'Morale for Defense' Is National Problem

Lack of Rhythm Marks American Efforts to Arm; Wider Use of Plastics in Industry Would Benefit Farmer.

By BAUKHAGE

National Farm and Home Hour Commentator.

Star Dust

By VIRGINIA VALE (Released by Western Newspaper Union.)

REMEMBER when Colleen Moore was trooping about the country with her dolls' house? Well, if present plans go through Charles Boyer may soon be engaged in a slightly similar journey.

Apparently everybody who saw Kathryn Grayson in that last Hardy film wanted to know what her next picture would be.

It's rather a shock to realize that Hedy Lamarr has been resting for nearly eight months—hasn't worked since "Ziegfeld Girl."

HEDY LAMARR

Pulham, Esq." based on the Marquand novel—it's difficult to see how either of the two leading feminine roles can be twisted around to fit her, but stranger things are happening in Hollywood all the time.

Maybe you'll be crazy about the latest Walt Disney, "The Reluctant Dragon." But a lot of us wish that Mr. Disney would abandon these long features and stick to good short ones.

In "Sullivan's Travels" you'll see a Veronica Lake who'll startle you—a boy hero, apparently, in turtle-necked sweater, old cap, blue denim work trousers and a coat that's too large for her.

Lewis Stone is taking time out from the "Judge Hardy" role, between the family chronicles, to play an army colonel in "Steel Cavalry," the new Wallace Beery picture.

Charles Laughton (have you heard the new radio program, "Three Ring Time," starring him and Milton Berle?) would have been an inn keeper if Laughton, Sr., had had his way.

The children who attend New York city's public schools ought to find at least some of their lessons pretty enjoyable. They'll be shown Warner Brothers' national defense and historical shorts as part of the curriculum.

ODDS AND ENDS—Raymond Gram Scieg has just bought a 250 acre farm half-way up Putney mountain in Vermont.

FIRST-AID to the AILING HOUSE

by Roger B. Whitman (© Roger B. Whitman—WNU Service.)

Colored Fireplace Flames QUESTION: How can I treat pine cones so that they will burn with colored flames?

Answer: Heat them on a radiator or otherwise to make them open, and then soak them in a solution of copper chloride in water, letting them dry naturally.

Disposal Plant Question: What is the advantage of a septic tank over a cess-pool? When we built our house two years ago we were advised to install a septic tank to avoid the trouble of cleaning the cesspool.

Tar on Sidewalk QUESTION: Some tar or roofing compound was spilled on my sidewalk by some mischievous boys.

Radiator Finish QUESTION: With which finish does a radiator throw off more heat; paint, or bronze or aluminum? Has the difference actually been proven by tests?

Paint on Screening QUESTION: When painting the moulding of the galvanized screens for my porch, black paint was touched to the screening.

Painted Telephone QUESTION: How can a couple of layers of paint, lacquer, and aluminum be removed from the base of a telephone hand-set?

Venetian Blinds QUESTION: What are the essential good qualities to demand when buying venetian blinds; type of wood, finish, metal parts, etc.

From the East "What did you pick up from the eastern scouts outside of Fordham's Rams?" I asked.

Grimy Andirons QUESTION: My brass andirons are blackened near the bottom.

Paint on Screening QUESTION: When painting the moulding of the galvanized screens for my porch, black paint was touched to the screening.

Painted Telephone QUESTION: How can a couple of layers of paint, lacquer, and aluminum be removed from the base of a telephone hand-set?

Portlight by GRANTLAND RICE

NASHVILLE, TENN.—This Blue-grass section of Tennessee is heavily endowed with coaches, scouts and other football veterans who from a central position cover almost the entire map.

Most of these experts have been working around with various football summer schools of instruction so they are in close touch with a major portion of the football map.

Football interest is no longer sectional. It is widespread. It covers the country.

"From all the early gossip I could pick up," one leading coach said,

JIM CROWLEY

"my guess would be that Minnesota and Fordham—the Gopher and the Ram—would be the two hardest to beat. Both get rough early tests against Washington and S.M.U., both exceptionally strong, but hardly strong enough to drive back the two combinations Bernie Bierman and Jim Crowley will be able to wheel into action.

Extremely good, especially in the backfield," my adviser said. Red Sanders, Harry Mehre and a flock of other coaches have been working around in these summer schools with many other able professors from other points east and west, north and south.

What They Tell You Here are a few more items they bring up.

You can watch Frank Thomas and Alabama in the South. Not far from the front, anyway. You can bank on Mississippi with Hapes and Hovious to be dangerous—you can rate Vanderbilt well above last year—and you can enter Georgia with some of the best material in the South, especially in the backfield.

The Southwestern scramble will be one of the hottest in years with Texas exceptionally good, S.M.U. close and several others above last year's strength.

Tennessee loses many stars, plus Coach Bob Neyland. Tulane and Duke will be good. Both Nebraska and Missouri lose important cogs.

Army and Dartmouth are doubtful. Georgetown will be very good again, but Boston college loses its coaching staff and such people as O'Rourke, Gladchuck and Kerr, and can't be as strong as B.C. was last fall. Pittsburgh is another guess.

My ranking would be Fordham, Navy, and then a pretty general sort of mixup, which is good for general football interest.

In the Far West they rate Stanford on top again, with Washington a close second.

It was the unanimous opinion of the group that 1941 would pile up a new record attendance. They point to the crowds the Yankees and Dodgers have drawn in baseball and football doesn't demand any such winning consistency.

You can figure in advance how many highly excited spectators Notre Dame will draw at every start—especially against Army, Navy, Southern California.

You'll see more sellouts this fall than you ever saw before," one veteran coach said. "I mean all over the map

Set of Cheery Coasters You Will Enjoy Weaving

'Loom' Is Circle of Cardboard.

A SET of these smart red-and-white coasters is so delightfully easy to weave!

You can easily make yourself doilies, belts and purses, too, on cardboard "looms." Our 32-page booklet tells how, in detail. Also explains simple methods of weaving lovely place mats, pillow tops, knitting bags, other useful novelties. Send your order to:

READER-HOME SERVICE 635 Sixth Avenue New York City Enclose 10 cents in coin for your copy of HOW TO WEAVE USEFUL NOVELTIES.

The men in the service themselves have solved the problem of what they want in the way of gifts from the folks back home. First hand information from enlisted men on shipboard, in camps and barracks indicate that tobacco is first choice in the gift line-up.

MOROLINE WHITE PETROLEUM JELLY

Beauty in Modesty How beautiful is modesty! It winneth upon all beholders; but a word or a glance may destroy the pure love that hath been for thee.

INDIGESTION

Doctors know that gas trapped in the stomach or gullet may act like a hair-trigger on the heart. They set gas free with the fastest-acting medicine known—the fastest, act like the medicine in Bell-sore Tablets. Try Bell-sore today. If the FIRST DOSE doesn't prove Bell-sore better, return bottle to us and receive DOUBLE money back.

DOAN'S PILLS

BRIEFS . . . by Baukhage

A Nazi plane crashed off the Norwegian coast. A fisherman put off in his boat and when he returned alone, he was asked, "Were none of the fliers alive?" The fisherman answered, "One said he was, but you know you can't believe those Nazis."

Secretary Wickard says he can't conceive of a satisfactory future for the American people if we ignore the one-third of our land which is, or should be, forest. In other words, we can't get along without "the Sticks."

Food may not win the war, but it will have a lot to do with writing the peace treaties.—Secretary Wickard.

BOVINA NEWS

Mr. and Mrs. Hinton Blalock and sons, Clyde Blalock and Glenn visited in the Bill Green home in Dumas, Texas, the past weekend.

Mr. and Mrs. Oscar Venable and daughter, Sarah Marie, Elton Venable and Miss Marie Langer visited Mr. and Mrs. J. D. Wilkerson in Hereford, Sunday evening.

Steve Sisk visited his sister, Mrs. Lester Rhinehart, the past week.

Hubert Davison returned the middle of the week from a business trip to Washington, D. C.

Mr. and Mrs. Posy Bonds, of Tulia, visited relatives here the past weekend.

Mrs. Joe Langer and children, Marie and Joe Lawrence, were business visitors in Clovis, Friday.

Ralph Hickman, who is in the Air Corps, is visiting Mr. and Mrs. Roy Hawkins this week.

Mrs. J. D. Wilkerson, of Hereford, is visiting her parents, Mr. and Mrs. Oscar Venable, this week.

Mr. and Mrs. Verbin Isham and son were business visitors in Farwell, Monday.

John Kimbrow and J. T. Hammonds were business visitors in Farwell, Monday.

Bill Hunter, of Hereford, was a business visitor here, Saturday.

Mr. and Mrs. J. T. Hammonds were visitors at Buffalo Lake, Sunday.

Misses Nina Jo Brock, Mable McCuan and Pauline Norton, of Amarillo, visited their respective parents here, last weekend.

Miss Dollie Harp is visiting relatives in Liberal, Kansas.

Curtis Williams, of Los Angeles, Calif., is visiting friends here this week.

Mr. and Mrs. Frank Ayres and son, Leslie and Mr. and Mrs. Buck Ellison visited in the Eyrion Turner home at Santa Rosa, N. M., the past weekend.

Mr. and Mrs. Henton, of Spring Lake, visited Mr. and Mrs. Joe Eanks this past weekend.

Lilyus Rhodes left Tuesday for Wichita Falls, Texas, to visit the next few days.

Mrs. Carson, of Mineral Wells, Texas, is visiting her sister, Mrs. Ella Beal, this week.

Mr. and Mrs. George Trimble and children spent Sunday visiting his parents in Amarillo.

Mr. and Mrs. Will Crowell, of Amarillo, visited in the Oren Crowell home, Sunday.

Tommie Horton left Monday for East Texas, to attend the funeral of his father, who passed away Sunday evening.

Miss Billie June Douglas arrived Thursday from Nash, Oklahoma, to attend school here.

Jewel Tate attended the baseball game in Friona, Sunday.

Mr. and Mrs. Chester Norton and son, Rex, left Saturday evening for Alamogordo Lake, returning Sunday.

Mr. and Mrs. Dick Dickerson and children, of San Gabriel, Calif., who have been visiting Mr. and Mrs. Giles Williams, left Saturday for their home.

Miss Anna Mabley, of Lubbock, visited her sister, Mrs. Frank Miller, the past week.

Mr. and Mrs. Byron Dial and children, Mr. and Mrs. Johnnie Hays made an extensive trip to Vancouver, Canada and Tia Juana, Mexico, and along the coast, visiting relatives in ten different states and two foreign countries.

J. B. Riddling returned to his home Saturday evening after spending a few days in Santa Fe, with relatives.

J. M. Crowell, of Texico, visited here Monday.

Mr. and Mrs. Hubert Davison and daughters, were Clovis shoppers, on Tuesday.

Mrs. Elizabeth Dial is on the sick list this week.

Miss Christine Davies left the past week, returning to school at Lubbock.

Mr. and Mrs. Travis Lloyd and children, of Childress, Tex., are visiting relatives here this week.

J. A. Potts has installed a garage in the Lady Gaines building.

Miss June Hart left Monday for Amarillo, to attend business college.

Reagan Looney made a business trip to Adell, Texas, this week.

Miss Aletha Hastings left Sunday for Vega, Texas, where she will be a teacher.

Mr. and Mrs. Bonnie Potts, of Hollis, Okla., visited in the John S. Potts home the past weekend.

Mr. and Mrs. Herbert Potts are now living at Borger, where he is employed.

Lawrence Starr was a business visitor in Farwell, Monday.

Bovina School News
 Miss Estella Garruth resigned after one week, and Mrs. Aubrey Brock will take her place.

The Defense Class in wood working will begin Monday with A. G. White as instructor. We expect about 15 students, and others interested are invited to come. The tools are being purchased in Amarillo.

Lieut. C. Vincent Hall, U. S. Army retired officer, gave an interesting program Friday evening about Egypt.

Bovina Works Hard For First Football Season
 The Bovina Mustangs are hard at work, rounding into condition for their first game, which will be Sept. 19th. This is the first year football has been played here. The opponent for the opening game will be McAllister, N. M. The first home game will be on Sept. 26th, probably with Adrian.

There are fifteen boys out for the six-man team, with a starting lineup averaging about 155 lbs. Recruits include Earl Johnston, John Paul Ray, Charles Hawkins, Wayne Lovelady, Dean Eates, Jimmie Charles, Jerry King, Nolan Rhoads, Bass Elliott, Jimmie Ray Glover, Donald Norton, Jackie Barnett, Bobby Ray, Harold Jean Starr, Wayne Smith.

A practice game will be held Friday evening among the high school boys, at 2:45 o'clock.

School Opens Sept. 2nd
 The local school began on Sept. 2nd, with 70 in high school and 120 in grade school, and a faculty of nine teachers.

There are 25 high school band members and 20 in grade school.

WPA librarian services have been discontinued, and the work this year will be done in part by the two NYA students allotted the school.

Girls basketball has been removed on an interscholastic league basis. The games will be held only as inter-class rivalry.

