## A Tribute To the Steers

By a Fan

Today I stood on the sidelines of a windswept football field in western Texas, and, as the clouds obscured the rays of a setting sun, I watched the curtains fall on a part of my life that has given me more happy memories to treasure than any one man is entitled to own. These memories are something no power on this earth can take

away or destroy, and my storehouse is full.

I had had this day the privilege and honor of watching a group of young men play the last football game of their high school days. They had played their best, had given to the effort their "all." They had been defeated, had lost, but lost only by the score. A fighting heart, a fighting spirit it is never beaten.

As they filed past me into their dressing room, I looked upon their dirty battered faces, and tears of joy, not sorrow, rolled down my face unashamed. I only wish this group of boys could know how full my heart was with pride for them and I thank God for letting me live this part of my life. If a man shall live a thousand years, accumulate all the good there is, yet not have known the joy there is in the association with the youth of our land, he has been a failure. Upon the shoulders of young men such as I had watched today rest the moral and spiritual foundations of our "Tomorrow," and the fight and spirit shown me today by these young men proved that our youth of today will never let America down.

They had entered this game today as the underdog in about every department excepting "spirit," "a fighting heart," and "coaching." They played a good game and did their best. When they did this, my hat was off to them and I said, "Well done."

To the Senior boys on this team, I predict a very bright future. The world waits with open arms for young men of your calibre, with the fighting

spirit you possess, no one can keep you down.

To the undergraduates on this team, I say this—you have shown you have what it takes, you have been very good. Improve with age and experience. Work together as a unit. Never let jealousy of a teammate enter your mind. A chain is just as strong as its weakest link. The game is won through the efforts of 11 men on the field, the reserves on the bench and your coaches.

The "blue and white" will miss you, Numbers 12, 20, 22, 51, 70, 80, 81, 82. They have been displayed in splendor for the last time by eight fighting Steers.

Let's go, Steers of '59. Wear these numbers again with pride. I say again, "Thanks a million, Steers of '58, for the many many happy moments you have given me, and may your future be as bright as your past."

### Texico, Farwell Divide 2 Games

Texico and Farwell divided a pair of basketball games in Texico's gym Tuesday night of last week.

Farwell won the girls' game 41-24, while Texico's B team boys slipped by Farwell's B team, 36-33.

High scorers in the girls' game for Farwell were Carolyn Parker and Jeanette Lindop with 18 and 13 points, respectively. Anita Moss was high for Texico with 14.

In the boys' game, Freddy Magness, with 15, and Dickie Williams, with 12, led Farwell's scoring. High for Texico were Monte Singleterry, 10; Charles Stockton, eight; and Ursel Doran, seven.

Texico's A and B boys' teams go to Causey Friday night and to Fort Sumner Saturday night. Texico's girls will play in the Lazbuddie Invitational Tournament this weekend.

Farwell teams--both boys and girls--are entered in Lazbuddie Invitational Tournament.

### CARD OF THANKS

I would like to take this means of thanking my wonderful friends for the encouraging cards and letters, for their visits and for the lovely gifts during my illness. You have no idea how much your words of encouragement mean to me. God bless each of you. Maude Brown

### MRS. J. H. FORD ILL

Mrs. J. H. Ford, who was hospitalized Tuesday morning following a heart attack, is reported "definitely improved" by family members.

### MRS. EMMA HUDSON STILL HOSPITALIZED

Mrs. Emma Hudson of Texico remains in Clovis Memorial Hospital where she has been a medical patient for several days.

## Steers Stomp Chiefs

With only one day of practice for the bulk of the squad, Farwell's Steers ripped Friona's Chiefs, 43-24, in a basketball game here Tuesday night.

In the opener of the twinbill, Friona's tall and talented Squaws downed Farwell's girls 33-21.

Coach Calvin Murray's Steers, who began full-fledged practice two weeks late because of football playoffs, led throughout the contest. At the end of the first quarter, it was 10-4. At the half, Farwell had stretched the lead to 24-14, and at the third quarter point it was 30-18.

Dickie Williams led Steer scoring, He hit 21 points. Johnny Lovelace had 10, Owen Huffaker six, Jimmy Martin four, and Phillip Berry two.

High scorers for the losers were Wayne Rhodes, nine, and Ted Sanders and Frank Spring with four each.

The game was played before a small, but loud crowd.

In the girls' game, it was Friona all the way, though the Farwell lassies almost closed the gap in the third period. Score by quarters was 11-0, 17-6, and 21-14.

Jonnie Hand, Friona, was the game's top scorer with 16. For Farwell, Janice Routon, with nine, was high. She was trailed by Karolyn Parker, seven; Emalee Tucker and June Ritchey, two each; and Jeanette Lindop, one.

Both teams are entered in Lazbuddie Invitational Tournament this weekend.

### 40 Minutes Late, Or Just 20 Early?

A few red faces were evident at various churches in the Twin Cities Sunday, as Sunday School "goers" arrived at church at the stroke of 10 to find themselves 40 minutes late.

A few of the teachers were just in time to dismiss their charges for church services. The late ones all seemed to have one thing in common--electric clocks.

Whatever the reason, it seemed that sometime Saturday night the power was off, leaving clock watchers off schedule by a good 40 minutes the next day.

### Cub Scout Ceremony Set Tonight

Ten Texico Cub Scouts will be awarded badges in a ceremonial tonight (Thursday) at 7:30 in Texico Woman's Club Building. Public is invited to attend.

Rev. C. C. Morgan will make the presentations and handwork done by the Cubs will be on display. Refreshments will be served.

Mrs. Allen R. Rogers is den mother of the recently organized Cubs and Curtis Miller is Cubmaster.

### Lazbuddie Future Farmers Attend Banquet

Lazbuddie Future Farmers attend Banquet 18 s Lazbuddie FFA members, their chapter sweetheart and plowgirl, Misses Sussie Carpenter and Marilyn Aduddell, attended a district FFA banquet in Littlefield last Wednesday night.

Awards from recent district contests were presented and the district sweetheart chosen.

The students were accompanied by their advisor, Jack Black, and Fred Wilbanks, Ed Blackwell, and Mr. and Mrs. Howard Carpenter.

Mrs. W. T. London was admitted to Clovis Memorial Hospital Monday morning for medical treatment.

### Daughter Born To Kenneth Willis

Mr. and Mrs. Kenneth Willis announce the birth of a girl, November 29. She has been named Judith Wepona and has one brother, Frank. Grandparents are Mr. and Mrs. John Willis of Grier and Mr. and Mrs. Charles McDaniel.

