

Graduation Programs Highlight School Activities During Week

Farwell Seniors Hear Minister Lewis C. Cox

Minister Lewis C. Cox, pastor of the local Church of Christ, spoke Sunday morning to the assembled seniors of the Farwell school, and their friends and relatives, when baccalaureate services for the eleven graduates were held in the school auditorium.

Opening his address, the minister remarked, "I had this class particularly in mind when I developed this lesson," and added, "I hope to be able to direct you in the matter of spiritual thought, as set forth by Paul's letter to the church at Philippi."

Taking as his subject, "Think on These Things", Minister Cox stressed the 8th verse of the 4th chapter of Philippians, "Finally brethren, whatsoever things are true, whatsoever things are honest, whatsoever things are just, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report, if there be any virtue, and if there be any praise, think on these things."

"There is still truth in the old adage, 'Look before you leap, and think before you speak,'" he said, explaining that "think" means "to take account of".

Developing his first thought, Minister Cox said, "Truth seems to have been lost out in the world today," but pointed out that the word of Jesus is truth, and said further, "It is still true that truth, crushed to earth, shall rise again. It is going to have its place in the world again, and I would ask you to think on truth."

Secondly, "whatsoever things are honest . . . whatsoever becomes you as a citizen." Questioning "Why honesty?" the speaker pointed out, "Honesty is still the best policy . . . if we want honesty of the other man then we must be honest", and added, "the Bible teaches the necessity of honesty."

Both justice and mercy were combined in the third phase of the address, with the minister stating "they are closely related". Paul is quoted as saying "Be not deceived, God is not mocked", Minister Cox pointed out, an went on to say, "You are going to need both mercy and justice in your life to come."

"The laws of the land," the speaker said, "today insist that our food, drugs and water must be pure . . . and the laws of God also demand purity. There is no double standard of morals for boys and girls, each must be pure. Paul warned 'Keep thyself pure', and a word from the wise comes from Proverbs, 'As a man thinks, so is he,'" Cox stated. "Our acts are going to be measured by what we think, so I would remind you to think on 'whatsoever is pure'."

Turning to "whatsoever things are lovely", Minister Cox said, "If we would be loved, we must be lovely—lovable. We all hope to be remembered, but if we are to be remembered, we must be lovable. Love," he concluded, "is the fulfillment of the law."

"Your deportment in life will determine your happiness . . . We cannot isolate ourselves . . . if we want to be happy, we must bring happiness to others. Your deportment determines your attitude. Your service to others, to your government, your state and your church, is the determining factor if you would be great in the kingdom of God."

In conclusion, Minister Cox offered the well-known promise, "And the God of Peace shall be with you." He suggested "as you go, remember your duty to God, think, act and work on these things . . . and when you come to the end of life, you may be able to say, 'I have fought a good fight'."

Opening the morning program, the seniors entered to the strains of the processional, with Mrs. C. M. Henderson at the piano. The invocation was given by Rev. Harvey E. Carrell, of the Methodist church, and Mrs. O. T. Loyd sang "Hold Thou My Hand", with Mrs. Henderson accompanying. Supt. O. T. Loyd introduced the speaker, and the benediction was pronounced by Rev. W. F. Markham. Mrs. Henderson was again at the piano for the recessional.

Rev. Harvey Carrell and children visited the past Thursday in Plainview.

Mrs. Clyde Magness and daughter, Phyllis, have gone to Dallas for a visit with relatives.

Texico Graduates Hear Dr. C. B. Wivel

Commencement exercises for nine 1948 graduates of the Texico high school were held before a large audience, the past Thursday evening, when patrons of the school assembled in the auditorium to hear Dr. C. B. Wivel, of Eastern New Mexico College, address the seniors.

Dr. Wivel dealt particularly with a new version of "The Three R's", making his "R's" stand for "race, rights, and religion".

Pointing out that a large part of the world crises today is caused by race prejudice, Dr. Wivel admonished the seniors to be tolerant in their attitudes, and then went on to emphasize his point of tolerance by remarking that religion was greatly hampered by the intolerance of one sect toward another.

In dealing with "rights", the speaker cautioned the seniors not to be over-zealous in stressing their own rights, lest they infringe on the rights of others.

Mrs. W. W. Vinyard started the evening program by playing the processional march for the graduates, with Rev. Harvey E. Carrell, local Methodist minister, offering the invocation.

Polly Ann Tapp delivered the salutatory address, with Aileen May giving the valedictory. Special music was provided by the school chorus, directed by Mrs. Gladys Prescott, with the group singing "The World Is Waiting for the Sunrise", and "Now Is the Hour", was sung by the members of the graduating class.

