Health Notes
By Texas Department of Health

AUSTIN—Hookworm disease is found frequently in those communities where sanitary toilet facilities are inadequate, and where infected human excreta is permitted to contaminate the soil. Persons who come in contact with that soil, either by going barefoot or by handling the dirt, contract hookworm disease when the hookworms from such soil bore through their skin and make their way to the human intestine.

"The main characteristics of hookworm disease", says Dr. Geo. W. Cox, Health Officer, "are listlessness and apparent laziness, and many a child and adult has been called lazy when in reality he was suffering from hookworm disease. Sometimes

there is abdominal pain, nausea, and diarrhea, but this is unusual." Inability to perform efficient work and general weakness of the patient make this disease not only a public health but an economic problem and it can be eliminated only by carefully following two steps: first,

providing sanitary disposal for human wastes, and by treating uncured, all infected persons. When the infected persons are cured, and can no longer transmit the worms to others, and when safe sewage disposal is at the command of all homes and communities, then hookworm disease need no longer cost the people of Texas the tremendous sum that it now does, annually, both in money and sickness.

Dr. Cox stated that the treatment of hookworm disease should be done by a competent physician, and not by self-medication. Full information for building sanitary privies may be had upon request, from the Texas State Department of Health, Austin

REVISION NEEDED

AUSTIN—Texas corporation laws are in need of revision, says a law professor in the current issue of Texas Law Review, University of Texas Law School publication. "The legislators who enacted in 1874 the last complete revision of the Texas corporation statutes probably had little idea of the dominant role that the corporate system would play in the economic life of the state today," Edmund O. Belsheim, Nebraska professor, writes.

DELEGATE TO FARM YOUTH CONFERENCE . . . Meta Marie Keller, 21, is the principal of one of the most dramatic stories in 4-H club history. She is the only known survivor of a "siamese twin" operation, and was picked from thousands of rural youths as a delegate to take a four-month trip to Europe under the international farm youth exchange project by the U. S. department of agriculture. She was chosen because of her outstanding 4-H club work.

SNAKES NOT SO BAD

AUSTIN—Snakes aren't as bad as you think, says a University of Texas zoology professor.

An authority on Texas wildlife, Dr. W. Frank Blair says there are only four poisonous snakes among

the many that live in the state. For every one of the poisonous coral rattlesnake, water moccasin and copperhead, there are 10 non-poisonous snakes that help mankind by eating harmful insects, he points out. His advice is: Learn to recognize the poisonous types and kill them,

but let the others alone.

Texas fertilizer sales for the fiscal year 1947-1948 amounted to 451,132 tons. This compares with 1936-37 sales of nearly 85,000 tons, 116,307 tons in 1939-40, and over 400,000 tons in '46 and '47.

A Change is in Order...

Change to OIL-PLATING!

Good Beginning! . . . For years of peak performance in your new car, start now to use Conoco Nth Motor Oil. An added ingredient in Conoco Nth attaches a wear-resistant shield of OIL-PLATING right to the metal.

Holds Up! . . . Conoco Nth won't break down under heavy loads. Conoco Nth is rugged!

Never Lets Go! . . . OIL-PLATING guards your engine like a bull dog. It can't all drain down, even overnight.

Pays Off! . . . Using fewer quarts between drains, you spend less money for oil. You save on repair bills . . . with Conoco Nth!

THE STATE OF TEXAS
COUNTY OF PARMER
SHERIFF'S SALE**

WHEREAS, on the 11 day of April, 1949, in Cause No. 1184, in the District Court of Parmer County, Texas, wherein The State of Texas, County of Parmer, and Farwell Independent School District were Plaintiffs, Impleaded Party Defendants, recovered judgment against Margarette A. Allen, G. McKee, N. H. Cruce, and Inter-State Fidelity Building and Loan Assn., a defunct corporation of the State of Utah, and its unknown stockholders, creditors and directors whose residence is unknown to plaintiff and plaintiff's attorney and the unknown heirs, assigns, and legal representatives of the aforesaid defendants, whose names, residences and addresses are unknown to plaintiff and plaintiff's attorney.

WHEREAS, on the 19 day of May, 1949, by virtue of said judgment and the mandates thereof the Clerk of the above mentioned District Court of said county did cause to be issued an Order of Sale commanding me as Sheriff of said county to seize, levy upon, and sell in the manner and form required by law the hereinafter described property;

WHEREAS, on the 19 day of May, 1949, by virtue of said judgment and the mandates thereof I did on the 19 day of May, 1949, seize and levy upon as the property of the above defendants the following described property, situated in Parmer County, Texas, to-wit:

(Said description showing the number of acres, original survey, locality in county, and name by which said property is most generally known.)

