

The Big Spring Herald

BY T. E. JORDAN

BEYOND A YEAR IN COUNTY
\$150 YEAR OUTSIDE COUNTY

Entered as second class matter at the Postoffice, Big Spring, Texas, under Act of Congress, May 3, 1897.

Big Spring, Friday, April 13, 1928

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation, which may appear in the columns of this paper, will be gladly corrected upon its being brought to attention of the editor.

GETTING ON HOWARD COUNTY OIL FIELDS

New arrivals in our city from Amarillo and Tulsa, Oklahoma, are taking Howard County as the place where the biggest oil field in the world is going to be developed when the time is ripe. With four producing sands to bet on, independent oil operators declare present great opportunities than any field in the country.

It is also pointed out that the big companies have not been able to gable up the entire area, and there are going to be some lively times when oil is worth bringing to the surface.

It is also pointed out that there is not much danger of water trouble in the fields here.

They are picking Big Spring as an up and coming city when oil development sets in at a real pace. They contend however that it would be far better for Big Spring if this development comes slowly and steadily rather than in the shape of a boom. Big Spring folks are indeed fortunate to have such a large area of proven and semi-proven territory surrounding their city, in their verdict. Just slight-tight is their advice, the big development is sure to come.

A \$100,000 MISTAKE

The oil development is such a big proposition that most of us are not able to grasp the big prices being paid for leases. This caused us to make a mistake of \$100,000 in the last issue of the Herald.

According to the statement as published the J. S. Couden and Co. of land about fifteen miles southeast of Big Spring. The truth of the business is that J. S. Couden and Company are to pay \$20,000 for the 320 acre tract; or at the rate of \$1000 per acre. This is the South one half of section 124, in block 29, Waco and Northwestern survey.

The contract calls for \$10,000 in cash, \$150,000 cash when the title is approved and a further consideration of \$180,000 in oil; out of one fourth of the proceeds of revenues from the oil and gas produced from the above described lands if oil and gas is found in sufficient quantities thereon.

It is up to filling station proprietors to decide how long gasoline pumps are going to be permitted to be retained or installed on the curbs. If automobiles continue to block the sidewalks while being refilled; if grease is smeared over the sidewalk; if it is only a question of time until the citizenship demands the removal of curb gasoline. And they will have a right to demand their removal if some filling station owners continue to pay no heed to the request that the sidewalks be kept free for the use of pedestrians. One or two can make it hard for all engaged in the business.

We hope someone will suggest to Major Hawley, who is to make a survey of the water resources of our city—that the water supply indicated at the 700 foot depth by logs of several oil tests drilled in this territory, is worth investigating. Good shallow water would be worth a whole lot in our future plans.

Some folks may imagine they are the wisest birds in the woods and resent the attempts of others to inject a little horse sense into the expending of public money for the good of the entire community. Watch these too-wise birds, and you will find they sometimes make costly errors at the expense of the taxpayer.

If we are to be denied permission to plant cotton in 1919—it is up to us to begin to plan on other lines to make up for the loss of a cotton crop. We can raise plenty of food, so poultry raising, dairying, fattening hogs baby beaves and sheep will have to be considered. Securing good markets for these products is going to be our big job.

Of course you may think you can "get by" but it may turn out otherwise. If you fail to comply with the sterilization of cotton seed you may get not only your self but the entire county in a jam. Let's obey the regulations to the letter and have this pink bollworm business banished from our county at the earliest possible date.

If we do not help each other, thereby helping ourselves, we are going to come out of the little end of the horn. We can well afford to combine our resources and resources a cotton seed oil mill, refinery and other industries which will add to us in securing a market for Howard county products.

An effort is being made to secure delegation to attend the Broadway of America Highway Convention at Memphis April 21, and also the West Texas Chamber of Commerce Annual convention in Ft. Worth in June. If any citizens are able to attend either convention please communicate with the Secretary of the Chamber of Commerce or phone 512.

Any citizen in well within his rights in reporting anyone who fails or refuses to have all cotton seed sterilized. He is endangering his neighbors and the entire county. A full measure of cooperation is the quickest and easiest method of getting entirely away from the pink bollworm problem.

Many a county in Texas would put on a monster celebration if they could just get one well capable of producing 100 barrels of oil per day. Our county has over one hundred good producers, some of these wells capable of producing 3000 barrels per day. They are not causing much excitement now—but just wait until the oil industry gets on its feet once again.

A park or two in our city, a swimming pool, a municipal golf course and other features would tend to cause tourists to spend several days here instead of just passing through. Folks on a vacation have lots of time to squander and usually squander the money where they can find entertainment to suit them.

There's a reason for so many people moving to Big Spring. We have a real oil field, and an extensive one in our county. These newcomers know that a big development program is going to be carried forward. They want to get in on the ground floor before the big developments get under headway.

Howard county folks are going to have to get up and hustle just a little harder this year than ever before. In fact they are going to be compelled to work out some plans for 1929, just to play safe in case the pink bollworm should take a notion to pay us a visit.

Looks like our folks are going to have to absorb some more warm weather before they get the baseball fever. Steps looking to the support of a team must be taken soon if we happen to want a winning team to give us some clean and interesting sport here during the coming months.

When you patronize home industries; when you give your home folks a chance to do your work, you are helping to keep money in circulation to promote the prosperity of the home town. Money sent out of town is gone for good, and is used for the upbuilding of other cities.

If Big Spring can't afford to raise \$3,000 or \$4,000 to support a baseball team the next four or five months, we ought to take in our own hands. A city which cannot afford to donate a little to encourage clean sports does not need publicity—it needs a first class funeral service.

The Community Club House is going to prove one of the finest institutions ever started in our city. Women from all parts of the county are going to find this an ideal place to spend leisure hours in our city—and visitors in our city will always be accorded a warm welcome.

We need the service of an expert to determine the value and extent of our natural resources. Take our vast deposits of clay, gypsum, mica lime rock, rock salt, potash—how are we to even guess their value or sort of mining. Men in the manufacturing game want facts and figures—not guesses.

"When Winter Comes" seemed to be the popular tune last Monday morning—when our folks were greeted with a white landscape. It was worse than usual—cause most of us have been trying to get over attacks of Spring fever.

In the brief submitted to the Texas Railway Commission by the citizens of Pyote, protesting the building of a branch railway line to the Winkler oil field give us one of their arguments that the line is not needed as the oil field is to be a short lived field—the life of the field being estimated at from five to seven years.

They say it is impossible to learn an old dog new tricks—yet the government bug experts are dead set on forcing the farmers of West Texas to teach to farm without depending on the cotton crop. Here's hoping the pink bollworm refuses to show up and prevents a non-cotton zone program.

Sterilize all cotton seed, clean up and burn all loose seed, keep those turn rows, fence rows and even the right of way if your field is alongside a road or highway, free of weeds as never before in an effort to prevent the appearance of pink bollworms.

The big oil corporations are gently boosting the price of gasoline here and there so their next move is to boost the price of crude oil. With the power the Standard Oil Company wields it is an easy matter for the oil situation to return to normal as soon as the big boys say the word.

It would pay us to have a survey made of the natural resources of our county. We know we have immense deposits of clay, gypsum, mica, limestone and other minerals—but the other fellow don't. We might secure some big industries if we advertised our resources.

Before the city takes on any more additions or subdivisions it should make provision to supply the present population with water, fire protection and sewerage. Folks are paying taxes for these conveniences and they are a long time paying for services they are not receiving.

If any of us were compelled to quit our main business and be compelled to adopt other lines to earn a livelihood, it would be quite a job. That's what Uncle Sam may ask our farmers to do.

BUTTER

If there is a homely, everyday commodity, it is butter. In varying quality, it appears on every table in the land. No meal is complete without it. Bread might be the staff of life were it not present, and again it might not be. Good cooks again not be so good without its golden richness to add glamour to achievements of the culinary art.

All of which is a prelude to the commercial possibilities of butter in particular and dairying in general as applied to this territory. Students of farm economies like to point out that Wisconsin has paid off the well known mortgage and accumulated a nice little surplus in the course of her experiments with the humble dairy cow.

If the beef cow will thrive in West Texas, and there are any number of gentlemen, past and present, who will swear on any number of Bibles that such is the case, then it would appear that this section would be equally hospitable to the Holstein and the Jersey. This country will raise feed just as well as it will raise cotton, even better, perhaps.

Another angle of this proposition is the increasing demands of the larger cities for milk. Increasing population, as well as increasing per capita consumption, has forced New York, Cleveland, Detroit, Chicago and other centers farther and even farther afield for their milk supplies. Any number of creameries, butter factories, cheese factories and condensaries have been put completely out of business by these large cities, who have paid a higher price than these concerns could afford. All of which has driven concerns like Borden's, Carnation and others out of their old stamping grounds into newer pastures, in creating the competition for milk. Give us a profitable market, farmers can make money from their products. When West Texas was first being developed, there was a market for beef, which could be marketed on the hoof. But there wasn't for milk and its products, which required a higher degree of refrigeration and other matters which was not then known. A Texan, Gall Borden, developed the canned milk process. But he went elsewhere to do it and the stimulation to the dairy industry followed him. Now the situation has changed.

Dairying, like any other industry, has to be learned. Once learned, it has a sure income. It gives farmers a financial return twelve months in the year instead of once a year, like its principle local competitor.

In view of the foregoing, it is very encouraging when a San Angelo concern announces it is engaging in the manufacture of butter. Use of these will keep this section's money at work at home, instead of enriching the farmers and business men of California, Wisconsin and other butter exporting states.

Dairying can be better than a gold mine or a big pool of oil to West Texas, if properly handled.—San Angelo Standard.

DID YOU EVER STOP TO THINK?

By Edson R. Walte, Shawnee, Oklahoma.

That trusting to luck is a poor way of doing business.

That you never heard of a business ever getting anywhere that did that way.

That successful business men never trust to luck. They know what they are doing—they don't guess.

That it takes quality, price, courtesy, efficiency and prompt service, backed up by truthful advertising, to make a business successful these days.

That it takes a get-together, go-together team work to build a city.

That knockers of the home city should be treated rough.

That spreaders of gloom should be ostracized.

There should be no place in any city for knockers or gloom spreaders. They are nothing but a bunch of noise anyway, and it has never been recorded yet that noise ever killed a city, although it makes many a city sick.

SOME BRIGHT BIRDS

ARE IN CONGRESS

Chairman Haugen of the U. S. Agricultural Committee is giving West Texas some good publicity. He is quoting our good cotton land as being worth \$15 per acre. Just wait until the boys back East who have been noting our climbing into the ranks of the big cotton producing sections, read this dope and they will all be heading for West Texas. The records will show that Haugen's so-called \$15 land will produce just as much cotton year to year as will the \$100 to \$300 acre land back in the old cotton belt.

It is not an uncommon thing for landowners to secure \$15 to \$20 per acre rent on West Texas cotton land; yet Brother Haugen thinks it would be robbing Uncle Sam if the government guaranteed \$15 per acre in case a non-cotton zone is ordered.

IF PAYS TO GO STRAIGHT

No boy becomes a criminal in a day. One grows into crime just as he forms bad habits. Ask any condemned criminal and he will tell you he began in small law violations and for years did nothing really very bad; but a gradual hatred of the law, a hardening to crime and then the steady downward course.

No one does wrong because he finds any pleasure in so doing. A little help in his youth might have prevented many a boy from filling a prison cell. Boy Scouts work and other activities are helpful agencies in showing boys that it is best to do right and live right.

The British Air Ministry plans to institute in the near future dirigible service between London and Calcutta. The journey is expected to take five days.

More Room

"Why do they always hold championship fights in the larger cities?"

"So they can keep the ring-side seats within the city limits."—Judge

Proper Place

"How is your husband?"

"He's in the dumps most of the time."

"What is his occupation?"

"Garbage and junk collector."—Life.

It's a cinch that a non-cotton zone will not be ordered unless live pink bollworms are found in the 7 suspected counties in West Texas. It is our job to do our best to keep said pink bollworm from appearing.

Contentment lies not in the enjoyment of ease—a life of luxury

—but comes only to him that labors and overcomes—to him that reforms the task in hand and reaps the satisfaction of the world.—Oscar Wilde.

One of the first lessons co-operative marketing associations need to learn is that only quality production can secure premium prices.

Tell Me Another

"My dear, I tell you I was setting up with a sick friend."

"How many did you set up before he got sick?"—Judge.

To get more out of life—you must give more. He who serves his fellowman best enjoys life to the fullest.

Your rule of adding rice to the water a little at a time is the vital principle in Hills Bros' process of roasting coffee

Into the vigorously boiling water you pour the rice a little at a time so that each grain will cook perfectly. Hills Bros. roast their coffee by their patented, continuous process in which only a few pounds are being roasted at a time. The result is a satisfying, uniform flavor.

No bulk roasting process can get the results in flavor that this exclusive process of Hills Bros. secures. And because the matchless coffee is packed in vacuum (originated by Hills Bros.), all of this delicious flavor comes to you. Ask for Hills Bros. Coffee by name and look for the Arab on the can. Write for free copy of "The Art of Entertaining." Address Hills Bros., Dept. 561, 2525 Southwest Blvd., Kansas City, Mo.

HILLS BROS COFFEE

Fresh from the original vacuum pack. Easily opened with a key.

GOOD EXHIBITIONS AT MILLER SKATING RINK
A boxing exhibition will be given at Miller Skating Rink, one mile north of Big Spring tonight, Friday, April 15th, beginning at 8:30 o'clock. Tuffy Jackson of Big Spring, 170 pounds, will meet Eddie Dale, 155 pounds of Tulsa, Oklahoma, in a ten round bout. Both men are said to know the game, and they will stay in the ring to the finish. Claude Epeley 172 pounds, will go 6 rounds in a boxing bout, as will Young Rich and Emmett Russell.
A good wrestling exhibition will also be given.
On last Friday night, April 10, one of the best matches of the season will be staged at the Miller rink when Cyclone Boni meets Tuffy Jackson in a 10 round boxing match. Good preliminaries will also be given.
Everyone is invited to come and enjoy these exhibitions.

BUSBY TAYLOR REVIVAL MEETING IN COLORADO
The Busby Taylor revival meeting will begin at the Church of Christ tabernacle in Colorado, Texas on Sunday April 15th. Two services will be conducted daily all next week. A short service for busy people will be conducted at the Palace theatre from 10:45 to 11:20 a. m. Each evening at the tabernacle, the meetings will begin promptly at 7:45 p. m. This revival meeting is functioned by the Church of Christ, Brother J. D. Harvey, being their local pastor. A cordial invitation is extended Big Spring people to attend these services.

A wily Chinese general, curing a recent engagement, placed firecrackers in an empty oil storage tank, with the hope that the enemy would believe he was heavily armed with machine guns. The bluff worked.

INTERTYPE IN OPERATION
The addition has been a composing room which will enable us to better, news, paper, by increasing our job facilities. We have in our Intertype.

Manufactured by the Intertype Corporation, New York, the Intertype is the most complete of the printing industry.

operator on this composition can set as much as 100 lines of type in 10 minutes. The daily newspaper is impossible without it.

Many years ago many men were convinced that the only way to set type was by hand. More than a hundred years ago the first type-setting machine was invented. It was a simple contrivance which consisted of a wooden frame with a tray for the type and a lever to raise and lower the tray. The operator would set the type by hand and then use the lever to raise the tray and shake it to level the type. This was a very slow and laborious process.

In 1826, the experiment of Ottmar Mergenthaler, a watchmaker by trade, and a group of men associated with him, developed the first practical machine for setting type. From this group of experiments came the first real advance in the composing machine. The fundamental idea contained in the Mergenthaler machine was: casting a "slug" of a complete line of type, "slugs" of a complete line of type, circulating metal matrices of individual characters, and the space-between characters. These ideas were the combined efforts of several inventors.

