

JAPS SURRENDER

Final Plans Laid For County Dairy Show

With the printing of the official booklet, final plans were announced this week for the third annual Parmer County Dairy Show, which will exhibit high class dairy stock from herds of the county on August 29, 30 and 31, in the show barn at Bovina.

Entries for the show will begin to appear at the barn on Monday, August 27th, officials reported today, the barn being open all day for that purpose. The following day, cows which are entered in the production contest must be in the barn, with the preliminary milking from 6 to 9 that evening.

On Wednesday, August 29, the first test in milking production contest will be held in the morning and the final test comes that evening. All show entries must be in the barn by six o'clock that evening.

Judging Thursday

Judging of the animals entered begins Thursday morning, with the Milking Shorthorns listed for classing at 9 o'clock, followed by Holstein-Friesian judging at 11. The ratings for Jersey stock will be made in the afternoon, beginning at 1.

In addition to the three departments listed above, the 4-H club boys will have a contest of their own among animals, belonging to the clubbers. In order to facilitate judging, sponsors reported, the stock will be judged with the breed and placements in the 4-H department made according to the way the animal was rated by the judge.

To date, only the selection of the judges hangs in the balance. Invitations to prominent dairy men have been extended, but County Agent Lee McElroy said today that no definite commitments had been made.

J. T. Gee will serve as superintendent of the butterfat production contest, with Sterling Donaldson as head of the Jersey department; Donald Watkins directing the Milking Shorthorn department; W. E. Martin, the Holstein-Friesian department; and Wendol Christian, the 4-H club department.

Registered Stock Only

Entry in the show is open to all registered cattle of the dairy breeds, and in case the animal is not yet registered, proof must be produced that the animal is subject to registration. It is imperative that all stock exhibited be free of Bang's disease. Exhibitors are permitted to display a sign over their entries advertising their herds, and stalls must be kept clean by owners. A stall fee of 50c per head is charged when the animal is brought to the barn, and exhibitors must pay annual club dues of \$1.

In addition to cash prizes in regular competition, special awards are arranged for 4-H club boys. The club "herdsman" award of \$10 will be presented to the clubber who, in the opinion of a judging committee, shows the best herdsman characteristics by attractive display of cattle, neatness of stalls, and good showmanship in the ring. Prizes ranging from \$10 to \$2.50 will be presented club or non-club boys who are judged to have contributed in any special manner to the success of the show.

Barbecue on Thursday

Bovina citizens are turning their efforts toward arrangements of a free barbecue for all show visitors, at the noon hour on Thursday.

Members of the boys 4-H clubs are cooperating with the Bovina merchants in making plans for the feed, and indications are that the barbecue will be prepared and served in the best western style.

The show will close on Friday afternoon, with the animals being removed after four o'clock.

ENLARGING QUARTERS

Mr. and Mrs. Sterlyn Billington are adding a 26x12 foot addition to their living quarters, at the rear of their place of business in Farwell.

HAS OLD MONEY

S. C. Hunter was exhibiting a collection of old coins and paper money this week, that he has had in his possession for many years.

He has a number of old Confederate States bills, ranging from five to one hundred dollar certificates, as well as a number of old coins, including 2c pieces and a dime that was coined in 1820.

School Opens Sept. 3 At Oklahoma Lane

Registration for the 1945-46 school term will begin at Oklahoma Lane on the first Monday in September, the 3rd, according to announcement made this week by officials.

W. M. Roberts is the new superintendent of the Oklahoma Lane schools, coming from Bellview, N. M., where he had been head of the schools for eight years.

The faculty was not complete the first of the week, lacking an English and science teacher for high school, but officials reported "a couple of nibbles", and added that they expected to have a full roster of teachers by the opening day of the new term.

Hours of operation will be from 10 to 5, Texas war time, it was announced.

Housing Problem Looms For School Teachers

Declaring that he had been unable to find suitable living quarters for the incoming school faculty, Supt. B. A. Rogers of the Texico school, predicted a rather serious problem along that line with the opening of the Texico and Farwell schools slated for September 3rd.

Rogers said that he had found some places that could be rented, but added that the rent was entirely too high for teachers to pay on their limited salaries. He said that at least one small house and apartment would be needed to house the incoming school staff.

Supt. H. A. Clift of the Farwell school is faced with the same setup, and the two local superintendents issued an appeal to the citizenship to aid in solving the problem by making some provisions for the faculty members.

"We simply must have living quarters for our faculty members if we are to have any teachers," one school official was quoted as saying.

Midway District Voters Approve Tax Increase

The Midway school district became the second in Parmer County to vote an increase in taxes for school purposes, in a special election held on August 6th.

The voters approved an increase of taxes from \$1.00 on the \$100.00 valuation to \$1.50, by a vote of 31 to 6.

In calling the special election to vote the tax increase, school officials made it clear that \$1.00 will be used for operating purposes and 50 cents will go into the sinking fund of the district in requiring outstanding obligations.

Assistant P. O. Clerk Resigns Position

Mrs. Morgan Billington, who has been assistant clerk in the Farwell postoffice for the past two and one-half years, resigned the first of the week.

Mrs. Noma Lokey, postmaster, stated that she had no announcement to make at the time of being interviewed as to whom might be named as successor to Mrs. Billington.

Victory Service Sunday at Methodist Church

Plans have been announced for a Victory Service at the Methodist Church next Sunday morning at the regular worship hour, starting at 12 o'clock, Texas time, Rev. Charles S. Walker, pastor, stated this morning.

The service will take the place of the regular preaching hour and will be featured by extemporaneous expressions from the layety, prayers of thanksgiving and appropriate music.

Church officials, in announcing the special service, urged the people of all denominations—and those with no church affiliations—to join in the service.

Farmers Fighting For Winter Feed Crop

Oklahoma Lane To Vote On School Tax Increase

School officials of the Oklahoma Lane Independent School District today announced that a special election would be held in the district on Saturday, August 18, to decide whether or not the voters would approve an increase in taxes for school purposes.

This will be the third such special election that has been held in Parmer County during recent weeks. Voters of the Black and Midway districts approved the tax hike by substantial majorities.

Until June 4th of this year, the maximum tax rate for school purposes had been \$1.00 on the \$100.00 valuation, and practically all schools in Texas had been operating on the maximum rate, which was proving insufficient to maintain schools up to the proper standard in the face of the present economic situation. The Texas Legislature on June 4th passed a bill, allowing school districts to increase the tax rate if approved by a majority of the voters of the district.

School officials, realizing that they were not able to operate their schools on the old basis of \$1.00, were quick to encourage the tax hike referendum, in order to avoid serious curtailment in the operation of the institutions.

