

JULY 4th, 1978 - 202 YEARS OF FREEDOM

# INDEPENDENCE DAY

Somebody turned the burner up on the Panhandle. However, this time of the year is generally the hottest time of the year for the Golden Spread. If we do not get hundred degree days in the latter part of June we can often miss the century mark all summer. Some years the Twin Cities will fail to achieve an official one hundred degree reading all summer and others will see us sweltering as this past week has shown.

Being hot is a relative matter. More a matter of relative humidity than true temperature. We would rather experience a hundred degree day in the Panhandle than an 85 degree day in Houston, for example. Out on the great Golden Spread even on the hottest days, a little shade along with our usual modest breezes will keep a body reasonably comfortable. We can't say the same for the lowlands, be they in Houston or Peoria, Illinois.

In spite of the torrid temperature now prevailing it looks dimly like there will not be a hot time in the Twin Cities for the Fourth of July. At the present time we have not heard of a local activity on that important day in our nation's history.

All that it takes for evil to succeed is for good people to do nothing. Every country has two enemies. There are nations that threaten us, so we have our armed forces to protect us from them. But our worst enemy is from within ourselves, our laziness, self-centeredness, immorality, pessimism, cynicism and just lack of good common sense.

Maybe thinking cool will keep us cool. So here are some New Year's Resolutions that are worth implementing even on June 30th.

1. Keep skid chains on your tongue. Always say less than you think.
2. Make promises sparingly and keep them faithfully no matter what it costs you.
3. Never let an opportunity pass to say a kind and encouraging thing to or about somebody. Praise good work done regardless of who did it.
4. Be interested in others, interested in their pursuits, their welfare, their homes and their families. Let everyone you meet, however humble, feel that you regard them as a person of importance.
5. Be cheerful. Keep the corners of your mouth turned up. Hide your pains, worries, and disappointments under a pleasant smile.
6. Preserve an open mind on all debatable questions. Discuss, but don't argue. It is the mark of superior minds to disagree and yet be friendly.
7. Let your virtues, if you have any, speak for themselves and refuse to talk of another's vice. Discourage gossip. Make it a rule to say nothing of another unless it is something expected.
8. Pay no attention to ill-natured remarks about you; simply live so that nobody will believe them.
9. Don't be too anxious about getting your dues. Do your work be patient, keep your disposition sweet, forget self and you will be respected and rewarded.

That old duffer says the quickest way to meet new people is to pick up the wrong ball on the golf course.

## Raising Old Glory

Gary Haseloff of Farwell prepares to hoist the Stars and Stripes in celebration of Independence Day which is next Tuesday. The Fourth of July promises to be a quiet one in the Twin Cities with no formal observances planned by any group. However, citizens should keep in mind the founding fathers who fought to give us our freedom and who made it possible for us to celebrate our 202 years of independence. Gary, the son of the Adolph Haseloffs, joins all those who would fly their flags July 4 in saying, "Happy Birthday, America."

## Bonds Forfeited - -

# City Solicitors Fail To Appear In Court

Three members of the Unification Church who were to appear in Farwell City Court Monday for allegedly selling flowers and artificial bugs in the city without a permit did not appear, thus forfeiting the personal bonds each posted following their arrest.

Terrence E. McKnight, 25, and Peter Califano, 24, both of Austin, were arrested May 31 by City Marshal Ronnie Mitchell for allegedly selling flowers within the city limits of Farwell without a permit. Each posted a \$25 bond.

Kim Hought, 26, of North Glenn, Colo., was arrested Thursday of last week for allegedly selling artificial bugs without a permit. She also posted a \$25 bond.

Mitchell said he had received reports of other church members also selling things in Farwell but was unable to locate them. He added that a problem sometimes arises because these people were also soliciting across the tracks in Texico - a town which has no city ordinance pertaining to selling without a permit.

When the three "Moonies" - as followers of the church are sometimes called - failed to appear before Municipal Judge Carrell Watkins Monday, their bonds were automatically forfeited.

According to Watkins, fines for unlawful soliciting range from \$1 to \$200. He added that any organization may apply for a permit to sell within the city limits and if the request is okayed, a permit is issued for one year. The cost of the

permit per organization is \$10. In order to protect city residents from unlawful salesmen, Mitchell encourages everyone to report any door-to-door salesman who does not have the proper permit issued by the city.

Maette Horn of Clovis also forfeited the \$100 bond she posted last week. She was to appear before Watkins Wednesday morning of last week for alleged shoplifting and being

drunk and disorderly. She was officially charged with theft under five dollars and being drunk and disorderly. However, when she failed to appear in court the bond was forfeited and Watkins also issued a warrant for her arrest. But she would have to be within the city limits before the warrant could be executed, Mitchell explained.

The incident in which the Clovis woman was involved occurred June 17 at the Allsup's store in Farwell.

# Texico Council Reviews Waste Disposal Problems

Solid waste disposal problems dominated the agenda of the Tuesday night session of the Texico City Council. Donald Souther of Clark Equipment in Albuquerque discussed various aspects of the solid waste program with the Council including several different truck types which might be used. He is to send cost estimates for three different units for the Council's consideration.

Souther is also to notify the City Trustees when a special demonstration of the new "rapid rail" solid waste disposal system will be held in Carlsbad. According to Marie Christian, trustee and acting city clerk, this new approach involves one man and a push button type operation.

She pointed out that until they "come up with something" they will have to comply with Option 3 of the Environmental Improvement Agency's guidelines for collecting and disposing of trash. According to Option 3, all existing trash pits must be covered and packed and new pits dug for future dumping. The work is to be completed by July 1, Mrs. Christian said. As of Wednesday she said they were starting to work on the requirements and expected to have them completed by the specified date.

Repairs to the big well were discussed but no action was taken. Trustee Vane Doshier is donating an oil reservoir to be used to keep water from

Plans Shaping Up - -

# Chamber Discusses BTD Celebration

Farwell Chamber of Commerce members discussed the upcoming Border Town Days celebration Tuesday during the organization's regular monthly meeting.

The annual celebration is slated for July 27-29. In addition to three performances of the High Plains Junior Rodeo - which begins nightly at 8 p.m. CDT - a host of other activities will also be on tap throughout the three-day observance.

A highlight of Saturday's activities will be the annual parade which the Texico-Farwell Lions Club will sponsor this year for the second consecutive time. Jerry Yows, parade marshal, said the parade will get underway at 1 p.m. All entrants will meet in front of J.J.'s Mobile Homes in Texico and proceed east through Texico and Farwell.

Yows said that as of this week only three organizations have contacted him regarding having a float in the parade. Another entrant will be a combined Texico and Farwell schools band. Yows indicated he is in the process of contacting the Cannon AFB band and the Clovis Shriners band regarding their participation in the annual event.

The parade marshal said he also hopes to have entries from riding clubs and antique auto clubs from the surrounding area. Youngsters are also encouraged to "let their imaginations run wild" and decorate their favorite bicycles or other means of transportation for the parade.

To add a little "spice" to the BTD event, trophies will be awarded to the top riding clubs and cash prizes of \$25, \$15 and \$10 will be presented to the first, second and third place floats.

Also, it was hoped that a

cash prize of \$25 will be donated to be presented to the riding club which garners top honors.

Anyone wishing to enter the parade is asked to contact Yows at 481-9131 or 481-3437.

Chamber members also discussed the possibility of staging a Miss BTD contest prior to the Twin Cities celebration. It was suggested that perhaps the local sororities, Alpha Rho Lambda Chapter of Beta Sigma Phi or Theta Rho Chapter of Epsilon Sigma

Alpha, might be willing to sponsor the contest and assume the responsibility of being in charge of discussing the suggestion with the sororities.

Several Chamber members expressed a desire to have the Miss BTD contest for young girls - aged 14-18 only - and to have her reign over the entire celebration rather than just the rodeo as had been done in the past. The general feeling is that it will be fairer if all eligible young girls are given the opportunity to com-

pete rather than to limit the contest to just those who are capable of riding a horse.

The annual Old Fiddlers contest will once again be a part of the annual BTD festivities. First, second and third place prizes will also be awarded.

Texico Chamber of Commerce is planning to assist and participate in the Twin Cities celebration, but will meet July 10 for its final planning session. As of now, the Chamber plans to enter a

(Continued on Page 2)

# Commissioners Discuss Youth Programs, Jails

Paul Catoe of Community Action met with the Parmer County Commissioners Court Monday to discuss summer youth programs and various other programs through May of 1979.

Letters from Congressman George Mahon and the president's office were read to the Court regarding county government being considered in rules, regulations, and laws considered by the federal government.

A report on the jail standards was read to the Court also, and they were informed of a meeting to be held in regard to such standards. No one from Parmer County plans to attend, as it appears the county is in good shape in this respect.

The Commissioners voted to close the courthouse offices July 3-4 for the Independence Day holiday.

The Court accepted the resignation of A.L. Glasscock, who has been a member of the Veterans Land Board County Committee for many years. The Court expressed deepest appreciation for Glasscock's many years of service.

Commissioners also approved permit 78-116 allowing Mountain Bell Telephone Company to place telephone cables under public roads.

Tax-Assessor Collector Hugh Moseley was authorized to issue a certificate of correction for an eight-acre tract of land, in Section 47, Block C Rhea, which should have been Section 46.

The Commissioners decided to purchase a right-of-way certified deposit for \$60,000.00 for a period of six months.

A general discussion was held relative to individual precinct problems, and the dam situation for Bovina and Lazbuddie.

Sam Morgan, Deaf Smith County Judge and president of the Panhandle Regional Planning Commission, met with the Court and discussed ideas relative to PRPC and Community Action.

Seth Halbert and C.L. Abernathy, representatives of the Outreach Station in Friona met for a general information and discussion session relative to Central Plains Mental Health and Mental Retardation Center in Plainview.

## Water Fun

One sure way to cool off during the hot summer is to take a pleasant dip in the swimming pool at Texico. That is just what these three children did. Enjoying the water are Sean Knowlton, foreground, son of Rev. and Mrs. Duane Knowlton; Todd Thigpen, son of Mr. and Mrs. Vernon Thigpen and Selene Stanton, background, daughter of Mr. and Mrs. J.T. Stanton, all of Farwell. Since last week Twin Cities residents have been sweltering under hot muggy temperatures which climbed above the 100 degree mark several times.

