Health Notes

AUSTIN—The 414 cases of influenza reported in Texas last week, bringing the incidence of this disease up to forty percent more than the seven year median...

Influenza without complications may be a fairly mild ailment, according to Dr. Geo. W. Cox, State Health Officer, but, he pointed out, complications can turn this disease into a dangerous condition very quickly.

"Many cases of influenza are mild," Dr. Cox said. "Often they lend themselves to treatment readily. However, two important factors enter into the treatment of influenza, and they are, calling the family physician as soon as the first symptoms appear, and taking life very easy for a reasonable length of time after the acute stage has subsided."

Dr. Cox declared that influenza is not mass-controllable. He emphasized that maintaining the highest possible health level at all times affords an individual the best protection from contracting this disease.

"Getting plenty of sleep and rest, daily exercise in the open, nourishing foods, and strict personal hygiene are our best known defenses against influenza," Dr. Cox said. "This applies to all respiratory diseases. A person who avoids all habits and practices detrimental to a maximum well-being and thus builds up a strong resistance to disease, is much less likely to contract influenza than is the individual who does not guard his health in this manner."

That board with the rusty nail in it should be thrown on the trash pile today. It may save pain and a doctor's bill tomorrow.

NOW'S THE TIME FOR YOUR FALL GARDEN

COLLEGE STATION.—Get out the hoes, rakes, shovels and weed cutters. It's time to get the ground ready for a fall garden. But "leave the seed be" for a short time yet. There's a bit of groundwork to be done first.

J. F. Rosborough, extension horticulturist of Texas A. and M. College, says start with the weed cutter and clear the plot of ground of weeds, removing them completely. If turned under, they cause molding and heating of the soil. This dries out the soil and keeps it from getting a good cultivation. If there is barnyard fertilizer handy, plow it in four or five inches deep. It helps the soil hold more water and prevents packing of the soil.

Deep plowing dries out the seed bed. It will take more water to wet down a deep seed bed than a shallow one. So four or five inches will be deep enough. And after plowing, break up the clods, rake the soil fine and smooth, then plant your seed.

If there isn't much fertility in your soil, work in a commercial fertilizer along with the barnyard fertilizer or compost material. Rosborough warns gardeners in the sandy areas that the commercial fertilizer should be used only where the rainfall is at least 30 inches. Three pounds of 5-10-5 or 4-12-4 per 100 feet of row should be applied at planting time. Open up the planting furrow and mix the fertilizer well into the soil, chopping three or four inches deep.

Although the soil may be dry at planting time, some of the vegetables such as carrots, beets, spinach, cabbage and lettuce grow slowly so they will likely get a good bit of rain during the wet season.

If you have vegetables still growing from the spring planting, give them a side dressing of fertilizer 8 or 12 inches from the plant. Apply at the same rate as above. And if the soil is dry, says Rosborough, irrigate before or after fertilizing.

Now you're ready for the fall garden planting.

SAN ANTONIO.—George Curtis operates a trading post here. He advertises that he sells "everything from coffin nails to skeletons". He adopted this motto after a doctor inquired about a skeleton, which he didn't have in stock at that time. But he found one for the doctor, and is now prepared to furnish them to anyone who is interested in buying one.

KEYNOTER GETS A (ROOSEVELT) HAND . . . Sen. Alben Barkley of Kentucky gets an enthusiastic handshake from James Roosevelt, son of the late president, after completing his keynote speech to the Democratic convention. The fighting speech sparked the drive to name the veteran senator as vice-presidential candidate. In his talk he blasted the Republican party and the GOP-controlled 80th congress.

How To Dress Your Child For School

COLLEGE STATION.—For many Texas kids, this is back-to-school week again. Some returned to the classrooms last week. But whether it was this week or last, mothers of school-age children have to figure out what to clothe their youngsters in.

Nena Roberson, associate extension clothing specialist of Texas A. and M. College, says the clothing problem is just as big for mothers of little tykes not yet in school. Often Mother picks out clothes for

the kids because she takes a fancy to the little red jacket of the yellow striped dress. It's going to be the kids that wear the clothing, so it should be picked out to meet their needs.

Comfort, freedom of movement, allowance for growth and attractiveness are points to remember when buying slacks, shirts or dresses for the children. Buy clothes that fit well, and be sure they aren't too tight. Allow for plenty of movement.

