

City Cleanup Campaign Is Launched

School Patrons To Vote On Tax Valuations 28th

Qualified voters of the new Farwell Consolidated School District are advised today that they are offered an opportunity to express opinions on school tax valuations on Saturday, August 28th.

At this time, the voters will decide whether or not the consolidated district, as a whole, will assume the bonded indebtedness on hand of each of the three former districts—Oklahoma Lane, Farwell and West Camp; and at the same time, will decide the tax rate to be charged for school purposes in the district.

Currently, the tax rate in both the old Farwell and West Camp districts stands at \$1 on the \$100 valuation, while the residents of the old Oklahoma Lane district upped their rate to \$1.35 on the \$100 valuation some time ago. The voting will serve to equalize the tax rate, with the school board asking that the new rate be set "not to exceed" \$1.50 per \$100.00.

It was pointed out that with a rate of "not to exceed" \$1.50 per \$100 the school board could each year determine the amount of money needed to operate the school and raise or lower the rate to any figure under the \$1.50 maximum, depending on their budget, while under the old set up of a fixed tax rate of \$1.00 per \$100, as previously used in Farwell, it was necessary to either raise or lower values. Raising and lowering values is more expensive and requires much more work than using the same values and changing the tax rate.

In equalizing the tax rate over all property now contained in the consolidated district, a re-valuation of property will likewise be made, and both school officials and legal advisors have stressed the fact that raising the tax rate, under a re-valuation of property, will actually make very little difference in what the taxpayers will be assessed.

Regarding the bonded indebtedness incurred by the three districts before consolidation, officials explain that each district brought in a share of the debt, and urge that voters take steps to put it under jurisdiction of the consolidated district, in order that the debt may be retired more rapidly.

Only one voting place is set up, with the polls being opened in the county court room, at the court house in Farwell, from 7 a. m. to 7 p. m. Willis Magness will serve as election judge, with Mrs. J. D. Thomas and Mrs. O. B. Pipkin acting as clerks.

SCS District Appears Near For Parmer

Work toward establishment of a Soil Conservation Service district in Parmer County appeared to be nearing the goal this week, with the announcement from Louis Dalkins, of the State SCS board, that a district would be set up in Parmer County as soon as the program and plan of work had been definitely outlined.

Meeting with the county SCS board in Friona on Monday night, Dalkins told the members "The personnel is available and funds have been set aside for the Parmer County district," and urged that the program of work be drawn up as soon as possible.

Taking immediate steps, the board chairman, W. L. Edelman, called a public meeting to be held in the county court room in Farwell at 1:30 Saturday afternoon, August 21st, at which time all interested persons will be invited to submit ideas as to the outline of soil conservation work for the county.

County Agent Ollie Liner, in announcing the meeting here, stressed the fact that it was the duty of farmers of the county, who will be affected by, and will carry out the program, to offer their advice in drawing up the plan of work. "The program is for them, and they should take part in setting up a work plan which will be of the most benefit to all," he said.

At the meeting Monday night, the board accepted the memorandum of understanding between Texas A. and M. and the state SCS board, which, in effect, outlines the work to be done by the county agent in promulgating the program.

Sam Dunlap, Jr., has returned to his home in Dallas, after a visit with his grandparents, the E. E. Booths.

Extradition Brings Two Suspects From Okla.

FROM THE HOPPER
By HOP

Bill Hall is doing business back at the old stand this week, having returned during the weekend from a vacation outing which took him and Mrs. Hall through scenic northern New Mexico. Bill approved of the trip, with the exception of the switchback pass down Red River Hill, which, in his opinion, could have been omitted.

Sam and Dolly Aldridge denied Monday that they "had a party", Sunday, despite evidence to the contrary. Sam explains that the number of cars parked around the house simply carried friends who dropped in to look over the Aldridge's new home—and that they weren't having a reunion.

The old adage of "everybody talks about the weather, but nobody does anything about it" might this week be changed to read "polio" instead of the weather.

Despite a mounting number of cases over the state—and some of these get pretty close to Parmer County—the fact remains that residents of Texico-Farwell seem inclined to think that clean-up drives are meant for other towns. Granted that the polio germ cannot be traced directly to filth, or mosquitoes, or flies, the hard fact remains that breeding places of both the latter pests are a menace to health in general, if not directly a threat of the dreaded polio.

Recently, the city of Paducah called a halt to all activities and turned over 100 percent for a cleanup campaign, which included spraying with DDT and disposing of all possible spots of infection.

But, and here the point we're making—THE ACTION WAS NOT TAKEN BEFORE NINE CASES OF POLIO WERE COUNTED.

We have been fortunate. So far we've heard, this particular area seems to have escaped unscathed. Recent rains have made numerous mud-holes around the town, which are certainly breeding places for insects, and extensive weed growth further offer a happy hunting ground for the nuisances.

Let's not wait until we HAVE a polio case. Let's take action now to clean up our town, and, insofar as we know, avoid the possibility of allowing the disease to strike here.

Ebb Randol, here from Muleshoe this week, reports a good vacation trip and fishing success recently, when he enjoyed at Chama and Durango. Asked as to his fishing success, Ebb reported, "Oh yes, I caught FISHES—two of them."

In view of the fact that some individuals take an apprehensive attitude toward spraying the Twin Cities for flies and mosquitoes, we pass on the remarks of one of the Tribune staff, who resides in Friona, which was recently sprayed: "No one in town, as far as I heard, reported any ill effects from inhaling the mist, in fact, it was so fine that it was scarcely noticed. . . and until the past few heavy rains, we have had scarcely no flies and mosquitoes about town."

Absentee Balloting Opens In County

Absentee balloting opened in Parmer County last week for the August second primary, which comes next Saturday, the 28th, and attaches at the clerk's office reported today that there had been few calls for the ballots.

Clerk Loyde Brewer reminded voters who expect to be out of the county on the 28th that absentee voting closes on August 24th, next Tuesday. Ballots may be secured at the office of the clerk.

Two men who are believed to be connected with the circumstances leading to the mysterious death of O. T. McDaniels, of Melrose, N. M., which occurred near Farwell on Tuesday, August 3, were arrested in Tulsa, Okla., last week, it is reported here.

The two, M. Washington Newman, alias R. L. Williams, 62, and Stephen Welch, 44, were arrested last Friday in Tulsa. They are alleged to have tried to sell Norman Curtis, Tulsa dentist, a worthless oil lease. The Oklahoma man, becoming suspicious of a "snady deal", contacted police and the two men were picked up.

McDaniels, who was found shot to death in his car near Farwell on August 3rd, had been sold a bogus oil lease in the amount of \$12,600.00. The two men picked up in Oklahoma are believed to have been involved.

Six men are believed by officials to have been involved in the swindle. Sidney Miller, alias C. E. Humphries, one of the suspects, was brought to Farwell by Ranger Capt. Bob Crowder on Thursday of last week. After being identified as the same man seen in Clovis preceding the death of McDaniels, he was arraigned before Justice of the Peace Jess Newton and charged with the murder of McDaniels. His bond was set at \$7,000, which he posted.

