### He Did It Again!

T.J. Kittrell of Farwell has done it again! For the second time in the history of the Tribune Merchants Football Contest, Kittrell has won the Grand Prize. He also won the prize back in 1970 and made the trip to the Cotton Bowl. Back at that time, two tickets to the Cotton Bowl plus \$50 was the top prize with the second prize being two tickets to the

Sun Bowl and \$25. This year, Kittrell won two tickets to see the Cowboy-Saints game at Texas Stadium on December 19, plus overnight lodging for two at a Dallas hotel, and free transportation to and from the stadium, plus \$50. Kittrell picked nine games correctly in the contest's final week to earn 108 total points and edge out in front of the second place

winners who wound up with 106 points. Kittrell receives his Grand Prize packet from Wanda Coates of Oklahoma Lane Farm Supply, one of the contest sponsors. Last week Kittrell and Roy King of Texico were tied for the top spot; however King dropped to third place overall when he managed to pick only six games correctly.

## T. J. Kittrell Wins Grand Prize Packet

T.J. Kittrell of Farwell out-guessed 404 total entrants in the 12 weeks of the 1982 Merchants Football Contest to win the Grand Prize.

Kittrell was also the Grand Prize winner in 1970, winning two tickets to the Cotton Bowl in Dallas on New Year's Day, 1971. Also included in the contest's top prize packet in those days was \$50. Second place winner received two tickets to the Sun Bowl plus \$25.

The grand prize packet consists of two tickets to the Dallas Cowboy-New Orleans Saints football game in Texas Stadium on December 19, one night's lodging at the Regent Hotel, and transportation to and from the stadium, plus \$50 in expense money.

Kittrell picked nine correct games in the last week of the contest to surge ahead of Roy King of Texico who picked only six. The two men were tied for the lead in the contest the week before.

With a total of 108 points in the overall contest, Kittrell guessed correctly 75 percent of the 144 possible points in the 12 weeks of the contest - putting him two points ahead of all other contestants.

Diane Dannheim, who was in second place, and Don Geries, who was in third place, after the 11th week, also jumped ahead of King to nab a second place tie in the overall contest with 106 total points. In the final week Mrs. Dannheim

guessed eight games correctly while Geries picked nine.

In third place with 105 total points are Charles Dannheim and Roy King.

In fourth place with 104 total points are Darren Coffman, Mike Littlejohn, C.L. Mahaney, and Billy Roberts.

(See contest standings for the first 12 places elsewhere in this week's issue.)

Winning first place in the last week of the contest was Johnny Bermea of Farwell who picked 10 games correctly to win the weekly prize of \$7.50. He was one of seven contestants who guessed 10 games correctly and was closer on the tiebreaker game score, being 20 points off. He guessed the score New Deal 14, Reagan County 13. Reagan County won, 7-0.

Roger Robertson won the second place weekly prize of \$5.00 by picking 10 games correctly and being 22 points off on the tiebreaker. Also picking the 10 correct games were Darren Coffman, 24 points off; Johnny Atkinson, 28 points; Cheryl Coffman, 33 points; Lorine Dannheim, 34 points; and Charles Dannheim, 41 points off.

This was a bad week for most of the contestants as the average guess was 6.675 games out of the possible 12. No one picked the Arkansas-SMU game as a tie, so every entrant missed that game, and the

other game missed by the majority of the contestants was the Houston-Texas Tech game.

The 12th week contest game teams winning were Post over Amarillo River Road, Littlefield over Frenship, Hale Center over Panhandle, Vega over Booker, Southern Illinois University over West Texas, Arkansas-SMU tied, Texas over Baylor, Houston over Tech, A&M over TCU, LSU over Florida State, Ohio State

over Michigan, and UCLA over Southern California.

Area and local businesses making the 1982 football contest possible include Security State Bank, ENMR Telephone Cooperative, Wooley International, Farmers Cooperative Elevator, Interstate Fertilizer, Sherley - Anderson - Pitman, Inc., Sherley-Anderson Grain of Lariat, C&T Fertilizer; Also, Oklahoma Lane Farm (Continued on Page 2)

## Indians, Pilgrims Have Early Feast

Shining faces, sparkling eyes, smiles, and a few solemn expressions were exhibited as 67 Texico first and second graders participated in Thanksgiving festivities a few days early. The dinner was an all-day project for the students, teachers, and helpers.

The real Indians and Pilgrims never had it as good as did these little would-be Indians and Pilgrims. They were served stew, cornbread, fruit salad, and tea.

All of the ingredients for the stew and fruit salad were brought by the students. They learned how to grind corn and make the cornmeal for their cornbread as well as learning how to grind wheat into flour. The tables were decorated with turkeys with colorful tailfeathers they had made from milk cartons, and Pilgrims and Indians made from paper cones.

