Higher Payments Due Corn, Grain Farmers

Lazbuddie Longhorns Tough Competitors In '83

The Lazbuddie Longhorn football schedule for 1982 has been finalized and released for public information.

On September 3, Lazbuddie will meet Smyer at Lazbuddie at 8 p.m. and is a non district game. Lazbuddie will play two more games that are non district;

One against Whiteface there at 8 p.m. on September 10 and the other against Sundown team at Sundown on September 17 at 8 p.m.

Lazbuddie, like some other area schools do not have an open date this year, so it will be football every weekend until the final whistle blows.

On September 24, the Horns will begin District 2A zone games against Valley, there at 8 p.m. Valley may prove to be a strong contender and can boast the fact that their Patriots have won over 75 per cent of their games in the past six years. They will have seven offensive starters returning and eight defensive from last fall's district runner up team. According to predictions, the Valley team's major weakness is in speed and size.

Happy on October 8 in Lazbuddie, with game time set for 8 p.m. The Happy Cowboys will come on tough with nine offensive, six defensive and thirteen lettermen returning. They will have to make up for lack of size with a super passing attack, quickness and just plain gutsy playing.

Vega will meet Lazbuddie at Vega on October 15 with game time set at 7:30 p.m. Both teams are named Longhorns and the Vega Horns future looks bright at this point, since they are returning their complete backfield. Another plus for Vega is that they have dropped back to Class A for the first time in over ten years. Also returning for Vega will be seven defensive regulars from one of the top units in Class 2A last fall. This game should be a mad scramble for both sets of Horns.

On October 22, Lazbuddie will meet the Silverton Owls at Lazbuddie with game time at 7:30 p.m. The Owls are picked to end up the season in Cont. Page 8, Col. 4

Local A&M Club Holds Charter Family Night

The Texas A & M local charter member club family night was held in Jeff Smith's barn on Thursday, August 19 with special guest speaker, Porter Garner III who is field director for Texas A & M former students association.

A meal of barbecue with all the trimmings and home made ice cream was supplied to those present by members of the club. A total of 55 persons attended the meeting. This meeting closed the official chance to be named as a charter member of the local club.

The organization of the club began last fall when a Texas A&M official brought a group of A&M students to tour high plains feedlots and other points of interest. The local club then began holding meetings once a month on the third Thursday of the month at the Muleshoe State Bank.

The annual Aggie Muster actually kicked off the beginning of the club which can now boast 62 charter members who joined either Thursday night or previously.

GIG 'EM AGGIES—Members and supporters of the local Texas A & M Club met at Jeff Smith's barn on Thursday night for the end of their initial drive. Shown from L to R: Kyle Kimbrough, Don David, Nick Bamert, Hollye Hooten, Porter Garner III (guest speaker) and Max Crittenden, giving the traditional thumbs up sign for Aggies.

August City Sales Tax Rebate Down 4 Per Cent

State Comptroller Bob Bullock Monday sent out checks totaling \$97.9 million to 967 Texas cities as their share of the one percent city sales tax for August.

"So far, these monthly rebates of local taxes are running nearly 12 percent ahead of last year's totals," Bullock reported.

"As we predicted last month, the oil glut has slowed down the pace of this growth markedly, especially in the places that were experiencing oil booms. But the general state growth rate is still strong and healthy."

Muleshoe's one percent city sales tax for August amounted to \$23,940.98 down from the \$30,607.02 comparable payment last year. Total 1982 payments to date amount to \$128,965.97 which also are lower with a -3.69 percent difference from 1981 payments of \$133,908.68.

Paid Diversions Program Awaiting Reagan's Signature

In a 5:15 p.m. press conference at Lubbock Airport on Friday, August 20, Congressman Kent Hance of Lubbock announced that West Texas corn and grain sorghum producers will receive higher disaster payments than originally announced by the USDA.

Prior to his departure from Washington on Friday Hance received a letter of confirmation from David Stockman, director of Management and Budget saying that he had approved the increases and that an announcement by the USDA would be forthcoming shortly.

Hance says that the new payment levels are 90 percent of what they were under the old disaster program of 1981. "These payment levels make the payments for corn and sorghum line up a little better with those received for cotton and wheat," Hance said.

