### A Community Problem Requires Community Action

The struggle between big businesses and our representatives is not over by any means. At first hand, the problem seems simple. Our community is not happy with the telephone service we're getting, and the community with which we do business sincerely wants to remedy this. There are intelligent, objective men on both sides, and this is a help to the problem.

When our needs and wishes are put on paper, the problem grows more complex. We want what the phone company says they do not have to sell. They work hard to give us better and better service which is not suited to our needs or desires. They try hard to expand the outlets which are of little or no use to us. They want to help, but federal law prohibits them from doing what they and we would like to do.

The two areas we need as a basic part of our service are not controlled by Mountain States Telephone Company. Pleasant Hill and South Clovis exchanges are leased by the company from the RTA, and Mountain States cannot furnish the money and equip-

ment to put these exchanges on our local system.

Why not deal straight with RTA? Let's face the fact that, in the eyes of RTA, we are small potatoes. The managers of RTA must necessarily deal with "dollars and sense," and the return on an investment of the nature required to tie in our community with South Clovis and Pleasant Hill would not, could not justify the expenditure.

A big mistake was made in the past by not tying in the lines when they were first installed. It would have been cheaper to do this then.

There's no use crying now about mistakes made in the past, and there's no good reason to drag out names of those who may or may not have been responsible.

Now, we are faced with a double-barreled problem. The RTA will not do what we wish for pecuniary reasons, and Mountain States is not in position to do so, even if they could make the change-over profitable.

Two things are evident at present:

We do not need ALL the service which Mountain States

offers us.

We do need the free use of lines which we do not have now and see no immediate chance for in the future.

Mountain States has been trying for three years to deal with the RTA in this matter, without success.

This newspaper is not partisan to one side or the other. We want exactly the same things as thinking men on the city commission and on the phone company's payroll want—precisely what this city is entitled to, no more and no less.

If we wish to burden ourselves with higher and higher phone bills for services which we do not use, we can, for this is in our power.

If we wish to hamstring ourselves with toll calls to our own trade area and Clovis as well, we can, for the phone company would go along with a decrease in rates in such a situation.

We face a problem with no simple answer, and there is no button to push to find the answer. Again, we must look to the future and decide what will be best for those living in the town 20 years from now.

## County Salaries Set

With salaries, bills, proclamations and proposals flying thick and fast, the Commissioners Court had a lively meeting this month.

The Gordon Duncan road petition was accepted, the jury dismissed, and the road was ordered open.

Glen Underwood was allowed \$150 for crop damages in relation to F-M 1731. Funds came from the right of way allotment.

Clarence Knight, Mrs. Zola Cranfill and G. Cranfill were accepted and authorized as Public Weighers for Precinct 2, while Billy Dollar was named to the like Precinct 1 position.

The Panhandle & Santa Fe Railroad was allowed \$110.26 from the right of way fund for flagging for a machinery crossing tract on the new F-M 1731, near Lariat.

Salaries for the year were set at the last meeting. They are:

County Commissioners (each)	\$1800
Travel Expenses (each)	600
County Judge	3000
County Treasurer	3000
County Attorney	3000
Sheriff	5000
Deputies: Bovina	3600
Farwell (Office)	1800
Friena	3600
County and Dist. Clerk	4350
Deputies (each)	2700
Justice of the Peace, Precinct 1	1200
Justice of the Peace, Precinct 2	1200
Auditor	700
Veterans' Service Officer	1200
Agricultural Agent	2200
Travel Expense	500
Home Demonstration Agent	2200
Travel Expense	500
Tax Assessor And Collector	4350
Deputies: (each)	2700
Secretary	2200
Health Officer	525
County Brand Inspector	900
Custodian	3600
Court Reporter	1416
Secretary to Dist. Agent	415

The above salary schedules apply to county funds only. The county and home demonstration agents and the county judge (as ex-officio school superintendent) receive supplemental salary from state and federal sources.