Assembly is held regularly each Wednesday at 10 o'clock. Visitors are always welcome.

The school is operating on the hour-class schedule, rather than 45 minutes. This change has eliminated four so-called study halls, and has favored the preparation of work being done at the regular class period.

Congratulations To
 Mr. and Mrs. Leroy Berggren on the birth of a son, Saturday evening Sept. 6th.

Mr. and Mrs. Boyce Belew, formerly on Bovina but now of Albuquerque, on the birth of a son, Sept. 4th.

Sunday School, 10 a. m.
 Preaching Hour, 11 a. m.
 B. T. U. hour, 7:30 p. m.
 Preaching Hour, 8:30 p. m.
 W. M. S. meets each Monday at 4 p. m., at the church.

Prayer services each Wed. at 8 p. m., with Wednesday night following each first Sunday as regular conference and business meeting of the church.

There were 129 on time for Sunday School last Sunday, with several more arriving late. Approximately 200 were present for the preaching hour, with one addition to the church by letter. There were some 60 for the B. T. U. hour Sunday evening, with a much larger number for the evening preaching hour. Sixteen women attended W. M. U., on Monday, the theme being "Cooperative program".

At the eleven o'clock hour, Sept. 15, the Children's Home of Portales will bring a special program to the local church. A love offering will be taken for the support of the home, which will consist not only of cash, but of canned goods, fruits, etc., and items which the Home can use. A basket lunch will be spread at the noon hour, enabling each of us to become better acquainted with the boys and girls from the Home, and to have fellowship with our friends and neighbors. All are cordially invited.

"Come thou with us and we will do thee good."
 "The church with a friendly welcome."

METHODIST CHURCH
 Church School, 10:00.
 Morning Worship, 11:00. Subject: "When God Lets Us Down."
 Evening Worship, 8:15. Subject: "Rediscover Christ."
 All are invited to attend these services.

E. J. Sloan, Pastor.

CHURCH OF CHRIST
 Lewis C. Cox, Minister.

MY HAIR STANDS ON END when Daddy monkeys with the carburetor

When Daddy finally comes up for air, with his hands all black and his face all red, he shouts words that Mummy says aren't for a child's ears.

"Whattheblankety blank is the matter with this motor", he says.

She answers, "Don't you dare swear in front of our little angel!" (that's me) . . . and then the hair-raising-battle begins.

It's all so foolish and useless, when Daddy . . . and you, too . . . can get custom-tailored Phillips 66 gasoline,

without paying a penny extra. Yes sir, it needs no carburetor tinkering. It is re-matched every month to the climate in your locality.

Today's Phillips 66 isn't merely a late summer gas. It is actually a September gasoline. And there is hardly a day in 365 when its high test and high anti-knock ratings are not unsurpassed in its price class.

See if you don't feel that difference with your very first trial tankful . . . at any Orange and Black 66 Shield.

Phill-up with Phillips for Greater Mileage

LANDSCAPE DESIGN SHOULD BE SIMPLE

COLLEGE STATION—Since the beauty of a landscape depends upon its well kept appearance, this should be kept in mind by busy people when their original design is made, says Sadie Hatfield, extension specialist in landscape gardening.

There are some arrangements which will aid substantially in making the home grounds easy to keep in a neat and orderly condition. The design should be simple. Well screened work and play areas will help to keep the public area from becoming cluttered. The lawn should be kept unbroken except for shade trees, which should be placed where they are needed.

Flowers and shrubs scattered about make the lawn difficult to mow. Beds of flowers here and there not only make mowing difficult but they are hard to cultivate because they have to be worked by hand. When flowers are placed in the vegetable garden, they may be cultivated along with the vegetables.

In order to save time in caring for

the landscape, only hardy shrubs and trees should be used. Plants which are not adapted to the local soil, climate and rainfall are a source of worry, work, and disappointment, Miss Hatfield cautions.

The use of dwarf and low growing shrubs also is a time saver because they need less pruning. Another method of saving time in the landscape is to retain the natural rainfall. This will reduce the amount of irrigation needed for grass and trees.

In choosing grass for the lawn, labor should be considered. Perhaps bermuda grass is the best all around lawn grass for the state as a whole, but it has the disadvantage of spreading rapidly to cultivated areas and it requires frequent mowing. The native buffalo grass, which is often called curly mesquite grass, looks like bermuda but requires less mowing. It does not grow as tall as bermuda unless it is watered and fertilized excessively. Buffalo has the added advantage of being easy to destroy through cultivation. Hence it is not a pest in gardens and fields.

Individual shrubs or hedges pruned to stiff and definite forms require

more care than plants allowed, or trained, to grow into natural forms. An informal and natural landscape will require less care than a formal landscape.

SANTA FE CARLOADINGS

The Santa Fe Railway System carloadings for the week ending Sept. 6, 1941, were 20,576 compared with 18,243 for the same week in 1940. Received from connections were 8,060 compared with 5,871 for the same week in 1940. The total cars moved were 28,636 compared with 24,114 for the same week in 1940. The Santa Fe handled a total of 31,486 cars during the preceding week of this year.

Of the total amount spent by the railroads for advertising space in newspapers and magazines and radio time and talent in 1940, newspapers received 74.7 per cent, magazines 20.7 per cent, and radio 4.6 per cent, according to the Association of American Railroads.

Garlic placed on screen shelves in the loft of a barn cures better than if placed on the floor of the loft.

Huge Midway Feature At South Plains Fair

LUBBOCK—Featuring four shows that last year were outstanding at the New York's Fair, the Beckman and Gerety Shows, one of the largest carnival companies in the United States, will present a new type of midway this season at the 28th annual Panhandle South Plains Fair, October 6 to 11.

A full mile of glittering, streamlined, modernistic midway with 26 thrilling rides and 20 attractive tented theatres, have been combined by Beckmann and Gerety to make their midway the nation's largest and most beautiful. More than 30 acres of amusement and thrills are illuminated by eight Diesel light plants, seven large beacon light towers that are visible for miles, thousands of bulbs and more than five miles of brilliantly colored neon tubing.

The four added attractions from the World's Fair include the celebrated Zorima Sun-Bathers, the show that played to more than 3,000,000 people last year and is now making its first tour of the larger fairs; Zorima was the most photographed woman in America last year, her picture being used by practically every magazine and newspaper in the country. Other featured attractions are the Midget Village, Wilson's Expedition Show, the London Glass House, and Royal Ice Palace Skating Revue.

New attractions also include the Casa Rhumba show, an international revue with artists from "south of the border"; Gay Old New Orleans, negro show with 38 talented negro performers; Hollywood Monkey Circus; Shumway's Thrill Show and Globe of Death; Illusion House of Magic; Kortez circus side show, said to be the largest collection of freaks and strange people in this country; and the "Monsters" show.

Rides are available for the sensation seeker and for the more sedate, including the latest Spitfire ride, named after the British fighting plane.

Beckman and Gerety have played many of the larger state fairs this season, including Michigan, Kansas, Iowa and Oklahoma, and will go from Lubbock to the Louisiana State Fair at Shreveport. It is the largest carnival that has ever played on the South Plains.

"AVIATION STUDENTS" IS NEW ARMY TERM

Young men who are learning to fly the new planes of the United States Army Air Corps are no longer "Flying Cadets", they are now "Aviation Cadets". This is due to the new War Department order authorizing the training of enlisted men as pilots in the Air Corps. These enlisted men are called "Aviation Students", to distinguish them from the young men who will be commissioned officers upon their graduation from flying training.

The qualifications for aviation student are essentially the same as the qualification for aviation cadet, with the exception of the difference in the educational requirements. For the aviation student, the young man needs only a high school education, while for the aviation cadet, at least 60 hours of college work is required.

The aviation student upon graduation from flying training is not commissioned an officer but is rated a Staff Sergeant pilot, with a pay of \$108 a month, while the aviation cadet, upon completion of flying training, is commissioned a 2nd Lieutenant, Air Corps Reserve.

A PREDICTION ABOUT HOSE

COLLEGE STATION—Beautiful cotton hose, the kind women will be proud to wear, will be one result of the present hosiery situation. That's a prediction of Dora R. Barnes, clothing specialist for the A. & M. College Extension Service. Just how long it will take to develop that kind of cotton hose, she won't say.

"Somehow I can't get excited over the present shortage of silk hose, for something good will come out of the situation," Mrs. Barnes explains. Other fibers, such as nylon, probably will be used more and more. Already manufacturers are combining nylon and cotton in hose, making cotton tops and toes and the remainder of the stocking nylon.

In addition, rayon will be used more in hose, since the United States ranks third in the production of that material. It can be made into hose that will wear well and are attractive.

Most women use little silk these days, the specialist points out, since so many other beautiful synthetic fibers are available and the cost of pure silk is so high. In many small stores it is impossible to buy pure silk.

Because of the current interest in the hose situation and in new cotton hose which are being developed, Mrs. Barnes will broadcast on the Texas Farm and Home program from stations WBAP, KPRC, and WOAI on September 16 at 6:15 a. m. Her topic will be "The Cotton Hose Situation."

Present ceiling prices of 43c per lb. have been placed on cotton print cloth by the Office of Price Administration and Civilian supply.

an ALL-IN-ONE DISH for supper saves work on a warm day

says Dorothy Greig

WHEN the day is bright and sunny that's the time to heed the call of the not-so-wild outdoors.

Meals to prepare? Of course—but let's plan things that don't demand hours in the kitchen. Hot food the family must have even when the temperature is soaring. But for many a meal just open cans of condensed soup, add water and heat. That's one appetizing way to take care of the hot food situation. Soup is light, easily digested and stimulating.

Or maybe at other times a nourishing hot main dish casserole is the answer. This can be put together in the cool morning hours and parked in the refrigerator until baking time. If, in the casserole you include vegetables as well as meat, so much the better.

One of my most savory all-in-ones is a zesty dish of chicken and noodles, tender young carrots and chopped celery in a tempting sauce and topped with hot stuffed

eggs. It is a dish to satisfy demanding outdoor appetites, yet the actual cooking time is but a brief thirty minutes.

Chicken and Noodle Casserole with Vegetables

1 can condensed cream of mushroom soup
1 can condensed chicken noodle soup
1 1/2 cups cooked diced chicken
1 1/2 cups diced celery
1 1/2 cups diced carrots
3-4 eggs, halved and stuffed

Cook the diced celery in boiling water (no salt) for 15 minutes, then add the diced carrots and continue cooking until tender. Drain. Combine the cream of mushroom and chicken noodle soups. Then add diced chicken, diced cooked celery and carrots, mix well and pour into a casserole or baking dish. Put into a moderately hot (375° F.) oven and heat for 20 minutes. Then arrange stuffed eggs on top of casserole and heat for 5-10 minutes longer. Serves 6.

Root rot fungus spreads by slow growth along roots from plant to plant, even when they are dormant, at the rate of a foot or so a month.

Pan-America, a new fine quality tomato with high resistance to fusarium wilt, has been developed by plant breeders in the USDA. It was developed from a cross between Marglobe and a wild species from Peru.

One scrapped automobile has enough iron and steel to make a light cannon, and twenty cars have enough for a light tank. Two and one half million autos go on the dump yearly.

Beans of the rattle-bush, a leguminous shrub which grows in some parts of Texas, may have value for repelling rodents, according to scientists.

LOOKING TO THE FUTURE

By JASON O. GORDON
County Agent

NEED FOR COMMUNITY MEETINGS

With 175 people in attendance at the county-wide meeting at Friona last Friday evening, to attend the educational picture show, it is evident we are again interested in community meetings.

Community meetings offer the best opportunity for an exchange of ideas, and a review of the latest available material on agricultural subjects. I am not one to favor inviting outside speakers to every meeting. Our high school students demonstrated their ability to plan and conduct commencement programs this past year. Surely they received more benefit than anyone else, because they devoted so much time in preparation.

We have very capable leaders in all our communities who would be glad to assist in programs if they were called on. It is only natural they would hesitate to volunteer their talents, but those in the community who recognize these qualities in their people should encourage their participation.

The finest musical program we have ever had at one of our agricultural meetings was presented last Friday evening. We have always recognized the importance of music and group singing, and Judge Lee Thomson suggested we invite Arlie Green, of Friona, to have charge of this feature. Mr. Green was kind enough to accept this responsibility, and arranged a very interesting program. The interesting part of the program to me was the fact most of the musical numbers were presented by home talent. He also invited a ladies' quartet from Clovis, whose singing would appeal to any person.

Eric Rushing, chairman of our Cotton Industry committee, refused to introduce his part of the program, but he carefully planned every detail of presentation with Miss Mary Stanford, Friona home making teacher, so her pupils would understand when they were to appear. Miss Stanford presented twelve of her pupils, wearing dresses made of 100% American cotton they had designed during the summer. These young ladies are to be congratulated for their outstanding achievements.

Programs arranged and presented by home folks are the type that ap-

peal to people. We can build interesting and educational meetings if we undertake the job. We have the available material in Parder county. So what do you say... let's start our community meetings this fall and "Keep 'Em Going"!

