Prepare For Tourney --

LL All-Stars Chosen At Season's Finale

Texico-Farwell Little League concluded its season last Thursday evening. Tide and Kelly Green teams tied for first place with a record of 10-8. Farwell Insurance finished third and Worley came in fourth.

Citizens Bank captured the Pee Wee League with a 11-1 overall record. Plano Grande took second with a 7-5 season. Interstate Fertilizer was third with a 4-8 record and Sherley-Anderson-Pitman came in fourth with a 2-10 season.

All-Star players were named following the final games. Team members are Jesse Coburn, Steven Jaime, Joe Steward, Roger Robertson, Sammy Sanchez, Cynthia Ancira, Buck Gaddis, Felix Lucio, Tommy Watkins, Ronnie Gal-

van, Johnny Torres, Blake Kelley, Paul Topliff and Andy Hughes.

All-Star coaches have not been named as yet.

The All-Stars were expected to take a few days rest before working out for the upcoming All-Star tournament to be played later this month.

Approximately 110 boys and girls in Texico and Farwell participated in this year's Little League and Pee Wee games. The Little League teams played 18 games and the Pee Wee teams played 12.

Members of the Texico-Farwell Little League Association who assisted with the program were Betty Jean Castleberry, president; Jim Hughes, vice-president; Jim Walker, player agent; and

Judy Jones, secretary.

Special thanks are extended to those who umpired the games, to Ken Walters of Sunset Enterprises of Clovis who donated an ice machine for the concession stand, the Texico-Farwell Youth Commission for its assistance, and to all the participants, parents and fans who supported the program this year.

Rosters and coaches for the Little League teams are as follows:

TIDE

Blake Kelley, Gary Jones, Kevin Hogan, Ronnie Galvan, Danny Powell, Kevin Owen, Jim Landis, Johnny Torres, Wesley May, Mike Barker, Jessie Anzaldua and Erik Burton. Coaches are Jerry Owen and Randy Kelley. Lynn

Burton is the scorekeeper.

FARWELL INSURANCE
Paul Topliff, Tommy Watkins, Cynthia Ancira, Lane Tant, George Montez, Troy Cochran, Buck Gaddis, Stanley Cross, Wade Hicks, Renee Bartley, Jody Ketcherside, Steve Smith and Ralph Galvan. Bo and Jeannie Bartley are the coaches assisted by Mark Ancira. Jeannie is also the scorekeeper.

KELLY GREEN

Sammy Sanchez, Jody McDonald, Bob Steward, Roger Robertson, Felix Lucio, Andy Hughes, Carrol Smith, Eddie Adkins, Brent Stephens, Sean Knowlton, Carl Hutchins, Greg Spears, Mondo Lopez and Gregg Lovett. Bill Autrey and Joe Jones are the coaches.

WORLEY

Bill Knoy, Joe Loera, Bobby Ford, Jesse Coburn, Alan Spence, Greg Brewer, David Woods, Jessie Garcia, John Thomas, Steven Jaime, Kevin Cox, Hilda Loera and Joe Steward. Coaches are Tom Knoy and Don Brewer, who are assisted by Jesse Coburn Jr. Nancy Knoy is the scorekeeper.

Pee Wee teams are as follows:

INTERSTATE FERTILIZER

Donnie Caron, Jim Caron, John Caron, Tammie Caron, Todd Thigpen, Curtis Chisom, Andy Chisom, Ronnie Autrey, Homer Anzaldua, Jessie Martinez, David Vaughn, David Moseley, Theresa Thomas, Dean Fant, Andria Chadwick and Freddy Paez. Coaches are Steve and Jackie Caron and Hugh Moseley.

SHERLEY-ANDERSON-PITMAN

Kenny Adams, Dena McDaniels, Tomell Knoy, Able Lopez, Jacob Lopez, Corey McDaniel, Robbie Fly, Gary Fly, Scott Hicks, Melissa Lopez, Tim Meier, Raymond Ausburn, Gary Scott Bailey, Christie Stephens, Jeffrey Stewart, Benji McDaniel, and Steve Gerles. Coaches are Keith Stephens and Bill Adams.

PLANO GRANDE

Corey Jones, Ladd Brown, Twila Longo, Matt Geuther, Audra Beavers, Wayne Holland, Urbano Orozco, Bone Nicolas, Tracy McDonald, Joe Jaime, Daniel Hutchins, Kelly Brown, Jason Turner, Jason Newsom and Tony Nicolas. Coaches are Donald Jones and Ray Norton.

CITIZENS BANK

Tommy Hammit, Amy Guley, Greg and Jeff Actkinson, Richard Boyles, Bret Taylor, Marty Walker, Todd Bartley, Jimmy Lovato, David Loera, Donna Smith, Laurie Embry, Tice Love, Carl Gonzales and Joe Lovato. Coaches are Ridley Lonsdale and John Defoor.

Coach's Strategy

Tom Knoy of Farwell, right, one of the coaches for Worley Little League team, talks over team strategy with one of his players, Steven Jaime. Some 110 boys and girls in the Twin

Cities participated in Little League and Pee Wee games this season. Regular season play has ended and All-Star action will begin later this month.

July 27-28 --

Border Town Days Plans Progressing

Plans for the 1979 Border Town Days celebration slated for July 27-28 continue to take shape through the continued efforts of the LTD Committee which met Monday night at the Farwell Jaycee Community Building.

BTD Committee members are representatives of all clubs and organizations in both Texico and Farwell. However, only 12 people attended Monday's meeting. John Getz, chairman, presided.

"United We Grow" is the theme of this year's celebration. A host of various, fun-filled activities and events have been planned including a rodeo, parade, barbecue, BTD Queen contest, Fiddlers contest, park concessions and many other activities.

Farwell Jaycees will again sponsor the High Plains Junior Rodeo Association rodeo July 27-28 with nightly performances beginning at 8 p.m. at the arena. Work on the arena has already begun, according to Jimmy Curtis, club president, and new lights have been purchased.

The traditional parade will begin at 12:30 p.m. CDT Saturday, July 28. Floats and other entrants will begin lining up south of Highway 60-70-84 at the Texaco Service Station, proceed through the "main streets" of both communities, turn south on Fifth Street in Farwell and disband one block south of the Convalescent Center.

Glenn Fant who had been appointed parade marshal is moving prior to the festivities at the end of the month so another parade marshal will be chosen by the Texico-Farwell Lions Club. In the meantime though anyone wishing to enter the parade should contact the Tribune at 481-3681.

The best parade entries will receive prizes. Farwell Chamber of Commerce will present monetary awards to the three best float entries including: \$50 for first place, \$30 for second place and \$20 for third place.

Texico Chamber of Commerce will award the prizes to the best old car entries. If enough riding clubs participate in the parade, trophies will also probably be presented to the best entries.

A few parade entries tentatively scheduled are Cannon AFB color guard, Clovis Shriners Drum and Bugle Corps, a combined Texico-Farwell band, New Mexico Lions Club Eye Bank and Texico-Farwell Lions vehicle.

Float entries may also include Texico Chamber of Commerce, Texico-Farwell Senior Citizens, local twirlers, cheerleaders, Farwell Chamber of Commerce, Texico Woman's Club, Farwell Study Club, Texico Variety Store, a combined float for the Texico and Farwell Volunteer Fire Departments and the Convalescent Center.

Children are also encouraged to decorate their bicycles. Following the dispersal of

parade entrants and onlookers, everyone will adjourn to Farwell City Park for an afternoon of fun and enjoyment beginning with the barbecue at 1 p.m. CDT approximately.

The meal, jointly sponsored by the Farwell Jaycees and the Texico-Farwell Rotary Club, will consist of barbecue and all the trimmings. Outdoor cooking grills, etc., will be provided by Walter Hughes and Bobby Vinton, and Johnny Actkinson, incoming president of the Rotary Club, will serve as the head chef.

Tickets are priced at \$2 for adults and \$1 for children.

The BTD Queen's contest will kick off the remainder of the park activities at approximately 2:30 p.m. The Queen's contest as well as other activities will be staged at the new gazebo located at the northeast corner of the park.

The structure, which is in the final completion stage, now measures 26 feet across instead of the original 21 feet. Julia Symcox, project chairman, reports that approximately \$1200 is needed to finish paying for the structure. Some \$1229 has been donated already, with the latest contributions coming from the Texico-Farwell Senior Citizens in the amount of \$79 and the State Line Tribune for \$50.

An account has been established at the bank in Texico for the gazebo project. Individuals, businesses and organizations are urged to make contributions to this fund for the gazebo. The new structure which is almost completed will benefit the Twin Cities for their many activities.

Any girl who will attend either Texico or Farwell high schools next school year, who is not over 18 years of age, will be eligible to enter the queen's contest. An entry form is printed in this week's Tribune. Contestants are asked to fill out this blank and return it to the Tribune as soon as possible. Entry deadline is 5 p.m. July 20.

All contestants are asked to bring in a photograph of themselves along with the entry blank, as the Tribune intends to publish the pictures

of all the candidates in its July 27 issue. The pictures may be any size, but billfold size is preferred, and may be either a school, studio or Polaroid photograph.

If any candidate does not have a photograph of herself, she is asked to contact the Tribune office prior to the deadline to make arrangements for a picture to be taken.

Contestants are asked to have a sponsor, and the entry fee this year is \$5 per candidate. Each candidate will be asked to perform a talent such as singing, dance routine, skit, piano, etc.

The winner will reign over all 1979 BTD activities after she receives her crown and at other functions throughout the year to represent the Twin Cities.

The Old Fiddlers Contest will begin after the queen's contest, at approximately 3:30 p.m. Prizes for the winners will be \$50 for first place, \$25 for second and \$15 for third. Sponsors are State Line Tribune, Farwell Insurance and Dutch Quickel and MONY.

At various times throughout the afternoon of fun and excitement, local musicians -- Fred Chandler and Ed and Juanita Hardage -- will entertain with their own special brand of hand clapping, foot stomping music.

Another perennial favorite will be the water polo matches sponsored by the two fire departments. Representatives of the fire departments will also demonstrate rescue equipment, etc.

Other park activities will include several concessions: Theta Rho chapter of Epsilon Sigma Alpha, lemonade and iced tea; Alpha Rho Lambda chapter of Beta Sigma Phi, snow cones and soft drinks; Farwell Young Homemakers, homemade ice cream; Twin Cities Gymnastics Association, brownies; Texico Woman's Club, helium balloons and candy; Farwell Baptist Women, pamphlets and water; Texico Chamber of Commerce, horseshoe pitching with Joe Robertson; Farwell Chamber

(Continued on Page 2)

Don Malone --

Farwell School Board Hires Elem. Principal

Don Franklin Malone of Sanderson is the new principal for Farwell Elementary School. He replaces Jerry Yows who resigned recently to accept the position of junior high principal at Dalhart.

Malone's wife, Jean, will also teach within the school system. Her fields are elementary education and special education.

The announcements were made by Superintendent W. M. Roberts following last Thursday evening's special called session of the school board.

The Malones have two children; a son, Riley, and a daughter, Sue.

The new principal graduated from Monahans High School. He obtained several degrees through Sul Ross University at Alpine including Bachelor of Science degree in industrial

arts, health and physical education; master of education in industrial arts; mid-management certificate and superintendent certificate.

Malone also has a widely varying athletic experience having lettered in track and football for three years while in high school. He was named all-district and all-West Texas in football during that time.

While in college he lettered in football all four years and in track one year. While in football he was named all-conference, All-Texas and All-District N.A.I.A.

He has also served as a coach for several years, including nine years in varsity football, four years as athletic director at Sanderson, six years as a basketball coach, seven years as a track coach,

and two years as a golf coach.

Under Malone's guidance, Sanderson High School won several district titles: 1974, District 4-B football; 1975, District 11-B track; 1976, District 11-B track; and 1977, District 11-B track.

He has also had experience teaching in several areas: reading, spelling, physical education, health, drafting, wood shop, world history, driver's education and photography.

While at Sanderson, Malone was elementary principal in 1976-77 and high school principal in 1978-79.

