

Swimming Pool Discussed By Town Fathers

Mrs. Glen Phillips, (right) and her friend Mrs. Bob Hart discuss the uses to which the check for \$176, they are holding will be put at the Lubbock Society for Crippled Children. Mrs. Phillips annually sponsors a bridge benefit, during the Easter Seal Campaign, and it was through her efforts the money was raised. Money will help to buy braces, crutches, wheel chairs and help with transportation of the children to the medical center.

Meeting in lengthy session Friday afternoon, Texico town fathers discussed ways and means of keeping the town swimming pool in operation this summer.

The pool, which is in its fourth year of operation, has been operating at a loss since it was first opened and town fathers say they are unable to continue operation unless some other means of support is provided.

Johnny Green, who operated the pool last season, gave a report of pool receipts the past summer, and says he thinks the cool rainy weather in July was responsible for the light receipts during the latter part of the summer. The first half of the season pool receipts were good.

Several ways of financing the operation of the pool were advanced, with an advance ticket sale discussed. Tickets would be sold to all persons for the

season for \$7.50 and if enough tickets were sold the pool could begin operation June 1 as scheduled.

If not, the pool may not be able to open this summer.

Green agreed to speak with

Lions Club members to see if they would be interested in helping with ticket sales and all other civic organizations are to be contacted to see if they would also help with the ticket sale. A decision on disposition

of the pool will be reached at the May 3, meeting.

Some discussion of letting the inter-city council take over responsibility of the pool next summer was held. Town fathers agreed that it sounded like

a good plan to let the council be responsible for the pool if it can be worked out.

R. E. Price, town marshal, met with councilmen to discuss the juvenile problem. He disclosed that several youngsters had been seen on the streets and in local cafes in the early morning hours.

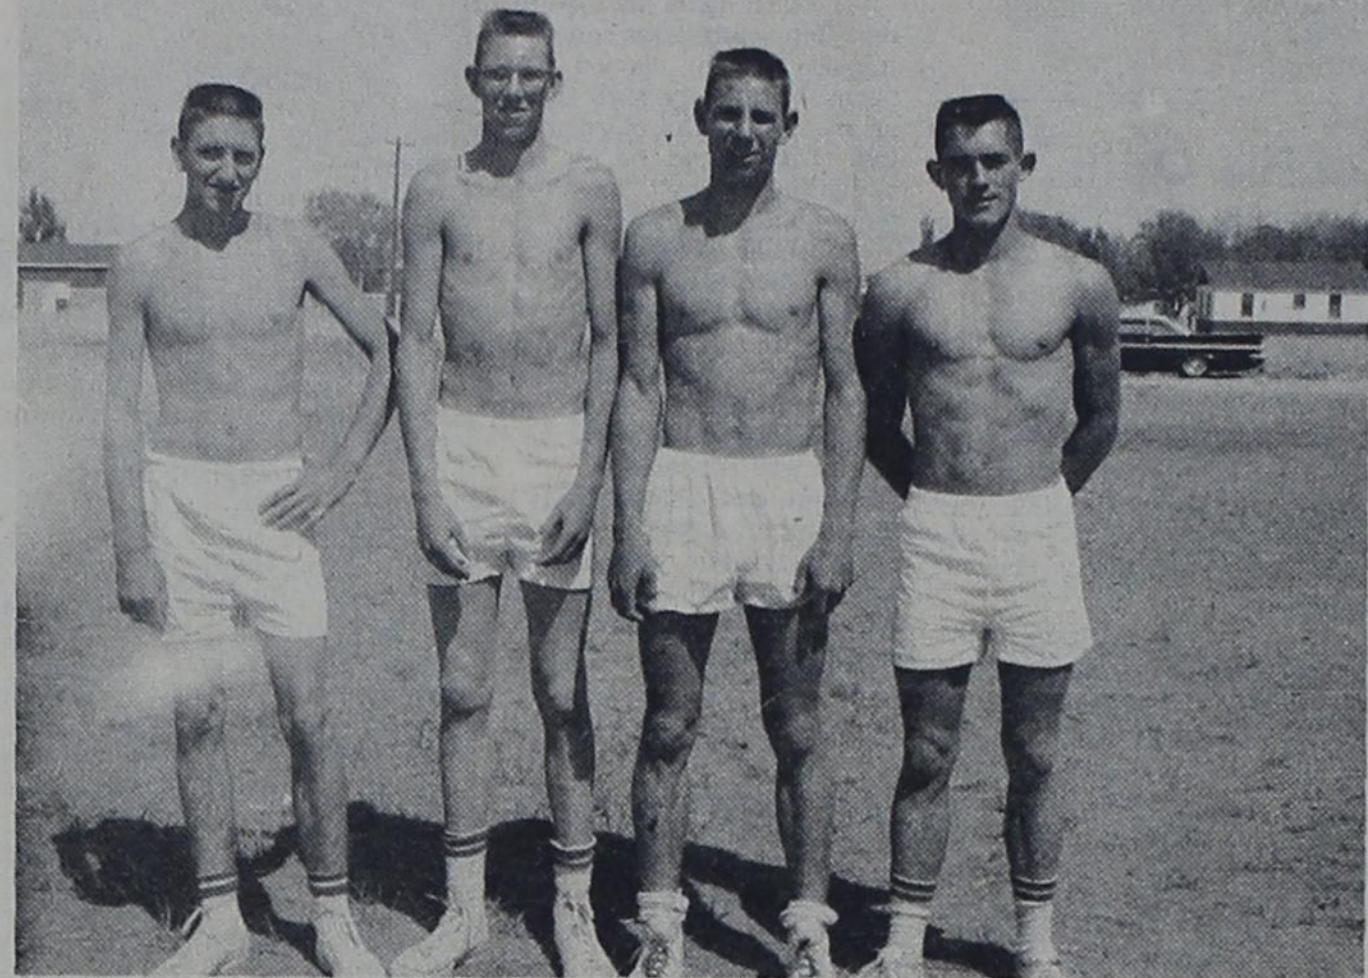

He asked for advice on how to handle the situation and was told to call parents of children who consistently keep late hours and report the whereabouts of their offspring.

Council members feel that a curfew would only add problems, as Texico is a border town and some children who keep late hours might be from the neighboring town.

Several complaints have been received from residents who object to the keeping of horses in the town. The town has an ordinance against such a practice and the town marshal was asked to remind residents of the ordinance.

Attorney Harry Patton is to look into the ordinance governing vacant lots, and see what can be done to have property owners clean up the lots. He is to report his findings to the next city meeting.

A motion was made to disperse with the services of Pat Callahan, who has been sweeping the town streets. Town fathers agreed that since the streets are to receive a seal coat in the near future his salary is an unnecessary expense to the town.

Winning first in the Tatum track and field meet Saturday with a time of 4.59 was the Texico Medley Relay team. Members of the team 1 to 4 are: Ronnie Curry, Bill Campbell, Tom Rickstrew and Jackie Dyer.

Texico School Census Now In Progress

Census blanks have been sent out from the office of Mrs. Roxie Crooks, Texico School secretary to all homes having children in school. Parents are asked to fill in the blanks and send them back to school as soon as possible, as all Federal aid to schools is based on the census. An accurate census is imperative.

All children who will be five years of age by January 1, 1964 and who have not reached their 18th birthday by January 1, 1964 should be listed on the census blank.

Any person who did not receive a census blank is asked to call Mrs. Crooks at the high school office; 482-3661. Parents of all children who will be starting to school are urged to

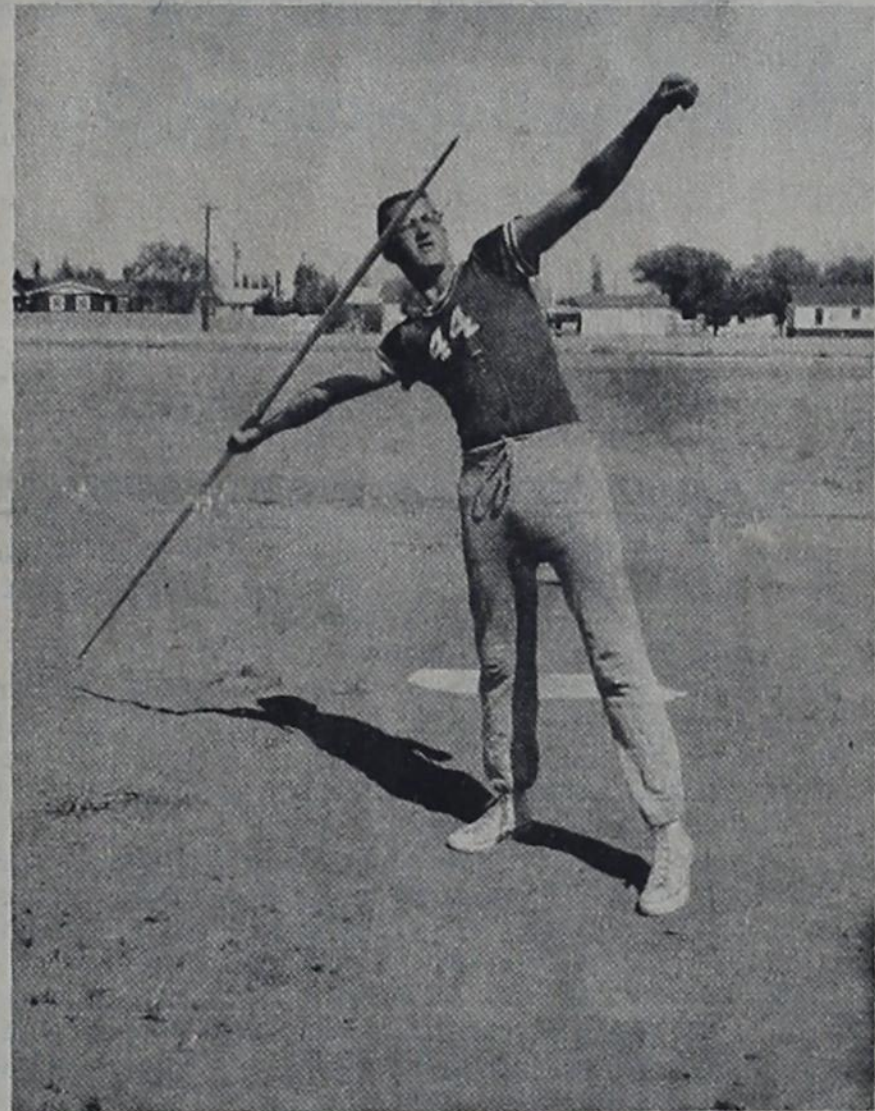

be sure and contact the school office for a blank, if their children have not already been listed.