Miller was also arraigned in Lamb County on a charge of forgery, where he is understood to have posted a bond of \$3,000.

Newman and Welch are being returned to Texas, and will face a charge of murder in the Parmer County court. Miller waived preliminary trial here, and has been bound over to await action of the Parmer County grand jury when it meets in October.

Farwell School Opens On September 6th

Jack Williams, superintendent of the Farwell Consolidated School District, announced on Monday that the 1948-49 term would officially get underway on September 6th, and a complete roster of teachers was now on hand.

Registration days have been set for September 3, and September 4, Williams added. On the third, all grade school students will be asked to register at the school during the morning hours, with the high school students to appear on the following morning. Buses will make their regular runs to bring in students by 9 a. m. and will make the return trip by noon.

With enlargement of the school through two consolidation moves voted during the summer, the corps of teachers now reaches a total of sixteen, Supt. Williams said today.

Mrs. Harry Whitley, former local teacher, is returning to her work in the first grade, with Mrs. Lenton Pool, also a returnee, listed in charge of the second grade. Mrs. C. E. Sanders, who was a member of the staff last year, has accepted the appointment to the third grade.

Miss Wilma Snider, a returning member of the faculty, and Mrs. R. D. Hensley, formerly of the Oklahoma Lane group take the fourth and fifth grades. A new teacher, Mrs. Avis Patterson, of Avery, Texas, will be in charge of the sixth grade. Mrs. Patterson has attended East Texas State Teachers College, has taught in San Angelo, Texas, and during the war was connected with the YSO in Clovis.

The seventh grade will be under the direction of Mrs. H. Pack, who is now enrolled at West Texas State College in Canyon, and Shelby Jobs will serve as grade principal and direct the 8th grade. Jobs has had 17 years of teaching experience, having spent the past five years at Plains, Texas. He holds a BS degree from Howard-Faine College.

Returning to the high school group are Robert Morton, vocational agriculture; Mrs. Earl Booth, English; (Continued on last page)

New Row Crop Prospects Good!

Excellent row crop prospects over the entirety of Parmer County have been reported this week, with County Agent Ollie Liner stating on Monday that feed crops in this particular area were the best between here and Lubbock.

Repeated heavy showers, which have been fairly general over the county during the past six weeks, have brought the late plantings along rapidly, and Liner voiced the opinion this week that there was little danger in the feed being caught by frost before maturity.

Principally, the crop will be maize, with occasional fields of sudan and millet showing up, reports indicated. Large plantings of row crops were made on land which usually produces wheat, due to the extended drouth which hampered wheat seeding, and retarded crops which did get above the ground.

Need Extra Combines

Agent Liner reported that he had already had some men in his office wanting to know about securing extra combines and crews, looking forward to a large row crop harvest.

He expressed the opinion that some outside help would likely be necessary, and added that the Employment Service now handles information of this type.

Storage facilities are already predicted to be scarce for row crops placed under the government loan, and Liner advised farmers to make arrangements to store some grain at home. The catch here is that combined stuff needs to be turned frequently, and in most cases, proves a stumbling block to home-stored grain.

Plant Wheat Soon

Observers pointed out today that fall wheat seedings could be started next week, usually the date is around August 25, but went on to remark that much land is already in row crop cultivation, which will indicate that some plantings will be late.

Summer-fallowed land will probably be turned under within the next week or so to clear it completely of weeds, after which wheat drills will be seen in the field.

A good general rain was received Saturday night, accompanied over most of the county by severe electrical storms. No damage has been reported locally from lightning, although telephone service suffered some disruption.

Most points in the county report from 1 to 2 inches of rain received Saturday, with Farwell receiving 1½ inches.

Heavy Showers Fall Saturday Night

Rain which amounted to a down-pour in some sections was received over all of Parmer County, Saturday night, boosting the outlook for row crops, and pointing toward favorable sub-soil moisture for fall wheat plantings.

Both row crops and weeds are growing by leaps and bounds, and in some instances farmers are being hard pushed to keep their fields clean between the frequent showers. Pastures, which at this time of year are all too often parched and brown, are lush with heavy grass growth from the rains, and yards and gardens, threatened with drouth a few weeks back when the water supply was critical, are in excellent shape.

Farwell reported 1½ inches of rain Saturday night, accompanied by a severe electrical display and the entire county received about the same amount, it is learned from reports.

Some Worm Damage Is Reported Over County

Damage from worms is being reported at spotted areas in Parmer County, Agent Ollie Liner said today, with the majority of the invasion being shown in the south part of the county.

Dusting by plane with a 10% mixture of DDT, at about 20 pounds to the acre, has proved effective, he added. Most damage is being done to sudan and millet.

PFC. VIRGIL H. WEIS

The body of Pfc. Virgil Weis, son of Mr. and Mrs. Karl Bender of Friona, is now enroute to the States for permanent burial, the parents have been notified. No definite information concerning the time of arrival has yet been released.

Pfc. Weis met his death on the island of Leyte, in the Philippines, on April 2nd, 1945. He entered the service on March 2nd, 1941.

County Fair Association Formed On Thursday

A Parmer County Fair and Stock Show Association was organized the past Thursday night at the regular meeting of the Friona Lions Club, with Dan Ethridge, of Friona being elected as president.

Levi Johnson, of Farwell, was named as vice president, with Hulie Horn, of Friona, chosen as secretary-treasurer. In addition, a board of four directors, representing all parts of the county, was selected, including Virgil Teague, Wendol Christian, Floyd Schlenker, and C. M. Henderson.

The board is slated to meet tonight (Wednesday), at Friona, at which time they will draw up a constitution and by-laws for approval.

It was agreed at the Thursday meeting to include beef cattle and swine in the annual fall show, which this year will have the title of the Parmer County Dairy Show and Fair, and will be held in the county show barns in Friona on Thursday, Friday and Saturday, September 23, 24, and 25.

Until last year, only dairy cattle were shown in the fall, with the beef and swine exhibits being held in the spring stock exhibit. In addition to the stock showings, educational exhibits will be set up in the buildings.

Further particulars on the September show will be announced as they are formulated by the board of directors.

Price Increase Listed By Border Theatre

Scotty Levins, owner of the Border Theatre, announced the first of the week that, effective immediately, admission charges for adults at the theatre would be revised upward.

In the future, the charge for adults will be 50c, compared to the former price of 40c, Levins said. Children under 12 will still be admitted for 9c, he added.

The theatre manager reminded the double features would start at the local picture house on Saturday, August 21.

Opening Date Given For Friona Schools

Following registration on September 3rd, the 1948-49 term of the Friona schools will get underway on Monday, September 6th, Supt. Dalton Caffey has announced.

The regular school bus runs will be made on registration day, Supt. Caffey added, with enrollment to be held from 9:30 to 12 noon, after which students will be dismissed.

A complete roster of teachers will be announced later.

