"We will watch our mistakes and work on added plays," said Williams.

## Fire Calls

The Farwell Fire Department reported two fire calls last week.

On Sept. 13, the ambulance was called to Allsup's and transported a patient to Clovis High Plains Hospital at 8:14 a.m.

On Sept. 14, the fire department was called three miles west of Lariat at 9:32 p.m.

The Clovis Dispatcher reported no calls for the past week.

## 16 teams participate

Sixteen teams participated in the annual Mexican-American Golf Tournament at the Farwell Country club Sunday.

Teams from throughout Texas and New Mexico were represented. The tournament was sponsored by the Hispanic Golf Association.

## Meeks recognized

Mark Meeks, a senior at Texico High School is one out of 15,000 semifinalists for the National Merit Scholarship.

Participants in the National Merit Program compete to become semifinalists on the basis of their scores on a qualifying test. They took the Preliminary Scholastic Aptitude Test/National Merit Scholarship Qualifying Test in 1984 when they were juniors.

To advance in the Merit Scholarship competition, a semifinalist must qualify as a finalist by documenting high academic performance, being recommended by the high school principal, confirming qualifying test performance on the Scholastic Aptitude Test, and

submitting information about school and community activities, personal interests, and goals.

Every finalist will be considered for one of 1,800 single payment National Merit \$2,000 scholarships that are allocated on a state representation basis, in proportion to the state's total of graduating seniors.

Winners will be chosen by a selection committee of college admissions counselors who will judge which of the finalists have the strongest combination of academic and extracurricular accomplishments.

Meeks is the first student from Texico to participate in the National Merit Program.

## Mounted group

The Cattle Capitol Cowbelle Mounted Group competed in the New Mexico State Fair Parade recently. Members are Nancy Taylor, Jo Norman, Jatonna Hill, Darlene Upham, Kim Fields, Jeannie Baker, Jan Davis, Susie Gordon and Melissa Jameson. They received a

first-place trophy and the trophy for having traveled the farthest distance. The Cowbelles travel an average of 5,000 miles representing the beef industry and Clovis and Portales areas. They will be in Friona's Maize Days.

## Meeting cancelled

The September meeting of the Farwell Chamber of Commerce, scheduled next week, has been cancelled because of the top officers being on vacation.

# Put Your Money Into Your New Home, Not Your Utility Bills

Ask for Economical Gas  
Heating & Appliances

When you select a new home, insist on natural gas as your best energy value. Of all the utilities in your home, none costs less, cooks better or burns cleaner than plentiful natural gas.

Natural gas heating and appliances can save you as much as **50 percent** on utility costs, year after year. That adds up to big money . . . money you could spend more profitably to decorate and furnish your new home, or for some other worthwhile purpose.

Unless you ask your builder for gas heating and appliances, you may not get them . . . and that would be your loss, from here on out.

**Gas Cooks At Least 3 Meals For the Price of 2 . . . And is the choice of Most Gourmet Chefs.**

Gas ranges will make cooking easier while it saves you money. A gas range gives you precise temperature control instantly, so you can keep the most delicate sauces warm without scorching them. You also get instant on/off response . . . with no "hangover heat" to spoil your masterpieces.

## Gas Keeps You In Hot Water . . . In The Nicest Way.

For only  $\frac{1}{2}$  the cost of non-gas water heating, natural gas heats more hot water for you, faster. That means the temperature is as comfortable for the last person in the shower as for the first! It's hard to run out of hot water, when you heat with gas.

## Gas Dries 3 Laundry Loads For the Price of 1.

Gas clothes dryers do more than save you money. They also save you time, because clothes dry more quickly . . . and the rapid drying action makes clothes feel soft and fluffy.

## A High-Efficiency Gas Furnace Will Keep Your Family Cozy For Only $\frac{1}{3}$ The Cost of Non-Gas Heating.

In addition to saving you cash . . . and a lot of it . . . gas furnaces are more dependable and more durable. Because they can easily last for 20 years . . . or even longer . . . they usually have longer-term warranties, too.

## Don't Forget to Request Natural Gas.

The new furnace and appliances that come with your new home are things you'll live with for a long time. They are major investments, so make sure they are assets, not liabilities. Make sure you learn the facts about energy efficient natural gas!

Making your dream home a reality is an important task and one you shouldn't trust to just anyone. The right builder can create not only a house but a home to cherish for a lifetime.