Mrs. Malone graduated from Seminole High School. She also obtained several degrees from Sul Ross University: bachelor of science in elementary education, master of education in special education learning and/or language difficulties, certificates all levels and diagnostic certificate.

Since the 1969-70 school year, she has taught first grade, resource room, migrant program, and second grade.

Mrs. Malone is a member of several professional organizations: Texas State Teachers Association, Texas Professional Educators, a charter member of the Council for Exceptional Children, Association for Children with Learning Disabilities, and Texas Association for Educational Diagnosticians.

She was also a member of Alpha Theta Alpha in Sanderson for two years.

Okla. Lane Methodist Revival Begins Sunday

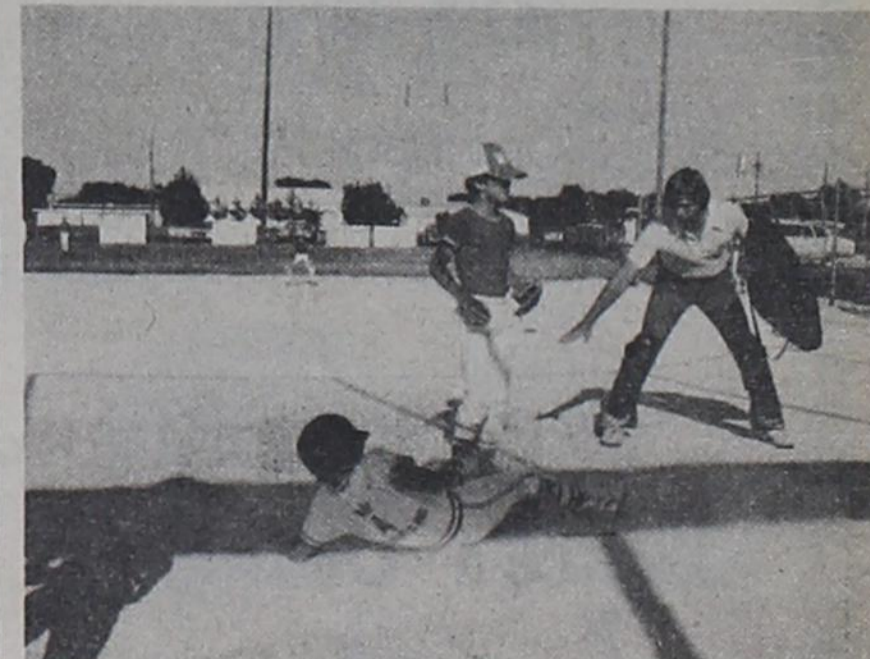

Dr. Jordan Grooms of Amarillo will be the evangelist for a revival to be held at Oklahoma Lane United Methodist Church. Services will begin this

Sunday, July 8, at 8 p.m. Services will be held twice daily from Monday through Thursday at 7 a.m. and 8 p.m. The men of the church will prepare breakfast each morning.

Dr. Grooms has been a Methodist minister for a number of years. However, he is now retired from the ministry and is a full time evangelist.

**NEEDED
Donations
To Gazebo Fund**

Summer Action At Little League Ball Park

PURELY PERSONAL
by John

No doubt about it. The new park Gazebo will be fully operational by the time Border Town Days rolls around. From the speed of this operation we hereby nominate Julia Symcox to head our synthetic fuels program. If the government wants something done in a hurry they could take lessons in dedication, jawboning and arm twisting from this lady.

Fred Chandler has promised a first class old fiddlers contest for BTD, and now all we need is for a dozen or so of the lovely and talented local gals to enter the talent contest for the Gazebo to get a proper baptism on the afternoon of July 28.

Before last week's column got on the streets, the OPEC barons had mugged the rest of the world with another exorbitant oil price hike. This has shot gasoline up another two to four cents for just thinking about the OPEC robbery. By the time fall rolls around it looks as if roller skates, mopeds and bicycles will be in high style in the Twin Cities.

This will increase the uses of the car pool arrangement. However, a word of caution before entering such a plan. Participants in a car pool had best look closely at the insurance requirements and at the legal responsibilities incurred by this ride sharing program.

In our recent travels, we attended a unique small town celebration in Minnesota. It was billed as the Viola Gopher Count annual celebration. This has been an annual feature of the small community of Viola for over 100 years.

It began in the 1860's when the local farmers organized two teams that all year long trapped the pesky gopher. They cut off the tails and each year tallied the tails, and the losers had to treat the winners.

According to legend, this reduced the local gopher population to a level acceptable to farming practices. As a consequence, counting the gopher tails ballooned into a full scale community outing.

This year they had a small carnival as the feature attraction. Local clubs set up booths and hawked games and goodies while "Whoopie John" the local polka king played in the community center.

Viola itself is composed of a post office, one general store and a community hall and a community Christian Church. Probably not over 50 to 75 folks live in the "town," however, more than 500 folks from the surrounding countryside were in town for their Friday night finale. Needless to say, it was apparent that a good time was being had by all.

Things we did not know until now and wish we didn't: Somewhere in the vast innards of the federal bureaucracy is a person known as a "sex equity evaluator." This person's job, apparently, is to go around and see that there is "sex equity" as defined by divers federal laws.

In this particular instance, a sex equity evaluator had paid a visit to White Bear Lake Area Technical Vocational Institute and found in the drafting department a poster of "a female in lace underwear" with appropriate dimensions in both centimeters and inches. Upon discovering this outrage to feminism, the sex equity evaluator suggested that they could take the poster down or else erect a similar poster of a male in jockey shorts with similar and like dimensions noted thereon.

The poor school opted to remove the offending poster, whereupon the sex equity evaluator remarked that this must reflect the school's desire to protect the male-dominated

Federal Land Bank Has Billing Rate Increase

Ernest Kerr, manager of the Federal Land Bank Association of Muleshoe, announces that the Federal Land Bank of Houston's billing rate on farm and ranch loans and rural residence loans will be increased from 8 1/2% to 9% effective June 1, 1979.

In making this announcement, Kerr stated that the increase in the billing rate became necessary because of

Purely Personal . . .

 math and drafting class from viewing themselves as sex objects.

In short, my friends, there is a government snoop drawing blood from the taxpayer's hide whose purpose is to go around making sure that "cheese-cake" is disseminated on an equal and non-biased basis.

Are there no limits to the legal idiocy of the federal bureaucracy???

BTD Plans . . .

Continued from Page 1
 of Commerce, watermelon to be served later in the afternoon; Farwell Senior Class, dunking board; and Farwell twirlers, popcorn balls and carnal apples.

A fee of \$5 each will be charged to each money making activity established in the park. To register, contact Judy Jones of Theta Rho or Gloria Hutchins of Alpha Rho Lambda.

Theta Rho will also have games and activities for children later in the day.

This year, the two communities and the park will be decorated with banners and pennants which the two local Chambers of Commerce have purchased.

The BTD Committee also okayed the purchase of two magnetic car signs which will be used this year and in later years by the BTD Queen as she participates in other area events.

Those attending the meeting were Tony Mendoza, Ann Cooper, Lee and Gloria Hutchins, John and Joann Getz, Jimmy Curtis, Ellen Wurster, W. M. Roberts, Carrell Watkins and Judy Jones.

The final BTD committee meeting prior to the celebration will be Monday, July 23, at 8 p.m. CDT at the Jaycee Community Building.

the continued high cost of funds to finance the Bank's lending operation and no substantial decline is anticipated in the near future.

He further stated that in today's economic climate the 9% rate is very competitive.

The Land Bank in Houston introduced a variable rate plan in 1969 which allows the billing rate to increase or decrease with variations in the money market. This increase in billing rate will affect 320 loans in the total amount of \$15,602,700.00 for the association in Muleshoe.

The Federal Land Bank Association of Muleshoe makes long-term real estate loans on farm and ranch land and rural residences throughout Bailey and Parmer counties.