FIRST TRACT:
Lots 10, 11, 17, to 19, 31 and 32, Block 11, original town of Farwell, Parmer County, Texas.

And I will on the first Tuesday in the month of July, 1949, the same being the 5th day of said month, proceed to sell all the right, title, and interest of the Defendants in and to said property at the Court House door of said county in the city or town of Farwell, between the hours of 10:00 a. m. and 4:00 p. m. to the highest bidder for cash, provided, however, that none of said property shall be sold to the owner of said property directly or indirectly or to anyone having an interest therein or to any party other than a taxing unit which is a party to this suit for less than the amount of the adjudged value of said property or the aggregate of judgments against said property in said suit, whichever is lower, subject also to the right of the Defendants to redeem same in the time and manner provided by law and subject also to the right of the Defendant to have said property divided and sold in less divisions than the whole.

DATED at Farwell, Texas, this the 19 day of May, 1949.

**Take Your Family
To Sunday School**

Over the years I have been deeply impressed with the fact that families participating in Sunday school activities are also the families most interested in establishing a genuine home and progressive, wholesome community life.

The principles of religion taught in our Sunday schools are vital in the training of our youth and the con-

tinuance of this instruction in adult life strengthens parents in the guidance of their children and provide spiritual benefits derived only from this source.

Parents who do not carry out their duty of instruction by example fail to assume their responsibility in a manner which is detrimental to our Christian society and increases the need for teaching by organized religion.

If we would have an enduring Christian nation we must strive to reduce crime. The plain and simple maxims of the Bible contain the essential rules which should govern human conduct.

Southwestern Public Service Comany Presents "Hymns Of The World"

The Southwestern Public Service Company today announced plans for the inauguration on June 5th of a 14 station radio network to broadcast the company's new program "Hymns Of The World". The 14 stations are located in the Texas Panhandle, New Mexico and Oklahoma and the broadcast will be heard each Sunday at 12:45 p. m.

"Hymns Of The World" is an entirely new radio program featuring John Charles Thomas and The King's Men. The program has never been heard in this region and it will be an exclusive presentation of Southwestern Public Service Company.

The program will be originated at KGNC, Amarillo, and fed to the other outlets on the network over lines provided by the Southwestern Bell Telephone Company. It is believed that this is the first time that a network of this type has been used by an advertiser in this area.

