

Rehearsal Dinner Honors Couple

Mr. and Mrs. Glenn Lethgo will be hosts for a rehearsal dinner Saturday evening honoring Miss D'Rene Danforth, their son, Larry Wayne Lethgo, and the wedding party.

Two three-branch silver candelabra holding white tapered will flank an arrangement of white stock and gladioli. Attending will be Mr. and Mrs. Fred Danforth, parents of the bride-elect, the Rev. and Mrs. Elmer McGuffin, Mr. and Mrs. H. O. Rogers, Morton, Texas, grandparents of Miss Danforth, Mrs. W. P. Follis, Clovis, grandmother of the

groom-elect, Mrs. Francis Keller. Miss Ruxell and Marlys Gragg, Mrs. W. T. Gragg, Bill O'Neal, Harvey Lethgo, Jane Phillips, Clovis, Mr. and Mrs. Jim Boering, Helen Hopewell, Mr. and Mrs. Andy Cottle, Portales.

Miss Carolyn Todd, Las Cruces, Zeta Tau Alpha sorority sister of Miss Danforth, Miss Dianne Payne, Roswell, Bill Avery, Albuquerque, and Mr. and Mrs. Bill Hager, Arkansas.

The wedding will be at 5 p.m. CST Sunday in Our Chapel of Memories, Clovis, reception following.

Visit In Atchley Home

Mr. and Mrs. Dewey Lanningham, Dallas, Mrs. Mattie White and Mrs. Henry Harrison, Dew, have been visiting in the home of Mrs. G. W. Atchley in Texico.

The ladies are sisters of G. W. Atchley, who is hospitalized in Veteran's Hospital in Amarillo. They were accompanied by Mrs. Atchley to the Texas city for a visit with Mr. Atchley.

The condition of Mr. Atchley, who has been hospitalized for several months, seriously ill, remains unchanged.

Formal Ceremony Unites Carolyn Routon - Bill Owen

In a formal ceremony performed at Oklahoma Lane Baptist Church Sunday afternoon, 2:30 p.m., Carolyn Routon, daughter of Mr. and Mrs. E. E. Routon and Bill Owen, son of Mr. and Mrs. Dee Owen, were united in marriage.

The impressive double-ring ceremony was officiated by Rev. Carl Coffey, church pastor, before an altar at which three cathedral windows were placed. In the center window large wisteria palms were placed with bouquets of white gladioli and pom pom mums gracing the other windows.

Mrs. J. B. Sudderth, organist, played soft pre-nuptial music and the traditional wedding marches. She also accompanied Shirlene and Peggy Martin as they sang "Whither Thou Goest" and "Oh! Promise Me".

Zell Billingsley was maid of honor and Mrs. Betty Ramage, Muleshoe and Mrs. Faye Garner, Amarillo, sisters of the bride, were matrons of honor. They wore identical sheath dresses of red and white.

Candlelighters Tommy Williams and Larry Smith, Farwell also served as ushers. Jerry Dee Owen, Canyon, served as his brother's best man and Jackie Williams, Farwell and Dave Daniels, Lubbock, close friends of the groom, were groomsmen.

The bride, escorted to the altar and given in marriage by her father, wore a floor-length wedding gown of white de-lustered satin with an overskirt of organza, which extended into a short train. The dress was styled with a round neckline accented with appliques of lace sprinkled with sequins and seed pearls, long sleeves buttoning to points at the wrists and a fitted bodice.

The full skirt was accented by appliques of lace. Her fingertip veil of white illusion, outlined with Chantilly lace, fell from a crown of seed pearls and sequins.

She carried a white satin and lace covered Bible on which rested a cascade arrangement of white roses.

Carrying out tradition, the bride wore for something old, a necklace belonging to the groom's maternal grandmother, Mrs. Ina Mae Burke, Floyd, new was her wedding dress, borrowed was a handkerchief belonging to her grandmother, Mrs. Dan Routon which she carried in her Bible and blue was the traditional garter made and presented to her by Mrs. J. W. Billingsley.

Mother of the bride, Mrs. Carolyn Routon, chose a dress of beige

Mr. and Mrs. Bill Owen

lace with which she wore beige and red accessories. Her corsage was red carnations.

Mrs. Owen, mother of the groom, chose a sheath dress of beige printed silk with beige accessories. Her corsage was of white carnations.

Immediately following the ceremony, a reception was held in the church fellowship hall. Serving table was covered with a white lace table cloth over red, centered by an arrangement of white jujif mums and stock flanked by red tapers in milk glass holders.

The white three-tiered wedding cake was decorated with red roses and lovebirds and topped by a bride and groom figurine. Napkins inscribed with the names "Carolyn and Bill" in red and the milk glass punch service from which red punch was served, completed table arrangements.

Mrs. Kenneth Johnson, aunt

of the bride and Mrs. Virgil Vaughn, the bride's cousin, presided at the serving table. Guests were registered by Brenda Cowart, a college friend.

When the newlyweds left for a short wedding trip to Ruidoso the bride was wearing a white jersey dress with red accessories and a corsage lifted from her bridal bouquet.

Mrs. Owen is a 1962 graduate of Farwell High School, where she was active in all phases of school life, and is a sophomore at West Texas State College, Canyon, where she is majoring in business.

The groom is a 1961 graduate of Farwell High School and is a junior student at West Texas State College where he is majoring in agriculture.

The couple are at home in Canyon where the groom is attending summer school.

Kidnap Breakfast For Redbud Garden Club

Redbud Garden Club members were hosted with a kidnap breakfast in the country home of Mrs. Elmer Langford Wednesday morning with Meses, Orris Eshleman and Maurice Clark as co-hostesses.

Club members were kidnapped and brought to the Langford home where a breakfast of ham and egg roll-ups, tomato juice, jams, jellies, butter and coffee were served.

Informality was the order of the day with most members arriving in pajamas, gowns, robes and slacks.

The food was served in paper plates and gaily colored cups, with place mats made of scalloped pieces of newspaper. Assorted colors of napkins were used. Members who paused to dress were charged \$1.00, which went into the club treasury.

After the breakfast club members toured the lovely yard at the Langford home and many went away with cuttings of shrubs and plants for their gardens.

Mrs. Eshleman showed members how to make a compost pile from scraps from the table, leaves, grass cuttings, bones and manure from the lots. From this mixture a good soil for potting plants and to use for fertilizer can be made.

Games were directed by Mrs. Clark.

Attending the breakfast were Meses, E. G. Blair, Tom Burnett Sr., Sam Campbell, John Tadlock, H. B. Hager, W. T. Jackman, J. M. McConnell, Oakley McGill, B. A. McMillan, Mary Nesbitt, J. H. Petty, Charles Oliver, Lloyd Potter, H. C. Rodgers, F. B. Scott, E. L. Sutton, E. L. Williams, and Harry Donehay, members and Meses Carolyn Langford and Wanda Eshleman, guests.

A fool and his money are soon parted, but who else isn't?

Mrs. Loree Hill, Emory, is visiting this week in the home of her sister, Mrs. John Lockhart, Texico. She arrived Monday and will visit until Friday when she will return home with David Lockhart, as he goes to Camden, Ark., where he will work with the state health services for the next year.

Approaching Marriage

Announcement has been made of the approaching marriage of Jeree Summers, daughter of C. F. Summers, 200 Manson Dr., Clovis, and the late Mrs. Summers, to Jerry Reid, son of Mrs. Ruth Reid, Texico, and the late Levi Reid. Vows will be exchanged in a 2:30 p.m. (CST) ceremony, Sunday, June 16 at Texico Baptist Church. Friends and relatives are invited to attend the ceremony and the reception which will follow in the church basement.

Third Girl For Rev. And Mrs. T. Watson

Announcement was received at the Tribune office last week of the birth of a daughter to Rev. and Mrs. Tom Watson, missionaries to Uruguay.

The baby girl was born March 29 in Montevideo and completed a trio of girls for the Watsons. She has been named Lisa Ann.

Mrs. Watson is the daughter of Mr. and Mrs. Gordon Smith, Pleasant Hill.

C. T. Cains Have Daughter

Mr. and Mrs. C. T. Cain, Alameda, Calif. announce the arrival of their second child, a daughter, May 26, in an Alameda hospital.

The little girl has been named Linda Joann. She weighed 7 lb. 3 1/2 oz. on arrival. The Cain's son, Gary, is two years of age.

Grandparents are Mr. and Mrs. Vernon Symcox, Farwell and Mrs. Opal Cain, Clovis. Mrs. Symcox has been in California for a visit with her daughter's family and Mrs. Cain and the children returned with her to Farwell for a visit. They will be joined by Cain who is receiving his discharge from the armed services later this month.

D'Rene Danforth Hosts Bridesmaids With Luncheon

A bridesmaid's luncheon will be hosted by Miss D'Rene Danforth, Saturday, 1 p.m. at the home of her parents, Mr. and Mrs. Fred Danforth in Texico.

Guests will be seated at sextet tables which will be centered with floral arrangements of coral-colored gladioli. The bride's cake decorated in her colors of coral and white will feature prizes and fortunes for the guests as they have dessert.

Those attending will be Meses Ruxell and Marlys Gragg, cousins of the hostess, Carolyn Todd, sorority sister from Las Cruces, Dianne Payne, Roswell, Helen Hopewell, roommate of Miss Danforth, and Jane Phillips.

Also Mesdames Jim Boering, sorority sister, Glenn Lethgo, Bill Hager, Arkansas, W. T. Gragg, H. O. Rogers, grandmother of the hostess and the hostesses Mrs. Danforth and D'Rene.

