

# Farwell School To Begin September 3

JOE JONES, agricultural representative for Security State Bank in Farwell and Ted Magness discuss the importance of cattle feeding operations to Parmer County. Livestock feeding is the largest single industry utilizing Parmer County grain sorghum. Cattle feeding alone on the high plains has expanded at the rate of 35 per cent a year since promotion efforts were initiated by the Grain Sorghum Producers Association in 1957.

Farwell students and teachers are busy this week with last minute preparations for the opening of school which is only a few days away. Registration for students will begin Thursday, August 30, 9 a.m. for freshmen, with registration for sophomores set for 10:30 a.m. and juniors to register at 1 p.m. followed by senior registration at 2:30 p.m. Seventh grade students are to register at 9 a.m. and eighth grade students at 10:30 a.m. on the same day.

Grades one through six are to register on the opening day of school, September 3, 8:30 a.m. All first grade students who have not previously registered, should bring their birth certificate and immunization certificates to school with them at

this time. Busses will run at the regular time on Monday, September 3 and school will be dismissed at 3:30 p.m. School hours are from 8:30 a.m. until 3:30 p.m.

The faculty for the school is complete with the exception of a replacement for Dan Truelove, who recently resigned to accept a teaching assignment at Odonnell. He was assistant football coach and taught high school mathematics.

W. M. Roberts returns to the school as superintendent, and A. E. Tatum will be high school principal, James Craig will replace Cecil Dykes, as junior high principal, Jack Williams returns as grade school principal and Mrs. Georgia Lee Ruddle will serve as school secretary.

Other teachers include Mrs. Janice Dew, Mrs. Elsie Cain, and Miss Glyda Alsbrook first grade; Mrs. Lauretta Pool, Mrs. Vernon Estes and Mrs. Clara Florence second grade; Mrs. Rhea Huffaker and Mrs. Charleen Markham third grade; Mrs. Oleta Ford and Mrs. Hattie Coffey fourth grade; Mrs. Hattie Boling and Mrs. Margaret Kennedy fifth grade; Miss Maude Hicks and Richard Kennedy sixth grade.

Junior high school and high school teachers include Mrs. Lenora Tatum, Bill Mayfield, Eugene Dew, John McGee, Jack L. Markham, Billy White, Mrs. Peggy Woodard, Clyde Powell, Dempsey Alexander, Mrs. Billy White, Robert Morton and Mrs. Phyllis Denton. Mrs. A. C. Clarke will serve as counselor and Mrs. JoAnn Zahn will be visiting teacher, Mrs. Katherine Lockhart will return as school nurse.

Other school employees are Mesdames Mabel Martin, Thelma Black, Jewel Thomas, John Sharum, Mildred Erwin, Hugh Buchtel and Lillie Hughes cafeteria employees and Ernest Black, D. A. Morris and Percy Tipton custodians. Bus drivers include H. R. Crook, foreman, Bobby Actkinson, Danny Joynson, Charles Roberts, Clifford Nicholson and Joe Tom Reed.

### Routine Meet For Texico Councilmen

Only routine business was transacted at the Friday meeting of Texico City Councilmen with two building permits granted, one going to Abelino Cervantez for the addition of a bedroom to his home on Florence St. and one to Ira Selman, to move a house onto his property in West Texico.

An ordinance amending the boundaries of the fire zone was accepted by councilmen and the new boundaries will be state road 108 on the west, the state line on the east, the railroad on the south and two lots north of Wheeler Ave. in block 17-22 on the north.

Signs have been erected on the highway in west Texico stating that the road is police patrolled and the speed limit set at 30 miles per hour.

Juanita Autrey, city clerk, was granted a request for a vacation for a one week period beginning the last week in August. There was some discussion of painting the town hall and the city pump house with no action taken and the matter tabled for discussion at the next meeting.

Several businessmen, who are interested in the Revenue Bond issue are expected to attend the September 7 meeting.

### Little League Football Practice Sessions Start

All boys in the Texico-Farwell area, who are interested in playing little league football, who will be nine years of age by September and will not be 13 years of age by November 1, regardless of grade in school, are invited to attend the practice sessions now underway at the Farwell football field.

Beginning August 27 practice sessions will be held daily until September 7, 4:15 p.m., after which practice sessions will be held three times weekly with the days to be announced later.

Each boy participating is required to furnish his own socks, football shoes and practice jersey. The boys will be playing in the Clovis League this year with two teams to be picked locally; one for nine and ten year olds, and one for 11-12 year olds.

Johnny Green will be coach for the boys and will be assisted by several fathers. He invites anyone who would like to help with the league to contact him or Henry Haseloff, president of the league.

### Band Booster Club Meets

Band Boosters Club, of the Farwell School, met for a short business meeting Tuesday, at the band hall with only a few persons in attendance.

A meeting is set for the Booster Club at the band hall September 5, 2:30 p.m. with the band director John McGee, and Mrs. Walter Kaltwasser, president of the Booster Club, urging all parents of band students, either beginner students, junior high students or high school students to attend the meeting.

Plans will be made at this time for the clubs activities for the coming school year.

### Quarterback Club Meets

Glen Phillips, president of Farwell Quarterback Club announces a meeting of all club members and prospective members following the Varsity scrimmage with Hart, August 31, 6 p.m.

All club members, prospective members and football boys will be feted with a watermelon feed immediately after the scrimmage. Plans for this year will be made by club members following the watermelon feed.

### Jimmy Stallings To Participate In Rodeo

Jimmy Stallings, formerly of Texico-Farwell, will be one of 300 boys now living at Cal Farley's Boys Ranch participating in the 18th annual Labor Day weekend Boys Ranch Rodeo, September 2nd and 3rd, 2:30 p.m. He will be riding in the junior division.

All boys who make their home at the ranch will participate in some phase of the rodeo. Only the best riders will be riding the professional rodeo animals which have been taken to the ranch for the occasion. Boys from five to seventeen, will be competing for honors and prizes by riding calves, steers, Brahma bulls and bucking broncos.

Price of admission for the performances will be 75¢ for children and \$1.50 for adults. All proceeds will go to help the Boys Ranch expansion program.

### Council Members Attend Workshop

Ten members of the Texico High School Student Council accompanied by Mrs. Ruby Doran and A. D. McDonald, sponsors, returned from Silver City, Friday, where they had been in attendance at the state workshop for student council members for the past week.

Several members of the Texico Council were on the program at the workshop with Wayne Hudnall, Texico junior giving the invocation at the general assembly on Sunday.

### PATROLMAN NAMED--

### Highway Patrol To Open Office Here

Carroll Parker will become Parmer County's first resident highway patrolman September 1 when the State Highway Patrol opens an office on the second floor of the County Courthouse.

Parker, 28, will be in charge of covering accidents for the entire county, as well as general patrolling, although units from Dimmitt and Hereford will still help where necessary.

A native of Lubbock, Parker has been a law enforcement officer for more than six years. He has been with the Hereford Highway Patrol office for the past two and one-half years. Prior to that, he was with the force in Lubbock for three years and eight months.

"There will be a few changes in working the county, but mainly we'll just be working it from a different direction," said Parker.

Parmer County has probably more miles of highway than other counties its size in West Texas, mainly because U. S. Highway 60 runs from the southwest corner to the northeast

### Injures Eye

Mark, four year old son of Lt. and Mrs. Royce Dunlap of Ludlow, Ill., and grandson of Mr. and Mrs. Buck Doran of Texico, seriously injured an eye last week when he picked up a knife, with which his mother was working, and fell causing the knife to stick in the ball of his eye.