SHERIFF'S REPORT

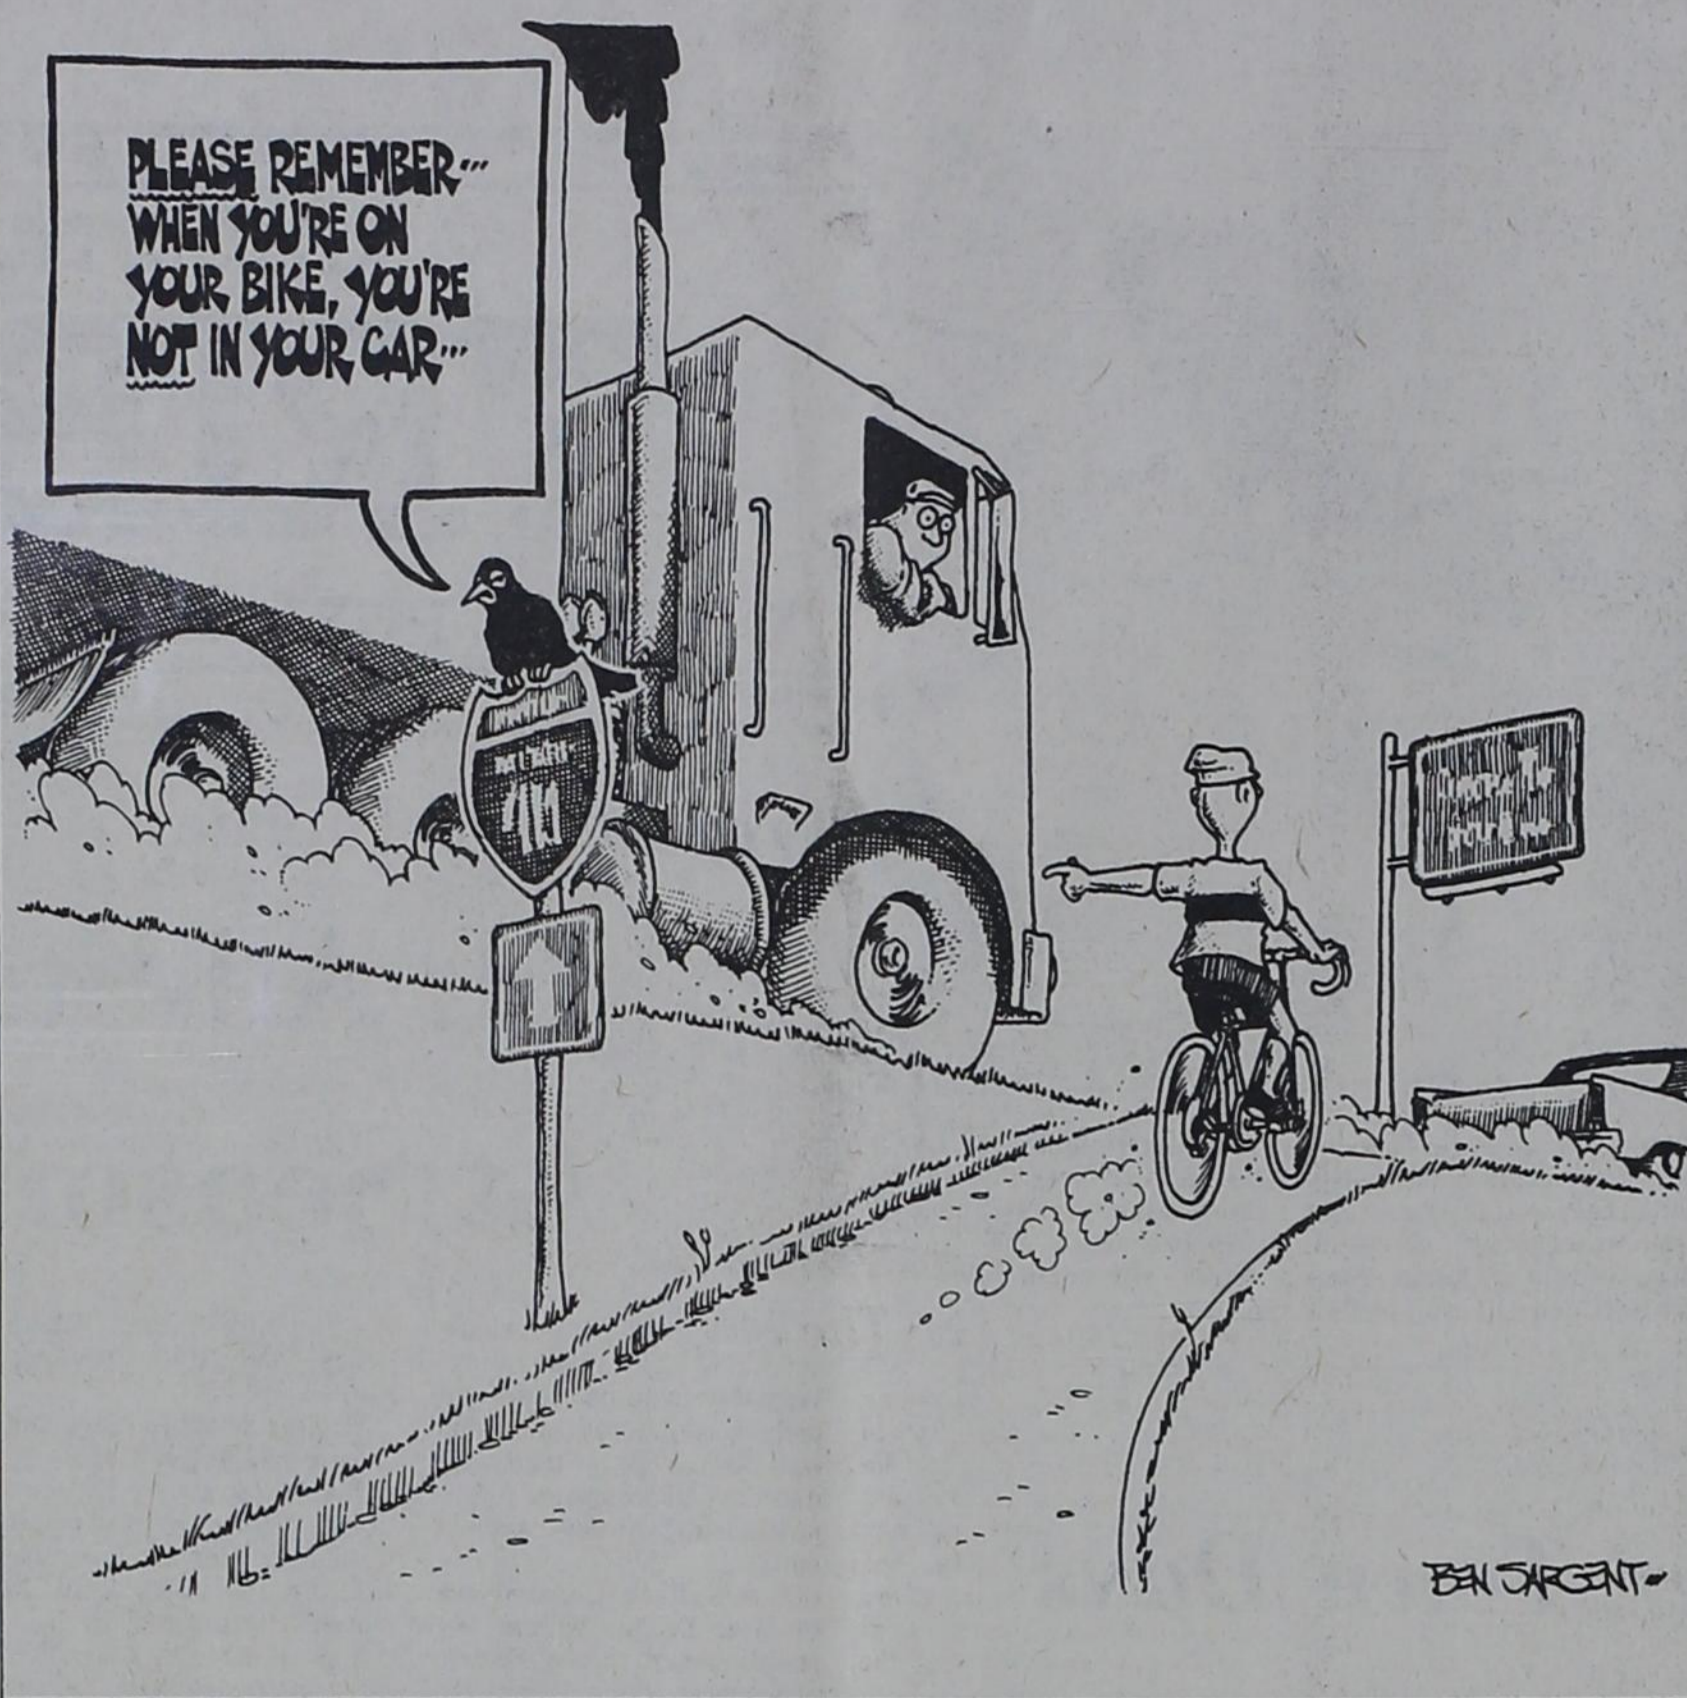

Parmer County Sheriff Charles Lovelace reported that his department is waiting for extradition papers to return Kenneth Cooper, 45, of Clovis from Lovington, N.M. He had been arrested there on a Parmer County warrant for theft.

Fortenberry Hears Cases

Parmer County Judge Paul Fortenberry has heard two cases since the last report.

Charles Jacobs, 35, of Muleshoe pleaded not guilty to a theft charge and bond was set \$500. Mildred Jacobs, 43, of Muleshoe pleaded not guilty to a charge of dumping trash on a public road and bond was set at \$250.

Your Message Gets Across Better IN WANT ADS

Soybean Contest Slated In August

The Texas Agricultural Extension Service in cooperation with the Texas Soybean Association and Eleanco Products Company is once again sponsoring a Soybean Yield Contest, announces Seth Ralston, Parmer County agent with the Texas Agricultural Extension Service, Texas A&M University System.

According to Ralston, the contest is designed as an educational tool to stimulate interest in soybean production. Benefits include the development of worthwhile cultural information, cooperation within the industry to increase production efficiency, and recognition of individuals who achieve superior yields.

All producers interested in entering the contest must do so by August 15, points out Ralston. Entry forms and contest rules are available at the county Extension office.

Each entrant must grow at least 25 acres of soybeans and designate at least five acres to be harvested. There may be only one entry per entire farm operation. Measuring of the land, harvesting and weighing of the soybeans will be supervised by a three-man County Soybean Contest Com-

mittee.

Area awards will be presented to the top three soybean growers in the High Plains, Northeast Texas and the Coastal Prairie. The state champion will then be selected from among the nine area winners. Winners will receive appropriate plaques along with various amounts of Treflan or Surflan, depending on their

placings. The state champion will receive a trip for two to Acapulco.

Producers who enter the contest and produce 60 or 70 bushels of soybeans per acre will be presented certificates of membership in the Texas 60 bushel Soybean Club or the Texas 70 Bushel Soybean Club, respectively, adds Ralston.

Ways To Save Energy

"You can save energy without spending money," says Suzi Holder, Extension housing specialist at New Mexico State University. The New Mexico Energy Extension Service is promoting these ideas.

Clean the air conditioner filter frequently. Close the fireplace damper tight and seal off the firebox opening.

Turn off the furnace's pilot and gas supply to the gas heating systems.

Turn up the thermostat to the highest comfortable setting.

Turn off the air conditioners when the house is unoccupied and at night. Use natural

breezes on cooler days.

Keep drapes, shades and blinds closed to keep direct sun out. This can reduce heat gain up to 50 percent.

Turn off the "instant on" feature on television sets.

Other no-cost actions that are worthwhile but difficult to measure are turning off unneeded lights, television and radios.

Also, open doors and refrigerator and freezer doors as briefly as possible.

In addition, change the color of home decor such as pillows, lamp shades, pictures, tablecloths, fabric wall covers and window treatments from dark, warm colors to those cool colors such as blue and green.

The Other Day A New Customer Asked For One Good Reason To Save At First Federal

We Gave Him Six Super Reasons

First Federal Now offers a new higher interest passbook account and also a new high interest 4-year certificate of deposit. Here's why our new savings program may be a better investment for you.

- 1 You will now earn 5.50% interest on a First Federal Passbook Account, which gives you an annual yield of 5.65%. This new rate is an increase of .25% over the old rate.
- 2 If you already have a First Federal Passbook Account, your rate has automatically been increased to the new 5.50%.
- 3 First Federal's new 4-year certificates are available at a minimum deposit of \$1,000.
- 4 The interest rate on First Federal 4-year certificates will be established monthly for any new 4-year certificates issued. In addition, the penalties have been reduced for early withdrawal on certificates issued or renewed.
- 5 Our qualified savings counselors can assist you with any questions regarding any of our savings programs.
- 6 We are the savings place where we work at "Understanding A Growing Community."

REBATES UP TO \$1,500 LEASES DOWN TO 8.24%

Pass these up and you'll kick yourself all winter. For three months, starting June 16th, we are offering rebates on regular or long span systems as high as \$1,500. You save the most by acting now because rebates decline every 30 days, \$1,250 after July 13th and \$1,000 after August 17th. We also have big rebates of up to \$3,000 on Valley linears and corners.

You can also lease at yesterday's rates. If you don't want a rebate, you can choose from four different plans. On regular systems, the rates are as low as 8.24%. One plan allows you to make a 10% down payment and then you don't have to make the second payment until January, 1981 at the rate of 8.64%. On linears and corner systems, lease rates go as low as 7.37%. Lease rates go up every 30 days so see your Valley dealer right now for all the details.

Every month you wait, you're losing money.

Voluntary Contributions Urged For Energy Fund

All persons with irrigation wells in Curry County, either on gas or electricity, who have not mailed in their voluntary contribution to the Energy Fund are urged to do so by Paul Dee Barnes of the Curry County Farm and Livestock Bureau. Barnes said checks should be made payable to the Energy Fund and mailed to Curry County Farm and Livestock Bureau, Box 1805, Clovis, N.M. 88101.

In reporting to the directors meeting of the CCFLB at their June meeting, Barnes said funds had been coming in but in order to meet the expenses of intervention at utility rate hike request hearings before the Public Service Commission it was necessary for all irrigation farmers to cooperate.

Hubert Qualls, president of the CCFLB, said efforts by Farm Bureau already have saved thousands of dollars in pumping costs for farmers in the area.

Wylie Snyder, chairman of the crime prevention program, said the pilot projects are just about ready to get underway. There seems to be a great deal of interest in the program, stated Snyder.

Two House Agriculture Committee panels have opened debate on a bill that would establish a National Grain Board within the Commodity Credit Corporation.

In testimony before the Subcommittees on Livestock and Grains and Department Investigation, Oversight and Research, Farm Bureau said that it does not favor such a proposal. Glen Tussey, assistant director AFBF national affairs, told members "The interests of American farmers in world markets can best be served by private exporters, including farmer-owned cooperatives."

Tussey said the CCC does not have, nor is likely to have, the expertise, incentive and aggression to seek trade expansion.

During the local meeting James Williams, chairman of the NMFLB wheat committee, discussed the 1980 Wheat Program.

The Young Farmers and Ranchers placed first in Service Club floats at the recent Pioneer Day Parade, announced Butch Priest, president of the organization.

It was announced by Helen Kelley, District II chairwoman, that the District Cotton Contest would be held in Clovis, August 15, at 7:30 p.m. in the First Federal Community Room.

Andy Norton, Roswell, dis-

tributed field man, called attention to the Summer Conference of NMFLB which is to be held July 18-20 in Santa Fe.

The Board of Directors will convene at noon, said Norton, on July 18, and run through noon on the 19. The Conference will open with an address by Governor Bruce King. Commodity meetings will be held in the afternoon of the 19th by the

Livestock, Wheat Feed Grains and Peanuts, Hay and Cotton committees. Farm Bureau women will attend a tea given by Mrs. Alice King, wife of the governor, at their residence.