That's why it pays to search carefully for a builder and select a reputable firm that constructs a quality product. It may take some time and effort to find just the right builder. But when you curl up in front of the fireplace for the very first time or see the happy smiles on your children's faces as they explore their new home, you'll know it was well worth the effort.

For starters, don't just leaf through a telephone book and choose a builder at random. Ask for recommendations from friends and relatives and find out if they are satisfied with their homes. If they have had problems, learn specifically what went wrong so you will know what to watch out for.

Once you've identified several builders in your area, check out the homes they build. Knock on doors and ask people if they like their homes and how they feel about the builder's customer service.

Look at the homes yourself and see if they are soundly constructed. And don't be shy about it. This home is probably going to be your largest investment so it's important that it be the best you can get.

Once you've made a tentative selection, check out the builder's credentials. How long has the firm been in business and what kind of reputation does it have in the business community? Try to find out about the builder's credit rating and check with the Better Business Bureau and local consumer protection agencies to learn if the company is reliable and if buyers have been satisfied with the builder's products and service.

You'll also want to know if the builder is a member of the local home builder association and should check with the association to verify his reliability and professional standing.

In addition, it's very important to know what kind of customer

service policies the builder has and if he offers a written warranty. If so, find out the length of the warranty, if it is backed by the builder or an insurance company, and what procedures will be used if a problem arises. Ask, too, what responsibility the builder assumes for the work of subcontractors and others who work for him.

The builder's ability to offer you an attractive financing package may be a consideration when you make your selection. But remember, the ability to provide financing has no bearing on the quality of the builder's houses.

After you select your builder, cooperation is essential. If he asks for a decision, give him an answer as quickly as reasonably possible after giving the matter adequate consideration. And once you reach a decision, stick with it. Don't change your mind the next day.

Of course you'll want to check on the progress of construction now and then, but don't hang around the job site constantly. If you do visit, stay out of the workers' way and abide by safety rules. It's all right to ask the builder questions, but don't argue with him on the job site. If you want to change something, put your instructions in writing and expect to pay for the changes.

Building a new home is a challenging and exciting experience. And it's one you'll enjoy immensely — especially since you've chosen the right builder for the job.

REALTOR® Each Office Is Independently Owned And Operated

Dear Fellow Citizens;

My name is Don Fitz and as President of the Building Contractors Association of Curry County, I would like to take this opportunity to welcome you to the 1985 Parade of Homes and tell you a little about myself and the association. I was born at Quanah, Texas, moved to Clovis at the age of five and later moved to Texico in my high school years. I became involved in the Heating, Air Conditioning, and Sheet Metal trade soon after graduating from Texico High School. After 2½ years in the trade, I became military bound, spending one year in Fort Bliss, Texas and one year in Viet Nam. Being discharged after my overseas tour, I returned to Clovis to continue my work in the Heating and Air Conditioning trade. I married Beverly Ross of Melrose in 1971. We made our home in Clovis and have two lovely daughters; Melissa age 11 and Sheila age 8. In 1979 we went into business for ourselves.

I was approached and asked to join the Building Contractors Association of Home Builders. Being unfamiliar with the organization, I attended a monthly membership meeting as a guest and spoke with other members about its functions and benefits. I joined the Association in 1982, served as Vice President in 1984 and currently serve as President.

It wasn't until I became more active in the association that I realized how beneficial all of its functions and services were to our industry on a local, state and national level. If your livelihood or business is influenced by construction, I invite you to consider joining our Association.

Being interested in the community and our industry, we felt the need to do something to create enthusiasm, involve the community, encourage new membership and support local charity activities. With a very limited budget and no local projects in progress we felt these goals were impossible to meet so we set forth to have a Parade of Homes. This enthusiasm has enabled us to exceed our State Homebuilders Association membership challenge by increasing from 32 to 70 members. Some of the excitement has been created within the associations. Many interested friends in the community have helped us promote this Parade and in doing so have promoted their businesses and the city of Clovis.

Being a non-profit organization and to achieve our charity goal, we will be donating \$1.00 of the \$2.00 ticket fee to local charity, using the other \$1.00 to help cover promotion expenses.

Each \$2.00 ticket will enable its purchaser to one tour of each of the 16 homes in the Parade. The ticket will be good all three week-ends if you wish to tour portions of the Parade at different times. We hope you find the Parade of Homes interesting as well as entertaining.

We would like to thank the businesses who have joined us in supporting our Parade of Homes. We hope you find our tabloid interesting and informative as we have tried to keep it brief and to the point. Please take the time to identify our sponsors.