SURPLUS FOODS LISTED

COLLEGE STATION—Foods obtainable with blue stamps in Texas stamp plan areas during September are the same as those available during August, according to the Department of Agriculture's Surplus Marketing Administration.

The complete list of surplus foods for the period September 1 through September 30 includes: fresh peas, plums, prunes, apples, oranges and peaches; fresh vegetables (including potatoes), corn meal, shell eggs, raisins, dried prunes, hominy (corn) grits, dry edible beans, wheat flour, enriched wheat flour, self-rising flour, enriched self-rising flour, and whole wheat (Graham) flour.

For a better class of Job Printing Phone 2131.

SHOOTING HOURS IN OTHER PORTIONS OF STATE, 7 A. M. TO SUNSET.

BAG LIMIT—NOT MORE THAN 12 PER DAY AND NOT MORE THAN 12 IN THE AGGREGATE OF BOTH MOURNING AND WHITE-WINGED DOVES IN ANY ONE DAY OR IN POSSESSION AT ANY TIME.

—From Texas Game, Fish and Oyster Commission

PLEASANT HILL

Mr. and Mrs. I. L. Cone, of Clovis, visited in the W. P. Kays home last week.

Mrs. John Hightower, Jr., and Miss Betty Jo Hightower left Saturday for San Antonio, Tex.

Mr. Winkles purchased a '41 Plymouth coach last week.

Grandma Hopper returned last Thursday to visit her daughter and son.

Evelyn Parker sustained injuries, Sunday, when she stepped on a garden rake. One tine passed entirely through her big toe.

The ball games Friday between Ranchvale and Pleasant Hill showed some good material here this year, but Ranchvale walked away with both games.

Bro. Godsoe will be here next Thursday again. He rendered a very impressive sermon last Thursday evening at 7:30.

Mr. and Mrs. R. L. Day, Sr., visited in this community, Sunday.

Word has just been received that Mrs. Okey Erickson is in the Clarinda Hospital, at Clarinda, Iowa. She will be remembered here at Okey Snodderly. Heart trouble is causing her illness.

Mrs. Lorene Martin is ill again and has been taken to Clovis.

Texas Panhandle Eats Its Own Wheat

COLLEGE STATION—Panhandle people who raise wheat say there's no sense in selling their wheat for 75 cents a bushel and buying the germ back in vitamin concentrate tablets at five cents apiece.

That's why the Food for Defense program in most Panhandle counties started with observance of "Whole Wheat Week," says Doris Leggett, Extension Service district agent who supervises home demonstration work in 22 Northwest Texas counties. County land use planning committees, who sponsored the movement, wanted first to make it easy for farm families to get whole wheat flour and cracked wheat at prices they could afford to pay. Then they wanted people to get their Vitamin B1 from one serving a day of a whole grain product rather than buy it from the drug store.

Cooperating in the campaign to eat Panhandle-raised wheat were flour mills, grocers, 4-H and home demonstration clubs, home economics classes, cafes, newspapers, radio stations, service clubs, women's study clubs, and farm organizations.

Here are some highlights of movement:

Hansford County home demonstration club women have arranged exhibits of whole wheat products in grocery stores, and growers engaged in a county-wide wheat improvement program have become interested in better nutrition. Many homemakers in Hutchinson county have canned their own whole wheat, Miss Leggett says. In addition, members of the county home demonstration council in that county have helped distribute recipes for using whole wheat to all the families in the county.

Mrs. J. N. Bridwell and members of the Texoma Girls' 4-H Club in Sherman county have taught many of their neighbors to make good whole wheat bread. Grocers in Moore county are now stocking graham flour in large sacks, now that there is a demand for it.

A new process for making cotton and other fabrics mildew-resistant has been developed in the Bureau of Home Economics. A public service patent issued to the research worker who developed the treatment will make the process available to anyone without royalty payment.

REDUCE KITCHEN CASUALTIES

COLLEGE STATION—Life insurance companies have figures showing that many thousands of deaths and disabling accidents each year result from accidents in home kitchens. To cut down on kitchen casualties, Louise Bryant, Extension Service specialist in home management, suggests a check-up to make this important room in the house safe.

A third of the deaths of children under five from home accidents come from scalds and burns. To avoid such tragedies, cook with the handles of pots and pans turned to the back of the stove so they'll be out of reach of children.

Safety catches can be put on petcocks to prevent children from turning knobs on the gas stoves; matches can be kept in non-inflammable containers out of their reach.

Canning in a pressure cooker and deep-fat frying are two of the more dangerous cooking jobs, so children should be kept out of the kitchen

during these processes.

"Be sure to cover your hand with a cloth before you lift the cover from a steaming kettle or roaster," Miss Bryant advises, "and lift the lid side of the lid first!" Here are other warnings:

Fat accumulating under a broiler is a fire hazard.

Long, loose, flowing sleeves are dangerous. Cook in short sleeves and plain, smooth aprons and dresses.

Keep your curtains safe by fastening them so they can't blow in a fire, or by fireproofing them.

Don't touch anything electrical with a wet cloth or wet hands or when you're standing on a wet floor.

A fire extinguisher for the kitchen is a good safety investment, especially for homemakers who live in the country.

Buy U. S. defense bonds and stamps.

For protein, eat eggs.

DO YOUR CHILDREN GET THEIR MILK QUOTA?

1

QUART A DAY is what each

child in the family should get. It's easier to remember, a quart a day, every meal and every time they come home for that after-school snack. Because milk is so essential, insist upon giving your children pure, wholesome milk. It contains precious vitamins they need. Try it tomorrow. All children like its rich flavor.

Henry London

Spindle Top STARTED IT!

Forty years ago an oil gusher roared in on a low hill south of Beaumont to open a new industrial era for Texas.

That discovery at Spindletop started our modern Texas petroleum industry and made Texas the nation's leading oil state.

In the forty years since Spindletop blew in, nearly 200,000 wells have been drilled throughout Texas. Over 500 separate fields are now producing in all parts of the State. Today Texas supplies over one-third of the Nation's oil and has over half of its petroleum reserves.

Our industry, by refining almost all of this oil in Texas, has created our largest manufacturing enterprise. By furnishing cheap fuel it has laid the foundation for many other Texas industries.

From a handful of Texans forty years ago, this industry has grown until now, directly or indirectly, it supports almost one million of our people. Its expenditures reach into every section of the State and benefit every Texan.

The discovery of America's first gusher oil field at Spindletop has turned out to be one of the most important events in the history of our state.

Today all of Texas salutes Spindletop!

On October 9, 10 and 11, during its annual convention at Beaumont, the Texas-Mid-Continent Oil & Gas Association will dedicate a monument to Spindletop.

Inscribed in ageless Texas granite will be the story of oil.

This is more than a monument to petroleum. It is a tribute to Texas enterprise and initiative which in forty years have built a great industry in our State—an industry in which you and every other Texan share.

This advertisement paid for by various units of the industry and sponsored by

TEXAS MID-CONTINENT OIL & GAS ASSOCIATION

Local Happenings

Mrs. Dennis Speaker At Club Luncheon

Mrs. F. ed Dennis, president of the New Mexico Federation of Business Clubs, was guest speaker, Monday at one o'clock, when members of the Texico-Farwell club assembled for the annual luncheon at the dining rooms at La Vista, in Clovis.

Mrs. Dennis was introduced to the ladies by Mrs. W. H. Graham, and spoke on the national club convention, which was held the past spring in Atlanta, Georgia.

Musical numbers were given by Mr. Scott, of Scott Music Co., in Clovis, who played several selections on the Solo-Vox.

The dining table was beautifully decorated with bouquets of fall flowers, and seated the following: Mesdames E. E. Booth, John Porter, Johnnie Williams, Marty Ezell, Clyde Magness, V. Scott Johnson, Loyd Cain, J. P. Macdonald, Mose Glascock, Earl Booth, W. B. Hill, W. H. Graham and Fred Dennis.

Following the luncheon, a business session was held, with Mrs. Cain in charge.

Reception Arranged For Faculty

Members of the Farwell faculty will be honored, Thursday evening of this week, when the Parent-Teacher Association of the school holds its annual reception, at the school building.

The following program has been arranged:

Group singing, "God Bless America".

Welcome, Mrs. Johnnie Williams, PTA president.

Response, Lester Rogers.

Introduction of teachers, Supt. J. T. Carter.

Musical program, arranged by Mrs. Florence M. Vinyard.

At the conclusion of the program, a social hour will be enjoyed and tea served. Those in charge urge that all parents make it a point to attend the reception and meet the new instructors, as well as renewing acquaintance with returning members.

Mr. and Mrs. Dick Hunter returned home Monday from a week's vacation, visiting Ruidoso and Hot Springs, N. M.

Nuptials Performed In Powers Home

Miss Clay Jernigan became the bride of Harley Joe Bussanmas, the past Saturday morning at 9 o'clock, in a simple ring ceremony performed by Rev. W. C. Wright in the home of Mrs. Warren Powers, in Farwell.

The bride was attired in a street dress of black crepe, with accessories in matching tone. A shoulder corsage of white gladioli was the accent of the costume.

She is the daughter of Mrs. Jewel Stevens, of Farwell, and a graduate of the local high school. Mr. Bussanmas, son of Mr. and Mrs. H. J. Bussanmas of Amherst, graduated from that high school.

Following a honeymoon trip to Ruidoso, N. M., the couple took up residence in Canyon the first of the week, where both will enroll as sophomores in West Texas State College.

Fall Flowers Used As Shower Decoration

Featuring a background of fall flowers for decoration, a miscellaneous bridal shower was given at the home of Mrs. Carl McGuire, in Texico, last Wednesday afternoon, in the home of Mrs. Carl McGuire, in Texico. The honoree was formerly Miss Annabel Cranfill, of this city.

Hostesses at the affair were Mrs. McGuire, Miss Adabud McGuire, Mrs. J. E. Randal and Miss Madaline Randal.

The tea table carried out a color scheme of lavender and pink, with crystal appointments being used. Pink candles were used among clusters of asters, and Misses Amy Jane Atkins, Geraldine Thomas and Adabud McGuire were in charge of serving.

Around forty guests signed the bride's book, which was in charge of Miss Helen Jo White.

Chicken Fry Is Held By Texico Faculty

The annual chicken fry for the Texico faculty, along with invited guests, was held the past Friday evening, at Hillcrest Park, in Clovis.

The meal was cooked at an open fireplace in the park, after which a social hour was observed by Mr. and Mrs. Warren Powers, Mr. and Mrs. A. D. McDonald, Mr. and Mrs. H. Arnold, Mr. and Mrs. Lee Richards, Mr. and Mrs. L. A. Hartley, Mr. and Mrs. Wesley Osborne, H. K. Hartley, Misses Hazel Metcalf and Maude Pearson.

Missionary Institute In Portales, 16th

The Missionary Institute for all Methodist churches in the Portales district will be held in Portales, on Tuesday, September 16th, it was announced here this week, with Rev. E. J. Sloan, local pastor, asking that a good attendance be made from the Texico-Farwell congregation.

Rev. Geo. W. Shearer, district superintendent, of Clovis, will act as the presiding officer. The program will begin at 2:30 p. m., New Mexico time, and conclude after an evening service.

The program has been arranged as follows:

"Love Feast," Dr. R. C. Cantrell.

"Where We Work—A Survey," "Foreign Field," Mrs. Perry Keith;

"In The Conference," Dr. C. A. Clark.

"How Are the Benevolences Raised and Spent?" Rev. John Cox, round table.

Address, "Rallying The Church," Rev. R. C. Hoy.

Supper, B. N. Graham presiding.

Evening, Missionary moving picture, Dr. Gossard, lecturer.

Classes At Texico Elect Officers

Following individual meetings, high school classes of Texico organized for the year, the past week, and have named the various officers as given below:

Seniors—Lila Boss, president; Wanda Boss, vice president; Edna Earle Thompson, secretary; Dorothy Paul, reporter; Mrs. Hershel Arnold, sponsor.

Juniors—Pearl Martin, president; Betty Lee Williams, vice president; Eillie Nelle Thompson, secretary; Marjorie Selman, reporter; Pearl Martin and Billie Thompson, candy store officials; Mrs. Edith Osborne, sponsor.

Sophomores—Eugene Bowers, president; Calvin Blain, vice president; James Box, secretary; Helen Blair, reporter; Warren Powers, sponsor.

Freshmen—Clarence Summers, president; Bill Knox, vice president; Betty Lou Flye, secretary; Bill White, reporter; Lee Richards, sponsor.

Mr. and Mrs. Claude White and daughter, Miss DeAlva, visited in Roswell, Sunday, where they were called by the illness of Lavern Parker, a son-in-law, who sustained an emergency appendectomy last Friday. Latest reports were to the effect that Mr. Parker was recovering.

Tom Thumb Wedding Given At Shower

Mrs. Harley Joe Bussanmas, the former Miss Clay Jernigan, was honored with a bridal shower, the past Friday afternoon, when Misses Wadda and Sylvia Pearce and Mrs. Warren Powers entertained in the home of the latter.