Friday, the new head of the AFBF Washington office will speak. There will also be a presentation on nuclear energy and other topics of interest.

Exchange Student Homes Are Needed

Over 2500 foreign students will come to the U.S. for the coming school year, or for 3 or 6-month periods under the sponsorship of International Fellowship, Inc. This non-profit organization is now in its 27th year and is the largest exchange student program in Latin America. I.F.I. also maintains chapters in Europe and in the Orient.

These youngsters, scheduled to arrive between September 1 and January 1, will need host homes. They want to live with U.S. families for 3, 6 or 9 months, and attend the high school to which the children of the neighborhood go. High schools, as a rule, are anxious to participate in exchange programs when there is no cost involved.

The students range from 14 to 18. They are recommended by their own schools, screened by the foreign chapter of I.F.I. and for the most part, speak English. They come, not as guests but as members of the family, sharing in the tasks, and the family hosting them may claim them for income tax purposes.

Students have their own

Texas Honey Producers Face Sticky Situation

AUSTIN—Texas' honey fanciers have received some "sweet and sour" news from the Texas Department of Agriculture.

While the number of bee colonies dropped by 25,000 last year, production per hive increased, bringing 1978 production to within four per cent of the 1977 total.

Total honey production during the year was 8.7 million pounds, according to the Texas Crop and Livestock Reporting Service.

money for personal expenses and are insured against accidents, illness, prescriptions. The receiving family agrees to provide a bed, three meals daily, transportation to school and church, and laundry. Students may share a room.

For each foreign student attending a U.S. High School, that school is eligible to send a student abroad. The scholarship fee includes transportation both ways, room, board, tuition, insurance and the services of the I.F.I. chapter in the foreign country.

Families willing to host a student may write or call collect to the Western Office of International Fellowship, Inc., Post Office Box 1212, Sedona, Arizona 86336, or call the principal or other concerned educator at your High School and ask him to contact I.F.I.

"In an era when peaceful international relations depends more and more on one nation's sympathetic understanding of another's culture and problems, such programs can be valuable. The foreign student who gets a chance to sample family and school life here will return to his own country with a better understanding of our nation. And it is from their ranks that the foreign leaders of tomorrow may come. So in addition to broadening the horizons of the visiting student and the people he or she meets, the Student Exchange Program, in a small way, may further the cause of international peace," says I.F.I. officials.

Reaching For The Sky

This century plant at the home of Mildred Autrey in Texico appears to be reaching for the sky as it performs its final act. The fleshy-leaved plant only flowers once, then dies. The spiny stalk of the agave grows at a rapid pace when the plant gets ready to bloom and the

yellowish flowers begin appearing from the top. This stalk is some 15 feet tall and dwarfs Craig Tharp as he poses beside the unusual specimen whose tip reaches the utility wires overhead. Craig is the son of Mr. and Mrs. Nathan Tharp of Texico.

Texas Farmers Union Meeting Scheduled

A meeting to re-organize the Parmer County Chapter of the Texas Farmers Union is slated for July 19 at 8 p.m. at the Friona Community Center. Several years ago a chapter was founded in the county. Ninety-nine area families are current members of the organization. All agriculture pro-

ducers who are interested are invited to attend the organizational meeting. State officers will be present to explain the benefits of the organization. Refreshments will be served. For more information contact Roy Donaldson, Oklahoma Lane, or Joe Bradburn, Bovina.

Gas Company Asks Rate Increase In Farwell

Southern Union's application for a rate change, which is needed because of increased costs of doing business, is based on a test year ending December 31, 1978. During that time, the application noted, the Company experienced a revenue deficiency in its Farwell service area of almost \$15,000.

Southern Union asked that the new schedule of rates become effective no earlier than August 7.

any filed an application July 2 with the Farwell City Council asking for approval to increase rates it charges for gas service locally by about 8%. The last general service rate increase in Farwell was in July, 1972.

For a residential customer using an average of 10 Mcf of gas a month, the proposed change would amount to no more than \$1.30 per month over a year's time, the Company said.

The Company also asked that it be permitted to adjust gas bills on a quarterly basis, beginning with its September billing cycle, to reflect changes in the price it pays for gas purchased from its supplier for the Farwell area. This would be done in accordance with provisions in a "purchased gas adjustment clause," which the Company asked the City Council to approve as part of its revised rate schedule.

Opportunity Knocks --

Want To Be An Exchange Student?

Choose three countries you might like to visit. Apply to International Fellowship's Western office, and chances are you will go to one of those countries. That's the word from IFI.

International Fellowship, Inc. offers students 14-18 the opportunity to live with a family abroad and attend school for 3, 6 or 9 months, or

for the summer. Foreign language is not required in Latin America or the Orient, but is in Europe. Now is the time to apply for the summer or next school year. The cost is as little as \$800 for close-by countries.

If you have the maturity and spirit of adventure to meet the challenge of a new culture,

write to Wm. R. Smith, Western Director, IFI, Box 1212, Sedona, Arizona 86336. Or ask the principal, a counselor or language teacher to phone him collect at 602-282-7353 for details and an application.

IFI also needs local homes to host foreign students. Interested families should contact Mr. Smith by calling collect.

WHO'S CLONING AROUND WITH FORD?

Ford Pinto

Chevy Citation

A Surprising Comparison Of Ford Pinto & Chevy Citation.

Compare Ford Pinto with Chevy Citation and see why Pinto may be the best small car value in America today. Consider standard equipment... Pinto comes with steel belted radials, electric rear window defroster, tinted glass, full wheel covers, and more... all extra cost items on Citation. Yet Pinto, with all its standard features, is sticker priced lower. See the comparison box for details.

5 Fords Under \$4500.00

For the same kind of money as Citation (or less), Ford offers a wide choice of fine cars: Economical Pintos, Family sized Fairmonts (America's proven value), Stylish Fiestas, Sporty Mustangs, Front wheel drive Fiestas.

Some other cars may look like Fords, but we think you will find Ford value stands out in any crowd. By the way, the sticker price (comparable equipment is shown) excludes title, tax, and destination charges.

FOOD focus

Mae Martha Johnson
Extension Food Specialist

Dear Food Focus:

I'm a single guy and am having a rotten time! Don't get me wrong. It's not my love life - it's my refrigerator. Boy! It seems that my lettuce, fruits, cottage cheese and milk spoil before I can use one-half of them. How can I win against waste?

Alone in Alamogordo Dear Alone:

Small families - one or two persons - usually have to spend a little more per person for food than large families. However, the key to being able to use up even small packages of food lies in planning. It is usually forgotten food that is wasted by spoilage.

To avoid monotony, buy small sizes. But if you plan menus in advance, the food can be used in different ways so that none of it is wasted.

Take the cottage cheese for instance. It can be used for breakfast on toast or mixed in scrambled eggs. For lunch, use it in a salad or sandwich filling and for dinner, in a casserole. Even if it is served three times a day, it will not be monotonous if it is used in different ways.

Dairy products are dated somewhere on the carton. Under proper storage conditions, they can be expected to last until that date.

Another solution to the milk problem is the use of non-fat dry or canned milk. Dry milk is shelf stable and you can mix one cup at a time. Or a small can of milk is only one and one-third cups when diluted. Either one works well in cooked or baked dishes.

Proper storage is also of the utmost importance. Dairy products, particularly, can not sit out of the refrigerator for even short periods of time without a loss of quality. Keep milk or cottage cheese out of the refrigerator only long enough to get the amount you will use for that meal.

Lettuce will keep for only a limited time, even under ideal storage conditions. It should be stored dry but tightly covered or packaged. For a small family, leaf, butter or romaine lettuce may be as economical as head lettuce because it can usually be bought in smaller sizes. You may pay a little more per pound, but you can use all of it rather than wasting part of it.

If you're tempted to buy a lot of fresh fruits and vegetables, remind yourself that these foods have limited storage life. Buy only what you can use

quickly. And win against waste.

Dear Food Focus: You have to solve our weekly fight once and for all. Every week I search the food ads for the specials, plan my grocery stops and spend the day saving money on our food bill. And every week my husband yells that I'm just wasting gasoline. He says in the long run I will save just as much to stick to a store near home for all my shopping - regardless of specials. Which one of us is right?

Arguing in Albuquerque Dear Arguing:

This depends on a number of things. First, to be able to save money by shopping several stores, you need to be familiar with prices at each store. Each of them will have items that are regularly priced lower.

Like your husband says, the cost of operating an automobile is rising and this cost must be weighed against the saving on the food. Calculate the cost of a trip to a second store. Don't forget that town driving takes more gasoline than highway driving.

Also, don't forget to consider the expenditure in time for shopping at an extra store. Time has also become more valuable than it used to be.

Weigh the cost in time and car expenses against the bargains when deciding which store to shop.

Familiarize yourself with prices, especially staple items, so you will recognize bargains when you see them.

Why not shop one store one week and another the next week? In this way, you can take advantage of lower prices at more than one store and not use extra gasoline every week. Combine shopping trips. Shop the second store when you are in the area for another purpose. If you do this, make sure that the grocery shopping is done last, so that food is not left in a hot car while you do other errands.

Finally, always shop with a list so that you are not tempted by unnecessary items. And if you buy in quantity, be certain that you have suitable storage space for the food until it is used.

If you have questions for Food Focus, address them to Mae Martha Johnson, Extension Food and Nutrition Specialist, Box 3AE, New Mexico State University, Las Cruces, NM 88003.

Arts, Crafts Bazaar Scheduled In Clovis

"Creativity Unlimited" will sponsor a sidewalk bazaar for all artists, craftsmen, or anyone who has something to sell. This activity will take place on the sidewalk in front of and behind the Clovis Hobby House, 2144 Ashford, July 14, from 9:00 a.m. to 5:30 MDT. Any person or organization wishing to display may bring a card table and rent a space. The cost will be \$7.50 per table (card table size) for non-

members and \$5 for members of Creativity Unlimited. Bring your goodies, arts, crafts, white elephants, or whatever you might have to sell and give it a try.

Proceeds from the rental or tables will go to promote the activities of Creativity Unlimited.

For further information concerning the sidewalk bazaar please call 762-4441 or 763-6800.

Georgia Rundell Attends Secretarial Conference

Georgia Rundell, secretary for Farwell Public Schools, attended a Summer Work Conference for Texas Educational Secretaries in Austin June 24-27. Topic of the conference was "Face The Future." Mrs. Rundell was accompanied by her daughter, Gwen DeWitt of Clovis.

Gil Stricklin, nationally popular humorist and motivational speaker, was the keynote speaker the first day of the conference. Group sessions were held throughout the day.

Dr. Alton Bowen spoke on June 26 which was Texas Education Agency Day. Group

sessions were held by TEA consultants.

The next day, Louise Shepard of Ft. Worth and Dr. George Ritchie, Jr., psychiatrist and author, installed officers for the Texas Educational Secretaries Association.

"It was a very interesting and rewarding workshop," Mrs. Rundell said. "Our TESA Association has really grown since the first time I attended a conference. I think the first workshop I attended had only 50 members, but this time we had 1400 attendants covering the entire state of Texas," she explained.

Center Chit Chat

Rev. Duane Knowlton, pastor of Hamlin Memorial United Methodist Church, held services Sunday at the Center.

Auxiliary member Madge Pieman and several residents worked in the activity room one day last week cleaning onions, radishes and shelling English peas for the residents to enjoy with their meals.

Residents celebrating birthdays this month are Lela Carpenter on the 13th and Nina Dickinson on the 31st. Everyone at the Center wishes them a "happy birthday."

Visiting Willie Shields recently was Peggy Roberts of Albuquerque and Mr. and Mrs. Byron Shields of Portales.

Visiting Mr. and Mrs. E. T. Dunn were Gary Cook and children of Friona, Montie Barrett of Albuquerque, Mr. and Mrs. Dick Edwards of Albuquerque, Mr. and Mrs. Benny Stockton of Portales and Mrs. Peggy Owens and children of Alamogordo.

Guests of Mary McDermer were her daughter, Maggie, and David Lane of Lubbock.

