Meeting Slated Tonight - -

## AAM Strike Office Established In Farwell

An American Agriculture Strike office has been established in Farwell. Its temporary headquarters are located at Interstate Fertilizer.

Several local farmers held a meeting Monday morning at Clara's to pave the way for the office to open and to discuss the general agriculture situation.

To that end a special meeting - to which all interested farmers, businessmen and others are invited - is slated for tonight (Friday) at 7:30 p.m. CST in the Farwell Schools auditorium.

Bart Kaderly of Galloway, Ohio, will be the featured speaker. The topic of his address will be "Should You

Support American Agriculture Movement or Not?"

Local farmers, interested in trying to learn what is going on in the strike movement across the nation, have established the local strike office and slated tonight's meeting. They urge all interested people to attend.

One local farmer who attended Monday's meeting said he favored "higher prices for farmers," but was not sure "whether he was completely for the American Agriculture strike." "I'm not sure that laying back 50 percent of the farm land will bring about the desired results, anymore than I am sure that this new farm program will work either," he

said.

"It might be that I do not understand it well enough yet, but it seems as if, among other things, the federal government will end up controlling the grain supply in this country," the local farmer continued.

He did say that he would like to "support AAM more but I also have my obligations to think about and I have to do what I think is right."

"If something is not done soon though there will be a lot of farmers in Farwell looking for work," he added.

Another phase of the American Agriculture strike got underway Monday at midnight

when AAM contingents in approximately 32 states attempted to slow down or temporarily halt food distribution in this country. While AAW proponents concentrated on the larger cities like Amarillo and Lubbock they also staged peaceful protests throughout the area, including the Port of Entry west of Texico.

Approximately 40 farmers gathered at midnight to begin the all-night vigil. In spite of the frigid temperatures and strong winds, striking farmers set up two tractors on the median on Highway 60-70-84. Signs placed strategically on the vehicles asked all trucks to stop.

The farmers then spoke to the drivers of each vehicle asking them to deliver the perishable products they were carrying, but to lay off making any more deliveries until the three-day stopping period was over.

This particular phase which began one minute past midnight on Tuesday was to conclude Thursday. Proponents of the movement said that this latest protest was designed "to empty shelves" in the hopes of "spurring the Carter administration to take some affirmative action to help farmers."

Three New Mexico farmers, who declined to be identified, said they felt that the latest movement was also "designed to show that the back of the American Agriculture Movement was not broken in Hidalgo."

They said they intended to lay out 50 percent of their land, indicating that unless all the farmers cooperate the American Agriculture strike will not be effective.

They stressed that the protest was to be non-violent in nature and, in fact, it was. Officer A.R. Brockmeier of the New Mexico Highway Patrol who had been called to the Port of Entry on another matter, said that the farmers were not engaged in any illegal activities and he stressed that all their subsequent actions were non-violent and without incident.

### Parmer County Bee Champions

Stancell, a fifth grader, placed first in the junior division and Cole, an eighth grader, garnered first place in the senior division. Cole and Stancell will be special guests of honor, along with other county winners, at a luncheon to be held in Amarillo next month, but only Cole will be eligible to compete in the Globe News Spelling Bee April 29.

### A.D. McDonald - -

## Write-In Votes Elect New Texico Mayor

The City of Texico has a new mayor. A.D. McDonald was elected to the post following a substantial write-in campaign which netted him 37 votes in Tuesday's city election.

However, at press time, McDonald was undecided as to whether or not to accept the post. He said that he was not aware of the write-in campaign until he was notified Tuesday night that he had been elected mayor of Texico.

Clara Wiehl, city clerk, said that in the event McDonald does not accept the mayor's office he will probably have to present his resignation to the Board of Trustees. According to Mrs. Wiehl, the Trustees would then appoint another mayor.

Incumbent Mayor Manfred Turnbough, who had been running unopposed, captured 26 votes in the balloting.

Incumbent Trustee Vane Doshier, who was also unop-

posed was re-elected with 53 votes. Lewis Cooper received 54 votes in his bid for the Council seat vacated by Max Carter. Jess Richardson received one write-in vote.

Ophelia Billington served as election judge. Joe Caywood was the alternate. Election clerks were Bernice Thigpen and Mary Dorris, with Thelma Venable serving as alternate.

A total of 69 votes were cast in what was called a "very light voter turnout."

## Announce Non-Grazing Dates Under 1978 Farm Program

If a farm is signed up to participate in the 1978 Set-Aside Program, the designated set-aside acreage may not be grazed during the period starting March 15 according to Prentice Mills, executive director, Parmer County Agricultural Stabilization and Conservation Service, and ending on September 15, 1978.

The 1977 Farm ACT requires that each ASCS County Committee establish a six-month non-grazing period for set-aside acreage during the year. The Parmer County Committee, after polling several hundred farmers, established the March 15 to September 15 dates.

All farmers who plan to participate in the program should be aware of that six-month period. Failure to comply with this requirement could cause a reduction or loss of program benefits.

**GRAIN RESERVE PROGRAM:** Parmer County farmers can now place their 1977 wheat, barley and oats under loan, directly in the Grain Reserve Program without waiting for their initial loan to expire or mature.