Baptists Open Revival At Church, Sunday

The local Baptist congregation launched a revival campaign last Sunday, and the meeting will continue through August 19, and "possibly longer", it was stated by officials of the church.

Rev. O. C. Curtis of Perryton, Texas, who is here doing the evangelistic preaching, explained that his schedule called for him to begin last Sunday, instead of Wednesday of this week, as was previously announced.

Rev. W. C. Wright, who recently retired as pastor of the local church, is in charge of the music during the meeting.

BULLETIN—MORE RAIN

As The Tribune was preparing to go to press Wednesday morning, a steady rain was falling, which had continued through most of the night. The rain appears to have been general, and overcast skies gave promise of additional moisture during the day.

The first modern practical machine gun was invented by Dr. Gatling of Chicago, in 1862. It was not in general use until eight years later.

Fighting against the most serious odds that have ever confronted the agricultural outlook in this region, farmers of the area are making a determined effort to produce enough winter feed for their livestock during the coming winter months.

A large majority of the farmers that customarily go in for row crops exclusively, have put in wheat acreage the past two weeks in the hope that it would provide grazing for their livestock during the winter. At the same time, they have devoted a large amount of their plantings to grain sorghums, with the hope that such plantings will at least yield a fodder crop that can be used for roughage during the winter.

Most of the plantings made here this year have been put in during the past three weeks and it is considered a certainty that few, if any, of the crops will have time to produce grain before a killing frost strikes. Some early plantings, made before the drought reached such serious stages, give promise of yielding grain. But such plantings are on a very limited scale.

Sam Randol, living southwest of town, says he will produce some grain this fall from early plantings, and Woodrow Finley says he has 40 acres of sudan that will be ready to cut early in September.

Plantings made since the recent rains are just beginning to reach the cultivation stage, and farmers say their fields are badly infested with grass and weeds.

Tom Lindop pretty well sums up the attitude of the farmers when he revealed that he had only recently completed planting 300 acres in row crop. "It may not have time to make grain, but it certainly won't produce anything unless it is planted first."

County Agent Lee McElroy tossed an encouraging note into the gloomy feed picture this week, when he reported that he had found a number of trench silos in the county that had been filled in 1941. "This feed," he said, "is just as good as it ever war, and can be used this winter." He suggested that farmers having previously filled silos make a check-up, observing that there were perhaps many such trenches in the county that had been completely forgotten.

Draws Heavy Fine For Drunkenness

Lee Gatewood was fined \$50.00 and costs in Justice Jess Newton's court here last Friday. He was charged with being drunk.

Gatewood was picked up by Sheriff Earl Booth in Farwell, following a car collision near the main railroad crossing.

RISING SUN SETS FOR AGGRESSOR

"The Rising Sun" of the Japanese Empire sank into oblivion at 6:00 o'clock p. m. (Central War Time), August 14th, with the announcement from the White House in Washington that the Japanese government had yielded to the Potsdam ultimatum of "unconditional surrender".

After a lapse of tense hours of waiting that had set the world on edge since Friday, August 10, when the first hint was flashed over the world that Japan had surrendered, the official announcement was finally made from Washington where, incidentally, the Japanese war lords had repeatedly announced they would dictate the terms of the peace.

Thus ends the bloody struggle that has raged with unabated fury since the early morning of December 7, 1941, when the Japs opened an undeclared war on this nation by attacking our fleet in a sneak attack at Pearl Harbor.

Japan's defeat marks the first military reverse that nation has suffered in her centuries of existence, during which time she has overrun and acquired a large expanse of territory with her military machine.

The surrender simply means that greatest aggressor nation in modern times is now to be under the control of the United Nations, with our own nation holding a major role. General Douglas MacArthur has been named the Allied Supreme Commander, and has agreed to accept that job.

Through the terms of the Potsdam ultimatum, Emperor Hirohito will be allowed to retain his official position, but hereafter he will receive his orders from General MacArthur, and will be responsible for the execution of any and all orders of the Supreme Allied Commander.

President Harry Truman made the historic announcement of Japan's surrender to a press conference that was attended by 125 news reporters. The surrender document was signed by Japan's Emperor. Just where the formal signing of the peace terms will take place remains somewhat of a speculation, but early announcements following the receipt of Japan's surrender put the historic event aboard the U. S. S. Missouri on the high seas, in honor of President Truman's home state of Missouri.

Only nine days after the first atomic bomb in history had virtually eliminated one of Japan's principal mainland cities, the Sons of the Rising Sun had had enough. Actually, the capitulation of Japan came sooner than even the most optimistic had hoped—before it became necessary to invade the home islands to crush the aggressor.

A report this (Wednesday) morning via radio was to the effect that Admiral Nimitz' fleet had shot down five Jap planes at noon, Guam time, in the vicinity of that island, and apparently, the "cease fire" order had not been handed down to the Japanese by the retiring warlords.

Little news concerning the way the surrender was accepted in Japan was available in this country, since the Tokyo radio was the only means of communication.

In connection with the announcement of the surrender, President Truman ordered General Hershey, director of Selective Service, to reduce induction calls from 80,000 to 50,000 per month, and it was announced that hereafter no induction

OUR PLEDGE

We pledge allegiance to the Flag of the United States, and to the Republic for which it stands; One Nation, indivisible, with Liberty and Justice for all.

FOR RENT—Apartments, furnished or unfurnished. Place for cow and chickens. Mrs. M. Leftwich, Farwell. 35-tfc.

FOR SALE: Two Holstein and 7 good Jersey milk cows, One De Laval milking machine, almost new. See Mrs. John Hand, 2 miles south and 8 east of Friona. 38, 3tp.

FOR SALE: 14 weaning size good white pigs. See L. R. Vincent, 1 mile north, 2 east of Farwell. 38-3tp

WE HAVE plenty of genuine one-way discs; sweeps and a complete stock of John Deere parts. Also, a Litz feed mill; a 10-inch John Deere mill, and some grain blowers. Friona Farm Equipment Co., Friona, Texas. 39-tfc

FOR RENT—A corral. Inquire at Sheets & Buck blacksmith shop, Texico. 39-3tp

FOR RENT—Six room house at Hub, Texas on R. E. A. line, mail route, running water, small pasture available. See F. L. Wenner, Muleshoe, Texas. 39-3tp

FOR SALE: Farm land and resident's property in Texico and Farwell. List your's with me, I have the buyers. S. C. Hunter, Texico N. M.