## Jimmy Dean Womack Buried At Athens

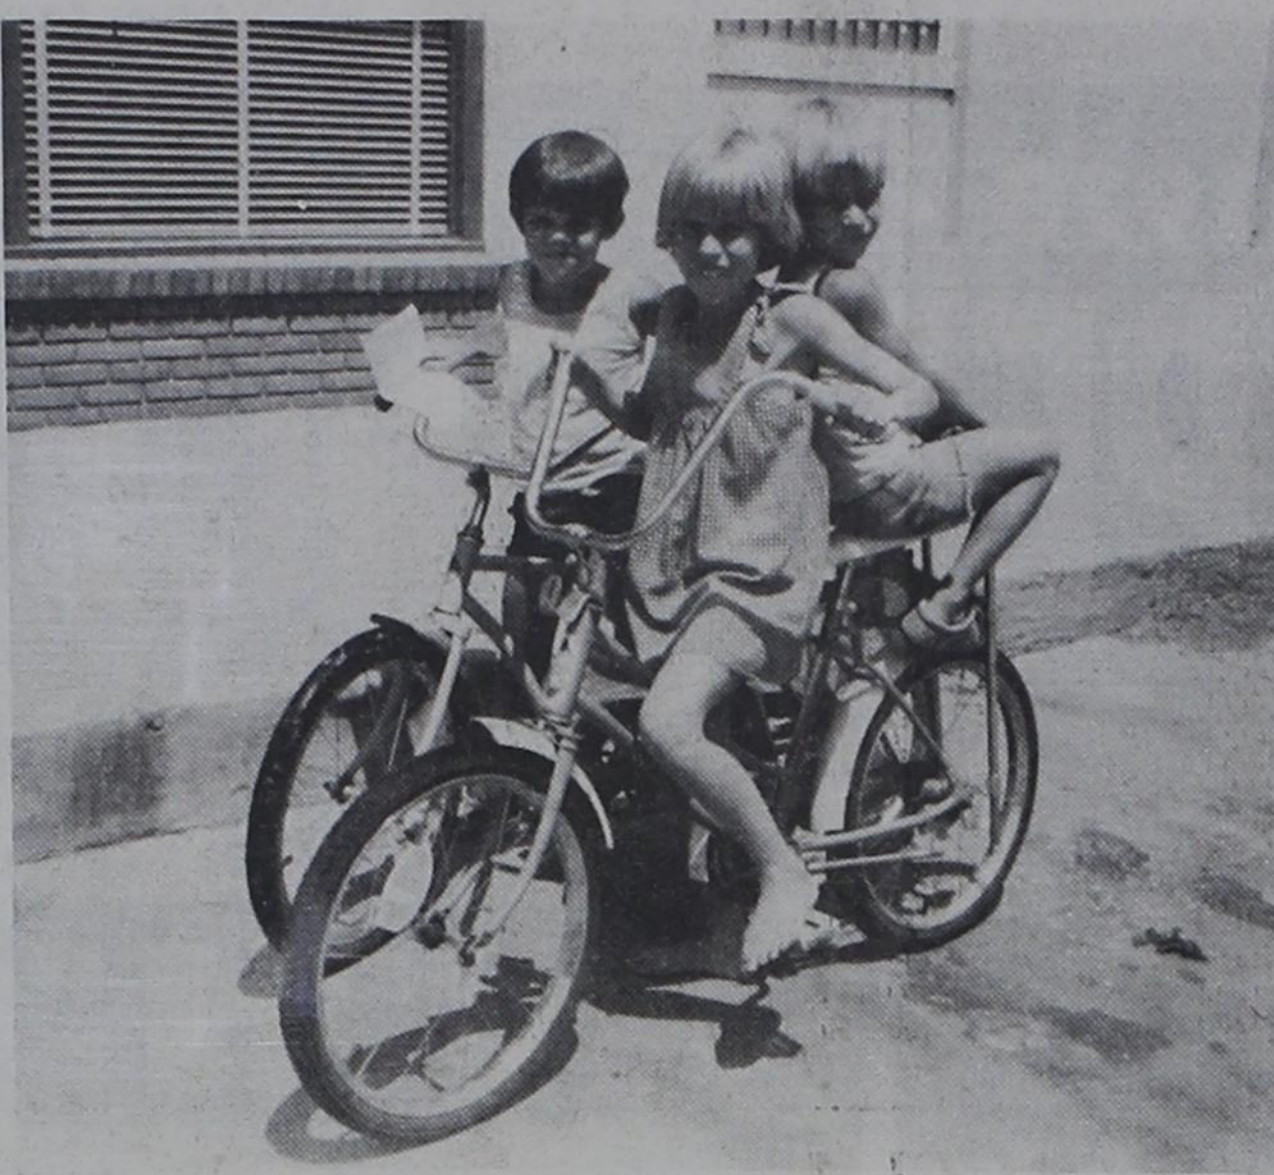

Funeral services were conducted Monday at the Foster and Brown Funeral Home Chapel in Athens, Tex., for Jimmy Dean "Stuff" Womack, 44, brother of Mrs. E.A. (Wanda) Walker of Farwell. Burial was in Oakhaven Memorial Park at Athens. Mr. Womack died Saturday of an apparent heart attack.

A resident of Athens for approximately six years, Mr. Womack was an area engineer for Gulf States United Telephone Company.

He was born October 26, 1933 in Bovina, the son of the late Mr. and Mrs. Hugh Womack, and grew up in the Bovin area. He was a veteran of the Korean war.

Survivors include his wife, Joanne of the home; four daughters, Mrs. Rhonda Malone, Renae, Robyn and Radonna Womack, all of Athens; on brother, Wayne Womack of Amarillo; and his sister, Mrs. Walker.

Mr. and Mrs. Walker, their daughter and family, Mr. and Mrs. Jack Walker and Jana of Vega, and a son, Randy Walker of California, attended the funeral services.

Summer Fun

Even on hot summer days children everywhere still like to go bike riding. In spite of the heat, these three children were all having fun riding bikes, Wednesday morning. They are from left, Gary Lee Fly, 7; Robbi Jo Fly, 8 and Joel Kirk Fly, 5, children of Mr. and Mrs. Gary Fly of Farwell.

## Chamber . . .

(Continued from Page 1)

float and hopes to have a horseshoe pitching contest. The festivities will culminate Saturday afternoon with a family-style picnic in the Farwell City Park. Organizations in the Twin Cities are encouraged to set up various booths in the park. Anyone wishing to sponsor a booth or event at the park is asked to contact either John Getz or Dutch Quicke.

Texico and Farwell volunteer fire departments will stage the annual water polo fun and it is expected that a dunking board will also be sponsored.

Plans are shaping up daily for the 1978 edition of LTD. So as not to miss out on any of the fun or activities, all Twin Cities groups, organizations and clubs are urged to make their plans now to join in the day of fun and relaxation.

## Notify School If Magazines Not Started

Persons who may have ordered magazines from the Farwell senior class last year and have not received them are urged to contact the principal's office.

Tom Knoy, principal, says that he has received a few calls from persons who had not started receiving their magazines on time and that the situation had been taken care of.

Call 481-3351 if you have not received the magazines or other items you may have ordered through the class last fall.

## Tribune Wins 2 Press Awards

The State Line Tribune received two awards this past weekend at the 99th annual Texas Press Association's summer convention held at the Hilton Inn in Amarillo.

Competing in Division VI — for weekly newspapers of

under 2,000 circulation — the Tribune received second place in advertising and third place in feature writing.

In the advertising category the Post Dispatch garnered first while third place was awarded to the Ennis Weekly

Press. The Friona Star captured first in feature writing and second place went to the Pilot Point Post-Signal.

Mr. and Mrs. John Getz, owners and publishers of the Tribune, attended the convention and the awards presentation. Getz is also the Tribune advertising manager, and is assisted by Betty Jean Castleberry and Brenda Gulley.

The Tribune competed against 45 other weekly newspapers from across the state in its division.

## Attend Funeral

Mrs. Ed Autrey of Texico visited her sister, Mrs. Clovis BeBord in Lubbock last week. They then went to Knox City to attend the funeral of their aunt, Mrs. J.T. Darr.

Funeral services were conducted Friday at the Church of Christ in Knox City. Mrs. Darr was buried in the Knox City cemetery. She died June 19.

## BOOKMOBILE SCHEDULE

Thursday, July 6: Oklahoma Lane, 9:00 - 10:00; Rhea Community, 10:45 - 12:00; Hub, 1:15 - 2:15.

Friday, July 7: White's Elevator, 10:00 - 11:00; Lazbuddie, 12:00 - 1:00; Clay's Corner, 1:15 - 2:15.

Saturday July 8: Farwell, 9:00 - 11:45; Friona #2, 1:00 - 3:30.

## SHERIFF'S REPORT

Delfino Velasquez, 27, of Santa Rosa, N.M., formerly of Bovina, was returned to the Parmer County jail Monday, reports Sheriff Charles Lovelace. Velasquez was charged with felony damage to personal property. He was arraigned Tuesday morning before Justice of the Peace Ray Mears who set bond at \$3000 and

bound Velasquez over for grand jury action.

The charges stem from an incident which occurred in Bovina six months ago, Lovelace said. Velasquez allegedly drove his car through the front window of the Allsup's store, causing extensive damage.

Lovelace said Deputy Henry Minter and Bovina City Marshal Jerry Atchley arrested Steve Madrigal, 40, of Bovina Saturday night for public drunkenness. He was arraigned before Judge Mears Monday and fined \$27.50.

## Farwell City Marshal's Report

Farwell City Marshal Ronnie Mitchell attended a meeting of the Panhandle Regional Law Enforcement Training Academy Advisory Board June 21 at Amarillo College. Mitchell has been a member of the organization for the past two years. He explained that the purpose of the meeting was to discuss need for officer training, the type of training courses which should be offered and the effectiveness of the training.

Special emphasis was placed on the tentative 40 hour yearly refresher course which might become mandatory for all Texas law enforcement officers, he said. If such a course becomes mandatory, Mitchell said it would be devoted to keeping officers up to date on the Texas Penal Code and changes in the law.