A "Tom Thumb" wedding was the entertainment feature of the afternoon. Little Anita Powers was the bride, entering to the strains of the "wedding march on the arm of her father", Jimmie Ray Powers. Her long train was carried by Sam Pool, while "Bug" Johnson served as ring-bearer. The groom was Bobby King, and "Rev." Carey Joe Magness read the vows. Before the ceremony, Nancy Johnson sang "I Love You Truly". Mrs. W. H. Graham was in charge at the piano.

Miss Pat Bagley presided over the tea table, which featured crystal service, with a large basket of asters and zinnias being arranged before the table. Bouquets of fall flowers were arranged about the entertaining rooms.

Signing the guest book were: Mesdames O. B. Pipkin, W. C. Wright, Lenton Pool, Aubrey Sprawls, Roy Bobst, W. H. Graham, Clyde Magness, G. D. Anderson, Alvina Sharpe, Claude Thomas, Olen Schleuter, Lester Rogers, J. T. Carter, Verney Towrs, S. G. Billington, Stanley Hillhouse, Ermon A. Miller, John Porter, G. C. Danner, V. Scott Johnson, M. C. Roberts and Jewell Stevens; Misses Jane Loke, Flora Lee Williams, Merle Lovelace and Pat Bagley.

Regrets were sent from: Mesdames Jack White, Morsan Billington, Marty Ezell, Sterlyn Billington, Bess Henneman, D. K. Roberts, Jack Dunn, J. H. Martin, Claude Rose, John Lockhart, David Harrison, T. A. McCuiston, Hamlin Overstreet, Edd Eason, Frank Phillips, W. T. North and Vance Crume;

Misses Geraldine Thomas, Helen Jo White, Margaret and Nora Lee Dotson, Freida Acker, Iris Thornton, Mary Jo and Evelyn North, Madalyn Taylor, Reba and Johnnie Hillhouse, and Billie Louise Sharpe.

Glenn White Here

Pvt. Glenn White, son of Mr. and Mrs. Dude White, is here for a few days visit with home folks, before going to West Palm Beach, Fla. He has been stationed at Chanute Field, Ill., the past few months, where he received instruction as an airplane mechanic. Glenn says he likes Army life and is very happy in his work.

Lecturer Coming

Ernest Thompson Seaton, noted lecturer on Indian habits, lives, etc., is to appear in Farwell on September 25th, being presented under the auspices of the local Woman's Club. Seaton comes here from the Seaton Indian village, near Santa Fe, and will be accompanied by his wife and daughter. Details will be revealed next week, club members announce.

Mrs. Lokey Hostess To Bridge Club

Mrs. Noma Lokey entertained the Tuesday Bridge Club last week, with all members and one guest in attendance.

After an evening of play, refreshments were served to Mrs. J. P. Macon, guest; Mesdames Walter Mansfield, Bess Dow, Bessie Lee Henneman, Claude Rose, Jimmie Rogers, M. C. Roberts, and Miss Jennie Lee London, members. High score prize went to Mrs. Macon.

Visits Here

Pvt. Frank Thompson, who has spent the past several months in training at Scott Field, Ill., is here visiting his parents, Mr. and Mrs. F. E. Thompson. He is enroute to Mathers Field, in California, for duty.

Pie Supper Friday

A pie supper will be held at the Midway school house, at 8 o'clock Friday night, September 12. The public is cordially invited to attend.

CELEBRATES BIRTHDAY

Carey Jo Magness celebrated his tenth birthday, last Saturday, with a party at his home in Farwell. After several games, the children gathered around a decorated table, featuring the birthday cake topped with pink candles. Crepe paper streamers led from the center of the table to a nut cup of candy and favor for each child.

Enjoying the affair were Jack Lindsey, A. C. Henneman, Ray and Ted Magness, Bobby King, Ernest Lokey, Jerry Pool, Robert Armstrong, Donald Ford and the young host.

Mr. and Mrs. Kenneth Ballard and family visited with relatives in Plainview, Sunday.

Mr. and Mrs. Sam Rundell had as their weekend guests Mr. and Mrs. U. R. Jordan and son, Ben Wayne, of Clarendon, Texas.

Mr. and Mrs. M. B. Laney, of Tyler, Texas, visited the past weekend with her sister and brother, Mrs. Jimmie Rogers, and Gabe Anderson, of this city.

Miss Reba Hillhouse, business college student at Amarillo, spent the weekend here with relatives.

Mr. and Mrs. Jack Wilkins, who visited here last week with Mr. and Mrs. J. H. Martin, departed during the weekend for Fort Worth.

Mr. Dee Bilbrey and baby, of Tatum, N. M., visited the past weekend in the home of her parents, Mr. and Mrs. E. G. Blair, near Texico.

Mrs. Joe Hromas and sons, Eugene and Oran Glenn, who have been visiting relatives in Sagerton, Stamford and Albany, have returned home.

E. J. Sloan departed Saturday for Abilene, Texas, where he will attend McMurry college during the current term. Rev. and Mrs. Sloan made the trip to Abilene and saw their son settled.

Lee McDaniel has gone to Lubbock, to enter Texas Tech for the present term.

Misses Jaquetta Strickland and Billy Hall, who are attending school in Amarillo, were here for the weekend to visit relatives.

Mr. and Mrs. E. Knight and Mr. and Mrs. Gene Coffman visited the Carlsbad Caverns, over the weekend.

NOTICE!

For the benefit of our Texico-Farwell patrons, we announce the establishment of a pick-up station at the Red Cross Pharmacy. Deliveries and pick-ups will be made each Wednesday and Saturday through this firm.

Clovis Steam Laundry

Phone 48 Clovis, N. M.

Lee Bradshaw, of Omaha, Nebraska, was here for a visit with relatives, the past weekend and on his return was accompanied by Mrs. Bradshaw, who had spent several weeks with Mr. and Mrs. Bob Kyker.

Dr. G. A. Foote, of Lubbock, visited with friends here, last Wednesday afternoon.

Miss Helen Jo White and Misses Wanda and Sylvia Pearce have gone to Portales, to enter Eastern New Mexico College for the current term.

Dick Crume and John Graham spent the past Wednesday in Amarillo.

Miss Verna Miller, who is visiting relatives in Saratoga, Ind., attended the state fair in Indianapolis, last week.

Mr. and Mrs. J. D. Thomas and family spent the past weekend visiting relatives at Floydada, Texas.

Mr. and Mrs. Jim Moss announce the arrival of a daughter, Monday.

STUDENTS ENROLL

Supt. L. A. Hartley stated this week that a number of additional students had enrolled in the Texico school up to Tuesday, with an increase of three in high school, and some ten or twelve in the grade division.

POLITICAL DYNAMITE

There was real political dynamite behind that letter President Roosevelt sent the Young Democrats convention in Louisville blasting Democratic isolationists as "obstructionists who are in the wrong party."

The scorching attack was a tip-off on undercover plans which may make next year's congressional elections the hottest in years.

Nothing has been said about it, but certain administration and Republican leaders have discussed uniting Democratic and Republican forces to oppose all congressional isolationists regardless of party label.

Under the proposed plan, Administration-G.O.P. backing would be thrown behind incumbent anti-isolationist congressmen whether they are Democrats or Republicans. Furthermore strong coalition candidates would be entered against isolationist congressmen seeking reelection.

One of the most significant things about the plan is that it has the hearty approval of Wendell Willkie.

Discussing it with a group of friends the G.O.P. standard bearer declared, "The people should have the opportunity in every senatorial and congressional election next year for a clear-cut expression of opinion on this all-important issue of foreign policy. This referendum should not be cluttered up with phony or inconsequential issues."

"In districts represented by isolationists we should put the strongest candidate in the field we can get, regardless of his party label or economic views. I'd like to see young men and women brought into this campaign. Let's get away from the old political hacks. Let's bring youth into this fight. It's theirs primarily and they should be in the lead in it."

"Personally, I am prepared to support anti-isolationist candidates regardless of their party affiliation or economic views. If they are right on the foreign issue, then I will be for them and will take the stump for them."

SMASHED PLANES

President Roosevelt didn't announce it, but there were two big reasons why Pan American Airways is taking over the ferrying of airplanes across the South Atlantic up the interior of Africa to the Near East.

One reason has since been published, the need of American warplanes to help the British in Iran and thus protect Russian oil fields in the Caucasus.

The other has not been published—namely that the British had been wrecking an extraordinarily large number of brand new planes in flying them across Africa.

As a matter of cold, unpleasant fact, the British have been losing about 20 per cent of the planes we have been giving them.

This was partly because the British did not use their own pilots, but Czech, French, Poles and Dutch. These aviators, sometimes too full of sloe gin, and sometimes not too well trained in the tough job of handling fast war planes, have succeeded in scattering the wrecks over the heart of Africa.

Furthermore, central Africa is one of the most uncharted and difficult flying areas in the world. The hop across the Atlantic has not caused the casualties. It is the remainder of the flight, from Freetown on the west African coast, up to Egypt.

This is why Roosevelt finally called upon Pan American Airways to take over the African hop. Its pilots have done a brilliant job of pioneering the jungles of the Amazon and the peaks of the Andes. And Roosevelt figured that if anyone could fly over Africa, Pan American could do it.

'AMERICA'S ANSWER'

The OPM is just releasing for wide distribution its first post promoting its drive for greater production.

Entitled "America's Answer—Production!" it is a masterpiece of power and drama. It pictures a brawny arm twisting a monkey wrench fastened to the letter "O"—shaped like a machine nut—in the word "Production."

The artist is Jean Karlu, as free a Frenchman as ever worked with an arm. He lost his right arm fighting for Democracy in the first World war and, until the fall of France, was doing an expert left-handed job painting posters for the French government.

Recently arrived in this country, Karlu wanted to continue his fight for a free France. He submitted his poster idea in sketch form and OPM officials snapped it up.

MERRY-GO-ROUND

Taking a cue from the German Stuka dive bombers, U. S. army engineers have included a powerful siren in the midjet M3 tanks. Its shrill shriek freezes green troops, and the army is counting on its scare power, at a 70-mile an hour speed, to make advance breaks through enemy lines.

Phil Baker in his new Broadway show said he will feature a song on how to have a good time in a parked car. The song is titled "Thanks for a lovely evening, Mr. Ickes."

Kathleen Norris Says:

Girls Do Strange Things These Days

(Bell Syndicate—WNU Service.)

It is a royal advantage for a girl to live in a family. A snippy older sister, a troublesome, noisy brother, a busy hard-working father, a mother who cares enough to attend to little things—these are pure gold.

By KATHLEEN NORRIS

THE problem of the prodigal son has quieted down in recent years; mothers don't worry about their sons as once they did.

Or perhaps it's just that they are worrying more about daughters, and haven't the time they once had for anxiety about the boys.

For girls certainly are doing odd things these days.

Hundreds of them, when they get to the early twenties, want to live away from home. They are in no hurry to marry; they are not in the least concerned as to their chances of marrying; but they don't want to live at home.

One young girl I knew left mother, father, younger sister and two younger brothers, rented an apartment a few blocks away, and for the three years that preceded her marriage maintained a separate establishment, often running in to see her people, making no apologies to society, and eventually settling down into orthodox wifehood and motherhood. But most girls go away to another city, launching into interior decoration, photography, office jobs, preferring hard work, responsibility, the care of an apartment to the much easier life at home.

Mothers Are Bewildered.

It has been hard enough for mothers to lose their sons in this fashion, but it is utterly bewildering to them to lose their girls, too. It is one more of the many elements that today are destroying the American home, and women feel it, and would do something to stop it if they could. But the current is too strong. The girl knows she can be self-supporting, and the thought of the independence of her own establishment, her right to come and go unchallenged, to make what friends she pleases, intoxicates her.

A girl named Freda Sanderson puts the situation very well, and I will quote verbatim from her letter.

Freda lives in Pittsburgh; she has two older sisters, 27 and 25, and a younger brother, 19. Her father is teller in a bank; her mother, with the help of a colored girl, keeps house for the family.

"Anne is my oldest sister, a school teacher who never has had a beau and looks down scornfully on anyone who has," writes Freda.

"She is brilliant, admired and successful, but her whole interest is education and poetry. Margaret comes next, engaged for two years and to be married in two more. She and Dick murmur together in the sitting-room three nights a week. Rod is in college, but lives at home; he and a friend usually are studying in his room until ten or so, then they race downtown for sodas and movies.

Elaborate Preparations.

"If I want my crowd in at home, Mama has to make preparations, of course. Margaret and Dick will go downtown; Papa will go over to Aunt Emma's, Rod can have a snack in the kitchen. Will I and my friends be on time for supper, because popovers don't wait. No, she won't just have plain bread and frankfurters, the idea! Things must be 'nice.' Will I buy some yellow candles and send home some flowers? Will we try to remember that Papa is trying to get to sleep and keep the radio low?"

