First GI Farm Loan Approved In County

Randel M. Wilson, a discharged army man, has been approved as the first borrower on the government's GI farm loan plan under the Parmer County FSA, Supervisor Frank Seale, of the local office, reports this week.

Wilson is actually a Bailey county GI, Seale said, explaining that Wilson made application to buy Parmer county land under the loan plan. All necessary approval was obtained last week, with Seale advising that "Wilson will get the deed as soon as the money arrives here".

One hundred and sixty acres make up the farm on the loan, being purchased from W. H. Garrett, in the Midway community, the supervisor reported. The total loan will be for the \$12,000 maximum, with the land and improvements costing \$7200 and the remainder paying for repairs and irrigation. Seale added that an irrigation well is already in operation on the farm, but that the project would be extended. Wilson plans to put several acres in alfalfa.

Seale further advised that "there is no need for GIs to rush our office trying to secure one of these loans," explaining that out of some 150 applications received, this is the first to be approved. It is understood that Bailey county has one approved GI farm setup, but no other is known of in this area.

Pioneer Passes At Pleasant Hill

Funeral services for Rev. C. C. Singletery, one of the early settlers of the Pleasant Hill community, were held at the Pleasant Hill Baptist church on Monday afternoon.

Rev. Singletery homesteaded in the Pleasant Hill community in 1906 and died at a Clovis hospital, Friday of last week, at the age of 69 years. Burial was made at Pleasant Hill under the direction of the Steed Mortuary in Clovis.

He is survived by his wife; two daughters, Mrs. J. D. Duncan of Holene and Mrs. F. E. Alcorn of Clovis; one son, Everett Singletery of Pleasant Hill; one sister, Mrs. Ed Jordan of Fairfield, Ill.; 17 grandchildren and three great grandchildren.

Visitor Relieved To Find Bread Here

Mrs. Roy Bobst, visiting here the past week from Yakima, Wash., was surprised and delighted to be able to enter a store and buy a loaf of bread.

She reported that regular bread lines formed in Yakima when the trucks made deliveries. "With the younger children in school, and the older children and I working, we have had difficulty getting bread," she added.

Mrs. Bobst said further that the loaves are very small, and a customer is allowed only one.

TO OUT-OF-TOWN SUBSCRIBERS

Under new policy, a charge of 10c is made for change of address. Please include this when you notify us of such change. Otherwise, The Tribune will not be forwarded to new addresses.

SCHOOL TO GET TOOLS

Supt. H. A. Clift of the Farwell school, who returned home the first of the week from a three-weeks vacation and business leave, stated today that a large collection of hand tools has been allocated the local school by the War Surplus Administration, and the collection will be shipped here from the Dallas pool.

At the same time, Clift stated that it appeared unlikely that Farwell's bid for one or more of the buildings at the POW camp at Hereford was out of the picture, explaining that all such buildings had been placed "under a higher priority" than schools.

Rains Past Week Not Enough To Plant

Although scattering showers have been falling in most of the area the past week, most farmers contacted on Tuesday still contend there is insufficient moisture to plant their feed crops.

There are some exceptions to this general state of affairs however, and in some small localities farmers began planting operations the first of the week.

This is particularly true of an area fairly close to Friona, where rain fell last Wednesday night, ranging up to a little over an inch, according to reports, and a heavy shower was received Monday evening. The Bovina area also got a heavy shower on Monday evening.

Pastures which had remained sere and brown were beginning to take on a healthy green tinge this week, following intermittent showers of the past ten days.

The range situation has become increasingly serious over most of the Panhandle and New Mexico as dry weather held, and the greenery in the pastures is a "sight for sore eyes" as far as cattlemen are concerned.

Rain Tuesday Night

Additional rain was reported at Friona on Tuesday night, when it was estimated that close to a half-inch was received in that vicinity. From indications this (Wednesday) morning, however, the shower became exceedingly light west, with no moisture in Farwell.

Reports from the Hub community and areas south of Friona were to the effect that from 1½ to 5 inches of rain fell there on Monday evening. No hail was reported, and it was not believed that the rain had injured the wheat, ready for the combines.

PIONEERS VISIT HERE

Mr. and Mrs. Ira W. Taylor, who homesteaded south of Texico shortly after the turn of the century, have been visiting old friends and relatives in this section the past two weeks. They are now located at Roseville, Calif., and have been staying at the home of their daughter, Mrs. Jewel Harpole, southwest of Texico.

A family reunion had been planned while they were here, but the only children putting in their appearance for the occasion were Mr. and Mrs. Ira W. Taylor, Jr., of Blackwell, Okla.

Wheat Continues to Surpass Estimate

Executive Committee Prepares for Primary

County Democratic Chairman G. D. Anderson stated today that the County Executive Committee would meet today (Wednesday) at the courthouse in Farwell to prepare the ballots for the forthcoming primary election.

Anderson said that preliminary problems pertaining to the primary would be discussed at the meeting, but that the chief business to come up was the drawing of names for places on the ballots.

With the deadline for candidate filing passed last Saturday, for a place on the county ticket, Anderson said that there were no last-minute entries, leaving three offices uncontested.

County Treasurer Roy B. Ezell, Sheriff Earl Booth and County Attorney Sam Aldridge will be renominated without opposition.

Two Cars Crash Head-on Near Lariat, Saturday

An unexplained head-on collision of two automobiles occurred late Saturday night near Lariat, resulting in serious injuries to seven persons and minor injuries to the other three who made up the personnel of the two vehicles.

Mr. and Mrs. R. O. Aubrey and R. E. Williams, 14, all of Progress, near Lariat, are still hospitalized, as are Louis Lucero and William Lucero of Hale Center; Ramona and Frank Garcia of Plainview. Released after emergency treatment were A. Garcia of Plainview; Dean and Preston Williams, 10 and 12, of Progress. Three-year-old Pat Garcia did not receive a scratch.

According to information, the cars crashed about 300 yards south of the Bailey county line, in Bailey county, on Highway 70. Lucero was driving west in a 1932 V8 sedan belonging to Garcia, headed for Clovis, and the Aubrey vehicle, a 34 Plymouth sedan, was traveling east to the family home at Progress.

Both cars were totally demolished and it is understood that passengers were trapped until help arrived to take them out the windows. The Garcia car overturned, while the Aubrey machine remained upright.

Aubrey sustained shock, broken ribs, a bruised chest and numerous cuts, while his wife had her arm broken in several places, and also was cut and shocked. The elderly couple's grandson, R. E. Williams, sustained a bad head cut with body bruises. The two younger Williams boys received only minor injuries.

Louis Lucero had an arm broken in several places and a badly bruised chest, caused when the steering wheel jammed him. A Garcia, father of the three children in the car, lost all his teeth, while Ramona Garcia has a broken leg and her brother, Frank, received a broken collarbone. Both also received severe facial and head cuts. Willie Lucero, brother of Louis, is being treated for bad cuts about the face. The three men were riding in the front seat of the car so that the children could sleep in the back, Louis Lucero reported.

Masons Elect Officers After Generous Feed

Farwell Lodge A. F. & A. M. elected new officers for the coming year at their hall in Bovina, Tuesday evening of last week, following a big supper that was prepared and served before the meeting got underway.

The roster of new officers includes the following: E. R. (Scotty) Barry, W. M.; Elroy Wilson, S. W.; O. W. Rhinehart, J. W.; B. N. Graham, chaplain; W. E. Williams, treasurer; J. C. Denney, secretary; and Fred Henry, Tiler.

HALL INSTALLS COOLER

Patrons at Hall's Grocery & Market can shop in comfort now, since the installation of an air-conditioning system, completed last week.

Will Engineer Please Blow Whistle When He Hits Truck?

Herman Henson, of the Lariat community, is still miffed at the engineer whose train hit him last Friday afternoon . . . and didn't even tell him about it.

Henson, who was making his way to a Lariat elevator with a load of wheat, missed all the excitement of being hit by a train; he didn't even know it!

Just before reaching the elevator, where he planned to dump his load, Henson said that he noticed his truck rattling as though it were empty. Looking back, he discovered the rear end of the truck had been knocked off and his load formed a golden trail behind for several hundred yards.

Examination finally disclosed that a Santa Fe train had clipped the rear of the truck bed as Henson negotiated a crossing—and the driver continued on unaware of what had happened. The truck belonged to Oscar Hubbel.

First Death In Family Of Nine Children

Funeral services were conducted by Rev. Fred Stumpp, assisted by Rev. A. O. Brewer of Abernathy, Texas, at the Baptist Church in Bovina last Thursday afternoon for Mrs. Winona C. Batty, daughter of Mr. and Mrs. J. H. Steelman of Bovina, and the first member of the family of nine children to pass away.

Mrs. Batty died at a Lubbock hospital last Tuesday, following a prolonged illness. Burial took place in the Bovina Cemetery with Steed Mortuary, of Clovis, in charge.

Besides her parents, deceased is survived by a daughter, Alice Kay, 9; four sisters, Alice Steelman, Mrs. Opal Brown, Bovina; Mrs. Ruby Bishop, Jacksonville, Texas; Mrs. Troy Fuller, Bovina; and four brothers, Charley, Amos and Walter Lee Steelman, Bovina; and Carrol Steelman, Clovis.

Her former classmates in the Bovina school acted as pall bearers, and included J. W. Ashcraft, Eugene Ezell, Byron Turner, Tom Caldwell, Otho and J. T. Hammonds.

TEXICO FIREMEN ATTEND STATE FIRE MEETING

Chief A. C. Green, of the Texico Volunteer Fire Department, accompanied by three of his crewmen, left here Sunday for Raton, N. M., where they were in attendance at the State Firemen's Convention the first three days of the week.

