Hinkson Withdraws From House Race

Frank Hinkson of Lazbuddie has withdrawn from his race for a seat in the U. S. House of Representatives. He dropped out Friday of last week.

Announcement of his withdrawal came only about a week after he entered the contest, seeking the Republican nomination for the seat which is now held by Walter Rogers of Pampa, Democrat.

Hinkson has withdrawn in favor of Frank Seale of Amarillo.

His statement: "Since making my announcement as candidate for Congressman of the 18th District, subject to the Republican primary May 5, I have found there is a wave of conservatism already started; that many people are as concerned about our country's welfare as I am, and that I have found

that Mayor Seale is dedicated to the same principles of government as I am.

"Therefore I now withdraw my candidacy in favor of Mr. Seale and pledge to him all the support at my command, because I feel that my efforts for the cause of conservatism and the creation of a two-party system on the state of Texas will be more effective by supporting Mr. Seale.

"My future will be dedicated to the principles of individual initiative, responsibility, and freedom."

FRANK HINKSON

Hinkson said he had no regrets for having entered the race and then saw fit to withdraw. He expressed his appreciation to his Parmer County friends.

The two days of sunshine we had this week flipped the switch on Mama Graham's Spring Urges, which have been lurking in her subconscious. As a result, she is off on her annual binge of adding-on, cleaning-out, painting-up and re-arranging kick around the house. It isn't safe for man nor beast around the Grahams'.

I usually try to stay clear of the premises whenever these mighty forces are at work, but I have been swept up along with other members of the family in the tidal wave of change.

Now I'm not particular about environment, I have been known to eat in the hall, wash in the kitchen sink, sleep on the living room floor, and shave with four other people in the bathroom besides me. I claim to be pretty adaptable.

But I think re-locating the bed once every spring is more than I ought to have to adjust to. I feel this way because this is asking me to change something that it's hard for a man to change . . . how he gets out of bed every morning.

Either the sun is going to have to hurry and start coming up a good bit earlier or I am going to have to slow down and start getting up a good bit later.

While rising in the darkness of the "best part of a Golden Spread day" since the wife has switched things around, I find myself walking smack into a bedroom wall before I realize I'm headed in the wrong direction.

I also am somehow managing, on most attempts to get into action, to tangle up with the waste paper basket. The door jamb that always was a familiar and friendly guide to the location of the hallway no longer seems to be where I expect it and I am spending quite a bit of time fumbling around just trying to get out of the bedroom.

If you wonder why I don't just turn on a light, you probably don't have any junior editions around your house. A light turned on in the dark is a signal to every kid in the house you are fair game once they have been awakened.

I used to watch my dog turn around three times before he laid down and I always wondered what was going on. Now I know. He was surveying the joint to make damned sure he knew where everything was before he went to sleep. That way if he was called upon to wake up and start out in a hurry he wouldn't be running off things.

It sounds like a good idea, and I think I'll try it.

The Grahams, along with a few of our newspaper associates, stuck their heads in on the New Mexico Press convention which was in Clovis over the weekend.

Mama Graham and the writer didn't get in on much of the convention so far as meetings went, but we were around for an hour or two of the Saturday night shindig after things wound up.

This was the first time I had been exposed to the rigors of the twist first-hand, that is, in persons and I must admit it is quite a craze. A few adventurous couples were giving it a whirl on the floor Saturday evening and they drew a lot of spectators, including the Grahams.

I allowed that, after watching it a few minutes, we might as well try it out too. It didn't look too tough to me. But Mama was shocked at the suggestion and said she wouldn't be caught dead doing a thing like that.

She indicated a gay young thing gyrating near us and asked, disdainfully, "Doesn't she look awful."

Actually, I had thought she looked pretty good. But I got Mama's point and shut up pretty soon.

Joe Jones allows that he doesn't know about this new bank job he's got. Here he's been with 'em for months and Gabe still has him rolling pennies.

Joe's just itching to roll some of those dimes and quarters, and maybe even some of the 50-cent pieces once in a while, but I guess he hasn't proven himself yet.

You Waited Too Long To Pay Your Poll Tax

Mrs. Hattie Gerles, Pioneer, Dies At Home Friday

Mrs. Hattie A. Gerles, pioneer resident of Parmer County, passed away at her home at 200 Ave. C., Farwell, Friday, Jan. 26, at 2:20 a.m. following a long illness.

Mrs. Gerles was born September 24, 1877, at Petersburg, Ill. She was married to Herman Gerles, also of Illinois, on October 10, 1900. After living in Iowa and Minnesota, they came to Texas in December of 1912, moving to Parmer County in 1916. Mrs. Gerles moved in to Farwell in 1953. She was preceded in death by her husband on January 11, 1934. She had been a member of the Baptist Church since she was a child.

She is survived by three sons, Fred and Dick Gerles of Farwell, and Kent Gerles of Sacramento, Calif.; two daughters, Mrs. J. B. Huckabay of Albuquerque, and Mrs. O. W. Milburn of Austin; seven grandchildren and 10 great-grandchildren.

Services were conducted Saturday, January 27, at First Baptist Church, Farwell, with Rev. J. L. Bass, pastor, officiating.

Pallbearers were John Aldridge, Charley Lovelace, Boone Allison, Lee Meeks, Claude Rose and Walter Hardage.

Interment was in Mission Garden of Memories, Clovis, with Steed's Funeral Home in charge.

Chamber Picks New Directors

Farwell's Chamber of Commerce named a new slate of directors at their meeting Tuesday night at the City Hall. The directors will be installed at the annual banquet which is Wednesday night, February 14.

Selected to guide the Chamber during 1962 were James Ussery, Smokey Gast, Jerry Bradshaw, Hurshel Harding, Tom Cobb, Carl Davis, Billy Watts, Joe Jones and Bill Prince.

Holdover directors include Gast, Bradshaw, Harding, Davis, and Watts.

The directors will pick a president and name other officers and these will be presented at the banquet. Hurshel Harding serves as president this year.

Going off the board are Clarence Christian, Lee Jones, Herbert Potts, Bill Christian, and Partin Austin.

Farwell Man Dies In Night Mishap

Funeral services for Bernise Ray (Buster) Roberts, 43, are scheduled Saturday at 2 o'clock in the afternoon at Hamlin Memorial Methodist Church, Rev. Robert Tomlinson, pastor of the church, and Rev. J. L. Bass, pastor of First Baptist Church, will officiate.

Roberts was killed Wednesday night about 7:30 p.m. about 6 miles east of Farwell when the pickup which he was driving swerved off the road and struck a tree. The vehicle, owned by Dargin Kirk, was demolished.

Pallbearers for the services include Donald Powers, Preston Powers, Owen Burnett, Bob Burnett and LeRoy Burnett, all nephews of the deceased, and James Ussery.

Survivors include his wife, Elsie Ann; two sons, Douglas Warren and William Ray of the home; a daughter, Dorothy Marie Stone of Bovina; his father, W. P. Roberts of Bodfish, Calif.; his mother, Mrs. R. R. Jackson of Ft. Worth; and five sisters, Mrs. Frank Burnett of Bovina, Mrs. J. M. Hitt of Ft. Worth, Mrs. Raymond Powers of Andrews, Mrs. Clyde Rawdon of Levelland and Mrs. Walter Williams of Lubbock.

MOTHERS MARCH for the March of Dimes conducted in Farwell by members of Theta Rho chapter of ESA, netted \$344.25 for the charity. Sorority members shown counting the proceeds at the close of the march Tuesday afternoon are from left to right, Joann Getz, Donna Jordan and Sue Kirkland.

Last Rites Conducted For Mrs. W.H. Jarrell

Funeral rites for Mrs. W. H. Jarrell, 90, a former resident of this area, were conducted Monday, January 29, at the Baptist church in O'Donnell, Tex. Mrs. Jarrell died in Vista, Calif., on Thursday, January 25. She was the step-mother of Mrs. John Hightower and A. J. and Spencer Jarrell, all of this area.

Survivors include her husband, W. H. Jarrell of Vista; five daughters of O'Donnell; one son of Los Angeles; and several step-children and grandchildren.

Attending the services from this area were Mr. and Mrs. Hightower, Mr. and Mrs. A. J. Jarrell and Mr. and Mrs. Spencer Jarrell.

Mr. and Mrs. Tom Crews have gone to Vista to be with Mr. Jarrell.

Stolen Trucks Found

Officials recovered two stolen trucks which were used in two recent Parmer County burglaries last week.

The trucks were located on section line roads in the southwest corner of Hale County where the burglars had apparently abandoned them.

The first truck was recovered when a farmer called officials and reported the truck abandoned on his turnrow. It was found to be the truck belonging to Roy Christian which was used in the Dec. 28 burglary of Grady Dodd's Texaco warehouse in Friona.

Sheriff Charles Lovelace, W. E. Renfrow, Texas Ranger, and a Hale County deputy began driving along parallel section lines in search of the truck used in the Jan. 21 burglary at Helton Oil Company in Farwell. After numerous miles of futile searching, Sheriff Lovelace discovered the oil company's truck about four miles north of the first truck.

No charges have been made in connection with either of the burglaries.

The discoveries last week bring the number of stolen trucks used in burglaries and abandoned in the area to five within the past year.

Men Plead Guilty In Court Wednesday

Judge E. A. Bills presided Wednesday for 17 district court cases in which five men pleaded guilty, all to charges of burglary, says Hugh Moseley, county clerk.

Jackie Dickerson of Hereford was sentenced to eight years on five charges, with terms to run concurrently, for burglaries in Bovina involving two break-ins a Cicero Smith, and others at Hartwell's, Bovina Schools and Bovina Implement.

Bobby Rodgers of Friona was sentenced to serve eight years for burglaries at the school, Cicero-Smith and Hartwells.

L. D. Locke, Hereford, was also sentenced for eight years for seven offenses, burglary at Associated Growers of Friona; Cicero Smith, Williams Mercantile, Bovina Implement, Three Way Chemical and Wilson Super Market at Bovina and AA Bowl at Farwell.

Randall Follis of Dimmitt pleaded guilty to breaking and entering Gladys' Ready To Wear in Farwell Sept. 4 and received an eight-year sentence.

Charlie Scott pleaded guilty to a charge of taking 3800 pounds of milo grain from the Charlie Vasek place near Parmerton Dec. 21, and received a four year sentence.

Wurster Named For Honors Work

LUBBOCK--Paul Wurster of Farwell has been selected for special honors work in the Texas Tech School of Arts and Sciences, Dean S. M. Kennedy announced.

The honors activities are designed to enrich the studies of students who have demonstrated academic superiority.

Wurster was given the opportunity to participate in the honors studies on the basis of high scores on freshman placement tests, high achievement in high school studies and other indications of being a superior student.

As an honor student, he will complete all regular requirements for a degree. In addition, he will participate in special seminars, research, discussion and individual study.

Wurster will have the advantage of special instruction by some of Tech's top faculty members. He is one of 98 students taking the honors courses.

He is the son of Mr. and Mrs. Paul Wurster Sr. of Farwell.