"Mama wishes I wouldn't ask the Miller girl, because her mother is

A REAL PROBLEM

Beset at home with the usual difficulties of entertaining friends, along her and their preferences, in competition with family ideas, Freda of Pittsburgh writes Miss Norris for her opinion. The young woman complains that she and her friends are crowded into a small space, only through sacrifice on the part of the family and smothered with intended kind acts by mother, brother and sisters. Unfortunately the little tributes made by her folks differ from what she and her crowd like. Then the family asks her to avoid certain guests and invite others she does not particularly care about. Freda wonders in her letter, if she should not take an apartment with another girl or two and lead her life as she pleases. Her answer from Miss Norris strikes into the heart of one problem that is helping to destroy the American home.

divorced. Margaret says not to put coats all over her bed this time. Anne says she thinks it's vulgar to ask a man whose wife I don't know. (She lives in another city; he is just a visitor here.) Dolly comes out of the kitchen to say she will make a cake. I explain that all my friends are dieting, but she goes ahead just the same, and the day of the party she can't do anything else but slop around with frosting for the cake.

"What the crowd wants is a place to bring cheese and crackers and drink milk and pop. There's nothing wild about us. We are as decent as any group in town, loving writing games and dancing, and with neither money nor inclination for night-clubs. But the way my family acts makes me want to join up with some other girl and take a little place of our own. What do you think? And should I make it a different city, to save the family face? I could be transferred to Philadelphia, but of course I would miss my friends here, and have to start from scratch. Do you think it is utterly unreasonable for me to long to get away?"

The answer is that for every good thing we have in life we have to pay something. Young wives and husbands pay in that loss of independence, that disciplining of character, that changed attitude toward old friends which is marriage. Mothers pay, every hour of their lives, for the privilege of bringing sons and daughters into the world. Single women pay, in odd moments of sharp heartache, for their freedom from family ties. We must choose what is worthwhile to us, and pay for it, as long as we live.

A Royal Advantage.

It is a royal advantage to live in a family. A snippy older sister, another older sister complacent in a happy engagement, a troublesome noisy brother, a mother who cares enough to fuss with candles and popovers—these are pure gold, when it comes to estimating human values.

Hour for hour, living at home far outweighs in advantage any other sort of living for girls. For the important secret is that there is no independence in this life for any of us, until we learn to make the claims of those we love the doorway to unselfishness and service. Then all our values miraculously turn topsy-turvy, and we discover that only whose loseth his life shall gain it

Here's a Solution to Your Apron Problem

APRON problem!! It is solved here with two exciting new motifs in the Accordion Flare and the Water Lily. Ingenious gores make the fetching style at lower left; an applique cactus is on the waistband, and rickrack trims. The softly flared apron at top is appliqued with huge water lilies on skirt edge and band, and another lily forms a handy pocket.

Complete patterns for the two aprons come as Z9364, 15 cents. They are grand for gifts or for party prizes. For these pleasing patterns send your order to:

AUNT MARTHA
Box 166-W Kansas City, Mo.

Demonstration Club Notes

Help Your Neighbor Club

The club met in the club room on August 28, and presented Mrs. Truman Daniel with a lovely bridal shower. Mrs. Daniel was formerly M'rs. Maudie Leach. A great number of beautiful gifts were received by the honoree.

Present were: Mesdames Claud Hurst, Kenneth Wise, Ralph Simpson, J. E. Johnston, J. B. Daniel, Robert Leach, Ralph Palmateer, Paul Koeltzow, Albert Drager; Misses Dona Hurst, Velma Schuler, Vera Leach, and Louise Drager.

Those sending gifts were: Mesdames J. D. Stephens, Herman Schuler, W. H. Alderson, Wagner, Robert Schuler; Misses Loretta Johnston and Cleola Hurst.

The club also honored Mrs. Ralph Simpson with a beautiful bedspread and table cloth as a farewell gift. All members regret her leaving, as she was a very active member.

Club will meet September 11 in the club room, with Mrs. Kenneth Wise as hostess.

Rhea Club

The Rhea H. D. club met Sept. 2 in the home of Mrs. C. W. Dixon. A very interesting demonstration was given on a plain but nutritious meal, by the agent, Miss Cunningham. The meal consisted of meat pie, a vegetable salad, ginger bread made of whole

wheat flour, and fresh peaches. She also demonstrated the proper way to set a table, and gave some very interesting points on table manners.

Those present were Mmes. Boye Taylor, C. L. Calaway, Claudie Potts, F. T. Schlenker, Cordie Potts, Travis Brown, O. B. Moyer, Chas. Schlenker, C. W. Dixon, and Miss Cunningham.

The club will collect Admiration and Bright & Early coffee coupons to send to the Portales Orphan's Home, which the Duncan Coffee Co. will redeem for cash. The Home is trying to pay off a mortgage. Those wishing to give coupons please contact Mrs. C. W. Dixon, Mrs. Travis Brown, or send direct to the Home.

Club will meet Sept. 16th in the home of Mrs. Travis Brown. Everyone is invited.

Oklahoma Lane Club

The Oklahoma Lane home demonstration club met in the club room Friday afternoon, for the first fall meeting.

Jason O. Gordon was present and told of a 5-county meeting that he hoped to have Sept. 25 at Oklahoma Lane. The club voted to have this meeting at the Methodist church. Later announcements will be made in the local paper.

After the business session, Miss Cunningham served a tasty meat pie and explained how to make it.

Those present were: Jason O. Gordon, Miss Elsie Cunningham; Mesdames J. R. Caldwell, A. B. Wilkerson, Levi Johnson, Thad Watkins, Lee Thompson, Ernest Foster, Jess Pruitt, F. E. Kempley, Dick Doshier, Aita Roberson.

The next club meeting will be Sept. 19. All members are urged to come and bring a home-made gift.

Fall Is Here, Grid Fever On Increase

With the appearance of padded and cleated young men on the local football field, Farwell fans this week took notice of the fact that fall has officially arrived, and grid-ever temperatures took up a decided upturn, for the first time since uniforms were doffed last November.

Although they are principally "rookies", some twenty-two boys turned out for calisthenics and priming toward the nation's sport the past week, and now are looking forward to first actual "contacts" of the season.

Only five regulars return from the 1940 squad, namely Acker, center; Lovelace and Gast, tackles; Martin, guard; and Brand, back. Billingsley, Dycus, Noack and Moore, who also saw some service the past year, are in uniform, and count on being among the "first stringers".

Other recruits include Symcox, Holland, Richey, Landrum, Dow, Green, Phillips, Sloan, Clinton and Douglas, Coach Jeff Hooper reports. **Schedule Incomplete**

With the expectation that some two or three games would be added in the near future, the schedule at present stands as follows:

- Sept. 19, Melrose, here.
- Sept. 16, Whitehall, here.
- Oct. 3, open.
- Oct. 10, open.
- Oct. 17, Springlake, here.
- Oct. 24, Amherst, there.
- Nov. 7, Anton, there.
- Nov. 15, Friona, there, night game.

Locals Lose First Softball Contests

The Texico boys and girls softball squads dropped the season's openers, last Friday afternoon, when they encountered Grady on that diamond. The boys were tumbled by a count of 6 to 3, while the girls were taken to a cleaning of 24 to 9.

Coach A. D. McDonald reported this week that the boys' game was a good match, with Grady taking the win through virtue of three homers which pushed in three other runs. The Texico boys turned in a good game, but luck was against them on the scoring end.

As for the girls, minus four regulars which the team needed badly, the locals were definitely outclassed, and Grady had a field day. Coach McDonald stated. It was the first time in a number of years that Grady had downed the locals.

Games will be played this Friday with Pleasant Hill, on the Texico diamond, the coach added, in announcing that he hoped to have his teams in good shape, with full line-ups on hand.

The Pleasant Hill boys are reported to boast a strong team, but little or no information was available on the visiting girls.

YOUNG FIREMEN NEEDED

Acting under the authority of the New Mexico Council of National Defense, Fire Chief Ira Sellman, of the Texico Fire Department, this week began the task of organizing an auxiliary fire brigade. Selman said he wanted 20 young men to make up the company of local firemen.

He explained that should the United States become involved in actual war, it was altogether likely that all older men of his present crew would be drafted for fire fighting services in the larger cities of the nation.

Application blanks to enlist in the new brigade may be obtained from Chief Selman.

Football District Is Changed For Farwell

A change in the interscholastic league district for grid games during the current season, was noted for the Farwell school this week by Supt. J. T. Carter, when he announced that the Steers this year will play in District 1, Class B.

During 1940, Farwell was entered in a league embracing Friona, Dimmitt and Claude. This year, Dimmitt was forced into a higher bracket because of increased enrollment, and Friona voluntarily entered the "A" class, leaving only Farwell and Claude in the former league.

Facing this fact, interscholastic league officials moved both the remaining teams to different districts, Carter said, throwing Farwell in the group with Springlake, Amherst, Anton and Whitehall.

5-County Meeting At Oklahoma Lane

On Thursday, September 25th, a five-county meeting will be held at Oklahoma Lane, at which time discussions on a number of farming activities will be conducted.

County Agent Jason Gordon, who made the announcement, has stated that E. R. Eudaly, specialist from College Station, will be the principal speaker on the program, explaining in lucid detail the various points listed for discussion.

Some things of interest to attending farmers will include: cotton varieties, cotton breeding; grain sorghum varieties, combining types of sorghums, and breeding; effect of root rot on non-resistant strains of milo, strip cropping to prevent wind erosion; irrigation, including best times for such work; and rotation of crops.

Gordon urges that farmers plan to attend the meeting, which is open to anyone interested. Further details will be given later.

ENROLLMENT UP

Enrollment at the Farwell school increased to 247 during the past few days, Supt. J. T. Carter said Monday. One pupil was added to the third grade, making a total of 22; two in the fifth grade, totaling 19; one in the sixth, total 15; one in the seventh, total 18; one freshman, total 33; three sophomores, making 34; and three juniors, making 31. In the enrollment for the year are three post-graduates, Carter added.

Early Cold Spell Hits Plains Area

The earliest cold spell that has hit this section of the country in recent years sent local residents shivering to the clothes closets for extra clothing Tuesday morning.

A shower of rain, borne on the wings of a stiff breeze from the north, fell here late Monday evening and the thermometer reading dropped to 44 at the local Santa Fe station. Heavy snows fell throughout Colorado and extended to the mountainous sections of northern New Mexico.

During the weekend, scatterings showers fell over most of the county, along in the fall planting of wheat. E. R. Sporkman, of the extreme eastern side of the county, reports a half inch of moisture at his place on Friday night of last week. Similar showers are reported elsewhere over the county.

TAKEN TO CLOVIS

Mrs. Ira Taylor, who suffered a light stroke at their farm home southwest of town a few days ago, has been taken to the home of her son, Grant Taylor, in Clovis, for a few days of complete rest. She was reported Monday to be getting along nicely.

Parmer Delegates Home From Meeting

Mrs. Buren Vassey, of the Bovina club, and Mrs. A. H. Boatman, of the Pub organization, returned the past Saturday from Beaumont, where they represented Parmer county at the annual state meeting of the Texas

Farwell, Lazbuddy Start Mattress Work

Construction of 40 mattresses in the Farwell precinct and 32 in the Lazbuddy community got underway this week, with the Lazbuddy center opening on Monday, and the Farwell group beginning work this (Wednesday) morning.

The Maddux building, in Texico, is the scene of activity locally, with Mrs. Zona Harmon in charge. Work started at 8 o'clock this morning. Mrs. C. D. Julian is directing work at Lazbuddy, with the center located in the Methodist church building.

WAR TIME PRICES

The family that has plenty of eggs, cream and chickens to sell finds little reason to complain about the high cost of living when they get a nice check from us every week.

Comanche Indians Massacre White Surveyors

By J. T. DeSHIELDS
Author of "Border Wars in Texas."

TEXAS many years ago, was about the most dangerous place in the world. We think traveling is dangerous now, with the mounting traffic fatalities, but it is as nothing compared to the years between 1840 and 1870 when the redman was in power and ruled Texas from Red river to the Rio Grande.

On November 18, 1840, Dick Sparks, a surveyor, at the head of 40 other men, left San Augustine, San Augustine county, Texas, to survey some lands in the western central part of Texas, near the Brazos river. After 15 days of traveling by horseback, they arrived at their destination, established a camp and began surveying lands. The men, aware they were going into a hostile country, had armed themselves with rifles and six-shooters and believed they were able to repulse any Indian attack. They were inexperienced, however, in border warfare and had failed to reckon with the cunning and stealth of the red man.

While busy surveying the third day after arrival they noticed a large herd of buffalo coming toward them from the north. The animals seemed frightened, were running at top speed, and soon passed out of sight, going south. This incident aroused suspicion among some of the surveyors that the buffalo were pursued by Indians, or had become frightened at the approach of Indians.

An Old Teamster's Warning

But no Indians were seen anywhere, therefore all the men, except one, agreed that the buffalo must have been stampeded by lobo wolves or a mountain lion. This one exception was an old teamster named "Good-Eye Roberts" who had lost an eye in a battle with Indians near San Antonio. The old teamster said he felt sure the buffalo had been scared by Indians, that the Indians were still somewhere in the vicinity and intended to attack the surveying party at the first opportunity.