Diplomas were presented to the seniors by C. C. Curry, president of the school board of education, and the presentation of special awards, including scholarships, was made by Supt. B. A. Rogers. Rev. W. F. Markham offered the benediction, and the class marched out to the recessional by Mrs. Vinyard.

Graduates this year were Polly Tapp, Aileen May, Mary Harding, Peggy and Jean Rogers, Malvin Curry, Gerald Baldock, Phyllis Mendoza and Margie Baker.

"The Abundant Life," Theme to Friona Class

Basing his talk on the words of Jesus as recorded in the 10th chapter of St. John, "I am come that they might have life, and that they might have it more abundantly," Rev. T. B. Allen, pastor of the Baptist church in Friona, addressed the Friona high school graduates Sunday evening, when baccalaureate services were held at the school.

Of the text, Rev. Allen chose the words "abundant life" as the principal theme of his address. "The abundant life," he stressed, "is the result of the gospel, and through the ages the church has served as the oasis, spreading its message of Christ over the world."

Answering the question, "How necessary is Christ?" the minister challenged "What would life be if Christ had never come to the earth? How would you like a heathen world?" In emphasizing his point, Rev. Allen typified a heathen world as "without world." "Without purpose, without a day of rest; without a God, therefore without peace, without ideals, without purity, and finally, death without hope."

"I say to you, that you are unprepared to live until you have taken Jesus," he admonished the seniors. "Christ is sufficient in death, and real in both life and death. He is genuine, and without him you are not ready to live, much less die."

Turning to the confines of life, Rev. Allen asked, "What circumscribes life?" and answered, "Sin . . . it kills the finest and noblest. Life does not begin, as some say, at 40; life begins at the foot of the Cross."

Stressing the fact that life is genuine, the minister said, "You may have position, fame, popularity and wealth, but if without character you will find it to be false."

Then he said "the abundant life is one of unselfishness. . . You cannot build on a foundation of selfishness," he said, using for example the Dead Sea, which receives and gives not, and the live Sea of Galilee, which receives and gives abundantly.

"Furthermore, you need righteousness for the abundant life . . . with your own power you cannot hear."

Former Pastor Speaks at Farwell Exercises

Underlining his speech with the repeated remark that "education without the Bible is nothing", Rev. R. L. Butler, former Methodist pastor who now resides at Merkel, Tex., addressed the eleven capped and gowned Farwell seniors, Monday evening, when commencement exercises were held in the auditorium of the local school.

Rev. Butler opened his address by saying, "My business is preaching . . . I don't know how to make a commencement address unless it is a sermon . . . and the only difference tonight will be that I won't announce a text."

Pointing out that laws have been passed which prohibit teaching the Bible in public schools, the speaker admonished the seniors to make sure they knew their Bibles. "Education consists of travel . . . experience . . . practical knowledge . . . and reading, and I want to remind you that no man can be intellectually at home with the great writings of the world unless he is acquainted with the Bible."

A knowledge of the Bible, he continued, is "indispensable to comprehension of great literature . . . necessary to properly understand the vital sources of heroic deeds and noble lives . . . necessary to understand the genius of America." Here he paused to remark, "I am uneasy about my America . . . her future hangs in the balance. If American democracy can't prove workable, it is gone! Democracy was born of the Bible, and to prove it has something better for mankind we must put theory into practice."

The Bible, Rev. Butler pointed out, was the only book the Puritans had. "We cannot ignore its teachings and still perpetuate greatness . . . our future rests on the Bible foundations of human personalities, equal rights and brotherhood service."

In conclusion, he pointed out the basic American foundations, all laid on the Bible. "America has had its Genesis, the Mayflower compact; its Exodus, the freedom from British domination in the Declaration of Independence; its Book of Laws, the constitution, which stands between us and ruin; its major prophecies, Washington's farewell address; its gospel, Lincoln's second inaugural address; its epistle, Wilson's plea for a Christian conception of justice; and its song, the Star Spangled Banner, which pays homage to a higher power."

Rev. Butler then followed a practice of years in presenting each of the graduates with a New Testament.

Diplomas were handed to the graduates by Claude Rose, president of the local school board.

Special Awards Made

Supt. O. T. Loyd then took over the stage to announce the special awards, a feature of the yearly graduation, with the first presentation being the all-round student cup. After remarking that "Sonny Graham, Harry Sheets and Bobby Hart were considered for the honor," Supt. Loyd called Bobby Hart to the stage to receive the cup, in addition to a \$25 war bond from Roberts Seed Co.