Boys To Register For Little League, Babe Ruth League

All Texico-Farwell boys interested in playing baseball this summer, either on the Babe Ruth or Little League teams, are urged to be at the Texico School gymnasium, Monday, April 29, 4:30 p.m. to register.

Boys between the ages of 9-12 should register for the little league and boys 13-14 should register for the Babe Ruth League.

Any boy, who is not able to get to the school on Monday, interested in playing ball is asked to contact Johnny Green, at his home after school any day.

All set to toss the javelin is Vernon Thigpen, Texico track star, who has consistently won the javelin throwing event in meets all year. By throwing the javelin a distance of 171 feet Saturday he set a record for the Tatum track and field meet.

Child Drinks Nose Drops; Doing Fine

Mike, 2-year-old son of Mr. and Mrs. Bill Bolling, is recuperating well following treatment Tuesday, after the youngster had consumed a portion of a bottle of prescription nose drops.

Mrs. Bolling found him asleep in the living room shortly after breakfast, and noticed the empty bottle in his hand. When she was unable to rouse him, she rushed him to Farmer County Community hospital in Friona where he was kept for observation during the day.

FROM THE HOPPER

BY HOP JR.

Somebody was reliving the Great Depression the other day, and they painted a real drab picture of just how tough things got back in the early thirties. I don't for a moment doubt the accuracy of the account, and am sure glad that I didn't have to be the breadwinner for the family in those days when bread was a dime a loaf and steak was 20 cents a pound.

The prices weren't so bad, but they tell me that nobody had any money in those days. They haven't licked the money problem in these modern times, but they have come along with something almost as good—consumer credit.

It happened that I was born right along with the depression, and I am sure that my appearance at such an unhandy moment could have been taken as a harbinger of troubled times that were to come. In my adult years Mom and Dad gave substance

Services For Mrs. Smart

Funeral services were conducted at Steed Chapel, Friday for Mrs. Bettie Smart, 81-year old resident of Farwell, who

MRS. BETTIE SMART

passed away at the home of her daughter, Mrs. Bessie Williams, Wednesday night.

Rev. E. E. Houlette, Plainview, assisted by Rev. B. L. Barnes, Texico, and Rev. Melvin Sasse, Clovis, officiated at last rites. Burial was in the Texico Cemetery under direction of Steed's Funeral Home.

Mrs. Smart, who celebrated her 81st birthday in December, first came to this area in 1915 and settled in the Arch community, south of Portales, on a claim. In 1916 she moved with her family to Texico and made her home there until 1919 when she moved to her home in east Farwell, where she made her home until ill health prevented her living alone. She had lived with her daughter several

Outsiders Volleyball Tourney

The invitational outsiders volleyball tourney, being sponsored at the Farwell High School Gym this weekend by the Farwell junior high school girl's basketball team, got underway last night (Thursday).

Fifteen men's teams and seven women's teams are entered in the tournament. Each team is allotted eight players and team members are allowed to play on only one team.

Trophies will be presented to the first and second place winners and a consolation trophy will also be presented in each division.

Teams entered in the women's division are Sherley-Anderson, Farwell; Lariat Ladies, Powder Puffs, Hot Shots, Lariat Gin, Sherley-Anderson, Bovina, and Farmer's Union.

In the men's division are Pioneers, Friona Faculty, Texico - Farwell Lions, Rotary, Smith's 66, Bovina; East Siders, Clovis; P&H Hoppers, Farwell Faculty, Bovina PE, Cannon PE, Lariat Fertilizer, Oklahoma Farm Supply, Lariat Farmers, Gifford-Hill and A A Bowl.

Price of admission for the tourney is 25¢ per person each night, including players. All proceeds from the tournament will be used to buy new basketball uniforms for the junior high girl's team. The girls will also have a concession stand at the tourney and will sell soft drinks, candy and sandwiches. They will also possibly have a bake sale on the last night of the tourney.

Huffman Stresses Clean Living

Burl Huffman, freshman football coach at Texas Tech, was guest speaker at the Farwell High School athletic banquet Saturday night.

In speaking to the gathering Huffman urged the young people present to keep their bodies in the best physical condition by clean living, taking plenty of exercise, eating the right foods, and keeping regular hours.

He said all great athletes are persons who have learned early in life to observe these rules.

In closing Huffman quoted a poem, comparing life to a football game.

Hurshel Harding, president of

the Farwell Chamber of Commerce, presented the chamber award, which is annually presented to a senior who is chosen by a committee of chamber members, to Bobby Actkinson.

The choice is made on the following basis: must have lettered in two sports, must have a grade average of at least 85 and no grade below 70, show the right attitudes in and out of school, be of fine character and have high moral standards.

In addition to the chamber award, Actkinson was also recipient of the outstanding football player award and the award

Texico Wins Meet; Sets Two Records

Texico Wolverine track and field team was in Tatum Saturday to participate in the Tatum Relays. They took the meet with a total of 115 points, while their nearest opponent, Tatum, was able to garner only 92 points.

In winning the meet Texico set two new records, Vernon Thigpen hurled the javelin 171 feet to set a record and the 440 relay team (Jackie Dyer, Wayne Hudnall, Vic Harrington and Hal Ed Helton) with a time of 45.4 also set a new record for the relays. Thigpen was second high

point man in the meet being beaten by Horton of Tatum. Texico had seven first places at the meet and placed in most of the events.

Results: high hurdles - 1st Tatum; 2nd Weldon Walker (Texico) time 16.1; 4th - Kenneth Glaze (Texico).

100 dash: 1st - Tatum - time 10.2; 3rd - Hal Ed Helton (Texico); 4th - Vic Harrington (Texico).

Mile run - 1st Mike Spearman (Texico) time 5.21; 2nd Kenneth Glaze, (Texico); 3rd - Ronnie Curry (Texico).

880 relay - Tatum - 1st - time 1.36.2; 2nd - Texico (Helton, Harrington, Dyer, Campbell) time 1.36.3.

low hurdles - Tatum - 1st - time 20.1; 2nd - Vic Harrington

(Texico); 3rd - Weldon Walker (Texico) and 4th - Mickey Lofton (Texico).

880 run - 1st Tatum; 4th - Ronnie Richardson (Texico).

Medley Relay - 1st - Texico - (Dyer, Campbell, Rickstrew, Ronnie Curry) time 4.59.

220 dash - 1st Dexter; 2nd Texico - (Hudnall) 4th - Texico (Helton).

Mile relay - 1st Elida; 2nd - Tatum; 3rd - Texico.

440 dash - 1st Dexter; 2nd Texico (Hudnall).

Pole vault - 1st Tatum; 2nd (Continued on Page 2)

Planning Meeting For Lazbuddie Parents, Teachers

Parents of all children who will be starting school for the first time this fall in Lazbuddie are invited to attend a planning meeting in the school library (room 10) April 30, 2:30 p.m. Bring the child's birth certificate and his immunization records if at all possible.

"We feel that a meeting between parents and teachers, will smooth the way for the child's entrance into school," says J. G. Ward, school superintendent.

The home economics department is planning a party for all pre-school children at the same time as the meeting of parents and teachers, and parents are urged to take their children by the homemaking cottage before coming to the library.

NOTICE

Hal Geldon, representative of the social security office in Amarillo, announces a change in the time and dates for people of the Farwell-Lariat-Bovina area to contact the social security representative.

He will not be in Farwell as previously announced through the months of May and June; however all area persons wishing to contact the representative may do so by going to 115 E. 6th St., Clovis, between the hours of 9:30 a.m. and 1 p.m. (CST) Wednesday May 1-8-15 and Wednesday June 5-12.

On Wednesday May 22-29 and Wednesday June 19-26 the representative will be in the same office between the hours of 2-5 p.m. (CST).

Local Teacher Receives Science Fellowship

Mrs. Gerald Wilkinson, second grade teacher in the Texico School, has been selected by the National Science Foundation for a science fellowship, which is granted annually to several elementary teachers throughout the United States. She will attend school in Denton, at Texas College for Women.

Mrs. Wilkinson, who received her BA degree from Southeastern University, Durant, Okla., has had seven years teaching experience, five of which have been in the Texico school. She taught in Swink, Okla. two years prior to coming to Texico. This summer's work will go toward a Master's degree in elementary education.

In addition to her teaching duties Mrs. Wilkinson is the

mother of three children, two daughters and a son. The girls, Alicia and Kathy are in the

MRS. GERALD WILKINSON

sixth and fourth grades, respectively. Her son is eight months of age.

Mrs. Wilkinson will be leaving the Texico school at the end of the current school year and will move to Hanford, Calif., where she and her husband have accepted teaching assignments. She will be accompanied to Denton by her husband, Gerald who will work on his doctorate at North Texas Teacher's College.

Local Woman's Uncle Dies

Funeral services were conducted in Dallas at Sparkman Ross Ave Chapel, Monday for J. Willis Gunn, uncle of Mrs. Mitz Walling, who passed away in a Dallas hospital Sunday following a lengthy illness.

Interment was in Restland Abby, Dallas.

Mrs. Walling had gone to Dallas last week to be at the bedside of her uncle. Walling accompanied by her brother and sister-in-law, Mr. and Mrs. Jack Gunn, Forrest, went to Dallas Sunday.

The group returned to Farwell Tuesday night.

BLOSSOM CANDIDATES - Valeria Meier, Texico (right) is one of the young women named as a candidate for Yucca Blossom from the junior class at Eastern New Mexico University. One will be named when the Silver Pack yearbook is presented in May. To be considered for the title, a woman must be single and have a minimum grade average of 2.3. Others girls in the picture are Jerilyn Burns, Keye Kelley and Marcia Donnell.

Hopper --

(Continued from Page 1)

to that theory when they confided in me that at the time they had already "had" their family, and I certainly wasn't expected. They didn't say welcome, mind you—just expected.

Anyway, me and the depression got off to a roaring start and if the Grahams were any worse off for it, I don't seem to recall. At the time it didn't seem strange to me that my daddy walked to work every day. A lot of other folks did too and there wasn't anything said about keeping up with the Joneses. I guess the main exercise was keeping ahead of the mortgage.