EDITOR ON VACATION

Editor W. H. Graham and wife left the past Friday morning for a ten-day vacation in northern New Mexico and Colorado. Mrs. Abie Crume, of Friona, is assisting the Tribune staff during the editor's absence.

Subscribe to The Tribune!

Spurred by the Farwell Chamber of Commerce and the Texico City officials, a clean-up campaign started in the Twin Cities the first of the week, and all residents on both sides of the line are urged to cooperate.

First move in the campaign was a weed-cutting project, with Noble Goldsmith operating a mowing machine, while C. M. Henderson, of the Farwell CC, announced Tuesday noon that Thursday, August 19, has been designated as "Spray Day," with a fogging machine to start work over Texico-Farwell around 9 a. m.

O. D. Vernon, operator of the machine, which comes here from Morton, reports that he expects to spray both towns in one day, providing the alleys all over town are cleared, so that the machine can navigate.

All residents are urged to see that the alleys at the rear of their homes are not blocked, and, in addition, are advised that if windows and doors are left open when the machine makes its drive, the fog will penetrate into homes and kill mosquitoes and flies which may be inside. The spray used is not poisonous to food, nor does inhaling the mist injure humans.

Cost of spraying will be \$75.00 for each day, and all Texico-Farwell residents are urged to cooperate in footing the bill for having the cities sprayed. "Mail your dollar to the Texico city secretary, or to the Chamber of Commerce in Farwell," Henderson requested.

As to the weed mowing, Goldsmith will contact jobs at the rate of \$2.50 per hour for his machine and operator, and it is urged that all town lots be cleared of the noxious growth, which, in some instances, is so rank that it endangers traffic at "blind" corners.

Basically, the purpose of the clean-up campaign is to eliminate flies and mosquitoes—with the underlying threat of polio, also being one of the motivating factors.

Officials point out that while the paralysis germ cannot be definitely ascribed to either flies or mosquitoes, the disease occurs in the summer months when both these pests are numerous, and the logical conclusion is that either one, or both, of the insects can carry the disease.

Open cess pools, neglected ponds and stagnant water, piles of refuse, all are breeding places for the insects—and it does no good to clean up one spot in town while neglecting another across the alley, officials stress.

Henderson reported that he had been informed that Friona, which earlier in the year was visited by a fogging machine, was to be re-sprayed in the near future, and it is understood that citizens of Bovina are hoping to start a drive to rid their town of flies and mosquitoes.

In urging full cooperation of all residents of Texico-Farwell, Henderson said bluntly, "If we can keep the dreaded polio from striking even once, the time and money spent on the clean-up work will be more than justified."

Funeral Services Are Conducted in Friona

Rev. Clayton Day, of Temple, former Baptist minister of Friona, conducted funeral services the past Thursday for Clarence Day, of Friona, who died Tuesday night, following fatal injuries sustained in a car wreck on Monday night.

The services were held in the Friona Baptist Church, with Rev. T. B. Allen, Friona pastor, and Rev. H. D. Seago, Methodist minister of Friona, assisting. Interment was made in the Friona cemetery.

Clarence Day, 43 years old, had been a resident of Friona for the past 22 years, being engaged in farming. While returning to Friona around midnight, Monday, his car crashed into the rear end of a large truck-trailer loaded with cement.

He was taken to the Deaf Smith County Hospital, in Hereford, where he died about 24 hours later. The accident occurred on the hill just west of Hereford on the road to Clovis, and indications were that day never saw the truck, as he came up behind it, and crashed into the vehicle without knowing it was ahead of him.

Survivors include the widow, Mrs. Lucille Day, one son, Herbert, both of Friona; his parents, Mr. and Mrs. Jeff Day, of Meridian, Texas; and three brothers, Wyly Day, of Meridian; Frank Scott Day, of California; and Alvis Day, of Clovis.

Tell gossip about others, only what you would have others tell about you.

Health Notes
By State Department of Health

AUSTIN — Infant and mortality rates in Texas are at their lowest level in the history of the state, according to figures released by the Bureau of Vital Statistics of the State Health Department.

Compared to the figures for 1940, this represents a reduction of more than 39 percent. In that year, there were 197,023 live births and 8,685 deaths. But despite these gains, Texas still has the highest infant mortality rate in the United States, with forty-two states reporting lower rates.

Dr. Geo. W. Cox, State Health Officer, attributes the reduction to the increase in public response to the educational efforts of the Texas State Department of Health.

"We have reason for pride in our reduced infant and maternal mortality when it is realized that the reduction means in excess of 5000 babies are being saved annually which would have otherwise died," Dr. Cox said. "In addition, the birth rate is higher than the 1940 figure by more than 71,000."

The comparison between the live births figures for 1940 and 1947, shows white births up 22,707; Latin American births up 7,186; and Negro births up 3,279.

The report also shows maternal mortality has been reduced over 65 percent. In 1940, the rate was 4.6 for every 1000 live births as compared to 1.6 for 1947.

Fertilizer may be bought for just 50 percent more than before World War I. At the same time, farmers get nearly 200 percent more for their farm products than in the parity period of 1910 to 1914.

How To Keep Your Crepe Myrtles in Bloom

COLLEGE STATION.—Would you like to keep your crepe myrtle blooming several weeks longer?

Sadie Hatfield, extension landscape gardening specialist of Texas A. and M. College, says three things will do the job: cutting the faded blooms, plenty of moisture and fertile soil. As soon as the blooms begin to fade, cut them off. If seed are found they will take food from the plant which otherwise would go into new blooms. If you did not fertilize your crepe myrtle last year, it may need some now. For a large bush use two or three cups of 5-10-5 commercial fertilizer. Spread it around the plant in a ten by ten foot square area. Water it right away letting a small stream

of water soak the ground several inches deep around the plant. Water it this way every week or ten days, but be sure the plant is well drained.

Dust the crepe myrtle with cotton dusting sulfur if you notice mildew forming on the leaves. Too much shade may keep the crepe myrtle from blooming as much as it could. Give them lots of sunshine if you want them to bloom out big. Crepe myrtle that was fertilized well last winter or early this spring won't need any more right now. But putting a mulch layer around the plant will help it hold moisture in the soil.

Vitex, like crepe myrtle, is another plant that makes more than one crop of blooms. If you want blooms for a longer period of time, don't let the seed form. Treat it like the crepe myrtle when giving it lots of water

and fertilizer. Another name for vitex is pepper tree, and it is sometimes called lavender tree. Seed are about the size of whole all-spice.

Miss Hatfield adds that zinnias and petunias will prolong their blooming periods if the flowers are cut before the seed are formed.

FOOTBALL RESERVATIONS BEING ACCEPTED

LUBBOCK—Reservations for the Texas Technological college football games in Lubbock this fall are being taken at the stadium offices. Indications are that virtually capacity crowds will witness each game, Morley Jennings, Tech athletic director, had observed.

Fans holding season tickets for the game last year have until Sept. 1 to reserve the same seats, he said, and seats not reserved by date will be assigned others. A sizeable waiting list already has been started.

