### Megargel Man Chosen As Superintendent

At a special meeting of the Farwell school board, held early last week, H. A. Clift of Megargel, was elected as superintendent of the local school for the coming year.

Clift is 43 years old, and holds his master's degree from the State Teachers College at San Marcos, Texas. He has been at Megargel for the past three years and had been reelected for another year. Prior to that, he served as superintendent of other small schools and as principal of one of the city schools in Abilene. His family consists of a wife and two children, a boy seven and a girl three.

E. M. Deaton, president of the board, and Joe Magness, member, flew down to Megargel last week and investigated the applicant. They brought back the information that the new superintendent would be here to assume his new duties on July 1st.

Clift succeeds J. T. Carter, who has been head of the local school the past five years. Carter offered his resignation recently with the announcement that he was going into full time church work, and will move to Lubbock the latter part of this month.

### Carter Goes to Lubbock ME Church Work

J. T. Carter, who for the past five years has served as superintendent of the Farwell schools, and who recently tendered his resignation, announced today that he and his family would leave the last of this month for Lubbock, where he will do church work.

Carter has accepted an appointment as executive assistant of the First Methodist Church in Lubbock, and will begin his duties there on July 1. Actually, he said, he will serve as staff executive, directing plans and activities of the large staff of workers at the church.

Originally trained for church work, Carter went instead into the teaching profession, and had been reelected for another two-year period in the local institution when he asked to be relieved in order that he might change his line of work.

### Predicts Few New Cars This Year

"We'll be lucky if we get as many as three new cars during the present year," O. C. Sikes, operator of the Sikes Motor Company, predicted today in discussing the future new car outlook.

Continuing further, he added, "Only 200,000 new cars will be manufactured during the present year, and this means that not more than seven cars per dealer will be available—and there is every indication that the first new cars to roll off the assembly lines will be rationed to persons and firms with high ratings."

Turning then to a discussion of the mechanical condition of the automobiles on the road today, Sikes observed "Never before were they so old, so badly in need of maintenance service and major repairs."

He said that a survey of his customer last one of them were buying only small service jobs just to keep running. The only reason for such an attitude, Sikes opined, is the belief that new cars will be available soon. "Present automobile owners had better take care of their cars and trucks," Sikes warns, "unless they want to be afoot before many months."

### Dairy Show Plans Go Forward In County

Plans for the annual Parmer County Dairy Show, which is currently slated to be held the last of August, are going forward in good shape, according to County Agent Lee McElroy.

McElroy said that financial details concerning the show were practically complete as of this date, and added that other arrangements would be finished within the next six weeks.

The show will be held in Bovina, unless a change is made later.

With wheat harvest "just around the corner" farmers and grain men alike began to take stock this week of what the harvest holds in prospect, with the final admission that the crop will be "mighty light".

Observing that already many hundreds of acres had been plowed up or turned into grazing pastures, Bart Osborne, manager of the Farwell Elevator, gave it as his opinion that the yield will range between 5 and 10 bushels to the acre. Reports, he said, seem to indicate that there would be several fields in the Holene, N. M., section that would yield around 12 bushels.

The grain right now is in the dough stage and grain men contend that continued dry weather will cause the berries to shrivel, cutting down the yield still further. A little rain next week, they say, would be of great benefit to the grain crop.

Farmers who have their own combines will harvest their grain, even though the yield is light, it is agreed. On the other hand, farmers who have to resort to custom cutting will leave the grain in the fields.

### Some 10-Bushel Fields

There are a few fields in the Oklahoma Lane area that are expected to yield in the 10-bushel class, barring further damage by dry weather. Also, in the immediate Farwell section, a number of fields give promise of turning out sufficiently to justify harvesting. The best wheat in the county—and that's admittedly poor—will be found in the Bovina and Friona sections, where some fields are being estimated to produce around 18 bushels.

"We can't tell what a field will turn out until it is actually harvested," Osborn remarked, pointing out last year as an example, when Parmer produced an abundant wheat crop after it had been feared the yield would be light.

"We still have about thirty thousand to go," remarked G. D. Anderson, chairman of the War Finance Committee, today, after completing tabulations of the sales made thus far in the Seventh War Loan.