He underwent eye surgery at Chanute Air Force Base Hospital at Rantoul, Ill., immediately and it is not known at this time whether he will retain the sight in the eye. He is resting well according to word received locally.

### Fish In Colorado

Elmer Teel and son Joe, accompanied by Bill Glenn of Hobbs, Rev. Jerry Hill of Sand Springs, Okla. and Rev. John Hill of Littlefield were on a fishing trip to Williams Lake in Colorado last week. They also fished near Bayfield.

Mrs. Elmer Teel and Mrs. Jerry Hill and son Todd visited in McCamey.

### Farwell Band Rehearsals Begin

Band rehearsals got underway Monday afternoon at the Farwell school with good turnouts for the high school, sixth and seventh grade, and beginner bands.

High school rehearsals will continue daily at 4 p.m. with the sixth and seventh grade students to meet for rehearsals at 1 p.m. on Tuesdays and Thursdays. No practice sessions will be held for beginner students prior to the opening of school, but any parent interested in his child starting band is invited to come by and see John McGee, band director, at the school or at his home in the Aldridge apartments on 4th St.

Melody Coffman will return as drum major this year, being chosen at tryouts Tuesday afternoon, Norvil Howell, Clovis High School band director and Charles Higdon, Gattis Junior High School band director were judges for the tryouts.

Yes, he will pass inspection! say Deborah, Gregg and Brett Hargrove as they join mother, Peggy, for a last minute inspection of little brother, Kevin for his first day in school. Kevin will be a first grade student at Farwell this year. L to R: Mrs. Elmer Hargrove, Kevin, Brett, Gregg and Deborah Hargrove.

REV. BENJAMIN BEDFORD

### Missionary Speaks At Texico Baptist Church

Rev. Benjamin Bedford, from Argentina, will be guest speaker at the First Baptist Church in Texico at both the morning and evening services, August 26.

Rev. Bedford is well known in this area as he pastored churches in north Texas. While in the states on a one year furlough from his work in Argentina he will attend Southwestern Baptist Seminary in Fort Worth to study for his Doctor of Theology degree. He plans to start classes there in early September.

Rev. Bedford and his wife, LaNell, spent a year in Costa Rica, studying the Spanish language, before going to Argentina in 1952, where they have made their home since. They came home to the states for the last time in 1956. He says many are the changes evident in even these few years.

The Bedfords first went to Rosario where they served six years and for the past three and one-half years they have been serving in a new mission field at Comodoro Rivadavia, situated in southern Argentina on the forty-sixth parallel, which is further south than Australia. They have three children David 13, a Texan, Nelda 8 and Nancy two months of age who were born in Argentina. Rev. Bedford is the son of Mrs. Nancy Bedford of Clovis. He will tell of some of the families experiences in Argentina and also give much information of the work now going on there in his messages.

The general public is invited to attend these special services, says Rev. Orvel Brantley, pastor of First Baptist Church, Texico.

### Phillips Receives Masters Degree

Major Carthon P. Phillips, ing exercises and degrees were son of Mrs. Katherine Phillips, conferred by Dr. C. C. Humphreys, MSU president, received a Master of Arts degree with a major in education August 18, from Memphis Farwell High School in 1938 State University, in Memphis, U. S. Armed Forces in the

The graduates were addressed by Dr. Herman E. Spiver, vice president of the University of Tennessee, during exercises.

Melody Coffman, daughter of Mr. and Mrs. E. R. Coffman will lead the Farwell High School band this year. She was chosen drum major Tuesday afternoon during tryouts.

This group of girls are lined up for one last dip prior to the opening of school in the refreshing water at New-Tex swimming pool. Shown are Joi Meeks, standing, Kandy Meeks, Carmelita Doshier and Lana Gay Mahaney, seated. Johnny Green, pool manager, says the pool will be open 4-6 p.m. Monday through Friday August 27-31 with the tentative closing date set for the Labor Day weekend. The pool will be open 1-6 p.m., September 1-2.

BORDER VIOLATED
DAMASCUS, Syria (UPI) - An Israeli armored tractor violated the border demilitarized zone but was driven out by Syrian gunfire, an army spokesman said Wednesday.

Uncle Ray's 'Hot Air'
Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

Miss Short Honored At Autograph Tea
Miss Jaxie Short of Hong Kong, China, was honored at an autograph tea at First Baptist Church, Farwell, last Monday afternoon.

Johnson Family Has Reunion
The Jerry Johnson home, in Canadian, was the scene of a family reunion the past weekend when members of the Johnson family were all together for the first time in two years.

Refreshments of punch and cookies were served and a gift was presented to Miss Short in observance of her birthday which was Tuesday.

Miss Short, accompanied by her mother, Mrs. W. T. Short, and her sister, Miss Eunice Short, both of Shawnee, Okla., left here Wednesday morning for Glorieta, N. Mex. where they will spend a week at camp before returning to their home.

Tuesday she was honored with an informal get-together with relatives to celebrate her birthday at the M. A. Snider home

Guests In Utsman Home

Visiting in the L. T. Utsman home last week were Mr. and Mrs. H. B. McCleskey, and son, Billy Dean of Oklahoma City. The Utsman and McCleskey families were guests in the Calvin Blain home, Thursday, for a chicken dinner.

Mr. and Mrs. Doyle Combs and children of Wichita Falls arrived Friday for a weekend visit in the Utsman home. They were enroute to San Diego where Combs will be stationed with the Marines. Mrs. McCleskey is a sister of Mrs. Utsman and Mrs. Combs is a niece of the two women.

Jerry Don Utsman, who has been attending summer camp with the National Guard at Fort Bliss arrived home Sunday.

Glasscocks Attend Ranch Reunion

Mr. and Mrs. M. T. (Mose) Glasscock were in Seymour over the weekend to attend a reunion of the Hashknife Ranch crew. Glasscock had worked on the ranch in the late 1920's.

They were guests in the home of Mr. and Mrs. Bun Melear in Seymour and on their return home they stopped in Olton for a visit in the home of Mr. and Mrs. Spurlin and children Vicki, Randy and Nina.

Proposed CONSTITUTIONAL AMENDMENT NUMBER THIRTEEN ON THE BALLOT

SENATE JOINT RESOLUTION NO. 6 proposing an Amendment to Article VII of the Constitution of Texas by adding a Section to be known as Section 3-b, providing that school taxes heretofore voted in any independent school district, the major portion of which is within Dallas County, shall not be abrogated, canceled or invalidated by a change in boundaries, nor shall bonds voted, but unissued, at the time of such change, be invalidated by such change.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article VII of the Constitution of Texas be amended by adding thereto the following: "Section 3-b. No tax for the maintenance of public free schools voted in any independent school district, the major portion of which is located in Dallas County, nor any bonds voted in any such district, but unissued, shall be abrogated, canceled or invalidated by any change in boundaries, and the continuation of the levy of taxes after such change without further election in the district involved in such an extension or consolidation of whole districts, providing for an election and the issuance of a proclamation therefor."

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article VII of the Constitution of Texas be amended by adding thereto the following: "Section 3-b. No tax for the maintenance of public free schools voted in any independent school district, the major portion of which is located in Dallas County, nor any bonds voted in any such district, but unissued, shall be abrogated, canceled or invalidated by any change in boundaries, and the continuation of the levy of taxes after such change without further election in the district involved in such an extension or consolidation of whole districts, providing for an election and the issuance of a proclamation therefor."