Nor did it seem strange to me that Hop would often come home lugging some canned string beans or a salty slab of bacon or even a sackful of giant turnips. This would be his "subscription money" for the day from some farm family.

The Grahams didn't have much money, but they did find some time for living, and it may seem strange to you to hear such a statement, but the depression years for the Grahams were the happiest ones so far as the family was concerned.

Mother and Dad probably had their worries, just the same as everybody else, but they managed to push them aside after the work was done and we enjoyed some wonderful evenings and weekends together.

I learned to snap green beans or shell blackeyed peas and put them in a stewer and to pick the hair off the corn after Mother had "skinned" it. These chores were usually performed in the kitchen and you sat down crosslegged on the linoleum floor while you listened to family conversation or the drip-drip of water from a tap in the sink as it soaked through a sack of homemade cottage cheese that hung from the faucet.

Your American history books will inform you that those were the days of the terrible black dusters, and they are right. Only I don't remember them as so terrible. Black alright, but not really terrible.

One black duster I remember with vivid clarity occurred on a Sunday afternoon. We were coming home from church and you could look out across the horizon and see the thing welling up in the north like a giant tidal wave.

It swept down on the little town of Texico-Farwell without a sound until it was about a quarter-mile away, and then the wind hit. It is true that I was quite young when all this was going on, but I don't believe I imagined that the crest of those black dusters, as they boiled across the plains, was topped with numerous large birds—hawks and a lot of what we kids called "bull bats".

They would fly along in front of the ominous black clouds of dust. I don't know just why. I'm not sure whether they were flying to keep out of the duster or just coasting along in front of it to catch the bugs it was scaring up.

Anyway, I said that the black dusters weren't terrible, and that is true. They were frightening, all right—especially if you hadn't seen one—and they gave you a sort of "end of the world" feeling in the pit of your stomach when you watched one rolling down, but they had less actual effect than a good ole all-day, all-night "dirt storm" in the spring from the southwest.

When the black dusters had rolled by for an hour or so, they usually pooped out and the sun came out and things were just peachy. What's more, they weren't black dusters; they were purple.

I nominate James Craig as the Man Most Likely To Get The Point Across. I believe the state department could put a man with his talents to good use.

The Tribune couldn't be represented at the athletic banquet Saturday night, and Big James trudged in the first of this week with pictures of same, which we sorely needed.

Looking down at me from his 6-3 height, he dropped the pictures on the desk and allowed that we "might get a little better service" if we gave C&D Photo credit for the pictures. I got the message loud and clear.

Incidentally, it should be said this isn't the only instance that C&D has been helpful. Not by a long shot. We've leaned on them many times before, and they've always come through. If you didn't know, C&D is short for Craig and Dew (Gene).

May Day Festival May 3, Farwell School

The second annual May Festival will be held at the Farwell High School Gymnasium at 8 p.m. Friday, May 3. It is a program presented by the Farwell Elementary pupils. A May Queen is crowned, and in her court are a prince and princess from each classroom. The other children in the elementary classes present a program for the entertainment of the court and the audience.

This year the program will be an operetta entitled "Awake 'Tis May." The operetta tells of a party of boys and girls who are planning a flower garden.

As they begin to dig, the boys turn up several worms, which reminds them of their new fishing rods. Left alone to their task, the girls are wondering what to do. Suddenly they see a Fairy Messenger, who has been sent by the Fairy Queen to find out who has been planning a garden, and also to pick out a place for the May Festival.

She tells them to leave their garden implements and that the Brownies will prepare the flower beds. The Brownies dig and till, the Seed Fairies plant, sing and dance; the Fairy Queen appears with the lovely Flower Festival, a Flower Queen and 'tis May.

who are planning a flower garden.

As they begin to dig, the boys turn up several worms, which reminds them of their new fishing rods. Left alone to their task, the girls are wondering what to do. Suddenly they see a Fairy Messenger, who has been sent by the Fairy Queen to find out who has been planning a garden, and also to pick out a place for the May Festival.

She tells them to leave their garden implements and that the Brownies will prepare the flower beds. The Brownies dig and till, the Seed Fairies plant, sing and dance; the Fairy Queen appears with the lovely Flower Festival, a Flower Queen and 'tis May.

At the close of the operetta, twenty children from each of grades one through five will wind the maypoles. Imagine, if you can, five maypoles, decorated with flowers at the top, and beautiful colored streamers, being wound and unwound by one hundred skipping children.

Sydney Bell will be crowned "Queen of May" and Danny Prince will be "King of May." Their attendants include princesses, Sandra Watkins, Gloria Asevedo, Connie Terry, Barbara Goetsch, Sandra Ensor, Connie Jones, Beverly Tims, Penny Phillips, Jean Kirk, Trummie Christian, Tina Ruddled and Ruth Blankenship.

Princes' are Kevin Hardage, Clyde Dollar, Rodney Herrington, David Blankenship, Jimmy Franse, Craig Capps, James Magness, John Franse, Eugene Sheets, Kirt Martin, Greg Meeks, and Donnie Wise.

Flower girl will be Joi Meeks and crown bearer will be Dovie Coker.

Price of admission is 75¢ for adults, and 35¢ for students. No admission will be charged for children under six years of age.

All elementary teachers are helping to sponsor the operetta. They are also helping the mothers of students prepare the colorful costumes for the presentation.

Texico Wins --

Texico (Doshier) - 10.6. Shot put - 1st - Texico (Thigpen) 45 feet 7 inches. Broad jump-1st-Texico (Hudnall) 19.11; 4th - Texico (Campbell).

Discus - Texico (Harrington) 126 feet; 2nd - Texico (Thigpen); 4th - Texico (Campbell). High jump - 1st - Elida; 5 feet 8 inches; 3rd - Texico (Dyer).

Coach C. B. Stockton is optimistic about his team's chances in the EPAC track and field meet, in which they will be entered this weekend.

He says "If our luck holds, and no one is injured, we should have a good chance to win this one, and go on to the district meet with some good times for the boys."

Preliminary events in the EPAC meet will get underway Saturday morning 9:30 a.m. (MST) in Portales at Greyhound field. Finals are scheduled for 1 p.m.

Local People Attend Funeral Of Cousin

Willie, Johnnie and Jack Williams accompanied by their sister Mrs. M. A. Snider were in Grandfield, Okla. recently to attend funeral services for their cousin, Mrs. Bill Brown.

Services for Mrs. Brown were conducted in the Grandfield Baptist Church with interment in the Grandfield Cemetery.

Mr. and Mrs. Willie Sheriff, brother and sister-in-law of Mrs. Brown, and Mr. and Mrs. Evans Sheriff, niece and nephew of Mrs. Brown, all from Las Cruces, returned to Farwell with the local people for a short visit.

On Friday Mrs. Dan Hanks and son Jim from Yuma accompanied by Mildred Sheriff also of Yuma were visitors in the Williams and Snider homes.

"SEARCH THE SCRIPTURES"

SAVED BY GRACE

It is commonly agreed that faith and repentance of sin are necessary steps to salvation, but some balk on the subject of baptism. WHY? Some say that it eliminates the grace of God. What about faith and repentance -- do they not eliminate the grace of God? Neither does baptism. To the Ephesian Christians, Paul said, "For by grace are ye saved through faith; and that not of yourselves; it is the gift of God; not of works, lest any man should boast." (Eph. 2:8-9). These people were saved by GRACE, and not by their own boastful works. In being saved by GRACE, what did these Ephesians do?

The conversion of the Ephesians is set forth in Acts 19. They heard the word of God (v. 5); they believed and confessed (v. 18); they changed their minds about sin, or repented (v. 19); and they were baptized (v. 5). So, the Ephesians HEARD, BELIEVED (and confessed that belief), REPENTED, and were BAPTIZED -- yet Paul says they were saved by GRACE. Grace was on the part of God, and the action in the system of faith was on the part of the Ephesians. Even though they Heard, Believed, Repented and were Baptized, they did no boastful work, but only the work of God because God commands these things. When man obeys, God saves him by His grace.

Visit the church of Christ--Listen to KZOL Sunday at 8:30 A.M.

Notaries Public Must File Oath

Secretary of State Crawford C. Martin announced that all qualified Notaries Public desiring re-appointment for the new term ending June 1, 1965 must re-qualify by the payment of the required fee and the filing of a new oath and bond with the County Clerk of his residence between June 1, 1963 and June 10, 1963.

Martin emphasized that Notaries Public should not send requests for reappointment or for commissions directly to the Secretary of State. The law

specifically requires that the County Clerks appoint notary bonds.

Any person not now a Notary Public who desires appointment should apply to his County Clerk between April 1, 1963 and May 20, 1963. Application during this period will assure prompt attention before the rush procedure of reappointing present Notaries.

The Secretary of State further pointed out that each person applying for a commission as a Notary Public must be at least 21 years of age and a resident of the county for which he is appointed. The exact name and permanent address of the applicant must be furnished the County Clerk.

Attend Press Meeting

In Amarillo recently to attend the Panhandle Press Association's annual meeting were Mr. and Mrs. W. H. Graham and Mr. and Mrs. John Getz.

The State Line Tribune received an honorable mention certificate in general excellence.

Mrs. Smart --

(Continued from Page 1)

months at the time of her death. Mrs. Smart was a member of the Pentecostal Church and was an ardent Bible scholar. She taught a Sunday school class for a number of years and helped minister to the sick as long as her health would allow.

Survivors include the daughter, Mrs. Bessie Williams, Farwell, three sons, Jack Johnson, Amarillo; Ben O. Smart, Lubbock; Jim Bob Smart, Farwell; 14 grandchildren, eight great-grandchildren and 16 great-great-grandchildren. Grandsons were pallbearers.

Uncle Ray's "Hot Air"

A man pays a luxury tax on his billfold, an income tax on the stuff he puts in it, and a sales tax whenever he takes anything out.

A lady was entertaining the small son of a friend. "Are you sure you can cut your own meat, Tommy?" she inquired. "Oh, yes, thanks," answered the child politely. "I've often had it as tough as this at home?"

Don't you be embarrassed, shop Uncle Ray's for better groceries.

CHRISTIANITY
Is The Bulwark of Our Way of Life

The Value Of Religion by Carroll Jackson

CARROLL JACKSON

The tragic shortcoming of thousands of our society is their claim that religion has no real value, that is in terms of permanence. The claim is that the Bible is basically a number of traditional stories (most of them distorted by the minds or superstitious writers) with a good moral plot. However I cannot help but think that no honest thinking person could ever accept such a viewpoint.

