

## 100 INDIANS FROM SIX TRIBES OF SOUTHWEST TAKE PART IN FIRST RAILROAD FAIR, JULY 20

American palefaces who have never visited the Santa Fe Southwest and watched the well-known Indian tribes of that area at work and play will have the opportunity when the first railroad fair opens in Chicago, July 20.

In the Indian Village, now being constructed by the Santa Fe Railway, approximately 100 Indians of six different tribes will be living their normal mode of existence under the eyes of thousands of railroad fair visitors during the months of the exhibition, which commemorates 100 years of railroading in Chicago.

Among the six Indian tribes will be several families of the Navajo tribe, who will be seen doing silver-smith work, weaving and sandpainting.

In appearance the Navajo is tall, rather slender, and extremely agile.

Both sexes, almost from birth are at home on the pony, of which they own large numbers, and the men are famous for their ability in running. At first meeting they are silent and seemingly unfriendly, but on closer acquaintance they are found to possess a great store of humor and a cheerful and happy disposition. They do not live in villages; their homes are the characteristic hogans located in all parts of the reservation.

Visitors to the Railroad Fair will realize that jewelry and ornamentation is deeply impressed in the personality of the Navajo. Navajo silver-smiths are famous the world over, their jewelry having found its way all over the earth. Yet that art is a borrowed one. The Navajos acquiring it from itinerant Mexican silver-smiths about the middle of the past century. They soon excelled and

their handmade products in silver and turquoise are their proudest possessions—more treasured than money.

Visitors to the First Railroad Fair will have the opportunity to view some of the famous Navajo sandpaintings. Sandpainting is a phase of a Navajo ceremony in which the seer or Medicine Man consults his gods, asking the holy ones' guidance and inspiration in healing a sick member of the tribe, and then produces the sandpainting and applies its powers to the patient. The design of the particular sandpainting used is determined by the medicine man upon the advice he receives from his gods.

Early in the morning the medicine man appears in front of the hogan of the sick tribe member, performing the prescribed ritual to drive away evil spirits. All clothing, blankets and rugs are removed from the hogan and brought into the open to make room inside for the sandpainting. Nothing must interfere. Having cleared and swept the floor, a large quantity of natural colored sand is brought in and spread three to four inches deep over a space which covers almost the entire floor.

The medicine man alone carries in his mind the design of the sandpainting. Under his direction his helpers execute the painting, taking a small amount of colored sand in their hands and feeding it out between the index and second finger, dropping a narrow or wider line wherever the medicine man directs, until the resin is completed. The belief of the Navajos does not permit the sandpainting to remain overnight. To please the gods, the painting must be finished, its power ceremoniously applied to the patient, and all semblance of the painting destroyed before sunset.

## Court Upholds School Vote

### Farwell FFA Member Is Lone Star Farmer

Duane Curtis, 18-year-old son of Mr. and Mrs. H. S. Curtis, who live a short distance southeast of Farwell, has been awarded the Lone Star Farmer award for the current year, it was revealed here today by Robert Morton, vocational director of the Farwell High School, and head of the local Future Farmers of America chapter.

This is the third Farwell lad who has been honored with this distinguished award. The other two are Albert Smith, who won the award some years ago, and Bert Williams, who was so honored in more recent years.

Curtis' award was announced by the State FFA, and was based on the outstanding work he had done during the past three years, which is based primarily on his farming programs, leadership and co-operative activities. In announcing the award, Morton said that only two percent of the FFA members in the State of Texas were eligible to receive the award each year.

Accompanied by his father and mother, Prof. Morton and his wife, Curtis will go to Lubbock on July 9th, where he will be in attendance at the area FFA banquet to be held at the Hilton Hotel, honoring the 71 boys in this area who have won the Lone Star Farmer title for the current year.

### District Court Holds Day Session Monday

District Judge C. D. Russell at Plainview, came here Monday and presided over a brief session of District Court, disposing of seven non-jury cases, two of them divorces.

In the case of Earl Richards vs. Claud Halsell et al, suit to settle title, judgement for plaintiff was rendered.

Russell A. Massey vs. Shirley Hope Massey, divorce, judgement for plaintiff.

Dewey Walker vs. Geneva Walker, divorce granted, and settlement of property division approved.

Disabilities of Clara Treider, a minor, were removed, and B. P. Abbott was appointed special guardian.

Rhea Common School District vs. Bovina Independent School District, judgement for defendant, to which plaintiff excepted and gave notice of appeal.

The case of Lurvene E. Green vs. Owen T. Loyd, has been granted a change of venue to Castro County.

### Draft Board Details Being Worked Out

While there has been no announcement made as yet, it became known here early this week that formation of a Farmer County Selective Service Board to handle the peace-time draft was quietly being worked out and would likely be ready for action when their services are required.

Three members compose a regularly constituted board, and it became known here this week that already two members had been chosen and had agreed to serve. No names were revealed, but it was stated that one man from Farwell and another from Bovina had been picked, with a Friona representative yet to be selected.