## Lovett-Range Wedding Vows Spoken In Farwell Church

Wedding vows were exchanged by Miss Vicki Jan Lovett, daughter of Mr. and Mrs. Roy C. Lovett, Texico, and Irby Don Range, son of Mr. and Mrs. John C. Range, Pleasant Hill, in an 8 o'clock ceremony at First Baptist Church, Farwell, Saturday, August 18.

Rev. J. L. Bass, church pastor, officiated at the double ring ceremony. Rev. J. L. King, maternal grandfather of the bride, was to have assisted in the service, but received a broken arm the day of the wedding and was unable to attend.

MR. AND MRS. IRBY DON RANGE

A bouquet of white mums was attached to a large candelabra in the center of the altar setting and was flanked on either side by graduated candelabra. Gold candelabra holding tall white candles centered the vestibule windows and gold candles and streamers marked the back aisles. Parents' aisles were marked with gold candles, and gold and white streamers were featured on these and the bridal aisles. The altar stairs were covered in gold.

Miss Lynell Lovett, cousin of the bride, played traditional wedding selections at the organ and accompanied Rev. Hugh Frazier as he sang "Always" and "Whither Thou Goest."

Attending the bride as maid of honor was her cousin, Miss Patti Kay Nuss of Amarillo. Bridesmaids were Misses Gwinette Lovett, cousin of the bride, and Juanita Range, sister of the groom.

The bride's attendants wore identically styled dresses of gold organza fashioned with square necklines, sleeveless bodices and full gathered skirts. They wore white accessories and carried gold carnations with white lace and satin streamers.

Jesse Lon Range, twin brother of the groom, was best man. Ushers were Don Lovett of Texico, Charles Moore of Lubbock, Rev. Hugh Frazier of Pleasant Hill, Truitt Hardage of Farwell, and Robert Hukill of Lubbock.

Candlelighters were Terry Lovett, brother of the bride, and Susan Souther, cousin of the bride. Timothy Lovett, brother of the bride, was ring-bearer.

Given in marriage by her father, the bride wore a floor length gown of Alencon lace and peau de soie styled with fitted bodice, square scalloped neckline and long sleeves which tapered to petal points over her hands. Seven miniature buttons accented the tapered sleeves at the wrists. Alternate ruffles of satin and lace were featured from the back waist to the hemline of the skirt.

Her fingertip veil of imported illusion was attached to a crown of pearls and sequins and she carried orchids and stephanotis on a Bible covered with lace and satin. The Bible was a gift from her grandfather, Rev.

King. Something old was a gold cross the bride's mother had worn in her wedding, something new was a single strand of gold beads given her by the groom, something borrowed was a gold safety pin she carried for good luck, and something blue was a garter.

The bride's mother wore a dress of blue polished cotton with print over jacket with blue and white accessories. She wore a corsage of white carnations. The groom's mother chose a dress of champagne linen brocade with green and black accessories. Her corsage was of gold pom pom mums.

Fellowship Hall of the church was the scene of a reception immediately following the ceremony.

The bride's table, all in white, was covered with a lace cloth and was centered with a tall three-tiered wedding cake topped with miniature bride and groom. The bottom tier of the cake was surrounded by four smaller heart-shaped cakes. Crystal candelabra held white candles and a crystal punch service was used. The couple cut the cake with a sterling silver knife presented them by the YWA of the church. The bride's bouquet and her Bible completed the table decorations.

Flowers carried by the bride's attendants were used

on the groom's gold and white table which held a silver coffee service. A white and gold cake with two tiers of double hearts joined by wedding bells was flanked by gold candles in silver candelabra.

Serving at the bride's table were Mesdames J. G. Finley of Wellington, Mae Hatch of Amarillo, and Ed Nuss of Amarillo, aunts of the bride, Mrs. Troy Lovett, aunt of the bride, Mrs. Ralph Price of Friona and Mrs. Virgil Woodson presided at the groom's table. Others in the houseparty were Mesdames Joel Tankersley, Herman Gerles, Otis Huggins, R. T. Langston and Hugh Frazier.

For a wedding trip to Taos, Red River and Santa Fe, New Mex., the bride wore a white eyelet dress with black and white accessories and an orchid corsage.

The couple will be at home in the Williamsburg Apartments in Dallas after August 25. The bride is a 1962 graduate of Texico High School where she was active in band and chorus. She was also a member of the National Honor Society.

Range was graduated from Farwell High School in 1956 and received his degree from Texas Tech in 1961. He has served on active duty in the Army reserve and will begin working at Chance Vought in Grand Prairie, Tex., August 27 as an industrial engineer.

Announce Daughters Engagement

Mr. and Mrs. James Robinson of Muleshoe are announcing the engagement and approaching 9 wedding at the Lazbuddie marriage of their daughter, Glenda, to Derrell Jennings, son of Mr. and Mrs. Joe Bates Jennings, also of Muleshoe.

Friends and relatives are invited to attend the September 9 wedding at the Lazbuddie Church of Christ, 3:30 p.m., and the ensuing reception at the Methodist Church fellowship hall.

## Lullaby Shower Honors Mrs. Phil Elliott

Mrs. Phil Elliott, the former Connie Tharp, was honoree at a lullaby shower the past Friday night, at First Baptist Church in Texico, with members of the Golden Circle Sunday School Class as hostesses.

Guests were registered by Miss Judy Tharp, at a table laid with white lace over pastel green and centered with a miniature arrangement of fall flowers.

Mrs. B. A. Kelley and Mrs. F. S. Thigpen presided at the serving table which was laid with white lace over pale yellow and centered with a bouquet of fall flowers. Yellow cake squares, mints and nuts were served with pastel green punch. Crystal appointments were used.

The gift table was laid with white lace over yellow and centered with a blond baby doll in a crib surrounded by the gifts. Mrs. Elliott was assisted in opening the gifts by her mother, Mrs. Ray Tharp and her mother-in-law, Mrs. W. E. Elliott of Clovis.

Attending were Mesdames Claude Dyer, Everett Widener, Donald Callouett, John Wall, Ben Zachrel, Butch Tharp, Fred Danforth, Avis Patterson, Ray Tharp, W. E. Elliott, John Adams, W. D. Howard Jr., Tena Roth, M. E.

## Friends Invited

Friends and relatives of Mr. and Mrs. W. H. (Pop) Spurlin are invited to attend a reception in their home, 604-3rd, Farwell, September 9, 2-5 p.m., honoring them on their fiftieth wedding anniversary.

The Spurlins children will be hosts for the affair.

## Second Son For Glenden Sudderth

Mr. and Mrs. Glenden Sudderth of Oklahoma Lane are announcing the arrival of a son, Sunday, August 19 at 3:29 a.m., in Clovis Memorial Hospital.

The baby weighed 6 lb. 4 1/2 oz. on arrival and has been named John Blake. The Sudderths have another son, Del Ray, two years of age.

Grandparents are Mr. and Mrs. Billie Sudderth of Bovina and Mr. and Mrs. Harvey Alverson of El Monte, Calif. Great-grandparents include Mr. and Mrs. John West of Farwell and Mrs. Lee H. Sudderth of Bovina.

## Elmore-Peoples Wedding Announced

Mrs. Charles W. Elmore, announces the marriage of her daughter, Janet Geneva of Farwell, Saturday, August 18, at 2 p.m. in the home of the bride's mother at 387 North Point Boulevard, Baltimore, Maryland.

Private Peoples is a 1957 graduate of Farwell High School and entered the armed services in November 1961. He is stationed at Fort Holabird, near Baltimore, and is serving as a mechanic with the army intelligence.

The young couple will visit here with relatives in the near future.