Those making the trip with Chief Green were Otis Huggins, Frank Jones and Milo Goldsmith.

As the wheat harvest in this region began to move into the second week, continued reports of exceptional and even surprising yields were being heard on all hands.

The majority of fields that had been estimated to run around 10 to 12 bushels are turning out 16 to 18 bushels, only fields that were believed "too poor to harvest" are yielding as high as seven bushels to the acre.

Several 20-bushel yields are being reported, and an occasional 30-bushel yield is being heard. Generally speaking, most of the fields are said to be averaging about 15 bushels, as one wheat man put it "better than they had any right to be this year".

While most fields are exceeding early estimates, there are some fields that are proving a disappointment. Fred Gerles, 10 miles southeast of here, said that he had two large patches of wheat, and what he had considered the poorest field was actually outstripping what he thought was his best field.

Pearl Singletery of the Pleasant Hill community, had 100 acres in one field which grossed an income of \$2800.

Harvest was brought to a sudden standstill the first of the week, with scattering showers over most of the county. No hail damage has been reported and in some sections harvesting operations were resumed on Tuesday afternoon. Harvest hands, generally, were glad of the opportunity afforded them to catch a breathing spell, and to come to town for haircuts, etc. It also gave growers a chance to make minor repairs on combines and harvest machinery in general.

New Credits Added To Bovina Curriculum

According to a report from Deputy State Superintendent E. H. Boulter, of District 1, two and one-half credits have been added to the accredited list for the Bovina high school.

Included are general agriculture, one; public speaking, one; and economics, one-half. No credits were dropped from the list, the report added.

Boulter's report indicated that the school's exhibits were in due order and showed efficient teaching. The organization and over-all supervision were commended highly, as was the excellent condition of the free text books. He likewise commended the splendid janitor work done by Mr. Williford, and expressed thanks to the superintendent, W. O. Cherry, for his cooperative and progressive educational thinking.

Recommendations included the suggestion that the elementary department continue to give thought and study to its integration of instruction around recommended core-areas.

SHOWS IMPROVEMENT

Eugene Hromas, formerly of this community, was injured in an oil field accident some five weeks ago. He has been dismissed from a Wichita Falls hospital, and is now at his home in that city.

With an estimated one-third of the wheat crop in the western part of Parmer County hauled to the elevators at Bovina, Texico-Farwell and Lariat, a serious shortage of railroad cars to move the wheat to grain terminals was already in prospect here the first of the week.

All local elevators, with the exception of the Roberts Seed Company, were reported filled to capacity, and elevator men were threatened with having to turn further receipts down unless there is an immediate improvement in the car situation.

The same condition was reported prevalent at Bovina, and, to some extent, at Lariat. The two elevators at the latter point had been reported as receiving more cars than had been allocated to Texico-Farwell and Bovina combined. W. W. Vinyard, local Santa Fe agent, stated Tuesday afternoon that only four cars had been set out in Texico-Farwell since last Thursday, and added that he would predict a continued shortage. "I don't expect much relief this week," he said, adding that some improvement might be forthcoming soon when shipments on the South Plains are concluded.

Just how critical the car shortage really is was forcibly brought out early this week when J. B. Briscoe, Santa Fe superintendent of Amarillo, is reported to have been compelled to dump his grain, from a full section, in the open. Briscoe is said to have a section of good wheat near Bovina.

C. M. Henderson said Tuesday that his elevator was filled, but that he still had a limited amount of storage in the old cotton warehouse.

Ray Ford of the Farwell Elevator, said that he was "practically full" at his elevator, adding that he would continue to take wheat as long as possible.

Only at Roberts Seed Company was the storage situation encouraging, with M. C. Roberts reporting that he had "lots of storage".

Due to the expense involved and the risks taken, all local grain men are frowning on the idea of piling grain out in the open. All of which adds up to the fact that wheat movements from here are facing a serious bottleneck unless railroad cars in sufficient numbers are obtained here at once.

HERE FROM CARLSBAD

Mr. and Mrs. Charley Rose, of Carlsbad, N. M., and their daughter, Mrs. Arthur LeRosen of Baton Rouge, La., were visiting in the Claude Rose home the first of the week.

Rose was successful in his race for the Democratic nomination for state school superintendent in New Mexico in the recent primary.

FORMER PASTOR HERE

Rev. W. T. North, former pastor of the local Baptist church, accompanied by Mrs. North, Imogene, Sue and Melba, and Mrs. Bertha Vandiver of Spur, Texas, was here last weekend visiting in the home of two of the children, W. T. North, Jr., and Mrs. John Hadley, Jr. Rev. North is pastor of a large rural church near Lubbock and says he is well pleased with his location.

Wheat Set-Aside Ruled Out...?

With the U. S. Department of Agriculture stepping into the much-muddled program regarding set-aside wheat of the 1946 crop, local elevator men were free today to express the prediction that the grower would continue to dispose of his wheat in much the manner that suited his individual desires.

In a letter addressed to all local grain dealers, under date of May 31, USDA has advised that "voluntary cooperation on the part of the producer" is all that will be required of the producer in making sufficient quantity of wheat available to the government to meet foreign commitments.

Furthermore, according to the USDA, warehousemen will not be required to act as "the policing agency in enforcing the administration" of the set-aside order.

Lee Thompson, manager of the Bovina Wheat Growers of Bovina, said that it would not be his policy "to require the farmers to do anything". And C. M. Henderson went so far as to predict that the whole

set-aside program would be withdrawn in a short time. He, too, joined Thompson in saying that he did not propose to enforce the order, and said that he felt all elevator men would feel the same way. Henderson gave it as his opinion that ample wheat to meet foreign shipments would have been supplied if it had not been for the order from Secretary of Agriculture Clinton P. Anderson. "People don't like to be told they must do anything," Henderson observed.

The set-aside program, requiring that the producer sell at least one-half of all wheat brought to the country elevators, caused considerable criticism when it was received, and the prediction was freely offered that "it would be hard to enforce".

Specifically, the letter which apparently knocks in the head the set-aside order, was issued by the U. S. Warehouse Act Administration, a division of the USDA, over the signature of Carl J. Miller. It reads: "A question about warehouseman's responsibility in connection

with the set-aside requirements applicable to wheat has been raised. A recent amendment of WFO 144 provides, briefly, that each producer is required to sell one-half the wheat he delivers to an elevator within 15 days from the time of delivery.

"Those who purchase wheat from producers are required to set aside, reserve and hold for delivery to CCC not less than one-half of all wheat purchased from the producer.

"The question is whether grain warehousemen will be expected to enforce the order as it applies to producers; in other words, are grain warehousemen expected to be the policing agency in the administration of the order?"

"There is nothing in the order that would require warehousemen to assume any responsibility of this nature. . . It is advisable for warehousemen to acquaint the producers with the terms of the order. Compliance on the part of the producer, however, is the responsibility of the producer. We shall advise you further if there is a change of policy."

OUR PLEDGE

We pledge allegiance to the Flag of the United States, and to the Republic for which it stands; One Nation, indivisible, with Liberty and Justice for all.

Old-Age Pension Rolls

Texas has 175,836 old-age pension recipients, which is 40 per cent more than New York State has although the latter's population is 110 per cent greater than Texas'. Pennsylvania has 60 per cent greater population and 52 per cent fewer recipients. The average for the U. S. is 210 recipients out of each 1,000 persons 65 and over. In Texas there are 452 out of each 1,000 persons 65 and over on the pension rolls.

The Taxation, Public Expenditure and Legislative commission of the West Texas chamber of commerce says the fault is not in the administration of our old-age pension system but in the laws defining eligibility. The Texas laws are over-liberal in this regard, in defiance of the federal law which bases old age assistance strictly on the basis of need.

In consequence of the overplus of pensions on the rolls, the real needy old people get only a fraction of what they would receive if those who are not in real need were cleared off the rolls.

There is real suffering among them, you may be sure; but because the amount that can be spent on old-age assistance is limited by the state constitution, and the taxpayers' ability to pay is also limited by the laws of economics, the only possible relief is to tighten the laws basis for eligibility.

Nobody should begrudge the pittance our needy old folk deserve and should receive, but everybody—including the really needy ones—should be interested in seeing that the rolls are freed from all persons who have no legitimate place on them, because genuine need does not exist.

It stands to reason that if Texas would get down to the national average of 210 persons per 1,000 on the old-age pension rolls, there would be a decent amount of money going to the needy every month—instead of the half-portion they now receive.

This is a situation the legislature should face up to, and rectify.

Upset Stomachs Yield Inches Of Gas And Bloat

"I was so full of gas I was afraid I'd burst. Sour, bitter substance rose up in my throat from my upset stomach after meals. I got INNER-AID, and it worked inches of gas and bloat from me. Waistline is way down now. Meals are a pleasure. I praise Inner-Aid to the sky." —This is an actual testimony and we can verify it.

INNER-AID is the new formula containing medicinal juices from 12 Great Herbs; these herbs cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering—Get Inner-Aid. Sold by all drug stores here in Parmer County. (Adv.)

Camels are the pack animals of Southern Asia and Northern Africa.

Are Your Tomato Vines at Stake?

—Photo Courtesy Ferry-Morse Seed Co.

Raising a crop of tomatoes in your garden is something like bringing up a family. Children and tomato vines can both be allowed to go their own sweet way, following their natural inclinations; or, you can keep them from having all the freedom they'd like and wield a firm hand in the direction you want them to head. Both ways of thinking have enthusiastic followers.