Mrs. Cecil Johnson  
Joan Hubbell-Cecil Johnson  
Exchange Wedding Vows

In an 8 p.m. ceremony at Oklahoma Lane Methodist Church Saturday, June 1, Joan Hubbell, daughter of Mr. and Mrs. Oscar Hubbell, Route 1, Farwell, and Cecil Mason Johnson, son of Mr. and Mrs. Cecil Johnson, Littlefield, exchanged wedding vows.

Elder Paul Crooks, of the Reorganized Church of Jesus Christ of Latter Day Saints, and cousin of the bride, read the double ring ceremony.

Centering the church altar was a large spreading bouquet of white gladioli and fujli mums, flanked by several seven branched candelabras holding cathedral tapers, Woodwardia and emerald palms completed the altar setting.

Martha Bell, Lubbock, organist and close friend of the bride, played soft pre-nuptial music and accompanied Linda Cornett, also of Lubbock as she sang "Ain't Sweet Mystery of Life" and "Wedding Prayer."

Candlelighters were Gerald Grimes and Charles Powell, Littlefield, who also served as ushers.

Matron of honor was Mrs. Joe Wayne Harper, close friend and former classmate of the bride. The bride's sisters, Mrs. Mitchell Walls and Jane Hubbell, served as brides-matron and bridesmaid, respectively. The attendants wore identical dresses of blue peau de orr fashioned with round necklines, short sleeves and full street length skirts. Their headpieces were small pill box hats of blue with short veils. They carried identical bouquets of white marguarite daisies tied with blue ribbon.

Flower girls were Rhonda Walls, small niece of the bride

and Jana Crooks, a cousin of the bride. They wore identical blue dresses of blue peau de orr with full skirts and short puffed sleeves and carried baskets of white majestic daisies. They wore garlands of white daisies in their hair.

Best man was Harry Miller, close friend of the groom, from Littlefield. Serving as groomsmen were Douglas Cox, Hubbard and Gene Pinson, Lubbock.

The bride escorted to the altar and given in marriage by her father chose a floorlength gown of white peau de sole styled with a round neckline, long sleeves tapering to petal points at the wrists and a fitted bodice which buttoned with minute buttons at center back. Her elbow length veil of white illusion was attached to a small white pill-box crown. She carried a stylized cascade bouquet of white butterfly roses centered with three white gardenias from which imported french ribbon cascaded.

Carrying out tradition the bride wore in her shoes, pennies minted in the year of her birth for luck. New was her dress and blue was the traditional garter.

Mrs. Hubbell, mother of the bride wore a three piece silk beige suit with bone accessories. Her corsage was of blue carnation.

Mrs. Johnson, mother of the groom wore a two piece suit of blue with matching accessories and a white carnation corsage.

Immediately following the wedding a reception was held in the fellowship hall at the church. The serving table was covered with a handmade white crochet tablecloth and centered

### Patsy Herrington-Marvin Rudd Married In Home Ceremony

Patsy Herrington and Marvin Rudd were married in a 2:30 p.m. ceremony in the home of the bride's parents, Mr. and Mrs. J. W. Herrington, Farwell, Route 1, Friday, May 31. Parents of the groom are Mr. and Mrs. Ernest Rudd, Earth.

Rev. Carl Coffey, pastor of Oklahoma Lane Baptist Church, read the double ring vows before an archway on which clusters of honeysuckle and bridal wreath were tied with blue satin bows. At either side of the arch were placed blue candles in crystal holders. Suspended from the center of the arch were three large wedding bells, tied with blue ribbon.

Mrs. L. J. Rudd was brides-matron for her niece. She wore a beige sheath dress with wine accessories and a corsage of white carnations. L. J. Rudd attended his brother as best man.

The bride, who was given in marriage by her father, chose a white sheath dress, made with an overskirt of white organza and a short blue jacket. A small white halo hat with a short veil and white accessories completed her attire. She wore a blue carnation corsage.

Carrying out tradition her shoes were old, her dress new, her hat borrowed and her corsage blue.

Mrs. Herrington, mother of the bride, wore a dress of white jersey with red accessories and a white carnation corsage. Mother of the groom, Mrs. Rudd, wore a dress of aqua print with black accessories and a white carnation corsage.

Immediately following the ceremony a reception was held in the Herrington home. The serving table was laid with a blue cloth and centered with the

with a floral arrangement of white stock and fujli mums, in a milkglass bowl, flanked by tall blue tapers in milkglass holders.

The three tiered wedding cake decorated with blue flowers, topped by three wedding bells was placed at one end of the table, and the milkglass punch service at the other end. Napkins inscribed with the names "Cecil and Joan" completed table decor.

Misses Kay McCord and Linda Cornett, Lubbock, presided at the serving table and guests were registered by Mrs. Harry Miller.

When the young couple left for a short trip to Red River the bride was wearing a suit of coral silk with white accessories and a corsage lifted from her bridal bouquet.

Mrs. Johnson is a 1960 graduate of Farwell High School and will be a senior at Texas Tech next year. The groom is a 1958 graduate of Littlefield High school and a 1962 graduate of West Texas State College, Canyon, where he majored in agriculture. He is presently engaged in farming in Littlefield where the young couple are at home following the wedding trip.

Out of town guests attending the wedding were Mr. and Mrs. Jesse Range and Lorraine, Ft. Worth, Mrs. J. W. Perry Jr. and Denise, Tulsa, Mrs. Max Johnson, Sandy Johnson, Carolyn Woodward and Truman Johnson, Las Cruces and Mr. and Mrs. Cecil Johnson Sr., grandparents of the groom, Littlefield.

Out of town guests attending the wedding were Mr. and Mrs. Jesse Range and Lorraine, Ft. Worth, Mrs. J. W. Perry Jr. and Denise, Tulsa, Mrs. Max Johnson, Sandy Johnson, Carolyn Woodward and Truman Johnson, Las Cruces and Mr. and Mrs. Cecil Johnson Sr., grandparents of the groom, Littlefield.

### Shower Honors Recent Bride

Mrs. Dean Wines, the former Pauline Taylor and a recent bride, was honored with a miscellaneous shower at the Texico Woman's Club building Monday night. Hostesses were Mmes. Elward Combs, Perry Winkles, Paul Skaggs, Ed Hall, Preston Martin, J. O. Morris, Robert Rundell, Jimmie Allman, John Adams, Judge Stone, C. H. Webb, James Halsell and Miss Dorothy Hapke.

The honoree's chosen colors of pink and white were used in room decorations. Serving table was covered with a pink cloth and centered with a large white wedding bell to which streamers of pink ribbon were attached and tied to small wedding bells at the edge of the table. Pink tapers in crystal holders flanked the center arrangement. Pink flowers were placed around the base of the candleholders. A crystal punch service completed table arrangements.

White cake squares were served with pink punch. The confection was decorated with small pink roses. Mrs. John Adams and Mrs. Lillian Allman presided at the serving table. Guests were registered by Dorothy Hapke in the bride's book at a table covered with a pink cloth centered with an arrangement of miniature pinks in a white milkglass bowl.

Attending were Mmes. Ted

Sheets, F. S. Thigpen, Kenneth Doolittle, Avis Patterson, Johnny Hammitt, Russell Johnson, Frank Doshier, Alfred Hapke, Carol Martin, Larry Holland, Marie Goforth, Tena Roth, Bob Hines, Rachel Hammitt, Orville Beavers, and Misses Ruth Beavers, Beverly Winkles, Marilyn Staten, Linda Rundell, LaShawn Sheets and Donna Mills.

Sending gifts were Mmes. Marlon Walker and Sarah Beth, Mary McDorman, C. J. Huffaker, Tipton, W. E. Martin, Kenneth Taylor, Mary Hahn, Jesse Hudson, Robert Williams, Truman Kittrell, B. A. Rogers, Fred Danforth, Johnny Green W. T. Watts, Delbert Martin, Kenneth Galze, Jean Thomas, A. B. Bell, Hardy Jones, Paul Huber, Pat Stoffer, Opal Wines, Clyde Blalock, and Misses Linda Hadley, Shirley Huber, Darlene and Marlene Bell, Linda Hudson, and Sherron Elliott.

### Reception Honors McWilliamses On Silver Anniversary

Mr. and Mrs. Joe L. McWilliams were honored with a surprise anniversary reception at the First Baptist Church fellowship hall Sunday afternoon, June 2, marking their silver anniversary.

Host and hostesses for the occasion were Messrs. and Mmes. Arnold Freeman, J. C. Boone, Harold Carpenter, Frank Edwards, Charles Hromas and Wendol Christian.

The serving table was laid with white over blue, chosen colors of Mrs. McWilliams for her wedding twenty five years ago. Centering the table was a three-tiered wedding cake decorated with silver wedding bells and the numerals 25 in silver. The cake was served with blue punch.

Zelda Donaldson, a niece of the honorees, presented piano selections throughout the afternoon and other nieces and nephews assisted with the reception, which some 100 persons attended.

Mrs. Sterling Donaldson made the registration book, which featured pictures of the couple during courting days. She also presided at the guest register.

### Moved

shown little or no improvement in recent weeks.

W. D. Carpenter, who suffered a stroke sometime ago is reported as improving steadily.

Mrs. Ray Mears, recent surgery patient has returned to her home and is recuperating satisfactorily.

## A Prosperous Community Doesn't Guarantee

# HAPPINESS

...But It Sure Helps

- ★ Shop..Where Your Trade Strengthens The Material Foundations Of Your Own Happiness.