This program offers farmers an opportunity to place their commodity in the grain reserve for a three-year period

and receive storage payments annually in advance. Farmers, in return, must agree to hold their grain off the market until the price reaches an established level or the contract expires.

So far, farmers in Parmer

County have placed about 210,000 bushels of wheat into the reserve program.

Anyone interested in participating in this program should contact the ASCS Office on 9th Street in Farwell.

The Golden Spread survived February with a number of snow storms that added some to our moisture picture but also set the ground up in prime condition for a good old "duster." We notice in the Tribune issue of a year ago that we experienced one "blow" that registered winds in excess of 60 mph in the Twin Cities.

If we get one of those type storms now we will have a "Black Friday" for sure. We hope that the slackening of farm activities have not exposed our soils to the possibility of extreme erosion by our spring winds that we will experience for the next several months.

The coal situation is getting critical in many parts of the East and Midwest. It now looks as if many people will be in the dark and in the cold at home as well as out of work. This situation will make a lasting impression on many voters that will be recalled in future elections. It is possible that many politicians currently against nuclear generation of power will feel this displeasure on future votes. We think that it is possible that the current political opposition to nuclear generators will lessen to a noticeable extent in time to come.

It is too bad that this generation of coal miners cannot recall that it was John L. Lewis and his militant UMW that provided the catalyst that turned this country to natural gas and fuel oil for power generation. When homes and industry turned to gas and oil the ranks of the coal miners was soon cut in half.

Today we may experience a similar reaction as homeowners and industry demand a reliable and uninterrupted source of power, that is, nuclear generation.

Our farming community is in much better long term shape inasmuch no substitute for food has yet been devised. However, in obtaining a better price for our farm products let us hope and pray that good judgement will prevail over rash and overt action.

One avenue to eventually solving our farm surplus problems would be for our land grant universities to intensify research toward production of some type crop that could be marketed by farmers that would not add to the grain surplus.

Several examples of this come to mind, one is the current interest shown by New Mexico A&M in a weed that could produce rubber, another is research into the common kochia weed to see if it could be used as forage.

