## County Preparing For Annual Pheasant Hunt

Pheasant hunting season begins officially in Parmer County Saturday, Dec. 12, and is to continue through December 27, and according to Parmer County Extension Agent Seth Ralston, "There is a lot of potential out there."

Ralston says that because of the summer's wet weather, the hatch should be excellent. "You get a better hatch with more moisture," he said. "This past summer was excellent for the hatch."

The extension agent predicts that "This year birds will be more concentrated. There has been more corn stubble destroyed this year, which means the available cover is less."

Hunters are advised that the bag limit is two cocks per day, possession limit is four cock pheasants after the first day.

"The head and feet must remain attached to the carcass until it reaches its final destination," Ralston warns, adding that a severe fine will have to be paid if that rule is not followed.

He explains that the head and feet rule is to ensure that a hen hasn't been shot. "It is VERY illegal to shoot hens," he stressed.

A hunting license or combination hunting and fishing license is all that is required for the pheasant hunt.

Licenses may be purchased locally at Rose Drug or the Parmer County Clerk's office on the first floor of the Parmer County Courthouse.

Rules and dates for the hunt are set by the Texas Parks and Wildlife Commission in Austin.

### SPECIAL PRIZES OFFERED

As in past seasons a Tail Feather Contest will be held locally with winners advancing to the county-wide contest.

Ralston says that an added attraction has been included this season as two area taxidermists have offered to mount the prized pheasants for the tail feather contest winners.

Jimmy Franse at Jim's Taxidermy in Farwell will mount a pheasant free of

charge for the Farwell area tail feather contest winner, and the county-wide winner can have his pheasant mounted for free by Carl Kirkland at Duke's Taxidermy of Farwell.

Other local sponsors for the Farwell area Tail Feather Contest are Farwell Hardware, awarding \$10 to the third place winner; Sherley-Anderson-Pitman grain elevator awarding \$15 to the second place winner; and Security State Bank of Farwell awarding \$25 to the first place winner.

"The longest feather from here will compete county-wide in the contest sponsored by Parmer County Game Management Association," Ralston said.

Those entering the contest should take pheasant tails to Farwell Hardware for measurement, and they have until noon December 30 to do so.

Safety and obtaining land owner's permission to hunt are two priorities listed by Ralston

for this hunting season.

"Above all, use safety. If a bird comes up between two people, let it go. Don't kill a friend for a bird," he cautions.

Secondly, the extension agent says the biggest complaint during the pheasant season is from landowners protesting people hunting on their land without permission, and the litter of beverage cans and paper left afterwards.

"Do not hunt anywhere without first obtaining permission. Talk to the landowner personally. Don't go by what

someone else told you," he said. "A lot of people patrol their land for unwanted hunters, so be careful, and be courteous."

Ralston recommends playalakes, fence rows, maize stubble and tailwater ways as good hunting areas, saying, "Anywhere there is good cover will be good hunting."

"I've seen more pheasants out there than in years past," said the agent, "if people will use safety and courtesy, I look for it to be an excellent hunting season."

### Annual Hunter's Meal Will Kick Off Season

Kicking off the opening of Pheasant Season in Parmer County will be the Alpha Rho Lambda chapter of Beta Sigma Phi sorority's annual Hunter's Breakfast December 12 at the Farwell School Cafeteria.

The pancake meal will

feature sausage, eggs, and coffee for \$3 for adults and \$2 for children.

The meal will be served from 5-9 a.m. CST, and the proceeds are to benefit the Texico-Farwell Senior Citizens organization.

The Cowboys manage to play just as good a game as it takes to win. When they play a good team they play a good game. When they play a sorry team they come up with a sorry game; as for example the one they aired to the public on Thanksgiving. Such performances must be the reason they are not Howard Cosell's favorite team.

The season "To Be Jolly" is upon us despite the weekend's drizzle. We had several occasions to travel to and through Clovis and the Christmas shoppers were out in force. Somebody ought to be jolly.

The stores were piled high with all sorts of tempting Christmas goodies and there were people rapidly snapping the items up for later giving.

It sort of reminded us of the classic definition of inflation. Inflation has been defined as too much money chasing too few goods. It looked like a draw in Clovis last Friday and Saturday.

This small appearance of prosperity comes at a time the doomsayers are predicting the massive failure of Reagan's economic program. We do not believe that the President's program has even got off the ground, and what has, has to a large degree been emasculated by various pressure groups in Congress.

One method of fighting inflation has been the Federal Reserve Board's insistence on high interest rates. We think this approach has been an unmitigated disaster. Several years ago we accused Jimmy Carter of foisting a depression by his high interest policy. Reagan will be hung with the same rope if he does not break the hold of the Federal Reserve Board on the money supply.

As noted above there are two sides to the definition of inflation. Too much money and too few goods. Rather than strangling the nation's business with too little money, why don't we try adding to the too few goods? Then maybe as the money and goods come back into balance, inflation will abate.

Our country's track record in the field of productivity has for the last decade been the sorriest in the Western World. This is the result of three onerous trends. We have let restrictive union rules limit the worker's production. We have saddled industry with a massive load of useless, silly and non-productive regulations promulgated by fat-headed bureaucrats more interested in maintaining their jobs than in promoting commerce. We have over the years enacted the most restrictive set of tax laws known to the civilized world. We have destroyed the profit incentive by socialistic tax legislation.

These road blocks to economic productivity have been sold to the American people by the social-minded liberals who couldn't go out and earn a buck for themselves if their lives depended upon it.

We must revise existing union contracts and put wage increases back on a productive level, not the "cost of living" grafts we have today.

We must relieve industry of government restrictions in the areas of paperwork and reports that just satisfy some nincompoop and do nothing to produce more goods and services.

We must revise our tax laws and make "profit" a respectable word again. Nobody is going to risk his money if his profits are gobbled up by the tax gatherer for squandering in looney social areas.

Let us not worry about the too much money part.

Let us mount a massive drive to add to the too few goods. This will work. It is really only basic laissez faire economics.