Maybe the boy plays football with the gang after school. Perhaps the little girl goes skating with her friends. Whatever they do, they'll need clothing that gives them freedom of movement—and still isn't too

Rail travel made easier

Ask about these special features now available for Santa Fe travelers

Rail Travelloan—Travel Santa Fe now—pay later in easy monthly installments. Funds available for rail accommodations and other expenses for your trip. Simply make application for this service with your railroad ticket or travel agent.

Travel Credit Cards—Charge Santa Fe tickets as easily as you would department store purchases. Anyone with proper credit rating may have a rail credit card. Present it at any Santa Fe ticket window to charge rail, parlor-car, or sleeping-car tickets (amounting to \$5.00 or more) to any part of the country. Bills rendered monthly.

Rail Auto Service—Enjoy the comfort and economy of rail travel—and still have the convenience of a late-model automobile at your destination. Moderate cost. This plan now in operation in many U. S. cities.

Prepaid Tickets—Tickets can be delivered to any point in the U. S. by making a deposit with your Santa Fe ticket agent. Pullman accommodations, incidental cash included, if desired. A particularly attractive service for transportation arrangements of elderly people, invalids, students, etc.

Parmelee Transfer—Passengers holding tickets through Chicago may ride Parmelee coaches from the Dearborn station to any out-going depot, hotel, or downtown destination. Baggage included. This service available by presenting the Parmelee coupon which is a part of your through rail ticket.

For complete information just call your Santa Fe Agent

You can say that again—“Lubri-tection”!

And That's What Smart Motorists Are Saying Again and Again To Get—Phillips 66 Premium Motor Oil!

What's all the excitement? Mister, here's a brand new word that says everything about what a great motor oil will do for you!

You see, you get both lubrication and protection from Phillips 66 Premium. You get the fine, basic lubricating qualities that come from high quality crude, expertly refined. And you also get an oil which has been improved with additives and inhibitors to help relieve your motor of sludge formation and other harmful deposits.

That's a lot to get from one motor oil—but that's what you get when you say “Lubri-tection”! So switch to Phillips 66 Premium Motor Oil today!

PHILLIPS 66 PREMIUM MOTOR OIL

\* “Lubri-tection”—the protection rendered by an oil of fine base stock containing special detergent and oxidation inhibiting ingredients.

loose.

The clothing should also allow for growth, too. Five to eight inches for hems in girls dresses and five to six inches on the tails of boys' blouses should be left so there will be room for lengthening the childrens' clothes as they grow.

Fabrics should be selected for the

child's comfort, happiness and protection, and for long lasting in wear and laundering.

Attractiveness is important, too, but don't have too many decorations says Miss Roberson. They will be easier to care for with fewer decorations.

CARE WILL SAVE YOUR CAR

Keeping your fingers crossed won't save your car! But regular checkups and repair by our expert mechanics will! Our charges are moderate for putting your car in top-flight condition. . . . taking out any knocks and jerks . . . and giving it a thorough-going tune-up. Why not drive over today? You can always count on our experts for prompt, reliable and economical service.

**Enlarge Lunch Room At Texico School**

Supt. B. A. Rogers stated Tuesday that changes were being made at the Texico school this week, whereby the lunch room will be enlarged. The cafeteria is located in one of the surplus Army buildings on the campus, and has occupied the building in connection with the ag department. Supt. Rogers reported that the partition separating the two departments would be moved, to enlarge the lunch room space. Around 100 students are being fed daily, with Mrs. Gladys Johnson in charge, assisted by Mrs. Bailey. When this work is completed, the ag and science departments will move into the second surplus building, and Mrs. Jimmie Allman will take over the current ag quarters.

**TINNEY TO BE LECTURER**

LUBBOCK.—W. H. Tinney of Lubbock is to be a full time guest lecturer in dairy manufactures for the 1948-49 school year at Texas Technological college. Mr. Tinney holds a BS degree in dairy manufactures from Texas Tech, and was awarded a master's degree in dairy husbandry from Texas A&M college. While in graduate work at A&M, he also instructed in dairy production.

**Texas State Fair Will Open Oct. 9, Dallas**

The thirty million dollar, 63rd State Fair of Texas, which the Lone Star Staters proudly call "The Show Window of the Southwest," will get underway next week with probably more fanfare than ever attended any previous state fair. Dates are October 9-24.