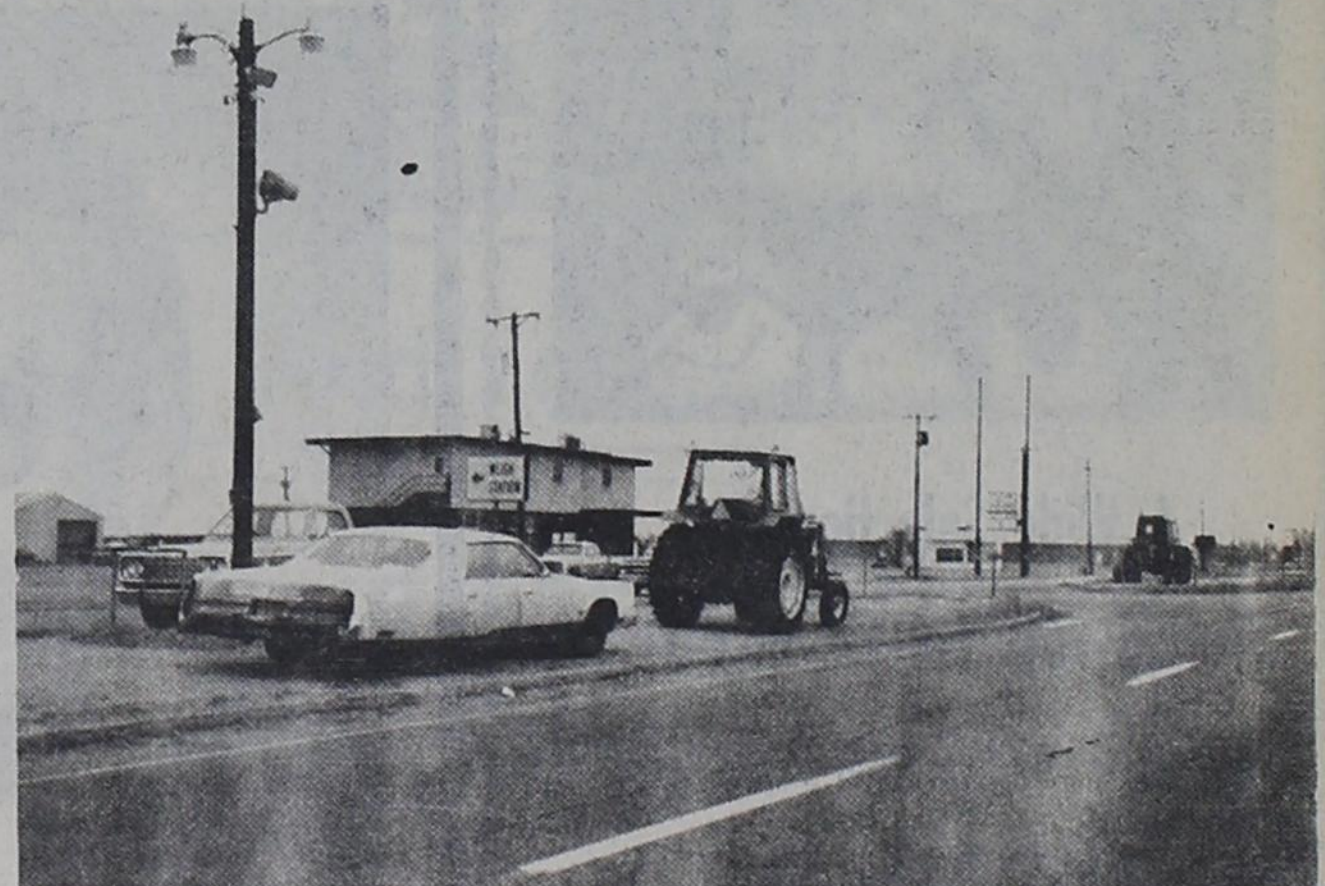

Nebraska is still vigorously pursuing the goal of producing alcohol economically enough to use it as a blend in gasoline.

Another avenue of research might be the use of the Kenaf plant for the production of paper. The USDA Research Laboratory in Peoria, Ill., is well along with this right now.

While none of these are of value in our immediate farm price debacle they are worth pursuing in the future. Let us hope our scientific moguls see this need for a farm produced, profitable marketable item that will not add to the glutted grain bin.

## Absentee Voting Begins Monday

Absentee voting in the April 1 Farwell School Board and Hospital District Board election begins Monday, March 13, and will conclude March 28. Persons may cast absentee votes between the hours of 8:30 a.m. - 5 p.m. CST at the Parmer County Courthouse in the office of County Clerk Bonnie Warren.

### AAM Operation

Two tractors bearing American Agriculture Movement signs parked on the median of U.S. Highway 60-70-84 near the Texico Port of Entry early Tuesday further emphasizing the farmers strike which began December 14. About 40 farmers from New Mexico, Texas and other states were at the site about midnight Monday, to make peaceable requests of the truckers to honor a three-day stoppage of food delivery across the nation. Truckers were asked to deliver their present loads and then to hold off on deliveries for three days. When the Tribune photographer took this picture about 8:30 a.m. Tuesday, the farmers had departed the scene seeking warmth and food.

## Portraying Area Homemakers

By Shirley Gorman

Mrs. Bobby (Jenine) Foster of Farwell, our area homemaker this week, is as much at home "mothering" baby pigs and calves as she is taking care of her two daughters Lucretia, 6, and Robin, 3. Mrs. Foster grew up on a farm in Sudan and after graduating from high school there she married her husband Bobby and moved to the Oklahoma Lane Community.

In addition to caring for 17 baby pigs and two baby calves Jenine also has the responsibility of overseeing approximately 100 chickens. The calves were so tiny that she had to bottle feed them in the beginning. She says that now one of the calves has "graduated" to a bucket. The "bottle" just was not big enough for him anymore," she said. "Every time he sucked on it he deflated it."

"The ways things have been lately I seem to be spending more time with the animals than I do with anything else," Mrs. Foster said.

When needed, our homemaker also helps out with other farm chores such as preparing harvest meals and driving trucks and tractors. Even though Jenine was raised on a farm things were quite different because the chief crop was cotton and there were no harvests as such. Besides, our homemaker said, she had three brothers "who did all of that kind of work."

Mrs. Foster said that a lot of the responsibility for raising animals fell on her shoulders because Bobby works in Bovina in addition to being a farmer. "I have learned and am still learning a lot," she said.

Jenine also stays quite busy with her two daughters. Lucretia now attends the morning kindergarten session at Farwell Schools. Mrs. Foster participates in a car pool and every third week it is her turn to transport two other five-year-olds and Lucretia to and from school.

Our homemaker is also music oriented, playing the piano and the guitar and also singing as well. While in high school she belonged to a band that performed folk music. She also took band in high school and attended several band and choir camps.

Jenine said her husband has an electric guitar which he is "re-learning to play." She added that Lucretia is "interested in music but she is really too young to understand what it is all about yet."

Mrs. Foster has been a member of the Oklahoma Lane Home Demonstration Club for nearly two years. She likes making things and has fun taking part in the bazaars which the club organizes.

She also likes to macrame, grow house plants and maintain a garden. She also cans and preserves vegetables every year. This past summer she planted one-eighth acre of cucumbers and before the summer was through, "I had grown very tired of cucumbers," she said.

"They had to be picked every other day and were sold to people who then pickled them.

Jenine also likes to draw portraits. She is especially fond of one she drew of her husband before they were married.

She likes to re-do furniture but admits that her mother - who still lives in Sudan - always helps her.

Our homemaker has three recipes she has consented to share with our readers.

## 4-H Leaders To Discuss 'Basics'

When 4-H adult volunteer leaders from throughout the state gather for their annual forum at the Texas 4-H Center in Brownwood April 7-9, it will be "back to the basics."

That's the theme of the forum - "Back to the Basics in 4-H." The forum is designed to help 4-H leaders become more effective in working with 4-H boys and girls, points our Lynn Copeland, 4-H and youth specialist with the Texas Agricultural Extension Service, the parent organization of 4-H. Registration will be from 10 a.m. to noon the first day.