Mr. and Mrs. Keith Scott, who recently moved to Rankin, spent Thanksgiving Day with her parents, Mr. and Mrs. T. T. Doolittle. They also visited his parents, Mr. and Mrs. Orville Francis of Clovis.

Mr. and Mrs. E. E. Booth were Thanksgiving Day guests in the home of their son and family, Mr. and Mrs. Earl Booth in Clovis.

The Fred Curtis family returned Sunday from Dallas where they had spent the Thanksgiving holidays with her brother-in-law and sister, Mr. and Mrs. L. H. Johnson.

# Steers Lose to White Deer in Regional

After drawing first blood and holding onto an 8-8 tie at the half, Farwell's bi-district champion Steers fell to White Deer's powerful Bucks, 28-16, in Class A regional playoffs Thanksgiving afternoon in Buffalo Stadium at Canyon.

The loss eliminated the Steers, champions of District 3A and 4A, from the state playoffs. The win will send the Bucks into the quarterfinals against Plains Saturday at Plainview.

In the Thanksgiving game, the

first quarter, in fact, the first half belonged to the Steers. They scored the first time they got possession of the ball and threatened on two more occasions. The Bucks managed to tie the score in the second quarter on a 39-yard run by Fullback Allen Harmon.

To begin the game, the Steers kicked off. Johnny Lovelace's boot went into the endzone and the north Panhandle team, which was favored to win the game, put the ball in play on its own

20. The Bucks moved for three first downs and were on Farwell's 21 when they lost the ball on downs.

From that 21-yard line, Farwell started its scoring march. It took nine plays to cover the 79 yards. On the first play, Right Halfback Phillip Berry ripped off 26 yards through right tackle. On the next play Fullback Jerry Lovelace went 46 yards. For the score, Jerry went over from three yards out. Johnny added the extra

points to make the score 8-0. The Steers almost scored again the next time they had the ball—seconds later. After the kickoff, the Bucks fumbled on the first play from scrimmage. Tackle Larry Jesko recovered for the Steers on White Deer's 24.

The charges of Coaches J. D. Atwell and Shelby Jobs moved down to the six before the drive was halted by a fumble. After gaining possession of the ball, the Bucks failed to gain sufficient yardage for a first down and were forced to punt.

Farwell took over on White Deer's 32, but on the first play from that point, a fumble gave the ball back to the victors. The Bucks got the ball to Farwell's 39 in six plays and for then Harmon launched his scoring run. Quarterback Jackie Burns carried the extra points over.

The Steers were knocking on pay dirt's door again in the waning seconds of the half. They ran out of time, however, as the gun sounded with Farwell in possession on White Deer's 10-yard line.

It was in the third period that White Deer dealt the lethal

card. They scored three times in that period to shove the score to 28-8.

Farwell received the second half kickoff, but the Bucks got possession of the ball via the fumble route on the mid-field stripe. In the series of plays that followed Burns tossed to end Jeff Bearden. Bearden caught the aerial on Farwell's 40 and raced across the goal line standing up. When the conversion attempt was stopped, the score stood 14-8.

With the Steers' offense bottled up, they had to punt.

It was midway of the third quarter when the Bucks added their second score of the period. They were on Farwell's 33 when Herchel Powell passed to Burns for the TD. For the extra points, Burns elected to pass to Harmon, who was in the corner of the endzone. Those eight points brought the score to 22-8.

For their final score, in the final portion of that fatal-for-Farwell third quarter, Burns passed to Don Adams for a 49-yard scoring play. The extra points attempt was no good and White Deer was through scoring—28-8.

In the final game, the Steers had the advantage of a strong south breeze at their backs, which simplified passing. And it was a pass play which set up the final score for the Steers.

Farwell got control of the ball after White Deer had gambled a running play on fourth down on their own 33. A 24-yard pass from Johnny Lovelace to Owen Huffaker put the Steers in scoring position. Johnny quarterback sneaked the ball over from one-yard out. Jerry Lovelace ran the extra points to bring the score to 28-16.

White Deer had two touchdowns called back. One was a 51-yard run by Herschell Powell, who ran as if he didn't know the definition of the word "stop," and the other was a 13-yard scoring scamper by Don Carter. Both were erased by clipping penalties.

White Deer had earned the right to play in the regional playoffs by winning its district, 1A, and defeating Gruver, champion of District 2A, 46-6, in bi-district. The Steers, of course, were champs of their own District 3A and whipped Idalou, 30-18, in bi-district action.

In the White Deer game, with the score tied, 8-8, Farwell led in most of the other departments. In penetrations, the Steers led, 3-2, and they also had an edge in first downs, 11-7. In total yardage gained, they were out front, 168-144. Farwell had completed three of four passes while the White Deer boys had been able to connect on only one of seven.

Farwell's record for the season is 10 victories and two defeats. The Bucks will go into the quarterfinals against Plains, a team the Steers whipped the sixth week of the season, 24-22, with a record of 11 wins, no losses and one tie.

ONLY CAR WITH WIDE-TRACK WHEELS

... acclaimed by experts as the year's top engineering advance! The wheels are moved out 5 inches for the widest, steadiest stance in America—lower center of gravity for better grip, safer cornering, smoother ride, easier handling. Pontiac gives you roadability no narrow gauge car can offer!

You've never known a car to ride so smoothly or handle so surely . . . because no car was ever built like this before. And that wide, solid stance is only the beginning. Engineering's hottest team really poured it on to produce this one for you: There's a great new Tempest 420 engine to give you the most breath-taking performance on wheels . . . or, if it's extra economy you're after, Pontiac has, at no extra cost, a new V-8 companion, the Tempest 420E, that actually delivers better gas mileage than many smaller cars with so-called "economy engines"—and uses regular gas for further savings! There are great new True-Contour Air-Cooled Brakes for smooth, safer stops. And inside, seats wider than a sofa! Come on in and see this new '59 Pontiac for yourself.

PONTIAC MAKES V-8 HISTORY! A Pontiac Tempest 420E has set a NASCAR sanctioned and supervised 2,442 mi. coast-to-coast economy mark on regular gas—only 1 1/2¢ per mile at an average speed of 40.2 m.p.h.! See your Pontiac dealer for details and a test drive.

# Of Interest To THE WOMEN

## Levisees Live in Texico Following Wedding

A/2c and Mrs. Austin F. Levi-see are living in Texico following a wedding trip to El Paso and Old Mexico.

Before her marriage November 23 Mrs. Levi-see was Evon Ruth Dannheim. Her parents are Mr. and Mrs. W. H. Dannheim of Farwell and her husband is the son of Mr. and Mrs. W. G. Jones of Malvern, Ark.

Rev. David P. Bergmann officiated at the double ring ceremony in Immanuel Lutheran Church, Clovis, at 6 p. m.