So persistent was Roberts in warning his comrades of this danger that Captain Sparks, leader of the surveying party, showed impatience and asked Roberts to please "shut up," as his talk was more like that of a coward than a brave man. To which Roberts replied: "Very well, captain, you will talk, too, after a while and with good reason."

The men kept on at work until about an hour before sunset, at which time

they went back to camp, washed up, ate a hearty meal of venison steak, sourdough biscuits and honey. The day before one of the men discovered a "bee tree" and had brought into camp a bucketful of honey.

The men, still unsuspecting of Indian treachery, got out their pipes and sat down to smoke and chat a while before retiring. Tired from a hard day's work, the surveying party spread their blankets on the ground, laid down on them and were soon sound asleep. No night-guard was put out, a precaution that all frontiersmen followed when in a hostile country.

Wholesale Massacre

The warning words of "Good-Eye Roberts" were well founded. About midnight 150 Comanche warriors attacked the surveyors, yelling fiendishly as they shot arrow after arrow into their sleeping bodies. Most of them were killed while asleep on their blankets, others were killed while fighting back. The red men had encircled the white men and none escaped death but Robert Wires and Dave Kellogg. This wholesale massacre was one of the most tragic in the history of Texas Indian warfare.

Wires and Kellogg had narrow escapes. Wires tells the following story of his escape:

"My strength had been weakened by chills and fever. Four Indians pursued and were gaining on us. I was running alongside Kellogg when my strength gave out and I knew I could not keep up with him, so I said, 'Kellogg, I can't stand this pain in my side and must stop and rest. Save yourself the best you can and I will try to dodge 'em.' Just then we had reached a sort of ledge or bluff in the prairie that sloped down several hundred yards to a creek. Soon as we were over the bluff I turned sharply to the right and saw a rocky shelf that jutted from the bluff, under which there was room for me to lie down. I crawled under it quickly, expecting any moment to be bitten by a rattlesnake, for it was a good place for rattlers. None was there, however, and I thanked God for that.

Determined to Die Gamely

"Meanwhile Kellogg ran ahead and disappeared into thick underbrush along the creek bottom. I had hardly hidden myself under the rocky shelf when the four Indian pursuers showed up and passed within a few feet of me as they ran toward the creek. How far they

went in pursuit of Kellogg I don't know, but pretty soon they returned and came directly toward the rock under which I was lying. I could see them plainly although they could not see me. However, I suspected they knew where I was hidden. In my weakened condition I was no match for four husky Comanches, but I had made up my mind to die gamely and to kill one and maybe two of the savages before they killed me.

"The Indians walked up to the rock under which I lay and two of them jumped upon it to reconnoitre. I could hear them breathing heavily as a result of their chase. I could also hear them talking, but could not understand a word they said since I was unfamiliar with the Comanche language. But I guessed they were arguing as to how we two white men had so far eluded them.

"In a few minutes (it seemed a few hours to me) they left, going in the direction of our former camp. I lay perfectly still, finger on the trigger of

before. I pulled up a lot of dead broom weeds and made a bed out of them in a dry arroya. I slept fairly well all night, though was tantalized by dreams of sumptuous food that always vanished when I started to eat it.

"I resumed my journey next morning, a little weak but still able to walk two miles an hour. Toward evening of the second day I heard the tinkle of a distant cowbell and made a bee line for it. The tinkling sound came from a thicket at the foot of a hill. The animal wearing the bell was startled at my approach and ran away. I followed and soon struck a trail. This trail I kept for a mile or more until it merged into several trails. Then I heard more bells tinkling—and no music ever sounded sweeter. I knew I was near human habitation.

"In the distance I saw a settler's cabin and cattle and horses in a corral. As I approached the cabin a man came out to meet me. He did not recognize me at first, I looked so haggard.

who had settled near the main wagon trail from Red river to San Antonio, though he was miles from any white settlement.

Scars of Many Indian Battles

"Jim welcomed me to his crude little home and doctored my blistered feet. His good wife cooked me the best supper I ever ate. Hallmark sat by my side at the table and cautioned me about eating. He was afraid I would make myself ill by eating too heartily. This old frontiersman had had a similar experience to that of mine—had gone without food three days while fighting Indians and when food was at last set before him he ate so much of it he was dangerously ill for a week.

"Hallmark showed scars of many battles with Indians. His wife told me he came home one day with thirteen arrow points in his body. She picked out all but two and these two are still imbedded in his flesh although they cause him no pain or inconvenience.

"I remained in the home of Hallmark five days resting and recuperating. He and his wife were very kind to me and I shall never forget their kindness.

"I borrowed a horse from him and rode back to San Augustine where I found Kellogg ahead of me. He greeted me like a long lost brother, for he thought the redskins had got me.

"When Kellogg dived into the brush at the creek the four Indians came running up to the edge of the brush—and stopped—afraid to go further. They knew Kellogg was armed and all Indians fear a white man who is armed and hiding in brush.

"Kellogg remained in the brush until the Indians left, then struck out across the country. He went southeast and next day accidentally walked into a cow-camp. The cowboys were rounding up and branding some cattle.

They gave him food and loaned him a horse, which he rode bareback into San Augustine without further adventure."

"Unsuspecting of Indian treachery, the men sat down to smoke and chat a while before retiring."

my gun, for I expected the four Comanches would return soon to continue the search for me.

"Hour after hour passed and I heard no sound save the lonely cry of a coyote. At the first streak of day I crawled from under the ledge and looked about cautiously. Not a human being was in sight. I crawled on my hands and knees down to the creek to a spot where there was some brush and overhanging trees. I took off my hat, made a dent in its brim and scooped up some water to drink. I rested a while and tried to rub the stiffness out of my legs. I had kept one position so long under the rock that my entire body was stiff and sore. But I was grateful for that rock. It saved my life.

Ravenously Hungry

"Hungry and with nothing to eat, I would have killed a wild turkey but had only two bullets for my rifle, so thought best to keep them for an emergency. As soon as the sun was high enough to give me the right direction I started for the nearest settlement. I walked all day and at sundown went into camp, if it could be called a camp. By this time I was ravenously hungry, had not eaten a bite since the venison steak, sourdough biscuits and wild honey supper with my comrades in camp the night

New Discovery

A new discovery for use of cotton, whose export market has largely been cut off by the war, is announced by the Department of Agriculture as an outcome of its research program. This discovery is an extension of smokeless powder manufacture.

The manufacture of smokeless powder has depended hitherto on supplies of cotton linters, the short fuzzy fibers that are removed from the cotton seed after the ginning process has taken off the staple. These short fibers were best for the nitrating process that converted the cellulose of cotton into explosive cellulose nitrate. When attempts were made to use long fibers of cotton staple in the same process, it was found that the fibers tended to become entangled and thus quite literally to "tie up" production.

The Bureau of Agricultural Chemistry and Engineering, at its Southern Regional Research Laboratory, proceeded to develop machines like giant lawnmowers which would cut up the staple cotton into the short shreds best suited for nitration. One such machine, the department reports, can handle two tons of cotton per hour. By use of this machinery the great supplies of smokeless powder now needed by the Army and Navy for big guns, anti-aircraft artillery and rifles can be obtained from regular cotton. Linters would still be used for such purposes as rayon, cellulose, acetate plastics and nitro-cellulose lacquers.

Therefore being justified by faith, we have peace with God through our Lord Jesus Christ. Romans 3:24.

Finally he called my name. Then we both recognized each other. This old friend and settler was Jim Hallmark

The German-Russian War

By CHARLES M. LINCOLN
(The New York Times)

GERMANY and Russia continue to fight for strategic positions along a far-flung battle line. Attacks and counter attacks make up most of the fighting, although Germany has pushed her Panzer divisions far

telegic ports might open the way for a seaborne attack on the Caucasus across the Black Sea to the southeast. The chief attraction on the Caucasus for the Germans, however, would be its rich petroleum deposits.

Events have not been brought to pass according to Hitler's plan. The techni-

The above map's black and shaded areas (left) indicate roughly the advance of the German army along a 1,500-mile front into Soviet Russia. There is no fixed battle front, and behind the points of farthest Nazi penetration fighting continues between German troops on the one hand and the Russian regulars and guerrillas on the other. The main objectives of the German drive are Leningrad, Smolensk, Moscow, Ukraine and Odessa.

down into the Ukraine, Russia's richest province. The Nazis are also driving toward Leningrad, once capital of the Russian Czars.

The German offensive in the Ukraine seemed to many military onlookers to hold the greatest threat to Russia. Occupation of Odessa and other stra-

que that overwhelmed France has been thoroughly scrambled by rough, tough fighting Russian soldiers who have countered the German conceptions of attacks with patterns of their own, both of offense and defense.

The destruction of Russia as an arm-

High Speed Danger

By W. N. BEARD
715 Jones St., Fort Worth, Texas.
(Copyright, 1941, by the Southwest Magazine Co.)

TRAFFIC casualty statistics are always alarming. The figures for traffic deaths in the first six months of 1941, as compiled by the National Safety Council and reported in the August issue of Public Safety, are particularly depressing.

A total of 16,810 persons lost their lives in traffic accidents in the United States the first six months of this year. Unless the trend is checked, the 1941 death toll will pass the 40,000 mark for an all-time high. Last year's total was 34,500.

Deaths from traffic accidents in Texas for the first six months of 1941 totaled 843, an increase of 56 over first six months of 1940, which had a total of 787.

Texas cities showed a decrease of 4 per cent in traffic fatalities the first six months of 1941 while Texas towns showed an increase of 29 per cent, according to a report of the Texas Department of Public Safety. Texas highways had an increase of 20 per cent of fatal traffic accidents while county roads had a decrease of 23 per cent.

High Speed Danger

Paved highways are conducive to high speed and this accounts for most of the 20 per cent increase in Texas highway fatalities in 1941 as compared to 1940. An automobile traveling 60 to 70 miles an hour is pretty much out of control despite how good a driver may be. At this speed there is greater danger from head-on collisions, blow-outs, skidding, bumps, dips, curves and passing other automobiles or trucks. It is far safer to drive 50 miles an hour and less on highways.

There is a 6-mile stretch of highway in Bell county, between the towns of Troy and Eddy, known as the "Corridor of Death," where 17 persons have been killed since the first of this year.

It is a straightaway paved road and virtually no billboards or trees to obstruct vision. State patrolmen say excessive speed has been the cause of most accidents on this 6 miles of paved highway.

The Texas Department of Public Safety would like to emphasize the moral responsibility of drivers, would like to impress upon drivers with passengers that they owe some allegiance to and are under a moral obligation for the safety of passengers. Many drivers never seem to think that the life or limb of a passenger is in their hands.

Only nine States had fewer deaths than last year. They were North Dakota, Wyoming, Idaho, New Hampshire, Minnesota, Oregon, Rhode Island, Louisiana and Nebraska.

Deaths Increased 17 Per Cent

While travel went up 12 per cent, deaths increased 17 per cent. The South Atlantic, South Central, and Pacific regions showed by far the largest increase in traffic deaths.

The greatest increase was reported in rural regions, where deaths shot up 22 per cent. Rural traffic deaths increased by 40 per cent or more in Kansas, Massachusetts, Mississippi, Missouri, Nebraska, Rhode Island, South Dakota, Tennessee and Virginia.

Larger cities have been showing a much more favorable trend toward reducing traffic deaths than communities under 10,000. In 12 States, towns under 10,000 had the worst trend.

There's real tragedy in the report that current increases in traffic deaths have hit most heavily in the 0 to 4 year age group, where deaths have increased 23 per cent.

Every community, every civic organization, every mayor and every marshal, constable, sheriff, patrolman and police chief should act now to halt the menace of sudden death. Traffic fatalities are a major problem in the small community, even more than in the big city.

A LITTLE FUN Jokes to Make You Laugh

Too Late

It is said that people who stammer often sing well. A deckhand who suffered from an impediment in his speech ran to his captain on the bridge of the ship during a storm, and blurted out: "P-Please, S-S-Sir—"

"For goodness sakes say it," demanded the captain. "If you can't say it, sing it."

The deckhand took a long breath and sang: "Should old acquaintance be forgotten and never brought to mind; the first mate's fallen overboard; he's half a mile behind."

Not Boonville

A woman riding a bus was anxious not to pass her destination. She poked the driver with her umbrella. Is that Boonville?" she asked.

"No, mum," replied the driver, "That's my stomach."

Makes a Difference

Bobby thought his pal Jimmy was mourning too much over the loss of his collie dog killed by an auto.

"Aw shucks," reproached Bobby, "just look at me. My grandmother died only last month and I cried, but didn't cry and carry on for over a week like you're doing."

"I don't care," boo-hoed Jimmy, "you didn't raise your grandmother from a tiny little pup, either."

The Village Doctor's Elegy

Tourist: "Don't stand there like a fool, man! Run and get the village doctor!"

Native: "Sorry, mister. That's him you just run over!"

Trying Existence

Neighbor Lady: "What makes the new baby at your house cry so much, Jimmy?"