Sales in Farwell were topping the list, according to figures released by Anderson, the total standing at \$38,381.25 and this city was nearer its assigned quota than any other place in the county.

In Friona, sales have shown a decided increase during the past week, while purchases in Bovina had shown little increase over the report of two weeks ago. Friona citizens have purchased a total of \$27,356.25 and sales in Bovina are shown at \$13,106.25. Lazbuddy has accounted for \$7,706.25 since the last report.

The drive officially closes on July 7th.

The War Finance Chairman also called attention to the fact that in addition to a quota of \$155,000.00 in E bonds, Parmer County was expected to sell \$95,000.00 in bonds of other series, giving the county an overall quota of \$250,000.00. He had previously expressed his faith in the people of this county to attain the quotas, but admitted today that the drive was not showing the progress he had hoped.

### Church To Aid Drive

Officials of the local Methodist Church have launched a movement to have members and friends buy bonds for the church building expansion fund to be used after the war when labor and materials will be easier to obtain.

C. M. Henderson, church official, stated today that already approximately \$2000 in bonds had been donated to the church and the goal of the local congregation is to double that figure during the present month. Persons desiring to buy bonds for the church may do so by having them made out to the Hamlin Memorial Methodist Church, he said. He also suggested that parties desiring to contribute smaller amounts to the building fund should see David Harrison, church treasurer, and make their contributions through him.

"We have 34 stars on our service flag—and not a gold one in the bunch—we owe it to our boys to carry on for them while they are fighting for us," Henderson said.

### Pvt. Melvin Stagner Is Wounded In Islands

Mr. and Mrs. J. H. Stagner, who formerly lived at Bovina and are now residents of Clovis, received a letter from their son, Pvt. Melvin Stagner, last Friday, stating that he was recovering from wounds received in action.

Pvt. Stagner said that he was wounded in the Luzon campaign, sustaining a fracture of the left arm and wounds in the right arm. He is a member of the 33rd Infantry Division.

### TO VISIT HERE

W. N. Williamson, district Extension agent, and E. A. Miller, agronomist from College Station, are slated to visit Parmer county in a few days, according to Lee McElroy, local county agent. Miller is making a tour, checking drought-resistant qualities of various types of wheat, including Westar and Tenmarq, McElroy added.

### Petree Receives Pilot's Wings At Pampa

PAMPA ARMY AIR FIELD—Harold W. Petree, 24, son of Mr. and Mrs. Hazel H. Petree of Farwell, received his silver pilot's wings and was commissioned a second lieutenant in the Army Air Forces on May 23 upon completion of his twin-engine advanced training.

### Soldier Subs Going to Europe Discontinued Temporarily

The Tribune this week announces that the current issue is the last one which will be mailed from this office to soldiers stationed in the European theatre, until new addresses are available.

Here is the reason: Newspapers travel as second class mail, and consequently, it takes from 5 to 10 weeks for them to reach their destination. The large majority of troops in the European theatre will be moved and papers mailed now will only serve to clutter up the mails and distract overloaded army post-offices, who try to send forwarding addresses to all publishers.

No renewals will be accepted for at least a month, allowing most of the men time to find out whether they will have changes of address. Any person who is sending a soldier now may drop by the office each week and pick up a paper, sending

it in an envelope as first-class mail. Subscriptions which are stopped now will be reinstated upon notification of new addresses, and no "paid time" will be lost.

The only exceptions will be men who have received New York APO numbers within the last two months and who are considered likely to be listed in the army of occupation.

If you get a new address on your soldier, bring or mail it in promptly, and his paper will continue to go to him, wherever he may be.

**Sailors Must Request Paper**  
This column also urgently requests that all sailor subscribers forward, immediately, a written request for this paper, since the Navy department has announced that no papers will be accepted for overseas mailing after July 1st, unless such request accompanies the paper.

### County Officers Slated To Get Salary Hike

Taking advantage of an act only recently passed by the Texas Legislature, the Parmer County Commissioners Court, in session here on May 28, voted to increase the salaries of "all county and precinct officers and all deputies 25% over 194 salaries".