The Intertype's Great Achievement
The Intertype machine was brought out in the early part of 1884. The man who was largely responsible for the new developments which are in the Intertype was Ottmar Mergenthaler, a watchmaker by trade, and a group of men associated with him, developed the first practical machine for setting type. From this group of experiments came the first real advance in the composing machine. The fundamental idea contained in the Mergenthaler machine was: casting a "slug" of a complete line of type, "slugs" of a complete line of type, circulating metal matrices of individual characters, and the space-between characters. These ideas were the combined efforts of several inventors.

superintended its manufacture. He introduced for the first time "standardization" and interchangeable matrices and parts, which means that the Intertype is unit built. "No Standardized Intertype has ever become obsolete" means that when improvements are developed in the Intertype they can be applied to outstanding standardized Intertypes—no improvement without obsolescence.

Scudder was born in Galesburg, Michigan, on January 19, 1859. He learned the toolmaking trade, and gained experience in factories, making sewing machines, watches and typewriters. He became successively in 1888 and 1887, foreman and superintendent of the factory of the Crandall Typewriter Company, of Croton, New York, now the Corona Typewriter Company. In 1887 he was engaged by Ottmar Mergenthaler to assist him in building the linotype machine in the Baltimore factory. When the linotype factory was established in Brooklyn, N. Y. in 1888, Scudder became part of its organization, and was made superintendent in a few months, holding that position until he resigned in June 1892. For his services in connection with the development of line-composing machines Scudder has amply earned a place among the galaxy of talent which together have made machine composition possible.

Another interesting personality connected with the Intertype Corporation is T. S. Homans, Chief Intertype Designer. Mr. Homans is a graduate of the Sheffield Scientific School, Yale University and a member of the American Society of Mechanical Engineers. He designed the first "Quick-change" magazine for composing machines eliminated 910 moving parts in the escapement mechanism of the 3-magazine Intertype, the Intertype with standard C equipment and in addition designed many important Intertype improvements.

How the Intertype Operates
In a composing machine such as the Intertype, there are four major divisions, the Magazine, Keyboard, Casting Mechanism, and Distributing Mechanism. The magazine is the flat receptacle on the top of the machine, carrying the matrices. The matrices are the small brass dies on which letters are stamped. The Intertype sets one complete line of type at a time. As the operator at the keyboard touches the keyboard, the matrices are released, and fall down to an assembler. In this way a complete line of matrices is assembled, consisting of a series of dies, with one character on each matrix.

When the line of matrices is completely assembled, the operator releases it by a lever, after which the operator turns to the keyboard the next line. The line of matrices is carried by the machine to a position in front of a mold (Casting Mechanism) and the machine pumps molten type metal into the mold, in such a way, that a complete line of type is cast, carrying the words or groups of figures previously assembled by the operator. The machine then trims the line of type just cast, which cools and solidifies almost instantly, and ejects it on a convenient tray with other lines previously assembled.

At the same time, the machine also puts its Distributing Mechanism into play, and distributes the line of matrices or dies from which the line of type was cast, storing them in parallel rows, in the magazine, each letter and figure in its proper place. Thus the operator is able to use the same matrices over and over, there being enough matrices of each character and figure to permit assembling, casting and distributing several lines to be in process of type at the same time. This means that one line of matrices may be assembled, another cast and a third distributed and all of these operations are entirely automatic excepting the actual operation of the keyboard.

Always New Type
The greatest advantage of setting type on a machine, is that every machine set job is printed from what is in effect a brand new face of type. This makes the printing in the paper clear and legible at all times, while job work on the machine looks as attractive as though it were set with new hand type. Compared with hand-set matter, it is easy to handle machine (slug) composition, as a few lines of the former must be lifted and carried with the greatest care, in order to avoid dropping some of the small individual letters, while the same amount of matter set on slugs can be picked up with one hand without danger of what printers call "spilling type."

The Intertype is probably the most efficient composing machine in the market today. It is a standardized machine and unit built, with its parts interchangeable. This is probably the most important single development in slug composing machines in thirty years. New and improved features are perfected from year to year, but every new development is standardized and can be attached to existing Standardized Intertypes.

The Intertype Corporation has 2 factories in Brooklyn, N. Y., one situated on Furrum Street, at the foot of Montague Street, which is used for the manufacture of the machine and the various parts and supplies belonging to it, the other located at Park Avenue and Emerson Place, and is used solely for the manufacture of Intertype matrices. The executive offices of the Corporation are located at 1440 Broadway at 40th Street, New York City.

Chicken medicine of all kinds... Cunniff & Phillips.

OPPOSITION WILL HELP CO-OPERATORS

There is now some hope for farmer co-operative organizations in this country. The Federated Agricultural Traders of America has been incorporated with the object, ostensibly, to further the business interests of the middleman. The idea advanced in the meeting which resulted in the new organization indicated that those men think the best way to help themselves is to fight farmer co-operatives.

Just as long as everybody looked with indifference on the attempt of producers to organize co-operatively for marketing purposes there was no incentive for developing a fighting spirit. When the attitude of the middlemen and the public in general could be expressed in the words, "Oh well, let them organize; no one will be harmed, for they never will stick," producers did not have the enthusiasm necessary to make the desired headway. Nevertheless, co-operatives have kept plugging away, making a little progress here and there until some of the fellows who have always had their own way in the disposing of farm products begin to sit up and take notice. All at once they discover that co-operative organizations are becoming a real menace to "invested" capital, and they are out to give battle.

Of course, many middlemen have invested much capital in their business, and it must be admitted that they have been efficient in many instances in rendering service to both producers and consumers. It is natural that they should have a desire to protect that capital, but they must do so through honest and efficient service rather than in an aggressive and vindictive manner such as was indicated in the Chicago convention. They will accomplish nothing in appealing to Congress in an effort to have Government encouragement of co-operative marketing withdrawn, or by going before farmers with untruths regarding co-operative organizations.

The middlemen of 1928 are forgetting that farmers have more invested capital than they have and that their dividends have been few and small. The producers are out to protect their invested capital, and their experience has taught them that the best way to do it is by organizing and setting up their own sales agencies.

If middlemen want to protect their invested capital they will have to render such service as will pay to the producers a part of the money secured from the consumers. Otherwise they will have to give way to more modern methods of distribution.

HUNTING A LIVE PINK BOLLWORM

The Dallas News has contained several editorials recently supporting the position of Dr. Mariatt and advocating the establishment of non-cotton zones where the pink bollworm has been found. Last Monday, however, it explained that it is waging a fight against live worms only and not against dead ones, and that it would not favor a non-cotton zone where only dead ones had been found. We are gratified that the News has modified its position to this extent. In this modification, it certainly is not in accord with Dr. Mariatt. That gentleman strongly insisted on the establishment of a non-cotton zone immediately for Ector, Andrews, Martin, Midland, Glasscock, Howard and Dawson counties, the only evidence of infestation being "dead" pink boll worms, assuring the farmers and business men at the Sweetwater meeting that a compensation fund would be appropriated by Congress to partly remunerate the farmers for their losses during the present year. It was this unreasonable demand of Dr. Mariatt, sanctioned by McDonald, Farris and others connected with the eradication movement, that aroused bitter opposition and antagonism on the part of West Texas farmers and business men. If Dr. Mariatt, R. E. McDonald, W. D. Farris and others of the departments had had their way, those seven West Texas counties would be in a non-cotton zone today on no other evidence than a few dead pink bollworms had been found in them.—Lynn County News.

Dr. Mariatt, Schaffelmeier, agricultural editor of the Dallas News, and several others will certainly be peeved if no live pink bollworms are to be found in the seven above named counties this year. They will take it as a direct slap, almost.

Wonder why sterilization and fumigation are practiced if they are not effective.

The editor of the Dallas News agrees with the other experts that the pink boll worm will never be a serious threat in West Texas. But he does believe the boll weevil is headed toward West Texas, yet he does not suggest a non-cotton zone in East Texas to starve the boll weevil and save West Texas. He says the cotton raisers in the irrigated valleys of West Texas caught at Mr. Pink Bollworm because they can raise plenty of cotton in spite of the boll-worm but he is very much worried over the outlook of the seven counties where the records he produces show we raise about one fifth of a bale per acre. He sees our finish when the pink bollworm and the boll weevil get to chumming in our neck of the woods.

We certainly appreciate his sympathy, and assure him that even though we produce only one fifth

DR. C. D. BAXLEY, DENTIST
Office over Albert M. Fisher Co. Phone 502 21-41

of a bale of cotton per acre our farmers are far more prosperous than are the farmers of the great black land section and able to hold their own against boll weevils, boll worms and the blundering of well intentioned friends.

Mrs. Henry Neal and Mrs. Jewell Dunn, delegates from the Garden City schools, were the guests of Mrs. J. W. Higgs during the P. T. A. convention held in Big Spring, Thursday, Friday and Saturday, April 5, 6 and 7.

**WANTED SERVICES AT
FIRST BAPTIST CHURCH**

At the 11 a. m. services appropriate musical selections by the choir and an inspirational sermon by the pastor on the 'Resurrection' were featured.

Outstanding among the musical programs given within the past few months, under the direction of Miss Lillian Hancock, choir director, was the one given Sunday evening at 8 p. m., featuring beautiful Easter anthems and other numbers by members of the choir and visiting soloists, Messrs. Cardwell and Keaton.

Beautiful and appropriate decorations, with the Easter lily predominating, were used effectively. In spite of the inclement weather, there was a large attendance to enjoy the delightful program which follows:

Ensemble—Male Chorus.
Anthem, "Christ the Lord is Risen," Chas. Wesley, by the choir.
Duet "Easter Morn," O. M. Schoebel, Maurine Weatherby and Ruby Bell.

Ladies quartet, "That Beautiful Land," M. M. Jones (By request), Mmes. Hopkins, Keaton, Blount and Miss Mary Higgs.

Anthem, "The Joyous Morn," by the choir. Soloists Mr. R. H. McNew and Mr. Buell Cardwell.
Offertory—Mrs. H. G. Keaton.

Tenor Solo, "The Resurrection" Harry Rowe Shelly, by Herbert Keaton.

Male chorus, "When Thou Callest," Lopez, Soprano Obligato, Lillian Hancock.

Baritone Solo—"The Risen Lord" Gelbel, by Buell Cardwell.

Violin Solo—Evelyn Jackson.
Anthem, "And When the Sabbath was Passed," R. M. Stults, choir.

Personnel
Rev. Dow H. Heard, pastor.
Miss Lillian Hancock, choir director.

Mrs. H. G. Keaton, pianist.
Guests Soloists, Herbert Keaton, Buell Cardwell.

Sopranos: Mmes. McNew, Hopkins, Green, Frazier, Reed; Misses Weatherby, Secrest, Stevens.

Altos: Mmes. Piner, Blount, Henry, Stevens, Misses Bell and Higgs.

Tenors, Messrs. Cornellison, Keaton, Hollabough, Watson, Shick and Phillips.

Bass: Messrs. McNew, Cardwell, Pond, Kilpatrick and McNew.

Rev. Heard made an appropriate talk using a beautiful Easter lily to illustrate his remarks, comparing the lily in all its beauty and purity to a human soul.

Solo parts by Messrs. H. G. Keaton and Buell Cardwell, Miss Lillian Hancock and Mrs. H. McNew, each of whom possesses a voice of unusual quality, and sweetness, were feelingly rendered.

Miss Evelyn Jackson's violin solo was an appreciated number.

At the conclusion of the program Rev. Heard, the pastor, in well-chosen words, presented Mrs. H. G. Keaton, pianist, who has so graciously served in Mr. James Wilson's place for several months past with a handsome purse as a small token of appreciation from the congregation, on the eve of her departure to make her home elsewhere.

Mrs. Keaton is a very talented pianist and her services have been very much appreciated by the membership of the church and their best wishes go with her.

METHODIST NOTES

Easter Sunday was observed by Big Spring Methodists as a gala day. Nearly 300 at Sunday School started the day right, an offering of \$15.00 showing an excellent percentage from entire body. Many classes observed the Easter motif in gifts of lilies, etc., as well as Easter eggs for Juniors and Primaries. Quite a few hunts were had on Saturday, in spite of sand and cold.

A packed house at the morning church service filled the new seating capacity to overflowing. The baptismal service preceding the sermon was very sweet, the babies all perfectly adorable. At this time Bro. Bailey baptized his first grandchild, and infant of 5 weeks. Our choir was out in full force, the beautiful Easter anthems being greatly enjoyed. Mr. Keaton favored us with a solo. Bro. Bailey preached a wonderful sermon at both morning and evening services. As it was a cold, raw day, with snow steadily falling the splendid attendance was especially appreciated.

At 4:45 the Epworth League gave a special program, full of pep, enthusiasm. The double quartet rendered excellent music, the finale being "Earth's Masterpieces," given by T. B. Reeves to the air of "Abide With Me," beautifully given by the octette.

CARD OF THANKS

The chairmen of the music committee sincerely thank the following persons who generously gave of their time and talent the beautifully rendered music whereby helping to make the program of the Congress of Mothers and Parent-Teacher Association a success:

Miss Lillian Hancock, Miss Evelyn Jackson, Miss Zoe Hardy, Miss Nancy Dawes, Mrs. Herbert Keaton, Miss Gay, Mrs. Chas. Morris, Mrs. Robt. Owen, Mr. Buell Cardwell, Mr. Herbert Keaton, Mr. U. R. Dawes.

The sextette of pretty girls:
Miss Lyla Cochran, Miss Lyla Cochran, Miss Pauline Sullivan, Miss Edna Sanders, Miss Mildred Neal, Miss Evelyn Jackson with W. R. Dawes accompanist.

Gave the Mother's Congress song in a beautiful and pleasing manner. The president, Mrs. Gilmore, on the day, said it is the sweetest song I have heard for some time and touched my heart for its meaning.

The fifth grade of Central school were crowned by the Health play and exercises. Mrs. Chas. Morris, the president of the teachers, desired the much praised in training the children.

Mrs. Homer Markham, Chairman Music Committee.

**POSTAL BUSINESS SHOWS
A BIG INCREASE**

According to figures furnished by Postmaster E. E. Fahrnkamp the business of the Big Spring post office has more than doubled over the same period last year. The business for the first quarter this year is practically equal to the big and busy quarter at the end of 1927.

The gross receipts of the local office for the months of January, February and March total \$102,150.61. The receipts for the first quarter of 1927 were \$50,455.77; an increase of more than 100 per cent.

We want your eggs, butter and cream—The White House.

**Lesson for April 15
TRANSFIGURATION AND
SERVICE**

LESSON TEXT—Mark 9:1-9.
GOLDEN TEXT—He that abideth in me, and I in him, the same beareth much fruit; for apart from me ye can do nothing.

PRIMARY TOPIC—Jesus Shows His Glory.
JUNIOR TOPIC—Jesus Shows His Glory.
INTERMEDIATE AND SENIOR TOPIC—What Faith and Prayer Can Do.
YOUNG PEOPLE AND ADULT TOPIC—The Meaning of the Transfiguration.

When Christ announced His death which was to take place on the cross, the disciples were unable to see how victory could issue from death. Jesus took with Him Peter, James and John into the mountains.

In order to revive their drooping spirits and restore their confidence He was transfigured before them. Two men from the upper world were sent to converse with Jesus about His approaching death at Jerusalem—the very thing about which the disciples refused to talk. The transfiguration is therefore a foretelling of the coming kingdom.

I. Jesus Christ Glorified on the Mountain (v. 2, 3).

He took the disciples "by themselves" and was "transfigured before them." This shows that the purpose of the transfiguration terminated upon the disciples and not on Christ. Christ's rebuke of Peter for his unwillingness to hear concerning His death apparently for a time estranged the disciples from Him. To heal this breach an unusual transaction was required. His shining raiment was typical of that glory which shall be manifest when Christ comes back to the earth. His appearance on the mountain typifies His visible appearance on the Mount of Olives (Zech. 14:4-9).

II. Peter, James and John Represent Israel in the Flesh in Connection With the Kingdom (v. 2).

Christ is peculiarly the King of Israel. According to Ezekiel 37:21-27, the Israelites are to be the central people of the kingdom. This people shall be gathered from among the nations and united as one in that kingdom, in their own country.