The recipe for true happiness calls for various ingredients to satisfy different people . . . just as cakes are baked with a variety of frostings and flavorings to please different tastes. But . . . with cakes the ingredients are always about the same . . . flour, sugar, shortening, etc. About the same thing is true of happiness.

No matter what kind of trimmings each of us may prefer on our individual happiness, the fundamental elements are almost the same for all . . . good job, good health, adequate schools for our children, strongly supported churches in which worship. . . and many good neighbors, friendly and secure.

These things . . . we can call the material essentials to happiness . . . can be assured by a substantial and ever-growing trade in our community. Which we, ourselves, can create if all of us spend our money here in our community . . . where we live and make our living. Shopping away from home strengthens the foundations of our city neighbors' happiness, and weakens our own.

### School Annual --

(Continued from Page 1)

Students chosen most likely to succeed were Margaret Haseloff and Johnny Actkinson with Bobby Actkinson and Jane Bradshaw listed as best all around students. Friendliest students chosen were Shirlyne Martin and Bobby Actkinson with Bonnie Cochran and Barry McCuan listed as most versatile.

Shirlyne Martin was named as FFA Sweetheart and Bobby Actkinson was named FHA Prince Charming.

A whole section in the annual was used to display pictures of the athletic teams at the school with pages featuring pictures of the senior lettermen and girls who had lettered in sports. The band also came in for its share of glory with a section displaying pictures of the band and a special page displaying a picture of Melody Coffman, drum major. Another page in this section had individual pictures of the major-ettes, Edith Ann Walling, Sus-

Two little league teams, two peewee teams and one each pony league and Babe Ruth teams will represent the Twin Cities this summer in the area baseball leagues.

The little league and peewee teams along with the pony league team will play an interlocking schedule with the Bovina League and all games will be played at 5:30 p.m.

Babe Ruth team will be a part of the Clovis league and will play most of its games at Bell Park in Clovis, also at 5:30 p.m.

Coaches for the teams have been selected says league supervisor Johnny Green, with Buster Harriman, Clarence Harriman, David Axe, Wayne Hudnall, Leonard Haseloff, Floyd Morris, John McFarland, Ronnie Richardson, Jack Ward-

an Blair, Janice Prince and Diane Lovelace.

Class favorites listed in high school were seniors Bonnie Cochran and Clifford Nicholson, juniors Jane Bradshaw and Alan Busbice. Sophomores listed are Phyllis Christian and Johnny Actkinson while freshman favorites are Larry Gregory and Susan Blair.

Junior high school favorites chosen were eighth grade, Ricky Lunsford and Sheri Roberts; seventh graders chose Tim Crume, Connie Phillips and Ricky Stewart, Sixth grade favorites are Ellen Herrington, Al Phillips, Charles Lunsford and Fern Tarr.

Elementary favorites chosen

law and Down Owens to coach little league, peewee and pony league players.

Coaches for the Babe Ruth team are Preston Martin and C. H. Webb.

Thirty-two boys have shown up for practice sessions for Babe Ruth and pony league teams while 77 boys have been in attendance at practice sessions for peewee and little league teams. Final selection for the teams will be made this week. Each team is allowed only 15 boys.

Coaches and other local persons are wondering what disposition will be made with the boys who do not make the teams. Can they simply be sent home and told that there is nothing for them or shall a program be set up in some other field for these boys?

With all city civic organizations working as a body officials feel that an alternate program can be set up in the Twin Cities to offer the boys, and possibly the girls, an alternate program, for the summer, including handwork, swimming and other activities.

Boys showing up for the little league teams are: Kenneth Askew, Ronnie Autrey, Jimmy Birchfield, Steven Birchfield,

in the respective classes are fifth grade, Marsha Lovelace, Stephen Blair, Melody Roberts, Frank Galvin, Dean Stovall and Patsy Lucero. Children in the fourth grades chose as their favorites Jean Kirk, Gene Sheets, Gwendolyn Rundell, Brad Jordan, Gayle Huguley, and Kirk Martin.

Third grade representatives are Brett Hargrove, Jana Bass, Jack Kirkland, and Kim Snider. Second grade children chose as their favorites Hal Graham, Debra Flowers, David Garner, Beverly Roberts, Harold Jones, Caroline Anderson, Jimmy Franse, David Norton and Deborah Stancell.

First grade children chosen were Sandra Watkins, Kevin Hardage, Kevin Hargrove, Leslie Norton, Carl Kirkland, Becky Haseloff, Patti London and Rickie Huguley.

One section of the annual was reserved for the ever faithful lunch room crew and the school custodians and bus drivers.

Brian Burns, Larry Combs, Robert Curtis, Gary Erwin, Curtis Ford, Steven Franse, Amada Golliz, Carl Gottsch, Willard Hutsall, Buddy Lunsford, Doug Harriman, Denny Lunsford, Skippy Magness, Greg Meeks, Junior Ortiz, Danny Pearce, Roddy Pearce, George Rickstrew, Gene Sheets, Dean Stovall and Milton Lee Walling, Red Tops.

Also Doug Autrey, Johnny Autrey, Terry Armstrong, Cecil Barry, Danny Billingsley, Bobbie Blair, Allan Brettenbach, Richard Brettenbach, Manuel Garcia, Brett Hargrove, Greg Hargrove, Lynn Jones, Bobby Lockmiller, Robin Mahaney, Authuro Ortiz, Robert Payne, Danny Prince, Randy Stewart, Donald Stone, David Parker, Ronnie Tipton, Nickie Vandiver, Marty White and Danny Wise, Lions.

Peewee team members include: Terry Yell, Will Anderson, Larry Erwin, Loren Gibbs, Terry Craft, Jerry Asskew, Tommy Romero, Lynn Haseloff, Kirk McFarland, Randy Skaggs, Mike Travis, Edward Terry, Frank Ulibarri, Jackie Williams, Gene Arnold,

Johnny Rivas, Buddy Buchtel, Wilbur Bryant, Gary Hahn, Lonnie McFarland, Manuei Ortiz, John Snider, Albert Trujillo, Drake Bryant, Mike Carr, Donny Campbell and Kevin Kaltwasser.

Boys turning out for pony league and Babe Ruth teams are;

Ardeell Autrey, Emmett Autrey, Tommy Beavers, Jackie Billingsley, Vernon Bland, Larry Burns, Garry Burris, Lawrence Bryant, Dale Camp, Dick Clamton, Hobbie Coffman, Keith Crooks, Tim Crume, Ricky Fletcher, Leonard Hutsell, Hardy Jones, Manuel Martinez,

Roy McDaniel, Donnie Morris, Charles Norton, Joe Patterson, Bert Purvis, Tom Rickstrew, Bill Roberts, Randy Robertson,

Ricky Stewart, Mike Spearman, Ricky Stanley, J. B. Taylor, Keith Thomas, Charles Thompson and Jimmy Webb.

## VBS To Close In Area Churches This Week

Vacation Bible School in most of the area churches are scheduled to close this week. Most churches report schools with capacity enrollment.

First Baptist Church in Farwell has had some 194 children enrolled in classes with an average daily attendance of 192. Mrs. Clyde Magness has been director of the school and Mrs. Donald Watkins has served as the school's secretary.

On Saturday, despite the inclement weather, 114 children showed up for the pre-enrollment day and parade which was called off due to the rain. Closing program for the school will be held Friday night (tonight) 8 p.m. with a commencement exercise and handwork display.

At the Texico Baptist Church, the school will continue through June 12. Average attendance at the Texico school has been 72 students. Dick Johnson, song director at the church is in charge of the school which will close with a program Wednesday night 8 p.m.

Mrs. M. A. Snider Jr., has been in charge of the VBS at the local Methodist church. She reports that some 59 boys and girls have been in attendance at the school each day with some 25 workers also present.

The closing program for the school will be held Friday afternoon, 3 p.m. with a tea for parents of children. Handwork made by the children will also be on display. Children at the school have been studying "Churches Around the World."

### LUTHERAN NEWS

LWML met June 6, with a skit and tape recording on "Christian Giving" presented by Mrs. W. Kalbas, Mrs. C. Kube and Mrs. Charles Trimble. After the meeting an absentee shower in honor of the marriage of Diane Mendt, California, and Kenneth Kreigel, former Farwell resident, which will be June 30, was given. Hostesses for the shower were Mmes. G. P. Meissner, Martin Kreigel and Walter Kreigel, aunts of the prospective groom.

St. John's Lutheran Church has postponed its VBS, which was scheduled to begin June 3, until June 10-14. Classes will be held daily 9-11:30 a.m. Registration will be 8:45 a.m. June 10. Refreshments will be served each day at the recess period. Closing program will be June 16. The annual chicken bar-b-que will follow the program.

June 6 at 7:30 p.m. Walther League members will rehearse their play "Ginger Girl." They have been invited by Immanuel Lutheran Church, Rhea, to put on this play for family night, June 23.