While the minutes of the Court do not reveal the date the increase is to become effective, it is presumed they will be put in force immediately and the hike will apply on June salary checks.

Other action taken by the County Commissioners was the naming of the Friona State Bank as county depository and custodian of county school funds in Parmer County.

### Seven Forwarded For Army Induction Call

The June call for seven men for the armed forces was sent out of Farwell on June 4 for Oklahoma City, where they will receive their assignments, it was announced today at the office of the local board.

Mrs. Bessie Lee Henneman explained that some of the men leaving here would be given another physical examination because their pre-induction examinations occurred more than three months ago, and voiced the probability that some of them might not pass the second test.

Those leaving in the June call were: Robert Leach Jr., Emmett Barrett Sayon, W. B. Norwood Jr., Joe Curtis Moore, James Cecil Palmer, Richard Wallace Crook, Woodrow Theodor McCafferty (a transfer from Clayton, N. M.).

### No Canning Sugar Will Be Issued This Week

"No canning sugar this week." This was the report issued at the local ration office on Monday, following receipt of a telegram from the Lubbock district office to the effect that no allotments of sugar for home canning would be made between June 3 and June 9.

In addition, the telegram implied that such sugar quotas would again be cut, with the announcement that issuance of sugar would be resumed "when new quotas are made public".

Sugar for home canning has been notably scarce, with allotments not exceeding 15 pounds per person being authorized, in contrast to the 25 pound issuance made last year.

Applications for sugar will continue to be accepted at the office, attaches said today, but no certificates for purchase will be given until further word is received from Lubbock.

H. Y. Overstreet, of the local office of the Capitol Reservation Lands, plans to leave the latter part of the week for Chicago, where he will spend a few days going over the affairs of the land company with officials in the head office.

### Parmer Boys Discharged Through Point System

Two Parmer county soldiers came back to civilian life recently, via the Army's point system of discharge. Staff Sergeant Douglas Short, of Friona, was the first man in, arriving ten days ago, to be closely followed by T-4 Ben Stokes, also of Friona, who came in a week later.

Short, one of the earlier draftees from this county, had been overseas for 39 months when he was relieved from Manila to come home on furlough. Arriving at Fort Sam Houston, Texas, he was awaiting his orders, and added laughing, "I nearly dropped dead when they called me in and said I had enough points to be discharged—or I could sign up for the duration . . . nearly ran over myself telling them I'd take the discharge."

Working with the ground crew, Short followed bombardment groups over practically all of the Pacific. His campaign stars include the East Indies, Papuan, New Guinea, East Mandated Islands, Bismark Archipelago, and the Philippines. He spent more than a year in Townsville, Australia, and visited several large Australian towns when on furlough.

Stokes has served with a cavalry unit and was overseas 35 months, according to his discharge papers. Campaign stars include New Guinea, Bismark and New Britain.

### Lt. Bill Roberts Headed For States and Home

Lt. Bill Roberts, son of Mr. and Mrs. M. C. Roberts of Texico, is somewhere enroute home, according to a message received from his mother last weekend, stating "I'll let you know as soon as I get in the States."

Mrs. Roberts also recently received a letter from Bill, excerpts of which read as follows:

"Conditions have certainly changed since I last wrote you. I was liberated April 29 at Moosburg, Germany, and arrived here by plane the 9th. It's a great feeling to be free and have plenty of good food at your disposal. This camp is strictly for recaptured prisoners and about 40 miles from La Harve. Here we get a medical check-up, food, clothes, and what have you. Then the hardest part of all, sitting waiting for a boat home. That's what I'm doing now. Oh well, after waiting two years, I guess a few more days won't hurt me . . . I have no idea as to when I'll be leaving here . . . As to what will happen when I get back, all I know is I will probably go straight to Ft. Sam Houston in San Antonio . . . there I will be paid and get a 60-day furlough. After that—who cares! That sounds good enough to me . . . It has been nearly nine months since I've had any mail . . . weigh all of 155 now. That may sound pretty light, but I feel very good and if my appetite holds out, I should be back to 180 in no time."