1. Moses and Elias Appeared in Glory With Jesus (v. 4-5).

These men in the glorified state are typical of the state of the saints in glory. Moses, who, once denied an entrance into Palestine, appears now in glory representing the redeemed of the Lord who shall pass through death into the kingdom. Multitudes of the Lord's own who have fallen asleep shall be awakened at Christ's coming and pass into the kingdom. Elias represents the redeemed who shall pass into the kingdom through translation. Some shall be living upon the earth when the Lord shall come, and they, without dying, shall be changed and thus pass into the kingdom (I Cor. 15:50-53; I Thess. 4:14-15).

2. Peter's proposal (v. 6, 7).

So definitely was the method of the kingdom unfolded before Peter that he proposed to erect tabernacles for Christ, Moses and Elias. It is true that the unveiling of the majestic person of Christ and the panoramic display of the kingdom somewhat disconcerted Peter; yet he grasped its central meaning and proposed to celebrate the advent of the kingdom which had been prefigured in a tangible way.

3. The divine voice out of the cloud (v. 7, 8).

God declared Jesus to be His beloved Son in whom He was well pleased. If one would know what is pleasing to God, let him study Jesus Christ, who perfectly did His Father's will.

4. Jesus' charge (v. 9-13).

He charged them that they should tell no man concerning the things which they had seen until he had risen from the dead.

IV. A Demonstration of the Purpose of the Establishment of the Kingdom (v. 14-29).

When they descended from the mountain of transfiguration they witnessed a great multitude in a state of perplexity. The immediate cause of this state was the grievous condition of a young man possessed of a demon (v. 18). The father of the young man had appealed to the disciples to cast the demon out, but they were unable to do so. When they brought him unto Jesus, the foul spirit was rebuked and came forth. This young man's state is representative of the nations who are oppressed by the devil. Just as this young man was intensely oppressed, causing him to cast himself into the fire and into the waters, so the nations today in their perplexity are doing the things which will result in their own destruction. The devil will be peculiarly active in the oppression of such and nations in the last days. This may account for the turmoil among the nations today.

BIG SPRING HI REPRESENTED IN LATIN TOURNAMENT

Big Spring High will send delegates to Eastland, as contestants in the Latin tournament to be held at the Eastland High School Friday, April 13, 1928.

The success of Big Spring's entrance is due to the skill of Miss Brown and Miss Mosteller, who have taken a great interest in the training of the Latin students. The representatives are as follows:

Latin I. Zelah Mae Ford and Cora Ashley, Freshmen.

Latin II. Charley Weeg and Rita Devanport, Sophomores.

Latin IV. Mamie Hair and Virginia Whitney, Seniors.

These students will be accompanied by Miss Mosteller, Miss Brown, Mrs. Ford and Mrs. Ashley. Mrs. Ford and Mrs. Ashley have taken a great interest in the welfare of our representatives and they have shown their appreciation of the good work carried on by the Latin teachers by furnishing the means of transportation for the contestants.

However, Miss Mosteller and her four representatives, Rita, Charlie, Virginia and Mamie will leave Thursday on the Sunshine Special.

Lists were given to all the Latin classes by Misses Brown and Mosteller. It was found that our representatives are efficient in their work. They have made excellent grades throughout the year and they showed usually high averages on their tests.

Eastland is a very good town, having good theatres, churches, public buildings and above all an excellent High School. The town was built up to a high standard in 1919 by the oil fields and it has kept its standard by improving the conditions of the town. They have arranged the following program:

- 10:00, 12:00—Register.
- 12:00—Lunch.
- 1:00—Written contest.
- 4:30—Car ride.
- 7:30—Banquet.

The banquet will be served in Latin style, the menu being printed in the Latin language. The last event will be a Teachers' Conference held Saturday morning at 9 o'clock.

The winners of the tournament will be awarded with a loving cup. There will be many schools represented. Although this is Big Spring's first year we are hoping that our representatives make an excellent showing, and if possible, bring back the cup. The school is

VINCENT ITEMS

April 9, 1928.
What a surprise for everyone to awake this morning to find the ground covered in snow. Although it was somewhat disagreeable Easter we were glad to see any form of moisture, however small the amount.

Mrs. Ruth Riggins gave an Easter egg hunt for the smaller school children last Friday afternoon at the schoolhouse. All of the kiddies had a fine time and found quite a number of eggs.

Mr. and Mrs. Frank Derring entertained with a party last Saturday night.

The returns of the trustee election held last Saturday show that Mr. John Brown received the majority of votes. He is to take the place of Mrs. Guy Guffer who has served faithfully for the last two terms.

Miss Grace Motley of Knott visited here last week.

Miss Bethel Harding who is attending Business College in Abilene, spent the week-end here with home folks.

We are all glad to see Mr. Tate able to teach again this week. We hope he will continue to improve.

Mrs. Ruth Riggins spent the week end in Big Spring.

Our second business house to be opened in Vincent was opened to the public last week. Mr. Charlie Rutledge as owner and manager.

"Slow but sure" is our motto so if you don't want to wake up to the surprise of your life some day in the future you had better "watch Vincent."

We are sorry that our school was not better represented at the League Meet but we hope to make a better showing next year.—Reporter.

Mayor Bill Thompson of Chicago will always think King George sent over several boatloads of his subjects to beat him in Tuesday's Primary. It was a quiet election, according to Chicago's standards; only one killed, three kidnapped and any number beaten up in the friendly rivalry at the polling places.

Plans for an oil refinery for Big Spring are now being prepared and we expect to secure some reliable information on this project at an early date.

supporting the Latin teams and it is hoped that the Big Spring teams will win.

"MEXICAN MIKE" CLAIMED BY DEATH SATURDAY

Melequades Salazar, or Mike Salas, better known as "Mexican Mike" was claimed by death at 6 o'clock, Saturday April 7th, following an illness of long duration. Funeral services were held at the Mexican Catholic church at 4 o'clock Sunday afternoon and the remains were laid to rest in the Mexican cemetery.

"Mexican Mike" who was aged 57 years, 3 months and 28 days, was well known in Big Spring and had many friends among the citizenship. At the time of his death, he was engaged in the farming industry, owning a fine farm south of town, adjoining the J. B. Harding place. He was formerly engaged in business in Big Spring, having operated a chile parlor on Main street. He was a good, peaceful citizen, and always gave everyone a square deal.

He is survived by his wife and several sons and daughters.

Sudan, seed, corn, other field and garden seed—The White House.

Texas Pacific Watch Inspection now at Wilke's, Big Spring's leading Jeweler.

Smoke a real cigar... Collins' Bros. Drugs.

New stock of powder puffs... Cunningham & Phillips.

NOTES FROM SALEM

The farmers of our community are taking every step to co-operate with the state to combat the pink bollworm situation. They are very busy hauling cotton seed to Coahoma to be sterilized.

The school children enjoyed an Easter egg hunt in Mr. B. F. Miller's pasture Friday evening.

Mrs. Sadie Yell is on the sick list at this time of writing.

We are glad to report that Uncle Jack and Aunt Fannie Wilson are still on the mend. They are able to be about their chores and visit with their neighbors and children.

Mrs. Susie Dalton, who is on the field, scouting for Baylor College, at Belton, spent Friday and Saturday night with Mr. and Mrs. W. C. Rogers and family. She stated as having quite an experience with West Texas sandstorms followed by an unusual snow for this time of the season but she enjoyed the generous hospitality of the people in the great West.

Mr. and Mrs. W. H. Robinson and grand daughters, Misses Mary and Mildred Robinson, attended church at Midway the first Sunday.

Mr. and Mrs. W. H. Robinson visited relatives and friends at Midland and Courtney last Wednesday.—Reporter.

A carload of Essex automobiles for the Essex dealer at Lamesa were unloaded in Big Spring last Friday.

WHAT'S DOING IN WEST TEXAS

Perryton—A 12 weeks course on dairying is being offered by County Agent G. R. Sheets to Perryton farmers.

Gustine—The Texas Louisiana Power Company has bought over the local power plant and is planning improvements in its operation.

Bryson—The town responded wholeheartedly to a home talent affair presented here recently.

Robert Lee—Robert Lee is making advance plans in connection with the fifth annual Banco Camp meeting to be held here July 20 to August 5.

Mobeetie—Natural gas will be available in Mobeetie within a short time, work on the line already being started.

Coahoma—Emmet L. Whitaker and his brother Lewis, have acquired the Coahoma Citizen and have begun its editing.

Texline—A franchise for natural gas has been granted by the city council and it is expected to be in use here before next fall.

Sweetwater—Sweetwater's official West Texas Chamber of Commerce band will attend the Tenth Annual Convention at Fort Worth with brand new uniforms.

Bovina—Roads leading out of Bovina to the west and north are being worked to form a good route into adjoining territory of New Mexico.

McLean—Work is underway on the oil field road near here due to efforts of the chamber of commerce and town.

Stamford—The West Texas C. of C. is calling attention to American Forestry week to be observed April 22 to 28.

Rankin—Rankin's building program is being continued without interruption.

Eola—Bonds for a \$20,000 modern fireproof school building to be erected here by the Independent School District have been sold.

Eden—A carload of corrugated iron culverts, the first ever shipped here, have been unloaded for distribution through the county.

Plainview—The Panhandle Plains Dairy Show held here April 2, 3, 4, 5 and 6 was declared one of the outstanding ever held in the country.

Crowell—Eighteen cars of pipe have been unloaded here for the gas extension of the Stamford and Western Gas Company from Chullicoths to Stamford.

Midland—Hotel Wallace, a first class seven story hostelry, is to be erected here at once.

Seagraves—Seagraves citizens are planning rebuilding of their town following destruction of 21 business houses.

Ablene—Ablene's new directory shows a population of 22,400 people, a gain of 7,000 people in seven years.

Friona—Friona will be an incorporated city as result of 65 to 54 vote in the matter.

George McEntire, who is attending Schrieners Institute at Kerrville, was home to spend the Easter holidays with his parents, Mr. and Mrs. George McEntire, at their ranch home on the Concho River in Starling County.

Miss Donna Carter, who was home to spend the spring holidays with relatives and friends, returned to Denton Tuesday night, where she is a student in the College of Industrial Arts.

Office supplies Cunningham & Phillips.

SAVE TWENTY PER CENT BY GRINDING

Where tractor or other power is available, the feed grinder is an important factor in the making of profits in dairying, or in the feeding of steers, lambs or hogs. This is particularly true if the grain feed is composed largely of grain sorghums. A saving of 20 per cent and more in the feeding value of grains and roughage will pay for the grinder in a very short period of time, it depending altogether upon the number of animals to be fed.

An experiment is reported in one of the Government bulletins which illustrates the value of grinding feed. A farmer was feeding largely of grain sorghums. He was feeding without grinding. He turned his hogs into the pasture with his steers and fattened them without much additional attention. Later he purchased a feed grinder and fed ground grain sorghums. The steers picked up rapidly in weight, but he had to remove his hogs from the pasture to other feed lots. Very little undigested grain remained for the hogs after the grinder had been installed.

Feed grinders are now manufactured in various sizes. There is one to fit the...

WEST TEXAN KEEPS PACE IN RACE ACROSS CONTINENT

A West Texan is retaining a place among the 90 runners and walkers in the trans-continental marathon that started from Los Angeles on March 4, according to information received here by friends of Mike Baze, former San Angelo hotel clerk who was born on the Harris ranch near Robert Lee, in Coke county.

According to news dispatched from Amarillo, Baze had made the 1,188 miles to that point in 507 hours, 12 minutes and 47 seconds, and the runners were somewhat handicapped in the trot across that part of Texas by adverse weather conditions, to which Baze's friends here claim he has been so hardened that they expect him to suffer no loss of speed. His race is being watched with keen interest here.

Mrs. J. H. Young of Toyah, who was a delegate to the P. T. A. convention held in Big Spring the past week end was the house guest of Mrs. John Notestine during this meeting.

Dainty Underthings

We have just received a shipment of dainty underthings—that will delight the heart of the wearer. We offer them to you as first hints for graduation gifts—Sheerest materials, fluffy or tailored—teddy suits, step-ins, brazieres, night gowns and pajamas. Make your selection while we have a full range of sizes, and a variety in styles and colors. A gift of underwear is sure to please the sweet girl graduate.

TEXAS CO. SCOUTS ARE DISTRIBUTED
 San Angelo, April 5.—John A. Nichols, one of the oldest oil scouts in West Texas, is in point of service, will return to San Angelo in charge of the land and mineral department of the Texas company when that district office at Midland is closed April 15.

R. E. Wittly will be transferred to Abilene and C. P. Powers to Ft. Worth. C. J. Bradley, scout of Colorado, may remain there.

The Texas Company is distributing its scouting force over a wider area for the sake of utility and economy. It will leave its district geological office at Midland in charge of H. E. Munson, who has one assistant, J. W. Smith.

The Texas Company has production in Brown, Coleman, Shackelford, Stephens, Fisher, Upton, Ector and Crane counties and San Angelo is centrally located for an office serving this area. The Texas Company has no operations in the Hendrick pool in Winkler county. It was on a deal early in the year to acquire properties of the Pure Oil Company there, in Pecos and other counties, but the transaction fell through on title.

In Ector County, the Texas Company and J. S. Coeden, Inc., are building rig for their No. 6 Connel, 330 feet from the north and west lines of section 16, block B-16, public school land. It will be a mile north of the discovery producer that opened a new pool—Ft. Worth Star Telegram.

AUTOMATIC BLOCK SYSTEM TO BE INSTALLED

The Texas & Pacific railway Company plans to install the Automatic Block system along the four hundred mile stretch of track between Dallas and Toyah before the end of 1928. This improved block system will replace the Manual System which was put in operation a month or more ago.

The automatic system will be a big improvement over the present system and should permit a speeding up of traffic.

WHO PICKS IT UP?

There's something on the floor. It may be a pencil, a pair of callipers, perhaps a micrometer, a wrench, a handful of oily rags, or a piece of paper or pulp; it may be a remnant of someone's lunch, or an orange peel, a banana skin or some wrapping paper. Whose job is it to pick it up?

This is a form of buck-passing, of asking someone else to do the job that one is not directly told or paid to do, says Mead Co-operation.

Neglect along these lines is a sign of untidiness, a disorderly mental condition, and very frequently we see such neglect leading to serious conditions, a slowing down of production, etc., all of which these things are practiced and to those who are employed by that company.

A handful of oily waste, carelessly dropped or thrown into a corner, has started many disastrous fires, and other objects left flying around promiscuously have tripped persons and caused both minor and major accidents, while pieces of nice white paper left lying around where others can step on it and soil it have caused dirty paper to be made, all of which means loss of time, loss of money, interruption of schedules and reduced departmental effectiveness.

The man who wants to get ahead and who wishes to win recognition from those over him, is not "too proud to pick it up," but instead has a sense of responsibility and pride in his surroundings. He takes the proper interest in seeing things are put in their proper places, and he tries to make those around him feel the same responsibility. That man will win. Are you such a man?

BOLL WEEVILS SHOWING GAIN

Washington, April 5.—A startling increase over last year in number of boll weevils which survived winter hibernation was indicated in a report announced today by the department of agriculture based on examinations of Spanish moss in the states of Louisiana, Alabama, Georgia, South Carolina and Texas.

The findings based on the number of weevils per ton of moss, recorded 65.9 as the Louisiana state average, compared with 15.7 for last year, 43.0 in 1926 and 6.0 in 1927. In South Carolina 21.1 were found, compared with nine last year.

Southern Louisiana showed 365.1 per ton in 1928, compared with 70.0 last year, while the northern part of the state had 1.0 compared with 4.04 last year.

Comparative figures are not available for the entire cotton belt as expectations were made last year in Louisiana and South Carolina only.

In Alabama 45.2 were found in each ton of moss examined; in Texas 74.5 and in Georgia 88.7, 1928 figures showed 2.0 in Georgia.

WAS AGAINST IT
 "Sam, didn't I see you coming out of the church yesterday?" Hank asked.
 "Too surely did," replied Sam.
 "What was the sermon about?"
 "Sin."
 "What'd the preacher say about it?"
 "Well, he was against it."