White glads and chrysanthemums decorated the palm-banked altar. Backing the arrangement were twin seven-branched candelabra with pink tapers.

Organist Ray Franz of Portales played the Processional, "Jesus, Joy of Man's Desiring." Soloists were Mrs. Erma Davis of Clovis who sang "Bless This House," and Loyd Wagner of Clovis who sang "The Lord's Prayer."

Attending the bride were Mrs. Glenn Phillips as matron of hon-

or and Misses Sherry Kay Gast and Evelyn Lingnau as bridesmaids. Mrs. Phillips wore a champagne brocaded faille street length dress with a fitted jacket. The bridesmaids were gowned in blue and pink dresses styled identically to that of the matron of honor. They all carried white carnations.

Richard H. Cooper of Clovis was best man. Ushers were Freddie Townson and A. E. Guthals of Clovis and William Dannheim Jr., brother of the bride. Candles were lighted by Miss Jolene Sharp and Edgar Koelzow of Clovis.

Her father gave the bride in marriage. She wore a full length gown of white brocaded faille. It featured a round neckline and long fitted sleeves which ended in points and fastened with covered buttons. Her lace waist-length veil, borrowed from Mrs. Howard Leavell of Texico, was attached to a rhinestone crown. She wore a penny minted in the year of her birth in her shoe and a traditional blue garter made by her mother. For something old she used the white Bible on which her bouquet of carnations and orchids was arranged. Completing her ensemble was a string of pearls given her by the bridegroom.

Lutheran Parish Hall was the scene of a reception. A white cutwork cloth covered the table and white mums and orchid snapdragons formed the centerpiece. A miniature bridal couple topped the cake which was served by Miss Gari Lynn Crooks. Miss Valeria Meier poured the pink sherbet punch.

For her wedding trip, Mrs. Levi-see changed to a navy blue dress with white accessories.

Mesdames Dannheim and Jones, mothers of the couple, both chose brown dresses and wore pink carnation corsages.

At the time of her marriage, Mrs. Levi-see was a senior in Farwell High School. She plans to complete her education later this year. Her husband, a graduate of Malvern High School, has been in the Air Force for three years. He is stationed at Cannon Air Force Base.

Out-of-town guests included the grandfather and uncle of the bride, George Dannheim and Herman Dannheim of Giddings, the bridegroom's sister, Miss Janette Jones of Malvern, and his aunt, Mrs. Mary Lou Ford and Diann of Little Rock, Ark. Others were Mrs. Herman Schwarz and Joann and Mr. and Mrs. John Zuhn of Vernon, aunt and cousins of the bride, and Mr. and Mrs. John Bohot and Mr. and Mrs. Ervin Bohot and son of Littlefield.

Mr. and Mrs. Earl Routon announce the engagement and approaching marriage of their daughter, Faye, to Derrell Garner, son of Mr. and Mrs. Howard Garner. Friends and relatives of the couple are invited to the ceremony in Oklahoma Lane Baptist Church at 2:30 p.m. December 14. A reception will follow.

## Women Set Baptist Women Special Events

Two special events for Texico Woman's Club are scheduled for next week. Public is invited to attend a turkey dinner Sunday and a benefit basketball game Monday.

Serving at the former will begin at noon in Texico Woman's Club Building. Admission will be \$1.50 for adults and 75 cents for children under 10.

Second event will feature the Bloomer Girls—a team made up of members of the club—playing against a team from the Hollene and Pleasant Hill Extension Clubs on the Texico basketball court. It will begin at 7:30 p.m. Monday. Admission will be 50 cents for adults and 25 cents for children or \$1.25 per family.

Proceeds will go into the organization's treasury to pay for tile flooring recently installed in the woman's club building.

## Baptist Women Have Foreign Mission Study

Observation of a week of prayer for foreign missions was program topic for a Monday meeting of the WMU of First Baptist Church, Farwell. The program was followed by a covered dish luncheon at the church.

Mrs. Dora Johnson directed the program. Dressed in the costumes of the country she represented, each participant discussed the dominant religion of a foreign nation.

Mrs. E. G. Williams was dressed in an Indian costume and discussed Hinduism. In a Japanese Kimono, Mrs. Sidney Cox talked about Buddhism and Mrs. Joe McWilliams, wearing Arab dress, spoke on Islam. Catholicism was Mrs. Jim Terrell's topic and she was dressed in a Latin American costume. Mrs. Calvin Blain, in African dress, discussed Animism.

Second section of the program covered the actual work of Baptist missions in these and other foreign countries. Mrs. Sterlyn Billington gave the devotion and Mrs. Johnson gave the benediction.

## Pampa Girl Wins ESA Doll

Eight-year-old Sue Edwards of Pampa was the winner of a 20-inch musical ballerina doll given away last Saturday by Theta Rho Chapter of Epsilon Sigma Alpha.

David Anderson drew the winning ticket.

A complete wardrobe and numerous accessories were included in the annual giveaway sponsored by the sorority to raise funds for Christmas treats in the Twin Cities.

## Third Breakfast Planned By Group

The third in a series of breakfasts sponsored by the Young Adult class of the Methodist Church will be Sunday morning in the church basement.

Serving begins at 7 o'clock and will continue until 8:45, it has been announced. Sesame pancakes will be featured on the menu with bacon, coffee and the "trimmings."

Everyone is invited to attend the function, with tickets going at 75 cents each. Proceeds go into the building fund of the church.

# Hot Water Heaters

**10** Reasons You Should Have A Day & Night Heater:

1. EXCLUSIVE JETGLAS LINING--the ultimate in hot water tank protection--enables a Day & Night Jet-glas water heater to outlast two or more ordinary water heaters.
2. NEW HI-RECOVERY PERFORMANCE--revolutionary new single-port turbo-flame burner design with stainless steel multi-vane flame spreader increases input to provide 20 per cent more hot water from a 30 gallon tank. (Natural gas).
3. UP-FRONT FLUE--new design provides for front flue efficiency on 30 and 40 gallon sizes and positive prevention of stacking. Draft diverter is streamlined to allow center outlet connection. 20 and 50 gallon sizes have center flue design.
4. SAFETY PILOT--100% type, automatically shuts off all gas in the event of extinction of pilot flame. New non-linting mini-pilot burns 2/3 less gas than ordinary pilots. Burner and controls are easily accessible for cleaning and servicing.
5. RUSTPROOF INSIDE AND OUT--Jetglas dustcoat covers the exterior of the tank with a protective finish against rust through condensation. First water heater is rustproof inside and out.
6. METERED MAGNESIUM ANODE ROD--extruded type, for continual standby protection against corrosive waters, much superior to that afforded by ordinary non-metered cast rods.
7. FUEL-SAVING REVERSE TWIST Baffle--holds back heat so maximum is transferred to water, giving you full value for every fuel dollar spent for hot water.
8. THICK INSULATION--extra-thick, no-sag blanket of glass fiber between tank and jacket to prevent fuel-wasting heat loss.
9. TEN YEAR WARRANTY--Complete heater replacement in event of tank failure. Unconditional during first five years, pro-rated during second five years.
10. A.G.A. APPROVED--available for Natural, Manufactured, Mixed and LP gas.