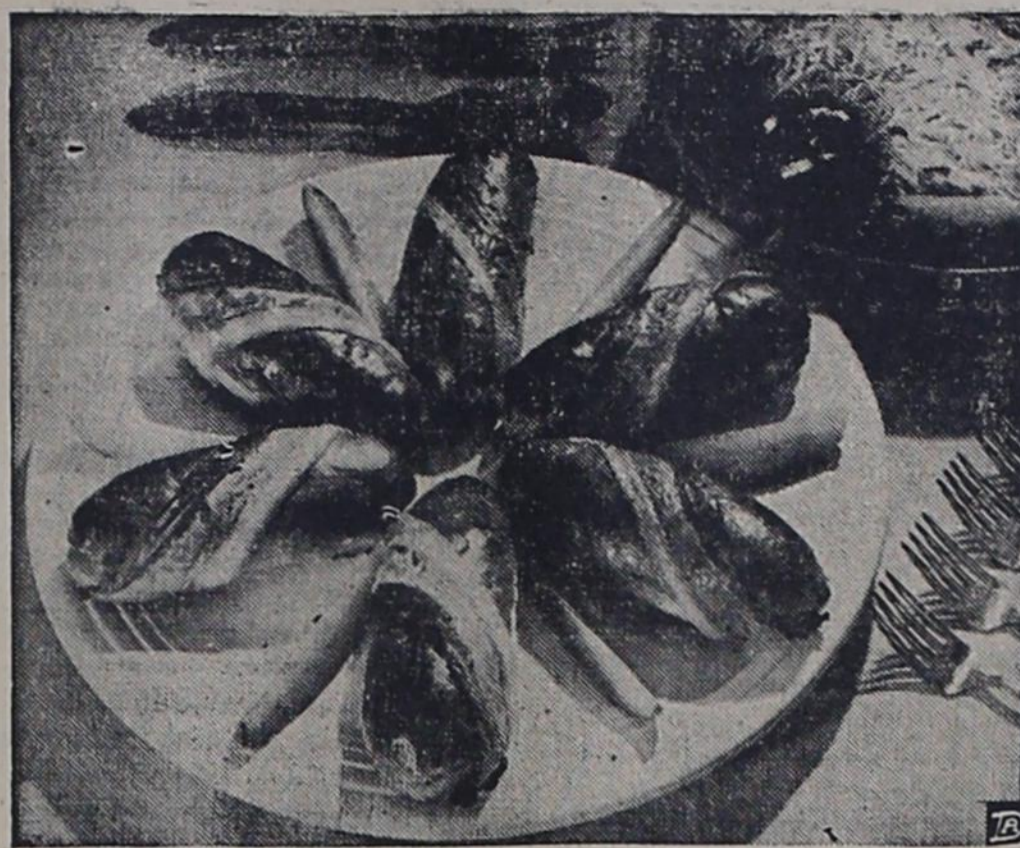

Stations which will carry the new program are: KHUZ, Borger; KXIT, Dalhart; KDDD, Dumas; KGNC, Amarillo; KPND, Pampa; KPAN, Hereford; KVOP, Plainview; KVOW, Littlefield; KICA, Clovis; KGFL, Roswell; KSVF, Artesia; KAVE, Carlsbad; KGYN, Guymon; and KFYO, Lubbock.

Bacon-Cheese Buns

Give finger buns a filling of cheese and a bacon wrap, and grill or bake to make delicious picnic sandwiches.

Here is a different way to use those frankfurter buns the youngsters like so well.

Fill buttered buns with a thick, but narrow strip of American cheese, wrap with bacon and grill in an outdoor fireplace or in the oven. Serve with a crisp carrot and cabbage slaw and milk.

Let the youngsters fix bacon-cheese buns for their lunch now that school is out and they are always asking, "Mother, what can I do?" You can point out a lesson in nutrition, too, for the enriched buns are an important source of B-vitamins and food iron, making buns a perfect supplement to calcium and protein in the cheese.

Bacon-cheese buns are a good flavor combination and an easy-to-prepare luncheon. Next time you stop at your bakeshop, get a supply of enriched finger buns to make a quick meal.

BACON-CHEESE BUNS

- Long finger buns
- Mustard
- Butter or margarine
- Cheese
- Bacon

Split buns. Spread one side with mustard, other side with butter or margarine. Place thin strip of cheese inside bun. Wrap strip of bacon around each bun and fasten securely with toothpicks. Grill or bake slowly until cheese melts and bacon is cooked.

Compared with the British inch, the American inch is two millionths of an inch too long; which is the least we Americans have ever stretched anything.

Texas Retail Sales Show One Percent Increase

AUSTIN—Estimated retail sales for Texas, exceeding \$424 million, increased 1 per cent in April over the preceding month, but declined 1 per cent from a year earlier, the University of Texas Bureau of Business Research reported.

Because of a late Easter, nondurable goods store sales rose 7 per cent above March to lead durable goods, which usually dominates Texas retail sales.

Florist's sales in April, with a 28-per cent gain over March, showed the greatest increase among nondurable goods stores. Sales of men's and boys' clothing stores climbed 29 per cent; shoe stores, 22 per cent; and family clothing stores, 21 per cent.

Sales of grocery stores without meat and combination stores, rising 5 and 3 per cent, respectively, contributed to the 2-per cent hike in the over-all food picture.

Although small gains over March were recorded by jewelry (1 per cent) and furniture and household stores (3 per cent), durable goods store sales declined 5 per cent from the previous month. Sales of lumber and building material dealers fell 10 per cent; farm implements, 9 per cent; and motor vehicles, 6 per cent.

Over the April-to-April span wider fluctuations were registered by Texas retailers. Sales of motor vehi-

cle dealers went up 19 per cent; and automotive stores, 14 per cent; while building material, lumber and hardware sales slipped 25 per cent; jewelry, 17 per cent; and furniture stores 15 per cent.

Retail sales of nondurable goods remained almost unchanged from a year earlier, with florist's sales jumping 42 per cent over the 12-month period. Next closest gains showed shoe stores rising 32 per cent and women's specialty shops, 11 per cent.

Filling station sales dropped 16 per cent in April below April 1948 to show the deepest decline, being followed by country general stores, down 6 per cent, and men's and boys' clothing stores, both down 6 per cent.

"SWINDLING" ROMEO'S

One swindling Romeo made \$12,500 a year by marrying a number of women! Another passed himself off to an elderly widow as an FBI man and in return for her bank account swore her in as an FBI "agent"! Read this and many more absorbing articles in The American Weekly, that great magazine distributed with next Sunday's Los Angeles Examiner.

