### To Ease Women's Pain: "Build-Up"

Do you suffer periodically from headaches, nervousness, irritability, restlessness or cramp-like pains? If so, here's good news! These may be symptoms of functional dysmenorrhea, which is so often caused by undernourishment. By improving the appetite, digestion, assimilation, through the proper use of CARDUI, women by thousands find they are able to build strength, energy, and nerve-force. Thus, periodical pain is relieved for many uses of CARDUI. By taking it just before and during "the time," women by thousands report that CARDUI helps to allay the pain and discomfort of the period.—adv.

Daily, who has frequently visited in Big Spring, is a member of the insurance brokerage firm of Coffman and Daily at Austin. Mrs. Daily, daughter of Mrs. C. F. Duvall of Big Spring, has been associated with the Rix Furniture company here.

### MISS LANCENOTES

By Mary Whaley

The days of Captain Kidd and his buried treasure are no longer possible and form plots only for fiction these days. The gold rushes of the first of the century and earlier times are written in flaming words in history books but that is all in the past too.

Ah, sighs the lady of today, there is nothing left for us. But how wrong this is. In nearly every home there stands a cache of hidden treasure that can be unearthed every week.

Hidden away in a product of American manufacture there are many things waiting to be found—in the overstuffed chair and sofa. Into its soft and yielding depths, a procession of people sit during the week and the things they leave behind them! A pair of scissors, a clothes brush, hairpins, maybe a penny or a dime. And excitingly enough there never seems to be the same thing left twice.

There are sometimes matches, a lone cigarette, somebody's ever-sharp, maybe a crochet hook or finger nail file that has been lost for days. If it has been a busy week, there are letters to other people that make interesting reading, clippings from the paper, and circulars advertising many things.

Of course, it must be admitted that the hunt isn't as profitable as staking a claim in some golden region but it is a lot more certain and closer home.

**"NOBODY'S HOME YET!"**

**"MOTOR WOULDN'T START"**

**"BET THEY'RE USING LOW-TEST GAS AGAIN"**

The kid's right! It's a safe bet that the gasoline in the tank is not "hot" enough when any engine—in good mechanical condition—begins giving starting trouble as the weather gets colder.

It's an even safer bet that Phillips 66 Poly Gas will give you extra fast starting even on coldest days... because this sensational gasoline is extra high test!

Best of all, Phillips 66 Poly Gas costs nothing extra, since Phillips is the WORLD'S LARGEST PRODUCER of natural high test gasoline.

Why not get a demonstration in your own car of the difference this lively motor fuel will make? Check how it does away with starting trouble. Note the faster warm-up. The improvement in power and pick-up. The gain in smoother running. Besides, mileage is increased by the sharp reduction in the need for wasteful choking.

Find out how to run your car for less this winter by getting a trial tankful of self-demonstrating Phillips 66 Poly Gas, at any Orange and Black 66 Shield.

Jap Press Looses Barrage Against American Policy

TOKYO, Nov. 8 (AP)—Simultaneous attacks on American foreign policy by three of Japan's largest newspapers recalled today to observers the barrage of propaganda which preceded Japanese-British conversations last July.

Unanimity of the press comment, coming in advance of projected diplomatic talks to clarify relations between the United States and Japan, led these observers to believe it was officially inspired.

The newspaper Asahi, citing proposed expansion of the United States navy and Senator Key Pittman's suggestion of an arms embargo against Japan, declared the United States was preparing both economic and naval pressure against Japan.

Nichi Nichi said the United States, preaching peace while re-arming the arms embargo, was "like one monkey laughing at another because it has a red posterior."

The press insisted Japan should not occupy the "underdog position" in any conversations looking toward adjustment of relations with the United States.

Mrs. George Sowell of San Angelo is the house guest of her parents, Mr. and Mrs. Bill Campbell in the West Continental camp.

Mark Nasworthy of San Angelo has leased 8 sections of the home ranch of Mrs. Dora Roberts formerly operated by Ernest Clifton, who sold to Siegel T. Lewis of Kansas. Mr. Nasworthy also purchased some sheep from Mr. Lewis.