It takes but little investigation to reveal that were it not for religion, specifically the religion of God by Christ Jesus, the whole social structure of mankind would be vastly changed. The democracy that this country enjoys, and we in turn are trying to sell to all the world, is based upon the concepts of God by Jesus Christ. How can any honest thinking person say religion has no value, or if it is a value it is only in terms of relativity and not absolute?

The value of religion is based upon individual appropriation. As each person is willing to honestly study God's word and make the application to himself then it's value is clearly perceived. As a number are willing to do this you soon begin to have a social order that is willing to govern themselves by principles of God's word.

The founders, and our forefathers, of this great country we live in were basically a group of people as previously mentioned. Because of their belief in religions value, not only for the soul eternally but also for man socially, they began an order of society that has surpassed any country in history. Why? Because of the value of religion!

Granted not all religious people reflect the value contained in their religion but the fault is not in Christ or His teaching but in the person. Jesus once said, "Stop judging according to appearance but judge righteous judgement." (Jo. 7:24) In application this can be fulfilled by not judging the value of religion on the basis of some people but rather studying yourself and thereby learning the true value of religion and Jesus Christ.

Mr. and Mrs. Raymond Fred Danforth, Texico, announce the engagement and approaching marriage of their daughter, Patricia D'Rene, to Larry Wayne Lethgo, son of Mr. and Mrs. Glenn H. Lethgo, 1300 Davis, Clovis. The wedding will be Sunday, June 9, 4:30 p.m. (MST) in Our Chapel Of Memories. Friends and relatives of the couple are invited. Both young people are students at Eastern New Mexico University.

MRS. REX CARPENTER Photo by Myrtle's Studio

Jo Potts Bride Of Rex Carpenter

In a simple but impressive ceremony at St. James Episcopal Church in Clovis, Friday, April 19, Miss Jo Karen Potts, daughter of Mr. and Mrs. Ray Ford, Farwell became the bride of Rex Carpenter, son of Mr. and Mrs. E. Rex Carpenter, Clovis.

Officiating at the double ring ceremony was Rev. Douglas Mould, church rector. Acolytes were David and Douglas Mould. The church altar was decorated with two huge bouquets of white Calla Lilies and pom poms, flanked by the gold seven branched candelabra holding white tapers.

Farrell Roberts, church organist played soft pre-nuptial music and traditional wedding marches. Mrs. Marilyn Edwards, close friend of the bride was maroon-of-honor. She chose for the occasion a sheath dress of powder blue linen, with which she wore a short-sleeved coat of powder blue mohair and a halo

hat of matching hue. Her accessories were white and she carried a colonial bouquet of white carnations tied with powder blue ribbon.

The bride, escorted to the altar and given in marriage by her father, chose a three piece suit of white knit. Her short veil of white illusion was held in place by two powder blue clips. White accessories completed her attire.

The bride's bouquet was a cascade arrangement of white carnations and pom pom mums. Carrying out tradition, she wore for something old the wedding ring of her deceased maternal grandmother, Mrs. Travis Brown. Her suit was new, a pearl necklace, belonging to her mother, was borrowed, and blue was the traditional garter. For luck she carried a penny minted in the year of her birth, and that of the groom.

Serving, his brother, as best-man was Jimmy Carpenter. Ushers were Butch Ford, brother of the bride, and Bruce Burton, close friend of the groom.

Returns Home

Mrs. Dean Wilson and children, Robbie and Kimberly from Wynoka, Okla., returned to their home Tuesday after visiting in the home of Mrs. Wilson's parents, Mr. and Mrs. E. R. Coffman, for a two week period.

Mrs. Wilson and children were joined by her parents and brothers and sisters for a visit in Fort Collins, Colorado, with Mr. and Mrs. Frank Coffman and son, Bart, during the Easter holidays.

Members Discuss Convention, Tea

Final plans for ESA state convention were made Monday night when members met in the home of Mrs. W. H. Graham. The convention is slated this weekend in Clovis.

Mrs. Joe Helton, president-elect, presided in the absence of Mrs. Mitz Walling, who was out of town. Theta Rho, the local chapter, is in charge of gifts and door prizes for convention, with Mrs. Helton as chairman and Mrs. Pike Jordan as member of the planning committee. All members of the local chapter served as a working committee.

Mrs. Walling, chapter president, will compete in the contest for outstanding member of the state for her work in ESA and other civic projects. She was named as one of the top three in district competition.

Members also planned a salad luncheon to honor mothers of members May 5.

Correction

In listing local sponsors of Texico Boy and Girl State Delegates last week, the Texico PTA was omitted. The correct list should read Texico Woman's Club, Texico PTA, Texico-Farwell Lion's Club and Texico Firemen.

Mr. and Mrs. Oscar Hubbell, Route 1, Farwell announce the engagement and approaching marriage of their daughter, Joan, to Cecil Mason Johnson, son of Mr. and Mrs. Cecil Johnson, Littlefield. Friends and relatives are invited to attend the Saturday, June 1, 8 p.m. wedding at Oklahoma Lane Methodist Church and the reception, Miss Hubbell is a junior at Texas Tech and her fiancé is 1962 graduate of West Texas State University. No invitations are being sent locally.

Texico FBLA To State Convention

Members of the Texico Chapter of Future Business Leaders of America will be attending the state convention of FBLA members at ENMU, Portales, today (Friday) and Saturday.

Linda Palmateer and Howard Danforth, candidates for Miss and Mr. FBLA, will be interviewed this afternoon by a committee of three businessmen. They will be in competition with candidates from all other chapters in the state.

Linda, along with James Watts, will take part in the oral spelling contest.

Hoping to follow the precedent set by their organization last year, members of the parliamentary procedure team will have their written test and present a model meeting Saturday morning. Texico Chapter team was first place winner last year. Members of the team this year are Donald Chandler, president,

Lloyd Harrison, parliamentarian, Linda Palmateer, secretary, Howard Danforth, Dwayne Billingsley and James Watts.

To enter the individual public speaking contests will be Donald Chandler in the boy's division and Marquetta Wall in the girl's division.

Seven members of the business education department participated in a different contest at the State Commerce Club Convention last weekend in Las Vegas at Highlands University.

Kathy White and Cynthia Spence received medals for outstanding work in typing I. Certificates were awarded Kathy, Cynthia and Linda Palmateer in typing and Kathleen Smith for bookkeeping.

The department received a proficiency pennant, which was presented to Mrs. Fred Danforth, accompanying sponsor.

Local Boy Makes LCC Honor Roll

Leslie Winsper, son of Mrs. Irene Dyer of Texico and a 1961 graduate of Texico High school, has been named to the mid-semester honor roll at Lubbock Christian College. He is one of 15 sophomores to make the list from a class of 124 students.

The honor roll is set up on a 4.0 scale, on which 4.0 indicates an A average. Winsper rated 3.37.

He is attending LCC on an athletic scholarship, is a member of the school's track team and Kyodia men's social club.

Make Earrings--

work day Tuesday. Members will meet at the community center to begin painting the building.

Next meeting was set for May 2, in the home of Mrs. Donald Clark. At the May meeting Mrs. Daughtery, Curry County HD Agent, will present a program on current problems of rearing children. Her topic will be "Baby Sitting, (hiring and training daughters.)"

Attending were Mesdames Leon Webb, Donald Clark, Mason Neeley, Charles Bourlon, Martha Helz, Eric Pierce, John Tadlock, Pearl Singleberry, Frank Henke, Elmer Langford, Frank Meier, Maurice Clark, John Range and the hostess Mrs. Gene Boatwright.

JOTTIN'S

By Jeanne

The new spray starch is a wonderful invention for the housewife, but I have word from one who knows that the product has its limitations. It isn't recommended as a hair spray.

This word comes from my busy and sometimes harried sister who happened to grab the wrong spray can before she dashed out for an appointment. She says starch does absolutely nothing for the hair style.

If you aren't caught in the hectic last of school rush, you don't know what you're missing. It isn't only the teacher who is involved in the preparations for the end of school activities. Mothers are finding themselves drafted as cooks for banquets, decorators for special occasions, costume seamstresses for programs and many varied activities.

Some of the excitement of the preparations does rub off on those associated with the activities.

When the eight-year-old decides what he wants for his birthday -- a concrete swimming pool in the back yard; (he agreed to settle for a new "slip 'n slide")

The two-year-old is suddenly and almost miraculously "trained";

The 10-year-old cleans house as a surprise;

And the 4-year-old learns to put the puzzle together all by himself;

I note that variety comes in fours at the Grahams.

Flower Arranging--

or coffee to Mesdames Harvey Hudnall, Buck Doran, Johnny Green, Charles Stockton, Elmer Teel, Rip Snodgrass, Leroy Faville, Wesley Engram, John R. Hadley, Milton Henson, Jim Pierce, B. D. Younger and David Axe, members.

Also Mesdames Ed Farmer, Edgar Campbell, James Britt and Bobbie Mitchell, guests.

Cuts Of Meat Studied By Club Members

Texico Modern Homemakers met at the Spur Restaurant Tuesday morning with Mrs. Loren Wilson as hostess. Mrs. Daughtery, Curry County HD agent, was present and gave a demonstration on cuts of meat, including beef, lamb, and pork.

Members answered roll call with a one-dish meal.

Plans were made for the window display which the Texico club will set up in the J. C. Penny window, commemorating National HD Club Week April 29-May 4.

Plans were also made for the fair booth for which the club will be responsible at the Curry County Fair early in September.

Next meeting will be in the home of Mrs. Elmer Langford, in the Pleasant Hill Community, May 14, with Mrs. Johnny Green hostess. Mrs. Langford will demonstrate flower arranging.

Pie, pops and coffee were served to Mesdames Duane Herington, Paul Skaggs, Joe Camp, Tommy Franks, C. H. Webb, Johnny Green, Roy Rickstrew, Truman McKillip, Ed Combs, T. J. Kittrell and daughter, Lisa and Mrs. Loren Wilson, the hostess.

LUTHERAN NEWS

April 15-19 the Lutheran Church, Missouri Synod, met in Austin and the American Lutheran Synod, met in San Antonio for their annual conventions. Greetings were exchanged and each Synod was honored with the president of each presiding over the annual meetings.