Tech will play four home games this year: The night of Sept. 18 against West Texas State; afternoon of Oct. 30 in the Homecoming encounter against Rice; Nov. 6 with Texas Mines; and Nov. 20 with the New Mexico Lobos, coached by

Berl Huffman, former Texas Tech coach.

SANTA FE CARLOADINGS

Santa Fe System carloadings for week ending August 7, 1948, were 27,097 compared with 29,700 for the same week in 1947.

Cars received from connections totaled 11,515 compared with 11,349 for same week in 1947.

Total cars moved were 38,549 compared with 41,049 for same week in 1947.

Santa Fe handled a total of 39,248 cars in preceding week of this year.

24 HOURS A DAY

FOR 24 YEARS

Folks depend on good electric service. Once you start providing homes, shops, farms, and factories with electric service, you've got to keep up that service, improve it, broaden it, and lower its cost in every way possible, come what may.

That's why we take pride in the fact that for 24 hours a day, for 24 years, we have been bringing more and more dependable low price electric service to more and more folks in the Panhandle Plains, Pecos Valley area at an ever decreasing cost.

SOUTHWESTERN PUBLIC SERVICE COMPANY

24 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

INVITATION FOR BIDS FOR CONSTRUCTION OF WATERWORKS IMPROVEMENTS FOR CITY OF BOVINA, TEXAS

Sealed proposals, addressed to the City Commission, City of Bovina, Texas at the office of the City Clerk, for the construction of extensions to the existing water system of the City of Bovina, Texas, will be received at the above stated address until 3:30 o'clock P. M. Central Standard Time, Aug 27, 1948, and then publicly opened and read aloud.

A Certified Check, issued by a bank satisfactory to the Owner, or a Bidder's Bond executed by some reliable surety company authorized to do business in the State of Texas in the amount of five per cent (5%) of the largest possible lump sum bid submitted, payable without recourse to the City of Bovina, Texas, must accompany the Bidder's proposal, as a guaranty that the Bidder will enter into a contract and execute the required performance bond and guaranty in the forms provided within ten (10) days after notice of award of contract to him. Bids or proposals without the required bid Guaranty will not be considered.

The Bidder's attention is directed to the fact that wages to be paid on this project shall not be less than the prevailing wage rates in this locality. It is the Contractor's responsibility to inform himself thoroughly of all State, Federal and Local laws and statutes pertaining to the employment of labor and the conditions of employment.

Bidders are expected to inspect the site of the work and to inform themselves regarding all local conditions under which the work is to be done. Complete copies of the specifications and contract documents may be examined in the office of the Mayor, Bovina, Texas, and may also be obtained from the Hatfield Engineering Company, Barfield Building, Amarillo, Texas.

A deposit of \$5.00 will be required for each set of plans, the full amount of which will be refunded to actual bona fide bidders, and to others who return the documents in good condition on or before the bidding date. The City of Bovina, Texas, reserves the right to accept or reject any and/or all proposals or bids, to waive technicalities, to make any investigation deemed necessary of a

Bidder's ability to perform the work covered by the specifications, and to accept what in its judgement is the best bid.

THE CITY HALL OF BOVINA, TEXAS

(Signed) JOHN W. KIMBROUGH, Mayor 43-2tc.

Safety First Avoids Farm Hazards

COLLEGE STATION.—National Farm Safety Week is nearly over. But it isn't too late to straighten out an "accident about to happen." You still have plenty of time to "undo" a hazard on your farm. You have 51 other weeks. But to avoid serious injury or possible death, now is the time to do it.

The National Safety Council has a Safe Farm Test made up of questions about machinery and equipment, buildings and the farmyard, tires, animals, electricity and the farm home. These are only a few of the many things to check on, especially during Farm Safety Week while it is still fresh in your mind. Six thousand people were killed in farm home accidents last year. Another 43 hundred were killed while working on farm jobs. That means more people were killed around the house than out near the machinery and the barns.

What did it? Standing in the bathtub and turning on the light. Or starting fires in wood stoves with kerosene. Or just falling from a box on top of a chair, or on a "throw" rug on a waxed floor. Loaded guns in the house are killers, too, especially in the hands of children. Many children have been scalded when

they reached up and pulled a pan of boiling water or chocolate syrup down on themselves.

National Farm Safety Week is this week—but farm safety is one of the biggest year-round jobs there is. Every day in the year people are being killed and injured, so it stands to reason that every day people should be on the lookout for worn-out or broken equipment, broken ladders, frayed electric wires and loose boards with nails.

Be alert today and be alive tomorrow.

ENTRIES MUST BE IN BY SEPTEMBER 15

COLLEGE STATION.—September 15th is the closing date for receiving entries in the Texas Farm and Home Egg Laying Contest sponsored by the State Poultry Council, and supervised by extension poultrymen of Texas A. and M. College, and county agricultural and home demonstration agents.

The contest is state-wide, open to all poultry producers (except R. O. F. breeders) who own and manage 100 or more hens of not more than two breeds or varieties.

The objectives of the contest are to get higher egg production in Texas poultry flocks, to demonstrate the value of record keeping in the poultry business, to put poultry production on a sound basis, to demonstrate

the advantages of good feeding, breeding and management, and to market eggs on a quality basis when it is possible to do so. If these objectives are reached, extension poultrymen say, the contest will have been a complete success.

Each contestant will be visited by either the county agricultural or

home demonstration agent between September 15 and October 15 to get everyone off to a good start. The contest ends July 31, 1949, and prizes will be awarded to the top 15 contestants.

For complete details of the contest contact county agricultural or home demonstration agents.

New Stage Curtains Arrive, Farwell

New back curtains for the stage in the Farwell school auditorium arrived this week and are being installed, Mrs. Roy Cook, of the Parent Teacher Association, reported today.

The curtains were ordered by the local PTA, which took over the responsibility of providing new stage settings. Last year, a front curtain was provided.

Mrs. J. D. Thomas, PTA president, announced that funds on hand for the project did not completely cover the cost of the curtain, and asked that all patrons of the consolidated district take part in contributing toward the fund.

In charge of solicitation are Mrs. Tom Foster, Mrs. Fred Kepley, Mrs. Luther Grissom, Oklahoma Lane; Mrs. Boone Allison, Mrs. Clyde Felts, Lariat; Mrs. Claude Rose, Mrs. Ted Sheets, Farwell; Mrs. Austin Jones, Mrs. Melvin Snyder, Mrs. Johnnie Williams, West Camp.

There's No Substitute for the PATENTED **EVERSMAN** ECCENTRIC AXLE

For Perfect **LAND LEVELING** and **SEED BED PREPARATION**

MODEL 25—Width 12' 10", length 32', cutting blade length 9' 3", depth 22", requiring 38 H.P. (drawbar).

MODEL 12—Width 12', length 21', cutting blade length 9' 3", depth 16", 3 plow tractor. Model 9 shown at top of page slightly smaller for 2 plow tractor.

MODEL 35—Larger, longer, more dirt capacity than Model 25. Both 25 and 35 have main frame spliced for converting in field to maneuverable dirt mover.