### Letter Off To Santa

Teddy Holladay of Farwell wanted to get an early start this year in sending off his wish list to Santa Claus at the North Pole. Teddy placed the letter in the special mail box now set up at the Farwell Post

Office. Postmaster Otis McMillan says that no stamp is required for the special Santa letters and he assures that the letters will be sent off in plenty of time to reach the North Pole

by Christmas. All Twin Cities area kiddoes are urged to get their letters ready for Santa real soon! Teddy is the son of Don and LeeAnn Holladay of Farwell.

## Council Rejects Bids, Will Board Up Bldgs.

Members of the Texico City Council rejected both bids submitted by building destruction companies for the destruction and flattening of two condemned city buildings, and voted to board up the condemned buildings in an effort to discourage vandalism and keep out curious children.

The decision to do so took place at the council's regular bi-monthly meeting last Tuesday night at Texico City Hall where the city fathers were told that the two bids submitted were in the amounts of \$6,877.50 and \$5,600.

It was at a previous session that the council voted to ask for the bids from area companies to destroy the condemned structures, but the bids received were deemed to be expensive, and consequently it was decided to board up the buildings, at the owner's

expense. Both the city council and the owners of the two buildings were advised a few months ago that the buildings had been condemned by the state building inspector.

According to Texico Mayor John R. Hadley, the owners were advised by registered letter that their buildings had been condemned and that they had a certain length of time to either repair them or destroy them.

"But the owners did nothing, so we took the bids. But the bids were so high we just couldn't accept them," Hadley remarked. "They will be boarded up for safety reasons. Try to keep the children out."

The two buildings in question are the old Maddox Hardware building on Garwood Street and the George Olson Antique

Shop building, on the corner of Garwood and Wheeler.

City Clerk Marie Christian said that the "whole process" began in June or July, when the city first learned that the structures were to be condemned.

Since that time they have been trying to get the owners to take care of the situation, but no action has taken place.

The mayor explained that the buildings are "not structurally safe", saying that one has its roof falling in and one has a decaying floor which lies over a deep basement.

Hadley admits that the boarded up buildings will be an eyesore for the town, but says safety is the Council's first priority. The mayor, having been reared in the town, says grimly, "It's going to be terrible. We hate it."

### To Be Boarded Up

One of the two buildings to be boarded up by Texico city officials is the George Olson Museum building, located on Wheeler Ave. The owner of the building was advised that the structure had been condemned by the state building inspector,

but did nothing about it as far as making repairs or destroying it. Now the city will board up the business place in an effort to keep out children and vandals. Mayor John R. Hadley admits that the boarded up

building will be an eyesore for the town, but says for safety reasons it has to be done. Destruction of the two buildings would have cost around \$6,000, which city officials said was too expensive.

### Feather Contest Prize

Carl Kirkland of Duke's Taxidermy in Farwell displays a mounted pheasant showing exactly what he will do for the county-wide winner of the annual Tail Feather Contest

during this season's pheasant hunt. The Farwell area winner will receive a mounted pheasant done by Jimmy Franse of Jim's Taxidermy of Farwell. Cash prizes will be awarded to

first, second and third place winners in the Farwell Area Contest. Pheasant season begins next Saturday, Dec. 12, and will continue in the county through December 27.

## Rain Halts Area Cotton Harvest

Last weekend's rainfall didn't help the area cotton producer if he, like many, hadn't finished stripping his fields.

"It will damage a lot of it," said Parmer County Extension Agent Seth Ralston referring to the still opening-up cotton. "I've heard of some that received some storm damage and if the moist weather persists we'll be after Christmas before we finish stripping," Ralston said.

He also pointed out that for the already opened up cotton, the moisture received could "cause it to rot. It was already poor cotton. This will hurt it more," he said.

"We were just getting cranked up. Before the rain some of the cotton looked real good, making some decent yields. But, we also had some that was being shredded because it wasn't even worth stripping," he commented.

The agent said that cotton planted early has produced the best yields, ranging anywhere from one and a half to two bales per acre.

On the bright side, the moisture is sure to help the wheat and other small grains

to be harvested in the early summer, and Ralston also adds that things aren't so bad as this is the first bad weather the area has received, "and here it is early December."

Fred Chandler at Sherley-Anderson-Pitman grain elevator in Farwell reports receiving .7 of rain last weekend, as does Lonnie McFarland at Sherley-Anderson in Lariat. Walter Curd in

Texico says his area had .55 of the wet stuff.

Carol Smith at Oklahoma Lane Gin reports that "some places had about an inch," and she said that the already stripped cotton that was sitting out in trailers got very wet during the downfall.

"We tried to gin it, but we had to shut down because the cotton was so wet it was balling up in the gin," she said.

Mrs. Smith said that before the rains came she figures her area was not quite halfway through stripping, and she said she has had some excellent turnout rates.

"The cotton is not as good as last year, but I've had one turnout at 22.9 percent, one at 21.9 and one at 20.5," she said. "The early planted cotton is what is doing the best," she added.

## 3-Vehicle Accident Sends 4 To Hospital

A three-vehicle accident Saturday afternoon in front of Capitol Foods in Farwell resulted in four persons being transported to area hospitals. Department of Public Safety Officer Jim Bishop said they suffered "minor injuries. As far as we know, none were seriously hurt," he said.

According to the official DPS report, William H. Lindley of Muleshoe was traveling East on U.S. 84. Terry Vega of Farwell and Ronald Eugene Richardson of Northglenn, Colo., were each traveling west on the highway when Vega

attempted to turn left into the Capitol Foods parking lot.

The report indicates that Richardson hit his brakes, lost control of the vehicle on the wet road and went into a skid, striking the vehicles driven by Lindley and Vega, near the center of the four-lane roadway.

Richardson was charged with failure to control speed and driving with an expired driver's license. He and his 10-year old daughter, Teresa Jane, were transported by Farwell ambulance to the Clovis High Plains Hospital with minor injuries. According

to Bishop, Teresa Jane suffered a broken nose in the incident.