## Sports Scoreboard

bob clendennen

High ranked teams are falling thick and fast in the district, and Farwell is resting in third place going into the district tournament in Friena next week.

Sudan upset Morton Tuesday night, winning the victory and a share of the lead by one point in Sudan. Previously, the teams had met in Morton, and the high-flying Indians whipped Sudan by the same one point.

Farwell's Coach Calvin Murray believes that Morton can beat Sudan on a neutral court. Discussion runs both ways, and half of the necessary percentage to get to the state finals rests on the outcome of the play-off game between the two teams Friday. The time and location of the game have not yet been made public.

Before the tourney, the season records look like this: Morton and Sudan are tied for first, Farwell and Friena are tied for third, and Springlake brings up the rear. However, Friena has agreed to forfeit a play-off to Farwell, and Farwell now holds down third.

In girls' basketball, the Farwell team ended its regular season play in another tie... with Springlake, for fourth.

Leading the league in this division is Friena, with Sudan, and Morton, following the leader.

winner to take on Lazbuddie in the quarter-final girls division. The final game of the district 3-B girls meet is scheduled for Friday at 7 p. m.

Boys go to bat before girls at the Lazbuddie tourney. Vega meets Bovina boys at 4:45 p. m. Tuesday, with the winner to play Nazareth Thursday at 8:15. The second bracket shows Adrian meeting Lazbuddie Tuesday at 8:15, the winner to meet Happy.

Champs of the two brackets will clash at 8:15 p. m. Friday to discover the number one team of the district.

Look for close games all over the place at the tournaments. See you there.

Ann Hadley and Marty White will carry the crown. They are the children of Mr. and Mrs. John Hadley and Mr. and Mrs. Murray White.

The band will provide the setting and music for the coronation. The first number will be "Drums and Bugles" played in the regular band formation. They will then form a line the length of the gym and play a fanfare before making an aisle down which the sweetheart will be escorted by the drum major and the majorettes, Anita Moss, Connie Tharp, Beth Ellen Peyton, and D'Rene Danforth. "O Promise Me" will be played while they are in this formation.

The third formation of the band will be a bowl in the center of which the coronation will take place. The band will play "My Wild Irish Rose."

Fred Danforth is director of the band.

Mr. and Mrs. Cecil Dykes of Clovis and Mr. and Mrs. Homer Dykes went to Sudan Sunday for a family gathering. The occasion was a farewell party for Don Dykes who is leaving soon for the army. He is a grandson of the local couple.

### Band Sweetheart To Be Presented At Texico Friday

The sweetheart of the Texico School Band will be presented at the last home basketball game of the season Friday night.

Christina Bowers, a sophomore, was chosen for the honor by popular vote earlier in the year. She will be crowned by Bobby Patterson. Flower girl for the ceremony will be Lou

## Texico Sets Scoring Record

Compiling their largest point total in history, Texico's Wolverines moved into second place in the District 6-B standings last Friday night by trouncing the Causey Tomcats, 86-54.

The Wolverines took the lead early in the game, and except for seeing their lead dwindle to eight points in the third period, they coasted to the win. The first per-

iod score was 20-8 and by halftime the score was 41-25. The Tomcats quickly narrowed the margin early in the second half, but a late quarter surge gave the home team a 66-45 lead going into the final frame. At that point, Coach Paul Frederick cleaned the bench and only reserves saw action in the final period.

Buddy Spears, leading Texico's fast-break express, con-

ducted for 20 points during the three periods he was in the game. Taking scoring honors for the contest was Causey's Bill Brakebill, with 26. Brakebill is the district's leading scorer averaging 20 points per contest for the season.

By winning the game, the Wolverines now have a 6-3 record in district play, second only to Ft. Sumner's 5-1, and to hold on to the second placing standing, Texico will have to win both of its games this weekend.

Floyd comes to Texico for a Friday night game and then on Saturday night the Wolverines go to Elida for a clash with the team which is contesting them for the runner-up slot. Currently, Elida's record in the district is 5-3 and the Tigers have three district games remaining before the tournament, which will decide the champion and representatives to the state playoffs.