According to Mitchell, the proposal would only become law if the Commission on Law Enforcement Officer Standards and Education presents it to the Texas Legislature, and the Legislature approves the measure.

Thursday of last week Mitchell investigated the theft of 10 used batteries from Joe Hughes Auto Parts. He said the culprits took the batteries from the fenced-in area behind the store.

## Businesses To Close July 4th

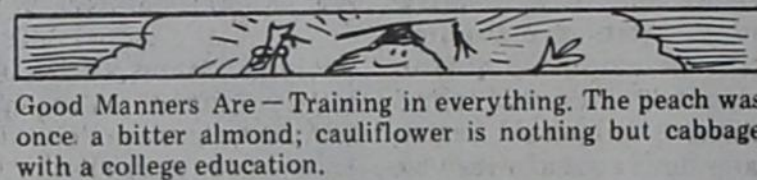

Several offices and businesses in Texico and Farwell have announced that they will be closed next Tuesday, July 4, to observe Independence Day.

Both the Texico and Farwell post offices will be closed, with no services being offered at all.

Texico City Hall will also be closed July 4. However, Farwell City Hall will close Monday, July 3, for the annual holiday.

Parmer County Courthouse will be closed next Monday and Tuesday, however the sheriff's department will remain open as usual throughout the holiday.

Security State Bank in Farwell and the Texico Branch of the Citizens Bank will be closed for the holiday as will the Farwell Medical Clinic.

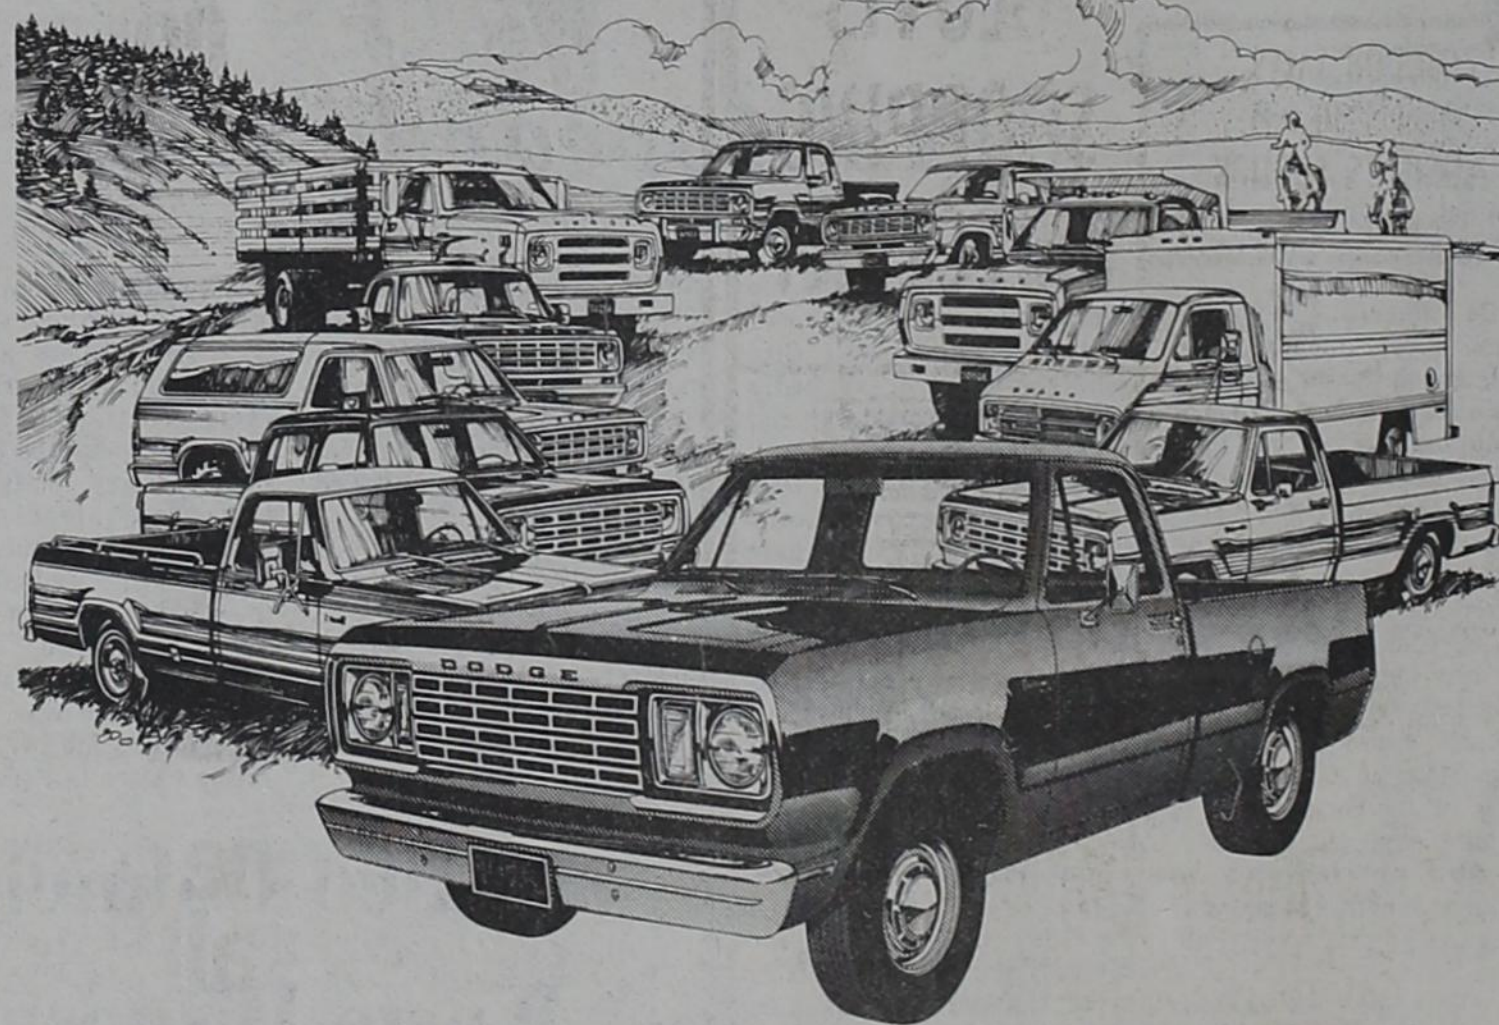

Good Manners Are — Training in everything. The peach was once a bitter almond; cauliflower is nothing but cabbage with a college education.

# OF ALL THE DODGE TRUCKS REGISTERED IN THE PAST 10 YEARS, 96 OUT OF 100 ARE STILL ON THE JOB.\*

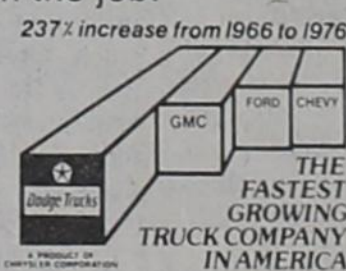

## That's better than Chevy. That's better than Ford.

Dodge trucks have acquired quite a reputation over the years. A reputation for being tough and dependable. And the figures prove it. All but four out of one hundred Dodge trucks registered in the last ten years are still on the job. And that's good enough to beat both Chevy and Ford.

But toughness and dependability aren't enough. Not for us . . . not for you. So we're busy building a

reputation for comfort and style, too. To make sure you not only get where you're going, mile after mile and year after year . . . but that you look and feel good while you're doing it. No wonder that from 1966 to 1976 we're the fastest growing truck company in America!

\*Source Registration Figures: R. L. Polk & Company. Trucks registered as of 7/1/76.

## Three County 4-H's In Leadership Lab

Three Parmer County 4-H Club members attended District 2 Leadership Lab in Levelland June 13-15.

Held on the campus of South Plains College, this year's lab theme was "Super Stars."

Attending from Parmer County were Johanna Mesman, daughter of Mr. and Mrs. Ben Mesman, Farwell; Dawn Gibson, daughter of Mr.

and Mrs. Billy Jack Gibson of Friona; and Robbie Moody, son of Mr. and Mrs. Weldon Moody of Bovina.

One hundred seventy-five 4-H's from District 2 participated in workshops, leader activities, recreation, and tournaments. They returned home with skills and knowledge to help their local 4-H Club members become 'super stars.'

### Attend Leadership Lab

Laura Jacobs, left, Parmer County Assistant Extension Agent, is pictured with the three county 4-H youths who attended the District 2 Leadership Lab in Levelland June 13-15. They are Dawn Gibson, daughter of Mr. and Mrs. Billy Jack Gibson of Friona; Johanna Mesman, daughter of Mr. and Mrs. Ben Mesman of Farwell, and Robbie Moody, son of Mr. and Mrs. Weldon Moody of Bovina.

## Farwell Council Discusses Fourth Of July Holiday

Farwell City Council decided Monday night to observe the annual Fourth of July holiday on Monday, July 3, with the City Hall to be closed that day. Regular office hours will be resumed July 4.

City Marshal Ronnie Mitchell met with the Council to discuss the upcoming holiday. He said that he felt that midnight was an appropriate hour to "shut off" the fireworks so as not to disturb residents. The Council backed Mitchell's proposal, adding that they hoped everyone would cooperate so that July 4 could be an enjoyable holiday for all.

In other business the Commissioners voted to place two Certified Deposits, each for \$240, into the general operating fund. One CD has already matured and the other will mature July 14.

It was announced that 30 bags of mosquito dust had been received. City employees

were to dust for mosquitoes this week - the second time this season. Jack Landrum said that if the mosquitos come back they will dust again right away. It takes approximately 16 bags of the material to dust the City of Farwell one time, Landrum said.

Mitchell was given permission to spray the trees in the City Park at a cost of \$135.

Permission was also granted to Dee Hammit, water superintendent, to have the city's lawn mower overhauled and to try and trade the old shredder in for a new one.

Attending the meeting were Mayor Walter Kaltwasser; Commissioners Fred Chandler and Johnny Curtis; and city employees Janie Bowery, Hammit, Landrum, John Johnson and Mitchell.

Farwell City Council met Tuesday afternoon in a special called meeting to discuss the repaving of Avenue A. Also present for the meeting were three engineers with the State Department of Highway and Public Transportation: George Wall, Ray Bradley, and Mel Pope, all of Lubbock.