Available in 20, 30, and 50 gallon Models and Guaranteed Up To 10 Years.

## Farwell Focuses On Basketball

With a successful football season tucked away in the record books, Farwell's Steers turned their attention to basketball this week.

Fifteen varsity candidates, including eight lettermen, reported to Coach Calvin Murray Monday. Height and experience will be the team's long suits though practice has been delayed two weeks because of football playoffs.

The team will compete in District 3A--same as football--and the teams will be the same as those in the football district--Farwell, Anton, Kress, Sudan, and Springlake.

Last season, the Steers finished second in district. Morton was the champion. Morton, of course, has moved to Class AA this season.

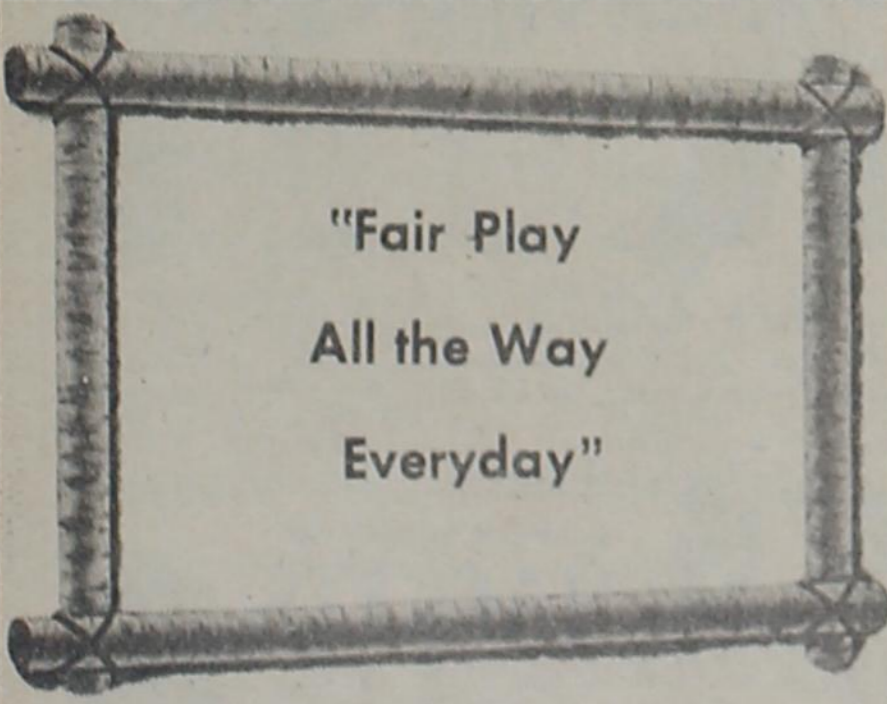

Coach Murray's Steers compiled a 17-13 record in '57-'58.

In district play, a double round robin will be played--each team playing the others twice--and a district tournament will count 50 per cent each. In case the winners of the round robin and the tournament are different teams, a sudden death playoff game between the two will be played to determine the district winner.

Coach Murray points to Anton as the favorite to win the district crown. "They had a 16-8 record last year and will have most of that team back this season," he says.

Returning senior lettermen are Johnny Lovelace, 6'4"; Dickie Williams, 6'2"; Phillip Berry, 5'8"; Jimmy Martin, 5'8"; Gerald Christian, 6'1"; Owen Huffaker, 6'0"; Freddy Magness, 6'0"; and Larry McDorman, a junior, 6'1".

In addition to being lettermen, five of those returning were starters at one time or another last year. Those are Lovelace, Williams, Berry, Christian, and

### METHODIST CHURCH NEWS

About 50 members of the Methodist and Baptist Churches of Oklahoma Lane attended a Thanksgiving program Thursday night at the Methodist Church. Rev. Joe Salem of Sudan, district lay leader, was guest speaker.

He told of his recent trip to eight different countries with most of the talk about his experiences behind the Russian Iron Curtain. He and other members of his party spent six weeks on a peace mission. After the program, pie and coffee were served in the church fellowship hall.

### BAPTIST CHURCH NEWS

All ladies of the church and any others who are interested are invited to attend the observance of World Day of Prayer for Foreign Missions at Oklahoma Lane Baptist Church Friday, December 5, at 10 a. m. Each one is asked to bring a covered dish for lunch. Theme for the day is "Born . . . a Savior." Mrs. Wayne Hardage will direct the program.

### FARMERETTES MEET IN WATKINS HOME

Mrs. Donald Watkins was hostess to members of the Farmerette Club last Tuesday. Members answered roll call by telling of a mistake they had made and profited by.

After the business meeting, Mrs. Loucille Foster, English teacher in Bovina High School, reviewed a Shakespearian play.

Members set December 19 as a tentative date for their annual Christmas party to be in the home of Mr. and Mrs. Donald Christian.

One new member, Mrs. Troy Christian, was welcomed into the club. Mrs. Wayne Hardage was a visitor. Present were those mentioned above and Mesdames Leon Grissom, Harold Carpenter, Ponce Billingsley, Jimmy McGuire, and Delbert Garner.

The hostess served pumpkin pie and whipped cream with hot punch and coffee.

# Steer Statistics Released

Johnny Lovelace, quarterback, was the leading scorer for Farwell during the successful 1958 season. This information, with various other facts and figures concerning the team and the season, was announced this week by Coach J. D. Atwell.

Statistics on the games were kept unofficially by managers of the team, Bobby Lesly and Jackie Williams.

In winning 12 games and losing two, the blue and white scored 450 points as compared with 137 for the opposition. This makes an approximate average of 37.5 against 11.5.

The 10 wins included Bovina, 39-8; Lazbuddie, 55-0; Morton, 49-0; Fort Sumner, 21-14; Plains, 24-22; Kress, 48-0; Anton, 50-0; Sudan, 44-16; Springlake, 52-16; and Idalou, 40-18. The two losses were to Friona,

# THE HIGH PLAINS FARM AND HOME

## Cotton Harvest 85-90% Complete

There's more to a high Plains cotton harvest than just jerking the lint off the stalk, but that's the first thing that must be done, and--from the farmers' standpoint--about the most important.