Vega was charged with driving without a driver's license.

Lindley and his wife were taken to the Muleshoe hospital by Texico ambulance.

The incident occurred at 2:40 p.m. CST on U.S. 84 150 feet east of Ninth Street in Farwell. All those taken to the hospital were treated and released, according to Bishop.

The officer said that the accident was the only one to occur in Parmer County over the Thanksgiving holiday.

## Rhodes, Johnson Honored At District 4-H Banquet

Forty-four outstanding members of 4-H Clubs in the South Plains were honored in Lubbock, Monday night, Nov. 23.

In addition to receiving the Gold Star Award, highest honor presented at the county level, the youths were challenged by a top administrator of the Texas Agricultural Extension Service to strive for a good finish as a climax to their outstanding start in life.

Joining the youths at the awards banquet in the cafeteria of Coronado High School were parents, government officials, extension leaders, fellow 4-H'ers, educators and other community leaders.

Honored from Parmer County were Devera Rhodes, daughter of Mr. and Mrs. Wayne Rhodes of Friona; and Charles Johnson, son of Mr. and Mrs. Billy Johnson of Bovina.

"The belief that we need to get off to a fast start is deeply ingrained in American custom," Dr. Uel Stockard of College Station, state leader for county programs with the Extension Service, told the audience. But he stressed that "the long run of life requires more than a good start."

"A good start is important, whether it's eating a good breakfast to provide a nutritious start for the day or getting a good education to prepare for life," he said.

He told how Curtis Bickey of Bryan, now a professional football player with the Baltimore Colts, became a world class track star by practicing his start for sprinting events.

"He spent hours upon hours practicing getting out of the blocks," Stockard said, because he knew that fast start gave him an advantage over runners as fast as he was, but who were slower starting.

"But getting off to a fast start is more important in the short run than it is in the long run," Stockard cautioned.

He told of another youth who got off to a fast start as a West Texas farm boy who grew up in 4-H. "This boy went into agribusiness and literally walked with presidents," Stockard said. "But he was convicted of fraud and now is a convicted felon unable to take part in much of the life of his community," Stockard noted.

"You 4-H'ers have gotten off

to a fast start," he said, "You've been involved in projects that have taught you leadership and followship." And he said the ability to follow good leadership is just as important as being a leader.

He suggested five things they should do to assure a good finish for their fine start in life. He urged them to develop a set of beliefs; develop goals for their career, their family life and their community life; chart a course of action to achieve these goals; be patient in working toward their goals, and take advantage of the many opportunities they receive.

Master of ceremonies for the banquet was Dr. Sam Curl, dean of agricultural sciences at Texas Tech University. Guests were welcomed by Jim Roberts, general manager of South Plains Electric Coop-

erative, one of the 12 electric cooperatives which annually sponsor the banquet. The others are Bailey County, Cap Rock, Deaf Smith, Dickens, Lamb, Lea County, Light-house, Lone Wolf, Lyntegar, Midwest and Swisher electric cooperatives.

The awards presentation was narrated by 4-H'ers Tanya Tyer of Hale County and Katie Montandon of Swisher County. The awards were presented by Dr. Catherine Crawford and Billy C. Gunter, district Extension directors.

Dinner music was by 4-H'ers Justin Sharp of Swisher County and Mandy Igo of Hale County. Cleet Griffin, Dawson County 4-H'er presented a patriotic closing ceremony. Also on the program were 4-H'ers Ralph Scheele of Floyd County, Linda Smith and Lonnie Howard, both of Hale County.

### Gold Star Honorees

Devera Rhodes, Friona, and Charles Johnson, Bovina, were among 44 outstanding members of 4-H Clubs in the South Plains who were honored last Monday night at a special banquet in Lubbock. In addition to receiving the Gold Star award, the highest honor presented at county level, the two were challenged by a top

administrator of the Texas Agricultural Extension Service to "strive for a good finish as a climax to their outstanding start in life." The two Parmer County youths are the children of Mr. and Mrs. Wayne Rhodes and Mr. and Mrs. Billy Johnson. [Extension Service Photo.]

### Notice To Condemn

Two buildings in Texico had these notices tacked on this week after owners of the structures were advised by registered mail that their buildings had been condemned by the state building inspector.

According to Texico City officials, the owners did nothing about the notices, and consequently the city will board up the two decaying structures [at the owner's expense], as paying for their

destruction would be too costly. Mayor John R. Hadley says the buildings will be boarded up for safety reasons, in an effort to keep out curious children and vandals.

### Judge Roberts Hears Cases

Parmer County Judge Porter Roberts heard seven cases this week. They involved driving while intoxicated charges, driving with a suspended

license, misdemeanor theft, and possession of marijuana. Humberto Lopez, 17, of Dimmitt, charged with DWI, was fined \$150 plus court costs.

Ronald Baca, 18, of Clovis, charged with DWLS, was fined \$100 plus court costs.

Inez Lopez, Jr., 25, of Hereford, charged with misdemeanor theft, was fined \$100 plus court costs.

John Orris, Jr., 20, of Cannon Air Force Base, charged with DWLS and possession of less than two ounces of marijuana. For the DWLS offense, Orris was fined \$100 plus court costs. For the marijuana possession charge, he was fined \$150 plus court costs.

Frederick Osborn, Jr., 21, of Cannon Air Force Base, charged with possession of less than two ounces of marijuana, was fined \$150 plus court costs.

Richard Coulter, Jr., 23, of Cannon Air Force Base, charged with possession of less than two ounces of marijuana, was fined \$150 plus court costs.

In the court of Farwell Justice of the Peace Albert Smith, Miguel Mendoza, 24, of Dimmitt, charged with public intoxication, was fined \$31.

### Sheriff's Report

There were only two incidences reported to the office of the Parmer County Sheriff this past week.

Lawrence Martin of Friona reported that his 1976 Chevrolet pickup had been stolen the night of November 17th. The pickup was then recovered the morning of November 18th in

Portales, Parmer County Sheriff Bill Morgan said.