This year, with sugar plentiful and prices down, the flow of other sweetenings, such as syrup, molasses and honey, to market has slackened very noticeably.

Pre-School Clinic Will Be Held at Texico, 9th

According to a report from officials of the school, a pre-school clinic will be held at Texico on Thursday, June 30th, beginning at 1 p. m. The county school health nurse, Mrs. Wiggins, and the county health doctor, Dr. Cotman, will be present to conduct the clinic.

Parents who have children eligible to enter school next fall are urged to bring unvaccinated youngsters to the clinic, as New Mexico law prohibits entrance without inoculation. Patrons are asked to bring two bath towels and several safety pins for each child to be vaccinated.

The clinic is being sponsored by the Texico Parent Teacher Association.

House Constructed By Vet Class Members

Lloyd and Earl Routon, of the Oklahoma Lane community, who are members of the Farwell class of the Parmer County GI vocational school have recently completed construction on a four-room modern dwelling for their father, D. B. Routon.

The dwelling is located on Earl's farm, 1/2 mile south and 3-4 mile east of the Oklahoma Lane school. With the part-time aid of their neighbor, Oscar Hubbel, and the assistance of their father, the Routon boys, using acquired skills and utilizing their spare time during the early spring months, started from the ground and completed the house except for stucco, in six weeks.

The only outside assistance the boys had was in wiring the house for electricity, and this work was conducted as a demonstration by Group No. 2 of the local GI class. "We believe this is an outstanding example of what can be done by men with initiative and training," Wilfred Quickel, director, said today.

Mrs. Davidson, Former Bovina Resident, Dies

Mrs. Hubert Davidson, former Bovina resident, who has been making her home in Albuquerque for several months, died Monday afternoon in an Albuquerque hospital, following a lengthy illness.

Funeral services will be held this (Wednesday) afternoon in Albuquerque, at 4 p. m.

Survivors include her husband, Hubert Davidson, and two daughters, Vivian Earl and Barbara Jean Davidson, Albuquerque; a sister-in-law, Mrs. Jack Stagner, a brother-in-law, John Dial both of Clovis.

HOME FROM HOSPITAL

Jack Crane, who for the past several weeks has been under treatment of doctors in a Clinton, Oklahoma, hospital, following an operation in which he lost a leg, was released from the hospital last Saturday.

According to reports received locally from Oklahoma, Crane is able to be up part of the time, and is learning to use crutches.

Joe Camp, Secretary

Summerfallow Practice

Any of you producers who are going to summerfallow this year can receive 60 cents per acre for the practice, if you carry it according to government specifications.

Requirements are as follows: first, you must secure prior approval from the county ACA office, plow the land as often as necessary, keeping the trashy substance as near the surface as possible, and then turning the prior approval back after the practice has been completed, which will be about the middle of August.

Cotton and Wheat Allotments

There are still a few farmers in the county who have not turned in an acreage report on acres of crops planted in 1941, 1945, 1946, 1947, 1948 and 1949. In order to be eligible for an allotment you must turn in this report. In the event you fail to turn in this report, the County Committee will establish an allotment for your farm, based on acreages on near-by farms, but this may not be as much as you would be entitled to if you had submitted a report on your farm.

There are yet a very few farmers in the county who have not signed their 1948 applications for payment. These must be signed by June 30, 1949. There have been several government checks paid in the county. The rest should be out soon.

Few Local Businesses Are Closed, Monday

Few local businesses took advantage of closing on Memorial Day, with the exceptions being the courthouse, the two postoffices, the bank and Sikes Motor Co.

In a number of instances, some employees were "off for the day", but the "bosses" were on the job and trade continued much as usual.

Mrs. Tessa Tapp, of Lubbock, spent the Memorial Day holiday in the home her parents, Mr. and Mrs. G. D. Anderson, in Farwell.

Prevent destruction of eggs. Never stamp eggs on the large end. Keep the shell end down and the large end up when packing eggs. Open eggs as carefully use care in removing shells, replace flats and fillers, don't top cases—and make every case go the more trip.

An Amazing Paint Luninall

• This nationally famous paint grows more popular each year.

Use it on any interior work wherever a first finish is desired. Very economical. An excellent finish for living quarters, bedrooms, halls, closets, etc. You can apply on masonry walls of basement or without size filler on wallboard finish in attic.

Purina's Profit Pair For The Progressive Dairyman

SHE NEEDS A Special RATION WHEN DRY...