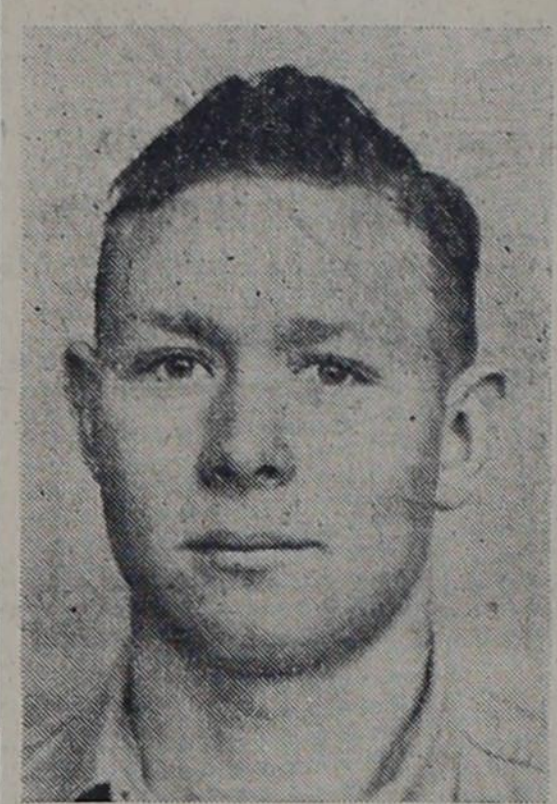

Mrs. Bessie Lee Henneman, who served as clerk of the local board during the recent draft, said today that she had not been approached to take over the duties again, but expressed her willingness to serve if offered the position.

It was generally believed that registration of young men 18 through 25 would likely get under way throughout the country in the early fall, in late September or early October.

### To Observe Fourth

The bank, both postoffices and all government agency offices here will be closed all day on Monday, July 5th, it was learned here today. No announcement was forthcoming from county officials at the courthouse at the time they were contacted.

Most of the things a fellow waits for are not worth the delay.

LONE STAR FARMER—Duane Curtis, 18-year-old Farwell lad, who has been distinguished with the Lone Star Farmer award for the year of 1948.

### Arm of Law Reaches To Alaska To Grab Young Friona Man

The long arm of the law reached all the way to pick up a young Friona man the first of the week with the arrest of Robert Donald Pierce, charged with the theft of a brand new tractor in Friona on July 16 of last year.

Officials here announced the arrest of Pierce, who was serving with the US Army in Alaska, and said that he would likely be returned here to face charges. Officers have been working on the case since the incident took place almost a year ago, and they stated this week that the solution was not an easy task. The tractor, a model H International, and the property of Red McFarland of Friona, was recovered early this year from the Gus Moore ranch at San Jon, N. M., where it was allegedly sold to Moore.

Local officers said that in their opinion, Pierce had an accomplice in the eluded theft, and the are pretty certain as to his identity, but since his apprehension has not been accomplished, his name was not revealed.

Law enforcement officers here said that the Federal Bureau of Investigation had cooperated in the arrest of Pierce.

### FISHING NO GOOD

W. H. Graham and daughter, Sammie Lee, returned home the latter part of last week from Hot Springs, where they spent a week with Mrs. Graham, who is there for a course of the hot baths. Graham said that he put in two days fishing while away and reported fishing as "punk." An abundance of water is being dumped into Elephant Butte Lake by the Rio Grande river, and fish are not biting, he said.

The lake, which reached an alarmingly low stage last fall, is now rising 8 to 12 inches in each 24-hour period, but is still far below its former high water levels.

DREARY OUTLOOK...This wistful youngster, born in a displaced persons camp at Salzburg, Austria, peers out from behind a fence surrounding the barracks which has been his home since he was born.

Consolidation of the Rhea Independent School District with the Bovina Independent School District has been upheld as legal in an opinion handed down by District Judge C. D. Russell Monday when the matter was reviewed in the Farmer County District Court.

In his opinion, Judge Russell held that the election consolidating the two districts was legal and that the will of the voters expressed in the election should be carried out.

James W. Witherspoon, former district judge, represented the Bovina District, while the Rhea District was represented by the law firm of Bradley, Kimmell & Key, of Lubbock, who immediately filed notice of appeal to the Court of Civil Appeals at Amarillo.

Court attaches here said that the Court of Civil Appeals had agreed to move the case up on the calendar, but it would probably be "four or five months" before a decision would be handed down. School officials immediately pointed out that this would mean no definite settlement of the case before the opening of school this fall.

In a special election, held on May 8, the voters of the Rhea School District voted to consolidate with the Bovina District by a narrow margin of 36-34. A suit to contest the results of the election was filed in District Court a few days after election results were announced.

Coinciding with the Bovina-Rhea vote, was an election to determine if the Oklahoma Lane School District should be merged with the Bovina District. His consolidation move failed when the voters of Oklahoma Lane rejected the proposal by a vote of 123 to 60. In both elections, however, the voters of Bovina gave unanimous approval of the mergers.

### Hail Rips Through West Camp Section

Some of the best crops in this section, located in the irrigated district of the West Camp community, southeast of this city, were ripped by a damaging hail storm last Friday afternoon.