A scholarship which will be honored by any state supported school was presented to Jo Ann Williams, as valedictorian; and one to ENMC, Portales, went to Charles Felts, salutatorian. A special scholarship went to Sonny Graham, for attendance to a short story writing course in Amarillo. Medals for valedictorian and salutatorian were also given.

Rosamond Booth, junior; Hazel Petree, sophomore; and Jerry Pool, freshman, were recognized as scholastic class leaders, and medals were presented to "A" students in the following subjects: typing, Sonny Graham; homemaking, Maxine Ford; vocational agriculture, Duane Curtis; history, Jo Ann Williams; math, Valerie Dial; English, Ernest Lokey.

Rev. W. F. Markham offered the invocation; the seniors sang their class song; Charles Felts gave the salutatory; Jo Ann Williams the valedictory; Jack Williams introduced Rev. Butler; and Rev. Harvey E. Carrell pronounced the benediction, with Mrs. C. M. Henderson at the piano.

The graduates were Willie Joe Carpenter, Charles Felts, Maxine Ford, W. H. Graham, Jr., Bobby Hart, Talma Randol, Junior Robertson, Harry Sheets, Velma Threet, Leonad Watkins and Jo Ann Williams.

Consolidation Vote June 5

Texico School Bond Issue Gets Approval

By a majority of twelve-to-one, the voters of the Texico school district gave their approval of a \$41,000 bond issue in a special election held Wednesday of last week. The vote was 106 for the bonds, and 9 against.

Money derived from the sale of the bonds will be used primarily for the construction of a new school gymnasium and making improvements on the present school property. Supt. B. A. Rogers said today that transcripts of the election and all proceedings would have to be approved by the Attorney General before the bonds could actually be offered for sale, and that the New Mexico law requires that such bonds must be sold before July 1st, or they will be carried over another year before they can again be offered for sale.

School officials have been pondering the question as to the sufficiency of money to meet the needs of the building program, but at the same time, explained that the bond issue was the maximum that could be voted at present. "We may have to put up the walls and roof of the new building and then take steps to raise some more money," one school official reported.

Hope For Wheat Yield Fades In This Area

With the exception of a few irrigated patches, and wheat sown on summer tilled land, hopes for a wheat crop in Parmer County virtually "went by the boards" the past week when badly-needed rain failed to materialize.

"Most fields of the county, sown to wheat last fall, have either been plowed under or turned over to livestock grazing, during the past two weeks. An occasional summer-fallowed field still gives promise of some wheat, with the highest estimate being placed at 10-12 bushels. All such fields will be badly infested with weed growth, farmers say.

Many of the fields that have been plowed under will be planted to row crops, if moisture comes in time, while other fields will be summer tilled and put in shape for wheat sowing this fall.

Methodist Conference Opens Today, Clovis

The annual New Mexico Conference of the Methodist Church opens in Clovis today (Wednesday) with the first session scheduled for tonight. Bishop Angil W. Smith will preside over the sessions, which will come to a close on Sunday afternoon with the reading of the appointments for the next year.

Officials of the local Methodist Church have asked for the return of Rev. Harvey E. Carrell, who has served here the past 2½ years, for another year. B. N. Graham, chairman of the official board, stated today that all finances of the local church had been met in full for the current year.

ATTENDS GRAIN MEET

C. M. Henderson was in Amarillo the first of the week attending the annual meeting of the Panhandle Grain Dealers Association.

NO PAPER NEXT WEEK

On account of the acute newspaper shortage, which has forced the suspension of many newspapers during the past two years, and the more acute desire to go fishing, coupled with the inability to get a printer, The Tribune will not be issued next week.

With one member of the staff already off on the Farwell junior-senior vacation trip, the rest of the force plan to be in Hot Springs until the latter part of the month.

Bovina Approves Bond Issue Second Time

For the second time during the past few months, the voters of Bovina approved a bond issue, in a special election held in that city last Friday. The vote was 84 for, with one against.

A second election became necessary when it was discovered that a legal technical error occurred in the incorporation election held some months ago. A second incorporating election had to be held to correct the error, and likely, the bond issue had to be voted on the second time.

In the first bond election, the voters were asked to approve a \$65,000 bond issue, which they did. In the second election, however, the issue was reduced to \$25,000, and the money from the bonds will be used in installing a water system in that newly incorporated city.

During recent months city officials of Bovina have negotiated a deal with the Santa Fe Railway Company to use a good deal of its water equipment, already installed at Bovina. This equipment includes a well, water tower and some other equipment, which accounts for the reduction in the amount of the bond issue approved last Friday.