This week's games will be the last district meetings for Texico before the tournament. Next week the team leaves on its annual road trip. During the weekend journey, the Wolverines face Capitan and Santa Rosa.

The following week the district tournament is slated in Portales.

### Director Reports On Research Farm To Twin-City Lions

Dr. Thomas Longnecker, director of the Texas Research Foundation Farm at Halfway, presented the program for the regular meeting of the Texico-Farwell Lions Club Monday night.

Following a dinner at the City Cafe and entertainment by a group of Texico High School students, Dr. Longnecker showed a film in the Farwell school cafeteria.

Made at a September 14 Field Day at the Farm, the film documented the work done at the station. Supported by industrial and agricultural interests, the research station emphasizes experiments with cotton, grain sorghum, soy and castor beans as well as other crops.

Dr. Longnecker pointed out in his commentary that the past year was definitely not a normal agricultural year, but that foundation personnel felt that a great deal had been accomplished at the station since its beginning a little over a year ago.

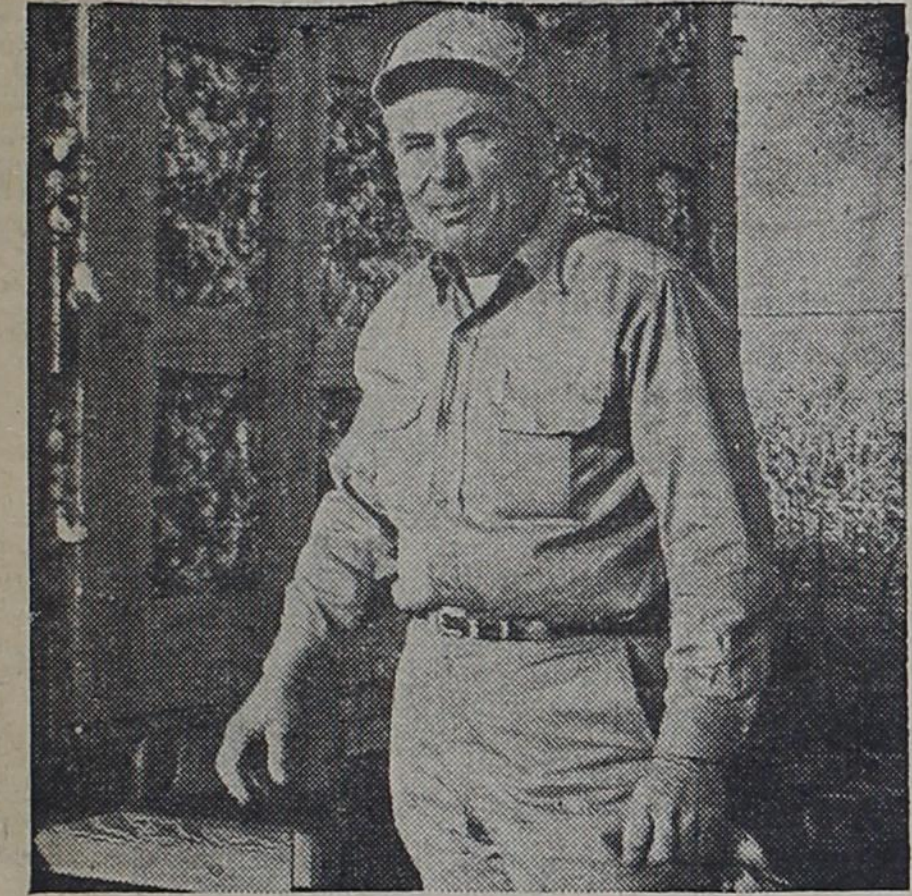

Appearing in the first portion of the program were Allen Hale, who presented accordion music, and vocalists Gale Hadley and Connie Tharp, accompanied by Peggy Teel. Miss Teel also accompanied a boys quartet—Leslie Dyer, Glendon Moss, Michael Trower and Dwight Turner. Other numbers were a song by Judy Lovett, accompanied by Lynell Lovett, and an acrobatic routine by D'Rene Danforth.