FOR RENT—Small apartment, furnished or unfurnished, suitable only for couple; has water, lights and gas. Bills paid. Mrs. Ruby Dixon, Farwell.

FOR SALE—John Deere tractor, 41 Model A with tool bar, lister and planter equipment. Mrs. Thelma Jersig. 39-tp

STRAYED—Two Whiteface steers, branded C on left jaw and reversed C on left hind leg. Notify Paul L. Jones, Rt. 1, Texico. 39-3p

FOR SALE—New 10-ft. windmill. C. R. Elliott Co., Bovina.

JUST RECEIVED—Shipment of gas Roper ranges. C. R. Elliott Co. Bovina.

LOST—Man's black Shaeffer fountain pen, Sunday night, between Red Cross pharmacy and just east of railroad tracks, along the road. Reward for return to Tribune. 40-1c

WE ARE DEALERS for this territory for famous "Jeffroy Soil Control Cultivator", made in 10-13-16 foot sizes. It is the many-purpose plow; produces higher yield, at lower cost. See the plow of the Southwest at Consumer's Supply, Clovis, N. M. 40-4tc

FOR SALE—1939 Deluxe Ford Tudor, fair tires; 1936 Chev. truck, good tires; also some weaning pigs and a heavy duty windcharger, complete with tower and batteries. T. W. Bewley, 4 miles west, 2 1/2 north Lazbuddy. Mail address, Friona. 40-2tp

FOR SALE—One-row Superior wheat drill, good condition. O. C. Petree, Lariat. 40-3tp

FOR SALE—Choice frying-sized chickens. R. L. Thornton, 1 mile north of town. 40-1tp

AIR EXPRESS SKYROCKETS

NEW YORK—Packages shipped via air express during the war years have jumped 345 percent in total weight and 170 percent in the average poundage, according to figures compiled by the ATA of America. The number of packages flown last year alone totaled 1,773,823 and weighed 34,276,834 pounds.

Farm Sales A Specialty

Making Dates Now for Fall Sales

FARM NEWS

The county committee states that returning veterans who are farmers or who plan to take up farming are eligible for priorities assistance to enable them to purchase new farm machinery and equipment. The county AAA committee has been authorized to issue a certificate to the farmer-veteran, giving him a priority for a certain piece of machinery or equipment. In addition, if a veteran wishes to purchase used army equipment from the Smaller War Plants Corporation, the county committee can issue him a certificate to the SWPC, recommending that he be permitted to make the purchase. This certification is a statement that the veteran is a farmer and that he will use the equipment in farming operations. Veterans who are farmers, or who plan to farm, have been urged to contact their county AAA committee for information of these programs.

Secretary of Agriculture Clinton P. Anderson today advised the WPB that, in order to keep distillery plants available on a stand-by basis for the production of industrial alcohol, not more than 2,500,000 bushels of grain other than corn, but including malt, would be permitted for manufacture of beverage alcohol in the month of August.

In a letter to WPB Chairman J. A. Krug, Secretary Anderson also confirmed that effective August 1 and until further notice, no corn will be available for either industrial or beverage alcohol. Anderson said that a decision will be made later whether any wheat or rye will be permitted for production of beverage alcohol after August.

The first official report on 1945 crop acreages shows total plantings only one percent less than 1944. Acreages of flaxseed, sugar beets, and feed grains are all substantially higher, although somewhat short of the goals farmers set for themselves.

Weather this year hasn't been too favorable. But the outlook on July 1 still was for the third largest total crop production on record, not far behind the bumper years of 1942 and 1944.

While we're talking about production, we shouldn't overlook milk. Did you know that milk production on farms during June smashed all records? What's more, it's almost certain that total milk produced this year will exceed the previous record of over 119 billion pounds set in 1942.

And here's another barnyard report—there are fewer hens on farms than a year ago, but June egg production was only 3 percent below June, 1944. Egg output for the first half of 1945 is only six percent below last year's pace. And that was a record.

In all this discussion of enormous crop production, had you stopped to think how much farmers in this country have expanded the wartime production of oil-bearing crops? And then that thought leads right to the question of how big a market for fats and oils U. S. farmers will have after the war.

A study by the USDA shows that, before the war, the U. S. was a net importer of about one and a half billion pounds of fats and oils each year. But last year, we EXPORTED six hundred and fifty million pounds.

The study goes on to say that in 1945 we'll continue to EXPORT more fats and oils than we IMPORT. But after the firing stops, we'll probably return to a net importing basis.

Here's an encouraging word, even if consumers can't get all the steak they'd like to eat. Market reports show that cattle are continuing to come to market in record numbers.

Federally inspected slaughter of cattle during June was higher than ever for that month, and almost a fourth larger than the 1940-44 June average. Total slaughter of meat animals, though, was the smallest June slaughter since 1941, largely because of the smaller hog kill.

Secretary of Agriculture Anderson has repeated his previous declaration that the government must fulfill its price support promised to farmers to protect them against possible future consequences of increased wartime production.

Describing himself as "an apostle of abundant production," Anderson said that food subsidies will be difficult to eliminate but "the job must be done". If the elimination of subsidies is not to have serious effects on the producer, they must be removed when "the demand is good and the price is strong."

He praised the farmer for his wartime efforts and said that he must be protected "against the possibility that his very patriotism and hard work will become the instrument of his own destruction."

Next time misfortune strikes, remember that the dog who lost his tail had one consolation. He holds no fear of tin cans.

KINGFISHER PILOT RESCUES WOUNDED CARRIER-BASED FIER

ER: Lt. (jg) George E. Travis, 24, USNR, Port Arthur, Tex., pilot of a Kingfisher plane which rescued a wounded Navy flier downed near Kyushu, directs rescue operations aboard a battleship to which the Texas officer is attached. The wounded fighter pilot, Lt. (jg) Raymond L. Meltebeke, 21, USNR, Nampa, Idaho, sits limply in the cockpit. Official U. S. Navy Photo

Sea Rescue Staged By Navy Pilot

ABOARD A U. S. BATTLESHIP IN THE WESTERN PACIFIC—Lt. (jg) George E. Travis of Port Arthur, Texas, senior aviator on this 52,000 ton battleship, set his Kingfisher plane down in a rough, shark-infested sea recently to stage a dramatic rescue of an injured fighter pilot, Lt. (jg) Raymond L. Meltebeke, of Sampa, Idaho.

Lt. (jg) Travis flew his slow, two-seated plane 155 miles to a spot 70 miles south of Kyushu and after hauling the injured man aboard, took off in waves that "reached a height of 8 to 10 feet," according to Lt. (jg) Meltebeke.