All crops were damaged by the ice pellets, which were small but numerous, but the cotton is reported to have suffered most, with the feed crops being given a chance to recover. Cotton crops, that were up to a promising growth, are reported to have been definitely ruined. No accurate account of the ruined acreage was available here, but in one locality Johnnie, Willie and Jack Williams are reported to have lost a total of 900 acres of good cotton. Dwight Sheriff, Woodrow Couch, Rex Williamson and Austin Jones were among the other farmers to suffer heavy losses.

Reports here said that the hail strip was approximately three miles wide and stretched a distance of about five miles from northwest to southeast, first appearing just west of Lariat.

Most of the feed crops damaged by the hail may survive, reports indicate, but fields of cotton ruined by the hail will be given over to other crops, it is said.

### Brother of Local Lady Passes Away June 22

Word was received here the first of the week that Mr. Charley Montgomery of Fletcher, Oklahoma, brother of Mrs. J. C. Temple, of this city, passed away on Tuesday, June 22nd, in a hospital in Lawton, Oklahoma. He had been ill for sometime with pneumonia which proved fatal. Interment was made in the Fletcher cemetery.

### PFC. SUDDERTH IN JAPAN

With the Eighth Army in Nagai, Japan—Private First Class Lee H. Sudderth, son of Mr. Lee H. Sudderth of Farwell, Tex., is now serving with the 1st Cavalry Division, which occupies a large portion of the Tokyo-Yokohama area of central Honshu Island.

Private First Class Sudderth has been overseas since December 15, 1947. He received basic training at Ft. Lewis, Washington. Pfc. Sudderth attended school at Oklahoma Lane, Texas. His plans for the future are to be a mechanic.

Roy Spears, Texico laborer, who had been following the wheat harvest on the north plains, returned home the first of the week on account of an eye injury.

### FROM THE HOPPER

By HOP

Rush Looney, former Bovina wheat farmer, now a resident of Hot Springs, says the reason so many of his friends fail to catch as many fish as he does is that they have not invested a wheat farm in learning the art.

About the most blissful pair we saw on our recent trip to Hot Springs were two old men from Fort Sumner who had parked a large school bus under the shade trees at the edge of the lake. One was getting a fire started while the other was cleaning the small mess of fish they had taken during the day. "Didn't fish much . . . just wanted enough for supper," one of them explained and went on to add that they planned to spend three weeks at the lake. Come rain, storm or whatnot, the commodious bus furnishes plenty of protection against any kind of weather, and from all indications they never had a care in the whole world. What bliss!

What's this I hear about the Clovis Pioneers winning seven straight games without a loss? Thought they had a cinch on the cellar position, but if they don't watch out Lamesa might oust them from the position.

Governor Warren is credited with being a pretty powerful man, but I doubt if he has the strength to pull Tom (Thumb) Dewey into the White House by the forelock.

Businessmen along the main drag are going to have to keep the gutters along the street cleaned out now to prevent overflow during rains and a general cleaner appearance. No use to make improvements if we don't take pride in them.

Congratulations on the way they are responding to the suggestion offered last week with reference to observance of better traffic regulation along main street. Mrs. Frank Seale and Mrs. Andy Marcus were the only offenders we noted in our rounds on Monday. Speedsters continue to burn up the pavement along the courthouse street. Probably some child will have to offer its life before this practice will cease.

C. M. Henderson, president of the Chamber of Commerce, has suggested that there is going to be an increase in mosquitoes since the recent rains, and recommends that we keep the weeds out on adjoining as well as our own property as a measure of protecting our health. He

says that the CC has holders on suggestion of protecting the health of the citizenship for those who are interested.

### Replanting Feed Ruined By Rain and Hail

Replanting of feed crops in this locality, ruined by hail and heavy rain on the evening of June 19, was reported to be practically completed here the first of the week.

Many hundreds of acres of young crops, barely up to a good stand, were wiped out by the hail and excessive rain with farmers to the southwest of here suffering the heaviest loss. Dick Doshier, who farms some six miles southwest of Texico, estimates that six inches of rain and hail fell at his farm within a 45-minute period, with neighbors sustaining like damage to their young crops.

Most of the damage was confined to the immediate Texico-Farwell neighborhood, with other sections of the county reporting no damage. Farmers of the Oklahoma Lane community report no hail nor excessive rain damage, with crops showing good promise. In the Lazbuddy section, the rains have been generous with no damage being reported.

Bill Moss, farming up the state line north of here, says his crops is very promising, having already been knifed out twice. Other crops in his neighborhood are also favorable, he reports.

### Commissioners Hold Session On Monday

The Parmer County Commissioners Court met in regular session here Monday. Aside from transacting regular routine business matters, the minutes reveal:

The Court agreed to pay for the curb and gutter along the west side of block 50 in the town of Friona, which is county property; set the valuation of a certain tract of grass land, located in a lake bed, and belonging to G. T. Watkins, at \$3.50 per acre for taxable purposes for the year of 1948; approved the monthly expenses account of the office of Sheriff Earl Booth.

### IN HOSPITAL

Mrs. Lee Thompson of Bovina, entered the Parmer County Community Hospital at Friona last Wednesday for treatment of stomach ulcers. She was reported to be quite ill the first of the week.