Candidates Appear At Texico School Friday

B. A. Rogers, superintendent of the Texico school, today announced that the FFA class of that school is sponsoring a candidate speaking at the school auditorium on Friday night of this week, with the program scheduled to get underway at 8:30, Texas time.

All Curry county candidates are expected to appear and Rogers said that he expected some of the state office-seekers to be on hand. It will be the first opportunity voters of the Texico precinct have had to hear the candidates in a public appearance during the present campaign.

At the conclusion of the speaking program, a pie supper will be conducted, with the proceeds going to the FFA class.

SPECIAL PICTURE

Scotty Levins, of the Border Theatre, today called attention to the special feature, "Captain Castile", with Tyrone Power, to be shown at the local theatre Sunday and Monday. The film, he said, is being shown here at the regular prices.

Following the filing of petitions with County Judge A. D. Smith, the past Wednesday afternoon, requesting an election on the proposition of consolidating the Farwell and the Oklahoma Lane school districts, an election has been ordered by Judge Smith for Saturday, June 5th.

On that date, qualified voters in the two districts concerned will go to the polls to decide the matter, with officials pointing out that a majority ballot is necessary in each box to effect the merger.

Sam Sides, of the Oklahoma Lane community, has been appointed as the presiding officer in that district.

County Clerk Loyde Brewer announced today that parties desiring to cast absentee ballots in the forthcoming consolidation election may do so at his office at any time now and up to three days prior to the election. It will be necessary to present poll tax receipts when applying for absentee ballots, he said. Voters who are not required to pay a poll tax will make affidavits of exemption at the time of casting their ballots.

While Mrs. O. B. Pipkin has been named to the post in Farwell, voters in Oklahoma Lane will go to the school to mark their ballots, while the Farwell voting box will be located in the local county court room.

It is explained that while the Farwell district is in two counties, because of recent merging with West Camp, all legally qualified voters of the school district, whether they reside in Parmer or Bailey counties, can participate in the balloting.

Should the merger be approved, the law requires that the new district be known as a "Consolidated Independent School District", and the name would not necessarily be that of any of the three original districts.

Oklahoma Lane faces some sort of consolidation move before fall, since scholastics there fell below the number required by the state board of education to maintain a high school. A recent move to merge with Bovina was defeated in the Oklahoma Lane box.

Moderate To Heavy Showers Fall Here

Most of Parmer County was visited with showers varying from light to moderately heavy last Sunday afternoon and night, the heaviest fall being reported in a small section of the Oklahoma Lane community.

Reports from over the county indicate that, for the most part, the showers were light. Friona and Bovina report a quarter to a half inch, and an even less amount fell in Texico-Farwell and the Rhea community. "Pancho" Billingsley, living on the Ed Mcuire farm north of the Oklahoma Lane school house, said that the rain there amounted to one and a quarter inches, but the rainfall covered a very limited area.

The rain is not considered of sufficient amount to justify planting operations except in the more favored areas. Farmers are beginning to become concerned over the continued dry weather, and are hoping for more moisture between now and the first of June.

Ray Ford of this city, George Houser of Larat, and Roy Ford of Broadview, returned home the first of the week from a fishing trip to Hot Springs. They brought in 22 channel catfish that averaged three pounds or better, taken on trot lines.

STREET PAVING TO START

Tentative plans, as announced by Henry Clements, foreman for the State Highway Department for this section, on Tuesday, are for the curb-to-curb paving in Farwell to get underway next week.

Although officials declined to say positively that the work would start next week, machinery is already being unloaded in Farwell, preparatory to running a black-top surface into the gutters along Main Street. The preliminary work, that of installing curbs and gutters down the length of the street, was completed some days ago by Felix Monroe, local contractor.

Main Street curb-to-curb paving will run from Seventh Street, across the highway from Henderson Grain, past the Security State Bank to the

Santa Fe tracks, the end of the road in Texas.

It is also believed that the work of paving Third Street, more commonly known as the courthouse street, will be done while highway men and machines are in Farwell. This strip of paving would extend from the intersection of the street with Main six blocks south to an intersection with the cross street at the J. D. Thomas corner in Farwell, with a paved loop also being put around the courthouse.

This last piece of work is being financed by local citizens, with the county acting as intermediary between the city and the highway department. Main Street paving is put in by the highway department at no cost, after curbs and gutters are installed and paid for locally.

FARWELL CLASSES TAKE OFF ON WEEK'S TRIP

Leaving here Tuesday morning, the junior and senior classes of the Farwell school, with their sponsors, started their annual spring trip. Some 24 students and adults are in the group.