Of course, to have festivities of this nature one must have appropriate costume, and these students did! They were Indians with headbands covered in various freelance designs, brown paper sack vests or brown collars for the "squaws," and of course there were the Pilgrims with the traditional black hats and white collars for the gentlemen while the ladies had white bonnets and white collars.

Amidst the enthusiasm, ex-

citment, and chattering, the learning experience, the meal, and day of festivities was enjoyed by everyone involved. These students will remember this particular Thanksgiving for a long time.

### Thanksgiving Dinner

An early Thanksgiving dinner was enjoyed by Texico's first and second grade students of Rita Dunsworth, Vicky Lynn, Alice Richmond, and Ann

### Coach, Player Of Year

Steer mentor Bruce Dollar, right, and Alan Eubank, Steer quarterback, congratulate each other on the District 5-AA honors they received last week. Dollar, in his second year as head coach of the Steers, was named the district's Coach of the Year, while Alan, a junior, was named Player of the Year for the loop. The Steers picked up 14 places

on the all-district first team squad with 11 members being named to the selections, three of them making it offensively and defensively. Six more Steer squad members were named to the all-district second team. The Steers had a 5-0 district record to bring home a district title for the first time since 1969.

### Kiddoes, Write Your Santa Letters Now

Hey Kids! Santa urges all youngsters in the Twin Cities area to hurry and write their Christmas wish letters to him!

The jolly ol' man with the whiskered face encourages everyone to get their letters in the mail

early so he will have enough time to get everything ready for the Christmas stockings. Send your letter to Santa, in care of the State Line Tribune, no later than Dec. 10.

The staff at the Tribune will copy the letters for

publication in the special Christmas edition, then forward them to Santa's address in the North Pole.

Write your letters to Santa Claus today and mail them to the State Line Tribune, Box 255, Farwell, Texas 79325.

We now have the answer to the best kept secret in Parmer County politics. Quick now - who is our State Representative, where is he from, and what is the number of our Representative district???

Immediatly we knew that we were among the uninformed, and could not for the life of us recall any name associated in the past election with a candidate running for that office. Of course, we have a bad habit of remembering political names only when they spend a modest sum advertising in the Tribune. With no advertising money coming into ye ol' paper, we had no name in mind for the office.

This is not to say that Bill Clayton was a big spender in the political races, mainly because he was unopposed. At least Bill squandered five or six big bucks with a very small "Thank-You" to the Farwell area voters. So far, our new man hasn't ponied up even five bucks worth of thanks.

In our quest for our elusive State Representative, we were informed that he spoke to some sort of farmers' rally in Bovina. That being the case, he probably thinks that the County ends at the draw.

From our cursory research, we have gleaned that redistricting took care of the old 74th State Representative District, and Parmer County is now in the new 85th District. Our new State Representative is James E. "Pete" Laney and probably hails from Abernathy or Hale Center. We were told both towns, but that is a technicality, as both are a far piece from Farwell.

Last Friday we were given the Cook's Tour of the new Southwestern Public Service coal-fired Talk Station, east of Muleshoe. It is a huge plant and is in the process of being doubled in size already.

SPS is a Golden Spread asset which helps us all. It not only produces juice for all its customers, but it is the primary source of power for some 19 electric cooperatives throughout the entire area. It now has, has had, and will continue to have power available for future industrial and residential use. The same cannot be said for many areas of the country.

It has demonstrated a remarkable ability to plan ahead for our growth. It also plans and builds its own plants. It has been able to get its new Talk Station on line at about one-half the cost for similar generating plants in other parts of the country.

This ability to do its own planning and engineering is reflected in lower electric rates. Now we know you may hoot at the term "lower electric rates" but in comparison to others, we really are better off.

SPS's decision to go to coal as a primary boiler fuel was taken several years before the rise in natural gas costs. This business acumen is only one bit of evidence that, in spite of the charges of certain politicians, utility executives are not money gouging ogres, but folks trying to see that sometime in the future when you flip the switch, the light bulb works.

There will be other times set aside for the public to tour that imposing facility and we recommend that you avail yourself of the next one which comes along. You will be impressed.

**Final Week's Winner**

Johnny Bermea of Farwell,  
left, guessed 10 games correct-  
ly in the final week of the Mer-  
chants Football Contest to earn  
the top weekly prize money of  
\$7.50. He receives his check  
from Delbert Black of Loomix,

Inc., one of the contest spon-  
sors. A total of 404 persons, a  
record number, entered this  
year's contest, and the overall  
winner was T.J. Kittrell, a  
Farwellite who had won the

Grand Prize back in 1970. Six  
other persons, also called 10  
games correctly, but Bermea  
was closest on the tiebreaker  
score. Roger Robertson won  
the second place check for \$5.