Most any business man can handle a big deal, but it takes an executive to dispose of the little deals.

### Mrs. Danner Buried At Bovina Sunday P. M.

Funeral services for Mrs. G. C. Danner, age 55, were held at the First Baptist Church in Bovina Sunday afternoon, conducted by Rev. Bruce Giles, pastor, and interment took place in the Bovina Cemetery, with Steed Mortuary in charge.

Mrs. Danner died at the family home in Bovina last Friday night, after a prolonged illness.

The Danner family came to this section from Higgins in 1930, first locating in Muleshoe, later moving to Farwell, then to Bovina. In more recent years, the lived at Clovis and Portales, moving back to Bovina a few months ago, where Mr. Danner is employed as bookkeeper for the Consumers Fuel Association.

Besides her husband, Mrs. Danner is survived by seven children, all of whom were present for the funeral services. The three sons are, Damon Danner, Clovis; Curtis Danner, Portland, Ore.; Justine Danner, Arborn, Ala.; and four daughters, Mrs. C. D. Cokerhan, Hereford; Mrs. Barney Ross, Cambridge, Neb.; and Misses Patsy Ruth and Jeane Danner, both of Clovis.

Three brothers, Clarence Crossno, Kansas; Jim Crossno, Paris, Ark.; Buddie Crossno, Kermit; and one sister, Mrs. Tom Crist, Seminole, Okla.; also survive. Seven grandchildren are listed as other survivors.

### Principal and Coach Employed at Farwell

Lewis Peris, of Abernathy, has been employed by the Farwell School Board as principal and coach for the coming school term, it was announced here today by Supt. Jack Williams.

Purvis is a graduate of Howard Payne, and has had one year of coaching experience. He comes highly recommended. He will take over the duties vacated by Williams, who was elevated to the superintendency of the local school recently. Supt. Williams, recognized as one of the outstanding coaches of this section, expressed the belief that Purvis would prove a good man for the local coaching job.

**AUSTIN.**—An increase of more than 13 per cent in Texas cancer deaths during the five years between 1943 and 1947 has been announced by Dr. Geo. W. Cox, State Health Officer.

Texas mortality tables compiled by the Texas State Department of Health show 1943 cancer deaths at 5,557, as compared to 6,770 for 1947.

"The greater part of this tremendous increase in cancer deaths is attributable to needless delay in seeking treatment, once a person has reason to suspect he has a cancerous growth," Dr. Cox said. He added his belief that advertising of patent medicines and so-called cancer quacks puts dangerous and misleading information before the public, thereby adding to the cancer mortality rate. This is because people are lulled by such propaganda and do not receive proper diagnosis and treatment until too late.

Dr. Cox said that almost two-thirds of all cancer cases rely on surgery to remove the cancerous tissue, while the other third may respond to X-ray or radium treatment.

"These three methods are the only means by which the disease can be treated," he said. "Self-medication, serums, colored lights, pastes, and diets are absolutely useless."

The Health Officer pointed out that the greatest defense against cancer is an early diagnosis and competent treatment by a reputable physician. He urged especial attention to any unnatural bleeding from any body opening, lumps in the breast, and skin sores fail to heal normally.

**NOTICE OF COUNTY'S INTENTION TO RECEIVE BIDS FOR THE PURCHASE OF CERTAIN ROAD MACHINERY, AND TO ISSUE TIME WARRANTS THEREFOR**

SEALED PROPOSALS, addressed to A. D. Smith, County Judge of Parmer County, at Farwell, Texas, will be received at the office of the County Judge until 2:00 o'clock P. M., on the 10th day of July, 1948 for the purchase of the following road machinery for the maintenance and improvement of the roads in and for said County, to-wit:

**Mildew, Crepe Myrtles Worst Enemy**

COLLEGE STATION.—The No. 1 enemy of crepe myrtles is powdery mildew. It forms a white, powdery covering on the leaves, stems and flowers and stunts the leaves causing them to curl up. The entire twig may die; in fact, powdery mildew can kill even a large plant to the ground.

Sadie Hatfield, extension specialist in landscape gardening of Texas A. and M. College, says that mildew forms more often on plants in damp climates than in dry areas, and plants in shady spots are liable to the disease. It disappears in hot, dry summer weather, but may return in the fall.

The best cure for the disease, she says, is dusting sulfur—the kind that is used to dust cotton. It's also known as 325-mesh sulfur. Dust after every rain or once a week. Be careful, in watering after dusting, not to wet the leaves.

Mildew-resistant crepe myrtles can be bought, but most of the older plantings are the kind which are susceptible to the disease, Miss Hatfield points out.

Remember that only the cotton-dusting sulfur or 325-mesh sulfur will do the job, Miss Hatfield warns, as the more coarsely ground kind does not have any affect at all on the disease.

**VETERAN'S QUESTION BOX**

Q—My brother was blinded while in service during World War II. Is he entitled to anything to help him overcome his handicap?

A—A blind veteran entitled to compensation for a service-connected disability may receive, at Government expense, a guide dog and various other devices necessary to assist him overcome his handicap.