- TO DROP A BIG, STRONG CALF
- FOR EASY CALVING
- FOR LOTS OF MILK NEXT LACTATION

The dry cow has a job to do. She's building her calf—actually builds 2/3 the calf in the last two months. That's why she needs a body-building ration to keep up condition for calving and for her next milking period.

PURINA DRY and FRESHENING CHOW

IT'S MILK PER BAG OF FEED THAT COUNTS!

Yes, it's the milk in the bag that pays off in this dairy business. You can't fool the cow, because she produces the right quantity and quality only if she's fed the right quantity and quality. On the Purina dairy plan feed-

ing Milk Chow and roughage you're assured of putting the right ingredients into your cows. Milk Chow is first, last, and always a milk-maker. Ask us about Milk Chow. It's a real milk-maker.

Sale Of Series 'E' Bonds Slow In Parmer

Parmer County has achieved 17.36 per cent of its quota in the Opportunity Drive for the sale of Series E Savings Bonds, Frank Spring, county chairman, announced today.

The drive officially opened on May 16 and sales for this county through the first week totaled \$6,075.00, according to a sales report received from state Savings Bonds headquarters in Dallas. The county quota is \$35,000.00. The report carries sales through last Saturday (May 21).

The report also showed that sales for Texas were \$19,460,304, or 52 per cent of the state quota of \$36,950,000.

Several counties reached and exceeded their quotas during the first week of the drive and numerous others showed sales of 50 per cent or more of quotas, causing Nathan Adams of Dallas, state Savings Bonds chairman, to predict that Texas will far exceed its quota "in the most successful Savings Bonds campaign since the war." The drive will continue through June 30.

Counties already having reached or exceeded their quotas are Andrews, Bailey, Blanco, Cass, Coke, Dawson, Ector, Goliad, Hall, Irion, Kimble, Lampasas, Mills, Montgomery, Newton, Scurry and Stephens.

Barley Can Be Grown Successfully in Texas

COLLEGE STATION—There are three types of barley available that may be grown successfully in Texas, according to J. E. Adams, head of the Texas A. and M. College department of agronomy.

Results of recent tests by Texas Agricultural Experiment Stations in the northern part of the Rolling Plains indicate recommendations of fall seedings of the true-winter type varieties in this area as well as in the Panhandle. These barley variety tests were conducted under the supervision of Superintendents J. Roy Quinby, of the Chillicothe substation; L. E. Brooks of the Iowa Park substation, and Dan I. Dudley and I. M. Atkins, of the Denton substation. Other tests were run at the Greenville substation, where D. I. Hooten is superintendent, and at Stephenville under the direction of Superintendent B. C. Langley.

The cold resistant true-winter type varieties recommended for the Rolling Plains and the Panhandle areas include Reno, Ward, Wisconsin Winter, Michigan Winter, and all strains of Tennessee Winter. None of these varieties is recommended for spring seeding, these substation superintendents say.