The highway department representatives indicated that the work on Avenue A from Seventh Street to the railroad tracks would be completed sometime during the next year. One plan discussed was to create five lanes on Avenue A with the center lane serving as a continuous left turn lane. However, to do that would mean the Council would have to pass a city ordinance prohibiting vehicles from being parked on the highway. A public hearing to discuss the paving project will be held in the near future, but the exact date has not been set.

## Lazbuddie 4-H Club Has Clothing Workshop

"Ready - Set - Go With Clothing" is the 4-H clothing workshop which seven Lazbuddie 4-H Club members are busy in this month, under the leadership of Mrs. Pete Jesko and Mrs. John McGehee. Workshop is conducted in the Homemaking Room of the Lazbuddie School.

Before beginning to sew, Wendy Jarman, Maureen Jesko, Lisa McGehee, Vandi Tarter, Lezlie Smith, Sue Collins, and Frank Jesko scored themselves on appearance and clothing care habits, and how they could improve.

With samples of fabric Mrs. Jesko and Mrs. McGehee showed the group how to become familiar with fabrics that are solid, prints, plaids, and stripes. They learned to distinguish between balanced and unbalanced stripes, and even and uneven plaids and how these fabric designs effect the design of garments.

Colors make a difference how they affect or reflect our mood and our appearance. Warm colors are red, yellow, oranges, red-violets, and yel-

low greens. Cool colors are blues, blue greens, greens, and blue violets. Neutral colors make you feel cool or warm, depending on how they are used. Neutral colors are black, white, gray, navy blue, brown, and beige.

Fabric grain and its effect on clothing was shown. In fabric grain is the direction yarns are woven or placed to form the fabric. Grainlines must be placed straight on the body for better fit, for more comfortable wear, to be a more attractive garment, and to be more serviceable and longer lasting.

A tour of Muleshoe fabric shops and department stores was made to study labels of fabrics and their care. Vandi, Lezlie, Wendy, Lisa, Maureen, and Frank became aware of the importance of reading labels before buying clothing or fabrics. Labels should tell the consumer the fiber content of the fabric or garment and percentage of the fibers, the manufacturer's name or number, washing or dry cleaning care, and shrinkage to expect.

Care labels are available from the store when purchasing fabric. Be sure to sew the label into the garment to help you remember when you are caring for your home sewn clothing. Most of the labels were coded by numbers as to the care of the fabric.

Popover skirts are being made by the girls and jogging pants by the boys to apply their sewing skills being taught in the clothing workshop.

Following the completion of the workshop these 4-H's were to model their garments for judging in the Parmer County 4-H Dress Revue, Thursday, June 29, at 1:30 p.m. at the United Methodist Church Fellowship Hall in Farwell. A public viewing of the Dress Revue will be at 3 p.m. following the judging.

Best judged garments in the Junior I, Junior II, and Senior Divisions will be judged and modeled in the District 2, 4-H Dress Revue in Lubbock, July 7.

## For Rural Housing - -

# New Insulation Standards Made Effective By FmHA

New insulation standards for housing in rural areas financed by Farmers Home Administration (FmHA) will be put into effect, County Supervisor Billy R. Boling announces.

Implementation of the standards, first scheduled for March 15, have been held up during federal court consideration of a suit by the National Association of Home Builders challenging the new code.

After FmHA prepared additional environmental material and a further hearing on the case was held, U.S. District Judge George L. Hart, Jr., dissolved a preliminary injunction. While certain aspects of the lawsuit remain to be resolved, the new insulation standards can now be implemented.

The new thermal standards are designed to provide for heavier insulation and other measures to make FmHA-financed housing less costly to heat or cool, and to conserve energy. They will apply to newly-built homes and apartments financed by FmHA, and, insofar as it is economically feasible, to existing housing purchased or repaired with FmHA loans.

Better weathering through more effective insulation, storm doors and windows and other techniques will help families to reduce high fuel and energy expenses that jeopardize their ability to afford adequate housing.

Details of the standards, which vary by climatic zones, are available from the county office located at 207 Avenue D, Farwell, Texas.

Housing loans administered by FmHA, a U.S. Department of Agriculture agency, serve all rural areas including towns up to 10,000, and designated towns of 10,000 to 20,000 that

are not in Standard Metropolitan Statistical (SMSA) Areas and have a shortage of mortgage credit for families of low and moderate income.

### LETTER TO THE EDITOR

Dear Joann and John:

After July 1, I shall likely not know much Farwell news unless you send it by way of "The Tribune." I don't want to miss anything!

My address will hereafter be: Golden West Manor, 1055 Adams Circle, Boulder, Colorado 80302.

I'll be missing all of you. Boulder is about the size of Lubbock. So, you will have no trouble finding me should your activities take you in that direction.

Very truly yours,  
Lillian Aldridge

### Willie Walls Attend Baptist Convention

Mr. and Mrs. Willie Wall of Texico returned home June 17 from a two-week trip to points in Louisiana, Alabama, Mississippi, Texas, Georgia and Florida. A highlight of the trip was the week-long Southern Baptist Convention Conference held in Atlanta, Ga.

The local couple left Texico June 3, spending the first week visiting places of interest in several states. They arrived in Atlanta June 11. Anita Bryant was the first conference speaker, but Mrs. Walls

said they were unable to attend that first meeting. Instead they watched Mrs. Bryant on television that evening.

Throughout the conference the Walls attended various business meetings and listened to numerous guest speakers. The delegates also elected a president and vice-president.

The Walls were among the 22,000 delegates attending the conference - representing 23 million Southern Baptists in the world.

### Feeding Preschoolers

When feeding the preschooler, follow the basic four food groups - milk, fruit and vegetable, bread, and meat, advises Marilyn Haggard, a foods and nutrition specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

There are simple guidelines to follow for each of the four food groups in determining the serving sizes for varying ages of children.

**MILK GROUP** Two to three cups of milk are recommended for the preschool child, the specialist says. Put extra milk into the child's diet by serving foods containing milk such as hot or cold cereals, custards and puddings, ice cream and cottage cheese.

These are acceptable substitutes for milk; however, it takes varying amounts of these foods to equal an eight-ounce serving of milk, she continues. For instance, a one-inch cube of cheddar cheese or one cup of ice cream equal only one-half cup of milk.

Small chunks or cubes of cheddar cheese stored in the refrigerator make excellent snacks for children.

**FRUIT, VEGETABLE GROUP** Determine the serving size for fruits and vegetables by the age of the child, the specialist says. Serve one tablespoon of fruits or vegetables for each year of age.

That way, it's easy to remember three tablespoons for a 3-year-old and four tablespoons for a 4-year-old. The four-tablespoon, or one-fourth cup, serving for the 4-year-old is about half the average serving size for the adult.

Serve strips of raw carrots or bell pepper rings which are easily handled by small hands. However, children may not

like strong flavored vegetables such as cabbage and cauliflower if they are raw, she points out.

For snack, serve fruits, fruit juices and crisp vegetables.

**BREAD GROUP** An average serving of the bread group for preschoolers is a half slice of bread, a half cup of ready-to-eat cereal, or one- to two-thirds cup of cereal, grits, macaroni, noodles, rice or spaghetti.

Serve bread lightly toasted so the child can chew it easily, Miss Haggard suggests.

Serve finger sandwiches that are easy for the child to handle and fill them with peanut butter, meat spread or soft cheese that will not fall out of the sandwich while the child is trying to eat.

Try serving fresh fruit, raisins or brown sugar on hot or cold cereals for an extra treat and nutrition for the child.

**MEAT GROUP** Children need two servings of meat each day, the specialist reports. A serving is one-fourth to one-half cup of meat, one-half to one cup dry beans or peas, or two to four tablespoons of peanut butter.

Preschoolers at the younger ages of two and three prefer tender juicy meats. Serve these in child-size portions with the skin and bones removed and the meat cut up or broken into small pieces.

Most children like well-cooked roast, ground beef dishes, chicken, meat loaf, fish and hot dogs. Children have a keener sense of taste and smell and may sometimes reject highly spiced meat dishes, she adds.

The national language closest to English is Dutch.

### Mrs. Lillian Aldridge Feted With Reception

Lillian Aldridge of Farwell was honored with a "come and go" tea Saturday at the home of Carrie Anderson in Farwell. Mrs. Aldridge left Monday for Boulder, Colo., where she will make her new home.

Hostesses for the tea besides Mrs. Anderson were Mesdames Charles Aycock, Willie Williams and Johnnie Williams. The hostesses presented the honoree with a white carnation corsage.

The serving table was covered with a white cutwork cloth and centered with a bouquet of fresh summer flowers. Refreshments of coffee, punch, cookies, nuts and mints were served from crystal and silver appointments.

Approximately 60 friends and former teaching associates of Mrs. Aldridge attended the tea. Special guests included her daughters, Nancy Aldridge Mehler and Caroline of Boulder, Colo., and Mary Belle Aldridge Washington of Logan, Utah.

Out-of-town guests included Mrs. Charles Allen, Mrs. Luella Maurer, Mrs. Paul Spring, Ethel Ruth Spring, Ilene Osborn, Irene McFar-

land, Ann Osborn, Lunell Horton, all of Friona; Virginia Arnold, Inez Ferris, Grace T. May, Wanda Favilla, Mary Ann Smith, all of Clovis;

Also, Eugenia Lee, Rosa Roberts, Geraldine Green, Louise Cox, Sally Halland, Ruth Barton, Tina K. Putnam, Lucille Johnson, all of Clovis; Inez Wright, Portales; Polly Birdsong, Muleshoe; Louise Rogers, Littlefield; and Meredith Anderson, Laguna Park, Tex.

### Quickels Attend Conference

Mr. and Mrs. Dutch Quickel of Farwell were in Lubbock last Wednesday through Friday where Mrs. Quickel attended the annual County and District Clerk Association Conference. One of the main speakers was from the Court of Criminal Appeals who explained to the clerks how to send in an appeal. Other problems of the clerk's office were also discussed.

En route home Friday the Quickels visited the Terry Farris of Shallowater, former Farwell residents.