Jimmy: "I don't think it cries very much. Anyway, if all your teeth were out and you didn't have any hair on your head, and your legs wuz so weak you couldn't stand on 'em, and you had the colic most of the time, you'd feel like cryin' yourself."

Grandpa's Whiskers

Mother: "Sonny, what's the idea of tickling baby's face with those broom straws?"

Sonny: "I'm just trying to get baby used to grandpa's whiskers when grandpa comes to see us next week and kisses him."

Diplomatic

A young man was asked by a widow to guess her age. "You must have some idea," she said, as he hesitated.

"I have several ideas. The trouble is that I hesitate whether to make it ten years younger on account of your looks, or ten years older on account of your intelligence."

Poultry News Killing Lice Marketing Eggs

Killing Lice On Chickens

It is not hard to get rid of lice on chickens. There are a number of good remedies, but one of the simplest, least expensive, and most effective is sodium fluoride, used either as a dust or as a dip.

A few lice on hens may do no harm as they themselves may be able to keep the lice under control by dusting in sandy or dusty places. Lice multiply rapidly in warm weather, and if chickens become badly infested it may become a serious problem. Hens in close confinement are more likely to have trouble with lice because they do not have the opportunity to treat themselves. They are not generally serious with the small flock running on free range, but with the farm flock, head lice on baby chicks are common and may cause losses.

It is usually advisable to treat the flock for lice early in the spring and then give a second and third treatment, if necessary, during the summer. For flocks of less than 100 the dust method is

recommended, but for larger flocks or more than 100 dipping is easier and takes less sodium fluoride. In giving a treatment be sure to treat every chicken and not let a single one get by, as one untreated hen will be a source of infestation to the others in the flock later. One thorough treatment with sodium fluoride will kill the lice "nits" or eggs so that a second treatment is not necessary in ten days time, as in the case with some other treatments.

Marketing Eggs

In marketing eggs see that all cracked, dirty, and very small eggs be sorted out. Gather eggs three times a day. Eggs should not be washed or otherwise cleaned. Pack eggs when they are cool—never with the animal heat in them—and pack with large end up.

Charcoal in the Ration

Many poultrymen, aware that optimum meat as well as egg production depends entirely upon the health of the birds in their care, feed charcoal to the extent of 2 pounds per 100 pounds of mash or feed it free-style in a separate hopper or wall container. Charcoal has the ability to absorb gases and irritating liquids in the digestive tract and in this way reduces the danger of discomfort to young as well as adult birds.

Separate Young Pullets From Older Chickens

Separating growing pullets from older chickens may sometimes prove the difference between success and failure in poultry. Isolation of the younger birds, says D. K. King, poultry husbandman, Alabama Extension Station, gives them a better chance to be raised free of parasites and diseases which are usually contracted from older chickens.

Chickens, believes King, will never fit into the farming program as they should until a crop rotation system is used whereby the birds are allotted certain areas each year. Isolation and good pasturage are regarded as important items to consider when chickens are put on the range.

THE GERMAN-RUSSIAN WAR

(Continued from Page 4)

Asian territory into German States; and, definitely of course, that extinction of bolshevism which he has promised to the world. To attend to this little matter he might well have to go to Novo-Sibirsk, the new Siberian capital, and that is a long way from where he is now.

There also yet lies ahead of him the taking of the oil fields of Russian Caucasus. And Hitler wants that oil. His juggernaut in Russia today is eating oil at the rate of 400,000 tons a month. He may send his forces across Southern Russia. He may use Turkey. He will, if the Turks do not fight. So far, they have refused his passage, and Germany is now politely requesting to send food across Turkey. Britain and Russia have agreed to come to the aid of Turkey if she is attacked.

If and When

But if and when the Germans get to the Caucasus they will find 500,000 Russian soldiers waiting for them. They will also perceive the "demoted" Wavell moving northwest with 200,000 or 300,000 first-class Indian fighters and they will know that there are 500,000 troops not far to the west, ready for the great fight for the control of the Near and Middle East which is in the books of both of the great adversaries. Altogether, what is going on in Russia today with what promises to follow it would seem to indicate that the "Battle of Britain" lies some distance in the future.

Today, German armies stand in eighteen "foreign" countries in addition to Russia. What she is doing to make "vassals" of her small neighbors would fill several books. She is extracting four and a half billion dollars, annually, from countries whose only crime lay in the fact that they existed. She is taking from them their food, paying for such resources as she can squeeze out of them with ersatz marks, valueless outside the countries in which they are issued. She is charging France \$8,000,000 a day for "cost of occupation." It is the same story, in varying degrees, for all of the occupied countries.

Germany Lacks Many Things
Germany boasts that the British

blockade is a joke. It is not. And she knows it. In spite of what she is grabbing in all directions outside her borders, and what she may eventually get from Russia, she will continue to lack many things. Wool in Germany today is very scarce. Germany will lose 2,000,000 tons of grain from Russia this year and 200,000 tons of Trans-Siberian supplies. One of her leading economists has just warned: "It is vital to Germany to bring into her possession European reserves of all kinds. We are already using our reserves and we must see to it that they are replaced and enlarged."

The people of Germany are not happy. Docile, stolid, they have murmured little during seven years of deprivation. Today, they are uneasy. The pride of a year ago in the rushing conquests of their Fuehrer's legions has largely evaporated.

Two hundred and eighty "heavy" raids have been made by British planes on Germany in the last eight weeks. The German people do not know the number, and of course they do not know that in the first seven months of this year the Axis lost 2,587 planes while the British lost 1,033. Nor do they know that British-American plane production will soon surpass their own and that the margin is steadily increasing. If this war is to be settled from the skies there will be only one answer. But bombing may not settle it. Britain took plenty of bombing. Perhaps Germany can. Who knows?

HOME GARDENS

Some 650,000 farm families in eleven States, mostly in the South, took advantage of the home garden program of the Department of Agriculture in 1941 to provide themselves with a more varied menu and at the same time an improved diet. Benefit payments of \$1.50 per family were made to those planting vegetables. Certain simple specifications as to variety and protection against livestock and insects had to be met. North Carolina heads the list of co-operating States with 156,539 home gardens.

I KEEP YOUR SALTCELLARS FROM CLOGGING ON RAINY DAYS!

MORTON'S IODIZED SALT

IODIZED—OR PLAIN

WAR SPAN

An Italian official has warned his people that the World War II may last another ten years. If it does it will be the longest war—12 years in all—since 1648, when the Thirty Years' War ended. Of the famous wars, the Trojan lasted 9 years. The Peloponnesian 27, the First Punic War 23, the Second Punic War 17, the Hundred Years' War 114. The War of the Roses was another 30 years' war, 1455-1485.

Wars have lasted centuries with lapses in between or with various phases. The Saracenic Wars lasted from 634 to 1942—858 years. The wars of the Barbaric Invasion of Europe lasted from A. D. 375 to 800. The wars of the Crusades lasted 175 years. War broke out between Spain and the Netherlands in 1568 and ended 80 years later.

In contrast was the Seven

Weeks' War, between Prussia and Austria in 1866. Even shorter was the July Revolution in France in 1830, which lasted two days.

The first war on this continent was King William's War, 1689-1697. The second was Queen Anne's War, 1702-1713. The French and Indian Wars lasted 7 years, the war of the American Revolution 8, the War of 1812, the Civil War 4, the Spanish-American War less than 4 months. The World War I lasted 4 years, three and a half months.

MEXICO TOURIST

Last year 122,500 tourists visited Mexico. This year it is estimated that 200,000 tourists will visit the Land of the Aztec. Among the 122,500 tourists who saw Mexico last year, 36,260 came from Texas, 16,513 from California, 11,734 from Illinois, and 7,222 from New York.

THE SMOKE'S THE THING!

IT'S SWELL TO KNOW THERE'S LESS NICOTINE IN THE SMOKE OF CAMELS—I SURE LIKE THAT Milder SMOKE!

CHECK, PARDNER, CAMELS ARE Milder—EXTRA Milder!

The smoke of slower-burning Camels contains

28% LESS NICOTINE

than the average of the 4 other largest-selling brands tested—less than any of them—according to independent scientific tests of the smoke itself

IT'S GRAND CHAMPION COWBOY PAUL CARNEY. At Cheyenne, Tucson, Pendleton—on sun-fishin' saddlers... barbarous bareback broncs—this lean, leathery Arizona tophand outperformed 'em all. He tells you this about cigarettes: "Less nicotine in the smoke means just that much more mildness to me. I'm glad I switched to Camels."

Yes, by actual comparison (*see right, above*) less nicotine in the smoke than any of the 4 other largest-selling brands tested. Less nicotine in the smoke—freedom from the irritating qualities of excess heat—extra mildness. Switch to the slower-burning cigarette of costlier tobaccos now!

"That EXTRA SMOKING PER PACK makes slower-burning Camels a mighty THRIFTY smoke."

● BY BURNING 25% SLOWER than the average of the 4 other largest-selling brands tested—slower than any of them—Camels also give you a smoking plus equal, on the average, to

5 EXTRA SMOKES PER PACK!

For even greater economy and convenience, get Camels by the carton at attractive carton prices.

SMOKING WOULDN'T BE HALF THE FUN WITHOUT CAMEL'S EXTRA FLAVOR

CAMELS ARE COOLER, TOO

IF YOU'RE SMOKING MORE than you once did, you'll appreciate Camel's slower burning all the more. Not only less nicotine in the smoke but also more coolness and an extra flavor that livens up even a tired taste. Camels always taste good.

TEXAS FARM NEWS REPORTS

Mrs. J. A. Hopper, of Mt. Sterling, (Hopkins county), reports one of her Cornish hens laid an egg which shows clearly a reproduction of the sun on it.

More than 500,000 tons of feed have been reported harvested from Nueces county's largest feed crop in history, according to H. L. Alsmeyer, county agent. Much of the crop is being stored in trench silos.

A giant gourd of undetermined variety has been grown by Raymond Fikes, of Cameron, (Milam county). The gourd resembles a giant bean or cucumber and measures 53 inches long.

Edgar Hooker, of Deport, (Lamar county), has grown a variety of Lespedeza which he says will grow upon any kind of poor land, including post oak, enriches the soil and is fine for stock. He calls it Tennessee 76 Lespedeza, and sowed it on 100 acres of land for pasture purposes.

Farm families in 26 Texas counties have organized egg marketing associations or are in the process of organizing them, according to Myrtle Murray, specialist in home industries for the A. & M. College Extension Service. In 1940 there were less than half a dozen such associations.

Over 225,000 pounds of beef and pork have been processed at the first of three locker plants in the Lamb county section which was opened in July, 1940, says V. F. Jones, county agent.

By adding 60 pounds of molasses per ton before putting into trench silos, many Wharton county farmers have been able to save every pound of alfalfa harvested this spring, according to County Agent V. L. Sandlin.

The first strike in Texas took place not in a mine or factory, but on a Texas ranch, according to the first history of organized labor in Texas ever gathered, now being compiled for publication by Dr. Ruth Allen, University of Texas economist. "The cowboy's life was not all romantic," Dr. Allen writes. At one time in the 80's conditions were so greivous on Texas ranches a large number of horse-wranglers "sat-down" in their bunkhouses. They had been working 80 hours a week for an average wage of \$50 a month, she said.

A total of 482 Texas tenant families were started on the road to farm ownership during the fiscal year of 1939-40 through the tenant purchase program of the Farm Security Administration, it was shown in an analysis of the program just completed by S. B. Owens, rural supervisor of Jefferson and Orange counties. On 162 of the farms, new homes were built at an average cost of only \$1,368.78; and on 119 of the farms existing houses were repaired at an average cost of only \$478.51. The average price of farms bought under the tenant program was \$5,195.40. The average farm size was 164.11 acres.

A total of 1,493 head of cattle were exhibited by 500 breeders at 22 spring and summer dairy shows in Texas this year, dairymen report.

Sweet corn is likely to become a major commercial crop in the Lower Rio Grande Valley for early spring markets, says a Texas magazine. The Iona hybrid, planted to some 3,000 acres, has done excellently in the section.

The watermelon crop in Nacogdoches county is expected to net farmers more than \$100,000. Most of the melons are brought by truckers direct from the fields, and farmers are being paid in cash, according to reports from that section.

Luther Anders, fruit grower near Loraine, (Mitchell county), exhibited a limb off of one of his plum trees that had 21 plums on it and some had already been pulled off. The limb was about 18 inches long. The plums were of the large yellow variety, and each tree is expected to make several bushels of plums.

A bumper crop of Rhodes grass has been harvested in the Coastal Bend, according to farmers and stockmen at that area. At Bishop, (Nueces county), where one of the largest acreages is centered, yields up to 200 pounds of Rhodes grass seed to the acre have been reported. Approximately 30,000 pounds of this important pasture grass seed will be available for market from Bishop's first crop alone.

Mrs. J. T. Summerhill, of Waco, (McLennan county), has developed a new variety of strawberry which proved so hardy and prolific that within shortly more than a year's time approximately 5,000 plants are now growing in her garden. The plant is somewhat strange in appearance, having unusually big leaves and long stems that run up to clusters of blossoms and fruit. The berries, Mrs. Summerhill points out, are "huge."