April 21 Walther League held its annual rally in Littlefield. Rev. A. R. Sander gave the opening address and Rev. E. Hohle, Littlefield gave the closing address. New officers were elected and the days offering was sent to Wheat Ridge Foundation.

The LWML will meet May 2. This is also deadline date for the clothing drive for World Relief.

Vacation Bible School is scheduled for St John's Lutheran church June 3-7. All children are welcome.

In Richey Home

Mr. and Mrs. Sidney Richey from Oklahoma City spent last week visiting in the home of Mr. and Mrs. T. H. Richey in Texico.

On Tuesday the two families were in Carlsbad for a tour of the caverns.

The Richey men are brothers.

Attends State PTA Convention

Mrs. Melvin Burns, vice-president of the Texico PTA, returned from Albuquerque Saturday, where she had been in attendance at the state PTA convention.

She attended workshops on legislation, parliamentary procedure and "Americanism vs. Communism."

Several new resolutions were adapted at the meeting.

A reception and banquet concluded the events of the two day meet.

Main speakers were Tim Wiley, state school superintendent, John Gott, state finance director, and Senator Black, from Los Alamos.

Attends State Convention

D' Rene Danforth, daughter of Mr. and Mrs. Fred Danforth, will be among the nine home economics students from Eastern New Mexico University attending the state convention for home economics majors on the campus at New Mexico University, Albuquerque, this weekend.

The nine students will be accompanied to the Duke City by Mrs. Vera Murphy, instructor in home economics and club advisor.

cluded the events of the two day meet.

Main speakers were Tim Wiley, state school superintendent, John Gott, state finance director, and Senator Black, from Los Alamos.

Recent Visitors

Recent visitors in the home of Mrs. Ruby Dixon and Miss Laura Temple were their son and nephew, Mr. and Mrs. Harold Dixon and family, Albuquerque. Also Mr. and Mrs. Elmer Temple, their brother and sister-in-law from Albuquerque visited briefly with them Thursday.

What Makes A Bank A Leader In Its Field?

A GOOD QUESTION

... And one that deserves answering. As a "country bank" Security State has grown from a modest beginning to a bank with over \$6,000,000 in resources today. It is more than just happenstance that Security State holds a leading position among the non-metropolitan banks of the nation, and we take it as a matter of pride that our community, trade area, and bank have shared in the growth and progress of two generations of building on the Plains.

Now, let's examine for a moment the reasons for Security State's leadership. First, there's

STRENGTH AND STABILITY

Foremost among the considerations of all depositors is the solidarity and fiscal integrity of the bank that handles their money. Secondly, there's

KNOWLEDGE AND EXPERIENCE

Security State's banking know-how has been accumulated over years of conscientious service. Originally our bank supplied capital for agricultural and livestock production, and that is still our most important business. However, our field of financial service has broadened and expanded through the years and we now offer a broad range of banking facilities.

Now let's look at the

HUMAN SIDE OF BANKING

Courtesy, convenience, helpfulness . . . these are the words of modern business, and they all fit into Security State's philosophy of doing banking. Banking is a commercial function, but business is nothing more than people in action. For this reason, we place great stress on the personal aspect of banking. Chances are we know you by your first name. Chances are you know our employees by their first names. That's what we mean. We know you -- you know us. We have mutual interests.

These Are Some Of The Reasons Why Security State Bank Is A Leader

SECURITY STATE BANK

Steers Do Well At Regional Meet

The four members of the Farwell Steer track and field squad, who were in Lubbock Saturday for the regional meeting, made a fine showing for their school although they were unable to place in the top bracket and participate in the state meet to be held in Austin later this month.

All members of the four-man squad participated in the finals with Roy Donaldson placing 4th in the 100 dash, the 220 dash and 6th in the broad jump with a distance of 19.7.

The sprint relay team (Roy Donaldson, Larry Donaldson, Leon Lovelace and Ronnie Reed) place 5th in that event with a time of 45.2, which is a better time than many teams who will be going to the state meet. In order to attend the state

meet boys must place in 1st or 2nd place at the regional meeting. Coach Alexander says he is well pleased with the performance of his boys, and adds "that this was the stiffest competition I have ever seen in a regional meet."

Pleasant Hill

BY MRS. BUCK TAYLOR

Mr. and Mrs. Mike Brown and his sister and brother-in-law, Mr. and Mrs. Riley Burnham, Clovis visited Sunday in Plainview, with Mr. and Mrs. Ronald Lahue, Mrs. Lahue is a daughter of the Browns.

Fifty Attend Dale Carnegie Demonstration

A demonstration class in the Dale Carnegie course which is scheduled to begin at the Texico High School library, May 6, 7:27 p.m. (CST) was held Monday night with approximately 50 persons in attendance.

Only 44 persons may enroll in the class and few vacancies remain. Those interested in taking the course are asked to contact Bob Crume, Dr. T. J. Glenn, Leroy Faville, Bill Boling, Herbert Potts, Harry Sheets or Joe Jones immediately to be assured of a place in the class.

Present plans call for the classes to meet in the Texico High School library each Monday night for 14 weeks, beginning May 6. The course will be taught by a certified Dale Carnegie graduate. It is being sponsored locally by members of the Texico-Farwell Rotary Club.

The little boy was visiting a farm for the first time in his life. He was taken out to see the lambs and finally built up enough courage to pat one. He was delighted, "Why," he cried, "they make them out of blankets!"

Pvt. Dannheim Arrives In Germany

Word was received by Mr. and Mrs. William Dannheim Sr., early this week that their son, Pvt. William Dannheim Jr., has arrived in Germany.

PVT. DANNHEIM

He will be stationed in Germany for the next two years. His first base will be in Munich.

Pvt. Dannheim wrote his parents describing the trip by jet airliner from Fort Dix, N. J. to Frankfurt, Germany, saying the trip only took eight hours. He says "I was unable to see much of the English Channel, New York City or London although we did pass over them."

Pvt. Dannheim recently completed combat engineering

Local Students To Los Alamos

Glendon Moss and Mrs. Kathy Stelling, Texico, were among the 14 Eastern New Mexico University students making a tour of several plants at Los Alamos over the weekend.

Moss is a mathematics major, and Mrs. Stelling is majoring in chemistry. They are both members of Chi Sigma Alpha, national honor fraternity for mathematics and science majors.

where there's no extra charge for the trimmings

PRICES are always relative... whether they're actually high or low depends on what we get for our money.

Local business and service establishments offer the same goods for similar prices... or less... that we can get in some distant city or town... plus... at no extra charge... more convenience, quicker service in times of emergency, more personal interest in our needs and problems, important help in the financial support and upbuilding of this area in which we live... and upon which we depend for a living.

These extras, and many more are ours... no extra charge... when we patronize our friends and neighbors in business here at home.

Four County Deaths In '32 Testify To Draw's Potential

BY BILL ELLIS
Editor, The Friona Star

(Note: Excerpts from the following story were submitted to the steering committee of the Running Water Draw Watershed project for use in its hearing before the State Soil Conservation Board in Plainview this week.)

The drowning deaths of four Farmer County residents in much water can go rushing down Running Water Draw --

water which might be caught and stored in the county.

The deaths occurred at Bovina near the place where Catfish (or Mustang) Draw, a tributary, joins Running Water Draw. The story must rank as one of the worst "horror stories" in the county's history.

It was August of 1932, Farmer County, still in the midst of the depression, was, as usual, needing rain. A late-summer flash flood developed in West Texas and Eastern New Mexico on Sunday, August 28.

FOOTSAVING EDUCATION

by James E. Edwards

When Are You Going To Have A "Sale"

Not soon, I hope. Sales upset everything in a store that specializes in fitting children's shoes.

Parents patronize such stores because they know that they themselves do not know shoe fitting and that the child can honestly say that three or four different sizes all feel good. The shoefitter should take the responsibility for properly fitting children's feet and he does under normal conditions.

Conditions are not normal when you crowd a store with people whose first concern is price.

Shoes that do not fit may be sold simply because they are a vast improvement over the horribly misfitted shoes the child was wearing.

Clearance sales are necessary in every business and they provide an opportunity for some parents to try better shoes but fit should come first regardless of price. Ill-fitting shoes are not a bargain if the store paid you to take them.

Watershed Project Future Rests On Hearing Outcome

A hearing before the State Soil Conservation Board was to be held Wednesday night of this week in Plainview for the Running Water Draw Watershed project. The hearing will determine how soon planning may begin for the project.

Currently, there are between 170 and 200 watershed projects under application through the

state Soil Conservation Service. Somewhere in the neighborhood of 25 of these have been given a priority rating and approved for planning.

The official "planning party" averages completing from one to four projects a year. The planning must be completed before any construction may start. The Running Water Draw project is the largest in land area of any under application. Jimmy Smith, Friona, Parmer County Work Unit Conservationist, estimates that the Running Water Draw Watershed project would take in the neighborhood of nine months to plan.

"Much of the future of our project rests in Wednesday's priority hearing," Smith states. He indicated that it might be some time before the results of the hearing are made known.

Officials of the state board were given an airplane tour of the draw from Plainview to Clovis, N. M., Wednesday afternoon and night they were to meet with county and city officials and farmers in the area, hearing testimony about damage caused by the draw flood-

ing, and plans which are under-

way. Meanwhile, Leon Grissom of Oklahoma Lane has been named temporary chairman of a committee which will sponsor the building of a multi-purpose structure in Parmer County, for recreation and/or municipal water.

The group has made application for an engineer to check possible sites and for an economist to estimate costs for such a structure.

On a multi-purpose structure, the U. S. government will pay 50 per cent of the cost of additional construction and facilities, provided that the dam size is doubled either in height, size of surface area, or acre feet of storage.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Bill Weldmeyer, Director of Research and Education will be the speaker at the Farm Bureau Wheat Referendum meeting to be held Monday, May 10. We do not yet know the time or place of the proposed meeting, but it will be announced in the county

WHEN IT RAINED IN FARMER COUNTY -- This picture shows how Parmer County draws looked in years like 1941. This particular shot shows Friona on May 28, 1941, one of several times that year in which the water got to that level.

As a matter of fact, it was actually much higher than this picture shows at times. The picture belongs to Jack Anderson, Friona barber, and was taken by Dr. Lee Spring, also of Friona.