**Revival Planned At Pleasant Hill Church**

A revival is scheduled at the  
Pleasant Hill Baptist Church  
November 29-December 4, fea-  
turing Bill Sessom an evangelist,  
with Paul and Christy  
Newberry serving as ministers  
of music, announces Bob Reid,  
church pastor.

Sessom and the Newberrys  
will participate in all services  
at the revival including four on  
Sunday, the weekday noon  
services, and the week night  
services.

Sunday services will begin at  
9:30 a.m. with Sunday School;  
worship service at 10:30 a.m.;  
church training at 5:30 p.m.  
and the evening worship  
service at 7 p.m.

Everyone is invited to take  
part in the noon meal on  
Sunday and the noon services  
conducted daily as well as the  
evening services held nightly  
at 7 p.m. All times stated are  
MST.

Evangelist Bill Sessom was  
born at Little River, Tex.,  
receiving his education at  
Academy High School in  
Temple. He received his call to  
preach in 1971 and attended  
Wayland Baptist College in

Plainview receiving a B.A. in  
religion. Presently he is serv-  
ing as pastor of the First  
Baptist Church in Fort Sum-  
ner, N.M., but has served as  
pastor at the First Baptist  
Church of Aiken, Tex., and as  
youth director of Calvary  
Baptist Church in Alamogordo,  
N.M. He has held the office of  
Associational Church Training  
Director, and presently is  
Associational Stewardship Di-  
rector.

Sessom is married to the  
former Sandra Cable and they  
have two children, a married  
son, Billy, living at Lewisville,  
Tex., and a daughter, Shelly,  
a junior at Ft. Sumner High  
School.

The Newberrys, Paul and  
Christy, feel very strongly  
about their call into the area of  
full-time music evangelism. It  
is their desire to share and  
proclaim the gospel through  
the ministry of music. They  
are active members of the  
First Baptist Church, Floyd-  
ada, Tex.

Paul and Christy were mem-  
bers of the International Choir  
and the Spirit of America

Singers while attending Way-  
land Baptist University in  
Plainview.

Paul not only sings tenor, but  
also plays guitar and five-  
string banjo for banquets and  
after-church fellowships.

As a soprano soloist, Christy  
has been involved in gospel  
singing for the past 10 years.  
Paul received his Master of  
Music degree from Hardin-  
Simmons University in Abilene  
and Christy is currently work-  
ing toward her Master of Arts  
degree at Hardin-Simmons.

The Pleasant Hill Baptist  
Church is located nine miles  
north of Texico on FM 108 and  
one mile west on FM 77.

For further information on  
the revival contact Rev. Reid,  
at the Pleasant Hill Baptist  
Church.

# Thanksgiving Feast Enjoyed By Farwell Kindergartners

Just as the Pilgrims and Indians spent days and days in preparation of the first Thanksgiving feast, the Farwell Kindergarten students of Marcia Cole also spent days and days in preparation of their Thanksgiving feast held on Tuesday.

Preparing their feast was a challenge and learning experience for each student as they visited the bee hives at the Bill Whitesides home to observe and learn about the bee world and obtain honey for their feast.

The enthusiasm soon turned into complaints about tired

arms as they turned the churn to make the butter from the cream they had poured into the churn. It was lots of fun getting the butter out of the churn and putting it into the butter mold.

Making the bread required lots of dexterity as they first stirred the mixture and then kneaded the dough. A hunger pain twitched in the students' stomachs as the pleasant aroma of the baking bread filled the room.

The students studied about what the real Pilgrims and Indians had eaten at their feast,

and then prepared their own menu of homemade cranberry sauce, raisins, homemade bread, churned butter, honey, apples, and popcorn.

The feast was served from a table covered with a cloth the class had made themselves, and centered with a turkey

holding a candle. Indian or Pilgrim hats were worn by the students as they served themselves and were seated at tables with straw mats the students had woven.

This was truly a Thanksgiving feast they will not soon forget.

**Tasting Cranberries**

Each of the Farwell Kindergarten students were official taste testers of their own homemade cranberry sauce. Washing the cranberries, watching their skins pop, and sweetening them with honey

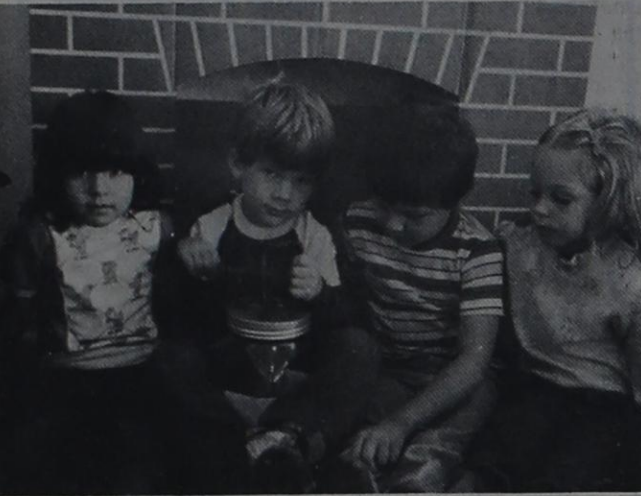

led up to the delicious sauce they had at their Tuesday feast. Two of the tasters are Melinda Coburn, daughter of Phyllis and Travis Coburn, and Bea Foster, daughter of Mr. and Mrs. Steve Foster.