First stop on Tuesday was Carlsbad, where they spent the night, making the trip through the Caverns today (Wednesday). This afternoon they continue to El Paso, to make a planned tour of the city and its neighbor, Juarez, Old Mexico. One of the homeward trek the classes will stop at White Sands, near Alamogordo, and will spend the weekend at Ruidoso, coming home next Monday.

Health Notes
By Texas Department of Health

AUSTIN—Dr. Geo. W. Cox, State Health officer, has issued the following statements and suggestions concerning the control and prevention of poliomyelitis which is now occurring in some sections of the State.

Strict sanitary measures should be observed in all communities. Eliminate rats, mosquitoes, and houseflies, and destroy their breeding places.

Every effort should be made to secure approved garbage collection systems and safe water supplies. Where adequate municipal sewage disposal systems are not in operation, it is vitally important to maintain sanitary septic tanks and outdoor privies.

All swimming pools should maintain standards approved by the State Department of Health, which includes maintenance of proper chlorine level.

Only approved milk should be used, and raw foods and vegetables should be washed thoroughly before use, and protected from flies, filth, and insects. All foodhandling establishments should adhere strictly to the State Law concerning the sterilization of dishes and utensils. Those restaurants with insufficient personnel to maintain approved sanitation should close one or two hours a day so that employees can assist in maintaining cleanliness.

Over-exertion in children should be avoided, and they should not visit in homes where there is illness. It is advisable to reduce to a minimum all human contacts, especially in children during an outbreak of this disease. It is not advocated that schools, churches, and theaters be closed.

Early symptoms of infantile paralysis are headache, fever, vomiting,

TO KRAFT FOODS

LUBBOCK—Woodrow Turner and James Howell, seniors in dairy manufactures at Texas Technological College scheduled to graduate in June, have accepted positions with Kraft Foods at Denison following their graduation.

Turner has been employed as foreman of the bulk cheese department at the plant, and Howell is to be night superintendent.

Three other Texas Tech graduates, Floyd Boone, 1938, Hershel Lamb, 1947, and Bill Beshears, January, 1948, are employed currently at the Denison plant.

Examine Greenery and Bag the Bag Worm

COLLEGE STATION—During the month of May arborvitae, Italian cypress, and similar plants should be examined every few days for cedar bag worms. When the bag worms are young, they are so small and so well covered that they are hard to see. Camouflaging is a fine art these little worms practice right along.

They spin a cone-shaped, waterproof silk protector, and cover it with bits of bark and leaves, says Sadie Hatfield, extension landscape gardening specialist of Texas A. & M. College. As they grow larger, they add to their tent-like home. They never leave it, only sticking their heads outside to feed on the tender tips of the plants.

The cone-shaped cover grows with the insects, and may be as large as

three or more inches by August. Don't let them get that big. If sprayed once a week with lead arsenate, they can be killed before they destroy or seriously damage a plant.

Mix three tablespoonsful of lead arsenate in one gallon of water, and spray once a week and after every rain, because the rain will wash the poison off.

If you let the trees go until the worms are full grown, says Miss Hatfield, many of them can be pulled off by hand and burned. But that's more tedious, and it's easier to kill them with the spray when they are young before they can do any injury to the plants.

A good broiler mash is just as good as starter mash for starting young chicks, and often less expensive. Also plan now for plenty of green feed for growing pullets in the spring.

RECEIVES DEGREE

AUSTIN—Following a precedent set by two half-brothers, Fernando Peres-Najul of Oriente, Cuba, will receive his Bachelor of Science in Pharmacy Degree at the University of Texas next August.

Jose and Felix de los Santos were graduated in 1935 and 1940, respectively. Both are now engaged in chemical-pharmaceutical work. After graduation Fernando plans to

work for an American pharmaceutical manufacturing firm in one of the Latin American countries.

VETERAN'S QUESTION BOX

Q. I am a World War II veteran and have been totally disabled for a few months. At the end of my sixth month of total disability, will I have to continue paying my National Service Life Insurance premiums or is a waiver granted automatically?

A. No automatic waiver of premiums is ever granted. A vet must be totally disabled for six months before he may apply for a waiver of premiums. You are entitled to file a claim for refund of those premiums you paid from the date on which the waiver became effective.

Q. Who is entitled to the compensation or pension check received prior to the death of a veteran?

A. The check or checks received prior to the veteran's death become a part of his estate.

Q. I am a World War I veteran and would like to know if I can get a guaranteed loan under the provisions of the GI Bill?

A. No. Benefits of the GI Bill are for World War II veterans only.

Q. What is the largest amount I can borrow under the provisions of the GI Bill and still have the loan guaranteed?

A. There is no limit to the amount which can be borrowed under the GI Bill. The limitation by law is on the amount of the government guaranty and not on the amount of the loan.