### HOME FROM HOT SPRINGS

Mr. and Mrs. Rip Snodgrass of the Electric Shoe Shop returned home Sunday from Hot Springs, N. M., and reopened their place of business on Monday morning. They have been taking the mineral water baths at the famous resort the past three weeks. They advise anybody going to Hot Springs to take plenty of lard and smoking material. Meats are also scarce there, they say.

### Elliott Commissioned Infantry Lieutenant

FORT BENNING, Ga.—Bass P. Elliott, of Bovina, was commissioned a second lieutenant May 22 upon successful completion of OCS at the Infantry school at Fort Benning.

Lt. Elliott is the son of Mr. and Mrs. C. R. Elliott, of Bovina.

The new lieutenant was inducted on July 17, 1944, and served with the 175th Infantry Training Battalion before going to OCS four months ago. He was a private before being commissioned.

The new officer attended Bovina high school and Texas A. & M. at College Station where he was prominent as a member of the Texas Aggie basketball team.

### Seven Registrants Pass Physicals

Seven of the Parmer County registrants forwarded to Oklahoma City on June 1 for their pre-induction physical examinations, have been found acceptable, it was announced at the local board office today.

Those passing their pre-induction physicals were Mack Charles Turner, Joe Bates Jennings, Herbert Clinton Potts, John William Hand, Joseph William Threet, Elwin Blake Gooch, Warren, Odell Holley (a transfer from Bailey County).

### JUDGE GEE HERE

Judge W. E. Gee of Amarillo was here Wednesday presiding over a session of the Parmer County District Court, in which some civil matters were up for hearing. Judge John Aldridge was disqualified in the matters under consideration.

**Baptists and Religious Liberty**

Religious liberty is the chiefest contribution that America has made to civilization. It was pre-eminently a Baptist contribution. John Locke said: "The Baptists were the first propounders of absolute liberty, just and true liberty, equal and impartial liberty."

Baptists have one consistent record concerning liberty throughout all their long and eventful history. They have never been a party to oppression of conscience.

What is the explanation of this consistent and notably praiseworthy record of our plain Baptist people? It is, in a word, because of our essential and fundamental principles.

First of all, and explaining all the rest, is the doctrine of the absolute Lordship of Jesus Christ.

The second fundamental principle is the right to private judgment, the crown jewel of humanity.

For any person or institution to dare to come between the soul and God is a blasphemous impertinence and a defamation of the crown rights of the Son of God.

Baptists regard as an enormity any attempt to force the conscience, or to constrain men, by outward penalties, to this or that form of religious belief. Persecution may make men hypocrites, but it will not make them Christians.—GEORGE W. TRUETT, from an address delivered on the steps of the national capitol, Sunday afternoon, May 16, 1920.

### Making Compost For The Garden Plot

COLLEGE STATION—Good soil makes the best garden and one of the best soil builders is compost, which is a composition of fertilizer and organic matter, says J. F. Rosborough, horticulturist for the Extension Service. Gardening has become a habit with a vast number of Texas families, and a handy supply of compost simplifies the work.

A surprising number of items can go into making the mixture, Rosborough explains. These include fresh barnyard manure, poultry litter, sods and disease-free plant remains. Even hardwood leaves, straw and similar materials may be used, but these should be given preliminary decomposition before being placed in the pile. Addition of six or eight pounds of ammonium sulphate to each half-ton will hasten decomposition.

Addition of three to five pounds of unburned, finely ground limestone, if available, to each six inch layer of the material is desirable. To this also may be added two pounds of ordinary superphosphate and about one pound of muriate of potash; but two or three pounds of dry, sifted hardwood ashes will take the place of the muriate of potash. If these chemical materials cannot be obtained readily, however, a complete fertilizer containing not less than five per cent nitrogen, eight or 10 per cent phosphoric acid, and four to six per cent potash can be used as a conditioner.

Rosborough says that in preparing the compost, it is well to select a depression where leaching cannot occur, and where water may be ob-

tained readily for wetting it down. Pile the materials in layers in the proportions of about one part of fresh barnyard manure or decayed plant remains to two parts soil preferably a grassy sod. The thickest layer should not be more than six or seven inches, but the pile may be as large and high as needed to give the desired quality. A compost pile will rot down faster if sliced down, turned two or three times, and well moistened at frequent intervals. It never should be allowed to dry out.