GETS LIFE SENTENCE

PHILADELPHIA, Nov. 8 (AP)—Samuel Sortino, 36-year-old defendant in Philadelphia's insurance murders case, was sentenced to life imprisonment today for complicity in the drowning five years ago of Raffaele Caruso.

He was the third to be sentenced of 13 persons who have pleaded guilty or have been convicted. Eleven persons are awaiting trial.

Others present were Mrs. Gordon Montgomery, Mrs. J. M. McCollough, Mrs. E. L. Patton, Mrs. T. G. Henry, Mrs. Don Mason, Mrs. Roy Doyle, Mrs. Frank Martin, Mrs. Elgin Jones, Mrs. Monroe Gafford, Mrs. Frank Adcock, Mrs. Lex James and Mrs. Dub Coats.

King Sides Speaks Before Senior High P.T.A.

King Sides, assistant superintendent, spoke on the subject, "Mary, Mary, Quite Contrary" to furnish the theme for the 'ay when the Senior High Parent-Teacher association met Tuesday at the school.

Mrs. James T. Brooks was in charge of three songs was sung by Sara Lamun, Anna Belle Edwards and Marie Dunham.

Sides in using the nursery rhyme as the theme of his talk pointed out the reasons for some children being contrary and means of avoiding these causes.

Approximately 35 persons attended.

Second Of Series Of Parent Education Study Groups Held

The second of a series of twelve parent education study groups being sponsored by Central Ward Parent-Teacher association was held Tuesday morning at the school with Mrs. E. J. Brooks, Mrs. H. C. Hamilton and Mrs. W. D. Berry in charge.

"Sing a Song of Sixpence" was the topic of the day. Attending were Mrs. O. B. Patton, Mrs. J. V. Birdwell, Mrs. O. M. Waters, Mrs. H. H. Hodde, Mrs. Bert Trice, Mrs. L. D. Jenkins and Mrs. H. E. Howie.

"Spiritual Guidance" will be the topic of the third meeting to be held next Tuesday at 9 o'clock in Room 118 at the high school. Mrs. C. E. Lancaster is to be in charge.

WASHINGTON, Nov. 8 (AP)—The postoffice department announced today the appointment of Ray E. Lee as acting postmaster at Austin, Tex.

Two weeks after the war of 1812 ended the Battle of New Orleans was fought. Communications were so bad that word did not reach either army in time.

DRAMATIC STAR

Arlene Francis, one of radio's most popular and versatile performers, is heard in the role of Gloria Wayne, heroine of "Beyond Reasonable Doubt." This fascinating serial drama, which also features Nick Dawson as Stephen Moore, is to be heard every Monday, Wednesday and Friday over Stations WFAA, WBAP, 8:30 to 8:45 a. m.

Entertain Classes With Party Tuesday

COAHOMA, Nov. 8 (SpI)—Miss Elizabeth Coffey and Mrs. W. C. Rogers entertained their Junior Sunday School classes with a party in the basement of the Baptist church Tuesday evening.

Games were played and refreshments served to Vernon Lee Clanton, Bobby Joe Bell, Durwood Finley, Futhie Woodson, Gloria McGee, La Vera Hayworth, Marjorie Reynolds, Mildred Thompson, W. C. Rogers, the Rev. and Mrs. N. W. Pitts, and the two hostesses.

SCHOOL SAFETY WEEK SHOWS GOOD RECORD

AUSTIN, Nov. 8 (AP)—School safety week closed without a public school age traffic fatality, officials of the Texas Safety association said today.

The record was all the more impressive, they added, because since January 1 the traffic toll has listed an average of four deaths weekly in the school-age group.

George Clark, executive secretary, pointed out Texans have proved they can drive and walk safely and urged that the record of school safety week be continued indefinitely.

### Sherrod Bros. Split Interests

Dissolution of partnership of B. and Paul Sherrod in reorganization of their business interests here and in Big Spring and Lamesa was announced last night to 75 members of the firm and their wives at a called meeting and dinner in north hall of Lubbock hotel. The change will become effective January 1.