The fighter pilot, veteran of 20 combat missions from a carrier in the task group which includes this battleship, was forced down by motor trouble while on his way for a strike against Kyushu.

He received a superficial head wound when his plane landed in the rough sea. The blood attracted sharks which he frightened away by firing 30 rounds of pistol ammunition. He remained afloat for four hours on his frail rubber raft before being rescued.

REA Lines Will Be Expanded In Texas

COLLEGE STATION—Texas rural electric cooperatives recently were allotted more than \$4,000,000 in REA loan funds to finance 4,600 miles of additional lines which will conduct electric power to the homes of 10,000 farm families and other rural consumers, according to information received by the Extension Service from REA headquarters in St. Louis.

Since the defeat of Germany, restrictions on rural line construction have been lifted, and new power lines will be built as soon as materials are available.

Within the past few months, thousands of Texas farmers have signed up for electric service. REA officials point out that all farmers and other rural consumers wanting electricity should contact the nearest REA office without delay, as the number of signed members is important in determining which lines are to be built first.

The farmer wanting service, whether he lives adjacent to or at some distance from an REA line, should go to the nearest REA office and obtain information on how soon he can obtain service. If the farmer lives a considerable distance from an REA line, every effort will be made to build an extension to his home.

Up to July 1, 1945, REA had allotted approximately \$48,000,000 to rural electric co-ops in Texas. They had built 41,000 miles of lines and brought electricity to 100,000 farm families and other rural consumers. All REA loans are made on a self-liquidating, 100 per cent financing basis, at two per cent interest for periods not exceeding 35 years. Texas cooperatives are paying off their loans on schedule, REA officials report.

AIR LINE SCHEDULES RISE

NEW YORK—The domestic airlines of the United States are now scheduling more than 900 flights daily compared with 470 in May 1942 when sharply reduced schedules went into effect because of the large number of planes turned over to the Army and Navy. The average airline transport is now in the air 11.39 hours daily as compared with 6.35 hours in 1941 before the Army and Navy requisitioned airline planes,

PLEASANT HILL

(Too Late For Last Week)

Miss Margaret Sorvell of Hereford, visited in the home of her cousin, Miss Jeanne Singleterry, last week.

Mrs. Will Belscamp of Electra, Tex., was a houseguest of Miss Naomi Jean Jarrell.

Mr. and Mrs. W. H. Jarrell are vacationing in Colorado.

Mr. and Mrs. Monk Horton and boys have returned from a fishing trip to Colorado.

Mr. and Mrs. Spencer Jarrell are visiting his brother, H. Jarrell, in Grand Junction, Colorado.

Mr. and Mrs. Pearl Singleterry went to Hereford Monday, to attend the funeral of Mrs. Sears, who died Saturday. Mr. Singleterry was a pall bearer.

A revival meeting began at the Methodist Church at Pleasant Hill. Bro. English of Clovis is doing the preaching. Everybody is welcome.

Mrs. John Hightower has received word that her son, Lt. Col. J. M. Hightower, has returned to the hospital at El Paso. The cast was removed from his leg, and as it had not healed, several inches of skin was grafted from his right leg. He will be in the hospital a month. He was injured in March, in Germany.

Jeep Now Available For Civilian Use

Classification of an army jeep, now being manufactured for civilian use, as a truck and not a passenger car, was announced today by John J. Van Pelt, district manager of the Office of Defense Transportation, at Lubbock.

In other words, unless buyers are eligible for a certificate to purchase a new truck, they will be unable to buy one of the new civilian jeeps. The new civilian vehicle was classified as a truck because it is essentially a property carrying vehicle.

Allocation of the new vehicles will be limited to persons contributing directly or indirectly to the prosecution of the war. Those eligible include farmers.

These restrictions do not apply to military jeeps sold through the surplus property board.

No wonder Captain Syeed Shaykh Achmed Abdullah Nodir Khan el-Iddrissieh el Duran wrote under the pen name Achmed Abdullah.

No. 1144

NOTICE OF SHERIFF'S SALE THE STATE OF TEXAS COUNTY OF PARMER

WHEREAS on the 9th day of April A. D. 1945, the STATE OF TEXAS Plaintiff and The Farwell Independent School District impleaded Taxing Units recovered a judgment in the District Court of Parmer County (for the 69 Judicial District of Texas) No. 1144 on the docket of said Court, against D. M. Whitley, R. N. Whitley, and Unknown Owner or Owners, and the Unknown Heirs of the said D. M. Whitley and of the said R. N. Whitley, and of the said Unknown Owner or Owners of the hereinafter described land for the aggregate sum of Two Hundred-Eighty and 30/100 (\$280.30) Dollars for delinquent taxes, interest, penalties and accrued costs on the same, with interest on said sum at the rate of 6% per annum from date of judgment together with all costs of suit. Said judgment directs that a foreclosure of plaintiff's lien together with lien of the taxing units which were parties to this suit and established their claims thereto for the amount of said taxes, interest, penalties and accrued costs as apportioned to each tract and/or lots of land as described in said order of sale.

By virtue of an order of sale, issued by the Clerk of the District Court of Parmer County, Texas, on the 30th day of July 1945, as directed by the terms of said judgment.

As Sheriff of said Parmer County, I have seized, levied upon and sold, on the first Tuesday in September, 1945, same being the 4th day of September, 1945 at the courthouse door of said Parmer County, between the hours of 2 o'clock P. M. and 4 o'clock P. M. of said day proceed to sell for cash to the highest bidder all the right, title and interest of D. M. Whitley, R. N. Whitley, and Unknown Owner or Owners, and the Unknown Heirs of the said D. M. Whitley and of the said R. N. Whitley, and of the said Unknown Owner or Owners of the hereinafter described land in and to following described real estate levied upon the 30th day of July, 1945, as the property of D. M. Whitley, R. N. Whitley, and Unknown Owner or Owners, and the Unknown Heirs of the said D. M. Whitley, and of the said R. N. Whitley, and of the said Unknown Owner or Owners of the hereinafter

described land:

All of lots Twenty-Seven (27), Twenty-Eight (28), Twenty-Nine (29), and Thirty (30), out of Block Sixteen (16), in the Original Town of Farwell, Parmer County, Texas, as shown by recorded map of said town of Farwell, Texas of record in the deed records of Parmer County, Texas. Reference to which said record is here made for all purposes. Amount Apportioned Against Said Tract—\$280.30 subject, however, to the right of redemption of the defendants, or of anyone interested therein, may have, and subject to any other further rights the defendants, or anyone interested therein, may be entitled to under the provisions of law. Said sale to be made by me to satisfy the above described judgment and foreclosing the lien provided by law for the taxes, interest, penalty and costs. The proceeds of said sale to be applied to the satisfaction thereof. Said sale will be made subject to the defendants right to redeem the said property by complying with the provisions of law in such cases made and provided.