We ask that there be no smoking, food or drinks in the show homes in order to help maintain the appearance for future visitors.

The Building Contractors Association of Curry County is offering a \$1000.00 (one thousand dollar) rebate to qualifying home buyers. Please refer to the Parade rules on the index page for details of rebate.

The homes are located in several locations in Clovis with many variations in size, decor and values. Feel free to discuss these items with the builders or their representatives.

Again I invite you to come out and join us in this showing of homes and thank you for helping us make this Parade a community success.

Sincerely, Don Fitz

## 116 Fairway North

This fine townhouse at 116 Fairway North was entered in the 1985 Parade of Homes by R.L. Furrow Construction. At approximately 1750 square feet, this 3 bedroom, 2 bath home was planned for efficient use of space inside and low maintenance outside. With side yard and small court yard there is very little yard work.

This beautiful and practical home has many extra features that just have to be seen.

This is an energy efficient totally electric home with a 10 year HOW warranty.

# Put Your Money Into Your New Home, Not Your Utility Bills

"IS NOW A GOOD TIME TO BUY A HOME?" This is one of the questions asked most often by consumers in the housing market. The answer depends on market conditions and each consumer's individual circumstances. But looking back over time, there are very few instances in which a consumer would have profited by postponing a home purchase.

As a general rule, if a person wants to buy a house and can afford to do so, waiting rarely pays. By waiting, a consumer is gambling that interest rates will drop faster than home prices will rise. This is not a smart gamble.

First, trying to predict movements in interest rates is very risky. Even expert economists disagree on their predictions. Interest rates can be influenced by national and international factors, some of which can be quite unexpected. For instance, the failure of a savings and loan association or the threat of a war in the Middle East could cause mortgage rates to fall. Basically, rates are almost impossible to predict.

lower mortgage rates and have realized appreciation on their units which has more than apid the re-financing costs.

The cost of waiting can be especially expensive for people who do not already own a home. The American tax system favors homeownership. There are obvious ways, such as with the deduction of mortgage interest and property taxes. There are also less obvious ways, such as the fact that buyers may never have to pay taxes on the appreciation of their homes. Consumers who are at least 55 years old are permitted a one-time exemption from paying taxes on up to \$125,000 in appreciation realized from the sale of their primary residences. Sellers under 55 can avoid paying taxes on appreciation realized from the sale of their principal residence as long as within two years they buy another unit which is at least as expensive as the one they sold. With most other investments, taxes on interest or dividends must be paid each year.

A house is also a heavily leveraged investment -- you can earn a lot of money by putting down a little. For instance, if you put \$7,000 down on a \$70,000 house, and in a few years it has appreciated only 10 percent, you still have doubled your investment.

Second, even periods when it may appear sensible to wait, such as when interest rates are high, a buyer who shops around can often find an affordable mortgage and profit more than by waiting for rates to decline. For example, in the early 1980's, when interest rates reached unexpected levels, most home builders offered mortgage buy-downs. With a buy-down, the builder funds part of the consumer's monthly payment either for a specified number of years or for the entire life of the loan. So if interest rates are 15 percent, a builder might agree to make an upfront cash payment to the lender so that a consumer would only have to make a payment of 12 percent for the first few years of the loan. The builder benefits by being able to sell his product and the consumer benefits by being able to buy a house. Many consumers who brought units with buy-downs a few years ago have since refinanced at

Buying a house also may involve many important non-financial considerations. Owning a home can provide security and stability: no more dealing with landlords, no more worries about condominium conversions, no more threatened evictions or surprise rent increases. Owners have much more control of their own destinies than renters.

Never rush into a home purchase without first exploring the options. But once you find the unit and the financing package that best suits your future. If you are tempted to gamble on interest rates and home prices, remember that the stakes are high and the odds are against you.

Continued from page 26

October 23 — Scheduled plumbing, cabinets, wiring, fireplace man and heat man — all of them at the same time. I just didn't care anymore.

November 16 — They all showed up on the same day and there was total chaos. I didn't care! Miss work again.

November 17 — O.S.H.A. inspector closed down project. Cited 21 safety hazards. Told him someone was going to pay "big" for this because I've got strong political connections. My doctor told me I now have high blood pressure.

November 22 — All safety requirements met. Work is in progress and all going well. Scheduled dry wall company. I'm drinking too much now, I know it. Missed three more days of work.

December 4 — Dry wall men asked me why I didn't insulate the house. To save face, I told him he showed up on the wrong date. He was very disgusted. The insulation company said it would be at least two weeks due to backlog of orders. I threatened him with physical harm and then I relented and begged.