Emphasis was placed on the fact that this arrangement of business was not a disbandment of the South Plains interests on the South Plains but merely a reorganization for the purpose of dividing wholesale and retail branches separately. Paul will have charge of retail division operating independently under the title of Sherrod Hardware company. B. will own and operate wholesale interest under a name yet to be determined and will operate the Big Spring retail store.

It was stressed also that all employees at the present time need not fear of losing jobs with the concern since the idea was for expansion rather than liquidation. All stores will continue with only slight changes except the Slaton store under the direction of N. R. Carter, which will remain virtually the same.

Sherrod Bros. Hardware company was organized in Lubbock in 1923 when the brothers were sole employees and served as clerks and bookkeepers as well as owners. The businesses have expanded until the present status with four large hardware stores and appliance companies scattered over the South Plains. The store at Lamesa is managed by Barney McKinney, and the Big Spring business is operated by Allen Cox. No change in personnel is anticipated when the change occurs, the brothers announced. The Sherrods have made no plans to change residence as a result of the dissolution.

### Italian Press Attacks Reds

ROME, Nov. 8 (AP)—The Fascist press joined today in an attack on the Communist International, re-asserting Italy's role as guardian of peace on the Danube and in the Balkans and assailing the motives of Moscow.

The newspapers widely reprinted declarations of Virginia Gayda in *Il Giornale D'Italia* which charged Soviet Russia with partial responsibility for the European war and with applying dangerous pressure in the Balkans.

Responding to the manifesto issued Monday by the Communist International on the 22nd anniversary of the communist revolution, the editor, often a reflector of government views, declared the Comintern "reversed the obvious proven truth when it presumed to assign to Soviet Russia the open mission of

guardian of peace on the Danube and in the Balkans."

That, he asserted, was the mission of Italy. He added that Italy's neutrality had "circumscribed the conflict in Europe which already has been widened by Russian intervention."

### ELECTION NOTES

By the Associated Press

**SURPRISE! SURPRISE!**

HARRISBURG, Pa., Nov. 8 (AP)—Irvin J. Hiney was jolted by a terrific election day surprise. He entered a voting booth thinking he was the democratic nominee for forward assessor—but found his primary opponent listed. A 100-vote error in tabulation explained the mix-up.

**"OLDEST" VOTER**

MERCER, Pa., Nov. 8 (AP)—Col. George Hamilton, 95, who cast his

first ballot in 1865, failed to vote for the first time in 74 years. His physician advised him to stay out of the rain.

**A.W.O.L.**

FAYETTE, Ohio, Nov. 8 (AP)—Three candidates in constable's race tied with one vote each and will draw straws to determine the winner. Robert Cook received 85 votes, but he moved to Morenci, Mich., this week and the 85 voters apparently hadn't heard.

**DEATH COMES**

MARTINSVILLE, Va., Nov. 8 (AP)—Voters of the Reed Creek district of Henry county re-elected William H. Friedell, 82, as justice of the peace in yesterday's general election. Friedell died 24 hours earlier of a paralytic stroke.

**FAMILY AFFAIR**

HILLSBORO, Ind., Nov. 8 (AP)—Benjamin and Raymond Eitner, brothers, ran for office on opposite tickets yesterday—and both won.

Benjamin, republican, was elected town clerk-treasurer.

Raymond, democrat, was chosen town trustee.

### Naval Appropriations For Year Are Three Times Previous 12-Year Sum

(Editor's Note: Congressional leaders are talking of increasing national defense funds in the 1940 session. The following article, second of two on defense costs, outlines current naval expenditures.)

By E. C. DANIEL

WASHINGTON, Nov. 8 (AP)—Unlike his 1940 automobile, the taxpayer's new battleship will cost him 250 to 320 per cent more than the last one he bought. And he is now buying eight battleships.

Between 1922 and 1938, United States naval expenditures remained constant at about \$300,000,000 a year. The navy merely held its own. An upturn in construction followed the inauguration of Franklin D. Roosevelt, a former assistant secretary of the navy, as president.