Q—If I go to a private physician to determine whether I need hospital treatment or domiciliary care, will the government pay the cost of the examination?

A—The Government will pay the cost of examinations by private physician only if Veterans Administration has given the physician prior authority for such examination.

Q—How much time do I have to complete my education under the provisions of the G-I Bill?

A—Your education, under benefits provided in the Servicemen's Readjustment Act (G-I Bill) must be completed 9 years after July 25, 1947.

Q—What is the maximum period of training a disabled veteran may receive under the provisions of the Vocational Rehabilitation Act.

A—Four years is the maximum but Veterans Administration may extend the time if factors in any case warrant an additional period for the rehabilitation of the disabled veteran.

Q. Is it correct that training officers from Veterans Administration have been relieved of all responsibility for the direct supervision of World War II vets training under the GI Bill?

A. Yes. The change will permit VA's training officers, to devote more time to the needs of disabled veterans training under the Vocational Rehabilitation Act. All state approval agencies, schools and training establishments have been asked to meet fully their obligations under the Servicemen's Readjustment Act.

Texas farmers have built enough terraces during the past eleven years to reach eight times around the world.

## True Stories of West Texans

(By N. H. KINCAID)

### GUARDIANS OF THE FRONTIER

Standing at the north of Gyp creek in Kent County was an old China tree, marked with a peculiar defacement. One of its branches had been torn off in such a way that the stump was a sharp-pointed prong. And it was this prong that helped write a story of the early West; a story whose origin was 150 miles away on Sand creek in western Brown county, just east of the Santa Anna mountain. It was a story of the Bill Williams family, and of Big Foot and his Kiowa braves.

The incident occurred in 1873, just 75 years ago this coming December. Little 12 year old Nina Williams had gone with her mother to the cow lot to do the milking. "Let's take the baby with us, Nina," the mother had said. "He is such an active little fellow he might pull the covers over his face and smother, if left alone."

As Mother was choosing the site to place the baby so that she could watch him as she milked, Nina scurried about for wood and chips for a small fire. The two men folks of the family had left home quite early in

order to cut rails down on Jim Ned creek.

Nina held the baby while Mother built the fire. "Just look at Susie, bawling and squawling for his mother," Nina told the sleepy baby as she pointed out the eager little calf. As Mother placed the baby on the blanket, Nina opened the gate for the waiting cow. Quickly finishing her chores, she then straightened the baby's cover and added the remaining chips to the fire. "Mother, I'll go get some more wood," she called as she clambered happily over the lot fence.

But Nina wandered farther than she had planned and didn't return immediately. A few bright colored leaves down in the draw had caught her attention and she knew that Mother would enjoy their gaiety. "Mother does so like pretty things, and she has such a few of them," she told herself as she hurried back towards the cow lot, her arms loaded.

But midway she paused, startled, and listened. There was no doubt about it; that was the baby, and he was screaming as though in pain. Breaking into a run she soon round-

ed a corner of the small stockade-type shed and stopped, horrified.

There before her, just mounting their horses for departure, was a small group of Indians. But yonder, through the rails of the cow lot, Nina glimpsed her mother. Her body, slumped forward, was studded with arrows. Nearby lay the baby in a naked, mangled heap.

It was Nina's scream that drew the Indians' attention to her. Stooping, one swooped her onto the horse with him as he hurried to join the others; and Nina's load of sticks and pretty clusters of leaves dropped to the ground, unnoticed.

Throughout the morning they lay there. To her brother, returning home about noon, they were another link in the horrible chain of tragedy and served as a mute clue to her disappearance. The alarm was sounded and a hastily formed posse took up the trail of the Indians. It led north-westward into Kent county, and finally was so close that the Indians became desperate.

When the posse found her body it was swinging, impaled to the China tree, with the prong protruding from the neck. Tenderly they laid her to rest near the young tree, and the lonely little grave became the concern of those pioneer settlers around present Clairemont.

"We, the Jay boys, built a brush fence around the grave in 1884 and looked after it for years," recalled Joe Jay, present Abilene real estate man and a founder of Jayton. "But it was that gnarled old China tree, standing there like a sentinel with its peculiar saber-like prong that came to be symbolized as its real guardian."

(Joe Jay recalls that it was a China rather than a cottonwood tree, as the Brownwood News records it. The girl's given name of "Nina" is fictitious).

### Sanderson Reminds Some Of SS Benefits

Newspaper clippings are often the keys that unlock the door to social security payments for young widows and their children, according to J. R. Sanderson, manager of the Amarillo office of the Social Security Administration.

Few days pass during which the Amarillo office fails to receive one or more letters enclosing a newspaper clipping. In other instances the widow brings the clipping to the office. What she wants to know is, "Does this mean me? Can I get benefits?"

In a large number of cases the social security office is able to tell her, "It does mean you. You CAN get benefits for yourself and your children."

Sanderson said his office had long recommended that every worker tell his family about the survivors benefits in the Social Security Act, and that the family get in touch with the nearest office in case of the worker's death. There are still, however, some widows and other survivors who do not realize their rights until a newspaper item calls social security to their attention.