VISITOR IN CRIM HOME  
A recent visitor in the J. W. Crim home at Lazbuddie has been Gene McQuary, a nephew of Crim from Ajo, Ariz. He finds the weather here extra nice, he says, since in Ajo at this time of year the temperature stays around 114 degrees most of the time.

**KELLY GREEN SEEDS**  
INC.  
"PAT" PATRICK

If you have land that you are looking for a crop to plant, why not try rye for grazing and harvest? Rye is very hardy and there's almost never any loss due to cold weather. Even less than wheat. It furnishes more grazing than wheat and normally during the grazing season will carry at least three cows where wheat is carrying two.

\*\*\*\*\*

To make rye pasture really tops, try mixing about 20 pounds of vetch per acre. This can be cut to 10 or 15 pounds if you prefer. If you have acreage that is free from wheat and barley, Kelly Green Seeds would enter into contracts on Elbon rye at \$2.50 per hundred for the seed this coming summer. We have certified seed available and will furnish it at our cost. If you are interested, come in and see us.

\*\*\*\*\*

We didn't have much luck trading on shotguns last week, so let's try for something else. We have this week a nice Remington pump 16 that would trade for a 20 gauge. This is an almost new gun and has had the stock cut down for a woman. If your wife has been looking for something to shoot, besides you, try this.

\*\*\*\*\*

Kelly Green Seeds will have plenty of grain storage and we welcome the opportunity to handle any or all of your grain. We will have dryers available, so give us a chance.

\*\*\*\*\*

Would you spent \$2 to make \$160? Most of us would. This is the normal profit on having your seed cleaned and treated. We are ready to get your \$2 for treating and the \$160 should be yours at harvest time.

# HD Agent's Notes

BY MISS ETTIE MUSIL

Here's a change for you for this week. The remainder of this newspaper visit was written by Miss Cella Patton, our junior assistant. Last week she wrote the story about the 4-H Club Bake Show results. This week she has much food for thought and your practice in the following:

1. Time and energy are two of your most valuable resources. The way you use them depends on what is most important to you. Time and energy often will not permit one to do two things and therefore you must choose that which is more important to you and your family. To do more of the things that you want to do, you may need to change the management of your time and energy.

For good management, take what you have and use it to get what you need and want. You may do more work with a given amount of time and energy. You may work a certain amount with less time or less energy or less of both.

Observe and study the way you use your time and energy. Study one job at a time. Break it down into three parts: get ready, do the job, clean up. Study how time, motions, and equipment are now used in connection with the job. For what purpose is the job? Is it necessary? Who does the job? Perhaps the job can be done by family members working together. Would the job be more enjoyable or more comfortable if done elsewhere? Could it be done at a more convenient time or less often?

There is no one best way to do a job. Consider changes or new methods. Study all possible changes or new methods before deciding which method will be best for you to do a job. You might consider changes in posture and body motions or changes in equipment of work areas arrangement. There might be a need of a change in the order of work, in the

finished product, or in the raw materials used. The following MAY suggest ways to simplify the job you studied:

1. Leave out any part of a job you can.

2. Use the best equipment for the job.

3. Work in a comfortable position.

4. Combine jobs or parts of a job.

5. Keep everything within easy reach.

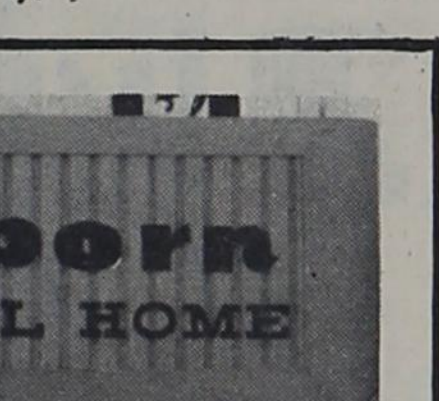

6. Make both hands work. Now you are ready to decide what changes to make in managing your time and energy. Make a plan for putting these decisions into effect. Include the family in decision making and planning. Each member will have a better understanding of what and why plans are made. As well as what jobs will be done, the plan should include who will do them when and perhaps where.

After observing and studying, considering changes or new methods, deciding and planning, take action. Doing jobs in a new or different way may not require less time and energy the first time. It requires practice to develop new skills and overcome old habits. Put your plans into action and give them a fair trial.

Check on the results. Reconsider. Since this is a continuously changing world, why do your work the same way? Better management of time and energy will help you and your family to do the things that you never seem to have time for before.

"An optimist is a fisherman who takes along a camera."

HE WHO TOOTETH  
Two colored men came to the outside of a crowd where a politician was making a speech. "Who am dat man, Sam?" asked one. "Ah doan' know what his name is," Sam replied, "but he sho do recommen' hisself mos' highly."

# County's Annual Soil Tours Get Underway Next Week

The first in a series of four farm tours by the Farmer County Soil Conservation District is scheduled Monday, September 27. For the second year in a row, the annual tours will be divided into four sections.

The first tour August 27 will be in the Farwell area, and the following schedule has been arranged by Soil Conservation District Technician Bob Crozier and County Agent Deryl Coker:

The tour will leave the Oklahoma Lane Farm Supply store at 2 p.m. Farms to be visited include those of Wendal Christian, where a fertilizer demonstration will be seen; Leon Grissom, cattle feeding operation and irrigated pasture; Donald Watkins, grain sorghum variety

demonstration; and Delbert Garner, irrigated grasses.

The second tour will be in the Lazbuddie area August 30, leaving Lazbuddie High School at 2 p.m. Farms to be visited include Truman Gleason, for a view of a farmstead windbreak; John Gammon, irrigated grasses; Gerald Ramage, a lake pump demonstration; and John Littlefield, conservation prac-

tices demonstration. The other two tours, for Bovina August 31 and Friona September 4, are being worked out, and more information will be available on the latter tours next week.

The annual tours wind up with the banquet September 8, at which the "Conservation Farmer of the Year" will be named.

NEWS FROM THE

## FARM BUREAU

BY RAYMOND EULER

John Henderson, Resolutions Chairman, is urging all his committee members and as many other interested farmers as possible to attend the Policy Development meeting in Lubbock Thursday, August 22 at 10:00 a.m. They plan to meet at Cross Roads Cafe in Muleshoe and leave there at 8:30. The meeting place is Holiday Inn.

Bill Wedemeyer points out that if the wheat marketing order referendum is defeated the price of wheat will not necessarily be \$1.21 per bushel, but that is only the support price. Acreage will be the same regardless of the outcome (allotment) minimum of 55 million acres. But if the marketing order is defeated, there will be no cash penalty for overplanting.

We urge that you make plans to attend the public meeting in the Bovina School Auditorium on Thursday night, August 23 at 8:00 o'clock. Mrs. Morris McKillip of Muleshoe will be there with some startling facts of interest to you regarding migrant farm labor. Accompanying her will be Mrs. Kittrell who is also well versed on the subject. Since these ladies will be in charge of the program, we hope to see a large number of farm wives present with their husbands, too.

There is a House passed bill, HR 12391, that is still awaiting Senate action. It would offer wheat producers to retire up to 50 per cent of their allotment and be paid by the tax payers at a rate equal to 50 per cent of production assumed to be curtailed by retirement of the land. Further discussion is expected after Labor Day (Sept. 3).

In case you didn't know, there are 15 major stages in the process of making a proposed bill a law in the United States Congress.

CONSIDER THIS: When a man's ways please the Lord, he maketh even his enemies to be at peace with him. Proverbs 16:7.