Officials say this is the largest fair and the most costly to produce they have ever attempted. It has required more people to put it together. More than 2,000,000 are expected to attend. Last year's attendance as 1,763,921.

Gov. Beauford Jester will formally open the Fair and dedicate the new \$300,000 Automobile, Aviation and Recreation Building. Topping the list of opening day attractions will be the Texas-Oklahoma football classic. This will be the coming out party for the renovated Cotton Bowl, just rebuilt and enlarged at a cost of \$1,280,000.

Almost as popular with Fair visitors will be the hilarious Jimmy Durante-Harry James show in the auditorium, the new "Ice Cycles" show, the Flying L rodeo, Million Dollar Midway, and the most colorful array of displays ever seen in the Fair's huge exhibit halls. These will include shows devoted to autos, aviation, electrical industry, petroleum, foods, textiles, culinary and antiques, agriculture, livestock and poultry.

Opening day is traditionally Press and Radio Day, in honor of Texas newspaper and radio men. Formal opening of the Fair will be preceded by a mile-long parade through

downtown Dallas.

Despite its enormous size the State Fair of Texas has managed to retain some of the flavor of the old country fairs. Advance interest in the 1948 show wof pickles, preserves, jams and jellies, textiles and antiques has amazed even Fair officials.

On Oct. 16 the rural youth of Tex-

as, 60,000 strong, will take over the Fair, breaking all previous records for gatherings of 4-H club members, Future Farmers and Future Homemakers.

Another outstanding event will be participation on Oct. 24 of 20 school bands and some 2,000 young Texas musicians in a Band Festival and

massed concert in the Cotton Bowl.

**SANTA FE CARLOADINGS**

Santa Fe System carloadings for week ending Sept. 5 were 27,348 compared with 28,825 for same week in 1947. Cars received from connections totaled 12,989 compared with 12,418 for same week in 1947. Total cars moved were 40,325 compared with 41,243 for same week in 1947. Santa Fe handled a total of 38,032 cars in preceding week of this year.

**"BROKEN FOURSOME"**

Don't miss reading this dramatic story of a divorce that smashed the famous foursome of General Ike and Mamie Eisenhower and the Harry Butchers. This absorbing story of a romantic casualty appears in the American Weekly, that great magazine distributed with next Sunday's Los Angeles Examiner.

Some people's idea of security is an elephant hanging over a cliff with his tail tied to a daisy.

**HOWDY FOLKS**

"Do you have fits of giddiness," a doctor asked a middle-aged, strong-looking woman. "No I don't, came the snappy retort. I'm a respectable married woman."

The salesman who used to sell refrigerators to the Eskimos is now offering butter knives to American housewives.

A man's greatest mistake is to suppose that grass widows are green.

Whether or not a man has more courage than a woman, he doesn't get half the chance to show his backbone.

Folks, good, efficient, courteous car service is the backbone of our business. See us when your car needs gas and oil.

ALL WINNERS!

We all know it doesn't pay to gamble. Neither will old, undesirable varieties out-yield new, desirable varieties of wheat. Cash returns per acre are definitely highest with the new improved varieties. Besides the increased yields, millers this season are offering premiums for carlots of wheat high in percentages of acceptable types. Next year undesirable types now going to export may be discounted or avoided entirely.

Seventy per cent of today's bread is baked in commercial bakeries that use mechanical mixers and require strong gluten varieties of wheat. Housewives will not accept poor bread at any price. Texas wheat growers today know they must grow strong gluten varieties to improve the demand for their wheat.

Comanche and Westar are ideal for the South Plains and the Panhandle. Wichita is best for the early territory. We have some pure seed of these varieties. First come, first served. Bring in your old wheat — take home pure seed of the kind the mills will buy.

AVOID FUTURE DISCOUNTS! DON'T GAMBLE!

### Cafeteria Is Popular With Farwell Pupils

"More than 300 students are being fed daily," Supt. Jack Williams, of the Farwell School, replied the first of the week when asked as to the progress of the school cafeteria this year.

Mrs. Louis Purvis is superintendent of the lunch room, with Mrs. Travis Brown as head cook, being assisted by Mrs. Willie Hardage, Mrs. J. J. Terry, Mrs. Earl Billingsley and Mrs. Carl Evans.

A large electric mixer, capable of handling several gallons of food, was installed at the cafeteria last week.