Take tomatoes. If you have plenty of space and the ground under the vines is not likely to be wet causing the fruit to rot, you can often get a splendid crop with less work by just letting the vines sprawl. On the other hand there are a number of advantages to training tomato vines.

In a small garden there is real economy of space by staking because the plants can be set closer together and many more grown in the same area. Getting the vines off the ground allows them more sunshine and often prevents the tangled mass of leaves and stems from shading the fruits and delaying ripening. When the vines are off the ground, the fruits usually ripen more evenly and are easier to gather without breaking or pulling up the vines.

There are several suitable ways of staking tomato vines. One of the customary methods is to use poles about six feet long by one inch square, driving them a foot into the ground, one beside each plant. Some

like to nail two or three short crosspieces to each pole to form a trellis. Tomato plants set along a fence will sometimes form an ornamental as well as useful border, and the fence posts, if slender, will serve as supports to which the vines can be tied.

There's a simple effective way of staking called the "tepee" method. Four poles about five feet in length are set beside four tomato plants equally distant from each other. The stakes need not be driven into the ground but are tied firmly together at the top (see illustration). Each plant is fastened to and supported by its pole.

Whatever method of staking is used, all the side shoots except the trunk and two main branches should usually be nipped off before the plants are tied to their supports. This encourages stronger growth and better fruits. For tying the plants be sure to use soft string or strips of rag. Hard twine may cut or break the branches, especially when the wind blows.

Final Details Planned For Cowboy Reunion

Final details are almost complete for the sixteenth annual showing of the Texas Cowboy Reunion, according to A. M. G. (Swede) Swenson, Chairman of Rodeo Events.

Selection of Bill Damron, Seymour completes the team of judges to be used this year. The success of a show often depends upon the men chosen as judges to see that all receive fair and impartial treatment. These men have been selected because of the fine record as men who know their work, and whose integrity is unquestionable. Other judges are: Foy Proctor of Midland, George Humphreys of Guthrie, W. B. Willingham of Rotan, and Byrel Hittson of Breckenridge.

As announcer for the show, officials have again called upon E. O. (Red) Wedgeworth, Manager of the Pampa Chamber of Commerce, who handled the job last year. His assistant will be C. R. (Cow) Taylor.

The Pick-up men in the arena will be Ab Smith of Spur, and Floyd Freeman of Dumont, who are both well known in this area. Arena Director will be John Selmon, who has been in charge of the arena every year since the beginning of the Texas Cowboy Reunion Rodeo. John is Foreman of SMS Flat Top Ranch, Stamford.

Time keepers will be "Gob" Fitzgerald, Lee Walker, and Alton McClellan, Jr.

Entries in the rodeo contests including Calf Roping, Bronc Riding, Wild Cow Milking, Cutting Horse, Steer Riding, Bareback Bronc Riding, old-time cowboy's calf roping, and the special Service and Ex-Service Men's Calf Roping, are coming in from all parts of the state, together with numerous out-of-state entries. All cowboys entering these contests are regular cowhands from the ranches.

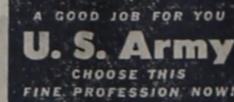

Sound equipment for this year's rodeo will be furnished by the courtesy of the Texas Company.

WIND TUNNELS FOR TESTS

Supersonic wind tunnels necessary for the Navy's experiments in high-speed missile development are costly articles, but navy scientific authorities are cutting expenses considerably by simply dismantling some of the excellent installations built by the Germans and bringing them into this country. German scientists, whose ingenuity may prove to be the most valuable item in U. S. reparations from the Reich, will be employed in construction and operation of the imported equipment.

University Prof Named To London Society

AUSTIN—One of the few scientists in the United States to be elected to the Malacological Society of London is Dr. H. B. Stenzel, geologist with the University of Texas Bureau of Economic Geology.

Malacological refers to the study of the mollusea, a type of sea creature of which oysters, clams and snails are most familiar to the layman.

Dr. Stenzel was elected as a corresponding member of the Society.

TRUMAN GETS INCREASE

A \$60,000 a year increase in pay went to Harry S. Truman when he took over the Presidency.

Health Notes

By Texas Department of Health

AUSTIN.—There are persons who naturally hoard anything and everything including old clothes, boxes, and other useless articles, some of which constitute no greater danger than a possible fire hazard, but a very real danger is present when this tendency is applied to hoarding old medicine in any form.

Most medicine finds itself into the home through a doctor's prescribing it for some specific illness. For the sake of safety, left-over medicines should be destroyed immediately when they have fulfilled their purpose and never be stored in the medicine cabinet for future unprescribed use in case of another illness, according to Dr. Geo. W. Cox, State Health Officer.

"Self-medication with the use of left-over drugs which were of great benefit to some previous illness can sometimes turn a simple ailment into a very serious condition of actual poisoning," Dr. Cox said. "This is particularly true of the indiscriminate use of sulfa drugs which have been prescribed for some previous specific condition."

"It is wise to use medicines as indicated for the illness for which they are prescribed by your doctor, and when they are no longer needed, destroy the remaining medicine immediately," Dr. Cox said. "Even if you expect a return of the same condition at some future date, it would be better to obtain new medicine than this old medicine in the cabinet and subject the members of your family to the danger of using it unwisely."

110-Year-Old Record Presented Museum

LUBBOCK—A 110-year-old document which bears the seal and signature of Sam Houston, has been given to the West Texas Museum on the Texas Tech campus by Dr. Clifford B. Jones, president emeritus, according to Dr. W. C. Holden, director of the museum.

The document, a letter from Houston to the Comanche chiefs written Dec. 3, 1836, appealed to the Indians as common enemies of Mexico to make peace with Texas for mutual benefit of both the red and the white man.

The letter, held in an elaborate walnut frame, is decorated with red, white, blue and green ribbons, and bears Houston's private seal, part of which is gone.

MORE DRIED EGGS

USDA has extended its dried whole egg program to obtain one extra 12,000,000 pounds for household-sized packages equal to one dozen eggs, for use under England's food rationing program.

YOUNG PATTON RECEIVES COMMISSION FROM MOTHER... At graduation exercises in the U. S. military academy, Mrs. George S. Patton, widow of famed U. S. 3rd army commander, presented a regular army commission to her son, George S. Patton Jr. Young Patton was one of 21 sons of generals graduated in largest class in history of the academy. Others included the sons of Lt. Gen. James H. Doolittle and Lt. Gen. Wedemeyer.

SELECTION OF SHEETS

COLLEGE STATION—With sheets soon to be available on the market again, the ability to make wise selection, once more becomes important to housewives. Mrs. Bernice Clartor, specialist in home improvement for the A. and M. College Extension Service, has several suggestions on choosing quality sheets. Thred count has much to do with the difference between a good and a poor sheet, Mrs. Clartor says. Whether a weave is fine or coarse can be determined fairly well by holding the sheet up to a light and stretching it tightly between the hands. Signs of a poor sheet include loose weave, threads that show small knots or unevenness, puckers, and missing wrap threads.

If the sheet is hemmed with long coarse stitches, it also will be cheap, flimsy, and without good wearing qualities. Small stitches characterize a good sheet.

By rubbing parts of the sheet together one can learn whether starch has been added to give it a smooth, soft finish. If the starch is present, a fine powder comes off.

Important to the strength of a sheet is the selvage, which should be closely woven, almost like a tape, and free from wrinkles at the edges. Since all sheets shrink in the first few washings, they should be 108 inches long to give an ample, 20 inch

turnback. A few words about care in washing: Do not wash colored sheets with white ones. Hang colored sheets in the shade and do not wash them in boiling water. Use a soap you can trust. Too much water softener will turn white fabrics yellow.

Anthropologist Uses Museum Resources

AUSTIN—Resources of the anthropology museum at the University of Texas have been used for the past month by a University of Chicago anthropologist, Richard MacNeish.

MacNeish has analyzed portions of the A. E. Anderson collection of Indian relics which originated in and near Tamaulipas, Mexico. He spent several months in Mexico, making a survey of the mountains and gulf coast areas, and came to the University to complete his studies.

Included in the Anderson collection are bones, pottery, pendants, shells, beads, and other materials indicative of early Indian civilization. The collection belonged to A. E. Anderson of Brownsville, and was loaned to the museum by Mrs. Margaret Dancy of Austin.

PREFERS CATHERINE

Three of the six wives of King Henry VII of England were named Catherine; two were named Anne; and one, Jane.

"It May Be a Bit Crowded..."

Yes, lots of people are crowded these days, and it will be some time before home-building catches up with demand.

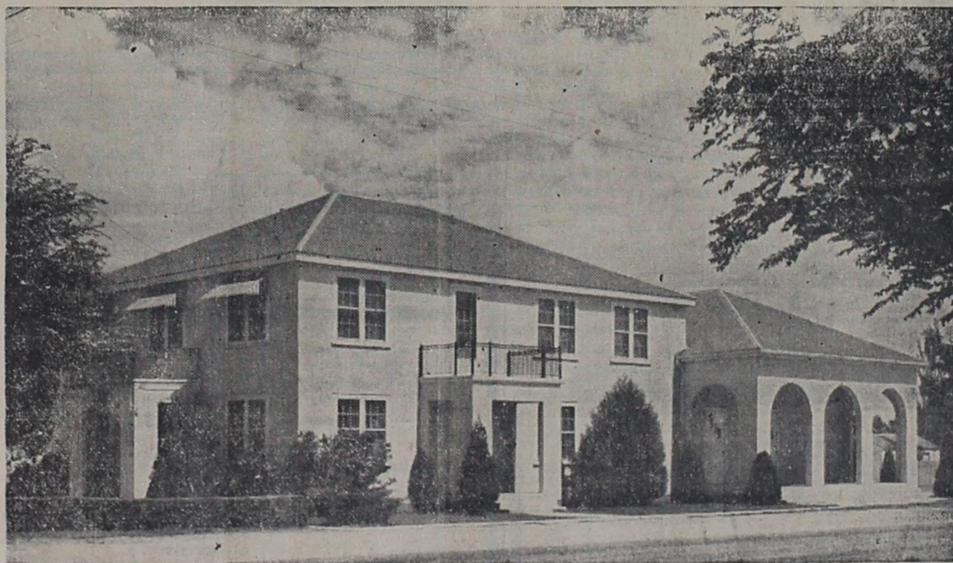

LONG DISTANCE LINES, too, are crowded—and more than "a bit."