## Cotton Market Review To Emphasize Local Conditions

First major change in the 43-year-old weekly cotton market review of Texas and Oklahoma trading has been announced by the U. S. Department of Agriculture.

Emphasis has been shifted from the national and regional level to the local markets in line with general trade practices, points out John L. McCollum, manager, southwest area cotton office, USDA's Agricultural Marketing Service, Dallas.

What happens to cotton in the territory covered by each of the nine cotton classing field offices in the two states will be featured weekly with a table of spot prices for each of the designated spot markets - Galveston, Houston, Dallas and Lub-

bock. McCollum says the name and format of the report have been up-dated to meet the needs of farmers as well as the cotton trade. The report will be titled - "Cotton, Texas-Oklahoma Weekly Market Review."

In addition to information on cotton market conditions and prices, the report will cover crop conditions, insect control, wages for chopping and snapping, costs of machine harvesting and ginning plus other spot news and pertinent facts.

The Review is released every Friday and the complete report is available by mail without cost. Persons interested in receiving the report should direct their requests to Cotton Division, AMS-USDA, Room 404, 708 Jackson Street, Dallas 2, Texas.

GRAIN SORGHUM Producers Association President for Farmer County, A. W. (Dub) Anthony, and Ernest Anthony, who farm north of Friona, inspect a field of milo for insect or disease damage. Through research, the Grain Sorghum Producers Association is making a great headway against new milo diseases of this nature that appear on the scene nearly every year.

## Grain Storage Facilities Need Attention Prior To Harvest

The summer grain harvest in Texas is picking up momentum each week and farmers are reminded that grain storage facilities should be put in first class shape before the harvest begins. C. F. Garner, extension entomologist, says grain should be stored only in bins which have been cleaned thoroughly treated with a residual spray, and treated with a residual spray.

He says all old grain, trash, feed sacks and debris that furnish living quarters for insects should be removed from the bin. A sweep-down of the ceiling and walls and a thorough cleaning of the floor are musts. A good cleanup job around the bins will also help keep down insect infestations, he adds.

Grain storage structures should exclude all outside moisture, and they should be easily accessible for inspection and fumigation of grain. Bins in which grain can be aerated are helpful in cooling or drying grain.

For the residual spray, Garner suggests either malathion (premium grade) or methoxychlor used in a two and one-half percent formulation. The latter is available as a wettable powder or emulsifiable concentrate.

Premium grade malathion may also be used as a protectant on corn and grain sorghum. One pint of 57 percent malathion mixed with 2 to 5 gallons of water is required to treat 1,000 bushels of grain. Sprays may be applied to the grain stream as

it is being unloaded or turned into final storage. The use of this chemical will reduce the possibility of insect damage, Garner adds.

The entomologist explains that only clean, sound grain with a moisture content of 12 percent or less should be stored. Grain with a high moisture content attracts insects, promotes mold growth and may induce heating. Grain, he adds, that is free of broken kernels is safer from insect damage than dirty, cracked grain. Garner suggests leaving adequate space to inspect and fumigate the grain if necessary at the time the bin is filled.

Finally, the entomologist suggests that grain producers visit the local county agent and pick up copies of the latest publications on grain storage problems.

## Farm Facts

Homemakers now demand built-in maid service in the food they buy and it costs them more.

These services include more grading, packaging, processing, storage, and other operations. They have nearly doubled since 1940, according to the U. S. Department of Agriculture.

The USDA says at least half the cost of meals is for preparation and service of food. This includes cost of meals not eaten at home - now at the rate of about one out of every four.

Housewives, of course, are buying freedom from kitchen chores - food with less waste and requiring less trimming, sorting, or washing.

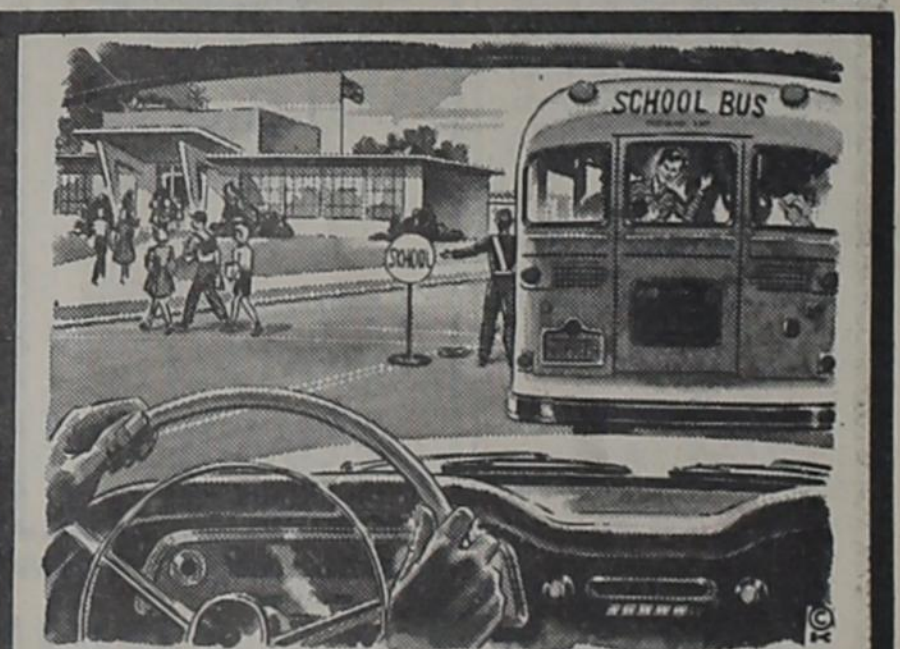

Three ready-to-serve meals, costing \$8.70 for a family of four, could be prepared in the home kitchen for \$4.50.

It would take the housewife about 5 1/2 hours to prepare the home-cooked meals. She would need only 1 1/2 hours, however, for the ready-to-serve meals. In many cases, furthermore, convenience foods save money as well as time.

Enough fresh oranges for a pint and a half of juice costs about 70 cents, compared with about 30 cents for a can of frozen concentrate.

It costs about 41 cents to make a Devil's food cake with mix - including two eggs.

# THE HIGH PLAINS FARM AND HOME

## 1963 Wheat Allotments Announced

Farmer County's 1963 wheat allotments were mailed last week, and are in the hands of the farmers, announced Prentice Mills, office manager of Farmer County ASC.

The acreage for 1963 in the county is 104,076, or 774 acres short of the 1962 figure. This is a reduction of only .7 of one per cent, Mills pointed out.

"Those farmers with small acreages won't even be affected, because of the small fractions involved, although the larger allotments will notice a small change," Mills said.

**Record Savings**  
NEW YORK (UPI) — The Federal Home Loan Bank Board reports Americans' personal savings rose \$8.9 billion to a record high of \$345 billion in the first quarter of 1962.

## Cantaloupe Harvest Picks Up Steam

Harvest of cantaloupes began to pick up steam in Farmer County this week, with three new fields being "broken" on Monday.

By Monday, the market had declined a bit, according to Mario Trevino, office manager of Gateway Produce Company in Bovina, although it simply was a matter of the supply matching the demand for the first time, and he wasn't concerned with the market outlook.

As of Monday, the price for the melons was \$4 per crate. A total of 4,000 crates had been shipped from the Gateway plant.

Before this week, all the harvesting had been done in fields belonging to Tom Caldwell. Three additional fields were broken Monday, belonging to John Lorent and James Boardman.

All the melons picked so far have been of a good quality.

A newly-introduced waterless skin cleaner removes various forms of grime encountered in automotive service while serving to help heal minor cuts and abrasions. It's medicated to help protect against skin disease and infection and is also non-inflammatory.