This primary phase of mechanized cotton harvesting is from 85 to 90 percent complete in the Parmer County area this week. The weather has straightened up and allowed farmers to do their stripping almost at will since Sunday.

For the gins of the area, there's still plenty of work to be done. On most gin yards, the cotton is piled high in as many trailers as can be gathered up, and crews are running the whining machinery around the clock to get the work done as soon as possible.

Irrigated cotton this year has seldom--if ever--been better. Its quality approaches the all-time standard set in 1956 and the yield is probably slightly more than in that record-breaking season of two years ago.

On top of that, the loan is up, the market good and farmers are very pleased with the way that their No. 1 Money Maker is going this year.

Yields of two bales and over are not unheard of, although they are admittedly not a part of the norm. Usually, the yield is from 1 1/4 to 1 1/2 bales, with a lot of 1 3/4 farmers thrown in to help average things off.

What may or may be prophetic of another rugged winter was the light snow of last Thursday--Thanksgiving Day. The

snow, accompanied by high winds, buzzed down out of the north Thursday night and left a deposit over the entire county area that did not melt off before the first of this week in many spots.

That was not because there was so much snow, though. It was on account of the cold weather. The thermometer had hovered at or below freezing for several days after a front moved in Wednesday of last week, and this streak of nippy weather did not warm up until Tuesday.

Light showers fell in some area spots Saturday night, but on the whole, moisture has been very minor. That goes for the snow, too, which was powdery dry and contributed little in the way of wetness.

### Cotton Burrs Back Whar They Come From

Cotton burrs are returning to the land on some of the most progressive and up-to-date farms in the Parmer County area. It costs money to return the burrs to the fields, but farmers who figure all the angles consider it an investment--not an expense.

This fall, the Parmer County Soil Conversation District chose James Mabry of the Hub as the outstanding conservation farmer of the year. One of the reasons was for his care of his soil, and one of the practices he's sold on is putting cotton burrs back on the land.

This year, Mabry is applying eight tons of burrs per acre. This is a heavy application, and produces good results. The tilth and permeability of the

soil are improved, as is the water-holding capacity--an important consideration for farmers of this area. Organic matter is aided, too.

Many cotton burrs produced on the High Plains are consigned to the burr pit where they are destroyed by fire. However, in recent years progressive farmers have been converting this by-product of the cotton industry into useful channels.

### County 4-H Party Saturday at Hub

Joe Weldon Jones of Bovina presided at a Monday night meeting of the recreation committee of the County 4-H Council in the home of Mr. and Mrs. Bruce Billingsley.

Richard Chitwood led the 4-H pledge and the president turned the meeting over to the recre-

ation leader, Cooper Young, and the group planned the county party to be Saturday at 7:30 p.m. at Hub Community Center.

Boys are to bring 25 cents and girls are to bring four sandwiches and six cookies. All 4-H Club members 12 years old and older are invited to the party and may bring their parents, leaders, and guests. Men will play dominoes.

Present for the planning meeting were Young, Jones, Mary Anne Hardwick, Barbara Rea, Virginia Rea, Judy Billingsley, Chitwood, County Agent Joe Jones, Mrs. Gene Rea, Bruce Billingsley, and Janis, Richard Chitwood, reporter.

Automobiles were offered to consumers "completely equipped" for the first time, in 1910.

In 1957, makers of automotive parts and accessories increased their advertising in newspapers by 141 per cent over the previous year.