H. H. Finnell, of the U. S. Department of Agriculture, cautions Southern Plains farmers against unnecessarily burning their wheat straw and stubble. Many farmers, he said, are deliberately starting fires that will destroy crop production of future years and add to soil erosion hazards. An unusually large production of wheat straw joined an increase of insects to influence many farmers to burn straw to make plowing easier and destroy insect invaders, Finnell explained.

East Texas farmers may receive \$30,000,000 more for their cotton crop in 1941 than in 1940, according to estimates by the agricultural and forestry department of the East Texas Chamber of Commerce. The estimate of increased revenue is based on increased prices prevailing at this time, plus a substantial improvement in quality of staple throughout the East Texas region which has reflected in last year's crop, as compared with 1938, and which is expected to be equally as good this year.

G. M. Dry, truck farmer in East Center (Shelby county), raised a freak squash which he says is the first of its kind he has ever seen. The squash is a 4 in 1, all perfectly formed and attached to one stem.

Putting pigs on hardening feeds before they are too heavy will help swine growers avoid the problem of soft pork which results primarily from fattening hogs on such oil rich foods as peanuts, soybeans, and rice polish, according to specialists of the U. S. Department of Agriculture.

What is believed to be the highest price ever paid for off-the-grass yearlings in the Matador, (Motley county), area was received by Harry Campbell who sold 40 head of yearlings for \$66 each. He said the herd was made up of cut-back calves from last year and taken directly off the range.

4-H club girls of Tarrant county have learned how to make attractive necklaces out of cantaloupe seeds, according to Miss Vera Sneed, assistant home demonstration agent. After drying, coloring, polishing, etc., the seed are strung to form necklaces which the girls have found they can sell for \$1 each.

With the 1941 shipping season two-thirds over, Troup, (Smith county), has already shipped more than 1,000,000 pounds of sweet pods of the luscious Bell variety of pepper, emerging as Texas' leading producing and marketing point for sweet pepper.

From the Quartermaster Corps at Atlanta, Ga., Texas Agricultural Commissioner J. E. McDonald has been advised that camps in the Atlanta district will purchase about 49,000 turkeys in November for the biggest Army feast since 1918, and requested McDonald to furnish purchasing data and assist in securing the finest Texas birds available.

Henderson county's first beaver restoration project has been established on the Robbins Brothers ranch south of Athens, it has been announced by Game Warden Al Bolton. This project is part of a nationwide game restoration program in which Federal aid is being given, and will be under the supervision of the State Game, Fish & Oyster Commission. Four beaver, two males and two females, have been established on a stream on the ranch.

Electrification Short Course will be held at Texas A. & M. College November 6 to 8, E. L. Angell, assistant to the president of the college, has announced. Director of the course will be P. T. Montfort, research associate, department of agricultural engineering at the college, and the staff of speakers will be drawn from members of the college staff and representatives of commercial firms. Director Montfort estimates that approximately 125 will register for the course which is designed to aid rural farmers in learning the most advantageous use of electric power.

MODERN WAR is a battle for materials. To check the life-giving flow of materials, British warships ring the European continent while German bombers and submarines encircle the Islands of Great Britain.

Beyond comparison, the most vital of materials is food. Unlike steel or copper, aluminum or rubber, food has no substitutes. We have it or we do not have it. With it, all things are possible. Without it, tanks and planes can give no security. If the defense of America is to be certain, food for 130,000,000 Americans, and those who stand with us, must come regularly to market.

Today, as always, the production of that food is the task of American farmers. Today, more than ever, American farmers are relying on the farm equipment industry to provide them with the mechanized tools of agriculture. For, while

the need for farm products rises, the supply of farm labor constantly dwindles as men are diverted to the Armed Services and the factories.

This Company and the industry of which it is a part have the factories, the trained employees, the engineering skill, and the distributing organizations to get these vital tools to the farmers of America where and when they need them—subject only to the allocation of materials.

Swords are beaten into plowshares when peace follows war. Today, throughout the world, plowshares are beaten into swords. In America, the greatest food-producing country in the world, it is well to consider that PLOWSHARES ARE SWORDS!

AUTUMN-TIME

Autumn-time is harvest-time when man gathers in the corn and other crops he has labored so long to produce. It is also a time when Mother Nature is in a mood to change the order of things—to change the green leaves to gold and scarlet, the green grass to yellow and brown. Nature will make further changes and pretty soon we shall have frost on the window pane, frost on the pumpkin and the days will get shorter and the nights longer. Crickets will sing their funny little songs and the geese will fly south in their pretty V formations.

Poets write exuberantly of spring but to Aunt Mary autumn is the loveliest season of the year. I like the cool tang in the air, the many colors nature puts in the leaves of the trees, and have you noticed how dew makes the grass sparkle like a million diamonds? How fine it must be to have a harvest to gather, to know that you have wrought well with hand and heart and that you have contributed something toward supplying the needs of a busy world. Autumn brings us this thought: Let's try to gather in a harvest of our own—a harvest of good deeds, kindly thoughts and gentle manners.

Sincerely,
(Signed) AUNT MARY.

HORSES AND MULES IN ARMY

Information from headquarters tells us that before the war there were only about 25,000 horses and mules in the Army of the United States. At present the figures have risen to about 50,000, and by the end of 1941, as the result of additional purchases, there should be 77,295 horses and mules in the army, probably about one-quarter of them mules. With all the publicity about mechanized equipment it would seem there is no need for horses and mules in the Army. But the Army would stall without horses and mules and would be at a disadvantage without cavalry.

THE FRIENDLY HOBBY CLUB

Have you wanted to join a club where there would be no dues, fees or assessments? Have you wanted to meet lots of friendly folks? Have you wanted to meet folks who are interested in the same things you are? Well, the Friendly Hobby Club is the answer. Read the rules below carefully; then fill out the coupon and mail to Aunt Mary, 1809 Ashland, Fort Worth, Texas.

Join Club Now

Membership Coupon
The Friendly Hobby Club

Pledge: I promise to be fair and square and to do my best in all that I undertake.

Name..... Age.....

Address.....

City..... State.....

I want to join Department: A () B () C () D () E () and 1 () 2 () 3 () 4 () 5 () 6 () 7 () 8 ()

Please check no more than 1 of the above.

Here are the rules for becoming a member of the Hobby Club. You will please note one change, that is, you may join only ONE department.

- There are no fees or dues now or at any time.
- All that is required is for you to fill out the coupon below and mail it at once to Aunt Mary, 1809 Ashland, Fort Worth, Texas.
- You will receive your membership card, list of instructions and secret code as soon as we get your coupon.
- You may join only one department.—but NO MORE. The departments are as follows: (A) Friendly Correspondence, (B) Sunshine for Others, (C) Stamp Exchange, (D) View Cards, (E) Miscellaneous, (1) Coins, (2) Curios, (3) Souvenirs, (4) Butterflies, (5) Clippings, (6) Books, (7) Postmarks and (8) Magazines.

STORIES THAT LIVE

Sometimes we come across little poems that stay long in our Garden of Memories. Here is a lovely little poem I hope you will enjoy

reading and, may be, memorize. It was written by Thomas Hood:

"I remember, I remember,
The fir trees dark and high;
I used to think their slender tops
Were close against the sky;
It was a childish fancy,
But now 'tis little joy
To know I'm further off from heaven
Than when I was a boy."

Here is another poem and it is very quaint:

"Black-eyed pickaninny,
Someone's little tot,
On a pile of cotton
Where the sun is hot.
Someone's lump of sugar,
With a curly top,
Tiny feet a kicking,
Little candy drop.
With a sack to shade you,
While the darkies sing,
Black-eyed pickaninny,
Mamma's little King."

—Ellen Earl.

WHEN DICK RAN AWAY

Dick was upset again. In fact, it seemed that he was always getting upset about something. If he did not get his own way all the time, he would carry on in the most ungentlemanly manner. And if any one corrected him, he would either snarl an angry reply, or else wander off into some corner and sulk.

When in these very bad moods he would mutter threats about running away from home. Although he was only 12 years old, he had a very big opinion of himself, and was quite sure he was able to look after himself in the big world. That he owed his father and mother anything for all their loving care over him, never seemed to enter his mind. He only wanted to get away from all restrictions, away to some place where he would be able to do just as he pleased.

He was thinking these thoughts when his daddy asked him to cut the lawn just as he had planned to go out and play ball with the boy next door. How he hated cutting the lawn. Why should he cut the lawn? He wished there were no lawn to cut. He would give anything to get away from the sight of it. He did cut it, however, although his mind seethed with rebellion.

That afternoon his wishes were crossed again. Several times, in fact. As a result, he became rude and cross and finished up with a good spanking and sent early to bed. He did not say his prayers and, instead of going to sleep, planned what seemed to him a glorious dash for liberty. He would get up when

(Continued top next column)

every one else had gone to bed, creep out of the house and run far, far away. He was not quite sure where he would go, or what he would do when he got there. He had just one all-absorbing desire, to get away where there would be no lawn to cut, and where he wouldn't have to give up things for his brothers and sisters, nor be expected to do what he was told.

At last, when all in the house was still, and he felt sure that every one must be fast asleep, he decided to put his plan into action. He crawled out of bed, put on his clothes quietly, took his purse, for it contained a whole dollar—and crept silently out of the room.

As he passed the bed where his baby brother was lying asleep, it occurred to him that he would never see little Tiny again, so he bent over and kissed him; then a strange lump came into his throat and he couldn't swallow very well.

He kissed Tiny twice, and then went out of the room. Going past the room where daddy and mammy were asleep, he thought he would like to say good-bye to mammy, anyway. He wasn't quite sure about daddy, he had made him cut the lawn. But, really, he wouldn't like to see mammy no more.

He began to wonder whether he should run away, after all. Then the old, hard spirit came back, and he went downstairs. Very quietly he put on his overcoat and gloves, drew the bolt of the front door and went out into the cold night air.

He stopped on the doorstep. This was hardly what he had dreamed about. It was too dark for one thing, and too cold for another. Bed began to seem very nice. Perhaps, after all, it would be better to go back.

But no, he wouldn't. He closed the door. There was a snap, and he realized that he couldn't go back now even if he wanted to. That wasn't a nice feeling at all. He wished he hadn't let the door close quite so quickly and tightly.

It was done now, however, and he must go. He went down to the front gate and out into the street. There was nobody about. All was very quiet and still. The sky was black and the only light came from the street lamps. It was all very scary. Dick didn't like it a bit. If the door wasn't locked, he told himself, he would go back to bed.

He walked some distance down the street, and as the cold night air cooled his fevered mind, he began to realize more and more what a foolish enterprise he had started on. "If the boys at school get to hear about this," he said to himself, "they will tease me for the rest of the term." The very

thought of his school chums' discovering his foolishness made him turn around suddenly and make for home.

He had not gone far, however, when he nearly jumped out of his skin as a heavy hand was laid on his shoulder and a strange voice spoke to him.

"What are you doing out at this time of night?" asked the man.

Dick was paralyzed with fright. He had not expected this. Words would not come. He merely struggled to get free.

"You'd better come along with me," said the man, who was a policeman. You've been up to some mischief, I'm sure.

"I haven't, I haven't," gasped Dick. "I've made a mistake that's all, please, sir."

"I should think you have made a mistake, being out here at one o'clock in the morning. You can tell me all about it in the morning. I'm taking you to the police station."

"You're not going to take me to the police station, are you?" cried Dick, more frightened than ever. "Let me go home! I want to go home."

"You'll go home, all right," said the policeman, "after we have had a little chat by the fire."

So Dick found himself for the first time in his life on the way to the police station.

There he was asked more questions than any teacher had ever asked him in school. Later he didn't sleep at all on the hard mattress, he was too frightened.

How he wished he had never started out on such a foolish venture. No mammy—no Tiny—no good bed! What a miserable night!

Very early the policeman came to the station and told him to put on his clothes. Together they walked to Dick's home. Daddy opened the door. "What in the world," he began.

The policeman explained and then departed, smiling significantly.

Dick cried when daddy put his arms around him and he cried some more when mammy kissed him, patted him on the shoulder and called him her "dear sweet boy."

For breakfast mammy gave

everybody an egg in addition to the porridge and opened a new jar of marmalade besides, for, she said, "her little prodigal son had returned home and she surely must kill the fatted calf."

ALLEN ACADEMY
BRYAN, TEXAS.

(Fifty-seven 11 Year Begins September 24.)

Military Training—Highest National Rating. Only Texas school so rated. Rifle teams champions.

Athletics—Undeclared Academy class for years—Intramural program for each grade.

Band—Undeclared past 10 years in contests.

Scholarship—Allen cadets in more than 150 leading colleges and universities. Honor graduates to West Point and Annapolis. Certificate privilege with all universities and colleges in U. S. which accept on certificate.

Courses—From sixth grade through first year college. Small classes, strong faculty. Individual attention.

Equipment—14 buildings, 150-acre campus, swimming pool, gymnasium—Highest Government Rating.