Since March, 1938, the navy has commissioned 112 vessels of all sizes. It is building 96 more, and naval appropriations for the current year have nearly tripled the 1922-35 figures.

For that money—which amounts to more than 50 cents a month for every man, woman and child in the country—the taxpayer gets a navy of 388 vessels actually in service, as compared with 300 early in 1917 and 228 in 1922. In addition to the ships being built.

**Six Battleships**

Six of the 96 under construction are 35,000-ton battleships. Contracts have been let for two more. The first one laid down was the North Carolina at the New York navy yard. Its estimated cost is \$65,788,000. The South Dakota, first of the six to be let to a private yard, will cost \$58,998,000. The two ships are virtually identical.

Before this expansion started, the last battleship built was the West Virginia, completed in 1923. It cost only \$26,894,768.

Officials reason for this advance of 250 to 320 per cent in cost include these:

1. Between 1934 and 1938, navy yard labor costs increased 15 per cent; private yard labor bills rose possibly 25 per cent.
2. Semi-finished materials advanced 20 to 35 per cent, and in isolated instances 200 per cent.
3. Ship design was improved, requiring more expensive and more complex construction.
4. The supply of skilled labor was not adequate for the rapid expansion.
5. Social security and other laws increased costs.

**Costs**

The navy now figures on paying \$35,000,000 each for two aircraft carriers under construction; \$22,300,000 each for four light cruisers; \$7,500,000 each for 34 destroyers, and \$6,500,000 each for 17 submarines. Auxiliary vessels and a fleet of 12

submarine chasers and torpedo boats make up the total of 96 ships being built.

Size is the key to the reasons why the taxpayer this year is digging deeper into his jeans. A navy second to none is the keystone of the nation's naval policy.

On October 1, the United States navy was still second only to that of Great Britain.

Fluctuating with the number of vessels in commission, the enlisted personnel of the United States navy had advanced from 54,234 in 1916 before our entry into the World war to 85,321 ten years ago and 116,600 today.

With enlargement of the fleet and consequent expansion of the personnel comes extension of shore facilities, with eight new off-shore naval bases and 12 new ones in the continental United States.

### Pension Fight Will Continue

WASHINGTON, Nov. 8 (AP)—Despite the overwhelming rejection of old age pension programs in California and Ohio, every politician in the capital will tell you that the country is going to hear a lot more on the subject before the 1940 presidential election.

For in the same breath that they conceded defeat in yesterday's balloting, leaders of the "ham and hock" plan and the Bigelow proposal declared that they would try again.

In addition, advocates of the Townsend old age pension plan are beginning a year's intensive "educational" campaign in key states. They have a twofold aim: first to get enough delegates in the national conventions next summer to influence party platforms; second, to win over enough members of congress to enact the Townsend bill.

The house roundly defeated the Townsend plan last June by a vote of 302 to 97, but it already is evident that the same measure—or a revised version—will be one of the first introduced in a new congress. Along with it will come various other old age pension proposals, some complicated, some of only a few paragraphs.

The ratio of old folks to the country's entire population is increasing steadily because of a falling birth rate. Congress took that and the growing pension agitation into account when it wrote the social security program, establishing old age insurance for workers and offering aid to the states in caring for the needy aged.

Brazil's gigantic coffee industry sprang out of plants that were brought 300 years ago from Arabia.

### Launch Drive For Members In Oil Assn.

MIDLAND, Nov. 8.—"If you live in the Permian Basin, you are in the oil business," is the basis of an appeal being made to the citizens of West Texas and eastern New Mexico by the newly organized Permian Basin association which launched its membership drive here early this week.

building, with H. B. Spence, formerly manager of the Colorado City chamber of commerce and who was recently named executive secretary of the Permian group, in charge. Purpose of the association, as set out in its constitution by which charter has been approved and granted, will be the scientific study of problems incident to the legitimate conduct of the oil business; the assembling and publishing of information beneficial to citizens of the Permian Basin, and the carrying on of a program of education and such other activities as may be beneficial to all interested, directly or indirectly, in the oil business. "All persons who sympathize with the Permian Basin association are eligible for membership," the officials stated. Pointing out that strength and

### Midland Will Dedicate Port On Nov. 18th

MIDLAND, Nov. 8.—Plans and arrangements for the ceremony dedicating the new Midland municipal airport on Saturday afternoon, Nov. 18, from 2 until 4 o'clock, are fast nearing completion, present indications being that one of the largest crowds ever assembled here will attend the program.