Edward Jackson of Friona reported that two tires and wheels were stolen from the rear of his Chevrolet pickup truck parked at MBXL on November 23.

Jackson values the missing items at \$250.

## What's an average day worth?

On an average day you probably get out of bed, adjust the thermostat, make a pot of coffee, cook breakfast . . . perhaps use the dishwasher.

Later, maybe you do a load of laundry and listen to the radio. Then you cook dinner and put the leftovers in the refrigerator. You may turn on the television or settle down in your favorite chair next to a lamp to read.

For all of you, all of this and more adds up to one day . . . just 1/30th of your average monthly electric bill.

### Morgan Elected 2nd Vice-Pres. Of Law Assoc.

Parmer County Sheriff Bill Morgan was recently elected 2nd vice-president of the Texas South Plains and Eastern New Mexico Peace Officer's Association at the organization's annual gathering in Roswell.

Morgan attended the meeting with Department of Public Safety Officer Jim Bishop of Farwell.

The two heard speakers from the Federal Bureau of Investigation, including the agents in charge of Albuquerque district, Dallas district and El Paso district.

Approximately 50 other law enforcement personnel were in attendance, Morgan said.

occurred November 25 at 12:07 p.m., the next on the same day at 9:40 p.m., and the third incident was early morning on November 26.

Gin manager J.J. McDonald says, "One machine caused it all, there wasn't much damage though, only a few burrs."

On November 28 the Farwell ambulance was sent to Beauty Box hair parlor to transport a customer who became ill to the Friona hospital. The ambulance was called at 2:20 p.m.

Minutes later at 2:40 p.m. the ambulance was called to a three-vehicle accident on U.S. 84 across from Capitol Foods in Farwell, taking two patients to Clovis High Plains Hospital.

The Texico ambulance was also sent to the accident, transporting two persons to the Muleshoe hospital. The ambulance run was the only emergency call for the Texico Volunteer Fire Department this week.

## Dallas Cowboy Wives Prepare Guide

In a day when volunteerism is being stressed as at least a partial solution to some of our nation's social problems, the wives of the Dallas Cowboy football team - for the third year in a row - come up with a unique fund-raising idea to help some special children. Under the direction of Mary Breunig, wife of the Dallas Cowboys' middle linebacker, the players' and coaches' wives have compiled The Dallas Cowboy Wives' Family Fitness Guide and Nutritional Cookbook.

All the proceeds from the sale of the book go directly to benefit the special learning handicapped children of Happy Hill Farm Children's Home. In

its six years of operation, the Farm has never taken state or Federal funding. Bob Breunig serves on the Farm's Board of Directors.

"The past two seasons we've produced a very successful cookbook, featuring favorite Cowboy recipes and candid snapshots of players and their families," said Mary Breunig. "This year we've put together an entirely new kind of book called a 'family fitness guide.'" The Dallas Cowboy Wives' Family Fitness Guide contains helpful hints on how the Cowboy families maintain maximum health year-round. It features exercise routines, calorie-counting charts, a guide for measuring the ef-

fectiveness of various sports and exercises, and a variety of health tips.

The book also contains information about the Cowboy families' exercise and sports activities, and candid pictures of the Cowboys and their wives and children. "This year the cookbook section contains more salad and vegetable recipes, as well as some special health drinks and wholegrain bread ideas," says Mary Breunig.

Their cookbook idea was quite successful, and more than 36,000 copies of the first two editions have been distributed to every state in the country.

Bob and Mary Breunig have worked with the Farm almost from its beginning, assisting the founder and director, C. Edward Shipman, and his wife, Gloria, in providing a home and vocational training center for a group of learning handicapped boys and girls.