### NEWS FROM THE FARM BUREAU

By RAYMOND EULER

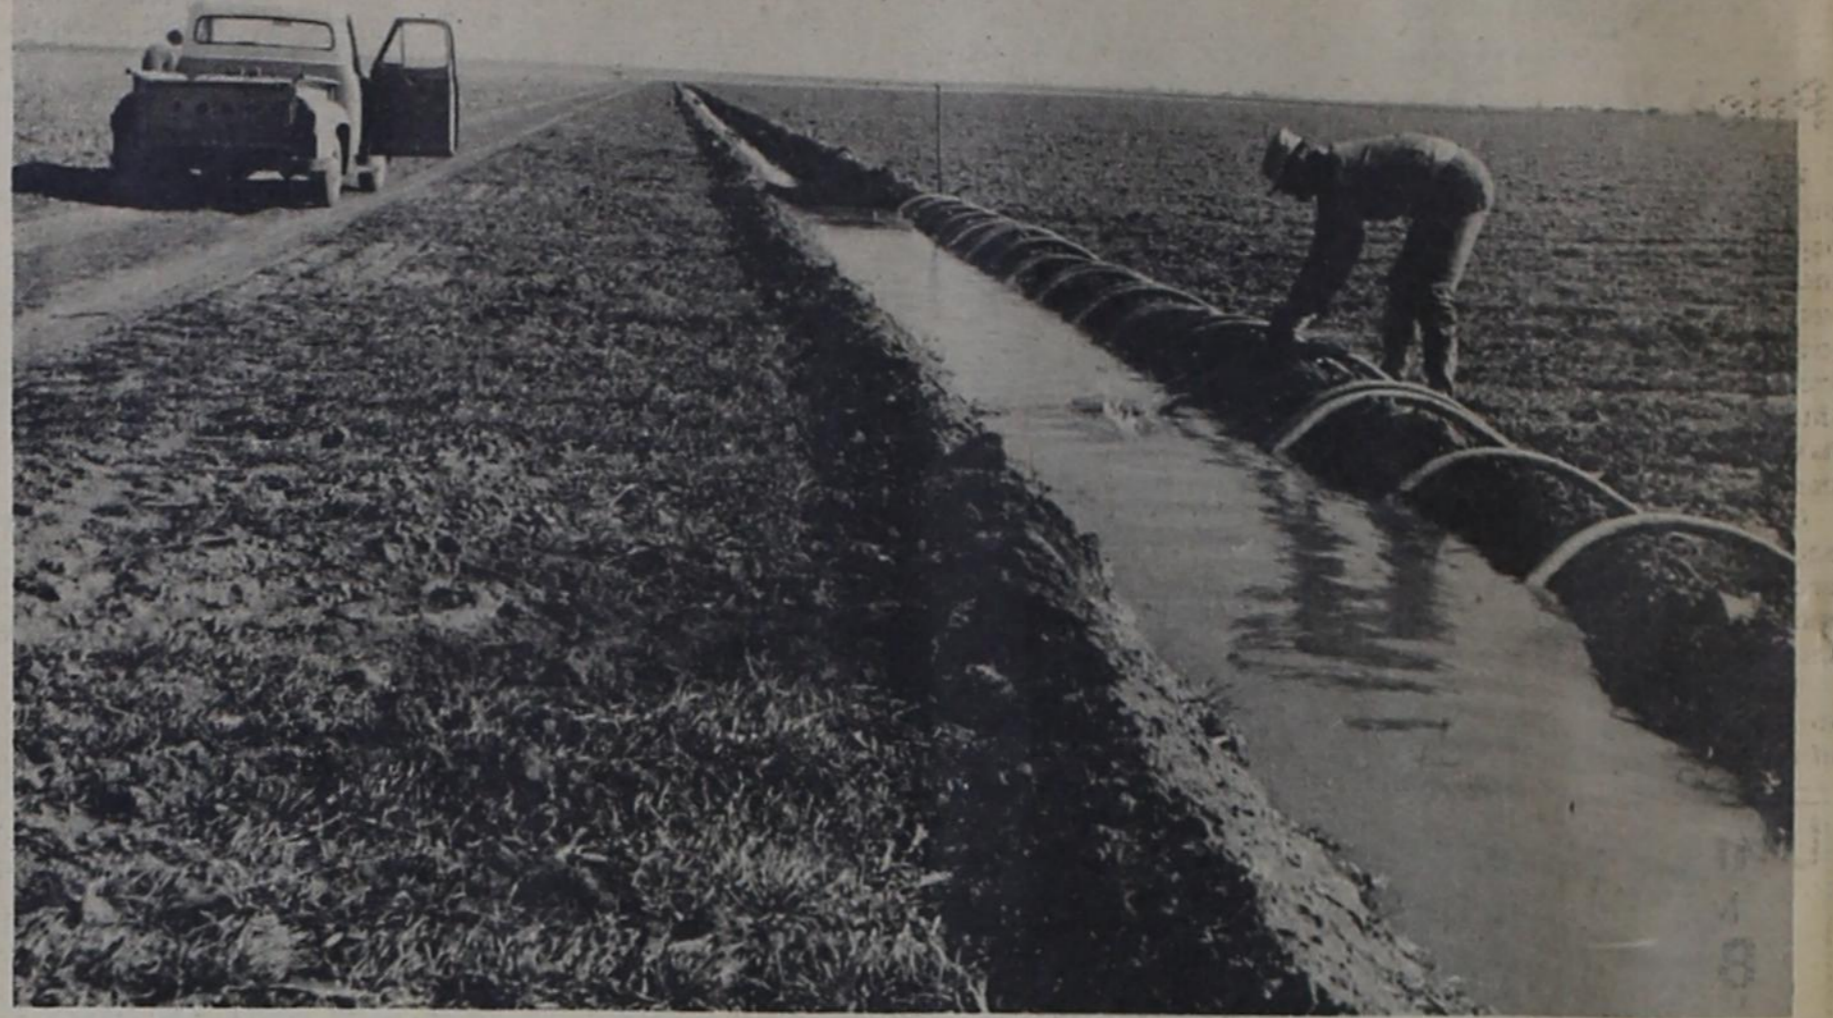

Well, corn growers in the commercial area decided they would try raising corn without government restrictions and without penalties, and without the high support guarantee, Farm Bureau has promoted this program for some time, and desired to have it apply to all basic commodities. It is hoped that it can be extended in the near future.

There have been many calculations as to the effect this program will have on grain sorghum producers. Some say it will up the support; others say it will bring them to a new low. According to the figures from Texas Farm Bureau research and promotion publications, it will bring the price of milo to between \$1.90 and \$2 per hundred.

It is also anticipated that more of the milo will go directly into domestic and world markets, which would certainly begin depletion of government surpluses. This is one of the principal objectives of the program. We hope it works.

John Gregg, field representative for the National Cotton Council, met with Parmer County Farm Bureau directors Monday night. He listened to the regular course of the meeting, and then reported upon activities of the Council. He displayed copies of consumer advertising copy that has been used in the past two or three years. He explained that contributions to the Council by farmers was used very little in this advertising program, except to get support of manufacturers and merchandisers of cotton products. We think Mr. Gregg is doing an outstanding job for the producers of cotton in this area.

President Kaltwasser reported to the directors that he and other Farm Bureau presidents had spent a day at the Lubbock cotton classing office, observing methods. He reports that he believes every effort is made, under the circumstances, to give the farmer the benefit of doubt, when there is indecision. But Kaltwasser, and the classers too, believe much more accurate classes will be given when automatic sampling

A SNAPPY JOB for this time of year is "making a set" on irrigated wheat. This is Homer Lindeman of the Hub Community, who has about 200 acres of wheat. He ferti-

lized with 100 pounds of anhydrous ammonia. Many farmers are winding up or have finished their first winter waterings.

devices are installed in gins.

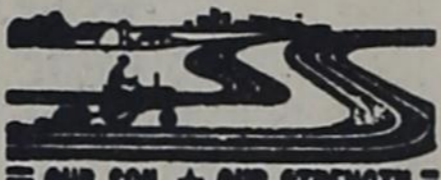

Friday is the last day for ordering rat poison for the county wide eradication effort in Parmer County.

Consider this: "They that forsake the law praise the wicked; but such as keep the law contend with them" Proverbs 28:4.

#### SOIL CONSERVATION: DISTRICT NEWS

When someone speaks of a "conservationist," most people think of the SCS personnel. It's true that their title is "conservationist," but this should be applied to a farmer or rancher as well. Part of the Soil Conservation District objective is that every farmer and rancher become a conservationist.

A conservationist is a man who sees the land. To him, it isn't just a mixture of sand, silt, clay and rock, but rather it is the gift of God to man to be used to produce the food he must have, the fiber for clothes and shelter and the beauties so necessary for the enjoyment of living.

To him, the soil is a living thing. The soil has needs and capabilities as does man or beast. The needs of some soils are few, to produce a hundredfold; others have much greater needs to produce even tenfold.

Since the soil is a living thing, it has a way of telling the good husbandryman just what its needs are. He can read the signs and treat it in keeping with the needs. Again just like a man or beast, some soils are suited for one use, others another.

Just as all men are not of a temperament to be doctors, neither are all soils suited for growing cotton. The conservation farmer or rancher uses the land for the purpose for which it is best suited, and treats it in accordance with its needs.

A conservationist shares his knowledge and findings with his friends and neighbors. He isn't selfish in the use of his knowledge for only his own financial gain, but shares this knowledge because he loves the land and has a desire to see it protected and improved.

A conservationist is aware that no nation can progress beyond the limits of its soil, and that our whole civilization depends on what we do to conserve our remaining land and restore the mined-out fertility.