Visiting Thelma Kittrell was her grandson Kenny and his wife, Debbie, of Muleshoe.

Getzes Return From Vacation

Mr. and Mrs. John Getz of Farwell returned last week from a two-week trip to Illinois and Minnesota.

In Peoria, Ill., they attended the 40th high school reunion of Mrs. Getz. From a graduating class of 360, there were 210 classmates at the reunion.

While in Peoria, they stayed with Getz' cousin, Mrs. Louise Schmieid, and visited with Mrs. Getz' brother and family, Mr. and Mrs. Milton Miller and son Don.

From Peoria, the Getzes went on to Rochester, Minn., where they visited their son and family, Dr. and Mrs. Mike Getz and sons John Bryan and Mark Jerrod.

Summer Care Needed For Fall Rose Crop

A little work this spring and summer will insure attractive and abundant roses this fall.

That suggestion comes from Everett Janne, landscape horticulturist with the Texas Agricultural Extension Service, Texas A&M University System.

Remove spent flowers so that the plant's food and energy will go into flower production instead of seed production, advises Janne. Cut old flowers just above the second five-leaflet leaf above the main branch - the same as cutting flowers for arrangement. Higher cuts result in blind shoots or deformed flowers.

Another recommended practice is to apply a complete fertilizer every four to six weeks for optimum rose growth. However, don't fertilize after mid-August so the plants will mature and be less susceptible to winter injury, warns Janne.

In alkaline soils, iron deficiency can be a problem. If this condition develops, obtain a copy of the leaflet, "Iron Chlorosis," from your county Extension office for information on correcting the problem. You may also want a copy of the publication, "Roses: Summer Care."

During hot, dry weather, the horticulturist suggests thoroughly watering rose beds to a depth of 8 to 10 inches each week. Janne stresses the importance of blackspot and mildew control through a preventive spray program. Any reputable rose fungicide produces excellent results if properly applied. Spraying is more effective than dusting.

Most roses require spraying every 7 to 10 days from spring until a killing frost, says the specialist. During high temperatures and dry weather, spray intervals may be extended to two weeks through mid-August. Then return to weekly applications.

Some of the foods unknown in Europe until Columbus brought them back from America are turkey, peanuts, pumpkins and potatoes.

Acteens Set Mom's Day

The Acteens of the First Baptist Church in Farwell will sponsor a "Mother's Day Out" next Tuesday and Friday from 10 a.m. to 4 p.m., for pre-schoolers only. Each child is asked to bring a sack lunch. The fee is \$4 for one child, \$6.50 for two children and \$9 for three.

4-H'ers To Meet

Texico 4-H Club will meet Monday, July 9, at 7 p.m. MDT at the vocational agriculture shop in Texico, announces Jeff Dunsworth, president. Plans for the picnic and Achievement Day will be discussed.

"The sage has no fixed principles." Lao-Tse

Hospital Notes

Danny Powell, son of Mr. and Mrs. Larry Powell of Texico, remains in Clovis High Plains Hospital where he is recovering from head injuries sustained in a dirt bike accident last Thursday. He is expected to be hospitalized for several weeks.

Mrs. Jack (Sue) Kirkland of Clovis, former Farwell resident, was released Monday from the hospital in Muleshoe. She was admitted last Thursday for medical treatment.

Joe Magness of Farwell remains hospitalized at Methodist Hospital in Lubbock where he is recuperating from surgery.

RAINY DAY PICNIC

People who like picnics are a dedicated breed and torrential storms do not discourage them. When the weather is ominous on a weekend in spring, plan an indoor picnic to lift everyone's spirits. New Oven Fry brand coating for chicken guarantees traditional fried chicken taste and flavor without the mess and fuss of skillet-fried chicken. This convenient packaged coating actually fries chicken in the oven with just a small amount of oil. Available in two versions - Crispy Crumb Recipe and Home Style Flour Recipe - Oven Fry turns out succulent, delicious chicken. Crisp on the outside, moist and tender inside. Package directions vary slightly in each version regarding cooking time and temperature. While the chicken is frying there's plenty of time to put the finishing touches on the chilled potato salad and the iced tea.

OVEN FRIED CHICKEN

- 1 packet coating for chicken - crispy crumb recipe
- 1/4 cup oil or melted shortening
- 1 egg
- 1 tablespoon water
- 2-1/2 pounds chicken pieces

Preheat oven to 400°. Empty packet of coating onto a sheet of wax paper or into a shallow bowl. Spread oil in a 15x10x1-inch jellyroll pan. (A flat-bottom pan with sides not more than 1 inch deep gives best results.) In a large bowl, beat egg with a fork; add water and blend. Add all the chicken and toss gently to moisten each piece on all sides. Starting with larger pieces, place chicken in coating, one piece at a time. Pile coating on chicken, then press firmly on all sides until the piece is thickly and evenly covered. Place chicken in pan, skin side down. Fry in oven 25 minutes, then turn and fry 25 minutes longer, until chicken is tender. Remove from pan immediately. Makes 4 servings.

Farwell Teachers To Chisanbop Seminar

Jean Patschke and Karolene Inman, Farwell elementary teachers, attended a comprehensive training session in Chisanbop at the Region XI Education Service Center in Amarillo last week.

Chisanbop was created by Sung Jin Pai and Hang Young Pai of Korea and was first introduced in America by the Pais and Edwin Lieberthal of Mount Vernon, N.Y., in 1976.

Chisanbop, transliterated from Korean, means finger calculation method. Chisanbop is currently being taught in schools throughout Canada, Mexico, Japan and hundreds of

schools across the United States.

Mesdames Patschke and Inman believe that Chisanbop will be a valuable tool in reinforcing and supplementing math concepts now taught to elementary children. It can be learned by children at all levels of understanding: gifted, average, learning disabled and handicapped.

"With this system, children not only learn the answer to a math problem, but more important, they understand why and how the answer was achieved," the teachers reported.

"Let's Play, Mom"

Mrs. Ricky [Ruth Anne] Bennett of Farwell, our area homemaker this week, and son, Reace, 3, are enjoying playing Indian with Reace's teepee. The active, imaginative youngster likes to play

games and often chooses his mom as his willing partner. Reace has a little sister, Roslyn, who is five months old, who also helps keep mom very busy.

Portraying Area Homemakers

By Shirley Gorman

Mrs. Ricky (Ruth Anne) Bennett of Farwell, our area homemaker this week, is an energetic young woman who is involved with many projects, organizations and activities. She spends a great deal of time looking after son Reace, who is three, and baby Roslyn, who is five months old.

Mrs. Bennett is a native of this area and graduated from Farwell High School. Bennett graduated from White Face. They met while attending South Plains College in Levelland.

Ruth Anne also attended Stephen F. Austin college and graduated from Texas Women's University at Denton in 1974. Even though she has a degree in elementary education with a kindergarten endorsement she has never taught school.

Before settling in Farwell, the couple lived in several other places and pursued different trades. They now farm in the Oklahoma Lane area.

Reace is a great "help" Ruth Anne said, explaining that he has to "supervise" what everyone is doing.

Our homemaker likes to do many things even though she does not always have the time to pursue her various interests.

"I like to work in the yard," she said. "We are trying to have a garden and so far we have peach trees planted in the orchard." When the garden is harvested she also cans and freezes the produce.

"I like to sew and make a lot of my own clothes, but I haven't done much this past year," Ruth Anne said. She also does needlepoint, cross stitching and embroidery.

"I like to collect Goebel Hummel figurines and plates and antique creamers," she said. "I am presently working on a name chart for Roslyn. I have several kits which I will make as gifts also."

Mrs. Bennett is self-taught in crafts but she said her mother did teach her how to cross stitch. She is a member of the Farwell Young Homemakers.

The family like to travel, but haven't done much lately, she said. "We have been to the west coast twice and to the east coast once." They like to visit historical sites and points of interest.

The Bennetts are members of the Natural Food Associates and attended a national convention in Evansville, Ind., last year. "It is a non-profit, educational organization which promotes healthier foods for both growing and eating," she said. "As much as possible we try to avoid excess sugar intake and foods with a lot of preservatives. We try to be as self-sufficient as we can."

They are members of the Church of Christ in Portales.

Our homemaker has three recipes she has consented to share with our readers.

ICE CREAM

4-5 large eggs
1 c. brown sugar
1 T. vanilla
1 pt. whipping cream
2 cans condensed milk
1 large can evaporated milk dairy milk
3 c. peaches or other fruit mashed, or 1/2 c. chopped pecans plus 1 t. maple flavoring.

Combine eggs, cream, sugar and vanilla in bowl and mix thoroughly. Add fruit or nut mixture. Stir in milks and pour into chilled freezer can. Add dairy milk to fill line on can, stir and freeze.

BLOND BROWNIES

2 c. brown sugar
1 c. Safflower oil
3 eggs (add one at a time)
2 t. vanilla
2 c. whole wheat flour
1 t. baking powder
1/4 t. soda
1 t. salt
1 c. chopped pecans
3/4 c. chocolate chips

In large mixer bowl, combine sugar, oil, and add eggs one at a time. Then add vanilla. Sift dry ingredients and blend in other mixture. Stir in nuts and chips. Spread into greased and floured 9 x 13 inch pan. Bake 25 minutes at 350 degrees until light brown and toothpick in center comes out clean.

BEEF AND RICE CASSEROLE

1 1/2 lbs. ground beef
oil to brown meat
1/2 c. chopped onion
1/2 c. chopped celery
1 c. long grain rice
1 lge. can stewed tomatoes
1 small can tomato sauce
1 1/2 t. salt
1 t. chili powder
1/4 t. pepper
1/2 t. seasoned salt (Vege-Sol)
1/4 t. Worcestershire sauce
1 c. chopped Spanish olives

Steam rice in 2 c. boiling water one hour. Brown beef in oil; add onion and celery; stir until tender. Add tomatoes, seasonings, and olives. Bring to a boil. Add rice.

Pour into a two quart casserole. Cover. Bake at 325 degrees for 30 minutes. Top with grated cheese.

The Latest

Recent visitors in the home of Mr. and Mrs. Elmer Scott of Farwell were Mr. and Mrs. David Reynolds, Allen and Kevin of Grand Junction, Colo.

Visiting Mr. and Mrs. R. W. Anderson of Farwell recently was their son, Scott Martin of Waynesville, Mo.

Guests in the home of Mr. and Mrs. Bill Dollar of Farwell were their son and family, Mr. and Mrs. Bruce Dollar of

Stratford.

Mr. and Mrs. Tom Knoy and children of Farwell went to Hagerman, N.M. last weekend to assist his parents, Mr. and Mrs. W. E. Knoy, in moving to Afton, Tex.

The elder Mr. Knoy has been with the school system in Hagerman for 26 years, serving as principal of both the elementary and high schools. He has accepted a position as superintendent in the Patton Springs school at Afton.

County 4-H'ers Have Friona Fashion Revue

Parmer County 4-H'ers caught "Fashion Fever" at the 1979 Fashion Revue on Wednesday, June 27.

Friona United Methodist Church was decorated with a disco flair for the style show and salad luncheon.

In the Junior I division (ages 9-11) Lisa McGehee, daughter

of Mr. and Mrs. Kenneth McGehee of Lazbuddie won first place with her terrycloth shorts suit.

Wendy Tatum took first place in the Junior II division (ages 12-14) with her coordinating shirt and pants set. Wendy is the daughter of Mr. and Mrs. Tommy Tatum of Friona.

Also entered in the Junior I division were Holly Tatum, daughter of Mr. and Mrs. Tommy Tatum of Friona; Becky Webb, daughter of Mr. and Mrs. Larry Webb of Bovina; and Sharlett Johnson, daughter of Mr. and Mrs. Billy Johnson of Bovina.

Entered in the Junior II division was Maureen Jesko, daughter of Mr. and Mrs. Pete Jesko of Lazbuddie, and Dawn Gibson, daughter of Mr. and Mrs. Billy Gibson of Friona.