In reporting on the cafeteria, Supt. Williams invited constructive criticism from patrons of the school. "With such a large group of students, we know that it is impossible to please every appetite at each meal," he added, "but those in charge try to plan menus which are both well balanced and attractive to the pupils."

### RUSSIAN GRAIN IN TRADE

United States farmers, faced with storage and marketing problems in connection with this year's abundant grain crops, have a real interest in world grain trade and the part that the various grain-producing countries play in supplying the market of the world. A recent article in "Foreign Agriculture" by Lazar Volin, regional specialist in the USDA office of foreign agricultural relations, gives a historical review of "Russian Grain on the International Scene".

Grain exports, he says, were the principal international economic asset of Russia during the late 19th and early 20th centuries. Actually, even in 1909-13, when Russia was the foremost exporter of grains in the world, her shipments constituted only about 30 percent of world exports; during the decade before the first World War, exports varied between 6 and 14.4 million tons.

### DR. B. R. PUTMAN

OPTOMETRIST  
Muleshoe, — Texas

USSR export commitments through March '48 amounted to over 2.4 million long tons of grain, of which over 1.9 million were wheat and rye. While additional commitments may have been made since then, the actual movement of grain, Volin stated, is not likely to be large. Export commitments have been made by the Soviet Union in the case of each country, separately, as a result of bilateral agreements.

### "SAFER AND STRONGER"

It is obvious that the more up to date our rail transportation, the safer and stronger America will be in the event of any grave emergency. —Washington (D.C.) Star.

## LIGHT THE WAY TO A BRIGHTER future

Bright sparkling eyes don't come from the cosmetic counter. The correct use of good lighting is an important aid to good eyesight, and healthy vision is an aid to better health.

That's why it's so important to make sure that children and growing boys and girls have the best light . . . the right light at all times.

Remember . . . better light means better sight.

## SOUTHWESTERN PUBLIC SERVICE COMPANY

24 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

**THREE OF NINE . . . "Tiger,"** a gray Persian cat, has used up three of his proverbial nine lives. Shot three times within 30 days, "Tiger" has dragged himself home each time and managed to live. "He'll get well all right," said Dr. Robert Stansbury, Pasadena, Calif., veterinarian.

about three days if moisture conditions are right.

Keep the young plants moist until the roots have a good start in the ground and water the grass as it begins to grow. Italian rye doesn't make seed until it gets about 18 inches tall, so you'll have to replant it again next year.

Miss Hatfield says another reason why it has to be replanted is because the roots die out every summer.

**"No Udder, No Cow" Says Gibson**

COLLEGE STATION.—The stockman says, "No foot, no horse." And the dairyman says, "No udder, no cow."

Mastitis, which causes inflammation of the udder, is present in about two-thirds of the dairy herds. Surveys in several Texas areas have shown about 30 percent of the cows affected in one or more quarters. G. C. Gibson, extension dairy husbandman of Texas A. and M. College, estimates that when mastitis shows up, there is often a 25 percent loss in milk production.

And with milk prices and cost of cow replacements what they are today, it's much cheaper to keep the cows free of mastitis.

A good mastitis control program is simple. First, make an accurate check on the condition of the udder of every cow in the herd. Handle the cows so as to avoid spreading the disease from an infected cow to a healthy one. Treat those cases that look like they can be treated, and those that are too far gone should be removed from the herd.

Your county agent and local veterinarian can help in making the mastitis test of your herd. It's important that you make such a test, especially if there have been reports of mastitis in nearby herds in the county.

The dairyman himself can go a long way in reducing chances of mastitis on his own place by getting rid of hazards such as water and mud holes in the lots, sharp snags and brush, high door sills, and slick barn

floors that may cause falls. Repair broken fences and gates around the place, and avoid pouring or milking milk from cows with mastitis onto the floor or the gutter.

Cows which have had mastitis before should be treated when they are turned dry, and the medicine left in the udder, says Gibson.

Early detection is highly important in the treatment and control of mastitis.

**LEGAL NOTICES**

**CITATION BY PUBLICATION THE STATE OF TEXAS**

TO: John F. Suits, C. F. Sweet, the unknown wife or wives of John F. Suits and of C. F. Sweet, and to the unknown heirs, assigns and legal representatives of John F. Suits, of C. F. Sweet, and of the unknown wife or wives of John F. Suits and of C. F. Sweet; GREETING: You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 18th day of October, A. D., 1948,

at or before 10 o'clock A. M., before the Honorable District Court of Parmer County, at the Court House in Farwell, Texas.