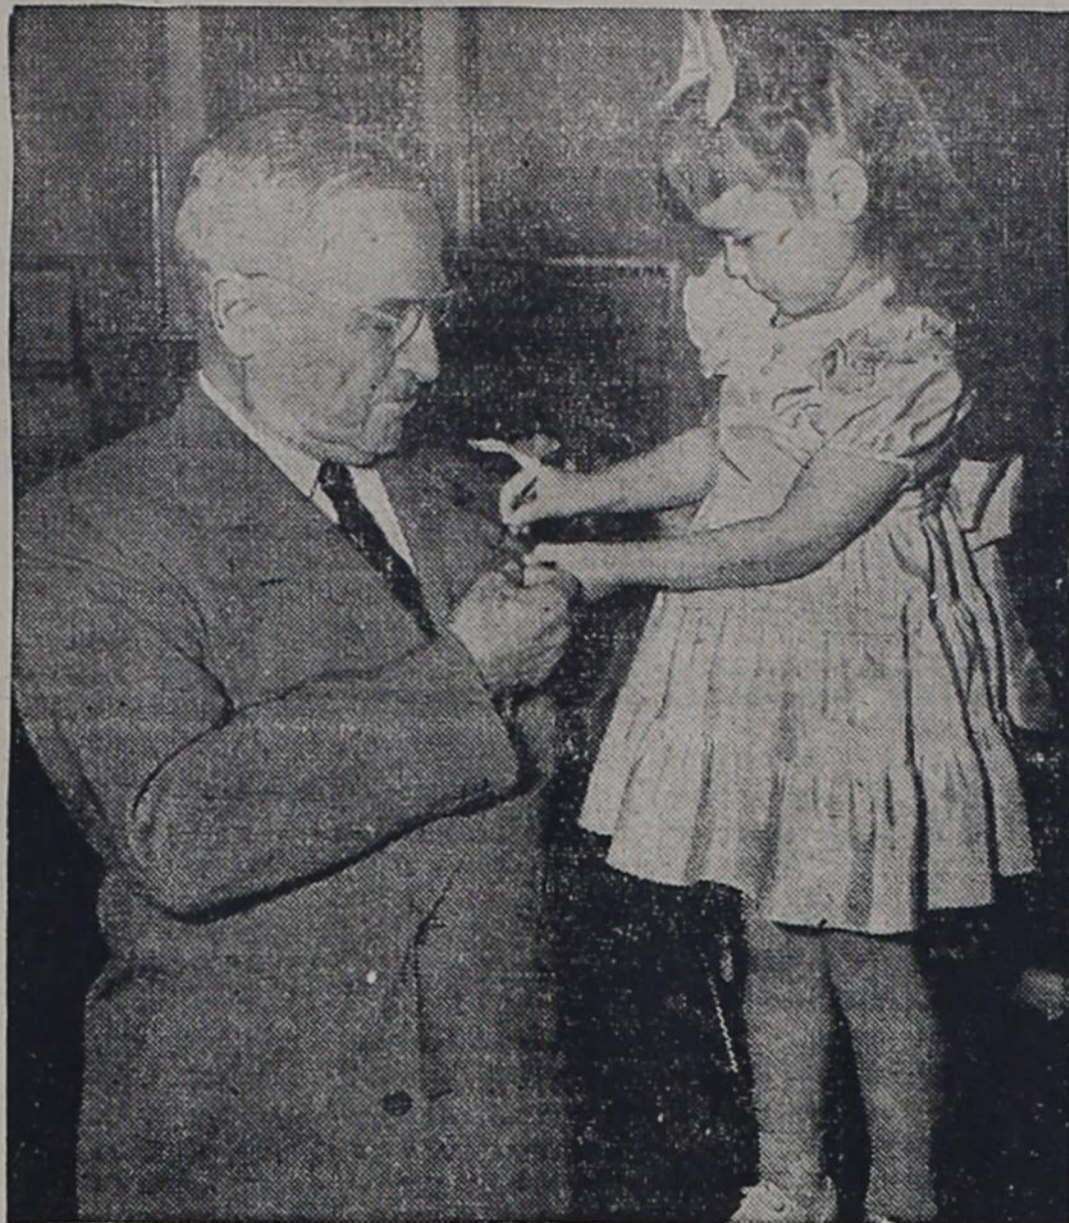

The fall habit growth of these strains is similar to that of the win-

ter wheat with narrow, dark green leaves that lie flat on the ground, says Dr. Adams. For Texas conditions, Reno and Ward are the best varieties. At the Denton, Greenville, Iowa Park, Chillicothe and Stephenville substations, Reno yielded 24.5, 22.7, 40.3, 42.3, and 23.4 bushels per acre respectively. At these same stations, Ward yielded 27.2, 22.2, 42.8, 34.6, and 20.6 bushels respectively.

Intermediate winter-type varieties for Texas are Wintex, Tenkow, Texan, Smooth Awn 86 and Texas Winter. These varieties are less cold resistant but usually survive. And where they can be grown are generally more productive than the fall seeded types, Dr. Adams says. They also have the advantage of being planted as late as February 1 with fairly satisfactory results. The intermediate varieties produce quicker and more abundant fall pasture than other barley types.

Wintex and Tenkow are the high yielding strains well suited to fall seeding in the North Central and Rolling Plains of the state. They do have their disadvantages, too, however, in that they have heavy, rough awns, and are susceptible to mildew and stripe.

Texan barley is a smooth awned variety that is resistant to mildew and moderately resistant to other barley leaf diseases. It is rather widely adapted, producing high yields from fall seeding. And it's

New Mexico's Bond Quota Increased

Treasury officials in Washington have notified Edwin G. Hobbs, State Director of the U. S. Savings Bonds Division, that the New Mexico Bond quota has been raised to \$2,500,000 for the Opportunity Bond Drive, May 16—June 30, an increase of \$150,000.

The quota was raised for New Mexico and other states to make up for losses of quotas in counties which have recently been struck by tornadoes and floods. Plans for moving \$1,040,000,000 more of the \$252,000,000,000 national debt into the hands of individuals require that the national quota be retained.