The number of long distance calls continues to mount. In the past few years Americans have developed the "long distance habit" more than ever before. Summer travelers, many of them away from their homes and work for the first time since before the war, are finding it necessary to keep in touch by telephone. Lines are taxed to the utmost.

As fast as conditions permit we are adding new long distance circuits, but at best it will take many months to catch up with increased demand. So, for awhile yet, there may still be delays on some calls. If one of your calls encounters a delay, we hope you'll remember that we're doing all we can to keep delays at a minimum.

Colleges Overflow For Coming Terms

LUBBOCK—Veterans and others enrolled in American colleges now and next fall are fortunate to be so situated, since a half million others will find no college with room for them, officials of Texas Technological College believe.

Statistics from a recent report of John W. Snyder, director of War Mobilization and Reconversion, to President Truman are cited by T. C. Root, assistant to Pres. W. M. Whyburn of Tech, to support the stand. The report estimates 970,000 veterans—more than double the 400,000 enrolled this spring—will seek admission to colleges this fall and 700,000 of them will be accepted, leaving 270,000 without a place to secure college work under terms of the GI Bill of Rights. It also is estimated 2,100,000 young men and women will attempt to enroll in college in September and 500,000 of them will be rejected because of inability of colleges to provide instructional services.

The Snyder report shows college enrollment this spring was 1,160,000 with 1,600,000 expected for fall. The college population, Root also cites, was 250,000 in 1940, rising to 1,500,000 in 1941 and dropping to 728,000 in 1943.

"It is expected that college enrollment will increase to nearly 3,000,000 in 1955 and that this level will be maintained permanently," Root declares.

"This sudden increase presents a real challenge to the colleges, with possibilities of new growth comparable to that growth of a generation ago in high schools. The challenge to colleges is to show the nation that they can, under most difficult circumstances, rise to the occasion, expand, and adapt their facilities to serve a greatly increased proportion of our population. Such problems as housing, expansion of college plants, and expansion of teaching staffs will have to be met and on a permanent, instead of temporary, basis."

SCHOLARSHIP OFFERED

FORT WORTH—A scholarship worth \$250 for the school year is available at TCU for some student interested in creative writing and entering the school for the first time. Known as the "Creative Writing Scholarship" the award is provided by the Dallas TCU Woman's Club. Details may be obtained from Prof. Mabel Major, Dept. of English, TCU.

CHAPTER GETS CHARTER

LUBBOCK—Charter membership in Kappa Alpha Mu, national photography honorary fraternity, has been awarded the journalism department at Texas Tech.

Set-Aside Regulations Tightened On Beef

Set-aside regulations on beef have been changed to speed procurement of foreign relief shipments and to make more specific the set-aside and delivery requirements which slaughterers must meet.

The new regulations include:

1. Federally-inspected and certified slaughterers must set aside each week and hold in reserve for government procurement a fixed percentage of their weekly beef production of specified grades. They must also certify the physical set-aside of each week's requirement.

2. Affected slaughterers will be required to deliver to government agencies a quantity of beef equal to the set-aside in the third previous week.

3. Federally inspected and certified slaughterers will be required to have made up all deficits in deliveries of set-aside amounts of beef by June 22, instead of June 15.

4. U. S. utility grade and cutter grades of beef have been combined and the set-aside combined established at 55 percent. Commercial grade beef remains at 40 percent.

The administrator of PMA may direct delivery to a governmental agency of the set-aside beef in the event of failure on the part of slaughterers affected by the order to deliver the required quantity.

Department officials stated that set-aside orders on pork and lard, and veal would be revised in line with amended beef regulations. Mutton set-aside has been suspended.

ELECTED TO MEMBERSHIP

LUBBOCK—Texas Tech has been elected to active membership in the Engineering College Research association, according to an announcement received by O. V. Adams, dean of engineering. Membership in the association numbers 67 colleges and universities, including Texas Tech, Texas A. & M., and the University of Texas.

Daniel Boone made his own coffin, which he kept under his bed until his death on September 26, 1820.

Protein Meal, Soybean Controls Tightened

To keep protein meal and soybeans moving in normal trade channels, and prevent trading of beans for meal, the government controls over bartering these products have to be tightened to provide that:

(1) No person may receive or direct delivery of protein meal in an amount exceeding receipts during the corresponding month of 1945;

(2) Soybean purchases are limited to the buyers' requirements for the period ending Oct. 10, 1946 (for the 1945 crop) and Oct. 10, 1947 (for the 1946 crop).

In addition, reserves above contracted deliveries are limited for dealers.

SAME MEAT PRODUCTION

U. S. meat production in 1946 will be close to last year's total of 22.9 billion pounds—two billion below the 1944 record, USDA forecasts. Production in 1947 may be a billion less than this year.

DUST BOWL PREVENTION

Albert Tillinghast, district PMA representative, reports that extreme drought continues over the grain sorghum area of eastern New Mexico, and added there is grave danger of it reaching dust bowl proportions again. Most of the dryland farmers in the area—through the assistance of the ACP—are sub-soiling their entire cropland, ripping up the hardpan and leaving a rough, cloddy surface in order to keep top-soil from blowing. This practice will also put cropland in shape to absorb the maximum amount of any dashing rain which might come.

STUDY FUTURE PROGRAMS

C. V. Hemphill, New Mexico director of PMA, left June 15 to attend a national conference convening in Chicago on June 17. The purpose of the conference is to study the national school lunch program which is to go into effect in the fall of 1946. Representatives from the USDA will also discuss conservation and production for 1946-47.

Contrary to popular belief Siberia is not a cold, bleak, cheerless country. Its temperature ranges from frigid to tropical.

VA Office Officially Opened In Lubbock

The Veterans Administration Lubbock Regional Office officially opened for operation on June 3, Robert W. Sisson, regional manager, announces The office is located at the Lubbock Army Air Base until an office building can be constructed for VA occupancy in downtown Lubbock.

Organization is not complete in some of the divisions; however, every effort is being made to have the office in full operation within a few days. When de-centralization is complete the Lubbock office will render every service, right in Lubbock, that is performed by any regional office. The Lubbock region includes 31 West Texas counties. Case files have already arrived from the Waco office for 49 counties formerly served by that office. The 26 Panhandle counties being served by the Muskogee, Okla., regional office, and the six counties in the El Paso area being served by the Albuquerque office will be activated by the Lubbock office on July 1, Sisson said.

Prizes Are Raised For Top O' Texas Show

All prizes have been raised and one-half of all entry fees added as final money at the annual Top O' Texas Rodeo and Quarter Horse Show to be held in Pampa August 16, 17 and 18.

Day money of \$75, \$50, \$25, \$15 will be offered in both calf roping and wild cow milking. Entrance fees for the two go-rounds in the roping events will be \$15 each. Prizes of \$60, \$40, \$20, \$10 will be the day money in saddle bronco, bareback broncos, bull riding and steer wrestling, with one-half of entry fees added in all contests for best two-day average.

Special hand-made saddles will be the first prize in both the cutting horse and cowgirl sponsored contests.

The Quarter Horse Show held as a part of the annual program, drew 107 animals last year, and is already expected to be even larger this year.

CULL POULTRY FLOCK NOW

COLLEGE STATION—The present ceiling prices on corn, wheat and other grains and protein concentrates means that heavy culling must be done in farm and commercial flocks if poultry-men hope to stay "in the black" on egg production, according to S. A. Moore, poultry husbandman of Texas A. and M. College Extension Service.

"It takes around 11 pounds of feed to produce a dozen eggs from a hen that is laying at the rate of 80 eggs per year," Moore said. A 200-egg hen will lay a dozen eggs on 5 pounds of feed.

The poultry specialist estimated that 3 and 1-2 million Texas hens, or about one out of every seven in the average flock, was costing her owner money instead of bringing it

in. While culling "boarders" from the flock is always good business, it is especially necessary now because of the feed situation, he said. Many low-producing hens in poultry flocks are eating feed at the rate of four to five pounds per month, so two birds culled out now will save a sack of feed in the next year.

The feed so saved can go to relieve the food and feed shortage elsewhere, or two young birds can be raised up to production on what one old one would eat in the meanwhile.

LEGAL NOTICES

CITATION BY PUBLICATION THE STATE OF TEXAS

To: Ella Porter and Fred Porter, the unknown stock holders of The Texas State Bank of Farwell, a Texas Banking corporation, and the unknown heirs, assigns and legal representatives of the aforesaid defendants, Greeting,

You are hereby commanded to appear before the Honorable District Court of Parmer County at the Court House thereof, in Farwell, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 29th day of July A. D. 1946, then and there to answer Plaintiff's Petition filed in said Court, on the 13th day of June A. D. 1946, in this cause, numbered 1360 on the docket of said court and styled C. M. Henderson Plaintiff, vs. Ella Porter, et al Defendants.