December 5 — Received certified letter informing me that foundation man was suing me and received two irate calls from subs I hadn't had time to pay. Told the boss to "get off my case" that same day.

December 6 — Discovered that vandals had broken all the windows in the house. The insurance people said they would pay, but they'd rather drop my program. I broke down and cried.

December 9 — Started going to an analyst. He advised that I needed to be better organized. Told him the only way his fee schedule could be any higher is for him to become a carpenter.

December 10 — Painter splashed paint all over woodwork and carpet. I smiled at him and told him that I'd see to it he'd never get another job. I keep a flask in my glove compartment now to ward off the cold chills of winter.

December 25 — Told the family the reason there was no gift exchange this year because I had a sizeable overrun on the house. I promised next year would be better. My wife mumbled something about ignoring her advice in getting a builder in the first place. I retorted that if she was so smart, why did she even stay married to me?

December 26 — My wife sued me for divorce today. Said she wouldn't live any longer with a man of my temperament and drinking habits. Said she was going to sue for the "House" and that she wanted it furnished. I headed for the glove compartment.

December 28 — Showed up at work with awful headache. Boss told me that I should begin the new year by utilizing my talents elsewhere. Said he'd give me a good recommendation as a builder. Smart aleck.

— And they told me I couldn't build my own house!

Published as a public service by the HOME BUILDERS ASSOCIATION of GREATER CINCINNATI... the trade association of professional builders in Greater Cincinnati. For a roster of builder members call (513) 342-6500. © Copyright 1977.

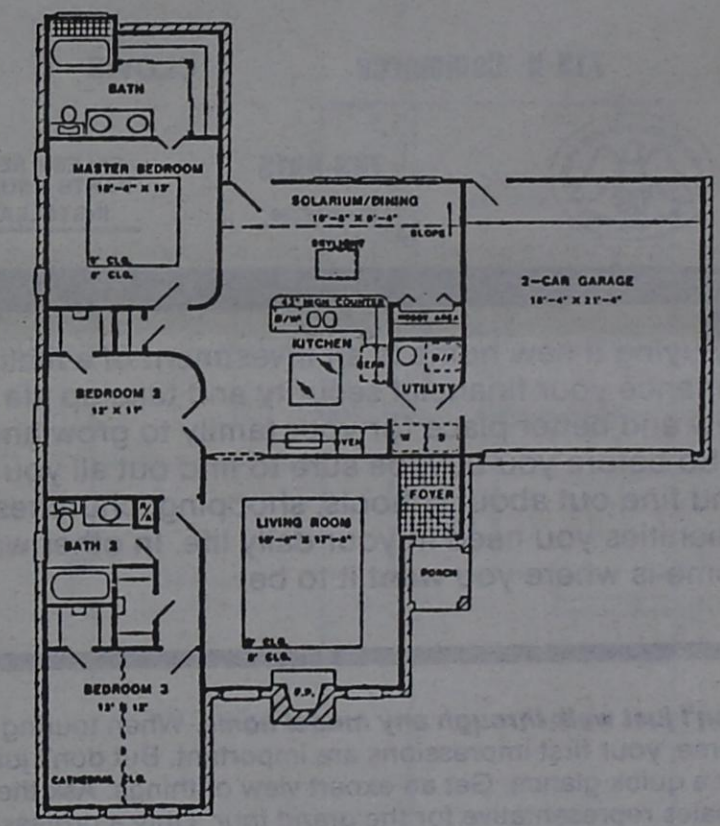

The pride of the Building Contractors Association Parade of Homes is at 809 Rosewood. Built with distinct quality by Frank Muse Construction, Inc.. Many special features like central vac, ceiling fans, wall paper, automatic garage door operator, and beautifully decorated by Linda. You just wont believe your in a home less than 1700 sq. feet heated area.

With 20 years experience building homes, Frank has a special design just for you and at a price you can afford.

A special thanks for another superior job to our fine subs and suppliers who helped make this a great Parade of Homes: Myers Electric, Hankins Plumbing, House of Carpets, Lynch Bros. MOTT'S VENETIAN BLINDS AND CLOVIS TENT & AWNING

1985 IS THE LAST YEAR FOR FEDERAL & STATE INCOME TAX CREDITS ON SOLAR UNITS

Buying a new home is an investment of a lifetime. It's an opportunity to enhance your financial security and take up life in a new community. It's a new and better place for your family to grow and prosper.