Joe Flock secured a well of good water on his nine acre tract of land just West of Big Spring, last Saturday. This water was secured at a depth of 122 feet, and the supply is sufficient to meet the needs of the plans for club house and other improvements Mr. Flock is now working on.

BIG RAILWAY MERGER PLANNED
 New York, April 5.—Nine officials of leading transportation systems of the east went into conference in the offices of W. W. Atterbury, president of the Pennsylvania railroad, here April 6th to decide the fate of plans which would link 50,000 miles of lines.

Although developments of the past few days have not observed to believe that the movement started four years ago...

(Re-election)

MO. PACIFIC BUYS
T. A. F. STOCK
New York, April 9.—The Missouri Pacific bought 39,000 additional shares of Texas & Pacific common stock during 1927 increasing its holdings to 189,000 shares at the close of the year, or 46.3 per cent of the outstanding 387,551 shares. The Missouri Pacific owns the entire issue of 233,703,000 of the preferred stock, so with its larger holdings of common, control 66.7 per cent of the Texas & Pacific's capital stock outstanding.

A Spring tonic that we recommend Collins Bros. Drugs.

TREE EXPERIMENT BILL IS PASSED
Washington, April 9.—A house bill directing the agriculture department to conduct experiments in the southern great plains area, in development of shade, ornamental and shelter belt trees, was passed today by the senate on motion of Senator Phil. Reynolds, Oklahoma. The area includes the states of Colorado, Nebraska, Kansas and Texas, Oklahoma and New Mexico.

All kinds of magazines Collins Bros. Drugs.

COLORADO FIRE VICTIM IS DEAD
Colorado Texas, April 10.—Macroe Boyd negro janitor, who was burned at the county jail here several days ago when a quantity of alcohol was ignited and exploded, died this morning. Sheriff R. E. Gregory and Deputies Bass and Rice who also were seriously burned are still in a hospital but are recovering.

We will save you money on Fresh and Cured Meats—Piggly Wiggly Market.

S. J. Childress was in Tuesday from his ranch in the northeastern portion of Glasscock. Mr. Childress states that he has twelve peach trees that have withstood the snow and frost and are going to bear fruit unless more obstacles show up. His early peaches and apricots, however, were not able to get by Jack Frost. He reports that his fruit trees, or a large part of them have managed to bear fruit in all but three years during the past 12 years.

They are located near a large up ground tank and this serves to lessen the damage from frost.

Sever, small size, now 10c.—The White House.

CARD OF THANKS

We wish to take this method of extending our sincere thanks and appreciation to our dear neighbors and friends for their many loving deeds of kindness and words of sympathy when we were called upon to part with our precious wife and mother. We appreciate all that was done for us and will ever remember your thoughtfulness. May God bless and keep you all in our prayer.
Gus Jacks and children.

Whipping cream, sweet milk, Butter milk—Piggly Wiggly Market.

SCHOOLS GET \$5.00

STATE APPORTIONMENT
Austin, April 9.—An apportionment of \$5 for each of 1,370,000 public school children was announced Monday by State School Supt. S. M. N. Marrs.
This leaves only \$2 to be paid out this school season from the \$15 apportionment voted by the 40th legislature for each scholastic. The remainder will be paid in May and June.

Just received a shipment of beautiful Polychrome caribba rods. Demos in various, white and Demos. Mr. T. Phone 224.

The baseball fans are now in their element. The baseball season officially opened this week and they have the baseball scores to look forward to each evening. Its great to be really interested in something—for there you get a kick out of life to relieve the daily grind.

Diamonds—You will get a "Better Stone for Less Money" at Wilke's. Big Spring's leading Jeweler. And with a 100 per cent guarantee behind it. You are always welcome at Wilke's whether you buy or not.

Hutton—Piggly Wiggly Market have the transport of the week.

Some folks imagine they are not doing their duty unless they are criticizing something or somebody. They are just built that way and they can't help it. They are a No. 1 faultfinder, but that's about all they are.

Now that the K. K. K. calls itself the Knights of the Great Forest, we recall that it has always done a lot of beating about the bush—life.

Banton Birdwell of San Antonio was visiting relatives and friends.

SANITARY BARBER SHOP

IN NEW LOCATION
The Sanitary Barber Shop this week moved into their new location, in the new building at the rear of the Lester building, on Main Street, near the Auto Supply Co. The new building of brick, was erected for Messrs. Welch and Roberts, proprietors of the Sanitary Barber Shop, formerly located in the Lester building.
This is now a big four chair shop and four commercial experts will be in charge. They will be capable of handling all kinds of barber work, giving special attention

to ladies work. The management of the shop is in the hands of an early with a A real Good Bros. Drugs. If fair prices, cured teeth, service, Piggly Wiggly Market. Largest stock of goods west of the Piggly Wiggly Market.

**L-Deal Bridge Club De-
Lightfully Entertained**
Outstanding among the club at-
fairs of the past week, was the
night party of the L-Deal Bridge
club, given last Tuesday evening,
with Mrs. J. Fred Phillips and Mrs.
Eascom Renshaw, hostesses to the
club members and their husbands.
The pretty Phillips home was the
scene of the gaiety and a setting of
charm was provided, wherein the
features of the affair was the man-
ner in which prizes were awarded
the guests. The collection was plac-
ed in a grab bag, and when a spec-
ified bid was made the declarer
had the privilege of grabbing.
There were many types of prizes,
most of the men drawing a musical
instrument of some kind.
A musical program was given by
the men, following the play.
At refreshment time the hostesses
served an unusually delicious
luncheon, consisting of fruit salad,
hot sandwiches, olives, macaroni,
and grapefruit punch.
Mrs. Steve Ford was successful
in making high score of the eve-
ning among the club members, and
Mr. L. W. Croft made men's high score.
The guest list to this complimen-
tary hospitality included: Mr. and
Mrs. G. L. Wilke, Mr. and Mrs. V.
H. Fiewellen, Mr. and Mrs. L. W.
Croft, Mr. and Mrs. M. Edwards,
Mr. and Mrs. R. T. Piner, Mr. and
Mrs. Steve Ford, Mr. and Mrs. W.
W. Inkman, Mr. and Mrs. Fred
Stephens, Dr. and Mrs. C. D. Bax-
ley, Mrs. A. A. Williams and Mrs.
W. H. Taylor of Monahans.

**Jinx Club Delightfully
Entertained at Two Parties**
Members of the Jinx club, a so-
cial club, whose members find di-
version in Bridge, were delightfully
entertained on Saturday March
31st, by Miss Winona Taylor at the
apartment of her sister, Mrs. Robert
Currie on Main Street. Three
tables of players were guests and
found interest in the games of the
afternoon. Around the tables of
pretty appointments, guests assem-
bled and enjoyed the play and
friendly bits of conversation. At
counting time when scores were
compared, high honor among the
club members went to Mrs. Lar-
son Lloyd. Miss Alice Graham-Bi-
shop made visitors high score.
A delicious luncheon in two courses
was served in a dainty manner to
the twelve guests.
On Saturday, April 7th, Miss Lu-
cille Trus was hostess to the club
members and a few invited guests
at her beautiful new home in Ed-
wards Heights Addition. In the set-
ting of beauty and charm the ta-
bles were arranged for the play,
and bridge was the diversion of the
afternoon. Miss Mamie Hair was
successful in making club high
score and Miss Alice Graham-Bi-
shop made visitors high score.
A pretty Easter theme was fea-
tured in the party details and
brought to a fitting climax on the
refreshment plate. Dainty salads
and less were served, with the lo-
cal made as Easter lilies. Plate fa-
vored were little rabbits and chick-
ens.
Those present beside the club
members were Mrs. Sidney House,
Mrs. Pat Buchanan and Alice Gra-
ham-Bishop.

**Homemakers Class Entertains
In Honor Of Mothers**
Tuesday afternoon in the base-
ment of the First Baptist Church,
the members of the Homemakers
class entertained their mothers and
members of Mrs. Buchanan's class.
After a short business session
conducted by our president, Mrs.
Roy Pearce, the meeting was turned
over to the Social President.
The social hour was opened by
all standing and singing "I Love to
Tell The Story." The first contest
was on the modern inventions that
our grandmothers didn't use. After-
ward a nut contest. The Postman
arrived with a letter for each one
of our guests. Much merriment
was caused when each of these
mothers read her letter as each let-
ter contained a stunt. We all voted
Mrs. J. W. Higgs' pantomime of a
"Doctor's Visit" great. Also enjoyed
Mrs. Crawford's imitation of a
flapper's walk.
She then asked two mothers pre-
sent to tell some embarrassing in-
cident in their daughter's lives
which created much fun.
Mrs. Sidney Woods then presented
the mother present with a cor-
sage of sweet peas and told them
that we hoped to be able to enter-
tain them all again next year.
Mrs. Heard, Mrs. Guy Tansitt,
and Mrs. Tom Cantrell served a de-
licious refreshment plate of sand-
wiches, potato chips, olives, tea
and cake.

MARRIAGE LICENSES
Otto Heckler, Miss Stella Heck-
ler, April 9.
William Ben Douglas, Miss Flor-
ence Lamuzza, April 9.
Edmund Notestine and Miss Vir-
ginia Barnett, April 7.
Juan Gallegos and Mrs. Carmen
Saniga, April 6th.
Better drinks... Cunningham &
Phillips.

**P. T. A. Council Met
With Mrs. B. Reagan**
An unusually interesting and del-
ightful meeting of the P. T. A.
council was held at the home of
Mrs. B. Reagan on Wednesday after-
noon. The spacious Reagan home
was open to members of the coun-
cil, who came together to close up
the unfinished business of the
year, and also to elect new officers
for the ensuing year. The elec-
tion resulted as follows:
President, Mrs. B. Reagan.
Vice president, Mrs. J. C. Dou-
glas.
Secretary, Mrs. R. H. McNew.
Treasurer, Mrs. L. L. Freeman.
Executive Board, Mrs. Ira Driver,
Mrs. T. E. Paylor and Mrs. A. H.
Bugg.
The Constitution and By-laws of
the National Congress of Mothers
was acted upon, and adopted by the
P. T. A. Council at this meeting.
At the close of the business ses-
sion, the guests enjoyed a social
hour. Mrs. Reagan ushered them
into the dining room, where deli-
cious refreshments were served.
Centering the beautifully laid table
was a clustering of Indian Blan-
kets and Bluebonnets, amassed in a
beautiful bowl. Mrs. Seth Pearson
poured tea, from a beautiful ser-
vice, which was enjoyed with dain-
ty cheese wafers, tea biscuits and
mints. Each guest was favored with
a Bluebonnet, Texas State Flower,
upon departure.

**Delightful Banquet at
B. S. Hardware Company**
An affair that proved a delight to
those attending was given at the
Big Spring Hardware Company last
Thursday night, when Mr. Hend-
erson and Mrs. Moore, representa-
tives of the Garland Stove Com-
pany entertained with a banquet. A
sales force from Midland, consist-
ing of 10, and the local force of
the Big Spring Hardware Com-
pany, were guests at the occasion.
Mrs. Moore, who conducted a cook-
ing school at the Big Spring Har-
dware Company the past week, pre-
pared the menu, and prepared it.
It consisted of Broiled Steak, new
potatoes, lettuce salad, Lima beans,
buttered beets, stewed prunes,
chocolate pudding with sauce and
coffee.
The meal was delicious and thor-
oughly enjoyed. Following it an
interesting program was given. Mr.
Henderson, factory representative,
gave a talk of special interest to
the sales force present. Mrs. Moore
also gave interesting ways to cook
certain things and put in some new
ideas in cooking.
The affair was thoroughly enjoy-
able.

City Federation Notes
The \$10.00 women are still re-
sponding to the call and the honor
roll is just about completed. In a
short time the revised honor roll
will be printed.
The members of the Federation
are grateful to those who assisted
in making the reception and ban-
quet honoring the P. T. A. delegates
a delightful success. This affair was
one of the most enjoyed social fea-
tures of the district convention. Es-
pecial thanks is due Mrs. Walter
Deats, and son Walter Jr., Miss Ev-
elyn Jackson, Mrs. Herbert Keaton,
for the beautiful music rendered
during the banquet, and also to the
Harmony Girls and the Sextette,
who also gave several delightful
musical numbers. Especial praise is
due the Methodist women who served
the delectable banquet, which
was indeed delicious, and served in
a dainty manner.
We thank you all.

gram.

**Junior High P. T. A.
Will Meet Tuesday**
The regular monthly meeting of
the Junior High P. T. A. will be
held at Junior High School next
Tuesday afternoon, April 17th at
8:30 o'clock. The election of offi-
cers for the new year will be the
business of the afternoon. The de-
tails of the P. T. A. convention,
and any unfinished business will
also be discussed.
It is hoped that all of the mem-
bers will be present, as the meet-
ing will be one of interest to all.

Mrs. Etta Middleton, formerly of
this city, has returned to Big
Spring and is now connected with
the Crawford Beauty Shop, where
she will be glad to see all of her
old friends and former customers.
Your doctor renders a necessary
service.... Cunningham & Phillips.

**Rural Extension Theme of 1929
Parent-Teacher Convention**
Idea of Officers to Establish P. T.
A in Every Rural School. Mrs.
Gilmore Re-elected President

The seventh annual convention of
the Sixth District Texas Congress
of Mothers and Parent Teacher As-
sociation, in session in Big Spring
April 5, 6, and 7 came to a close,
Saturday afternoon, and this was
declared to be one of the largest
and most successful conventions of
the sixth district. Largely attend-
ed by women from all over the state,
the majority of the visitors came
from West Texas towns. Many of
the guests from Sweetwater, Colo-
rado, Coahoma, Stanton and other
nearby points came for the day ses-
sions, and returned home each eve-
ning. The housing problems were
easily met, and Big Spring women
opened their homes to the dele-
gates, and extended them many
thoughtful courtesies and every
hospitality, while guests in Big
Spring. Cars were at the disposal
of the guests all during the day,
and every individual and organiza-
tion sponsoring entertainment for
the visitors attending the conven-
tion are due thanks for the big
way in which the district meeting
was put over. Mrs. B. Reagan was
general chairman and to her, un-
tiring efforts, and also others serv-
ing as committee chairmen are due
much of the credit for the success
of the convention. Other commit-
tee chairmen were: Credentials,
Mrs. L. L. Freeman; Securing
Homes Mrs. L. L. Freeman; Home
Assignment, Mrs. Steve Ford;
Transportation, Mrs. Ira Driver;
Pages and Ushers, Mrs. P. B. Bit-
tle; School Exhibits, Claude Win-
go; Hospitality, Mrs. Fox Stripling;
Registration, Mrs. J. C. Dou-
glas; Music, Mrs. H. Markham
Decorations, Mrs. E. H. Happel,
and Publicity, Miss Verbera Barnes.
Mrs. Sidney T. Gilmore, of Bon-
ora, president of the Sixth district
presided at the meeting. Mrs. Gil-
more was re-elected to the presi-
dency at the close of the session,
Saturday afternoon. Other officers
elected were:
Mrs. W. G. Davis, Sweetwater,
first vice president; Mrs. M. H.
Brasher, Abilene second vice pres-
ident; Mrs. T. J. Martin, Bracket-
ville, third; Mrs. Henry Seal Del
Rio, fourth; Mrs. L. L. Freeman,
Big Spring, fifth; Mrs. John Reil-
ly, Junction City, sixth; Mrs. L.
Lynn, Ballinger, seventh; Mrs.
Thomas Head, San Angelo record-
ing secretary; Mrs. Lem Johnson,
Sonora, corresponding secretary;
Mrs. Charles Gibbs, Midland histori-
an.
Life memberships were given
honoring Mrs. E. Reagan, presi-
dent of the City Council of Par-
ents and Teachers Big Spring;
Mrs. T. J. Wade, Barstow; Mrs. J.
S. Hudson, El Paso and in memory
of the late Mrs. G. E. Howard, Del
Rio.
The delegates from the local
Parent Teacher Association of the
Big Spring schools, and who repre-
sented them at the district meet-
ing last Thursday, Friday and Sat-
urday were as follows:
North Ward School—Mrs. Frank
Wilson, Mrs. A. H. Bugg, Mrs.
Johnson.
South Ward School—Mrs. Leath-
erwood, Mrs. Towseley, Mrs. Riggs,
Mrs. Harry Lees, Mrs. L. S. Pat-
terson, Mrs. T. E. Paylor.
Central Ward School—Mrs. E. H.
McNew, Mrs. C. T. Tucker, Mrs.
Wm. Dehlinger, Mrs. Claude Wingo
Mrs. A. A. Williams, Mrs. J. P.
Dodge, Mrs. J. C. Douglas and W.
T. Mann.
Junior High School—Mrs. Ira
Driver, Mrs. E. M. LaBett, Mrs. L.
L. Freeman, Mrs. Fox Stripling,
Mrs. W. A. Miller, Mrs. T. A. Bun-
ker.
High School—Mrs. Victor Mellin-
ger, Mrs. H. G. Whitney and Mrs.
E. H. Happel.
P. T. A. Council—Mrs. B. Re-
gan.