Don Richards, an aide in Hance's Lubbock office, told the Journal early Saturday that where corn had originally been set at 15 cents disaster payments, it was now raised to \$1.17 per bushel and that grain sorghum and barley was raised to \$1.13 instead of the original 18 cents per bushel set. Richards said, "This is the bright spot in a long hard fight for the Congressman, because he has been pushing for this

increase for many weeks." Hance said that he hoped that the increases would "enable a lot of our farmers to hang on for another year and hopefully, we can get a farm bill passed that recognizes the problems on the farm are being caused by low commodity prices and killer interest rates."

Hance, said Richards, has also sent a letter to Governor Bill Clements with a request that disaster payments or aid be given for farm workers under the provisions of the Disaster Relief Act of 1974. "These guys are just as much out in the cold as the farmers," said Hance, explaining his reasons for the request. Under the 1974 act the Governor of a state must request this aid from the president directly.

Hance stated that the Small Business Administration would likely designate the same counties which would be eligible for emergency loans through FmHA as eligible for SBA assistance to businesses. "This will help to provide some relief for farm-related businesses that have also been hard hit by the disasters this year," said the Congressman. "I believe that it is finally beginning to get through to Washington, that the storm damages affected business and workers as well as farmers."

Use Of Revenue Sharing Funds Hangs In Balance

Approximately eight persons put in an appearance Thursday, August 19 at the Bailey County Commissioners Court public hearing relative to the proposed use of Federal Revenue Sharing funds which will be received during Entitlement Period #14. This period runs from October 1, 1982 to September 30, 1983.

It is expected that Bailey County will receive about \$97,624 during the period mentioned. In addition to those funds, there is approximately \$63,371.81 of unused funds on hand. According to County Judge Glen Williams, "Only \$14,

200 was spent out of the 1982 funds and that was for the new generator which had to be replaced at the Law Enforcement Center.

The total revenue sharing funds now available in Bailey County come to approximately \$160,995.81. The public hearing was held in order to receive input from local citizens on the use or proposed use of these funds.

A number of persons present and also some who wrote in suggested improvements for the courthouse. Other suggestions included improvement of

county farm to market roads. Another suggestion was to provide some kind of help for senior citizen groups. Suggestions were also brought forward indicating that the county should cut taxes and use the revenue sharing funds for operating expenses. Still another suggestion included reduced rates for the coliseum use, especially for youth of high school age events at least once a month.

The Bailey County Democratic Executive Committee submitted their suggestion in the form of a letter of resolution which in essence stated that according to their beliefs, the funds should not be used for operating funds, but for capital expenses. The Committee recommended that the "funds be used for the capital improvement of the courthouse building and fa-

Pete Laney Speaks To Local Lions Club

State Representative Pete Laney of Hale Center was special guest speaker at the Wednesday noon meeting of the Muleshoe Lions Club. Laney will replace Bill Clayton as this area's representative.

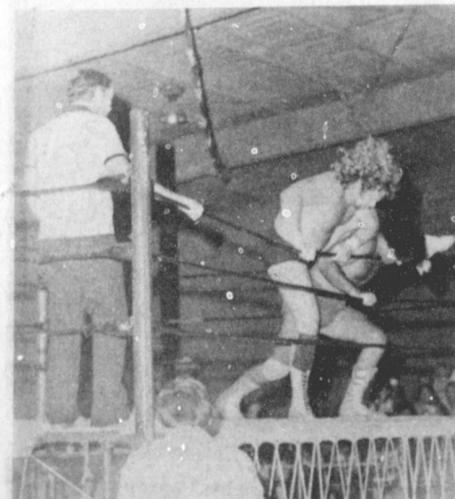

In his talk the new Representative encouraged members to get out and vote and to get friends and neighbors to vote in the upcoming November elections. Laney said, "It is your right and your obligation to vote."

Laney cited six constitutional amendments which will be up for vote in No-

member and warned the group to make themselves aware of what these amendments mean and the overall effect they will have in the long run.

The first one is to repeal the state property tax, the next has to do with welfare certification. The number three amendment has to do with exempting tax on animal husbandry, and number four has to do with the water district officials. Amendment five if passed would abolish the treasurer in Bell and Tarrant Counties and number six would

**Store Paints, Tool Properly
And Save Big**

Sounds almost too simple, but store your paints and equipment properly and save big money, reminds Dr. Jane Berry, a housing and home furnishings specialist.