"Social Security," Sanderson concluded, "can do the greatest good for the greatest number of people, when everyone has a full understanding of his rights and duties under the law."

The newspapers of this area are playing a very important part in making this general public understanding possible."

FRANK SEALE EQUIPMENT CO. FARWELL, TEXAS

New machines, varying from oil-burning brooders to pecan tree shakers, have entered the agricultural picture in the past decade. Oil-powered equipment on farms and ranches today includes hay balers, corn pickers, combines, hop pickers, loaders and stone pickers, with 3,000,000 tractors providing basic power.

More than 9,000 airplanes are now used on farms and ranches, according to the Civil Aeronautic Authority. In addition, over 300 companies do such contract jobs as dusting, spraying, sowing, and fertilizing the air. In California alone, nearly 99 per cent of the rice crop is seeded from airplanes.

STEPS TO LAUNDERING LUXURY

ELECTRICALLY

First you'll want an electric washer, easy on your clothes, yet capable of turning out an entire week's wash sparkling clean. Then a dryer, a convenience any time, a blessing when bad weather holds up line drying. And then to top off your "luxury laundry" an electric ironer, so easy to operate, so efficient, and so wonderfully suited to giving your ironing that professional look.

Have all of this home equipment if you can now, or begin with the unit you think will suit your immediate requirements. Even if you're not ready now... start planning today for the day when Reddy Kilowatt will do your laundry work... economically and electrically.

**Quality of Eggs Affected By Environment**

**COLLEGE STATION.**—The quality of eggs is affected by their environment. In the case of eggs, that "environment" means the way eggs are handled from the time they are laid until the housewife serves them at the table.

Heat, says F. Z. Beanblossom, extension poultry marketing specialist of Texas A. and M. College, is the greatest enemy of high quality in eggs. Eggs should be gathered several times a day and the animal heat reduced as soon as possible. All eggs should be held below 68 degrees F.; higher temperatures break down the egg rapidly.

As a matter of fact, says Beanblossom, quality may be lower in eggs after three days of improper

handling than in eggs which have been properly stored for as long as six months.

Quality egg rules for the flock owner include: Keep hens in the laying house until late afternoon on rainy days; put ample clean nesting material in the nests; remove broody hens from nests; remove male birds from flock; cover dropping pit with wire; gather eggs three to five time a day; cool eggs promptly after gathering and store them in a cool place.

For business firms: Handle eggs carefully; store eggs in good cases with clean flats and fillers; keep eggs at proper refrigeration and away from strong odors.

For the housewife: Keep eggs in clean containers, under refrigeration in the hot summer months and away from other foods which have strong odors.

**Bovina Eastern Star Entertains Grand Officers**

It was a gala occasion when Hereford Chapter 312, and Plainview Chapter 37, were co-hostesses with Bovina Chapter 839, Order of Eastern Star and entertained Mrs. Cheba Dewees, Worthy Grand Matron and Mr. Pat Boone, Worthy Grand Patron, Order of Eastern Star of Texas; with a lovely covered dish dinner in the dining room of the Bovina Lodge Hall.

This was the first time that a Worthy Grand Matron and Worthy Grand Patron had visited Bovina Chapter and more than a hundred visitors and members registered.

Brother Pat Boone gave the Prayer of Blessing after which he and Sister Cheba Dewees led the lines down the long table filled with delicious food.

Immediately following dinner, Chapter opened in regular form. The following Grand officers were presented and welcomed Mrs. Cheba Dewees Worthy Grand Matron, Fort Worth, Texas; Mr. Pat Boone, Worthy Grand Patron, Littlefield, Texas both of the Grand Chapter, Order of the Eastern Star of Texas. Mrs. Flora Best Boone, Grand Warder, Littlefield, Texas, Mrs. Pauline Baker, Grand Examiner, District 2, Amarillo, Texas, Mrs. Gladys Dalmont, District Deputy Grand Matron, Big Springs, Texas, Mrs. Bertha Thomas, Deputy Grand Matron, Lubbock, Texas and Mrs. Ara Mae Jennings, Deputy Grand Matron, Plainview, Texas, all of the Order of the Eastern Star of Texas.

Immediately following the introduction of the Worthy Matron and Worthy Grand Patron, Miss Willie Ellen Williams sang "Now is The Hour", the favorite song of Sister Cheba Dewees.

Bovina Officers presiding were Wynnie Dunn, Worthy Matron, J. C. Denney, Worthy Patron, Opal Buchanan, Associate Matron, A. J. Ellison, Associate Patron, Lillie Fuller, Secretary, Lorena Brock, Treasurer (pro-tem for Nettie Rhinehart), Lura Ruedell, Conductress, Katie Ellison, Associate Conductress, Mae Bonds, Chaplain, Vera Bannum, Marshal, Mary Looney, Organist, Lenora McDermitt, Adah, Flora Edwards, Ruth, Gertrude Potts, Esther, Otie Ellison, Martha, Ella Dell Lewis, Electa, Margaret Charles, Warder, and Woodie McDermitt, Sentinel (Pro-tem for Troy Fuller).