Texans Still Express Thanks Before Meal

COLLEGE STATION—A recent state-wide poll showed that five out of 10 Texas families say "grace" or a blessing before each meal.

A national organization polled families in the United States on this and other religious habits not long ago. The percentage of families in the country as a whole that say grace before each meal is four out of 10.

Mrs. Eloise T. Johnson, extension family life education specialist for A. & M., says that families tend to do in their own homes what they learned as children. One-half of the people who do not offer thanks before meals said that the custom had not been observed in their homes when they were children, while 84 out of 100 Texans who offer thanks reported that this was a family custom as they grew up.

Grace before each meal does more than give spiritual satisfaction, Mrs. Johnson says. The beauty and dignity of the blessing adds as much to the atmosphere of the meal as flowers, colorful linen or attractive china. The few moments of quiet before eating calms emotions and consequently the digestive system is in much better working order. This is particularly true for small children, but adults also benefit from the short respite from worry, haste or excitement.

It's an old-fashioned custom, perhaps, but it still fits in the modern picture of family life.

COMES TO TECH

LUBBOCK—L. Burnell Smith who is completing requirements for a degree in dairy manufactures at Mississippi State college, will join the dairy manufactures staff at Texas Technological College, June 1, as superintendent of the college creamery, L. Smith was a member of the international dairy products judging team from Mississippi State in the fall of 1947, and holds membership in Alpha Zeta, national agriculture fraternity.

Walter Gardner resigned as superintendent of the college creamery in March.

Increase Taxes To Give Improved Education

AUSTIN—Realizing the need for better education for their children, Texans are taxing themselves more through local assessment.

Of the 877 independent school districts in the state, 849, or 87 percent, had a tax levy of \$1 or more per \$100 assessed valuation during 1947-48; a survey announced Wednesday by the Texas State Teachers Association reveals.

Figures are from the records of the state superintendent of public instruction.

Eighty-two per cent of the 1,151,999 students in the 977 independent school districts are living in the district making the levy of \$1 or more. That is a total of 947,170 children.

"The misconception has prevailed for years in some circles that the

school districts are depending too much upon state aid to finance their institutions," Charles H. Tennyson, public relations director for the teachers' association, said Wednesday.

"This survey disproves that, I believe.

"Not only do practically all of the independent districts have a high tax levy, but hundreds of them have greatly increased their property valuations during the past few years.

"Assessments of 75 percent of the real value of the property is the regular practice now rather than the unusual.

"The State Teachers Association is grateful that Texans are taking such an interest in the education of their children," Tennyson continued. "It has resulted in a climb in our schools' standing in comparison with those of other states."

A total of 599 independent districts, 65 percent, with 368,153 scholastics, had a tax rate of \$1 during the present school year. Two hundred and ninety schools had a rate in excess of \$1. Those schools had more scholastics than the 599 districts levying \$1. Their total was 579,017 students.

Fifty districts, or only nine-tenths of one per cent, having a total of 111,672 students, levied a rate of from 51 to 75 cents. Fifteen districts, with only 3,188 scholastics, had a tax of from 10 to 50 cents. Only seven districts, or but one-half of one per cent, which are not composed of state or charitable schools, imposed no local tax. All of the four largest cities in the state have a tax rate of \$1 or more. Houston has a levy of \$1.25; San Antonio, \$1.08; Ft. Worth, \$1.16, and Dallas recently voted an increase in their tax rate to \$1.25.

TO RECEIVE DEGREE

LUBBOCK—Reginald Rushing, associate professor of accounting and finance at Texas Technological College, has been notified he will receive a Ph. D. degree in business administration from the University of Texas at the May graduation.

Rushing holds a BA degree from Southwestern University and a MBA degree from the University of Texas. The subject of his doctor's thesis is "Corporate Reorganization Under Chapter 10 of the Bankruptcy Act".

Egg Price Supports Average 35c Dozen

Driers selling eggs to the Government under the recently announced purchased program must pay producers prices which average not less than 35 cents for all the shell eggs they buy. C. V. Hemphill, Chairman of the New Mexico Production and Marketing Administration Committee, said today. Where the processor agrees to accept delivery of eggs by producers directly at his drying plant, he is required to pay at least 37 cents per dozen.

Mr. Hemphill pointed out that these prices will be in effect for May and June under the Department of Agriculture's first direct price-support operation for eggs this year. The program will apply primarily in the Midwest, the area heaviest production. Dried eggs bought by the Government will be held for foreign shipment or other use which would keep them from domestic trade channels.