Births Show High Population Rise

Population of Parmer County is increasing at a rate of almost 400 per cent faster than it is decreasing through natural causes, according to a comparison of county birth and death records.

A total of 150 births was registered with the county clerk during 1961. This is opposed to 39 deaths recorded in the county.

Only one set of twins was recorded last year while three sets were entered in 1960. Mike Allen and Michael Anthony were born to Paul and Mildred Joseph on Feb. 3, 1961 in Parmer County Community Hospital.

The three sets of twins born in 1960 were among the 137 births that year. They were born on Jan. 11, July 9 and Sept. 3, 1960.

A considerable increase in marriages occurred in the last year. According to the record of marriage licenses, 90 certificates were issued in 1961. Only 66 were issued in 1960.

Nineteen divorces were also issued during the past year, according to court records.

TECH HONOR STUDENT--Paul (Tommy) Wurster of Farwell (standing far right) is one of the 98 students at Texas Tech participating in special honors work in the School of Arts and Sciences. Wurster is a chemistry major.

43 Pay \$12,643

A total of \$12,643.68 was deducted from the wages and salaries of 43 Parmer County officials and employees in 1961 for income tax purposes according to county records.

The income for the 43 persons was recorded at \$125,745.60 for the year. This indicates an average income tax deduction at slightly over 10 per cent.

Jury List Named For Civil Case

The jury list for a civil case listed for district court Feb. 8 has been released. On the docket is Vincent Carr and Warlick Carr vs. Charlie W. Crisp.

Jury list includes: Grady King, J. J. McDonald, John McGehee, James Robinson, Riley Goodnough, Willie Steinbock and Ben Foster Jr. of Muleshoe Route;

Mrs. Ray Landrum, Weldon Slayton, Geo. W. Jones, Mrs. Sam Williams, Archie L. Tarter, Friona; Kirt Crume, LaVon Jones, Don Gerles, Raymond Martin, M. A. Snider Jr., Conrad Nelson, Ernest Kube, Bob Hammonds, Mrs. Prentice Mills, Mrs. Willis Hester, W. O. Chadwick Jr., James W. Patrick, Mrs. A. F. Phillips, Sterling Donaldson, Mrs. Delbert Garner, L. L. Cooper, Truett Hardage, Mrs. James D. Roach, Donald Christian, Melvin Terry, A. H. Haseloff and Monty Barrett, Farwell;

Ovid Lawlis, James R. Boardman, G. D. Anderson Jr., O. M. Hammonds, Jimmy Ware, Mrs. Frank Edwards, Connie O'Brien, Jack Woltman, Bovina;

Marvin Lawson (Moved to Amarillo) Friona; Glen Scott, Frank Hinkson, Ewell Mitchell, Lazbuddie; Earl Peterson, Muleshoe; and Mrs. L. L. Norton, Texico Route.

Twin City Cage Roundup

Farwell Steers downed a cold Texico team 54-29 Saturday night at Farwell gym. The Wolverines, playing without starter Leon Kelley, could never find the range. Top scorers for Farwell were Leon Lovelace and Max Field with 15 points each. Don Reid and Dwight Turner had nine points each to lead the Texico scoring.

In the opener, Farwell's B team edged Texico B squad 43-37. TEXICO VS. GRADY

The Wolverines lost to the Grady boys 58-45 at Texico Friday night in a District 6-B contest. With Kelley out that evening, too, and Dwight Turner seeing limited service, the team made a steady try to overcome the visitors. Don Reid made 13 for high count for the locals. The junior high boys topped Grady 23-17 with David Barnett hitting 9 for high score.

FARWELL-KRESS (Boys) Three Steers scored in the double digits

to lead Farwell to a 58-31 victory over Kress Kangaroos Tuesday night at Farwell. Maurice Smith had 14 and Leon Lovelace and Errol Johnson each made 12.

FARWELL-KRESS (Girls) Kay Campbell led the Kress girls' team to a 41-33 win over the Farwell girls by scoring 22 points. Chris Paine was top scorer for the locals with 17.

TEXICO-FARWELL (Jr. high boys) Wednesday, Farwell junior high boys defeated the Texico team 34-18, with Gossett hitting 12 for Farwell and Jerry Fields making 10. Tom Rickstrew hit 11 for Texico. COMING GAMES

Melrose A and B boys will play at Texico tonight (Friday) and Farwell will play host to Hale Center.

Texico will be host to Tatum A and B boys Saturday night when homecoming will be observed at the school. Farwell boys go to Springlake Tuesday night.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

LAZBUDDIE 4H NEWS

By Adrian King, Reporter
 The January meeting of the Lazbuddie Joint 4H club was January 18 in the Lazbuddie School Cafeteria. There were forty-five members present and twenty-two adults.
 The club voted to raise money for the March of Dimes. Each member will go from house to house collecting money and turn it over to a committee. The committee is made up of David Nelson, chairman, and also Troy Steinbock and Larry Davis.

The club also voted to raise money for the club treasury by selling subscriptions to the Amarillo Globe Times.
 The program was on record books and was given by Miss Ettie Musil, County Extension Agent.
 After the program was over, the meeting was adjourned and games were played and refreshments served.

News From LAZBUDDIE
 BY MRS. C. A. WATSON

Karen Scott and Scoy Elliot, age three, celebrated birthdays Sunday in the Hubert Elliot home. Attending were Mr. and Mrs. Glen Scott and Mr. and Mrs. Leonard Elliot.
 Mr. and Mrs. Jess Pendergrass and Susan visited the Children's Home in Portales Saturday.

A good crowd gathered at the Lazbuddie School for the Farmers Union Meeting Friday night. New directors named were Frank Hunt and Howard Carpenter. Other directors are James Welch, Clayton Graef, and T. O. Lesley. Door prizes were given and refreshments served.
 Mrs. Les Bruns was in Clovis on business Monday.
 Morris Bruns from Lubbock visited Mr. and Mrs. Less Bruns over the weekend.

Mr. and Mrs. Rufus Carter visited Mr. and Mrs. W. O. Burford of Muleshoe and Mr. and Mrs. Eugene Martin of Big Square Sunday.
 Brother Tommy Gleaton from the Progress Methodist Church was guest speaker at the Lazbuddie church Sunday.

Mr. and Mrs. Finis Jennings and Mr. and Mrs. J. D. Carpenter visited in Olton Sunday with the Elmer Houston family. The Houstons are former Lazbuddie residents.
 The community is sorry to lose the Joe Prater family who recently moved to Edmonson. He will continue his farming operation there, Mr. and Mrs. Orville Burnet and children, Bart and Laura Jean, have moved into the house vacated by the Praters. We are happy to welcome them to our community.

Funeral services for J. B. Young Sr., who passed away in a Sweetwater hospital Wednesday, were conducted there Thursday. He was the father of J. B. Young Jr. and had lived in the Needmore area for 20 years before going to Sweetwater. His wife also survives.
 Sunday dinner guests in the Clyde Monk home were Mr. and Mrs. Marcus Waugh and Irene, and their son Loyd and family from Canada; and Mr. and Mrs. Garland Brown and Jerry Don from Lovington. The guests returned to Lovington Sunday night and the Marcus Waugh family left there Monday en route to Florida.

Mr. and Mrs. David Lynch, Steve and Judy, from Slaton, were overnight guests Saturday in the Raymond Houston home. MORE???

To A Dear Friend
 By Mrs. W. F. Markham
 When we come to the end of life's journey,
 Where the last weary mile has been trod,
 And we enter that beautiful City,
 Whose builder and maker is God.
 There the trials of the road will seem nothing,
 And all things we'll then understand,
 Our heartaches and trials be forgotten,
 When we enter the Promised Land.
 The Saviour will be there to welcome,
 With the loved ones who've gone on before,
 And we'll join the glad hallelujah,
 With them on the other shore.
 I'm sorry to leave the Dear ones here,
 But may they with patience await,
 And when they are called to cross over the river,
 I'll be waiting for them at the gate.

Cub Scouts Have Pack Meeting

Farwell School cafeteria was the scene of a Cub Scout Pack meeting last week. M. A. Snider Jr. was in charge.
 Members of all seven dens participated in the program with one den presenting a skit.
 Study for the past month in the den meetings has been "Knights." Crafts and costumes having to do with this phase of study were made by the boys and were shown.

Business Students To Receive Awards

Almost 100 awards will be presented to members of the business education classes Monday morning in assembly by Beverly Cassidy, president of the local chapter of Future Business Leaders of America.

These awards have been received from the State Commerce Club, Highlands University, Las Vegas, as students have passed various requirements set up by the SCC in shorthand and typing.

In shorthand I, Carol White and Sharon Blackwell have acquired the highest awards to date while in Shorthand II Donna Osborn and Beverly Cassidy have received awards for dictation for 100 words per minute for five minutes.
 Dianne Baldrige has topped the Typing II classes with her 60 words per minute for five minutes and in Typing I Donald Chandler and Judy Lovett have placed the highest thus far.

The remainder of the assembly program is to be presented by members of the speech class under the direction of the teacher, Brian Dahns.

Texico Midgets, Juniors Beat Clovis Teams

Texico's Midget and Junior basketball teams of the Plains League Association won games over the weekend from two Clovis teams. The Midgets downed the Rockets 5-4 for their first win, having lost three games.

In the Junior game with the Eagles of Clovis, Jim Webb scored seven points for scoring honors in the 23-15 victory. This squad now stands in second place in the league with a 3-1 record.
 The teams are coached by Kenneth Murdick and James Hudson.

Fifteen On Farwell Semester Honor Roll

Fifteen high school students were listed on the first semester honor roll at Farwell School which was released this week. To make the honor list a student must maintain an A- average throughout the semester.

Freshman class members on the list are Mary Coffey, Donna Dunn, Johnny Atkinson, Jerry Field and Ronnie Smith.

Sophomore honor students are Janice Prince and Janie Bradshaw, and juniors making the roll are Doris Donaldson, Paula Winegeart, Barbara Conner and Dorothy Bujnosek. Honor seniors are Christine Paine, Iris Goldsmith, Jolene Donaldson, and Peggy White.

Safety Pays Family Benefits.

Pleasant Hill
 BY MRS. BUCK TAYLOR

Mr. and Mrs. Jack Smith took their daughter, Beverly, to Ft. Worth, Monday to begin her second semester at TCU. While there they plan to attend the Fat Stock Show.

Mr. and Mrs. Duane Darling were in Portales Sunday to visit with Mrs. Pearl Darling, who has a broken hip.

Mr. and Mrs. Gene Fox and children were in Albuquerque over the weekend visiting in the Bernard and Rex Fox homes and with the J. N. Reeve and N. W. Falls families.

Messers and Mesdames John Littlefield, Max Steinbock, Donald Dean Littlefield and Gene Smith and families visited in Clarendon Sunday with John Littlefield's mother.

Mrs. V. L. Beasley from Leffille, and Mr. and Mrs. Clifford Gildwell from Riverside visited with Mr. and Mrs. Frank Hunt last week.

Earl Meacham from Woodriver, Neb., is visiting in the home of his daughter, Mrs. Frank Hinkson.