Do you still have left over turkey in the refrigerator or freezer? If so, maybe you would like to try one of the following recipes for combining turkey and rice and making a tasty dish for a noon or evening meal. Of course, left over chicken could be substituted for the turkey in any of these recipes.

One of the nicest things about these recipes is that they are easy to prepare. Some of the others are that they are low in cost, and suitable for the whole family or guests of any age.

**RICE 'N TURKEY DELISH**  
3/4 cup milk  
1 can condensed cream of mushroom soup  
1/8 teaspoon pepper  
2 1/2 cups coarsely diced turkey  
1 cup seedless grapes or 1/2 cup plumped raisins  
3 cups freshly cooked white rice  
1/4 cup slivered toasted almonds

Combine soup, milk and pepper in a saucepan. Add turkey and grapes or raisins; heat gently just until hot. (A high temperature changes delicate turkey flavor.) Check for seasoning and add more if desired. Spoon over hot rice on a platter or serving plates. Top with toasted almonds. Serves 4 to 6. To prepare plumped raisins, place raisins in collander or sieve and steam for six or seven minutes.

**RICE 'N TURKEY LOAF**  
2/3 cup uncooked white rice  
1 1/3 cups water  
1 teaspoon salt  
3/4 cup milk  
3 eggs  
2 1/2 cups finely chopped turkey  
1/4 cup finely chopped green pepper  
1/2 cup chopped pimento  
2 tablespoons minced onion  
1 1/4 teaspoons salt  
1/8 teaspoon pepper

Add rice to water and salt in a 2 quart saucepan. Bring to a vigorous boil, turn down heat, cover and simmer 15 minutes. Turn off heat but leave covered for about 10 minutes. Then stir in remaining ingredients and mix thoroughly. Pour into a well greased 1 1/2 quart loaf pan and set in a shallow pan of hot water.

Bake in moderate oven 1 1/2 hours or until a silver knife inserted in center of loaf comes

out clean. Remove loaf pan, run knife around inside edge and let loaf stand 10 minutes. Turn loaf out onto a plate, then invert on a platter so browned top of loaf will be up. Serve with a mushroom or celery soup sauce. Makes 8 generous servings.

In a list of household suggestions we read recently this one was included. "When putting window panes in, run hot poker over the putty so that it will be pliable enough to work into cracks well." The idea is good, but where in the world would anyone get a hot poker these days? Or, even a poker??

Success in life is knowing how to be happy IN SPITE OF.

"The Place Where Most People Trade" Friena, Texas Wednesday, December 3, 1958

Mr. and Mrs. Charles Bainum and son, Jimmy, visited with their sons, Wayne and Kenneth, over the holidays. The Bainum boys are in the air force and are stationed at San Antonio. This was the first time Mrs. Bainum had seen her grandson, who belongs to the Kenneth Bainums. She also enjoyed visiting with her granddaughter, who belongs to the Wayne Bainums.

Hard luck dogged the family while the Bainums were gone. Dudley, who lives in Amarillo, came home Sunday to have a cyst on his ear treated, and Mrs. Bainum's father, Mr. Bartlett, got pretty sick Wednesday and had to go to the hospital for a few days. However, things are back to normal now.

McCormick trailing-type disk plows may be obtained in sizes to match the power of your tractor. These plows will turn furrows as deep as nine inches, from 7 to 10 inches wide. Come in and let us show you one of these plows soon.

One of the cleverest parties we've heard about was given by the Louis Welches Saturday night. On a hall table was a toy donkey pulling a small cart with a banner reading "Nevada or Bust." Bridge tables were oil cloth covered and lights were old time kerosene lamps.

Napkins were huge red and blue bandanas. Lately it has been almost impossible to get enough men folks together to have a bridge game. Most of them are going to or returning from Nevada.

Newt Gore was in Northwest Texas Hospital at Amarillo the first of the week, but is home again and feeling much better. The Gores have sold their farm recently and will soon be moving to Mrs. L. M. Crow's farm south of Friena.

# Big Switch In Feed Grain

## Price Rise Thought Likely by Bureau

What has been talked about for several years has finally happened. The nation's commercial corn growers have voted to end a government program of long standing that will rub out acreage restrictions on this crop. In return, they will have a smaller government support price.

Controls on corn ended a week ago in the national corn referendum, and the new program was approved by 71 percent of the corn growers voting.

This is very significant news to the grain sorghum growers of the High Plains and the Par-

mer County area in particular. The reason is because grain sorghum has long competed in the same market with corn as a feed grain, and the things that affect one crop affect the other.

With the price of corn decreasing, and the possibility of even greater production raised since controls have ended, it might first appear that grain sorghum growers can take little comfort in this new development.

However, at least one group, Farm Bureau, thinks grain sorghum prices will increase next

year. Their logic has an official ring to it since the government has agreed to support grain sorghum at a ratio commensurate with its feeding value compared to corn (and another minor factor or two).

Estimates now made by the national farm organization indicate that the corn support price for next year, which is a "weighted" average of the price for the past three years but not less than 65 percent of parity, will be between \$1.12 and \$1.15 per bushel.

In that case, grain sorghum will be supported at somewhere

between \$1.90 and \$2 per hundredweight (national average). Support price this year is \$1.83.

Boiled down, the indications are that, Farm Bureau is convinced, that local farmers will get from seven to seventeen cents more a hundredweight for their grain sorghum next year.

That will make lots of area farmers mighty happy if it pans out. It also could have a noticeable effect on the "A & B option" now being offered farmers who can plant 40 percent more cotton than their allotment if they accept a lower price support. The prospect of higher feed grain prices is certain to discourage use of the option.

Barley, oats and rye are also to be supported in relation to their feeding value as compared with corn. Thus, all feed grain crops are thrown together for the first time in a reduced emphasis government price support program. Previously, grain sorghums, as a non-basic commodity, has received a fluctuating price support left entirely to the discretion of the secretary of agriculture, while corn, as a "basic," has had price supports set by law.

National average prices for these other feed grains are estimated to be: barley 91 cents, rye 95 cents, and oats 58 cents a bushel.

## Farmers Union Report

Farmers Union convention time is here again. This is a time to which a majority of the Farmers Union members look forward with great anticipation. It is a time when old friends come together and new friends are made. It is a time of cooperation, for this is where state policy is formed, where state resolutions are passed and where Farmers Union gets an overall picture of the agricultural situation throughout the state.

This is where Farmers Union lays its campaign plans in their fight for parity of income for the family farmer in this great state of Texas.

Now is the time if never before when farm people need Farmers Union and vice versa. Our economic security is being threatened on every hand by various bureaus, governmental and otherwise. Farmers Union contends that under the present circumstances, price supports are an absolute necessity and must be maintained at a level affording parity of income with other businesses.