EARL BOOTH

Sheriff, Parmer County, Texas.

One Legged Pitcher

Food Production Cut By Feed Scarcity

COLLEGE STATION—Scarcity of feed as forecast by a smaller estimated corn yield in Texas and the nation than last year and a decline in available animal proteins may result in less production of meat, milk and eggs in 1946, according to E. D. Parnell, poultry husbandman for the A. and M. College Extension Service.

Parnell said that the national advisory council of an organization of feed manufacturers, of which he is a member, warned Secretary of Agriculture Clinton Anderson during a hearing at Washington recently that livestock numbers and feed supplies must be kept in balance. The tendency to get livestock numbers ahead of feed supplies is foreshadowed by an increased number of chickens on farms, together with an expected excess production by commercial hatcheries over the record year 1943, Parnell said. Other indications are an expected increase in fall pig farrowings, continued heavy grain feeding to dairy cattle making of hogs at heavier weights; unfavorable weather for corn production and the severest drought in the Panhandle and South Plains areas since 1917.

Offsetting this in some measure are a record wheat crop for the nation; an oats crop 22 per cent greater than last year's good yield, and excellent pasture and hay conditions in most sections of the country. But to be prepared for the even quality of short crops of corn and grain sorghums, Parnell urges Texas farmers to adopt these feeding practices:

- (1) Avoid over-feeding any type of livestock;
- (2) substitute wheat for corn in all rations whenever possible;
- (3) make best use of pasture and roughages, both of which are in good supply;
- (4) use wasteproof feeders and avoid filling feeders to full at any

time; (5) market livestock and poultry at the most economical weights; (6) check regularly with the county agent for the latest information on improved feeding practices.

MAJOR CRIMES INCREASE IN TEXAS OVER 1944

AUSTIN—Major crimes in Texas are currently being committed at the rate of 318 a day, Director Homer Garrison of the Department of Public Safety said today.

The Department's semi-annual crime report showed a 23.32 per cent increase for the first six months of 1945 as against the same period last year. The statistics, based on reports submitted by police and sheriff departments, show a daily average of three murders, two rapes, six robberies, 77 burglaries, 43 car thefts, and 187 other thefts.

Greatest increases were in burglary, up 37 per cent, and auto theft, up 23 per cent.

While burglary and theft usually decline with the approach of warm weather, the trend was reversed in the second quarter of 1945 because of the first flurry toward economic reconversion, Garrison explained.

TRAINEE QUOTA HIKED

AUSTIN—The Naval trainee quota at the University of Texas will be increased by 257 students Nov. 1, Vice President J. C. Dolley has announced. The quota is now 693 men.

Many Navy units are being closed out in smaller colleges, Capt. I. J. Valentine, Navy commandant, announced, and pre-flight trainees are being assigned to V-12 units before they begin training, he said.

The University and Rice Institute will be the two Texas schools to continue the Naval units, Capt. Valentine added.

You can always make Budweiser by sending him to school.

If It Isn't One Thing It's Another

Robert Lee of Atlanta thought he had solved his transportation problem by dismantling the family fliwer and using the wheels on a mule-drawn wagon. But using hay instead of gas wasn't enough. Tires still wear out and give trouble. Here is improviser Lee replacing a wheel after he had fixed a flat. The mule says nothing—just looks wise.

Health Notes

By Texas Department of Health

AUSTIN—As a safeguard against the serious and disabling disease known as undulant fever or Malta fever, Dr. Geo. W. Cox, State Health Officer, advises Texans to drink milk only from approved sources. Undulant fever is usually acquired by human beings as a result of consuming raw milk, or raw milk products, from cows infected with Bang's disease.

Raw milk or milk products can be consumed with safety only when they are known to be produced by cows tested and found to be free of Bang's disease. Pasteurization, of course, will kill germs if present.

To lower the incidence of undulant fever, all dairymen are asked to cooperate with the State Department of Health by removing cattle infected with Bang's disease from their herds as soon as the disease is discovered. Even if the milk is made safe for human consumption by pasteurization, infected cows are still a menace to health since they can transmit the disease to healthy animals, to their owner and other persons who handle them.

"Undulant fever," Dr. Cox said, "is one health menace we can eradicate in our State through absolutely

safe milk supplies from dairy herds free from Bang's disease.

"Unless a herd is known to be free from this infection, only pasteurized milk should be used so that the disease cannot be passed on to the consumer of milk and dairy products."

Marine Forces Observe First Island Invasion

Three years ago Tuesday, August 7, American Marines dashed ashore at Guadalcanal in America's first D-Day of this war.

At approximately 6:00 AM a U. S. Warship had fired the first shot of America's counter-offensive against the Japanese. The ensuing bombardment lasted three hours. Enemy installations are now softened up for weeks to come.

When the Higgins boats, bearing young and untried Marines, hit Lunga beach, the members of The First Marine Division raced inland to take positions directly opposite the Japanese airport. This airfield was later to become known to every American as Henderson Field, named in honor of Major Lofton R. Henderson, the Midway Battle Air Hero.

The first few hours after the landing saw no enemy resistance. The first American casualty is said to have been a Marine who cut his hand opening a coconut.

Other landings were being made on

Tulagi, in the Florida Islands north of Guadalcanal, Tanambogo and Gavutu.

All the Marine actions were under the direction of Major General Alexander A. Vandergrift, now a full general and Commandant of the Marine Corps. He was Commanding the first division of American fighting men ready for offensive action after war was declared. The First Marine Division is now famous for its subsequent bitterly-contested actions at Cape Gloucester, Peleliu and, more recently, Okinawa, as well as Guadalcanal.

At Guadalcanal it was laden with the heaviest responsibility ever entrusted to a fighting force in America's history. Its job was to stop the Japs' sure and relentless advance toward New Zealand and Australia. Enemy seizure of these countries would have paved a broad highway for eventual assault on the United States.

The marines' job was to take Guadalcanal and hold it. To do this they saw longer front line fighting than any other combat force in American history. Often they went without proper food and without proper medical facilities. Sometimes they fought without proper equipment. Mail from home was only a thing to dream about.

They fought against well-equipped troops, who were almost always superior in number.

Malaria was as deadly as the Japs. Complete exhaustion dogged their days and nights. The heat of the jungle, the mud, and the incessant rain were all handicaps to be endured.