Rev. and Mrs. Bill Curry have returned from Dallas where they attended the state-wide Baptist Convention.

Ronnie Gustin, son of the C. D. Gustins, is home for a few days' visit before going to work in Ft. Worth.

Mrs. L. R. Hall fell and broke her foot, but is improving nicely.

Mr. and Mrs. James Beavers and children were overnight guests in the L. R. Hall home on Sunday.

Mr. and Mrs. J. W. Crim are enjoying a vacation in Tucson, Ariz. They plan to tour other points of interest before returning home.

Mrs. James Harvey and children spent the weekend in Lubbock visiting with Mrs. R. L. Curtis.

A birthday dinner in honor of Marsha Schumann was held in the home of Mr. and Mrs. Gerald Ramage. Attending the affair were the Loyd Bradshaws, Danny Millers and Karen and Susan Mimms.

Mrs. C. A. Watson and Mrs. Dan Cargile were in Farwell on Wednesday morning to attend the assembly program at the school. Their granddaughter, Cassandra, was one of the first graders in the program. Lazbuddie grade school will be in the tournament at Springlake this weekend.

Birthday greetings to: Dan Cargile, Marsha Schumann, Sarah Gammon, Leon Burrisson, Dean Watkins, Scott Windham, Leroy Cox, Gayla Seaton, Maria Salinas, Lydia and George Silas.

Mrs. Mary Johnke visited last week in Lubbock with her mother, Mrs. Claudie Randol, and a sister, Mrs. Lewis Broesch.

Sunday evening guests in the Mrs. J. J. Armstrong home were the Troy Lovetts, Clarence Smiths and Mrs. Juan Eskew.

Earl Servatius from Fritch visited in the home of his nephew, Robert Servatius recently.

John Lorenz, Johnnie Clark, Bill Hutto, E. J. Hodges, and Henry Johnke spent last week fishing at Falcon Lake.

Mr. and Mrs. Joe Nickenboine have moved to Friona where he has accepted employment. They formerly lived on the Robert Servatius farm. Miss Jeanine Campbell, who is employed in Ft. Sumner spent the weekend with her parents, Mr. and Mrs. Preston Campbell.

Mr. and Mrs. Weldon Dane and children visited in Whiteface with Mr. and Mrs. Charles McClure Saturday.

In the absence of Bro. Hugh Frazier Sunday, Rev. Earl Landtroop from Clovis brought the evening message.
 Miss Pauline Servatius spent

Sunday night visiting her grandmother, Mrs. Janie Anderson, in Anton.

Mrs. Lorado Servatius was in Bovina Friday morning to attend a coffee in honor of Mrs. Keith Huggins.

Mr. and Mrs. Jim McCulloch visited in the Hub community on Sunday with relatives and in the home of Mr. and Mrs. Murrah Stevenson in Bovina.

Sunday dinner guests in the home of Mr. and Mrs. Marion Walker, were Mr. and Mrs. George Davis from Clovis, also Gary Singleterry, Glennis and Wayne Fahsholtz.

Mrs. Auline Walker and Mrs. Noma McCulloch were hostesses in the Walker home on Wednesday for a pink and blue shower honoring Mrs. Bertha Kelley.

As guests arrived they were served white cake, decorated with pink booties and rosebuds with hot chocolate and coffee from a table laid with a white cloth and centered with a bouquet of pink roses; nut cups were made to resemble miniature diapers.

Mrs. Jim Owens from Bovina, mother of Mrs. Kelley, assisted in opening the gifts. Seventeen people attended and many sent gifts who were unable to attend.

(Crowded out last week)

Mr. and Mrs. Hubert Singleterry from Brownsville spent Saturday and Sunday visiting Mr. and Mrs. Gordon Smith. The group attended church at Pleasant Hill Baptist Church Sunday.

Mr. and Mrs. Amos Shockley visited in Roperville over the weekend with Mr. and Mrs. J. W. Shockley.

Mr. and Mrs. John Range spent Sunday in the Troy Lovett home.

Rev. and Mrs. Hugh Frazier and Tammie were Sunday dinner guests in the home of Mr. and Mrs. Weldon Dane.

Miss Pauline Servatius from ENMU spent the weekend with her parents, Mr. and Mrs. Robert Servatius.

Miss Myrtice Shockley spent the weekend in Clovis with her grandparents, Rev. and Mrs. C. C. Morgan.

Mr. and Mrs. Robert Servatius were in House Thursday assisting Mr. and Mrs. Clarence Anderson to move. The Andersons and Servatius have bought a 1200 acre farm there.

Walter Crocker, who has been ill for some time, is now a patient in the Veterans Hospital in Albuquerque.

Funeral services were held at Pleasant Hill Baptist Church on Friday for J. J. Armstrong.

Garage Burns On Matthews Place

Texico Fire department answered a call to the W. J. Matthews place south of town Wednesday afternoon where a garage was on fire. The garage had already burned when the department arrived.
 On the same afternoon they were called to a grass fire.

It was two days after the big stag party when two friends met.

"How did you get along after I left you the other night?" asked one. "Did you get home all right?"

"No," said the other. "A cop picked me up and I spent the night in the police station."

"You sure were lucky," said the first. "I got home."

Airman Smith Completes Training

SHEPPARD AFB, Tex.--Airman Second Class Billy D. Smith, son of Mr. and Mrs. Odom Smith of Farwell has completed the United States Air Force technical training course for communications center equipment specialists at Sheppard AFB, Tex.

Airman Smith studied the installation, repair and testing of electro teletypewriter and communications machines. He is being assigned to a permanent base for duty in his new technical specialty.

A graduate of Farwell High School, he entered the service in March 1961. His wife is the former Brenda Estes of Bovina.

SCHOOL MENU

Monday: Soup, crackers, cheese sandwiches, peanut butter and crackers, fruit rolls, milk.
 Tuesday: Bar-b-que on bun, pork and beans, lettuce and tomato salad, chocolate pudding, milk.
 Wednesday: Turkey and dressing, giblet gravy, creamed peas, cranberry sauce, pumpkin pie, bread, milk.
 Thursday: Hamburgers, potato chips, cheese slices, apple sauce cake, milk.
 Friday: Fish sticks, tartar sauce, scalloped potatoes, creamed asparagus, hot rolls, butter, honey, milk.

Texico PTA To Meet Monday

Texico PTA will meet in regular session Monday, February 5, at 8 p.m. in the old gym.
 Rev. Robert Tomlinson will be guest speaker and John Spearman, president, is urging a large attendance.

JOTTIN'S
 By Jeanne

I was sorry to hear of the death of Mrs. Hattie Gerles last week, and although I did not know her well, I had a special feeling for her thoughtfulness. I have a letter from her, which I have saved for several years. It was written about the time I began writing this column, and was a brief note commenting on something I had written and encouraging me in my efforts.

It was a lift I needed and I've often thought of her.

One of her dear friends and neighbors, Mrs. W. F. Markham, wrote a tribute to her friend, and I asked the family if I could use the poem in this column.

Friends I know, will wish to share her thoughts.

To A Dear Friend
 By Mrs. W. F. Markham
 When we come to the end of life's journey,
 Where the last weary mile has been trod,
 And we enter that beautiful City,
 Whose builder and maker is God.

There the trials of the road will seem nothing,
 And all things we'll then understand,
 Our heartaches and trials be forgotten,
 When we enter the Promised Land.

The Saviour will be there to welcome,
 With the loved ones who've gone on before,
 And we'll join the glad hallelujah,
 With them on the other shore.

Red Diamond Wheat Pasture NEUTRALIZER
 Red Diamond Wheat Pasture Neutralizer as its name implies is a wheat pasture frothy bloat neutralizer. This is partially due to the presence of Mucin in the mineral. Mucin has been known for years as an anti-frothing (bloat) agent.
 Red Diamond Wheat Pasture Neutralizer should be fed free-choice on succulent pasture and hand fed to your chronic bloaters.
 Livestock will readily eat this crumbled aromatic mineral on first attempt but they will soon regulate their daily intake to approximately 1 oz. per head per day.

FORD'S 430 "BABY GIANT"
 Is Designed and Tested Specifically For Southwest Farmers
 N.E. Wood - Friona, Texas

Here Is What One Of Ford's Many Satisfied Farm Users Has To Say....
 "Having used the 430 Industrial for about six months, I have been well pleased with it. The performance has been good and there has been no excessive oil consumption. It has a great deal more power than other motors that I have used in this price range."
 Ford has designed and built the 430 "Baby Giant" for the Southwestern farming conditions. The test runs on this engine were made in this area under our adverse operating conditions before being offered for sale. Here is a quality-engineered engine that is dependable.
 FORD HAS MADE AVAILABLE ENGINES FOR IRRIGATION IN THE FOLLOWING CUBIC-INCH DISPLACEMENTS:

223 COMMERCIAL 6-CYLINDER	292 H. D. INDUSTRIAL 8-CYLINDER	332 H. D. INDUSTRIAL 8-CYLINDER
223 H. D. INDUSTRIAL 6-CYLINDER	262 H. D. INDUSTRIAL 6-CYLINDER	390 AUTOMOTIVE 8-CYLINDER
534 HEAVY DUTY INDUSTRIAL 8-CYLINDER

Auxiliary Installs Officers

Officers for 1962 were installed at a meeting of the Texico Fireman's Auxiliary Monday night at the fire station with Mrs. Stanton Thigpen as hostess.

Mrs. Rada Winkles was re-elected president, and other officers installed were Margie Fought, vice-president; Pat Webb, secretary; Ruby Adams, treasurer; and Gladys Johnson, reporter and historian.

The president reported that \$33 was cleared from serving lunch at two recent farm sales. The group voted to donate \$10 to the Muscular Dystrophy Fund.

Refreshments of coffee, pops, nuts, mints and yellow cookies with brown icing were served from a table centered with a yellow and brown dried flower arrangement.

Attending were Mesdames Thigpen, Charleyrene Danforth, Ruby Adams, Pat Webb, Aileen Teel, Gladys Johnson, Rada Winkles and Bessie Lewis.

Mrs. Webb will be hostess to the group February 25.

YWA Installation At Baptist Church

The newly organized chapter of the YWA for Farwell Baptist girls held formal installation at the church on January 24, with the Bovina chapter in charge and Mrs. Glenn Lovett acting as installing officer.

Those installed include Vicki Moss, president; Carolyn Woodson, vice-president, and enrollment and social chairman; Sylvia Smith, secretary-treasurer; Reba Lesly, reporter and community mission chairman; Vicki Lovett, program chairman; Sherril Austin, mission study chairman; and Sherlene Martin, prayer chairman.

Refreshments were served and a short social hour was enjoyed by the girls and their mothers.

Club Appoints New Committees

Members of West Plains Garden club met Friday, January 26, in the home of Mrs. Dora Barber.

Meeting was called to order by the president, Charlene Farley, with roll call being answered by each member giving the title of a song naming a flower or a tree.

Two new committees were named for the year. Yearbook-Mesdames Mattie Grimsley, Louetta Kitten, Maude Pruitt, and Dora Barber; card and gift-Mesdames Helen Wyly, Ruth Bass, Elsie Forester and Gladys Hardage. Programs were approved for the year.