A Friona ginmer, his wife and three children were trying to make it home from Clovis, N. M., in the blinding rain -- probably the height of the storm. Oldtimers say the rain measured up to 15 inches, falling in little more than a day's time.

"Doc" Waddell found he couldn't make it across Mustang Draw on what is now U. S. Highway 60--the rampaging draw had the road under water for about half a mile. He turned back, to try the road to Dimmitt, on what is now Highway 86, (Naturally, there were no paved roads at that time.)

Waddell hesitated before attempting to cross the low wooden bridge across the draw just outside Bovina. His wife pleaded for him not to try it, but he started across. Halfway across the bridge, their automobile was swept off the road by the hard-charging floodwaters, and overturned in the draw.

The five people found themselves in a treacherous current. Mrs. Waddell and the two older children clung to the automobile, while her husband swam to shore with the youngest, a child of about three.

Waddell started back for the others, but halfway there he heard the baby crying after him, and looked back to see her on the water's edge. He returned to carry her farther back from the bank, then once again started after the rest of his family. This time they were not to be seen.

Bodies of Mrs. Waddell and the two children were carried as far as 15 miles downstream. One of the children's bodies was found past the place where the draw intersects with State Highway 214 south of Hub.

The following morning at daybreak, a group of Bovina residents, awakened by Waddell, began the search for the three bodies. The rain had slowed somewhat from its flood-like proportions of the day and night before, but the draw was still a swirling river.

Searchers spotted some draft on the south side of Running Water Draw. Richard Caldwell, 20, volunteered to ride a horse out into the current to inspect the drift.

Caldwell was swept from the horse, and out of the sight of the horrified onlookers, including his father. An indication of the swiftness of the stream is seen in the fact that no rescue try could be made. Caldwell's body was found 32 hours later.

The draw ran swift and deep Sunday, all day and night Monday and Tuesday. Those who remember the incident say it ran for at least a week. On Monday the draw was a quarter-mile wide in spots, and more than 10 feet deep in the main part.

Perhaps this sort of tragedy couldn't happen again, due to improved roads and bridges. But, imagine the amount of water which flowed downstream when rampaging Running Water Draw flowed from "hill to hill," with the force of a mighty river. And, it can happen again.

TEXAS COTTON GROWERS REPORT:

Entire Season Control of Thrips, Aphids and Mites...

Untreated plant

Di-Syston treated

Di-Syston Treated Plants Are Stronger, Straighter... Produce More Squares Earlier

West Texas and New Mexico cotton growers now have a new way to control thrip damage and early-season stunting... with Di-Syston granular insecticide. Di-Syston is placed in the soil with the seed or side dressed after planting. The chemical is then absorbed by the growing roots and carried to all parts of the plant through the sap stream--as soon as the plant emerges. No part of the plant is unprotected--even tender new growth as it is formed.

The result? With Di-Syston, your early cotton grows faster, has stronger, straighter stems, more vigorous foliage. Squares form earlier and the plant produces more of them. Many growers in the Lubbock area have reported full season control of thrip with just the one application. You get higher yields because of the good Di-Syston start. This year, get your crop off to a good start with Di-Syston. Complete instructions for use are printed on the label on every package. Use Di-Syston.

news papers. We hope all wheat farmers will try to be present to participate in this meeting. It will, of course, be a little different in some ways than the ones sponsored by the various government agencies, and the facts presented will reveal to you why Farm Bureau takes a different view of which vote, yes or no, would be to the advantage of everyone concerned.

Harry Hamilton, president, and Frank Hinkson, vice president and chairman of Farm Bureau' local Wheat Referendum Committee are making arrangements for the meeting. The exact number of Farm Bureau members in Parmer County as of April 1 was five hundred fifty two.

We were wrong two weeks ago in stating that H. B. 50 was sent to the governor for his signature (changing allowable speed limits on some highways). Because of disagreement on

some amendments it did not get there at that time. However, it is expected that it has, or will be passed soon.

We hope you farmers are taking a real interest in the activities of the work being done by the High Plains Water Conservation District. It is interesting, and in some cases surprising and amazing. Another thing, seeing Tom McFarland use a shovel is worth a trip to one of the sites. He's the general manager of the district.

About one hundred fifty candidates were assured for attendance for the Texas Farm Bureau Citizenship Seminar in Gatesville the last report we had. A minimum of 200 are needed, and we hope they have been reported in by now. Jane Bradshaw, of Farwell High School and Linda Rector of Friona High School are the Parmer County representatives, sponsored by Parmer County Farm Bureau, and being monetarily assisted by Worley Grain Company of Farwell.

\$1.29 per hour, including income from capital assets is the figure for farm people of the year 1959 used by some writers and speakers nowadays. Although income may not be too high, we don't believe anyone can visualize any way to use this figure for farmers we know.

Grazing Provisions Included Under 1964 Wheat Program

(Editor's note: This is the fourth in a series of articles prepared by the Farmer ASCS office dealing with the 1964 wheat referendum, to be voted on May 21.)

Under the proposed 1964 Wheat Program, (assuming there is a yes vote in the coming referendum) land diverted from wheat production to conservation uses (diverted acres) may be grazed during the winter, early spring and late fall without affecting payments or eligibility for price support.

In addition to this, it is also provided that the diverted wheat acres may be grazed during the summer grazing season, but this grazing will reduce the diversion payment by one-half. This provision should be of interest to the livestock man who is also a wheat grower. He may participate in wheat diver-

sion provisions (made available under the new wheat program) without the need to fence off diverted acres.

Since the payment on diverted acres which are grazed the year around would be reduced, it does not appear likely that this practice would be attractive to men not already in the livestock business. But the provision would relieve livestock operators of the trouble of fencing off small cropland acreages diverted from wheat.

Now, let's take a look at an average in this county with a 1964 wheat allotment of 90 acres and a diversion of 10 acres. The regular diversion payment rate on this farm would be \$21 per acre. The total diversion payment (assuming that the diverted acreage is not grazed) would be \$210.

If the operator of the farm decides to graze this acreage during the summer months (or the entire year) the diversion payment would be reduced to \$105. In other words, cut in half.

Persons with any question regarding the 1964 wheat program are urged to contact any one of the county committeemen, county committeemen or wheat referendum committeemen for an explanation of the facts relative to the program. These committeemen are: Archie Tarter, Tom Beauchamp, Louis Welch, J. T. Mayfield, Roy V. Miller, Dick Rocky, Billie Dean Baxter, E. T. Ford, James Mabry, Johnnie Horn, Joe W. Magness, Joe W. Jones, A. W. (Dub) Anthony Jr., Deryl

Coker (county agent), Luther Hall, Robert Calloway, and Vernon Estes.

In the event that it might be more convenient, you are welcome to call at your County ASCS office for information relative to the program.

WITH THE COUNTY AGENT

DERYL COKER

With the warm spring we had and the southwest wind, screw-worm cases now being reported in many counties throughout the area where sterile flies are being dispersed could lead to widespread infestation such as that experienced in 1962, un-

less livestock producers conscientiously follow precautions in handling their livestock.

Reports being received by eradication officials indicate that many producers feel the program has progressed to a point that individual screw-worm control measures are no longer required. This attitude, if left unchanged, could seriously hamper eradication efforts, authorities state.

For that reason, eradication officials have issued an urgent appeal to producers, asking them to treat animals with approved smears and sprays that will prevent screwworm attacks and collect and submit samples from all infestations detected. Our office has a good supply of sample bottles available.

Eradication workers point out that while an increasing number of counties are reporting infestations, as yet no large build-up of native screwworms is evident. They feel if producers will make every effort to treat open wounds before screwworm flies are attracted to them, the native flies can be overwhelmed through the release of sterile flies. Screwworm flies will lay eggs only on open wounds, so lets treat all open type wounds and if anyone should find any screwworms please collect at least 10 worms and place in alcohol or water and bring by my office or call the mission screwworm headquarters at Mission, Texas collect. The phone number Justice 5-1646. If you do call please be prepared to furnish them with the following information.

1. Name
 2. Address and telephone number where producer can be contacted.
 3. Date when sample was collected.
 4. Location of farm or ranch where case was found.
 5. Location of wound on animal.
- A great deal of money has been spent, so lets all cooperate, and try to eliminate the screwworm.

Pesky Insects Have Expensive Appetites

The phenomenal appetites of some 10,000 different insects in the U. S. devour crops, forests, livestock and property at the rate of four billion dollars a year.

This amount of destruction is hard to visualize -- astronomical figures just don't register on the mind. But let's look at it this way:

Four billion dollars would operate all agencies of the Texas government, pay all salaries, construct roads and other necessary expenses for three years.

If you stood on a street corner and passed out thousand dollar bills to passers-by at the rate of one a minute, you'd have to stand on that street corner, night and day for seven years and 222 days before the four billion was gone.

Or, if you pasted that many one dollar bills together, end on end, it would circle the earth 15 1/2 times, making a green sidewalk nearly a yard wide and 24,000 miles long.

That's a lot of money just to keep our insects well nourished. It is no wonder, then, that science, industry and government wages perpetual war against destructive pests. The never ending search is for new and better biological and chemical weapons of warfare.

One of the first biological attempts was started in 1888 with a "good bug verses bad bug" campaign. Since most of our major insect pests have come from other lands, scientists began combing foreign lands for natural enemies of the destructive insects. Despite some striking successes, the use of natural enemies alone has too many limitations to be the final answer to effective insect control. Less than a fifth of the 500 predators and parasites brought to the U. S. mainland to combat harmful insects have become established in the past 75 years.

A real breakthrough was achieved in chemical warfare with the sterilization of male screwworm flies, virtually eliminating the livestock parasite in many areas of the south and southwest. Chemical sterilization of many other male insects is now under intensive study by

scientists. Another weapon is to lure male insects to destruction with sex-attractants before mating can occur. On the Pacific Island of Rota, scientists impregnated small squares of fiberboard with an insecticide plus a powerful attractant for the Oriental fruit fly. The sex-attractant was effective for a range of half a mile. The combined insecticide - attractant treatment eradicated the fruit fly in less than one season.

Some real promise is also shown by artificially inducing insect diseases. The most versatile insect disease yet found is called Bacillus thuringiensis which kills about 120 different insect pests. This bacillus has been produced commercially for two years and does not harm beneficial insects, animals, fish or man, according to USDA scientists.