The enemy was a foreign unknown fighter, with a savage cunning and a through training in jungle warfare.

But the Marines fought with such bitter ferocity that the Japs considered them paid killers who refused to take prisoners. Later, after the Army arrived, the Japanese would surrender to soldiers, but not

to Marines.

The struggle lasted six months. Its battles gave fame, and immortality to Marine Corps history, to strange names like Tenaru, Lunga, Matanikau, Ilo and Bloody Ridge.

Courage of Marine Corps fighter pilots against un-thought of odds in the skies became the talk of the nation. One of the airmen, Major Joe Foss, became the first 26-plane ace of World War II. He holds the Congressional Medal of Honor for his heroism.

August 7, 1942 will always be a significant date in American history. It brought to an end the Nipponese southward expansion and began an American offensive which is now rocking the very foundations of the Japanese empire.

August 7, 1942 also marked the beginning of the end of a Japanese dream.

Military observers have called the struggle for Guadalcanal one of the most important battles in world history, and the men who fought there are champions of our civilization.

Peaches Will Save Scarce Ration Points

Home preservation of peaches will save future ration points and assure menu variety later when commercially canned foods are in low supply, Mr. E. C. Munro, Acting District Director, CCC's Office of Supply, said today.

Added inducement for housewives to take advantage of the peach abundance is they are sweeter than many fruits, requiring less sugar for canning. Palatable canned peaches can be made with thinner syrups than many housewives are accustomed to use, he said.

According to the wartime canning guide, an average of one pound of sugar is sufficient to can four quarts of peaches. Honey may also be used to replace as much as one-half the sugar used for canning or corn syrup

American Cowboy at Okinawa

Pfc. Chester J. Dziurkiewicz, a member of the 27th Division band, is shown entertaining Okinawa children in the village of Taira with some fancy rope twirling. Dziurkiewicz, formerly a radio entertainer in St. Joseph, Mo., was known professionally as Chet Bury. He shows that one of his most entertaining feats is making the ropes talk. American soldiers in the Pacific zone of operations have proven popular with natives.

Miss Akin is Bride Of Sgt. Porter

Miss Doris Akin of Clovis and Sgt. Winfred D. Porter, son of Mr. and Mrs. Fred Porter of Amarillo, formerly of Farwell, were married last Thursday evening, August 9, in Clovis. The rites were read in the parsonage of the Central Church of Christ by Minister C. A. Lorts.

For her wedding the bride chose a street-length dress of turquoise crepe with white accessories, and a corsage of white gladioli. The bridesmaid, Miss Carroll Porter, sister of the groom, wore white with black accessories and a corsage of salmon-pink gladioli.

Mrs. Porter is the daughter of Mr. and Mrs. F. G. Akin of Clovis and a graduate of that high school. She is now employed by the Mountain States Telephone Company in Clovis.

Formerly of Farwell, Sgt. Porter has spent the past three and one-half years with the Air Corps. He is to report to the Lake Charles, La., air base on August 20, where he serves as a ground crew chief.

Husbands Will Be Honored Tonight

The Susannah Wesley Bible Class of the Methodist Church is entertaining tonight (Wednesday), with their husbands as honorees, in the undercroft of the church.

The social will begin at 8:45 and several special guests have been invited by the organization.

Mrs. Lovilla Kessie, who had spent the past week visiting with friends here, returned to her home in Shamrock, Texas, on Friday.

Methodist Group Has Hamburger Fry, Show

The Methodist Youth Fellowship held its final social of the summer, Monday evening, with the young people enjoying a hamburger fry, followed by a theatre party to Clovis.

The picnic was served in the backyard garden of Mrs. Lenton Pool, sponsor of the group.

Attendants included Larry Boardman, Peggy and Jean Rogers, Sonny Graham, Warlick Thomas, A. C. Henneman, Marcia Anne Johnson, Treva Spurlin, Meredith Williams, Toby Booth, Ernest Lokey, Belva Park, D. C. and Ina V. Haynes, Rev. and Mrs. Charles S. Walker, Mrs. B. A. Rogers and Mrs. Pool.

Hobbs Chaplain Guest Speaker At Church

Chaplain Chester L. Miller, who is stationed at the Hobbs Army Air Field, was guest speaker in the pulpit of the local Methodist Church on Sunday morning.

Chaplain Miller is a member of the Detroit conference of Methodism and a graduate of the school of theology of Southern Methodist University, Dallas. The local pastor, Rev. Charles S. Walker, and Chaplain Miller were classmates at SMU.

Guest pianist of the morning hour was Lawrence Overstreet, son of Mrs. Anne H. Overstreet, of Oklahoma City.

Mr. and Mrs. W. H. Dosley and daughter, Sammie, who have been visiting in the "Uncle Tom" Randol home southwest of town, have returned to their home in Arlington, Texas.

Private Gets in General's Hair

General of the Army George C. Marshall, chief of staff, reads "minutes of the meeting of the General Council," while Pfc. Nicholas J. Totolo of Darien, Conn., gives him a haircut in his billet during the general's recent Berlin conference. The combined chiefs of staff held meetings coincidentally with those held by the "Big Three." Their recommendations became part of general plan announced.

4-H Club Encampment Comes This Month

Although to date there is no definite list of Parmer County boys who plan to attend the district 4-H club encampment, County Agent Lee McElroy said today that it was likely the county would be represented.

The encampment, held annually in Ceda Glen, a part of Palo Duro canyon, opens on Monday, August 27th, and closes August 29th.

Fred Barker, club leader from Friona, has offered to see that boys who wish to attend the encampment have transportation, McElroy added.

Pvt. Lawrence Wagner Home From Germany

Pvt. Lawrence Wagner arrived here the latter part of last week from overseas, where he served only a short time with the U. S. forces after landing in Germany, before the enemy collapsed.

Pvt. Wagner and his wife, the former Miss Elwanda Ham, plan to leave this week for Orange, Texas, to visit a few days during his 30-day furlough. He reports for reassignment to Denver, Colo.

Mrs. Wagner, who has been employed at the City Cleaners during her husband's overseas service, has resigned her position to be with him.

Wilkerson Arrives In Bovina, August 12

Thomas Lee Ray Wilkerson, son of Mr. and Mrs. D. H. Wilkerson of Bovina, is home from the European theatre of war, after spending a little more than three years overseas with the chemical branch of the Army.

Wilkerson entered training December 20th, 1941, and received his basic instructions in chemical warfare at the Edgewood Arsenal, in Maryland. From there he was sent to England, where he spent 25 months, winding up overseas duty with a year in France. He arrived at the family home near Bovina on Sunday morning, receiving a discharge from service.