Light refreshments were served to Mesdames Ruth Bass, Elsie Forester, Mattie Grimsley, Charlene Farley, Louetta Kitten, and Gladys Hardage, members, and one visitor, Mrs. Bernice Ford, of Muleshoe.

Double Ring Ceremony Unites Marie Houston - Clyde Redwine

In a double-ring ceremony at First Baptist Church, Lazbuddie, on Saturday, January 20, Miss Kathleen Marie Houston became the bride of Clyde Ray Redwine. Rev. Bill Curry read the ceremony. Parents of the bride are Mr. and Mrs. Raymond Houston, Route 1, Friona, and the bridegroom's parents are Mr. and Mrs. J. C. Redwine of Bovina.

MR. AND MRS. CLYDE RAY REDWINE

An arrangement of pink carnations and a memory candle highlighted the church decor which featured five tiered candelabra interspersed with greenery and pompom mums of white with magenta colored centers. The choir rail and the baptistry were draped in white and the white prie-dieu was decorated with magenta colored bow.

Given in marriage by her father, the bride wore a formal gown of hand clipped Chantilly lace designed with a scalloped portrait neckline and long sleeves which tapered to petal points over her hands. The basic bodice complemented the dome skirt which was scalloped at the hemline. Handmade satin roses were tucked into the miniature bustle that held the full sweep chapel train. A satin cap topped with satin roses held her bouffant veil of silk illusion edged with a band of lace. She carried a triangular bouquet of white Frenched carnations and lilies of the valley with accents of satin, tulle and diamond dust.

Something old was a lace handkerchief, a gift from Mrs. Birdie Garrett; something new was a string of pearls, a gift from the groom; something borrowed was a white Bible belonging to Mrs. Jim Burgess; and something blue was a garter given her by Mrs. Ralph Cox. The bride also carried a penny minted the year of her birth in her shoe.

Mrs. Patsy Shankles of Portales was matron of honor. She carried a bouquet styled like that of the bride featuring white carnations and pinnichio roses with accents of magenta tulle and white satin leaves.

Miss Shirley Henry, Muleshoe, and Miss Linda Lesly, Friona, bridesmaids, carried colonial bouquets of white carnations and pinnichio roses accented with magenta tulle. Junior bridesmaids, Judy Jones of Slaton and Hazel Lesly of Friona, carried white tulle and satin muffs with garnet roses. Ring bearers were Beverly Johnson of Muleshoe and Kim McDonald of Friona. They carried white heart-shaped pillows.

All the bride's attendants wore dresses of magenta angel skin satin styled similar to the bride's gown. Hats of magenta marquisette with large satin roses accented the ensembles.

Best man was Derrell Jennings, Muleshoe, and groomsmen were Harrol and Carrol Redwine, brothers of the bridegroom from Bovina. Steve Jones of Slaton and Bobby Redwine of Muleshoe were junior groomsmen. Eugene Houston, brother of the bride, and Harrol and Carrol Redwine were ushers. Mrs. Ronnie Briggs registered wedding guests and Mrs. Jim Burgess provided wedding music. Candle lighter was Eugene

Houston. Mrs. Wayne Moore sang "Eternally" and Miss Judy Jones sang "Whither Thou Goest." While the couple knelt at the prie-dieu, Mrs. Moore sang "The Wedding Prayer." The couple lit a candle together to signify "oneness."

The bride's mother was dressed in pearl gray with purple accessories and wore a corsage of purple gardenias. The groom's mother wore a beige dress with brown accessories and a corsage of brown gardenias.

Karen Johnson registered guests at the reception in the church hall which was decorated throughout in white and magenta. Forming the setting for the bride's table were four large wedding bells hung with white streamers. The table was covered with a white cloth over magenta.

A center scallop in the cloth was decorated with a nosegay of magenta leaves, lilies-of-the-valley and wedding bells tied with white streamers. Centering the table was the all-white tiered cake which was baked by Mrs. Russell Buhrman of Muleshoe. Magenta punch was served from a crystal punch service and white napkins bearing the names "Marie and Clyde" were used.

The groom's table was covered with a beige cloth over brown. The cloth was handmade by the bridegroom's grandmother, Mrs. John Counts, of Tucumcari. German Chocolate cake, coffee, nuts and mints were served. The groom's cake

was baked by his mother. Serving the guests were Mesdames Wesley Barnes, Wayne Moore, Jim Burgess, Walter Steinbock, Sammy Cox, Eugene Redwine and Carrie Withrow. Mrs. Ronnie Briggs played musical selections during the reception.

For a wedding trip to Arizona the bride wore a gray wool suit complemented with a full length black coat and matching hat, made by Mrs. Glen Dunn, gray pearlized leather shoes and bag. She wore a corsage of silver gardenias with accents of white satin leaves, pearls and rhinestones.

The bride is a graduate of Lazbuddie High School and Draughn's Business College. She was employed for the past two years at Bailey County Electric Co-op. The groom is a graduate of the same high school and is engaged in farming near Bovina where they will make their home.

Out-of-town guest for the wedding were from Lubbock, Friona, Tucumcari, Portales, and Albuquerque.

The scientist removed one leg from a flea, then said, "Jump!" and the flea jumped. Scientist repeated leg removals one at a time and flea continued to jump right down to last leg. When that was removed, flea failed to jump, and scientist wrote in his notebook: "Obviously, fleas are hard of hearing."

Lutheran Church

Sunday, January 28, Rev. H. Sander of Little Valley, N.Y., was guest speaker at the morning service. He is retired and a brother of Rev. A. R. Sander. He has been visiting at the parsonage for the past week. He left on Monday to join his wife in Phoenix where they will visit a daughter. They will then go to Los Angeles to visit a son and sister before going back to St. Petersburg, Fla. From here they will go back to Little Valley.

Last Sunday members of Walter League attended Fall Rally at Lamesa.

Mrs. Fred Ramm, president, Mrs. Ernest Ramm, vice-president, and Mrs. Walter Kaltwasser, Christian growth chairman, attended the executive board meeting at Littlefield.

On Tuesday members of the LWML visited Mrs. Anna Schroeder who is in Knight Rest Home at Amherst.

Thursday LWML met for a regular meeting with Mrs. Walter Kreigel and Mrs. Ben Kube, hostesses. Program was given by Mrs. A. R. Sander whose topic was "Too Little for the Lamb."

Sunday, February 4, Sunday school will observe regular mission Sunday with Mrs. Walter Kaltwasser giving the mission story.

Holy Communion will be observed Sunday at the morning service.

February 7, Sunday school teachers training class will meet.

Club Hears Talk On Poll Tax

Members of the Lazbuddie HD Club heard a talk on "Your Poll Tax and You" by Mrs. Demp Foster when they met Thursday, January 25, in the home of Mrs. Dean Powell.

In her talk, Mrs. Foster emphasized the use of the poll tax money and the history of the poll tax. Mrs. Everett McBroom discussed voting in Farmer County, presenting figures of past elections, and listed the offices and names of candidates who have filed for election this year.

Miss Ettie Musil will present a program on "Pruning Trees and Shrubs" at the next meeting on February 19 in the home of Mrs. Harvey Blackstone.

Cake and coffee was served to Mesdames Scotty Windham, Albert Clark, Roy Miller, Raymond McGehee, Joe Briggs, Everett McBroom, Demp Foster and one guest, Mrs. Gene Stepp.

Combs Home Is Party Scene

Hosting a surprise birthday party at the home of Mrs. Elward Combs in Texico Monday evening was Mrs. Combs and Mrs. Joe Camp. Honoree was Mrs. Fred Danforth.

Guests were served birthday cake, coffee or pops. The honoree opened the many nice gifts.

Present were Mrs. Jimmie Allman, Mrs. Avis Patterson, Mrs. LeRoy Faville, Mrs. C. H. Webb, Mrs. Gerald Wilkinson, Mrs. Russell Johnson, the honoree and hostesses. Unable to attend and sending gifts were Mrs. John Adams, Mrs. Perry Winkles, Mrs. F. S. Thigpen, and Mrs. Inez Stone, Farwell.

Hospital Notes

Mrs. Pete DeFries was admitted to Clovis Memorial Hospital Monday as an accident patient. She is being held for observation.

Ray DeFries is an accident patient at Memorial Hospital. John Lockhart is in fair condition at Clovis Memorial hospital, where he is receiving medical attention.

Mrs. Louella Murkick of Texico is in good condition at Memorial hospital. She was admitted Tuesday.

Mrs. Mary Guyer is in good condition at Farmer County Community hospital in Friona. Leon Kelley of Texico was dismissed from Memorial hospital Tuesday.

Mrs. Lavon Jones was dismissed from Farmer County Community hospital Tuesday.

Friends Invited To Baby Shower

Mrs. Jerry (Anita) Henson will be honoree at a lullaby shower Tuesday, February 6 at Texico Woman's Club building.

Friends are invited to call between the hours of 4:30 and 6 p.m.

Hostesses for the affair are Mesdames John Getz, Buck Doran, John Lockhart, W. H. Graham Jr. and Anson Bowers.

Texico Students To Be In "Swanee"

Three former Texico students, now enrolled at Eastern, will be taking part in "Swanee," a musical production, next Wednesday, Thursday, Friday and Saturday on the campus and in Clovis, Monday, February 12.

D' Rene Danforth will be in an acrobatic dance, a tap dance routine and a twirling act.

Patricia Patterson and Kenneth Murdick will sing in numerous songs.

They are members of the Choralairs, a small vocal group, and Patricia is in Choir.

MEMORIES OF SUMMER

P.C.A. Official Predicts Excellent Year In '62

An excellent outlook for agricultural credit in 1962 for an eight-county area of the High Plains has been forecast by an official of the Plainview Production Credit Association, in a report of 1961 activities of the agricultural credit organization, made this week.

"Credit outlook for 1962 is excellent," Olan Alexander, general manager of the Plainview Production Credit Association, stated. "Our farm-ers in this area made one of the best crops in history and are in the best financial position they have been in a long time."

Alexander said that most of them are investing profits in land and new equipment and ex-

panding their farming operations.

"We are expecting to loan between forty and forty-five million dollars during 1962," he said.

The Plainview Production Credit Association, the nation's largest in loan volume, had one of its brightest years in 1961. Loan volume totalled \$37,000,000 which was then an all-time record for the association.

Number of loans increased from 1,585 in 1960 to 1,589 in 1961. Association stockholders increased from 1,685 in 1960 to 1,742 in 1961.

The association has loaned \$206,912,900 to area farmers and ranchers in its 28-year history.

The home-owned and operated Plainview Production Credit Association provides short and intermediate-term agricultural credit in Parmer, Castro, Swisher, Briscoe, Bailey, Lamb, Hale and Floyd counties, Alexander pointed out that the \$37,000,000 in loans made by the association in 1961 represents new money put into circulation in the area, providing a healthy boost to the area's economy.

County 4-H Council Has Saturday Meet

Meeting Saturday in Farwell were members of the Parmer County 4-H Club Council.