One of the most desirable methods of insect control is the breeding of insect-resistant crop varieties. This has been done in wheat to eliminate damage from the Hessian fly. Unfortunately, resistant breeding material is not available for all crops and it often takes 10 years or more to create a resistant variety. Farmers will continue to need our present insecticides, plus any which will be developed in the future. But such insecticides will be augmented to a greater degree by other control methods constantly being devised by science and industry.

Game Violations Down For Month

Game and fish violations dropped in February in comparison to those in January, according to reports released by the law enforcement branch of the Game and Fish Commission. From 434 violations in January, they plunged to only 269 the following month. This, of course, was caused primarily by the termination of most hunting seasons.

Hunting without a license violations dropped from 58 to 21, while fishing without a license jumped from 24 to 32. Headlighting at night dropped from 92 in February to 48 in January; hunting from an automobile charges dropped from 25 to 10 and hunting in a closed season in February netted just

half the number in January -- from 26 to 13 violations. Altogether, in January 336 persons violated game laws in one way or another. The following month the number dropped to 192 game law violations.

Fishing law violations following the closing of the hunting season were just beginning to climb in February with 26, compared with just 7 in January. Four of the February violators were charged with using unsanitary containers for oysters, and one for selling bad oysters.

Check now for the proper fishing requirements, such as licenses and bag limits. Don't gamble with the laws.

Lillie Appointed Manager At Hereford's Holly Office

Appointment of D. W. (Dex) Lillie to the position of Manager, Hereford District, Holly Sugar Corporation, with headquarters at Hereford, was announced in Colorado Springs recently by Holly President Dennis O'Rourke.

O'Rourke said that the Holly agriculturist will be in charge of development of large-scale commercial sugar beet production in the West Texas-Eastern New Mexico area to be served by Holly at its Hereford plant, which is now under construction and scheduled for operation in 1964.

"Lillie will be in charge, locally, of all agricultural activities, including contracting with growers for the annual beet crop, harvesting programs, direction of the agricultural field staff, all community and public relations in the area, sales of beet pulp and molasses and similar activities," O'Rourke announced.

Lillie has established a temporary office in the Jim Hill Hotel building, where he and a limited Holly staff will headquarters until the Company's new office building at the plant site is completed. Construction now is started on the office and several other structures which will be part of the big factory complex.

"As they are needed, additional key Holly personnel will

be assigned to the Hereford area," Lillie stated. He and Gene Parsley, representative of the Holly accounting department, are the first company people on the scene. Construction is under the direction of the H. K. Ferguson Company, retained by Holly as general contractor for the big, new processing facility. A number of Ferguson people are on the site now, Lillie said, and the construction crew on the job will be expanding soon.

The newly appointed District Manager has been with Holly since 1942. He began his career as an Agricultural Fieldman in Colorado and Wyoming; was promoted to the post of Chief Agriculturist at one of Holly's Montana plants; and four years ago became Northern District Agricultural Manager, for the Company at Sidney, Montana, in which position he supervised agricultural activities at Holly's plants at Sidney and Hard-

in, Montana, and Worland, Wyoming.

Lillie is a native of northwestern Kansas. In 1939 he graduated from Colorado State University at Fort Collins, Colorado, with a degree of bachelor of science in animal husbandry and agronomy. During his college career Lillie was a varsity football player, and he still continues his interest in sports and athletics.

Scientists' Discovery May Help Control Boll Weevil

Scientists of the U. S. Department of Agriculture have extracted from the cotton plant a substance that repels boll weevils. It is the third substance extracted from the cotton plant with potential value for controlling the most destructive of all cotton insects, the boll weevil.

The first substances were an attractant that draws weevils to cotton plants and a feeding stimulant which makes the plants appetizing to the insects. The three substances were found by scientists of USDA's Agricultural Research Service working in cooperation with the Mississippi Agricultural Experiment Station at the Boll Weevil Research Laboratory, State College, Miss.

The repellent was discovered in connection with work with the attractant. When the attractant was warmed to room temperature, part of it vaporized or degraded. The part remaining proved repellent from cotton squares (flower buds) and seed-

lings, the same parts of the plant containing the attractant. The scientists listed these possibilities for the substances. Plant breeders could conceivably develop cotton varieties either with a high content of the repellent so plants would repel weevils or with such a low content of the attractant that the plants would not attract weevils.

The discovery also introduces the prospect of starving boll weevils by driving them away from the kind of food they need. In laboratory tests, weevils were kept away from cotton squares, bolls and seedlings for five to 12 hours even when they had no other food to eat. When other food was available, the weevils left the treated plant parts untouched for 36 hours.

Other possible uses for the attractant include the luring of weevils to a trap or simply to an area away from the cotton plants. The feeding stimulant does not attract weevils from a distance, but offers the possibility of forcing them to starve on the wrong kind of diet. Research is continuing on the substances and cotton strains are being checked for their content of them.

Hereford Youth Is Home After Farm Exchange Tour

Two Texans, James Hollingsworth, Route 1, Barry, and Pete Plank, Route 1, Hereford, were among the 33 young grass-roots ambassadors who returned to the United States on April 4 after their six months assignments under the International Farm Youth Exchange program.

Hollingsworth was assigned to Costa Rica while Plank spent his six months living and working with rural families in Uruguay. Both have already reported most enjoyable experiences.

The 33 are the last returning delegates in the 1962 phase of the IFYE program. IFYE, begun in 1948, is conducted by the National 4-H Club Foundation in behalf of the Cooperative Extension Service. It is privately supported by 4-H Club members, individuals, business and industrial firms and foundations.

The returning delegates will have a week-long consultation program at the National 4-H Center before going on to their home states. In addition to sharing their experiences with other delegates and project leaders, the young people will confer with officials of the U. S. Department of State and the embassies of their host countries.

Hollingsworth and Plank will be available to speak at 4-H Club meetings, to civic groups and to other groups and organizations interested in hearing of their experiences. Both made many colored slides and will use them to illustrate their talks.

Since 1948, some 3,000 two-way exchanges have been made between the U. S. and 63 cooperating countries. In 1962, a total of 122 U. S. delegates were exchanged for 126 foreign exchanges from 41 countries.

ONE OF THE COUNTY'S many lake pumps in the area which makes use of tailwater is this one, located on the Gilbert Wenner farm south of Friona. Wenner's pump has been gauged at 72,000 gallons per hour. Allan White and Wayne Wyatt of the High Plains Underground Water Conservation District are seen in the foreground.

Texas Wheat Estimate Fell Sharply As Of April 1

The United States Department of Agriculture reports that based on April 1 conditions, Texas wheat production is forecast at 44 million bushels, down sharply from December 1 forecast of 62 million bushels. Texas wheat farmers reported winter wheat conditions at 65 per cent of normal.

Fall rains got the wheat crop off to an unusually good start south of the Canadian River on the High Plains and eastward across the state. North of the Canadian River, however, fall moisture was short. On the Plains, severe January freezes thinned stands in most fields, with some fields a complete loss. Early April rains boosted crop prospects in parts of the Low Plains and eastward, but the important High Plains country is still dry and surviving wheat is suffering.

Widespread April rains renewed crop prospects in most

all areas except parched wheat country in the northern Panhandle.

Littlefield, Muleshoe, Dimmitt, Farwell and Hereford; Additional moisture needed on dry-land acreage. Irrigated acreage reported below normal for this time of year; however, the condition has improved since April 1.

Plainview, Tulla, Lockney, Floydada and Silvertown; Moisture received since April 1 has been very beneficial to dry-land acreage; however, more will be needed soon to maintain present favorable conditions. Some irrigated wheat which appeared to be killed by the winter freeze is coming out and making fast growth.

Amarillo, Vega, Canyon, Panhandle and Claude; Beneficial rains have been received since our last report; however, more will be needed soon to insure an average wheat harvest.

Pampa, Wheeler, Canadian, Miami and Lipscomb; Moisture is urgently needed over the entire area. An estimated 30 per cent of the acreage has been abandoned and unless moisture is received soon, abandonment will be even higher.

Dalhart, Channing, Stratford, Dumas, Spearman, Borger and Perryton; Moisture is urgently needed over this entire area and as a result of dry weather, it is now estimated that from 40 per cent to 50 per cent of the dry-land acreage has been abandoned. Irrigated wheat is in good condition but this is a very small percent of the total acreage in this area.

Stubborn, hardened grease spots on the stove can be erased with dry sal soda applied with a damp sponge.

County Helps Set Record For Soil Sample Numbers

Soil sample numbers handled by the three soil testing laboratories operated by the Texas Agricultural Extension Service at College Station, Seymour and Lubbock set a new record during January and February. W. F. Bennett, extension soil chemist, said 6,543 soil samples were received during the two months as compared with 4,231 samples for the same period of 1962.

This, Bennett said, indicates the strong and growing interest

in soil testing. Samples were submitted, he added, from more than 200 of the State's counties with 16 in the 100 plus group. The top grouping included Bailey, Castro, Fayette, Floyd, Gaines, Gonzales, Hale, Harris, Hockley, Kaufman, Lamb, Lubbock, Milam, Parker, Farmer and Swisher with Hale, Hockley and Parker ranking one, two, and three.

Bennett also reported that 181 samples were submitted

from Nevada, 40 from New Mexico, 17 from Mexico, 6 from Arizona and 5 from Utah.

The soil chemist noted that since the initiation of the new soil and water salinity testing service on September 1, 1962, 210 water samples and 154 soil salinity samples had been received. Most of the water samples have been from water to be used for irrigation; however, a few were tested for their suitability for consumption by livestock.

Bennett explained that the Texas A&M Laboratory, where the salinity tests are made, is not equipped to test water for its suitability for domestic use and human consumption. Such samples, he said, should be sent to the State Department of Health in Austin.

Farm Facts

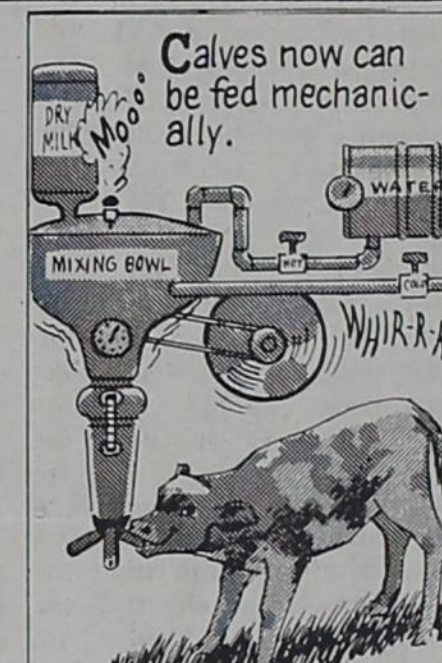

Nurse cows have a new competitor—the electronic "mother."