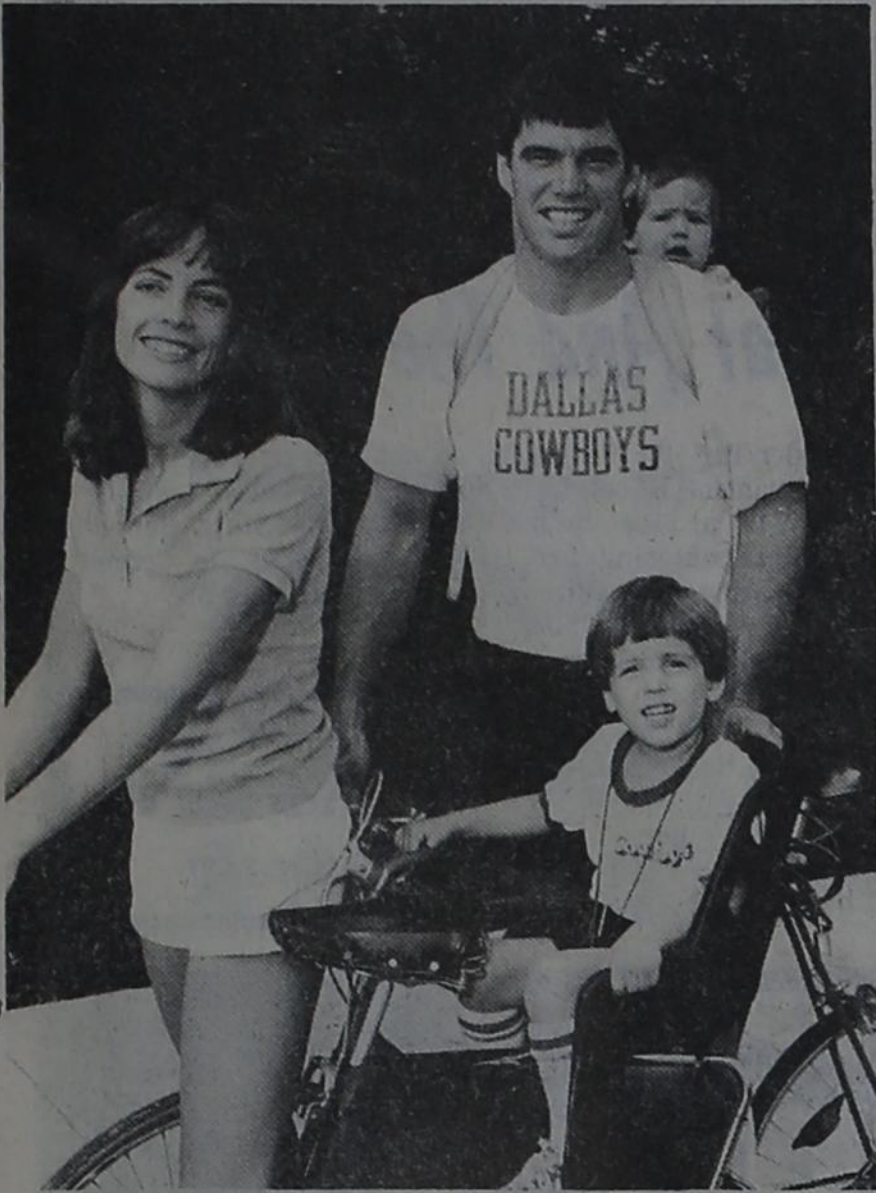

Happy Hill is a 266-acre working farm on the edge of the Dallas-Fort Worth Metroplex. Their program contains a heavy emphasis on vocational training. The children may obtain a high school diploma, if they qualify, but all of them are learning practical job skills, such as auto mechanics, furniture building, and farming. Happy Hill Farm Children's Home and the Academy are licensed by the appropriate state agencies.

The Farm is multi-denominational and has a strong emphasis on moral and spiritual values. Operating funds come from hundreds of individuals, churches and corporations from throughout the state. Several foundations have assisted the Farm in its capital program. A new living unit for eight more children and a chapel have just been completed.

The Farm's Director, C. Edward Shipman, says that the Family Fitness Guide is certainly in keeping with the Farm's emphasis on a healthy, wholesome lifestyle. "We raise much of what we eat here on the Farm, and our animal herds provide us with our own meat, eggs, and milk," says Shipman. "I hope the book will encourage people to join with us in our campaign for better health and fitness."

According to a Senate Select Committee on Nutrition and Human Needs, Americans are eating too much of the wrong kinds of foods. Six of the ten leading causes of death can be linked to diet. The Dallas Cowboy Wives' Family Fitness Guide and Nutritional Cookbook is attempting to suggest, to those who will listen, some helpful ideas on exercise and nutrition - and while you're helping yourself, you will be helping the Farm's special boys and girls.

To get a copy of The Dallas Cowboy Wives' Family Fitness Guide and Nutritional Cookbook, order it directly from the Farm for \$9.95 each. Write: Dallas Cowboy Wives' Family Fitness Guide, Happy Hill Farm, Star Route, Glen Rose, Texas 76043.

### Physically Fit Family

The Bob Breunig family of Dallas [he's middle linebacker for the Cowboys] believes in staying physically fit, and participate in lots of vigorous activities, such as bike riding, in their efforts to stay fit as a family. Mrs. Breunig [Mary] is directing the making of a family fitness guide and nutritional cookbook being com-

pleted by Dallas Cowboy players' and coaches' wives. Proceeds from sale of the book go directly to benefit the special learning handicapped children of Happy Hill Farm Children's Home. The Breunigs are shown with sons Robert Jr., and Bart as they begin a family bike ride.

## Golden Circle Ladies Guests At Ruth Meet

The Ruth Sunday School Class of the First Baptist Church of Texico met at the church on Thursday afternoon, Nov. 19, for a Thanksgiving Luncheon with members of the Golden Circle Sunday School Class being special guests.

The meeting opened with Ruth Reid playing on the piano, "He Touched Me," "He Was There All The Time," and "He."

Mrs. Reid then read Psalms 46:10. The devotional she chose was entitled "Be Still And Know," during which time a pantomime was acted out by two different Christian women with Allie Burris down on her knees praying silently and Lois Hudnall being a Mrs. "Busy Body" doing a little bit of everything.

Mrs. Nora Day led in prayer, but before she did so she asked the ladies to reach out their hands and then to clasp them and to join her in prayer that they would give their full support to the church and to their Sunday School classes.

A turkey dinner with all the trimmings was served to 22 ladies from tables decorated by hostesses Ruth Reid and Nora Day.

The seven guests from the Golden Circle class were Mesdames Mary Dorris, Velma Kelley, Evelyn Hadley, Minnie Hagler, Ophelia Billington, Bernice Thigpen, and Ione Chappell. Two other special guests were Margaret Horne and Clarice Rivers.

The 13 members from the Ruth class attending were Mesdames Mora Schlueter, Ann Schloss, S.G. Jones, Helen Bowers, Allie Burris, Hettie Harrison, Eunice Taylor, Katherine Bourlon, Nora Miller, Lois Hudnall, Nora Day, Ruth Reid and Gracie Dane.

The coeds will serve as college hostesses for open houses, receptions and campus tours, and will attend area high schools for college night activities.

An SPC committee making the selection "felt that these young women will be a hard-working group, they are devoted to SPC and will be good representatives of the college," according to committee member Kathy Hutchinson, SPC administrative assistant.

Selection is based on a minimum 2.50 grade point average, the ability to relate to people and an awareness of college and community activities in addition to poise,

"One kilowatt-hour costs about 6¢. Your electric bill is figured on the number of kilowatt-hours of electricity you use. A kilowatt-hour is 1,000 watts of electric power used for one hour, so if you use a hair dryer for an hour you have used a kilowatt-hour of electricity. (Hair dryers use an average of 1,000 watts.) Today that kilowatt-hour costs about 6¢—less than it cost in 1927! In those days, electricity was used for lighting only. Today electricity does many other tasks for you and saves you time . . . and that's money."

Diane Bin, Home Service Director, Amarillo

"Coal is decreasing the increase. Fuel is the biggest cost factor in your monthly electric bill and that cost would be much higher if Southwestern had not begun a move away from gas as fuel. Even figuring the costs of transportation, regulation and environmental protection, coal is still a less expensive fuel than gas. SPS was a 100% natural gas-fired system as recently as 1976. Now more than 40% of the electricity we generate is coal-fired, and by 1985 more than half will be by coal. In this way, SPS will be able to continue to 'decrease the increase' in your electric bill."