"It has not been decided by the state advisory committee how this increase is to be divided among the counties," Hobbs said. "It will take hard work on the part of each county chairman and his committee to attain the quota already assigned," he predicted. "Perhaps some of the counties can exceed their own quotas by amounts great enough to take up the increase," he concluded.

GRAPEFRUIT JUICE DOWN

AUSTIN—Grapefruit juice canning in Texas for the 1948-49 season through April 30 fell 44 per cent from a year earlier to 4,944,258 cases, reports from the Texas Cannery Association to the University of Texas Bureau of Business Research showed. Shipments for the 1948-49 season through April 30 totaled 3,529,039 dropping 37 per cent from the like period of last season. Stocks of grapefruit juice, amounting to 1,807,443 cases on April 30, were 55 per cent under a year earlier.

YEARBOOK DEDICATED

LUBBOCK—The 1949 La Ventana, Texas Technological college's yearbook, is dedicated to Amon G. Carter of Fort Worth. The dedicatory inscription relates Carter's early interest in the establishment of Texas Tech as far back as 1916, seven years before the college was chartered by the state legislature. He also served as chairman of the first board of directors and is cited as having "given generously of his time and money to further its growth".

better adapted to spring seeding than any other winter or intermediate winter type.

Further results of tests run at these substations show that the best spring planted varieties are Stravropol, Flynn, Beacher, Vaughn and Coast. These varieties should not be fall seeded. However, they may be used for spring seeding in the Panhandle area or in extreme South Texas.

The county extension agent or the nearest Experiment Station has information on the prevention and control of smut and such leaf diseases as leaf and stem rust mildew and stripe. Dr. Adams concludes.

Home dry cleaning with flammable liquids has disfigured or fatally burned many persons and burned houses to the ground or demolished them with explosions. Commercial cleaning is not only more effective and much safer.

FELLOWSHIP GRANTED

AUSTIN—Research Corporation of New York has granted \$2,500 to Dr. Philip S. Bailey, University of Texas chemistry professor, to continue his research in organic chemistry.

The fellowship, now in its second year, was established for fundamental research which would add to the theory of reactions for certain chemical groupings. So far, Dr. Bailey has obtained information dealing with the mechanisms of reactions useful in the synthesis of drugs and other organic materials.

Lack Of Pitcher Proves Downfall For Squad

Lack of an adequate pitching staff proved the downfall of the Farwell baseball squad, Coach Wilfred Quickel reported today, with his team losing an 18-2 battle with the Lazbuddy squad No. 2, on Sunday.

Raymond White, regular pitcher, was out with a sore arm, and subs Toby Booth and Scott Billingsley failed to show. Dollar started the game on the mound and went four innings, being relieved by Porter, who lasted two rounds. Smith took over and retired seven batters.

Other players Sunday included London, catcher; Robertson, third; G. Phillips, shortstop; B. Phillips, left field; Read, utility infield; Darr center field; Camp, right field, and Quickel, center field.

The locals will go on the diamond again on Sunday, with Friona playing host. That squad boasts a formidable array of pitchers, fans point out, but the locals hope to improve the showing they have made recently, in losing to Bovina and Lazbuddy.

Seed Treater Built By Local GI Class

Wilfred Quickel, instructor for the Farwell veterans' vocational class, announced this week that the group has recently completed building a seed treater.

The machine is to be left at the shop building at the local high school and is available to anyone desiring to use it, Quickel added. Persons wishing to treat seed should contact either Quickel or Robert Morton, who will unlock the shop.

Squealing Good Time Held At Courthouse

"A squealing good time" is reported from the local courthouse, Saturday, when Parmer County 4H club boys gathered to receive their annual Sears Foundation pigs.

Some eight gilts were assigned the clubbers, along with one boar for service. All the animals are Chester White breed, and are registered, County Agent Ollie Linder added.

Receiving the pigs were Bobby Calaway, Larry Ezell and James Tidenberg of Bovina, Jimmy Norton, Charles Phillips and Donnie Carpenter of Farwell; Jerry Gleason of Lazbuddy, and Troy Christian of Oklahoma Lane.

Breeding Program Is Slow, Morgan Says

The majority of Parmer County herd owners are slow to take advantage of the artificial breeding program instigated locally some weeks ago, Herschel Morgan, inseminator, reported today.

He went on to explain that in most instances, the Texas breeders plan production for winter months and are delaying on the program.