### Receives Plaque

Lillian Aldridge of Farwell shows off the lifetime membership plaque she received from the Farwell Study Club last week. The honor was awarded in recognition for her having been a faithful club member from 1935-1978. The presentation was made at a reception held at Hamlin Memorial United Methodist Church last Wednesday morning. Mrs. Aldridge is moving to Boulder, Colo., to live near a daughter and family.

### Convalescent Center Chit Chat

(Editor's Note: Due to the illness of Floe Copeland, activity director at Farwell Convalescent Center, no Center Chit Chat news appears in this week's Tribune. However, at the request of Mrs. Copeland, the following poem is being published this week.)

### Beatitudes For Friends Of The Aged

Blessed are they who understand My faltering step and palsied hand. Blessed are they who know that my ears today Must strain to catch the things they say, Blessed are they who seem to know, That my eyes are dim and my wits are slow, Blessed are they who looked away When coffee spilled at the table today, Blessed are they with a cheery smile Who stopped to chat for a little while, Blessed are they who never say "You've told that story twice today." Blessed are they who know the ways To bring back memories of yesterdays, Blessed are they whom make it known That I'm loved, respected, and not alone, Blessed are they who know I'm at a loss To find the strength to carry the Cross, Blessed are they who ease the days Of my journey Home in loving ways.

### Attend Conference

Mr. and Mrs. Willie Wall of Texico, delegates of the First Baptist Church in Texico, attended the Southern Baptist Convention Conference June 11-17 in Atlanta, Ga. They attended numerous meetings and listened to various speakers. Some 22,000 delegates - representing 23 million Southern Baptists throughout the world - attended the week-long session.

### The Kitchen Almanac

Four half-cup servings (if you serve the liquid with the fruit) may be prepared from a 16 ounce can of fruit.

The Kitchen Quiz: the average American family of four collects - and then throws away - 600 pounds of something every 30 days. What is it?

Answer: "trash." It's true, and so, it's no wonder consumers are turning to the home trash compactor for assistance. The handy appliance makes quick work of clearing the kitchen of trash - everything from milk cartons and frozen food packages to cans and bottles.

Engineers for KitchenAid compactors stress the safety built-in to their appliance. A key must be turned and the unit completely closed before it will operate. A triple drive ram force safely provides up to 3,000 pounds of compaction force, these experts report.

It's easy to keep those calories low and the protein high when the menu features Cod, or other fish, from the icy waters of the North Atlantic. Boil it... steam it... or bake it... and count less than 100 calories per four ounce serving.

Know the cooking lingo: Antipasto - "Before the Pasta"; first course or appetizer.

Bisque - a cream soup, frequently made from shellfish.

Coddle - to simmer gently in liquid over low heat (about 200° F.) for a short time (i.e., poached eggs).

Dredge - to coat completely with a dry ingredient such as seasoned flour or sugar.

Some good sources of iron include dried fruits such as raisins, dates, prunes, peaches and apricots. These fruits should be stored in a covered container in the refrigerator and used within a few days, according to U.S.D.A. home economists.

Send your best kitchen hints to: Harry G. Clark, Kitchen Almanac, 2 North Riverside Plaza, Chicago, IL 60606.

T. Harrington, T. Turner - -

## Texico Girl Staters 'Learn By Doing'

(Editor's Note: The following story was written by Tonye Harrington and Teresa Turner of Texico who attended the New Mexico Girls State session June 11-18 at New Mexico Military Institute at Roswell.)

by Tonye Harrington

First of all I'd like to encourage all girls to try to go to Girls State. I guess that sort of explains how I felt about Girls State. I had heard from a few former Girl Staters that it wasn't much fun, so I was hardly excited. I thought to myself, "How could I run for offices that I knew nothing about." But then I realized that this is what Girls State is for. One can best learn to do by doing. And that's what I did.

Two-hundred and eighty-eight girls were divided into eight cities, half in Washington County and Half in Lincoln County. Half were Federalists and half were Nationalists. I was a Federalist in Aspen City in Washington County.

City elections were held first. I ran for city councilman and won. Councilmen argue and debate ordinances of the city. Next came county and state elections. I ran for state representative and won. In the House of Representatives I was elected to be Speaker

Pro-Tem. The House of Representatives decides on bills that come through from the Senate and the ones we made ourselves. It was a lot of hard work and involved quite a bit of time.

They did arrange a few hours of free time that could be used for swimming, writing letters or catching up on a little bit of sleep.

A week wasn't nearly long enough to get to know everyone and everything about the government. But I did make a lot of lifetime friends and now understand more about how the government works and how the people all play an important part in it. Girls State teaches young girls this and tells us how important it is to know it, because we are the future.

I would like to thank the American Legion Auxiliary and Texico Woman's Club for making it possible for me to be a part of Girls State in 1978.

by Teresa Turner

At the end of the 1978 school year I was selected by the Texico High Teachers as an alternate for Girls State. Texico was later notified that they could have two delegates this year and I was allowed to go along with Tonye Harrington.

Upon arrival at NMMI in Roswell I was placed in Washington County as a Federalist and in the city of Yucca. There were eight cities with 36 girls in each city with a total of 288 girls attending State.

By Monday night all city officials had been elected. I ran for city judge but was not elected. County and State elections were Wednesday night. I ran again, for State Representative and this time I was elected. Thursday we went to our offices where the House was to meet. During our first meeting I was elected Majority Whip; which was a pleasant surprise. The rest of the week the House met to discuss, pass or kill bills. This was very interesting to me. I believe that about seven bills made it through the House and Senate and on to the Governor where all were signed except one.

The first few days were terrible for me because of all the confusion of campaigning and meeting new people. The fact that I didn't know what I was doing didn't help, but the other girls knew as much as me about our government.

While we were there we listened to different guest speakers each day. The one who made the biggest impression on me was Ralph Dixon, Associate Superintendent of

Albuquerque Public Schools. He talked about how he had high hopes for the youth of today even though people say youth is getting more corrupted each day.

Everything and everybody at Girls State left its mark on me. I learned about the government but I also learned a lot about the people who were there. There will always be girls and boys who say "Girls State or Boys State is not for me." But it's for everyone and those who can't go or don't want to go are missing a wonderful instructive experience. I feel that going to Girls State was the greatest event in my high school days and I will always remember the fun times, the hard work and the many, many friends I made in one week.

This experience couldn't have been possible if the Texico Woman's Club hadn't paid my expenses. I am very grateful to them and want to say it is worthwhile to every girl who goes to Girls State.

New Mexico - -

## Keith Hadley, Howard Horne Enjoy Boys State Session

Keith Hadley and Howard Horne, who will be seniors at Texico High School this fall, experienced a "thrill of a lifetime" June 4-10 as they attended New Mexico Boys State at New Mexico Military Institute in Roswell. Keith is the son of Mr. and Mrs. Raymond Hadley and Howard is the son of Rev. and Mrs. Joel Horne.

Upon arrival at NMMI each of the 543 boys who attended the session were assigned to a city, county and national party. Keith was a citizen in the city of Montezuma in De

Baca county. He was also a Federalist. Howard was a Nationalist in the city of Coronado and De Vargas County.

Each Texico boy was elected to an official post. After making two unsuccessful bids for city councilman and fire chief, Keith was elected tax assessor-collector for De Baca County. Howard was elected Municipal Judge.

Two guest speakers during the week-long session were Governor Jerry Apodaco and former Governor Bruce King who will seek re-election

during the November election.