A brief statement of the nature of this suit is as follows, to wit:

Plaintiff alleges that he is the owner in fee simple of Lots 17, 18, 19 and 20, in Block 20, of the original town of Farwell, Parmer County, Texas, and was the owner in fee simple of said lots on May 1, 1946, and the defendants and all of them unlawfully entered upon said land and dispossessed him and withhold from him said premises to his damage in the sum of \$1.00. Plaintiff prays for title and possession of said lands. As is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Farwell, Texas, this the 13th day of June A. D. 1946.

Attest: D. K. ROBERTS, Clerk, District Court Parmer County, Texas. 32-4tc.

Good Lighting Adds to Comfortable Living

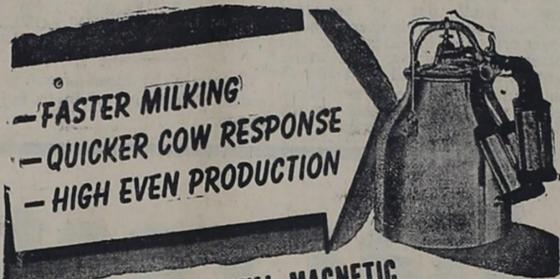

GOOD home lighting not only adds to cheerful and comfortable living but also provides a cheap form of accident prevention, writes Myrtle Fahsbender, director of home lighting for Westinghouse in Capper's Farmer, a magazine of national circulation.

"To say 'home is what the abc's of good lighting help to make it' is to take considerable liberty with a very tender expression," she points out in the magazine read by 1,250,000 farm families. "But it's paraphrased with real sincerity. For unless a home is cheerful and comfortable by night, as well as during daylight, it has sacrificed some of the livability good lighting can give. Good light can bring an almost sunlight quality of illumination to after-

dark eye tasks. It can make or mar the beauty of a home."

Among the basic principles for good lighting are 1—A carefully thought-out-over-all plan for the job; 2—Having enough light when and where you need it; 3—Avoiding harmful glares; 4—Avoiding shadows in the room.

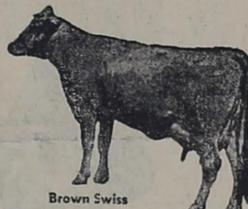

The above photograph demonstrates basic principles for good lighting. The floor and table lamps with reflector bowls give light where the family sits to read, sew or write. Such a pleasing over-all glow of light cheers up the room as sunlight does. Wall brackets and fluorescent tubes placed behind window valances are mainly for decorative effect.

YOU ARE HEREBY NOTIFIED AND COMMANDED to appear at the first day of the next regular term of the District Court of Parmer County, Texas, to be held at the Court House thereof in the City of Farwell, Parmer County, Texas, at or before ten o'clock A. M. on the 2nd Monday in July, A. D. 1946, the same being the 8th day of July, A. D. 1946, then and there to answer a petition in a delinquent tax suit filed in said

For Lieutenant Governor

ALLAN SHIVERS
of Jefferson County

The father of two children, he left the Senate to volunteer in World War II, served overseas and now asks promotion to the office of Lieutenant Governor, for which he is qualified, based on service and experience. Address Allan Shivers, Port Arthur, Texas.

court on the 28th day of May, A. D. 1946, in a suit numbered 1148, styled State of Texas vs. C. H. Gray, et al, on the docket of said court in which The State of Texas and Parmer County are plaintiffs, and The City of Friona and Friona Independent School District are impleaded party defendants, and are intervenors, and C. H. Gray, Felix H. Wood, Mrs. Alvide Olson and George C. Wright are defendants, and show cause why judgment shall not be rendered condemning said hereinafter described property and ordering sale and foreclosure thereof for said taxes, penalties, interests, and costs of suit.

Said suit is a suit to collect taxes, interest, penalties, and cost on the following described property:

Lots seven (7), eight (8), nine (9), ten (10) eleven (11) and twelve (12), in Block eighty seven (87), of the original town of Friona, Parmer County, Texas.

The amount of taxes alleged to be delinquent, due, owing, and unpaid for the respective years and in the respective amounts for each of said plaintiffs, intervenors, and impleaded party defendants, taxing units, on the above described property is as follows:

Plaintiffs, Impleaded Party Defendants, and Intervenor That are Taxing Units: State of Texas, County of Parmer; Taxes Due: \$114.45; Years Delinquent, 1919 to 1945; To Whom Assessed: Mrs. Alvide Olson.

Plaintiffs, Impleaded Party Defendants, and Intervenor That are Taxing Units: City of Friona; Taxes Due: \$85.31; Years Delinquent: 1923 to 1945; To Whom Assessed: George G. Wright, Felix H. Wood.

Plaintiffs, Impleaded Party Defendants, and Intervenor That are Taxing Units: Friona Independent School; Taxes due: \$102.99; Years Delinquent: 1925 to 1945; To Whom Assessed: Mrs. Alvide Olson and George G. Wright and Felix H. Wood, together with interest, penalties, cost, charges, and expenses of suit, which have accrued and which may legally accrue thereon.

Each party to this suit shall take notice of, and plead, and answer to all claims and pleadings now on file or thereafter filed in said cause by all other parties therein.

Plaintiffs, intervenors, and defendants that are taxing units also seek the establishment and foreclosure of the lien securing payment of such taxes provided by law.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates thereof, and make due return as the law directs.

WITNESS MY HAND AND OFFICIAL SEAL OF MY OFFICE in Farwell, Parmer County, Texas, this the 28th day of May, A. D. 1946.

D. K. ROBERTS,
Clerk, District Court, Parmer County, Texas
DOROTHY LOVELACE
Deputy

At Our Modern Elevator In Bovina

Although the 1946 wheat crop does not promise to be heavy, and under government emergency orders farmers are expected to sell 50% of their wheat delivered to the elevators, **WE WANT YOUR WHEAT REGARDLESS!**

We will work with you in every way possible and try to the best of our ability to handle your crop like you want it handled. Although government regulations will interfere in some instances, we are determined to give the farmers every advantage and every service possible in handling their wheat.

Our elevator has been reconditioned and is manned with experienced grain and elevator men to give you good service with your 1946 wheat crop. Any business that you see fit to give us will be greatly appreciated, and we pledge our best efforts to give you fast, efficient and courteous grain elevator service.

Local Happenings

Stork Shower Given Mrs. H. E. Carrell

Mrs. Harvey E. Carrell was honored the past Wednesday afternoon at four o'clock, at the Methodist church, when she was tendered a surprise pink and blue shower.

Ladies of the local WSCS acted as hostesses, and served refreshments of punch and cookies to those attending.

Gifts were received from Miss Laura Temple; Mesdames D. W. Bagley, D. K. Roberts, A. D. Smith, Anne Overstreet, Roy B. Ezell, B. N. Graham, B. E. Nobles, Frances King, Jess Newton, W. W. Vinyard, M. C. Roberts, Bess Henneman, Hamlin Y. Overstreet, Charles Lovelace, Ruby Dixon, W. H. Graham, S. C. Hunter; Mesdames Paul Schmidt, E. F. Loke, G. W. Atchley, J. H. Moss, S. E. Morris, F. J. Park, Lena Yoder, Aubrey Sprawls, LeRoy Faville, Lenton Pool, A. D. White, T. J. Massongill, Frank Phillips Sr., Frank Phillips, Jr., A. Milstead, Ralph Humble, C. M. Henderson, Earl Booth, Robert Morton, John Aldridge, Lee McElroy, R. E. Walker, Albert Thomas, Loyd Cain, B. A. Rogers, Bess Mansfield, Sam Aldridge, Wm. V. Coventry, John Porter, Roy Thornton and Wilfred Quickel.

Dinner Held Sunday In Roberts Home

E. W. McGuire, Earl and Sam Billingsley were honored with a dinner in the home of Earl Roberts, Sunday, June 16th.

Those enjoying the day were Miss Virginia Eagles, of the Clovis USO; Sgt. John D. Turoy, Cpl. Charles W. Lee, Pvt. Thomas McGlennon, Miss Helen Anderson and Alta Roberson, all of Clovis; Mr. and Mrs. E. W. McGuire and Jim Ed, Mr. and Mrs. Earl Billingsley, Mr. and Mrs. Sam Billingsley, Mr. and Mrs. Charles Robertson of Amarillo, Mr. and Mrs. Leon Billingsley and Judy, Miss Vashti Fowler and the host.

Back From Vacation

Mr. and Mrs. Raymond Ross, who have been vacationing in several of the western states, visited the first of the week in the home of her parents, Mr. and Mrs. B. N. Graham. They have gone on to their home in Morton, accompanied by their two children, who visited their grandparents for two weeks.

Called To Dallas

Mrs. R. E. Williams, who was called to Dallas last week by the illness of a brother, reports her brother in critical condition. Mrs. Williams plans to return to her home in Texico in a few days.

Ralph Humble was a business visitor in Portales, the past Wednesday.

Mission Study Held By Church Society

Studying "The Cross Over Africa" the Woman's Society for Christian Service held an all-day meeting in the local Methodist Church, the past Wednesday. A Covered dish luncheon was enjoyed by the ladies at the noon hour.

Mrs. A. D. Smith, study chairman, was in charge of the program, being assisted by Mrs. B. N. Graham, Mrs. D. K. Roberts and Mrs. W. H. Graham. The history of African missionary work was taken up by the various speakers.