Under Steagall legislation, the Department is required to support the prices of eggs at a national average of 90 percent of parity. Since January 1, prices have averaged around the required support level. Recently, however, egg prices to producers and in terminal markets have declined, so that support operations become necessary if producer prices are to reflect the required returns.

U. S. RANKS FOURTH

U. S. farmers grew a lot of potatoes last year. But—probably indicative of the desperate need for food and the limited growing areas overseas—three other nations, Germany, Poland, and France, bested the U. S. in both potatoe production and acreage. In yields per acre, the U. S. was twelfth with 182 bushels.

Total world production of potatoes for 1947-48 is estimated at 7,280 million bushels, only slightly less than was produced in 1946-47, but about 14 percent less than the 5-year average. Output in both North America and in Europe, however, was down sharply from the previous year.

Mr. and Mrs. Ray Stone, Mr. and Mrs. Gerald Balcock spent the first of the week enjoying an outing at Buffalo Lake.

The day is never too long to the men who has work to do and enjoys doing it.

MOTHER QUITE ILL

Mr. and Mrs. G. D. Anderson were called to Winsboro, Texas, last Friday, by the serious illness of his mother, Mrs. E. W. Anderson, 88, who lives at Kilgore. She became ill while visiting in the home of her daughter in Winsboro. Reports received here the first of the week were that the aged lady's condition was "about the same".

To most of us our memory is the thing we forget with.

LEAVES FOR HOME

Mrs. Homer Workman, who has been visiting in the home of her sister, Mrs. Edward Engram, southwest of Texico, for the past month, departed Sunday for her home in Spokane, Wash., and will visit relatives in Colorado enroute to Spokane. Mr. and Mrs. Engram accompanied her as far as Amarillo.

Planning to make a long distance call tonight? You may find it convenient to call around 6 PM rather than later in the evening. Circuits are often less congested then, and low night rates begin at that hour. There are still busy times on long distance, but the speed of service is improving. Long distance calls are going through faster, on the average, than they were a year ago.

MORE FALL PIGS REQUESTED

Farmers are being urged to boost pig production this fall by 10 percent at the least, more if possible. Goals suggested to States, therefore, call for an average increase of 13 percent. A 10-percent increase would mean about 34.4 million pigs, 3 million more than were produced last fall.

Prices of feed grains are expected to be somewhat lower in the 1948-49 feeding year, beginning next October. At the same time, prospects are that continued large consumer demands and smaller output of other meats in 1949 will keep hogs prices relatively high.

JOINT MEETING OF WSCS CIRCLES IS HELD

A joint meeting of the Dorcas Circle and the Marzie Lynn Circle of the WSCS was held at the Methodist Church on May 5th, with a covered dish luncheon served at noon.

Mrs. Mae Hopingardner, Dorcas president, called the afternoon meeting to order. Eighteen members were present. Mrs. Quicquel gave the devotional, reading from the 31st chapter of Proverbs, verses 10-31.

Mrs. Earl Richards then gave the Bible stories of Hulda and Queer Yashti, and the meeting closed with the benediction. The ladies will meet with Mrs. Mable Newberry on June 3rd.

Mrs. Bell, the representative of the Fuller Brush Co., was a guest at the luncheon.

Had is the past tense of money.

MAY BAN CENTER PARKING

The Bovina Chamber of Commerce, at its regular session last Tuesday, passed a resolution agreeing to support the Bovina City Council in an effort to ban center-of-street parking in that city, which has been a common practice for some time. So far as is known here, the Council has not as yet taken action on the resolution, but the sentiment seems to prevail in Bovina that this manner of parking is soon to be barred in Bovina.

A lot of men waste a lot of time trying to find a match; and a lot of women waste a lot of time trying to make a match.

An opportunist is one, who gets a haircut and shampoo when he has a bad cold, because it always gives him a bad cold anyway.

HOWDY, FOLKS: Jimmy, aged six, was being taken to the hospital to have his tonsils removed. Mother was trying to bolster his morale, telling him to be brave, if won't hurt, etc.

"I'll be brave and do just what you tell me, Mother," he promised, "but I betcha one thing, the won't palm off no crying baby on me like they did when you went to the hospital."

Folks, we don't palm off anything here, except the top service your car needs and must have for smoother unning. Be sure to try our tip-top service next time.

EVERYONE LIKES ELECTRIC REFRIGERATION

ICE CREAM...any time you want it. Yes, it's no wonder the youngsters like electric refrigeration. They know that with an electric refrigerator there's always the chance of having a heaping dishful of home made ice cream or other cool summer desserts.