Containers and soil sample sheets are available in our office.

To get a refund of federal gasoline tax on gasoline used on the farm you must file a claim on form 2240. The claim must be filed no later than September 30, 1962.

Weather conditions and bacterial blight have caused some shedding of small bolls in Farmer County. Bollworms have contributed some to the loss of fruit also.

In areas where bollworms have not as yet posed a problem, it appears that grain sorghums have "absorbed" most of the worm activity. The grain crop often has rather heavy infestations of the worms, either in the buds or heads, depending on the stage of development of the crop.

In order to protect bolls from damage, all cotton should be closely watched for the appearance of damaging infestations. Make insecticide applications as soon as damaging infestations appear.

## WITH THE COUNTY AGENT

DERYL COKER

Mr. V. R. Smith of the United States Fish and Wildlife Service will be in Farmer County September 18 and 19 to give assistance and work on the control of prairie dogs. If anyone in this county has prairie dogs and has not been by the office to notify us and give the dog location, be sure to do so as this will be a good opportunity to get rid of prairie dogs.

Wheat planting time is growing close and many farmers still have not made a soil test. It takes 10 days to 2 weeks to get the results after the soil test is mailed in. The cost of the soil test is \$2.00 per sample. If you plan to fertilize, a soil

test could mean the difference between a profit and loss.

A good soil sample is as important as the soil test. Take soil from several locations over the field and mix them together and take approximately 1 pint of soil from this. The soil should be taken from the top 6 inches of the field.

Next Thursday, August 30, is the day farmers in Farmer County and throughout the nation will go to the polls to decide whether or not to continue marketing quotas for their 1963 wheat crop.

County farmers will have their choice of six polling places, according to Prentice Mills, office manager of Farmer County ASC.

Voting places will be as follows:

Farwell--ASC offices.  
Bovina--Sherley Grain Company office.  
Oklahoma Lane--Oklahoma Lane Farm Supply office.  
Rhea--Carl Schlenker Elevator.

Lazbuddie--Sherley-Anderson Grain office.  
Friona--City Hall.

If two-thirds of the farmers throughout the nation approve the quotas, they will be continued through another year. "Some farmers have been saying they are against government controls. Now is the time to evidence their preference," stated Mills.

He emphasized that the farmers were to vote on the right to plant all the wheat they want to, rather than the price support.

"The main thing," Mills said "is for the farmers to vote, regardless of how they vote."

Last year the quotas carried in the county by more than five to one, or 87 per cent for keeping quotas.

Any person who will be engaged as owner-operator, cash tenant, standing rent or fixed rent tenant, landlord of a share tenant, share tenant or share-cropper in the production of more than 15 acres of wheat for harvest as grain in 1963 will be eligible to vote in the referendum.

The wife of any person eligible may also vote, it was pointed out.

The national average support price for 1963 wheat has been announced as \$1.82 per bushel, or 75 per cent of parity.

Persons who will plant 15 acres or less of wheat will not be affected by the referendum.

The Killgore Foundation of Amarillo presented the Research Foundation with a 104 foot by 40 foot office building, modern laboratory and conference room. Members of the Killgore Foundation's Board of Trustees who will be honored at the ceremony are Chancellor E. Weymouth, A. A. Bush, and W. N. Durham, Jr.

The latest Lord and Burnham 72 foot by 25 foot greenhouse is the gift of the Jim Hill Estate of Hereford. Members of the Board of Trustees of the Jim Hill Estate who will be honored are Joe S. Birdwell,

they want to, rather than the price support.

"The main thing," Mills said "is for the farmers to vote, regardless of how they vote."

Last year the quotas carried in the county by more than five to one, or 87 per cent for keeping quotas.

Any person who will be engaged as owner-operator, cash tenant, standing rent or fixed rent tenant, landlord of a share tenant, share tenant or share-cropper in the production of more than 15 acres of wheat for harvest as grain in 1963 will be eligible to vote in the referendum.

THE CANTALOUPE HARVEST moved ahead this week, as three new fields were broken for the first time. Harvesters in the above photo were picking melons in the James Boardman farm south of Friona, which was begun on Monday.

## Farmers Vote On Wheat Referendum August 30

Next Thursday, August 30, is the day farmers in Farmer County and throughout the nation will go to the polls to decide whether or not to continue marketing quotas for their 1963 wheat crop.

## Research Foundation Sets Open House

Sunday, August 26, is the date for the open house and dedication of the new buildings at the High Plains Research Foundation at Halfway, 14 miles west of Plainview. The open house will extend from 2:30 to 5 p. m. and the dedication ceremonies will be at 3:30 p. m.

The Pioneer Gas Company gave the air conditioning and heating units. C. L. Wall, President, and others will represent the company at the dedication. Jimmy Willson, Jr., Floydada, and David Willson of Plainview presented the acoustical tile for the office building. Others who contributed to the buildings will be honored. Plaques for them and for the first director, Dr. Thomas C. Longnecker, will be unveiled.

A 45 foot flag pole is the gift of Graddy Tunnell, Secretary Treasurer of the Foundation. The Roy Blakemore Post #26 will present the U. S. Flag and conduct the flag raising ceremony.

A large number of friends of the donors and of the Foundation are expected to attend the Open House and participate in the afternoon program.

## FOOTSAVING EDUCATION

by James E. Edwards

### Do Ill-Fitting Shoes Affect Adults' Dispositions?

In an article in Reader's Digest in October 1940 Walter B. Pitkin a professor at Princeton University warns not to read part of the article unless you read all of it.

He tells that leaving Columbia to join the Princeton faculty he felt he had to play tennis because at Princeton everyone plays tennis. He forgot that he was long since 25 and leaping for an overhead shot he came down breaking his arches.

During the long stay in the hospital, then on crutches, he noted that although he loved sympathy when he had a headache, a toothache or other malady, the foot pain made him want to lash out at anyone who came near. He wondered if anything had been published about the effect of foot trouble on one's disposition.

He found nothing published but someone referred him to the President's bootmaker in Washington. From him he learned that Woodrow Wilson suffered torture with his feet. When trying on the handmade shoes Mr. Wilson would sometimes kick the bootmaker off the stool. Many other evidences that Wilson's feet tortured him are cited by Pitkin.