Leaves On Tuesday

Mrs. Roy Bobst, formerly of this city, left her home in Yakima, Washington, Tuesday evening, after having spent a week here visiting with old friends and neighbors. She made the trip by plane out of Amarillo.

Mississippi Visitors Here

Miss Peggy and Joe Caillouet, of Mississippi, arrived here a week ago for a visit with relatives near Texico. Joe will remain for the summer, while Miss Caillouet returned to her home this week.

Visitors Return Home

Mrs. W. H. Tinsley, of Hico, Texas, and her niece, Francis Duncan, of Albany, Texas, left Saturday for their homes, after visiting in the home of Joe Hromas, of near Bovina, and Bill Hromas, of Hereford.

Mrs. J. C. Temple is in Albuquerque, enjoying a visit with her son, Elmer, and family.

Ensign and Mrs. S. E. Templeton, of Corpus Christi, are guests of her parents, Mr. and Mrs. L. C. Cox, Sr.

Miss Jean Ann Hart spent the weekend visiting friends in Lubbock.

Mrs. Hamlin Overstreet and J. D. Hamlin left last week for Santa Fe, where they will spend a month's vacation.

Mrs. Ben Smart and son, Bob, Miss Hazel Dishman and Miss Alice McNew, spent the weekend visiting relatives in Amarillo.

Duane Sprawls, employed with a Santa Fe railway gang, has gone to Norman, Oklahoma.

Mrs. Orville Williams and daughter, Meredith, left last Friday for San Diego, California.

Mrs. Jewel Whitley, who has spent the past several weeks visiting in various Oklahoma points with relatives, returned to her home in Farwell on Monday.

NEWS FROM OUR BOYS IN UNIFORM

RECENTLY DISCHARGED

David Schmidt, son of Paul H. Schmidt, who was only recently discharged from the army after 13 months overseas, arrived here the latter part of last week from Earlville, Ill., to visit Mr. and Mrs. Schmidt.

ON FURLOUGH HERE

Lt.-Col. Craig Walling and family are visiting his father, J. L. Walling, here, while Walling is on leave from an air field on the Texas Gulf coast. Other members of the Walling family, from Amarillo and other points, have also been visitors here this week, enjoying a reunion.

DISCHARGES FILED

Staff Sergeant Melvin O. Treider was discharged at Fort Sam Houston on June 9th. A member of the 200th Coast Artillery, Treider spent several years in a Japanese prison camp. He holds the American defense ribbon with one star, the A-P ribbon with one star, Philippine defense ribbon with one star, Purple Heart and good conduct ribbon. In service five years and one month, he spent four years overseas.

MoMM3-c Webster Trussell Johnson received his Navy discharge at San Pedro on June 4th, having entered service in March, 1944. His colors include the A-P ribbon with one star, American area and victory ribbons.

MM3-c Robert Rundell was discharged from the Seabees at Camp Wallace on June 8th. Rundell entered service in August, 1944, spent 17 months on overseas assignments.

HINES VISITS HERE

Samuel Hines, S1-c, spent the last two weeks in the home of his parents, Mr. and Mrs. Bob Hines. He left Monday for California, to visit with two brothers, Walter and Lynn, and with a buddy, Bob Suddarth. Hines is scheduled for discharge in August.

PROMOTED TO SERGEANT

Mrs. Ruby Dixon has received word that her son, Harold, has been recently promoted to sergeant. With the Air Forces, Harold is stationed at Estres, France, serving in the Army of Occupation.

BROTHER IN GERMANY

W. H. Graham, local publisher, has received word that his brother, Capt. L. W. Graham, is now serving in Germany with American occupation forces. Until recently, Capt. Graham was stationed at Borden General Hospital in Chickasha, Okla. His family resides in Oklahoma City.

Bobby Hart, who is working with a railroad signal gang, has gone to Norman, Oklahoma.

Rev. and Mrs. Harvey E. Carrell and children were in Vaughn, Tuesday, visiting Mrs. Carrell's sister.

Housewives Urged To Use More Potatoes

Changing family appetites from wheat products to plentiful vegetables is a concrete contribution housewives can make to the present food campaign, Wortham H. Seale, acting district director, announced.

Pentiful supplies of early crop potatoes can replace bread in well-balanced meals, he said. Generous use of this wholesome food, while it is abundant, will lessen demand for the more scarce foods needed for foreign shipment, he continued.

USDA is pushing consumption of potatoes in a state-wide campaign and asking well-fed civilians to add more of them to their diets, thereby easing local pressure on wheat and wheat products.

Miss Helen McDaniel spent the weekend visiting Mr. and Mrs. Lee Kimmons, of Portales.

Mrs. W. C. Hardage, from Crosbyton, Texas, is spending two weeks in the home of her daughter, Mrs. Bob Hines.

Mr. and Mrs. Andries Drager and children, of Friona, spent Sunday in the Bob Hines home.

Mr. and Mrs. Elmer Temple were here from Albuquerque, Sunday, to visit Mrs. Ruby Dixon.

Mr. and Mrs. Jim Moss and family spent the weekend visiting with relatives in Friona.

Robert Moore, who is employed at Hobbs, New Mexico, spent the weekend visiting his mother, Mrs. Ima Moore, in Farwell.

J. T. Carter and son, Jim, were here from Lubbock, Monday, attending business matters and visiting former neighbors.

Mr. and Mrs. Louis C. Cox, Jr., and daughter, Diana, of Washington, D. C., are visiting his parents, Mr. and Mrs. L. C. Cox, Sr.

Supt. H. A. Clift and family returned home Monday after a three-weeks trip down state.

HOME TO STAY . . . Whenever Janet Bisel, Los Angeles, was forced to part from her airedale pet, "Snapper," he always showed up. He recently followed her from Gallup, New Mexico, a distance of 900 miles.

CARD OF THANKS

We wish to thank our friends for their many kind deeds, delicious food and beautiful floral offerings tendered us during the illness and death of our dear mother. May God's choicest blessings be yours.

Bovina Happenings

Miss Earlene Wilkerson has been visiting her twin sister, in Childress, the past week.

Mr. and Mrs. Franklin F. Hill, of Childress, are visiting Mr. and Mrs. D. H. Wilkerson, this week.

Billie Joe Eberting is home from an Amarillo hospital and doing nicely. He had both jaws set, results of a car wreck a few weeks ago when both jaws were broken, one in two places.

Mrs. Tom Foster, of Oklahoma Lane, took a group of Methodist young people to Ceta Canyon. From Bovina were Jimmy Ware, Gladys Hopingardner, Audrey Boxford, Huey Larry and Willie Ellen Williams. A group from Oklahoma Lane and Farwell went with them.

Lester Lee Hill, of the Navy, has been visiting relatives here.

Mrs. Ollie Williams is visiting in Happy, Texas, this week.

M. D. Jones, who has spent the past three years working in the shipyards in Pearl Harbor, is here with his son and wife, Mr. and Mrs. J. T. Jones. He will make his home with them for the next few months.

Elman Stark spent Friday and Saturday receiving treatment at the Friona hospital.

Mrs. Rex Whitstone and daughter are visiting her parents, Mr. and Mrs. Louis Pesch.

Mr. and Mrs. James R. Thompson are visiting his parents, Mr. and Mrs. Ward Thompson, this week.

Charlene King spent the week visiting her cousin in Hobbs, N. M.

Mr. and Mrs. Otis Floyd, of Friona, formerly of Bovina, are the parents of a baby girl, named Virginia Mae.

Mr. and Mrs. R. S. Johnston attended the annual stockholders' barbecue, at Lubbock, Saturday.

Mr. and Mrs. Boyce Belew and son

of Albuquerque, visited friends and relatives at Bovina the first of the week.

Lawrence Rhodes was in Melrose, N. M., Thursday evening.

Mrs. A. G. White made a business trip to Amarillo, Thursday.

Mrs. Johnnie Glover underwent surgery in the Memorial Hospital, in Clovis, Friday.

Mrs. Frank H. Wilson made a business trip to Hereford, Saturday.

Luther Johnston and son, Earl, are spending a few days fishing at Hot Springs, N. M.

Pearl Johnston is visiting Mr. and Mrs. Rush Looney in Hot Springs.

Dan and Herbert Jones, from Gatesville, Texas, are visiting their brother, J. T. Jones, this week.

Mr. and Mrs. Elman Stark have moved back to their apartment out at the Louis Pesch place.

Mr. and Mrs. Ike Godsey, of Truett, Texas, are visiting here this week.

Mr. and Mrs. Weldon Wines, from the Clovis air base, were Sunday guests in the Charley Grey home.

Rev. and Mrs. T. P. Price and James and Georgie are spending a few weeks at Little Rock, Ark.

Eula Hopingardner, a nurse, is spending this week at home in Bovina with her parents.

Mr. and Mrs. Earl Ware were called away the past week by the death of his father.

Jerry Whitehurst went to Melrose, Monday, to visit a week or two.

Questions Answered For Dischargees

Q. May a pension be paid by the Veterans Administration because of a service-connected disability where the veteran's service was other than in time of war?

A. Yes, for disability resulting from injury or disease contracted in line of duty, when such injury or disease was incurred in, or aggravated by, active military or naval service in time of peace. The disability must not have been the result of the veteran's own willful misconduct. The veteran also must have a discharge from active duty under conditions other than dishonorable.

Q. If an eligible veteran is taking a course of education or training but due to illness is unable to continue for several weeks, may the time of his training period be extended?

A. Yes, it may, when his physical condition will permit. The total period to which the veteran is entitled may not be increased.