Take a look at the corn situation. All controls were voted down which was exactly what Benson and the Agriculture Dept. wanted to happen. Their plans for this were laid last year when they saw to it that the man who planted corn from fence to fence fared just as well price wise and loan wise as the man who complied with the acreage program.

Naturally, under this kind of program, controls were voted off. Now, no corn program

and pretty soon no program of any kind unless somebody comes up with something that will stop the trend. Farmers Union has the program, it just needs your support.

If you will notice, the same means used in a different way is being used to lower the price of cotton, and consequently later no program at all. This hocus-pocus A & B plan business is only a trap and cotton can only suffer for it.

Some of the Parmer County families who will be present as delegates at the convention Friday and Saturday, Dec. 5 and 6 at Mineral Wells are: Mr. and Mrs. Gene Phillips, Mr. and Mrs. Clark from Lazbuddie; Mr. and Mrs. Leon Smith and Junior Matthews.

Alternate delegates are: J. C. Redwine, Euel Mitchell, James Welch, and Don Schumann.

T. O. Lesly, the Lazbuddie local president, will serve on the state resolutions committee this year. Rouel Barron will be the Parmer County representative on the board of convention directors. Everybody is invited to go to the convention if possible.

# 59 Cotton Allotment 44,165 Acres

The 1959 upland cotton allotment for Parmer County is 44,165.3 acres.

This represents a reduction from 1958 of 3,081.5 acres. The 1958 cotton allotment for Parmer County was 47,246.8.

These figures indicate that each cotton farm in the county will have an allotment for 1959 which is approximately, but not quite, seven percent less than the farm had in 1958, says Prentice Mills, ASC office manager.

This reduction in allotment will not apply to farms whose 1958 allotment was 10 acres or less because the law provides that the allotment for such farms shall not be reduced below what it was in 1958.

Parmer County cotton growers will receive official notice of their 1959 farm acreage allotments for cotton early in December.

In 1959, two allotments for upland cotton will be established for each farm, and if marketing quotas are in effect, each farm operator will have an opportunity to choose the one he wants to comply with and to

register his choice at the county ASC office.

If he elects the "regular" (choice A) allotment and complies with it, he will be eligible for price support at the full level available--not less than 80 percent of parity for 1959.

If he elects the choice B allotment (which is 40 percent larger than the choice A allotment), and complies with it, he will be eligible for price support at a lower level. This would be 15 percent of parity less than under choice A.

If marketing quotas are not in effect, only "regular" allotments will be available and price support will be at 50 percent of parity as directed by law.

A vote on cotton marketing quotas for the 1959 crop will

be held on Monday, December 15. The result of the vote will determine how next year's cotton crop will be marketed, the kind of allotment program in effect for the crop, and also the level of price support available to cooperators. These are questions that concern every cotton grower. Farmers are eligible to vote in the referendum if they engaged in the production of cotton in 1958.

The 1959 allotment announcement has been anxiously awaited by Parmer County cotton growers. They will be making some serious decisions about next year's farming soon and the allotments will have a definite bearing.

Parmer County is receiving about two percent less of a cut than the nation's producers as a whole, who were notched back nine percent. This is because of this county's favorable history of cotton production trend.

Used to figure the county's base allotment for 1959 are the average is favorable for most farmers.

In conversation with County Agent Jones the other day, we took note of something he said that ties in with the above appraisal. Joe says that there's just no such thing as an "ideal year" from the standpoint of weather, for a diversified cropping system such as we have in this part of the Plains today.

Joe points out that a cold, wet fall such as we had last year is just the thing for starting a good wheat crop, but it is pure murder for the cotton farmer and doesn't help the grain sorghum man, either.

The same thing's true in the spring. Wet, cool weather really brings on the wheat but it delays or prevents success-

ful early season cotton planting, which is so often the key to a good crop at this latitude and altitude.

Then, as the growing season advances, the cotton needs plenty of hot weather to develop. This hot weather may make it impossible for the farmer to keep his grain sorghum wet enough even though he runs his irrigation wells full tilt. Also (depending on the state of the crop), the wheat can be hurt by a sudden hot spell--just as it was this year.

So, it's pretty much the case that there just isn't any pleasing EVERYBODY with the weather. Also, it might be pointed out that this year, which did have its rough spots, as every farmer knows, is proving to be one of the best ALL-AROUND years we could hope for.

We've thought this over and have decided that Joe's right.

If the readership of this column is cut in half this week, we'd venture to say that it's no fault of ours. Seems as if everybody has hit out for the hills. The hills of Nevada, that is.

So far, we haven't run into

anyone who knows the full story on the "homesteading fever" that has enveloped this area, but we do know that a lot of our farmer and businessman acquaintances are more than just lookers, and that they are quite serious about getting in on the deal.

The story is going the rounds that the government has opened up a big acreage (was it millions, or thousands?) of public domain land in Nevada for homesteading. Through some broker in that state, this land is being parceled out a half-section at a time for 25 cents an acre.

The rules are one half to a customer--no more, no less, and some improvements have to be made. We understand these to be fencing, putting down an irrigation well, and breaking out a certain percentage. This part of the deal's pretty hazy to our sources, so don't bet on it.

At any rate, a lot of fellows have decided they can't possibly get hurt much at prices like those, so are lining up for their share. Some have

bought sight unseen (we sure don't recommend it), but most are going out for a look.

Whether they buy or not, everybody seems to be enjoying the trip. We notice a few suspicious signs about

this deal. One is that the buyers--or prospective buyers--are all men who are ganging up in cars for the ride. It seems as if you just can't get to the land without going through Reno!

## THE PARMER FARMER

by W. H. Graham Jr.

Probably, the 1958 cotton harvest is nine-tenths over. That is, the farmers' part of the cotton harvest. The gins will still have a lot of work to do before they can look up from the grindstone.

As cotton is the latest of our major crop harvests, folks are beginning to add up the totals to see just what kind of a year 1958 has been.

Most are finding that it stacks up something like this:

WHEAT--a good year. One of the best, both for irrigated and dryland, in a long time.

MILK--a good year. Comparable with 1956 and 1957 from a yield standpoint, although per-acre average is probably up slightly. Much better late-season and harvest conditions than in year previous.

COTTON--a good year. In many respects as good as 1956 although grade may not quite measure up. Better prices, increased yields are closing the gap, though, and from an over-all standpoint, 1958 was a good one for the cotton growers.

Of course, adverse weather, unusual insect trouble, well breakdowns or other factors caused unusual hardships in localized areas. Some farmers actually came out shorter this year than last, and 1957 was a pretty poor one. However,