Keynote speaker will be Dr. Pete Williams, assistant director for 4-H and special programs for the Oklahoma Cooperative Extension Service.

Seminars, devotionals, ceremonies, recreation and panel discussions will be held during the three-day period that will reflect the theme, adds Copeland.

Held in conjunction with the forum will be the annual meeting of the 4-H Volunteer Leaders' Association of Texas. There are some 15,000 4-H adult volunteer leaders in the state.

Copeland invites all 4-H adult volunteer leaders to attend the forum. Any indi-

viduals who are interested in serving as a volunteer in the 4-H program may contact their county Extension office.

## COOKING Brilliantly TIPS FROM THE TOP

Don't be distressed by the way your salad's dressed. Oil and vinegar do mix if you do it right. Put the oil on first, toss the salad, and then pour on the vinegar and toss the salad again.

Howard Maybury Golden, Colo. Holiday Inn

Brilliant cooking can be no better than the ingredients used. Whether you are buying red meat, poultry or fish, freshness is important. With current emphasis on open code dating on many foods, it's worthwhile to check dates and to observe true characteristics of the specific cut. For example, even distribution of pale, creamy fat in beef is a good indication.

## Mother's Little Helpers

It's fun time in the kitchen when little Robin, 3, right, and her older sister, Lucretia, 6, decide to help their mother, Mrs. Bobby (Jenine) Foster with preparing a meal or a dessert. Besides looking after home and daughters, our homemaker also likes to work with her hands, play the piano and guitar and care for baby animals and chickens. She is originally from Sudan, but moved to the Farwell area after marrying her husband Bobby, a farmer.

## Convalescent Center Chit Chat

As Reported by the Center Staff

Rev. Herman J. Scheller, pastor of St. John Lutheran Church, conducted Sunday afternoon services.

The bulletin board is decorated for St. Patrick's Day. Numerous pictures taken at the recent American Heart association Jamboree are also on display. Everyone is invited to "stop by for a peek."

All the residents are busy trying to find something green to wear, says Floe Copeland, activity director.

Zelma Gernigan was surprised Monday with a birthday party given by family and friends. That night she walked from her room to the dining area - thinking she had a phone call - but as she stepped into the dining area everyone yelled "happy birthday." They were served refreshments of cake and ice cream.

Mrs. Gernigan refuses to disclose her age but she said that "no one ever gets too old to enjoy a birthday party."

Bertha Kaltwasser enjoyed an outing Sunday with the Gilbert Kaltwassers. She also went to Muleshoe with Gladys

Kaltwasser for a routine checkup.

Several relatives visited Nina Dickinson this week, including Clyde and Grover Dickinson of Tucumcari and Eileen West of Hereford.

Visiting Christi Gohlke were Clarence and Gladys Hobrathschke of Littlefield and Edith and Jimmy Bourlon of Hollis, Okla.

Anna Bell Campbell took her mother, Alice Luikart, and Bessie and Charlie Hardwick, longtime friends, to Clovis for an outing.

Ott Butts of Portales visited his wife, Grace.

Minnie Nelson enjoyed a visit from six long-time "quilting buddies" from Clovis. Also visiting her were her sister Monie Turner and niece, Arlene McCallum of Bovina.

Visiting Cecil and Annie Goode were her sisters, Avis Simpson and Lurette Mason of Muleshoe.

Ruth Anne Bennett of the Farwell Young Homemakers brought birthday cards for all the residents who have March birthdays. The organization does this every month. Those with March birthdays include William Linahan, Thelma Kit-

trell, Domitilla Madrid and Charlie Hardwick.

June Lillard and Teresa LaJuanese, nurse's aides, graduated Friday from medication school.

Staff members received quite a surprise this week when they showed up for the regular staff meeting. Instead of "talking business" they enjoyed coffee and donuts.

Cecil and Nelson Hurst keep themselves busy pushing wheelchair bound residents and opening doors etc. for them.

All wish a speedy recovery to Ollie Utzman who is in the hospital in Muleshoe.

Everyone is glad that C.H. Whitener, "Kojak" is back from the hospital.

Margaret Aycock has brought several supplies for the crafts room.

"I place economy among the first and most important virtues, and public debt as the greatest danger . . . We must make our choice between economy and liberty or profusion and servitude."

# Girl Scouts Celebrate Birthday

On March 12, 1912, Juliette Gordon Low organized a group of girls that would become known for their community service and high standards. Sixty-six years later, this group - the Girl Scouts - is still going strong.

The Girl Scouts of the U.S.A., the largest volunteer organization for girls in the world, will celebrate its 66th anniversary with a National Girl Scout Week, March 12-18. Over two and one-half million

girls across the country will participate in activities celebrating the occasion.

On a more local level, area Girl Scouts are also planning celebration activities. Mrs. Buster Owens, Littlefield, president of Caprock Girl Scout Council, has announced a reunion luncheon for former Girl Scouts at noon, March 10, at the Caprock Council Service Center. Also, Caprock Girl Scouts will celebrate with a backpacking trip in south-eastern New Mexico, March 19-23. Any Cadette, Senior or adult who has attended a trip before is invited to join the group.