# Flood Damage By Running Water Draw

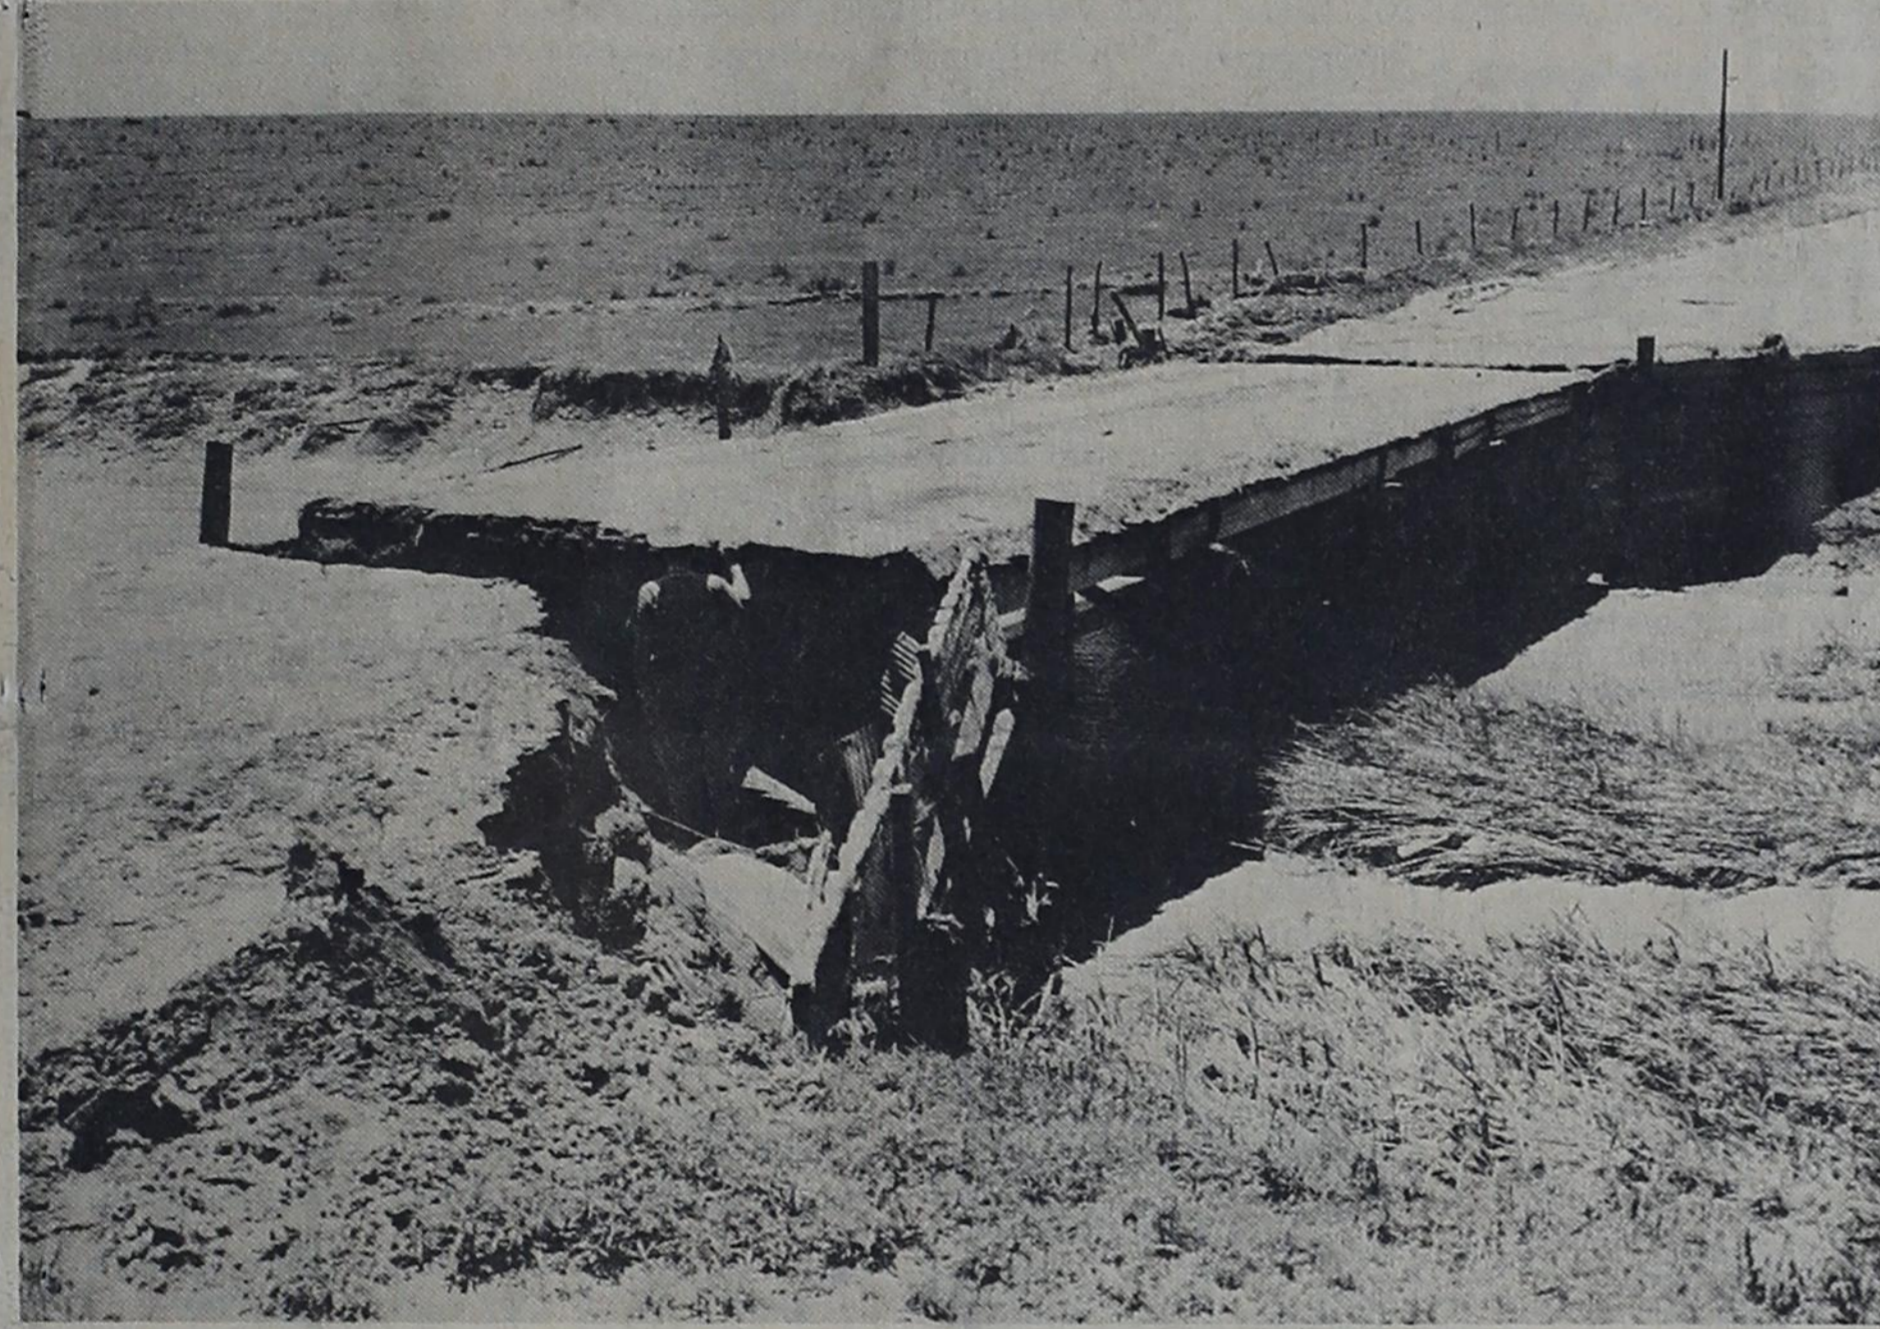

## THE HIGH PLAINS FARM AND HOME

\$ \$

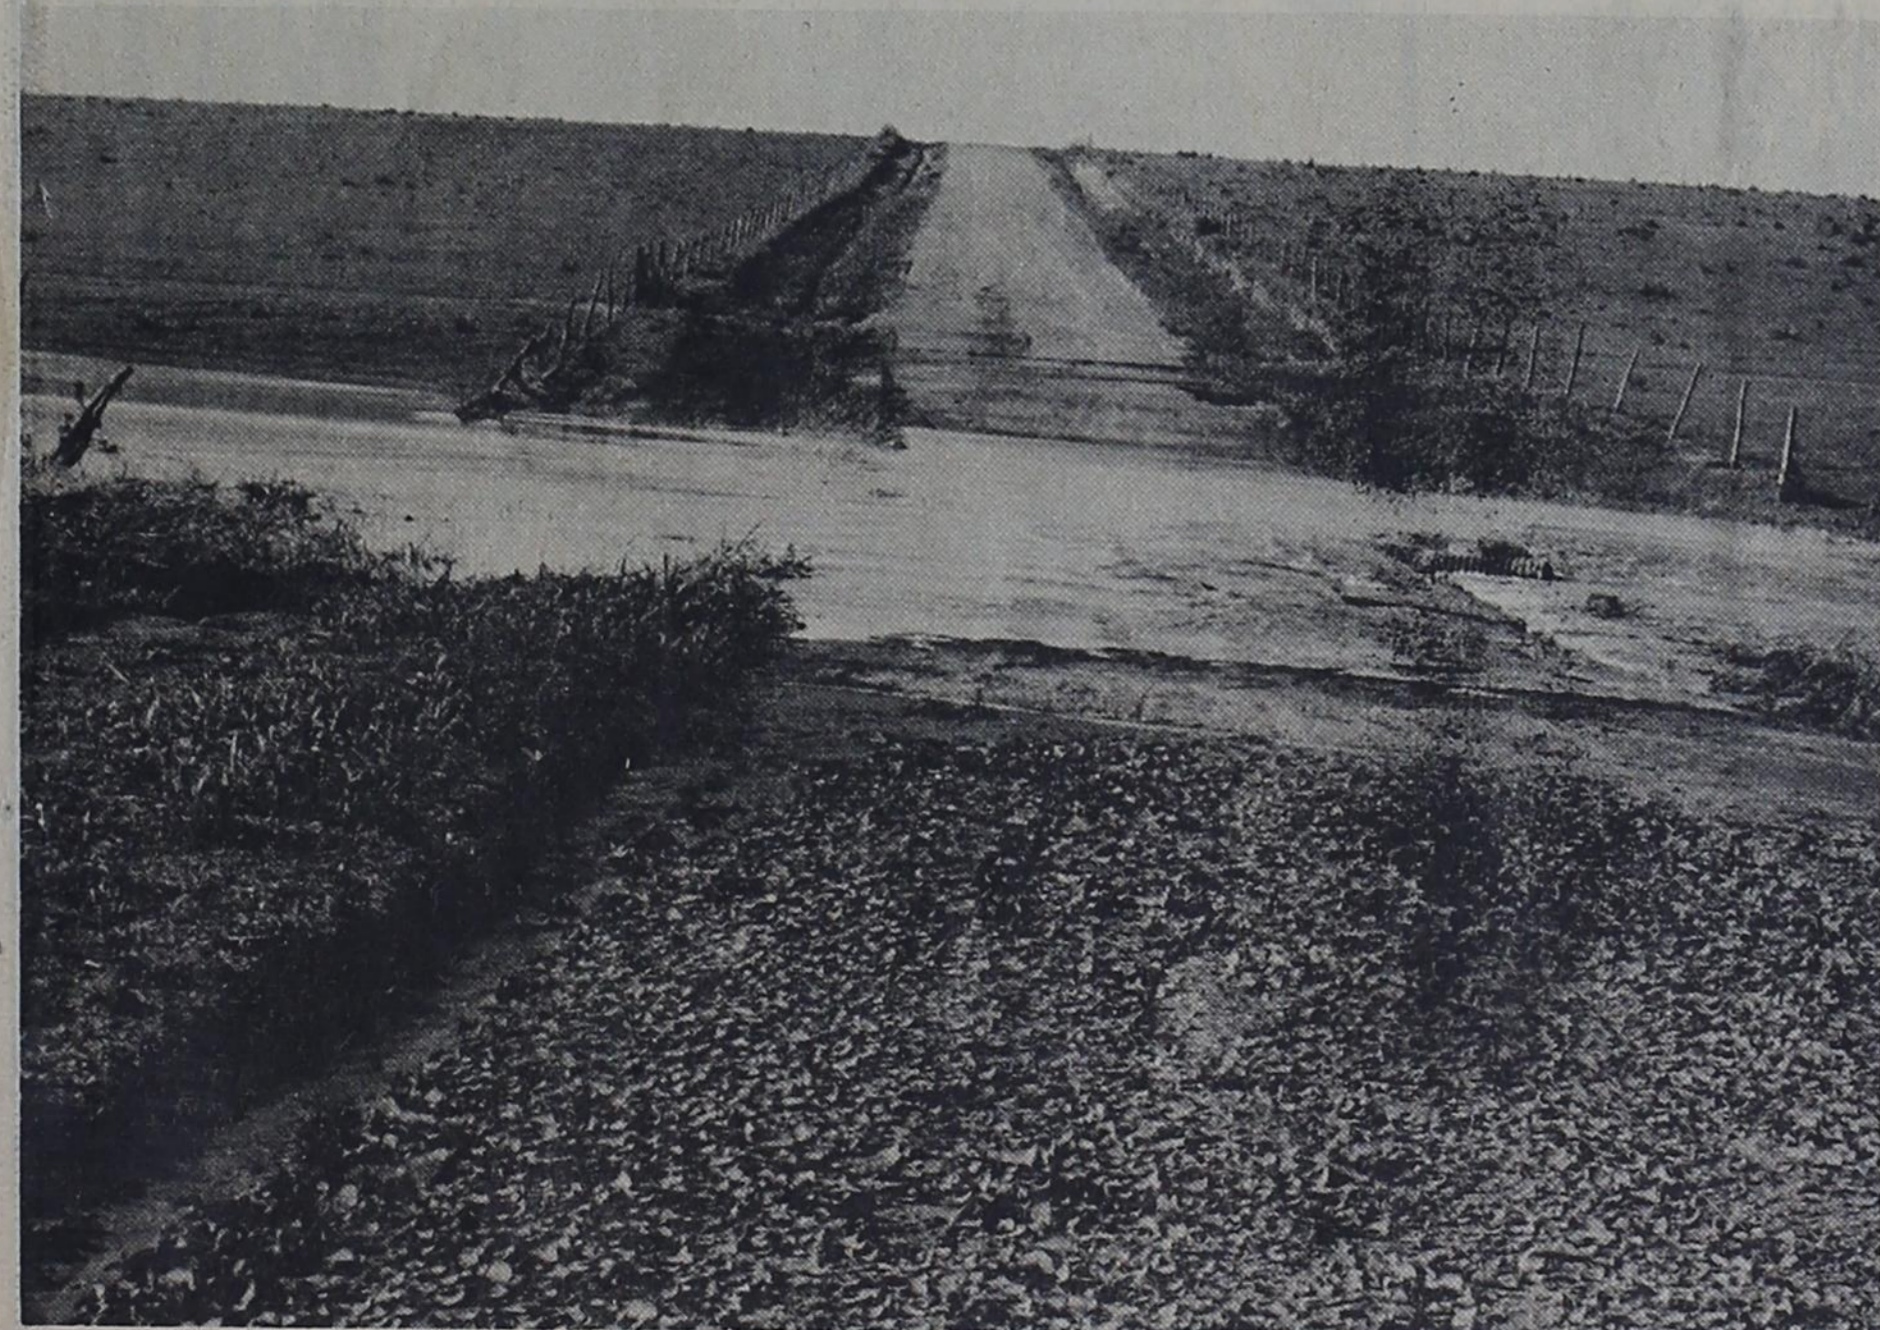

Roads, bridges and fields were damaged last weekend all the way from the New Mexico line in Parmer County to the Castro County line. Pictures on this page show just a sample of the havoc which Running Water Draw wrecked during the recent rains. In the upper left-hand picture, the bridge across the state line road in precinct three near Farwell was almost a total wreck. The next picture shows a bridge in precinct four, near Lazbuddie, which was washed away by floodwater. Other roads in the Lazbuddie area are shown in the other pictures, which will total thousands of dollars of damage in the county. If Running Water Draw has been dammed with structures as is planned, millions of gallons of water would have been salvaged, and thousands of dollars saved. (See editorial, next page)

PLEDGE \$12,500 FOR PLANNING

# Hale Commissioners Take Watershed Project Lead

Hale County Commissioners have taken the lead in the Running Water Draw Watershed Project, allocating \$12,500 to pay the county's share of the proposed planning party costs.

By unanimous vote the commissioners acted on a motion by Marvin Churchwell of Precinct One to enter into the project. All four commissioners - Churchwell, Homer Roberson, Rayburn Karrh and Doc Brown - were present.

The action was in response to a letter from F. F. Calhoun, Chairman of the Board of Supervisors of the Hale County Soil Conservation District, addressed to the commissioners and delivered by a delegation of the supervisors.

At present the project is in a favorable position, and we feel that with a trust fund available before the State Soil Conservation Board meets this summer to set future planning priorities for watersheds, we will likely have a planning party assigned to work on this project next year.

Should the money for planning not be made available, it would probably be several years before either the Federal or State

supervisors feel that a trust fund for a payment for the planning of the Running Water Draw Watershed Project is vital.

financed party would be available if ever, and there would be at least a one-year interval before any more priorities are set. With the continued rapid growth of interest in these projects throughout the state, the peak load of applications has not been reached, and there is the possibility that a delay of even a year could put the local project in such a position that it might never be planned."

The letter further detailed the share of each of the five counties in the \$70,000 project. Curry County in New Mexico and Parmer County have been asked

The letter stated:  
"The Hale County Soil Conservation District Board of Su-

## FOOTSAVING EDUCATION

by James E. Edwards

"How can shoe manufacturing companies advertise that their shoes fit?"