"True," she insists. "Countless dollars are spent on brushes, rollers, paints and other supplies which must be discarded after only one use because of improper cleaning and storage," she says. Berry is on the home economics staff of the Texas Agricultural Extension Service, the Texas A&M University System.

Many paint items should give long-lasting results over several years--with proper care, the specialist adds.

Whether painting projects are scheduled once a month or only several times a year, here are a few tips on cleaning and storage to assure tools and supplies in "ready-to-paint" condition: **SEAL IT UP** -- Tightly sealed paint containers will keep contents fresh.

Store leftover paints by selecting a small container that will be filled to the brim with the remaining paint.

Secure a piece of plastic wrap around the rim with a rubber band. Then secure the lid on tightly over the wrap. This will keep a skin from developing on the paint surface.

If a skin has developed because of improper storage, cut it away from the surface with a knife and lift it off in one piece -- otherwise leftover particles will give paint an uneven finish.

Be sure to store all paint away from heat, freezing temperatures and curious children.

PRESERVE, PROTECT IT--Be sure to thoroughly clean all paint off of paint brushes after use.

If a latex paint was used, clean the brush with warm water and detergent. Be sure to rinse all detergent from the brush.

If a solvent-thinned paint or varnish was used, clean the brush with a recommended solvent or paint thinner.

Then wash it in warm water and detergent. After the brush has dried, comb the bristles straight out and carefully wrap the brush in

heavy paper or plastic. Either lay brushes flat or hang them from hooks to store.

Wash paint rollers just as you do brushes, but be sure to remove excess paint from the roller before you clean it by rolling it back and forth over newspaper or paper towels.

After using latex paint on a roller, rinse it in water and detergent and allow it to dry completely.

Oil-based paint should be cleaned with paint remover

or a specially formulated brush cleaner -- not water. Once the roller is clean and dry, place it in a plastic bag and hang it to store.

STORE SPRAY PAINT WITH CARE -- Store all spray-paint cans under 120 degrees F.

To clear a clogged spray-paint can nozzle, turn the can upside down and press lightly on the spray button for a few seconds. Never use pins or other sharp objects to clear the nozzle.

Before discarding empty spray cans, repeat the above procedure to release leftover propellant.

Sudan Student Council Attends Workshop

The 1982-83 Sudan High School Student Council officers recently attended the Texas Association of Student Councils (TASC) workshop held August 1-6 on the Angelo State University campus in San Angelo.

Those attending were Shanda Vernon, Kim Fowell, Shawnda Masten, Debbie Hill and Missy Fisher with Buddy Lowrance, sponsor.

Many schools from all over the state of Texas were there totaling around 300 people. The camp, directed by Mike Fetner of Andrews, taught the students the general meaning of a student council, the duties and responsibilities of each officer, parliamentary procedures, public relations, and the support a student council should give its school.

Upon arrival on Sunday, August 1, the students were divided into 11 small groups involving many unfamiliar persons. These groups had their own officers, a mascot, and a name. Meetings were held each day inside their own small group in which several situations were discussed and solved.

A talent show was planned and ideas were exchanged. Most of the activities of the week were made up of competition between the small councils.

Throughout the week, assemblies were held, films were shown and lectures were given.

Many things were learned during the week and many people were not ready to start home.

concern the interest rates on revenue bonds. Laney impressed the group with the idea that the vote in the country means as much or more than such places as Harris County, since most of the voters in this district vote alike. Officials are aware of this according to the Representative and have begun to take notice of this area. Laney will take office in January in the Texas Legislature.

Laney was asked his feelings towards the new federalism program and he stated that he "hoped" it worked.

Laney stated that he felt that more money will be appropriated for jails when he was questioned about the lack of jail facilities. Laney emphasized, "Society is tired of prisoners having more rights than they (the citizens) do, and they don't feel that a prison should be a country club."

Chief of Police Les Irwin asked about the possibility of the drinking age being changed to which Laney answered, "I feel the drinking age will become age 21 in the near future and the statewide beverage container law which is being drafted in with the DWI proposal will be of aid."

A number of these members are from surrounding towns which do not have an operating club such as Morton, Clovis, Farwell and others.