Said plaintiff's petition was filed on the 31st day of August, 1948. The file number of said suit being No. 1446. The names of the parties in said suit are: Jack Anderson, as Plaintiff, and John F. Suits, C. F. Sweet, the unknown wife, or wives of John F. Suits and of C. F. Sweet, and the unknown heirs, assigns and legal representatives of John F. Suits, of C. F. Sweet, and of the unknown wife or wives of John F. Suits, and of C. F. Sweet, and V. E. Weir, as Defendants.

The nature of said suit being substantially as follows, to wit:

Suit in trespass to try title plaintiff alleging that on August 15th, 1948 he was and still is the owner in fee simple of Lots 5 and 6, of Block 66, Original Town of Friona, Parmer County, Texas, and was in possession thereof, and on the same day the defendants entered thereon and dispossessed him thereof and unlawfully withheld possession thereof from him. That defendants have used said premises for 16 days, the rental value of which is \$15.00, and are indebted to him in that amount and have failed to pay same although so

requested.

In the alternative plaintiff pleads and invokes the 10 year statute of limitation as it applies to land titles in the State of Texas, and says that he has had peaceable, continuous and adverse possession of said land and tenements described in this petition, cultivating, using and enjoying the same for more than ten years before the commencement of this suit and that such possession has been continuous, open, notorious, hostile and uninterrupted.

Plaintiff prays that the defendants be cited to answer and appear herein, and that on final hearing he have judgment for his damages, costs of suit, and for title and possession of said lands, and for such other and further relief to which he may be entitled, either at law or in equity.

If this Citation is not served with-in 90 days after the date of its issuance, it shall be returned unserved.

Issued this 31st day of August, A. D., 1948.

Given under my hand and seal of said Court, at office in Farwell, Texas, this 31st day of August, A. D., 1948.

Loyde A. Brewer, Clerk, District Court, Parmer County, Texas. By Dorothy Lovelace, Deputy. (SEAL) 47-4tc.

**Wintertime Lawns Brighten The Home**

COLLEGE STATION.—A green winter lawn brightens the home grounds. It stands out in lush greenness against the bare, brown background of winter. It catches the eye of passers-by, and makes them say, "That family grows green grass in the wintertime."

Italian rye grass makes a good winter lawn for this area. It's easy to grow, and does not injure Bermuda or any of the other summer grasses. It takes up in the fall where the summer grasses leave off, and dies out in the spring when they are ready to start in again.

This grass is well-known among stockmen as a good winter pasture grass, and can be bought from feed stores, seed companies and nurseries.

This is the time of year for the people in North Texas to seed Italian rye—about the middle of September. Around the first of October is the best seeding time for Central Texas, and those further south should wait two weeks or a month later. Seeding rate for this grass is a pound and a half to two pounds for every thousand square feet of lawn area.

It's possible to wait later on into the winter, but there's a risk there. Cold weather slows up seed sprouting, and some of the seed may not come up until next spring. On the other hand, if you plant too early—before the cool season starts—young plants are likely to be killed by the heat. Italian rye thrives in cold weather.

Before sowing this winter grass, mow the lawn grasses to at least an inch and a half. When the Italian rye comes up, mow it just like any other lawn grass. Seed will come up in

**When Your Back Hurts—**

And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

## We'd like to demonstrate this tractor on your farm

• We'll bring a Ford Tractor out to your place, without any obligation. And with it, one or two of those good Dearborn Implements, specially made for the Ford Tractor. We'll put this Ford Tractor through its paces, then let you take the wheel.

You'll find out how easily Ford Hydraulic Touch Control lifts and lowers implements and controls their depth. You can hold your watch while we demonstrate Triple-Quick Attaching of implements. You can get the feel of the easy Ford steering and positive brakes.

Then you'll know why Ford production . . . over 400 tractors a day . . . still can't keep up with demand. See this great Ford! Whatever tractor you own, you owe yourself this Ford Tractor demonstration. When can we make it?

## Steers Squeeze Hard Game From Vega, 12-7

Fighting desperately to retain a lead in the closing minutes of the game, the Farwell Steers eked out a hair-raising 12-7 decision over the Vega gridmen, Friday night, when the two elevens locked helmets on the Vega gridiron.