### Teachers Attend County Meeting

Some 20 Farwell teachers were among 100 who attended a County Teachers Association banquet in Bovina last Thursday night.

Guest speaker was E. L. Galvan of Austin, Texas State Teachers Association president. He covered the activities of the Grass Roots Study Committee composed of six representatives of each school district which will scrutinize four areas of school improvement—school constructions, finance, teacher supply, and curriculum.

Decorations on the tables at the salad supper followed a Lincoln's birthday theme and were arranged by home economics classes at Bovina School.

### Plainview, Tex., Man Reports—"I Got a 2,000-lb.-per-acre Increase on 575 Acres of Grain Sorghum."

Lem Brock, of Plainview, Tex., says: "I put down 100 pounds of Phillips 66 Agricultural Ammonia on 575 acres of irrigated maize land, and got an average of 2,000 pounds of grain increase per acre. I also put down 100 pounds of Phillips ammonia on castor beans and got an increase of 500 pounds of beans per acre. Also, by using Phillips 66 ammonia I got 1 1/2 bales of cotton to the acre in an unseasonable cotton year."

Other Southwestern farmers have discovered that the 82% nitrogen in top quality Phillips 66 Agricultural Ammonia helps them to get more profit per acre, through higher yields and lower production costs.

They have found that, by using Phillips 66 Ammonia, they get more cotton that grades out higher at the gin; yields of grain sorghum grain and ensilage are increased; more marketable vegetables are harvested, and profits on wheats are increased through better forage, and higher yields of grain.

See your Phillips 66 Agricultural Ammonia distributor about profitable Phillips 66 Agricultural Ammonia, the 2% nitrogen fertilizer.

# CHEVROLET IS LOWEST PRICED OF THE LOW-PRICED THREE IN THE MODELS MOST PEOPLE BUY!

Chevrolet is by far the newest, nicest car in its field—the only one that's new from ride to roof. And in the models most people prefer, Chevy costs you less than the other two low-priced cars.\*

Chevrolet does more for your dollars than any other car in the low-price field. Even the lowest priced models share in Chevy's unique new beauty and costly car feel.

Every Chevrolet's a full nine inches longer—lower and wider, too. When you hitch these new dimensions to any of Chevy's new engines, you've got a big serving of spirited action.

See your dealer to find out how little Chevy's brand of fun will cost you. You get more for your money in every model—and Chevrolet is the lowest priced of the low-priced three in the models most people buy!

Only franchised Chevrolet dealers

Nature is a mutable cloud  
which is always and never the  
same.

Parmer County farmers occasionally make use of the time-saving features of air travel to assist them in their business operations. This is a picture made at Harlingen in the Lower Rio Grande Valley, a stop-over point for a group which flew to Mexico last week to inspect seed production. Shown are Elvie Jennings, F. W. Holcomb, Bruce Parr, Dalton Caffey, Wayne Garth, Truett Johnson, Doyle Shearer, and Roy Botkin.

**NEWS FROM THE FARM BUREAU**  
By RAYMOND EULER

Jack Patterson, vice-president and membership chairman, has more people buzzing around getting ready for a county wide canvass for Farm Bureau members than we have seen in quite a while. Unless we miss our guess membership will exceed 600 by victory meeting time, March 3.

President Kaltwasser and all the other officers and directors are giving full assistance where and whenever they can. The kick-off banquet, which is reserved for invited workers and guests, will be in the Farwell School Cafeteria February 24. The following Monday night will find the workers gathering in the Friona School Cafeteria for their victory reporting meeting. These meetings are two of the most interesting and lively meetings of the year held in the interest of agricultural people.

Everybody who has spent time in studying and working for improved agricultural situations knows that there is no single, simple solution to the problem. They also know there is no permanent solution to the problem, just as there is no permanent solution to other problems of great magnitude in America or the world.