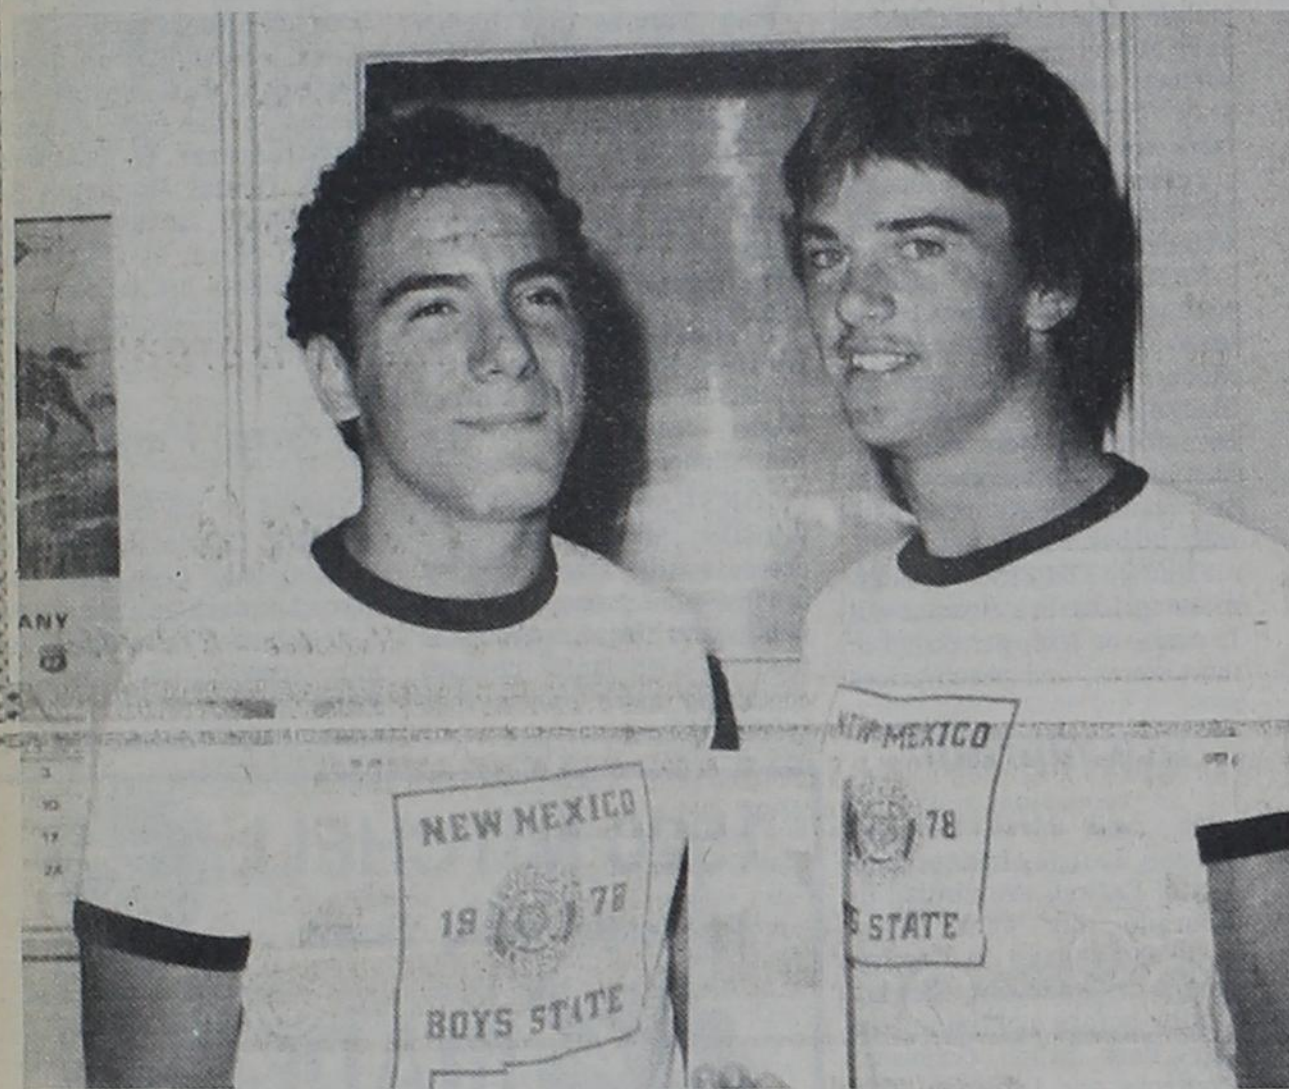

The New Mexico Boys Staters "learned by doing" which is the motto of the session. Boys State stresses leadership, character, scholarship, service and citizenship. The mechanics of the session are patterned after the established agencies of city, county and state government.

The boys were divided into four counties and eight cities. They received pins and certificates for participating in Boys State and being elected to an office.

In addition to learning more about all phases of government the Texico youths also had time for recreation. Howard played the drums in the Boys State Band. Everyday during the recreation period they practiced. Each morning during the raising of the flag the band played. Howard received a certificate and packet of drum rudiments for his band participation.

Each day the boys at the session were present for the raising and the lowering of the flag.

Keith said he enjoyed swimming, tennis, frisbee and tackle football. One day he and Howard also took an excursion to downtown Ros-

New Mexico Boys Staters

Howard Horne, left, and Keith Hadley, Texico juniors, recently attended the annual New Mexico Boys State session at New Mexico Military Institute at Roswell. Both boys enjoyed learning about the different levels of government as well as participating in recreational activities. Horne also played the drums in the Boys State Band. He is the son of Rev. and Mrs. Joel Horne and Keith is the son of Mr. and Mrs. Raymond Hadley.

## Swim Lessons To Start

Swimming lessons for persons of all ages will be conducted at the Texico Swimming Pool starting July 5 and continuing through July 15.

Lessons will be each day from 5 to 6 p.m. MDT and the 10 lessons will cost \$10. Kathy

Culshaw, pool manager and lifeguard, will be teaching the lessons.

Persons interested in the lessons should contact Miss Culshaw at the pool number 482-3644 during regular pool hours of 1-5 p.m.

## Gym Classes Cancelled

Due to the upcoming July 4 holiday, summer gymnastics classes for Monday and Tuesday of next week have been cancelled, reports Gwen Hughes, spokesman for the Twin Cities Gymnastics Club.

Mrs. Hughes added that due to the cancellations the fee for

the month of July will be only \$7.50 per child instead of the usual monthly fee of \$10. She added that the payments are due July 10.

### This I Know - - -

by Leonard Harper  
Minster  
Farwell Church of Christ

REASONABLE EXPECTATIONS are certainly important in a satisfactory life pattern. There are however, two errors that we make concerning expectations for ourselves and for others. We may expect too little, or we may expect too much.

IF WE EXPECT TOO LITTLE, we will perform below the level of our potential. This is not necessarily undesirable unless it causes us to fall short of our moral obligations. In vocation, profession of such like; it is probably right to choose the level of performance we desire, and be happy.

WE MUST NOT EXPECT TOO LITTLE of others so far as their good intentions, integrity, intelligence and the like are concerned. Give them the benefit of the doubt.

EXPECTING TOO MUCH is probably the most foolish mistake we make. There are many victims of excessive expectation. It makes contentment impossible: takes away peace of mind; and keep one's life constantly off balance.

THE PRESSURES SPAWNED by over-expectation vary with the degree of unrealness of the expectation. Even the least of these pressures are damaging to us, because all of them take their toll.

Some persons expect more of themselves and of others than God expects. This is tragic.

LET US MAKE OUR expectations realistic, and accurate.

### Pee Wee Results

Citizens Bank upended Plano Grande, 9-4, June 22. Jody Ketcherside and Danny Rubio pitched for Plano. Also for Plano David Rubio hit a double and a triple. Ketcherside hit a home run.

Pitching for Citizens were Erik Burton and Bill Knoy. Knoy hit a home run and Brent Stephens smacked a double.

The game between Sherley-Anderson-Pitman and Interstate Fertilizer ended in a 10-all tie with a playoff inning deciding the game Monday night. It was an exciting moment for Interstate as in the playoff they defeated Sherley-Anderson 4-3 making the total score 14-13 for the entire game. It was their first win of the season.

During regular play Russell Dial pitched for Sherley-Anderson. He also hit a double. Sean Knowlton added another double and Roger Dial and Todd Bartley each hit a triple.

Interstate pitchers were Scott Hicks and Joe Jaime. Hicks and Jaime each hit a double and Jason Turner hit a triple.

Jaime pitched for Interstate in the playoff. The Dial

brothers pitched for Sherley-Anderson.

Another playoff game set Monday night was between Plano Grande and Citizens Bank. The 5-all tie occurred the first game of the season, but the playoff was unable to be scheduled until Monday night.

Citizens preserved, finally defeating Plano, 2-1 in the playoff and 7-6 for the entire game. Erik Burton pitched for Citizens and Ketcherside pitched for Plano.

Next, Plano beat Interstate, 11-5, in a regular game. Ketcherside, Corey Jones and David Rubio pitched for Plano and Joe Jaime and Scott Hicks pitched for Interstate. Danny Rubio hit a double and a home run for Plano and David Rubio hit a triple.

In the next game Citizens defeated Sherley-Anderson-Pitman, 10-8. Andy Pat Hughes and Bill Knoy pitched for Citizens. Raymond Ausburn hit a double and a triple and Hughes hit a triple. Tom Powell hit a double.

Roger and Russell Dial pitched for Sherley-Anderson. Russell Dial and Todd Bartley hit triples and Sean Knowlton hit a home run.

### Farwell Girls Stater

Marcy Pena, daughter of Mr. and Mrs. Carlos Pena of Farwell, recently attended Bluebonnet Girls State in Seguin, Tex. She described her 10-day stay as "the most unique experience of my life." During the session, Marcy was elected to the senate, and was allowed to sit in on a regular session of the Texas Senate.

Marcy Pena - -

### Farwell Junior Attends Bluebonnet Girls State

Marcy Pena, daughter of Mr. and Mrs. Carlos Pena of Farwell, attended Bluebonnet Girls State June 13-23 at Seguin, Tex. During the 10-day

session Marcy was a resident of City H -- nicknamed the Honky Tonk Hillbillies -- and Freedom County. She was a member of the Nationalist

Party.

Marcy was unsuccessful in her bid for the office of Chief of Police, but she was later appointed to be the chief deputy. However, the Farwellite was elected to the Senate. During a tour of the Capitol in Austin, Marcy sat in on a regular session of the Texas Senate -- voting on the same bills.

Governor Dolph Briscoe and several former Girl Staters were among the guest speakers. Marcy said they attended assemblies every night and the House and the Senate usually convened twice a day.

Marcy was thrilled by her experience saying "it was the most unique experience of my life. I met girls from all over the state and made many friends."

To the local girl "everything was fun." She said she "learned a lot about government" by doing it, and said she felt the experience would help her in next fall's government class.

Marcy added that she wished Bluebonnet Girls State could be available for more girls to attend.

The following sponsors contributed towards Marcy's trip: Capitol Foods, Texico-Farwell Lions Club, Rose Drug, Farwell Volunteer Fire Department, Jim Berry, Theta Rho Chapter of Epsilon Sigma Alpha sorority, Security State Bank, Farwell Insurance and the Rotary Club.

"If you want to know what a man is really like, take notice how he acts when he loses money." New England Proverb

### Fireworks Responsible For Many Eye Injuries

Bottlerockets, firecrackers and skyrockets top the list of fireworks responsible for 106 eye injuries to Texans last year, 32 of which resulted in total vision loss or impairment, reports the Texas Society for the Prevention of Blindness.

From its 1977 fireworks survey of 250 Texas ophthalmologists, the Society learned that 56 of these injuries were caused by bottlerockets and some were caused by seemingly harmless items like punk, used to light fireworks, and sparklers which burn at heats exceeding 1,500 degrees Fahrenheit.

Ironically, the greatest number of accidents were reported in the major Texas cities where fireworks are illegal -- San Antonio with 21 injuries, Dallas-Ft. Worth with 16, Corpus Christi, 10, and Houston, 8. The majority of injuries were to males, ages 10-19, and many victims were bystanders not directly involved in setting off the fireworks.

Though sight was restored in a few cases, most injuries resulted in some degree of permanent vision loss or impairment. Ophthalmologists reported cases of burns to the eyelids and cornea, the clear part at the front of the eye. Cases of traumatic cataract, a clouding of the lens of the eye, and hyphema, or hemorrhage between the cornea and iris, the colored part of the eye, were reported as were several cases of damage to the retina, the most sensitive part of the back of the eye which transmits images to the brain.

The National Society for the Prevention of Blindness, parent organization of the Texas Society, reports that an estimated 7,555 Americans were taken to hospital emergency rooms for treatment of fireworks-related injuries last year and that 17 percent of these were injuries to the eyes. This figure represents only a fraction of actual injuries since there is no way to estimate the number

treated in doctors' offices, at home or by direct hospital admission, NSPB notes.