The only leveler with patented crank axle that moves the blade up and down in the frame as it goes across the field—when wheels go on high place the blade AUTOMATICALLY lowers to gather a load—when wheels go into a low place the blade raises to release enough dirt to fill. It mulches the soil, breaks clods, forms a finely pulverized seed bed as the machine moves along.

Also excellent DIRT MOVER. Patented wheel lift raises and lowers the whole machine and gathers or releases a big load of dirt wherever you wish. Here's a 3 purpose machine for dirt moving, leveling and seed bed preparation...a machine you'll need year after year. One inexperienced man and your present tractor operates it.

Get your DIRT MOVING done this FALL and have the same machine for finish leveling and seed bed preparation in the SPRING.

Local Happenings

Mrs. Sudderth Honored At Lovely Shower

The American Legion Hall was the scene of a lovely pink and blue shower given Thursday evening, August 12th, honoring Mrs. Bob Sudderth. Hostesses were Mrs. John Lovelace, Mrs. Arlen Lovelace, Mrs. Grayson Roberts and Mrs. Paul Wurster. Guests seated in foursomes, each table centered with appropriate vases of sweet peas and snapdragons, and layed with cleverly folded napkins and mint cups. The main serving table was lace covered with low vases of snapdragons and tall white tapers. Mrs. Arlen Lovelace presided at the punch bowl. Other bouquets of roses made the room lovely.

Guests were registered by Mrs. Paul Wurster. Miss Norma Jean Thomas played softly as the guests arrived. After games, led by Mrs. Grayson Roberts and Mrs. John Lovelace, the honoree was presented the gifts in a bassinette which was pushed into the room and presented by little Callaya Ann Roberts. Punch, cookies, and mints were served to Mesdames Bob Sudderth, Loyd Cain, J. D. Thomas, Aubrey Sprawles, LeRoy Faville, John Porter, Earl Booth Clarence Meeks, Bill Meek's, Woody McDermitt, Woodrow Lovelace, Chas. Lovelace, M. C. Roberts, Bess Henneman, Roy Arrington, Rav Sudderth, A. D. Smith, R. B. Ezell, Bill Banks, Mitz Walling, I. W. Quickel, Misses Norma Jean Thomas and Iris Thornton.

Regrets were sent by Mesdames G. D. Anderson and Marilyn, Caroline Martin, Bess Mansfield, C. M. Henderson, Loyde Brewer, Joe Blair, Sam Aldridge, Gene Lovelace, C. H. Rose, Frank Seale, M. A. Snider and Wilma Louise, Mary Lou Cason, Billie Phillips, Marjorie Meeks, Frank Phillips, L. G. Ham, Johnnie Williams, and Sam Rundell.

Mr. and Mrs. G. C. Roberts, of Wilson, Oklahoma, visited during the past weekend in the home of Mr. and Mrs. Claude Rose, in Farwell.

Student Homecoming Is Set For Sunday, 22nd

All former students and teachers from Farwell, West Camp and Oklahoma Lane are invited to be on hand at the Farwell auditorium on Sunday, August 22, at 1 p. m., for a reunion and homecoming celebration. Cary Joe Magness, president of the local junior class, sponsors of the event, said today that plates will be \$1.75, and reservations closed the first of this week.

Due to the recent consolidation moves, Farwell will be "alma mater" to high school students from Oklahoma Lane and West Camp also in the future, and the affair Sunday is staged as a sort of get-together meeting for former students and teachers.

Picnic-Weiner Roast Held in Bovina Park

A picnic supper and weiner roast was held in the Bovina Park the past Thursday night, August 12, when a number of people gathered to enjoy a friendly get-together. Series of baseball games were enjoyed previous to the picnic supper.

Those attending the get-together were: Mr. and Mrs. Hershel Watkins from Hobbs, New Mexico; Mr. and Mrs. Ernest Carpenter and girls of Clovis, N. M.; Mrs. Virginia Honeycutt from Albuquerque, N. M.; Mr. and Mrs. James Watkins of Bovina; Mr. and Mrs. W. C. Watkins and son Bill, and Miss Winnie Mae Martin of Clovis; Mr. and Mrs. Jim Bob Smart, Mr. and Mrs. Ben O. Smart and family, Mr. and Mrs. R. D. Williams, Jr., and girls, Mrs. Bettie Smart, Mrs. R. D. Williams, Sr., and children and Miss Hazel Dishman all of Farwell.

Mr. and Mrs. Ernest Carpenter and girls of Clovis, N. M., and Mrs. Virginia Honeycutt of Albuquerque, N. M., visited in the home of Mrs. Bettie Smart the past Wednesday evening.

Mrs. Wilkinson Honored At Pink-Blue Shower

Mrs. Leroy Wilkinson, the former Vera Lee Morgan, was honored with one of the loveliest pink and blue showers from 3 to 5 p. m., in the home of Mrs. Ruby Stone in Texico, with Mesdames Bob Drace, Ruby Stone, Henry Louis, and J. C. Moore, and Misses Peggy and Jean Rogers, Mildred Moore and Letha Bridges acting as co-hostesses for the occasion.

While the guests were arriving soft music was rendered by Misses Peggy and Jean Rogers. During the social period Miss Mildred Moore and Miss Jean Rogers sang Brahms' "Lullaby."

Mrs. Bob Drace was in charge of the guest book, receiving the guests as they arrived.

Many lovely and useful gifts were opened by Mrs. Wilkinson, assisted by her mother, Mrs. Herschel Morgan.

Mrs. Ruby Stone and Mrs. Henry Louis, presided at the punch bowl and Miss Letha Bridges and Miss Mildred Moore assisted in serving clever refreshment plates consisting of pink and blue lemonade, white cake iced in pink and blue, and plate favors of napkins fashioned as daisies with pink and blue cookies inside of each one.

Those present for the gala affair were: Mesdames Perry Winkles, Edgar Blain, Henry Jacks, G. W. Atchley, Leona Bailey, H. L. Dykes, S. C. Hunter, Grace Sanders, Jessie Hudson, A. J. Bagley, Carl McCully, Jim Fount, W. J. Goldsmith, John Getz, LeRoy Faville, Russell Johnson, Jerry Paul, Harry Baker, G. A. Meeks, and Perry Crawley and the hostesses, Mrs. Bob Drace, Mrs. Ruby Stone, Mrs. Henry Louis, Mrs. J. C. Moore, Misses Mildred Moore, Peggy and Jean Rogers, and Letha Bridges, and the honoree, Mrs. Leroy Wilkinson.