Plans for the group include the showing of A & M football games, going to high school to talk to seniors about the A & M University and working on a scholarship program for a local high school senior to Texas A & M.

Garner spoke to the group regarding what is expected of them as a club and what they can expect from A & M in return. He also pointed out time-honored traditions that A & M and ex-student clubs observe.

It was also announced that Brad Morrison of Muleshoe will be employed in the near future as assistant county agent for Deaf Smith County. Morrison is an A & M graduate and a member of the local club.

Farmer Input Needed For '83 Cotton Program

Cotton farmers have a chance to guide their own destiny by offering suggestions for the 1983 Upland Cotton Program.

Farmer input is needed by Sept. 14 so that the U. S. Department of Agriculture can announce program plans for the coming year around Nov. 1.

"A number of major decisions will be made regarding next year's cotton program, so comments from farmers are vital," said Dr. Carl Anderson, economist in cotton marketing with the Texas Agricultural Extension Service, Texas A&M University System. "A major issue is acreage set-aside."

Farmer input is needed

on the following: mandatory or voluntary acreage reduction, paid land diversion, base loan rate for Strict Low Middling 1-1/16-inch cotton with a 3.5 to 4.9 mike, 1983 target price and the loan rate for seed cotton. Comments should go to Director, Analysis Division, USDA-ASCS, Room 3741-S, P. O. Box 2415, Washington, D. C. 20013.

Anderson noted that the financial implications of a set-aside program are far reaching. "Producing less may well mean that farmers will make more money," he said. "Base cotton acreage would have to be reduced in the range of 25 percent or more to be effective in reducing

surplus stocks."

The cotton market is currently in the doldrums and may remain so another year or so, noted the economist. Demand is weak because of this nation's high unemployment and the current deep recession which is straining consumer budgets for needs other than clothing. Mill usage in the U.S. had dropped to the lowest level since the 1930 depression.

"High interest rates have also been the enemy of cotton farmers," Anderson pointed out. "They make it expensive for the cotton trader to hold large inventories of raw cotton or manufactured textile goods, so such inventories have been reduced. Consequently, farmers or the government end up holding cotton which, then, hangs over the market and holds down the price."

Cotton farmers also are having to put up with an un dependable export market and a growing level of imported manufactured textile goods, said the economist.

Exports have suffered because foreign governments are temperamental in deciding on cotton production and use. Furthermore, the strong U.S. dollar has pushed up the American price in terms of most foreign currencies, so overseas buyers are reluctant to purchase U.S. cotton. At the same time, the strong American dollar has made foreign textiles a good buy so that imports are cutting deeply into domestic mill usage, Anderson noted.

"Faced with huge cotton stocks and other circumstances that have weakened demand, cotton farmers need to be wary of the devastating financial effects of a large 1983 cotton crop, and without a sizeable cutback in the base acreage for 1983, any price improvement this season could result in a big increase in cotton acreage and production next year which would almost certainly push prices well below production costs."

Adverse weather has severely reduced cotton acreage this year so that the crop could be below use levels.

Unlicensed Bingo Games In Texas Due To End

State Comptroller Bob Bullock said today the party is over for unlicensed bingo games in Texas.

"Turn out the lights and throw away the numbers," Bullock said. "If voters in your area haven't approved legal bingo and you haven't got a license to conduct your game, then we're looking for you."

Bullock said the state's new Bingo Enabling Act, which took effect last November, gave voters in every Texas community three chances to petition their local governments to have an election this year.

"Their last chance was last Saturday. We have given seven months grace to some games in this state, making sure they had every chance the law allows to get legal. We intend to file gaming charges against those who have not fully complied with the law. We will be working with local law enforcement authorities and the Attorney General and we will also be checking to see if there are other back taxes these illegal games might owe," Bullock said.

George Garland, director of the Comptroller's Bingo Regulation Division, said allowing unlicensed games to continue would be unfair to groups and organizations who "went to the trouble of getting their petition signed, calling an election, getting licenses and doing things the right way."

Garland pointed out that because 1982 is a general election year, voters will not have the opportunity to vote on the bingo question in November, as they could in any other year.