Rural Extension Theme
"Rural Extension" is to be the
theme of P. T. A. work during
1928. It is the idea of the associa-
tion to establish Parent-Teacher
organizations in every rural school
There are 4,000 now in Texas, and
in about three years it is hoped
that every community will have
one organized and working.
Fifty new P. T. A. organizations
were created since Mrs. Gilmore
has been in office, this signifying
that she has done splendid work,
and is capable of furthering more
organizations in the coming year.
The body of women endorsed the
State Congress plan of financing
the organization after detailed ex-
planation, which will take the
place of the common treasury
plan.
A new district was created at
this meeting, to be known as Dis-
trict 12. Officers elected were:
Mrs. E. R. Russell, El Paso, pres-
ident; Mrs. Irby Dyer, Barstow, 1st
vice president; Mrs. Ed Love, Bar-
stow, second; Mrs. J. E. Bean,
Van Horn, third; Mrs. Pink Phelps
Alpine, fourth; Mrs. Howard John-

son Fort Stockton, fifth; Mrs.
Mede Wilson, Marfa, sixth; Mrs. J.
W. McKee, Sanderson, seventh;
Mrs. Ross, Barmorhea, recording
secretary; Mrs. J. S. Hudson, El
Paso, corresponding secretary and
Mrs. H. C. Roberson Pecco, histori-
an.
While the sixth district has been
made smaller by this redistricting
plan, the area is still great.
Interesting Sessions
The program of the association
opened Friday morning, the differ-
ent delegates made their reports.
Musical numbers both vocal and
instrumental were enjoyed, and in-
teresting talks were made by some
of the distinguished guests of the
occasion. One especially enjoyed
number on Friday morning's pro-
gram was the "Health Play" in
which children of the intermediate
grades took part. Mrs. Fred Hop-
kins directed the play.
Sessions were held in the morn-
ing, afternoon and evening, and
also Saturday morning. The session
closed Saturday afternoon, with the
election of officers.
Bishop E. Cecil Seamon of Amar-
illo made the principal address of
the meeting, Friday evening. He
brought a wonderful message to
this group of women, and it was
especially appreciated. Dr. J. D.
Sandifer, president of Simmons Uni-
versity of Abilene, was to have
been here to address the conven-
tion but because of a late train, ar-
rived in Big Spring too late to ap-
pear.
The visiting women were given
an opportunity to inspect some of
the work done by the students of
the Big Spring schools, an exhibit
of their work being arranged in
the basement of the First Metho-
dist church. Some beautiful work
in writing, drawing and poster
work was on display, as well as a
number of papers, and themes, that
showed careful thought and excel-
lent work. The Big Spring schools
showed high rating by the splen-
did exhibit arranged for their
work.

Delightful Entertainments
Aside from the entertainments in
the homes for the visiting dele-
gates the visitors were honor
guests at several public functions.
The members of the City Federa-
tion delightfully entertained with
an informal reception and banquet
in the parlors of the First Metho-
dist church last Thursday evening.
At noon Friday the Chamber of
Commerce gave a banquet in the
basement of the First Methodist
church honoring the visiting dele-
gates. A delightful program was
given following the lunch. The vis-
itors were treated to a complemen-
tary drive through the courtesy of
the Big Spring Rotary, Friday eve-
ning. Upon their return from a
drive over the city, the women
were guests at a tea, given in their
honor by the P. T. A. of Big Spring.
Dainty salads, sandwiches, cakes,
candies and nuts were enjoyed
with the tea. The P. T. A. also had
the delegates as guests at a noon
day luncheon Saturday. All of these
functions were well attended, and
proved to be among the most en-
joyed features of the convention.
Big Spring Complimented
Everyone attending the seventh
annual meeting of the Sixth Dis-
trict P. T. A. expressed delight at
the hospitality extended them while
in our city. They declared the
meeting to be a most successful
one and thoroughly enjoyable. Each
one went home with profitable
ideas and new thoughts for their
work for the coming year.
The place for the next conven-
tion will be determined by the ex-
ecutive board.
Mrs. Gilmore requested the Big
Spring hostesses to refrain from
presenting her with flowers, and
expressed her preference for fram-
ed pictures. She received four beau-
tiful pictures, which she graciously
presented to the Big Spring schools.
Out of town delegates registering
were:
Miss Ruby Hopper, Roscoe; Mrs.
C. M. Moore, Roscoe, Mrs. Ross
Car, Barstow, Mrs. Irby Dyer,
Barstow, Mrs. B. W. Duff, Sweet-
water, Mrs. W. G. Davis, Sweet-
water; Mrs. C. L. Dittman, Mc-
Camey; Mrs. Barley McCollum, Mc-
Camey; Mrs. A. B. Chambers,
Sweetwater; Mrs. Winnie McCain,
Capitola; Mrs. G. T. Webb, Capito-
la; Miss Garce Ellis Capitola; Mrs.
T. J. Martin, Brackettville; Mrs. E.
C. Wilke, Del Rio, B. U. Duff Sweet-
water; Mrs. Raymond Roberts Si-
erra Blanca; Mrs. Woodson, San
Antonio; Mrs. A. G. Van Horn, Pe-
cco; Mrs. Grace, Fort Worth; Mrs.
B. F. Willis, Van Horn; Mrs. John
Hebbon, Big Lake; Mrs. R. B. Mc-
Donald, Big Lake; Mrs. W. E.
Downing, Big Lake; Mrs. S. C. An-
try, San Angelo; Mrs. C. A. Cow-
an, Menard; Mrs. Ike Murchison,
Menard; Mrs. Pressley Mauldiner,
Barstow; Mrs. Walter Burkholder,
Barstow; Mrs. Jewel Dunn, Gar-
den City; Mrs. Henry Neal, Garden
City; Mrs. V. B. Reeve, Hamby;
Mrs. Jeff Dables, Colorado; Mrs. J.
C. Coleman, Alpine; Mrs. Roy
Spence, Alpine; Mrs. W. L. Fuller,

**Miss Bonnie Wingo
Honoree at Party**
Bonnie Marie Wingo was the hon-
oree at a delightfully planned party
on last Saturday afternoon
March 31st, at the home of her
parents on Scurry Street, given in
honor of her eighth birthday anni-
versary. Between the hours of four
and six o'clock, jolly games were
enjoyed by the guests. At the end
of the play hour, the guests were
invited into the dining room where
the presents were opened by the
honoree. Many lovely gifts were re-
ceived. The lighting of the candles
by Bonnie Marie, and the big puff
to blow them out, was a delight to
everyone present. Much merriment
centered around the cutting of the
prettily decorated birthday cake.
Following were the lucky ones in
the cut: dime—Lillian Laney; ring
—Jack Stiff; button—Margaret
Wade; needle—Gertrude Laney;
thimble—Frances Lavern Towler.
Those enjoying this birthday party
with Bonnie Marie were:
Jennie Lucille Kennedy, Louise
Inkman, Addine Carter, Agnes Car-
ter, Eddie Ray Lees, Fay Runyan,
Francis Towler, Lillian Laney, Ger-
trude Laney, Margaret Wade, Le
Fern Dellinger, Lillian Read Hurt,
Harry Rogers, John Joe Gilmor,
Johnnie Stiff, Jack Stiff, Julian
Harris, Bill Inkman, John H. Lees,
Christine Wingo, Katherine Crab-
tree and Bonnie Wingo.
Each little guest received Easter
chickens as party favors. Delicious
refreshments of candy, lemonade
and cake were served.
Miss Faye Todd Entertained
the L. L. F. Club

The L. L. F. club met with Miss
Faye Todd Wednesday, April 11.
After the business of the club was
attended to a delightful program
was enjoyed. Ten members were
present at the meeting. At the re-
freshment hour dainty refreshments
were served.
Lilah Kinard, Anita Davis, Oneta
Prescott, Nelton McRea, Margaret
Alderson, Faye and Margaret Mill-
away, Hazel Reagan and Faye and
Eva Todd.

**Presbyterian Circles
Meet Monday Afternoon**
The three circles of the Women's
Auxiliary of the First Presbyterian
church will meet with the chair-
man of each circle, at three o'clock
Monday afternoon. All of the mem-
bers are urged to attend their re-
spective circle meeting. The follow-
ing will be hostesses:
King's Daughters—Mrs. T. S. Car-
le.
What-so-ever—Mrs. R. C. Strain
Dorcas—Mrs. J. B. Litter.

**Miss Lilah Kinard
Hostess to L. L. F. Club**
Miss Lilah Kinard delightfully
entertained the members of the L.
L. F. club Wednesday, April 4th.
Eight members were present. The
business was attended to and
games were played. Those enjoying
this happy affair were: Miss Faye
Milloway, Oneta Prescott, Hazel
McRea, and hostess Lilah Kinard.
—Reported.

**ATTEND BANQUET
IN ABILENE**
Mr. and Mrs. Hayer Stripling,
Mr. and Mrs. Leslie and Mr. and
Mrs. DeBout and daughter, Doris,
were in Abilene last Friday and
Saturday, where they attended a
banquet given in honor of the Woot-
ten Wholesale Grocery company.
The managers and salesmen of this
chain of wholesale stores attended
this affair. A delightful program
was given.
Miss Gladys Johnson, corsetier
for Her Gossard Corset Co. will be
at our store with her complete line
Saturday April 14th.—J. and W.
Fisher.

O. Alken and Miss Bertha Stem all
of Sweetwater.

**BIG SPRING ROTARY
CLUB RECEIVES CHARTER**
At the Rotary club luncheon here
Tuesday Ella Boyd of Fort Worth
governor of the 41st district Rotary
International, delivered the charter
to the Big Spring club.
Governor Ellis Boyd was the
principal speaker for the occasion
and said that this was the fifth
charter delivered in the 41st dis-
trict this year. "There are 2850 Ro-
tary clubs in 44 countries of the
world," he said, "2190 clubs being
in the United States. The work of
the clubs has been and is a great
factor in promoting business civi-
lization, as it were," he said, Govern-
or Boyd's talk rang with enthus-
iasm and inspiration.
The luncheon was in charge of
Rufus Wright of the Sweetwater
club, a candidate for the govern-
orship of the 41st district. After the
introduction of members James H.
Beall Jr., of Sweetwater gave a ve-
ry instructive talk on Rotary Clas-
sification. Buck Johnson of Sweet-
water club addressed the members
on Rotary citizenship. Dinty Moore
of the Abilene club entertained the
members with a humorous reading
and the program was punctuated
with club song numbers.
The officers of the Big Spring
Rotary club are: J. Fred Phillips,
President; Geo. L. Wilke, secretary
treasurer; the directors, including
the two officers are: B. Reagan,
Dr. E. O. Ellington, Bruce Frazier,
Dow Heard and Homer McNew.
The Big Spring Rotary club was
organized a few weeks ago with a
charter membership of 25. The
luncheon was attended by a num-
ber of Rotarians.
The visiting Rotary members
numbered 21; from Midland club
were: P. J. Mims, Geo. D. McCorm-
ick, Fred A. Wemple, Jr and Wm.
E. Fryer. From the Sweetwater
club: Mr. and Mrs. Abe Levy, Wal-
ter Davis, Caleb Simmons, Mr. and
Mrs. Rufus Wright, Mr. and Mrs.
B. Edwards, Buck Johnson, Monte
E. Owen, James H. Beall Jr., Mr.
and Mrs. Dave Craft, S. E. Ramsey
R. K. McAdams, and Hubert Toler.
From the Abilene club: E. C. Pow-
ers, Dinty Moore and E. R. Mc-
Daniel. From the Ft. Worth club:
Ella Boyd and S. T. Johnson.

**WEST CENTRAL DEALERS
OF FRIGIDAIRS MEET HERE**
Big Spring was host to the Frig-
idair Dealers of the West Cen-
tral Division on Thursday of this
week. The meeting was held in the
Crawford Hotel, beginning at 1:30
o'clock in the morning, closing at
5 o'clock in the afternoon. Quite
a number of out of town dealers
attended the session. Noonday
luncheon was served by the Craw-
ford Hotel Coffee Shop.
The delegates made reports and
the out come of several contests
announced. S. L. Everhart, local
dealer, was winner in one of the
contests, and received a beautiful
silver dessert set of six dishes. E.
J. Thompson turned in the most
orders of the group and he received
a fine fountain pen.
Interesting talks were made by
P. M. Bratten, president of the F-
M. Bratten Company of Ft. Worth,
C. T. Watson, secretary of the Big
Spring Chamber of Commerce and
others.
Those attending this district
meeting were: P. M. Bratten of Ft.
Worth, Mr. and Mrs. R. W. Mul-
ford, Dee McCormick of Midland,
W. H. Stewart of Midland, E. J.
Thompson and wife of Snyder,
Mr. and Mrs. Fred C. Hopkins,
Mike Smith of Colorado, Mr. and
Mrs. J. S. Kellam of Brownfield,
R. E. Withers of Sweetwater, Mrs.
A. Brand of Sweetwater, Mrs. Her-
man Berge of Sweetwater and S. L.
Everhart and Miss Zou Hardy of
this city.

**HIGHWAY TRAMPS
ARE INCREASING**
Very few autoists have the nerve
to give any of the vast army of
young tramps now meandering
along our highways a free ride. A
fellow is just inviting trouble when
he picks up any of these hike-ers.
Most every day you note in the
daily press where some poor hack
has lost his life, his auto or his
purse because he felt sorry for a
hike-er and consented to give him
a free ride. It just won't do to
pick up these folks who are too
trifling to work and are out after
easy picking, and they stop at no
crime to gain their ends.
It is a pity Uncle Sam is not able
to keep some big highway building
reclamation projects or other pub-
lic work underway in dull seasons
so those who really wanted to
work might do so. In that case
we would know just what to do
with these drifters and highway
noddies.
If the highway tramps keep in-
creasing they will just naturally
take the highways away from the
tourists.
Mrs. Will Dickenson and family
of Haskell are the guests of her
cousin, Mrs. E. H. Happel and fam-
ily.
Mrs. G. L. Wilke and daughter
Miss Mary Alice plan to spend this
week end in San Angelo.

GROWTH OF DAIRYING IN WISCONSIN
The Wisconsin dairy industry has continued to make progress since its beginning about 1870. Not only have the farmers and dairymen increased in size and numbers of their herds, but the production per cow has kept pace with all other phases of the industry. It may be interesting to note the progress made as represented by the following official statistics:

Census	No. of Cows
1870	308,000
1890	793,000
1900	968,000
1910	1,474,000
1920	1,795,000
1925	2,050,000

It may be interesting to our farmer to know that Wisconsin was once a one crop State with worn-out soils and poverty stricken farmers. Early Wisconsin farmers were wheat minded. Like our farmers who claim that cotton is the only safe crop, these farmers swore that wheat was the only thing that could be grown and many of them clung to that idea even though they had to move to Minnesota and the Dakotas to break new sod. But Southern Minnesota and the Dakotas soon contracted the disease which had troubled Wisconsin. Soil fertility became depleted. It was the wheat sick, and they in turn were forced to change the farm program.