Those sending regrets included: Mesdames B. A. Rogers, Dick Doshier, R. L. Houston, Tuck Monk, Jonnie Williams, Jim Moss, Preston Cain, J. D. Louis, Thelma Snodgrass, Evelyn Morgan, J. H. Stone, Spears, M. A. Snider, D. W. Bagley, Earnest Stewart, M. C. Roberts, G. C. Meeks, Elmer Bridges, Pete Poteet, Nell Autrey, Kenneth Jacques, Dixie Stewart, H. Tucker, D. J. Brown, Louis Caillouet, James Box, Mona Coburn, J. H. Ross, Velma Seale, Sam Lewis, C. D. Houghtling, Fred Cornelious, E. Roop, Hubert Corzine, Nella Graham, G. D. Fox, Walter Koen, Harris, Willie Williams, Ira Levins, Ray Mears, Chas. Bell, O. S. Allred, Effie Bowers, Joe Morgan, Jimmie Morgan; Misses Delphine Johnson, Claudine Bridges, Wilma Louise Snider, Frankie Harris, and Georgie Lee Mears; and Francis Smotherman, Alton Lee and Raymond Troy Morgan, and Mrs. Wilkinsons' great-great-grandmother, from California.

Mrs. Lucille Cook from Huntington Park, California, arrived here Saturday to spend the next several days visiting in the home of her sister and family Mr. and Mrs. B. N. Graham.

New Legion Officers Will Be Installed

New officers of the local American Legion Post will be installed in special ceremonies at the Legion Hall next Monday night, August 23, at 8 o'clock with out-of-town Legionnaires on hand for the rites, Loyde Brewer, local service officer, announced today.

At this time Ed Meeks will be installed as commander; Graham Thornton as first vice commander; Charley Thompson as second vice commander; Wilfred Quickel as adjutant; Bobby Anderson as finance officer; Bob Sudderth as sergeant-at-arms; Lawrence Ham as chaplain; Ollie Liner as historian; and Loyde Brewer as service officer.

All members of the Legion are urged to be on hand at 8 o'clock.

Drace Home Is Scene Of Birthday Celebration

On Wednesday, August 11, Miss Mildred Moore was honored with a surprise birthday dinner in the home of her sister and brother-in-law, Mr. and Mrs. Bob Drace.

A lovely decorated birthday cake centered the lovely white linen covered table.

Those present for the affair were: Misses Peggy and Jean Rogers, Thelma Gravelle, and Letha Bridges, Mrs. Jerry Paud, the honoree, Miss Mildred Moore and the host and hostess, Mr. and Mrs. Drace, and the honoree's parents, Mr. and Mrs. J. C. Moore and Jimmie.

Off To Mountains

Mr. and Mrs. John Porter are enjoying the coolness of northern New Mexico, this week, while vacationing in Red River, and other points. It is understood here that they were accompanied by Mr. and Mrs. Clyde Perkins.

Pemberton-Pond Rites Held In Farwell

Minister Ebb Randol performed a single-ring ceremony uniting R. J. Pemberton and Joyce Pond, both of Clovis, in marriage last week in the Carl Davis home in Farwell.

Mr. Pemberton is an employee of the Post Office Department in Clovis.

Visit In California

Mr. and Mrs. Carl Davis and children, Glenna Ruth and Carl Glen, are on a ten-day vacation, visiting locations in California. They plan to visit friends and relatives in and around Los Angeles. Ebb Randol, of Muleshoe, is in charge of the Davis Mercantile during their absence.

Visiting Here

Pfc. Cortez Billington is here this week on a brief stopover between changes in Army camps, for a visit with relatives and friends. Cortez has been stationed in South Carolina and is now enroute to New Brunswick, New Jersey.

Enjoy Mountain Trip

Mr. and Mrs. Ebb Randol, now of Muleshoe, and formerly of Farwell, returned last week from a vacation trip to Chama, New Mexico, and Durango, Colorado. They visited at Chama with their daughter and son-in-law, Mr. and Mrs. Hugh Edwards, and family.

Home From Marines

JeDon Porter, son of Mr. and Mrs. John Porter, arrived home the past weekend from California, where he was recently discharged from the Marine Corps. JeDon spent the past three years in uniform.

Called to Dallas

Mrs. M. C. Roberts left Saturday for Dallas, being called there by the illness of her father, Mr. Doshier. Word from Mrs. Roberts on Tuesday was to the effect that Mr. Doshier, suffering a bronchial infection, was seriously ill.

Licenses Issued

Records at the County Clerk's office this week reveals that two marriage licenses were issued, one to Nolan Clyde Rhodes and Miss Betty Jo White on Wednesday, August 11, and the other to R. J. Parmerton and Miss Joyce Bonds on Saturday, August 14th.

Mr. and Mrs. Lloyd Sanderson and girls from Portales, N. M., and Mr. and Mrs. Jim Bob Smart of Farwell spent the weekend visiting with relatives and friends in Pampa, Texas.

Mrs. D. K. Roberts who has been visiting her daughter and son-in-law in Lubbock, visited with friends here over the weekend enroute to her home in Sebona, Arizona, after an extended visit in this and surrounding areas.

Mr. and Mrs. J. E. Stone and Kenneth Jacks were Sunday visitors in the home of Mrs. Stone's parents, Mr. and Mrs. W. Q. Jacks of Quitaque, Texas.

Mr. and Mrs. H. A. Tucker and little daughter, Jean, returned home Monday morning from a business and pleasure trip from Lynwood, Calif.

SCHOOL SUPPLIES

Won't be long until those kiddies will be entering another term of school. Better drop in and fill the bill with out complete supply of school needs.

RED + PHARMACY

LEVINS RETURN HOME

Mr. and Mrs. Ira S. Levins and daughter, Susan, and Mr. Levins' mother, Mrs. Aulana Levins, have returned home from Ruidoso, N. M., where they spent the past week enjoying a brief respite from their duties at the Border Theatre.

Mr. and Mrs. Jimmie Halford, and daughter, Jo Ann, of Vernon, are here visiting relatives, having made the trip to attend the golden wedding celebration held by Mr. and Mrs. Geo. W. Magness, in Friona, Sunday.

Mr. and Mrs. B. N. Graham and son, Howard, drove up to Pampa last Thursday and visited with Dr. and Mrs. W. M. Pearce. Dr. Pearce is a retired Methodist minister, who served many charges over the Panhandle area before his retirement.

Mr. and Mrs. Benton Graham and daughters left Thursday via air, Amarillo, for Los Angeles, where they plan to visit with relatives and friends before returning to their home in Cucuta, Columbia, South America.

VETERAN'S NEWS

Veterans attending colleges and universities under the GI Bill must obtain supplemental certificates of eligibility from the Veterans Administration if they plan to enroll in a new school this fall.

The certificates should be requested from the VA regional office at least 30 days before the date the term opens at the new school. Advance requests will help speed prompt payment of subsistence allowances after the start of the new term.

Supplemental certificates to the original certificates of eligibility issued by VA are necessary only when a veteran changes from one school or training establishment to another.

The veterans' full name, correct address, VA claim number and present training establishment should be included in any request for new certificates.

Colleges and universities attracted nearly 60 percent of the World War II veterans who were enrolled in educational institutions under the GI Bill and Public Law 16 on June 1, VA reports.

The remaining 40 percent were

taking courses in high schools, trade schools and other educational institutions below the college level.

On June 1, a total of 1,632,780 veterans were training in educational institutions under the GI Bill. Of these, 962,297, or 59 percent, were in colleges and universities.