Dedicatory address at the airport will be made by R. Ewing Thomson, U. S. congressman, with other well known speakers also being scheduled to appear on the program. The Midland high school band and possibly other musical organizations will be presented during the dedication program of which John W. House, Midland oil man, is in charge.

Numerous army and commercial planes of various types are expected here for the occasion, the planes to be on exhibition during the afternoon. Several planes will be piloted here from Houston by Texas national guard officers on a cross country flight. Several commercial organizations have also announced that they will have ships at the airport that afternoon.

A free dance in one of the large hangars at the airport will feature the Saturday evening entertainment, arrangements for the dance, sponsored by the Midland Junior chamber of commerce, having been completed last week. A banquet will be given the visiting pilots and

army officers earlier that evening. Arrangements were being made this week to place a special exhibit on letters mailed at the Midland airport on the afternoon of the dedication ceremony.

Paving of runways and other improvements being made at the airport under the city's \$125,000 expansion program are scheduled for completion by the first of next week.

success of the association depends on representative membership by a large number, the campaign to secure members throughout the area served will be started, with

the first drive being made in Midland, where headquarters offices are located. Need of an organization where business men of all walks of life may band themselves together to protect and demand their just rights in furthering the development of the great Permian Basin territory was pointed out.

Such activities as equalization of taxes, proration and all legislative matters affecting business or homes of Permian Basin residents will come under work of the organization.

### CHAS. BANKS DIES

MANILA, Nov. 8 (AP)—Charles Sumner Banks, 62, who came to the Philippines in 1900 as a United States government scientist and became one of the most widely-known Americans in the islands, died today after a brief illness.

### To Organize Adult Class

A class organization meeting for adults interested in some phase of electrical work will be held in room 113 at the high school at 7:30 p. m. Thursday, E. C. Pennington, evening school coordinator, said Wednesday.

Some 14 men have indicated their desire to set up a class in the work, and H. C. Hamilton, graduate of Texas A. and M. college in electrical engineering, has agreed to serve as instructor. Hamilton is wire chief for the telephone exchange here.

Instruction will not cease for the men who enter the class when the initial course of study is completed, said Pennington, provided the men wish to continue on some other field of electricity.

One other evening school class has been sighted, machinery having been effected for a household service class for negro women serving as maids.

The field of instruction in the evening schools is virtually as limitless as the number of vocations, the coordinator pointed out in suggesting that others interested in organizing any sort of a class contact him at the school.

### Notables Ignore Reds' Celebration

WASHINGTON, Nov. 8 (AP)—Caviar, vodka and sturgeon failed to lure top-ranking government officials to the soviet embassy celebration of the "twenty-second anniversary of the great October socialist revolution" in Russia.

There were no cabinet members. There were no supreme court justices. There were no high-ranking state department officials.

Only two congressmen—Representatives Bohne (D-Ind) and Buck (D-Calif)—were recognized among the guests.

President Roosevelt was not in town but he never goes to such affairs. However, he did not send President Kalinin his customary congratulatory message, and no official comment was forthcoming.

Several congressmen who did not attend the embassy party made it clear that they did not merely forget. They were not sure, they said, that they wanted to eat pastry swirls or sausages on toothpicks under a picture of Soviet Premier Molotov, who criticized President Roosevelt and the administration neutrality legislation last week.

Ministers from Scandinavian and Baltic countries and the Czechoslovakian "minister without a country" were among the first to greet Dmitri Chuvakhin, soviet charge d'affaires.