Q. Are there any charges for a guaranty of loan by the Veterans Administration?

A. No. Commissions, brokerage, or similar charges may not legally be assessed against a veteran for securing a guaranty of loan. Of course, those fees usually borne by a borrower, such as appraisal, title research, title guaranty, transfer fees, etc., may be charged against the veteran.

Q. May a veteran start training under the GI Bill in a trade and later find that it is ill chosen, and change to some other vocation?

A. Yes.

Q. Can a veteran with a dishonorable discharge receive benefits under the GI Bill?

A. No, but any discharge other than "dishonorable" does not disqualify him.

NAVAL TRAINEES GRADUATE

AUSTIN—Graduation and commissioning exercises will be held for 171 naval trainees at the University of Texas, June 24. Ninety men will go on active duty, and 81 will be placed on inactive duty, Capt. H. Y. McCown, commandant of the Naval Training Unit, said.

The men will be commissioned when the regular commencement exercises for the entire University are held.

NOT IMPRESSED BY BASS CATCH . . . Little Bill Rogers shows only disdain at the catch of nine-year-old Susan off pier at Blunt's Bay, Colington, N. C. Spring arrived on time at this North Carolina coast village and Susan is out to repeat her record of last year—which she says was best in the region. Bass have increased during the war.

WITH VET ADMINISTRATION

Howard T. Torrance, for 13 years principal of Waco senior high school, has joined the Veterans Administration guidance center at the University of Texas as one of the training officers. During the war he was stationed on the campus as a lieutenant and education officer with the Naval V-12 unit.

TO ATTEND MEETING

LUBBOCK—Kenneth M. Renner, head of dairy manufactures at Texas Tech will attend the American Dairy Science association meeting at Iowa State College, June 18-20. Representatives from various dairy manufactures schools will be present to discuss problems and present research findings.

SUMMER SCHOOL DATES

AUSTIN—Summer school at the University of Texas will begin July 1, and extend through August 30. Among the new courses which have been added to the summer program are two Bible courses; two in economics, two in business administration, and two course in Latin, being offered for the first time in several years.

SANTA FE CARLOADINGS

Santa Fe System carloadings for week ending June 8 were 27,935 compared with 27,996 for same week in 1945. Cars received from connections totaled 9,514 compared with 16,263 for same week in 1945. Total cars moved were 36,909 compared with 44,259 for same week in 1945. Santa Fe handled a total of 32,681 cars in preceding week of this year.

Modern Gas and Electric Ranges Stress Convenience

WHETHER you buy a gas or electric range, you'll find that each has special advantages. Joan Miller tells rural homemakers in nationally circulated *Capper's Farmer*.

"Whichever type you select," she writes in the farm magazine read by 1,250,000 rural families, "you

A deep-well cooker plus large unit and two of average size give ample space for meal preparation on top of electric range shown above. Automatic timer may be set to snap oven heat on and off. Staggered automatic-lighting burners, including an extra-large one, are a feature on range for either gas or liquefied gas shown at left. Broiler has metal tray which may be used for serving.

will find that generally the new ranges are convenient for quick meal preparation. They are good looking pieces of equipment which are easily kept clean.

Purchasing a range made by an established, reliable company is your insurance of a good quality product, she continues. But it pays to notice or ask about these construction points:

Top-of-range burners or heating units should be spaced far enough apart so they'll accommodate large pans or kettles.

The oven should be placed where most convenient to reach and use.

The broiler also should be conveniently located for placement of food.

For ease in cleaning, look for porcelain enamel, inside and out.

Toe space is important at bottom front edge of range for greater comfort when standing in front of it.

In gas ranges look for Certified Performance models which are automatic.

In liquefied gas ranges, check on whether the specified fuel has been odorized. This makes for easy detection of leaks.

Less Paper Work For GI School Students

Less paper work will be required of schools and colleges next fall in qualifying veteran-students for payment of G. I. subsistence allotments, Robert W. Sission, manager of Veterans administration Lubbock regional office, announced today.

Schools will have to fill out only one form when the veteran arrives to resume his education under the Servicemen's Readjustment Act.

Sission said this form, considerably simplified since last fall, no longer contains such technical questions as the cost of the course, the probable cost of books and similar questions, none of which directly concerns the veteran's subsistence allowance.

Schools can fill out the new form in a few minutes and that will be the only instrument required by the VA to resume subsistence payments to veterans.

Forms will soon be available in regional office for distribution to educational institutions.

Prompt handling of the forms by the schools and colleges next fall will prevent delays in the payment of veterans' allowances, Sission emphasized.

BREAD SHORTAGE TO BE RELIEVED

Wheat is to be "loaned" to keep flour supplies flowing to areas where consumer bread supplies are short. Mills having wheat and flour totaling less than one-half the authorized grind for domestic distribution may receive consideration for loans from government stocks awaiting shipment to famine areas.

The wheat will be supplied the mills through merchandisers upon authorization from the PMA grain branch. It will be from stocks purchased by the government under the recently concluded bonus plan which brought in 81,280,016 bushels for overseas shipment.

TRENDS IN LOCKER BUSINESS

COLLEGE STATION—Texas now has 403 frozen food locker plants in operation in comparison with 268 eleven months ago, an increase of 33 per cent in less than a year. A recent survey by the BAE's Texas Division of Agricultural statistics showed that 46 of this number are cooperatives including 26 REA co-ops. Five of the number are branch plants serviced by central systems.

Roy Snyder, Extension meat specialist who also supervises a frozen food locker for the Texas A. and M. College, observes several other trends in the locker business besides a rapid expansion in numbers, or one thing a large number of locker systems have been installing their own small killing plants or abattoirs.

For the last few years frozen food plants have been in their hey-day, and rationing increased the popularity of the family locker, Snyder believes. He predicts that as fresh foods become more plentiful, city people are more likely to drop out as customers, buying custom frozen foods in stores rather than processing their own.

As far as technique is concerned, great changes likely are in store in the processing of frozen food. Enzymes, which affect the ripening of fruits and vegetables have been inactivated in the past by steam or boiling water. In the future, they might be inactivated electronically, and thawing may be done the same way. Flash sterilization also may be a new development in the frozen food field, Snyder believes.

A great deal of research remains to be done on the use of salts and seasonings in sausage and other ground meats, and in determining the best kinds of wrappers and containers for frozen foods. A. and M. research workers are investigating both these problems, Snyder says.

TO VISIT IN N. M.

LUBBOCK—Ray C. Mowery, professor of animal husbandry at Texas Tech, will visit several wool laboratories in New Mexico to obtain ideas for setting up the wool lab at Tech. He will visit the wool show at Sonora, the wool laboratories at the State College of New Mexico at Las Cruces and at Fort Wingate, N. M., and will attend a wool meeting in Salt Lake City.

Nikolai Lenin's wife was the famous Russian woman, Nadezhda Krupskaya.

FREEZING STRAWBERRIES

COLLEGE STATION—If chosen carefully and prepared correctly frozen strawberries will keep their fresh color and flavor long after cold weather begins. Gwendolyn Jones, specialist in food preservation for the A. and M. College Extension Service suggests several steps for successful freezing of strawberries.

Some varieties of strawberries are more suitable for freezing than others. The varieties recommended to Texas include: Klondike, Ranger, Blake-more, and Missionary.

Use only the best berries of the chosen variety. Discard all green, bruised, and over-ripe berries when sorting and washing. Wash a few at a time in cold water and drain in a colander. Then cap them and either slice them or leave them whole according to preference.

Strawberries, unlike many berries, have better texture and flavor if sweetened with dry sugar before freezing. Miss Jones recommends one cup of sugar to five to eight cups of berries.

Pack them in moisture-vapor-resistant containers and be sure they are covered with juice. In a carton or bag allow about one-half inch for expansion, in glass or tin cans, one inch.

Once the berries are packed, lose no time getting them into the freezer. When using a home freezer, place the packages against the freezing plates or coils, spreading them out so air can circulate between them. After freezing, store at zero degrees F. or lower.

For full directions on home freezing, ask your country home demonstration agent for a copy of B-130 "Freezing Foods for Home Use," or write to Extension Service, College Station, Texas.

TRY OUT NEW IDEAS

AUSTIN—Austin will have an experimental elementary school next fall which will carry out new ideas and practices in curriculum. Dr. Henry J. Otto, professor of elementary education has announced.

Woodridge school has been selected for a project sponsored by the Austin Public Schools and the University of Texas. New methods of teaching, school organization and administration, and research studies will be carried on in the school. No special projects will be undertaken until after the close of the first year, which will be a period of orientation.

ASSOCIATION TO MEET

AUSTIN—The Texas Elementary School Principals and Supervisors Association will meet in Houston Nov. 28-29. H. A. Newson of Edinburg, president, announced at a recent meeting held at the University of Texas. A business session will be held.

NEW UNION DIRECTOR

AUSTIN—A new director for the Texas Union at the University of Texas is Miss Eugenia Voss, formerly program director of the Red Cross at Love Field, Dallas. She will take over her work September 1, succeeding Mrs. Loyce Spratt, resigned.

LARGEST GATE RECEIPTS

The Gene Tunney-Jack Dempsey prize fight, held in Chicago on September 22, 1927, drew the largest gate receipts of any championship battle, \$2,650,000.

Cull Inefficient Hens From Poultry Flock

Any hen laying less than a dozen eggs a month is losing money for her owner, considering prevailing prices of feed and eggs. These inefficient hens should be culled from laying flocks, County agent Lee McElroy is advising farm families and backyard poultry raisers of Parmer county.