At the same time, 121,071 disabled veterans were in school under Public Law 16. College students numbered 82,623, and 68 percent of the Public Law 16 trainees.

Recent Rains Brings On More Green Grass

COLLEGE STATION.—Ranchmen in West Texas have been getting some good small amounts of green grass that brings a warning from A. H. Walker, extension range specialist of Texas A. and M. College.

Walker says livestock numbers should be kept low on the range for at least another year. The drought has lasted for three years in some areas of West Texas and the most desirable grazing grasses have almost disappeared from the range. Those grasses that still remain are in a poor grazing condition.

Livestock prefer the fresh shoots

that are coming back and will graze them first if given a chance. When the cattle graze off these small green shoots that come from the grass crowns, the supply of plant food which the grass must store in its roots is lowered. And, in many cases, this grazing of the new shoots weakens the plant so much that it later dies.

Soon the good grasses will be starved out altogether. This is what happens when a range area is overstocked following a good rainy spell, such as the western parts of Texas had not long ago.

As the better grasses are grazed out or die because of the drought, the poorer grasses, weeds and brush begin to come in. Depending on where you live, this may mean needle grass, bitterweed or mesquite.

Give the better grasses a good chance to seed out and grow to a healthy size before turning the livestock in to graze on them, advises Walker. In far West Texas, the "good grasses can be listed as black and blue grama; in the Southern Great Plains—from the top of the Panhandle southward to Valverde, Edwards, Real and Bandera counties—these good grasses are buffalo, blue grama

and side-oat grama.

These grasses will produce more forage and more pounds of beef per acre if they are properly taken care of, says Walker. Give them a chance to get a good start on your range before building up your herds.

When hay is allowed to get to ripe it becomes coarse and loses a great deal of its protein food value. After it has been cut, get rid of the moisture in hay as soon as possible to prevent spoilage.

Secy. of Agriculture Anderson estimates that soil erosion costs 4 billion dollars annually.

On Saturday, August 28th, an election will be held in the County Court Room in the Court House in Farwell, on two propositions:

A. Whether or not to vote a tax rate of not to exceed \$1.50 in the district, as consolidated.

B. Whether or not each part of the new district assumes the bonded debt of the remainder.

The Board has carefully considered both of these matters before submitting them to vote, and recommends that each be carried.

It is necessary to have some kind of a tax voted before we can levy a tax and carry on the school, and the board believes that a flexible tax rate, of not to exceed \$1.50, is the best tax to vote, as this rate will enable the board to set the tax each year at just what amount is needed for that year, within the \$1.50 limit.

The bonded debt is very small, and the board believes that a considerable saving in cost of assessing and collecting taxes and keeping books can be effected if we all assume each other's bonded debt, and levy only one general sinking fund tax and pay all of the bonds of the three districts concerned out of one account.

Farwell Consolidated School Board of Trustees

HOWDY FOLKS: A Westerner entered a saloon with his wife and six-year-old boy. He ordered two straight whiskies.

"Hey, pa," said the kid, "ain't ma drinkin'?"

Then there was the Scotchman who was run over by a beer truck. For the first time in his life the drinks were on him.

It may be unpleasant to play poker with a bad loser, but it is even more unpleasant to play poker with ANY kind of a winner.

No kidding, folks—you and your car will like our one-stop service! Our attendants are all courteous and friendly, and enjoy giving your car the best in gas, oil and lubrication.

Big Change In Texas Crops This Year

COLLEGE STATION.—Texas has about the same total numbers of acres in crops this year as last, but there is a big change in the acreage of some of the crops, says E. A. Miller, extension agronomist of Texas A. and M. College.

The July report from the USDA crop estimates office in Austin shows a shift of around 2 million acres from wheat and oats to cotton and sorghums. Wheat acreage is down about a million and a half, while oat acreage is down a half million, says Miller. Texas land under cotton went up about three-fourths of a million acres, and sorghums climbed a million and a quarter acres.

More land went into barley, rye, flax and rice, while there was a drop in corn, sweet potatoes, peanuts and

hay. The estimated 9 million acres plus in cotton is a 9 percent increase over 1947, and the largest crop in 11 years.

Corn for harvest was a little under 3 million acres, 5 percent below last year and the smallest acreage for harvest since 1925. Grain sorghums are still replacing some of the corn land. The grain sorghum land stands over 6 million acres, more than twice the corn total.

The wheat decrease of over 7 million last year to 5½ million this year was caused mainly by the drouths last fall and lasting well into this past spring. The spring drouth was one of the big reasons much of the corn land was plowed under or turned over to grazing.

Rice was up about six percent over last year with a 1948 acreage of 500 thousand. This year's estimated yield of 24 million bushels of rice would be a record rice crop in Texas. The number of acres in hay, oats and peanuts all dropped a little, but Texas' newest crop—flax—was estimated at 160 thousand acres, says Miller.

It is rumored that cheerfulness is largely a matter of one's income being above one's outgo.

FORGETT FUSSY FRILLS ON BABY'S CLOTHES

COLLEGE STATION — "Clothes for baby will be chosen for protection, comfort and freedom for exercise and growth, if the mother has the baby's welfare in mind," Neno Roberson, associate extension clothing specialist of Texas A. & M. points out.

For healthy exercise and growth, clothes should be short, light weight and loose in style, Miss Roberson continues. For daytime wear, simple slips are better than the usual dresses. If they're cut on the bias, they will have an advantage over the straight-cut slips, for they'll

stretch in any direction and will be flat and smooth without gathers and tucks.

Leave off the lace and knotty embroidery around the neckline, for they may irritate the baby's skin. Collars are not too good, either, Miss Roberson says, as they may "cup up" and get into the baby's mouth.

The fabric of all baby's clothes should be smooth, soft and supple and yet firmly woven. Young babies are sensitive to even a slight feeling of heaviness and for that reason, the materials should also be lightweight. Miss Roberson suggests such fabrics as fine quality nainsook, lawn, batiste and soft crepe, all easily washed yet durable enough to

stand frequent laundering.

Choose clothing with seams that are flexible, narrow and smoothly finished. Edges may be finished by rolled hems, narrow bindings or soft shell stitch. Full-length, front openings make dressing easy.

"You might consider safety, too, in dressing the baby," Miss Roberson concluded. "Long ribbons or ties can easily catch or pull around the baby's neck. Hairs or fibers in fuzzy sweaters may shed and get in the nose, mouth or eyes. And watch out for buttons—they should be non-breakable, and neither so large nor so hard that there is any chance of bruising."

HINTS ON PROPER STORAGE OF FOODS

COLLEGE STATION—The refrigerator is one of the coolest items around the house these hot, sunny days. And it's a good thing, too, because it keeps food fresh and wholesome, if the food is put in the refrigerator properly.

Maybe you didn't know there was a proper way to put things in the refrigerator, says Mrs. Bernice Claytor, extension home management specialist of Texas A. & M. College. Some people just put things in and shut the door. However, here are some ideas on the proper way to store food.