Among government officials present were Edwin S. Smith of the national labor relations board and Leon Henderson, securities commissioner.

### AN ANALYSIS OF THE WAR DEVELOPMENTS

**By DEWITT MACKENZIE**

The first reaction of Europe's warring capitals to the new peace proposal apparently has been that they might better get ahead with their respective schemes for creating what the British Tommy would characterize as a world fit for bloomin' heroes to live in.

However, the governments while officially non-committal have indicated that the mediation offer of the queen of the Netherlands and

the king of the Belgians will receive careful consideration.

Whatever may be the ultimate answer, it will take a lot of doing to get the principals into a peace conference.

The outcome will depend on whether nazism and the Anglo-French brotherhood have irrevocably decided that Europe isn't big enough to hold both of them and that one must get the ax. That's what the war is about.

British Foreign Secretary Lord Halifax last night gave the allied version when he said they are fighting for "a new world in which the nations will not permit insane armed rivalry to deny their hopes of a fuller life."

### Wife Swapping Case To Trial

**RUSSELLVILLE, Ala., Nov. 8 (AP)—**The state arranged to open its case today against two men and two women accused of exchanging consorts, children, mules and 80 acres.

County Solicitor W. H. Key said a Franklin circuit jury would hear charges of wife-swapping against Will D. Johnson, 36; his wife, Annie Fay Johnson, 29; Odell Brand, 32, and his wife, Della Brand, 29, all of Red Bay, Ala.

Key said the couples drove to Fulton, Miss., in one automobile and were re-married February 24, the same day divorce decrees were granted the women with the provision they not re-marry within 60 days.

After the marriages became known, the decrees were set aside and bigamy charges placed, the solicitor declared.

Police Chief L. A. Jackson of Red Bay said Annie Fay Johnson, who married Brand, told him she and her second husband received two mules and a dog to 80 acres from Johnson. In return Johnson and Della Brand obtained custody of two of the five Brand children.

Johnson had no children by his first wife.

The couples have not lived together since their release under bond last May, Solicitor Key reported. "The womenfolk have been taking care of the children," he said.

### 'Surprise' Weapon Promised By Briton

**LONDON, Nov. 8 (AP)—**The British director of scientific research revealed today the existence of a surprise for the enemy in new weapons.

The director, whose name was withheld from publication although his interview was approved, said that any dictator who thought that scientists had given him the most devastating weapons possible would be making a silly mistake.

"If any dictator were to get a gang of scientists together and ask them to produce something more lethal than at present, they would give it at once, and possibly they have done so," he said.

"I do not imagine that there is going to be no surprise from the enemy in this war because we have certainly got one for him."

Six months before the war started, he continued, teams of scientists were organized to deal with any emergency so that "if a surprise were sprung on us," a quick answer could be given.

"There are certain methods of warfare which have not been adopted, perhaps for humane considerations," he concluded. "That reservation might break down and Britain must be prepared."

**ACCOMMODATING**  
**HARRISBURG, Pa., Nov. 8 (AP)—**Alderman J. K. Armstrong's brown bantam, "Biddy," is glad to accommodate.

### Sherrod Bros. Reorganizing Firm Setup

A reorganization of their business interests in Big Spring, Lubbock and Lamesa, has been announced by B. and Paul Sherrod, operators of Sherrod Bros. Hardware here, with a dissolution of partnership to become effective January 1.

The announcement stressed that this rearrangement of business was

ALLEN COX

not an abandonment of their hardware interests, but merely a "re-organization for the purpose of dividing wholesale and retail branches. Paul Sherrod will have charge of retail divisions, operating independently under the title of Sherrod Hardware Co. B. will own and operate the wholesale interests under a name yet to be determined, and also will operate the Big Spring retail store.

There will be no other changes in the local unit, it was said. Allen Cox will continue as manager here, and the remainder of the staff will be unchanged. There will be no employe layoffs at any point, the Sherrods announced, since the changes are for expansion rather than liquidation.