Announcement was made that the county demonstration contest will be in the district court room March 31 starting at 9 a. m.

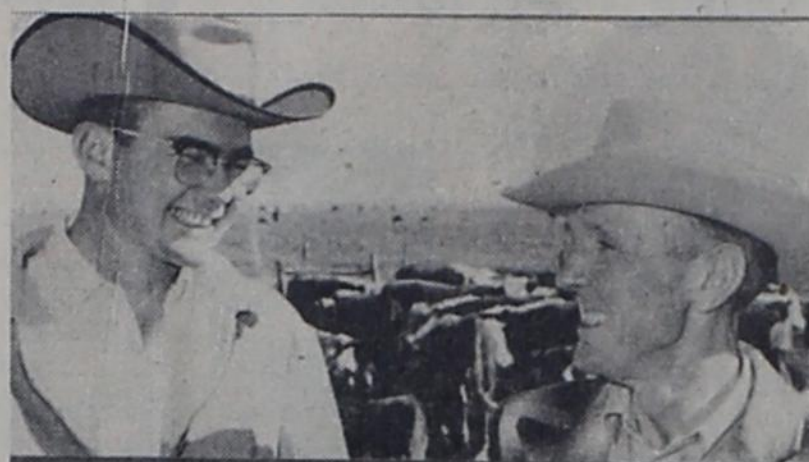

A bake show will be conducted the third Saturday in April. Boys interested may enter the baking contest. Members of the Farwell chapter are to enter two - crust pies and sweet milk biscuits in the contest.

The group agreed to take donations for the March of Dimes and to pay for two clippers and a tack box out of the council treasury.

4-H Clubs in the county will also sell new subscriptions and renewals to all the county newspapers.

Members present were Gary Foster, Darrel Foster, Reba Lesly, Bruce Billingsley, Bobby Tomlinson and Glenda Bass.

THE HIGH PLAINS FARM AND HOME

Silver Mischief 171st, son of one of the Hereford Breed's most outstanding herd sires, Real Silver Domino 181st, was purchased jointly by McCrackin and Son of Bovina and Elmer Langford and Son of Pleasant Hill on Dec. 11. Jack McCracken (L) and Elmer Langford are pictured in the inset above. The bull was one of 65 offered at the Bridwell Hereford Ranch production sale near Wichita Falls which averaged \$3,050 each. The price paid for Silver Mischief 171 is reported to

have been well above the average. At about 13 months of age, 'The 171st' weighed 1,175 pounds. He is light colored, exceptionally thick and stands on straight legs. Outstanding cattlemen from many areas pointed to the McCracken-Langford bull as one of the better herd bull prospects offered in 1961. His time will be divided between the two breeders in six month periods.

WITH THE COUNTY AGENT

DERYL COKER

Cotton Support Price Announced

Price support levels for 1962 crops of cotton has been announced by Secretary of Agriculture Orville L. Freeman.

The minimum national average support price for upland cotton will be 31.88 cents per pound, gross weight, the same as last year. This reflects approximately 82 per cent of the current parity price. For extra long staple cotton, the price will be 53.17 cents per pound, net weight, and 65 per cent of current parity price.

In the event the minimum level of support for upland or extra long staple as required by law on the basis of parity as of the beginning of the marketing year is higher than the level announced, the level of support will be increased accordingly, the secretary said.

Off-flavor in reconstituted nonfat dry milk can come from water. Scientists of the Texas Agricultural Experiment Station point out that water may be safe to drink but of a type which can cause off-flavor in the reconstituted milk.

Last week I stopped by Jack McCracken's place and caught him feeding cattle. While I was there, I looked at his new herd sire that Jack obtained from the Bridwell Ranch. Jack had been bragging about him, and after I looked, I knew why. He sure is a good calf, about 14 months old and weighs around 1100 lbs. He is of the right type and will be a big asset to the county.

Wilbur Kalbas was in last week with some alfalfa wafers. Wilbur is thinking about putting all of his alfalfa in wafers instead of baling, which is normal. On one analysis that Wilbur had looked at protein had been raised as much as 4 per cent, which is a great deal. Wilbur also said it would cut down on labor, which will be a big advantage. This could be a new wrinkle in feeding cattle.

The A&M College has developed some new varieties of grain sorghum. They are called the 3x4 dwarf hybrids and could mean a new revolution in grain sorghum production. There are

some 8 to 10 of these 3x4 dwarf hybrids which have produced as much or more than RS 610. They seem to stand much better than any hybrids grown in the past and they are resistant to head smut. From the information available on these dwarf hybrids, the college considers that this development could be a major breakthrough in sorghum improvement. They also know there will be disadvantages such as difficulty in production by the seed grower, and some of them may be difficult to thresh. There may be a small amount of seed available for a variety test.

Don't forget the County Livestock Meeting on February 1, at 1:30 p.m. at the Hub Community Center. Anyone who has any livestock will be interested in the information presented at this program. Three subject matter areas will be covered. They are as follows: 1. Market Cattle Testing 2. Arizona and California Feeding 3. Southwest Animal Health Research Foundation.

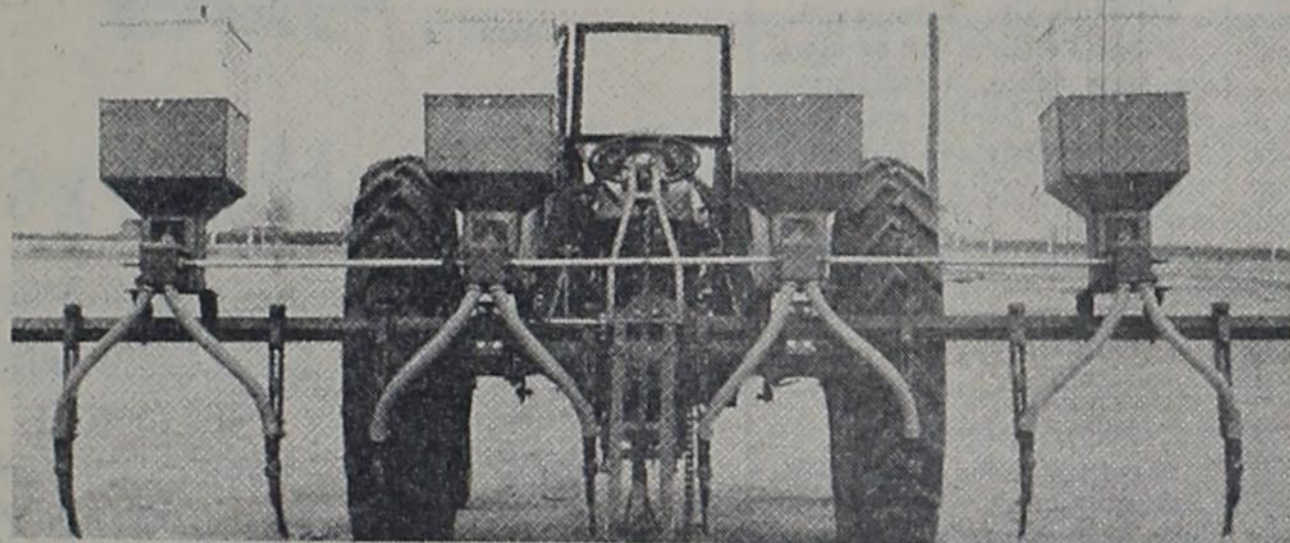

LCC President Leads Revival In Friona

The 6th Street Church of Christ will conduct a gospel meeting from February 4th through 11th. Services each week - day at 8:45 a.m. and 8:00 p.m. Dr. F. W. Mattox will be the guest evangelist.

Dr. Mattox is president of Lubbock Christian College, and prior to that was on the faculty of Harding College, Searcy, Arkansas for 14 years. He serves as one of the elders of the Greenlawn Church of Christ in Lubbock, Texas. Brother Mattox is well known throughout the great plains area for his ability as a gospel preacher.

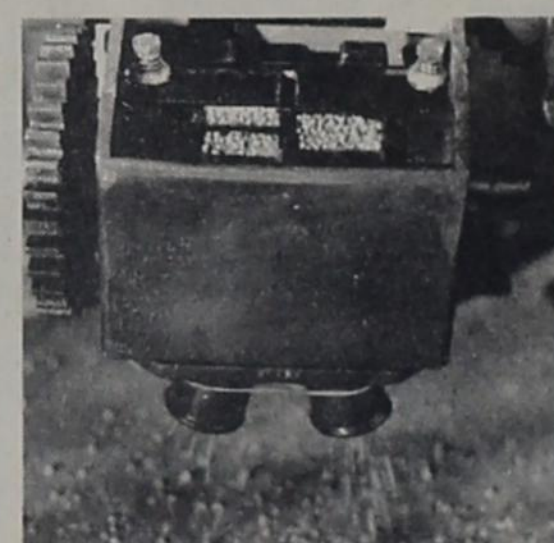

A very cordial invitation is extended to everyone in this community to come and enjoy the gospel of Christ presented in the spirit of Christ.

HD Agent's Notes

BY MISS ETTIE MUSIL

We attended a most interesting training last week on "Sociological and Psychological Effects of Clothing." In other words why do we choose the clothing that we wear each morning?

Dr. Sam Schulman, Associate Professor in the Department of Sociology of Texas Tech, mentioned that we choose clothing for comfort, eye appeal, protection, as well as for our culture. Not only do we choose clothing and colors that we like but also for our friends and people around us.

This is how fashion of clothing is begun for women as well as men. People of status influence fashion. Then if others desire the change and accept the need for this fashion it becomes acceptable in society. Many fashion influences are only fads. Fads come in, involve the people, and pass on as short-lived. However, true fashion may become a tradition of our folkways. Dr. Schulman mentioned men's ties becoming a tradition when at first they were thought to be a fad or temporary accessories.

We wear different clothing in following rules and regulations of our culture. Past experiences and family cultures also influence our choice of clothing. Did you ever think that women are responsible for color in clothing? At least this was the feeling of Dr. Bill C. Lockhart, Professor and Head of the Department of Applied Arts of Texas Tech. Women have influenced the colors of men's clothing, too.

Dr. Lockhart stated that color taste is developed, not inherited. I know I've heard it said that one girl would have good taste in color of her wardrobe because her mother always chose attractive clothes. Maybe this mother taught her daughter and helped her develop this sense of color taste.

We need to wear colors of clothes to set the mood of our feelings. If you wish others around you to feel gay, then you can wear gay colors to set the mood. Of course, you should wear colors that make you feel comfortable.

Color affects our moods and personalities. Dr. Lockhart stressed that we should choose color for what it can do for us, not for what we can do for the color. He changed his neckties to show how his personality and mood seemed to change as he changed from green, blue, black, designed brown, orange and red.

Color of clothes are very important for job seekers. When you are applying for a job, be careful of the color of clothes you choose when getting ready for an interview. Bright, bold colors may not show your true personality to your future employer. Green, blue, or brown may be better colors with small areas of brighter colors as accessories to wear for job interviews.

Extension Service work proved to be successful in Farmer County in 1961. At the close of the year county extension agent Miss Ettie Musil submitted an impressive list of accomplishments in her annual report for 1961.