**Kneading Bread**

The importance of kneading the bread for their Thanksgiving feast was one of the many lessons learned by the students of Marcia Cole's kindergarten class. Shown using her expert

little hands in the project are Jody Chadwick, daughter of Mr. and Mrs. Bobby Chadwick, and looking on, Jaime Martin, daughter of Mr. and Mrs. Gary Martin.

**Churning Butter**

Butter was a very important item on the menu for the Farwell Kindergarten's Thanksgiving feast. The making of the butter required each student to take several turns with the "old fashioned" churn. Pictured, from left, are Chastity Gutierrez, grand-

daughter of Maria Lucio; Justin Mahaney, son of Mr. and Mrs. Robin Mahaney; Shannon Ward, daughter of Mr. and Mrs. Randy Ward; and Melissa Schwertner, daughter of Mr. and Mrs. Mark Schwertner.

## Brother Of Local Woman Named To Hall Of Fame

A former Dumas High School basketball coach, who directed the Demons to a 110-48 record in six years during the 1950s, was inducted into the Texas Tech Athletic Hall of Honor during half-time ceremonies at the Texas Tech-Southern Methodist football game, November 13.

Garland Head grew up in the Clovis area, attending school at Eugene Field. He is a brother to Mrs. Hubert Ellison of Farwell.

Head was a 6'2" guard on the Red Raider basketball varsity for four years, and was a center and linebacker on the varsity football squad for three

years. He was named to the all-conference basketball team of the Boarder Conference three seasons, and was voted the most valuable basketball player in the conference in 1942-43.

He was also an all-state football player and basketball player for Clovis High School, and attended Texas Tech on a football scholarship. Head coached the Dumas Demons from 1951 to 1957 before going into farming in the Spearman area.

Head has been a county commissioner in Hansford County since 1976, and resides in Spearman with his wife, Virginia. He has a daughter,

DeLinda, of Spearman and a son, Ronnie, who is an accountant in Artesia.

Those attending the football game and half-time ceremonies from Farwell were Mr. and Mrs. Hubert Ellison, Mr. and Mrs. Jerry Ellison, Mr. and Mrs. Troy Christian and Todd, and Mr. and Mrs. Vick Christian. Sharmy Christian and Ginger Ellison, students at Texas Tech, joined the group.

A reception at the Lubbock home of Mr. and Mrs. Melvin Terry honored Head and his family. Cake and punch were served to family members and close friends. Everyone enjoyed visiting and renewing friendships.

### Thanksgiving Mural

No, this is not Egyptian hieroglyphics, it is a mural, "The Story of Thanksgiving as seen by the Kindergarten," drawn and colored by the students in Marcia Cole's kindergarten

classes at Farwell School. Each student in each class session drew a portion of the mural which covered almost all of one wall in their kindergarten room. The scene ranged from pictures of a ship which brought the Pilgrims to America to the smiling faces of the early settlers, and the landscape of the new country.

## Historical Museum Hosts 'Old Fashioned Christmas'

An "Old Fashioned Christmas" Open House will be celebrated from 7 p.m. to 9 p.m. Thursday and Friday, Dec. 2 and 3, in the Pioneer Village of the Panhandle-Plains Historical Museum in Canyon.

Santa Claus will be on his sleigh to greet guests and listen to their Christmas wishes. Area civic leaders will play roles of early 1900's settlers in the stores and houses of Pioneer Village. Randall County Sheriff Cliff Longest, State Senator Bill Sarpalius, and County Judge E. Jay Hail are among community leaders participating.

Others who will role-play are Troy Martin, editor of the Canyon News; Mr. and Mrs. William N. Griggs, of Amarillo; Don Max Vars, of Canyon; Don Ray, noted western artist; Ralph Wilson, of Possum Kingdom Lake; Carroll Wilson, of the W.T.S.U. journalism department; and Doctors Janet

and Bill Townsend of Canyon. Decorations for the Village will include yarn dolls, candy canes, and popcorn and cranberry garlands. Junior Historians of Canyon Junior High School will set up a photography area where visitors can have their pictures made in turn-of-the-century settings.

Each evening during the Open House, various area organizations will provide musical entertainment. Included in Thursday night's activities will be the Oscar Hinger Sixth Grade Choir at 7 p.m.; the Gene Howe Singers at 7:30; and the Canyon Sweet Adelines at 8. At 8:30 the Kwahadi Dancers will perform.