He has a brother in San Antonio, with the Army, and another brother serves with the Navy, being currently stationed in Corpus Christi.

Blondin crossed Niagara Falls on a tight rope in 1859.

ALADIN LAMPS and SUPPLIES

RED + PHARMACY

MALARIA
CHECKED IN 7 DAYS WITH LIQUID for MALARIAL SYMPTOMS
666 Take only as directed

Misses Mozeile and Sula Moore, of Bovina, are spending 10 days in Little Rock, Ark., with their brother, Pfc. Joe Moore, who is stationed at Camp Robertson.

Mr. and Mrs. M. C. Sherman and Mrs. C. T. Sikes, who have been visiting in the O. C. Sikes home, have returned to their home in Wichita Falls.

Mr. and Mrs. Oma Glover and son, of Dumas, Tex., were Sunday visitors in the L. C. Moore home.

WOMEN '38 to '52'
are you embarrassed by **HOT FLASHES?**

If you suffer from hot flashes, feel weak, nervous, highstrung, a bit blue at times—due to the functional "middle-age" period peculiar to women—try this great medicine—Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound HELPS NATURE. It's one of the best known medicines for this purpose. Follow label directions.

NEWS FROM OUR BOYS IN UNIFORM

NEAL IS ADVANCED
ABOARD A DESTROYER OF HT EPACIFIC FLEET—John C. Neal, 23, son of Paul Neal, Farwell, Tex., has advanced to watertender, second class, USNR, aboard this ship.

Neal entered the Navy in October, 1942, and trained at Great Lakes, Ill. He has completed 19 months of service overseas and has participated in numerous sweeps and actions against the enemy in the Kurile Islands.

TO COME HOME

Mr. and Mrs. Gabe Anderson have received word from their son, Pvt. Bobby, that he expects to be seeing them in the not-too-distant future. Bobby has been with a parachute outfit in Germany for some time, but has never been in action.

POTEET IS EXPECTED

Word has been received here that Cpl. Blackie Poteet, who has spent a number of months in the European theater and sustained wounds last year, may be back in the States soon. Going into combat with an infantry outfit, he has recently been doing MP work, he advises relatives.

Mrs. F. L. Couzzen, who had been visiting here in the home of her brother, Lee McElroy, and family, returned to her home in Fort Worth, the past Thursday.

Mr. and Mrs. Si Magness, of Edinburg, Texas, are here to spend several days visiting with relatives and friends.

Young Miss Janie Gordon, daughter of Mr. and Mrs. Jason O. Gordon, is here from Lubbock to spend the week in the home of Mr. and Mrs. John Armstrong.

No Canning Sugar After August 31

Deadline on the issuance of canning sugar certificates this year will fall on August 31, Mrs. Nine Glasscock, chief clerk of the local ration board, was advised on Monday by the district office in Lubbock.

She added that all applications now on hand in the office, and those that come in prior to August 31, would be executed before the deadline, and added that from the current sugar quota, an additional allotment of five pounds might be available to those applicants who earlier had received only five pounds per capita for home canning.

The deadline does not affect the validity of sugar certificates now held by housewives, she pointed out. These certificates may be used to purchase the staple as the need arises.

Lawrence Overstreet, who had been a guest of his mother, Mrs. A. H. Overstreet, in Farwell for the past week, left Sunday night for his home in Oklahoma City.

Mr. and Mrs. M. C. Roberts plan to leave the latter part of the week for Red River, N. M., where they will spend a brief vacation.

Mr. and Mrs. Rodney Ford returned home the latter part of last week from a short vacation trip to northern New Mexico.

Mr. and Mrs. S. E. Ketchum, of Iowa Park, Texas, are visiting this week in the L. C. Moore home in Bovina.

Passenger Tire Stocks Critical At Present

Depleted stocks of passenger car tires indicate that the tire situation is most critical at this time, Wm. G. Williams, OPA district rationing executive, stated today, as he urged all drivers to use every means to stretch the life of tires.
 Although tire quotas have been maintained at the 2,500,000 figure for August, in an effort to maintain driving during critical hot months, in several sections many people who have received tire certificates have not been able to find tires to buy, Williams said.
 In explaining the necessity for passenger car tire conservation, Williams pointed out that there are about 100,000,000 passenger car wheels rolling on rubber tires at this time. Since 1942, OPA has rationed about 45,000,000 tires. This means that there are still over 55,000,000 pre-Pearl Harbor tires on the road. Most of these tires have been recapped at least once, many two or three times. On the other hand, maximum production of passenger tires this year will not be over 25,000,000. The WPB says that present demands for tire replacements cannot possibly be met at this time.
 All indications are that "A" card holders will not get new tires for many months and every conservation method must be used if cars are to be kept running, Williams said.

Three Discharges Are Filed In Parmer Co.

Three Army discharges have been filed at the office of County Clerk D. K. Roberts during the past few days, a checkup of the records reveals.
 T-4 Gene T. Choate, of Muleshoe, was discharged July 31st from Fort Sam Houston, after serving four years with the 131st Field Artillery, two years of which was spent in the European theatre.
 Choate holds campaign stars for Naples-Foggia, Southern France, Rome-Arno, and the Rhineland on his foreign service ribbon, in addition to the bronze arrowhead signifying a D-Day invasion. He also wears the good conduct ribbon and the ribbon for American defense.
 Capt. Charlie Thompson, of Farwell, officially received his release on August 7th, from Fort Bliss. Thompson had recently returned from China, where he served with the 322nd troop carrier squadron of the 14th Air Force.
 He holds the Distinguished Flying Cross with one oak leaf cluster, the Air Medal with one cluster, the good conduct medal, American defense ribbon, and the Asiatic-Pacific ribbon with one star.
 Discharged from an army hospital at Carson, Colorado, on August 6th, Pfc. Leonard Gee, of Bovina, is the third returning veteran of the week. Gee served with the 417th infantry in the European theatre for five months, as a rifleman. He wears the ETO ribbon with one star, signifying the Rhineland campaign, and is a holder of the combat infantryman's badge.

Bringing Them Back Home Again

With thousands of U. S. Troops scheduled to fly home from Europe each month, the most effective air-sea rescue system ever devised in safeguarding the men has been put into effect. (1) The waters are well protected, while from the Azores to the U. S. many ships are on guard.