Girl Scouts is open to all girls ages six through 17. It is part of a worldwide family of girls and adults in 94 countries through its membership in the World Association of Girl Guides and Girl Scouts.

One out of every nine girls, ages 6 through 17, in the U.S.A. is a Girl Scout. There are even Girl Scouts in 53 countries - daughters of U.S. military and civilian families living abroad.

Some 557,000 adult men and women members act as volunteer leaders, consultants, board members and staff specialists in the areas of child development, adult education, outdoor education and administration for 159,000 Girl Scout troops.

Over their lifetime of 66 years, the Girl Scouts have expanded and broadened their scope. One cannot think of them in terms of merely selling cookies anymore. The contemporary Girl Scout has a heightened awareness of herself and of women's roles in a changing society ... Happy Birthday.

## Home Missions Theme Of Baptist Meetings

Emphasis on home missions and mission needs has been the theme of a week of prayer observation by First Baptist Church, Farwell.

On Monday morning Mrs. Estelene Billington hosted a prayer group at her home with six ladies attending. Hostess for the prayer group Tuesday was Mrs. Modean McMillan.

Rev. Dudley Bristow, church pastor, and the church Brotherhood group presented the

Wednesday night program. Thursday morning the WMU of the local church was invited to First Baptist Church, Bovina, for an Associational Prayer Retreat, and on Friday morning Mrs. True Bell was to host the prayer group.

Throughout the month of March the Annie Armstrong Offering is being taken each Sunday at the local church. The week of prayer and program was to point out the mission need.

Some spider webs, if straightened out, would span 300 miles or more.

## This I Know - - -

by Leonard Harper  
Minister  
Farwell Church of Christ

WHO IS FREE? Obviously, there will be a number of different answers to this question.

SOME WILL SAY that we are free when we can do as we please. How sad! In the first place, it is not possible to do as we please. If we could, it would not be freedom; but a kind of enslavement in which we would be controlled by disorder, irresponsibility, purposelessness and such like. We would be tossed to and fro by all types of pressures.

THERE IS NO ABSOLUTE FREEDOM, but the highest degree of freedom is realized by persons who submit themselves to the best known set of standards and principles of thought and behavior. If we reject the best, we are not thereby free; but have only accepted inferior standards and guidelines.

CHRIST SAID, "You shall know the truth, and the truth shall make you free." (John 8:32). God's word is truth. (John 17:17). The faithful baptized believer, as a member of the Lord's church, is the freest person on earth.

"TRUE FREEDOM CONSISTS IN the observance of law. - Adam was just as free in paradise as in the wilds to which he was banished for his transgression." - Thornton. As a matter of fact, he was freer in the garden than he was outside.

THE BEST CONTROL OF ONE'S LIFE brings the greatest degree of freedom.

# Sorority Information Tea Planned

## For Senior Girls And Mothers

In the spring of her senior year, a high school girl has many decisions to make about her opportunities after graduation. The college-bound woman has numerous questions about the varied aspects of college life.

Sorority life can be an important part of her college years. The search for a meaningful relationship to society and the world may begin with a sorority.

Llano Estacado Alumnae Panhellenic invites all college-bound senior girls and their mothers to a sorority information tea. Active Greek sorority members from the area colleges and universities will be present to answer questions about sorority life. Mothers of the actives will also help in the discussion. Sorority pins will be displayed and information pamphlets will be available.

The tea will be held from 2-4 p.m., Sunday, March 12, in the hospitality room of the new First Federal Building on North Prince in Clovis. Dresses or pantsuits may be worn.

Twenty-six Greek social sororities belong to the National Panhellenic Conference, and these sororities have chapters at colleges and universities all over the United States. Upon college graduation, sorority members are eligible for

membership in an Alumnae Panhellenic Association. These groups, NPC affiliated, extend the opportunities of social life and interpret the fraternity system to their communities, performing services such as fraternity information programs for prospective college women.

Further information regarding the upcoming tea, or

sororities in general, may be obtained by contacting Pam Wilson, 763-5104; Carol Tanner, 782-4328; Carolyn Presley, 762-3919; Stephanie Bennett, 762-5545; Cindy Ware, 762-6965; or Carolyn Stoltz, 784-3893.

### WHEN THE LORD ASKED WHY

There are two occasions when the Lord asked, "Why?" which stand out from all the rest.

Once it was to God He cried it and once to Saul of Tarsus. Once to the Holy One and once to the chief of sinners. Once He cried it from the shameful cross and once from His glory in heaven. In each case the name was repeated.

In Matt. 27:46 we find the first anguished "Why?" as He cried: "MY GOD, MY GOD, WHY HAST THOU FORSAKEN ME?" The other is found in Acts 9:4, where He calls from His exile in heaven: "SAUL, SAUL, WHY PERSECUTEST THOU ME?"