A salad luncheon was hosted by the Friona Club after the style show. Dessert was provided by the Rhea Extension Homemakers Club. Gifts of a travel sewing kit were presented to each contestant by the Oklahoma Lane Extension Homemakers Club.

Winners will compete in the District 2 4-H Fashion Revue on the Texas Tech campus in Lubbock on July 6.

Children Visit C. Hromases

Recent visitors in the Charlie Hromas home in Farwell were their daughter and family, Mr. and Mrs. Mike McManigal and children Kent, Jamie and Chrisie of Little Rock, Ark. They arrived last Wednesday and returned home on Monday.

Before coming to Farwell, the McManigal family visited in Canyon with his mother, Audie McManigal who is a former Farwell resident. She accompanied them home to Little Rock for a visit.

Visit Lovelaces

Recent visitors in the home of Mr. and Mrs. Charles Lovelace of Farwell were her daughter, Billie McGee of Oxnard, Calif., her son, Larry Treider of Lazbuddie, and Lovelace's son, Jerry Lovelace of Rosenberg.

Enlightened Eating

by etiquette expert Marjabelle Stewart for Ore-Ida Foods

A night on the town can get you down; if you aren't prepared for the pomp of an elegant eatery, you won't be able to face the circumstances.

The first problem confronting a diner in a posh restaurant is the vast array of silverware. . . a sizeable selection of forks, knives, and spoons. Cut through the complexities by proceeding with the cutlery at the outside, working your way in, course by course.

Elegant occasions call for fancy foods; the epitome of this is the lobster. When the waiter presents you with paraphernalia resembling bib, nutcracker and crochet hook, you know you're in for an ordeal. Ah, but what a worthy one!

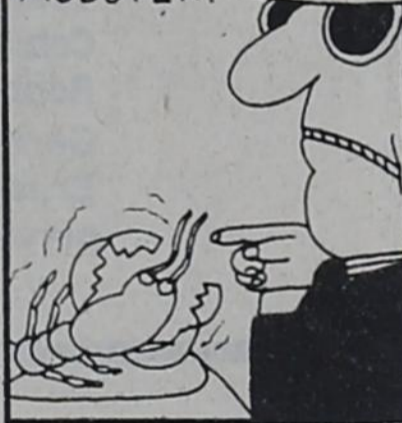

Hold lobster steady with left hand, twisting off large claws with the right. Use the crackers to break the shell surrounding the claws, pull apart with fingers. Extract meat with pick or small fork; cut to bite size and dip into sauce provided. Small claws can be pulled from the body with fingers and the meat simply (and silently) sucked out.

The major portion of the meat is found in the tail and the stomach cavity. Attacking one side at a time, spear with fork, lift with knife and remove from shell. Cut

to size, swish through sauce, eat with fork. You can bypass much of this mess by ordering only the lobster tail; follow the directions above, and you can't fail!

To help you tackle these and other ticklish tidbits, Ore-Ida's All-Rightas and All-Wrongas: Eating Manners for Big Potatoes and Small Fries." To get your free copy, send your name and address to: Ore-Ida Foods, Inc., P.O. Box 80, Boise, Idaho 83707. It's guaranteed to help you romp with pomp!

Know the Splendor of being Slender

Great swing by Margaret Moore; great figure by Pat Walker's!

Margaret Moore BEFORE beginning treatments

Take a tip from golf enthusiast Margaret Moore: Pat Walker's can give you the sure stroke you need to drive straight through to a winning figure. She writes:

"Since joining Pat Walker's . . . I have lost 21 1/4 pounds and 25 1/4 inches. I had tried fad diets on and off for years but always gained back all the weight I had lost. At Pat Walker's there are no strict, rigid diets—you learn to eat sensibly in a way that you can live with to keep the weight off.

"I really look forward to my weekly visits. The [passive exercise] unit used in treatment is very relaxing and does all the work for you; therefore, no strenuous exercises are necessary.

"This, along with the friendly, helpful atmosphere, makes losing weight and inches fun instead of hard work."

Find a lovelier you

If excess weight keeps you from looking and feeling your best, do something nice for yourself: achieve a slender new figure at Pat Walker's—safely, pleasantly and effectively. You'll benefit from these important advantages:

- individualized program to meet your needs
- sensible, healthful eating plan
- trained professional counselors
- complete privacy
- safe passive exercise
- luxurious salons

DRIVELINE

Question:
What is a toroidal shaped flexible membrane pressure vessel composed of long-chain macromolecules?
Answer: A tire.

Consumer tips: Here are a few facts worth knowing: Check your tire pressure when the tires are cold — after they've been sitting at least three hours. Driving heats up tires, and that heat can increase the air pressure by four to eight pounds. Recommended pressures are calculated for cold tires.

Buy your own air pressure gauge, especially important in this self-service era. Gas station gauges may be broken and highly inaccurate.

Rotate conventional and belted tires every six to eight thousand miles. It prevents wear and tear and even improves your car's gas mileage. (Because the tires will roll more smoothly, with less friction, thus requiring less energy to move your car over the road.)

"My husband and I have been arguing about whether or not it wastes gas to stop the car engine while waiting for someone. He says it uses more gas to start the engine again than to leave it idling. I say you should turn it off."

— L.M. — Brownville

Turn the engine off. The Department of Energy says that the average American car consumes a cup of gasoline every six minutes while idling. So when you stop your car, don't let it idle for more than a minute. The DOE calculates it takes less gasoline to restart the car than it does to idle it.

History Lesson: The first official auto race in which any contestant finished was held in Chicago in 1895. The winner was Frank Duryea in a Duryea Motor Wagon, averaging 7-1/4 mph over 55 miles.

Waltz Around Texas... If you walked all around Texas, following the state border line, how far would you travel? Exactly 3,816 miles. (Well, not quite "exactly." The Rio Grande changes its channel quite a bit.) Better take your wading boots and swim fins. The Rio Grande forms the Texas border for 1,248 miles, the Red River for 726 miles, and the tidewater coastline for 624 miles.

The Speaker Reports

by Bill Clayton

AUSTIN—Again, for a third time Texans as well as other Americans have been made aware we have an energy crisis.

First there was the embargo of 1973 when gasoline was reduced in supply and increased in price by almost 50% nationwide. Secondly, there was the oil and gas shortage of the last two winters when schools and businesses were forced to close down because of a lack of heating fuel. Now, six years after the Arab oil embargo we have another severe gasoline situation and the OPEC nations are again raising the prices of imported oil. In 1973 we imported between 20% to 30% of the oil we consumed. Now we import about 45% of the oil we consume.

I am tired of hearing about how this energy situation cannot be solved and how difficult a spot this nation is in. The solution to the problem is rather simple. As a nation, government and business must join together as they did during the depression under Franklin Roosevelt and increase our domestic energy production. How is this done? Not by talk and planning.

Production must begin with construction. Energy experts tell me we have enough coal to supply the country's energy needs for 400 years. Coal can be turned into both a clean gas for heating and gasoline for automobiles. Nuclear power can be very productive and safe. Gasohol can be produced adding millions of gallons of a clean burning fuel to our gasoline supplies. Solar energy is just around the corner. All these seem to have been just around the corner for about seven years. So I say what's the problem if we have all these great solutions. I'm told price is too low, people are afraid to invest, construction costs are too high. To these answers I say—hog-wash!

Production begins with construction. If the energy problem is to be solved the federal government must give private industry financial incentives through direct grants, tax deductions, loans and deregulation of EPA and DOE to build energy producing plants on a large scale as quickly as

possible. Production begins with construction. Last year the American government granted billions of dollars to cities and local governments for urban projects. Why not energy projects? Energy experts say we can produce gasoline from coal for about \$30 per barrel. The Arabs are getting ready to raise the price of OPEC oil to at least \$20 per barrel. We should have begun production with construction six years ago.

If the federal government will use our tax dollars to provide incentives for the construction of energy producing plants, the production of energy from many alternative sources will soon follow. Legislation has been introduced in the U. S. Congress in an attempt to bring about the necessary construction and production. It is my hope that this is the first step, even if a late step to energy independence.

As one state official recently stated "It's time the U. S. Congress realized the symbol of our nation is the eagle—not the sparrow."

IT'S A FACT!

...that our unemployment rate is nearly eight-percent of the work force and almost twice what it was in 1965.

...that helping to keep the rate from rising as much as it might is careful government regulation of the trucking industry, protecting jobs and helping the many family-owned trucking businesses stay in business.

Accent On Health

Texas Department of Health
Raymond T. Moore, M.D., Commissioner

While we may seek a tan this summer to make us look young and vibrant, the sun actually will make us look old—and perhaps give us some health problems as well.

With enough time, the sun can weaken the skin's elasticity, and also cause dark patches and scaly gray growths called keratoses, which often are pre-cancerous, says the Texas Department of Health.

Children and teenagers who bask in the sun today without preventative methods may have to pay the price later on with wrinkles and a tough, leathery look. They may also have to suffer from skin cancer.

Almost all of the 300,000 cases of skin cancer developed by Americans annually are considered to be sun-related. According to the American Cancer Society, there is proportionately more skin cancer in the southern and southwestern states than elsewhere. Fortunately, if treated in time, skin cancer is very curable.

There are visible, early warnings: 1. A sore that does not heal. 2. Change in size or color of a wart or mole. 3. Development of any unusual pigmented area.

Perhaps the best protection against the sun is proper clothing. Cool, loose-fitting beach robes, long sleeved shirts and wide-brimmed hats effectively cut down on exposure to the sun's rays.

The best chemical cover-up is any one of the popular brand sunscreens that contain PABA (para-aminobenzoic acid). These preparations absorb ultraviolet rays and allow gradual tanning. They should be applied about 45 minutes before exposure, and reapplied after swimming or perspiring.

Be sure to check the labels for PABA before buying sun lotions. Manufacturers of commercial sunscreens will probably soon be required to specify the Sun Protection Factor (SPF) of their products on the

label, and some already provide this information. The techniques used to measure the SPF have not been fully standardized, so the SPF values for a given sunscreen may vary from one laboratory to another. The SPF usually ranges from two for minimal protection to 15 for super protection.

Another type of chemical protection, the sunblock, allows no tanning at all. It deflects the ultraviolet rays totally, and is most useful in shielding lips, nose and other extra-sensitive areas. A well-known sun blocking agent is zinc oxide, an opaque white ointment often used by lifeguards and others whose jobs require constant exposure to the sun.

Besides using chemicals and clothes, you can help yourself by knowing all you can about sunning. Here are some tips:

Sun before 10 a.m. and after 3 p.m., when ultraviolet rays are weakest. If you can't avoid these hours, try limiting your exposure to a maximum of 15 minutes during the danger hours.

Avoid sun reflectors. They expose the most delicate facial areas, under the chin, eyelids, earlobes.

You're better off bicycling or playing golf than lying immobile on a surfboard or on the riverbank.

Don't kid yourself into believing you're protected in the shade of a beach umbrella. Ultraviolet rays are only partially deflected by the umbrella and they are also bouncing toward you from all directions off sand, water, and patio floor. For the same reason, wearing a hat only offers partial protection for the face.

Don't figure on being safe on a cloudy day or even under water. A wet T-shirt can also deceive you. Water droplets funnel at least half the ultraviolet power to your skin.

Altitude plays a role. There is less atmosphere on mountain tops to filter out ultraviolet rays.

CAT CHAT

COMMAND CAT

THOUGH CATS ARE SAID TO BE UNTRAINABLE, A DOG TRAINER IN CALIFORNIA HAS TAUGHT HIS CAT "MICK" TO RESPOND TO THE COMMANDS "COME," "SIT" AND "STAY."

HIDEAWAY

CATS SEEK OUT COZY PLACES TO NAP. SO MAKE SURE PUSS ISN'T IN THE CLOSET, DRESSER, DRAWER, OR WASHER/DRYER. BEFORE YOU CLOSE THE DOOR.

FEEDING TIPS

CATS RARELY HAVE CAVITIES, BUT THEY DO SOMETIMES LOSE TEETH BECAUSE OF TARTAR BUILDUP. YOU CAN HELP PREVENT THIS BY INCLUDING DRY CRUNCHY CAT FOODS IN YOUR PET'S REGULAR DIET.