Japs Surrender

(Continued from front page)
 of men over 26 years of age would be made. Induction of young men will be continued in order to make replacements for men who have seen long service overseas.
 The Japanese Emperor called upon "ye people wherever ye be" to comply with his mandate of ceasing hostilities and await further instructions from the dethroned "son of heaven".
 The announcement of Japan's surrender brought forth the greatest celebration that has ever been witnessed in the United States. Pandemonium broke out in every city in the land, as people went wild with joy and thanksgiving. Nor was the celebration confined to this country. Radio announcements told of similar rejoicing throughout the world, particularly in England, Canada, China and Australia. Russia, a late entry into the war against the Japan, also was rejoicing.

Weed Killing Tests Show Good Results

County Agent Lee McElroy announced the first of the week that a number of weed killing tests which have been conducted in this area during recent weeks are showing gratifying results, according to reports from the farmers using the poisons.
 A test run on the Olan Schleuter farm in June, where a number of plots were blocked off and various types of weed-killers used, shows that both the hormone sprays and the salt-base poisons proved very effective—with the former being cheaper treatment.
 J. G. McFarland, of Friona, has been using a hormone spray on bindweed at his farm, and reports a very good kill in most instances, recommending that such spraying be done when temperatures are between 80 and 90 degrees. This spray is effective only on weeds, Agent McElroy emphasizes, and will not injure the ground—or kill Johnson grass.
 Otho Whitefield has also been using a hormone spray, on blue grass, and likewise reports good results. The spray was used on nettles and proved effective, but appears to work more slowly than on weeds.
 Johnson grass and bindweed are the most common field nuisances in this area, and McElroy recommends use of salt-type poisons on the former, with sprays to be used in combatting the spread of bindweed.

County Commissioners In Session, Monday

The Parmer County Commissioners Court was in session here Monday, taking up routine matters pertaining to the business of the county.
 The Court approved the results of two special elections held in Black and Midway districts recently, declaring that the increase in taxes for school purposes had carried.
 The expense account of Sheriff Earl Booth for the month of July, amounting to \$315.00, was approved. Other business included the payment of current bills.
SHOWERS FRIDAY
 Additional and refreshing showers fell south and southeast of Farwell last Friday afternoon, bringing further relief to a rather limited area.
 The rain did not extend as far south as West Camp, and it was light here in town, but farms located two to four miles south and southeast of here benefitted from the rain.
 So far as is known here, this is the only moisture of any consequence that has fallen in the county during the past week.
 Harry Houdini's real name was Eric Weiss.

Ceiling Price For Grain Explained

Mrs. Henry Hill, chief clerk of the War Price and Rationing Board of Curry County, announced today that there was considerable misunderstanding among farmers relative to ceiling price on grains.
 The facts are as follows: The ceiling price for the elevators is \$2.16 a hundredweight. That is what the elevator can get for the grain. The ceiling for farmers is \$2.03 a hundredweight, on the farm. If delivered to the elevator, \$2.06 is paid the farmer, per cwt.
 Mrs. Hill said a number of farmers of this region thought that the ceiling price was \$2.16 for farmers, but she pointed out that this is the elevator's ceiling.—Clovis News-Journal.
 Local grain dealers have asked that the above story be reproduced in this newspaper, explaining "the same thing applies here also" with reference to grain ceiling prices.

Little Acid Poisoning In Parmer County

County Agent Lee McElroy reported on Monday that, contrary to widespread fear among cattlemen, few cases of prussic acid poisoning have been noticed in the drought-stricken areas of Texas.
 "It is common belief," McElroy said, "that during dry periods, Johnson grass and sorghum often develop prussic acid, and stock eating the plants may die. We have several men who have kept their stock off Johnson grass due to this fear—but have put stock on stunted fields of sorghums and no acid poisoning has been noticed. It is my belief that the Johnson grass is no more susceptible to development of the acid than grain sorghums, and that we can graze either one."

To Protect You
 There have been times when our clients have said: "Do whatever you think is necessary and right—we can't decide." We have accepted that responsibility and trust whenever requested—made delicious and counted costs.
 Always we prefer the family to decide and to have its decisions placed in writing. This is for your protection.
 Many of our services are not charged for. Those for which we must charge are clearly shown, so that the contract gives the family complete control of the service and the total expenses. There are no "forgotten" extras that add to the final cost.

Tharp Takes Over Jack Dunn Ranch

N. L. Tharp, of Clovis, who completed a deal for most of the large holdings of Jack Dunn, located just north of here, stated this week that he had taken over the Dunn ranch, occupying the ranch home this past week.
 Mr. and Mrs. Dunn are leaving shortly for Colorado, where they will enjoy a two-weeks vacation before going to Hot Springs, Ark., where they plan to spend the winter. Dunn retained eight sections of his grass land along the Running Water Draw and has it stocked with steers.

FISH IS STILL A FISH

Even if it is about five days old and just a shade dead and dry, a fish is still a fish, in the opinion of young "Bug" Johnson, son of Dr. and Mrs. V. Scott Johnson.
 Young "Bug" came in wagging a perch by its tail, Monday noon, to present to his Sunday School teacher, expressing the hope that she would enjoy eating it. Incidentally, he wouldn't allow the head to be cut off his catch—he had to have enough fish to show!

SANTA FE CARLOADINGS

The Santa Fe System carloadings for week ending August 11 were 27,116 compared with 29,153 for same week in 1944. Cars received from connections totaled 15,145 compared with 13,858 for same week in 1944. Total cars moved were 42,261 compared with 43,011 for same week in 1944. Santa Fe handled a total of 43,123 cars in the preceding week of this year.

Revival Postponed By Church Of Christ

F. W. Ayres, of Bovina, has advised The Tribune that the revival slated for the Bovina Church of Christ has been indefinitely postponed.
 Ayres said "Because of other meetings going on in Bovina, our revival date will be announced later, in order to avoid conflict."

SAFETY AWARDS GIVEN

NEW YORK—The Inter-American Safety Council has given certificates of safety to 21 airlines operating on inter-American routes, for having completed a year's operations without accidents or fatalities to passengers or crews.

WOMEN LEARNING TO FLY

WASHINGTON—At one airport here half of the several hundred students learning to fly are women. Many are government workers, or members of the Women's Reserve Corps of the Armed Forces.

YOU'D BETTER THINK TWICE...
 Before you decide to dispose of your dairy cows and laying hens in the face of the feed shortage. They have been the salvation of many of our farmers in past years and they can do it again. They will provide a nice little income the year 'round.
GOLDSMITH PRODUCE CO.

Let Us Serve You
 We are doing our best to operate a Service Station with everything the name implies.
HOW'S YOUR BATTERY...?
 Drive in and let us give it a speedy recharge on our new quick charger... service while you wait!