Erwin Glover, Industrial Services Engineer, Lubbock

"How a heat pump works? The heat pump does just what the name implies . . . it pumps heat into your home in winter and out in summer. The electric heat pump consumes less energy than any other electric heating and cooling system. There is warmth in the air in winter (even at 0 degrees F), and the heat pump squeezes out every bit of that warmth. Supplemental electric heaters are used in the heat pump for extremely cold temperatures, but in the generally mild temperatures of our service area, the heat pump simply takes advantage of mother nature. This means savings to you while you enjoy the clean comfort of electric heating or air conditioning."

Tommy Smith, Equipment Service Specialist, Roswell

## Steers Split Games With 3-Way, Sundown

by Doug Cole  
Farwell School Correspondent

In basketball action last week, Farwell Steers played a 1-1 split, losing to Three-Way on the road before coming back home for a victory over Sundown.

Tuesday night at Three-Way, the Steers fell behind by 10 in the first quarter, and played catch-up throughout the entire first half.

With 45 seconds left in the half, the Steers pulled to within one, at 33-32, but could not tie the score.

At 2:34 in the third quarter, Raymond Sierra's jump shot tied the contest at 44, but the

Steers were down by 3 after the completion of three periods of play by 47-44.

In fourth quarter action, the Steers tied the score once more, but could not take the lead as some late free throws gave Three-Way a 62-55 win.

Sierra played an outstanding game, and led the Steer attack with 14 points. Guards David Daniel and Alan Eubank added 11 and 8 markers, and Jay Anderson contributed 6.

Scoring 5 points was Manuel Cantu, while both Dennis Dollar and Claud Gobble earned 4 each. Jimmy Bernal contributed 2 free throw shots to the Steer cause.

Wednesday afternoon the Steers' lethal backcourt combination of Daniel and Eubank combined for 34 points to lead the Blue and White to a 63-54 victory over the Sundown Roughnecks.

Daniel, the game's high scorer, hit for 19 points, and Eubank tossed in 15 to complete the double-figure scoring for the Steers.

The Steers took charge midway through the first quarter, and never had their lead threatened as they were up 32-23 at the half.

Leading by as many as 14 points in the last half, the Steers fought back several comeback attempts by the Roughnecks, and scored an impressive 63-54 win.

Anderson scored 9 points in the victory, and Cantu added 3 field goals and a pair of free shots for a total of 8.

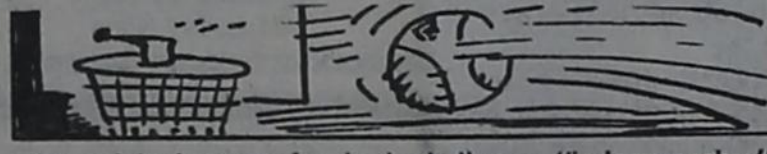

Postmen Gobble and Sierra added 6 and 5 points, and Dollar scored 1, as the Steers evened their season record at 3-3.

Up For Two

Varsity Steer Jay Anderson (43) bounces high for two points in last Wednesday afternoon's game against Sundown at Farwell. Claud Gobble (24) stands ready to rebound should the high jumping Anderson miss the bucket. Far-

well defeated the visiting Roughnecks 63-54. Anderson added 9 points in the game. The Steers will compete in the Anton tournament this weekend and on Tuesday will travel to Friona.

The original name for basketball was "indoor rugby."

## Steerettes Defeat 3-Way, Suffer Loss To Sundown

by Doug Cole  
Farwell School Correspondent

Farwell Steerette varsity girls basketball team kept their record at an even .500 for the season by winning one of two games last week.

The girls whipped hosting Three-Way 63-42 Tuesday night but dropped a hard fought 48-42 decision at home the next afternoon to Sundown.

Three-Way's girls opened up the scoring to take a 2-0 lead, but the Steerettes took charge and never trailed again in the contest.

Leading by 4 at the end of the first quarter, the Steerettes cruised to a 32-21 lead at the half.

After the second half opening tip the local girls reeled off 10 unanswered points and coasted to an easy 63-42 victory, their third of the season.

Ginger Ellison took scoring honors in the contest by tossing in 15 points, and was closely followed by Janene Berry who earned 13 markers in the game.

Guards Lezlie Castleberry and Kay Guether added 9 and 3 points while teammate Karen Magness shot for 6.

Jennifer Williams added 3 field goals and a free shot for a total of 7, and Suzahn Inman came off the bench to contribute 4 points. Donna Meeks, Sharon Kalbas and Kelly Davis added 2 points each to the Steerette cause.

At home Wednesday afternoon against the Sundown

Roughettes, the Steerettes fell behind by 17 late in the third quarter.

Despite a 16-point fourth quarter effort, the girls could not overcome the deficit and ended up on the short end of the final score of 48-42.

Again Ellison and Berry led the Steerettes in the scoring department pouring in 9 points

apiece. Castleberry, Meeks and Inman added 6 points each, while Kalbas, Magness and Guether, contributed 1, 2, and 3 points, respectively.

The girls are participating in the Anton tournament this weekend and on Tuesday will travel to Friona.

## Steerettes Take Victory Over Visiting Muleshoe

The varsity Steerettes led the entire game against the visiting Muleshoe girls, defeating them by a hefty 21 points, 70-49.

The Blue and White had a slim 3-point lead at the end of the first quarter, but by the half had leaped to a 14-point lead of 34-20.

Twenty more points in the third quarter kept the Steerettes ahead of the visiting team and another 16 in the final stanza of play clinched the victory.

Scoring for Farwell were Janene Berry, 18; Ginger Ellison, 17; Lezlie Castleberry, 15; Jennifer Williams, 6; Suzahn Inman, 5; Sandra Coates, 3; and Karen Magness, Donna Meeks and Kelly Davis, 2 points each.