From 1912 to 1922 including years of almost panic in other States, Wisconsin increased in wealth from \$4,200,000,000 to \$7,800,000,000 or 82 per cent against an average of 72 per cent for the Nation.

From 1917 to 1925 the total income of individual residents taxable under the Federal law increased by 133 per cent against 95 per cent for the Nation.

In each of the last twenty years Wisconsin has had a lower percentage of commercial failures among the States of the Union. Only one public utility company has failed in twenty years.

Eighty five per cent of Wisconsin farmers own their farms. Wisconsin ranks third among the States in miles of surfaced highways and fifth in concrete construction.

Wisconsin farmers milk 2,100,000 cows, not quite 10 per cent of the total number of producing cows in the United States.

Wisconsin cows produce 10,000,000,000 pounds of milk annually and bring to the farmers \$270,000,000.

Farmers and breeders sell 85,000 dairy cattle yearly at a total price of \$10,000,000.

There are 150 testing associations with a total of 4,420 members. There are 108,000 silos in use on Wisconsin farms.

Wisconsin ranks first the production of cheese; first in powdered and condensed milk; second in butter production; first in production of peas for canning; first in production of cigar binding tobacco; second in acre yield of oats; second in tame hay; third in acre yield of corn, and holds the world medal on production of barley seed. Nearly every farmer in Wisconsin is a judge of good seed.

Livestock on Wisconsin farms consuming home grown feedstuffs brought the farmers of that State from a condition of poverty to one of prosperity. In Wisconsin dairying took an early lead. In the Southwest where soil and climatic conditions are diversified, farmers have a greater range of selection of field and storage crops, therefore the opportunity of specializing in any kind of livestock best suited to their conditions.

Iowa, for instance, is developing dairying, but the most important industry is the production of corn, barley and other feedstuffs for the consumption of hogs and cattle. Iowa leads in swine production and in the finishing of beef animals for the market. They produce their own hogs, but purchase their steers from Texas and other Southwestern states, also trainloads of lambs and use them as a market for their feedstuffs. Thus the fertility of Southwestern farms is transported to Iowa to make soils richer and more productive in that State.

What dairying has done for Wisconsin, livestock farming and feeding can do for the Southwest. The Southwest is growing industrially. Local markets are becoming more important. The dairy industry should be developed along safe and sane lines. We should learn the art of feeding our own products and ship our beef steers, our lambs, hogs, sheep and goats, to the market ready for slaughter. Good breeding, right feeding and attention to planning a crop program which will occupy all of our working hours will bring about the desired reduction in cotton acreage, improve the acre yield and the quality of the staple and change farming from an occupation to a business.—Farm and Ranch.

STERLING LIVESTOCK BRINGS GOOD PRICE
Both sheep and cattle are selling to a good demand in Sterling County. W. N. & L. R. Reed sold Walter Lee of Sterling City 1,200 coming yearling ewes at \$11.50 per head and 20 ewes at \$9 per head. These sheep were delivered at Mr. Lee's ranch on March 20.

Reeves Bros. of Garden City, Kans., have contracted about 1100 coming yearling steers at \$20 per head, delivered about April 10th, from following parties: Tom Sewell 200 head; Geo. McEntire, 200 head and Reed boys, about 600 head. These yearlings are all Herefords and raised in Sterling County.

ENGLAND'S RUBBER MONOPOLY TO END NOV. 1ST

Washington—Automobile tire prices will be much cheaper as a result of the British government's decision to remove export restrictions upon rubber from British Malaya and Ceylon, government experts told the United Press today. Premier Baldwin's announcement that British export restrictions would be removed November

1 was interpreted by some officials here as meaning that governmental assistance to that industry was impractical.

 Mr. and Mrs. W. A. Gilmour sold to G. C. Potts the south half of lot 10 block 19 in Big Spring.
ROAD COMMITTEE TO GET BUSY
 G. W. White, M. H. Morrison and L. H. Thomas have been appointed a committee to confer with the Commissioners Court of Howard County and with the State Highway Commission with a view of starting a movement looking to the hard surfacing of Highway No. 9, the Glacier to Gulf Motorway.
 Believing that now is the time to secure a hard surface highway through our county this committee is securing all necessary data as to the amount of bonds necessary to carry out this program.
 By voting bonds for good roads now, the oil industry will materially aid in paying for our good roads.
 Your teeth ought to be clean... We have the brushes... Cunningham & Phillips.

GOVERNMENT BY LAW
 The Constitution of the United States was drawn and perfected by the ablest body of men ever assembled to launch and establish a government to be ruled by law.
 Three departments were created—one makes the laws, another carries out the laws, and a third interprets the laws. Officials are chosen to enforce the laws.
 The first article in the Constitution creates the Legislative Department—much the longest article, occupying more than one-third of the entire document.
 Every department acts upon laws administered by laws and is governed and controlled by laws. Very few individual rights or property values have any existence outside of laws creating them.
 Our government is essentially created to obviate and nullify the practice and effects of Communism

GOOD NEWS FOR CHICKEN THEEVES
 Austin, April 4.—The attempt of the thirty-ninth legislature of Texas to impose a felony penalty for chicken stealing was knocked out by the court of criminal appeals today. The penalty clause of the state statute was held faulty.
 The decision was handed down in the case of Dick Redding, Redding appealed from Franklin county. Judge O. S. Lattimore writing the opinion, declared the legislature showed a purpose to let a jury in one part of the state call the offense a felony and in another a misdemeanor.
 The world's population is increasing at the rate of about twenty million a year.
 Bolshevism and anarchy in its operation.

Clyde McGinnis returned the fore part of this week from Dallas, where he has been in the employ of the Maytag Company, manufacturer of aluminum washing machines. He has accepted a position with the Allen Grocery Company in this city.

 A diamond ring valued at \$23,000, was taken from the stomach of a large fish caught off the coast of Norway, has been turned over to the American Consul as probably one reported lost off Florida several years ago.
 Mrs. T. E. O'Keefe returned to her home in Fort Worth Saturday night.

Look at the bottom, look inside
 and listen to it!

GENERAL ELECTRIC Refrigerator

When you buy an electric refrigerator, do a bit of investigating on your own. Look under the cabinet, look carefully inside it, and, above all things, listen to it.
 When you look under the cabinet do you find moving parts of machinery or no machinery at all? In the General Electric Refrigerator, you'll notice at once that all the models are up-on-legs. This means an easy job cleaning under them. And it also means that all the machinery is safely sealed away in the air-tight steel casing which you see on top of the cabinet.
 Look inside. Is there really ample food space? You will find in the General Electric Refrigerator that the chilling chamber is amazingly com-

compact. It actually takes little more space than the trays in which your ice is frozen.
 Then listen. This you must do. We want you to judge for yourself the quietness with which the General Electric Refrigerator operates.
 All these things are vitally important. But be sure to consider, too, the organization which makes it. The General Electric Refrigerator is the product of fifteen years of research in the laboratories of General Electric.
 Come in and see the many models. Notice their absolute simplicity. Make comparisons with other refrigerators. If you write us, we will be glad to send you a booklet which gives complete descriptions of the various models.

Texas Electric Service Co. "Your Electric Servant" Made and guaranteed by General Electric.

FORTY FIGHTERS FALL FOR FLIRT

WARNER BROS. present
Dolores Costello

Each football player in her father's college believed himself to be her future husband—then—

Directed by ARCHIE L. MAYO

A WARNER BROS. PRODUCTION AT

TWO DAYS
MONDAY and TUESDAY
 APRIL 16---17

She was the Prexy's beautiful daughter. Each football player in her father's college believed himself to be her future husband. She got recruits for the football team by flirtation. They swept the college to victory all for her sake—then they found out her secret—some one had warned them.

"Beware—Take Care! She's only fooling," but it was too late for the forty widowers she had fooled!

POOR MEN'S WIVES
A United States Treasury Clerk, testifying before the House committee, has paid one of the finest tributes to American womanhood that ever appeared in print. This man who receives yearly the magnificent sum of \$1800 from his employer, Uncle Sam, made this eloquent speech in a voice shaken with tears.

"Everybody," said he, "gives my boss, Mr. Mellon credit for being a financial genius, and this is right. But, gentlemen, the real genius is my wife, who takes \$120 every month and cares me and our three children."

I defy you to find anywhere a lovelier compliment. And what a picture it brings before us. In long and endless procession they march down the years, these wives of poor men who have done miracles and, doing them, have asked no reward.

Such are the women whom we have generally dubbed incompetent. True, they can write no books. They do not paint pictures. They are not fashion experts, and never shine a social way. But they can bring up decent children and keep a husband fairly well fed and reasonably happy on a sum so pitiful that a millionaire would scorn it as a cigar allowance.

This is the type of American woman who for years was too insignificant to be educated. She was too stupid to vote, too impractical to help govern her state or her nation. She was too unreasoning and visionary to be permitted to help with large responsibilities and even today she is neglected and disdained by many of the idle and useless. She is called old fashioned and is regarded as a typical moron.

But does Henry Ford with all his business acumen actually exhibit any greater financial genius than she? Did the military victors of the greatest generals take any more careful planning than her yearly battle against starvation? Does the clementary valor of the most spectacular hero who ever lived equal the splendor of her daily courage? Where else will you find combined in one person such patience, bravery, industry, sagacity, thrift and love?

She's your true American woman this wife of Poverty Row who asks no favors from fate and who dies in her boots, as much the man as any soldier.—Mrs. Walter Ferguson in Fort Worth Post.

NEW MEXICO MILITARY INSTITUTE SUMMER CAMP
Additional buildings are being constructed in the White Mountains to take care of a larger enrollment at the New Mexico Military Institute Summer School for 1928. Known throughout the country for its famous winter school, the Institute last year established a Summer School in the White Mountains seventy five miles west of Roswell.

In a setting of magnificent mountains, adjacent to the Mescalero Apache Reservation, was constructed a beautiful and permanent building of native rocks. The Main Building is undoubtedly the most beautifully designed structure in any part of the well known mountain resorts of New Mexico. The school is as modern as the permanent winter quarters of Roswell.

The Summer School opens this year on June 11 and closes on August 4. The total charge of \$175 for the eight weeks is undoubtedly the lowest in the country.

Not only does the camp offer an opportunity for a boy to make up any high school subject in which he is deficient, but also the recreational facilities and the athletic development make this summer in the cool mountains both profitable and enjoyable.

The camp is divided into two groups, the Junior School for boys from ten to fifteen years of age, and the Senior School for boys from fifteen to twenty. The work of the two schools is separated as much as possible, so that the boys work in their own age groups.

Enrollment will close about June 1, as the camp facilities permit only about seventy-five boys to be accepted.

Mr. and Mrs. N. H. Rowan spent Sunday and Monday in Abilene visiting friends.

LIVE AT HOME PRACTICED BY FARMERS IN HOWARD
The farmers of Howard County are fast adopting a program of live-at-home they are growing their meat, and producing cream, butter, eggs and poultry in paying quantities.

Among such farmers is N. H. Montgomery, who lives 12 miles northeast of Big Spring. He came to this section from McLennan County, Montgomery declares that during his four years farming in Howard County he has outstripped any corresponding time spent in Central Texas, where he says that the land requires such intensive cultivation. During March Montgomery set 100 dozen eggs in his incubator, sold enough eggs and cream to add \$72 to the family income, which was approximately \$2.50 per day, this paying the operating cost on his farm during the month.

Seven hogs were killed for family meat, each averaging 350 pounds dressed. During the year 11 hogs were sold to the butchers at prices as high as 15 cents dressed. The entire meat production figured at market price would have netted \$656.25.

Montgomery uses the Brown Leghorn breed. He says the hawks and vultures are not so bad after this breed, it being a dark color and very active.

During 1927 Montgomery gathered 85 bales of cotton, most of which came from 65 acres that he planted on June 25.

The Big Spring Chamber of Commerce is carrying on an active program of agriculture improvement and is giving a great deal of attention to better seed and better livestock.— Ft Worth Star Telegram

EAT GREEN NOT CANNED VEGETABLES
Have you a kitchen garden? And have you planted lettuce, onions, cabbage, beets and many other of the needful vegetables, some of which should be on your daily table? Green vegetables furnish the vitamins your diet should include so do not open a can because it is easier. "But" I heard it said, "I think canned asparagus tastes better than fresh." It will not taste better if you will learn to season and cook it properly. A recent experiment was made in feeding green asparagus to one group of rats and blanched tips to another. It was soon seen that the animals fed on the green asparagus were growing normally while the controls died. "The list of vitamin carrying vegetables has recently been increased by the addition of watercress."

The Women Know What It's All About

THE Delco-Light Company ran an ad in the magazines that showed a lot of pictures of farm women. Then it told what all these women said about Delco-Light—how it saved money—increased egg production—lightened housework—made farm life pleasant and agreeable. It looked to me as though the women were as keen about Delco-Light as the men. So this is a special invitation to farm women to come in and find out how Delco-Light brings city comforts to the farm. I am the Dealer in this territory. Come in and see Delco-Light.

VINCENT ITEMS
 (Received too late for last is-
 sue.)
 Sunday School was fairly well at-
 tended last Sunday but we hope to
 have more next Sunday. Come and
 be one of us.
 Our principal of the School, Mr.
 A. C. Tate, was unable to teach
 Monday on account of injuries he
 received when the car in which he
 was riding ran into a pipe line
 ditch, a few miles from Roscoe,
 Texas. Mrs. Ruth Riggins is teach-
 ing in his place until he recovers.
 We wish for him a speedy recovery.
 Miss Arvie Bishop spent the
 week end with home folks in Abi-
 lene.

Mrs. G. W. Garlington of Wichi-
 ta Falls is visiting her daughter,
 Mrs. Charlie Rutledge.
 Miss Bethel Harding left last week
 for Abilene where she will enter a
 business college. She was accom-
 panied to Abilene by her mother,
 Mrs. S. J. Harding and Jerry Hard-
 ing.
 Miss Joye Harding spent the
 week end with Mrs. Ruth Riggins
 in Big Spring.—Reporter.

Mrs. H. H. Bennett, enroute
 from a visit in California, to her
 home in Ellsworth, Wisconsin, vi-
 sited her cousin, Miss Gertrude Mc-
 Intyre in this city a few days this
 week.

You need to know only a few of the exclusive superiorities offered by today's Pontiac Six to understand that its sensational success is based on sensational value. It is the lowest priced six in the world with body by Fisher. It is the lowest priced six offering the G-M-R cylinder head, the cross-flow radiator and the AC fuel pump. It is the only low-priced six combining 185 cubic inches piston displacement, a full-pressure oiling system, interchangeable main bearings and instant action four-wheel brakes. Add to these evident advan-
 tages in design the fact that it is the lowest priced six built by General Motors—that in the hands of 200,000 owners it has won a worldwide reputation for endurance, long life and high resale value—and then you will know why Pontiac Six sales are continually reaching new record-breaking heights!

Coupe, \$745; Sport Roadster, \$745; Phaeton, \$775; Cabriolet, \$795; 4-Door Sedan, \$825; Sport Landau Sedan, \$875. Oakland All-American Six, \$1045 to \$1265. All prices at factory. Delivered prices include minimum handling charges. Easy to pay on the liberal General Motors Time Payment Plan.

HEINIE JOHNSON OPENS SIGN SHOP IN WARD BLDG.

Big Spring's newest sign shop has been opened up in the basement of the Ward building, just opposite the Postoffice, and Heinie Johnson is owner of same. Mr. Johnson came to Big Spring from Huntington, Ill., and he comes to us highly recommended as an expert sign painter. He has had years of experience in this kind of work and knows his business from A. to Z. He has been in the city only a few weeks, but he has secured several pieces of work that are receiving praise. He has recently decorated the windows at the Crescent drug store, A. G. Hall, Modern Shoe Repair Shop, Cowden and Jones, Insurance office, Mohr, the Jeweler, Big Spring Public Service Co. and other places.
He also paints signs for houses, show cards and does other paint work.