Considerable work has been done around Portales, and in Curry county, Morgan added. Interested herdsmen are invited to contact either Morgan or County Agent Ollie Linder for full particulars on the program.

Some Leases Dropped, Others Are Renewed

Oil activity in Parmer County has apparently simmered down to the stagnant state, a survey here the first of the week revealed. It is understood here that both Skelly and Sunray, who held blocks in the Lazbuddy community, have dropped their leases.

On the other hand, the Shamrock company has recently paid rental fees on their block south and southwest of Bovina, and reports here are to the effect that Humble is renewing leases by rental on its block in the Rhea community.

A number of tests have been drilled over this general area during the past several years, but nothing other than dry holes has resulted.

India and Afghanistan are connected by the Khyber Pass.

Parents Reminded Of Pre-School Clinic

Parents in the Farwell school district were reminded today of a checkup clinic which will be held for pre-school children, at Farwell, on Friday, June 3rd.

The clinic will open at 2 p. m. in the homemaking department of the school with Dr. H. H. Cooke, county health officer, of Friona, in charge. Primarily, the clinic is to make a survey on children who recently received inoculation shots, officials said.

Parmer Students Get Degrees At Tech

Ten degrees were awarded Parmer County students on Monday, May 30, when commencement exercises were held at Texas Technological College, in Lubbock. In all, 1,233 students were candidates for bachelor and master degrees at the spring exercises.

Three of the group are from Farwell, including Joan Booth, daughter of Mr. and Mrs. Earl Booth, who received her BA in English; Jim Cleve Dixon, son of Mrs. Ruby Dixon, who completed his work in January for a BS in agriculture; and Billie Joe Brown, son of Mr. and Mrs. Travis Brown, who was awarded a BS in petroleum engineering.

Paul Conner Smith and John Robert Kimbrow, both from Bovina, received their degrees, with Smith completing a BA in government and Kimbrow finishing his BS in chemical engineering.

From Friona, Eugene Francis Southall received a BS in agriculture and Howard Louis Loveless completed his BS in textile engineering, last fall. John Keith Wells received his BS in petroleum geology and James Albert Montgomery received a BA in accounting. Both boys are from the Lakeview community, near Friona.

A former Friona resident, Ray Eugene Hurst, completed work for a BS degree in petroleum geology.

back. Don't ever do it . . . your life will become a nightmare. Other dormmates who just hadn't the constitution and staying power to survive all this, pulled up stakes and sought greener pastures. By mid-semester, only the cream of the crop of hoodlums was left, and our section of the hall had picked up the nickname "Tin Pan Alley."

I was initiated into one of those Greek fraternities, and readers who may have undergone the same treatment can have some sympathies for my feelings.

As I began my studies, I suddenly discovered two psychologists who had a peculiar interest in my personal life. Later, it was found that this was what they were in college for, but I still thought it strange that these fellows cared so much for me and what I wanted to be. I was examined and cross-examined until I felt not unlike the rooster that laid the egg. After about four hundred questions had been answered, the counselor peered at me through his heavy spectacles from behind a steaming pipe and informed me that I was "pretty well off" as far as my mental health was concerned. This was a great consolation to me, because, judging from the worried glances he was casting my way, I had begun to suspect that I had come unhinged.

One thing I know for sure. When you have made out a budget for a year at college, and are sure that you have included all possible expenses, sit back and admire your masterpiece of economics. Then double the total. You'll never be far

from wrong. Never before in my life have I been to a place where people could think of so many things to spend money on. Five dollars for this, twenty dollars for that. If you don't believe it, just try it—once.

Next year I'm going to take one of those little folding chairs with me when I go back; I have a most suitable use for it. Any college student will tell you that he spends about half of his time (particularly during the beginning of each semester) standing in line. We stand in line for books—we stand in line for tickets—we stand in line for food—we stand in line for refreshments. One dejected student remarked we were lucky we didn't have to stand in line at "the necessary."

My study hours were further hampered by a steady stream of students who quickly found out I had a large amount of canned music in a box in my room just waiting to be uncorked. After about twelve lovers, of fine (and loud) music had gathered in my cracker-box room, the fun began. With so many present, and about six separate conversations going on at the same time, the record player, out of sheer necessity, was turned to its highest volume. This in turn caused all the visitors to raise their voices in order to be heard. Before you knew it, people were shouting at one another through dense clouds of cigarette and cigar smoke, while the phonograph strained forward, bleating at the top of its tutes to outshine the rowdy crowd. Over in a corner on the remaining iron chair sat the writer, diligently trying to soak up some "book learnin'."

Ah, it's really the life.