So before you buy, be sure to find out all you can about your new home. And find out about schools, shopping, churches, recreation and all the amenities you need in your daily life. In other words — make sure your new home is where you want it to be.

**Don't just walk through any model home.** When touring a new home, your first impressions are important. But don't just settle for a quick glance. Get an expert view of things. Ask the builder or a sales representative for the grand tour. Only a professional can point out the whole range of features that make a new home special.

And don't be afraid to ask questions. You'll be glad you did because —

**They don't build 'em like they used to. They build them better.** You can see it for yourself. Over the past 10 years or so, America's housing industry has been on the move — refining traditional building crafts and introducing new techniques to provide you with the most your money can buy — energy performance, comfort, style, easy maintenance and so much more.

Today's new home is a marvel of modern engineering and technology. In almost every respect it performs better than its counterparts of only a few short years ago.

**Today's new home is rooted in the values home owners prize most.** It also reflects some important new concerns. For example, energy. Starting at your new front door, today's new homes save energy like never before. Walls, ceilings, windows and the foundation are better insulated. Innovative devices, such as heat

pumps, cut heating and cooling bills significantly. Energy-efficient appliances in the kitchen and elsewhere in the home are designed to keep your monthly utility bills as lean as can be.

**If it's a new home, it's a better buy.** Following the high inflation years of the 1970s, affordability became the watchword for the housing industry. Consequently, today's new home provides more for your dollar — whether you're buying a first home or climbing up the housing ladder. New homes waste less space. They offer greater visual appeal. And traffic patterns are geared toward meeting the needs of a variety of modern lifestyles. The slow inflation of the past few years is an extra dividend for home buyers who are looking for good value in today's housing market. Add in today's favorable interest rates and mortgage plans, and it's a buyers' market!

**It's not hard to find what you're looking for in today's new homes.** But if you don't find exactly what you want, sit down and talk to your builder. If a detail is missing, your builder may be able to work things out to your satisfaction. He may be able to offer some suggestions. Remember that your builder is one of your most important resources. He can provide you with a wide range of services because he's ready to stand by his product every step of the way.

# The heat pump is the most efficient way to heat and cool your home.

Dining area has 6 feet atrium door with twin 3' 3" colonial type window. It has a large covered porch leading to front entry and a large patio off dining area. It is heated and cooled by energy efficient electricity.

**DIARY of a mad "Home Builder"**  
or The Perils of Do-It-Yourself Home Building

**April 1 (Fool's Day)** — My banker was very friendly. Said he wished I would get a builder because I didn't know what I was doing. Best rate I could get was 11% because I was too marginal with no experience. Also said I'd get the money in stages after I showed proof of payments to subs. What nerve! I didn't realize there would be this much paperwork. Missed three hours of work.

**April 26** — Took 25 days to finally agree on house plans. Never dreamed there were so many details. Discovered that my wife is a very nasty person. Think I'm getting a nervous condition.

**May 4** — Finally swung the deal on the lot. The developer said "take it or leave it!" Said the builders buy several lots at a time and that's why they get discounts and that I didn't qualify. I know I paid too much but I'll easily save enough to offset it later. He didn't show me much respect.

**May 6** — Somebody's going to pay for this on election day! You need a Ph.D. just to fill out all the forms for permits and licenses and to go to all the various government offices. There was less red tape when I joined the Navy. Somebody will pay. Missed 5 hours of work.

**May 7** — Staked out my lot as best I could. I didn't have one of those tapes, so I just stepped it off. Wonder how builders square the house on the lot? I guess it's no big deal.

**May 8** — Met excavator in early a.m. He said only a fool would build a basement on that lot. Too low! I let him know in no uncertain terms that it was my money and to dig. He was grinning when I left for work.

**May 10** — The excavation was filled with water. I told him to fill the damn thing back up and I chalked my loss up to "experience." I'm a nervous wreck.

**May 11** — The foundation guys told me it would be at least three weeks before they could get to my job. They had to take care of their builders first. I hate delays.

**May 12** — The lumber man said that I could qualify for discounts as soon as I bought at least \$250,000 worth of materials. I told him that was discrimination. He agreed. He also would not guarantee any prices because lumber prices were fluctuating almost daily. Told him I wouldn't stand for that kind of treatment and would shop around. Missed two days of work getting bids. Returned to original lumber man and signed up. He said due to back-logs it would take five weeks to deliver. I told him that was a hell of a way to run a business.