America has stood, and will continue to stand, as a bulwark to freedom so long as she continues to produce men and women who are willing to face the facts and give themselves for a better America. From there, as in the past, better conditions can be made possible for other parts of the world.

There is no possibility of a successful compromise with "One World" government ideas unless we are willing to drag the better governments and their peoples to the levels of the poorest. We don't believe anyone who has enjoyed American citizenship is willing for this to happen. It is much better to be in a position to give assistance, rather than to have to ask for it, especially if there should be no nation able to give such aid.

Consider this: For three things the earth is disquieted, and four which it cannot bear: For a servant when he reigneth; and a fool when he is filled with meat; . . . Proverbs 30:21-22.

Voice: "Yes. This is the second hand store."  
Goofy Gus: "Well, I want one for my watch."

**HD Council Picks Delegates**

The Parmer County Home Demonstration Council met Monday afternoon in the district courtroom at Farwell. There were 17 members and five visitors present, with nine clubs represented.

Club reports were given for Black, Bovina, Friona, Hi-Point, Hub, Lakeview, Northside, Rhea, and Oklahoma Lane.

Recommendations for the standing committees of THDA were voted on and adopted.

Maxine Price, Elizabeth Carmichael, and Loretta Brookfield were elected as delegates to the district THDA convention to be held in Stratford on April 10. Alternates are Canevah Turner, Mary Bandy, and Helen Fallwell.

A lampshade workshop will be held in the American Legion Hall in Friona on February 19.

**Political Announcements**

The following political announcements are made subject to action of the Democratic Primary of 1958:

**For State Representative, 36th Legislative District**  
JESSE OSBORN  
(Re-Election)

**For District Attorney, 15th Judicial District**  
BILL SHEEHAN

**For County Attorney**  
HURSHEL HARDING

**For County Treasurer**  
MRS. MABEL REYNOLDS  
(Re-Election)

**For County Judge**  
A. D. SMITH  
(Re-Election)

**For County and District Clerk**  
HUGH MOSELEY  
(Re-Election)

**For Commissioner, Pct. 2**  
CHARLIE JEFFERSON  
(Re-Election)

**C. L. CALAWAY**  
VERNON ESTES

**For Commissioner, Pct. 4**  
GEORGE CRAIN

**For Justice of Peace, Pct. 1:**  
J. R. THORNTON

**For Justice of Peace, Pct. 2:**  
WALTER LOVELESS

**MAKE PLANS**  
To organize for action with your neighbors.

**MAKE PLANS**  
To be at the Parmer County Farm Bureau Workers Kick-Off Banquet Monday Night, February 24, in Farwell

**MAKE PLANS**  
To make this the biggest Farm Bureau year in history.

Here the men go into a field of Texas Hybrid No. 610 to look over test plots near Tampico, Mexico. Growth such as is indicated here is obviously possible only in greenhouses at this latitude—considering weather we have been having of late. In this picture are Caffey, Johnson, Holcomb, and Parr.

Phoenician tombs estimated to be 3,000 years old have been unearthed by heavy construction machinery at Rota, Spain, where the U. S. Navy is building a modern air-sea base.

**Four County Men At Bureau Meet**

Four Parmer County Farm Bureau leaders left for Austin Wednesday to attend the annual membership chairman's rally there on Thursday. Leaders from all organized counties in Texas are meeting to map plans for securing the state quota of 80,000 members. Membership at the close of 1957 was 72,500.

Attending from Parmer County are Jack Patterson, county vice-president, from the Rhea community; J. D. White and L. F. Bruns, director, from the Lazbuddie community; and M. T. Glasscock, director, from Farwell.

The men plan to return Friday. Parmer County's Farm Bureau membership drive will begin following a kick-off banquet for workers in the Farwell School cafeteria on February 24.

Others making the trip were F. W. Holcomb, Truett Johnson, Doyle Shearer, Dalton Caffey, Bruce Parr, and Wayne Garth. On the way down they stopped at Uvalde and Brownsville. On the return trip, stops were made at Brownsville, Harlingen, Uvalde, and Big Spring.