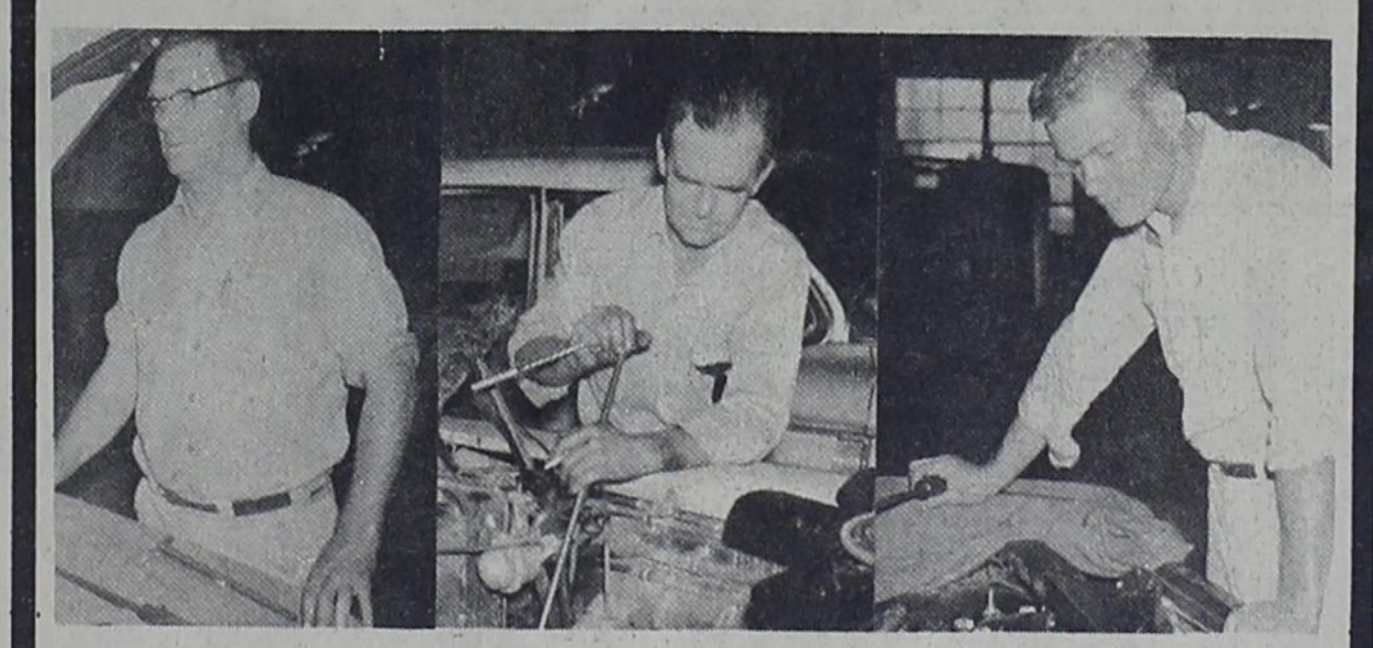

In closing the article Mr. Pitkin suggested that World War II (which was still more than a year off) would never have happened if Mr. Wilson's pained feet had not made it possible for Lloyd George and Clemenceau to beat down the "14 points" and ruin the League of Nations.

Farmers Help Cotton Grade Through Harvest Mechanics

Drink an extra cup of coffee and make money. Does this sound reasonable? It makes a lot of sense to Texans who use mechanical pickers to harvest their cotton and explains why they are in no great rush to start their pickers early in the morning.

The wise farmers wait so that cotton moisture can drop to a reasonable picking level, says B. C. Reeves, extension cotton ginning and mechanization specialist. This waiting can get them a full grade or more when they go to the gin, adds Reeves.

Regardless of how dry the weather, cotton should never be harvested at night nor in the early morning or late evening, explains the specialist. Even on the driest day, he adds, cotton will probably never be dry enough for machine harvest until 8 a.m. or later.

Moisture in seed cotton from humidity may not be seen or felt, but it is there. And, it limits the kind of a job the ginner can do. Excess moisture in cotton usually results in the loss of grade and quality and this in turn can cost the grower \$10 or more per bale, points out Reeves.

The ginner must increase the heat in the dryers to try to get desirable grades from high

moisture cotton. Using more heat increases the danger of fiber quality damage on the bale being ginned and the bale following, explains Reeves. Over drying can result and this makes for the kind of cotton the mills don't want.

How can you know when to start your mechanical pickers? Delay harvesting, advises Reeves, until the relative humidity in the field at boll

height is 60 percent or less. Normally, 60 percent relative humidity is correlated with eight percent lint moisture, he adds. If you don't have a hygrometer or cotton moisture meter, Reeves says to pick a handful of cotton, squeeze it tightly in

your hand and release it quickly. If the cotton fluffs out when released, it is dry enough for mechanical picking. Otherwise, wait and make the test again later. And make the test at several different spots in the field, advises Reeves.

The HAPPY HOMEMAKER

SOIL CONSERVATION DISTRICT NEWS

Most of the nation's land and water conservation job is on privately owned or privately operated land.

Three-fourths of the nation's land area is in private ownership. Sixty percent is in farms and ranches. In addition, since agriculture in the broader sense includes forestry and grazing management, there are the National Forests and Grasslands, administered by the Department of Agriculture, and that part of the public domain used for grazing.

Altogether, the farmers and ranchers of the United States control the use of soil, water, trees and other plants, and wildlife on 85 percent of our land area. Thus, largely under the care of American agriculture are the basic conservation jobs of soil erosion control; water management, which begins with management of the farmland and forests on which most of the water falls; forestry; wildlife (80 to 85 percent of the hunting and fishing and the manageable wildlife habitat is on farms and ranches); and most of the landscape that provides much of the Nation's recreation and can provide a great deal more.

The Department of Agriculture works directly with landowners and operators in cooperative programs with the 50 states to bring about the conservation, development, and management of soil, water, grass, forest, and wildlife resources on private lands and on the forests and grasslands under its administration as well.

These conservation programs include: Research in soils, water, and forestry, much of it in cooperation with State Agricultural Experiment Stations; Educational assistance through the State Extension Services of the Land Grant Colleges;

Technical assistance through the more than 2,900 locally-managed soil conservation districts operating under state law, the Watershed Protection and Flood Prevention Program, and Snow Surveys and Water Supply Forecasts;

Credit assistance through loans to individuals and groups of farmers and ranchers and to local sponsoring organizations of Watershed Protection and Flood Prevention projects; and Financial assistance through cost sharing with individuals and groups in establishing certain conservation practices under the Agricultural Conservation Program, through cost sharing under the Watershed Protection and Flood Prevention Program, and the Great Plains Conservation Program, and through the state forestry departments.

An item, now on the market, which promises to be a great help to homemakers, working girls or school girls is a spot remover. This remover is a solid and comes in tube form. The dispensers are small enough that they will be practical to use at home or away from home.

Most spots on wearing apparel will disappear after being rubbed with this type remover. It is an established fact that spots are more easily removed if they have not been allowed to stay in the material long enough to become set. With this new product we will probably be having a daily session of spot removing.

With school opening just a few weeks away many homemakers are beginning to make school clothing for their children. Materials have never been prettier and since keeping clothes for school simple is almost a must, very little trimming is needed.

Mothers of school girls, whether they be kindergarten or college age, generally have to exercise a great deal of self control in order to avoid over-dressing. All school clothing should be very simple in design.

It seems that even the shirt designers are catching onto the idea of simplicity in boy's shirts. Some of the newer ones have just one or two buttons. This tends to reduce ironing time and then you eliminate much of the replacement of buttons during the year.

If your kitchen is one of those which seems to be constantly running out of one ingredient or another, you will probably want to clip the following paragraphs and store them with your cook books.

If you lack one ingredient or another called for in a recipe, you can make the following substitutions:

For one whole egg, for thickening or baking, you may use 2 egg yolks or 2 1/2 tablespoons sifted dried whole egg plus 2 1/2 tablespoons water.

For one cup butter or margarine for shortening, you may use 7/8 cup lard, or rendered fat, with 1/2 teaspoon salt or 1 cup hydrogenated fat (cooking fat sold under brand name) with 1/2 teaspoon salt.

For 1 square (ounce) chocolate, you may use 3 tablespoons cocoa plus 1 tablespoon fat.

For 1 teaspoon sulfate phosphate baking powder, you may use 1 1/2 teaspoon phosphate baking powder or 2 teaspoons tartrate baking powder.

For 1 cup buttermilk or sour milk, for baking, you may use 1 cup sweet milk mixed with one of the following: 1 tablespoon vinegar or 1 tablespoon lemon juice or 13/4 teaspoons cream of tartar.