**May 15** — When the framing carpenter told me his price, I told him to go to hell. Told him there were good doctors not making his kind of money and that there were plenty others where he came from.

**May 24** — Hired original framer.

**June 2** — Foundation men showed. Had a fist fight with the foreman who called me an idiot. He said that builders order their own blocks and I told him he should have brought his own. He beat me half to death. Missed three days of work due to stitches and bruises. Had to re-schedule everything. Those subs are mean.

**July 11** — Lumber finally came. Called framing carpenter and he said he had to frame a house for one of his builders first. It would be about three weeks. I kicked my dog for the first time.

**July 12** — Most of the lumber was stolen. Insurance company very cooperative. Lumber man said it would take about four weeks to replace

items. Decided not to tell the carpenter for fear he would take another job. I'm sick.

**August 13** — Lumber delivered. Called carpenter and he said the timing was perfect. He would start in four days. One day delay because his daughter was getting married.

**August 17** — Awful tired. Slept in my car on the lot for four nights protecting the lumber. My boss said I didn't look too good. He hoped I would shape-up my work.

**August 18** — Carpenter finally showed. I almost went berserk when he pointed out that I needed a sawbox from the power company or he couldn't run his power equipment. He said I'd have to pay him for as long as it took to get one or he'd have to go to another project. I mumbled, yes, I'd pay. How was I supposed to know about sawboxes? Missed more work getting it scheduled. Decided it's not fun to build a house.

**October 3** — Structure looks beautiful. At least it will be closed up for oncoming winter. Neighbor told me the house looked off-center on the lot. I told him to mind his own business and to get off my property.

**October 6** — Roofer fell off house today and was injured. More delays. My wife just keeps nagging. Told her to leave me alone and that I never loved her anyway.

**October 12** — Moved family to a motel. New owners just moved into our house. Thought it would be done long before now.

**October 14** — Noticed red tag on my house. The Building Commissioner explained that the framer had not built according to the code and some small details would have to be corrected. I told him I was "big" in the party and I wouldn't stand for this and neither would my friends in high places. He urged me to continue my political involvement and to make the corrections or no more construction.

**October 14** — Had some terse words for carpenter, but didn't know what to tell him to correct. Told him to work it out with the inspector. Felt like a fool.

**BIWEEKLY MORTGAGES OFFER NEW ALTERNATIVE  
FOR COST-CONSCIOUS HOME BUYERS**

As the nation's home finance industry becomes increasingly sophisticated, more and more new mortgage alternatives are being made available to home buyers.

One of the newest, which is already very popular in some areas, is the biweekly mortgage.

These mortgages allow borrowers to build equity quickly and pay off their loans in far less time than the conventional 30 years. They also cut total interest payments over the life of the loan in half.

With the biweekly mortgage -- as the name implies -- home buyers make payments every two weeks for a total of 26 payments each year. Each payment is about half the size of a normal monthly payment and buyers are qualified as if they were taking out a conventional 30 year mortgage.

The process may sound simple. But the results are dramatic.

For example, a \$75,000, 30 year mortgage at 13.5 percent would require a monthly principal and interest payment of \$860. Over the life of the loan, the buyer would pay a total of \$234,262 in interest.

But if a borrower paid \$430 every two weeks, he would pay off his loan in 17.5 years, having paid a total of \$121,576 in interest. That's a savings of 48 percent or \$112,685 in interest charges over the conventional monthly mortgage payment method.

As rates go down, however, it takes longer to pay off a biweekly loan and the interest savings are less. For example, at 8 percent interest it takes 22 years to pay off the loan and interest savings total about 34 percent.

The biweekly mortgage has been popular in Canada for several decades and is reportedly popular in the parts of the United States where it is offered.

Most of the lenders now offering the biweekly loan are located in the Northeast. However, its popularity is spreading and two secondary market lenders, the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation are studying which options to offer when they begin their biweekly buying program this year.

In addition to its appeal to the borrower, the biweekly loan is attractive for lenders. Payments are automatically deducted from the buyer's checking account to save on paper work and collection problems. In addition, the mortgages offer safety of principle, increased cash flow and shorter maturities which are important in a climate of changing interest rates.

Recently a Pennsylvania lender started offering the country's first biweekly Adjustable Rate Mortgage (ARM), a one-year ARM based on the interest rate on one-year Treasury bills. It has payment limits and limits on how much the interest rate can increase or decrease over the life of the loan. Borrowers qualify for the new loan based on the initial interest rate. They will pay off the biweekly ARM in about 20 years.