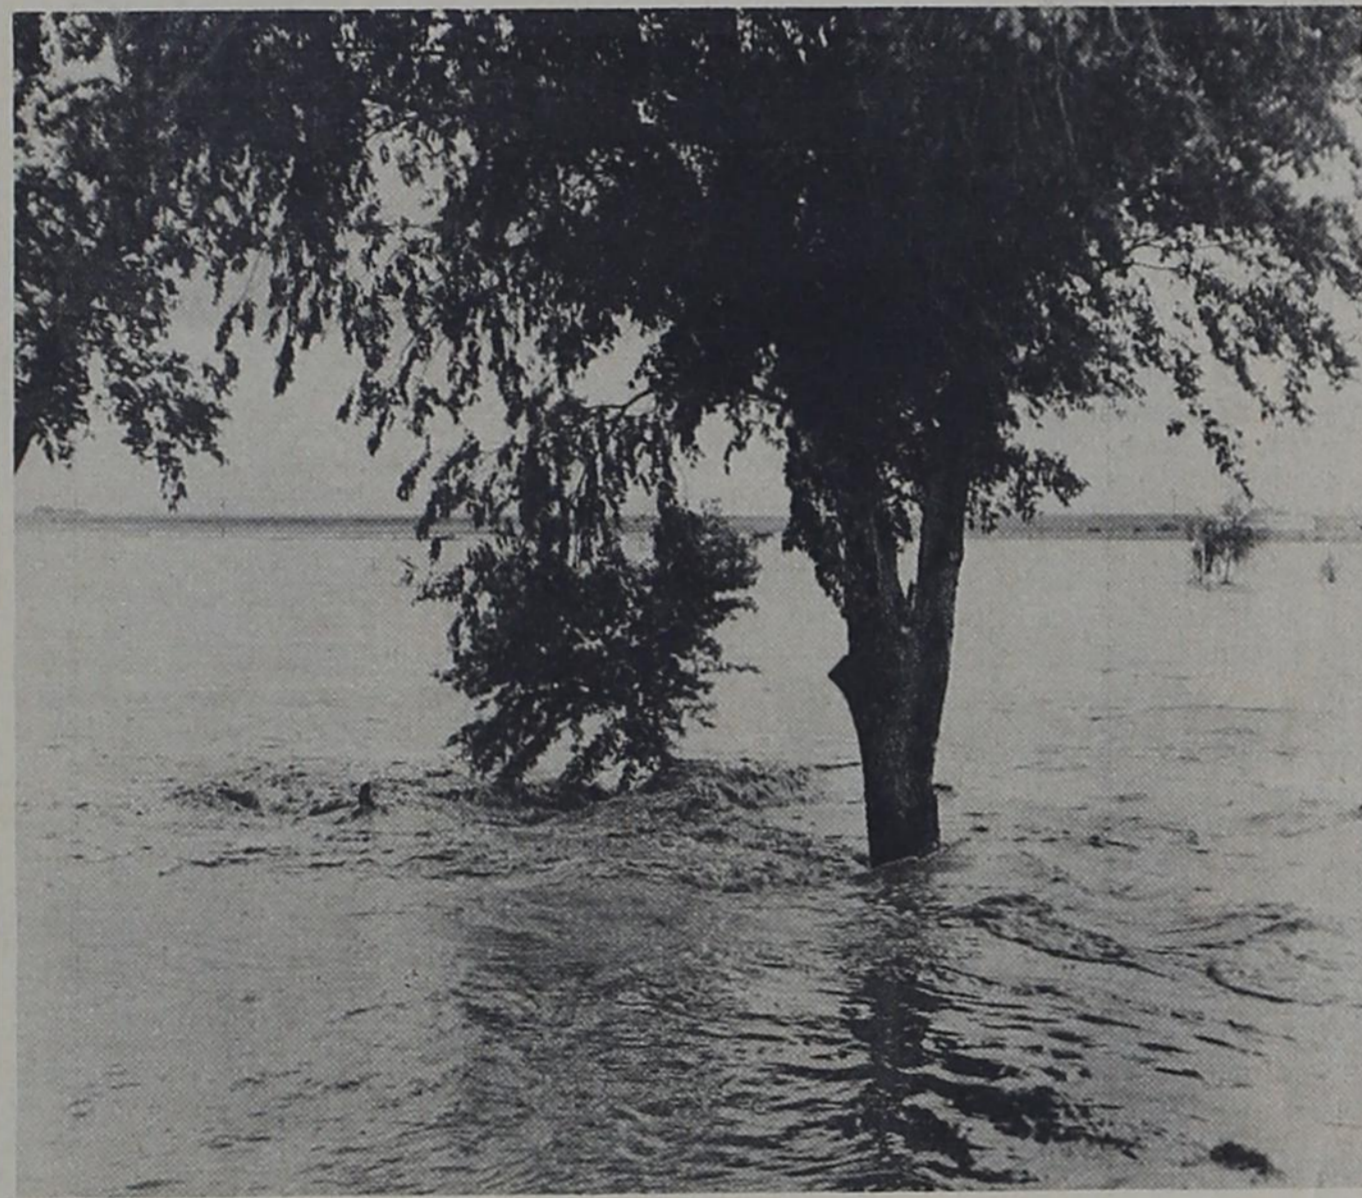

It is silly, isn't it? The factories that make eye-glasses for sale in dime stores could as honestly make the same claim. The glasses fit as well as any prescribed by a doctor if the buyer is lucky enough to choose the right pair out of thousands of wrong ones. Fortunately, we have too much respect for our eyes to bet them on such a long shot but feet are expendable.

Shoe companies that run such ads know that many parents still buy children's shoes without having them fitted and they hope that parents will demand their particular brand whether they fit the particular child or not.

Someday, maybe, people will stop "buying" shoes and think only of having a fitting. You'd be surprised how many think that way already.

**Robin Hood Shoes**

FORE . . . inches, that is. This scene from Friona Draw, which shows the Friona Country Club being flooded, is typical of floodwater which rampaged down Parmer County draws the past week.

# Plainview Production Credit Still Ranks First In Nation

The Plainview Production Credit Association held its ranking as the nation's largest association in 1962, leading nearly 500 associations throughout the United States in three separate categories.

In figures released recently by the Farm Credit Administration in Washington, D. C., the home-owned and operated Plainview association was first

in total loan volume, in total net worth owned by stockholders and in total capital stock owned by stockholders.

In addition, Plainview led Texas associations in three additional categories: number of stockholders having a loan, loans outstanding and net worth reserves from accumulated earnings.

"We are extremely pleased

that our association ranks so high among the nation's associations," commented General Manager Noel Woodley of Plainview. "However, we believe that these figures are not important in themselves, but only as a reflection of the growth and solidarity of our association and the service we can provide for our stockholders."

The Plainview association had a total loan volume of \$41,193,000 in 1962, an increase of nearly \$4,000,000 over its previous high in 1961. Capital stock owned by members totaled \$2,916,435 and total member-owned net worth was \$3,949,310, all nation-leading figures.

Plainview also ranked 10th in the nation in number of stockholders having a loan in 1962 and 2,319, third with members' loans outstanding on December 31, with \$16,040,000 and fifth in net worth reserves from accumulated earnings, with \$1,032,875. These figures were also high among the 36 Texas associations.

The Plainview Production Credit Association serves an eight-county area of the high plains and is owned and operated in its entirety by more than 1,700 farmer and rancher stockholder - borrowers in Parmer, Castro, Swisher, Briscoe, Bailey, Lamb, Hale and Floyd counties.

"We have but one reason to be in business," Woodley explained, "and that is to provide our stockholder-borrowers with dependable agricultural credit and professional credit services at the lowest

# Harvest Operations Stopped

Wheat harvest operations were progressing rapidly in North Central Texas until stopped by rains last week. Rains in the Panhandle and South Plains were too late to be of material benefit to dry-land acreage.

Reports by local areas are as follows:

Littlefield, Muleshoe, Dimmitt, Farwell and Hereford: Rains too late to be of benefit to dry-land acreage and a far below normal yield is expected. Hall and wind caused considerable damage in this area with Parmer County losses reported from 50 to 60 per cent, Bailey County lost four to five per cent and western Castro County from 10 to 20 per cent. Deaf Smith County suffered minor damage and no damage occurred in Lamb County. No shortages expected when harvest gets underway about June 10.

Plainview, Tulla, Lockney, Floydada and Silverton: Rains last week were too late to be of much benefit to dry-land acreage. Irrigated acreage improved but a below normal yield is expected when harvest gets underway about June 10. The normal migration of men and machines is expected to meet all demands.

Amarillo, Canyon, Panhandle, Vega and Claude: Rains last week were too late to be of much benefit as approximately 65 per cent of the acreage had been abandoned due to drought. No shortages expected when harvest gets underway about June 10.

Pampa, Miami, Canadian, Wheeler and Lipscomb: Abandonment estimated as high as 90 per cent on dry-land acreage in parts of this area. Irrigated acreage is good and an average to above average yield expected. No shortages expected when harvest gets underway June 10.

Borger, Spearman, Perryton, Dalhart, Channing, Stratford and Dumas: Recent rains will benefit the remaining dry-land acreage in this area. Irrigated acreage looks good. The normal migration pattern is expected to meet all needs for men and machines when harvest gets underway about June 10.

# Speed Up Draw Project? Commissioners Hold Key

Parmer County's Commissioners Court is to be asked by representatives of the Running Water Draw Watershed authority to appropriate \$12,500 for the engineering portion of the project.

In the light of recent flood damage to the county by the draw, it would appear that the commissioners would be able to save the county more than the above figure from road repairs exclusively.

From the standpoint of being able to speed the project up by a number of years, we urge the commissioners not to hesitate to pledge the amount listed as its share in the planning party of the project.

Parmer County must not "hold up the show." The project has moved very rapidly with capable, hard-working leadership. Two counties, Hale and Curry (N.M.) have already pledged their monetary support of the planning party.

Hale County commissioners last week allocated \$12,500 to pay that county's share of the planning costs. In addition, the city of Plainview is being asked to contribute \$20,000, and has indicated that it would.

Curry County's share has also been set at \$12,500, and representatives of the New Mexico Soil Conservation Service have said that when the Texas counties are ready to go on the project Curry will have the money.

Thus, some \$50,000 of the needed \$70,000 has for all practical purposes been designated. Parmer County's \$12,500 would get it a lot closer, and keep the ball rolling.

The state SCS board will have a meeting this summer for future planning priorities for watersheds. It is felt that with a trust fund available, the local project would be in a favorable position for planning to begin within the next year.

Otherwise, it might be several years before either the federal or state-financed party would be made available, and with the increase in the number of projects throughout the state, a delay could throw the entire project in jeopardy.