Leading rebounder was Ellison with 10, followed by Williams with 9. Also rebounding were Berry and Meeks, 5 each; Magness and Inman, 4 each; Castleberry, 3;

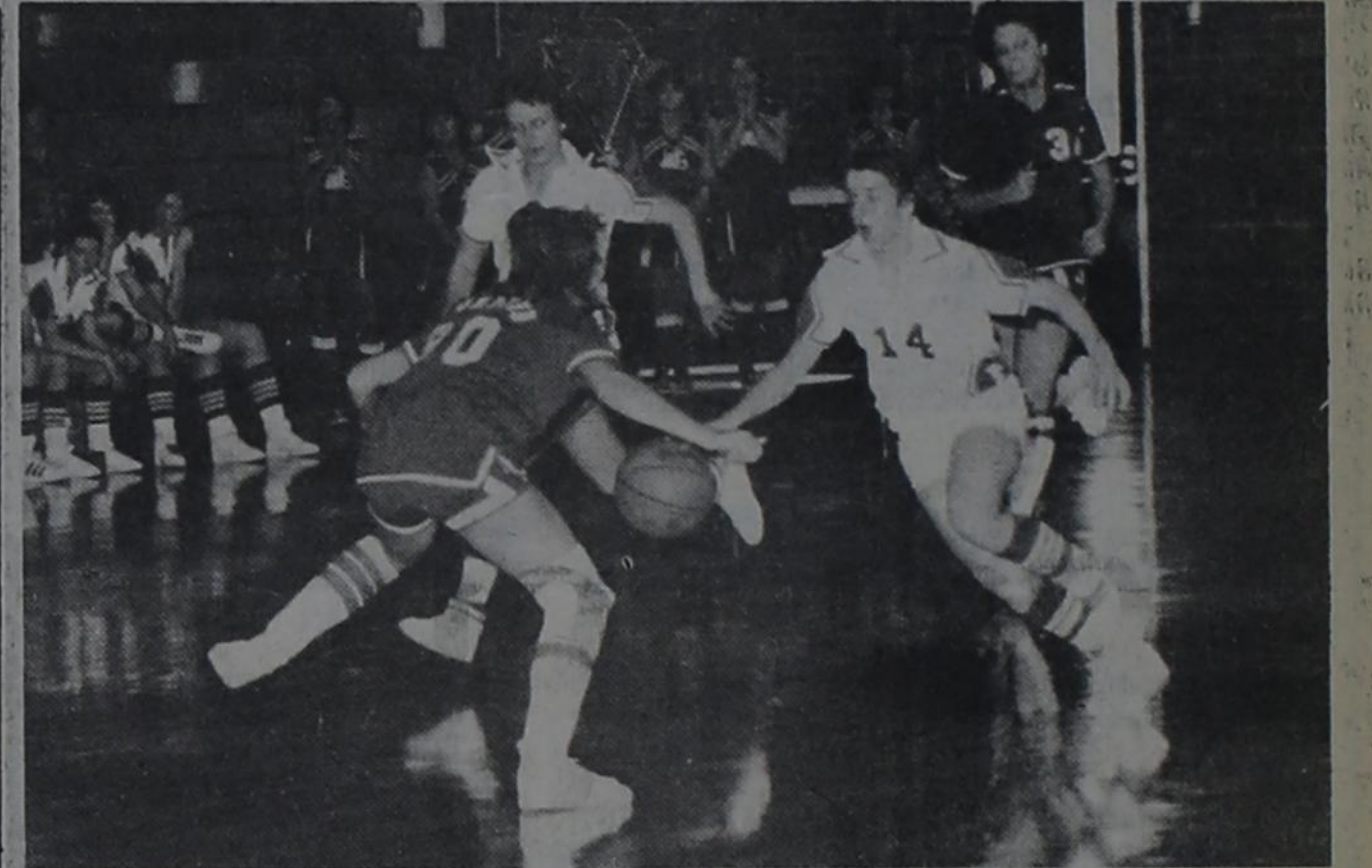

Kay Guether, 2; and Coates and Sharon Kalbas, 1 each.

"We're coming along at about the right pace," commented coach Vester Joiner following the game. "When district comes along we'll be there. Last year I think we peaked too soon. This year is coming along just right."

This weekend the girls will compete in the Anton Tournament, playing Anton JV first, and then hopefully, the Anton varsity, a team Joiner dubs as "pretty tough."

Tournament favorite is Lubbock Christian High School girls, according to Joiner.

On Tuesday, Dec. 8, the Steerettes will travel to Friona and Joiner says, "We will do to them what we did to Muleshoe." The varsity girls lost their season opener to Friona a few weeks back, but Joiner says, "We didn't shoot well that night, and our shooting has improved since then."

Move It Down Lezlie!

Steerette Lezlie Castleberry (14) moves the ball down court during last Wednesday afternoon's roundball clash with Sundown on the Farwell

courts. The Blue and White lost their bid against the visiting Sundown team, being defeated 48-42. Castleberry added 6 points to the Steerette cause.

This weekend the girls will participate in the Anton tournament and on Tuesday will travel to Friona.

### At Anton Tourney

Farwell varsity boys and girls basketball teams were to see first action in the Anton Invitational Tourney Thursday.

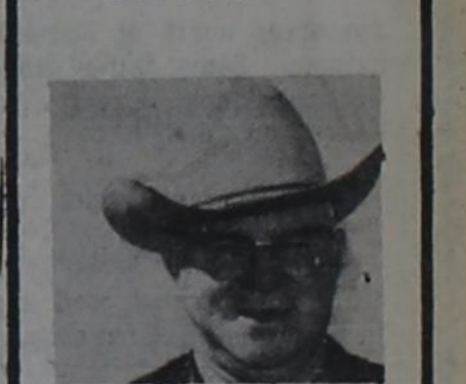

The girls were to begin play at 1 p.m. and the boys' game was scheduled to begin at 2:30.

Opponents for the Farwell teams were to be the Anton J.V. squads since their original competitors, Whitharral, had withdrawn from the event since their football team was involved in state playoffs.