Friday's entertainment includes the Sleepy Hollow Elementary Singers at 7 p.m.; the Amarillo Sweet Adelines at 7:30; and the Sundown Singers of Sundown Lane Elementary at 8. At 8:30 Friday night the Top of Texas Cloggers will perform.

Both evenings' visitors can view a special Christmas exhibit and crafts demonstrations in the main art gallery on the second floor. A collection of antique toys will be displayed — cowboys, Indians, tin sol-

diers, dolls, and other turn-of-the-century Christmas gifts will delight the eye of young and old alike. Museum volunteers will demonstrate such pioneer crafts as wheat weaving, tating, spinning, and lace-making.

In the Audio-Visual Gallery, a Victorian Craft Bubble will be set up. Children aged 6 to 10 can create authentic Victorian-era Christmas ornaments. A small fee of 25 cents per ornament is required.

Each evening, gingerbread cookies and hot cider will be served to all visitors. There is no admission fee to attend the Open House evenings.

Special parties will be sponsored on the afternoons of Wednesday, Thursday, and Friday, December 1, 2, and 3, for persons from the Bivins Rehabilitation Center; the Killgore Children's Hospital, and the Amarillo State Center for Human Development. Hosts for the parties will be members of Zeta Tau Alpha sorority of West Texas State University.

The Museum is located at 2401-4th St. in Canyon (one block east of U.S. 87), adjacent to the Campus of W.T.S.U.

## Producing more energy from less ... makes the difference.

Their discovery would shake the worlds of communication, medicine and defense, but Charles Townes and Arthur Schawlow knew only that they had discovered an entirely new source of light. They called it an "optical maser." Today we know it as the "laser." Their discovery was a light beam so concentrated it could produce power densities millions of times as intense as those on the surface of the sun — a light source so dense, the energy produced was greater than the energy required to produce it.

Arthur Schawlow and Charles Townes

This principle of more energy from less applies to the High-Efficiency Add-On Heat Pump — more units of heat than units of electricity needed to produce that heat. And while the Add-On Heat Pump works with your existing furnace to heat your home during the winter, the Add-On Heat Pump functions with the same efficiency to cool your home during warm weather.

As partners, Townes and Schawlow made a significant difference in our world with their work on the laser. As partners you, Southwestern Public Service Company and the Add-On Heat Pump can make the difference managing electricity in your home. Call SPS to see what your savings could be.

# Lady Wolverines Are Young But Determined

"The Texico Wolverine Lady hoopsters are a young and inexperienced team," according to their coach, Roy King. He went on to say that the varsity and junior varsity teams will consist of 18 players composed of two seniors, four juniors, five sophomores, and seven freshmen.

The Lady Wolverines lost three seniors who started, plus a fourth starter who decided not to play, and also one of the top reserves moved.

The team will field only one returning starter, Ruth Scott, and she is coming off knee surgery this summer. There are five returning lettermen back from last year and these young ladies did not play that much, King said. The returning lettermen are Chary Jesko, Valda Cavallero, Dana Morris, Cheryl Scott, and Karen Snodgrass.

Coach King is hopeful that these young players' hustle and determination will overcome their lack of experience. He went on to say that the team is fortunate to have two transfer students, Tammy Powell from Oklahoma and Kathy Harrison from Colorado, plus some outstanding freshmen who could contribute greatly to the team's cause this year.

The coach said, "All of our girls set winning district and going to state as their number one goal and we hope by district that we will have gained enough experience to achieve these goals."

During practice, the Lady Wolverines have showed a lot of enthusiasm and hard work. With only two weeks practice it is a little early to tell much about this team. We will know a little more after our scrimmage with Farwell, he said.

The coach added, at this point in time we have only nine varsity players for sure and they are: Ruth Scott-6'0" senior, at the post position. There is a big question mark concerning Ruth. She has worked five to seven hours a day to rehabilitate her knee. Ruth is a tremendous shooter and rebounder. She was picked as an honorable mention All-American in the recent Smith and Street magazine.

Tammy Powell-a 5'2 1/2" senior playing at wing and point guard. She is a transfer student from Calcord, Okla. She is a very aggressive defensive player, also a good ball handler and shooter. She will be a big help to our team.

Valda Cavallero is a 5'4" junior at the wing position. She is a returning letterman. Valda is very aggressive and a very good shooter. She is the type of player who is not afraid to get on the floor.

Dana Morris is a 5'7" junior that supports the team in the wing position. She is a returning letterman and is a good jumper and shot blocker for her size. Improvement is seen on her shooting and she is getting more aggressive in her rebounding.

Chary Jesko is a junior point guard at 5'2 1/2". She is a returning letterman. A good long range shooter and has a tremendous attitude. She also has improved her ball handling and rebounding.