The Texas Society urges that use of all fireworks be restricted to licensed public displays. It encourages par-

ents to keep even the smallest firecrackers out of the hand of their children since the majority of fireworks victims are usually under age 15.

TSPB says enjoy the holidays, but enjoy them safely.

### July 4th Celebration Scheduled At Muleshoe

Muleshoe's celebration will be on Tuesday, July 4th, beginning at 7:30 a.m. with a Pony Express Race from Needmore to Muleshoe with the Muleshoe area vs Valley Riding Club of Amarillo. Other events will be Omlet Rodeo, Muleshoe Pitching Contest, "County Fair" booths (some thing for everyone) on the Courthouse lawn, and kids' activities abound.

Kids activities include Bicycle Race, Sack Race, Bobbing Apples, Small Bike Race, Hot Wheels Race, Buried Treasure, Go Fishing, Balloon Breat, etc.

The parade will begin at 5 p.m. and will include old cars, riding clubs, floats, bands, and other entrants. Anyone interested may participate in the parade.

Although the nightingale is known as a brilliant singer, its plumage is drab, with rusty brown and gray feathers.

### On The Farm In Parmer County

By SETH RALSTON  
County Agent

Trees, shrubs and vines that were transplanted in recent months need a little extra care to make it through the long, hot summer.

The most critical problem for newly moved plants is providing adequate moisture. Wind damage and excess fertilization also take their toll on transplanted trees, shrubs and vines.

Mulches can help conserve soil moisture and are effective in controlling weeds. Apply the mulch several inches deep over the new plant's roots. Pine needles or bark, oak leaves, bagasse, gin trash or grass clippings can be used as mulch. Some organic mulches decompose rapidly, taking nitrogen from the soil in the process and cause plants to yellow. This may be corrected

by adding small doses of nitrogen fertilizer.

Caution should be taken when adding fertilizer at planting time. Only small amounts, if any, should be applied during the first growing season. Overfertilization is one of the major causes of plants dying the first season.

Homeowners should protect new plants against wind damage. This is especially true for trees or shrubs that are several feet tall. High winds can break limbs and damage newly forming roots as well as dehydrate the plant. So plants should be pruned or staked for support.

Homeowners also need to remember their plants before leaving for summer vacations by arranging for someone to water them regularly.

### COURTHOUSE NOTES

Instrument report ending June 21, 1978 in County Clerk office, Bonnie Warren, County Clerk.

WD - Howard Graham, et al - Larry Gulley - lots 7 thru 11, Blk. 27 Farwell.

WD - Betty Miller Shavor - Donald H. Alana - lots 21, 22, Blk. 30, Farwell.

WD - Martha Lee Donelson - Martha Lee Donelson Farms - S 374.71 ac. of Sec. 16 T16S; R1E.

Consumers, concerned over recent increases in the price of beef at the supermarket, need to look closely at the situation facing cattlemen before cheering government proposals to import more beef and force retail meat prices down, economists and marketing specialists at Texas A&M University caution.

"Short-term action to hold down beef prices now would result in less domestic beef being available during the 1980's," the TAMU economists warn in a position paper analyzing the present cattle situation.

The paper looks at the domestic and international situation, the outlook through 1980, the relative positions of consumers around the world, the effects of inflation, the demand for beef, and the effects of supply upon producer income. It was prepared by Dr. John A. Hopkin (cq), head of the department of agricultural economics; Dr. Donald E. Farris, professor of agricultural economics, and Dr. Ernest E. Davis, Extension livestock marketing specialist.

President Carter's move to relax the beef import quota as a means of helping control inflation came as a surprise "to many who have watched the beef industry suffer a four-year worldwide depression," the TAMU economist said.

Recent increases in retail beef prices "were a market reaction to a complex set of forces; but mainly the result of a four-year reduction in cattle herds caused by adverse economic and weather conditions," the economists stated.

"Retail beef supplies and prices in the U.S. have been regulated by market forces with relatively little government control. If the rules of the impersonal market are to apply in period of burdensome supplies as occurred in 1974-77, then it follows that they should be allowed to apply when supplies are shorter and prices are higher," the economists stated.

Because of the time required to breed and fatten cattle for slaughter, and the effects of prices which encourage or discourage herd expansion, beef production runs in cycles averaging just over 11 years.

When prices, weather or other conditions make cattle raising unprofitable, beef becomes less available.

It is difficult, the TAMU economists said, to accurately project future availability because cattle production is very sensitive to the availability and price of feed grains, as well as other factors.

Even with such fluctuations, which are not limited to the U.S., the American consumer spends less of his after-tax income on red meat than most other consumers around the world, the economist said. And the American consumer gets higher quality and greater convenience for his dollar, they said.

Noting that the recovery of the cattle industry from "its worst depression since the 1930's will be reflected in a rising Consumer Price Index," the economists said that "the basic cause of inflation obviously is in other sectors of the economy." The share of disposable income spent for beef in the U.S. in 1977 was only 2.13 percent, the lowest in more than 20 years, they explained.

The demand for beef, the TAMU economists said, "depends mainly on personal income or the consumer's buying power." They cited studies in Texas and California which showed that with each 10 percent increase in income, the average American increased beef consumption by about 10 percent, but that a 10 percent increase in beef prices caused only a six or seven percent decrease in beef consumption.

The average consumption of red meat by each American was 195 pounds in 1974, the economists noted. This was more than any other country except Australia, New Zealand and Argentina. In addition, the average U.S. consumer ate 50

pounds of poultry.

Surveys taken in capital cities of the world Nov. 2, 1977 and March 1, 1978 showed that only Mexico City, Ottawa, Canberra, Brasilia and Buenos Aires paid less for beef in the retail store. Last November, for example, a pound of chuck roast which sold in Washington for \$1.09, cost \$1.58 in London, \$3.11 in Rome, \$7.87 Tokyo, and 43 cents in Buenos Aires, one of the major beef exporters.

"U.S. Consumers get one of the world's best beef bargains," the TAMU economists said. "An important part of this bargain, however, represents a 'subsidy' of American beef consumers by cattle ranchers and farmers, who have had chronically low income for 2 1/2 decades except for 1972 and 1973."

In an open market, the economists explained, prices fluctuate in response to changes in supplies. When cattle reach the proper maturity and weight and are sold, supplies are heavy and prices are low. For the next several years prices are higher as herds are being rebuilt and supplies are lower. The prices must be higher during this time to cover costs of restocking and encourage an increase in future supplies, the economists explained.

In 1973, cattlemen experienced sharp increases in grain and feed prices and a simultaneous worldwide drop in beef prices. Since then, the economists said, the world beef industry has been in its worst financial condition since World War II.

With little or no profit incentive from 1974-77, there was an unusually high slaughter of cows in an attempt to cut losses.

"As prices advance in 1978, there is no need for producers to sell productive heifers or

cows, if they have feed," the paper noted. Thus, the available supply of beef for hamburger or manufacturing is sharply reduced around the world.

"It is characteristic of the

cattle cycle that beef marketings must be reduced for two to four years while the production capacity is being rebuilt," the three economists said.

"In short, there likely will

be less beef not only in the U.S., but throughout international markets. Because of this, even lifting U.S. import quotas will not guarantee that more imports are available."

**Buy Valley now  
and choose a  
free low pressure  
package  
or ask for  
tremendous  
financing help.**

Here are 6 ways  
to make summer buying pay you.

- Valley low-pressure can save you up to 40% in energy — on water drives or electrics. If you buy an electric system this summer, we'll give you the whole low-pressure package free. Nozzles, Booster pump, Controls, Stop-in-slot, PC 100 end gun. Total savings — more than \$1,200. Comparable savings on low-pressure Water Drives.
- Put a pencil to the low-pressure energy savings you'll realize over the next 10-15 years. Then look at our lease and financing options. Decide which is best for you.
- Interim financing with **INTEREST FREE** until Jan. 1, 1979 and automatic conversion to long term at your option.
- Conditional sales contract with **NO INTEREST** until Dec. 1, 1978 and 2nd payment after your second crop harvest, Dec. 1, 1979.
- 7.77% LEASE** with 10% down and 10-year duration.
- 8.06% LEASE** 126-month term and 2nd payment due 18 months after start of lease.
- Cash buyers will receive up to **\$1,000 REBATE.**

# Independence Day

**JULY 4, 1978**

As We Observe Independence Day, We May Fittingly Celebrate

With Festivity, For It Is Indeed A Day To Be Happy. But Along

With The Picnics, The Trips And All The Carefree Pleasures Of

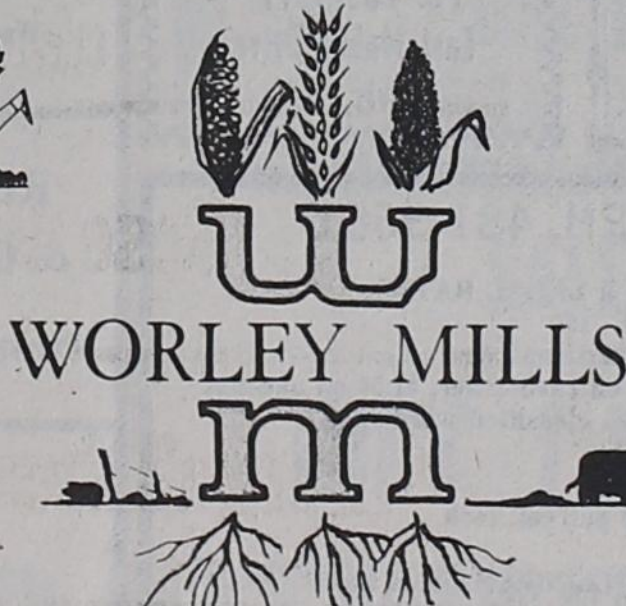

The Fourth Of July, Let Us Remember That, Above All, This Is

A Day To Commemorate With Prayer And Thanksgiving For Our God Given Rights

And For Our Forefathers' Steadfastness In Upholding Those Rights. Let Us

Affirm Our Faith In The Principles And Process Of Personal Liberty, And Let

Us Pledge To Be Ever Resolute In The Cause Of Freedom.