The tourney will continue through Saturday at the Anton gym. All fans are encouraged to back the Blue and White at the games.

eyes and answers

Dear Dr. Petty: I am a low vision case and have read all your columns. The one on low vision really helped me. I finally found a doctor who fitted me with a low vision aid that let me get a job again.

this will be of interest to you. Statistics show there are about 390,000 low vision (vision not correctable by ordinary means) cases in Texas. Of that number, there may be as many as some 70,000 who, for one reason or another, could not be helped with a special low vision aid.

Some of these reasons are: advanced age, shaky hands and head, short attention span, impatience in learning to use the aid, chronic illness, cost, or lack of motivation. The remainder likely could receive varying

degrees of usable improvement in their vision.

Some people have special-use aids. I know one person who uses his aid only for signing checks and reading his company's financial summary every week. Another uses his aid to play a game he especially enjoys. Another uses his aid while watching performers in a play or speakers at civic clubs or political rallies, as well as watching television ball games. Others can even drive their cars with a telescopic aid.

You have received the most valuable benefit of all, a job. Being occupied productively, being of value to others, and receiving an

income is most gratifying, especially to a low vision patient.

TWO MINUTES WITH THE BIBLE
BY CORNELIUS R. STAM PRES. BEREAN BIBLE SOCIETY CHICAGO, ILLINOIS 60635
"JUSTIFIED WITHOUT A CAUSE"
God tells us in His Word that believers are "justified freely by His grace through the redemption that is in Christ Jesus" (Rom. 3:24). The word "freely," here, does not mean "without cost," but "without cause." The same original word is so translated in John 15:25, where we find the words of Christ: "They hated Me without a cause."
Thus sinners hated Christ "without a cause," yet God justified sinners "without a cause." How can this be? Let's see:
What had Christ done to earn the enmity of men? Nothing whatever. He had been kind and good, had helped those in distress, had healed their sick, had made the dumb to speak, the deaf to hear, the blind to see and the lame to leap for joy. Why, then, did they hate Him? The Bible says they hated Him "without a cause," i.e., without any cause in Him. The cause of their hatred lay in their own evil hearts.
But on the other hand, what have sinners done to merit justification before God? Again the answer is: Nothing whatever. They have broken His com-

## Winter Driving Takes Skill And Patience

"Driving on icy, snow covered, or wet roads takes skill and patience. Drivers need to adjust their driving habits to weather conditions and winterize their vehicles," said Major C.W. Bell, Regional Commander of the Texas Department of Public Safety.

Major Bell stated, "Many accidents and deaths are caused by driving too fast for existing conditions and losing control of the vehicle. Allow yourself more time to arrive at your destination since winter driving requires more following and stopping distance than normal driving. If a skid occurs, do not panic and hit your brakes, ease off the accelerator and turn into the skid. If the rear end skids right, turn wheels to the right; if the rear end skids left, turn the wheels to the left. Tap your brakes lightly, don't lock them."

Vehicles should be winterized by replacing worn windshield wiper blades, weak

batteries, tires with thin threads, and repairing malfunctioning heaters and leaks in exhaust systems.

Major Bell emphasized getting in a hurry will not get you to your destination any faster, but slowing down and taking your time will get you there safely.

Sharon was chosen to the monthly honor because "of the good quality of leadership she shows in the many organizations she belongs to and the many contributions she has made. # Bettie Martin Appearing In ENMU Opera Production

Bettie Martin, Texico, will perform the soprano role of Fiordiligi in the Eastern New

BETTIE MARTIN

Mexico University Music Theatre production of Mozart's comic opera, "Cosi fan tutte," which translated means "Women Are Like That".

Performances are Friday and Saturday at 8 p.m. MST and Sunday afternoon at 3 p.m. in the University Theatre, and the opera will be sung in English.

The wife of Texico farmer Greg Martin, Bettie has been involved in music since childhood, attending her first two and one-half years at ENMU on a voice scholarship.

In the spring of 1980 she had the lead in the University's opera production "The L'Exor D'Amore."

Her latest performance, "Cosi" is a spoof on the

sanctity of "true love" and female fidelity.

Sisters, Fiordiligi (played by Mrs. Martin) and Darabella, are the subjects of a ruse perpetrated by old Don Alfonso who has wagered with Guglielmo and Ferrando that their girlfriends are untrue to them. The men are "called off to war" only to return in disguise as "Albanians" to woo the women.

Between the disguise, a ridiculous mock suicide scene by the "Albanians" and the manipulations of the truth by Don Alfonso and his cohort Despina, the women's maid, the poor sisters do indeed fall for the handsome strangers.

In the final scene, when a double wedding ceremony is being prepared for the sisters and the "Albanians," the return of the original lovers is announced.

Don Alfonso, having proven that "Women Are Like That," wins the bet and reveals the disguises to the guilty women.

In the end all is forgiven, the lovers are reconciled and Don Alfonso reminds them to remember the lesson learned.

All Twin Cities residents are urged to attend the production. Reservations can be made at the Fine Arts Box Office or by calling 562-2710.

"Cosi fan tutte" is not a season ticket event and ticket prices are \$3 general admission, \$2 pre-college, \$1 ENMU student with ID.

Mrs. Martin is the daughter-in-law of Mr. and Mrs. Preston Martin of Farwell.

## USDA Warns Consumers On Chicken Broth Product

Consumers should not eat chicken broth from 13 1/2 oz. cans produced by Sweet Sue Kitchens, Inc., Athens, Ala., with the production code 1B084 and the plant code P-732 on the label, a U.S. Department of Agriculture official said this week.

Laboratory tests indicate that some product might contain C. botulinum Type A, which produces a deadly toxin, said Donald L. Houston, administrator of USDA's Food Safety and Inspection Service.

Consumers should destroy the cans or return them to the store where they bought them,

Houston said. "Sweet Sue Kitchens has directed its distributors to locate and return all product with code 1B084 to the plant," Houston said. "There have been no illnesses reported as a result of people eating the product."