And, for every year, or even month, that the Running Water Draw Watershed project is delayed, more damage is possible from flood waters, and millions of gallons of water are lost to the county.

That's just the monetary angle. While watching the draw run over State Highway 214 Sunday, we saw a car almost swept off the bridge into the water, to sure destruction. The figure quoted above would be just a "drop in the bucket" for the protection of human lives who come into contact with the draw at dangerous times.

# Labor Is Biggest Problem Facing Livestockmen Today

The crying need for whittling down labor requirements in livestock production is a problem facing farmers-- particularly small ones-- today. In the past 20 years, farm wages have more than quadrupled and the need for cutting back labor requirements has been met, in some areas of farming, by mechanization and modernized methods. But the labor cost squeeze gets tighter each year. Livestock labor input has been shortened only seven per cent during these two decades, contrasted with a 34 per cent crop labor reduction. Large livestock producers have managed to keep ahead in many areas of Texas with improved and efficient but expensive methods. Unhappily, the small producer who has relied in the past on a reserve profit from a sideline in dairying, poultry raising, or some other livestock project finds himself in a definite bind over the labor situation. By the old hand-milking method, it requires an average of 61.7 man-hours to produce \$100 worth of milk. That labor cost can be cut by 26 per cent if milking machines are used. In hog production, the size of the herd makes the big difference in labor required. That's because a large herd can use automatic feeders and watering devices economically, whereas small herds cannot. In Texas, labor input per \$100 of pork products amounts to about 25 man-hours. And there's quite an investment involved in hog raising. Probably more has been done to mechanize the poultry industry in recent years than any other single phase of livestock raising. Production line broiler growing takes 5 to 15 hours of labor per 100 birds, whereas the less routine raising of chickens to the same age for laying flocks takes 25 to 35 hours.

# Flame Cultivation Research Expanded

A recent expansion of flame cultivation research in the lower Rio Grande Valley area has focused national attention to this area. Other row crops and vegetable growing areas throughout the United States are now looking to the Valley area with considerable interest and are in hope that the research being conducted here will enable them to reduce the labor costs in controlling weeds. Research in Flame Cultivation as a means of weed control was started in the lower Rio Grande Valley in 1960-61 by the High Plains Research Foundation under the auspices of the Texas Butane Dealers Association. The vegetable Research was carried on through the 1961-62 and 1962-63 winter seasons. The Research Program was expanded to a year-round program by a group of businessmen in the Valley this spring. The research program in the past three years on flaming vegetables included; seedling and transplant onions, carrots, table beets, cabbage, bell peppers, snap beans, blackeyed peas, corn, lettuce and broccoli. The research program for 1962-63 was planned to include parsley, and tomatoes but weather conditions prevented growth and made research on these crops impossible. Research of flame cultivation as a means of weed control was started at the High Plains Research Foundation in 1959 when a June hail caused cotton destruction and created a weed problem. Labor was not available for weed control and the research of weed control by flame was started. Prior to 1959 weed control by flame had been tried in the Mississippi Delta. With four years of constantly expanding research on various crops, the Foundation has been the main source of information on flame cultivation for many areas throughout the U.S. and several foreign countries including; Australia, New Zealand, Columbia and Israel. The High Plains Research Foundation is a Private Enterprise Agricultural Research Foundation that receives support from farmers, businessmen and industry. The Foundation's 310-acre research farm is located at Halfway, Texas, 14 miles west of Plainview in the High Plains of Texas. The Rio Grande Research Committee consists of local area people, with Mr. George Gray of Harlingen, as Chairman. The following are members of the committee: Ray Wolf, Brayton Fisher and P.S. Brown of McAllen; Willis Swisher, Gene Taylor and George Gray of Harlingen; Paul Thompson of Weslaco; Claud Hill of Edinburg; Maurice Bell of Donna; Roy Sloggett of Brownsville; Frank Williams of Raymondville; Frank Davis of Mission; H. R. Mitchel of Corpus Christi; and Chico of Rio Grande City.

# Cotton Ginning Invention May Revolutionize Industry

A revolutionary new application of automation to the cotton ginning industry to be marketed under the trademark, "The Sentinel System," has been developed by the Bruton Manufacturing Company of Lamesa. Basic research and development of the Sentinel, the first controls ever perfected to govern the precision feeding of cotton into various machines in a gin, was conducted by Joe Jones, an engineer with Bruton Manufacturing Company, and Gene Slover, an associate and electronics expert. Testing was conducted at Weaver Gin Company and Lamesa Co-op Gin, both of Lamesa. Charles Bruton, owner of the company, compares the Sentinel's automatic features to that of an automobile designed to operate without having to stop for gas and oil. "As astounding as this analogy may sound," said Bruton, "it is comparable to but one of the features found in our automated controls." "Precision feeding of these machines is necessary for the same reason that a carburetor is required on an automobile," Bruton said in announcing the development of the Sentinel. "The function of a carburetor is to control the feeding of regulated amounts of gasoline into the combustion chamber of an engine, where it is exploded and the resulting energy is used to propel the automobile." "In the same manner, the Sentinel System regulates the amount of cotton inserted into various cleaning and drying machinery, so as to avoid "flooding" or "starving." These choke-ups, as they are known in the trade, have plagued ginners since the invention of the cotton gin itself. In addition to the prevention of choke-ups, the Sentinel System employs automatic controls that may eventually prove to be as beneficial to the ginner and his customers as the elimination of choke-ups. For instance, volume controls are provided so that the ginner can select the most efficient rate of ginning for his own particular plant, thereby securing for his customers the best possible price for their cotton. Other automatic controls govern a plant when it is desirable to operate at the maximum plant capacity, such as the peak of cotton harvesting seasons. Still more controls automatically recognize potential trouble spots and, in general, supervise in a manner much more efficiently than a person. "The development of the controls used in the Sentinel opens the door, not only to the complete automation of a cotton gin, but, with minor changes, it has application in various fields of industry and agriculture," said Bruton. "As an example, controls for the automation of irrigation wells have been developed and are currently being field-tested. Although production of this phase of product development will not start until early in 1964, results so far have been very gratifying." Bruton's company, which has just completed its fifth year of operation in Lamesa, recently moved into new quarters approximately four times as large as those previously occupied. Present indications are that the present number of employees will be doubled and possibly tripled within the next 18 months. Interest in the Sentinel System, even before being announced publicly, has drawn interested parties from as far away as Alabama, Arizona and California, according to Bruton. However, he stated that sales for the present are being restricted to the Plains area of West Texas while adequate service personnel are being trained.

# Irrigation Water Contains Certain Amount Of Salt

All irrigation waters contain salts and even water with low levels of certain salts can be harmful, says W. F. Bennett, extension soil chemist with the Texas Agricultural Extension Service. Each time water is applied to a crop, salt is applied and if it is allowed to accumulate, production will be affected, points out Bennett. Not only is the total salt content of the water important but the types of salts present can also lower the quality of irrigation water. For example, calcium and magnesium salts are not as harmful as sodium salts, says Bennett. Even if the content of sodium salts in water is small, it can be very harmful. Therefore, Bennett recommends that irrigation water be tested for total salts as well as for chemical composition. Such knowledge can aid the farmer in using irrigation water to its best advantage by determining what water management practices may be needed, he says. Tests are available through Texas A&M College to determine water quality. They may be submitted with Form D-617 which can be obtained from your local county agricultural agent. He can also assist you in taking the sample and submitting it.

# Screwworm Program Tops Fund Goal Of \$3 Million

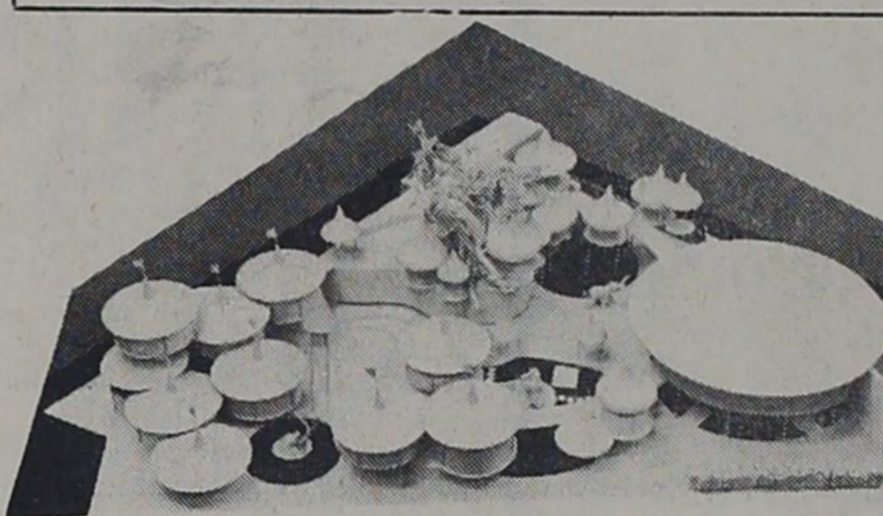

The Southwest Animal Health Research Foundation has reported the successful completion of its drive to collect \$3 million for screwworm eradication. C. G. Scruggs, Foundation president, announced that Southwestern livestockmen and sportsmen have already exceeded their goal and additional funds are expected to be deposited in the near future. Tabulations made early this month showed contributions from Texas totaling more than \$2.9 million. Oklahoma reported \$24,000; New Mexico, \$33,500 and Louisiana, \$38,700. A group of California livestock producers donated \$500. Scruggs said quite a few Texas counties have not yet turned in all of the funds that had been collected and workers in other Southwestern states indicated additional money was forthcoming. Scruggs termed the fund drive "an achievement by the livestock industry and sportsmen of the Southwest that is unprecedented as to amount of funds contributed and overall interest and participation by individuals." "This is a marvelous example of voluntary action," Scruggs declared. "Altogether it forms another exciting chapter in the colorful history of the Texas livestock industry and exemplifies Texas citizenry at its best."