EXPRESSION OF THANKS

We wish to take this method of extending thanks to those who so willingly opened their homes and extended hospitalities to the delegates and guests attending the district P. T. A. convention and also to everyone who gave their car for transportation purposes during the convention. Without your cooperation we could have never made the convention the success that it was. We appreciate the help you gave us. Many thanks.
Mrs. Ira Driver, Transportation Chairman.
Mrs. L. L. Freeman, Homes Chairman.

CARD OF THANKS

We wish to publicly express our sincere thanks and appreciation to everyone who assisted us in making the District P. T. A. Convention the great success that it was. To everyone who opened their homes to delegates, served on committees, had their car at the disposal of the delegates and guests, took part in the program, or assisted in any way, we are grateful, and sincerely thank you.
P. T. A. Council.

DEATH CLAIMED CHAUNCEY M. DEPEW

Chauncey M. Dewey, aged 61 years, and known as the "Grand Old Man" died in New York City April 5th. He was our most famous After-dinner Speaker. He was interested in politics and business right up to the last. He was known as an incurable optimist—and also a man with a single enemy.
Compare quality and price—Figgly Wiggly Market.

With extension of free mail delivery, and public convenience depending in a measure of placing street signs in our city, it does seem that the City Commission would be justified in making the necessary expenditure. Then we might persuade the citizens to have the houses numbered. It's somebody's move.

A delegation of women from the Big Spring Baptist Churches are attending the district convention in Colorado this week.

REAL ESTATE BOARD MEETING

Fifteen members of the Big Spring Real Estate Board met at the office of the Chamber of Commerce Wednesday night to pass on several vital matters.
Secretary Watson submitted the plan of turning over to the members of the Real Estate Board the free rental service of the Chamber of Commerce. He explained that only the firms agreeing to have some one in the office to handle the calls and treat all persons seeking such information courteously, would be entrusted with this service. Any firm failing to meet the requirements would be dropped and if complaint was made of service rendered the Chamber of Commerce would take over the service.
The following firms agreed to handle the free rental service: Cowden and Jones, T. H. Johnson Land Co. and Carter Bros. These firms will begin this service on May 1st.

The question of water mains was next up for discussion and several argued that the water mains being extended to the outlying portions of the city were entirely too small. They contended this can be noted in time of fire when oftentimes the fire hose is drawing more air than water from the water line.

A committee composed of Rube Martin, Raymond Lyons and Mr. Carter was named to meet with the City Commission and urge the installing of mains adequate to give the growing additions sufficient water for domestic uses and fire fighting purposes.

NOTED SINGER GIVES ESTATE TO DISABLED SOLDIERS
Madame Ernestine Schumann-Heink, famous singer, announced recently she had given her estate at Crossmont, 14 miles from San Diego, Cal., to "her boys"—disabled war veterans of the World War.
The noted singer announced that she had bequeathed the \$200,000 estate to Mayor George E. Leach of Minneapolis, to be administered as a haven for sick and disabled veterans and their families.
She gave the home, she said, to show her love for the "boys" who played "taps" for her two sons who lost their lives in the World War, one fighting for Germany and the other for America.

What They Put Up With
First Working Girl: "Does your boss ever get fresh?"
Second Working Girl: "Yes, just yesterday the old fool told me to get busy."—Life.

Plenty of help to wait on your next Saturday—Figgly Wiggly Market.

It often happens that the farmer is so busy with his crops and the duties of the household are so heavy on the farm woman that the garden is neglected. Here is a big chance for a boy or girl in such a family to do a good piece of work.

Found paper, all kinds and colors. Collins Bros. Drugs.

Ladies' Wrist Watches—over 100 to select from and priced exceedingly low. "A Better Watch for Less Money," at Wilke's, Big Spring's Leading Jeweler, in Douglas Hotel Bldg.

The suggestion that the Real Estate Board relieve the Chamber of Commerce of the free rental information service is an excellent one. An arrangement could be made whereby each firm in turn and for a specified period would supply one from their office for this service; and some central location could be selected as a permanent office for this needed service.

Try a good roast and stew from Figgly Wiggly Market.

Eighty coils and a large amount of bedding arrived by express last Friday for the Shell Pipe Line Co. and were taken to Glasscock County where this company is having a pumping station erected. Much building material for this construction of the pumping station is now being trucked from Big Spring.

Sterling Silverware—no matter what pattern you have, we can match it and at a very reasonable price.—Wilke's, Jeweler and Optician, in Douglas Hotel Bldg.

A Spring tonic that we recommend Collins Bros. Drugs.

An engineer is now at work to map out a course for the flood waters in the South part of the city to be diverted Eastward. An effort will be made to divert the waters into a draw which will carry the water to the Big Spring draw beyond the Eastern limits of the city.

Mr. Mitchell, book-keeper of the Cameron Lumber Company, arrived this week to assume his duties in the offices of the company in this city.

Mrs. C. W. Sink of Vealmoor was a visitor in Big Spring last Thursday.

ENGINE REPAIRS MADE

or any other kind of auto repairing is quickly and efficiently done in our auto repair shop, very often while you wait or while your car is idle when you are attending to business. CLAUDE WINGO

VISITS CISCO
The Chamber of Commerce of Cisco called the pastors of the Christian churches of West Texas and paid their expenses to Cisco April 10. Cisco is proud of Randolph College and this group of business men wanted to know the school. Randolph College is situated on a hill overlooking the city of Cisco and occupies 50 acres that were donated by that city. This school is the only co-ed Junior college of the Christian churches in America.

The school has an enrollment this year of 200 coming from 12 states. Boys and girls in rural communities who must leave home to get the last two years of high school work can find in Randolph a school of the highest type. Teachers who must be earnest Christians before they are selected to a place in the school, a home like atmosphere and with all a desirable place to do the first two years of college work.

I was glad to have this opportunity to meet the teachers and pupils of Randolph. I was glad to learn the spirit of Cisco concerning the school. With all I am proud that Big Spring has two young people in the school.

If you want to go to school, if you are willing to be clean, if you are willing to work hard you can get two years of college work in Randolph that is recognized by the College Association of America as a school of standard type. If you are short of funds but are willing to work to get an education, get in touch with Claude Wingo, Pastor First Christian Church Big Spring, or write to T. T. Roberts, President Randolph College, Cisco, Texas.

Claude Wingo.

STILL PRAISE BIG

SPRING MEETING
Shine Phillips, president of the State Druggists association, says he continues to receive words of praise for the district convention held in Big Spring last month. It has been suggested by one of the members of the executive committee that the one day program as held in Big Spring, with the same speakers and entertainers—be duplicated in the State Convention at Abilene next June.

MOVING LARGE

APARTMENT HOUSE
Mrs. Clara Eddins recently purchased a lot 50x140 feet at the corner of East Fifth and Runnels St. from H. Clay Read and has let the contract for moving her large two story apartment building to this site.

The lot, or a portion of it, on which the apartment building now stands, has been sold to Cunningham and Phillips who plan to have an office building erected thereon.

Carry home some ice cream Cunningham & Phillips.

F. F. TAYLOR WANTS TO BE SHERIFF & TAX COLLECTOR

We are authorized to announce F. F. Taylor as a candidate for the office of Sheriff and Tax Collector of Howard County. He announces subject to the action of the Democratic Primary July 22, and his name appears in the announcement column of the Herald.

It is hardly necessary to introduce Mr. Taylor to any but our newer citizens since he has resided in Howard County the past 21 years and has many friends in every section of the county.

Mr. Taylor has no long string of promises to make in order to win votes. He is just going to do his full duty, and enforce the laws with fairness and impartiality and do his best to rid our county of criminals and crooks of every character.

Mr. Taylor is an honest and upright citizen, qualified in every way to make us an able and efficient sheriff and tax collector and he will appreciate the good will and influence of all good citizens in this race.

You are requested to give Mr. Taylor's candidacy careful consideration when preparing your ballot in the July primary.

FORMER BIG SPRING BOY RETURNS FROM EAST INDIES

Hubert Barton, a graduate of the Big Spring high school arrived in this city Tuesday from San Angelo, where he has been for a brief visit with his parents. Hubert will be remembered by many of the Big Spring people, where he made his home for several years, while attending the Big Spring High School. For the past year he has been in the East Indies in the employ of the Standard Oil Co. He completed his work over there and for the next few months, he will be located in Texas, with headquarters at Dallas. He is still working for the Standard Oil Company.

In the proposed plans for our new school building we should consider the fire hazard. It is not best that we have our main school buildings all jammed up together to be wiped out in case of fire. In the long run it might be best to erect a High School building apart from the others; utilize the present High School building as a Junior High and use the present Junior High for a Primary and Grammar school for the fast growing southern portion of our city and the central portion.

All kinds Dr. Le Gear's Remedies. Collins Bros. Drugs.

One of the early American locomotives was propelled by joint legs that pressed or "kicked" against the ground in the rear. A speed of two and a half miles was attained.

ATTENDING MEETING OF PRESBYTERY IN CARLSBAD

Rev. R. L. Owen and W. T. Mann left Tuesday for Carlsbad, New Mexico where they will attend a meeting of the Paso Presbytery. While in Carlsbad they will also visit the Famous Carlsbad Cavern. Mr. and Mrs. Le Roy Echols of Coahoma, are also in Carlsbad attending the Presbytery.

BIG SPRING ROTARY INVITED TO ATTEND DISTRICT MEET

Lubbock, Texas, April 12.—Every indication points to the biggest and best district convention ever held in the Southwest when the 41st district of Rotary International meets in Lubbock April 19 and 20, Ellis H. Boyd, Fort Worth district governor, stated here today.

Boyd is in Lubbock on business for the 41st district and to help the Lubbock Rotarians work out every detail for the convention next week Monday. Boyd was one of the principal speakers at the Rotary luncheon which had been moved up to give way to the district Parent Teachers' Association convention which is meeting here this week. Monday evening he went to Ralls, together with a number of Lubbock Rotarians to deliver a charter to the new club house. Tuesday Boyd went to Big Spring to deliver a charter to a new club in that city.

While here Boyd stated that interest is growing over the 41st district as the time for the convention approaches. Memphis and Ranger will be out for the 1929 convention and special pullman cars will be employed to bring the club members from those two cities to Lubbock.

Jed A. Rix, general chairman of the committees here is well pleased with the work that is being turned in and states that everything will be ready for the Rotarians and Rotary-Anns when they arrive. Over 500 visitors are expected.

Mrs. Ora Blankenship left Wednesday for Abilene, where she has accepted a position in the Grison's Department store. Mrs. Blankenship's many friends in this city regret to see her leave Big Spring, but extend best wishes for happiness and success in her new home.

When a Chinese host feels that guests have remained long enough he serves tea, a signal for departure.

THE TIDES OF FASHION

WHILE, of course, these are certain characteristics that appear with frequency in the new hats, it is quite safe to say that no two hats are alike this season. There are brimmed ones and those sans brims, and the numerous ways in which detail is achieved seem countless. The Large Hats, the accepted mode for Spring and Summer, are of Straw Hair Braids and Milan Straw with Silk and Satin combinations. The Touque and Cloche Hats are of Crochet Straw, some are trimmed with a profusion of little flowers and leaves while others are conservatively plain. We are genuinely proud of the prices in this wonderful display of New Millinery.

March 26, 1928
TO ALL DEMOCRATIC COUNTY CHAIRMEN:

The herein quoted resolution was adopted by the State Democratic Executive Committee at a meeting held in Austin on Feb. 28, 1928, and pursuant to its terms the same is being forwarded with the request that all necessary steps be taken to communicate the same to the respective Precinct and County Conventions in your county.

Attention is particularly called to the provision of Article 3134 providing that "immediately upon adjournment of such county convention, the president thereof shall make out a certified list of the delegates to each of said conventions (in this case the State Convention) chosen by such County Convention and shall sign the same, the secretary of such Convention attesting his signature and shall forward such certified list by sealed registered letter to the Chairman of the State Committee who shall present the same to the respective committees prior to the Convention."

It will facilitate the handling of the lists of delegates if they will be mailed immediately after adjournment of the County Convention to:

D. W. Wilcox, Chairman State Democratic Executive Committee. Care: Richard T. Fleming, Secretary, 417 Public National Bank Bldg. Houston, Texas.

Please take every step to see the President and Secretary of your county convention to the end that this is done.

It would also be advisable for your County delegations to the State Convention to bring thereto a duplicate certified list of delegates to avoid the possibility of loss or miscarriage in the mail.

The resolution adopted is as follows:

"WHEREAS, Article 3167, R. S., 1925, providing for the election of delegates at precinct conventions to county conventions, and for the election of delegates at county conventions for the State convention, to elect delegates to a National Convention, is silent as to the number of delegates to be elected at the precinct conventions and the number of delegates to be elected at the county conventions to the State convention; and

WHEREAS, it is desirable that uniformity of practice be established throughout the State with respect to these matters;

THEREFORE, BE IT RESOLVED, that it is the sense of the State Democratic Executive Committee as to these matters, that the same should be controlled by Article 3134, R. S., 1925, providing in substance that a county convention shall be composed of one delegate from each precinct in the respective counties for each twenty-five votes, or a major fraction thereof, cast for the party's candidate for governor at the last preceding election, and further, that the county conventions shall elect one delegate to the State convention for each three hundred votes, or a major fraction thereof, cast for the party's candidate for governor in such county at the last preceding general election, and further that the terms and provisions of Article 3134 shall apply with respect to perfecting and evidencing the Democratic party organization with respect to the precinct, county and State conventions, for the purpose of electing delegates to the State convention to elect delegates to the Democratic National Convention.

BE IT FURTHER RESOLVED, that the Chairman of the Committee be and is hereby directed to instruct the various County Chairmen to communicate this resolution to the several and respective precinct and county conventions."

Your attention is called to Article 3167, R. S., 1925, which is as follows:

"Any political party desiring to elect delegates to a national convention, shall hold a State convention at such place as may be designated by the State Executive committee of said party, on the fourth Tuesday in May, 1928 (May 22nd, 1928, at Beaumont) and every four years thereafter. Said convention shall be composed of delegates duly elected by the voters of said political party in the several counties of the State at primary conventions to be held on the first Saturday in May, 1928 (May 5th, 1928), and every four years thereafter. Said primary conventions shall be held between the hours of ten o'clock a. m. and eight o'clock p. m. These primary conventions shall elect delegates to the county conventions of the several counties,

which shall be held on the first Tuesday after the first Saturday in May, 1928 (May 8th, 1928), and every four years thereafter. The qualified voters of each voting precinct of the county shall assemble on the date named, and shall be presided over by a chairman who shall have been previously appointed by the county executive committee of the party, and shall be a qualified voter in said election precinct. Said convention may elect from among their number a secretary and such other officers as may be necessary to conduct its business. The chairman of said convention shall possess all the power and authority that is given to election judges under the provisions of this title. Before transacting any business the chairman shall cause to be made a list of all qualified voters present. The name of no person shall be entered upon said list, nor shall he be permitted to vote or to participate in the business of such convention, until it is made to appear that he is a qualified voter in said precinct, from a certified list of the qualified voters, the same as is required in conducting a general election. After the convention is so organized it shall elect its delegates to the county convention and transact such other business as may properly come before it. The officers of said convention shall keep a written record of its proceedings, including a list of the delegates elected to the county conventions, which shall constitute the returns from said convention. The same shall be signed officially, sealed and safely transmitted by the officers thereof to the chairman of the county executive committee of the party to be used by them in making up the roll of delegates to the county convention." (Parentheses ours).

Your attention is also called to Article 3167, as amended by Acts 1927, 49th Legislature, 1st C. S. page 1993, Chapter 67, Section 1.

You are informed that the results of the last preceding general election in your county may be obtained from the County Clerk's office of your county, the same determining the matters referred to as to number of delegates.

Thanking you for your co-operation, we are, Very truly yours,

State Democratic Executive Committee, by D. W. Wilcox, Chairman.
Attest: Richard T. Fleming, Secretary.

MOTORCADE TO BE IN BIG SPRING APRIL 16
 The eyes of the nation are fixed on the Broadway of America. No highway association or highway convention has ever received the national recognition that the Broadway of America Highway has been accorded.