These two questions represent the greatest riddles of history and yet strangely, one of them is the simple solution to the other! Why did God forsake His Son. You will find the answer when you ask why mankind, represented by Saul, forsake and even persecuted God's Son. God's action, in giving Christ up to die, was the antidote to man's sin. Christ's death was the remedy for man's sin. It was be-

cause of the utter unreasonableness of man's sin that God, to save him, had to be more than reasonable.

Saul had led his nation and the world in rebellion against Christ, but this is just why, in infinite love God chose him to become the great apostle of grace, telling the world that "Christ died for our sins."

Hear him tell how he had been "a blasphemer, and a persecutor, and injurious" but how "the grace of our Lord was exceeding abundant" (1 Tim. 1:13,14). Hear him say:

"Christ Jesus came into the world to save sinners, of whom I am chief. Howbeit for this cause I obtained mercy, that in me first Jesus Christ might show forth all longsuffering, for a pattern to them which should hereafter believe on Him to life everlasting" (Vers. 15,16).

Since the "chief of sinners" is now in heaven, there is hope for us all if we but trust in the Christ who died for us.

# Fashion Show Commentator, Judges Announced

Fashions created from natural fibers by sewing enthusiasts in Texas, Oklahoma, and New Mexico will be modeled for the public Thursday, March 30, on the opening day of the South Plains Farm Show in the Lubbock Memorial Civic Center.

The free exhibit March 30 - April 1 will showcase the most modern farm equipment and implements in the world and will feature, in addition to the fashion revue, a public forum on the economic plight of the farmer and a championship micro-mini tractor pulling contest.

One of West Texas' most popular broadcasting personalities will describe the fashion creations and a battery of experts will judge them, with hundreds of dollars in prizes going to winners in three divisions.

Jane Prince, co-anchor of the nightly "Eyewitness News" on KCBD-TV, Channel 11, and co-host of the morning "Jeff and Jane Show" on KSEL Radio in Lubbock, will be the commentator for the Natural Fibers Fashion Revue, said Becky Culp, clothing specialist with the Texas Agricultural Extension Service and contest chairman. The revue will begin at 2 p.m.

The judges will include two former South Plains Maids of Cotton, homemaking teachers, buyers and managers from local fashion houses, and another TV personality, reported committee member Patricia Horridge of the department of clothing and textiles at Texas Tech University.

The revue is designed to emphasize elements of good clothing construction, home sewing and fashion, as well as

the use of natural fibers, Mrs. Culp said. Entries must be made from fabrics which are at least 50 percent or more of the fabric. Accessories such as blouses, trims and inner construction fabrics are excluded from this requirement.

The competition has three divisions: junior high, senior high, and adult.

Entry forms, available from homemaking teachers, county Extension agents and implement dealers, must be completed and returned to the

contest office by March 10.

Miss Prince, who will provide the fashion commentary, was graduated from Texas Tech in 1973 with a baccalaureate degree in theater arts. She received a master's degree from Tech in 1977.

She has had starring roles in 14 stage productions, portraying such diverse characters as Helen of Troy in the classic "Faustus" to a Venus fly trap in the comedy, "Oh Dad...Poor Dad."

Selecting first, second and

third place winners in each of the three fashion divisions will be:

Junior High - Cheryl Bummett, former high school homemaking teacher; Jacqueline Stout, 1974 New Mexico Make It Yourself with Wool state winner and Fashion Board president; and Bob Latham, Latham's fashion center.

Senior High - Diana Karvis of Diana's Doll House; Bob Etheredge, KCBD-TV farm director; and Allison Mynatt,

1976 South Plains Maid of Cotton.

Adult - Dale Hayden of the Sport Haus; Debra Davidson, 1975 South Plains Maid of Cotton; and Jayne Geissler, Texas Tech clothing and textiles department graduate student.

The South Plains Farm Show is sponsored by the Southwest Hardware and Implement Association, the Texas Agricultural Extension Service, and the Lubbock Chamber of Commerce.

# The Cost Cutter

Less Irrigation Cost - Lower Harvest Costs Because of Lower Moisture - Less Drying Cost

Pioneer® brand 3780 can cut your costs to improve corn profits in four ways -

- ★ **Less Irrigation Cost** - 3780 needs less total water than commonly grown corns because it grows off fast. And because of its early water use, 3780 uses early-season rainfall more efficiently than other corns or crops.
- ★ **Less Harvest & Hauling Cost** - Fast drydown with good standability and ear retention lets 3780 dry in the field - you harvest and haul less moisture from the field.
- ★ **Less Dockage** - Less water hauled from the field means less dockage or drying expense.
- ★ **Lower Potential Weather and Insect Loss** - Because of its rapid growth feature and fast drydown, 3780 is ready for harvest well ahead of commonly grown corns. Fewer days in the field mean less exposure to potential bad weather and late-season insect problems.

#### MORE NET INCOME PER ACRE

High Plains farmers have consistently found 3780 producing more net income per acre than competitive corns of later maturity... even though the green weight of later maturing corns may have been more.

With 3780, you don't take big cuts in yield like you might expect. In fact, in 96 tests under many conditions in the past four years, 3780 has averaged 7,817 pounds per acre. Few farmers will boast of a higher four-year-average, dry-corn yield than this.