Cheryl Scott at 5'10" is a sophomore playing the post

position. She is a returning letterman and has an excellent jump shot and is a good rebounder. She is lacking in confidence, but when she gains this she will be an outstanding player.

Karen Snodgrass is a 5'7" sophomore playing wing. She is a returning letterman and is one of the most aggressive players on the team. She is a good shooter and has improved a lot on her ball handling.

Kathy Harrison is a 5'3" sophomore point guard who is a transfer student from Colorado. She is a good ball handler and defensive player and

is working hard on her shooting.

Helen Jo Boarman is a 5'5 1/2" freshman at the position of wing. She has a great amount of potential. Probably the fastest player on the team. She is a good shooter and ball handler. She could be a big surprise.

The other three spots on the varsity will be chosen from the following: Terri Fenn, a 5'7 1/2" junior post; Kandy Keeler, a 5'5" sophomore wing; Lucia Jesko, a 5'3 1/2" freshman wing; Coy Jo Burn, a 5'5 1/2" freshman post; Kelly Lynn, a 5'7" freshman post; Katie Tubbs, a

5'5 1/2" freshman post; Loretta Gonzales, a 5'1" freshman point guard; or Tonya Duns-worth, a 5'6" freshman wing.

In taking a look at the district competition, Coach King said, "Melrose will probably be the top pick in our district. They are the defending state champions and only lost one starter. Floyd has four starters returning and will be strong. Tatum will be tough with the addition of Toni Brooks. Elida has a new coach and a bunch of young players. Dora will be a very big team and could be a real factor before the year is over."

## Lazbuddie Longhorns Eye Tough Hoop Season

Lazbuddie Longhorn hoopsters will have four returning starters and three returning lettermen, according to Coach Carl Glass, who is in his second season of coaching at Lazbuddie. He will be assisted by Coach Craig Terry. Coach Glass said, "We are basically a senior team of six who will provide us with experience and good leadership."

The Orange and Black hope to be competitive in their pre-season schedule, although it will be very tough. The schedule has six games with four different 2-A teams and also a 2-A tournament at Farwell. It is felt that the team will be better prepared for district competition by playing this tough schedule.

The coaches went on to say that the district promises to be very tough with last year's regional finalist, Nazareth, and a strong team is expected to be fielded by Happy. "With the new playoff schedule (two teams from each district), we are very optimistic about qualifying for the playoffs," said the coaches.

According to Coach Glass the team roster will sport the following players:

Bart Elliott is a 5'8" senior guard who was the second leading rebounder during the '81 season averaging 5 rebounds and 8 points per game. He has performed well the last two weeks.

Mark Lust is a 6'1" senior playing at the post position. He was last season's leading scorer averaging 12 points per game and leading rebounder with 10. Mark is out with a knee injury sustained in the last football game of the season.

Jeff Jesko is a 6'2" senior post and has worked hard

during the practices. Lee Scott is a 6'1" junior at the post position, and was a part time starter in '81. He is the toughest defensive player in the lane area.

Casey McBroom is a 6' senior guard who is vastly improved since last season and is fighting for a starting role.

Danny Powell is a 5'9" senior guard who gives us good shooting from the outside.

Daniel Schacher, a 5'9" senior guard, gives us quickness at the guard position.

Noe Gonzales, a 5'7" junior guard, comes up from the junior varsity team where he was the leading scorer.

Gary Cantrell, a 5'10" junior playing post, was the leading rebounder on last year's JV team.

Paul Gonzales, a 5'8" freshman guard, has the potential to be an outstanding basketball player.

In summation, Coach Glass feels that if the Longhorns use their height at the post position, and the guard's quickness, "we will have an outstanding team."

by Henry E. Skala, Jr.  
Soil Conservationist, SCS

By properly managing crop residues through simple tillage operations, the sustained use of cropland can be continued without deterioration to the soils.

It is important to leave adequate crop residue on the soil surface to protect the soil from water and wind erosion. By decreasing the erosion occurring with crop residues,

## Public Safety Dept. Urges Safe Driving

Major C.W. Bell, Commander of the Texas Department of Public Safety, Region 5, said, "As we approach Thanksgiving Day weekend, all of us are making plans of one kind or another for observance of this traditional season of the year. Many DPS officers will make plans of a different kind. They will be on duty to stimulate safety-consciousness throughout this festive holiday."

During the last Thanksgiving holiday weekend, Texas experienced 53 fatal accidents and 57 traffic fatalities. Major Bell said, "Speed and alcohol are the main contributing factors in the majority of traffic deaths in Texas."

A total of 4,701 fatalities were recorded on our streets and highways for 1981 and statistics show 923 fatal accidents caused 1,082 deaths and 17,343 injury accidents that caused 27,907 injuries in Texas that involved a drunk driver, according to Major Bell.

