The WPA "tax" projects in seven counties in this district stand a good chance of being some of the most beneficial undertakings of the program. The idea is not aimed at assessing at all, but at enumerating, or a property census, if you please. In other places these projects have resulted in the collection back taxes, the designation of most property on the un-rendered roll, and a complete set of facts about the county and city.

And while we have WPA on the nind, two sincidents occurred this week which are noteworthy, if not newsworthy. Certain people been sending prospective WPA job applicants to the district office with the insinuation that political pow ers wanted them hired. Well, the district director put his foot down on this political talk, and he put it down hard and firmly. For which he is to be commended. Another angle, altogether different, is the launching of a one-person project here. Another person was made supervisor of the project and was told in turn that heads of several departments would visit and explain in detail where that department fitted into the picture. A ream of records were issued for checking—all for one person. Such may necessary but amusing, never

Louise Henry, Alan Dinehart, Eather Dale and Etienne Girardot are the principal supporting play ers in "In Old Kentucky," which

was directed by George Marshall. The picture was well received by a crowd at a Saturday night matinee. Part of the proceeds from this program was donated by the Ritz to the Rogers Memorial fund.