Officers, members and visitors took part in a short, obligation ceremony presented by the Bovina Officers and led by J. C. Denney, Worthy Patron. A lovely vocal number was given by ladies from the Hereford Chapter to close the ceremony.

The visitors and members were made more fully aware of the loveliness and graciousness of Sister Cheba Dewees, Worthy Grand Matron, as she stood before them and explained some of the duties and privileges of a Worthy Grand Matron.

Short talks were made by Brother Pat Boone, Worthy Grand Patron, and the other Grand Officers.

Flowers and gifts were presented the distinguished guests by the Worthy Matrons from Hereford and Plainview, assisted by Mrs. Mae Porter.

Hostesses were Lorena Brock, Bessie Denney, and Margaret Charles.

**VETERAN'S NEWS**

The Veterans Administration has inaugurated a comprehensive follow-up program designed to enhance and prolong the effects of hospital treatment among the thousands of veterans suffering from tuberculosis.

More than 13,000 veterans suffering from tuberculosis now are under the care of VA. A total of 80,763 veterans are receiving compensation or pensions for tuberculosis.

Cooperating in the program are all of VA's 126 hospitals and 70 regional offices.

VA's follow-up program is designed to discover relapses among tuberculosis sufferers early so that further treatment may be instituted promptly.

It further is designed to help prevent advanced diseases and thus contribute toward the safeguarding of others through the control of communicable tuberculosis.

Seventy national and state organizations now are authorized to present and prosecute claims against the Veterans Administration in behalf of veterans and their dependants.

They have been recognized by the Administrator of Veterans Affairs under section 200, Public Law 844, 74th Congress. Under the law, organizations' representatives may not charge for services rendered.

VA generally may recognize only state or governmental services, or organizations granted a charter or recognition by an act of Congress.

## McGuire-Dosher Vows Read June 22nd

In an impressive doubling ceremony held at 12 o'clock on Thursday morning, June 24th, Miss Joyce Dosher, daughter of Mr. and Mrs. Frank Dosher, became the bride of Jimmy McGuire, son of Mr. and Mrs. E. W. McGuire, both of the Oklahoma Lane Community.

The ceremony was performed in the First Baptist church in Clovis, with the pastor, Rev. B. P. Maddox, officiating.

The bride was lovely in a white crepe street-length dress with matching accessories and a corsage of red rose buds.

Matron-of-Honor, Mrs. Condy Billington was dressed in a blue crepe street-length dress with black accessories and a corsage of pink rose buds.

Condy Billington served as best man.

Others present at the ceremony were Mrs. Frank Dosher and Mrs. E. W. McGuire.

The couple left immediately after the ceremony for Albuquerque and other points for a short honeymoon, after which they will be at home east of Farwell, where Mr. McGuire will be engaged in farming.

Mrs. McGuire graduated from the Oklahoma Lane high school this year and Mr. McGuire graduated in the class of 1939 from Oklahoma Lane, and from Port Arthur Radio College in 1941.

## SEW AND CHATTER CLUB MET

Mrs. Joe Wilson was hostess to the Sew and Chatter Club Thursday afternoon. The social hour was spent doing needle work, after which refreshments were served to the following: Mesdames, Lucille Walling, Robert Callaway, Alma Vassey, Maurice Means, Odie White, Tom Griffith, Paul Jones, Emmitt Tabor, Norma Lee Plumer, George Trimble, members. Guests included Misses Louise Moody and Nancy Lou Williams. The club will meet next Thursday with Mrs. Robert Callaway.

## TRIBUTES FOR MRS. G. C. DANNER

Final tribute was paid Sunday afternoon at the First Baptist Church at Bovina to Mrs. G. C. Danner, long-time resident of Parmer County, who passed away at her home in Bovina, June 25th, at 10:58 p. m. Rev. Bruce Giles, pastor, was in charge of the services, delivering the address to a congregation overflowing the church. Mrs. E. T. Caldwell was at the piano and Dean Mell of Clovis sang the two numbers requested by Mrs. Danner. Mrs. Danner was born in Logan County, Ark., Sept. 1st, 1892, and was married to G. C. Danner Oct. 3rd, 1910 at Paris, Ark. To this union were born seven children. Survivors are her husband, G. C. Danner, sons J. D. Clovis, N. M.; Curtis, Portland, Oregon; Justin, Auburn, Alabama; daughters—Mrs. Carroll Cockerham, Hereford, Tex.; Mrs. Barney Ross, Cambridge, Neb.; Miss Patsy Ruth Danner, Clovis, N. M.; and Miss Jean Danner of Bovina. Brothers—Clarence Crosso, Chase, Kans.; James Crosso, Kermit, Tex.; Buddy Crosso, Indianola, Okla.; a sister, Mrs. Tom Crist, Seminole, Okla.; seven grand children and a host of friends and near relatives. She was converted at the age of 17 years and united with the Baptist church at Indianola, Oklahoma. Paul Bearers were Jack Woltman, Bovina, Geo. F. Trimble, Bovina, John Stagner and Lowell Stagner, Clovis; Mr. Comer, Clovis; and Hillary Tidenberg of Bovina.