The coldest spot in the icebox is nearest the freezing cabinet. This is where the most perishable foods go—such foods as fresh and cooked meats, poultry and fish, meat broth, gelatin dishes, milk, milk-and-egg dishes like custard and cottage cheese. These foods need a temperature of around 40 degrees F. or slightly colder.

Take a look at modern refrigerators. They are built to store these foods near the freezing compartment. Tall shelves for milk bottles are beside the unit, and a meat compartment is just underneath. Keep perishable foods covered, and uncooked meat loosely covered or taken out of its wrapping and put in the meat compartment of the icebox.

Don't crowd foods too closely together because this will cut off the circulation of the cold air around them. Let cooked food cool to room temperature before putting it into the refrigerator. "Put it into the refrigerator as soon as it cools," Mrs. Claytor says. "You don't want to leave it out any longer, for it may spoil."

Keep after those grasshoppers with either the new or the old poisons, say Texas extension entomologists, or they will take everything in the way of crops you have planted on the farm.

Here's the PLOW you need for breaking sod

This Dearborn plow is made for the Ford Tractor . . . and we think it's the best ever. So simple—it has no wheels, axle, tongue, clutch, springs or levers . . . but good sturdy beams and as fine bases, coulter and jointers as ever turned a furrow.

With Ford Hydraulic Touch Control, you can "take it easy" while two matching well-turned furrows unroll behind you.

Easy adjustments. Only three grease gun fittings to lubricate. Study the pictures, then see us if you want a new plowing experience. Come in soon!

Sikes Motor Co.
Farwell, Texas

With Triple-Quick Attaching, plow is attached to the tractor in one minute.

Hydraulic Touch Control raises plow for easy turning, and fast transport on road.

A touch of the Hydraulic lever lowers plow. Automatic control of depth made possible.

No detaching and re-attaching when plow hits an obstruction.

ACA News

Roy Camp, Secretary

We have received additional grain sorghum loan regulations and believe we can answer most questions concerning loans.

Grain Sorghum loans are eligible only on grain produced in 1948. Such grains shall be Milo, Hegari, Kafir, etc. This does not include Sudan, or Cane.

The beneficial interest is now in the producer, and always has been in him, or in him and a former producer whom he succeeded before the grain is harvested.

Such grain sorghums must grade No. 4 or better in accordance with official standards and do not grade discolored, weevily, or smutty grain. When stored in a warehouse the grain sorghums must not contain in excess of 14% moisture. When stored on the farm the grain must not contain in excess of 13% moisture and must have been stored in the granary at least 30 days prior to inspection for measurement, sampling, and sealing.

Eligible farm storage shall consist of farm bins and granaries which are of such substantial and permanent construction as to afford safe storage of the grain sorghums, permit effective fumigation for the destruction of insects, and afford protection against rodents, other animals, thieves and weather.

Loans will be available throughout December 31, 1948, and mature not later than April 30, 1949.

The loan rate for No. 1 and 2 grain sorghums is \$2.27 per cwt. No. 3 loan rate is \$2.19 per cwt, and for No. 4 grain, \$2.11 per cwt. A deduction of 9 cents per hundred pounds shall be made from the applicable loan rate on grain sorghums placed under loan in a warehouse, unless evidence is submitted with the warehouse receipt that all warehouse charges have been prepaid through April 30, 1949.

Producers are urged to turn in their prior approvals on all practices that have been completed, summer fallow, chiseling, etc.

and the many programs of local interest. KFDA is owned and operated by Mr. J. Lindsey Nunn and Gilmore Nunn, and first went on the air August 1, 1939, a little more than nine years ago.

Highway Patrol Seeks Additional Applicants

Chief W. J. Elliott, of the Texas Highway Patrol, reminds young men between the ages of 21 and 35 that applications for entrance into the Patrol will be accepted to Aug. 25th.

Applicants must stand not less than 5'8", be citizens and residents of Texas for at least a year, of good character; must have had high school education or its equivalent.

Base pay is \$230 per month, with \$100 per month while in training. Vets receive on-the-job pay of \$75 per single man, \$105 for a man with one child and \$120 for a man with two children, in addition to base pay.

Interested individuals are invited to contact the patrol office in Hereford.

Mrs. John Hadley Jr. Receives Injury On Horse

Mrs. John Hadley Jr., received injuries the past Sunday afternoon when a horse on which she was riding attempted to go through a door of a barn on the Hadley farm south of Texico. She was carried to the Clovis Memorial Hospital where she is receiving treatment. The extent of her injuries were not known, but relatives stated that the injuries were believed to be somewhat serious.

mercantile department will be directed by Mrs. John Aldridge, of Farwell, who will act as substitute for the time being, Supt. Williams said. Mrs. Aldridge, formerly a member of the Texico and Clovis faculties, holds both a BS and BA degree from the University of Missouri. The school cafeteria will be supervised by Mrs. Louis Purvis, but a complete list of assistants for this work has not been made. Supt. Williams added that the cafeteria would be open on the first day of school.

Custom Butchering

HOGS and CALVES

25 Eligibles Turn Out For Football Meet

Twenty-five eligible high school boys were present at the initial meeting of the local 1948 football squad, last Friday night at the high school home economics building.

Coach Louis Purvis outlined the program the team would have this season, and the boys themselves adopted rules governing their training restrictions. Purvis revealed that 11-man football would be played regardless of whether the Farwell school was admitted to a Texas conference. He expressed the belief that it would not be difficult to obtain a full season of games by playing "outlaw ball."

Letter Jackets Arrive

Jacket awards for boys lettering in high school football were passed out to twelve players and two managers last Monday afternoon, by Jack Williams, former coach of the Farwell Steers.

Four senior graduates were recog-

nized: Junior Robertson, three years; Bobby Hart, three years; Harry Sheets, three years; and Sonny Graham, two years. Juniors: Toby Booth, two years; Warlick Thomas, two years; A. C. Henneman, one year; Jackie Holland, one year; R. A. Cassidy, one year. Sophomore: Donald Ford, two years. Freshmen: Jerry Pool and Pete Hughes lettered their initial tryouts also. Hollis Hughes and Billy Crume received awards as managers.

The jackets are heavy, reversible models, blue and white, (school colors), and were obtained from Lowe and Campbell.

KFDA INCREASES POWER

Radio Station KFDA, Amarillo, Texas, this week stepped into the big league of radio, increasing its power from 250 watts to 5000 Watts daytime—1000 watts night. With this increase in power, KFDA is now located at 1440 on the dial.

This increase in power will enable a larger portion of communities in the Tri-State area to enjoy the fine programs presented by the American Broadcasting Company,

"Keeping Up With The Joneses"

"Keeping up with the Joneses" has been an accepted motto in American life through the years . . . and it is constantly being practiced on the farm.

Most farmers want their machinery in the best of condition all the time in order that they may keep pace with the progress of their neighbors.

That's the main reason they have formed the habit of letting us keep their tractors in tip-top running condition . . . then they never get behind with their crop work.