A pile made in the early summer should be in good condition for use the next spring, Rosborough says.

### Storage of Woolens Is Very Important

COLLEGE STATION — Winter woolens which have not been stored for the warm weather months should have attention at once. The danger period for moth damage increases with warm weather, and in these days of war-time shortages, proper care of woolen garments is increasingly important, says Mrs. Dora R. Barnes, clothing specialist.

Storing winter garments properly not only saves them from moth damage, but also helps to prevent mildew, fading and decay. Cleanliness is, of course, the first rule on how to store articles of clothing successfully. All spots and stains should be removed, and all grime and dirt cleaned from the material, with special attention to the dust that might have accumulated in cuffs and pockets. They should be brushed well.

Use flakes, sprays or balls to discourage moths and carpet beetles.

If you leave woolens in a closet make it as airtight as possible so the gas from these moth preventives cannot escape. Since fumes from the flakes and balls go downward, it is advisable to put some of them on a top shelf, or tie them in a cloth sack and hang from a high hook of the ceiling.

Woolens should be stored in a dry place as mildew cannot be removed. An electric light helps to eliminate dampness, and sometimes dries the air enough to stop mold growth.

Wools should also be stored in a dark place, as light tends to fade colors or weaken fabrics. Since clothing bags serve as protection from light as well as dust, they should be used wherever possible, to help make last year's clothing wearable next fall.

### Marine Corps Needs More Enlistments

JOHN FALTER

WELL, GOD, here we are.

You up there. Me down here, with a burning sun, a mess of insects, too much ocean, and other buddies just as lonely as me.

Oh, God, how nice it must be back home, with Germany licked, and the folks humming, and some of the boys all finished with the fighting.

But I guess that wasn't meant for me, was it? And tomorrow and tomorrow I'll still be dodging bullets, still

feeling lost in the middle of the night.

Well, no hard feelings.

I'll go wherever You say, and do whatever You want me to. For You know what's best for me.

But say, if You can only get the people back home to remember me, maybe they'll still bear down. Maybe they'll still send us their blood, still stay on the job, still keep making the stuff we need.

You see, God, I'd like to get home, too.

### HOME FROM VACATION

The Tribune editor and son, I. E. Hanna and Warlick Thomas returned home last Friday from a week's outing in the Eagle Nest and Red River sections of New Mexico.

They report plenty of cold weather and an abundance of snow still remaining on the high peaks of the Sangre de Cristo range of northern New Mexico.

That section began experiencing its first warm weather of the spring the past weekend, with the result that all small mountain streams were running bankfull from the melting snow. Lake fishing was found to be good, the party of four placing 34 large lake trout in their creels in three days of fishing.

Range conditions between here and the very edge of the mountain ranges were desperately dry, and stockmen are wishing for some good rains.

### Presidential Citation Presented To Dixon

Jim C. Dixon, Pharmacist's Mate second class, USNR, of Farwell, recently was awarded a Presidential Unit Citation for his participation with the Second Marine Division (Reinforced) during the seizure and occupation of Tarawa.

The 22-year-old Dixon, son of Mrs. Ruby Dixon of Farwell, was presented the award in the name of the President by Commodore Stanley J. Mitchel, USN, commanding officer of the U. S. Naval Air Station, Alameda, Calif., where Dixon is now assigned to the medical department.

According to the citation, the Second Marine Division (Reinforced) was forced to disembark from landing craft by treacherous coral reefs hundreds of yards from the beach and became a target for Japanese fire. The Marines fought a gallant battle against crushing odds, and annihilated the Japanese forces. As a Navy pharmacist's mate attached to the Marine force, Dixon did heroic work in caring for the wounded under Jap fire.

Before entering the service in July, 1942, Dixon was attending school at Lubbock where he participated in football and basketball. He had "boot" training at San Diego and served with the Second Marine Division until returned to the States and assigned to the Alameda naval air activity.

It was the second time Dixon had been decorated in the past month. Previously, he received the Purple Heart for wounds received in action on Saipan.