April 11, the Pacific Coast Delegates to the Memphis convention will start the trek that will lead them halfway across the continent on a mission of good will and an ambition to have part in the Memphis meeting, April 20 and 21, where plans for the great Highway system will be formed.

Hon. Bruton Fitts, Lt. Governor of California, will lead the Californians, Los Angeles and San Diego are sending at least 50 cars according to word just received from Col. Ed Fletcher, first vice president of the Broadway of America at San Diego. Arizona will be well represented according to A. H. Gardner, Governor Hunt's personal representative. Every town in New Mexico through which the highway passes is placing from one to three cars in the caravan. El Paso, Texas, the home of the Broadway of America Association, will have 20 cars in the line of good roads boosters, according to H. L. Hiney, president of the Association. Paul T. Vickers of Midland Texas, eastern regional director, has advised that every town of importance from El Paso to Texas will have one

CRIME WAVE IN EL PASO
 Four holdups, nine automobiles stolen, pick pockets working on street cars, mask thieves busy and burglars making their regular rounds constituted activities in crime circles in El Paso over the week end, according to reports received at police headquarters.—El Paso Herald.

Looks like the crop of criminals is increasing everywhere all the time. We have a much too large crop right here in Big Spring.

Katherine, returned Friday night from a visit with relatives and friends in Denton, Fort Worth and Dallas. While in Dallas, they bought a handsome new Willys Knight coach, which they drove to this city.

or more cars loaded with delegates Arkansas under the command of Hon. J. G. Thweatt, will send from 150 to 200 cars to Memphis. Points east of Memphis will register at least 200 cars.

The motorcade east bound will reach Big Spring at 7:45 a. m. April 16. Plans are being made to give them a royal welcome when they reach here it was stated by local organizations in charge of the welcoming committee.

HARRISON'S TEXANS PLAY FAREWELL DANCE HERE

Harrison's Texans, a popular dance orchestra, that has won its way into the hearts of many West Texans, played for its farewell dance, at the Miller Skating Rink, one mile north of Big Spring, on Wednesday night, April 11th. This dance orchestra has accepted a contract with the Birch Hotel, at Breckenridge, Texas, where they will play their dinner concerts, and also furnish the music for the dances there. Harrison's Texans have formerly been located in Breckenridge, where they are well known, and a favorite because of their fine music. The members of this orchestra have made many friends while in Big Spring. They have been privileged to furnish the music for the formal opening of several new business establishments in the city, as well as for the opening of the Douglas hotel, and they receive praise and many compliments for the selection of music they furnish.

The largest library in the world is the National Library at Paris. The Congressional Library at Washington is second largest. The British Museum Library in London has the most valuable collection.

URGES CO-OPERATION IN BOLLWORM FIGHT

T. F. Nabors states that we may not like the idea of complying with all the regulations the state and government may inflict on us in the present pink bollworm fight—but we all know it is the only thing to do. We may think it is all uncalled for, but Uncle Sam thinks otherwise, and we can't afford to set our hands against the government. If we want to avoid a non-cotton zone and get out from under the regulative measures the best and only way is to give the government and state men one hundred per cent cooperation. They are here to help, and not to injure us. We should willingly and cheerfully comply with every measure they establish and thereby help them clean up our county and avert the calamity of a non-cotton zone if at all possible. We must sterilize all the cotton seed in the county. A little cotton seed overlooked here and there might harbor the pink bollworm. And if any live ones are found because of our carelessness or failure to have all cotton seed sterilized, it is going to be a blow to the entire citizenship. Any one failing to co-operate in these measures will be denied remuneration in case crops are ordered destroyed at the appearance of any live pink bollworms. Cotton growers should give further cooperation by waging an eternal warfare on weeds

Let this be one year when no weeds can be found in turn rows or along fence rows.
 Let's all pull together in the fight to keep the pink bollworm from getting a chance to show his head in our county.

The continuous heating of waves against its base caused the Cape Menlopen lighthouse, built by the British in 1766 near Lewes, Delaware, to topple into the sea.

A crude water clock, which has been in vogue in the Far East for 5,000 years, is still used by the Malays. A coconut shell with a small hole in the bottom is placed in a bucket of water. This slowly fills and sinks, measuring the time.

OK

Because we are delivering more new Chevrolets than at any other time in our history, we are offering a number of exceptional values in reconditioned used cars.

Our used cars are offered under policy originated and approved by the Chevrolet Motor Company, based on an official O. K. tag which is reproduced on this page. Attached to a used car by a Chevrolet dealer it signifies that every vital part of the car has been inspected, properly reconditioned and where worn, replaced by a new part. It assures that the reconditioning has been done by well trained mechanics using proper tools and equipment and that the cars which have been reconditioned will retain their beauty over a long period of time. The outstanding feature of this plan lies in the fact that it enables anyone to select a used car with absolute confidence as to its satisfactory operation, and the price is absolutely fair and right.

Reasons why you should buy your used car from a Chevrolet dealer

- 1 - Chevrolet dealers have been selected by the Chevrolet Motor Company on the basis of their financial responsibility and dependability.
- 2 - Chevrolet dealers offer used cars on a plan originated and endorsed by the Chevrolet Motor Company.
- 3 - Chevrolet dealers have the necessary modern tools and equipment to properly recondition used cars.
- 4 - Chevrolet dealers desire the good will of used car buyers the same as they enjoy from new car buyers.

A few of our exceptional Used Car Values "with an OK that counts"

Dependability, Satisfaction and Honest Value

OIL NEWS OF WEST TEXAS

West Texas Production Increases
Fourteen more wells were producing in this area of West Texas, with 1,501 wells producing 331,735 barrels, says the Oil Weekly of Houston. That publication records Winkler County's increase as being 12,500 barrels, a jump from 179,415 to 191,915 barrels. There were eight new Winkler producers during the week.

Other gains during the week were Fisher county from 230 barrels by wells to 4,120 by 136; Runnels county from 145 to 165 barrels by two wells; Mitchell county from 3,390 to 3,885 barrels by 123 wells, two to 330 by two; Howard county from 4,675 barrels by 136 and Loving county from 110 barrels to 115 barrels by two wells.

The week's biggest slump was in Crane county where production by 265 wells dropped from 73,470 to 60,225 barrels. The next heaviest drop was in Pecos county, where production declined from 46,820 to 45,555 wells, although four more wells were on production. Reagan county had one more well on production than during the previous week but slipped from 19,775 to 19,200 barrels. With three less wells on production, Upton county decreased from 13,775 to 13,555 barrels. Jones county dropped from 1,840 to 1,325 barrels, although it had 22 instead of 21 wells on production.

Production was unchanged in Scurry and Ector counties, averaging 40 and 15 barrels a day, respectively.

Pipe Lines in Winkler County
Shell Pipe Line Company is looping its 6-inch line from the Hendricks field to McCamey. The company has in operation a line from the Yates field to McCamey. These three lines will pour oil into Roxana's huge underground concrete storage reservoir at McCamey that will hold 1,000,000 barrels. Shell is laying a 10-inch trunk line from Healdton, Okla., to McCamey.

Shell is reported to have bought the right-of-way for continuance of its line from McCamey to the Houston ship channel. Several months ago Roxana bought a site on the Houston ship channel for a refinery.

Southern Crude Oil Purchasing Company is reported to have ordered twenty more 80,000 barrel tanks to be erected at its farm near Wickert, in Winkler county. This number will increase the company's storage there to 32,800,000 barrels. Ordering of such a large number of tanks indicates that the Southern Crude may launch a big drilling campaign if its efforts to work out a prorating plan fail. The company recently made a score of locations along the east lines of section 41 and 44, block 28, and in sections 42 and 30, block B-3, closing all gaps in a line four and one half miles long.

Prorating Winkler Oil
Fort Worth, Texas.—A proposed order setting out new rules and regulations governing prorating of production in the big Winkler county field was announced here last week by the Texas Railroad Commission.

The order signed by Chairman Gillmore and Commissioner Terrill sitting in a gas rate hearing here, called a meeting of operators and companies concerned to be held in Austin April 13 and set out tentative regulations for the prorating plan recommended by the operators and by the commission's advisory committee on the subject, at a previous meeting.

The available outlet is to be divided on the basis of 40 acre tracts in production, with new divisions provided for every two weeks if operators agree on the proposed rules. The order takes effect May 1 and will endure six months.

Two Wildcats in Reagan Fall
San Angelo, April 5.—Two more wildcats have failed of production in Reagan county where the Texon Oil and Land Company in May, 1927, brought in West Texas' discovery well, the No. 1 Santa Rita, starting development that has become widespread.

On the ranch of the Sawyer Cattle company, Roxana is plugging its test after getting a hole full of sulphur water at 3,340. Texas Company's No. 1 U. D. Sugg estate is shut down for orders at 3,014 feet after getting a hole full of sulphur water at 3,005 feet. It probably will be abandoned.

Two miles north of Big Lake, J. T. White, and others' No. 1 Shoffner and Sterling continues drilling below 2,728 feet after getting oil showings at 2,640, 2,682, 2,706 and 2,730 feet.

At Work on Second Pipe Line
San Angelo, Texas.—Humble Pipe Line Company is laying its second line from the Hendricks pool in Winkler county an 8-inch to loading racks on the T. & P. Ry. at Monahans. For this distance the carrier will parallel Humble's combination 6 and 8-inch line from Walkies county to McCamey where connection is made with Humble's outlets to Baytown via Comyn and to Ingleside harbor.

Monahans Test Showing Oil
Monahans, Texas.—On undetermined quantity of oil is showing in a wildcat 20 miles south of Monahans it is reported here.

Rowan & Tong test section 4, block 9, H and O N. survey reports gas and trace of oil, struck at 1-11 1/2 ft.

Leahart and company in sec. 28, block 1 1/2 and T. C. survey are drilling in line at 1300 feet.

Another big well in Yates field a score of wells have been drilled by independent operators. Yates a well of 27 1/2 feet depth for a test of 27 1/2 feet depth where a well of the Yates field was drilled.

Oil Well Supply
NEW YORK CITY.—Report of Oil Well Supply Company and subsidiary for the year ended December 31, 1927, shows net income of \$490,002 after depreciation, interest, Federal taxes, etc., equivalent after allowing for regular annual dividend requirements on 7 per cent preferred stock to 4 cents a share (par \$25) earned on outstanding 66,067 shares of common stock. This compares with \$2,045,227 or \$4.81 a share on 25,000 shares in 1926.—Western World.

Greater Seminole Has Jupiter Well
SEMINOLE, Okla.—Production of the Greater Seminole district has held around 286,500 barrels daily for the last week. Few completions worth while were added, while there was comparatively few abandonments.

The Little River extension is the only area showing any marked degree of work, and it will be 45 to 60 days before anything important is expected there.

Reagan Wildcat Fails to Strike
San Angelo, Texas.—The second failure of a wildcat in northern Reagan county within a little over a week was registered by the striking of sulphur water by Texas Co's No. 3 Sugg estate ranch at 3,005 feet. The hole filled with water at that depth and drilling continued to 3,014 feet where work shut down for orders. It was thought likely that the wildcat will be abandoned there.

Water in Winkler Well
Flowing 450 barrels of pipe line oil hourly at first Pure Oil Company's No. 5A Hendricks in Winkler county developed 40 per cent basic sediment and water Wednesday. It topped the pay at 2,761 feet and drilled 2,766. The well is in the northwest quarter of section 41, block B5, public school land.

Shell Buys Site For Line Pump Station
COLORADO, Texas.—The Shell Pipe Line Company, which has been building a line through this county from the Winkler and McCamey fields to Healdton, Okla., has purchased a 20-acre site six miles southwest of Westbrook for erection of a large pumping plant.

Continental Losses
DENVER, Colo.—In its annual report, made public this week, the Continental Oil Company reported a net loss of \$135,000 for 1927, generally due to low oil prices. In 1926 the company's net profit was \$5,029,860.

FT. WORTH SEERS DRUGGISTS MEET
Additional Aid is Promised Association by Big Spring Men
Fort Worth will make a strong bid for the 1928 convention of the Texas Pharmaceutical Association. D. W. Carlton, Association of Commerce convention department manager, said Thursday.

This city was promised additional aid in obtaining the convention Wednesday night when E. C. Phillips, Big Spring, president of the State organization, stated at a dinner here that he thought Fort Worth should have the next meeting.

The Wednesday night dinner was given by Maxwell Clark Drug Co., wholesalers, to about 50 local druggists and salesmen. Dr. W. J. Danforth was toastmaster with Phillips Marvin Anderson, Felix Gaither, J. C. Frazier and William Fitch as speakers.—Ft. Worth Post.

R. S. McDonald formerly of Big Spring who is a rig builder, now engaged at Monahans, has recently been appointed Deputy Sheriff, to succeed the officer who was shot at Monahans.

FISHING FEVER GONE
T. H. Johnson, who had a severe attack of fishing fever, all last week, states that he has completely recovered from this attack, especially since the temperature has dropped and he wishes to inform his friends that they are going to have to wait until later on in the season for that mes' sof fish he promised them. The snow and cold weather have cooled him of considerably.

AN EXHILARATING EFFECT
A bottle of Herbine on the shelf at home is like having a doctor in the house all the time. It gives instant relief when the digestion gets out of order or the bowels fail to act. One or two doses is all that is necessary to start things moving and restore that fine feeling of exhilaration and buoyancy of spirits which belongs only to perfect health. Price 50c. Sold by CUNNINGHAM & PHILIPS

H. S. Lattimore, a representative of the Fort Worth Star Telegram, was a business visitor in Big Spring this week in the interest of his paper.

Le Gears stock and poultry medicines..... Cunningham & Phillips.

Wanted A Wife....

She need not be beautiful or know how to dance all the latest dances. If she is pretty, I will be pleased, but I know that beauty is only skin deep; character and common sense appeal to me more than a pretty face or cute ways. I much prefer that she could cook than that she know how to play the piano, not that I expect her to cook or do manual labor, but I am sure good meals and a clean house go a long way toward making a happy home.

I can earn enough for both of us; I expect her to have all of the necessities and some of the luxuries. I expect her to be a partner and not an idler and a spender.

I hope that she will be thrifty so that we can accumulate a competence for old age. When she sees a store like PIGGLY WIGGLY selling everything on a small margin of profit, where she can really save money each month and at the same time get quantity and quality for less money than she can elsewhere, then I want her to trade with Piggly Wiggly, and aid me to become one of the two wealthy old men out of each hundred.

A SOUTHERN ROUTE
THE BEST
 The fact that, on his first trip to the coast since becoming acquainted with the southern air route across the country, Col. Lindbergh should choose to fly through Dallas and El Paso, rather than through Cheyenne and Salt Lake, is believed by flying enthusiasts to indicate that he considers this the best way to reach southern California cities.

Colonel Lindbergh had had considerable experience with the more northern route; in fact, he spent a time "barnstorming" in various regions it traverses long before he won everlasting fame. But until his tour in the interest of aviation last fall he had not tried out the southern route.

El Paso's weatherman, as well as the forecasters for other southwestern cities, should feel highly complimented that Lindbergh should fly this way again at the first opportunity, in spite of the fact that the government has a series of air mail fields along the northern route, which makes it more attractive to some aviators. —El Paso Herald.

Star Parasite Remover
 Gives in water or Feed this chicken and turkey of intestinal worms, disease parasites, blood-sucking Lice, Mites, Flies, Bitch Bugs; Improves their health, reduces disease, increases egg production. Eggs hatch better with stronger young chicks or move back.

MIDLAND BEER
GARDEN RAIDED
 A Midland beer garden is sadder but wiser as a result of a raid last week by Sheriff Audie Francis, Deputy Sheriff Bud Estes, Night Watchman R. D. Lee, and Deputy Constable Ponder. Several hundred bottles of beer were destroyed at the place five miles east. Several customers came out for their supply while the beer was being destroyed. Sheriff Francis acted as bartender but was forced to tell them that operations had been indefinitely postponed. Some of the alleged customers said they were hunting roads, people and whatnot.—Midland