## ROSA LEE DENNEY HONORED

Friday afternoon at 3 p. m. in the home of Mrs. Frank Hastings, Miss Rosa Lee Denney was honored with a bridal shower. Gifts were displayed throughout the house, placed according to the rooms in which they would be used. A lovely bride's book of white satin which was made by Miss Lucille Akers, registered 65 guests. At the dining table, which was covered with a lovely lace tablecloth and a centerpiece of sweet peas, Miss Louise Moody presided at the punch bowl. Many useful and lovely gifts were presented to Miss Denney and numerous gifts were sent to the shower by friends who were unable to attend. Hostesses were Mesdames, E. H. Moody, Charles Jefferson, Alma Vassey, E. T. Caldwell, G. F. Trimble, C. A. Ross and Mrs. Frank Hastings. ## CROP LAND MECHANIZED

More than 80 per cent of America's crop land is now plowed with tractors, according to the U. S. Department of Agriculture. Tractors operate more than 100 different types of farm implements, the Department says. In the small-grain class, such as wheat, rye, barley and oats, 80 per cent of the harvesting is also tractor-powered.

**FARM PRODUCTIVITY UP**

Farm productivity has been increased 40 per cent above any previous peak, the Department of Agriculture records show, despite the fact that a million workers have left farms and ranches since 1935. This increase has been obtained, it was pointed out, through use of oil-powered farm equipment.

Wages to farm workers have tripled since 1940. An all-time high was set in 1947.

**IF WE COULD GO TO  
SUNDAY SCHOOL**

FROM this corner it looks like sadness personified . . . a couple of broken hearted pooches, strained to the point of melancholy as little Willie and Kathleen leave them behind and go on their way to Sunday school. With a mind and understanding next to that of a human being these kind hearted little dogs seem to know well that their third and fourth legs render them unwelcome at Sunday school. Here they impatiently await the return of their little masters. The parents of little Willie and Kathleen didn't even go with them. Like many parents of today they sent them alone to Sunday school not even worrying about their safety or return.

IT is becoming more apparent every day that the phrase "Juvenile Delinquency," is being over worked, misused and misapplied. This Delinquent business has a very definite beginning. More often it begins with the parents. They are the ones who fail miserably in the performance of duty. Your children need your presence, your companionship . . . they need you to TAKE them to Sunday school and church--NOT SEND THEM. The very least you can do is to care as much for your youngsters as their little dogs do. The pooches would gladly go if they Could. Why not decide now to swell the attendance of your church Sunday by taking your entire family.

**YOU IN THE CHURCH  
THE CHURCH IN YOU**

Character is a by-product of the church. It is here that young and old alike are showered with benedictions that fortify and influence for a better citizenship and a stronger democracy. In the church the ministerial are molding religious character. State-men today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. Then we with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you"—form a combination for good.

Roy Camp, Secretary

The 1948 Grain Sorghum loan rate has been set at \$2.27 or Farmer County. Eligible grain sorghums will be grain sorghums produced in 1948 and grading No. 4 or better in accordance with Official Grain Standards and do not grade discolored, weevily, or smutty. Loans may either be made on farm-stored or Warehouse-stored grain. When stored in a warehouse, the grain sorghums must not contain in excess of 14 percent moisture. When stored on the farm, the grain sorghums must not contain in excess of 13 percent moisture and must have been stored in the granary at least 30 days prior to inspection for loan.

out much of the Southwest, with a wide range of from 9.25 to 17.5 percent protein being reported on wheat harvested thus far, said Dines, who has charge of the large demonstration farm near Amarillo, conducted by Tex-O-Kan Flour Mills Company, parent company of Burrus Feed Mills.

"A vastly improved wheat variety situation is evident in Texas this season," continued Dines, "with most of the heavy poor quality wheat variety producing areas showing a good reduction of poor types and an increase in good quality varieties. Good quality seed demand is very heavy already and prospects are good for the production of high quality wheat throughout Texas next season."

He states that most of the wheat in Southwest Oklahoma and North Texas west of the Cross Timbers north of Fort Worth is proving to be a good yield of heavy test weight wheat, with reports showing larger yields than the farmers had looked for. Above average rain the latter part of May was of great benefit.

Nebraska and Colorado wheat has suffered, to varying degrees, due to dry weather. Kansas wheat prospects have taken a turn for the better with most of the major wheat producing areas having received rain in time to fill the wheat heads. United

States Department of Agriculture estimates are: Nebraska, 65,620,000 bushels; Colorado, 47,424,000; Kansas, 160,004,000; Oklahoma, 81,492,000 bushels; Texas, 55,278,000.

"Careful selection of wheat plus our practice of binning wheat on a

variety basis will insure good stocks of wheat for our company's mill-mixes this year," Dines declared.

### Texas Harvesting More Wheat Than Expected

Many bushels were added to the Panhandle wheat crop by above average rains during the week of May 24th and a Texas yield of from 55 to 60 million bushels is "pretty well assured at present", declared Frederic T. Dines of Amarillo, well-known authority on grain, today.

As wheat goes to market, it is found that protein is averaging higher than last year's crop through-