In order to fulfill the objectives and goals for the year Miss Musil worked 263 days, devoting 131 days to adult work and 132 days to 4-H Club work. These days included work done in extension organization and program planning house and surroundings, furnishings and equipment, home management, clothing, health, family life, child development, community development, and family economics.

Feed Grain Sign-Up Period Announced

Producers who wish to comply with the 1962 feed grain program will sign up between February 5 and March 30, reports C. H. Bates, extension farm management specialist.

Provisions of the 1962 program are very similar to those for 1961. One change is that idle and fallow land for the years 1959 and 1960 will be considered in the soil conserving base for farms. This will give less flexibility in the use of land diverted from feed grains, explains Bates.

Payment rates for diverted acres will be in line with those for 1961 because support prices for feed grains have been set at identical levels. The rates are again based on the normal production of the farm times the county support rate. The minimum acreage reduction (from the 1959 - 60 base) is 20 percent, which will earn a payment based on 50 percent of the local support price. For diversion of between 20 and 40 percent the payment will be figured at 60 percent of the local support price.

Feed Grain Sign-Up Period Announced

Producers who wish to comply with the 1962 feed grain program will sign up between February 5 and March 30, reports C. H. Bates, extension farm management specialist.

NEWS FROM THE

FARM BUREAU

BY RAYMOND EULER

Again, we hope that by the time you read this, Texas law will allow farmers to appeal natural gas rates before the Railroad Commission. It also appears that several farmers, who have been in Austin for the first time during a legislative session know that it is not always safe to assume that the person elected to represent them can take care of things without advice and support from the people back home.

Farm Bureau, on the above subject, and many others in the past, has urged people to see the importance of wiring, calling or writing their representatives to support or oppose pending legislation. The gas users association has worked locally getting individual support, and we hope they will be successful. Senator Andy Rogers is sticking by his guns with our people on this one, and deserves commendation for his hard work.

Farm to Market road funds were put under a safety provision by SB 1 early in this special session. This bill, among other things, provides that such funds will remain in Farm to Market road designation even if future governors veto current use of money for new construction. Farm to Market roads have been babies of Farm Bureau from their inception to the present time.

Here is a quote from Bill Wedemeyer, Director Research and Promotion for IFB in Facts for You: "Extension Service and Political Solutions -- Secretary of Agriculture Freeman has stated to the world in a Washington speech that the extension service can no longer hope to avoid educational activities in the field of political solutions to the farm problem. County Farm Bureau leaders will want to have a very definite understanding with local extension agents regarding this most important announcement."

We know of one specific case, and there are surely many similar ones, in which a college boy is having to stay home and help his father farm because of new rulings on the use of Braceros. Let us hope that there is a reversal of some of these insensible rulings that only hurt the employer, the Bracero and his family and the United States and Mexico.

CONSIDER THIS: Apply thine heart unto instruction, and thine ears to the words of knowledge. Proverbs 23:12

Cooperating farmers will be eligible for price supports on their 1962 crops of corn, grain sorghum, barley, oats and rye, subject to the base yield limitations, Bates continues. Also, they are permitted to draw one-half of their total diversion payment at the time of their sign-up.

Non-cooperating producers will not be eligible for price supports on feed grains, but they will receive the market price for them. Since no acreage will be diverted they will not receive payment for any additional conservation use.

Grain producers should study carefully their individual alternatives in these programs. Decisions should rest on the estimated outcome for each operator, based on the goals he is seeking, says Bates. Producers having questions about the effects of varying levels of compliance on their 1962 operations should contact their local County ASCS office manager or their local county agent.

HD Council Meets Monday

All eight county clubs were represented when the Farmer County Home Demonstration Council met January 22, with Phyllis Sanders, chairman, presiding. Present were 13 members and four visitors. Each club was asked to bring THDA contributions to the council meeting in February--25¢ per member. The money is used for a 4-H girl scholarship.

\$400 MONTHLY SPARE TIME Refilling and collecting money from New Type high quality coin operated dispensers in this area. No selling. To qualify you must have car, references, \$600 to \$1900 cash. Seven to twelve hours weekly can net up to \$400 monthly. More full time. For personal interview write P.O. Box 2753, Boise, Idaho. Include phone.

Revision Asked In Standards For Grain Sorghums

Because of the change in character of the grain sorghum crop due to the adoption of new varieties, the U. S. Department of Agriculture has announced a proposal to revise the Official Grain Standards of the United States for grain sorghum.

The proposed changes include the elimination of the class Red Grain Sorghums and all the subclasses in the classes of Yellow Grain and White Grain Sorghums. Since the new varieties and hybrids are heavier than the old ones, it is proposed that the test weight per bushel be raised from 55 to 58 pounds for No. 1, from 53 to 56 for No. 2, from 51 to 54 for No. 3 and from 49 to 51 for No. 4.

Also, in order to provide for better keeping quality, a proposal has been made to lower moisture content from 14 to 13 percent for No. 1, from 15 to 14 for No. 2 and from 16 to 15 for No. 3. It is also proposed to eliminate dockage and substitute a factor for fine foreign materials in the grade table. Alternative proposals provide for dockage as now applied and

a special grade "Tough" instead of moisture as a grading factor. Informal public hearings to consider these proposals have been scheduled for Lubbock on January 29 at 1:30 p.m. in the MacKenzie Terrace, 407 E. Broadway and January 31 at 9:30 a.m., Continental Hotel, Kansas City, Missouri.

Interested persons may also submit written data, views or arguments to the Director, Grain Division, Agricultural Marketing Service, U. S. Department of Agriculture, Washington, D. C., not later than February 15, 1962.

The proposals are scheduled to appear in the January 13 Federal Register. Copies will be available from the AMS Grain Division.

Training meetings for local leaders is most important in extension work. To help the people develop more leadership in their communities 28 training sessions were conducted with 342 adults attending. Likewise, leadership training is important to the youth in the county. Eighteen trainings were conducted by the home demonstration agent for 4-H leaders and 4-H members with 131 attending.

A total of 206 other meetings were held with 2253 attending. These meetings included home demonstration clubs, civic clubs, district and state meetings, and general educational meetings. To assist in the teaching and activities of 4-H Club work the agent held or participated in 163 meetings with a total of 6458 4-H members and parents attending.

Of course, it is important for the trained leaders in adult work to conduct meetings for which they were trained. Fifty-nine meetings were held by the leaders with 578 homemakers attending. Four-H adult leaders conducted 32 meetings with 214 4-H members and parents attending.

Many results of programs conducted in the county were an inspiration of the hardworking people in the county. To learn of the many results and accomplishments following the programs the home demonstration agent sent questionnaires to all HD Club members and many other homemakers attending these programs. According to the questionnaires returned to the agent many results were reported.

As results of a "One Dish Meals" program conducted in May a total of 81 homemakers attended the programs in their clubs. This program stressed the convenience of planning one dish meals to save time and energy in preparing them. One dish meals are ideal to use left overs as planned-overs. One dish meals recipes were provided to all homemakers with a result of these recipes being used 531 times.

In April a program "Freezing Vegetables and Freezer Meals" was presented by the HD agent to 92 homemakers in planning freezer meals for emergencies and convenience. Packages of vegetables were dipped into lukewarm water to force air out of the packages to make them moisture, vapor proof. Vegetables must be blanched before freezing to stop the growth of enzymes in the vegetables which discolor and change texture and taste after a period of time. A total of 51 homemakers froze freezer meals following the training. Fifty-two other homemakers were taught.

The housing committee of the County Program Building Committee planned to show homemakers ways of using electric appliances to their best advantage. The HD agent trained 13 leaders who presented a program how to select, use, and care for small electrical appliances. These 13 leaders taught 89 homemakers in their respective clubs. An apple dessert was prepared in the electric skillet to show how other foods besides fried foods could be prepared. A total of 37 homemakers have used the training. They taught 48 other homemakers, and have used 103 of the recipes provided.

As requested by the home demonstration clubs the agent trained 13 leaders to present programs on "Congealed Salads and Fruit Salads." These leaders taught 76 homemakers in the clubs stressing nutritive value of fruit and vegetables in these salads. A total of 183 recipes were used in the bulletin "Salads". The homemakers taught 72 other homemakers short cuts in salad making. Following this training 45 different salads were made and served at the annual county-wide salad luncheon.

All homemakers were very busy last spring and summer preserving fruits, vegetables, and meats for the winter months. A total of 8024 pints of fruits and vegetables were canned from reports received in the office. 825 pints of pickles, relishes, jams, jel-

lies and preserves were canned. 6466 pints of fruits and vegetables were frozen. A total of 12,308 pounds of meat, fish, and poultry were frozen. 5514 pounds of vegetables and 785 pounds of nuts were stored.

In the 4H Clubs 57 club girls were trained how to plan "after school snacks" to be a part of the daily food needs. Too many school snacks are made up of carbonated beverages and sweets rather than tasty nutrition. Fifty girls reported having prepared more nutritive snacks according to recipes provided them.

The agent trained 140 girls and adult leaders how to present a foods demonstration. As results of the training much interest was created in the junior division age group in taking part in the county method demonstration contest and in presenting demonstrations during club programs.

In preparation for a county bake show in July the agent trained 98 girls and adult leaders in baking cinnamon rolls. Another training series included 117 4-H girls, adult leaders, and mothers in baking muffins. Thirty 4-H girls took part in the county 4-H bake show. Linda Gleason had the highest score for the county and represented the county in the District Bake Show during the Tri-State Fair.

Twelve 4-H adult leaders were trained to teach Favorite Foods, Unit 1 as 4-H subject matter groups. At least one leader from each of the six girls' clubs attended the training. Three leaders have completed the first four lessons of the Unit 1. More training will be conducted in 1962.

One of the long range objectives of the Clothing Committee was to keep up with new fabrics and finishes. One hundred and eight homemakers of 8 HD Clubs were convinced that the average homemaker cannot tell the fiber content of the garment just by feeling

of it. As result of a program presented by the HD Agent 61 homemakers reported being more conscious of fabrics and finishes on fabrics and ready made garments. Special features discussed included wrinkle and soil resistant finish, water repellent, drip dry, crease and color retention, and sanforized finishes. These homemakers taught 93 other homemakers.

A basic clothing construction workshop was conducted by the HD Agent in April and May. A total of 18 leaders were trained by the agent. Forty-six ladies were trained by the leaders in club and community workshops. A total of 247 garments were made by the trained homemakers with a savings of \$700. A good grooming class was taught following the workshop with 67 homemakers learning and then teaching others.

In a special request by the Friona Antique Club the HD Agent conducted a refinishing furniture workshop to 22 club members and visitors. As results of this workshop the club members refinished 15 pieces of furniture with a savings of \$600.

To meet the needs and interests of the HD Clubs on "Fallout Shelters" as planned by the yearbook committee of the clubs in the county, the HD Agent trained 12 leaders who presented the program to 77 homemakers in their clubs. Different fallout shelters were discussed or seen. An adequate food supply for two weeks was demonstrated in the programs.