Mother likes it too, because it keeps all kinds of foods garden fresh and healthful. Makes it easier to have chilled salads, and add wide variety to summer menus.

Father likes it because there is always plenty of ice on hand for whatever kind of cooling beverages he wants. AND he knows that cheap electricity in the area we serve makes electric refrigeration more economical than ever before.

We have nothing to sell but good electric service. You will find the new electric refrigerators available in a choice of makes and models at nearby appliance dealers.

Orthopedic Clinic Is Sponsored By Khiva

A clinic for orthopedic examination for deformed children will be held on Saturday, May 29, beginning at 8:00 A. M. in Khiva Temple, corner 5th and Fillmore, Amarillo, Tex. Mr. L. F. Lillard, Potentate Aide or Parmer County, said, "any child with a deformity under 15 years of age regardless of race, creed, or color, and where the parents are unable to pay, is eligible and welcome." Applications for this clinic can be obtained from Mr. L. F. Lillard, Friona, or any member of Khiva Temple.

"This clinic is sponsored and financed by the Khiva Kendrick Fund and it is their sincere desire to be helpful to any and all unfortunate and deformed children living within the jurisdiction of Khiva Temple. Receptionists, nurses, and orthopedic surgeons will conduct the clinic. They will make examinations and give their recommendations during this clinic. It will be conducted for examination only.

Applications can also be obtained from Khiva Temple, Box 328, Amarillo, Texas," said Mr. Lillard.

So many people need sympathy nowadays that you shouldn't waste any on yourself.

Vacation Traveling In Southwest Expected Heavy This Summer

Vacation areas in the West and Southwest served by the Santa Fe Railway expect a 10 percent to 15 percent increase in visitors, according to T. B. Gallaher, General Passenger Traffic Manager of the Santa Fe.

Gallaher stated that the tremendous number of inquiries received from travel agents and tour operators, as well as returns from Santa Fe's advertising, bear proof of recent national surveys that the West and Southwest is top choice for most American vacationists this year. "With our improved train service, including the daily Super Chief and El Capitan, we can accommodate more California visitors and we expect to be able to handle more cars for Grand Canyon and Carlsbad Caverns National Park visitors. The new Texas Chief also makes it more convenient for us to serve Texas travelers this year," Gallaher said.

"The railroads, hotel and resort people will have their usual summer problems of trying to take care of everyone during the peak vacation months of June, July, and August," Gallaher explained.

"We have been cooperating with

the resort and hotel operators by trying to get people to plan their vacations during the Fall when there is wider choice of accommodations available. This trend is beginning to be noticed, especially with people who do not have children that must return to school shortly after Labor Day.

"Most Americans have been looking forward to a vacation for some time and unless there is a general upset in the economic situation this should be one of the best vacation years in our history," Gallaher added.

More and better vegetables can be raised in the home garden if the home gardener applies three or four pounds of 5-10-10 or 4-8-12 commercial fertilizer to 100 feet of row, a little lower than the seed.

Buildings Are Painted For Protection

COLLEGE STATION—Painting a house or a barn does make it look nice, but the real reason behind the painting is to protect the building. Four or five years, now is the time to tend to that job, says W. S. Allen, extension agricultural buildings engineer of Texas A. and M. College. To let the job go any longer means that the surface of the siding may need more careful and expensive preparation for repainting.

Local conditions play an important part in the selection of paints. For example, in warm, humid climates harder types of paint that contain greater amounts of zinc oxide usually stand up better than soft paint. And in the extra dry sections, it is the other way around. Soft paints containing mostly white lead are

better.

There is a good supply of ready-mixed paint of high quality to suit local conditions, and it can be had in nearly any color.

Allen says to remember that a paint job is no better than the application. A good painter will take off all the old loose paint and make sure the surface to be painted is dry before he starts his job. Even the best paint will fail if it is applied right after a shower, or in foggy, humid weather.

One of the important things to do before starting a paint job is to be sure the paint is mixed right. Too much oil causes the paint to dry slowly, get dirty and fade. And, not having enough oil causes the paint to wear off rapidly. Cracking is caused by hard, quick drying paints. Winkles in the coat of paint are made by improper brushing of heavy, oily mixtures. Too much thinner

in the paint or not enough coats usually cause chalking.

Two coats of paint is all right when the surface is in good condition and most of the old paint remains after sanding, brushing and scraping. Otherwise, says Allen, three or four coats are needed. The cost might be more, but you can rely on having a more lasting, satisfactory job.