For the first time this year the Steers found real opposition, and the opening minutes of the game, when Vega received, showed the weakness of the Steer defense. After that, however, the teams appeared well-matched throughout the game.

Richardson and Harris, backs, were the strong men for the opposition, and time after time racked up yardage for their squad. In addition to carrying the ball, Harris did an excellent job of passing, throwing Farwell into a near panic when his tosses put Vega into vital territory on several occasions.

The entire Farwell line stood up well throughout the hard game, and little Jerry Pool proved himself on both offense and defense with superb ball toting and tackling. Terry continued to make ground gains, and Thomas and Booth both acquitted themselves creditably.

The expected Farwell aerial attack backfired early in the game, when Thomas shot one over the head of Ford, with Richardson intercepting, and after that, the Steer offense was principally on the ground. Several times Thomas was ready to pass, but his defense failed and he was forced to run it out in order to keep from losing critical yardage.

### First Quarter Scoreless

Opening the game, Booth booted into the end zone, where Richardson received and made it back to the 30, then followed up with a drive to midfield, where he was downed by Thomas. Booth set Richardson back on his heels for no gain. On the next play Richardson fumbled but recovered for Vega.

McNabb broke loose to the Far-

well 25, being overhauled by Terry, and Harris went to the Steer 23. Richardson failed to gain, then pushed for first down on the 22. Three tries netted only two yards, and on the last try the ball went over to Farwell on their own 19. On their first play from scrimmage, Thomas shot a long one downfield toward Ford, but the ball went over the receiver's head into the hands of Harris, who was off to the 25 before he was nabbed.

Harris shot an incomplete pass, Richardson made two yards and then was stopped on a second try, a pass attempt was no good, and the ball went over to Farwell on their own 25 as the quarter ended.

### Steers Start Drive

Thomas made two and then handed off to Pool for eight, but the play was called back and Farwell penalized five yards. Pool again toted, making it around end for another 8. Terry went for a gain, and Thomas added enough for a first. A pass to Hughes was fumbled, with London recovering on the Farwell 38. On the next try Pool romped around right end down to the 45. Terry added eight over tackle, and then put on steam for four more and another first down. Thomas shot a pass to Ford which was fumbled and Vega recovered on the 35, in their territory.

Pool dumped Richardson for no gain, but Richardson then made it to the Farwell 43. Harris made no yardage, then stepped back to pass, was heckled and finally broke loose for 14 yards. A second pass try was incomplete and finally Pool dumped Richardson for a loss, with Farwell taking over on their own 35.

With Pool making nine on the first try around right end, the Steers headed goalward. Thomas added yardage for a fire, to midfield; Pool took two off left tackle; Terry made another first; Booth failed to gain;

Thomas shot a pass to Ford who went to the 6 and Pool banged in to the two-yard marker. Thomas pulled his arm back and put one squarely in the hands of Cassidy for the first counter of the evening. Booth's attempted placement was blocked by Voyles, and the count stood 6-0, Farwell.

Vega received, with Richardson carrying from the Farwell 30 to midfield, where Terry fouled upped an attempted pass for Vega. Harris made four around left end, then shot a short pass over center to Howard. The drive bogged down on the Farwell 45, and the Steers were in possession. Booth failed to gain at the center of the line, then made nine yards on his second try, and Pool lost six trying an end around as the half ended.

### Farwell Scores Again

Farwell kicked off again, with Scott being nailed on the 15. Harris made five over right tackle, and then fumbled for a 12-yard loss, with Richardson covering for Vega. Richardson made 11 off a fake punt, after which Harris booted to the 45. Thomas fumbled it up to the 50, but fell on the ball to recover.

Pool made nine over left tackle, and Terry drove for a first on the 39-yard line. Thomas added five, and Pool broke loose to race to the Vega 13. Thomas added three over center, Terry put on four more, and Thomas made a first on the 3. On the next try, dextrous Pool was through the opposition for the winning touchdown of the evening. Booth's kick went to the left of the uprights, and Farwell led, 12-0.

### Vega Scores in Same Quarter

Coming back with a bang, Richardson took Booth's kickoff and came upfield 15 yards. Harris added two. Richardson drove on to the local 29 after circling right end, being finally overhauled. Harris was stopped on the 20, but then added five over right end. On the next play Richardson broke through over tackle, cut back and was loose to score. A beautiful pass play, Scott to Loyd, caught Farwell unaware, and the extra point was chalked up. Score, 12-7.