"Many drivers are not tested," Bell said, "because Texas has no law requiring chemical tests on drivers in fatal accidents and it is probable that more than 50 percent of the deceased drivers in Texas were driving while intoxicated and were not reported as DWI."

The Texas Department of Public Safety urges all motorists to avoid the use of alcohol when driving. Let's all slow down a little and live a lot.

the finer, more easily erodible soil particles remain in the field where needed instead of blown along fence rows or washed into creek beds.

Crop residues left on the soil surface not only help prevent erosion but improve the soil tilth by increasing the organic matter content of the soil. By increasing the organic matter content, the soil is capable of taking in greater amounts of rainfall and reducing runoff. Also crop residues left on the soil surface shade the ground and help prevent the evaporation of the moisture in the soil which can make the difference between a following crop emerging or not.

Most of the cropland in Parmer County should be maintained with approximately 1000 and 1750 lbs. of residue on the soil surface of clay loam and fine sandy loam soils, respectively, until the seedbed for the next crop is prepared. Residues can be maintained on the surface by using tillage equipment such as a chisel, field cultivator, or tandem disk which covers only about 20-25 per cent of the residues with each tillage operation.

One way disk, offset disk, moldboard plow, and listers should not be used until preparation for a clean-till seedbed is needed because about 50-90 per cent of the residue is covered by each tillage operation with these implements.

In order to maintain 1000 to 1750 lbs. of residue on the soil surface, there is a guide for estimating residue production from projected yields of crops.

A corn crop which yields 200 bushels/acre will produce about 14,400 lbs. of residue; 20 bushel wheat will produce about 2000 lbs. of residue; 1 bale cotton will produce about 1500 lbs. of residue; and 3000 lbs/acre grain sorghum will produce about 4050 lbs of residue/acre.

Why travel over your field with a rotary hoe or sand fighter, wasting fuel, trying to stop the soil from blowing, when all you had to do was keep adequate residue from the previous crop on the soil surface instead of plowing it under or burning it?

## Dealers Presented Awards

Three Farwell area seed dealers have been presented 1982 Silver Dollar Awards for outstanding sales of Pioneer brand seed during 1981-82.

Receiving the awards were Gilbert Kaltwasser, Kelly Green Seeds, Inc., and Oklahoma Lane Farm Supply, Inc. Making the presentations was Dwight Clower, district sales manager for the Southwestern Division of Pioneer Hi-Bred International, Inc.

The Silver Dollar Award is presented by Pioneer annually to dealers who achieve outstanding sales. This year's winners were announced by Clarence Kerns, general sales manager of the Southwestern Division of Pioneer, who was on hand to congratulate award winners at a recent gathering of Pioneer dealers on the western Central Plains of Texas and the Central and Southern New Mexico Plains.

"A Silver Dollar Award from Pioneer is more than just another award," Kerns said.

"It isn't a gift either. It has to be earned. I think that is why it has become one of the most treasured awards of Pioneer seed dealers in the Southwest."

"I know that a great deal of effort is required to win a Silver Dollar Award. So, I not only want to congratulate the 1982 Silver Dollar Award winners, but also commend them for their dedication and hard work."

About 21 percent of farmers and dealers who sell Pioneer seed in Texas, Oklahoma and New Mexico qualified for Silver Dollar Awards in 1982. These Southwestern Division dealers sell hybrid corn, hybrid sorghum, soybean, cotton, wheat and alfalfa seed.

### TWO MINUTES WITH THE BIBLE

BY CORNELIUS R. STAM, PRES. BEREAN BIBLE SOCIETY CHICAGO, ILLINOIS 60633

**THE PRIVILEGE OF PRAYER**

"He shall pray for thee" (Genesis 20:7).

Abimelech, king of Gerar, had taken Abraham's wife as his own, but had done so innocently. Sarah was a beautiful woman and Abraham, fearful for his life, had said: "She is my sister," and Sarah had vouched for Abraham's subterfuge, telling Abimelech: "He is my brother."

But to save the errant couple from the consequences of their own sin God appeared to Abimelech, warning him that if he valued his life he would immediately return Sarah to her husband—"and he shall pray for thee, and thou shalt live."

What is this? Will God hear the prayers of guilty Abraham for innocent Abimelech? Yes, for Abimelech was a pagan who served other gods, while Abraham, with all his failure and sin, was God's own child.

Abraham's prayer would, of course, be a confession of his sin and a plea that it might not be laid to the charge of innocent Abimelech—innocent of this particular sin—but nevertheless it was Abraham, not Abimelech, who had access to God.

Many unsaved people point to the failures of God's children and say: "I would not be guilty of that." Nevertheless, such "good" people are lost, while poor sinners who have trusted Christ for salvation are "accepted in the Beloved."

"Let us therefore come boldly unto the throne of grace, that we may obtain mercy, and find grace to help in time of need" (Heb. 4:16).