Yields like you'd expect from corn with input costs similar to grain sorghum... that adds up to more net income per acre.

**Helmuth Quebe - Plainview**  
Planting date: April 11  
Harvest date: August 20  
Results: 8,200 lbs./A. at 15.0% moisture; pre-water plus three waterings; outyielded later maturing competitive corn by 600 lbs./A.  
His comment: "I like 3780 because of its early maturity."

**R. E. Lance - Hereford**  
Planting date: April 20  
Harvest date: September 25  
Results: 6,500 lbs./A. at 19% moisture; watered 3 times.

Planting date: April 27  
Harvest date: September 10  
Results: 8,590 lbs./A. at 19% moisture; watered 5 times.  
His comment: "3780 had a very good yield for a fast maturing variety."

**Vernon Jackson - Stratford**  
Planting time: April 7  
Harvest date: August 5  
Results: 8,680 lbs./A. at 16.5% moisture; watered 5 times. Popular competitive variety in same field planted earlier, received 1 additional watering, yielded less, and was harvested 12 days later at 24.5% moisture.

Harvest date: October 20  
Results: 7,100 lbs./A. at 14% moisture; watered 5 times.

### Sorghum Farmer's Corn

3780 yields well with management similar to sorghum. And since it reaches peak water demand 4 to 6 weeks earlier than sorghum and up to 2 weeks earlier than later maturing corn hybrids, it can take advantage of early-season rainfall and avoid later-season water shortages. # Curry County F&LB Hear Member Reports

Curry County Farm and Livestock Bureau voted to support the Dole Bill at its February executive board meeting. The bill which is co-sponsored by Senator Pete Domenici, (R) New Mexico, is for a higher target price and to hold the support price down. The board felt they could do this and still stay within Farm Bureau policies. They also recommended the Hightower Bill as not being too high.

President John Hadley was to attend the Southwest Natural Gas Consumers annual directors meeting in Albuquerque as a representative of the Curry County Farm and Livestock Bureau.

On February 28, Pete Davis, first vice-president of the New Mexico Farm and Livestock Bureau, along with John Hadley, Gorman Byrd and Eddie Harrington were to represent Curry County at a meeting in Albuquerque for the purpose of considering Farm Bureau's stand on the American Agriculture Movement and to formulate new policies if necessary. In the afternoon, Bill Stevens was to moderate a meeting of Farm Bureau members with members of the American Agricultural Movement.

Pete Davis reported on the Leadership Training Conference he attended with Mrs. Davis and Andy Norton, field man for the NMF&LB from Roswell. Norton presented a program in regard to the Right to Work Law which Farm Bureau supports. He played a recording made by Senator Hatch of Utah and said 20 states had the Right to Work Law.

Senate Bill 1883 was referred to by Norton as "Big Labor's Big Grab." He said everyone should write their Congressmen in regard to this fight for America and domination of America by Big Labor. "Unless farmers and other Americans act quickly," said Norton, "union bosses are likely to push through Big Labor's biggest power grab to date - legislation to re-write the National Labor Relations Act. It's sponsors like to call it 'The Labor Reform Act.' More realistically it could be described as 'The Labor DE-FORM Act.' It would provide unions with built-in advantages and guarantees, making employers all but powerless to resist unionization. The time-honored process of collective bargaining would be shattered; the monopoly power of organized labor would be strengthened even further," emphasized Norton.

John Hadley reported that the 15 farmers who went to Santa Fe in support of the sales tax bill introduced by Hoyt Pattison, to reduce tax on farm machinery, received very little sympathy from the

legislative members. The report on the Legislative breakfast held in Santa Fe and the recent membership campaign was given by Allen Kelley. To-date, the state membership is 10,200, said Kelley.

Gorman Byrd reported on his trip to Washington, D.C., as a representative of the American Agricultural Movement. He said, the Washington Chamber of Commerce, after compiling figures, estimated that in the first week of the strike, there were approximately 40,000 farmers in Washington, D.C. They were all very favorably received by the people of the area, reported Byrd and he enjoyed visiting with the farmers from the eastern and mid-western states.

Helen Kelly, Chairman of the CCF & LB Women's committee outlined plans for the coming year. They included: a safety meeting in March with all county members invited; a political education seminar, "Meet Your Candidates;" a district meeting in April; an annual meeting in November; tea for New Mexico Press Women; a consumer education day which will include the grinding of flour and corn; spinning of cotton and wool and a style show in one of the Clovis shopping centers.

Farm Bureau Women will also support the Ladies Lead show at the CC Fair and furnish the wool for the wool roses which are given for prizes. They will also cooperate with the CowBelles on the Beef Cook-off.

## 1977-Crop Wheat, Oats, Barley May Be Put In Grain Reserve

As of March 1, farmers may place their 1977-crop wheat, oats and barley directly into the grain reserve being developed by the U.S. Department of Agriculture.

Previously, farmers who wished to enter grain in the reserve needed to wait until a government loan on the crop matured, points out Roland Smith, grain marketing spe-

cialist with the Texas Agricultural Extension Service. Early entry of 1977-crop corn and sorghum into the reserve program is expected to be announced later by the Secretary of Agriculture.