The private funds comprise part of the estimated \$12 million that will be required to rid the Southwest of the bothersome screwworm over a three-year period. The Federal government is furnishing half of the money and the Texas Legislature is presently considering a \$3 million appropriation. The eradication program involves the production and sexual sterilization of millions of screwworm flies which are then released from airplanes over large areas of the Southwest. The sterile males mate with native females which lay eggs that will not hatch. This technique was used to successfully eradicate screwworms in the Southeastern United States in the late 1950's.

# USDA To Honor Employees Of SCS

Blackland Prairies of Texas which had resulted in outstanding achievements," Luker for "Exceptional leadership in formulating, developing and directing the Great Plains Conservation Program; substantially contributing to the agriculture of the area." Luker and Crews are native Texans and graduates of Texas A&M College. Myers is a native of Missouri and a graduate of Colorado State University while Walser is a native of Indiana and a graduate of Purdue University. All are veteran employees of SCS. Vice President Lyndon B. Johnson made the award ceremony address and Secretary of Agriculture Orville L. Freeman presented the awards. The ceremonies were held in the Sylvan Theatre on the Washington Monument Grounds, Washington, D. C. Walser was cited for "Outstanding service to Texas Agriculture through significant leadership in inspiring and informing people to plan and conserve the land and water resources of the state." Myers for "Exceptional competence and leadership in operations management and assistance in administration of service programs." Crews for "Meritorious supervisory and administrative leadership of SCS programs in an area lying in the

## Safari At The Fair

Ground was broken recently in the International Area of the New York 1964-1965 World's Fair for a major pavilion representing thirteen French-speaking nations of Africa. A fitting symbol of the showcase of freedom which the Fair represents, the pavilion will be sponsored by the African and Malagasy Organization of Economic Cooperation (OAMCE). Participating at the groundbreaking ceremonies were Ambassadors from the nations that make up the OAMCE: Cameroon, Central African Republic, Chad, Congo (Brazzaville), Dahomey, Gabon, Ivory Coast, Madagascar, Mauritania, Niger, Rwanda, Senegal, and Upper Volta. The other participants included Peter F. Lobkowitz, President, Dunbarry African

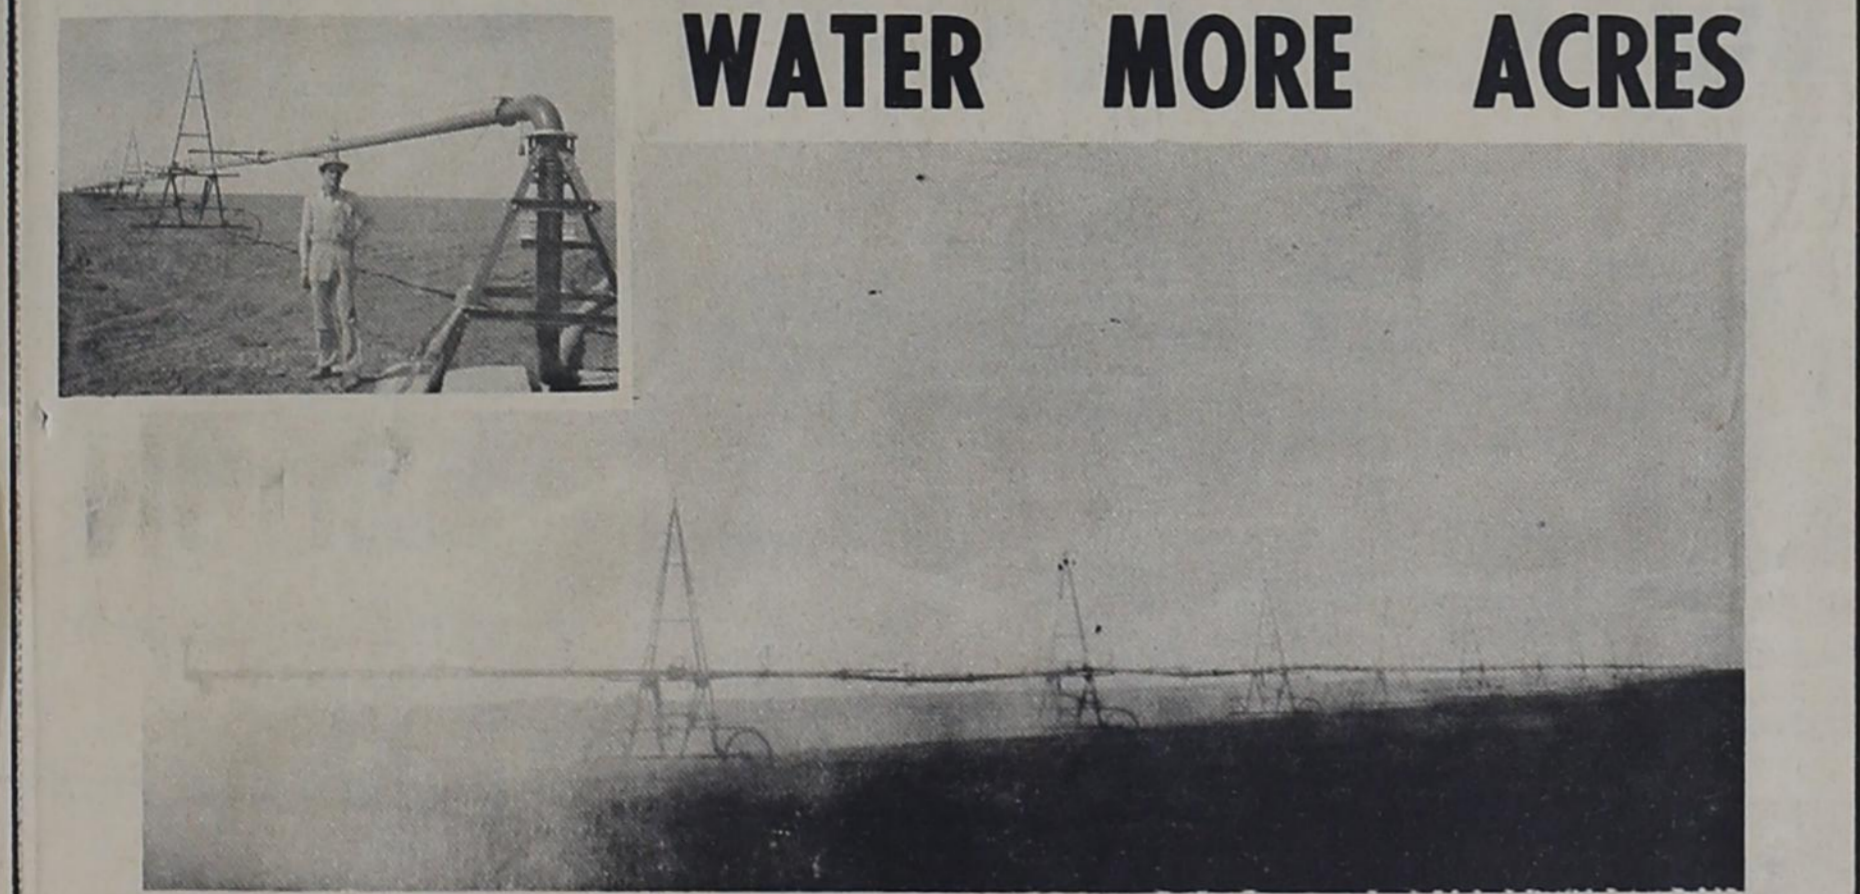

Development, Inc., a private banking group. U.S. State Department officials and Fair executives. The OAMCE Pavilion, a graceful stylized version of native architecture which will have exhibits from all 13 countries, each in its own building, is based on a design concept by Ray Graham and Tom John. Novel features include a 150-seat tree house restaurant, a theatre and a live animal exhibit with an elephant ride.

# Public Urged To Become "Milk Conscious" In June

June is generally the month when "Old Bossy" gets busy and starts producing more milk than most any other 30-day period of the year. This annual cycle triggers a fast response in the American Dairy Association which immediately gets busy making America "milk conscious." The purpose is twofold; the milk industry wants to prevent a seasonal glut on the market and it also wants the public to do what's good for it anyhow -- use more dairy products in the daily diet. A surprising number of our citizens are "overfed and undernourished" despite the fact that the United States has the most abundant supply of foodstuffs in the world. Most diets that are insufficient in proper vitamins could easily be corrected by the regular addition of dairy products -- especially milk and cheese. Texas is traditionally a "deficit area" in milk production, requiring the importation of dairy products from other states. But even here, supplies are plentiful and economical and a "must" for the health of the average family. In 1963, milk production may reach a level of about 126 billion pounds, or enough to supply every man, woman and child in the U. S. with about a quart of milk a day. Milk is fundamental in any well-balanced diet -- particularly for children who are usually prone to fill up on candy and soft drinks when parents aren't looking. Our older citizens will find milk is their best and most economical source of calcium as well as a good source of protein -- the building block of life. In recognition of the dairy industry's contribution to American diets, the Texas Department of Agriculture is wholeheartedly and actively endorsing the "June Dairy Month" promotion.