For 1 cup fluid whole milk, you may use 1/2 cup evaporated milk plus 1/2 cup water or 1 cup reconstituted dry whole milk or 1 cup reconstituted dry milk plus 2 1/2 teaspoons butter or

margarine. (To reconstituted dry milk follow directions of the package.)

For 1 cup fluid skim milk you may use 1 cup reconstituted nonfat dry milk prepared according to directions on the package.

For 1 tablespoon flour for thickening, you may use 1/2 tablespoon cornstarch, rice starch, or arrowroot starch or 2 tablespoons quick cooking tapioca.

For 1 cup cake flour for baking you may use 7/8 cup all purpose flour.

For 1 cup all-purpose flour, for baking breads, you may use up to 1/2 cup bran, whole-wheat flour, or cornmeal plus enough all-purpose flour to fill cup.

In baking proper measurement of foods is most important. The following measuring hints were copied from Family Fare, which is Home and Garden Bulletin No. 1 printed by the U.S. Department of Agriculture. Measuring foods:

Part of cup—Use tablespoons or the smaller measuring cups—1/2, 1/3, 1/4—for greater accuracy.

Brown sugar—Pack firmly into cup or spoon.

Solid fats—When fat comes in 1 pound rectangular form, 1 cup or fraction can be cut from pound, which measures about 2 cups.

Or measure cupful by packing fat firmly into cup and leveling off top with spatula or straight knife.

Water method may be used for part of cup. To measure 1/2 cup fat, for instance, put 1/2 cup cold water in 1 cup measure. Add fat, pushing it under the water until water level stands at 1 cup mark. Pour out water and fat.

White flour—Sift once. Lift lightly into cup. Level off top with spatula or straight knife.

Other flours, fine meals, fine crumbs, dried eggs, dry milks—Sift instead of sifting. Measure like flour.

For oatmeal cookies that are different and very delicious, try this recipe.

ORANGE OATMEAL ROUNDS 1 cup shortening 1 cup brown sugar, packed 1 egg 2 tablespoons orange juice 1 tablespoon grated orange rind 1 cup rolled oats 1/2 cup raisins 1 cup sifted flour 1/2 teaspoon soda 1/2 teaspoon salt 1/4 cup coarsely chopped nuts Cream shortening and sugar together. Add the egg and beat well.

Mix in the orange juice and grated rind, rolled oats, and raisins.

Sift together the flour, soda, and salt. Combine with the creamed mixture. Add the nuts.

Drop dough by teaspoonfuls onto greased baking sheets.

Bake at 350 degrees about 12 minutes. Makes about 30 cookies.

Gross Farm Income Increases While Net Income Declines

Farmers, like other businessmen, in recent years have increased their gross sales but have received less net income, reports C.H. Bates, extension farm management specialist.

The nation's farmers have increased gross sales since 1945

by 46 percent but their net income has declined more than 9 percent, Bates adds. Gross income in 1945 was \$25.7 billion and production expenses were \$12.9 billion. Net income equaled \$12.8 billion. By 1960, gross income was up to \$37.9 billion but expenses had jumped

to \$26.3 billion, leaving a net of only \$11.6 billion.

Farmers have sought to improve their situation, says Bates, by shifting the inputs or "mix" of production resources. They have substituted machinery for labor. In 1940, U. S. farmers spent \$1.75 on machinery and buildings for each dollar spent on hired help. By 1960, they were spending \$2.77 on these items for each dollar spent for hired labor.

Another effort to boost efficiency is reflected in the amounts spent for fertilizer and lime. By 1960, U. S. farmers were spending 4.8 times more for these items than was spent in 1940. This means a great increase in quantity since prices for fertilizer and lime have increased only 50 percent.

Although comparable figures are not available on farmer expenditures for pesticides and herbicides, the trend has been sharply upward, says the specialist. These inputs have tended to eat down the cost of food to consumers, he adds.

The question is often raised, points out Bates, why do farm units continue to increase in size? A major factor behind the pressure for larger units is the use of machinery and the narrower margin received on products marketed, explains the specialist. Today's farmer must invest three to four times as much capital in fixed assets as was needed in 1940 to obtain net returns on a comparable level and the price-cost squeeze is continuing, he adds.

July Rural Accidents Total Six For County

The Highway Patrol investigated six rural accidents in Farmer County during the month of July according to Sergeant W. E. Wells, Patrol Supervisor of this area.

These wrecks accounted for three persons injured and an estimated property damage of \$6,500.

The rural traffic accident summary for Farmer County from January through July of 1962 shows a total of 58 crashes. As a result of these crashes there were three persons killed and 36 persons injured. The estimated property damage amounted to \$39,775.00.

The familiar yellow school buses will soon be back on our highways. The Sergeant reminds all motorists of the State Law regulating school buses. "The driver of a vehicle upon a highway outside the limits of any incorporated city or town upon meeting or overtaking from either direction any school bus which has stopped on the highway for the purpose of receiving or discharging any school children shall stop the vehicle immediately before passing the school bus, but may then proceed past such school bus at a speed which is prudent, not exceeding (10) miles per hour, and with due caution for the safety of such children."

The veteran patrol supervisor said, "Remember. These children are our most precious heritage, who hold the future of our nation."

Smooth Textured Cream Potato Skillet

Carnation Company Photo

It's the milk... evaporated milk with twice the vitamin D proteins and minerals of whole milk, that makes this Cream Potato Skillet more nutritious and creamy. Developed by Carnation Company's home economists, it is an economical and flavorful addition to any main dish, or when served with soup and dessert, is ideal for lunch.

CREAM POTATO SKILLET (Makes 6 servings)

- 1/4 cup butter 2 medium-sized onions, sliced 5 cups diced cooked potatoes (about 2 lbs. potatoes, cooked, peeled and diced) 1 1/2 cups (2 small cans) undiluted evaporated milk 1 teaspoon celery salt 1/2 teaspoon pepper 1 teaspoon salt 1/4 cup sliced canned pimientos Paprika

Melt butter. Add onions and cook over low heat 5 minutes, or until tender. Add potatoes, evaporated milk, celery salt, pepper and salt; cook over low heat, stirring frequently 5 minutes. Add pimientos and mix lightly. Sprinkle with paprika, as desired.

AT LEAST HENSHAW THINKS SO BIG

Crozier Resigns Position With SCS

Bob Crozier, Work Unit Conservationist for Farmer County for the past four years, has resigned his position with the Soil Conservation Service effective September 1.

Crozier came to Friona in the summer of 1958 as acting Work Unit Conservationist, and received his permanent appointment shortly thereafter.

He was just recently awarded his 10-year service pin by the SCS.

As yet, no replacement for Crozier has been named. He is to accept a position with Gifford-Hill Western in Canyon.

Crozier's wife, Jackie, has been on the office staff of the Friona School System.

JANUARY FEBRUARY MARCH APRIL MAY JUNE JULY SEPTEMBER OCTOBER NOVEMBER DECEMBER THE LOST MONTH This dream girl turned dreary drudge has only 11 months each year to ENJOY life. She spends the other month doing dishes by hand. It's true. On the average, it takes two hours a day to wade through three stacks of dishes—breakfast—lunch and dinner. That comes out to 730 hours a year. And, friends, that's a month. A month of full 24 hour days. Don't be a drudge and do dishes — and lose a month a year. "Dial" dishes in an electric dishwasher and enjoy life all year long. It costs just a cent and a half a day to wash and dry dishes electrically. You couldn't buy the hand lotion for that little money — and you get another month to live better electrically. SOUTHWESTERN PUBLIC SERVICE COMPANY SEE YOUR REDDY KILOWATT ELECTRIC APPLIANCE DEALER