From Felines Cat Council. Support Your Local S.P.C.A. or Humane Society.

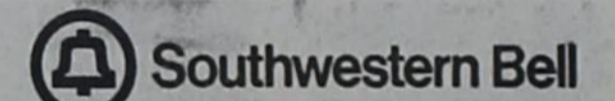

"Solitude is a good place to visit but a poor place to stay."
Josh Billings

Public Notice

Southwestern Bell, in accordance with the rules of the Public Utility Commission of Texas, hereby gives notice of the company's intent to implement a new schedule of telephone rates in Texas effective August 3, 1979.

It is expected that the requested rate schedule will furnish a 6.09 percent increase in the company's intrastate revenues.

A complete copy of the new rate schedule is on file with the Public Utility Commission at Austin, Texas, and with each affected municipality, and is available for inspection in each of the company's public business offices in Texas.

On The Farm In Parmer County

Rabies is one of the oldest diseases that can spread from animal to man and the one most feared. It is a natural disease of dogs, cats, bats, and wild carnivores; however, all warm-blooded animals are susceptible. The disease is transmitted from animal to animal by means of a bite introducing the virus-bearing saliva. It may also be transmitted by virus contamination of fresh, already existing wounds, cuts or breaks in the skin.

The virus may be present in the saliva and be transmitted by an infected animal 1 to 3 days before the onset of clinical signs. Since there are no "typical" cases of rabies, animals may exhibit a wide range of symptoms; although some cases in domestic animals (dogs, cats, horses, cattle) are suspected from the time of presentation. In such animals, any unexplained central nervous system disturbance should be regarded as possible case of rabies until proven otherwise.

Clinical rabies in man and most animals is essentially 100% fatal. There is no specific therapy once the clinical course of rabies has begun. For this reason it is very important that anyone suspecting rabies or receiving a bite or scratch from a domestic or wild animal suspected of being rabid, take the proper precautions to diagnose the disease and prevent it from spreading.

Public awareness of rabies prevention is especially important due to the large increase in confirmed rabies cases from many different areas of Texas during the present year. The first quarter of 1979 has produced twice the number of cases that were reported for the same period of 1978. In the first three weeks of April, 1979, there have been 108 cases in skunks, 2 in foxes, 2 in raccoons, 1 cat, 6 dogs, 2 horses and 7 cattle already confirmed positive for rabies in Texas. Each possible exposure to rabies infection must be individually evaluated.

The following advice is

given:

1. A healthy domestic dog or cat that bites a person should be confined and observed by a veterinarian for 10 days.

2. Stray or unwanted dogs or cats that bite a person should be killed immediately and the head submitted for rabies examination by fluorescent microscopy. (Do not kill the animal by shooting or hitting it in the head since the brain is needed for examination.)

3. Signs of rabies in wild animals cannot be interpreted reliably, therefore, any wild animal that bites or scratches a person should be killed at once (without damage to the head) and the brain examined for evidence of rabies.

4. Immediate and thorough first aid treatment of all bite wounds and scratches is perhaps the most effective rabies preventive. The wound should be thoroughly cleansed with soap and water and a physician contacted for further treatment.

5. All pets, both dogs and cats, should be protected by a rabies vaccination administered by a veterinarian.

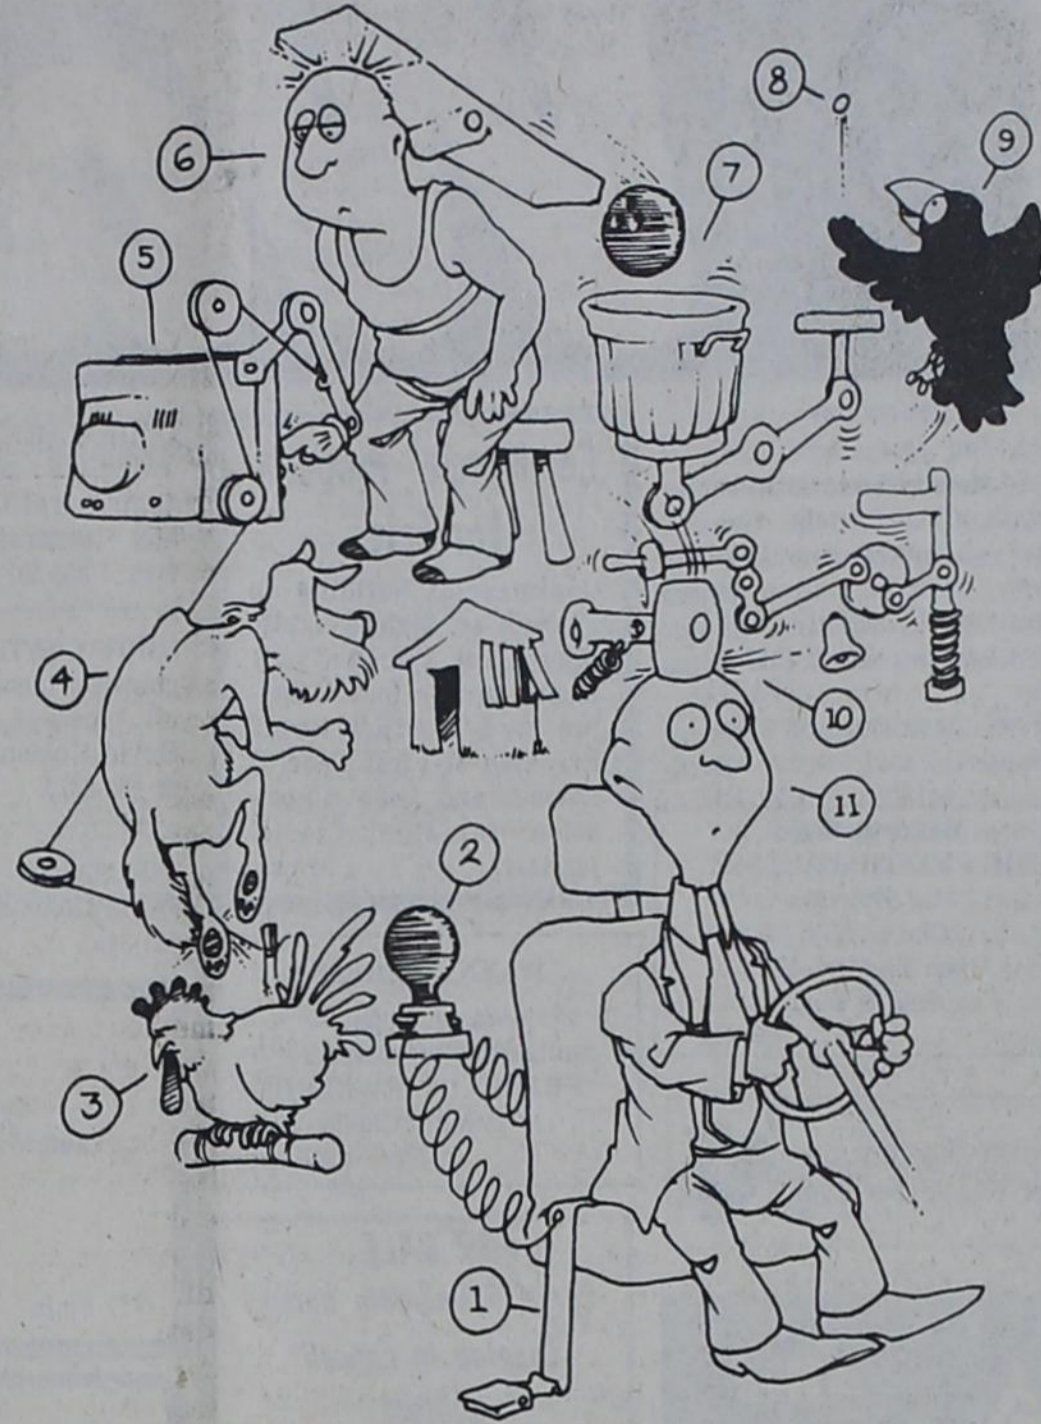

6. In areas where rabies is prevalent in wildlife (skunks, foxes, etc.) horses and cattle may be protected by vaccination. A veterinarian can be consulted on vaccination of these animals.

7. Rabies clinics to vaccinate all pets can be organized to help prevent the spread of the disease.

8. All stray animals should be promptly picked up and disposed of humanely.

9. Children should be advised on the dangers of approaching stray animals or other wild animals that are near human habitation.

Area History Book To Be Published

The editors of the recently published Curry County History Book, now completely sold out, have been prompted to publish a similar book, but one that will encompass a broader area. It will include not only Curry County, but those areas in Roosevelt and Quay counties which are in the Clovis trade area.

"What we are trying to do," says Don McAlavy, founder and immediate past president of the High Plains Historical Foundation, "is publish another fine book that will include those people who didn't

get their family histories in the first book.

"And too, this book will enable us to print the history of the cowboy period in our area - and it is a fascinating history - one that I have been working on for over seven years.

"The reason this book has to be broader in scope than a county history book is that our open range history started before there was a Curry, Quay, or Roosevelt county. Our area of east-central New Mexico was then part of old San Miguel and Lincoln count-

ies, and later part of Guadalupe and Chaves counties."

Co-editor will be Harold Kilmer, a Clovis railroader, whose specialty is family history and genealogy. Along with accepting family histories, he is currently compiling the list of the original taxpayers and their property (the homesteaders and first property owners) in Curry County, to be published in the new book.

A deadline of August 31, 1979, has been set for families to turn in histories. As before, the word limit will be 550, at no cost, along with one photo.

Space for extra photos, or histories that one feels need much more than the free 550 words, may be purchased as the rate of ten cents a word, or \$35 for one-quarter page, \$70 for one-half page, or \$140 for a full page.

No histories from the Curry County History Book will be repeated, except where space has been purchased for them. Space for memorials or tributes can be purchased and they will be put in alphabetical order alongside family histories.

If at all possible please furnish a photo, or photos, or have copies made of them, that you can give up, as the publisher will not be responsible for original photos. Please

I just learned something you may not know either. Bee and wasp stings usually account for more fatalities than do poisonous snake bites. Texas recently recorded nine deaths from bee, wasp, and insect bites, and six deaths from snakebites, in one year.

A couple of precautions can help prevent the bites and stings of mosquitoes and bees and other insects.

Yellow-jackets and bees love ground clover, so wear shoes

when you're outdoors. Some insects are drawn to scents, so avoid scented soaps or perfumes. Mosquitoes, on the other hand, are drawn to perspiration.

If you are stung, be sure to get treatment for it quickly. A

recent study showed 65% of the deaths from stings involved people who received no aid in the first hour. Do not squeeze the bite, since that will inject more venom into the site. Wash the area thoroughly. Ice may reduce pain and swelling.

If you have a history of allergic reaction to insect bites you might want to wear a medical information bracelet.

We all react to stings and bites to some degree. Avoid the more traumatic and even fatal reactions by knowing how to handle these situations.

This I Know - - -
by Leonard Harper
Minister
Fairwell Church of Christ

When and if we are inclined to be rude in talk or behavior, we must give heed to our better self which is saying, "DON'T DO IT." Rudeness is not part of Christian behavior. It hurts us, and discourages those to whom we may be rude. Christian love is not rude. (1Cor. 13:5).

The temptation to gossip seems strong and constant. Obviously, it is a rather common activity; and sometimes includes slander. Of course, neither the attitude which produces these evils, nor the evils themselves are Christian. God teaches us to bridle the tongue - (James 3:1-4); and to let our speech be gracious - (Col. 4:6). When we start to gossip; we can hear our better self saying, "Don't Do It."

Unkindness is Unchristian, and is not even mature behavior. It adds to the burdens that others are carrying; it discourages people; it increases feelings of hostility; and even contributes to the failure of some who might otherwise succeed. Christian love is kind. (1Cor. 13:4). When we begin to stoop to unkindness, the voice of our better self is saying, "Don't Do It."