The round trip was about 1900 miles by air. Reports indicate that the men were favorably impressed with growing conditions in the section of Mexico they visited.

The weather was nice and fishing was fair. The four fish which were caught weighed about 40 pounds and were tarpons and yellow-tails.

Dr. Hammet, of the French Atomic Energy Commission, is one of these who are worried about the radioactive waste left over from new atomic activities. He suggests that radioactive waste, a potential menace to public health, may be put out of the way at the bottom of the ocean, at the poles, in the deserts—or in space by means of man-made satellites, the World Health Organization reports.

**Parmer Counties Inspect Test Plots**

Six Parmer County farmers, who have plots of hybrid maize growing near Tampico, Mexico, spent several days last week inspecting the plots and fishing in the Panuco River. They made the trip in two planes which were piloted by Elvie Jennings of Friona and Roy Botkin of Summerfield.

**A Few Decades Past . . .**

**A NEWSPAPER WAS A RARITY IN MANY AMERICAN COMMUNITIES!**

Then—a newspaper was a thing to be marveled at—for memories of the Press' fight for freedom were fresh in mind. Although newspapers are common in our country today, their existence should not be taken for granted. It is a wonderful fact that almost all of our modern communities have their own hometown newspapers, freely edited by members of their own communities—spreading the news, stimulating the business of the community, and keeping their readers informed of important events elsewhere. It is well to keep in mind that a free press and a free people are an unbeatable team.

**Cecil Osborne Joins Parmer County Farm Supply**

Cecil Osborne has joined Parmer County Farm Supply in Bovina. He will be working with the firm as salesman and clerk, and his association with the farmer's supply business marks an expansion in personnel to better serve the farmers of the county.

Parmer County Farm Supply is a relatively new business, having been established in the month of June, 1957.

Products handled include fertilizer, wet and dry, several lines of planting seed, a complete stock of fan belts and small accessories.

Bud Crump, Osborne, Ike Will, Doris Strawn round out the staff of the business. Your needs for items that the business handles will be given prompt attention. You are sure to enjoy dealing with—

## West Texas Man Jailed For Forgery

C. L. McQuarter, a former resident of this area, was arrested and placed in confinement Tuesday by Sheriff Charley Lovelace.

The sheriff said that he received a grand jury indictment for the man, and that McQuarter had just arrived in town Tuesday afternoon. He was picked up that evening.

McQuarter is charged with forgery, and will stand trial in a couple of weeks.

## Talent Show Entries Total 30

(Continued From Page 1)

Blair, Anthony Rundell, Diane Lovelace, Carolyn Langford, Johnny Schell, and Leslie Cooper.

Among those competing in the high school division are the Silhouettes, girls' sextet, Delvin Langford, Johnny Armstrong, Jerry McCuan, Karolyn Parker, L'Orchid Latham Johnson, Mary Anne Hardwick, Phillip Berry, Gerald Christian, Larry McDorman, and Joe Hughes.

Out-of-town entries include the Larry Hicks Jazz Band from Muleshoe, Sandy Bell of Clovis, Allen Hale, and Verda Wilson, Texico.

Proceeds from the show will be used for the class trip later in the year.

## Schools Will Grow, Bond Issue Passes

(Continued From Page One)

able for use as a gym-auditorium will be undertaken.

Additions to the cafeteria and its equipment will be a vital, though not the most costly, change.

Improvements to the science and home economics departments will make these classes better suited for their purposes.

Addition of dressing rooms to the old gym is one of the sorely needed changes made possible by the bonds.

Finally, the school will purchase 91 lots surrounding the area, in order to be prepared for future expansion.

From November 19, 1957, the Farwell school district was aware of their growing school problems. On that date, the

accreditation division of the Texas Education Agency made the report of the system was submitted to the list of problems. Children did not have enough to do in the buildings had not growing enrollments. Had the school would have been facing the possibility of losing vocational, home and others whose salaries are partially paid by the state. The combined state district is about \$107,000.