Farwell - Pleasant Hill

# DRIVE TIME

**Facts from a pro on driving to survive.**  
 Q. Why should I keep anti-freeze in my car all year round?—R.S.T., Orange

A. Because anti-freeze does more than just protect the engine block in cold weather. These days it's called coolant, which describes more accurately what it does. A mixture of coolant and water not only protects the car in cold weather, but cools more effectively than plain water. In addition, modern coolants have anti-corrosion additives to protect the water pump and the water passages from deterioration and mineral buildup.

Q. I'm on the road a lot. How long can I expect the brakes on my car to last before they need relining?—J.M., Temple

A. On the average, about 25,000 miles for the front brakes and about twice that for the rear brakes. But brake life depends mostly on how and where the car is driven. A car driven mostly on the highway, where the brakes are used infrequently, will not need a brake job nearly as often as a car driven in town, where the brakes are used many times for every few miles. Brakes should be checked about every ten thousand miles. The rear brakes should be checked each time the front brakes are relined.

Q. Does Texas law require the use of a front license plate on passenger cars?—C.V.O., Houston

A. The law requires that a valid license plate be displayed front and rear and that validation stickers or tabs be issued each year. Since the state issues only one sticker per vehicle, only the rear plate must carry a current validation sticker.

**TWO MINUTES WITH THE BIBLE**  
 BY CORNELIUS R. STAM PRES.  
 BEREA BIBLE SOCIETY  
 CHICAGO, ILLINOIS 60635

**A CLEAR CONSCIENCE**  
 With the knowledge of good and evil man came into the possession of CONSCIENCE. A sense of blame-worthiness smote him when he committed, or even contemplated committing evil. This has been so ever since. The Bible tells us that even the most ungodly and benighted heathen "show the work of the law written in their hearts, their conscience also bearing witness, and their thoughts the meanwhile accusing or else excusing one another" (Rom. 2:15).  
 It is true that man's conscience can be violated so often that it becomes calloused or, as St. Paul puts it: "SEARED WITH A HOT IRON" (1 Tim. 4:2), but events or incidents can take place which suddenly awaken the conscience and make it sensitive again. Many a person has indulged in "THE PLEASURES OF SIN" more and more freely until, suddenly, his sin has found him out and his conscience has caught up with him to condemn him day and night and make life itself unbearable.  
 The Bible teaches that all men outside of Christ are, to some degree, troubled by guilty consciences and certainly most are "THROUGH FEAR OF DEATH... ALL THEIR LIFETIME SUBJECT TO BONDAGE" (Heb. 2:15). But it also teaches that "CHRIST DIED FOR OUR SINS" (1 Cor. 15:3,4) so that, our penalty having been paid, we might be delivered from a guilty conscience.  
 The works and ceremonies of the Mosaic Law could never accomplish this, but intelligent believers in Christ, having been "once purged," have "NO MORE CONSCIENCE OF SINS" (Heb. 9:14; 10:1, 2). They are, to be sure, CONSCIOUS of their sins and shortcomings, but they are no longer tortured by a condemning conscience, for they know that the penalty for all their sins, from the cradle to the coffin, was fully met by Christ at Calvary.  
 This is not to imply that even a believer cannot be troubled about offending the One who paid for his sins, but he knows that the judgment for these sins is past. Thus he earnestly seeks, like Paul, "TO HAVE ALWAYS A CONSCIENCE VOID OF OFFENCE TOWARD GOD AND TOWARD MEN" (Acts 24:16).

## Temporary Grasses For Hay, Grazing

Fields lying idle this summer can be put to good use by growing annual grasses for hay or grazing, says Don Dorsett, forage specialist with the Texas Agricultural Extension Service.

Annual grasses include hybrid sudan, sudan-sorghums or forage sorghums. Millet could be used in sandier soils.

"These annual grasses make rapid growth for high quality

grazing or hay," points out Dorsett. Because they are annuals, they die after the growing season and the field can be prepared for spring planting. They do not regrow from roots the following year.

Annual grasses take advantage of warm temperatures and adequate moisture to produce forage high in protein and digestibility until seed-

head formation. After seed-head formation, protein and digestibility decline rapidly unless the grasses are used for grazing or hay, notes the forage specialist.

"As with any grass, fertility is a key factor in producing the desired amount of pasture or hay," says Dorsett. "Many fields and pastures have a history of cropping that has left soil fertility extremely

low. Without fertility, these fields would not produce the desired volume of hay or grazing. Fertilizer should be applied according to a soil test to assure that the grass is getting the required plant nutrients.

"With proper management, warm season annual grasses can produce high quality pasture or hay," contends the specialist.

The Nile River flows clear blue except at flood time when it is a reddish brown.

## Comparison Shop To Avoid 'Gift' Check Trap

Comparison shop to avoid falling into the "gift" check trap, advises a family resource management specialist.

Several companies are using this "gift" check method to sell merchandise, Linda McCormack with the Texas Agricultural Extension Service, The Texas A&M University System, says.

For example, the consumer will receive a \$200 "gift" check in the mail. The consumer can only use the check -- plus an additional \$69.95 from the consumer -- for a particular company's merchandise.

Anyone can become susceptible to this sales pitch. After all, it's not every day an individual receives a \$200 "gift" check, the specialist explains.

However, it is important for the consumer to know the true value of the product before purchasing. It's not realistic to expect a company to absorb two-thirds of the cost of their own product, she points out.

Reactions of some consumers who have received the various products were that the product was fair in quality, but not worth the price. The product is often lower in cost

at local discount stores than the mail-order product.

Other consumer complaints are the following:

- (1) non-shipment of product,
- (2) an additional freight charge that the consumer is informed of after the order has been sent, and
- (3) questions concerning the true value of the product.

If a consumer has already ordered a product and has not received it yet or wishes to receive a cash refund, they should first write to the company, Mrs. McCormack says.

**STEED-TODD**  
**FUNERAL HOME**  
"When Understanding Is Needed Most"  
Prince & Manana-Clovis-Ph. 763-5541

"It is chief of this world's luxuries...When one has tasted it, he knows what the angels eat!" Mark Twain's praise of the melon holds more truth than sentiment for many of the world's semi-arid regions. If you lived in some parts of Africa where melons once grew wild, you would probably cultivate many types of melons to rely on as an important source of water during dry periods. If you have ever enjoyed watermelon, cantaloupe, honeydew or other melons on a hot summer day, you know what a sweet thirst-quencher a melon can be.

Whether you're planning a Fourth of July celebration, family outing or low calorie snack, supplies of melons should be good to plentiful this summer for your eating pleasure, according to U.S. Department of Agriculture (USDA) market news reports.

Where do these water-packed, vitamin-rich melons come from? Through the summer you can find all types of melons -- cantaloupes, honeydews, watermelons -- in local markets in Arkansas, Louisiana, Oklahoma and New Mexico. Later summer brings supplies from Colorado. In 1977, California led in cantaloupe acreage harvested with 40,400 acres, Texas followed with 17,200, and Arizona supplied 10,450. This spring, rains delayed planting and pushed back harvest date of cantaloupes and honeydews in Texas and Arizona. California and Texas acreage of cantaloupes increased over last year; however, heavy rains early in June hampered Texas harvest. Overall, you'll find

quality is good and supplies adequate from major production areas.

Texas usually brings you more watermelons than any other state. Texas harvested 58,000 acres in 1977 and Florida provided 51,000 acres. Florida acreage increased this year, while Texas acreage remained near the same.

In late spring, you could buy watermelons from California and Florida. In early summer your purchases could come from home gardens or small growers in Texas, Louisiana, Arkansas, Oklahoma or New Mexico. Texas will send watermelons to the market through December. Colorado will provide them in the late summer.

Thumping a watermelon doesn't always tell the true story, at least to the untrained ear. Traditionally, an immature melon yields a metallic ring when thumped, and a mature melon produces a soft, hollow sound. Selection of melons for quality and flavor challenges the skill of even the most experienced buyers, says the U.S. Department of Agriculture (USDA).

Although they hold no guarantees, if you want to buy an uncut watermelon these few appearance factors from USDA's Food Safety and Quality Service may help guide your selection. The watermelon surface should be relatively smooth; the rind should have a slight dullness (Neither shiny nor dull); the ends of the melon should be filled out and rounded; and the underside, or "belly," of the melon should have a cream color.

**Fun In A Swing**

Annie Hill, a resident at Farwell Convalescent Center, knows how to beat the heat on a hot summer day. When the temperature starts to rise, Mrs. Hill likes to take paper in hand and sit and swing in front of the Center. The Twin Cities have been plagued with 100 degree plus weather since last week.

**Operation Motorcade Slated For Fourth Of July Holiday**

Major C.W. Bell, Regional Commander of the Texas Department of Public Safety, said, "Traffic speeds are up and more people are expected to be on Texas Highways this Fourth of July holiday." Operation Motorcade for the Fourth of July will be in effect beginning at 6 p.m. Friday, June 30, and ends at 11:59 p.m. on Tuesday, July 4. All deaths resulting from traffic accidents will be reported to the Austin Department of Public Safety Headquarters

immediately through the various Texas Law Enforcement agencies. Operation Motorcade will last 102 hours with every available Trooper on the road at all times. Drivers License, Motor Vehicle Inspection, and License & Weight Troopers will assist the Texas Highway Patrol in an all-out effort to assist and aid the motorist in Texas.

The Texas Department of Public Safety will be on full alert on all highways in the area to control traffic, lower speeds and get the drinking driver from behind the wheel. It is anticipated that with all uniformed troopers on conspicuous patrol, that traffic violations will be greatly deterred throughout this Fourth of July holiday.

Major Bell urges each and every driver to do his part this holiday period, by not drinking

and driving. Let's all slow down and practice defensive driving to stay alive.

**Texas DPS Plans Road Checks**

The Texas Department of Public Safety Region 5, covering 60 counties in the Northwest part of the state, plans to conduct a series of extensive road checks in certain selected areas. Primary purpose of these road checks is to enhance enforcement of laws relating to speed and over-weight violations. Summer vacation periods

brings added traffic to the Texas highways. It is the purpose of the department to regulate vehicle traffic during these summer months to save lives and reduce road damage. This extensive traffic enforcement will begin early next week and continue through the summer months as long as the program proves to be effective.

"Let us take men as they are, not as they ought to be." Franz Schubert