"This is one of the problems with the bingo law,"

Garland said. "There are some others and some provisions that need to be changed. Some people think that we made all this up and that they should be able to just go back to playing illegal bingo the way they used to. We tell them we're only doing what the Legislature told us to do when they passed this law. If they want to change the law, we tell them to go back to the Legislature."

Prairie Dog Plague Confirmed

Public Health Region 2, Texas Department of Health, Lubbock, reports that plague has been confirmed in prairie dogs on a ranch in Northwest Yoakum County. Although plague in West Texas is primarily a disease of rodents, it is occasionally transmitted to man as the result of the bite of an infected flea or the handling of an infected animal, including wild carnivores. It is a very serious disease and can result in death if not treated promptly. Hunters, trappers or persons who work in areas where rabbits or rodents are common should be aware of the risk and take steps to avoid being exposed. Any person who becomes ill within a week of coming into contact with wild animals or their fleas, should immediately seek professional medical attention. Evidence of large numbers of sick or dying rodents or rabbits should be reported to the local health department or the Texas Department of Health.

Revenue Sharing Meeting

ilities for which Bailey County has long been in need of." The letter was signed by the Chairman of the committee along with each precinct chairman.

Another letter submitted by Hurshel Harding, an attorney in Farwell and a property owner and taxpayer in Bailey County. Harding stated in his letter the following: "I can think of no project within Bailey County that is more sorely needed than adequate facilities for the District Judge, District Attorney, Court Reporter and juries upon trial of lawsuits, as well as county law library books. Presently books are scattered and there is no way an attorney could properly use the books in the event they were needed during a trial. Also, the books are not properly available for the District Judge to use in making decisions or reference." Further, Harding stated the need for a space of adequate size and rooms for the district judge. Harding further said that he felt the funds should be used for providing adequate facilities for the district court, district clerk, library, district attorney, grand jury and jury rooms.

District Judge Jack D. Young went on record with a letter of statement to the commissioners to "request their serious consideration of allocation of the available federal revenue sharing funds for improvement of the Bailey County Courthouse, rather than operating expenses."

A letter from Johnny W. Actkinson, District Attorney for Bailey-Parmer Counties stated that he urged the courthouse expansion program. As regards specifics, Actkinson noted that a jury room, witness room, law library room, and a district judge's office should be first priorities. He also suggested that the District At-

torney should be given enough space for at least a typewriter and a locking file cabinet. Another suggestion from the District Attorney was that of a different heating and cooling system in the district courtroom and something to improve the acoustics in that area of the courthouse.

According to plans drawn up in October of 1981, a partial renovation of the present courthouse would have cost \$208,000 approximately. A total renovation and rebuilding of the courthouse would cost somewhere close to the one million dollar mark according to Judge Glen Williams.

Much mention from different parties to the effect that the Courthouse will not last long without renovation and is not even now adequate. Some groups emphasized the fact that the courthouse will be a thing to last and will be here for generations to come. Thus, the longer the wait about repairing or remodeling, the higher prices will be when and if the work is finally done.

The commissioners heard all suggestions and will hold a second public hearing relative to the proposed use of these Revenue Sharing funds on September 2, Thursday, beginning at 10

a.m. and running until 5 p.m. The hearing will be held in the courthouse. The public is invited to the meeting and to be heard. Interested persons may ask questions regarding the past use of Revenue Sharing funds and the proposed use of these funds. They may also make suggestions, oral or written, and other comments regarding the use of the funds.

A decision should be forthcoming at that time.

Persons who appeared in person relative to these funds included Dick Pylant, Joann Head, Buster Kittrell, Vi Lindsey, John Gulley, Nelda Merriott, Jesse Ray Carter, Lester Howard and Shirley Farmer.

Book of Life

When all has been said and tried about philosophies of life, how to be happy, or how to be a success, mankind unfulfilled elsewhere will still turn back to this book. Here indeed are the words of life. Here is a guide to your footsteps and a lamp for your path. No man needs to stumble through life as if blind; God has provided a light and it shines through this book. Go where the Book is treasured and understood, to the Church, and hear The Word for your life.

Is something wrong with your life -- an inner restless dissatisfaction? The answer to every human problem comes only from God our Maker. He alone can forgive and restore. Through the church God has committed the provision and proclamation of His forgiveness and redeeming love. Without a church relation no one is securely related to God. Everyone should be in the Church and the Church should be in everyone.