It's a feeder that blends water with a dry milk replacer, holds it at a temperature of 100 degrees, and dispenses it through a standard calf nipple. Not only is milk available around the clock, but a time delay feature prevents calves from gorging themselves.

Capacity is 16 calves per feeder. Antibiotics or other medicine can be fed automatically in the ration.

According to Harold Stover, agricultural engineer at Kansas State University, here's how it works:

The machine is connected to a water supply and source of electricity and dispenses milk replacer from a 20-pound hopper. A fan-like vibrator in a tank just below the hopper keeps the powder flowing uniformly into a plastic mixing bowl beneath the machine. At the same time, warm water from a small hot water tank flows into the mixing bowl.

When the water level reaches a "feeler" bulb, the supply cuts off until the calf sucks the milk replacer through a nipple mounted at a low angle. This forces the calf to bend its neck, causing the formula to go into the proper stomach.

Retired couple enjoy modern Electric Heating in 900 sq. foot home!

"I like my electric heating because it holds the same even temperature — even at night", says Mrs. Q. L. Hames of Crosbyton. Mr. Hames, a retired contractor, converted his woodworking shop into a fine home of 900 square feet. He added storm doors and windows as well as insulation to bring his home up to modern standards installing electric heating at the same time. The Hames moved into their home in December of 1959 and the joy of electric comfort heating has been theirs every winter since then.

MRS. Q. L. HAMES

There's an electric heating dealer who can install electric comfort heating in your home. For the name of the dealer nearest you — ask your Public Service manager.

A new, low electric heating rate is available for heating your home electrically — your Public Service manager has the facts.

SWEETHEART ENTRY -- Dyanne Curry, 17, of Sudan, will represent the Littlefield District FFA, which includes Farmer County, in the Area I FFA Sweetheart contest at Amarillo May 11. The daughter of Mr. and Mrs. Bill Curry was Miss Lamb County in 1961, and was runnerup in the contest at Perryton for Miss Wheatheart of the Nation the same year. A majorette at Sudan for the last four years, she was selected as the outstanding high school band student at a McMurry College summer course last year, and as a saxophone player was named to the all-state high school band this year.

The HAPPY HOMEMAKER

BY JUNE FLOYD

Perhaps there has never been a spring when simplicity was as fashionable as it is this spring. It seems as if the designers have gone overboard for simple designs in everything from sun suits to evening wear.

Materials are more beautiful than ever, so homemakers who enjoy making clothes for themselves and other members of their families can really turn out garments that are stylish as well as beautiful and easy to make.

Mothers of young teen age girls will be able to assist them in making attractive articles of wearing apparel for themselves.

About two years ago someone came up with a fruit cocktail cake and we had several inquiries for the recipe. At the time I didn't have one, but did eat several samples of cakes others had made.

The following recipe and two of its variations were copied from "Treasured Recipes" published by Lubbock Christian College Associates and was contributed by Mrs. Ross Goodwin of Muleshoe.

Fruit Cocktail Cake

- 2 cups sugar
- 2 cups flour
- 1 teaspoon soda
- 1 can fruit cocktail
- pinch of salt
- 2 eggs
- 1 cup brown sugar
- 1 cup nuts

Mix sugar, flour, soda, cocktail and salt; add well beaten eggs. Pour into greased and floured loaf pan. Top with brown sugar and nuts mixed together. Bake at 325 degrees for 35-40 minutes.

Mrs. W. F. Banks, Springlake, varies the batter recipe by using 1 1/2 cups brown sugar and 2 teaspoons soda.

Mrs. Jim Thewatt, Llano, pours a sauce over the cake made thus:

- 1 1/2 cups sugar
 - 1 cup butter or oleo
 - 1 small can evaporated milk
- Boil all ingredients 2 minutes. Add 1 teaspoon vanilla and beat 1 minute. Pour over warm cake.

Another recipe for which I have had several requests was contributed to "Treasured Recipes" by Mrs. L. R. Hall of Muleshoe.

Red Waldorf Cake

- 1/2 cup shortening
- 1 1/2 cups sugar
- 2 eggs
- 2 oz. red food color
- 1 teaspoon soda
- 1 tablespoon vinegar
- 1 teaspoon vanilla
- 2 heaping tablespoons cocoa
- 1 cup buttermilk
- 1 teaspoon salt
- 2 1/4 cups cake flour

Cream shortening, sugar and eggs. Make paste of cocoa and food color. Add to first mixture. Add alternately, flour and buttermilk; add vanilla. Mix soda and vinegar over bowl; add to batter and blend. Bake at 350 degrees in two 9" cake pans.

When cool, split to make four layers.

Frosting

- 1 cup very fine pecans
- 3 tablespoons flour
- 1 cup milk
- 1 cup powdered sugar

- 1 teaspoon vanilla
 - 1 cup butter (not oleo)
- Cook flour and milk until thick; stir constantly and cool. Cream butter and powdered sugar until fluffy. Add vanilla; combine the two and blend well, by hand. Sprinkle nuts between layers.

For a tasty salad with a distinctive flavor, try

Tangy Applesauce Salad

- 1 package lime Jell-o
- 2 cups applesauce
- 1 bottle 7-Up
- 1 cup nuts

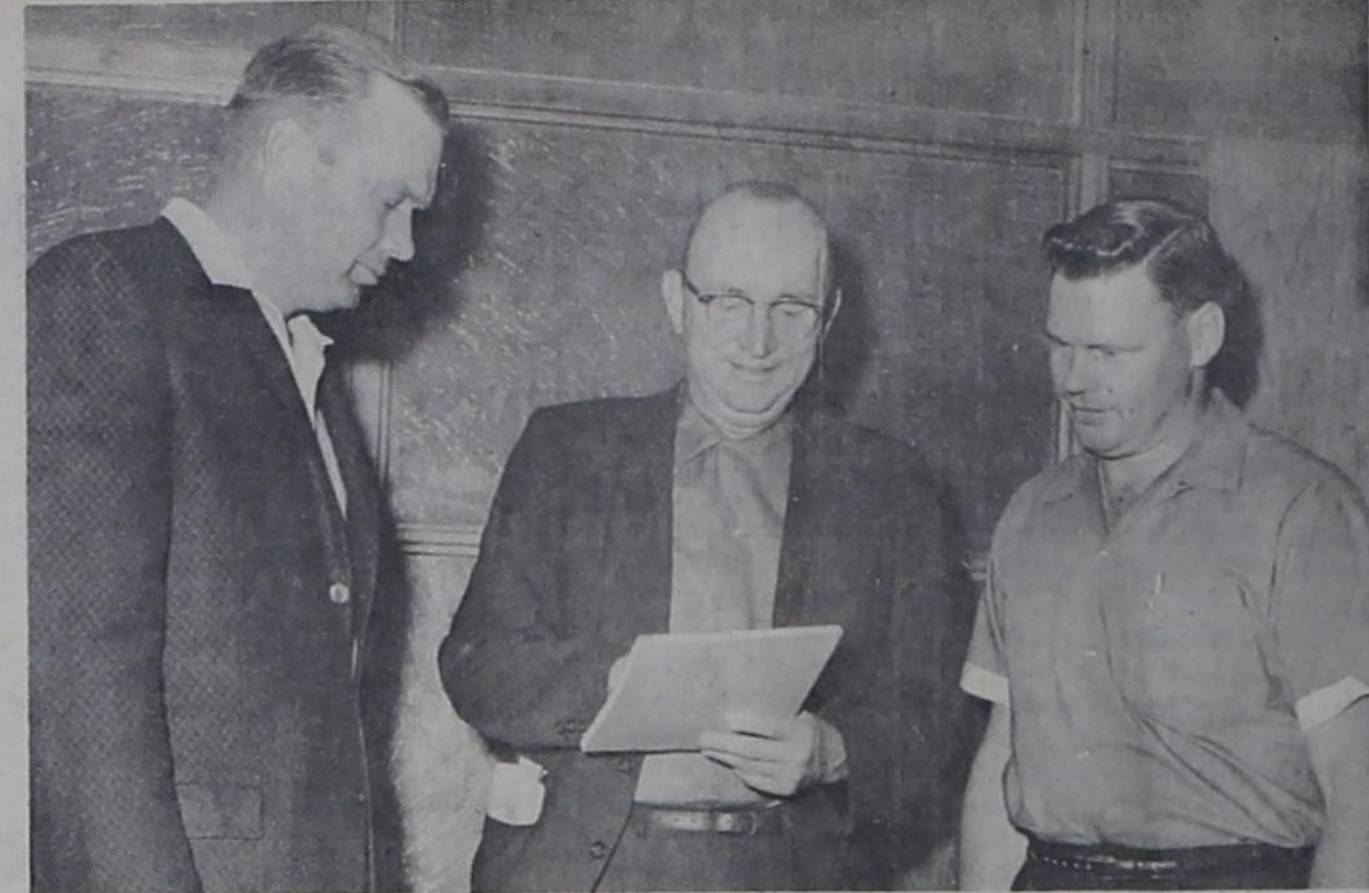

Heat applesauce and dissolve Jell-o in it. Add 7-Up and nuts.

PCG Will Conduct "Planter Box" Test

Plains Cotton Growers, Inc. has announced that a "planter box" survey on cotton seed will begin in two High Plains counties, Terry and Crosby, as soon as planting is in full sway in those areas.

The survey, which is a part of PCG's crop improvement program, will be conducted with the help of Young Farmers, County Agents and ginners in the two counties. Purpose of the survey is to determine the relationship between seed being planted and cotton yield and quality.

Samples (approximately two pounds) will be taken while planting is actually being done, and sample takers will need such information as variety, germination, what treatment seed has received, whether certified or non-certified, and the source of the seed.

DISCUSSING FACETS of the Running Water Draw Watershed project at a recent meeting of the steering committee of the project are A. L. Black, chairman of the Board of Directors of Farmer County Soil Conservation District, F. F. (Flip) Calhoun of Plainview, chairman of the committee, and Jimmy Smith, SCS Work Unit Conservationist of Friona.