All unfavorable human behavior is unchristian, and the message is, "DON'T DO IT."

Only one corn miticide delivers all 9 advantages:

1. Controls even phosphate resistant mites.
2. One application normally does the job.
3. Longer lasting than phosphates.
4. Easy on ladybugs and other beneficial insects.
5. Arrests mite damage in corn.
6. Compatible with most pesticides.
7. Can be applied by either ground or air.
8. No re-entry restrictions.
9. High return on investment.

For complete details, talk to your dealer, consultant, or custom applicator today. Uniroyal Chemical, Division of Uniroyal, Inc., Naugatuck, CT 06770.

Comite

As with any miticide, always follow instructions on the label.

Breaks the phosphate resistance cycle.

TWO MINUTES WITH THE BIBLE
BY CORNELIUS R. STAM, PRES. BEREAN BIBLE SOCIETY CHICAGO, ILLINOIS 60643

THE TRUE BIBLE CHURCH

Many people have truly come to know Christ as Savior after having been sincere, religious "church members" for years. Though faithful supporters of some earthly church organizations they had never experienced the truth of II Corinthians 5:17: "If any man be in Christ he is a new creation." It is possible to be a member in good standing of some church organization, yet be outside of the one true Church of which the Bible speaks.

This is because the true Bible Church is not an organization but a living organism, a spiritual body, with a living Head and living members. Again and again St. Paul, by divine inspiration, calls the Church the Body of Christ. He says: "We being many, are one Body in Christ..." (Romans 12:5). "Ye are the Body of Christ and members in particular" (I Corinthians 12:27). "We are members of His Body" (Ephesians 5:30).

How do we become members of this true Bible Church, the Body of Christ? First, we must acknowledge ourselves to be sinners in God's sight, for Ephesians 2 relates how Christ died for sinful men that He might "reconcile" them to God "in one Body" by the cross (Ver. 16). Thus, when believing sinners are reconciled to God by faith in Christ, they are regenerated, given a new life, by the Spirit, and by the Spirit are baptized into the Church, the Body of Christ.

"Not by works of righteousness which we have done but according to His mercy He saved us, by the washing of regeneration, and renewing of the Holy Spirit" (Titus 3:5). "For by one Spirit are we all baptized into one body" (I Corinthians 12:13).

Every one of us should ask himself: "Have I been baptized by the Spirit into the Body of Christ?" If not, trust Christ as your Savior and become a member of the one true Bible Church. Then associate yourself with some local assembly where Christ is honored and the Bible taught, "rightly divided."

Farwell City Council will meet Monday, July 9, at 5:15 p.m. CDT at City Hall.

Parmer County Commissioners Court will convene Monday, July 9, at 11 a.m. in the county courtroom.

Texico School Board will meet Tuesday night, July 10, at 7 p.m. MDT in the high school.

Texico City Council will meet Tuesday, July 10, at 6:30 p.m. MDT at City Hall.

The FARWELL INDEPENDENT SCHOOL DISTRICT will be giving the \$5,000 Homestead Exemption, also the \$10,000 Over 65 Exemption. All exemptions must be signed and in the Tax Office by July 16, 1979. Applications will have to be filed Annually.

For the Over 65, proof of age will be required. Applications will be available at the School Tax Office, 705 - 6th Street, Farwell.

Open Space Land Applications for Agricultural Land will be mailed out by June 25, 1979 and will need to be signed and returned to the Tax Office by July 16, 1979 to be eligible for Ag-Use values on properties of 5 acres or more.

Published in the State Line Tribune June 22, June 29 and July 6, 1979.

NOTICE

The Farwell ISD hereby announces that all persons are entitled to receive an exemption of \$5,000 from the market value of their residence homestead for the purpose of school taxes. In addition, all persons who are 65 or older or under a disability for purposes of payment of disability benefits under Federal Old-Age, Survivors, and Disability Insurance are also entitled to an additional exemption of \$10,000 from the market value of their residence homesteads for the purpose of school taxes.

To qualify for these exemptions, an application must be filed with the school district tax office by July 16, 1979. Application forms are avail-

able at the school tax office located at: 705 6th St.

Published in the State Line Tribune June 22, June 29 and July 6, 1979.

NOTICE

The Board of Equalization for the City of Farwell will be in session on July 16, 1979, between the hours of 1:00 p.m. and 5:00 p.m. at the City Hall, 101 Ave A, Farwell, Texas. All persons wishing to meet with the Board should call during the hours mentioned above.

City of Farwell

Mayor

Attest:
Mamie Jane Bowery
City Clerk

Published in State Line Tribune June 29, July 6, 1979.

NOTICE OF HEARING

A proposed use hearing will be held July 23, 1979 at 3:00 PM in the County Court Room at Farwell, Texas, to consider possible uses of revenue sharing funds for the coming year in the amount of some \$68,000.00 that is estimated to be received by Parmer County. The public is invited to make oral or written suggestions regarding possible uses.

Published in State Line Tribune July 6, 1979.

NOTICE OF BID

The Commissioners Court of Parmer County will offer for sale, by sealed bid, one (1) 1974 3/4 ton Dodge van.

Bids should be mailed or handed to James P. Fortenberry, Box 506, Farwell, Texas, 79325, before 11:00 AM July 23, 1979, at which time bids will be opened.

Terms - Cash
Van may be inspected by contacting the Sheriff's Office in Farwell, Texas.

The Commissioners Court of Parmer County reserves the right to accept or reject any or all bids.

James P. Fortenberry
County Judge
Box 506
Farwell, Texas 79325
Published in State Line Tribune July 6, 13, 1979.

PUBLIC NOTICE

Southern Union Gas Company, a Division of Southern Union Company, hereby gives notice of its intent to implement a new schedule of natural gas rates in the City of Farwell, Texas, no earlier than August 7, 1979, in accordance with the Statement of Intent filed with the City of Farwell on July 2, 1979.

It is anticipated that the effect of the change in rates, when allowed, will be to increase the revenues of the Company within the Farwell Service Area by 8.3%. A residential customer using 10 Mcf of gas per month would experience a maximum increase of \$1.30 per month.

A complete copy of the Company's Statement of Intent is available for inspection at the Farwell business office.

SOUTHERN UNION GAS COMPANY.

THE STATE OF TEXAS
COUNTY OF HALE

NOTICE OF SALE OF REAL ESTATE UNDER EXECUTION

By virtue of an Execution issued out of the 64th Judicial District Court of Hale County, Texas, on a judgment rendered in said Court on the 10th day of April, 1979, in favor of THE CITY NATIONAL BANK OF PLAINVIEW vs RICHARD ADKINS, d/b/a Plainview Honda; No. A-18859 in such Court, I did on the 28th day of June, 1979, at 4:30 o'clock p.m. levy upon the following described tracts and parcels of lands situated in the County of Parmer, State of Texas, as the property of the said RICHARD ADKINS, to-wit:

An undivided one-half interest subject to a life estate in Eunice M. Adkins in and to the following real property: Being 320 acres of land, more or less, in Parmer County, Texas, and being the North One-half (N. 1/2) of Section 24 Township 1-North, Range 3-East, as shown by plat recorded in Vol. 5, Page 395, Deed Records of Parmer County, Texas, SAVE AND EXCEPT a 15.86 acre tract heretofore conveyed by Ivan Adkins et al to Gary E. Brown, et ux Barbara Brown by Warranty Deed Recorded in Volume 172 Page 143, Deed Records of Parmer County, Texas;

SUBJECT TO all mineral and/or royalty reservations of record in the Deed Records of Parmer County, Texas, and to any other instruments and matters of record in force and effect against the above described property; and

on the 7th day of August, 1979, being the first Tuesday of said month, between the hours of ten o'clock a.m. and four o'clock p.m. on said day, at the Courthouse door of said County, I will offer for sale and sell at public auction, for cash, all the right, title and interest of the said RICHARD ADKINS, as hereinabove described, in and to said property.

DATED at Farwell, Texas this 28th day of June, 1979.
Charles Lovelace
Sheriff of Parmer County, Texas.

Fiat Strada	28	12.2	342	VW Rabbit	25	10.6	265

Delta 88 is:

18 EPA EST. MPG

450 EST. CRUISING RANGE MILES

27 HIGHWAY EST. MPG

675 EST. HIGHWAY RANGE MILES

Remember: The circled EPA estimate is for comparison to other cars. Your mileage and range depend on your speed, weather and trip length; your actual highway mileage and range will probably be less than the highway estimates. Cruising range estimates are

obtained by multiplying the EPA and highway estimates by the standard fuel tank capacity ratings (Delta 88 25 gal.). Oldsmobile Delta 88s are equipped with GM-built engines produced by various divisions. See your nearest Oldsmobile dealer for complete details.

Long after this summer is over, you'll be glad you bought an 88!

Room. Delta 88 is trim outside. But there's room for six people inside—who don't want to settle for less than full-size comfort.

Ride. Smooth, quiet and solid. A ride that makes Delta 88 a great and comforting road car. So important for the long haul.

Trunk space. Lots of easy-loading trunk space. In fact, there's over 90 cubic feet. Family-size all the way.

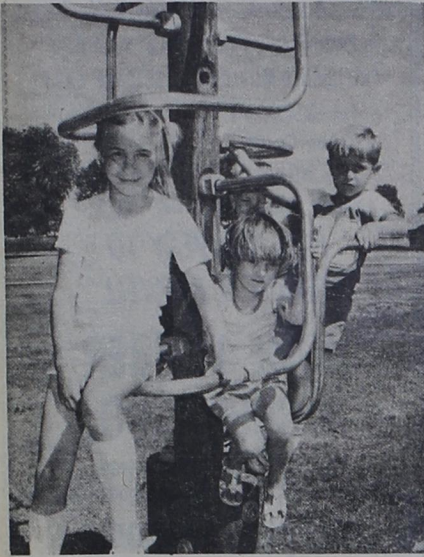

Olds value. It's value that's built in. It's solid engineering and quality. And it's affordability—at a price that's a nice surprise to budget-minded families. **Test drive the long-haul Delta 88 today!**

Climbing Tree

These Farwell youngsters are trying out the new Modulog "climbing tree" which has been installed at Farwell Elementary School playground. They are, from left, Dana Haseloff, 7, daughter of Mr. and Mrs. Richard Haseloff; Robin Foster, 5, daughter

of Mr. and Mrs. Bobby Foster; Paul Winegeart, 4, son of Mr. and Mrs. Eddie Winegeart; and Reace Bennett, 3, son of Mr. and Mrs. Rickey Bennett, partially shown in the back. The "tree" was purchased with money earned through Project Christmas Card.

Playground Rings

Darren Haseloff, 5, son of Mr. and Mrs. Richard Haseloff of Farwell, braves the new "rings" which have been installed at Farwell Elementary School playground. The new playground equipment is

part of the Modulog series. The "rings" which are attached to a slide were purchased with funds obtained through Project Christmas Card, and were installed last week.

FIRE CALLS

Farwell Volunteer Fire Department answered a call to a car on fire July 1 four miles out on Highway 60.

The Texico Volunteer Fire Department emergency vehicle transported a boy to the hospital in Clovis on June 26.

"Be brief when you cannot be good."

St. Francis De Sales

July 15 Last Day To File For Natural Gas

Farmers, food processors, food distributors and other agricultural concerns desiring protection against natural gas curtailments are reminded to file a written priority request with their supplier no later than July 15, 1979, reminds Prentice Mills, County Executive Director, Farmer County ASCS.

The Federal Energy Regulatory Commission (FERC), originally designated June 15 as the last day for this requirement but extended it by one

month. "Users of interstate natural gas have been certified by the Secretary of Agriculture to be protected up to the full requirement against curtailment," according to the Executive Director. The request should include: -- Name and Address -- Intended end user and volumes of natural gas needed -- Natural gas purchases for most recent 12 months for which records are available -- Documentation to support

calculation of needs --Standard industrial classification (SIC) code numbers such as 01 for crops and 02 for livestock, and --Signature swearing or affirming to accuracy of the request