Booth took the kickoff, returning to the Farwell 23. Pool made four and Thomas lost 10 yards. Terry gained back eight, and Harris took the kick-out, coming back 10 yards, where he fumbled, with Farwell recovering on the Vega 26 as the quarter ended.

### Hectic Fourth Quarter

Vega got a break as the final period opened, as Thomas fumbled the ball from center, with Montgomery covering. Harris was stopped cold and then dumped for a yard. Loyd was pushed back by Ford for another loss, and Vega punted out, with Thomas returning the ball 29 yards. Pool made four, then added five, with Thomas halted for no go. Ford drove around right end for a first down and Terry made three over right guard, but the locals were then dumped for 10.

Thomas shot an incomplete pass to Ford, and Booth kicked out to the Vega 35, with Harris coming up for 10. Harris shot one to McNabb

for 15 yards, then put one in the hands of Richardson for another five. Farwell was penalized five yards, and Vega set up a new series of downs. Harris tried a pass to Richardson, incomplete, and then carried for yardage when he failed to find a pass receiver.

Two more pass tries were stopped by Farwell, and Richardson was dumped on the 35. Farwell drew a penalty, and Vega had a new lease on life. Harris tried a long pass to Loyd, which was no good, and then carried for eight, with Pool stopping the play. Richardson set up a first and ten on the local 20 as the game clicked into the final seconds.

Harris was dumped for three, but passed to Howard for eight and then plunged on down to the 15. Harris was grounded for a 15-yard loss on an attempted pass and Richardson shot an incomplete try to Harris as the game ended.

## Ranchvale Softballers Visit Texico Diamond

The Ranchvale softball squads visited on the Texico field the past Friday afternoon, playing two games which did not run a full amount of innings, as they were called on time. Coach C. E. Sanders reported today.

The Trojans, visiting boys, dumped the locals 11-2 at the end of play, while the Ranchvale girls were held to a deadlock of 2-2 by the determined Texico players, breaking a long-time winning streak for the visitors.

The girls' tied game is scheduled to be played off on Friday of this week.

## Softball Teams Enter Invitation Tourney

An invitation to tournament play at Ranchvale, on Saturday of this week, has been accepted by both the boys' and girls' softball teams of the Texico school.

Coach C. E. Sanders stated that he planned to start A. Doolittle as catcher; Stewart on first; White on second; Blain on third; Haile at shortstop; J. Doolittle as floating shortstop; Pearce as left fielder; Crooks as center fielder; Bridges in right field and Tucker on the mound.

The boys drew a one in the first round of play, and will meet the winner of the Pleasant Hill-Rosedale tangle. In the lower bracket, Field faces Ranchvale, with Grady taking a pass to play the winner.

## County Fair

(Continued From Page 1)

In the junior division, Hereford placed first, Dimmitt, second, and Canyon, third. High individuals were Jack Flowers, Hereford; Billy Nazworth, Friona, and Milton New, of Hereford.

Due to the length of the prize list, the names and placements are being published elsewhere in this issue of The Tribune.

## PANGBURN'S CANDY

Choice of those who prefer the best in fine candies. A large assortment, featuring nuts, fruits, caramels and soft creams all in your favorite type of milk or dark chocolate coatings. In assorted size boxes, and priced from 66c per box up. Drop in today and select your favorite.

FOX DRUG STORE

The local girls were not so fortunate in drawing, and will play Rosedale in their opener, next, if winners, taking on the Field-Pleasant Hill champion. The upper bracket puts Ranchvale against Melrose with Grady holding a bye to meet the winner.

Coach F. D. Spout listed Doshier as catcher, Ingram as pitcher, Johnson at first; Vigil at second; G. McDaniel on third; Curry at shortstop; J. Ingram at floating shortstop; and Caldwell as left fielder. Right and center field positions were not

definite on Tuesday, with Allred, Means, Moss, Sparks and Sanders vying for the assignments.

### TO DEALERS MEETING

O. C. Sikes, of the Sikes Motor Co., stated Monday that he, in company with Jake Winkle, head mechanic at the local garage, would attend a Ford dealers meeting and school in Albuquerque, which convenes today (Wednesday), and lasts through Thursday.