**FARWELL FRUIT MARKET**  
Hwy. 70-84 Farwell

Gypsy Trucker: "Jim, you get to travel a lot and see the country. And you net about twenty-five dollars a week. For the life of me I can't see why you want me to give you a raise."

Timid Co-Driver: "Well, for one thing, my children have just found out that other families eat three meals a day."

## No Decision Reached In Phone Squabble

(Continued From Page 1)

tain States needs to make seven percent per year on its investments in order to continue serving the needs of the area. Because of expensive expansion, even in this region, the company must make this amount to, as Latham said, "prevent nationalization of the telephone companies." In a statement of policy issued first in New Mexico and explaining the company's reasons and background for the increase in telephone rates which started the squabble, Vice-President of Mountain States Earl Latham said:

"It takes a lot of money to provide telephone service in this growing state. Since World War II, we've spent eighty-five million dollars to expand and improve service. This year alone, we plan to spend over thirteen million dollars. To do this we must have adequate earnings to maintain our credit standing so that the necessary capital can be raised.

Regulation is designed to see that earnings are sufficient to guarantee continued growth and good service, and at the same time be fair to the telephone user. If politics were to interfere with this process, the purpose of regulation is completely defeated.

The Commission in the past has allowed automatic increases when growth moved an exchange into a higher rate group. There is nothing different about the changes ordered last week from numerous previous changes."

Another big difference in the two states' systems of government came to light when the group discussed ways of gaining an increase in phone rates. In New Mexico, a central committee is the rate-setting body for the entire state, while in Texas, each individual city accepts the responsibility of setting its rates. Mountain States has two lines in Texas: one here at Farwell and another in El Paso.

Because of the differences in law, the local commission had to know exactly what the company was making on the Texico-Farwell exchange. The company vice-president was at a loss to quote the figure. He said that the bookkeeping system of his company was based on a state-wide basis as determined by New Mexico law, and that these facts were not available. Therefore the subject of a raise in rates reached an impasse.

Questions and problems occupied the remaining time.

## ★ UNKNOWN OBJECT SNAPS UTILITY POLE

Sheriff Charley Lovelace said Wednesday that an unknown object, most likely a truck passing through the night before, hit and snapped off a utility pole near the Magness Real Estate Agency.

"Whatever it was, it nearly got Magness' office," said Lovelace. The pole was mounted about six feet from the office.

Wednesday morning the accident was reported. There were cables and guy lines laying across the road which formed a traffic hazard.

No one reported any disturbance during the night. Sheriff Lovelace believes that the mishap occurred because of road conditions. There was ice over the street, and it could have been a contributing factor. There's also the possibility that a driver fell asleep at the wheel, or that he was trying to avoid hitting another vehicle.

## Bond Sale Date Set

Jack Williams, Farwell school superintendent, led the school board in canvassing the ballots cast in Saturday's school bond election Monday night. The board accepted them as submitted.

The issue passed, and with the voters' approval all that remains to be done is to find a buyer for the school bonds.

The date set for the sale of these bonds is February 25. On that date at 7 p.m. the bonds will be offered for sale at Farwell High School.

## Dannheim Rites To Be Sunday In Giddings

Mr. and Mrs. Bill Dannheim and family left Wednesday morning for Giddings, after being notified of the death of Dannheim's mother, Mrs. George Dannheim. Funeral services are scheduled for Sunday in Giddings.

A former local resident, Mrs. Dannheim is survived by her husband; two sons, Herman of Giddings, and Bill; and five grandchildren.

He who gives you fair words feeds you with an empty spoon.

Dublin, Ga., Courier-Herald: "With the current exposes by the Senate Rackets Committee of the squandering of funds paid by union members, the average American must realize that he was the one who paid the money that made these lush funds available. Whatever funds find their way into labor racketeers' pockets are added costs paid by the American public. Whatever wage demands are made by labor unions are paid by the American public."