"We can only measure the direct contacts we have with the people in office calls or in club meetings. We can never completely measure the indirect contacts made through newspaper, radio and television and transfer of information as taught others by our direct contacts," Miss Musil said in summarizing the year's activities.

Farmers and businessmen from Parmer and other plains counties filled the legislative galleries in Austin during the past few weeks. In an effort to gain passage of gas legislation which would place the sale of gas for irrigation purposes under the jurisdiction of the Railroad Commission. The picture above was taken last week of the Parmer County delegation. Shown here are W. T. Magness, T. F. Taylor, Keith Brock, Billy Carthel, Charles Hough, Loyd Messen-

ger, Ernest Kube, Carl Schlenker, Harry Hamilton, A. W. Anthony Jr., Bruce Parr, Gene Welch, Vernon Symcox and Travis Stone. An amendment was added to the original bill in the House and caused the bill to be returned to the Senate for re-approval. Early this week, the delegates were trying to settle differences with North Plains interests which were opposing passage of the bill.

Discovery May Aid Screwworm Fight

A recent discovery may prove of great value in future efforts to control or eradicate a very expensive livestock parasite, the screwworm. The discovery was a black screwworm fly. Normally, the flies are blue-green.

The first black screwworm fly was found by Dr. Leo E. LaChance, insect geneticist of

the USDA's Agricultural Research Service at Kerrville, in a laboratory colony obtained from Orlando, Florida. Since these flies had not been irradiated, the black one is believed to be the result of a naturally occurring mutation. Several generations of the black screwworm fly have been produced by LaChance and his associates.

curate identification. An easily distinguishable marker, such as the black color, could eliminate this problem and speed progress in future eradication programs.

The ARS entomologists are now conducting studies to determine how the genetically marked flies compare with wild flies in mating activity, longevity, and flight range. If the black screwworm flies prove biologically successful, they will provide a valuable new tool for use both in entomological research and in control and eradication efforts.

This discovery could mean much to the program now getting underway in Texas under the sponsorship of the Southwest Animal Health Research Foundation.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL * OUR STRENGTH

About three weeks ago the supervisors of the Parmer County Soil Conservation District mailed second requests to some of the land owners in the Running Water and Catfish Draw. They would like to have that information as soon as possible, for this reason. The Hale County Soil Conservation District has made application for a Watershed and Flood Detention Project on Running Water Draw. The soil conservation districts along the watershed have agreed to co-sponsor the application along with the Hale County District. Therefore, they need the information on the amount of damage received from flooding that only the landowners and operators can give.

Should investigation prove that the benefits of such a project would out-weigh the costs, a series of floodwater retarding structures will be installed so as to control the flooding that has occurred from time to time in past years. Of course, all this depends upon whether the preliminary investigation shows it to be a feasible project.

All studies, state, federal and private, point to the next 10 to 15 years as being crucial in the development of the state's water resources to meet our needs. This will require intelligent and informed leadership in every community in Texas. The future of Texas and every Texan rests on what is done about water in the next decade. -- TEXAS WATER, December 1961.

FOOTSAVING EDUCATION

by James E. Edwards

The Foot Has Many Shapes-The Shoe Only One

Stop a moment to consider this. It's really a staggering thought. Few shoemen and doctors realize it, and even fewer consumers. Yet, when you stop to think about it, several things happen. We instantly get a new appreciation of shoes. We realize more than ever the importance of fitted shoes, of proper lasts, of fine shoemaking, of quality materials. And perhaps the most significant thing that emerges is the firm conviction that shoes are far more than a foot-covering... but instead are truly a masterpiece of engineering. (Cont.)

EXTENSION AGENT'S REPORT ON--

Farming And Fallout

(This is the fifth in the series of questions and answers on civil defense compiled by Miss Ettie Musil and Deryl Coker, County Extension Agents)

Last week we talked about how radioactivity would effect livestock. This is a followup on land and crops which is important to both humans and livestock.

We hope that this series of news articles have been a help to you in understanding problems related to nuclear attack. QUESTION: What are the main consequences of heavy concentration of fallout on crop and pasture lands?

ANSWER: 1. Farm workers may not be able to manage and cultivate land safely for some time because of radiation hazard.

2. It may not be advisable to permit animals to graze because of the danger of internal and external radiation.

3. Radioactive materials that are deposited on the edible portions of plants or absorbed through the roots are a potential long-term hazard to human beings and animals.

Q: How long would fallout affect cultivated and noncultivated lands?

A: It would depend on the abundance and type of radioactive materials in a given area. Radioactive strontium—a long-lived material—could affect soils and plants for decades. Because it is chemically similar to calcium, it would be absorbed by all plants. Plants growing in soils deficient in calcium would absorb more radioactive strontium than those growing in soils abundant in calcium, other conditions being equal.

Q: Are there treatments for reducing the fallout hazard on land?
A: Yes. You can treat lands to reduce the fallout hazard after external radiation levels are low enough to go outdoors and work. Cultivation will further reduce external radiation levels. If circumstances warrant fallout can be completely removed from land, by scraping off a few inches of soil. If such drastic measures are resorted to, the scraped-off soil should be piled on unused land that drains away from your water supply. Other treatments include: Liming of strongly acid and moderately acid soils; leaching porous soils with water; and plowing deep the surface layer of the soil. It probably would be impossible to decontaminate rangelands and those croplands that are not very intensively used.

Q: Would fallout permanently affect pasture grass?
A: A heavy deposit of fallout would spread short-lived and long lived radioactive particles on the pasture. The existing growth would be affected by particles that have fallen on the exposed portions of the plants; succeeding growths, following grazing or mowing, would be affected internally from the long-lived radioactive materials absorbed from the soil. There probably would be no visible injury to the plants from the radiation.

Q: Could I ever use contaminated pasture grass?
A: If fallout is very light, the pasture would be usable immediately. If fallout is heavy, the existing growth should be removed as close to the ground as possible and discarded in an area that drains away from your water supply. On acid soils, lime before reseeding. An alternative is to allow livestock to graze on lightly contaminated pasture after a period of denial that varies from one to a few weeks, the length of time depending on the degree of contamination. Once it is safe to work the land, a periodic check on pasture and produce in affected areas will provide the best guide as to their use.

Q: Will fallout affect my system of farming?
A: It could. If your land is seriously contaminated, it may be necessary to change to non-food crops or to food crops that do not absorb large amounts of radioactive materials from the soil. Alfalfa, clover, soybeans, and leafy vegetables have a greater tendency to absorb long-lived radioactive strontium than cereal grains, corn, potatoes, and fruits.

Q: Would fallout reduce the economic productivity of crop and pasture lands?
A: Fallout might reduce such productivity in several ways: (1) Crop and soil management would be impeded because of the danger of external radiation; (2) crops would become contaminated and unmarketable; and (3) some lower-income crops that do not absorb large quantities of radioactive material from the soil would be substituted for higher-income crops that do.

Q: Could I use water in an exposed field?
A: Water in an exposed field would be contaminated; the hazard in using it would depend on the concentration of fallout.

Usually, there would be a prompt diffusion of the radioactive materials in the water, reducing the contamination at the surface. If the water were being constantly replenished from an uncontaminated source, radioactivity would be diluted rapidly.

Q: What are the effects of fallout on growing vegetables?
A: Growing vegetables that are exposed to heavy fallout may become highly radioactive. Leaves, pods, and fruits are immediately contaminated upon contact with the radioactive particles.

Roots and tubers absorb little contamination from fallout before it is mixed with the soil; therefore they should be eaten first in preference to any other foods. Underground vegetables that have come in contact with contaminated surface soil during harvest should be washed and tested for radioactivity before marketing. Many vegetables would be marketable, and none should be destroyed without testing for radioactivity.

Q: What are the effects of fallout on growing fruit, including green fruit and ripe fruit?
A: If fallout is heavy, ripe fruits may be lost because of

the personal hazard involved in harvesting them. Fruits that do not have to be picked immediately and are peeled before eating can be saved. They can be decontaminated by washing before marketing.

Orchard trees should be maintained, and the fruits examined for radioactivity before and after harvest.

Q: What effect would fallout have on alfalfa and other forage crops?
A: Existing growths of alfalfa and other forage crops might not be usable because of radiation hazard. Radioactivity would be less in subsequent growths. If a radiation survey indicates that the contamination level is high, the existing growth should be removed as close to the ground as possible and discarded, and only succeeding growths used after examination for radioactivity. It may be necessary to plow deep and reseed to grass. Application of lime may also be necessary if the soil is acid.

Q: Would fallout limit the use of plants for human food?
A: It depends on the extent of the radioactivity. Leafy vegetables, such as lettuce, should not be eaten unless they are thoroughly washed, and are known to be free of hazardous amounts of radioactive materials.

Q: What special precautions should be taken for workers in the fields?
A: Everyone should remain indoors until the danger from fallout has diminished.

When you are advised by local officials that it is safe to work outdoors, you may be asked to take certain precautions against collecting dust on your body, such as wearing boots, coat, hat, and gloves. If you work with livestock, touch them as little as possible; fallout may be on the backs.

A: Will the surplus grain stored by the Government be contaminated?
A: No, except for that stored in the open.

Q: Are foods canned in glass jars and metal cans safe to use?
A: Yes.

Q: How long can fruit and vegetables be left exposed and still be usable when peeled?
A: Since radiation has no effect on the fruit or vegetable themselves, they are usable just as under normal circumstances.

Q: How long will foliage be contaminated?
A: Until the contamination decays or is removed by rain or other means.

Tests conducted by the Texas Agricultural Experiment Station on the effects of cotton varieties on the performance of mechanical harvesters indicate the importance of selecting an adaptable variety if harvesting is to be done by machine. Copies of Progress Report 2209 are available from the Agricultural Information Office, College Station, Texas.

Q: What are the effects of fallout on growing fruit, including green fruit and ripe fruit?
A: If fallout is heavy, ripe fruits may be lost because of

the personal hazard involved in harvesting them. Fruits that do not have to be picked immediately and are peeled before eating can be saved. They can be decontaminated by washing before marketing.

Orchard trees should be maintained, and the fruits examined for radioactivity before and after harvest.

Q: What effect would fallout have on alfalfa and other forage crops?
A: Existing growths of alfalfa and other forage crops might not be usable because of radiation hazard. Radioactivity would be less in subsequent growths. If a radiation survey indicates that the contamination level is high, the existing growth should be removed as close to the ground as possible and discarded, and only succeeding growths used after examination for radioactivity. It may be necessary to plow deep and reseed to grass. Application of lime may also be necessary if the soil is acid.

Q: Would fallout limit the use of plants for human food?
A: It depends on the extent of the radioactivity. Leafy vegetables, such as lettuce, should not be eaten unless they are thoroughly washed, and are known to be free of hazardous amounts of radioactive materials.

Q: What special precautions should be taken for workers in the fields?
A: Everyone should remain indoors until the danger from fallout has diminished.

When you are advised by local officials that it is safe to work outdoors, you may be asked to take certain precautions against collecting dust on your body, such as wearing boots, coat, hat, and gloves. If you work with livestock, touch them as little as possible; fallout may be on the backs.