There is also a change in the farm storage facility loan program. Under the change, a farmer will be able to obtain a loan for storage structures to store two years' crop production. However, in determining eligibility, existing capacity used to store grain in the reserve program will be excluded.

USDA offers farmers an opportunity to place their grain in the reserve program for a three-year period and receive storage payments annually in advance, notes Smith. Storage payments are 25 cents per bushel for wheat, corn, barley and sorghum and 19 cents per bushel for oats. In return, farmers must agree to hold their grain off the market, at least until the price reaches the minimum release level (140 percent of the current loan rate for wheat and 125 percent for feed grains) or the contract expires. Under current procedures, farmers must pay 6 percent interest on the loans.

The goal of the grain reserve program is to accumulate about 17 million metric tons (670 million bushels, corn equivalent) of feed grains and around 9 million metric tons

(330 million bushels) of wheat. Participation will be on a first come, first served basis until the goal is reached.

A farmer without an existing loan can obtain a loan and immediately place grain into the reserve by contacting his county Agricultural Stabilization and Conservation Service (ASCS) office, adds Smith.

## Texas State Winners Named In Corn Yields

National Corn Growers Association recently announced the Texas state winners in the 1977 national twenty-five acre Corn Yield Contest.

The Offutt Farms, Dalhart, placed third nationally and first in Texas in the Irrigated Division with a yield of 240.26 bushels per acre. First place in the state in the Class A Non-Irrigated Division went to Dale Flukinger, Hempstead, with a yield of 152.87 bushels per acre.

Second place winner in the state in the Irrigated Division was Melvin D. Barnett, Friona, with a yield of 230.99 bushels per acre.

Bobby Redwine, Muleshoe, placed third in the Irrigated division, with a yield of 228.63 bushels per acre. There were no winners in

## Water, Inc. Names Two New Officers

Amarillo attorney Jerome W. Johnson has been elected president of Water, Inc., by the organization's board of directors. Joining Johnson as a new officer is Lloyd Calhoun of Hobbs, who was named first vice-president. The officers were elected to one-year terms.

Rounding out the new slate of Water, Inc., officers are second vice-president A.C. Verner of Lubbock, secretary Edward G. Weber of Amarillo and treasurer Jim Ed Waller of Lubbock, all re-elected as officers.

Johnson will succeed J.W. Buchanan of Dumas, who served two years as president of the non-profit corporation which is working to assure a supplemental water supply for the High Plains. Buchanan was honored during the recent corporation meeting for his "untiring leadership and his dedication to water importation."

The new president has been a director of Water, Inc., since 1968. For the past two years, he has served as the organization's first vice-president. He is a former director of the Red River Authority of Texas.

Johnson is a senior partner in the law firm of Underwood, Wilson, Sutton, Berry, Stein and Johnson. He is a member of the American Bar Association, the State Bar of Texas and past president of the Amarillo Bar Association. He is a director of Amarex, Inc., and Maywood, Inc.

He has been active in the Democratic Party for several years. Johnson is active in governmental and civic affairs. He received his B.A. and law degrees from the University of Texas. He and his wife, Madelyn, have seven daughters.

Calhoun is vice-president and general sales manager for New Mexico Electric Service Co. He has been a member of Water, Inc., since 1968. He currently serves on four Water, Inc., committees. He is chairman of the membership steering committee and a member of the executive, policy advisory and energy committees.

He is active in several professional and civic organizations. He attended UCLA. He and his wife, Maurita, have two daughters and a son.

### 'Only children' are NOT, either!

AUSTIN, Texas (Spl.) - An "only child" is selfish, lonely and maladjusted. Right? Wrong, says a University of Texas social psychologist.

Dr. Toni Falbo, who does research on aspects of family life, says no sound evidence supports the stereotype of the only child. Only children "are not isolated," she says, noting that such children have as much interaction with other children as they will need to develop normal personalities.

Dr. Falbo's research suggests that only children and first-borns may have much in common as adults. "They may be more achievement oriented and readily take leadership positions," she says.

### Don't Toy With Life

The American Veterinary Medical Association urges you not to give your children rabbits, chicks or ducks for Easter. Excitement and enthusiasm over the gift often result in broken legs and crushed wings.

The injury or death of the animal is a traumatic experience for the child. Animals that survive generally end up in an animal shelter. It is impossible to place them all. Many have to be destroyed.

The veterinarians remind parents that these are outdoor animals. They cannot be housebroken and may cause serious housekeeping and health problems. Public health authorities warn that children and adults in close contact with these animals may be exposed to salmonellosis, a severe

gastro-intestinal infection. Salmonellosis is rarely fatal, but often requires medical treatment including hospitalization. Other pets as well as family members may become ill.

Because of the problems surrounding these animals, many communities have passed laws prohibiting the sale of rabbits, ducklings and chicks as pets.

Easter and the coming of spring should be a time of joy and rebirth, not a period of physical illness, psychological trauma and the needless deaths of young animals. The American Veterinary Medical Association urges parents to leave rabbits, chicks and ducks on the farm and give their children stuffed toys and chocolate bunnies instead.