Sherrod Bros. Hardware Co. was organized in Lubbock in 1923 when the brothers were sole employes and served as clerks and bookkeepers as well as owners.

The business has expanded until there are four stores in the South Plains area and an extensive wholesale business. The Big Spring store was opened in the summer of 1938, as the most recent unit of expansion.

### ARRESTS EXPECTED IN NEGRO SLAYING

**MOUND BAYO, Miss., Nov. 8 (AP)—**Deputy Sheriff E. S. Dempsey of Cleveland said arrests were expected soon in the ambush killing of Eugene P. Booze, Mississippi republican leader, in this all-negro community. Shots from the darkness felled Booze as he left his office Monday night.

### GERMAN SHIP SAID SEIZED BY FINLAND

**HELSINKI, Nov. 8 (AP)—**Usually reliable sources reported today that Finland had seized a German ship, identified as the Blumenthal, in territorial waters off Finland's southern coast.

(The Blumenthal is not listed in the current Lloyd's register.)

Ninety-two years ago, historians record, Montana Indians "were greatly awed by the spectacle" of the first wagon in that territory. Peter Lomphrey with two Jesuit priests and scouts made up the party.

### Work To Iron Out Conflicts In US Arms Need, Foreign Buying

**WASHINGTON, Nov. 8 (AP)—**Forced to rely chiefly on voluntary cooperation, the army and navy are striving to make European war orders an aid rather than a hindrance to American defense efforts.

Officials said today that foreign contracts for arms and supplies, expected to reach \$1,000,000,000 in the immediate future, would raise a host of complicating problems.

The British embassy announced last night that Great Britain and France would coordinate their purchases in the United States to eliminate competition between them.

Thus far the British, French and other buying groups already here have cooperated in reporting their needs and plans to an official inter-departmental clearing committee. They do not have to do so, however.

Insofar as they increase the productive capacity of domestic aircraft and other industries, the foreign orders are welcomed enthusiastically. Allied purchases of arms and supplies totaling more than \$1,000,000,000 in 1914-18 demonstrated, however, that export sales create difficulties for the army and navy.

American arms plants were geared before 1917 to produce Enfield model rifles for the British army, with the result that the United States had to use their weapons instead of the Springfield rifle, which was considered to be superior, when this country entered the war.

This situation apparently was in mind when the army-navy aeronautical board relaxed its rules recently to permit the sales, aboard of late model warplanes and engines.

An anticipated result, officials said, is that aircraft manufacturers will keep their facilities geared up to more modern material than if they were required to sell only older models to foreign buyers.

For arms desired with a minimum of delay, foreign purchasers may have to concentrate on aircraft, engines and equipment, and small arms ammunition.

It is only in these lines, official reports indicate, that the United States has a munitions industry with surplus capacity beyond the requirements of the extraordinary \$110,000,000 army munitions orders for which congress provided funds last spring.

Because of this situation, some officials think Britain may prefer to finance munitions plants in Canada, depending on this country chiefly for such miscellaneous supplies as motor vehicles and food-stuffs.

### Soil Conservation, Erosion Control Project Sought

**SAN ANTONIO, Nov. 8 (AP)—**Plans are being pushed for a state-wide soil conservation and soil erosion control project through the WPA and federal soil conservation service.

Francis C. Harrington, commissioner of the WPA at Washington, conferring here yesterday with State Administrator Harry P. Drought, said he hoped for the project to get under way soon in Texas.

### Blomshield Better

**C. S. Blomshield, who has been ill for the past week from an attack of bronchial pneumonia, was able to be up a short time Wednesday. He is continuing to improve.**

### FOUR ARE DROWNED IN FLOODED MINE

**MIDLAND, Ark., Nov. 8 (AP)—**Recovery of the body of C. Evans, 53, Midland, raised to four today the number of miners who drowned in a sudden flooding of the Raines Coal company workings near here.

Others who lost their lives when water from an abandoned mine broke through the shaft where they were working were Jake Lay, 57, West Hartford; John Bona, 55, Hartford, and William McInnes, 53, Prairie Creek.