A hen consumes about five pounds of feed per month even though she is not laying, so further reduction of laying flocks is being sought by the government, in view of the feed shortage. For the nation as a whole, the reduction sought is one of every seven hens.

According to Sam Moore, extension poultry specialist, most Texas flocks could lose one of every seven hens, and with proper culling, profits would increase. Until recently, he says, Texas egg production this year has exceeded last year's for the same period, although the state has reduced its poultry population to or below pre-war numbers. This indicates a rise in production per bird.

While chick production this spring was 20 percent less than last year, with good management an average number of pullets should go into production on Texas farms this fall, Moore says. He indicates that there are large amounts of shell eggs and poultry meat in storage and the demand for fresh eggs has been good this spring.

Farmers interested in culling their flocks should contact Agent McElroy.

FORT WORTH—Registration at Texas Christian University for the calendar year ending June 30 totals 3703, according to Registrar S. W. Hutton. This figure includes 2562 in regular day classes and 1141 in evening college classes.

THERE'S NO SHORTAGE . . .

Of new, attractive Spring patterns of wall paper at our store. Through early purchases, we have the biggest stock of wall paper ever shown in Clovis. Come in, we can fit you out for every room in the house.

Recommendations On Use Of DDT Given

To control horn flies, lice and mosquitoes on livestock, the only treatment recommended by the Texas A. & M. College Extension Service is the wettable DDT powder, according to Lee H. McElroy, county agricultural agent of Parmer county.

DDT for this purpose is now on the market in two very different forms—dry, in wettable powder, and liquid, in oil or xylene solutions or emulsions. Both forms may be diluted with water for use as a spray or dip.

The decision to recommend only DDT in wettable powder form for use on livestock was made by a committee of entomologists and animal husbandmen who checked all known sources of information. The group will make further recommendations as research on DDT goes on.

The committee pointed out that DDT in wettable powder goes into suspension when diluted with water for use as spray or dip. There was no evidence that it was harmful to animals even if used at strength somewhat greater than that recommended by the manufacturer.

It was further reported that "DDT in oil solution does not remain in suspension but goes into a true solution. When applied to animals in this form it can be absorbed through the skin. If used as spray or dip at less than the recommended strength, it may not give effective or lasting control. If used at more than recommended strength, and if precautions listed by the manufacturer are not exactly followed, it may have toxic results."

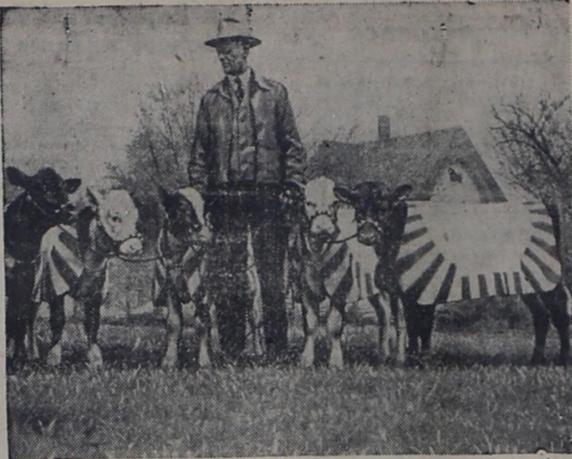

Two reports of the USDA's animal research administration were quoted: "Oils should not be used on animals and are not recommended for general use on buildings. They offer an opportunity for DDT to be absorbed by the skin; on buildings they increase possibilities of fire. Because they penetrate porous surfaces like concrete, brick or soft wood, oils can transport DDT into the walls where much of it is not accessible to flies and other insects. On the other hand, water sprays made of wettable DDT powder or suspension remain on the surface, where the treatment affords full advantage for killing insects." And: "DDT in oil solution is readily absorbed through the skin of man or animals. Persons using it in this form are urged to take special precautions to avoid repeated prolonged exposure."

The committee added that Dr. E. W. Laeke, chief of the division of animal parasites, bureau of entomology and plant quarantine, "suggests DDT in oil solutions should if used, be used very cautiously, as it is a toxic poison".

"Read the label on sprays and poisons!" cautioned McElroy, as many farmers are confused about DDT and 2-4-D. DDT is for killing insects and 2-4-D for killing plants, he explained.

INSTALL LARGER OVEN

Crawley's Bakery installed a larger oven on Tuesday to care for the increase in business. With the new oven they will be able to double the baking capacity.

WORLD'S MOST FAMOUS QUINTS . . . Above is Dr. L. J. Smith with the Fairbury (Neb.) Cornhusker quint. They have been named after the Big Five. Left to right, England, Russia, China, United States and France. All but France are bulls. Although less than half the weight of average beef calves at birth, at 5 1/2 months they are fully as big and as weighty as beef calves of the same age born singly. They will tour leading fairs this summer. Chamber of Commerce at Fairbury has built them a modern home. Wayne Photo.

Local Scouts Enjoying Outing in Mountains

Local Boy Scouts, now at their annual encampment in the Sacramento mountains, are regretting that they will have to return home Thursday. Scoutmaster Frank Seale, who returned on Monday, reported that the boys were thoroughly enjoying the camp. Seale was relieved by E. F. Lokey, who will remain with the local Scouts until camp closes.

The ten boys participated in a 17-mile mountain hike last weekend, with all completing the trip for their Scout awards. He added that weather and chow were both good this year.

Representatives of the Farwell troop are Ernest Lokey, Gerald Curtis, Bill Crume, Glennis Hughes, Rex and Jerry Pool, A. C. Henne-man, Cary Joe Magness, Leon Meeks and Jesse Coburn, Jr.

New Grandstand For Levelland Arena

Completion of a new all-steel grandstand at the Levelland rodeo grounds has tripled the seating capacity for Texas' largest arena which will be the scene for the annual show July 3, 4, and 5.

Over \$1,650 in added prize money will go to winners in seven events—saddle bronc riding, calf roping, team roping, bulldogging, steer riding and two-way sponsor contests. Both junior and senior cowgirl sponsors will compete.

Street banners, placards, circulars and western attire of citizens are heralding Levelland's annual three-day rodeo. Afternoon performances scheduled all three days, will begin at 2 o'clock. Night shows on July 3 and 4 will get underway at 8 o'clock.

Included in the specialties will be the picturesque mounted quadrille, clowns and trick riding, President W. J. Robertson of the Levelland Rodeo association has announced.

Downtown parades will be fore-runners of the rodeo performances. Booster trips to towns within a 200-mile radius will begin on June 24. Advertisers of the annual rodeo will take along musicians to stage their booster programs in towns of the area.

CAFE CLOSES

With the announcement that he could not maintain enforced price levels with increased costs of commodities, Ray Cheney closed his cafe in Farwell last Saturday. The Cheney family will continue to live in Farwell for the present, he said.

GETS FINGERS MASHED

Sam Randol, farming southwest of here, sustained two badly-mashed fingers, the first two, on his right hand, last Friday, when he got them caught in a chain pulley on a combine. Although the fingers may be broken, the injuries are not considered serious.

Farm Machinery Listed On Surplus Sales

Dealers will be offered 561 pieces of surplus construction and farm machinery by the War Assets Administration, June 25, and 26, at a sale in Room 802, T&P Bldg., Fort Worth. The equipment has already been offered to federal agencies and veterans of World War II.

The first 289 items listed in the catalogue will be sold on a fixed price basis, and the remainder on a bid basis.

The sale will start at 9:30 a. m. Orders will be accepted on the spot sale method using order cards which will be provided at the sale. In accordance with existing regulations, priority groups, including federal agencies, veterans who have been certified by WAA, state and local governments, and nonprofit organizations are invited to the sale and may submit an order on equal basis with dealers. No priority preference will be shown. Veterans may place an order only for the type of equipment for which they are certified.

Wired or written bids or orders will be accepted up to and including 10 a. m., June 24, but not thereafter.

STUDENTS MAKE MORE USE OF LIBRARIES

LUBBOCK—College students of today are making more use of library facilities, according to A. G. Gaylord, Jr., head librarian at Tech.

Library circulation at Tech has increased 40 per cent over last year, Gaylord says. Last year 35,554 books were circulated while this year the number was 47,722. The spring semester showed an outstanding increase with over 7000 books circulated each month while 5000 was the largest circulation in the spring semester of 1945.

The interest and hard work or returned service men is one main reason why library circulation has increased, Gaylord says. However, improved circulation methods, reorganization of the book stacks, revisions of fine rates and cataloging procedures have added impetus to increased library reading at Tech.

Gaylord says that the interest of Tech President W. M. Whyburn in securing increased budget expenditures for new books has enabled the library to serve student needs more adequately. "Because of Dr. Whyburn's help the library at this time is fully meeting the requirements of the American Association of Universities as to book expenditures per student," Gaylord reported.

NO MEN'S CLUB MEETING

Chairman C. M. Henderson announced today that the regular meeting of the local Men's Club, scheduled for Thursday night of this week, had been called off due to wheat harvest. Henderson said that all the men were too busy with harvest to take time out just now.

IN HOSPITAL

Young Pat Aldridge, daughter of Mr. and Mrs. Sam Aldridge of this city, is in a Littlefield hospital for treatment. She was taken there last weekend when a bad cold threatened pneumonia. Aldridge reported today that she was showing improvement, but would remain under medical observation.

SANTA FE CARLOADINGS

Santa Fe System carloadings for week ending June 15 were 29,545 compared with 29,114 for same week in 1945. Cars received from connections totaled 10,054 compared with 15,097 for same week in 1945. Total cars moved were 39,599 compared with 44,211 for same week in 1945. Santa Fe handled a total of 36,909 cars in preceding week of this year.