A: Will the surplus grain stored by the Government be contaminated?
A: No, except for that stored in the open.

Q: Are foods canned in glass jars and metal cans safe to use?
A: Yes.

Q: How long can fruit and vegetables be left exposed and still be usable when peeled?
A: Since radiation has no effect on the fruit or vegetable themselves, they are usable just as under normal circumstances.

Q: How long will foliage be contaminated?
A: Until the contamination decays or is removed by rain or other means.

Tests conducted by the Texas Agricultural Experiment Station on the effects of cotton varieties on the performance of mechanical harvesters indicate the importance of selecting an adaptable variety if harvesting is to be done by machine. Copies of Progress Report 2209 are available from the Agricultural Information Office, College Station, Texas.

Q: What are the effects of fallout on growing fruit, including green fruit and ripe fruit?
A: If fallout is heavy, ripe fruits may be lost because of

the personal hazard involved in harvesting them. Fruits that do not have to be picked immediately and are peeled before eating can be saved. They can be decontaminated by washing before marketing.

Orchard trees should be maintained, and the fruits examined for radioactivity before and after harvest.

Q: What effect would fallout have on alfalfa and other forage crops?
A: Existing growths of alfalfa and other forage crops might not be usable because of radiation hazard. Radioactivity would be less in subsequent growths. If a radiation survey indicates that the contamination level is high, the existing growth should be removed as close to the ground as possible and discarded, and only succeeding growths used after examination for radioactivity. It may be necessary to plow deep and reseed to grass. Application of lime may also be necessary if the soil is acid.

Q: Would fallout limit the use of plants for human food?
A: It depends on the extent of the radioactivity. Leafy vegetables, such as lettuce, should not be eaten unless they are thoroughly washed, and are known to be free of hazardous amounts of radioactive materials.

Q: What special precautions should be taken for workers in the fields?
A: Everyone should remain indoors until the danger from fallout has diminished.

When you are advised by local officials that it is safe to work outdoors, you may be asked to take certain precautions against collecting dust on your body, such as wearing boots, coat, hat, and gloves. If you work with livestock, touch them as little as possible; fallout may be on the backs.

The HAPPY HOMEMAKER

BY JUNE FLOYD

In spite of all the precautions taken by homemakers, it is almost impossible to keep spills and splatters off carpets, so it is important to know how to remove the most common ones.

Below are some methods which are recommended for removal of a few of those most likely to turn up in average households.

Oily and creamy substances: Use drycleaning fluid or absorbent cleaner.

Sugar and starch: Wipe spot repeatedly with cloth or sponge wrung out of clear water.

Milk: Sponge repeatedly with detergent solution, then with clear water.

Beverages: Use clear water or detergent solution.

Acid: (fruit juices, etc.): Blot up as soon as possible with damp cloth. Sponge several times with clear water. If spot remains, sponge lightly with solution of 1 tablespoon ammonia or baking soda in 1 quart water. Sponge again with clear water.

Blood stains: Sponge with cold water. If spot remains, use small amount of detergent and water and follow with clear water.

Nail polish: Blot up as much as possible, taking care not to spread the spot. Lacquer thinner or nail polish remover may remove spot.

Pet spot: Sponge urine spot thoroughly with clear water and blot quickly. Go over spot with detergent solution, then wipe with cloth dampened with clear water, blotting up excess. If spot has dried, saturate with solution of 1/2 cup white vinegar to 1 cup water and let stand a few minutes. Blot, and repeat until stain disappears. Then dry carpet as quickly as possible.

Next time you need a prepare ahead dish, try the following recipe:

- PRESSURE SAUCEPAN CHOP SUEY**
- 1 pound lean pork, cubed
 - 1 pound lean veal, cubed
 - 2 tablespoons olive oil
 - 2 cups sliced sweet onion
 - 2 cups cut celery
 - 1 tablespoon flour

- 1 teaspoon salt
 - 1/4 teaspoon pepper
 - 1 cup water
 - 4 ounces mushrooms
- Saute meat lightly in hot oil in pressure saucepan. Add onion and celery and saute. Stir in flour; add seasoning, water and mushrooms with their liquor.
- Seal and cook 10 minutes at 15 pounds pressure. Serve with cooked rice. If desired, chop suey may be placed in serving dish and kept hot while cooking rice (7 minutes) in pressure pan. Other meats may be used, as desired. Serve with soy sauce.

Wall Panel Developed For Farm Buildings

An experimental wall panel, made of a 2-inch layer of plastic sandwiched between half-inch layers of reinforced portland cement, has been developed by the USDA for use in constructing farm buildings.

These panels are light enough to be handled by two or three men and are cast with holes for bolting to wooden posts set 8 feet apart. No special tools or equipment are needed to erect a one-story building with the panels, the USDA says.

According to USDA scientists, an experimental panel building constructed at Beltsville, Md., nearly two years ago shows no signs of weathering. They estimate the panels will last more than 20 years.

Cost estimates indicate the panels are more expensive than concrete blocks for buildings of equal size. Total building costs would be comparable, however, because a panel building can be erected about four times faster than a block building.

The panels are suitable for milking parlors, chicken houses, barns and other enclosed livestock buildings where insulation is necessary. Tests simulating an animal falling or being pushed against the panels proved that the panels can with-

New Records Set For Hybrid Grain

Though Texas grain sorghum producers set an all-time high of 45 bushels or 2,520 pounds an acre in 1961, they still have a long way to go to match the 9,383.9 pounds an acre produced by Bill Cole, a Deaf Smith county 4-H boy. Cole's production was made under irrigation and won for him top honors in the 1961 Texas Hybrid Grain Sorghum Program.

His RS 610 was planted on June 19 after a preplant irrigation and at the rate of 10 pounds of seed an acre in 27-inch rows. It followed a cover crop of barley and received an application of 131-0-0 fertilizer as a side dressing. The crop was irrigated four times during the growing season.

The top dryland yield—a new record -- was posted by Fred D. Campbell of Birome, Hill county. The 8,004.3 pounds or just under 143 bushels an acre was also from RS 610. Campbell planted 7 pounds of seed an acre in 38-inch rows following a cover crop of peas. He applied 73-40-0 fertilizer before planting his State winning crop. It was planted on April 1.

The complete list of winners as released by Ben Spears, extension agronomist, shows six Tom Green county 4-H Club members taking the first five and seventh places.

Local Lions, Wives Attend Clovis Fete

R. A. Lipscomb, past international Lion director, from Odessa, was the featured speaker at the annual Founders and Rededication banquet of region 2, zone 1 of district 40x Lions International at Clovis Thursday night.
Lions and their wives from the Texico-Farwell Club, two

Commissioners Purchase New Road Grader

A bid of \$18,250 for a caterpillar motor grader submitted by the West Texas Equipment Company was accepted by Parmer County Commissioners at their meeting last week.

A Gallion grader will be rendered as a trade - in on the new grader, according to Loyde Brewer, county judge. Salaries of all county officials and employees were fixed at the present figures for the coming year. No raises or reductions were authorized by the commissioners.
The court also approved the investment of an additional \$900 of the county permanent school fund in United States Savings Bonds.
Payment of monthly bills was authorized and minutes from the preceding meeting were approved.

Clovis clubs, and the Portales club were on hand for the dinner at Sacred Heart Center.
Lipscomb told the 175 persons attending that the Lions should strive to create a monument of public service as a sign to all of the work of Lionism.
Joe Helton of the local club was master of ceremonies for the program. Entertainment was furnished by the "Moon-glows," swing band from Clovis High School. The group is directed by Norvil Howell.

Attending from Texico-Farwell were Messrs. and Mmes. Joe Helton, John Getz, Woodrow Lovelace, Paul Wurster, Elmer Teel, Lenton Pool, W. M. Roberts, James Ussery, Oris Huggins, Loyd Cain and Mr. Everett Prather.

Jury Called

A petit jury will be called in Parmer County for Feb. 26 for the purpose of hearing the trial of Gene Davis, alias George Evans, and Nellie Mae Thompson, officials report. The couple is charged with the slaying of Jesse Dawkins Dec. 8.

District Judge E. A. Bills will preside at the trial, according to present arrangements.
The pair was indicted by the County Grand Jury Jan. 18.

Semester Honor Roll Released at Texico

Honor roll for the first semester was released at the Texico school this past week. The senior class led the list with twelve students, including Beverly Cassidy, Betty Lockhart, Vicki Lovett, Beulah McDaniel, Donna Kay Osborn, Beth Peyton, Larry Richardson, Evie Thornton, Dwight Turner, Kit Doran, Mildred Hukill, Judy Lovett and Kenneth Chappel.

Eleventh graders on the list were Georgina Lambert, Jean Morris, Linda Palmateer, James Watts and Carol White.
Tenth grade: Wayne Hudnall, Terry Neice and Kathleen Smith.
Ninth Grade: Emmitt Autrey.

Linda Hadley, Cynthia Spence, Kathy White, Mike Spearman, Gwinette Lovett and Sarah Beth Walker.
Eighth grade: David Duncan, Terry Lovett, Veda Wilson, Gary Meier.
Seventh Grade: Keith Crooks, Pamela Roberts, Susan White.
To make the list a student must maintain a 3.5 (B-plus) average for a semester.

Farwell Juniors Set Chili Supper

A chili supper is planned by members of Farwell junior class tonight (Friday) from 5:30 until o'clock at the high school cafeteria.
The supper is set before the Hale Center-Farwell basketball game, and cost is 75¢ for adults and 50¢ for children.

Tax Collector Suffers Mild Heart Attack

Lee Thompson, county tax assessor-collector, suffered a mild heart attack Wednesday night and was admitted to the Parmer County Community Hospital early Thursday morning.
He was brought to the hospital in a Claborn Funeral Home ambulance shortly after 3:30 a. m.
He was in good condition and resting easy shortly before noon Thursday, according to the attending doctor.

Dualers Make Plans To Enter Car Show

The Farwell Dualers Club met Monday at the home of Orle Jones with nine members and one prospective member, Bobby Tomlinson, present.
Films were shown of area drag races and car shows. Members decided to enter the Amarillo Car Show on March 2, 3, and 4.
Members present were Mike Getz, Jackie Williams, Ray Hammonds, Ronnie Thomas, Jerry Herington, Mike Billington, Van Crume, Errol Johnson, and Orle Jones.

NO NEED FOR CONTINUOUS ADVERTISING?

TRAFFIC LIGHTS - Should be turned off at dangerous intersections to save electricity. Everyone knows it's a dangerous spot and that is sufficient.

TEACHERS - No need to review lessons. Tell the children just once and they'll never forget.

HIGHWAY POLICE -- Stop driving up and down the highways. No need to caution drivers by patrolling highways. Drivers know the law and should obey.

OUT OF TOWNERS - That advertise in the local paper and mail order firms that send catalogues are wasting their money. Everyone knows what is sold at stores in town and they'll shop at home.

BUT - If you are one of the foolish kind, like the Notre Dame Cathedral that has stood for six centuries but still rings the bell everyday just to let people know it is there, and believe in continuous advertising, then you will advertise in the . . .

THE STATE LINE TRIBUNE