# Farwell Steerettes Ready To Begin New Season

"The Farwell varsity basketball girls have confidence that they can win and play good with other district teams," said Steerette Coach Vester Joiner this week. He went on to say that with only eight girls on varsity that we must stay healthy and free from injuries.

The team has some returning players, and with practice and determination we hope to be in the district playoffs. Since there are two teams in the district playoffs, we feel we will have a good chance. In talking about the girls who make up the team he presented these thumbnail sketches.

Lezlie Castleberry is a 5'5" junior who plays point. She made all-district in 1981 averaging 10 points per game. She is a good ball handler and shoots the ball well.

Jennifer Williams at 5'11" plays post. She is a senior, averaging eight points in the '81 season. Does real good job on boards, rebounds well offensively and defensively. She is much improved on shooting this year.

Sandra Coates is a 5'7" senior who plays wing. This will be her first year to start on the varsity. She shoots from the outside well and jumps extra well.

Suzahn Inman is a 5'8" junior who plays post and wing. This is her second year on the varsity. She is a good all-around player. She shoots well, good rebounder, hustler, and an excellent ball handler.

Elaine Vaughn is a 6'2" junior playing post. This is her second year on the varsity. She is really improved on jumping

and shooting. She has worked real hard this year.

Cynthia Aneira is a 5'6" sophomore at the point position. This is her first year on varsity. She is real quick and handles the ball well.

Kelly Davis is a 5'9" senior who plays wing. She shoots the ball well from the outside. She plays good defensively and is a hustler. She hustles all the time.

Tammy Obenshain is a 5'5" senior who will play her first

year on the varsity. She plays point and wing. Shoots good from outside and is also a good streak shooter.

In talking about district competition, Coach Joiner said he feels that Olton will have a good girls team as most of the players were on the team last year other than one. Hart has some good players back and Bovina promises to be a tough team with some good young players, he added.

## Prairie Dog County-wide Control Program Formed

Several producers attended a meeting at the Bovina bank on November 1, concerning Prairie Dog Control. Mike Yeary, area predator control officer with the U.S. Wildlife Service, presented the program.

Those in attendance agreed to form a county-wide control program, and to encourage their neighbors to participate in the program. Bob Wilson, Bovina, was elected as chairman of the control program.

It was recommended to have a two-step control program. The first step would be to treat with the zinc phosphide oats this winter and then to use phostoxin tablets in the spring. These products are available from the U.S. Wildlife Service for a fee.

December 1st is the deadline for signing up. All interested producers are urged to contact Bob Wilson of Bovina or Seth Ralston, the county agent, for additional details.

## Venison Traditional Holiday Food

If you want an interesting switch from the traditional holiday turkey, try barbecued venison. "Venison was an important part of the first American Thanksgiving and many successful deer hunters will have fresh venison in their freezers this year," says Mae Martha Johnson, Extension food and nutrition specialist for New Mexico State University.

Since game animals lead such active lives, their muscles keep firm and relatively lean. To make this tougher meat tender, cook it as you do lean beef—slowly with moist heat at low temperatures. Use tenderizing methods if necessary.

For barbecuing a roast, one of the best tenderizing methods is to marinate with an acid, such as lemon juice, tomato juice or vinegar. To make your own marinade, mix garlic salt, salt and pepper with equal parts of worcestershire sauce and your two favorite steak sauces. Use this as a baste, too.

Wild game fat becomes rancid quickly so you'll need to trim fat closely. Rub the roast with butter, beef suet, bacon fat or sour cream to put back moisture, richness and flavor. Baste with additional fat. Cover roast with marinade and let it stand in the refrigerator at least 24 hours.

For outdoor cooking, place

roast in an aluminum pan and wrap with foil. When the coals are glowing, set on grill and cover. Allow 20 to 25 minutes per pound.

Try this savory roast served piping hot. Game fat solidifies quickly.

**SAVORY ROAST**

5 lbs. roast, trim fat  
 1/4 c. cider vinegar  
 1 Tbs. flour  
 1/4 c. chili sauce or catsup  
 1 tsp. worcestershire sauce  
 1 tsp. dry mustard  
 1/2 tsp. chili powder  
 2 tsp. salt  
 1/4 tsp. pepper  
 2 Tbs. honey or brown sugar  
 4 strips bacon  
 1/2 c. butter or margarine  
 2 c. hot water  
 flour

Wipe roast with damp paper towel. Make a paste of vinegar, chile sauce or catsup, one tablespoon flour, worcestershire sauce, mustard, chili powder, salt, pepper and honey or brown sugar. Lay strips of bacon over top and hold in place with toothpicks. Dot with butter or margarine and pour water around meat (in aluminum pan). Wrap in aluminum and place on grill. Baste occasionally. Use flour to thicken drippings for gravy. Serves eight.
